

TWENTY-FIVE CENTS A MONTH—12 PAGES

CALGARY, MONDAY, AUGUST 5, 1912.

Harold Lawson, Murderer of Roy Blair in Custody for Almost Week; Vancouver Detective, Passenger on the Train, Caught Him on Night of Murder; Said Nothing

VANCOUVER, B. C., Aug. 4.—With one dangerous prisoner in hand, Detective John O'Grady of the local police department, captured Harold Lawson, one of the men who shot and killed Roy Blair, a Canadian Pacific railway brakeman, at Morley, Alta., and turned his prisoner over to the Royal Northwest Mounted police at Canmore. Although this occurred last night, the modest detective had mentioned nothing about his arrest and it was only after his report had been sent and dispatched to hand, received from Winnipeg that his remarkable capture became known.

On the imperial limited while en route to this city from Montreal, Brakeman Blair discovered two hoboes hiding on top of a car and ordered them to get off. The men paid no attention and upon his approaching, the shorter suddenly fired at close range, the bullet penetrating the unfortunate man's stomach, the victim dying shortly afterward. Both men then made off.

O'Grady handcuffed his prisoner, Dumera Cresto, who is wanted here on a murder charge, to a car seat, and went in search of the brakeman's murderer.

He discovered Lawson hiding behind a water tank. Commanding him to throw up his hands, O'Grady approached the man and took his gun away, and conveying him back to the train, handcuffed him over to the R. N. W. M. P. on his arrival at Canmore.

At the present time a posse are scouring the hills adjacent to Morley for any trace of Lawson's partner.

SAMPLE GRAIN MARKET IMPROBABLE UNTIL NEXT YEAR, SAYS E. J. FREAM

Newspaper Report is to the Effect That Dominion Act is to Become Law

Farmers of Opinion That Sample Markets and Government Elevators Go Together

Law Passed Last Winter Provides for Markets in Calgary, Winnipeg and Ft. William

Fream Says it is Too Late This Year to Attempt to Accomplish Anything

That there is no possibility of a sample grain market being established at Winnipeg until at least September, 1913, is the statement of Secretary E. J. Fream, of the United Farmers of Alberta with reference to a newspaper report from the Manitoba metropolis that a movement is on foot to establish the market there this year. Under the Dominion act, such sample markets were to be established at Fort William, Winnipeg, and Calgary. The United Farmers opposed the passage of the act on the theory that to be a success, such sample markets would have to be operated in connection with elevators owned absolutely by the government.

The United Farmers, however, have taken no position for or against the operation of the plan, and at the present time officials are gathering information and waiting to see how it works out.

Impossible Until 1913.

"It would be impossible for the sample grain market to be established at Winnipeg this year," said Secretary Fream last night, "for the reason that it is now too late in the season. To establish a market would require three or four weeks of preliminary work by that time the railroads will be moving the grain. There must be some other place."

DOMINION LOOKS GOOD AFTER 5,500 MILE TRIP THROUGH STATES

Deputy Minister of Agriculture George Harcourt Visits Many American Governors

Floods Much Interest in Coming Dry Farming Congress at Lethbridge, Oct. 21-26

Secretary of U. S. Agriculture and James J. Hill Will Attend Sessions

Mr. Harcourt Glad to Get Back to Pleasant Canada After Enduring Hot Weather

Returning from a trip of 5,518 miles through the United States, 437 of which he covered in an automobile, George Harcourt, Deputy Minister of Agriculture, of Alberta, arrived Saturday in Calgary convinced that to appreciate the tremendous growth, possibilities, and pleasures of Canada it is necessary to get a little distance off, and take a bird's-eye view, as it were.

"I am glad to get back home again," said the minister, "despite the hospitality with which I was received on the other side. After seeing so much sage brush, cactus, and mountainous rough land, it is a pleasure to gaze once more on our fertile prairies."

To appreciate Mr. Harcourt's remarks it should be remembered that he traveled through the states of Washington, Idaho, Wyoming, Utah, Nebraska, Colorado, Kansas and Montana in the interests of the great dry farming congress to be held next October 21 to 26, at Lethbridge. Incidentally, Mr. Harcourt called on the governor of each state by whom he was cordially received, and who assured him that they would try to attend the congress in person.

Finds Weather Very Hot.

The minister spent four weeks on the trip, and encountered much hot weather. At Kansas City the thermometer registered 98 in the shade, which was the annual rainfall over the entire trip, and the atmospheric conditions were most uncomfortable.

"At Omaha," said Mr. Harcourt, "the temperature was 105, with a wind blowing like a blast from a furnace, and at Lincoln, Nebraska, the thermometer registered 102 while I was there. I certainly do not get back to our temperate sunshine and cool nights."

Mr. Harcourt says that the forthcoming session of the Dry Farming Congress will be the most important in the history of the United States. Among the notable men expected to attend from the United States will be the veteran railway builder, James J. Hill, and Secretary of Agriculture, of the United States Department of Agriculture, Dr. Liberty H. Bailey, the dean of agriculture of the Cornell University, and other prominent visitors from the States, together with numerous other agricultural experts, and the governors of many of the states visited by Mr. Harcourt.

Many Exhibits Provided For.

"The United States will send up many exhibits to the Lethbridge Dry Farming convention," said Deputy Minister Harcourt, "and the government delegations, as there is keen interest in this method of farming, which produces such remarkable results in districts where the annual rainfall does not exceed from 12 to 20 inches."

Mr. Harcourt visited the United States Agricultural Colleges and experiment stations at Pullman, Moscow, Idaho; Laramie, Wyo.; North Platte and Lincoln, Neb.; Manhattan Agricultural College, Manhattan, Kan.; and the Agricultural College at Bozeman, Mont.

The minister is much impressed with the value of the work done by the agricultural colleges, and is anxious to see it started in Alberta as early as possible. He pointed out, however, that much good along these lines is being accomplished by the present time in this province. At the present time, the provincial department.

Teddy's "Confession of Faith" Must be Accepted As a Whole by Progressives If He is to Lead Party; Bolt From G.O.P. Was For Principle; No Compromise Now

Albany, N. Y., Aug. 4.—The national progressive party must accept Col. Roosevelt's political doctrines if he is to be its standard bearer. He said tonight, on his way to Chicago, that he would insist upon making his "confession of faith" to the delegates before the committee which is to draw the platform, which is his final report and that he would not accept the nomination on a platform which did not meet with his approval.

Col. Roosevelt's speech was originally scheduled for Monday night. It was suggested to him that the time of its delivery be postponed and he sent word to his managers that he would not consent to a delay until after the draft of the platform had been presented to the convention. Advance copies of the speech reached the leaders of the new party several days ago. The colonel said nothing, however, to indicate that the suggestion for a delay in the delivery of the speech was due to the impression of those who had read it.

Col. Roosevelt contends that it was upon a question of principle that he left the republican party, and now that he has done so, he cannot make a compromise of principle in accepting the leadership of the new movement.

His declaration of political faith, he says, is one which will be termed either socialism or anarchism, or both, but represents his convictions.

He goes to Chicago to make these views known and to receive the presidential nomination only if they are accepted in the substantial provisions to the new party.

Col. Roosevelt left Oyster Bay early in the afternoon by automobile for New York, where at 4 o'clock he took a train which is due in Chicago early in the morning. He was accompanied only by Mrs. Roosevelt and his secretary.

GUARD ON BECKER TO FOIL RUMORED SUICIDE ATTEMPT; PRISONER LAUGHS AT PRECAUTIONS

That Everyone Who Aids Authorities in Uncovering Graft or in Prosecuting Rosenthal Murderers Will be Marked for Death, is Believed; One Has Already Paid Penalty

NEW YORK, Aug. 4.—Police Lieutenant Charles Becker indicted for the murder of Gambler Herman Rosenthal, is under constant espionage in his cell. Wardman Hanley of the Tombs has posted a guard where he can observe his every movement.

In addition, all who visit Becker, his lawyer, and even his wife, are searched before they are permitted to approach the central figure in New York's worst scandal.

Hanley said that while he personally did not put any stock in rumors that Becker might commit suicide, he did not "intend to give any chances." Becker laughed at the precautions, retorted his protestations of innocence, and declared he would be able to prove that the case against him was a "gamblers' frame-up" ahead his trial was reached.

Expect Hard Fight to Convict Accused.

District Attorney Whitman indicated by his manner today that he realized he would have a hard time convicting Becker on the evidence now at hand. The testimony of Rose, Vallon and Webber is admittedly worthless unless corroborated from an independent source. Whitman hopes that through Mrs. Rosenthal and others, he can show a motive, and thus establish the connection which would make the story material and eligible in open court.

It can be proved that Becker intended the murder of Herman Rosenthal, said Whitman, "I cannot allow him to turn state's evidence just to turn up police graft. But you must remember that we presume Becker to be innocent until he is proved guilty."

Whitman made it very plain today that he did not believe the three professors had told all, or nearly all, that they know. He also said that William Shapiro, who drove the murder car, had been too close mouthed for one seeking clemency.

On the Grill Again.

Whitman believes that while driving toward his gangsters all about town the night of the murder, Shapiro heard the mere killing discussed down to the minutest details.

"The mere who 'equals' or aids the authorities in any way in uncovering the trail of graft, between the police and the underworld, will be marked for death," was the firm belief of many interested in the State's great scandal today.

Marked for Death.

The belief was emphasized by the State declaration that James Verrilla, proprietor of the Dante cafe, at 163 West 34th street, killed in a fight in the city Tuesday, was murdered because he betrayed "Dago Frank" Crofts to the police.

Crofts is alleged to be one of the main murderers of Herman Rosenthal. He used the Dante cafe, resort in the wide light district, as a hangout place for the killing. Verrilla frequently financed him money, and it is alleged that information he gave to the police was the direct cause of the arrest of the accused slayer.

WEATHER OF THE WEST COOL AND SHOWERY

City	Min.	Max.
Calgary, cloudy	40	60
Port Arthur, fair	44	64

Manitoba and Saskatchewan unsettled and cool, with showers and local thunderstorms.

Alberta—Cool and showery.

PLAN REORGANIZATION OF THE MUNICIPAL PARKS BOARD NOT DISMEMBERMENT

Council Will be Asked Instead of Abolishing Board to Appoint New One

H. E. Lambert Will Offer New Scheme of Civic Bodies to the Aldermen

Members Would be Independent of Commissioners, But Latter to Control Funds

Responsibility for Planning On Board; For Finances, On the Commissioners

A plan for the re-organization of the parks board, instead of its dismemberment and transfer of powers to the city commissioners, will be offered to the city council tonight, H. E. Lambert, on behalf of the Calgary Horticultural Society and the Town Planning Commission, will urge that instead of abolishing the board, the council organize a new one.

In brief, the tentative plan has the following points:

The mayor to appoint members of the parks board, entirely independent and apart from the city commissioners.

The city commissioners, to act only in an advisory capacity, but to have full charge of the expenditure of all funds.

In other words, the parks board is to originate all legislation looking to the planning and beautifying of the parks, and accept all the responsibility for this work. It is based on the theory that men who are best qualified for this work, having the interests of the city at heart, willing to do the work merely for the love of it, cannot be expected to devote to the business details of administration.

Commissioners to Handle Money.

These affairs are to be left to the city commissioners, such as the power to employ or discharge the superintendent and all park employees, and to have charge of the expenditure of all funds involving park improvement. Thus the financial responsibility would rest solely upon the commissioners.

Briefly, the parks board under this plan would hold relations to the city commissioners quite similar to that the commissioners hold to the council.

It is success would be dependent upon the kind of men appointed to membership upon it. In view of this fact, the mayor would be asked to consult with committees from the

(Continued on Page 5)

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: A large advertising agency opens a branch office in Calgary to handle a large volume of business in western Canada.

In Edmonton: Port office receipts for July were \$13,800. Last July they were \$10,200, an increase of 35 per cent. The number of passengers carried on the street railway during July were 1,947,000 against 1,749,000 last year. Home-made entries in July numbered 651.

In Winnipeg: The commissioner of immigration, after an extensive tour, states the crop will beat the best previous record by 10,000,000 bushels. Special committee of twenty-five wealthy Iowa farmers passed through Winnipeg en route to Alberta, to represent one of the largest farmers' organizations in the United States. Large machinery companies report an unprecedented demand for binders and threshing machinery for the Western Canadian harvest. All the companies are working at full capacity.

In Vancouver: Six thousands electrical horsepower has been developed in the Comox district. Grand Forks, B. C. is building a \$17,000 schoolhouse. Railway development in Grand Forks involves a total expenditure of \$180,000.

PARLIAMENT SESSION MAY BE HELD AWAY FROM OTTAWA, OWING TO TYPHOID EPIDEMIC

Round Robin Signed by Influential Members Asking Government to Make Such Arrangement as Protection to Members and Families

OTTAWA, Aug. 4.—The Ottawa Journal declares that a movement is on foot amongst a number of influential members to ask the government to hold parliament in some other city than Ottawa this winter, owing to the typhoid epidemic which is spreading in the city. The Journal says that a round robin is being circulated at the present time. The Journal quotes a member of the house, without giving his name, as follows:

"A number of members have been in communication with each other, and it has been practically decided that in the event of the present epidemic being unchecked, we will when parliament opens here this fall, move its adjournment and agitate for a session in some other city, perhaps Toronto."

EXPENSES OF PROBERS WILL BE ORDERED PAID BY THE COUNCIL

Unless Unforeseen Developments Ensnare, Investigators' Claims Will be Approved

Aldermen Who Wanted to Smell Out Extravagances in Report Are Inactive

Water Bylaw Voted Down Last Week by Default Again Before Aldermen

Bylaw for Reorganization of the Waterworks Department Will Also be Presented

The expense account of the investigation committee, totalling some \$1,900, will be passed tonight by the council, unless there are unexpected developments. Members of the city council, who had the expense account laid over two weeks for the purpose of smelling out possible extravagance, have done little in the matter. Though two weeks have elapsed, nothing startling has been sprung on the public as undoubtedly would have been the case had those opposing the report of the committee been able to discover any irregularities.

"I have been so busy during the past two weeks as chairman of the reception committee for the Duke and Duchess of Connaught," said Alderman Whaley, one of those who voted to lay the expense account over, "that I have had little time to look into it. I suppose we will have to pay it."

"The only reason I objected was because I thought it a little high to pay to these investigating experts whom nobody seems to know. If they had done the work of analyzing the concrete themselves, I think they would have been so much, but it seems to me that when they had the samples sent away to be analyzed, about all they did was to draw up the report. I don't know that they are qualified engineers."

Judicial investigation?—Perhaps, —Alderman Minchin, who moved to lay the report over for two weeks, could not be reached last night. It has been reported that Minchin would prefer to take some steps to ask for a judicial investigation of the questions on which the investigation committee

REAR END COLLISION; ONE KILLED; TWO INJURED

Occurred on Montreal-Toronto Line; One Freight Pitched Into Another

The Train-Dispatcher Boarded Standing Train Just Before Crash and Was Injured

Smith's Falls, Ont., Aug. 4.—Engineer Joseph Muldoon was almost instantly killed, Fireman T. L. Keefe lost his leg broken and Train Dispatcher W. J. McCulloch sustained serious injuries in a rear-end collision on the C. P. R. Montreal-Toronto line at Tweed, early this morning.

Muldoon and Keefe were on the engine of an eastbound freight which ran into another freight standing on the main line at Tweed.

McCulloch had just left his work at the block and boarded the standing train.

Twelve cars were demolished and the engine of the eastbound freight was badly smashed. Engineer Muldoon is from Smith's Falls and Fireman Keefe from Havelock. An investigation is being held into the cause of the wreck.

INTIMATED JUDICIARY IS IMPLICATED IN HUGE NEW YORK GRAFT

Police Commissioner Waldo Gives Out Strong Statement Re Gotham's Scandal

Says Gambling Can Only Exist Because Gamblers Get Protection by Dividing Receipts

Detectives Close on Heels of Two Remaining Murderers; Becker to be Arraigned

NEW YORK, Aug. 4.—Police Commissioner Waldo tonight gave out his first formal statement relative to the Rosenthal case. The commissioner made a thorough and positive investigation of the charges of co-operation between the police and gamblers. At the same time he aimed a blow straight from the shoulder at the judiciary, declaring that gambling can exist only because the gamblers can obtain what amounts to protection by dividing receipts.

While the issuance of this statement was the most important development today, it was reported at police headquarters that detectives were close upon the trail of "Lefty" Louie and "Gyp the Blood" Horowitz, the two remaining men sought by the police in connection with the murder. Inspector Hughes spent his third day in personal

(Continued on Page 5)

SUGGESTS LODGING OF VISITORS IN THE ART AND EXHIBITION BUILDINGS

Hundreds Apt to Go Away With Hurtful Reports of Bad Sleeping Conditions

Overflow Might be Cared For With 2,000 Cots in Unused Exhibition Buildings

Tents of Militia Also Could be Requisitioned in Case of an Emergency

UNLESS the citizens and municipal officials of Calgary proceed to "get busy" immediately hundreds of visitors to the city during Stampede week are apt to go away with hurtful reports of lack of accommodation, is the warning of Alderman R. S. Whaley, chairman of the reception committee for the Duke and Duchess of Connaught. Among other suggestions, Alderman Whaley points out that the city or Stampede officials might take steps to secure the Exhibition building and Arts building on the exhibition grounds as temporary sleeping quarters for housing the overflow of visitors certain to come. Tents belonging to the militia also could be utilized for the purpose if conditions became acute.

Alderman Whaley is visibly worried by the apparent lack of interest of the public and city officials in this most important question—the proper accommodation of the thousands of visitors from all parts of the continent.

Predicts Great Crowds.

"The biggest crowds in the history of Calgary will be here during Stampede week," said Alderman Whaley. "The presence of the Duke and Duchess of Connaught alone will draw thousands of visitors here from all parts of the province. Furthermore, the Stampede has been advertised as nothing else before in the history of the city and there will be visitors here from all parts of the American continent."

"I feel sure that the people of Calgary do not yet realize just what that great crowds will come and the time is now growing very short to prepare for

BIG MOOSE PARTY HAVING HARD TIME GETTING ORGANIZED

Provisional National Committee of Roosevelt Progressives in Trouble Over Delegates

Whites and Blacks From Florida Lock Horns Over Right to Sit in Convention

Negroes—Excluded, make Stubborn Fight for Admission; Meeting Finally Adjourns

CHICAGO, Aug. 3.—A troublesome world confronted the newborn progressive party tonight at the end of its first day of political responsibility. After an almost continuous session that lasted from noon today until nearly midnight, the provisional national committee of the new party adjourned weary and worn, until 9 a. m. Monday.

In the long session, the committee had heard arguments on three contested seats in the convention and had decided one. In that one, twelve negroes contesting the seats of twelve white delegates from Alabama, were ruled out.

A bitter dispute over the negro-white delegate question in the state of Florida was the cause of the late adjournment after animated argument that several times forced the committee to turn out the contestants and go into legislative sessions that were fraught with wordy battles. The committee several times barred the door and went into star chamber session, while a few dejected negro contestants and weary newspaper men waited in the corridor outside the committee room.

The Florida contest resulted from the sending of separate delegations by white and negro conventions. The former sent Wm. McCallister, Walter five negroes and a white man. The negro delegates claimed that H. L. Anderson, provisional national committee man for Florida, had written that they hold the separate conventions, and produced documents purporting to prove it. Anderson, admitting that he had done so, defended the action by saying:

"By no other course can success be secured in Florida. White men will not follow negro political leaders."

This statement aroused considerable opposition among northern members of the committee, and the argument proceeded to the session. An attempt was made to take some steps to ask for a judicial investigation of the questions on which the investigation committee

(Continued on Page 5)

LARGE CATTLE SHIPMENTS REACH ALBERTA

Several Trainloads of Livestock Pass Through This City En Route North

Herds From Eastern Canada Farms Being Transferred to Alberta

Several trainloads of cattle passed through Calgary during the past few days en route to northern Alberta points for distribution on various ranches. This is in line with the policy of the Dominion government to have cattle shipped to the western provinces from the eastern ranges with a view of strengthening the live stock industry in the northwest.

Alberta has excellent ranges and the attention of many of the largest cattle raisers in Canada and the United States has been attracted to this province. The proximity to active markets and the excellent railroad facilities appeal strongly to the stockmen, and new herds are being shipped here regularly.

Sheep raising in Alberta has also come into favor recently. Less than a month ago three extensive wool growers from Argentine Republic came to Calgary and shortly afterwards purchased about 3,000 acres of grazing and hay land in the Canadian Pacific's central irrigation block. They will import several thousand head of sheep before the snow-falls.

NEW INTERNAL REVENUE OFFICIALS APPOINTED

Edmonton, Aug. 4.—Wm. Richardson, of Edmonton, has been appointed deputy collector of inland revenue (class B) in the Calgary inland revenue division.

Peter Joseph Pagan, of Winnipeg, has been appointed third class excise officer on probation in the Winnipeg division from July 1.

Roy Stewart, of Victoria, B.C., has received a similar appointment in the Victoria division.

CALGARY'S FIFTH ANNUAL HORTICULTURAL EXHIBIT

Calgary's fifth annual horticultural exhibition will be held this year at the Exhibition Hall on the afternoon and evening of August 14. Mayor Mitchell has appointed the afternoon of this date as a holiday, and the majority of business hours in the city will be closed in order that the public may have an opportunity of viewing the exhibition.

Director H. E. Lambert, who has been active in arranging the details of the big show, stated last evening that the display this year will outclass any ever shown here before. Fruits, flowers and plants of various descriptions, the best that have been grown in the world around Calgary this year, will be on display.

Pages Hall was chosen as the exhibition place on account of its central location. The hall will be elaborately decorated on the occasion, and there will be music in the afternoon and evening.

The exhibition is held under the auspices of the Calgary Horticultural Society, of which Sidney Munton is president, and W. R. Reader secretary. The society has offered \$2,000 for the exhibits.

Occurred on Montreal-Toronto Line; One Freight Pitched Into Another

The Train-Dispatcher Boarded Standing Train Just Before Crash and Was Injured

Smith's Falls, Ont., Aug. 4.—Engineer Joseph Muldoon was almost instantly killed, Fireman T. L. Keefe lost his leg broken and Train Dispatcher W. J. McCulloch sustained serious injuries in a rear-end collision on the C. P. R. Montreal-Toronto line at Tweed, early this morning.

Muldoon and Keefe were on the engine of an eastbound freight which ran into another freight standing on the main line at Tweed.

McCulloch had just left his work at the block and boarded the standing train.

Twelve cars were demolished and the engine of the eastbound freight was badly smashed. Engineer Muldoon is from Smith's Falls and Fireman Keefe from Havelock. An investigation is being held into the cause of the wreck.

REAR END COLLISION; ONE KILLED; TWO INJURED

LIFE IS NOT IDEAL IN THE PROVINCIAL JAIL, BUT THE PRISONERS ARE TREATED LIKE THE BROTHERS WHO HAVE ERRED

In July of 1911 the provincial jail at Lethbridge was opened for service, with 99 sunlit steel and concrete cells ready and waiting for twenty-three months. Hon. A. J. McLean, provincial secretary of Alberta, is the controlling spirit of the institution, and Dr. J. H. Rivers, warden of the jail, is the man who carries out Mr. McLean's ideas. And Mr. McLean's ideas are strange insofar as they embrace so much of the spirit of brotherly love and the golden rule that hardened jailkeepers laugh in scorn and predict utter failure. In fact, Mr. McLean and Dr. Rivers have instituted a process of treatment for convicted men which is so new that it is in the nature of a wild experiment. It is to treat them like white men and erring brothers, not like wild animals. They are well fed; they are given a remarkable scope of liberty; they are treated with kindness and fairness.

We went to look at it and I saw many interesting things. The buildings, red brick and iron-barred are situated four miles outside of Lethbridge on a government plot of 240 acres of well-tilled farm lands. We went into the bursar's office and I saw a man doing clerical work, a man dressed in blue jeans.

"What's he in for?" I asked. "He's a real estate man from Edmonton," explained the warden. I asked no more.

We went through wide, airy, sunlit corridors and iron gates into the jail store-room where a prisoner was in charge of the grocery department. We went through other corridors into the kitchen where prisoners do most of the great range. It was clean and fresh, and the equipment was that of a great hotel. We went to the power-house, a separate building with a huge red finger of a smokestack pointing heavenward. Here, too, everything was bright and clean and spick and span, convicts oiled and wiped, and watched the dynamo, a paid superintendent overseeing the work. Then I saw the laundry plant, a complete steam laundry, with mangles and rollers, tubs and vats, ironing machines and all. Here the prisoners' clothing is washed every week and each inmate is given an entire clean outfit every seven days. We went back into the dormitories where the cell-tiers reach up to the roof and the sun streams in through wide windows. Ninety-nine cells are there and the institution has 135 prisoners. Consequently there is much lack of room and the government is going to add another wing with more cells; in the interim it is necessary to fill the women's quarters with cots for the overflow. Three rooms, each containing twelve cots are in there, and even the guards' room is utilized. There are no women prisoners and will not be until the new wing is built. The cells are steel and concrete, each is fitted up with a cot and blankets, a washstand with hot and cold running water, a lavatory, a towel cabinet with brush and comb and mirror, a bible—and a man. The Bibles are the gift of the young ladies of the Methodist Church and they have marked in the front references to three extracts, including the chapter about the Prodigal Son. Uniformed guards were stationed here and there in the corridors; sometimes I saw men in the blue prison uniform lying on the cots in their open cells, reading late magazines.

"What are they staying in for?" I asked. "They were not feeling well this morning," replied the warden, "so we let them stay in their cells."

I saw a nice-looking young man lying on a cot, head bolstered with a pillow, knees in the air and a magazine spread across them. "Who is he?" I asked.

"That is a qualified M. D. who is doing time for being a dope fiend," explained the warden. Next we came to a wooden partition extending clear across one end of the corridor.

"In here," said Dr. Rivers, "we have a self-confessed murderer named Carlson. He is waiting trial and we have a special guard over him all the time." So we went in and looked at the man who had confessed to slaying a sleeping friend with an axe in a lonely shack on a homestead in the flat country. Carlson was short and frail, with sagging shoulders, his face was as handsome as a Greek god's, he had crisp curling beard and great, misery-dazed brown eyes. Seeing Dr. Rivers, he approached, mumbling something. He was complaining that he thought he was being poisoned, and he asked if he could have pork chops instead of beef. Dr. Rivers asked a few questions, looked at his tongue, felt his pulse and went to the dispensary where he prepared a prescription for the man. There was no careless passing over, or no indifference to the needs of the man.

Over at the end of the other corridor was the barber shop where many prisoners were scraping the growth from their chins, preparing for Sunday. Two or three were attired in stripes, the others in blue jeans.

"Why the stripes?" I queried. "They tried to escape, and that is their punishment," was the information given. From the dormitories we went upstairs to the guards' room where a convict cobbler was tap-tap-tapping beside a cot where the night guard was sleeping. The jail was certainly overcrowded.

Out in the sunshine Head Jailer Rogers was overseeing the work of the men, a gang under a guard was at work rip-rapping the shores of a lake near the road, a gang under a hired carpenter was building a drive-shed, Felix Bruno and the Paul boys, Calgary citizens of note among the halfbreed population, were digging. No one was on guard and they were working hard. Three tri mbrick houses where the prison officials live stood in a row behind the power plant; they had been built by prison labor, as also Dr. Rivers' residence, which is in course of construction. A man driving a splendid team, came up with a load of material which he had hauled some miles. No guard was with him, but he wore the prison uniform.

"Is he a prisoner?" I asked. I was told he was, and he cheerfully stopped to be photographed.

Hon. A. J. McLean is only just getting started in his work. When it is running right, as he hopes, it will be a model institution. He believes much crime is due to the fact that in most cases when a prisoner is turned out after serving his sentence he has no money and no place to go to. This leads him naturally back to his old haunts, which is in course of construction. A man driving a splendid team, came up with a load of material which he had hauled some miles. No guard was with him, but he wore the prison uniform.

"Then also, he believes that many young first-termers are ruined irrevocably by being forced to serve with hardened criminals. To overcome this he intends securing a farm a few miles from the present jail where only first term prisoners will be kept. In this way he will be able to have stricter watch kept over the real bad men and a more lenient care of the erring ones. As at present the incorrigible ones benefit because they are imprisoned in company with first term men, and the latter suffer because they have to be herded with the real criminals. Separation of the two classes will help this state of affairs very much.

Already Mr. McLean's plan of treating convicts as men has born fruit. One nasty-spirited convict pleaded sick and remained in his cell, a guard brought him his meal, and when the guard stepped into the cell he was met with a punch on the eye. Several prisoners who saw the occurrence asked the prison authorities that the guilty man be turned over to them for punishment.

"We'd like to teach him a lesson," they said. "For when a man acts as he did he is hurting every other prisoner and endangering their privileges."

And here is another instance: A man was sentenced last fall, just before the cold spell. He had a homestead and a family some miles away and the shack in which they lived was not fixed up right for winter weather. So he asked for permission to go and do some work before starting. He was given a set period and was allowed to leave, with orders to return by a certain day. When that day came the thermometer was something like fifty degrees below zero; and yet that man walked back to jail through thirty miles of bitter weather. That's what one sometimes gets for treating a man white.

Twelve guards keep watch over the 135 prisoners and up to the establishment. From last July to April of this year those men had watched over hundreds of criminals with no means of self protection if there should be trouble. But on April 1st there arrived a shipment of cuffs, of irons and of Colt revolvers. Also in the future the men who try to run away will be granted the privilege of wearing an Oregon boot. This is an improvement on the old style ball and chain, being an iron frame that fits over the foot and supports around the calf of the leg a heavy steel circle which is locked there and which makes haste or speed an unknown or unattainable state of affairs.

Much of the credit of the intelligent carrying out of Mr. Mc-

MILLINERY DEPARTMENT

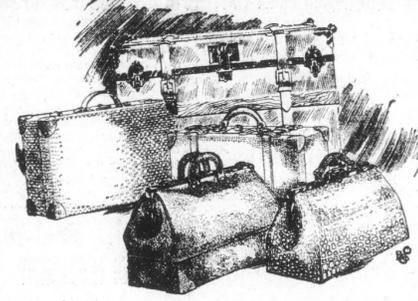

A visit to this department will do more than all the advertising in the world; there are styles that should satisfy the most fastidious and prices that will suit all pockets.

\$20 Men's Suits Monday Only \$12.97

Where could you buy suits like these for so low a price? It is not only the price that is the attraction, for they are so smartly made, and of such good quality fabrics that on that score alone they would appeal to you—there can be no reservations, they must be sold, therefore we must reduce them as low as we can.

Made of English worsted and tweeds, in the latest three button saque style with No. 1 quality trimming, fit and finish to give full satisfaction or money refunded, originally marked at \$20.00 Monday to clear at \$12.97 each.

Great Sale of Trunks, Suitcases and Club Bags at a Discount of 33 1/3

"Pryjo" baggage has a good reputation, if you require a bag or fitted suitcase to present to a friend or for yourself now is the time to take full advantage of our special offer, note discount 33 1-3 off.

Ladies' Underwear

Ladies' mercerized lisle thread combinations, plain yoke, low neck, no sleeves, tight knee \$2.00 Same make, high neck, short sleeves, tight knee \$2.50 Spun silk combinations, fine quality, plain yoke, low neck, short sleeves, or high neck, short sleeves \$5.00

Fancy Drapery Departments

That automobile ride would be much more enjoyable if you protect hair and head from dust. We have several specially made veils which accomplish this, a variety of colors and most moderate prices.

Crystalline head scarf, wide enough to wrap round the entire head, hem-stitched ends in all colors \$50c Crystalline made up auto veil, gathered at the top, in all the best shades, these are most satisfactory in use. Auto veil or hood made with velvet band front, a most efficient protection from dust and singularly becoming \$1.25

Gloves of Special Value

Ladies' gloves for vacation time. For country use or variable weather nothing can be nicer than our real tappa gloves, tan only, very soft and comfortable. Special price \$1.10 For ladies who golf we recommend our special chamois glove; this prevents chafing and gives a good grip, special quality is embodied in this glove for pr. \$1 For evening wear we offer our 23 inch "Pryjo Special" kid, white, black, sky, pink, champagne, at \$2.65

HARBOR BOARD DEFIED; PRESIDENT WROTH

Says Masters May Tell Commission to Go to Place Paved With Good Intentions

Vessel Speeding Through Montreal Harbor Did Damage, But There is No Recourse

Montreal, Aug. 5.—The charge of over-speeding while entering the harbor, preferred against the White Star liner Megantic, which is alleged to have done damage to the Monarch through the suction caused by its excessive speed, had to be dismissed today when it came up before the harbor commissioners, sitting in their judicial capacity, as it was shown that they had no jurisdiction within the limits of the harbor over the main ship canal, up which the Megantic was proceeding.

President Stephens of the harbor commission was not at all pleased at the turn of events and at one time broke out, "If everyone is to get behind a technically they can tell the commission to go to hell and do what they damned well please in the channel."

It is alleged that the suction from the Megantic caused great damage to the Monarch, which was lying moored to Turle pier, breaking ropes, bits and landing stages for cargo and an 18-inch ventilating shaft, as well as damaging pierheads and other fixtures on the Turle pier.

When it was shown that the commissioners had no jurisdiction, it was suggested that a friendly inquiry be held to ascertain the facts, but the Elder Dempster Company, owners of the vessel, declined to do so, and the proper authorities to whom to present their case.

WOODROW WILSON ASKS BUT ONE TEAM FOR PRESIDENT

Democratic Nominee Outlines His Campaign Platform in Recent Speech

Tariff for Revenue Only and No Mercy for Guilty Heads of Corporations

Seagirt, N. J., Aug. 5.—Tariff for revenue only; no third and no second term for a president, and personal guilt for corporation officials who violate the anti-trust law in the United States—were three matters discussed by Governor Wilson in his speech of acceptance.

Mr. Wilson takes advanced ground on every progressive question, and plainly declares that he believes in the rule of the people and in permitting such rule by simplification of existing laws.

Naturally, the tariff section of the speech will attract the most attention. The governor expressed himself in unequivocal terms in discussing this subject with the very few men he took into his confidence in considering it. He said he considered the Democratic platform absolutely binding on him, and in his speech he followed that line, departing only to assure the country at large that the tariff reduction must be scientific and so adjusted that the country itself will be protected.

Tax Luxuries to the Limit He will make it very plain that luxuries should be taxed to the limit. Referring to the Democratic platform declaration against a second term, the governor will state that this meets with his approval. He will point out that such a rule assures an independent conduct of the presidential office.

The governor will then carry the fighting directly to Roosevelt, taking up his aspirations for re-election and answering some of his recent arguments. Regarding the trusts, the governor will warn all business that its

SCOTCHMEN LEAD WORLD IN BATHING

London, Aug. 5.—Dr. Quive, speaking at the Sanitary Institute Congress today, said that outside of highly specialized appliances, little progress has been made in the past 300 years in advancing the general efficiency of vessels for washing the human body. There were probably 15,000,000 bed rooms, he said, which contained no other appliance than a washstand.

There was no evidence to be discovered to lead to conclusions that bathing accommodations of hotels were unduly taxed. American women are less fastidious than English, not being afraid to pass along the hotel corridors to the bath rooms.

The doctor said that frequency of bathing occurred as follows among the nationalities named: Scotchmen, Englishmen, Irishmen, American women, English women, Frenchmen and Germans.

PROGRESSIVE CONVENTION HELD IN LOUISIANA

New Orleans, Aug. 5.—With a few former Democrats present, and negroes conspicuous by their absence, the Louisiana Progressive party met here today and elected thirty delegates to the Chicago convention. It is declared, instructed to vote as a unit for the nomination of Colonel Roosevelt for president. Each delegate will have one vote.

The convention adopted a resolution favoring the maintenance of the protective tariff system, with only such changes as will give protection to American industries without fostering monopolies.

A motion was made to present to the Chicago convention as a vice-presidential candidate the name of John M. Parker, of New Orleans, for years a leader in the reform ranks of the Democratic party in this state. At the request of Mr. Parker's friends, the motion was withdrawn.

A MOCK BALLAD

In his Philadelphia cottage, Eating scrapple with his potage, Sat a leader by the name of Mack.

"So you think your change looks bonny?" A reporter asked old Connie. "Don't you fear that Boston team is far ahead?"

"Then the eyes of Mack grew bright, As he faced the baseball write. And between large bits of scrapple Connie said:

"When the harvest days are over, lad, I'll be fighting with the Giants, never fear! You can bet your scrub lock, We'll have caught and passed the Sox."

"When the harvest days are over, lad, I'll be fighting with the Giants, never fear! You can bet your scrub lock, We'll have caught and passed the Sox."

MONDAY, AUGUST 5, 1912.

MUCH ABOUT LITTLE, APPARENTLY.

The news dispatches of the last day or two

had considerable to say about the relations of

the Grand Trunk railway with the government as

regards to the operation of the National Transcon-

tinental, and it has been intimated that there are

differences between the two parties to the matter

which might lead to government operation of the

line in order to insure its participation in the move-

ment of the wheat crop this fall. That such a com-

promise might arise was indicated when a minis-

ter of the crown announced that if the Grand

Trunk refused to operate the line, the government

would do so.

That such has been made of very little, how-

ever, seems to be indicated by a statement given

at Grand Trunk headquarters in Montreal.

Under the agreement between the Grand Trunk

and the government, the railroad company is to

operate and the government is to provide the

equipment when completed and that provision fur-

nishes the crux of the whole matter. The govern-

ment engineer says the road is completed while

the Grand Trunk people say it is not or at least

not sufficiently so to warrant taking it over and be-

ginning operations as a going railroad.

The inference has been that the Grand Trunk

people delay with a view to postponing the day

when it will have to begin paying interest. The

officials of the company, however, declare there

is no such design on their part, but assert that

they are ready to assume responsibility of operat-

ing as soon as they would be warranted in consid-

ering the road completed.

The situation appears to partake more of the

character of a difference of opinion than anything

else. So far as the public is interested, it will

concern itself greatly as to the merits of the con-

tract; if the road is completed to the stage at

which under its agreement, the Grand Trunk

should take it over and assume its obligation, the

The Albertan does not wish to appear like a

carping critic of everything the city administra-

tion does, but it does seem to us that in their

effort to find excuses for spending public

money they merit being likened to a crowd of "beg-

gers a-horseback." We do not blame Commissioner

Graves, he would be foolish not to accept his ex-

penditures when handed to him, but we do believe

that the spendthrift tendencies that have grown to

such proportions the past few years.

And now comes the parks superintendent and

president of the parks board with a request that

they be given a little junket at the city's expense.

They wish to attend a convention of parks su-

STORIES OF THE STREET

By HARRY F. BURMESTER.

Members of the Sappatanus club held a right

meeting the other night. It was what might be

termed a feast of reason and a flow of soul and

bow. Wit scintillated and sparkled with the

effervescence of Burgundy and when the session

adjourned each member repaired to his home much

improved in spirit.

It was somebody's birthday, Tom Farish's, I

believe. Farish has a faculty of having birthdays,

but this was a straight bet, for Tom admitted

that he was more than seven. Apropos of the oc-

casional, Leonard Hargis, the realty broker, pro-

posed the following toast:

"I've drunk of rare vintages many a time,

And I've drunk health to many a brow,

But this one I swear is for once on the square,

No good luck to you, Tom, here's how."

"Bravo," responded the chorus. "Where do you

get that poetic member?" Hargis admitted that he

got it out of a book. "But I don't hear any of your

fellow's shaming Shakespeare," he added.

There was a thoughtful silence. Then—We al-

ways say then when anything is about to happen—

Jack Mosley, of Imperial hotel fame, arose.

Mosley cleared his throat and the waiter began

to clear the table, fearing the worst. Jack began in

ducat tones: "When the springtime of youth turns

to summer,

"It isn't a cinch to be gay,

And the man who goes out on a hummer

Is sure to regret it next day."

Chaos reigned for a minute. Then—once more

something is going to happen—a brother spake up

and said: "I didn't think it was in you, Jack."

"It was, but I'm rid of it now," he replied. "Are

there any other contributions?"

Russ Ellicott, the genial one of the city hall,

had been moving nervously about in his seat. Sudden-

ly he arose, his face fixed in determination.

"Shoot," came the chorus. For the protection

of the married members it must be explained that

this was a male chorus. Russ proceeded:

"I'm fond of music, I dote on a sweeter noise

Than ever the harp has uttered—the merry laugh

of the boys. They may prate of the tones of the

cello or the marvelous voice of the lute,

But give me the care-free singing of the regu-

lars out on a foot."

The glasses were raised in approval and lower-

ed later with regret. They were empty. Another

pause and shortly another volunteer.

HUDSON'S BAY COMPANY

DURING AUGUST STORE CLOSSES WEDNESDAY AT ONE P. M.

Advance Information About the New Fall Styles

Our ready-to-wear buyer has just returned from

his semi-annual buying trip to the New York and

eastern markets, and his selections for the fall

season are the most attractive and most carefully

chosen range that we have ever had the pleasure

of offering. The styles being shown in the differ-

ent fashion centres comprise a remarkable variety

of effects, many of which are quite simple in style

and line, while some of the advance fall models

of afternoon and evening gowns have a sugges-

tion of the panier with caught up effect at sides.

Skirts—Although the narrow skirts still predominate,

many of the models can easily be adapted for the

use of women to whom the extremely narrow

styles would be unbecoming.

Tailored Suits—In tailored suit styles the notch-

ing collar change will be in the cut of the skirts.

The fashionable full skirt will be not more than

one yard and three quarters in width with quite

a few plaits generally introduced in the back panel.

The one-sided effect with belt, too, is no longer a luxury. A rather

severe appearance, while the distinctly new style

note will be in the use of silk and velvet pockets

with tiny plaits at

sides and back. From

this point the tucks

decrease in width

until they reach the

hips, where in some

cases the skirt is

gathered slightly

at the sides and

back with several

tiny plaits at side

seam to give a sugges-

tion of the panier

effect.

French Models—In

evening costumes the

French models are

of an extreme type

and feature many

amazing effects.

Materials—Satin

charmeuse and

crepe meteor silks

are featured as

most popular

materials for

afternoon and

evening frocks.

Small wonder that

they are because

of their pliable

nature and

draping and

clinging qualities

make them espe-

cially suitable for

the panier and

draped styles in

vogue this season.

Other materials

shown for

afternoon and

evening frocks

are: crepe

charmeuse, silk

velveteen and

silks, mustards,

chamoise will be

a great favorite

this season.

In suits, men's

wear, serge again

leads the list of

popular fabrics,

while broadcloths,

velvet, wool

rairie, two-tone

worsted, heavy

cheviot, unfinished

worsted and

wool sponge are

also some of the

leading fabrics.

Rough cloths are

in good style,

while the imported

wool velours in

summers two-tone

are most attractive.

In suitings shades

of hair zebelines

and striped effects

are a decided

novelty.

Colors—The

fashionable colors

are blue, brown,

taupe and black.

These are also the

most popular

colors in suits. The

new shades in

light and dark

brown and un-

usually good and

will no doubt

become very

popular.

Mr. and Mrs. Fr. Derick S. Wetherall, of Calgary, announce the engagement of their daughter, Miss Alice Wetherall, to Mr. Hubert Kemp Richardson, of Calgary, formerly of Winnipeg and Liverpool, England. The marriage will take place in the autumn.

TOO RECKLESS A GIRL TO HAVE IN A HOUSE

There is an entertaining story concerning Lady Rosemary Leveson-Gower, only daughter of the Duke and Duchess of Sutherland, now going the rounds of Mayfair drawing-rooms. She is a haughty, scornful young person, almost a tomboy, who cares not the least bit for society, and her parents find it hard work to keep her in rein. One of her favorite diversions is skying her slippers about any room in which she happens to be, with disastrous consequences to many of the ornaments. This fact came to the ears of a well-known insurance agent, who was called in to write a policy on the pictures, furniture, and works of art in the home of the Bingham's, connected by marriage with Lady Rosemary, with whom she is a frequent visitor. After considering all the facts, the agent reported that he was sorry, but so long as the Sutherland girl was welcomed as a guest he would not dare write the desired insurance at any figure.

Whenever pretty Countess Zia Torby appears, almost invariably beside her is seen the stalwart figure of the hereditary Grand Duke Adolf Friedrich of Mecklenburg-Strelitz, and the London world is asking itself if a match will be arranged. Countess Zia is the daughter of the Grand Duke Michael, cousin of the Czar of Russia. Following the Grand Duke's moribund marriage to the Countess Torby, by his uncle, Alexander III, deprived him of his rank in the army and his property, and banished him from Russia, and it was only comparatively lately, due to the strenuous efforts of the late King Edward on his behalf, that Nicholas II. graciously consented to forgive him. The Grand Duke is a cousin of Queen Mary—his grandmother and her mother, the late Duchess of Teck, having been sisters.

HE is often called the Kaiser's "Missionary of Empire," for that monarch is fond of sending him off to little-known corners of the earth on ostensibly scientific expeditions, but by the time the Grand Duke is getting back home he is generally found to have firmly planted the German flag in the soil. Adolf Friedrich is a clever young chap, keenly interested in medical science, and has made some useful investigations into the causes of tropical diseases in the districts he has visited. He is also a good sportsman, and in the various "zones" of his native land there are several lions that were his capture. He is thirty years old, and speaks English perfectly.

After a tour extending over several months, Lord and Lady Arthur Grosvenor and their children finally fettered up this week near Ascot, in their picturesque caravan, or rather caravans, for there are two of them. They started in April, from their place in Cheshire, and drove leisurely southwards till they reached the coast, where they embarked and proceeded across France till they reached the Duke of Westminster's new hunting-camp in the south.

LADY ARTHUR is, of course, aunt to the Duke of Westminster, and following a heir to the title—the Duke's little son died two years ago—she would one day be Duchess of Westminster, her husband being the next in succession. When she goes on these caravan tours she is a "great cure" that she initiated, she becomes "Saira Lee" for the time being. To do this, however, she had to obtain permission from the real "Lee," the oldest spywife family in England, whom she has known since she was a child, and who taught her what she knows of the Romany language.

In former years, when caravanning was not so universal among "pseudogypsies" she had many amusing adventures, and she has promised to write a book later on telling all about the "van of society." Once, when traveling in France, she left her van in charge of the driver, a Scotchman, who knew no word of any language but his own, and he got provisions, and returning about half an hour later, found the entire contraption had disappeared. After a long and weary tramp of about four miles, she eventually came upon her caravan standing before the "mairie" of a small village, and her dear Scotchman, with a French dictionary in one hand, doing his best to explain his presence, while French officials hopped all round him in gesticulating excitement.

Halifax plans for the visit of the Duke. Halifax, N. S., Aug. 4.—In the first program for the reception of H. R. H. the Duke of Connaught, a grand review of the troops was planned on the second day of the visit. This has now been abandoned because of the difficulty of getting men in the militia to leave their employment. Instead of this a company of troops will line the streets and docks when the duke lands.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of Dr. J. C. Watson.

Notes from the Alpine Club. On July 21, the seventh annual summer camp of the Alpine club of Canada was opened when Director O. A. Wheeler, F.R.G.S., introduced the president, Dr. A. D. Coleman, F.R.S. When the eminent man took the chair, he was greeted by a resounding British cheer from the club members gathered round the summit of the mountain, which the arms of the club campers had piled high. After a brief but appropriate address from the president, the grand ceremonial opening followed when Director Wheeler handed the match to Mrs. Henshaw of Vancouver, who applied it to the spruce mound and so was kindled the flame which lights up the world for the Alpine club of Canada, in camp assembled.

SOME SUGGESTIONS FOR SUMMER GIRLS WHO ARE UP-TO-DATE

CUPID'S KNOTS

One of the prettiest home weddings of the season took place Wednesday evening, July 31, at the home of Mr. and Mrs. J. M. Webb, second avenue north, South Edmonton, at 8:30 p.m., when their daughter, Edna Jane, was married to Robert Henderson, of Calgary. Rev. Mr. McGowan, of Knox Presbyterian church, officiated. About 30 intimate friends of the bride and groom were present.

"GET FRILLS AND SMART SHOES AND A PEACH OF A HAT"

This is the "New Clothes Cure" Recommended for Tired, Nervous Women. A pretty little story in a current magazine tells of a dejected, miserable woman who consults a clever doctor. Her malady is nerves, and she seems on the verge of a nervous breakdown. The doctor notes her old-fashioned hat, her shabby, unbecoming suit, down-at-heel boots, and goes right to the root of the trouble. He recommends that she buy a new hat, a new suit, and a new pair of shoes. "Do your hair a new way. Study your type. Get things that suit you."

EMPLOYEES OF NORTHERN ELECTRIC CO. HAVE A PLEASANT PICNIC

On Saturday the employees of the Northern Electric and Manufacturing Co., Ltd., held their first picnic in fine weather and it was very successful. A start was made at 8:30 a.m., and the party numbering forty arrived at Waseel Head a couple of hours late without any mishap. The ladies then selected the ground most suitable for their "kitchen" while the gentlemen wandered around with a view of helping the Sports committee select good ground for their athletics. In the afternoon lunch was served at 1 o'clock. Sports commenced at 2:30 and some really good times were set on foot in the 100 yards dash and in the one mile, and the ladies' race, immediately following the sports, Mrs. L. M. Cochrane distributed the prizes.

POPULAR VOGUE OF PANAMAS.

The season started with small and medium-sized hats, and for tailored hats they have come into their own. The Panama, in its pliability and everywhiteness, is the most delightfully beautiful and most versatile of all hats. It is the most delightful of all hats, and is particularly desirable. Little the origin a band of similar colored velvet is also introduced.

Who Will Be Boss?

The old, old domestic difference question as to "who will be boss" still disturbs the otherwise even tenor of the marriage ways. John Schwartz, 22 years old, of No. 429, Meserole street, Williamsburg, and his wife, Beatrice, 18 years old, were in the Manhattan avenue court yesterday in an effort to thrash out their matrimonial differences. "Who shall rule the household—the man or the woman?" was the question Magistrate Hyman had to decide. "She wants to be the boss; that's the cause of all the trouble," Schwartz told the court. Mrs. Schwartz agreed with her husband, saying, "You bet your life I want to be boss. What's more, I intend to be the boss."

JAPANESE PROJECT TO BUY LAND FROM MEXICO AROUSES IRE OF U. S. SENATE

Washington, Aug. 5.—The senate foreign relations committee today without dissent adopted a resolution that the United States reaffirm the Monroe doctrine in terms clear to all the world, and adopted a resolution expressing disapproval of the possible purchase of any naval base on the American continent by any foreign power.

The senate in a report to be made to the senate is asked to endorse the committee's stand. A firm stand by the United States is asked for, as a warning to the Japanese government. It was shown that a Japanese agent had been negotiating for the purchase of Lower California in the "Great Concern."

The Japanese government is reported to have had no connection with the syndicate, the senate committee reported to the full senate today. The circumstances surrounding the view of the senate regarding such cases.

The Japanese government, which probably adopted the plan, declared that the United States can not see "without concern" any harbor or advanced spot in the Western hemisphere over by a foreign corporation bearing close relation to the government, if such occupancy would break the commerce or safety of the United States.

An Advantageous Base

Maydalena Bay is considered the most advantageously located naval base on the Pacific coast because of its relation to the Western terminus of the Panama canal. It was said the corporation which had lands to sell had advanced the argument that their possession would be of particular benefit to a foreign nation. Because of that attitude on the part of the corporation, the committee decided to make clear the American position on what it regards as the encroachment of foreign powers on Western continents.

GALT GETTING TIRED OF DRY SIEGE

Gull Lake, Aug. 4.—Petitions are being circulated around town to be presented to the town council to have that body have an election in January to repeal local option here. It is understood the petitions are being largely signed and many who voted for and worked for local option four years ago are now signing the petitions. The people seem to be disappointed with the result of local option on account of the close proximity of wet towns.

MEDICAL RECIPROCITY THROUGHOUT CANADA

Ottawa, Aug. 5.—Medical reciprocity throughout Canada is now assured as a result of all the provinces having accepted by concurrent legislation the Canada Medical Act. The act was passed in 1911 after many years of agitation and the overcoming of much opposition. Briefly stated, the act provides for a Dominion medical council and enables any physician certified by it to practice in any province of the Dominion. Heretofore there have been separate provincial councils, and a doctor in Quebec, for instance, could not practice in Ontario without passing a separate examination.

The new council is to be composed of three members residing in different provinces to be appointed by the Dominion government, two representing each province, one from each university or medical school having an arrangement with a university for conferring degrees in medicine, and three representing the homopaths. The term of office will be four years. The candidates for examination may elect to be examined in either English or French.

WHAT IS BEER AND WHY ANSWERS ARE DESIRED

Washington, Aug. 4.—What is beer and if so, why? Are two questions Republican Anderson of Minnesota wants answered.

Mr. Anderson asked the house committee on agriculture today for the answers and later introduced an amendment resolution calling on the department of agriculture for them.

Mr. Anderson's only curiosity is to know when beer is not beer. His constituents raise barley which they believe is the only grain which should go to make up beer and that other concoctions are a snare.

THE HOUSE PASSES COTTON TARIFF

Washington, Aug. 4.—The house today passed, 156 to 72, the cotton tariff revision bill which the Democratic majority claims will reduce the duties on cotton manufactures by approximately 21 per cent. The measure is identical to that vetoed last year by President Taft on the ground that it was not based on official information. Some house members express the belief that the senate will pass it and put the legislation to the president again.

CONTRACTOR KILLED; HOUSE FELL ON HIM

Toronto, Aug. 5.—John Dunn, a contractor, was killed and three other persons narrowly escaped death when the underpinning of a house at No. 20 Sackville avenue, under which Dunn was excavating for a cellar, gave way this afternoon, allowing the house to fall into the excavation and burying Dunn beneath its ruins. The house, valued at \$2,000, will probably prove a total loss.

ABOLISH COURT; FIND NEW JOBS FOR JUDGES

Washington, Aug. 4.—The five judges of the United States circuit court were retained in office as circuit judges by an agreement reached today by the house and senate who conformed on the legislative-judicial bill. The commerce court would be definitely abolished by the agreement, and its work turned over to the district courts.

The senate proposed that the circuit court judges be included in the judicial rolls, while the house proposed to keep them as circuit judges, but not fill vacancies that might occur. In this manner the number of circuit judges would ultimately drop to 29.

MAY USE ELECTRICITY TO CALM THE AIR

Mineola, N. Y., Aug. 5.—A series of experiments is to be undertaken on the signal corps of the state national guard will try out a new device for calming the air waves in the immediate vicinity of a flying aeroplane by means of wireless transmission of electricity. The theory is that the wireless will control the air currents in much the same way as all poured on a storm-tossed sea stills the troubled waters.

PRETTY CASHIER THWARTS NEGRO ROBBERS

Huntington, W. Va., Aug. 4.—Mrs. Dora Solof, the pretty cashier of a local department store, gave battle to a negro desperado today for the possession of a bag containing more than \$500 and won, thwarting a bold holdup in broad daylight in one of the busiest sections of the city.

Two negroes entered the store during the noon hour, and while one of the negroes attracted several clerks to the rear of the store, the other grabbed the bag and started to run.

Mrs. Solof grabbed him and wrested the bag from him. The negro escaped, but his alleged accomplice was captured.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

RAILROADS OBJECT TO THE GUARD MURDER WITNESSES FIRE REGULATIONS

Ottawa, Aug. 5.—The application of the railway companies for leave to appeal the recent fire regulations from the railroad commission will be heard before a judge in chambers of the supreme court August 7. The railways claim that the commission has exceeded its powers in issuing the regulation for the protection of the prairie and mountain sections in the West.

Montreal, Aug. 4.—Several witnesses testified to the receipt of letters threatening death as the penalty for testifying against Carlo Battista at the preliminary hearing of the case in which he is charged with the murder of Salvatore Casaruso, today. Finally police were detailed to guard them. Three positively identified Battista as the man who fired the two shots into Casaruso at the corner of Latour and Genevieve streets a week ago last Monday.

GOING OUT OF BUSINESS

Only Twelve Days More and You'll See The Finish

THE ENTIRE STOCK OF ROBINSON & COMP'Y TO BE SOLD IN THAT TIME

WESTMINSTER TOOK FIRST GAME AFTER THE TRUCE WAS DECLARED

Hard Fought Lacrosse Game at Coast Saturday Won by Five to Four Score

Con Jones' Men Rallied at the Finish, Nearly Playing Westminster Off Their Feet

But Through Three-Quarters of the Game the Small Town Boys Had Best of It

Game Practically Cinches Title for Westminster; Vancouver Defense Proved Weak

Vancouver, B. C. Aug. 4.—Throughout three quarters of Saturday afternoon's lacrosse game, Westminster played "cool" games, but the final quarter Vancouver rallied to a finish that was hair-raising and came so near turning the scales of defeat into victory that Westminster was heartily glad when it was over. The final score was five to four, with Westminster the victor, and the winner of the Royal Cup, the most likely winner of the Minto Cup.

Each side scored two goals in the first quarter, and played a fine lacrosse as was ever put up. Less than four minutes from the start Godfrey of Vancouver picked the ball from just behind the Westminster net, slipped around and flopped it in by reaching over the top from the back. Then Westminster scored on Dean from Vancouver in a lightning play by Nick Carter to Lalonde, who scored.

No penalties were exacted in the first quarter, and when the players came out to rest the Vancouver fans were kicking a good deal at Billie Bert Halseford for allowing rough tactics by Westminster.

Half time saw Westminster with one lead and the Royal city boys playing stronger and with more precision than Vancouver. At half time two Vancouver men had been sent off and when the men walked in the crowd roared Halseford roundly. This seemed to have the desired effect, for the third quarter had not progressed a minute when two Westminster men were hunched. Gordon Spring and Pickering were knocked out at the same moment soon after this, and the game took a long rest. Spring recovered, but Pickering, with a dislocated shoulder, had to be replaced by Cummings.

The first Vancouver started the most effective attack ever seen on the field. They were twenty minutes of wonderful lacrosse. So tight were the Vancouver men crowded the Westminster goal that the Vancouver defence forgot itself, and a quarter came with a good start. Westminster scored on Dean from Carter, the ball up and a score.

Then Vancouver came back with two goals, literally forced in by everpower. The result, in three minutes, was a 3-1 lead. Westminster, and all but overthrown the boys were playing for the bell. Vancouver's defence is much inferior to Westminster's. This is the difference between the teams, and it required far greater skill and effort for Vancouver to play Westminster. The big crowd gave the visitors lots of encouragement, sufficient, in view of the recent mis-

BRONCHOS PULLED OFF TRIPLE STEAL AND WON THEIR FIFTH STRAIGHT GAME

Sensational Play Was on Tap on Saturday Afternoon at Hillhurst Park

Chesty Cox in Contempt of Fans For His Puente Tactics at the Game

He Was Ordered to Leave the Grounds by the Umpire and Refused

Lefty Gelvin Was Just a Little Wilder Than Usual Which Accounts for 7 to 5 Win

You will have to hand it to those Broncos for pulling off the stunts which you read about. Twice this year they have pulled off such simple matters as these, on Saturday night, and they did it in the very first inning, and it all happened so quickly that Lefty Gelvin was dreaming of what might have happened if he had not come to bat. At the same instant Pannagan darted from second and Dean from first. Pannagan gave his teammates, Flanagan and Dean, a home run. He started half-heartedly for the plate, and they smiled. At the same instant Pannagan darted from second and Dean from first. He started half-heartedly for the plate, and they smiled. At the same instant Pannagan darted from second and Dean from first. He started half-heartedly for the plate, and they smiled.

But this was not the only feature. Another one was Chesty Cox. Now, Chesty in his prime was some handsome fellow, and got away with some pretty good stuff, but on Saturday he carried things just a bit too far. He carried things just a bit too far.

As for the game itself, there was not much to be said. It was a sensational play, and it was on Saturday afternoon at Hillhurst Park. Chesty Cox was in contempt of fans for his Puente tactics at the game. He was ordered to leave the grounds by the umpire and refused. Lefty Gelvin was just a little wilder than usual, which accounts for the 7 to 5 win.

THREE PROMINENT MEMBERS OF CALGARY CRICKET TEAM. Reading from left to right are: T. P. Barnett, T. W. Bryant and E. H. Stevens. These men are looked upon as mainstays in the batting department of the local representatives in the Western Canada cricket tournament which opens in Calgary this morning.

MOTOR SPEEDWAY IN FINE SHAPE FOR RACE

Electrical Timing Apparatus is Being Installed to Get the Accurate Time for Distance

Barney Oldfield Will Use Every Effort to Break World's Record

The shovels Saturday evening and yesterday were just what was needed to settle the track at the arid road speedway, and the workmen who are putting the course in grand condition for Barney Oldfield's record breaking stunts on Saturday will have the steamrollers on it this morning to pack it hard.

Those who inspected the course yesterday declared that they had never seen a better one. The track has been put in apple-pie order. Every little gutter hole has been filled and packed, and every tiny pebble has been removed. The course is 4 1/2 feet wide, and with a half mile start, Barney will have another half mile to stop after passing over the mile on which he endeavored to establish a world's mark.

The electrical timing apparatus is almost complete, and will be ready for a test about the middle of the week. The wiring along the mile has already been completed, and only the installation of the apparatus over the track at the start and finish needs to be completed.

OLYMPIC GAMES CAUSE OF INTERNATIONAL FRICTION?

London, Aug. 4.—The discussion of England's position with respect to the Olympic games, as made a feature of Sunday papers.

R. C. Lehman, a noted oarsman, in an interview said that it was impossible for England to continue to be represented at the games which were not conducive to true sport but tended to international friction. He deprecated the idea of copying American methods, for it would make sport a profession. He preferred the English ideal games as a relaxation.

AN AGED WOMAN DIES OF STARVATION, MONTREAL

Montreal, Aug. 4.—Mrs. Alice Flynn, seventy years of age, said to be a widow, was found dying from starvation on a heap of rags in a bare apartment house on Montcalm street.

The aged woman was discovered by Father O'Brien of St. Mary's Catholic church, while making the rounds of the parish. There was not a chair, bed nor piece of furniture in the room. The woman was taken to the General hospital, where she died.

FUNK, MOOSE CANDIDATE GOVERNOR ILLINOIS

Chicago, Aug. 4.—State Senator Frank J. Funk, of Bloomington, was unanimously nominated as candidate for governor of Illinois by the state territorial yacht racing series held on the lake yesterday morning for the beautiful challenge cup presented to the Lake Wood club by Lieutenant Governor Cameron. The Canadian entry Daphne was piloted by L. Caldwell, of Winnipeg. The race, which started at 10:32, was postponed after the first start, but finished at 1:02:25, while the skipper, Mr. Ordway, of the Quaker Girl, by tactfulness as much as from anything else, gathered the class of the wind which freshened considerably at that moment, and obtained a slight lead which was maintained throughout, crossing the line in just the time allowed to finish by 17 seconds in advance of the Daphne, the former finishing at 1:02:15, while the latter finished at 1:02:32.

SAM LANGFORD BEAT McVEY IN TWENTY ROUNDS

Canadian Was Aggressor All the Time and Was Awarded Contest on Points

One of the biggest sporting events in the history of Alberta will start this morning, the Western Canada cricket tournament. The tournament will last all week and will be attended by all of the province's cricketers in western Canada. Two games will be played each day, and the team which wins the greatest number of games will be declared the winner. Saskatchewan Eleven, last year's champions, will make strong fight.

QUAKER GIRL BEAT THE CUP DEFENDER AT KENORA

Kenora, Ont., Aug. 4.—The challenger, the Quaker Girl, won the race by seventeen seconds over the defender, the Daphne, at the second of the international yacht racing series held on the lake yesterday morning for the beautiful challenge cup presented to the Lake Wood club by Lieutenant Governor Cameron. The Canadian entry Daphne was piloted by L. Caldwell, of Winnipeg. The race, which started at 10:32, was postponed after the first start, but finished at 1:02:25, while the skipper, Mr. Ordway, of the Quaker Girl, by tactfulness as much as from anything else, gathered the class of the wind which freshened considerably at that moment, and obtained a slight lead which was maintained throughout, crossing the line in just the time allowed to finish by 17 seconds in advance of the Daphne, the former finishing at 1:02:15, while the latter finished at 1:02:32.

MY WORST BLUNDER

Famous "Bonehead" Plays on Major League Diamonds Explained by Leading Baseball Players to

Hugh S. Fullerton

(By Roger Bresnahan, Manager of St. Louis Cardinals)

After a fellow has been catching as long as I have, he has trouble picking out the worst bonehead play he ever made. We all make plenty of mistakes with our heads, as well as our hands, and far be it from me to claim to be an exception. There is one that may not have been the worst I ever made, but it was bad enough, and it was two seasons before I would laugh over it, although it was a funny thing.

I made it while I was catching for New York years ago. We were up there fighting the leaders at the time, and every game counted. In the series we had five games to play against a weak club, and we expected to clean up and get right close to the top.

It was the second game of the series that gave me the chance to pull the play. The team we were playing against had recently purchased a player who was a magnificent hitter, but slow on his feet, and among the players he had a reputation of being one of the slowest thinkers in the business. In fact, he was so slow that he could not steal more than one or two bases a year, and then usually when no one tried to stop him.

Stuck Close to Base

He was so bad it was impossible to catch him hot day, or a feeling of general lassitude being responsible. He was as wise to those lads as a hen to her chickens. He usually strove to jar his dignity. He was as simple as a hammer, but he would let his penalties, or ex-

posed without giving serious thought to the matter. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker. He was a real trouble maker, and he was a real trouble maker.

I won't tell you who he was or what club he belonged to, as I don't want to knock him.

Anyhow, in the second game of the series the score was 2 to 1 in our favor in the first half of the ninth, and we were playing at home. It looked set for us, as Matty was pitching and going at his best, so it seemed as if they never could score except by accident.

The first man went out, and then came the big, slow fellow, who hit the ball clear down to the fence in centre field. It would have been a home run for almost anyone, but he was too slow, and stopped at second.

I knew it would take another home run, or at least a double, to send him home, and I decided to try a little scheme to see if I couldn't pull him into making a blunder. I decided to let the ball hit my mitt, roll a few feet away, bluff that it had gone to the stand, and try to make him start to third.

He was so fooled that I hadn't a bit to fear. I did it, ran back, put the ball, picked it up and looked—and you may imagine my surprise to see him within ten feet of third and starting to slide. He had started to slide, and I had pitched to second base. He scored on a long fly, tied up and they beat us out in the tenth.

The tough part of it was that he never stole another base that year, and I found out from one of their players that he only stole because he got mixed in signs and thought he was ordered to steal.

Cleveland looks to be improved, the pitchers having bucked up lately, and that has been the flaw in the team all year. Baskette and Greg are both going strong now, while Jackson and Lespie are carrying along the batting end of the business. Griggs is playing a great game at first base, and we need the team an extremely hard one to beat. I hope the Red Sox have as much trouble with them as we did while we were playing the St. Louis Browns last week.

FT. ERIE RACES
Fort Erie, Ont., Aug. 3.—The closing day of the Niagara Jockey club's final meeting of 1912 brought out a large crowd to Fort Erie track. Summary:

First Race, 2 Year Olds, Handicap, 6 Furlongs
Continental, 95, McCahey, 12 to 1
Flabbergast, 102, Turner, 13 to 5
Lee Charles, 115, Loftus, 5 to 2
Lawsuit and Monocary pair
Second Race, 4 Year Olds and Up, Steeplechase, Handicap, Short Course
Highbridge, 150, Simpson, 5 to 3
Locks, 145, McAlree, 2 to 1
Michael, 142, Allan, 14 to 5

Expect a Great Finish
Now, I might drol along at some length on generalities, but there is one feature that I want to refer to and let it go at that. Anybody will admit that the Athletics are a great club in a short series. They have the right and the drive, which stands for class, and the tighter the thing gets the better they are. From now until September we meet practically the same clubs that the Red Sox encounter, and as the end approaches the old batting and pitching are liable to show and the Red Sox have a hands lead over us about ten games, and that they can stand a slump. No club can stand a slump in a race like the one going on in the American League this season. It looked as if the Giants could not be caught when they started West two weeks ago because they had the commanding margin, and fifteen games. They struck a combination pitching and fielding slump, and the gorgeous lead had been cut almost in half in ten days.

"Joe" Wood is the most valuable pitcher that the Red Sox have, and he has been pitching great ball all season and is likely to continue. He is one of the three best right handers in the league. Hall is effective, but he was not particularly good against us. The other Boston pitchers trail along in the wake of these two. The runner over to Boston's present position is "Tris" Speaker, the centre fielder. He is really one-half of the club, and in my far the most valuable man to the team in the American League this season. He has been the boy who has been popping out the base hits when going on in a run and a run was needed to win. He is one of the greatest hitters that I have ever seen, and is best when the things get tightest. Let something happen to him, and let him be laid up, and see where the Boston team would go.

will be separated then and to the Athletics' advantage.

The West is Out of It

Of the Western clubs, Chicago is the only one with a championship chance now and that is a dim one. The White Sox are not out of the race for first place yet, but that is about all. They are just in it. "Big Ed" Walsh, the wonder of the club, is showing some signs of wear, although he pitched one of his best games against the Red Sox last week (thank goodness), allowing them only two hits, one a scratch. The big fellow cannot work as often as he did earlier in the season. The rest of the pitchers, as I have frequently said, are uncertain. It is a distinctly first division team, but I would not place it better than third at the outside.

Cleveland looks to be improved, the pitchers having bucked up lately, and that has been the flaw in the team all year. Baskette and Greg are both going strong now, while Jackson and Lespie are carrying along the batting end of the business. Griggs is playing a great game at first base, and we need the team an extremely hard one to beat. I hope the Red Sox have as much trouble with them as we did while we were playing the St. Louis Browns last week.

IMPERATIVE MESSAGES
What's your objective point? Have you an imperative message that must be delivered at once—your work of urgency that demands instant attention?
Are your affairs needed—do you seek to rent or buy—are capable agents or other representatives necessary—do you have a job to do—do you desire to buy, sell or exchange?
In accomplishing any of these objects consider the efficiency of the Want Columns. The Wants are an ever-ready, quick-action means of supplying what's most needed at minimum expense.

JOE PRICE, Sporting Editor, Phone 2330

McClary's "Sunshine" Furnace
The Understudy of the Sun
is an efficient and economical heating apparatus that soon saves enough to pay for its initial cost.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap cut lumber or green lumber in better grades will build a house that when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a disapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality counts, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
