Ottawa, Ont., April 23.—Papers in connection with the Treadgold concession were presented to parliament today.

The grantee is entitled to purchase the original grants of Malcolm H. Orr-Ewing, of Malvern, England; A. N. C. Treadgold, London, and Walter Barwick, Toronto.

Although some objections are eliminated from the concession, it is questionable whether the amended grant will be satisfactory to Yukoners.

The grantee is given the sole right to divert and take water from Klondike river, the first order-in-council, it is questionable whether the amended grant will be satisfactory to Yukoners.

Tokyo, April 23.—The terms of the new Manchuria agreement, concluded yesterday between Russia and China, are considered satisfactory by the Japanese papers, although several sound a warning note that Russia is not to draw her troops from the province for 15 months, and in this treaty reserved her rights in Manchuria even after sensible evacuation. The co-operation of the other powers, especially the United States, is realized as having been largely instrumental in obtaining such satisfactory terms as these.

Dredging at Victoria

Mr. Earle Brings Up Needs of the Harbor in the Commons.

And Also Wants Tolls on the Dawson Telegraph Line Reduced.

Mr. Charlton's Notice of Motion Advocating Amnesty in South Africa.

From Our Own Correspondent.
Ottawa, April 23.—In supply today Mr. Earle asked what dredging would be done in Victoria harbor. The great cry in the last election was Riley and the dredge. They had got Riley and he presumed now Victoria would get the dredge. (Great laughter.)

Mr. Earle was told that some dredging would be done in Victoria with the dredge now on the Fraser.

Subsequently Mr. Earle urged the construction of a short telegraph line from the present terminus on the Skeena to Aberdeen, also a reduction in telegraph rates on the Dawson line.

There was a vigorous fight in the Commons over the restoration to the order paper of the Red Deer railway bill, which was carried by 87 to 88.

Mr. Hargart tried to get an order to investigate intercolonial accounts since 1886, but this was defeated by 91 to 43.

Mr. Riley's bill to incorporate the British Columbia & Yukon railway company was withdrawn without any explanation being offered. The proposed incorporators include Richard Hill, Dr. Miles, and H. M. Cleland, Victoria.

Mr. Charlton has given notice of the following amendment on going into supply: "This House is of opinion that British supremacy should be maintained and firmly established in South Africa, to which Canada contributed men and money. Having in view the effect of a policy of magnanimity and mercy at the close of the war in the United States; and for other reasons, this House is also of opinion that the policy of magnanimity and mercy may properly be extended to the brave foe now opposing British arms; and that in the interests of peace and of future tranquility, harmony and good will, it is expedient to offer unreservedly to British control, to all persons in arms against British authority in Cape Province, Natal, Orange River, Colony, Transvaal and all other portions of British dominions in South Africa, and to all persons, who are British Columbians.

Over 1,200 men have been secured in the Eastern provinces for South Africa. The British Canadian in South Africa are reported today, some are British Columbians.

Hon. Mr. Fielding has given notice of a resolution to amend the Government General-in-Council to limit the manufacture of machinery not made in Canada, and to limit the manufacture of ships; also such parts in the manufacture of ships as cannot be manufactured in Canada.

Municipal Amendments

Aldermen at Council Meeting Object to Proposed Radical Changes.

And a Conference With the City Members Will Be Held.

At the weekly meeting of the City Council last evening the principal subject discussed was the proposed legislation to amend the Municipal Act.

The new by-law to prevent wood cutting on the streets of the city and to prevent piles of wood being left in the streets, was passed through all its stages but one.

The Craigflower by-law also came up, but the further consideration thereof was postponed until a later date.

Mayor Hayward presided, and there were present Ald. Barnard, Vincent, Worthington, Graham, McCann, Yates, Cameron, Williams and Kinsman.

MUNICIPAL LEGISLATION. Mr. H. D. Helmecken, M.P.P., wrote to the council enclosing copies of the proposed amendments to the Municipal Act.

Mr. Helmecken drew the attention of the council to items 135 and 136 of the estimates, and pointed out that Mr. Curdie's bill to amend the Municipal Act contained matters of some importance to the council.

Ald. Cameron thought the city should have a special charter. He did not approve of the legislation interfering with the municipal affairs of the city.

The Mayor said that he thought the council should give some consideration to the bills in question. The bills proposed radical changes in the municipal government.

Ald. Barnard pointed out that neither of these bills came from the Municipality committee. He agreed with the Mayor's suggestion that the council should move in the matter.

Ald. Yates strongly opposed some of the proposed amendments in the bills, and on the motion of Ald. McCann, it was decided to hold a meeting on the following morning to discuss the subject and arrange for a conference with the representatives of the city in the matter.

A petition was read from Mr. W. T. Hardaker and others asking that the rates for the year 1902 be reduced to \$100 per acre, and that the amount of the rates be reduced by other taxes.

Ald. Cameron drew attention to the fact that the rates for the year 1902 were higher than for the year 1901, and that the amount of the rates was reduced by other taxes.

General Freight Agent and Auditor of Kettle Valley Lines Wanted.

Examination So Far Shows Deficiency in Books to Large Amounts.

Left Grand Forks For Republic and Have Since Disappeared.

From Our Own Correspondent.

Grand Forks, April 21.—A rumor has been current for several days to the effect that T. E. B. and Col. W. C. Hayward, general freight and passenger agent and auditor, respectively, of the Kettle Valley lines, are short in their accounts. They left here together about 10 days ago and their present whereabouts is unknown. Tonight it was positively ascertained that the result of an expert examination of the railway books, a large defalcation has been discovered. The amount is nearly \$8,000, and other accounts have yet to be examined. Two expert accountants have been making an examination of the books for nearly a week. They had not proceeded far before they ascertained that a systematic plan for falsifying the books had been practised for months past. Birbeck was formerly in the employ of the C. P. R., and before leaving town with Hayward, announced that he had voluntarily resigned his position to accept a larger salary from his former employers. Hayward was at one time in the employ of the C. P. R. in Seattle, Victoria and Vancouver. It has been learned that the men left Grand Forks in a motor car, and were conveyed to Republic. After staying there several days, they proceeded to Spokane via the Kettle Valley stage route. When asked about the shortage, W. C. Morris, assistant general manager of the C. P. R., said that he would probably make a statement at a later juncture.

C. P. R. EMPLOYEES.

Meeting of Conductors and Trainmen Regarding Schedule.

Winnipeg, April 21.—(Special)—The brotherhoods of C. P. R. conductors and trainmen held a meeting on Sunday, and further discuss the new schedule. The members are very reticent in discussing their business, but it is known that many of their number are desirous of having the clause referring to the auditors powers eliminated from the regulations as they are considered humiliating. The various branches of employees are in the nature of a strike, and so drawn up a new schedule, which they have submitted to their employers.

THE DAY IN PARLIAMENT

Yukon Elected Councillors to Be Increased—Rifle Practice For Schools.

From Our Own Correspondent.

Ottawa, Ont., April 21.—Hon. Clifford Sifton today introduced an amendment to the Yukon Act, which would increase the number of elected members of the Yukon Council from three to five. The remaining five are appointed members.

Mr. Morrison was informed there were 35 telephone companies in Canada, whereof 14 operated as distinct concerns. The total mileage is 94,344.

Mr. Laurier stated that the government had received many communications from boards and similar organizations in favor of preferential trade. The Premier also stated that communication had been received from the Canadian and the Imperial government with reference to the subject of the exemption of lumber from the Imperial tariff, but it was not desirable to discuss the matter at the meeting of the coronation conference.

A resolution was proposed by Col. Hughes, asking that the young men of Canada should be allowed to practice target shooting, and that a sum of money be provided to schools for this purpose.

Hon. Dr. Borden said schools were under provincial jurisdiction, and for that reason the resolution should not be pressed. He intended to take up the matter with the provincial authorities at the close of the session. The motion stood over.

Mr. Ralph Smith introduced a bill to amend the Alien Labor Law, which provides that the law shall be enforced by the Minister of Labor, instead of the Minister of Justice.

Premier Tweedie is here to press the government to refer the fisheries question to the judicial committee's decision, and to award with interest. The amount invested is about ten millions. Mr. Tweedie is going to the coronation.

THE ATLIN COMMITTEE.

Mr. Savers Not Being Ready to Proceed Morning is Wasted.

(Wednesday's Daily Colonist.)

The select committee appointed to inquire into the charges against Mr. J. D. Graham, gold commissioner of Atlin, met yesterday morning at 10 o'clock. Mr. Savers, who is appearing before the committee to support his allegations that Mr. Graham bought two small buildings for the government hospital at an exorbitant price, and that he was interested in the buildings in question, kept the committee waiting some time before he put in an appearance. When he did arrive on the scene he refused to examine any more of his witnesses until Mr. Dunsminster gave evidence in regard to certain dates.

This led to a brief passage at arms between Mr. Savers and those concerned in the case. Mr. Savers was very anxious that the time of the committee should not be wasted unnecessarily. Mr. Savers immediately assumed an attitude similar to that of Mr. Smith Curtis at the royal commission, and those concerned in the case in his own way, or know the reason why he should not. When the Hon. James Dunsminster arrived the date and facts required from him by Mr. Savers were not forthcoming. The Premier could not give evidence, but Mr. Savers stuck to the date of the sitting of the Atlin royal commission, and other matters.

Mr. Savers, after apologies for keeping the committee waiting, stated that Mr. Dunsminster arrived at 10 o'clock, and that the date of the sitting of the Atlin royal commission, and other matters.

Mr. Savers said that he could not see his way to continuing Mr. Dunsminster's evidence, and that he had visited the Atlin mines. He would not be put to a disadvantage by the committee.

The members of the committee present were Mr. Dunsminster, Mr. Graham, Mr. W. W. D. McInnes and Mr. Stables also stated that Mr. Savers had been in his own way, or know the reason why he should not.
