The Kentucky Derby candidates are receiving much attention from the local sports, and as the weather has been fine this week these candidates have been given some strong work. Ceawood worked 1½ miles in 2.184, making the mile in 1.491. The Lion made the same distance in 2.164, the last mile of which was run in 1.49, Antorat worked 1½ miles 2.16, finishing easily. Montpelier worked a mile in 1.47, and later in the week 1½ miles in 2.183, the first mile of which has attracted the most attention and caused the greatest amount of comment was that done by the Melbourne, stable's Gallifet. He covered a mile in 1.494. The last half of which was merely cantered. The old trainers, who saw the performance, have no hesitancy in saying that he could have gone the distance in 1.45, although he had his shoes on and a heavy boy on his back. He greatly resembles Hanover when in motion, and if the colt should not go wrong it is safe to any that the Loxington boys will sland to go backe on Gallifet.

The Cardwell Vacancy.
The feeling in Cardwell is altogether in favor of a local man. The Conservative con-

William Stubbs of Charleston publishes a letter in The Dufferin Post (Orangeville) that he will abide by the decision of the Mono Mills convention as far as a local man is concerned, "but if an outsider is chosen, particularly a man outside the province, I will not consider myself bound by said convention." tion."

The Alliston Herald mentions' John Kelly of Adjaha and Squire Wilson of Mono and Mr. J. C. Hart.

Dufferin Post: The cleverest man in Cardwell is Mr. Wm. Algie of Alton. He is a Conservative, and would make a splendid representative, but his agnostic principles would knock him cold.

The Shelburne Free Press names Mr. W. L. Walsh. L. Walsh.
Mr. A. F. Campbell of The Brampton
Conservator is also named as a candidate.
Mr. S. Ewing of Mono is spoken of as the
Reform candidate.

Doings at Osgoode Hall. Deings at Osgoode Hall.

The great Barber will case was closed at
Osgoode Hall yesterday afternoon and the
witnesses are again back at their farms.

In Chief Justice Galt's court H. Dorenwend, hair dealer, and John C. Walton,
barber, aired their little disagreements. They harber, aired their little disagreements. They keep adjoining stores on Yonge-street and Dorenwend put up a glass partition between the shop doors. Walton says that through this glass ladies going into his shop are an acyed and consequently put a sheet iron sheathing on his side of the glass. Dorenwend asked for an injunction preventing Walton from interfering with the partition. The motion was enlarged for a week.

"In the Dog Days," The custom of going a "seven days journey" some distant watering place is rapidly going out of fashion. The fathers, husbands and brothers prefer some resort where they can spend the time with their families othercan spend the time with their families otherwise occupied on the railroad. Toronto again leads the van and its citizens have to thank the projectors of "Long Branch" for a summer resort which is unrivalled in Canada for its many advantages. This park is almost within walking distance of the city. It has a fine hotel with first-class appoint sents, good picnic and camping grounds, we best residential lots of any similar resort in Canada and some of the prettiest summer residences to be seen anywhere. About thirty new ones new being erected. For rates, fares, hotel charges and full particulars, office, 61 Adelaide-street east.

reet east. On May 7 the Royal Canadian Academy Arts' Exhibition will be opened in the Granite Rink, Church-street. The exhibition promises to be one of the most attractive yet held, for in addition to the splendid paintings, many of which will be shown in Toronto for the first time, there will be stereopticon illustrations of architecture, sculpture, minerals, old English masques and numerous curiosities. An art fair will also be held and as there will be high class music, vocal and instrumental, with refreshments after the old English hostelry style, a rare treat is guaranteed for all who visit the Granite Rink during the exhibition.

Service of Praise. Last evening a large congregation attended the musical service of praisehold at the Church of the Redeemer under the direction of Mr. Schuch. Mrs. Agnes Thomson gave a broad Schuch. Mrs. Agnes Thomson gave a broad and artistic rendering of "Angels Ever Bright and Fair." Miss Langstaff sang a solo, "O Saving Victim," in excellent style, and Mr. Schuch sang "Bnt Who May Abide," from the Messiah, with dignity and expression. A quartet, "Come Unite Him," by Faure, sung by Missos Campbell, Langstaff, Grundy and Mr. Schuch, was exceedingly well rendered, and with several anthoms by the choir, comprised the vocal program. Mr. Percy V. Greenwood and Mr. Fairelough played several organ solos.

Robert Oochran received this despatch from his New York agents to-day:

New York agents to-day:

New York May 4.—The feeling up-town last night was somewhat bullish. It was conceded on all sides that buving during the day has been as good as at any time since built fever set in. Observing brokers said that such actions were always attributed either to Gould or to Cammack. I esterday the story was that Gould favored a set back of several points simply because on the first rise he had not gathered in sufficiently large lines to warrant his taking hold of the market for the ultimate improvement which he looked forward to. It was noticeable, however, that during the day his brokers had unlimited orders in W.U., M.P. and Tx. At the close of the market his friends made no secret of the fact that they had been buying for their principal, and said "there is no mistaking Gould's position in the market." Russell Sage said last night: "I regard the reaction as the most healthy thing that the MILERBOOKHE DECKSON & CO. WALL STREET GOSSIP.

of \$1,181,623,855, a decrease of \$97,795,88i within ten months. During that period the treasury receipts exceeded expenditures \$87,000,000 and net cash on hand increased \$70,000,000.

Leading domestic money markets continue easy and loan rates low; tunds tend towards the larger cities. The acceptance of \$10,455,150 of the \$22,659,600 bonds offered the Secretary of the Treasury within two weeks have emphasized the feeling of case.

The New York stock market continued to advance till Wednesday, when reaction or weakness in London and renewed bear solling depressed prices a little. The feeling, however, is that as long as bond purchases continue the current of speculation will run on the buil side. Since April 2 the extreme advance in twenty active stocks has been ten points.

Nothwithstanding the activity in building operations during the past season, the demand for houses is greatly in excess of the supply.

With the erection of New Parliament Buildings and Victoria University in the Queen's Park, and Upper Canada College north of the city, this locality is sure to become more popular for residential purposes.

# ARRESTED FOR CORSPIRACY. Deep-laid Piet to Cause the Beath of a Young Woman. Boston, May 4.—Last evening Chief Inspector Hancom and Inspectors Gerraughty. Houghton and Collins arrested Luke W. Holman, a real estate broker of Washingtonstreet, on the charge of compiracy to cause the murder of Miss Emeline B. Holman of Worcester. In December Holman's father died leaving property valued at \$25,000. Miss Holman, who is a half-sister to Luke, was appointed executrix and Mr. Holman was to be allowed the use of \$7000. Miss Emeline was keeping company with a gentleman and Mr. Holman thought the two would be married and that the property would be squandered. To present this Holman conceived the the dies of either murdering his sister himself or gatting some one to do so. Holman has two residences, one at the Aldine House on Court-street, this city and one at No. I Golden-street, worcester. He could not nerve himself to do the deed and came to Boston in search of some one who would carry out his plans. He found a man who agreed to get another party to do the killing. The man gave the matter away to Chief Inspector Hancem. It was arranged that Holman should visit the party who was to do the job on Boston common on May I. Holman was promptly on hand and as own in suspect anything. He said he wanted to have Miss Enseline put out of the way. He told the supposed ruffian where she lived, gave him a key to her room, handed him her picture, told on which side of the bed she generally lay—she having a lady room-mats—and also gave him a plan of the room. He also suggested that as there were three gold watches in the room he had better take them so that robbery would be ascribed as the motive, and he also suggested as a neasy way to kill the woman that a darning-needle be run through her heart. The murderer was to receive \$1000. Inspector Collins agreed to the job and a second meeting was arranged for last evening. Holman was again on hand, and in company with Collins was Iraspector Houghton, who was to act the part of a secon P. CURRAN 92 YONGE ST.

Any thing which debilitates the system, or PREDISPOSING

CAUSES.

Any thing which debilitates the system, or diminishes its powers of evolving animal heat and withstanding cold or sudden changes of atmospheric temperature, and other disease producing agencies, renders the individual thus enfeebled very liable to catarrh. common debilitating agencies are a scrofulous condition of the system, or other impurities of the blood, exhaustive fevers, and other prostrating acute discharges, intemperance, excessive study, adversity, grief, want of sleep, scrofulous and other taints of the system, which may have been inherited, having perhaps been handed down, even unto

COMMON SENSE TREATMENT, -Guaranteed Cure. If you would remove an evil, strike at its root. As the predisposing or real cause of catarrh is, in the majority of cases, some weakness, impurity, or otherwise faulty condition of the system, in attempting to cure the disease our chief aim must be directed to the removal of that cause. The more we see of this odious disease, and we treat successfully thousands of cases annually at the Invalids' Hotel and Surgical Institute, the more do we realize the importance of combining with the use of a local, soothing and healing application, a thorough and persistent internal use of blood-cleansing and tonic medicines.

As a local application for healing the diseased condition in the head, Dr. Sage's Catarrh Remedy is beyond all comparison the best preparation ever invented. It is mild and pleasant to use, producing no smarting or pain, and containing no strong, irritating, or caustic drug, or other poison. Its ingredients are simple and harmless, yet when scientifically and skillfully combined, in just the right proportions, they form a most wonderful and valuable healing medicine. Like gunpowder, which is formed of a combination of saltpetre, sulphur, and charcoal, the ingredients are simple, but the product of their combination is wonderful in its effects. This Remedy is a powerful antiseptic, and speedily destroys all had smell which accompanies so many cases of catarrh, thus affording great comfort to those who suffer from this disease. The reader's mind cannot be too strongly impressed with the importance of combining thorough constitutional with the local treatment of this disease. Not only will the cure be thus more surely, speedily, and permanently, effected, but you thereby guard against other forms of disease breaking out, as the result of humors in the blood or constitutional derangements or weaknesses.

CHIEF
RELIANCE

In curing catarrh and all the various diseases with which it is so frequently complicated, as throat, bronchial, and lung diseases, weak stomach, catarrhal deafness, weak or inflamed eyes, impure blood, scrofulous and other taints, the wonderful powers and virtues of Dr. Pierce's Golden Median-ceffect upon the lining mucous membranes of the nasal and other air-passages, promoting the natural secretion of their follieles and restoring it to its natural, thin, delicate, moist, healthy condition. As a blood-purifier, it is unsurpassed. As those diseases which complicate catarrh are diseases of the lining mucous mem-

branes, or of the blood, it will readily be seen why this medicine is so well calculated to cure them.

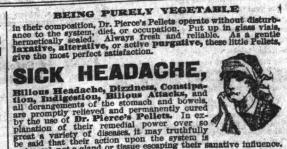

The Golden Medical Discovery is the natural "helpmate" of Dr. Sage's Catarrh Remedy. It not only cleanses, purifies, regulates, and builds up the system to a healthy standard, and conquers throat, bronchial, and lung complications, when any such exist, but, from its specific effects upon the lining membrane of the nasal passages, it aids materially in restoring the diseased, thickened, or ulcerated membrane to a healthy condition, and thus eradicate the disease. When a cure is effected in this manner it is permanent. The system is so purified, regulated, and strengthened, as to be strongly fortified against the encroachments of catarrh and other diseases. The effects of the Golden Medical Discovery upon the system will be gradual, and the alterative changes of tissue and function generally somewhat slow. They are not, however, less complete, radical, and lasting; and this constitutes its great merit. Under its influence all the secretions are aroused to carry the blood-poisons out of the system, the nutrition is promoted, and the patient finds himself gradually improving in fiesh; his strength is huilt up, his lingering aliments dwindle sway, and by and by, he indis his whole person has been entirely renovated and repaired, and he feels like a new man—a perfect being.

Both Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy are sold by druggists the world over. Price of Discovery \$1.00, or six bottles for \$5.00. Price of Dr. Sage's Catarrh Remedy & Cents; half-dozen bottles \$2.50.

A complete pamphlet Treatise on Catarri, giving valuable hints as to clothing, diet, and other matters of importance, will be malled, post-paid to any address, on receipt of a 2-cent postage stamp.

How wine-bibbing has grown of late years among our girls only an old rounder like myelf, or the head of the house who foots the bills, can understand. It is something perfectly shocking, and the weddings, receptions and blow-outs in general are few that do not wind up with almost an orgie among the late ones. Why, at one of these affairs the other night I saw a young woman, who is now in her

wind up with almost an orgie among the late ones. Why, at one of these affairs the other night I saw a young woman, who is now in her accord season out, stand up at the table and drink her pint of Perrier Jouet out of a roblet. "Ain't she a thoroughbred?" exclaimed young Ducats, who stood by sier. And the silly girl was ready to dash off another bumper of the same size. On all sides were young women drinking their wine, and not a few of them showing in their flushed faces and flashing ayes the effects of their tippling.

This, be it remembered, was in one of the most fashionable houses in this city, and whatever was thought, not one word of remonstrance was uttered while the scene ran on. I am told that at another gathering of a recent date the wine was so plentiful and the license so general that some of the young women in their exaltation endeavored to climb up the tent-pole of the marquee in which the supper had been spread. I am told, further, that on another occasion, when the women went upstairs to put on their wraps preparatory to going home, some of them were unable to find their way out unassisted. Ramember, all of these scenes took place not at gatherings of sirens on the Coast, but at so cial assemblages in the houses of "our best society." How much of drunkenness there may be in private among young women I do not attempt to say, but if these public exhibitions narrated are an evidence of a certain predilection, it may be conjectured that the curse is widespread. Have I spoken too plainly on this awful subject? Have I said more than can be vouched for by those who have kept their eyes about them? I think not.

Six Years on Their Bridal Journey.

From The Abdany Argus.

Speaking of bridal trips, I mot a couple last week with whom I had a slight acquaintance, who beat the record for the longest bridal trip, perhaps, that has ever been made. Mr. George Sigourney married Miss Imogene Henriques in Buffalo in 1882. Mr. Sigourney is the son of a wealthy Californian, while Miss Henriques' parents, though not rich, were in comfortable circumstances, and lived in a small town near [Buffalo. What led to the attachment I do not know, but it is said it was love at first sight, with a speedy marriage. The cards read after marriage: "Mr. and Mrs. Sigourney. At home, Thursdays, in Sacramento, California, beginning May 10, in the year 1888." From 1882 to 1888 is a long time to catch them "at home," but they have been upon one perpetual bridal trip for six years, seriving in New York last Monday. Five days after their marriage they were upon the high seas, bound for England, Mr. Sigourney had plenty of money, and going over, planned a six years' trip with his young and pretty wife. When they reached London, both wrote home to their parents that they would not be back for six years, and Mr. Sigourney made afrangements with his banker to forward their mail wherever they might be. After going through England, Ireland and Scotland, they fairly covered every point of interest in France, Germany, Italy, Prussia, Austria and Russis. They visited Greece, Demmark, Rome, Turkey, China, Japan, sailed along the Nile, visited the Canary Islands, Borneo, New Guinea, Persia, and spent a year traveling through Asia.

Maine Relaysing into Heathenism.
The Lewiston (Me.) Journal finds as the cesult of an elaborate investigation that one-third of the churches in Maine are closed on account of lack of support, and that one-half the people of the state are non-church goers. The returns show that out of 1,362 churches in the state 417 are vacant. Out of the vast collection of excuses it is tound that spite and personal differences are the foundation for much of the absenteeism. The following figures show how the various denominations are affected: Congregational 156 with pastors, 76 vacancies. Baptist 121 with pastors and 89 vacancies; Free Baptist 159, 81 vacancies; Methodist 279, vscancies 38; Universalists 35, vacancies 56; Quaker, 8 churches open, 4 closed. Christian, 43 churches open, 12 closed; Epsacopalian, 29 open, 8 closed; Catholic, 48 open and 8 closed; Advent. 15 open, 16 closed; Unitarian, 16 open, 3 closed. An Old-Fashioned Schoolma'am.

From The Leviston (Ms.) Journal.

A correspondent of The Oxford Advertiser tells how Sarah Wrights of Bethel, taught one of the first schools in Mason. The school was kept in a room of John Everett's log house, and Miss Sarah quickened the wits of the boys and girls with a good beech withe. She always prayed in the morning, and woe to the luckless wight who didn't behave with decorum. She would get up in the middle of a prayer and chastise any scholar that laughed or played.

"Brutal, did you say?" exclaimed the poet, and then, with the twinkle in his eye which is always the sign of something bruth and the property of the state of in his eye which as always the sign of something bright and bharacteristic to come, he added: "Why, bless your soul, man, next to making love, boxing is the tenderest thing in the world."

The Musical Opinion and Music Trade Review, published in London, Eng. April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLINDIES EXHIBITION, has the following:

Referring to Piano Fortes of Messrs. Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called as follows: "I much regret the more important instruments exhibited by this firm upon to make a report, all the more important instruments exhibited by this firm the make a report, all the more important instruments fully justified that had been SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the time was full and rich. I also tried a specimen style No. 9, which was
