Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

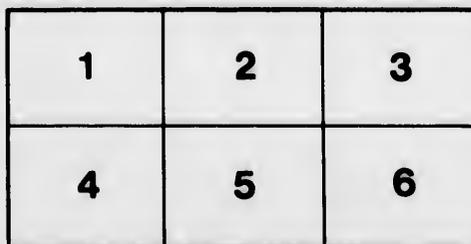

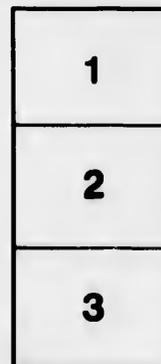

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

[ESTABLISHED 1782.]

UNLIMITED LIABILITY

*For Insuring Every Kind of Property in all Parts of the
World from Loss or Damage by Fire.*

The promptitude and liberality with which its engagements are always met by this Company are well-known, and the importance of its relations with the public may be estimated from the fact that since its establishment it has paid more than Nineteen Million Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phoenix Office is unlimited, comprising in addition to a large invested capital of the Company, the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurance are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt Cash Payments and full power to settle all losses and claims without referring to the Head Office in London.

Rates and particulars of Insurance may be had on application to

PREFACE.

IN PRESENTING our readers with the present edition of the **BRITISH COLUMBIA DIRECTORY**, we have to inform them that since the last issue the business and publication of the same has passed into other hands, and will in future be known as **The Williams Official British Columbia Directory Company (Limited.)** The late proprietor, having found that, owing to the rapid growth of the Province, and the corresponding increase of labor entailed thereby, necessitated the changing of the business into a company, on the same lines as the Seattle and Tacoma directory companies.

It will be seen that in the present issue a change in the general features of the book has been made from those of previous editions, which the Company has deemed necessary, owing to the increased population of the various cities and outlying districts of the Province, obliging them to follow similar measures as the publishing companies of the Ontario and other provincial directories, by introducing a smaller type thereby making the volume less unwieldy, and more convenient for dispatch by mail.

We have, during the past year, been much gratified and encouraged in our efforts to advertise, through the medium of the Directory, the resources of the Province, which have called forth numerous enquiries from influential persons, seeking information regarding the iron mines and other products of the country, the result of which it is hoped will be to induce enterprising capitalists to invest their money in some of the many British Columbia's profitable industries. The securities of the Province we may mention are held in high esteem, by investors generally in the great money marts of the world, which of itself is a most excellent indication of the value placed by others on the future prosperity of the country.

We desire to tender our thanks to the various persons throughout the Province who have kindly placed at our disposal any information which has aided us in making this work a success.

The Williams Official British Columbia Directory Co., Ltd.
Victoria, B. C., January, 1893.

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and ninety three by F. L. NEALE, Secretary and Treasurer, in the Office of the Minister of Agriculture at Ottawa.

The Daily News-Advertiser.

VOL. XI.
No. 150.

VANCOUVER, B.C., MONDAY, DEC. 26, 1892.

WHOLE No.
2117.

F. C. COTTON,

Managing Editor.

THE NEWS-ADVERTISER is an eight page daily paper, and is the pioneer newspaper of the thriving city and growing metropolis of Vancouver. It is the only daily morning paper published on the Mainland. The foreign advertising agencies and local advertisers recognize the superior value of THE DAILY NEWS-ADVERTISER in its position as the best medium by which the purchasing public can be reached.

Subscription, \$8.00 per year.

The Weekly News-Advertiser

Has a large circulation throughout the Province and also a great number of readers in the East. The subscription price is \$2.00 per year. A year's subscription to THE WEEKLY NEWS-ADVERTISER Would be a neat and appropriate way in which to Keep your friends in Eastern Canada and England Posted on the progress and prosperity of the Province

MAPLE BAY.

POSTMASTER, WALTER MORLEY

In the Dominion Electoral District of
 of Vancouver and the Provincial of
 Cowichan. Nearest express and
 telegraph office's E & N Ry, distance
 Six miles. Steamer from Victoria
 40 miles. Fare \$2.00. It is a pretty
 place and one standing on the land.

ing at Maple Bay cannot be other
 wise than be impressed with the
 general appearance of the place.
 The hills of Salt Spring Island give
 a prominent foreground to the pic-
 ture while the ever picturesque hills
 of Vancouver Island stretch a way in
 the distance, both to the north and
 south. There is one hotel, one gen-
 eral store, one Methodist, one Episcop-
 alian church and a public school.
 It has communication by steamer
 population 150.

NEW DENVER.

POSTMASTER, WM HUNTER.

A postal settlement in the Dominion
 Electoral district of Yale-Kootenai
 and Provincial of West Kootenai
 28 miles from Nakusp. The principal
 industry of the place is mining.
 Nearest telegraph, express office and
 banking point, Nelson. There are
 two general stores, and one clothing
 store, and three hotels, but no
 churches or schools; mails once a
 week; communication by passenger
 trains and boat, also by stage every
 four days to Nelson, and every
 days to Naskup. Population about
 50.

KASLO CITY, B. C.

In the Provincial Electoral District of West Kootenay and Dominion of Yale Kootenay. Is situated on the west side of Kootenay Lake, at the mouth of the Kootenay River, about 35 miles from Nelson, 10 miles from Ainsworth and about 18 miles from Pilot Bay, where the Hendryx Smelting Works are located. The famous Kaslo and Sloan Silver Mines lie west about 15 to 20 miles. The city lies almost level, gently sloping from the lake. An excellent harbor affords ample shelter for shipping. An abundant supply of pure water is furnished from the Kaslo River. This prosperous and rising little town which is situated in the centre of the Great Kootenay mining district promises ere long to become one of the most important cities of the Province. Nearest telegraph, express and postoffice, Nelson; 35 miles distant. The prin-

Sow the Seeds of Success

And You Will Surely

Reap a

Reward at the

Reckoning

EVERY Business Man is the farmer of his own fortune. The harvest he reaps is the fruit of his own sowing. Successful, it is due to his own perseverance, integrity, industry and attention to details, and if unsuccessful, the absence of these qualifications is too often the cause.

If properly and carefully sown there can be found seeds so productive nor none so sure in securing a bountiful harvest of gold as the Seeds of Judicious Advertising.

The field requires careful cultivation. It is a large one and there are many dry and barren spots that must be avoided.

Practical farmers in the Vancouver Field know that their business enjoys a luxuriant growth when their advertisements are planted in the columns of

The Daily World.

PROVINCIAL INFORMATION.

PROVINCE OF BRITISH COLUMBIA.

British Columbia, which has the general shape of a parallelogram 700 miles long and 500 broad, contains a superficial area of about 350,000 square miles, and is one of the most important provinces in the Dominion of Canada, both from a political and commercial point of view, sprang into existence as a colony in 1858, consequent on the gold discoveries, the honors of which in that year suddenly attracted numbers to its shores. Previously it had been traversed and practically occupied only by Indians and fur traders, first of the Northwest and afterwards of the Hudson's Bay Companies.

The surface of the country between the Rocky Mountains and the Pacific Ocean may be divided into two subordinate mountain districts, flanking either side an irregular belt of high plateau country, which extends with an average width of about 100 miles. The large islands of Vancouver and Queen Charlotte shelter the mainland west. In the extreme north of the province the mountains generally, except those of the coast range, diminish in height, and the surface is a gentle northerly and northeasterly slope. The Rocky Mountains rise abruptly at their eastern base on the plain or prairie region of central Canada. They are composed of a number of more or less nearly parallel ranges, which have a general

direction a little west of north, and a breadth of over 60 miles. Between the 51st and 52nd parallels the ranges decrease rapidly in height.

The province that has been lightly spoken of as a "Sea of Mountains," deriving a certain majesty from its isolation, is now traversed by a railway, accurately described as the highway between Liverpool and Hong Kong.

In 1881 the Canadian Government entered into a contract with a syndicate of capitalists to build a railway from Ontario to the Pacific Ocean, and to complete and operate it by the year 1891. An act of Parliament was passed embodying the contract with the syndicate, a company was organized and work was immediately commenced and prosecuted with such vigor that the last rail in the gigantic railway that now binds British Columbia to the Eastern Provinces of Canada was laid in November, 1885, six years before the time stipulated in the contract between the Government and the Company. The completion of this magnificent line, the longest under one management in the world, was the dawn of a new era on the North Pacific Coast, and now allows the current of trade to flow uninterrupted between the Atlantic and the Pacific.

This road has pierced the successive ranges of the Rocky Mountains, Sel-

 Refining and Smelting Ores.

kirk, gold ranges, etc. It has penetrated the then unknown country on the north of Lake Superior and opened a way from ocean to ocean. The busy life that teems on either side of the Atlantic already surges towards the west, impatient to reach the latest wealth of the Western provinces, and to seek on the shores of the Pacific new fields for its enterprise and capital.

The voyage from London to Yokohama has already been made in 21 days via the Canadian Pacific Railway, and this time will be still further reduced. It will soon be the highway to Australia. Vancouver, the Pacific terminus of the Canadian Pacific railway, is the point of embarkation for Japan and China in the new and shortest highway to the Orient. This great

RAILWAY LINE

Is not only the shortest across the continent of America, but has the easiest gradients and the lowest pass through the Rocky mountains. The distance from San Francisco to New York by the Central Pacific is 3,390, while that from Vancouver to New York via Montreal is only 3,241 or a difference of 149 miles. And from Vancouver to Liverpool via Montreal, 6,075 miles, while from San Francisco to Liverpool via New York it is 6,830 miles, or a difference in favor of the Canadian route of 765 miles. From Yokohama, Japan, to Liverpool via the Central Pacific railway is 12,038, and via the Canadian Pacific 10,936 miles. It will thus be seen that from China and Japan this route to Liverpool is more than 1,000 miles shorter than the one by the Central Pacific; and from its geographical relations to the ocean trade of the east and west, gives it a commanding influence upon the commerce of the continent.

British Columbia stands today with doors wide open, inviting the

ENTERPRISING CAPITALIST,

The enlightened farmer, the skilled artisan, the frugal and industrious laborer, and all who understand the use of hands and brains, to enter and participate in the work of developing her resources, increase her budding

industries, and make for themselves homes where they may enjoy the comforts, and, in time, even the luxuries of life. Nor is this invitation extended to the subjects of Great Britain alone, for the intelligent, industrious and law abiding of every nation will meet with a cordial reception, and will find his rights of person and property as well, and often better protected than they were in his native land. Citizenship, with all its rights, privileges and honors is conferred upon the deserving of every race, those who declare their allegiance to Her Majesty, the Queen of England, and conform to the liberal laws of naturalization. Desirable as this is for the mutual welfare of the individual and the Province, it is by no means necessary, full and complete security of property and person and protection in the transaction of business being accorded to all.

VANCOUVER ISLAND.

This is the largest island in British Columbia, being about 300 miles long with an average breadth of about 50 miles, and contains an estimated area of from 12,000 to 20,000 square miles. The two ends of Vancouver Island are, comparatively speaking, flat, but there are mountains in the interior ranging from 6,000 to 8,000 feet of the highest ridges. The interior of the island, still unsettled at any distance from the sea coast, is largely interspersed with lakes and small streams. The surface is beautifully diversified by mountains, hills and open prairies, and the East Coast, which is pretty thickly settled, the soil is so good that great encouragement is offered to agricultural settlement. In other parts the soil is light and of little depth, but it is heavily wooded. One of the sources of wealth in the province, namely, coal mining, is pursued on the East Coast. The chief centre of this important industry is Nanaimo, which, for its beautiful scenery and surroundings, is one of the prettiest towns in the mining world. The principal collieries are owned by Messrs. R. Dunsmuir Sons, and the Vancouver Coal Company, who export a large quantity of coal to San Francisco, where it realizes

much higher price than the home article, on account of its superior quality. There are some new mines opened at Comox, which is situated about 50 miles to the northeast of Nanaimo. These will no doubt, in time, have an output equal to that of their older rivals. The north part also is supposed to be very rich in coal, and a large quantity of land has lately been applied for by Victoria capitalists in the vicinity.

The other principal resources are fishing, lumbering and mining. In the inland lakes, and in the indentations of the coast, there is a plentiful supply of fish and a fair variety of game on shore.

The coast line, more particularly on the west side, is broken by numerous spits of the sea, some of which run up to the interior of the island for many miles between precipitous cliffs, backed by high and rugged moun-

falling into the frozen Arctic ocean. The Columbia, also rising in the Rocky mountains, runs due north beyond the 52nd degree of latitude, when it takes a sudden turn and runs due south, entering the United States in latitude 49 deg., when, after a course of nearly a thousand miles further, through the State of Washington, it falls into the Pacific in latitude 46 deg., 20 min. The Fraser river, comparatively the smallest, but in its relation to the Province by far the most important, flows entirely through British Columbia, entering the Gulf of Georgia a few miles north of the boundary line of 49 deg. The other great streams of the interior are Thompson river, entering the Fraser from the east, and the Okanagan and Kootenay, the last two having very eccentric courses. The Kootenay having its source in the same region as the Columbia, makes a long sweep

ns, which are clothed in fir, hemlock and cedar. At some points are sheltered bays, which receive small streams, watering an open gladed country having a growth of wild flowers and grasses, the white clover, sweet grass, cowslips, wild timothy and a profusion of berries.

The scenery of Vancouver Island is exceedingly varied and picturesque. The general climate is mild and resembles greatly that of the south of England.

RIVERS AND HARBORS OF THE PROVINCE.

The three principal rivers of British Columbia are the Columbia, the Fraser and the Peace, the latter passing towards the angle formed by the Rocky mountains and the Coast Range and entering the Northwest Territory, joins the great Mackenzie river, and the united flood, after a course of some 2,000 miles, eventually

to the south, crossing the boundary line and returning again, discharges its waters into the Columbia. One peculiarity of this region is that nearly every stream of consequence has its origin in or passes through one or more long narrow lake, consisting in many places of simply a broadening of the river, and at others, a well defined lake of considerable area. Such are Shuswap lake, whence flows the Thompson and Lake Kamloops through which the same stream passes; also Upper and Lower Columbia, and Upper and Lower Arrow Lakes, along the course of the Columbia and Lakes Kootenay and Okanagan, features of the streams thus named.

Of the many unrivalled harbors in British Columbia the principal is that at Esquimalt, which has long been the rendezvous of the English squadron in the North Pacific. It is situated at the south end of Vancouver island on the eastern side and can be ap-

proached in foggy weather by means of soundings, which are marked on the admiralty chart, for a considerable distance seaward, an advantage possessed by very few anchorages and with the exception of Burrard Inlet, at the terminus of the Canadian Pacific railway, by no other large harbor on the coast. The harbor is about three miles long, and something under two miles broad in the widest part. It has an average depth of six to eight fathoms, and affords excellent holding ground, the bottom being a tenacious blue clay. The Canadian Government have built a dry dock at Esquimalt to accommodate vessels of large size. Its length is 450 feet, and 90 feet wide at the entrance. It is built of concrete, faced with sandstone, and was nearly three years in construction. At the northern corner of the harbor and bearing the same name, Esquimalt, is a small town the nucleus of which are some British Government buildings, consisting of a naval hospital, an arsenal and other dock yard buildings. In the immediate vicinity of these the town has arisen. There are two churches, a public school, two or three hotels or inns, and a number of residences and business buildings.

Esquimalt is only three and a half miles from Victoria by land, and is connected with it by an excellent macadamized road and an electric tram service.

Next in importance are the English Bay and Coal Harbor, at the entrance of Burrard Inlet, a few miles north of the Fraser River. Vancouver, the terminus of the Canadian Pacific Railway, is situated between these harbors. The Fraser River, which is navigable for river boats to Yale, a small town 110 miles from the mouth, and larger vessels, drawing 20 feet, can ascend to New Westminster, situated about 15 miles from the mouth. Port Essington, at the mouth of the Skeena, which promises to be much used for the northern gold field traffic, and Waddington harbor, at the head of Bute Inlet, said to be the natural outlet for a large tract of valuable country in the interior. In addition to these may be mentioned the Victoria,

Nanaimo, Barclay Sound, Winter Harbor and Queenstown Harbor of Vancouver Island; and Vancouver Howe Sound, Bute Inlet, Milbanck Sound, River Skeena, River Naas and Port Simpson on the mainland. These harbors are all easy of access, sheltered and capacious, but their relative merits have all been duly weighed and all have been discarded in favor of the harbors in Burrard Inlet, which have been adopted by the railway. For the coast trade the other harbors, however, are most valuable and give distinctive value to the province, which the course of events on the North American continent are every year making more apparent.

THE COAST LINE

Is the most wonderful in the world. The mountains border closely upon the sea, the shore being indented by multitude of bays and inlets, fringed by countless small islands, between which run tortuous, but safe navigable, channels. Outside of the land protecting these inland channels for nearly the entire length of coast, are a series of large islands, the greatest and most southerly of which is that of Vancouver, on which the City of Victoria is situated. In referring to this peculiarity, the Earl Dufferin, at that time Governor General of Canada, said in a speech at Victoria:

"Such a spectacle as its coast presents, is not to be paralleled by any country in the world. Day after day for a whole week, in a vessel of no more than 2,000 tons, we threaded an interminable labyrinth of watery lanes, which reaches that would endlessly in out of a network of islands, peninsulas and promontories for thousands of miles, unruffled by the slightest breeze from the adjoining ocean, and presenting at every turn an ever-shifting combination of rock, verdure, forest, glacier and snow-capped mountains, unrivalled grandeur and beauty. When it is remembered that this wonderful system of navigation is equally well adapted to the largest line of battle-ship and the smallest canoe, fringes the entire seaboard of your province and communicates

COAST LINE

onderful in the wos border closely upre being indented by bays and inlets aentless small islands, an tortuous, but safeannels. Outside of thet these inland channeentire length of ries of large islands, most southerly of whncover, on which ria is situated. In peculiarity, the Ear that time Governada, said in a spe

ectacle as its coast t to be paralleled by e world. Day after eek, in a vessel of ne threaded an interh of watery lanes, wound endlessly in work of islands prominsins for thousand by the slightest sming ocean, and presy turn an ever-shif of rock, verdure, fnow-capped mounta grandeur and be remembered that system of naviga adapted to the late-ship and the frae the entire seaboate and communicate

nts, sometimes more than a hundred miles from the coast, with a multitude of valleys stretching eastward to the interior, while at the same time it is furnished with innumerable harbors on either hand, one is lost in admiration at the facilities for intercommunication which are thus provided for the future inhabitants of this wonderful region."

British Columbia, upon the whole, has been most favored by nature. No wonder that with all her magnificent resources in precious metals, her coal and iron, her inexhaustible fisheries and vast forests, her delightful climate and rich agricultural valleys, her shelterless harbors, and her transcontinental railway, she looks forward to a brilliant future.

THE CLIMATE.

No general description will serve for purpose in speaking of the climate

tween the parallels of 49 deg. and 50 deg. that the great fruit-raising farms of Canada will be located. Apples, pears, plums, peaches, apricots, nectarines, the finer class of grapes, berries of every description, fruits not common to the eastern coast, a profusion of flowers, and all the more delicate vegetables will grow luxurantly, as do all kinds of grasses and flowers of the temperate zones.

Concerning Vancouver Island, it only remains to say in the important matter of climate its inhabitants believe and with some reason, that they enjoy peculiar advantages. They have a mild and even winter, with rain. The annual rainfall is estimated at 45 inches and occasionally snow, early spring, a dry warm summer and a clear, bright and enjoyable autumn. Sometimes the frost is sufficiently hard to permit of skating, but this is exceptional. As a rule flowers bloom

HERBERT CUTHBERT & COMPANY,

ek received from all parts of the Province.

British Columbia, which is one of the greatest attractions of the province.

On the coast it varies considerably from the interior the differences are yet more plainly marked. It may be divided into the southern, middle and northern zones.

On Vancouver Island and the coast of the mainland it is serene and mild, resembling the climate of Devonshire and Cornwall, and from the Charlotte Islands to Alaska the climate of Scotland is closely modeled. April 13th strawberries have been in bloom, and by May 1st they are ripening, spring wheat, potatoes and peas showing well above ground; plains covered with wild flowers and native roses in bloom.

It is on Vancouver Island and in the extensive districts west of the coast range as well as in those in the eastern strip of the province be-

in the gardens at Victoria throughout the year. It is spoken of as England without its east winds. In reality, it is Torquay in the Pacific. Fruits of all kinds indigenous to the temperate climates ripen in the open air and amongst them some that are in England brought to perfection only under glass. Thunder storms seldom break over Vancouver Island. It is this climate combined with the situation of Victoria that makes that city such a pleasant abiding place.

Elevated districts, of course, have the climate that belongs to them, yet agreeable as the steady and dry cold of an eastern winter may be to some there are very many who would undoubtedly prefer the temperature enjoyed by those who live west of the mountains. Even where it is coldest, spring comes in February, and the country is so divided into districts of great dryness, or greater moisture

that a person may always choose whether to have a rainfall small or great.

THE SCENERY.

To convey a proper idea of the marvellous beauty of the scenery of British Columbia in a work of this description would be impossible. Within the limits of the province are crowded all the mountain ranges of Western America, forming a combination of scenic magnificence that is beyond written description. The province excels all others for beauty, and the journey from the extreme eastern boundary to the coast is something that once enjoyed will never be forgotten. Traversing the passes of the Rocky Mountains, and contiguating through the Selkirks and the Columbian ranges, the eye wanders from peak to peak, gorge to gorge, and valley after valley, as they are revealed in endless succession for nearly 600 miles before the Pacific Ocean is reached. On the coast the scenery is softer, but none the less attractive. The natural canals of these tranquil waters and deep inlets of the coast are in some places flanked on either side by precipitous mountains rising sheer out of unfathomable water, and they look like strips of pale green riband curling about between mounds of a darker hue. The summits of these mountains are at one moment visible and at the next hidden in some passing cloud, and down their sides, from points far towards the summits, long lines of silver streaks of foaming water fall into the sea. Between the ocean and these inlets are islands which shield them from the force of any storm, so that a boat may travel for a thousand miles in absolute safety.

POPULATION.

The white population is increasing at a rapid ratio, of this class the majority are of English extraction, coming from the mother country, or some of the numerous dependencies of the Crown. There are also French, German, Italians and representatives of every European nation, as well as many from the different portions of the United States. Apparently incongruous as these elements are, the pre-

ponderance of English influence moulds them into a harmonious whole. Law reigns supreme in the Province. Justice is administered with that flexible integrity which is characteristic of the British courts. Crime is at a minimum, and Lynch law is unknown. In this respect British Columbia offers a favorable contrast with the region south of the international line. Education receives much attention, and most excellent free schools are maintained. There are also higher institutions, for the benefit of those desiring a more extended and liberal education than can be obtained in the public schools. Churches are numerous and well attended, and everything indicates that the people are the moral and intellectual peers of the citizens of those much older communities on the Atlantic slope.

THE INDIAN POPULATION

Which is about 30,000, may seem a source of danger, to one accustomed to peruse romantic Indian literature or to reading of the frequent outbreaks among the native tribes living south of the line. Such is not the fact. The intending settler may depend upon finding the Indians peaceable, intelligent, eager to learn, and industrious to a degree unknown elsewhere among the aborigines of America.

TRADE OF THE PROVINCE.

Though the trade of British Columbia is still unimportant when compared with the extent, resources and immense future possibilities of the province, still it has improved and developed wonderfully during the past few years, showing an increase that speaks volumes for the progress and enterprise of the people. Present exports are fish, coal, gold, skins, fish oil, wool, hops and spirits. A large portion of the salmon, canned and pickled, goes to Great Britain, the United States and Australia. The States and Sandwich Islands consume a large share of the export coal, and great quantities of timber are shipped to Australia and ports in South America. To Great Britain and the United States are sent the valuable furs and peltries of land animals

be much prized seal and otter, etc. China also receives a considerable amount of lumber, timber and furs. Valuable shipments of fish oil, principally obtained from the dog fish at the Queen Charlotte Islands, are consigned to the States annually, and also to the Sandwich Islands.

These industries, though already of considerable importance, are destined to become very large as well as very profitable enterprises in the near future. With the shipping facilities offered by the Canadian Pacific Railway, and the new steamship lines to Japan and China, backed by her natural advantages of climate and geographical position and immense resources in timber and minerals, British Columbia is gradually obtaining her proper share of the commerce of the world. There is no other country on the globe more richly endowed with varied resources of wealth, fisheries, timber, minerals, pasture

barley, \$35 to \$40; potatoes, \$25 to \$30. The dairy and poultry business can be rendered exceedingly remunerative, the demands at present being far ahead of the supply from local sources, immense quantities of butter, eggs, etc., have to be imported from the East. Fresh eggs always command from 40 to 75 cents per doz. Chickens, by the dozen, realize \$8 to \$10; turkeys, 30 to 35 cents per pound; geese, from \$2.50 to \$3.00 each; ducks, \$1.00 per pair; dairy butter, 50 to 60 cents per pound; cheese, 25 to 30 cents per pound. The soil generally is of a very productive character, and there is considerable agricultural area, as yet wholly unoccupied. In the Spallumcheen, Salmon, Okanagan, Kootenay and Columbia regions there are thousands upon thousands of arable and pasture land yet to be claimed; indeed the capacities for pasturage in the central districts of the mainland are very

and arable lands, etc., and all are open to those who choose to avail themselves of these new and attractive fields for enterprise.

AGRICULTURE.

The distinguishing feature in relation to agriculture is the large yields, wheat ordinarily is from 30 to 40 bushels per acre, oats 60 bushels and frequently as high as 75 bushels, barley 40 bushels and over. Roots and vegetables attain an enormous size, and the yield to the acre is prolific. In the growing and ripening seasons being slow, the farmer is given ample time to prepare the soil to receive the seed, and, after it has ripened, to harvest and house the result of his labors and toils. A ready market is found almost at the door for the products of the farm, at very good prices, as the following list of ruling rates will demonstrate: Hay, per ton, \$12 to \$15; wheat and oats, \$30 to \$45;

extensive, and of a character unsurpassed.

THE SOIL OF VANCOUVER ISLAND AND MAINLAND OF BRITISH COLUMBIA.

The soil of Vancouver Island varies considerably. In some parts are deposits of clay, sand and gravel, sometimes partially mixed and frequently with a thick topsoil of vegetable mould of varying depth. At other places towards the north of the island on the eastern shore are some rich loams, immediately available for cultivation. The mixed soil with proper treatment bears heavy crops of wheat; the sand and gravelly loams do well for oats, rye, barley, buckwheat, roots, etc. and where the soil is a deep loamy one, fruit grows well. The following average of the yield of a properly cultivated farm in the Comox district is given by a member of the Canadian Geological survey. This is from the

best land in Comox, but there are other parts of the island not much inferior. Wheat, from 30 to 45 bushels per acre; barley, 30 to 35 bushels; oats, 50 to 60 bushels; peas, 40 to 45 bushels; potatoes, 150 to 200 bushels; turnips, 20 to 25 tons per acre.

Some of the rocks of the island furnish excellent building material, the grey granite being equal to Scotch and English granites.

Foremost among the most important agricultural districts of the mainland may be mentioned those of New Westminster and the Fraser River Valley.

New Westminster is chiefly known abroad for its salmon trade and its lumber business, but the agricultural interests of the district are now coming into prominence and giving the city additional stability. A large and valuable tract of farming land in the Province is in the southwest corner in the valley and Delta of the Fraser river and New Westminster is situated in the midst of that great garden. Lulu, Sea and Westham islands, comprising the delta of the river have an area of over fifty thousand acres of the choicest land. It is not heavily timbered, and the rich soil yields crops of first quality and in surprising quantity. Year by year new districts are opened up, and there is excellent farming land in all of them. The agricultural productions include the common grains, roots, vegetables and a variety of fruits, and these are produced in great abundance. A failure of crops was never known in that region. Dairying is a profitable industry and is growing in importance. While in the valley there is no government land to speak of, a considerable portion of the area is yet unimproved and may be purchased at moderate prices. On the northern branches of the Fraser there are still eligible locations which may be obtained from the Government or from the Railway company on reasonable terms. In the interior there are large amounts of land in all degrees of fertility and in all sorts of locations, that are waiting for settlers.

At Yale, a small town about 90

miles from the head of Burrard Inlet and at the entrance to the mountain gorges through which the Fraser river rushes to the sea, a change of the characteristics of the country appears. From this point to the Gold Range, about 200 miles by rail, the rainfall is slight and uncertain. Agriculture is carried on by means of irrigation, a mode preferred by many, as enabling the cultivator to regulate the growth of his crops, and certainly possessing advantages after the first slight outlay has been incurred.

Fifty-seven miles north of Yale, on the line of the railway, is Lytton, a small town, owning its existence to a now washed-out gold bar in its vicinity. Here the Thompson flows into the Fraser, and from this valley a large district of arable and pasture land begins. In fact over very considerable areas, far exceeding in the aggregate the arable areas of the coast region, the interior is, in parts, a farming country up to 2500 to 3000 feet. Cultivation is, however, restricted, as a rule, to the valleys and terraces. The soil consists commonly of mixtures of clay and sand, varying with the character of the local formations and of white silty deposits. The everywhere yield large crops of all the cereals, vegetables and roots which favorably situated. The climate is much hotter in summer than the climate of the coast regions. Tomatoes, melons and cucumbers thrive in the open air in most parts. Very fine fruit can be grown. As a grazing country this wide sweep of territory unexcelled.

Up the Fraser there are numerous small settlements in this district, particularly up the valley of the Fraser on the Lillooet and between the Fraser and Kamloops Lake. Westward of the Fraser lies the Chilcooten prairie of large extent, but they are not likely to invite much settlement while quantities of excellent land nearer the way remains to be taken up.

In the Kamloops and Southern districts, situated on the south of the Thompson river, a few miles above the junction with the Kamloops Lake, the country round is well settled, a large number of farmers having established

themselves in the valley and on the mountains within the month of this year, in which the cattle are raised and entered with large streams, and in the fifteen valley of the grey loam, prairie and rocks. The climate of the Province is the winters, and for the use of the Nicola valley. The Yale district is the main line of the Pacific railway, the principal outlet of the Province is fitted for the growth of all classes of crops already grown and the

from the cold north and east winds, and the climate is also tempered by the warm breezes of the Pacific Ocean, the "Chinook wind," which render it healthful and pleasant. The snowfall is light, though at times the cold is severe, but cattle and horses remain out all winter without shelter or fodder, and keep fat and healthy. There is no question but that these valleys contain some of the most productive land known. The valleys are also rich in minerals.

MINERAL RESOURCES.

It is now well known that there exist within the limits of British Columbia vast deposits of the precious and useful metals, many of which have been systematically and profitably mined for years, while others are only awaiting the development of which they are capable to become a source of great wealth to the Province. The list is a long one, embracing gold, silver, copper, iron, coal, lead, limestone, bismuth, plumbago, marble and salt. Of these the most extensively worked are coal, silver and gold. Quartz mining on a systematic basis in the Kootenay district is being rapidly prosecuted, but the progress in this district has been retarded for lack of transport facilities. This difficulty will soon be overcome by the construction of railways connecting with the Canadian Pacific. The attention of capitalists is already directed to the Kootenay country and with proper machinery and cheap transport, judging from the analysis of recent quartz discoveries, it is probable results will follow fully equal to the expectations of the most sanguine.

Vancouver Island is renowned as possessing rich stores of coal of a quality unequalled by any yet found in the American Pacific States. Prospecting for minerals also has been vigorously carried out and the indications tend to confirm the fact that the island is rich in precious metals.

British Columbia, including Vancouver island and Queen Charlotte Islands, contains a superficial area of about 300,000 square miles and with these islands is not only one of

the most important but also one of the most valuable provinces in the Dominion of Canada, for the limits of British Columbian coal fields can only be guessed at, while enough coal has been discovered on Vancouver Island to cover the uses of a century.

In addition to the mines worked at Nanaimo and Departure Bay and the Union Coal company mines at Comox, it is well known that valuable deposits exist in large quantities at other points, on and adjacent to Vancouver island, and it is to be hoped that these will receive the attention of capitalists with a view to active development.

Anthracite coal, comparing favorably with that of Pennsylvania has been found in seams of six feet and three feet, in Queen Charlotte Island. Fragments of anthracite have been picked up on several parts of Vancouver Island, and this would seem to indicate that the seams found in Queen Charlotte islands will be traced to Vancouver.

Several seams of bituminous coal have been discovered on the mainland, and some veins have been worked in New Westminster and Nicola districts, and other indications of coal have been found in several parts. The same formation exists on the mainland as on the island, and the New Westminster and Nicola coal beds are probably small portions only of large areas.

It would be difficult to indicate any defined section of British Columbia in which gold has not been, or will not be found. The first mines discovered were in the southern part of the Province, the next in the Cariboo district, in the centre of British Columbia, and at the present the richest diggings in work are the Cassiar mines in the far north. Recently several new mines have been opened elsewhere.

Gold has been found on the eastern side of the Rocky Mountains, on Queen Charlotte Island at the extreme west, and on every range of mountain that intervene between these two extreme points. Hitherto the work has been practically placer mining, a mere scratching of the surface, yet nearly fifty millions of dollars have been

ant but also one of the finest provinces in the Dominion, for the limits of the coal fields can only be ascertained by a visit to Vancouver Island of a century.

The mines worked at the Narrows, near the Victoria Bay and the many mines at Comox, show that valuable deposits of coal are to be found in large quantities at the Narrows and adjacent to Vancouver Island. It is to be hoped that the attention of the public will be directed to this view to active

of bituminous coal has been worked on the mainland, and in the Victoria and Nicola districts. The seams of coal have been found in several parts. The coal exists on the mainland, and the Nicola coal beds are of a thickness of only a few feet.

It is difficult to indicate any of the coal fields of British Columbia which have not been, or will not be, discovered in the first mines discovered in the northern part of the Province, the Cariboo district, British Columbia, and the richest diggings in the Cariboo district, and in the Victoria mines in the far west.

Several new mines have been discovered elsewhere. In the Victoria Mountains, on the eastern side of the Island at the extreme northern range of mountains between these two extremes, hitherto the work has been placer mining, a mere surface, yet nearly a million dollars have been

traced out of the rivers and creeks. The streams have been washed out and abandoned, without sufficient efforts being made to discover the quartz vein from which the streams receive their gold. The abandoned diggings have been visited after a lapse of years, and new discoveries made in the neighborhood.

The railway now pierces the auriferous ranges; men and materials can be carried into the heart of the mountains, and with each succeeding season fresh gold deposits will be found, or the old ones traced to the quartz rock, and on capital and adequate machinery brought to bear upon them. There are hundreds of miles open to the prospector, and there are, or shortly will be, numerous openings for the capitalist.

In British Columbia a belt of rocks, probably corresponding to the gold rocks of California, has already been discovered to be richly auriferous. Geo-

Mainland, Howe Sound, Jarvis Inlets, the Queen Charlotte Islands and other points. Mercury, cinnabar and platinum have been found in small quantities during the process of washing gold.

The total output of gold since its first discovery in British Columbia, even before new mineral districts were opened up by the Canadian Pacific Railway, was estimated at \$60,000,000. It is now far in excess of this. In 1860, Antler Creek (on the Fraser) yielded at one time not less than \$10,000 per day. On one claim \$1,000 was obtained by a single day's work. With present facilities for prospecting, much heavier returns are expected, for the era of scientific mining in British Columbia has only commenced, following the appearance of cheaper and quicker methods of transportation.

Mining laws are liberal and strictly

Wine sold by private treaty in large quantities by sample.

Geological explorations go to show a general resemblance of the rocks to those of the typical sections of California and the Western States.

Silver has been discovered in several places, and its further discovery will probably show that it follows the same rules as in Nevada and Colorado. The best known argentiferous locality is that about six miles from Hope on the Fraser River. The lodes occur at an elevation of about 5,000 feet.

Great iron deposits exist on Texada Island, opposite the settlement at Comox, near Vancouver. The ore is in a mountainous mass that can be traced for miles and it can be mined, melted and shipped without difficulty. It is a coarse, granular magnetite, containing a large percentage of iron with only 0.03 per cent of phosphorus.

Copper deposits have been found at several points on the coast of the

enforced. Peace and order prevail in the mining districts, and the rights of all are fully protected by law.

THE FOREST TREES AND TIMBER OF BRITISH COLUMBIA.

In this respect there is no other province in Canada, no country in Europe and no state in North America that can compare with it.

The finest growth is on the coast, and in the Gold & Selkirk ranges. Millions on millions of feet of lumber locked up for centuries past, have now become available for commerce. The Canadian Pacific railway passes through a part of this and crosses streams that will bring untold quantities to the mills and railway stations.

The Government Department of Agriculture has published a catalogue and authoritative description of the

trees of British Columbia, in which the several species are ranked as follows:

Douglas Spruce (otherwise called "Douglas Fir," "Douglas Pine," and commercially "Oregon Pine.") A well known tree. It is straight, though course-grained, exceedingly tough, rigid and bears great transverse strain. For lumber of all sizes and planks, it is in great demand. Few woods equal it for frames, bridges, ties and strong work generally and for shipbuilding. Its length, straightness and strength specially fit it for masts and spars.

The Western Hemlock occurs everywhere in the vicinity of the coast, and reaches 200 feet in height. Yields a good wood; bark has been used in tanning; is like the eastern hemlock, but larger.

Euglenmann's Spruce (very like "White Spruce,") tall, straight, often over three feet in diameter; wood good and durable. Forms dense forests in the mountains.

Menzies Spruce chiefly clings to the coast, a very large tree, wood white and useful for general purposes. The *Great Silver Fir* so far as known is specially a coast tree. It grows to a great size, but the wood is said to be soft and liable to decay.

Balsam Spruce abounds on Gold and Seikirk ranges and east of McLeod's lake. Often exceeds two feet in diameter. Among the pines may be mentioned the familiar tree known locally as "red pine," "yellow pine" or "pitch pine" considered to be a variety of the heavy yellow pine (*Pinus Ponderosa*) of California and Oregon. It grows in open groves in the valleys and on the slopes up to about 3000 feet. It is used for building and general purposes.

The *White Pine* ("mountain pine") resembles the eastern white pine, and may be used for the same purposes. It is found throughout British Columbia.

The *Black Pine* ("Bull or Western Scrub" pine) occurs everywhere in the Province at varying heights. Useful for rough purposes.

The *Western Cedar* ("Giant Cedar" or "Red Cedar") is a valuable tree. It

is found throughout the Province except in the far north. The wood is of a yellowish or reddish color and very durable; splits easily into planks; has been used chiefly for shingles and rails.

Yellow Cypress (commonly known as "Yellow Cedar.") A strong, free, fine-grained wood; used in boatbuilding and for ornamental purposes; often exceeds 6 feet in diameter and abounds on the west coast of Queen Charlotte islands.

Western Larch (sometimes called "Tamaric") occurs in Rocky mountains and valleys of Selkirk and Goll ranges. A large tree, yielding a strong, course, durable wood.

The *Maple*, the *Vine Maple*, the *Yew*, the *Crab Apple*, the *Alder*, the *Western Birch* and the *Paper or Canoe Birch*, the *Oak*, the *Aspen*, *Mountain Ash* and other minor woods are found in different parts of the Province and in all parts wild berries of nearly every variety occur.

Between the mountains and the sea the Canadian Pacific railway passes through many forests of these valuable woods, and bring within reach of lumbering operations vast additional quantities growing in the neighborhood of those streams that fall into the Columbia, Thompson and the Fraser. Timber on the western plains of Canada will now be obtainable at considerable less prices than those paid in the Western States. The distance from the Rocky mountains to the great farming and cattle raising districts of which Calgary, McLeod, Medicine Hat, Maple Creek, Swift Current, Moosejaw and Regina are the centres is less than that from Winnipeg to Minneapolis from which market the earlier settlers in Manitoba were supplied before the Canadian Pacific railway was built eastward to the Lake of the Woods. Cheap lumber, so essential to the settler is therefore secured by the opening up of British Columbia.

The seats of the great lumbering industries in the Province are Victoria, Vancouver and New Westminster where are several large mill manufacturing for foreign exportation and great quantities are also shipped

westward by rail. A large lumber mill has also recently been established at Chemainus in connection with which shipbuilding is also carried on.

THE WEST COAST FISHERIES.

An important part of the future trade of British Columbia will arise from the wealth of fish in the waters of her coast. Of these, the most valuable at present is the salmon. They literally teem in the Fraser and Columbia rivers, and frequently passengers on the Canadian Pacific Railway are astonished by the sight of broad expanses of river, or deep pools packed almost solid with wriggling masses of splendid fish, their motion being distinctly visible from the platforms or car windows as the train passes by. The greatest number of canneries is on the Fraser river, where more than twenty are located, but there are some in the far north. In 1876 there were

their turn ascend again to the place of their birth to exercise the procreative power. It is thus while making their annual pilgrimage from the sea that they are caught, generally near the entrance to the streams, though often many miles inland, and prepared for market.

The salmon of the Columbia fill the streams of the Kootenay; those of the Fraser are found hundreds of miles in the interior. There are several kinds of this fish, and they arrive from the sea on different dates.

Besides the salmon are the Oolachan or canadle fish which come in great numbers, and supplies a valuable medical oil. This is a small fish, about the size of a sardine, and is so oily, that when dried, it will burn like a candle. They enter the river in millions about the 1st of May; are delicious when fresh, smoked, or salted; and their oil is considered superior to cod liver oil or any other fish oil known.

but three canneries, with a total pack of 8,247 cases, which had increased in ten years to 204,183, and in 1890, 409,464 cases. In this branch of industry about 7,000 hands are employed.

The salmon make their way for great distances up the rivers, ascending as far inland as possible to deposit their spawn in the shallow, fresh waters of the interior. Those entering the Fraser river ascend the main stream and branches to their very sources, some of them reaching a point nearly eight hundred miles from the sea. With powerful leaps they scale rapids, falls, and whatever obstructions they encounter, bruising themselves against the rocks in their frantic efforts, until the banks are lined with their dead carcasses. The survivors of their progeny, only a small per cent of the billions of eggs which are deposited, descend the streams to the ocean, whence, at the proper time, they in

The black cod, a superior food fish, abounds from Cape Flattery northward. Cod, similar to the eastern variety, are taken on banks off the coast of Alaska, and the same fish is said to haunt British Columbia waters. Halibut of fine quality and large size weighing upwards of 300 pounds, and often twice that size, are plentiful in the inner waters, one the banks off the West Coast of Vancouver Island, and further north. Sturgeons up to 1,000 pounds weight are numerous in the Fraser and large rivers. The surf smelt and common smelt are abundant, and valued for the table. Shad are taken occasionally. Herring is abundant, and both lake and brook trout on the mainland. Table fish such as anchovy, rock cod, flounders, whiting, crab, prawn, etc., are also caught in great numbers and marketed fresh. Oyster beds are found in numerous places, but the bivalves are

small and inferior to those on the Atlantic coast.

These coasts afford wide fields for occupation and dispense reward with less niggard hand than in the old country where every loaf has many claimants. There is no rent to pay here, no leave to ask to run a boat ashore. The land is his who occupies it. A man who in the British seas toils year in and year out for others may own his own home, his piece of land and his boat, by no man's favour.

There are scores of men in the fishing trade of England and Scotland who struggle year after year for an uncertain percentage, who, in British Columbia, would find competency in a few years working, and hundreds who are no richer at the end of December than they were at the beginning of January, who would experience a very different condition of life on the coast of British Columbia.

FRUITS, ETC.

The settler in British Columbia who possesses a bearing orchard will find that he has a source of income his neighbors are deprived of. On Vancouver Island, along the Lower Fraser and in the valleys of the interior every variety of fruit, such as apples, peaches, plums, peaches, apricots, nectarines, the finer class of grapes and berries of every description grown in a temperate climate attains peculiar excellence and fruit culture promises to become a leading industry in the near future. Hops are also cultivated successfully and their superior quality ensures for them a ready sale. The yield has been from 1200 lbs in ordinary years to 2000 lbs per acre in favorable seasons and have been pronounced quite equal, if not superior to the English. They are of a variety known as the Grape hop, introduced from California and is said to have greatly improved in British Columbia.

GAME AND SPORT IN BRITISH COLUMBIA.

In addition to its many advantages already referred to British Columbia offers great attractions to the lover of the rod and gun. Of game, large and small, there is a great variety. On

the mainland are grizzly, black and brown bears, panther, lynx, elk, cariboo, deer, mountain sheep and goat heads and skins of which are the finest trophies of a sportsman's rifle. Prairie chickens in all the open valleys east of the Cascades. Water fowl, geese, duck, etc., are very abundant on the larger lakes, and ponds and these and several varieties of grouse are the principal feathered game, and can always be found in season. On Vancouver Island bear and deer can be found within easy distance of lines of travel, snipe afford rare good sport, and the valley quail is as swift of wing and as fascinating an object of pursuit as his famous cousin "Bob White" of Ontario. English pheasants were introduced some years ago and have taken kindly to their new home. They are now numerous in some parts of the island and rabbits on the mainland. For big game, bear, cariboo, sheep, goats, etc., there is no part of the continent that offers a more promising chance than the Selkirk ranges and taken all in all, with its great variety of game and noble scenery, there are no similar shooting grounds now so rich and so accessible.

LANDS.

For the information of intending settlers a few words concerning the acquirement of lands in the Province of British Columbia may be useful. Along the Canadian Pacific railway and within twenty miles on each side of the line is a tract of land known as the Railway Belt, the regulations concerning which differ slightly from those governing other portions of the country. They may be "homesteaded" by settlers who intend to reside on them, in which case no money is paid for the land, the only charge being a fee of \$10 (£2) at the time of application. Six months are allowed in which to take possession, and at the end of three years if the settler can show to the local agent that he has cultivated the land he acquires a patent on easy terms and becomes owner of the homestead in fee simple. In case of illness or of necessary absence from the homestead during the three years, additional time will be

anted to the settler to conform to
overnment regulations. These con-
itions apply to agricultural lands.

Not unfrequently settlers are anx-
ious about their titles to property,
when locating in a new land. There
should be no uneasiness on this score in
British Columbia. *Titles are secure,*

WAGES.

The wages earned in Victoria and
other parts of Vancouver Island are,
of course, governed by the demand
for labor and the amounts paid on the
mainland, but it is unlikely that they
will be reduced for many years to the
level of those paid in Eastern Canada.
Artizans are highly paid, and there
work at good wages for steady men

even without any mechanical know-
ledge.

Women servants are well paid, but
as in all backwood settlements the
earlier work is done by men exclu-
sively and a pioneer soon finds that his
new home is not complete without a
wife. The consequence is that young
women coming to the colony and pre-
pared to take their share of the
duties of life as the wives of settlers
in the back districts, do not long re-
main as domestic servants.

In conclusion, for the information
of those interested, the following data
from the official report of the Domini-
on Immigration agent at Victoria is
here inserted.

EDUCATION.

The following extracts from the
twentieth annual report of the Super-
intendent of Education for 1891, shows
not only a large increase in enroll-
ment and average attendance at the
schools during the year under reports,
but that the progress made was also
satisfactory, and gratifying
The number of schools in operation
was 128, as follows: High schools,
4; Graded schools, 13; Ward schools,
6; Rural schools, 105.
The number of teachers and moni-
tors employed was 185, an increase of
2½ over that for the previous year.
The whole number of pupils enrolled
during the year was 9,260, an increase
1,218 over that for the previous year,
and the average actual daily attend-
ance was 5,134.91, an increase of 801.01,
for the same period.
The percentage of average attend-
ance was 55.45. This is very credita-
ble showing, however, when we take
into consideration that 55 per cent of
the regular attendance means 45 per
cent of irregular attendance, it is to
be hoped that improvement in this

respect will be made during the present school year.

The total expenditure by the Land and works Department for the construction of school houses, furniture, repairs, and improvements was \$34,408.85.

The total expenditure for all purposes of education during the year was \$171,310.58.

During the past year school houses were erected, or additions made to school buildings, in twenty-two districts.

At the present time schools are in operation in sixteen newly created districts.

The following is the statistical abstract of attendance:

Number of pupils enrolled during the year.....9,260

Increase for the year....1,218
 Number of boys enrolled.....4,725
 Increase for the year.....596
 Number of girls enrolled....4,535
 Increase for the year.....622
 Average actual daily attendance.....5,134 91
 Increase for the year.....801 01
 Number of pupils enrolled in High schools.....256
 Increase for the year.....12
 Average actual daily attendance in High schools.....154 47
 Average actual daily attendance in Graded schools....3,211 53
 Average actual daily attendance in Rural school.....1,768 91
 Number of School Districts at close of year.....141
 Increase for the year.....18

 *Board of Examiners for P L S

British Columbia Medical Council.

ELECTED MAY 1892.

President, Dr. A. W. DeWolfe Smith;
 Vice-President, Dr. J. M. Lefevre;
 Registrar and Secretary, Dr. Geo. L.
 Milne; Treasurer, Dr. J. M. Lefevre;
 Executive, Drs. John C. Davie, W.
 J. McGuigan, E. B. C. Hanington,
 S. J. Tunstall; Solicitor, A. E. Mc-
 Phillips.

The Council may admit upon the
 registry any person producing diploma
 of qualification from any college re-
 quiring a three-years' course of study,
 and furnish satisfactory evidence of
 identification, and passing a satisfac-
 tory examination. Before examina-

tion the candidate must pay one
 hundred dollars for same, fifty dollars
 of which will be returned if candidate
 is rejected. The regular meetings and
 examinations held, beginning on the
 first Tuesday of May and September
 and second Tuesday of January in
 each year.

Medical Registrar of British Columbia.

ELECTED MAY 1892.

Tal Guide and Rates for the Province of B. C.

LETTERS.

ers--Canada and United States, 3
 cents per 1 oz, or fraction thereof.
 ent Britain and Newfound, 5 cents
 1/2 oz, or fraction thereof. City
 Drop Letters, for city delivery, 2
 cents, or fraction thereof.
 stration Fee—United States,
 ent Britain and European coun-
 es, Canada or Newfoundland, 5
 cents.

Letters addressed to places in the
 United States must be prepaid at
 one full rate, 3 cents; otherwise
 will be sent to the Dead Letter

Letters addressed to any place in
 Canada, wholly unpaid, will be sent
 to the Dead Letter Office.
 Letters addressed to places in Can-
 ada, and at least partially prepaid, will
 be forwarded to destination, subject
 on delivery to double the amount of
 postage remaining unpaid.
 Redirected Letters to any place in
 United States or Canada will be for-
 warded free, provided they are not
 taken from the postoffice, otherwise
 full rate will be charged.

LEGAL AND COMMERCIAL DOCUMENTS.

The postage on Legal and Commer-
 cial Papers for the United States,
 Great Britain and all European coun-
 tries, is 5 cents for the first 10 oz, and
 1 cent for every additional 2 oz.
 These papers, when posted for deliv-
 ery in Canada, must be prepaid at
 Letter or Parcel Post rates—but deeds
 and Insurance Policies may be sent if
 prepaid, 1 cent per 2 oz.

POST CARDS.

For Canada and the United States,
 1 cent each. For Great Britain, and
 all Postal Union countries, 2 cents
 each. Reply cards, for Canada only,
 2 cents each. Nothing must be at-
 tached to a post card, nor must the
 card be cut or defaced in any way.

BOOKS AND MISCELLANEOUS MATTER

Books, Pamphlets, Circulars, to
 Canada, 1 cent per 4 oz; to the United
 States and Great Britain, 1 cent per 2
 oz; Photographs, Printers' Proof
 Sheets, etc., addressed to Canada or
 Newfoundland, the United States,
 Great Britain and all European coun-
 tries, 1 cent per 2 oz.

No package must exceed 2 feet in
 length by 1 foot in width or depth.
 The limit of weight for Canada, United
 States is 5 lbs unless consisting of a
 single book in which case a weight of
 7 lbs is allowed and Great Britain is
 5 lbs, for other Postal Union coun-
 tries, 4 lbs.

Seeds, Cuttings, Bulbs, Roots and
 Scions or Grafts can only be sent to
 the United States as 5th class matter.
 When posted for delivery in Canada,
 the postage is 1 cent per 4 oz, and the
 limit of weight 5 lbs.

Gardiner's Inlet	3,800
Low Inlet	8,000
Total Number of Cases	314,893

SALMON.

The season of 1891 was what is generally known as an "off season" on the Fraser river, which means that owing to the small run of salmon, the pack of that river was something under one-half of that of a good year. On the Northern Rivers and Inlets the pack was an average one, with the exception of Alert Bay and Nans River, at which points the run of fish was so small as to make the season almost a failure. The total pack of the season in British Columbia was 314,893 cases, which is 94,571 cases less than in 1890. The pack was disposed of as follows, viz.:

To England	220,761 cases
" Canada	60,950 "
" Australia	23,534 "
Local and Sundries	9,648 "

Total 314,893 cases.

The prices realized were not satisfactory to the canners, owing to the surplus in all the large consuming countries being in excess of the demand, and for all except first-class quality, very low prices had to be accepted; so low in many instances as to cause a serious loss to the canners.

Fur Seal Fisheries.

The Fur Seal fisheries is an industry which is yearly becoming of greater importance to the Province. In the year 1888, twenty schooners were engaged in hunting, giving employment to 378 men, whites and Indians. During the past year, fifty-three schooners have cleared from Victoria for the hunt-grounds, having on board 1331 men. The value of the vessels and stores represents a capital of 750,000; and with an average catch, unhampered by the restrictions of the *modus vivendi*, about \$800,000 would annually be put in

BRITISH COLUMBIA DIRECTORY.

circulation within the Province. The skins being sold abroad, whilst much of the stores and all the labor are of local production, it will readily be seen that the sealing industry, when unrestricted, is of great value to the Province.

Railways, 1892.

The "Mission Branch of the Canadian Pacific Ry." and the "New Westminster & Southern" are two lines recently opened, connecting at the Boundary with the American Railway system; they are important trade outlets, but would be of greater value to the Province if bonding privileges were in force. The "Shuswap & Okanagan Railway" has been completed and taken over by the "Canadian Pacific Railway Co." At the arm of Okanagan Lake, the Southern terminus of this line, a steamer connects with Pentiction.

The "Columbia & Kootenay Railway," a short line from Nelson to Robson, connecting with steamers on the Columbia River, is of utility only while the river is open for navigation, which is about eight months in the year.

An all rail route connecting the Kootenay mining region with the trans-continental railways which would be operative all the year round is of the very first importance in hastening the development of its rich resources. Such a road will the "Nelson & Fort Sheppard Railway" be when constructed.

Provincial Museum.

John Fannin, Curator. Hours of admission: Daily, 9 a. m. till 5 p. m. Saturdays, 9 a. m. till 3 p. m.

This institution, which was started in October, 1887, has made such rapid strides that it has been found necessary to make considerable additions to the building for the reception of minerals, fossils and Indian curios. The principal display of specimens of natural history is conceded to be the finest in the Dominion, and the contributions are continually increasing. It is free to the public, being supported by the provincial government. Among the interesting collection of rare animals will be found the Musk Ox, the White Goat, the Mountain Sheep, the Reindeer, Wapiti, and the Grizzly Bear, etc. Birds are also well represented, there being between three and four hundred specimens. The Geological department, at present in course of arrangement, will, when completed, give a comprehensive idea of the mineral resources of the Province, and will be of special interest to all concerned in developing the mineral industries, which are likely to prove a source of great wealth in the near future.

In the products of its mountains, rivers and forests, in the treasures which lie hidden beneath its stretch of six hundred miles of sea, few countries can boast of more varied and prolific resources than British Columbia, and material enough can therefore be found within its borders to form one of the most interesting and instructive collections in the Dominion.

The co-operation of the general public is necessary to insure the museum becoming a really representative institution, it is therefore earnest-

ly desired that geological and natural history specimens from all parts of the Province may be collected by those who have the opportunity, and forward to the Curator; the receipt of all such contributions will be promptly acknowledged, and the transportation charges fully paid.

Packages of ores should not be too large, and each specimen should be accompanied with a note of locality, position and extent of formation.

With regard to Indian curios, it is much to be regretted that so many are being exported from the Province. The funds at the disposal of the museum are quite inadequate to meet the high prices demanded by the dealers, so that it is to be hoped all who can will assist in securing rare specimens, and that persons visiting the outlying districts will avail themselves of their greater facilities for bargaining with the Indians, and add to the, at present, somewhat meagre collection now in the museum.

Natural History Society of British Columbia.

At a meeting, held in the office of the Provincial Museum, on March 26th 1890, by a number of gentlemen interested in the study of Natural History, it was decided that a Society should be organized bearing the title of the Natural History Society of British Columbia, and that the object of this Society should be to acquire and promote a more extended knowledge of the natural history of the Province, and to act as an independent auxiliary to the Provincial Museum.

Rules and by-laws were adopted at the same meeting, and the following officers appointed: President, Ash-down Green, C E.; Vice-President, M Lopatecki and Dr Hasell; Secretary, Dr C F Newcombe; Treasurer, J K Worsfold; Curator and Librarian, John Fannin; Committee, J Deans, J Fielding, Capt Devereux, H Wooton.

The first regular meeting of the Society thus successfully started, was held on April 14th, when the President delivered his inaugural address and read the first instalment of a paper on the Salmonidae of British Columbia.

Provincial Government Lands

Crown Lands in British Columbia
 are classified as either surveyed or un-
 surveyed lands, and may be acquired
 either by record or pre-emption, or by
 purchase.

PRE-EMPTIONS.

The following persons may record
 or pre-empt Crown lands, viz: Any
 person being the head of a family, a
 widow, or a single man over 18 years
 of age, being a British subject; may
 record surveyed or unsurveyed Crown
 lands, which are unoccupied, unre-
 served and unrecorded.

Aliens may also record such survey-
 ed or unsurveyed lands, on making a
 declaration of intention to become a
 British subject.

The quantity of land which may be
 recorded or pre-empted is not to ex-
 ceed 320 acres northward or eastward
 of the Cascade or Coast Mountains, or
 160 acres in the rest of the Province.

No person can hold more than one
 pre-emption claim at a time. Prior
 record or pre-emption of one claim,
 and all rights under it, are forfeited by
 subsequent record of pre-emption of
 another claim.

Land recorded or pre-empted cannot
 be transferred or conveyed till after a
 Crown grant has been issued.

Such land, until the Crown grant is
 issued, is held by occupation. Such
 occupation must be a bona fide per-
 sonal residence of the settler or home-
 stead settler, or his family or agent.
 Indians or Chinese cannot be agents.

The settler must enter into occupa-
 tion of the land within thirty days
 after recording, and must continue to
 occupy it.

Continuous absence for a longer
 period than two months consecutively
 of the settler or homestead settler, and
 his agent or family, is deemed cessa-
 tion of occupation; but leave of ab-
 sence may be granted not exceeding
 six months in any one year, inclusive
 of the two months' absence. In cases
 of illness, vouched for by sufficient
 evidence, or in the cases of immigrant
 settlers returning to their former
 homes to bring their families to their

homesteads, or in other special cases, an extension of time may be granted, during which the pre-emptor may be absent from his claim without prejudice to right therein.

Land is considered abandoned if unoccupied for more than six months in the aggregate in one year, or for more than two months consecutively.

If so abandoned, the record of the settler so ceasing to occupy the same, and all improvements and buildings made and erected on such land, shall be absolutely forfeited to the Crown.

The fee on recording is \$2.

Any pre-emptor of unsurveyed land may have the land surveyed at his own expense, subject to rectification of boundaries, or wait till the Chief Commissioner causes it to be surveyed.

PAYMENTS FOR LAND AND CROWN GRANTS.

The price of Crown lands pre-empted is \$1 dollar per acre, which may be paid in four equal installments, as follows: First instalment, two years from date of record or pre-emption, and each other instalment yearly thereafter, until the full amount is paid. But the last instalment is not payable till after the survey.

The Crown grant excludes gold and silver ore, and reserves to the Crown a royalty of five cents per ton of merchantable coal raised or gotten from the land, not including gross or fine sluck.

No person shall be entitled to record or pre-empt any land included in any timber lease, if the land which it is proposed to record has on each eighty acres thereof milling timber to the extent of ten thousand feet per acre.

No Crown grant can be issued to an alien who may have recorded or pre-empted by virtue of his declaring his intention to become a British subject, unless he has become naturalized.

The heirs or devisees of the homestead settler are, if resident in the Province, entitled to the Crown grant, on his decease.

If they are absent from the Province at the time of his death, the Chief Commissioner may dispose of the pre-emption, and make such provision for

the person entitled thereto, as he may deem just.

PRE-EMPTION FOR PARTNERSHIP PURPOSES.

Partners, not exceeding four, may pre-empt as a firm 160 acres each west of the Cascades to each partner, and 320 acres east of the Cascades to each partner.

Each partner must represent his interest in the firm by actual residence on the land, or himself or agent. But each partner, or his agent need not reside on his particular pre-emption.

The partners, or their agents, may reside together on one homestead, if the homesteads be situated on any part of the partnership pre-emption.

For obtaining a certificate of improvement, it is sufficient to show that improvements have been made on some portion of the claim, amounting in the aggregate, to \$2.50 per acre on the whole land.

Mining Laws.

FREE MINERS.

"Free Miners" only can have right or interest in mining claims or ditches. A "free miner" must be over 16 years of age. His certificate may be for one year [\$5], or three years [15], and is not transferable. He may enter and mine Crown lands, or, on making compensation, lands occupied for other than mining purposes. To recover wages, must have free miner's certificate.

RECORD, ETC., OF CLAIMS.

Claims must be recorded (\$2.50), and re-recorded (\$2.50). Time allowed for record is three days after location, if within ten miles of office—one additional day for every additional ten miles, or fraction thereof. In very remote places, miners assembled in meetings, may make valid rules temporarily. Transfers of claims or mining interests must be in writing and registered. Free miner's certificate (for each year) \$5, may hold any number of claims by purchase, but only two by pre-emption, except in certain cases. Claims may be officially laid over, and leave of absence granted in

F. G. RICHARDS

certain cases, but full claim or worked either by free miner can, share of water claim. A claim worked for 72 hours unless for sickne ble cause.

certain cases, but the rule is that every full claim or full interest must be worked either by owner or agent. A free miner can, by record, get a fair share of water necessary to work claim. A claim is deemed open if unworked for 72 hours on working days, unless for sickness or other reasonable cause.

NATURE AND SIZE OF ORDINARY MINING CLAIMS.

Claims, as far as possible, are rectangular and must be staked by post or tree. Sizes are "bar diggings," 100 feet wide at high-water mark, and thence extended into the river at its lowest water level. "Dry diggings" 100 feet square. "Creek claims" 100 feet long, measured in the direction of the general course of the stream, and shall extend in width from base to base of the hill or bench on each side, but when the benches or hills are less than 100 feet apart the claim shall be 100 feet square. "Bench claims" 100 feet square. "Hill claims"—base line fronting a stream 100 feet—parallel side lines at right angles thereto at summit of hill. Posts 100 feet apart. Measurements horizontal, irrespective of surface inequalities.

DISCOVERERS' CLAIMS.

To one discovery, 300 feet in length. To two discoveries, 600 feet in length. To three, 900 feet in length. To four, 1000 feet in length, and to each member of a party beyond four in number, a claim of the ordinary size only.

A new stratum of auriferous earth or gravel situated in a locality where the claims are abandoned, shall for the above purposes, be deemed a new mine, although the same locality shall have been previously worked at a different level; and dry diggings discovered in the vicinity of bar diggings shall be deemed a new mine, and vice versa. A discoverer's claim shall be reckoned as one ordinary claim.

Creek discovery claims shall extend 1000 feet on each side of the centre of the creek, or as far as the summit.

LEAVE OF ABSENCE.

On discovery of a new lode or vein containing minerals, six months. On

proving expenditure, in cash, labor, or machinery, of \$1000 on each full interest [without reasonable return] one year. Under other conditions Gold Commissioners has option.

MINERAL CLAIMS.

"Mineral claims,"—that is, claims containing, or supposed to contain minerals, precious or base (other than coal), in lodes or veins, or rock in place—shall be 1500 feet long and 600 feet wide, and; as nearly as possible, in rectangular form. Must have three posts (or tree posts) at equal distances along centre line, with a notice on each. The posts shall be numbered 1, 2, 3. The centre post shall always be numbered 2, and in determining the centre line and length of the claim a line shall be run from 1 through 2 and be continued in the same straight line to the required distance, without reference, as to direction, to post 3, but, as to distance, such line shall not exceed the distance in a straight line between posts 1 and 3, and shall not exceed 1,500 feet. On each post there shall be placed a legible notice in writing, stating the name of the claim, its length in feet, and the direction of the centre line, with the date of the notice and name of the claimant of the ground. When a claim is located in a timbered country, where any one post cannot be seen from the next post, the locator shall blaze a line connecting all the posts. In cases where, from the nature or shape of the ground, it is impossible to mark the centre line of the claim, provision is made. See Mineral Act, 1891. Only one claim on the same lode or vein can be held except by purchase. Quartz claims are deemed to be mineral claims.

To lawfully hold a crown grant for a mineral claim, it must be surveyed by a surveyor approved by the Land Office, notice of application for the grant must be posted conspicuously on the land and on the Government office of the district, also inserted for sixty days in the Government Gazette and a newspaper, if any, circulating in the district, and proof must be given to the satisfaction of the Government officers that \$500 have been bona fide expended in money or labor upon the

claim, exclusive of all houses, buildings and other like improvements. Or a Crown grant may be got by paying \$25 per acre to the Government in lieu of representation and expenditure of the claim.

General provisions for ordinary mining claims apply to mineral claims as far as may be.

The proper representation of "mineral" claim requires that the sum of one hundred dollars, in money, labor or improvements shall be expended in the first six months of every year upon the claim, to the satisfaction of a Gold Commissioner, or Mining Recorder, and that the owner shall have obtained a certificate from the Gold Commissioner or Mining Recorder, to that effect, within six months from the location of the claim; and thereafter within the first six months in every year, and shall have recorded the certificate immediately after its issue.

Leases of mining ground, ditch privileges, etc., may be issued, but will not in general be granted for a longer term than ten years, or for a quantity of ground greater than:

In dry diggings, ten acres;
 In bar diggings, unworked, half a mile in length along the highwater mark;

In bar diggings worked and abandoned, one mile and a half in length along the high-water mark;

In creek claims, on abandoned creeks one mile and a half in length.

The regulations as to flumes, ditches, and drainage need not be detailed, but it may be stated that the water taken into a ditch or sluice has to be measured at the ditch or sluice head. No water should be taken into a ditch or sluice except in a trough placed horizontally at the place at which the water enters it. One inch of water means half the quantity that will pass through an orifice two inches high by one wide, with a constant head of seven inches above the upper side of the orifice.

COAL PROSPECTING LICENSES.

A twelve months' prospecting license for 480 acres of vacant coal land in one block, may be granted by the Government on payment of \$25. The

licenses may be extended for another year if the licensee has actually explored for coal on payment of \$50. The license is not transferable without notice being given to the Chief Commissioner of Lands and Works. If a licensee wishes to purchase the coal lands, he may do so under the land Act for \$2.00 per acre.

TIMBER LICENSES.

Unlicensed persons, except for farm or mining purposes, etc., are not permitted to cut trees on Crown lands. A timber license may be granted for 1000 acres for four years on payment of \$10 annually, and 15 cents for each tree (except hemlock) felled, payable half-yearly. No person can hold more than one license at the same time, and it is not transferable. Mill-owners cannot saw logs taken from Crown lands (in which are included lands leased at less than ten cents an acre) until the timber dues of twenty cents per thousand feet, board measure, are paid.

AGASSIZ.

POSTMASTER, L. A. AGGASSIZ.

In the Dominion and Provincial Electoral District of New Westminster.

It is situated on the right bank of the Fraser river, 82 miles from Vancouver. C. P. R. runs right through the valley and has a station, express and telegraph office; nearest banking point, New Westminster. Stages for the celebrated Harrison Hot Springs; meet all trains; distance 5½ miles; fare \$1. There are four hotels, two at the station and two at the springs. It is a beautiful level valley almost entirely devoted to agriculture. The Dominion Government experimental farm for British Columbia is situated here and is under the able management of Prof. Sharp. Fish and game are very plentiful and the scenery grand and picturesque, which makes it a popular resort for tourists and others. There is one school, but as yet no church. Population, 150.

ALBE RT HEAD.

A headland projecting out from the Methosin shore in an easterly direction, on which the Dominion Quarantine Hospital and grounds are situated, Mr. Walter Poole being keeper; distance from Victoria by water about seven miles, by livery 12 miles.

C. P. N. Co.'s steamer Maude leaves Victoria for Alberni and Barclay Sound points on the 1st and 15th of each month; fare \$7. There is also communication by stage to Nanaimo, leaving every Wednesday, returning from there on Friday. The Alberni valley is about 25 miles long by 10 wide. In this valley good land is to be found in great quantities, and in the rich soil all kinds of grain, fruit and vegetables grow readily. In their season may be seen the peach and grape, the water and musk melon, tomato and Indian corn, growing to perfection. There are over 22,377 acres of land taken up in the settlement, which is assessed for the amount of \$80,276. (This does not include the lands taken up around Barclay Sound or along the coast.) There are still large areas of excellent land lying vacant which only

Grain sold by private treaty in large quantities by sample.

ALBERT CANYON.

In the Dominion Electoral District of Yale, Kootenay and Provincial of West Kootenay. A station on the main line of the C P R, 400 miles from Vancouver; fare \$20. Has a telegraph and express office. All trains stop here 5 minutes to give passengers a view of the canyon. Gangman, H, operator C P R.

ALBERNI.

POSTMISTRESS, MRS. AGNES ERICKSON.
In the Dominion electoral district of Vancouver and Provincial of Alberni. It is situated on the West coast of Van. island at the head of the Alberni canal, 120 miles from Victoria and 54 miles from Nanaimo; mails weekly; nearest railway station, banking point, telegraph and express office Nanaimo, communication by steamer from Victoria. The

requires opening up by good roads to make them accessible to the steamboat landing and thus valuable for settlement. These lands can be bought at \$5.00 per acre, payable in four yearly payments with interest at 6 per cent. Roads and bridges are being constructed and improved from year to year, so that settlers can now enjoy the luxuries of a buggy or carriage drive. The lakes and rivers are teeming with the various species of salmon and trout in their season, and game of all kinds is abundant in the valley. Of the new industries started, there are two worthy of mention, the first being the discovery of a valuable quicksilver mine on Cinnebar creek, Barclay Sound, by Messrs. Germansen and Ethridge, who have sold out to Victoria capitalists. A strong company has been formed, and a large

party of men have been working the ledge which is turning out most satisfactorily. The second industry which has lately been started is the Alberni Paper Mill, on the Somass river which affords it abundant water power.

The geographical position of Alberni its fine climate and wonderful resources, combined with the large area of fine agricultural land at its back, only tend to one end, viz.: that Alberni is destined, at no distant date, to become a place of importance and wealth. All it requires to ensure this position is development of its resources and railroad communication with other places.

Outside the Indians, which are numerous, and the Chinese, the population numbers something over 200. There are three postoffices in the district, viz.: Alberni and Beaver Creek in the settlement and Clayoquot on the West coast—the name Sayward has been recently abandoned, and that of Alberni substituted, it being the main postoffice in the settlement or district. There are two schools under one board of trustees, five mission stations, two good stores on the townsite of Alberni besides five others on the West coast; also a boarding house and sawmill at Alberni. Horses and vehicles can be had from Mr. Armstrong, mail carrier, overland from Nanaimo or vice versa.

POSTMASTER, JOHN P. ALPORT.

In the Dominion and Provincial Elec-
 toral District of New Westminster.
 This settlement lies partly in Lang-
 ley municipality and lies between
 the latter place and the International
 boundary. It is 22 miles east of
 New Westminster, 12 miles from

There are two schools. The prin-
 cipal industry is farming as the soil
 is well adapted for it. There is an
 abundant supply of pure spring
 water all the year round. Farmers
 are making a specialty of fruit and
 hops. The rapid growth and pres-
 ent appearance of the place speaks
 well for the industry of the settlers.
 Population, about 500.

ALERT BAY.

POSTMASTER, STEPHEN ALLAN SPENCER.

Alert Bay is situated on Cormorant Island and is in the Dominion Electoral District of New Westminster, and Provincial of the Coast, 160 miles from Nanaimo and 204 miles from Victoria. It has a post-office, mails twice a month; nearest telegraph and express office, Nanaimo; it is accessible by all steamers leaving Victoria, which call here going and coming. The Canadian Pacific Navigation Co. run a boat twice a month in summer time and once per month in winter. The steamer Boscowitz also calls twice a month, so practically there is weekly communication. Messrs. Spencer & Earle have a Salmon Cannery and store in connection with it; the postoffice is at their store.

The Church Missionary society have a resident missionary here, the Rev. A. J. Hall, who, with his wife, has worked zealously among the Indians for the last fourteen years. He has a steam saw mill in connection with the Mission, which supplies all kinds of lumber to the neighbourhood, there is also a store with the mill.

Cormorant Island is only a small island, containing about 1100 acres heavily timbered with hemlock, spruce, and a sprinkling of red cedar. The land for the most part is almost worthless, here the Ninkish Indians have their village, and there is a school on the reserve for them. Settlers are few and far between. Mr. W. May lives at Klicksiwy, eleven miles above Alert Bay; Mr. Robert Hunt occupies the old Hudson Bay trading post at Fort Rupert, in Beaver harbor, sold by the company to Mr. Hunt some few years ago, which is about twenty-one miles from Alert Bay. Twelve miles again above Fort Rupert, Mr. E. Frigon has a small trading store at Port Alexander; ten miles above this the steamers leave the Vancouver shore and cross Queen Charlotte's sound on their northward journey. Coal underlies

all the country between Alert Bay and Fort Rupert, and is found right across Vancouver Island to Rupert Arm on the West coast. At Malcolm Island, a little north of Cormorant island, the Christian Temperance Commonwealth society have established themselves, the Government of British Columbia having granted them a tract of land on certain conditions. Mr. Joseph Spencer is the head of it at present and may be addressed to Malcolm island. About four miles above Alert bay is Haddington island, where Messrs. Huson & Rudge have recently found a very valuable kind of sandstone, which can be seen at Mr. Rudge's marble works in Victoria. It is said to withstand fire equally as well as fire-brick. About 6 miles below Alert bay, an excellent quality of white marble has also been

found. Salmon in more or less quantities is found in all the streams running into the sea; during the months of June, July, August and September. Halibut are taken in large quantities by the Indians, chiefly at the north side of Hope island, and the islands across Queen Charlotte's sound, towards Kingcomb inlet. Knight inlet, which lies to the eastward of Alert bay and which is on the mainland of British Columbia, is about 80 miles in length and well repays the trouble of a visit there, the scenery being magnificent nearly all the way up. Population, 40 whites and 150 Indians.

ASHO

BRITISH COLUMBIA DIRECTORY.

ASHO

from Montreal. There are two trains per day; fare Vancouver, \$10.25. Post, mail and express office, two good general stores and three hotels; nearest banking point, Kamloops. Ashcroft's great importance as a shipping point lies in the fact of its being the forwarding and distributing point for the Cariboo, Clinton, Lillooet and way places, in the northern interior of the Province and the point where all travel to those sections leaves the railroad. The British Columbia Express company, carrying Her Majesty's mails, have their headquarters in the town and its stages leave every Monday morning for Barkerville and way places, and Monday, Wednesday and Friday mornings for Clinton, where connections are made with the Lillooet and Dog Creek stages. The various religious denominations hold services on the Sabbath in the town hall. The Church of England people have built a pretty little church. The Presbyterians are contemplating the erection of one this summer. A good public school affords ample educational facilities for the rising generation. The climate is mild and dry, and extremely healthy. Cattle and sheep find good pasturage on the hills. All kinds of fruit do well. Population, 200.

BARCLAY SOUND.

See also Alberni.

Including Uluulet and Cape Beal lighthouse. In the Dominion Electoral District of Vancouver and Provincial of Alberni. A large open roadstead situated on the West coast of Vancouver island, 100 miles from Victoria, 40 miles from Alberni. Nearest postoffice Clayoquot, distance 20 miles; nearest telegraph and express office Victoria, 100 miles; communication by steamer.

Provincial Electoral District of Cariboo, situated on Williams Creek, 285 miles from Ashcroft, station at the termination of the Cariboo wagon road, and is reached by the British Columbia Express Company's stages from Ashcroft once a week; fare \$42.50. Here are located the Government agent and assay offices, court house, school and postoffice. There are also three good general stores, three hotels and two churches, viz: Church of England and Methodist. Mails arrive weekly. Williams Creek has supplied many millions of dollars taken out of the Cariboo district. Placer mining being nearly exhausted, hydraulic pipes now occupy the attention of the miners, washing away banks from 40 to 90 feet deep by the help of a great pressure of water. Many quartz reefs are to be seen cropping out in and about

BEAR CREEK.

In the Dominion Electoral District of Yale, Kootenay and Provincial of Yale. A station on the main line of the C. P. R. 432 miles from Vancouver; fare \$21.55; has a telegraph and express office; nearest postoffice Rogers Pass, distant five miles; nearest steamboat landing Golden, 40 miles. For list of names see Rogers Pass.

BEAVER CREEK.

POSTMASTER, CHAS. FRED'K BISHOP.
In the Provincial Electoral District of Alberni and Dominion of Vancouver.

Postoffice; mails twice a week; nearest telegraph, express office and banking point, Nanaimo; distance, 55 miles; communication with which place is kept up by stage. It is six miles from Alberni, communication by stage when required. Beaver Creek was settled about seven years ago; it is bounded on the North by the Beaufort mountains, on the East by Hill's creek, on the South by Stamps river and extends to Central lake on the West; it contains excellent farming and timber lands, which can be obtained from the E. & N. Railway Co., or on reasonable terms from pioneer settlers. There is one church, and a public school has been in operation for four years, there is also a saw mill. A trunk road runs through the district, which is being carried on to Comox. The whole district is well watered by creeks, on several of which water power is obtainable.

Beaufort Range.—The highest portion of this range bounds the district, and the summit is 5420 feet above sea level, from which a magnificent view can be obtained of the surrounding country for a great many miles.

Stamps River bounds the district on the South, it flows out of Central lake and into the Somass river at Alberni; trout and salmon are plentiful; half a mile off the Beaver creek road are the falls; this is one of the first places that strangers who want to see the sights of the district are taken to.

BOWEN ISLAND.

An island at the mouth of Howe
 Sound, in the Dominion Electoral
 District of New Westminster; near-
 est postoffice, telegraph and express
 office, also railway station, Vancou-
 ver; communication by steamer from
 Vancouver.

BOUNDARY BAY.

DELTA MUNICIPALITY.

(See Ladner's Landing.)

A settlement in the Delta Municipal-
 ity, in the Dominion and Provincial
 Electoral District of New Westmin-
 ster; nearest postoffice, money order,
 telegraph and express office, Lad-
 ner's Landing; communication by
 livery from Ladner's.

BRIDGE CREEK.

(See also Mile Houses.)

POSTOFFICE ADDRESS, CLINTON.

In the Dominion Electoral District of
 Cariboo, Lillooet and Provincial
 Electoral District of Lillooet; near-
 est telegraph office, 108 Mile House,
 distant eight miles; communication
 by stage from Ashcroft, distant 83
 miles; fare, \$13.50. The valley of
 Bridge Creek is situated in the great
 interior plateau of British Columbia;
 the waters of the creek falling by a
 chain of beautiful lakes into the
 North Thompson; the valley is noted
 for its vast numbers of natural
 meadows; only those nearest the
 wagon road are now occupied, and
 on which large quantities of first-
 class hay are put up, at an average
 cost of \$2.00 per ton. The chief in-
 dustries are dairying, stock raising,
 and winter feeding of steers for the
 spring markets. There is a very
 large area of Government land,
 including many fine, natural mead-
 ows, open for settlement and men of
 capital can purchase improved prop-
 erty at low prices. The valley is
 crossed about its centre by the Car-
 iboo main trunk wagon road, on
 which a weekly mail is carried, and
 over which many large freight teams
 pass. All the various routes of the
 proposed Cariboo railway converge
 in this valley and run up it. The

CHEMAINUS.

(Including Lewisville.)

POSTMASTER AT CHEMAINUS, E. J. PALMER.

In the Dominion Electoral District of Vancouver and Provincial of Cowichan. A town on the E. & N. R. R., 52 miles from Victoria; fare, \$2.50: Post and money order office, tele-

are the Chemainus mills, owned by the Victoria Lumber & Manufacturing company, E. J. Palmer, Esq., manager. These mills, which are a marvel of arrangement and capacity, are a credit to all concerned therewith and are without exception, unsurpassed on the Pacific coast, employing nearly 200 men, with a cutting capacity of 200,000 feet per day; the company also own and operate a large store, carrying a varied and most useful stock of goods. Lewisville, named after its founder, Mr. S. G. Lewis, one of the most popular men on the line of the E. & N. railway, is a thriving village near the station. There are two hotels, Mr. Matthew Howe being the proprietor of one, and Mr. S. G. Lewis the other.

Kuper Island.—In the Island District. Laying to the south of Thetis Island, and both about five

CHILCOTEN.

POSTMASTER, G. DESTER.

Chilcoten, in the Electoral District of
 Cariboo, Williams Lake division, is
 an open country. At present stock
 raising is the only industry,
 as means of communication
 are very bad. Game is very
 plentiful and occasional hunt-

ing parties go from the coast there
 for the sake of sport. The climate
 is very dry and healthy, while the
 winters are rather cold. Crops re-
 quire irrigation, but water is plen-
 tiful. At present it is reached by
 stage from Ashcroft, distances 250
 miles, change at Soda Creek, dis-
 tance, 40 miles, which is the nearest
 telegraph station. Population about
 50.

CHILLIWACK.

POSTMASTER, SAMUEL MELLARD.

A municipality and town of the same
 name on the south bank of the
 Fraser river in the Dominion and
 Provincial Electoral District of
 New Westminster. The municipal-
 ity of Chilliwack contains within its
 bounds, township 26 and apart of 22,
 23 and 24. It is bordered on the
 north for a distance of 15 miles by
 the Fraser river on the southwest
 by Sumas lake and river. It is a
 very fertile valley, from 10 to 15
 miles wide, surrounded by high
 mountains. This section is one of
 the most productive farming dis-
 tricts in the Province and all kinds
 of fruits and cereals ripen to perfec-
 tion. The postoffice is centrally
 located and has three sub-offices
 viz: Sumas, 6 miles West; Sardis, 4
 miles south; Cheam, 4 miles east
 also a money order and Postoffice
 Savings bank; office hours, 9 a m to
 6 p m. Money order and savings
 bank business, 10 a m to 4 p m.

87

There is a telegraph and express of-
fice, nearest banking point, New
Westminster, distance, 50 miles.
There is daily communication by
steamer with New Westminster and
all points on the Fraser river.
Nearest railway station, Harrison
river, C P R, distance, 5 miles. A
fine town has been surveyed by the
Chilliwack Railway company, about
half a mile from the present town
and at the rate building operations
are now going the two towns will
shortly be connected. The educa-
tional facilities are good; there be-
ing eight schools, with efficient
teachers; there are also six churches,
three hotels, twenty stores and one
convalescent home. A new fruit
cannery was started last year, and,
judging from the amount of fruit
grown in the valley, will prove a
profitable undertaking; there is also
a grist mill, two saw mills and brick
yard. In fact the municipality

seems to have entered an era of
prosperity which only needs the
building of the railway already sur-
veyed, to give it better transporta-
tion facilities with the neighboring
towns; to make Chilliwack rank
among the leading towns of British
Columbia, situated as it is in the
centre of one of the finest agricul-
tural and fruit growing districts in
the Province. The Dominion Gov-
ernment Experimental farm is also
within easy reach of Chilliwack and
so are the famous Harrison Hot
Springs. A survey for the Chill-
wack Railway has been made and
work commenced. To the home
seeker, tourist, sportsman or city
resident seeking pleasure and re-
laxation from business and profes-
sional cares, Chilliwack has induc-
ements second to no place in the
Province, Population about 3000.

COWICHAN

POSTMASTER, G. B. ORDANO.

Cowichan, a subdivision of the district of the same name, is situated on the East coast of Vancouver island, in the Dominion Electoral District of Vancouver and Provincial of Cowichan. Communication by steamer from Victoria, distance, 28 miles, fare, \$1.75, also by Esquimalt and Nanaimo Ry to McPherson station, thence by stage to or from wharf, distance, 3 miles, fare, 50 cents. Nearest telegraph and express office, Cobble Hill. Agriculture is the principal industry of the settlers. The soil being noted for its productiveness. In addition to agriculture lumbering is carried on extensively there are also several quarries worked.

COMOX DISTRICT.

COMOX, POSTMASTER, J. B. HOLMES ;
 GRANTHAM, P. M., MRS. GRIEVE ;
 SANDWICK, P. M., ERIC DUNCAN.

Comox—The southern postal division of Comox District in the Provincial Electoral District of Comox and the Dominion Electoral District of Vancouver. It is the landing place of the weekly steamer from Nanaimo, distant about 60 miles, and 10 miles by wagon road from Union Mines. There are two hotels and two stores. Elk Hotel, proprietor, Wm. Sharp ; and Lorne Hotel, proprietor, Sam. J Cliffe. The Knights of Pythias have erected a large hall here, and there is a public school ; also a Roman Catholic Church and Episcopal Church. Population about 200.

Comox—Taken collectively as a district, is situated about 140 miles north of Victoria, and on the east coast of Vancouver Island, known on the coast charts as Port Augusta, but familiarly known by the Indian name Comox, is divided into three postal divisions, namely, Comox, Grantham and Sandwick. It has communication with Victoria and Nanaimo by steamboat, and Alyang, as it were, in the track of the Alaska and Northern steamship lines. It is the largest settled farming district on the island, and is fast becoming one of the most beautiful settlements in the Province. It possesses a fine harbor, and the only one on the east coast north of Nanaimo. Many lumbering camps are erected in the neighborhood, and the Union mines, owned by the Union Colliery Co., turn out a large quantity of excellent coal. The soil is of the best, agriculture, lumbering and coal mining are carried on extensively. A drive or walk through its peaceful valleys dotted with farms in a high state of cultivation,

would prove to the observer the fertility of the soil. There is no better place for the sportsman on the island, deer, elk, wolf, bear, panthers, geese, in fact every kind of game is to be found in the vicinity; also different species of fish, such as salmon, trout, whiting and cod, are to be found in abundance in the streams, lakes rivers and waters that surround the district. The educational and religious facilities are well looked after, there being several schools and churches of different denominations, which hold regular services. It has every convenience of a village, there being two hotels, three stores, a public hall, butcher shops, etc. Farms may be bought at reasonable rates, both improved and unimproved. Three miles from this settlement lies the rising town of Courtney, which is fast becoming a town of im-

the Dominion Electoral District of Vancouver, and the Provincial Electoral District of Comox. It is distant from Comox landing 4 miles, Union Village 6 miles, and from Nanaimo 65 miles. John J Grant is the proprietor of the Riverside Hotel, which affords good accommodations. It contains many beautiful farm lands, farming being the principal industry. Communication is carried on weekly, both by steamer from Nanaimo and wagon from Comox and Union mines. Two public schools, one Church of England and one Presbyterian Church affords both educational and religious instruction.

Buttles Lake—A large, beautiful, irregular lake, lying to the west of Comox District.

Baynes Sound—Separating Denman Island from the Mainland, is a long, narrow channel of considerable

HERBERT CUTHBERT & COMPANY,

portance. It is surrounded by coal fields and is close to the proposed railway extension. It has quite a number of settlers, who have built their homes there. The saw mill owned by Urquhart Bros. is here, and is in good running order, it also contains a fine hotel, of which Mr. Grant is proprietor; also stores and a livery stable.

Grantham—Is the northern postal division of Comox District, Comox and Sandwick both lying to the south of it. It is entirely a farming section and has a public school, but no churches or hotels. A wagon road runs from Grantham to Sandwick 3½ miles, to Comox 7 miles, and to the Union mines about 9½ miles. Population, 60.

Sandwick—The middle postal division of Comox District. Grantham to the north, Comox to the south. Has a population of about 360. It is in

depth and affording good anchorage. It indents the west shore of the district.

Straits of Georgia—The northern extremity of which is west of Comox, is entered by two passages, Haro Straits and Rossario Strait, both leading from the Juan de Fuca Straits. It separates the Mainland from Vancouver Island, leads to New Westminster by the Fraser River and to Vancouver by Burrard Inlet.

Texada Island—A large island lying to the north of the Gulf of Georgia, and noted for its minerals. It is 40 miles long and 10 miles wide. The principal industry is mining.

CASSIAR.

(Including McDame Creek and Lake-ton.)

The District of Cassiar is situated in the north-western portion of the Province. It is almost entirely a mining district, there being only a few farms along the Stickeen river, which supply the miners with vegetables. The features of the country are mountainous. The rivers and lakes are numerous and teem with fish, while game of all kinds abound. McDame Post or Sylvester Landing is on the left bank of the Dease river, just below the junction of McDame Creek with Dease river. The Hudson's Bay Company has a trading post here.

Liard Post is on the left band of Liard river, opposite the confluence of the Dease and Liard rivers. Here also is a Hudson's Bay Company's post.

Black River Post, on the left band of the Black river, a little below the confluence of the west and south branches, about 100 miles from McDame Post.

Centreville, or McDame Town, is about 14 miles north-west of Sylvesters Landing, on the left bank of McDame Creek. Here is situated the Court House, Calbraith, Grant & Cook's general store for the supply of the miners, with Edward Metcalf store-keeper and collector of revenue for the Government of British Columbia. The principal mining on McDame Creek extends about a mile above the town, and two miles below, while about four miles above town is Holloway's Bar on the right bank of McDame Creek.

Estimates of gold taken out of these sections during 1889 was \$28,310. The Chinese here have a small farm, and raised in the summer of 1890 about seven or eight tons of potatoes,

CLINTON.

POSTMASTER, ADALBERT LE BOURDAIS'
 In the Dominion Electoral District of Yale, Cariboo (since redistribution) and the Provincial Electoral District of Lillooet. It is situated in Cut Off valley, on the Cariboo wagon road, 32 miles from Ashcroft station,

C P R and 80 miles from Kamloops, the nearest incorporated town and banking point. There is a post-office, money order, telegraph and express office. The British Columbia Express Co. carry mails and passengers to this place from Ashcroft station three times a week, viz: Monday, Wednesday and Friday and return leaving Clinton, Tuesday, Thursday and Saturday, fare, \$5. Stages connect here for Lillooet and Alkali lake on Mondays. The Courts of Assize are held at Clinton twice a year and the land business of the district is carried on. There are many interesting points in the neighborhood, but Kelly's lake, celebrated for magnificent trout, seems the chief. The town looks very picturesque on approaching it. The Government buildings at the lower end set it off to advantage, the grounds surrounding them being so well kept by Mr. Jones, the Government Agent. Mr. F. W. Foster has a large store here which is not surpassed anywhere in the Province outside of Victoria. There are too very good hotels the proprietors of which are Marshall & Smith and Mr. R. A. Walker. Population about 150.

CORFIELD.

POSTMASTER, GEO. T. CORFIELD.

In the Dominion Electoral District of Vancouver and in the Provincial Electoral District of Cowichan situated on the rich alluvial land of Cowichan, at the head of a bay of the same name. Nearest telegraph office, Koksilah; nearest express office, Duncan's station. There is communication both by rail and water, being only two miles distant from Cowichan wharf, McPherson or Koksilah, on the E. & N. R.R. It is the largest tract of fertile land in Cowichan district and is enormously productive. Two rivers, the Cowichan and Koksilah, flow through this tract into Cowichan bay and afford excellent fishing. Wild fowl are very numerous in winter

Corfield is 35 miles from Nanaimo and 38 from Victoria. Mr. Geo. T. Corfield has a large well filled store. He is engaged extensively in raising high class blooded Jersey stock and has considerable capital invested in some famous "Percheron" stud horses, wishing to encourage a high class standard in stock raising. Many of the settlers around are by this enterprising and progressive example learning that it pays well alike to raise good stock and to cultivate their land to the best advantage. Mr. Corfield has also bought the valuable property

adjoining his own farm from Mr. James Boal and has expended several thousand dollars in fencing, ditching and otherwise improving his land. Considerable improvements have also been added by other residents to their several properties. Population about 60 whites.

those on the Similkameen and Tulameen, also a point of departure for the following surrounding districts: Otter Valley, Voght's Valley, Mammet Lake and Coldwater. This is a good agricultural section, containing a very large area of good farming land, which is said by tests to overlie an extensive bed of coal of a superior quality to that generally found on the mainland. A company has been formed to open up the mines at a comparatively early date, and a charter is acquired for connecting this point and Spences Bridge by railway.

The principal industry is farming and stock raising. Fare from Spences Bridge by stage, \$5.00.

COWICHAN LAKE.

POSTMASTER, ANGUS C. FRASER.

In the Dominion Electoral District of Vancouver and Provincial of Cowichan. It is the largest lake in the southern part of Vancouver Island, lying midway between the Alberni canal, on the West coast, and Cowichan harbor on the east. It is over 20 miles in length and in places 4 miles wide; 21 miles from Duncan's station on the E & N Ry, with which there is stage communication. Mr. Angus C. Fraser keeps a hotel and has every extensive logging camp. There is also a fine new hotel recently erected by Messrs. Price & Jaynes. Those visiting the lake will be made welcome, and cannot fail to thoroughly enjoy themselves. The fishing and hunting are excellent and a holiday spent at the lake is an event to be remembered.

A flag station on the C.P.R. in Yale District, 236 miles east of Vancouver. Post office, Kamloops.

CLOVERDALE.

(See also Clover Valley.)

In the Dominion and Provincial Electoral District of New Westminster is a rising young village 1½ miles from Clover Valley postoffice on the New Westminster and Southern Ry. Mails daily; telegraph office, Clover Valley; nearest express office and banking point, New Westminster. The daily train going south leaves New Westminster at 10:30, arrives at Cloverdale at 11 o'clock. Returning going north at 4 o'clock. There is an hotel kept by Mr. John Starr, general store, blacksmith shop, pump factory, section house, shoe shops, Odd Fellows hall and Presbyterian church, etc. The Independent Order of Odd Fellows have a strong branch here which meets every Friday evening at their hall which is nicely furnished and a credit to the order. The United Workman have also started a lodge and meet every second Tuesday. The presbyterians have constructed a very beautiful little church and hold service every Sunday at 2:30 o'clock. The Methodists meet every Sunday in the Good Templars hall. The river Nicomekl flowing through this valley affords the Angler capital trout fishing.

COBBLE HILL.

Shawnigan.

POSTMASTER, J. F. PORTER.

Shawnigan District, one of the sub divisions of the Electoral District of Cowichan, has its centre at Cobble Hill, an important station on the E. & N. Railway. There are good roads leading to all parts of the district, which is principally agricultural. Lime of excellent quality is shipped from the Cobble Hill Lime Works and large quantities of timber are forwarded to different parts of the district.

See Our Mackintoshes, Melissa and Rigby, Waterproofs, Umbrellas, Etc. **B. Williams & Co.** 97 Johnson st.

DEPARTURE BAY.

POSTMASTER, JAMES HARPER, JR.

Departure Bay is situated three miles north of Nanaimo, in the Dominion Electoral District of Vancouver and Provincial of Nanaimo. Mails daily, nearest telegraph, express office and railway station, Nanaimo, with which town there is stage communication. It is the shipping point for the well known Wellington Coal Mines. To the south about three miles are the mines, office and blacksmith shops. The largest ocean ships and steamers load at the commodious wharves of the Wellington Coal Co.

ing, Maple Bay, five miles. Nearest banking point, Victoria. Duncans is without exception one of the prettiest townsites on the Island railway; it lies half way between Victoria and Nanaimo, and the short distance to either of these cities makes it a most popular resort, coupled as it is with so many varied attractions for visitors; hunting, fishing, good drives, fine scenery and a most charming spot make the visitor take great interest in the place. It is without doubt destined to become a large and prosperous inland town. There are two hotels, viz.: The Quamichan, J. Daly, prop., and the Alderlea Hotel, C. H. Dickey, prop. There are also Episcopal, Methodist and Roman Catholic churches, two good general stores and a public school. The industries of the town are constantly increasing; sash, door and pump factories, saw mill and

DELTA MUNICIPALITY.

POSTMASTER AT LADNER'S, T. McNEELY
Population about 3000.

This highly important agricultural and pastoral section of the District of New Westminster, occupies that portion of South Arm of the Fraser River that extends from the Municipality of Surrey, on the east, to the Gulf of Georgia, on the west, embracing within its borders some of the finest land on the Pacific Coast, the section being noted for the remarkable fertility of its soil. The settlement comprises over 40,000 acres of rich delta land of black loam with a clay bottom, yielding immense crops of timothy hay, oats, barley, wheat, mangold wurtzel,

turnips, carrots, potatoes and fruit. Over 25 tons of potatoes have been raised, on an acre of Delta land. There are eight salmon canning establishments situated within the Municipality, viz.: Delta Canning Co., Harlock Packing Co., Wellington Packing Co., British America Packing Co., Canoe Pass Canning Co., E. A. Wadham's Cannery, Fraser River Fishery, and the British Columbia Packing Co.

The main outlet of the settlement is Ladner's Landing, which is a pretty little village, and contains churches, stores, hotels, blacksmiths shops, butcher shop, town hall, saw mill, barber shop, saddlers and shoe shops, etc. It is 12 miles from the city of New Westminster. The regular mail steamers from New Westminster and Victoria call at this landing three times per week each way, also the Nanaimo steamer and the Vancouver steamer twice per week each way. There is a ferry boat making daily trips between this place and New Westminster, which carries a daily mail.

Farms in this settlement can be purchased at from \$50 to \$200 per acre, according to improvements and location. The unimproved lands are free from timber and ready for the plow. A little dyking will be necessary, on some lands, but the work can be done at about the same expense as draining in other Provinces.

To any one seeking a home, with land of exceeding richness, no more inviting spot can be found than the Delta of the Fraser.

Municipal Officers—Reeve, H D Benson; Councillors, Wm. McKee, John Kirkland, Wm. Goudy, John A. Paterson and R. E. Kittson.

DULUTH.

In the Dominion Electoral District of
 Vancouver and Province of Comox.
 It is situated on the east coast of
 Vancouver Island, in Duncan Bay,
 at the mouth of the Seymour Nar-
 rows, and is to be the site for the
 roundhouse and Divisional shop of
 the Canada Western Central
 railway on Vancouver Is-
 land. It is proposed to ferry trains
 from this point over to the Main-
 land. Duncan Bay is a safe, com-
 modious harbor, and affords good
 anchorage for shipping. There is

over 300,000 acres, of the finest class of timber land back of it, owned by all the large lumber firms in the province. Some eastern lumbermen also own some of it. There are also good agricultural and coal land in connection with it. The New Vancouver Coal and Land Company own a quantity of land here, and Messrs. E. Perkins and Col. H. B. Scott, of Burlington, Iowa, have purchased 7,500 acres, principally for coal. The nearest postoffice is Quathiaski Cove, distant one mile. Nearest telegraph and express office, Comox, distant 40 miles. Nearest railway station and banking point, Nanaimo, distant 100 miles. Communication by steamer once a week from Victoria, also from Vancouver.

EAST WELLINGTON.

POSTMASTER, W. S. CHANDLER.

This is a mining town, situated in

minous nature, and now holds an Al position in the market. The mine of the E. W. Coal Co. is connected with Departure Bay, which forms a part of Nanaimo Harbor, by a steel rail tramway of standard narrow guage, $4\frac{1}{2}$ miles in length. The company have two locomotives and about forty coal cars of $4\frac{1}{2}$ tons. In addition to their regular collier, the SS Empire, many ships are despatched with cargoes of E. W. coal. In connection with the mines is a saw mill of 12,000 feet daily capacity. Population, about 500.

the valley of the Millstone river, about three miles to the north-west of Nanaimo, a little off the Comox road, in the Provincial Electoral District of Nanaimo, and Dominion Electoral District of Nannimo. There is one good general store and hotel. Nearest banking point, telegraph and express office, Nanaimo. Communication by livery from Wellington, distance four miles. Mails arrive and depart daily. Here is the colliery of the East Wellington Coal Company, of which Mr. W.S. Chandler is superintendent. There are two shafts, called No. 1 and No. 2. The latter is the only one in active operation, and the output of coal is limited by the supply of the trade of Mr. Richard Chandler, at San Francisco, who is a large dealer and principal proprietor of the mines. The East Wellington coal is of a hard bitu-

ELGIN.

(See also Surrey, Mud Bay and Nicomekle.)

POSTMASTER, A. ASPDIN.

A country post-office in Municipality of Surrey, in the Electoral District of New Westminster, on Nicomekle River. It is on the wagon road to Blaine, from which it is distant five or six miles from New Westminster, 13 miles. Stages run daily from Blaine to New Westminster, calling at Elgin on the way. There is a good hotel and store here, owned by Samuel Clay, of Victoria. There is some remarkably fine farming land on this flat, but it requires dyking, and it is very little above ordinary high tide mark. A large dyke has just been constructed across Mud Bay from Blackie's Spit to the high land on the Delta, which will reclaim a large tract of land hitherto worthless.

EBURNE.

(Late North Arm.)

POSTMASTER, WM. H. EBURNE.

This settlement includes the north side of Lulu and the whole of Sea Island, together with a number of smaller islands and the south shore of the mainland, extending from New Westminster to the Gulf of Georgia, a distance of about sixteen miles, and lies in New Westminster District. A part of what is known as North Arm lies in the municipality of Richmond, and Dominion and Provincial Electoral District of New Westminster.

A large portion of the cultivated land is in meadow timothy, which generally yields from two and a half to four tons per acre.

Oats form the principal crop in the cereal live. The average yield may

be stated at about seventy bushels to the acre.

Root crops are largely grown and yield most abundantly. With so near and good a market as Vancouver, a large number of persons have turned their attention to market gardening, but have formidable rivals in the "Heathen Chinese," not a few property owners having leased land at exorbitant rates to the Celestials.

There are three schools, one on Lulu Island, one on Sea Island, and one on the mainland. There are two churches, a Presbyterian on Sea Island, and the other, a Methodist, on Lulu Island. Service is also held every Sunday in the school house on the mainland by Methodists and Presbyterians alternately.

Three canneries are in successful operation, owned by J. H. Todd & Son, D. H. Munn & Co., and Rowan Bros. There are four stores, one at each of the canneries, and one removed from the mainland to the upper point of

EMPIRE VALLEY.

POSTMASTER, J. N. J. BROWN.

In the Dominion Electoral District of Cariboo, Lillooet and Provincial of Lillooet. It is situated on the West side of the Fraser river, and forming the Southern portion of the great Chilcooten plains. The settlers are mostly engaged in stock raising, as the lay and location of the country is well adapted for that purpose. The winters are seldom very severe, and stock do well out doors all winter; having had to be stall fed only three times in the last ten or twelve years, and the feeding only lasted three or four weeks. All kinds of fruit do well in the valley. Grain is not grown on a large scale, as the market is rather limited; although some of the finest grain in the Province has been grown in this section. Empire Valley is 58 miles from Clinton, the nearest telegraph office. It is reached by stage from Ashcroft station C. P. R., to Dog Creek, the nearest express office; thence by

Okanagan Railroad, railway station, telegraph and express office; nearest banking point, Kamloops; Vernon will be shortly. It is distant 11 miles from Mara Lake and 26 miles from Sicamous; fare, \$2.50. Being at the head of navigation, it has been until the present time, the natural outlet for the trade of the Okanagan country in general. The townsite is beautifully located on a level flat, backed by rolling park-like hills, and is surrounded by some of the finest wheat-producing land in the Province. The British Columbia Milling company's mill—the only roller mill in the Interior, and having a capacity of over 100 barrels per day—is situated on the bank of the river, and employs a large number of hands. The flour produced here is noted throughout the Province for its superior quality. During the entire period of the con-

POSTMASTER, OLIVER HARVEY.

In the Dominion Electoral Districts of Yale, Kootenay and Provincial of Yale. The centre of trade for the Spallumcheen Valley and the East Salmon River district, is situated at the bend of the Shuswap or Spallumcheen river, on the Shuswap and

struction of the S. & O. railway, which is now completed, the head offices of the railway company were located in the town during construction. The station and freight shed are completed, and the line of the railway traverses the townsite. A steamer, owned by the Milling company, plys three times per week to Sicamous, (the junction of the C. P. R. and S. & O.), carrying freight and passengers. The town already boasts a school and a Presbyterian and Episcopal church, a large hotel, and is growing steadily. A pork packing factory has been started, and brick-making promises to be one of its leading industries in the near future.

METEOROLOGICAL STATION.

Chief Officer--E. Baynes Reed.
 Meteorological Station--Since July
 1st, 1890, a station has been estab-
 lished in Esquimalt, under the charge
 of Mr. E. Baynes Reed.

The station forms part of the exten-
 sive system of the Canadian Meteoro-
 logical Service, under the manage-
 ment of the Director, Mr. Chas. Car-
 pmael, of the Toronto Observatory.

The Esquimalt Station is for
 the Victoria District and is well
 equipped with the modern instrum-
 ents for recording and observing the
 weather, such as electric anemograph
 for recording direction and velocity of
 wind; standard barometers; self-rec-
 ording aneroid barometer; standard
 thermometers; maximum and mini-
 mum thermometers; sunshine recorder;
 nephoscope for observing the clouds;
 rain gauge, etc. The observations are
 taken every four hours, day and night,
 and are telegraphed twice daily to
 Toronto, and from thence to Wash-
 ington.

The station forms the most westerly
 and northerly telegraph reporting sta-
 tion on this continent, and will, it is
 anticipated, prove a valuable addition
 to the meteorological service, carrying
 on, as it does, the valuable work hith-
 erto so faithfully performed by Mr.
 W. T. Livock, of the Hudson's Bay
 Company in Victoria.

FORT STEELE.

(Including Galena, Fairmount, Cranbrook, Windermere and St. Eugene)

Mission, also see Galena and Windermere.)

POSTMASTER — Fort Steele — Charles Clarke; Galena, George McMillan; Fairmont Springs, S. Brewer; St. Eugene Mission, Rev. Father Coccola; Windermere, J. Stoddart. The post-office at Cranbrook has been removed to St. Eugene Mission.

[NOTE—F.S. stands for Fort Steele, G. Galena; F. M., Fairmont Springs; St. E. M., St. Eugene Mission.]

In the Dominion Electoral District of Yale, Kootenay and Provincial of East Kootenay, 180 miles from Golden, C.P.R. There is a fortnightly mail during the summer, and once a month during winter. The mail for the places named is carried by steamer to Windermere on the Columbia, about 100 miles from Golden, C.P.R. From Windermere by light wagon to Fort Steele about 70 miles, having a way mail at Fairmont Springs, Wasa, &c. Nearest railway station, telegraph and express office, Golden, nearest banking point, Calgary, N. W.T., St. Eugene Mission and Cranbrook, are 12 miles from Fort Steele. There are four general stores and two hotels. At St. Eugene Mission there is an industrial school for Indians, also a Roman Catholic Church. Fare from Golden to Windermere, 100 miles, \$5.00, from Windermere to Fort Steele, 75 miles, \$7.00.

The Cranbrook post-office has been changed to St. Eugene Mission, Rev. Father Coccola, P.M.

FORT GEORGE.

[See New Caledonia.]

A trading post of the H. B. Co., at the

junction of the Nechaco with the
 Fraser. Nearest postoffice Que-
 nelle, where the stage to and from
 Ashcroft changes, distant 150 miles.
 There is an Indian village in the
 vicinity, and farming operations are
 conducted on about the same scale
 and with the same measure of suc-
 cess as at Fort James.

Ogden, Chas, factor, H B Co
 Tappage, James, clerk, H B Co

FORT RUPERT.

[See Alert Bay.]

Formally a trading post of the Hud-
 son Bay Co., is situated in Beaver
 harbor, on the north-east coast of
 Vancouver Island, about 21 miles
 from Alert Bay. This old relic of
 the famous Hudson Bay Co., is at
 present occupied by Mr. Robert
 Hunt, to whom it was sold by the
 Company some few years ago. Com-
 munication by steamer from Victo-
 ria. Postoffice Alert Bay.

Blenkinsop, George

GANGES HARBOR.

(See Salt Spring Island.)

Situated on the east shore of Salt Spring Island, in the Cowichan District, and being large and commodious, is capable of affording anchorage for ships and vessels of every size and description; nearest post-office, Burgoyne Bay, two miles distant; nearest railway, telegraph and express office, Chemainus, distant 10 miles; communication by steamer from Victoria 40 miles. Fare, \$2.

GENOA.

POSTMASTER, WILLIAM B. BAKER.

In the Dominion Electoral District of Vancouver and Provincial of Cowichan; is at present a strictly saw-mill town only, the large mill of Messrs. Hughtitt & McIntyre being located here. It is most admirably situated, having the excellent lands of the Cowichan Valley at its back and the extensive lumbering interests as an additional support, with a splendid harbor, and will eventually become an important place; nearest postoffice, railway, telegraph and express office, McPherson; E. & N. railway 4 miles distant; distance from Victoria, by rail, 40 miles, and by steamer, 35 miles. Fare, 1.75.

GOLDSTREAM.

POSTMASTER, JAMES PHAIR.

A station on the Esquimalt & Nanaimo Railway, 11 miles from Victoria. Postoffice, telegraph, mails daily. Communication by railway, there being one train each way daily and on Friday, Saturday and Sunday during the summer months there are two trains each way. Goldstream is very picturesque and favorite summer resort. The drive from Victoria is a most enjoyable one. There is a very comfortable and commodious hotel here and those seeking hunting or fishing, or the many varied attractions of a country home, will find Mr. James Phair, the proprietor, a most genial and hospitable host. Goldstream received its name from a stream that passes the hotel and in which gold was found some years ago.

HATZIC.

POSTMASTER, F. T. LAZENBY.

Hatzic, formerly known as Well's Landing, is situated on the north bank of the Fraser River, and has daily communication with New Westminster, Vancouver Victoria

and all river points, also railway communication from the east, west and south daily. The principal industries of the place are fruit growing and salmon fishing. It is surrounded by very fine fruit growing land, and large quantities of plums, apples and pears are shipped from here every season. An extensive nursery orchard has lately been started by Mr. George Henry, and land is changing hands at from \$75 to \$125 an acre for improved, and \$25 to \$40 for unimproved. A Church of England has been subscribed for and is to be erected shortly. There are also Roman Catholic and Methodist places of worship. There is a school and one general store, but no hotels. Mails twice daily. Nearest banking point, New Westminster. Nearest telegraph and express office, Mission City, distant two miles. Hatzic is in the Dominion and Provincial Electoral Districts of New Westminster, and has a population of about 100. A station is to be erected shortly.

HANCEVILLE.

POSTMASTER, THOS. O. HANCE

Hanceville is the leading settlement in the Chilcotin Valley, in the District of Cariboo, about seventy-five miles from Soda Creek, and forty-five miles from the mouth of the Chilcotin river. It is the furthest inland settlement of the northwest in the Province of British Columbia. It has a mail twice a week, arriving on Thursday and leaving on Friday. The ranchers located here are prin-

HARRISON HOT SPRINGS.

POSTMASTER, JNO. R. BROWN.

Harrison Hot Springs, situated on Harrison Lake, five miles north of Agassiz station on the main line of the C.P.R., with which place regular stages connect with trains, is one of most noted summer resorts and sanatoriums of the Pacific Coast, and none possess greater attractions or offers better opportunities for the recuperation of health. The virtue and curative qualities of these waters has long been known, particularly for such complaints as rheumatism and dyspepsia. The Brown Bros has a first class hotel and baths, with accomodation for 130 guests. The hotel is situated at the lower end of the lake, a beautiful body of water about 45 miles long and ten wide. The scenery in the neighbourhood

is very grand. The lake lies snugly nestled amongst the mountains, and is of that beautiful clear color peculiar to mountain water. The Glacier on Mount Douglas 8000 feet in height is visible from the Hot Springs. The drive from the lake to the station, or vice versa, is a lovely one.

Dominion Government spawning ground on the Harrison river is 3 miles distant, the experimental farm 5 miles

Marble, iron, limestone, sienna paint, timber, fish and gold throughout the district.

Fifteen miles from the hotel a large mine of sienna is being opened up which is pronounced by experts to be second to none. Communication is kept up by stage twice a day in summer and once in winter, also by steamer plying between the lake and Harrison river station, C.P.R. on Saturday, return Monday. Mails

ILLECILLEWAET.

POSTMASTER, A. C. McARTHUR, J. P.

Illecillewaet, pronounced Illy-cilly-wait, signifying "swift flowing waters" in the Indian jargon, is one of the principal stations on the Pacific Division of the C. P. R., and 407 miles east of Vancouver, in the Selkirk range of mountains. There are a great number of excellent silver, lead and copper claims in close proximity to the town, the Lanark, Maple-Leaf, Jumbo and others have been proved mines, and this season will witness great activity in the

mining industry. It is also the headquarters of the Fish Creek, where there are 50 claims staked, some of these are considerably developed, viz.: Dunvagan, Elizabeth, Annie, Agnes, &c., all showing up magnificently. The scenery is grand, while the climate is all one could desire. Fishing excellent, bear, goat and caribou are numerous. Altitude, 3,593 feet.

KAML

BRITISH COLUMBIA DIRECTORY.

KAML

KAMLOOPS.

POSTMASTER, E. H. JONES.

In the Dominion Electoral District of Yale-Kootenay, and Provincial of Yale.

Kamloops signifying "the meeting of the waters" in the Indian vocabulary, is in the Electoral District of Yale, of which it is the principal town. It is known as the Inland capital, being the most important and largely populated town between Calgary and Vancouver. It is beautifully situated at the confluence of the North and South Thompson rivers, and is the Divisional station of the C. P. Railway, 252 miles from Vancouver. About 50 miles from Kamloops on the river, coal of good quality has been found, and a company has been formed which is now developing one of the locations with good and improving results. The seams of coal are within a short distance of the silver mines already discovered, and possesses coking qualities, which will be invaluable for smelting the ores. The North Thompson is navigable for 120 miles for large steamers. In addition to this and more important still, is the interest certain leading men of the Canadian Pacific Railway and other capitalists are taking in the quartz mines at Mosquito Flat, as well as the coal mines, and is a sure indication that a branch railway will be built up the North Thompson from Kamloops. Within a few miles of Kamloops there is an inexhaustible supply of magnetic iron ore, which has been pronounced by smelters of the Pacific Coast to be invaluable for smelting purposes. The climate is dry and in consequence Kamloops is a favorite health resort, with parties suffering from the moisture of the coast cities.

There is a money order, postoffice, savings bank, express, telegraph and telephone offices. There is also a branch of the Bank of B. C. here. There are four churches, public school, court house and gaol, large steam sawmill. A good system of water works supplies the town for

fire and other purposes. The town is lighted by electricity, steamers ply between Kamloops and Enderby also Savonas. There are a number of good hotels. The Inland Sentinel (weekly) is the only paper published in Kamloops. The population is about 800, exclusive of the Chinese. The location of Kamloops at the confluence of the North and South Thompson rivers, furnishing nearly 400 miles of lake and river navigation, with its iron mines, its coal mines, its control of timber resources, making the safe foundation for the establishment of iron furnaces, and smelters for the reduction of ores, and the manufacture of lumber and furniture, in addition to its excellent climate, besides being the place whence will start the Kamloops, Cariboo, and Alaska Railway up the valley of the North Thompson, should and doubtless will make Kamloops the active and prosperous city of the interior, which its natural position and advantages entitles it to become.

KASL

BRITISH COLUMBIA DIRECTORY.

KEIT

KASLO CITY.

POSTMASTER, B. WILSON.

In the Dominion Electoral District of Yale-Kootenay and Provincial of West Kootenay. It is situated at the mouth of the Kootenay River, on the west side of Kootenay Lake; nearest railway station, telegraph, express office and banking point, Nelson; distance, 35 miles. It is 10 miles from Ainsworth, and about 18 miles from Pilot Bay, where the Hendryx Smelting works are situated. The famous Kaslo and Slogan silver mines lie west about 15 to 20 miles. The city lies almost level, gently sloping from the lake. An excellent harbor affords ample shelter for shipping. An abundant supply of pure water is furnished from the Kaslo River. This flourishing town is not much more than a year old, and can already boast of a population of several hundred people. For list of residents and further information refer to the index.

KEEFERS.

(Including Cisco.)

A station on the main line of the C. P. R., 140 miles from Vancouver; fare, \$7.00; has a telegraph office; mails daily; nearest postoffice and express office, North Bend.

Population, about 20.

Brown, W, station agent
 Gribble, W A, watchman

KEITHLY CREEK.

(Including Harvey and Snow-Shoe Creek.)

POSTMASTER, G. A. VIETH.

Keithly Creek is situated about 18

miles beyond the Quesnelle Forks, in the Dominion and Provincial Electoral District of Cariboo; has a postoffice; rail once a week; nearest telegraph and express office, Barkerville; distance, 35 miles; it is reached by stage from Ashcroft station over the Cariboo wagon road, which leads past the Quesnelle Forks up the North Arm of the Quesnelle River to the creek. There are three stores and one hotel, Veith & Borland, props. The Victoria Hydraulic Mining company is located in the vicinity and employ on an average, 60 men, both white and Chinese. The South Fork Hydraulic Co., Ltd., is also located near this place; they employ about 40 whites and Chinese.

Population, 60 whites and 80 Chinese.

KETTLE RIVER.

(See Grand Prairie.)

POSTMASTER, E SPRAGGETT.

The Kettle River, which follows a

general eastern course along the
boundary line, is now fairly well set-
tled. All kinds of fruit, vegetables
and grain can be grown in abun-
dance on the rich sandy loam com-
posing the river banks, while the
mountain sides are covered with
luxuriant bunch grass. Game of all
kinds abounds, and the Kettle
River has long been famed as a trout
stream. At the lower end of Kettle
River, known as Grand Prairie,
there is a thriving settlement, the
farms and gardens being a credit to
the energy and industry of the own-
ers. Just within the international
boundary line, Kettle River passes
through a narrow gorge, and falls of
over 200 feet are formed. The land
in the vicinity of these falls has
been purchased with a view to uti-
lize this magnificent water power for
milling purposes. The surrounding
country being well timbered, a
thriving industry is likely to result
in the near future.

KOKSILAH.

POSTMASTER, J. C. CROZIER.

In the Provincial Electoral District of Cowichan, and Dominion of Vancouver, a station on the E. & N. R. R., 35 miles from Nansimo and 38 from Victoria, lying midway between the Cowichan and Koksilah rivers. Like all the far-famed Cowichan valley, it is picturesque, and a lovely spot, possessing an excellent climate, and a good place for the farmer, sportsman, tourist, or anyone in search of health. There are two general stores, one hotel and one school. Mr. James Boal is the proprietor of the hotel. Farming is the principal industry. Has post and telegraph offices; mails daily. Population, 100.

KOOTENAY DISTRICT.

(See Index for various towns)

This district embraces the whole Columbia Basin in British Columbia. The geography is puzzling in the extreme. The Kootenay River rises (latitude 51° 15' N) in the Rocky Mountains, and flows south into Montana and Idaho, passing the sources of the Columbia, its parent stream. The Columbia flows north (from lat. 50° 12') forming a great bend beyond the Canadian Pacific Railway, and returning southward to a point 15 miles north of the International boundary, there it receives the Kootenay tributary, upon its return from the United States. There is thus an actual island six hundred miles round embraced in the great bends of the two rivers, and comprising the whole Selkirk and Purcell Ranges. East Kootenay consists of the upper Kootenay and Co-

lumbia valleys between the Rocky and Selkirk Ranges. Great bend is the sweep of the Columbia, north of the Canadian Pacific Railway, round the northern end of the Selkirks. West Kootenay is the Columbia Valley from the Canadian Pacific to the International Boundary, and the Kootenay Valley from the return of the river from the United States to its junction into the Columbia. Kootenay Lake is comprised in this western valley of the Kootenay.

East Kootenay the district lying between the Rocky Selkirk systems, on some 2,300 feet above the sea, and its valleys of the Upper Kootenay and Upper Columbia, enjoy a fine dry climate, and are well suited for cattle raising. Open forests, fine timber, and benches covered with bunch grass, are the leading characteristics, and the climate and scenery make the district especially desirable for those making new homes in the west. At the principal town, Golden, on the Canadian Pacific, there is a smelting plant, for treatment of the ores of neighboring silver mines in Mount Stephen and the Spallumcheen Valley, and these are expected to sustain a considerable population.

Donald is situated at C.P.R. crossing of the Upper Columbia and has a division terminus. A wide canal has recently been constructed by the Kootenay Valley's Company, connecting the Kootenay River with the sources of the Columbia, and here is situated the town site of Grohman.

Further down the Kootenay, and at the mouth of Wild Horse Creek, famous for the gold excitement of 1863, 1864 and 1865, when a thousand men were getting from one to three ozs. a day to the hand, is Fort Steele and Galbraith's Ferry. This is the point of departure by the Moyea trail for West Kootenay. In Crow's Nest Pass, at the head of Elk River, there are fifteen seams of coal in one section, and some of them are very large.

Great Bend this region is an undeveloped mineral country of great importance, as shown by operations on the western portion round McCullough Creek. It is yet difficult of access and little known.

KOOT

BRITISH COLUMBIA DIRECTORY.

KUPE

West Kootenay consists of two distinct regions. The first is the Columbia Valley territory to Revelstoke on the C. P. R., which is also at the outlet of the Illecillewaet Valley. Silver is the principal product, for besides the mines in Great Bend country, heavy shipments may soon be expected from Illecillewaet, where there is a flourishing camp. Upon the Columbia are the beautiful Arrow Lakes, a body of water lying between the Selkirk and Gold Ranges.

145 miles south of Revelstoke and 15 miles north of the Boundary, is the outlet of Kootenay River. This river, after passing round its great bend through Montana and Idaho, re-enters British Columbia between the Selkirk and Purcell Ranges, and then falls into Kootenay Lake, which runs northward some 65 miles. Half way down its course is the branch, called the West Arm, whence the Lower Kootenay descends by a series of five cataracts to the Columbia at Sproat's Landing. Upon Kootenay Lake are the Warm Springs and Hendryx mining camps, and at the former is the town of Ainsworth, with a population of about 500. The camp has several hundred silver claims, most of which show remarkably fine prospects, and some are of exceptional promise. At the Hendryx camp is the Bluebell Mine, where two contiguous ledges of about 80 feet each are being prospected at an immense outlay, by eastern capitalists. The Nelson Camp, in the West Arm, includes the magnificent Silver King Belt of silver claims on Toad Mountain, and the scarcely less remarkable gold belt on Eagle and Forty-Nine creeks. Copper in large bulk has also been found, and the Queen Victoria claim has just been bonded for \$50,000 by Canadian Pacific Railway officials. Nelson, the central depot for this camp, has already many business houses, and is rapidly growing into a city. Sproat's Landing, above mentioned on the Columbia, will soon be a flourishing town, and the Canadian Pacific Company are now connecting it with Nelson by the first link of what will ultimately become the railway system of the southern interior. The Spokane Northern Railway is now heading for the bound-

dary on the Columbia, and the Northern Pacific will probably build a line to near the boundary on the Kootenay, both with the design of tapping the silver camps on Kootenay Lake by means of steamboat connections.

The scenery on Arrow and Kootenay Lakes, and the splendid cataracts on the Lower Kootenay, no less than the almost unequalled fishing of the district, are well calculated to attract tourists.

Access may be had by steamers from Revelstoke on the C. P. R., to Sproat's Landing, and thence by rail to Nelson. The steamboat fare is \$7.00. The distance by rail is twenty miles. The Columbia & Kootenay Railway Co run one train a day.

Across from Kootenay, Idaho, on the Northern Pacific, is by stage, 32 miles, for \$3.00 to Bonner's Ferry, and steamboat thence to Nelson is 160 miles, are \$5.00. Fifty cents is the general charge for meals or bed. There is ample scope for profitable investment, but little for labouring men without means.

LANG

BRITISH COLUMBIA DIRECTORY.

LANG

LANGLEY MUNICIPALITY.

POSTMASTER, LANGLEY—J. M. DRUMMOND. POSTMASTER, LANGLEY PRAIRIE—WM. MURRAY.

This municipality including Langley and Langley Prairie, lies on the south side of the Fraser river, and commences at a point about 9½ miles above the city of Westminster. It extends from the Fraser till within 2½ miles of the boundary between Canada and the United States. It is a little over 10 miles square, containing about 110 square miles.

It forms part of the Westminster Electoral District, which sends three members to the Local and one to the Dominion Parliament.

It has a present population of nearly 1,300. It is an agricultural district of great richness and beauty, and most conveniently situated as to markets, being within easy distance of both Westminster and Vancouver. There is no waste land in the whole municipality, and only small portions that can be called light or poor soil, and even these parts, under fair cultivation, will raise good average crops. The most of the land is good, being a rich dark loam, with clay subsoil. There are some exceedingly rich belts, such as the low land lying along the bank of the Fraser in East Langley, from three to four miles in length and about two miles wide. The Salmon Prairie, near Fort Langley, containing about 2,000 acres—a large tract of land in the north-west part of the municipality. Also Langley Prairie, which was long the property of the H. B. Co., and now one of the most desirable localities on the lower Fraser. Berger's Prairie, in the south of the municipality, containing about 1,000 acres of the choicest land.

There is no Government land open for settlement in the municipality. There are a number of lots held by speculators, and a few as timber limits; all the rest of the land is occupied by actual settlers, who are rapidly making for themselves comfortable and beautiful homes in this new Province.

As the settlers are of a very desirable class, sober, industrious and law-abiding, this district is rapidly advancing, materially, socially and morally. Roads and bridges (where needed) are being constructed all through the district, so that there is scarcely a bachelor's dwelling that has not a fair road to it. The municipality is all divided into school sections. There are eight school houses, and two more in the course of construction.

The various religious demonstrations are also well to the front, and the interests of the community in that direction are carefully looked after.

As the whole district is nice rolling land, with the exception of the prairies, it is all well watered and easily drained.

The land is well suited for all kinds of grain, such as wheat, barley, oats, peas, etc., and those are grown in large quantities; also hay and roots. It is specially adapted for fruit cultivation, and settlers are going largely into that industry. Hops are also raised to some extent, and promise well.

There are two creeks that flow through the locality, the Salmon creek and Nicomekl, both rising in the east of the municipality. The Salmon creek flows into the Fraser river, near the fort, the other in a south-western direction into Mud Bay. Trout are plentiful in both these streams. Game of all kinds are also plentiful in the locality.

There are two sawmills in the municipality—one, Mr. H. West's, about three miles above Fort Langley, on the side of the river; the other, Mr. Bovill's, on the Yale road, above Murray's corner.

The chief points of interest are: 1. Fort Langley, one of the oldest white settlements in British Columbia, it being one of the chief stations of the H. B. Co. Near this is the old Derby townsite, which was intended by Colonel Moody as the site for the Provincial Capital. It is now unused except as a picnic ground. At the steamboat landing there is quite a little village, including two hotels—

Fraser & Chalmers
MINN

LANG

the Commercial Bank, Eliza Towle, and by Mr. Peter Brown two general stores, under the name of Mr. J. M. Drummond, a doctor, blacksmith and a little way up the mill, J. Hosseok is a daily mail also telegraph office.

Mr. Alexander Macdonald joins the village, his farm surveys and a number of sold. The price

James Taylor, on the road, is also ground to intend. It is one of the most picturesque spots on the river, and is sure of importance.

Three steamboats of the Fairly Queen, Cap between Langley and returning at night Murray's Corner, 60 landing, is Murray's there is a large store under the energetic Messrs. Riddle & doing a large business church, a black a few houses.

It is expected that a railway may municipality, near so, it also will be taunce.

Alder Grove, six miles Yale road, is a Here there is a black office, kept by Mr. also a blacksmith further on a country round the land good, but to clear. This is come one of the rural districts in British as a place for industry unsurpassed. It is supplied with water either low, both farms partially covered

ince.
street. Victoria

the Commercial House, kept by Mrs. Eliza Towle, and the Langley House, by Mr. Peter Brown. There are also two general stores—the H. B. Co. store, under the able management of Mr. J. M. Drummond, and the other by Mrs. Towle. There is also a doctor, blacksmith and a butcher, and a little way up the river a grist mill, J. Hosseok proprietor. There is a daily mail from Port Haney, also telegraph office

Mr. Alexander Mavis, whose land adjoins the village, has had a piece of his farm surveyed into town lots, and a number of them are already sold. The price is \$50 per lot.

James Taylor, on the opposite side of the road, is also prepared to give ground to intending settlers.

It is one of the most beautiful and picturesque spots on the Fraser river, and is sure to become a place of importance.

Three steamboats call daily; also the Fairy Queen, Captain Young, runs between Langley and Westminster, leaving Langley in the morning and returning at night.

Murray's Corner, $6\frac{1}{2}$ miles from the landing, is Murray's Corner, where there is a large store and postoffice, under the energetic management of Messrs. Riddle & Davidson, who are doing a large business, a Presbyterian church, a blacksmith's shop and a few houses.

It is expected that in the near future a railway may pass through the municipality, near the point, and if so, it also will be a place of importance.

Alder Grove, six miles east, along the Yale road, is Shortreed's Corner. Here there is a large store and post-office, kept by Mr. Robt. Shortreed; also a blacksmith's shop; and a little further on a school house. The country round this is well settled, the land good, but somewhat hard to clear. This locality is sure to become one of the very best agricultural districts in British Columbia, and as a place for intending settlers it is unsurpassed. New-comers can be supplied with any land they desire, either low, bottom or brush land, farms partially cleared, or all bush.

Prices range all the way from \$10 to \$100 per acre.

The climate of Langley is the finest in British Columbia, and quite a health resort.

LILLOOET.

POSTMASTER, C. A. PHAIR.

In the Dominion Electoral District of Cariboo and Provincial of Lillooet. Is situated on the right bank of the Fraser River, in a beautiful and fertile valley, surrounded by mountains rising to a height of six thousand feet. It is connected with Clinton and Ashcroft by a good wagon road, over which communication is made once a week by stage from Clinton, connecting with the Cariboo stage. Fare, \$5.00. There is also communication by trail from Lytton, distant 40 miles. Indian horses can be had to there and return; trip, \$7.00. Nearest telegraph office, Clinton, 47 miles. Nearest railway station,

Ashcroft, 60 miles. Mail direct from Ashcroft once a week. Nearest banking point, Kamloops. There are seven stores and two hotels. The hotel proprietors are Mrs. Allen and John Miller. Also a church (Episcopalian) and one school. It is within three miles of the beautiful Seaton Lake, sixteen miles in length, abounding in fine trout. It is also a resort for invalids, the climate being temperate, dry and healthy. Gold mining is the chief industry, the amount obtained in this neighborhood annually is worth \$70,000. All kinds of fruit, including peaches and grapes grow to perfection. Two years ago the Government built a bridge across the Fraser at this point costing \$20,000. The district at large comprises grazing, agricultural and mineral lands, the various benches on both sides of the Fraser and Bridge Rivers are attracting capitalists, and several companies have already secured leases and are mining them by the hydraulic method with very good result. The hunting is very good, game of all kinds being abundant on both sides of the Fraser and Bridge Rivers. The land when irrigated, is very fertile. The yield and quantity of its wheat cannot be surpassed. The present Government has been most liberal in granting money for roads, bridges and schools.

Pemberton Meadows.—This is the only part of the district that needs no irrigation. The land is very rich and yields large crops of hay. A large numbers of settlers have settled in there. The wagon road to Lillooet is not yet complete, and it is very difficult to drive cattle to market over the trail.

LOWE INLET.

The cannery has a capacity of 1,500 cases per annum. This is a beautiful little land-locked bay with high bluffs all round, except at the entrance which is narrow but deep. At the head of the bay is a magnificent waterfall, the outlet to a fresh water lake, which is some 400 yards back, and which although above sea level is subject to the rise and fall of the sea water. The Kitkahtla Indian Chief Shakes has a monopoly of the fishing in these waters and he has made big money by supplying his fish to the cannery, for the past two years.

MAPLE RIDGE MUNICIPALITY.

(See Port Hammond and Pitt River.)

In the Dom. and Prov. Electoral District of New Westminster. This municipality is situated on the right bank of the Fraser River, on which it has a frontage of 16 miles. It extends from Stave River, on the east to Pitt River on the west; postoffice, telegraph and express offices, Port Hammond; nearest banking point, New Westminster; daily mails east and west. The steamers plying up and down the Fraser River all call, thus affording the best of communication. There are three postoffices in the Municipality, viz.: Port Hammond, Port Haney, and Whanock. It is well supplied with both

educational and religious advantages. Port Hammond is 24 miles from Vancouver by rail; fare, \$1.50; 16 miles by water from New Westminster; fare, 50 cents. At Pitt River there are large prairies, known as Pitt Meadows. These meadows comprise from 30,000 to 40,000 acres of level land, which has lately been successfully dyked by the British Columbia Dyking and Draining Co., to prevent the encroachment of the Fraser River. The rest of the land in the Municipality is high, being a loam, with a heavy clay subsoil. This clay makes a superior class of brick. Outside of the brick yards, agriculture and fruit growing are principal pursuits. The close proximity of the Municipality to the markets of Vancouver and New Westminster making these pursuits very profitable.

MASSETT.

(See also North-West Coast.)

In the Cassiar District, Queen Charlotte Island Division, 100 miles north of Skidegate, steamers from Victoria monthly. There is an Episcopal Church here and school house, the church can boast of a surplice choir composed of natives.

Steamer from New Westminster, 32 miles, fare \$1.00. The Matsqui postoffice has been changed to Mission City, that office having now taken the name and paraphernalia of the Matsqui office.

MAYNE ISLAND.

(See Plumper Pass.)

Is centrally situated between Victoria, Nanaimo and New Westminster, has a promising outlook for coal, and has fine harbors and bays all round the island. Has a population of over 60, with a postoffice, hotel and a good wharf. The soil produces some of the best fruit grown in the Province.

METLAKAHTLA.

(See also Northwest Coast.)

POSTMASTER, JOHN CUNNINGHAM.

In the Cassiar District, Skeena Division. A village 150 miles from Victoria, situated on the Northwest Coast. It is reached by the Canadian Pacific Navigation Co.'s steamers from Victoria, which leave on the first and fifteenth of each month for Port Simpson and intermediate ports; nearest telegraph and express offices, Nanaimo. For position and beauty this village excels all others in the Province. It has a beautiful church, Episcopal. The largest as yet in the Province. Public school, Boys' Home, Girls' Home, and his Lordship, the Bishop of Caledonia conducts a private seminary for boys. It has also a public hospital, with an attendant physician and matron.

METCHOSIN.

Big Lake, or Dr. Ash's Vines— A beautiful sheet of water two miles long, between Pedder Inlet and Sooke Basin.

Bilston Falls—Near Albert Head. A picturesque falls on a creek of the same name.

Happy Valley—Through which runs an excellent road, and possesses excellent timber. The land is generally good. It is situated in the middle of the district.

Pedder Bay—A long, narrow harbor, at the south-eastern part of the district, said to be a prospective point for a straits ferry landing.

Race Rocks—Rocky dangerous islets about three miles off the south-eastern point of the district, and due east from Beecher Bay. On the main islet or Great race, as it is known amongst nautical men, stands Race Rocks light 120 feet high, a revolving flash light visible for twenty miles, the present keeper is Mr. Frederick Eastwood.

Rocky Point and Williams' Head—Two picturesque spots on the Eastern shore of Metchosin between Albert Head and Pedder Bay.

Sangster's Plains—A Beautiful open plains twelve miles from Victoria. It is a grand picnicing spot possessing picturesque scenery.

This section of counlry, properly known as Metchosin, may be more accurately described as a rural settlement on Vancouver Island with an area of 24 square miles, distant from Victoria in a westerly direction about 15 miles, forming a part of the Provincial Electoral District of Esquimalt, and Dominion of Victoria.

METC

BRITISH COLUMBIA DIRECTORY.

M'PHE

It is a most enjoyable section for picnicing, hunting, fishing, etc., large and small game are abundant in season and the roads are excellent, affording a most charming resort for riding and driving parties. In visiting the district the eastern road should be taken, while the return trip can be made more enjoyable by returning by the Happy Valley road. This latter road commences near the Metchosis church and terminates near Peat's hotel at Colwood. The various religious denominations hold religious services on the Sabbath. Ample educational facilities are afforded by a public school. The settlers, with help received from Victoria, have built a public hall in which parties and dances are held. The resources of the district are fruit, timber and dairy farming. The cattle and sheep runs are good. Hay and grain forms quite an important feature during the present season. The clearing up of new lands and the removal of timber are steadily going on and constantly increasing the area of the cultivatable lands. Peas, plums, apples, gooseberries and most small fruit do well. There is no open government land of value in the district. Farms can be purchased at reasonable rates. To men of means it is a section possessing many advantages, and for those seeking employment, there is ample room for industrious farm hands, their services are in constant demand.

MISSION CITY.

POSTMASTER, J. TRETHERWEY.

In the Dominion Provincial Electoral
District of New Westminster. This
town is situated at the junction of
of the Bellingham Bay and British
Columbia Railroad with the C. P. R.
about 35 miles from New Westmin-
ster and 43 from Vancouver. Com-
munication by railroad and steam-
boat. Fare from Vancouver, \$1.70;
from New Westminster, \$1.00. Mails
twice daily, has telegraph and ex-
press offices; Nearest banking point,
New Westminster.

There are two general stores and four
hotels, viz: Hotel Mission, D. Nich-
olson, prop.; Matsqui, A. Winde-
bank, proprietor; Ontario House, J.
Trettheway, prop.; Albion House,
Mrs. Taylor, prop.

Mission City is likely to become a
place of some importance. It has
already 4 hotels, a number of stores,
and a sash & door factory. There is
one Roman Catholic and one Metho-
dist church, with two schools. Pop-
ulation about 260. The land in the
vicinity is very productive, and its
proximity to the markets of New
Westminster and Vancouver renders
it a very desirable place for market
gardening and raising small fruits.
Trains both East and West stop here,
and connect for Washington, Oregon

Finest Sample Rooms in the

phone communication with Vancouver. Has a postoffice, mails twice a day. Nearest telegraph, express office and banking point, Vancouver. The principal industry is manufacturing lumber for export, the Moodyville saw mill turning out 100,000 feet per day. There is also a public school and Church of England Mission school. It is a pretty townsite, well watered, and the harbor, like that of Vancouver, is excellent.

MOUNT LEHMAN.

POSTMASTER, E. J. THOMSON.

In the Dominion and Provincial Electoral District of New Westminster. There is dailt communication by steamer with New Westminster, distance 30 miles. Nearest railway station, telegraph and express office Mission City, distance 3 miles.

It has a postoffice, mails three times a week, two general stores, two schools and three churches, viz: Presbyterian, Methodist and Episcopal. The population is about 500, the majority of whom are farmers and fruit growers. The soil is a rich clay loam and yields magnificent crops, but owing to the rolling nature of the surface, is more adapted to fruit and grazing than for grain purposes.

MUD BAY.

POSTMASTER, THOMAS WELSH.

(See also Elgin and Surrey Centre.)

Country post office in the Dominion and Provincial Electoral District of New Westminster, Surrey Municipality, at the junction of the Semiamho, Kirkland and McLellan roads. Includes part of Mud Bay flats and high land on the north side. Communication by stage from New Westminster, 10 miles, the nearest banking point, telegraph and express office, fare 45 cents. There is some very fine alder bottom and maple land in the district. At the base of the high land are to be found very fine springs of water. For general description see Surrey.

NAAS HARBOR.

(See Northwest Coast.)

POSTMASTER, A. G. McLELLAN.

A fishing station on the left bank of the Naas River, in the Cassiar Dis-

trict; 450 miles north of Nanaimo. There are Methodist and Church of England Missions here, also three canneries; mail fortnightly from Victoria. For list of residents see Northwest Coast.

NAKUSP.

POSTMASTER, W. S. THOMAS.

Situated on Arrow Lake, in the Dominion Electoral District of Yale-Kootenay, and Provincial of West Kootenay. It is a distributing centre for the Kootenay country, over three hundred pack horses are used delivering to the different mines. There is a postoffice; mails four times a week; nearest telegraph, express office and banking point, Nelson, distant 35 miles. Means of communication by steamboat Revelstoke, also by stage to the Great Slooan country six times a week. There are five stores, blacksmiths and butcher shops, four hotels, one school and four churches under construction, also a smelter, to be finished in the spring of this year. Fish abound in the lakes and rivers, and game of all kinds is plentiful. Population, 500.

NANOSE BAY.

POSTMASTER, WILLIAM ROBERTS.

In the Dominion Electoral District of Vancouver and Provincial of Nanaimo. It is situated 8 miles north of Nanaimo, and about the same distance from Wellington. It is quite a large bay and affords good anchorage for vessels. Has a post-office. Nearest banking point, telegraph and express office, Nanaimo. Communication by stage from Nanaimo and Alberni. It is a fine farming district, and has a road running round the bay through Parksville to Alberni. Population about 50.

BRITISH COLUMBIA DIRECTORY.

NELS

NELSON, B. C.

(For latest list of Nelson residents see Addenda.)

POSTMASTER, J. A. GILKER.

The eastern terminus of the Columbia and Kootenay Railway, 30 miles from Robson, on the Columbia river, is situated on a bench overlooking the Kootenay river, about 23 miles west of Kootenay Lake, and is the distributing point for all supplies for the different mines throughout West Kootenay. It is well supplied with hotels and general stores, and promises, through its contiguity to the Toad Mountain and Ainsworth mines, to become the Denver of British Columbia. Steamers ply regularly to Bonners Ferry, Idaho, Ainsworth, Balfour, and other important points on the lake, and a large and constantly increasing business is done with many camps located and daily being located in the district. The cottonwood creek, which runs through the centre of the townsite, furnishes an unlimited water supply, which is now being used by the Nelson Waterworks Co. The Canadian Pacific Railway Co's, telegraph gives Nelson communication with all outside points via: Spokane Falls, and the Kootenay Lake Telephone Company place the town in touch with Balfour and Ainsworth, and also with almost every mining claim of importance in the Toad Mountain and Warm Springs districts.

The population, which recently aggregated only about 200, now numbers 1,000, and is being augmented almost daily.

NEW CALEDONIA.

The New Caledonia District is one of
 the largest of the Hudson Bay Co.'s
 trading districts, being upwards of
 300 miles square. It comprises part
 of three electoral districts, viz:
 Cariboo, Cassiar and New West-
 minister. It includes most of that
 district commonly known as the lake
 country.
 The resources of this district are con-
 fined to peltries and gold. The
 amount of furs procured annually
 is very much less than in former
 times, owing to the fact that the
 country has been burned over so
 frequently of late years. It is now
 hard to find any extent of country
 that has not been burned over quite
 recently. If the Government does
 not take active measures to prevent
 the Indians and others from allow-
 ing fires to spread, the whole coun-
 try will be ruined so far as timber

and furs are concerned. Gold is found on the Fraser, Parsnip and Nechaco rivers, and in the Finlay branch of the Peace river. The whole of the northeastern portion of the district is considered auriferous, and no doubt the near future will see many new mines developed.

Fort St. James on Stewart's Lake, about a mile from its outlet, is the head post of the district. The fort is built on rising ground, and commands a beautiful view of the lake and surrounding mountains. Agriculture here has always been fairly successful, but has been confined to barely, oats, potatoes and vegetables. Wheat has been tried, but with no measures of success.

Fort George, at the junction of the Nechaco with the Fraser, is the most southerly post. There is an Indian village in the vicinity. Farming operations are here conducted on

once a very good fur post, but furs are now very scarce. The waters of this lake find their way to the Arctic ocean by way of the Peace river. Mr. E. S. Peters is in charge of the post.

Fort Connolly, on the lake of the same name, is situated among the mountains, and is somewhat inaccessible. There are no residents, either Indian or white. The post is visited periodically by a few Siccanies and Atnas. The trade is considerable. The salmon ascend to this place, and form the main subsistence of the Indians, and it may be said that the salmon form the main subsistence of all the Indians in the whole district, except those who hunt on the last of the divide. Mr. T. R. Alexander is at present in charge of the post.

Fort Babine, on the north of the Babine lake, has no white residents, ex-

The Leading Auctioneers in British Columbia

HERBERT CUTHBERT & COMPANY

Conduct Auction Sales of Farm Stock, Real Estate and Furniture

about the same scale and with the same measure of success as at Fort James.

Mr. Charles Ogden is the officer in charge of the Post. There are no white residents.

Fort Fraser is another post on a lake of the same name. There are two Indian villages but no white residents. Good crops of barely, oats and potatoes are raised, the company wintering most of their horses and mules here. Mr. William Sinclair is in charge of the post.

Stone Creek Post is situated about 30 miles east of Fort Fraser. It is a post of little importance, as the country around it has been hunted and tramped over so much that the furs are quite exhausted. There are two Indian villages, but no resident whites. Nothing in the way of farming can be done here, owing to the frequency of summer frosts.

Fort McLeod, on McLeod's Lake, was

cepting the officer in charge, Mr. Angus McIntosh. The waters of this lake find their way to the Pacific ocean by the Skeena river

There is no postal system through this district, letters only being conveyed occasionally by the H. B. Co.'s pack trains. There are no roads, only trails, made for the pack horses. Most of the miners who frequent the Omineca, winter elsewhere.

POSTMASTER, RICHARD LUDLOW.

A post and farming settlement in the
Dominion and Provincial Electoral
District of New Westminster, about
one and a half miles from Clover-
dale, on the New Westminster and
Southern railway; nearest telegraph
office, Clover Valley; nearest ex-
press office and banking point, New
Westminster, distant 12 miles. The
daily train going south leaves West-
minster at 10:30 a. m., arrives at
Cloverdale at 11 o'clock; returning,
leaves Cloverdale going north at 4
p. m. There is also communication
by water.

The soil in this settlement is very rich
and crops yield abundantly. There
are three churches and three public
schools, two and a half miles apart.
Population, about 100.

duced, known as the New Wellington, is being most successfully and vigorously worked, and the coal shipped to an eager and ever-increasing market over the company's Northfield railway and loading wharves at Newcastle point. Northfield claims to be a thorough "union mining camp," and is an extraordinary instance of the rapid growth of a mining town, being only lately platted and sold. It is now becoming thickly populated with a prosperous and well contented people, who, excepting the tradesmen and artisans engaged in building houses, etc., are entirely employed in the company's mine.

AUCTIONEERS TO THE PROVINCIAL CATTLE MARKET, Victoria, B.C.
Market held every Wednesday.
Stock received from all parts of the Province.

way from the city. The soil is a very fertile loam, the crops and fruit grown there are excellent. Farming is the principal industry. The climate is all that can be desired, it is neither too hot nor too cold. Means of communication is carried on both by steamer and wagon road. It contains a good public school and two churches, the Church of England and the Methodist Church. 250 is about the population at present.

NORTH WEST COAST.

Includes all that immense stretch of our northern coast line, extending from Alert Bay on the south to the Alaska boundary line on the north. It belongs, properly speaking, to the Skeena division of the electoral district of Cassiar. It is a section of the province of British Columbia, which at no distant date will become one of the most important wealth-producing portions of the Dominion, having unlimited possibilities of expansion in fisheries, timber and the product of the mine. As yet the only industry to which attention has been particularly directed is the canning and salting of salmon, which has wonderfully increased during the past two or three years. The waters of the coast teem with every description of fish, the most important so far as known, being the halibut, skil, oolachan, herring and dog fish. There is, so far, only one, dog fish oil refinery in operation, that of the Skidgate Oil Company on Graham Island, managed by Mr. Robt. Tennant, another one is in contemplation, to be erected by a well-known Victoria firm on Bank's Island in connection with a salmon cannery. Already market is obtained for all the oil at present manufactured. The salmon canning industry is very extensively carried on at Naas and Skeena rivers, also at Lowe, Smith, Gardiner & Rivers Inlet. The timber consists principally of spruce, red cedar hemlock and yellow cedar or cypress. The Canadian Pacific Navigation Company dispatch a steamer to Naas and way ports about twice a month, leaving Victoria on the first and

fifteenth of each month, extending their trip to Queen Charlotte Islands, if sufficient inducement offer. The "old reliable" of the northern coast, the steamer "Boscowitz" under the careful command of Captain Williams can always be depended upon for two trips a month. These steamers call regularly at Alert Bay, Rivers Inlet, Bella Bella, Skeena, Metlakahla, Fort Simpson and Naas River in the order named, and occasionally at Smith's Inlet, Gardiner's Inlet and Queen Charlotte Islands. Communication with Lorne Creeks, Forks of Skeena and Omineca is kept up by canoes during the summer months, but during the winter the river is frozen over and consequently there is no traffic from November till the first of May.

NORTH BEND.

A division town on the main line of
the C. P. R., 129 miles east of Van-
couver, in the Dominion and Pro-
vincial Electoral District of Yale-
Kootenay. There is a post, telegraph
and express office. Nearest banking
point Vancouver. There are three
general stores, two churches viz:
Episcopal and Roman Catholic. It
is also a divisional point on the C.
P. R., having a round house and re-
pair shops, etc. The Railway Com-
pany have erected an excellent hotel
here for the accomodation of visitors.
All trains stop here half an hour for
meals. Population, "floating" be-
tween three and four hundred.
Mails daily.

187

Lake, two miles north of the bound-
ary line; is in the Provincial and
Dominion Electoral District of Yale,
and is the centre of travel between
the interior of British Columbia and
Washington. The beauty of the
lake and its salubrious climate, ab-
sence of mosquitoes and abundance
of game and fish, make it a favorite
resort for those in search of health
or pleasure. Osooyos is the dis-
tributing postoffice for Fairview,
Rock Creek, Kettle River and the
neighboring mining camps; is the
head customs office of the lower
interior; has a large hotel, store,
government offices, look-up, and
lastly, that great desideratum of
live western towns—a bright, local
newspaper. The C. P. R. are nego-
tiating for a townsite here, the prox-
imity of so many developed quartz
leads ensuring a genuine boom in
1893. Mail is carried three times
weekly, by Stanton's stage line, be-
tween Osooyos and Penticton, con-
necting with C. P. R. boats, and
there is also a tri-weekly mail from
"The States," via Oro and Loomis.

OWAY KEENO AND VICEROY.

(See Northwest Coast)

Oway Keeno cannery and Viceroy cannery, both situated at the head of Rivers Inlet, the property of a syndicate known as the B. C. Canning Co, Ltd., are stationed on each side of the Oway Keeno Indian village.

During the past year Robert Draney was manager of the above canneries. He was originally the builder. There is a church, school and mission houses at Viceroy, besides the cannery and saw mill. The capacity of the cannery is about 12,000 cases per annum; that of the mill is about 7,000 per diem.

The Indians here are considered to be some of the hardest cases on the coast. The missionaries can do nothing with them, and have to give them up in despair.

PEACE RIVER.

the Cariboo District, Quesnelle Division. It is reached by stage from Quesnelle

PENDER ISLAND.

POSTMASTER, WASHINGTON GRIMMER.

Browing Harbor and Bednell Bay—Two splendid harbors are situated on the east and south east side of Pender Island, in either of them a squadron could ride in safety.

Hope Bay—In which is a fine blue freestone quarry owned by Messrs. William Hoosen & Sons.

Otter Bay—A deep land-locked bay, many vessels have anchored here including H.M.S. Warspite.

Washington Bay—Where the Government wharf is situated, has fine, deep water, good anchorage and on the line of steamboat traffic between Victoria, the Mainland and Nanaimo.

This island is located on the C. P. N. route to the mainland on the right hand side going from Victoria to the Fraser River, about thirty-five miles from Victoria and the same distance to Nanaimo, Vancouver and New Westminster. It is now being noted for good lambs for the early market, and excellent building stone, many scowloads being shipped to the mainland every year. The island contains between nine and ten thousand acres of land intersected with rocky ridges. The land is highly fertile in the valleys and fern slopes well adapted to mixed farming and stock raising. It is watered by living springs and has much good marketable timber. A post-office has been opened and other facilities will soon follow. It is in the Dominion Electoral District of Vancouver and Provincial of Island.

PENTICTON.

POSTMASTER, THOS. ELLIS.

In the Dominion Electoral District of Yale-Kootenay, and Provincial of Yale. It has a postoffice and steamer landing at the foot of Okanagan Lake. Nearest railway station and telegraph office Vernon. Nearest express office Mission Valley. Penticton is distant from Vernon some 90 miles by water, to which a steamer plies regularly. Mails received once a month. Mr. Thomas Ellis has a very fine stock ranch, which occupies the east side of Okanagan Lake and river for miles, on the west side is the Indian reservation. All kinds of game abound in the neighbouring mountains, which provide good sport for the huntman. Population about twenty

PERRY CREEK.

(See Fort Steele.)

In the East Kootenay District. Nearest postoffice, St. Eugene Mission. Nearest railway, telegraph and express office, Golden. Communication by steamer from Golden to Windermere. Fare, \$6.00, thence by stage.

PILOT BAY.

POSTMASTER, HAMILTON BYERS.

In the Dominion Electoral District of Yale-Kootenay, and Provincial of West Kootenay. Here the most important industrial undertaking in the West Kootenay District has been set on foot and operations in the most energetic and permanent in character are under way. Several large interests are involved in the aggregation of industry and trade here represented. The smelter and smelting site containing fifty acres is the property of the Kootenay Lake reduction Company, at the head of which is Dr. Hendryx, who may justly be termed the pioneer of Kootenay Lake mining enterprises. The smelter at Pilot Bay has a daily capacity of 100 tons and is fitted up with all the latest and most improved machinery for the reduction and treatment of dry and galena ores. There is also a saw mill here owned by Messrs Davies & Sayward, Victoria. It has a capacity of 25,000 feet a day. Pilot Bay has a post-office, mails four times a week. Nearest telegraph, express office and banking point, Nelson. Nearest town, Ainsworth, distant 8 miles. Means of communication by steamboat, with all points on the lake and Kootenay river. Population about 150.

PLUMPER PASS.

Island District.

POSTMASTER, W. T. COLLINSON.

Including Mayne Island, Galiano, Sat-
urna, Samuel, Gossip and Tumbo
Islands.

Plumper Pass, situated on the south
side of Active pass, on the shore of
Miner's Bay, Mayne Island, and is
the name of the postoffice which
serves for Mayne Island, Serturna,
Samuel, Gossip and nearly all of
Galiano, with a small portion of
Pender Island, which has a post-
office of its own. Mayne Island has
many fine harbors and bays, nota-
bly Miners, Village, Horton and

Campbell Bays, besides several smaller bays. It is well watered with the best of spring water; taken as a whole, it contains more rich bottom land than any island, for its size, in the group and has a number of fine farms and orchards. The first pre-emption claim was taken on the island in 1861 by the late Wm. McGreevy and the late Christian Myers, of New Westminster. Some of the finest fruits in the Province is grown on this Island, of all varieties; tomatoes and melons coming to perfection. The hills are well adapted to sheep farming, and some fine mutton and wool is produced; also excellent beef, pork and fowl are raised with plenty of cereals and vegetables unsurpassed. The climate is remarkably healthy and is attracting invalids and others, and in time will become a first-class watering place. Excellent roads intersect the Island in different directions, affording beautiful, cool drives. A good, substantial light-house stands on Georgina Point on Mayne Island, at the northern entrance of the Pass from the Gulf of Georgia, where a splendid view is to be had of the coast range of mountains on the mainland. A steam fog alarm is to be erected the coming season. The surrounding waters abound in a variety of fish and large quantities are taken and sent to the neighboring markets of Victoria, Vancouver, New Westminster and Nanaimo, all equa distant from 34 to 36 miles, a large amount of oil is also manufactured from the livers of the shark and dogfish; game such as deer and grouse of two varieties is moderately plentiful; the flora is quite varied and interesting to the naturalist. The Island has one school with a good attendance; there is a fortnightly religious service by the Church of England, and regular visits from the Roman Catholic clergy. A substantial church is under consideration to be built by the Church of England the coming summer. Galiano Island, to the north of Active Pass, is something similar to Mayne, being a large Island and more hilly, it contains

some excellent farms under cultivation. Saturna Island is larger than Mayne Island, being hilly, with some first class bottom land, all well watered. Samuel Island is a small, but fertile Island. Gossip Island contains less than 100 acres, mostly excellent land, all those Islands are private property. The C. P. N. Co. steamers afford the best of travelling facilities to and from these Islands almost daily. A money order branch is attached to the Plumper Pass postoffice, which receives and dispatches mails six times a week. Galiano Island has been created a school district, and a school house is under way.

Tumbo Island, Gulf Georgia lying north by north-west of East Point; separated from East Point by Tumbo Strait, half a mile wide. Tumbo contains some good land, farmed by Mr. Tatton. But the great interest at present on the Island is the discovery of a good quality of coal, which is being rapidly developed by Victoria and Eastern capital. Messrs. Green and Watelet, representing the Eastern capitalists, and Mr. Charles Gabriel managing the concern. Mr. Watelet, who is on the premises and a good authority, is quite sanguine of establishing a great industry in the near future, which would bring a good supply of coal within less than 30 miles of Victoria.

PORT GUICHON.

POSTMASTER, T. SHERMAN.

In the Dominion and Provincial Electoral Districts of New Westminster, is distant one mile from Ladner's Landing, the nearest telegraph and express office, and thirteen miles from New Westminster, the nearest banking point. Mails daily. There is also daily communication by steamboat with Victoria and New Westminster. The population is 300, having one good general store, hotel, Roman Catholic church and one school. In the immediate neighborhood is some of the richest agricultural land on the Pacific Coast the crops grown being something enormous. Farming, fishing and salmon canning are the principal industries. It is a capital place for spending a holiday. Game is very plentiful, particularly ducks and

geese. The rooms at the PortGuichon hotel are very comfortable and the meals are excellent. Messrs. Sherman and Hinchcliff are the proprietors.

PITT RIVER MEADOWS.

(See Maple Ridge Municipality.)

Large prairies known as Pitt Meadows comprising 30,000 to 40,000 acres of level land in Maple Ridge municipality, not far from Port Hammond the nearest railway station, post, telegraph and express office. These meadows have lately been successfully dyked by the British Columbia Dyking and Draining Co., to prevent the encroachment of the Fraser river. For names of residents see Port Hammond.

PORT HANEY.

POSTMASTER, D. DOCKSTEADLER.

Port Haney in the Dominion and Provincial Electoral District of New Westminster forms part of the municipality of Maple Ridge. It is situated on the right bank of the Fraser river, 13 miles by water or 18 miles by rail from New Westminster and 26 from Vancouver, fare, \$1.50. Steamers from New Westminster, fare 50 cents. It is a flag station on the C P R and has daily communication by water with New Westminster. There are post, telegraph and express offices, mails daily, two general stores, two hotels, two churches and school house. Finest banking point, New Westminster. Population, 250.

Port Haney is becoming quite an important point on the river. Here are situated three large brick yards owned respectively by Messrs. Becket & Co., Sinclair & Purdy. About 150 men (principally Chinamen) are employed here, large sheds have been erected under which the brick are manufactured, burned and stored. There is an unlimited supply of clay, which by experts is pronounced to be equal in quality to the celebrated English pottery clay. These brick are all made by machinery, some being pressed and cut by wire, others being machine moulded. The repressed brick manufactured here is quite equal to the imported Santa Cruz brick and has the ad-

vantage of being much lower in price. Vancouver and New Westminster form the chief market for these bricks, which sell in the yard from \$8 to \$12 per thousand. Besides brick making, farming and fruit raising, there is another very important industry, viz, salmon freezing. The Fraser River Freezing Co. has a large establishment here for freezing salmon, employing about 20 hands during the summer months of July, August and part September. The salmon are laid on wood trays and enclosed in a receiver, where they are exposed to an icy blast from a refrigerator. They are then packed in ice and stored until winter when they are shipped East. Winnipeg, Montreal and New York being the chief markets. The capacity of the establishment is 150 tons of frozen fish.

the C. P. R., 12 miles from Vancouver. By the road it is six miles to New Westminster. It was formerly the terminus of the Canadian Pacific Railway, and as such made quite a boom. Property rose to a very high figure and some good buildings were erected. When the terminus was moved to Vancouver, Port Moody dwindled down in population. The bay is navigable for shipping of the largest tonnage, and affords good anchorage. However, even though Port Moody is not the terminus, it is still and always will be a thriving little place. It is the centre of a large lumbering business and has considerable farming country tributary to it. There are post, telegraph and express offices, two hotels, one store and public school, it is also connected by telephone with New Westminster. Fare from Vancouver, 65 cents. Port Moody is becoming quite a summer resort and watering place for the people of New Westminster. Being at the head of a long inlet, the water gets quite warm, affording excellent bathing of which due advantage is taken. At Barnard three miles below Port Moody, Messrs. Ross McLaren & Co. have erected a large saw mill. There is also an extensive brickyard here. Population about 150.

QUEEN CHARLOTTE ISLAND.

(See Northwest Coast.)

Consists of three principal and several smaller islands lying due West from Port Simpson and Skeena River, about ninety miles, being separated from the Mainland by Hecate Strait, which is known to all coast navigators as very rough and stormy, and has been the scene of the loss of many a brave vessel and several lives. The water is shallow, the deepest being thirty fathoms, and in consequence the seas are short and choppy. The largest island, Graham, lies north of the other two, named respectively Moresby and Prevost. The west end of Graham island is flat and sandy, and there is great scarcity of fresh water. Some white settlers and a few of the Indians have been raising cattle near Massett for the past ten years or so and now have quite a large band. Lower down the coast and to the southward the land appears better for agricultural purposes. In one

place, I am told, from 5000 to 7000 acres of land, with black loam soil from four to five feet deep have not yet been seized by the land grabbers. Coal deposits have been struck in the higher ground on Graham Island. Moresby Island is separated from Graham by what is known as Skidegate channel, which runs dry in some places at low tide. Coal deposits abound on Moresby Island, and years ago a very rich quartz lead paid the Hudson's Bay Co. several thousand dollars in gold.

QUESNELLE.

POSTMASTER, ARCH'D McNAUGHTON.

Quesnelle, in the Dominion Electoral District of Yale-Cariboo and Lillooet and Provincial of Cariboo, is beautifully situated at the confluence of the Quesnelle and Fraser Rivers, it is reached by weekly stage from Ashcroft station on the C. P. R., distance 225 miles, fare \$37.00. Mails weekly, has a telegraph and express office, (B. C. Express Co.) Nearest banking point, Kamloops. There are four general stores, two hotels, viz: Occidental, Golden Eagle and one church, Episcopalian, also a school. The Hudson Bay Co.'s Post makes Quesnelle a centre for collecting furs from the surrounding districts and does a large boating business with other posts up the Fraser. The farmers around and below Quesnelle supply all the farm produce consumed by the miners around Barkerville. Messrs. Reid & Johnston's flour mill is situated here. QUESNELLE FORKS.

POSTMASTER, WM. STEPHENSON.

In the Dominion Electoral District of Cariboo Lillooet, and the Provincial of Cariboo, W. Stephenson, Government agent and mining recorder. This is one of the oldest mining camps in Cariboo District, being established in 1859, since which time there has been continuous gold mining carried on in the vicinity.

In 1864 the white miners had about deserted the camp for Antler, Williams and other creeks in that vicinity, the Chinese that were then following up the white men were not slow to take possession of the almost deserted town, which soon became a central point for their operations on the South and North Forks, as well as for a considerable distance down the main Quesnelle River.

During the last three or four years the white miners have been turning their attention to this part of Cariboo for hydraulic mining. At present there are several companies constructing ditches and preparing to go into hydraulic mining very extensively, for which this section of Cariboo is favorable, as where a supply of water can be obtained, hydraulic mining can be carried on from seven to eight months in the year.

Last year, 1891, the Government opened up a sleigh road from near the 150 Mile House to this place,

thus all heavy material needed for mining can be sleighed in during the winter, and it is quite probable that this road will soon be improved into a wagon road. The distance from 150 Mile House to Quesnelle Forks is about 60 miles; there is also a good pack trail from Soda Creek to Quesnelle Forks, the distance is 54 miles.

There is a weekly mail, via 150 Mile House during the summer, fortnightly during the winter, which is carried by the B. C. Express Company's stage from Ashcroft station, 190 miles; nearest telegraph office, Soda Creek; banking point, Kamloops. Population, 200.

REVE

BRITISH COLUMBIA DIRECTORY

REVE

REVELSTOKE.

POSTMASTER, F. B. WELLS.

Revelstoke, in the Dominion Electoral District of Yale-Kootenay and Provincial of West-Kootenay, on the main line of the Canadian Pacific Railway, at the second crossing of the Columbia river. It is one of the Divisional points of the C. P. R., and the Company have a large round house, workshops, boarding and other houses. It is also a supply centre for the West Kootenay District. The Columbia and Kootenay Navigation Co's steamers make two trips a week from Revelstoke to Little Dalles, connecting with the Spokane and Northern Railway, also calling at Sproat's Landing at mouth of the Kootenay river and all intermediate ports. Twelve miles below the town the Columbian expands into the beautiful Arrow Lakes, and is navigable southward to the International Boundary. Revelstoke is 379 miles from Vancouver. Fare \$18.95. There is a post, money order, telegraph and express office, also a telephone system with central office in full work. The town was formerly known as Fairwell, named after a well-known engineer, who located a townsite here. Geographically Revelstoke is well situated to become a town of importance. There is a large smelter erected here, saw-mill, capacity 20,000 feet per day, large brick yard, and is the head quarters for several mining corporations. The town is well supplied with good stores of all classes also hotels, churches, and schools. Population about 500.

RICHMOND MUNICIPALITY.
 For list of residents see Staveston, Lulu Island, Terra Nova, Sea Island and Eburne
 This municipality in New Westminster District includes the islands at the mouth of the Fraser River,

F. G. RICHARD
 known as Lulu Island together with all and Sea Island, together with all small islands contiguous. It has been a municipality since 1882. It embraces an area of 1,000 acres of land, of which the best agricultural land is about 700 acres. It has a black vegetable garden which yields immense crops of staple grain crop the barley is also grown about 70 acres though there are many other crops being grown. This land requires both dyke water off, and the draw off the water first crop from a field for the trouble. The yield is immense. Of any kind is found in it, and that is in the case of all kinds yield it does well, but has no any extent. Mr. O. has been built, connecting to bear. Two have been built, connecting to Sea Island with them. They are magnificent by the San Francisco company. The two are dredged yards apart; one is with Sea Island crosses from Sea Island. Both have the accommodation. There are good roads in the municipality. On the roads traverse the island to south, and three to west. On Sea runs lengthways of the crossways, all connecting bridges. From the Island bridge, a spur runs straight through which forms the chief district. There are the municipality: D J Munn & Co. Doucan & Batchel Canning Co. (Wine) Rowan Bros. and the Beaver canneries, and Son. During the

RICH BRITISH COLUMBIA DIRECTORY. RITE 209

known as Lulu Island and Sea Island, together with all the small island and Sea Island, together with all the small islands contiguous to these two. It has been a municipality since 1880. It embraces an area of about 30,000 acres of land, of which every foot is the best agricultural land. The soil is a sediment, in most places covered with a black vegetable deposit and yields immense crops. Oats is the staple grain crop though considerable barley is also grown. Oats will average about 70 bushels per acre, although there are instances of 120 being grown. This land is all level, and requires both dyking to keep the water off, and thorough ditching to draw off the water already on. The first crop from a field will hardly pay for the trouble, but after that the yield is immense. Very little timber of any kind is found in the municipality, and that is in clumps. Root crops of all kinds yield abundantly. Fruit does well, but has not been grown to any extent. Mr. O. D. Sweet has 15 acres in orchard, which is just beginning to bear. Two new bridges have been built, connecting Lulu Island and Sea Island with the mainland. They are magnificent structures, built by the San Francisco Bridge Company. The two are only a few hundred yards apart; one connects Lulu Island with Sea Island, and the other crosses from Sea Island to the mainland. Both have a swing bridge for the accommodation of steamers. There are good roads all through the municipality. On Lulu Island three roads traverse the island from north to south, and three roads run east and west. On Sea Island one road runs lengthways of the island and one crossways, all connecting with the bridges. From the end of the Sea Island bridge, a splendid wagon road runs straight through to Vancouver, which forms the chief market for this district. There are eight canneries in the municipality: Ewen's cannery, D J Munn & Co., English & Co., Donnan & Batchelor, Garry Point Canning Co. (Windsor & Hobson), Rowan Bros. and the Richmond and Beaver canneries, owned by J H Todd & Son. During the season these give

employment to a large number of men, principally, however, Chinese and Indians.

There is no land left unowned in the municipality, and it all commands a high price. Unimproved lands sell at from \$25 to \$100 per acre, while the cultivated land is held as high as \$300 per acre. There are four post offices in the municipality, called Steveston, Lulu Island, Tera Nova and Eburne. Lulu Island post office is on the south side of Lulu Island, about three miles above Steveston. Sea Island or Tera Nova post office is on the north side of Lulu Island. North Arm or Eburne post office is on the mainland, and supplies mail to Sea Island.

The district is well supplied with both schools and churches. A company are proposing to build an electric railway from Vancouver to Steveston, thus traversing the whole length of the municipality. Should this be done it will materially benefit the settlement, although at present they have good communication. Stages run twice a day from Steveston to Vancouver.

For directory of this municipality see Steveston, Lulu Island, Sea Island, Tera Nova, North Arm or Eburne.

RIVERSIDE. (Including Abbotsford.)

POSTMASTER AT RIVERSIDE, D. A. MORRISSY.

POSTMASTER AT ABBOTSFORD, FRANK MUNRO.

Riverside, which was formerly known as Matsqui, is situated on what is known as Matsqui Prairie, in the District of New Westminster, comprising about 10,000 acres of meadow land, which has all been well dyked. A large portion of this land was utterly useless before being dyked, but a company called the Matsqui Dyking company obtained about 6000 acres from the Government and an assessment from the settlers for building the dyke.

eral salt springs being found on the Island. Gauges Harbor, on its eastern side and Fulford on the south-east, are good ports. The southern portion of the Island is composed of a lofty ridge of mountains, over 2000 feet high. Mount Baynes is very remarkable, being observed a long distance off and is about 2000 feet high, while its southern wall is perpendicular. The principal industry is farming. It is mostly a thickly wooded Island, but now having a large extent cleared for habitation and contains a population of about 400. There are four schools, three churches, viz.: Episcopal, Roman Catholic and Methodist, also three general stores and one hotel, kept by Mr. W. Stevens. The Island generally is a very beautiful place, while the land is very fertile.

every Wednesday and Saturday. Communication by stage twice a week to Langley. Shortreed has every prospect of having a railroad station in the near future, when the Northern Pacific pushes its way through to Vancouver. Farming, fruit growing and hop raising are the principal industries, for which the soil is well adapted, being a clay loam. It has no churches, but services are held in the school houses, of which there are two. Population about 1,000.

SOOKE.

SOOKE F. M. JOHN MUIR; EAST SOOKE
 P. M. JAS. KEILL; OTTER POINT P.
 M. EDWARD GORDON.

A thriving settlement 23 miles from
 Victoria, with a fine harbor called
 Sooke harbor, the most westerly set-
 tled agricultural section on Van-
 couver Island, facing the Straits of
 Juan de Fuca, with beautiful scenery
 on all sides, and lovely drives. It
 can be reached either by land or
 water, the road being macadamized
 all the way from Victoria. The dis-
 tance by water is about 22 miles.

Being a favorite hunting ground, and
 abounding in deer, grouse, pheasants
 and quail, it is in the summer months
 or shooting season very lively. Fish
 are caught both in fresh and salt
 water, of different species. The soil
 is of a clayey loam and very fertile,
 all kinds of cereales, fruits and vege-
 tables thrive well, the climate being
 milder than Victoria, and also very
 healthy, the air in summer being
 delightfully cool and refreshing, and
 in winter remarkably mild and en-
 joyable.

There are two schools for educational

SODA CREEK.

POSTMASTER, ROBT. MCLEESE.

In the Dominion Electoral District of Cariboo, Lillooet, and Provincial of Cariboo. Is a picturesque village, fifty-five miles fro a Quesnelle, situated on the left bank of the Fraser at the lower end of navigation of the Upper Fraser River; communication by stage from Ashcroft and return from Barkerville. There are telegraph and express, post and money order offices, with weekly mails to and from town. A good flour mill, blacksmith shop, two hotels and general stores. Private residences can be supplied to families by the hotels if required.

It is the shipping point for the agricultural part of the Cariboo District being very centrally located for that purpose. A steambout of over 300 tons has been making weekly and semi-weekly trips to Quesnelle, some 60 miles, carrying freight and passengers towards the Cariboo mines.

A good, steel cable ferry, with a large scow, has been erected, which is a great convenience to the farmers and tourists going to the Chilcoten country. It is a veritable "sportsman's paradise" for fishing and shooting, game of all kinds being plentiful.

The climate is simply perfection, both summer and winter, for invalids. A medical doctor (Dr. Jas. Clarke) has lately been permanently located here, which will make it more of a sanatorium than formerly. Population about 75.

goose; Young—Postmaster, James Young.

South Saanich, and other suburban districts, which forms part of the Saanich Peninsular, is in the Dominion Electoral Division of Victoria District, and Provincial of Saanich. It is 8 miles distant from North Saanich, and 13 miles from Victoria. There is perhaps no place that affords more beautiful scenery than this coast and the waters studded with islands. The shore abounds in small bays and indentations. It is an exceedingly picturesque spot, covered with small lakes, teeming with beautiful fish, and also affording great sport for the huntsman. Two splendid roads traverse the whole peninsular from north to south, one of which is called the East Saanich road and the other the West Saanich road. The soil is very fertile, and is well adapted for fruits of all descriptions. Cattle, owing to the mild climate, are easily raised. The hotels, of which there are several throughout the district, provide ample accommodation for all visitors, and are near the lakes and hunting grounds.

The educational facilities are well looked after, and religious services are also regularly held by the various Christian denominations. The Saanich, Victoria and New Westminster Railway will, when constructed, traverse the entire length of this excellent peninsular.

Visitors and tourists visiting Victoria would greatly enjoy the beautiful drives and lovely scenery of Saanich. Stage from Victoria, 13 miles; fare, \$1.00.

SOUTH WESTMINSTER.

(For the list of residents see New
 Westminster.)

It is for the present the terminus of
 the New Westminster and the
 Southern Railway. A steam ferry
 boat runs across every half hour
 from New Westminster; fare, 10c.

SPALLUMCHEEN.

(See also Armstrong, Lansdowne, En-
 derby, Okanagan, White Valley and
 Vernon.)

POSTMASTER, G. J. WALLACE.

A post settlement in the Spallumcheen
 Valley, after which the settlement
 is named, about 30 miles long, situ-
 ated in the Yale District. The prin-
 cipal industry of the place is farm-
 ing, the soil being rich and admirably
 suited for grazing and agriculture.
 Nearest railway station and tele-
 graph office, Sicamous, distant 29
 miles, from which place steamers
 arrive three times a week. It has
 one Episcopal church and a Presby-
 terian Mission, a good hotel and
 also various stores and business
 houses, such as one would naturally
 expect in a settlement of its kind.
 List of farmers, etc., in the Spallum-
 cheen Valley, their post town is
 designated "V" for Vernon, "L"
 for Lansdowne; "E," Enderby;
 "O," Okanagan; "W V," White
 Valley; "O.K.M.," Okanagan Mis-
 sion.

SQUAMISH VALLEY

In the Dominion Electoral District, and Provincial of New Westminster. A beautiful valley situated at the head of Howe Sound, about 30 miles distant from Vancouver city, the nearest railway station, postoffice, telegraph and express office. It contains an area of about 20 miles in width and twenty in length. It is well adapted for all kinds of agricultural purposes.

Hop growing is likely to become one of the principal industries of the place as they seem to do remarkably well there.

The Vancouver Hop company are going in for raising hops extensively as their best piece has proved satisfactorily, they have purchased over 200 acres which they have started clearing and building on. Cattle do

well out all winter. This valley is drained by three rivers, Squamish, Mameum, Cheacumas, all of which abound with salmon and trout. An immense seam of hard coal has been found in the immediate vicinity. The hotel kept by Mr. Mashiter affords good accommodation for visitors. There is also one general store; communication by steamer twice a week. Population about 40.

STEVESTON, B. C.

POSTMASTER, W. H. STEEVES.

This young and promising city, which was started only a little more than two years ago and which, during that time has made such rapid advances as have of late attracted

much attention, is situated on the north bend of the South Arm of the Fraser River, at its entrance to the Gulf of Georgia, in the Dominion and Provincial Electoral District of New Westminster. This location gives it a fine harbor, deep enough for the largest ocean vessels, and free from obstructions of ice in the winter, which makes it the gateway of the Fraser River valley and gives it command over the vast commerce of the greatest river in the Province. Another matter of importance is the fact that the steamers navigating the Fraser require to be built so as to draw but little water, and are unfit for the navigation of the waters of the gulf, while the gulf or ocean steamers are unable to do the river business. As a consequence, this city is bound to be the point of trans-shipment of freight from one class of steamers to the other, and this in connection with its advantages of harbor, will make it the place for storage and distribution, building up ship yards, docks and other shipping facilities.

It is also backed by a farming country of wonderful fertility, growing crops of marvelous productiveness. Adjoining it on the north and east are 30,000 acres of these lands, while in front of it, across the Fraser are 50,000 acres of the same incomparable soil.

Natural gas has been found, and already utilized in lighting the principal streets. The finest brick and pottery clay have also been discovered in unlimited quantities, and steps to utilize them in manufacture are already taking shape. The climate is the same general character as elsewhere along the coast, with the exception that there is less rain, and with the further pleasant exception that the breeze in summer makes that season of the year most delightful, it is confidently believed that the place will yet become famous as a summer resort.

The salmon fishing and canning business has taken its stand as the first industry in the Province, and the great volume of the catch is with the sight of this place. It has already

SURREY MUNICIPALITY.

For information and directory of the different portions of Surrey Municipality, see Mud Bay, Brownsville, Elgin, Blaine, Hall's Prairie, Clover Valley, Surrey Centre, Clayton and Port Kells.

This municipality is a very large one, containing 120 square miles. It

runs from Fraser River to the International boundary, and from the municipality of Langley to the coast and municipality of Delta. The New Westminster Sth Ry, now completed, runs from north to south through this corporation, passing from Brownsville to Blaine, through Port Kells, Clayton, or as it was formerly called, The Serpentine Flats, Surrey Centre, Clover Valley, Hall's Prairie and Kensington Prairie. This road is proving of great benefit to Surrey, as it makes easy communication with both the Sound cities and New Westminster. The whole district has made wonderful strides during the past few years. There are now five school districts and seven postoffices, viz: Mud Bay, Nicomekl, Elgin, Hall's Prairie, Clover Valley, Surrey Centre, Clayton and Port Kells, with mails twice a week. The road system is good, and is being improved yearly. Lumbering is carried on very extensively, and a saw mill and feed crusher has lately been started in Clover Valley or Nicomekl River. The soil is very fertile. There is every indication that at one time the Fraser River ran through The Serpentine Flats and along the basin to Mud Bay, this flat being gradually filled up, and now it is one of the most fruitful valleys in British Columbia.

At Blaine two townsites have been laid out, to be called Blaine and White Rock respectively, but so far little has been done towards building. During the summer of 1890 a dyke was built from Blackie's Spit on the Surrey side to the high land opposite, which will prove a great boon to the settlers in the Mud Bay Flats, and will reclaim a large tract of land hitherto worthless.

The whole district is well watered. Besides the Fraser River the Serpentine and Nicomekl Rivers flow through the valley, nearly its whole length. As the land on the banks is level and little above ordinary high water mark the tide ebbs and flows in the rivers. This makes it very convenient for traffic, as freight can be taken down the river in a scow or lighter on one tide and the empty vessel brought back on the next tide. A scheme has been projected, by which a canal will

be cut across the Delta to Fraser River, a distance which, if done, will furnish by water communication. The draw districts of Surrey is market, as up to date produce have to be hauled to Brownsville, opposite the station, in some instances, so that this can be carried out, will be towards the further end of the district.

Surrey is also well served by church matters, having a Church of England and Methodist ministers, also an agricultural school, good, strong members.

Comparatively little land remains vacant, but the population is estimated

be cut across the Delta from Mnd Bay to Fraser River, a distance of 5 miles, which, if done, will give easy communication by water with New Westminster. The drawback to the outer districts of Surrey is the distance from market, as up to date freight and produce have to be hauled on wagons to Brownsville, opposite New Westminster, in some instances over twenty miles, so that this canal, if successfully carried out, will prove a great step towards the further advancement of the district.

Surrey is also well represented in church matters, having regular service by Church of England, Presbyterian and Methodist ministers. There is also an agricultural association, with a good, strong membership.

Comparatively little land still remains vacant, but farms can be bought at a reasonable figure. The population is estimated at 1,600 souls.

TATLA LAKE.

In the Cariboo District, and Williams' Lake Division. Nearest postoffice and telegraph, Soda Creek. Communication by stage from Ashcroft, change at Soda Creek.

from Vancouver Island by Discovery Passage and is about thirty miles long, running nearly north and south. It is bounded on the south by the Gulf of Georgia, on the east by the Sutil Channel, on the northeast by Read Island and the Mainland, on the northwest by Thurlow Island, and on the west by Vancouver Island, forming at its most southwesterly point the famous Seymour Narrows. North of these narrows there is very little farming land. Swamps have been reported to exist.

The settlement extends from Cape Mudge to Hyacinth Bay, a distance of about twelve miles, and three miles in breadth.

The land that is still vacant is covered with timber and has several swamps here and there, and is very easily cleared, the soil is a beautiful brown loam, well adapted for raising good crops. The climate is very mild, with very little frost or snow. The resources of the Island are stock raising and vegetables. The cattle and hogs roam at large on the fine pasture lands and become fat and good for market. The waters abound in fish and the woods in game. Deer and grouse are plentiful, but there are no panthers, and wolves are very scarce.

Communication by steamer from Victoria. Population 50.

VERNON.

(See Spallumcheen.)

POSTMASTER, DUO GIROUARD.

Vernon, the natural centre of the largest and richest agricultural district in the interior of British Columbia, is situated on the line of the S. & O. Railway, a distance of four miles from its terminus on Okanagan Lake, in the Dominion Electoral District of Yale-Kootenay and the Provincial of Yale. The situation of the townsite is all that could be desired, and the surrounding scenery very attractive.

The country on all sides is rapidly becoming noted as the beau ideal of the sportsman and tourist, while the salubrity of the atmosphere and the genial climate are calculated to transform it into a fashionable health resort for invalids. Owing to its position, Vernon seems destined to become the railway centre for that part of the interior of the Province lying to the south of the present line of the C. P. R. Already the location of the town renders tributary to it the thriving settlements of the Okanagan and Lower Salmon river Valley's, Priest's Valley, the farming and stock raising districts of the Coldstream and White Valley's and the mineral regions of Cherry and Cedar Creeks. It is also the general distributing point for trade in the Osoyoos Division of the Yale District, of which it is the Governmental centre. Since the construction of the S. & O. Railway, the growth of the town has been very rapid, it having more than doubled in size and population during the past two years.

The town already possesses four or five good hotels, and an Episcopal, a Roman Catholic and a Presbyterian church are about to be erected. The buildings recently put up are of a superior order, a good sized brewery being amongst the number.

VICTORIA DISTRICT.

[Including Cedar, Hill, Oak Bay, Mount Tolmie, Cadboro Bay, Gordon Head, Burnside Road and the Gorge.]

Victoria District, which is noted for its magnificent scenery and delightful drives, covers a large area of land, and is bounded on the east and south by Haro Straits, on the west by Victoria Arm, and on the north by Lake District. The roads throughout the district are macadamized and kept in excellent order, which adds greatly to the enjoyment of the many charming drives of which the district can boast. The soil is very rich and fertile, and the climate throughout the year is remarkably mild.

Cadboro Bay—For many years has been a very favorite resort for pleasure-seekers and picnic parties. All along its shores are nestled neat little farms and wooded groves, which present a most beautiful sight. The beach, shaded by tall trees and shrubs, make it a most desirable bathing place. Excellent fruit is raised and ripened, and the crops are abundant. Vessels passing too and fro' from the mainland come very near this pretty little harbor, which has an excellent wharf, where steamers can stop and land passengers.

Cedar Hill (or Mount Douglas)—About five miles distant from Victoria, and which is entirely a farming district, like all other parts of Victoria District, enchants visitors with its scenery. A climb to the top of Cedar Hill presents a sight not soon forgotten, showing wide expanses of lovely blue sky and seas, and charming woody groves and nestling lakes. A fine road leads out from Victoria direct to this fair spot.

Gordon Head—Situated on the east coast of Victoria District is a point projecting into the sea (Haro and Rosario Straits.) Like all the soil of Victoria suburbs it is very fertile, and several farmers are doing well. An excellent road leads out from the city of Victoria to Gordon Head.

Oak Bay—So called from the trees of the same name which surrounds its shore. It is a very picturesque little spot with a broad expanse of water in the front, and the numerous homesteads which are rapidly springing up, having a background of tall, green waving trees. It is a most popular resort and is easily reached, an extension of the Electric tramway running right into the head of the bay.

Mount Tolmie—Which is only about a mile from the electric tramway line, and on the proposed extension line, has been turned into a beautiful park, and possesses an excellent drive of a few miles from the city. The property, which is very valuable, is being fast taken up, and many fine homesteads are building.

It is utterly impossible to describe all the beauty and the benefits to be derived from these several charming suburbs with which Victoria city is so beautifully surrounded.

WEBSTER'S CORNERS.
 POSTMASTER, J. M. WEBSTER.

A country postoffice in the Maple Ridge Municipality, about four and a half miles from Port Haney, and about the same distance from Whonnock. It being centrally situated, about equal distance from the above-named towns thereby forming a good farming centre and offering a good opening for a country store, &c. The soil is A 1 in this neighborhood, and seams of coal can be seen in the bed of the Kanaka Creek. There is good trout fishing also in this creek. Nearest railroad

station, telegraph and express office Port Haney, distance four and a half miles, communication to and from which place is made by livery. There is one school.

WELLINGTON.

POSTMASTER, THOS. BRYANT.

In the Dominion Electoral District of Vancouver and Provincial of Nanaimo, situated at the northern extremity of the Esquimalt and Nanaimo Railway, 78 miles from Victoria; fare, \$3.25, and 6 miles from Nanaimo. Has a post, money order, telegraph and express offices. It is entirely a coal mining district and a large number of men are employed in the mines. The mines are owned by Messrs. R. Dunsmuir and sons. They employ about 800 hands. The population is most cosmopolitan, having representatives from every quarter of the globe. It contains four churches, one hotel, numerous boarding houses and eleven stores, also a new livery stable. The population is continually changing, so that a complete directory today may be very faulty in a week's time.

WESTHAM ISLAND.

POSTMASTER, THOS. ADSETT.

Westham Island, situated at the mouth of the south arm of the Fraser River, is separated from the mainland, on the east by Canoe Pass from Lulu Island, on the north by the south arm of the Fraser, and is bounded on the southwest by the Gulf of Georgia. There is one government wharf and four private ones, with deep water at each one, giving good shipping facilities. Communication by steamer with Victoria and New Westminster mails daily excepting Sunday. Nearest telegraph and express office, Ladner's Landing. Nearest banking point, New Westminster, distance 15 miles. There are about three thousand acres on this island under cultivation, general farming being the chief industry. There are also two canneries with a store connected with each one, besides these there are two general stores and one school. Population, 120. The canneries are

owned by the British American Packing Co., and the Canoe Pass Canning Co.

YALE.

POSTMASTER, DAVID J. CREIGHTON.
 In the Dominion and Provincial Electoral District of Yale, is one of the principal stations on the main line of the C. P. R., and has daily mails each way, also a telegraph and express (Dominion). It has three general stores, all doing a good trade, three churches, Church of England, Roman Catholic and Methodist, a public school, also a private school for ladies (All Hallows') with commodious school room, situated in a healthy location with beautiful surroundings. Two hotels have been erected in the place, the proprietors of which are Mrs. Jessie Reeves-Bech and Statt & Wirth. Yale is so situated that it can be reached either by railway or steamboat.

Tourists going there are very much pleased with the place, the views from different stand points, being lovely. It is 102 miles from Vancouver; fare, \$5.15. Principal industries, fruit growing and mining. Population about 220.

The New Vancouver Coal Mining and Land Company, Ltd.

(Formerly the Vancouver Coal Company)

Are the Largest Coal Producers on the Pacific Coast

Nanaimo Coal **Southfield Coal**

(Famous Gas and House Coal)

(Steam Fuel.)

New Wellington Coal

(Favorite House and Steam Coal.)

These Coals are Mined by this Company only and by
Union Labor.

THE NANAIMO COAL gives a large percentage of gas, a high illuminating power, unequalled by any other bituminous gas coals in the world, and a superior quality of coke

THE SOUTHFIELD COAL is now used by all the leading steamship lines on the Pacific

THE NEW WELLINGTON COAL is the favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market

The several mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all stages of the tide. Special despatch is given to Mail and Ocean Steamers.

THOMAS HARD
THE CELEBRATED

CITY OF NANAIMO.

A thriving city with a population of about 6,000, and ranking next to Victoria in importance, is situated on rising ground and overlooking a fine harbour on the east coast of Vancouver Island. It is seventy miles north of Victoria, and depends chiefly upon its coaling interests and shipping business for support. Large quantities of coal are sent to San Francisco; to the Sandwich Islands and China, being shipped from Nanaimo or Departure Bay. Nanaimo is also the coaling station for the British squadron in the Pacific. Vancouver Island bituminous coals now being acknowledged to be superior for all practical purposes to any coals on the Pacific Coast.

The city of Nanaimo is beautifully located, it has a frontage of several miles upon a broad sheet of water, and recedes from the shore by easy gradients to the western verge of the town-site, for about a mile where an elevation is reached, from which it affords a grand panorama of scenery as the spectator views the whole horizon. A short run of about an hour brings the traveller from Chemainus to Nanaimo, which with its abundance of coal and iron, side by side. (as it were), is known as the "Newcastle of the Far West."

Nanaimo was incorporated in 1874, on the application of a number of its then small population, which was bitterly contested at the time, but the sequel has proved the wisdom of the action of the government of the day, and from its inception the course of municipal existence, although not always running smoothly, has been one of steady progress, resulting in the foundation of a city that is destined to attain a position of commercial and industrial importance second only to any on the Pacific Coast.

For some years the city has had waterworks, gas works and telegraph and telephone services, and lately Mr. A. Shaw has introduced electric light

works, the only thing it lacks being the electric tramway which, however, has been chartered by the city council and an act of the provincial legislature, and is now in course of construction.

The City of Nanaimo and suburbs, with the 6,000 or 7,000 inhabitants, owes its prosperity and its very existence to the New Vancouver Coal Mining and Land Company, which, in 1862, bought and obtained a transfer from the Hudson's Bay Company of the valuable Nanaimo estate, with the collieries, its town and other buildings, sawmill and shipping wharves, including all the dominant foreshore and other rights and privileges, held by the H. B. Co., by virtue of its special charter and grant from the crown.

Besides the railway to Victoria there are well formed wagon roads from the city to the farming districts of Cranberry, Cedar and Oyster, and through them to Cowichan and Victoria on the south; westerly to the Harewood estate, towards Mount Benson and the Little Mountain, and northerly to the rising town of Northfield, named after the North or New Wellington coal field of the New Vancouver Coal Co., which is being vigorously mined and shipped to an eager market over the company's Northfield railway and loading wharves at Newcastle Point. Northfield claims to be a thorough "union mining camp," and is an extraordinary instance of rapid growth of a coal mining town, being only lately platted and sold. It is now thickly populated by a thriving and well contented people, who, excepting the tradesmen and artisans engaged in building houses, etc., are entirely employed in the company's New Wellington coal mine there.

The company has at present five mines open and four in active operation—all commenced since 1884. They run down to great depths, and have double shafts (or pits) for ventilating, the law not allowing more than a lim-

ited number of men to work in a mine with but one shaft. The gross output from these mines has aggregated 2,000 tons a day. The mines and coal fields of the company extend up and down the coast for ten miles, and most of the property intervening is owned by the company, whose landed and mineral estate exceeds 20,000 acres in area. The company formerly owned the whole of Nanaimo, and still hold a considerable area of the townsite, together with Newcastle, Protection and three or four other islands lying along the coast. The miners, excepting those at Northfield, all live in Nanaimo and on the suburban "five-acre lots," the company running work trains from the city to its outlying mines, thus enabling its employees to enjoy the advantages of city life. The railroads connecting the shafts with the shipping wharves at Nanaimo and Newcastle Point (Northfield wharf) are of many miles in length, and are all of the standard gauge, ensuring complete intercommunication with the Esquimalt & Nanaimo Railroad, a privilege of which other mining companies having differential gauges are deprived, and in this connection it may be mentioned that the proprietors of the E. & N. railroad have been most accommodating to the New Vancouver Coal Company in furnishing sidings and other facilities for traffic.

The Esplanade, or Eastfield shaft, which is the largest mine of the company, is at Nanaimo, within 50 yards of the company's offices and warehouses, on Farquhar street, and an enormous outlay has been made in its equipment and development. This "No. 1 shaft, Esplanade," is a prominently characteristic feature of the coal mining city of Nanaimo, its lofty and massive chimney pouring forth smoke day and night all the year round—its great furnaces and boilers, its powerful engines and the endless steel cable hoisting the coal cars from the depths at the rate of half a mile a minute—all are striking objects to the observer. This shaft goes down for 600 feet, as also does the "air or ventilating shaft, within a stone's throw

from the hoisting shaft; both are circular, and of 16 and 18 feet in diameter respectively, and there are over 10 miles of drift passages and slopes in connection with the foot of the hoisting shaft. The engines can hoist 1000 tons in eight hours, besides pumping water if required. The company has established an electric power house near the pit bank of the Esplanade shaft, and from the powerful dynamos the underground traction and other practical operations in the mine can be furnished with electric motive force, and probably the mine will, in course of time, be lighted by electricity.

The New Vancouver Coal Mining and Land Company are also proprietors of other collieries at Southfield, Chase and Nanaimo rivers (a little to the south of Nanaimo) upon a large proved coal area of the company's estate there, of over 2,000 acres, as well as the Northfield colliery, from which the best coal mined on the coast is produced, known as "New Wellington," the output from Northfield colliery is now a large one, considering the short time of the pit's existence, but as the underground workings extend the quantity of coal produced will be enlarged to an amount more nearly adequate to the demand, which greatly exceeds the company's present power to supply. The success of the Northfield colliery, and the production of the best bituminous coal ever mined, is an accomplished fact, in the face of prophecies and predictions of failure that were enough to stagger the heart of a giant, and the miners themselves, who are shrewd judges of prospects "below the surface," are exhibiting their strong faith in the future success and prosperity of the mine by building up the town of Northfield to an extent that will soon make it a suburb, if not an integral part, of the city of Nanaimo itself.

The principal portion of the exports of coal from the port of Nanaimo is shipped to San Francisco, San Diego and Los Angeles, in California, while other shipments are made to the Hawaiian Islands, and to Portland, Ore., and far north to Alaska and Petropaulovski. There is also a large demand for use in the Province, and

transient steamers loaded on calling at local or "domestic" considerably increases growth of Provincial the excellent quality produced, making it for householders to the old-time cordwood forest timber. The principally in America harbor of Nanaimo stocked with shipping or waiting their turn for to a dozen stern other sea-going vessels riding at anchor or in addition to the regulars and smaller craft alone has an average tons of shipping and other ships are chartered or call on their own the great demand of the company has four five output unequal prices called for, and chained many orders the company has started of new shafts. One is 500 feet at a site on the owned by the company, the fine vein of coal was 550 feet deep. When finished the coal will under the sea of the where there is room mining and a practicable field of good coal have going in full operations with three machines of power some capable of pier 3000 feet and from the an entire core or sections or strata being of several inches in drilling operations ahead of the working and South "Fields measures of the "H company's estate are by diamond drill results. Near the site, holes to the dip of the a pit (or shaft) is being of New Wellington be there.

transient steamers and vessels are loaded on calling at the wharves. This local or "domestic" consumption is considerably increasing, owing to the growth of Provincial industries and to the excellent quality of the coal now produced, making it more economical for householders to use for fuel than the old-time cordwood and blocks of forest timber. The coal is carried principally in American bottoms. The harbor of Nanaimo is always well stocked with shipping, either loading or waiting their turn—generally from four to a dozen steamers, ships and other sea-going vessels may be seen riding at anchor or at the wharves, in addition to the regular coasting steamers and smaller craft. The company alone has an average of about 150,000 tons of shipping under charter, and other ships are chartered by the buyers or call on their own account. With the great demand of the market of late the company has found even its extensive output unequal to furnish supplies called for, and necessarily dechined many orders. Consequently the company has started the sinking of new shafts. One is now down about 500 feet at a site on Protection Island, owned by the company, where a very fine vein of coal was struck at about 550 feet deep. When this new shaft is finished the coal will be worked far under the sea of the Strait of Georgia, where there is room for many years mining and a practically inexhaustible field of good coal. The company have going in full force exploration operations with three diamond drilling machines of powerful make and some capable of piercing to a depth of 3000 feet and from thence bringing up an entire core or section of the measures or strata being passed through of several inches in diameter. These drilling operations are carried on ahead of the workings both at North and South "Fields," and the coal measures of the "Harewood" part of company's estate are being prospected by diamond drill with satisfactory results. Near the site of one of the boreholes to the dip of the Northfield mine, a pit (or shaft) is being sunk to the seam of New Wellington coal proved to be there.

The whole plant and equipment of the collieries of the company, including the many fixed and locomotive engines, and the capital rolling stock of loading, freight, ballast, flat and passenger cars, are in perfect order, and are being worked up to their highest efficiency.

The machine shops, blacksmith and carpenter shops are also replete with all modern appliances and labor-saving contrivances, as well as lathes for heaviest work and for fine use, boring, cutting and fitting machines, steam hammers and blowing fans, etc.

There is telephone connection by the company's private wires between the superintendent's office and every pit-head, loading wharf and workshop, and engine house, from Northfield to Southfield, and also with the C. P. R. telegraph in the city, thus using about 12 miles of wire, in addition to the ordinary connection with the city telephone system.

The employees of the company number about 1,500. The miners work 8 hours a day, and are almost unexpectationally contented and well to do. The company have hardly ever had any disputes with their workman, nor is it the intention that the miners shall have just cause for complaint. The works and the whole city and its surroundings bear evident signs of thrift and order and Mr. Robins, the able superintendent, under whose direction and control are the vast interests of the company on Vancouver Island has been known to say that during the seven or eight years of his management and administration of the company's affairs he has never uttered nor received from his employees a single angry word.

The land department of the New Vancouver Coal Mining and Land Company is of itself attaining extensive proportions, and has required most anxious attention in order to secure the best results from the disposition of the company's land, such as its due settlement and improvement by purchasers. In all respects, however, the sales and other dealings of the management with the town and suburban and country lands of the company are upon a just and liberal

basis, and have hitherto proved mutually advantageous to the settler or occupant and the company. The town and other lands are open to acquisition to all bona fide purchasers upon reasonable terms, upon condition of actual use and improvement of same in a manner suitable to the environments. If anything, preference is given by the company to its workmen in the dealings with the lands, with marked advantages in all instances, but particularly with respect to the opening up of a large area of suburban land into five-acre allotments, and the letting of the same to workmen on liberally long terms of payment, with right of purchase conditioned upon certain annual amelioration of the property. These "five-acre lots," as they are termed, in the hands of frugal and industrious workmen, have contributed largely to the advancement of the prosperity of the occupants, and caused the clearing and cultivation of a surprisingly large expanse of land at the back of the city, that, with its forest and swamp, formerly blocked all progress westward, and now the want is of a continuation of a road to Mount Benson, which has already been made more than half way to the summit, from which one of the most magnificent views on the island can be enjoyed by citizens or tourists at the expenditure of only a few hours' walking (and climbing) exercise, which the completion of the road would render easy of accomplishment.

The demand for the company's five-acre allotments has exceeded the ability to supply the applicants, until further surveys have been undertaken, and this is good evidence of the popularity of the policy of management of the lands and of the general prosperity of the people at Nanaimo.

The local industries, other than coal, comprise the well appointed "Nanaimo Sawmill," of Mr. Andrew Haslam, whose recent enterprise in building at the Nanaimo ship yard, the staunch powerful and swift steamer "Estelle," an achievement reflecting great credit upon Mr. Haslam for far seeing business tact and energy, and the steamer will undoubtedly prove a source of pro-

fitable income to its owner, as well as a useful addition to the steam fleet of the port. At the sawmill are steam factories for all sorts of wood-work, doors, sashes, etc., which are worked upon a large scale, and will in the near future find an outlet in exportation. The mill is fitted with the most improved patent saw and other machinery and has been able to keep up with an extraordinary demand for the extensive building going on in the locality. The British Columbia Tanning Co., Ltd., have established an extensive leather and shoe factory on the bank of the Millstream in the city. The factory is worked by steam power and is possessed of the most improved machinery and appliances. This industry has a great future before it and will yet justify its aspiring name under the able and practical directorate and management now in charge. The Nanaimo foundry of T. & N. W. Dobeson, thoroughly experienced mechanical engineers and foundrymen, is furnished with appliances for producing castings of all kinds and the performance of engineer's and machinist's work. The workshops are being extended to make room for the growth of business, and being upon the water front are convenient for steamship work. The Nanaimo Machine Works of Mr. Robert Wenborn, are kept busy in the various branches of machine work and are well adapted for first class work. Almost adjoining are the electric light works of Mr. Alexander Shaw, having dynamos equal to the lighting of the streets and buildings of the city in an efficient manner with Arc and incandescent lamps, and the supply of motors for ordinary purposes. The city is poled and wired throughout with heavy insulated electric conducting wires, many private houses are lighted by this means. The Municipal Corporation have, in addition to gas lamps, a number of Arc lamps lighted by the electric works. Not that the Nanaimo Gas Co's are in the shade, on the contrary the demand has so largely exceeded the Company's power to supply that an enlargement of the retort house and its appliances and of the gas holder has become needful and is being

J. HILBERT, Man'r and Imp'r of FURNITURE, CARPETS, BEDDING, and WALL PAPER. Estab'd 1873. NANAIMO

carried out under the resolution of the shareholders, who are confident of the soundness of their investment. The mains are laid along the leading streets and to the coal loading and town wharves and also to the Esplanade Shaft Works, where gas is used, to the exclusion of the old time fish-oil lamps. One of the most successful enterprises of the city is the Nanaimo Water Works Company, which has supplied the city with pure mountain water without a mishap for some years. The water mains are spread all over the city, and reach to the limits, so that for domestic and gardening purposes there is no want of this most necessary article of life at Nanaimo. The mains supply the shipping at all the wharves, and also the engines of the Esplanade Colliery, locomotives and workshops, and it is purposed to lay a main under the harbor to the New Vancouver Coal Co.'s mine on Protection Island, in order to ensure a permanent reservoir of water there. The waterworks are cable of almost indefinite expansion, and it is one of the most promising concerns on the Island.

Of the City of Nanaimo proper and its varied town and commercial and industrial interests hardly too much can be said in its praise for its patient endurance of past vicissitudes, during the passage of the coal mining industry through its shady and fluctuating career; but the present position and prospects of the city are of the most promising character, and of this its citizens and tradesmen who are capitalists have not been slow to take advantage by the erection of many fine business blocks and residential buildings of a style and finish that are creditable to the rising city, and the huge three and four storey brick blocks now in course of construction are alike evidence of the growth and stability of the place and its commercial interests. Vying with sister cities, Nanaimo citizens are arranging for the establishment of a first-class hotel, suitable for the higher rank of tourists and equal to all the demands of the travelling public. The scheme is in the hands of the Board of Trade, who are energetically pushing the

hotel to completion. Not that Nanaimo is without very fair hotel accommodation at the present time, as not a few of the score or so of licensed houses in the city are well kept and provide pleasant and convenient entertainment, and six of the leading hotels are commodious brick buildings. However, the addition of the new hotel is a foregone conclusion, and it will fill a useful place in the commercial and social life of the community without lessening the trade of the present hotels, but by the attraction of a greater influx of visitors will rather add to the prosperity of those who have vested interests in the hotel trade.

The city is well provided with shops, stores and offices of the multifarious variety of a modern city, which are all doing a brisk business, particularly on the great pay-days of the mines, when large sums are put into circulation, aggregating nearly \$250,000 a month from all the industries tributary to the city. All wages are paid uniformly in hard cash, and with untailing regularity and a large and healthy trade in the town is the result.

The city wharves are scenes of busy life: the daily discharge of eastern freight brought per steamer Cutch, via Vancouver; the San Francisco and Portland imports per steamer Empire and Michigan, and other calling steamers with the east coast steamer Isabel and the fleet of small steamers and sailing craft trading to the port, cause a lively traffic from the wharves to the city warehouses which is steadily increasing. Wharf extension is in contemplation, and is now pressingly needed to meet the requirements of steamships and craft mentioned, besides the Fraser river trade carried on by the plucky company owning and running the City of Nanaimo between this port and Vancouver, New Westminster and lower Fraser ports. Return cargoes of mineral, lumber, quarried and measurement stone (of the famous Newcastle quarry) and general products are taken from Nanaimo in reciprocal trade, to a considerable extent, but as yet the balance of trade is against the coal city, whose capacity for absorbing colliery sup-

plies and necessaries of life manufactured or produced in sufficient quantity by provincial manufactures and island farmers is of much larger volume than is commonly understood.

The calm and land locked bay of Nanaimo is secured from the force of all storms, by Gabriola, Newcastle and Protection, the surrounding islands, but there are two clear channels for passage into the Straits available at all seasons of the year, and at every stage of the tide. There are no bars to navigation, and the anchorage is good. Many of the largest steamships and sailing vessels afloat, frequent the port of Nanaimo, and are loaded with the utmost facility and despatch at the great loading wharves, alongside which the deepest ships can ride safely.

Of public buildings, there are several of good pretensions. The postoffice and custom house, combined in a splendid three-storey stone building, that would do credit to a city many times the size. The court house, and public school house, also the Nanaimo Public Hospital, are prominent buildings. Since the formation of a company of militia, a drill shed has become in demand, and will doubtless be erected by the Dominion, at an early date. The fire department has outgrown its present engine house, and the City Corporation intend to erect a fine brick building as an engine house that will do justice to the engines and apparatus in possession of the brigade. There are several stations of the department in the city, and hydrants are placed at most serviceable points which are well served by the waterworks at

a pressure sufficient to throw streams over all existing buildings, in a word Nanaimo is as well provided as any city of its size in the matter of fire department, engines—one a steamer of Merryweather make, hose reels and an abundance of hose, with a first-rate water service.

The educational advantages of the public school system of the Province are fully enjoyed by the citizens of Nanaimo, where there is a high school, which is successfully conducted by a first-class professor. Besides there are two large school houses for boys and girls respectively, and ward schools in convenient situations; all being in charge of able and popular teachers. The numbers of scholars in attendance at all the schools exceed the school accommodation so far as to necessitate the erection of new buildings, a duty that the trustees will not fail to perceive and perform.

The concert school of St. Ann affords a good means of education for young children, a large number of whom are entrusted to the sisters of that institution by parents desiring private tuition.

The convent is a three storey building with mansard roof, and is one of the principal buildings of the city. It is surrounded by extensive grounds. At the north side are the church of St. Peter and Young Men's Institute of the Roman Catholic Church.

There are two parishes of the Anglican church, having the churches of St. Paul on the north side of the city, and of St. Alban on the south, with school and mission house attached while in connection with St. Paul's there is a fine institute and a large roll of members. The hall of St. Paul's Institute is well provided with library, newspapers, piano, billiard table, stage or platform for entertainments, etc.

The Methodist church is an imposing edifice on the corner of Wallace and Franklin streets, with lofty spire. A large piece of land adjoining is partly occupied by the parsonage, but there is a large space for school house and other buildings needed for church

purposes, and several lots to spare.

The Presbyterian church, only lately erected, has already become too small for the large congregations that attend the services, and a new church is contemplated, and something superior in architectural effect may be expected. The old church, as is the old Methodist church, is used as a ward school. The Presbyterian manse, built on the church grounds, is a roomy and well built dwelling house.

The First Baptist church, on the hill formed by Winfield Crescent, is a prominent object from all points of view, and is a pretty building. It is lighted by electricity.

Other church buildings, are the Methodist church in South Haliburton and the St. Alban's Mission on Gillespie street, also the Indian Mission church (Anglican) at the reserve, connected with which is the Dominion Indian school, recently built and organized.

The Young Men's Christian Association is well established in rooms with a gymnasium in the Oddfellows' block on Victoria Crescent, where the visitor and stranger are ever welcome. The Y. M. C. A. intend to build premises that will be a credit to the city, and provide much needed extension of room.

The present city hall is an old institution, where public meetings are held and the Salvation Army conducts its services; but the city is ripe for a new hall and civic buildings—another source of city embellishment.

The Masonic block on the corner of Skinner and Commercial streets, in the upper story of which the lodge meets, has become valuable for business purposes, and it is stated a Masonic temple will be erected on the fine tract owned by the order on Front street, and formerly the site of the Methodist church. The Oddfellows' Hall in their block on Commercial street, near the northeast end of the long bridge, and the Forester's block, also containing their hall on the northeast corner of Bastion streets, and the Good Templar Hall on Grace street, are good buildings and evidence of the thrift of the Societies owning them. The orders of Workmen,

Knights of Pythias, the Loyal Orange Society, and the Druids are at present using the halls of sister societies, but will in the near future become established in buildings of their own, and so add to the number of imposing blocks recently built in the city.

The Nanaimo Opera House is a three-story brick, recently built, and provides a roomy and well arranged theatre, where most successful entertainments have been given by first-class artists. It is a favorite place of resort. The upper stories are used for hotel purposes.

The Bank of British Columbia has a branch in a brick block on Front street, where a savings bank department is available for the people's savings.

It has been stated that the Bank of Montreal will at an early date establish a branch in this city, and will build a suitable banking house.

The Dominion Post Office Savings Bank is also available, and has a considerable share of the deposits.

The Nanaimo Building Society and also a branch of an eastern building society have good membership in this city. By the help of these provident associations many houses have been put up that would otherwise have had to abide their time. As it is, Nanaimo is inadequately supplied with dwellings, and there is scope in this direction in connection with real estate sales, and of this real estate men and capitalists would do well to make note.

The C. P. R. Co's telegraph is at the public command, and will shortly be extended to Comox and Alberni. The line is well patronized at Nanaimo, and only needs an addition to the staff of operators and extended hours to make the service equal to the public demands.

The Nanaimo Telephone Company has a long list of subscribers, and the wires extend to Wellington on the north, and as far as Cedar district on the south. The service and plant of the telephone company are in excellent working order, and the operations of the company are conducted to the entire satisfaction of the public. The demand for the service is growing daily, and the financial success of the

enterprise is assured.

The Municipal Council of the city consists of Mayor and nine Aldermen, three for each of the North, South and Middle Wards. The assessment of the real estate, (improvements not reckoned,) foots up to \$1,115,264, values being stated on a liberal, moderate basis. During the past two years an expenditure of \$60,000 has been incurred by the Corporation in opening and grading some 5 or 6 miles of new streets, and in other city improvements. The city owns a valuable plot of land on which stands a City Hall, and Council Chambers, leaving plenty of spare space for further erections. The sanitary condition of the city is well looked after, and an exhaustive by-law is promptly applied in delinquent cases. A city licensed scavenger is authorized to remove all nuisances, and keep all premises clear. A system of drainage is under consideration, for which the situation and grades of the town site are extremely favourable. As well as grading the streets, miles of sidewalks have been laid, giving pedestrians a means of access to distant points in all weather. Under a special by-law a powerful steam rock crusher and steam drill will be set to work, and the city will enter upon an era of macadamized roadways, much needed where traffic is heaviest. Several of the public squares and the park have undergone improvement by grading and fencing, and an ornamental lake formed in the park. On Dallas square a handsome band stand is erected in compliment to and for the use of the Nanaimo Silver Cornet Band, whose summer afternoon performances have delighted crowds of citizens resorting thither for promenade. The band is renowned for its skill and splendid equipment of instruments and uniform it is a favourite institution of the city, which is justly proud of the "Nanaimo Band." Altogether the energy and administrative ability displayed by the Mayors and Councillors of the city and their excellent officers in pushing the city ahead so as to be abreast of the times, is worthy of commendation, and has won the confidence of the citizens at large, and it is apparent that no reasonable efforts

will be wanting on the part of the Municipal authorities in the future administration of civic affairs to accomplish the advancement of the city, and as in the past, the hands of the city fathers for the time being will doubtless be strengthened by the support and assistance of Mr. S M Robins, the superintendent of the New Vancouver Coal Mining and Land Company, whose interests are so thoroughly identified with those of the citizens, and who so largely contribute to the revenue of the Corporation.

Nanaimo is fortunate in having a Board of Trade alive in the interests of the city and its commerce, and has an excellent personnel of leading citizens and merchants.

The climate of Nanaimo is remarkably mild at all seasons, and most salubrious, making the city a desirable place of residence for people of independent means and leisure for life's enjoyment.

The fine rural drives will repay those who undertake them, and for genuine sport in hunting and fishing the district around the city cannot be beaten.

Agricultural progress is being made by a persevering farming community around Nanaimo and on the adjacent islands, and the certain and remunerative market always found among a mining population is a sure stimulus to exertion that should eventually and rapidly build up a prosperous farming and horticultural district, mutually supporting and supported by the city.

The Free Press newspaper and printing office, has for many years proved equal to the local demand for news and controversial matters. Several attempts to run a second paper in the city have met with financial disaster.

There is, however, a field at Nanaimo for the introduction of capital in the starting of industries for manufacture of articles of utility of many descriptions, but as yet these various industries await the organizers who have the ability and application to manage and undertake them.

The Hotel Victoria

The capital of the Province, the seat of government of all the Dominion and local departments, including "C" battery of the Canadian regiment of artillery. It is beautifully situated on the extreme south-eastern extremity of Vancouver Island, and may be justly termed "the bright gem of the Pacific coast," nature and art having combined to place it among the foremost "beauty spots" on earth, surrounded as she is by the exquisite scenery of the Straits of San Juan de Fuca, the straits of Georgia, the mountains of the mainland and snow-capped Mount Baker in the distance.

The geographical position of Victoria cannot be over estimated, as a commercial centre for foreign trade, and the fact of its being the first available seaport north of San Francisco confers upon it additional importance. The inner harbor of the city is completely landlocked, and gives accommodation to all vessels with a draught of water not exceeding eighteen feet. Larger vessels discharge at the outer wharf and at Esquimalt, three miles distant, an extensive harbor capable of receiving vessels of the largest class, with all these advantages she bids to her doors the immense trade that is rapidly springing up between Canada and Britain's vast dominions in the Orient, and who can gauge the fast growing importance of the city through which such a volume of trade must necessarily flow? There are at present three lines of steamships engaged in the China-Japan trade which makes Victoria the last port of call outward and the first inward. The Canadian

Pacific Railway Company's Royal Mail Steamships, the Upton and the Northern Pacific Company's steamships, the latter connecting with that company's transcontinental railway system in the United States. The growth of the city of Victoria in 1892 has been signally marked by the inception of two important railways, the Canada Western and the Victoria and Sydney, for which charters have been granted by the government and which are now under construction and survey; while the business enterprise and public spirit of her citizens during the past year have been characterized by the increase in the number of substantiated buildings of various kinds and sizes which now adorn the city and which stand as a solid and lasting tribute to the energy and stability of her citizens. Victoria is preeminently a place to delight tourists, and has ample accommodation for a large floating population, having several handsome, commodious and comfortable hotels, some of which are noted for the excellence of their tables. Though situated on an Island, Victoria has a central location. It is distant 38 miles from Port Townsend, 18 miles from Port Angeles, 100 miles from Seattle; 128 miles from Tacoma; 72 miles from Vancouver; 73 miles from New Westminster; 72 miles from Nanaimo and 750 miles from San Francisco. With these ports on Puget Sound there is communication once a day, a steamer leaving every evening except Saturday. The Canadian Pacific Navigation Company's palatial steamer Islander leaves every morning except Monday for Vancouver, com

neeting with the C.P.R., while various other steamers ply to all important Puget Sound ports, and to points Northward on the Island and mainland, and all regular San Francisco and Alaska steamers call at Victoria. The city is the distributing point for most of the wholesale trade of the Province, while all, or nearly all, the trading posts on Vancouver Island obtain their supplies here. The fur sealing trade is almost entirely owned and controlled by Victoria capital, and most of the vessels employed in the trade are built here, winter here, and are fitted out from this port. This trade is one of the most important in the Province, as it requires very large capital to engage in it and usually yields large returns. Victoria is probably more affected by the Behring Sea difficulty than any other port in Canada, being the headquarters of the sealing fleet. This industry is largely increasing year by year, and during the past year fifty-seven vessels, representing a capital of \$600,000 in vessels and equipments, and a total crew of about 1000 men were fitted out in Victoria alone to hunt in northern waters. Victoria has for many years been a favorite resort for tourists, and appears to be steadily growing in popularity. The age of the city may date from 1858, when the discovery of gold on the mainland brought a rush of miners from the south. It is now a wealthy, well built and very English city, and one in which every phase of modern civilization finds a place, and enhances materially the gifts with which nature has so lavishly endowed her.

HEALTH OF THE CITY.

As a health resort Victoria stands pre-eminent on the whole Pacific coast, due mainly to the almost perfect sanitary system and plentiful water supply which tend a great deal toward the prevention of and spread of sickness, also to an extension of the sewerage system during the past year, involving an expenditure of \$250,000. The very low death rate is due also in a great measure to the city occupying such a salubrious situation, possessing as it does, such a wonderfully fine

climate. To this may be added the intelligent attention which is given to its sanitary, cleanly and healthy condition.

THE FACILITIES AND FINANCIAL CONDITION.

The city enjoys the fullest mail, telegraph and telephone facilities. The electric lighting is effectively done, and the planting of masts 100 to 150 feet high in prominent parts of the city, with powerful lights at their heads, is a novelty, but is also extremely beneficial and gives abundant light, covering a large area. The systems employed are the incandescent and the arc. There are within the city limits upwards of twelve miles of electric street railways and the system extended beyond has done much towards the advancement of the city, as it has made all points easy of access. The inauguration of this modern improvement is largely due to the energy of the Hon. D. W. Higgins, the president of the company. Property has largely increased in value along the line of the tramway, and residences being built further out of town. As showing the wonderful growth of the city, it may be mentioned that in 1881 the white population was 6,800, and the assessed valuation of property \$2,749,075. In 1891 the white population was 19,015 and the assessed valuation \$17,700,000, and when the new city limits are included, in 1892, the assessment will be increased by about \$7,000,000. The old city limits covered an area of about 1,800 acres, but during 1891 the limits were extended and now occupy an area of over 5,400 acres, or about 8½ square miles. The financial condition of the corporation is sound and substantial. The assets, taken on a thoroughly commercial basis, are more than triple the liabilities; the burden of taxation is extremely light, being only one per cent on the assessed value, the assessment being made on an extremely low basis. There is also a small indebtedness against the city, but the assets, by way of waterworks, municipal buildings and real estate alone are over double the amount.

ROADS AND ATTRACTIONS.

The streets in the city are all well macadamized and are kept in excellent condition. Outside the city limits, the roads are equally good and furnish most excellent and charming drives, leading through lovely scenery, and to many elevated points, notably in the vicinity of the residence of the Lieut.-Governor, Blanchard Avenue, head of Pandora Avenue, Church Hill, and from Mount Tolmie, the eye is enchanted with the picturesqueness of the landscape, and the pretty houses embowered in ivy, honey-suckle, and other creeping plants and neatly trimmed lawns, from these eminences views of the straits of San Juan de Fuca, and the snow capped Olympic range, on the one hand, vie in grandeur with the island dotted Gulf of Georgia and its back ground of Cascade mountains. To the tourist Victoria offers many attractions. The scenery is grand, the drives and resorts are numerous, and among the many advantages she can boast of, not the least is that the sportsman can within easy distance from the city roam over undulating downs and grassy hills, enriched by the most romantic surroundings, and fill his bag with quail, snipe and grouse, or bring to the earth the bounding deer,—amongst other fish, the lively trout, and in the bays of the sea the wily salmon, with which the waters are at all seasons stored.

CLIMATE.

The climate is all that could be desired, always cool and pleasant in summer, the evenings are somewhat chilly

even then, but never cold in winter. The thermometer rarely falls below 16 degrees above zero. It is remarkably dry for this section of the country, the average rainfall only being about 34 inches. On no other point on the coast north of San Francisco is the rainfall so small. The air, however is sufficiently charged with moisture to prevent draught. The humidity of the atmosphere, and the mildness of the climate, modified and tempered as it is by the Japan currents, makes the vicinity of Victoria admirably adapted for

FRUIT AND HORTICULTURE

and that it is the garden spot of Canada has never been appreciated or understood. Even on seemingly poor and light soil fruits grow and yield the most magnificent returns. Pears, for instance, are generally supposed to require a heavy, rich, dark soil in order to obtain successful results, but here gravelly ridges, apparently worthless and possessing little or no nutrition, are capable of producing this fruit to perfection. Here where the land is directly affected by the sea breezes, where the atmosphere is humid and the climate genial, grapes can be raised in great abundance, especially the hardy varieties, Peaches, prunes, apricots, filberts and in fact any fruit grown in the temperate zone attain here their highest perfection, and some of the finest specimens exhibited at the largest American and Eastern Canadian fairs have been the production of this section of the country.

INDUSTRIES.

Among the many industries of Victoria a few might be mentioned, particularly Messrs. Hall Ross & Co's large roller flour mill in connection with their rice mills. The flour mills have a capacity of 200 barrels per day, and the rice mills about 20 tons per day. The wheat is partly raised in the interior and partly in the neighborhood. The rice is imported in the paddy from China, Japan and Siam, and is cleaned and made ready for the market in the mills on Store street. The Albion Iron Works are the largest

iron works on the coast north of San Francisco. They manufacture stoves and all kinds of brass ware, besides engines of all descriptions, and boiler making. Messrs. Spratt & Gray have a large foundry and machine works. The estate of Wilson Bros. & Co. also do an extensive foundry business. There are two extensive furniture factories, besides several smaller establishments in the same line of business, and also a large boot and shoe factory shipping goods to the whole Province. Besides these industries, ship building, sash, door and lumber mills of all kinds, blacksmiths, farriers, an extensive blank book manufacturing, binding and rubber stamp making establishment, manufacturing jewellers, brick works, marble works, breweries, a paper mill, fruit preserving works, pickle and vinegar works, soap makers and other manufactories and industries too numerous to mention.

BOARD OF TRADE

Although there is no Chamber of Commerce, Victoria has a living, active, influential and powerful Board of Trade, who are doing excellent work for the commerce of the city in fostering and encouraging its industries, and in guarding and protecting its rights and liberties. Their vigilance is ever watchful, and their promptness and energy in finding fresh fields of enterprise and new markets for their products is indefatigable and unceasing. Over one hundred bankers, merchants, manufacturers, ship owners and professional men are enrolled as members, and they also prove their usefulness by working in harmony with the City Council, and are enabled to offer hints and suggestions to that body, calculated to promote the city's interest and the public good.

Upon recommendation of the committee appointed to report upon a building scheme, an association (Capital Stock, \$100,000.00) was incorporated under the Companies Act, 1890, to take over the lots on Bastion street, acquired by the Board, and to erect a suitable Board of Trade building thereon. The contract for construction was signed June 14th last, and the

PHOENIX BREWING CO.

VICTORIA, B.C.

building will be ready for occupation within six months from that date. The building when completed will be an ornament to the city; and special merit attaches to those who were most prominent in securing its construction. The Board is to be congratulated on the prospect of shortly attaining most desirable offices; and it is to be hoped, increased activity and usefulness will ensue from the changed conditions.

MANUFACTURING ADVANTAGES.

As the manufacturing centre of British Columbia, Victoria not only claims to occupy the leading position, but justly deserves this rank. The many natural advantages which the city possesses offers inducements and opportunities which are unequalled by any other city in the Dominion, and in addition a constantly increasing home demand is by her admirable situation and unrivalled shipping facilities, in a position to reach the market of the entire world much more expeditiously and cheaply than almost any other point on the Pacific coast, a feature which cannot but invite the attention and command the consideration of all who may contemplate the erection of any industry—small or great—in this section of the country. So great are the advantages offered, so broad the

The HOTEL VICTORIA

field of opportunity, and so unlimited the resources upon which to draw, that the industries and manufactories of Victoria should be, and will be numbered by thousands instead of hundreds. South America, Australia, Japan, China India and Oceania are open for all, and in closer proximity to this city than any other north-western point. With the development and utilization of the inexhaustible iron resources abounding on Vancouver Island, it seems, in the condition of things to-day, but an idle tale to point out the grand opportunities and fields of operation which this single mineral affords, its vast deposits, and its unequalled purity, the abundance of timber for charcoal, limestone and bituminous coal for coking purposes, and all that is now wanted to make pig iron is will, brains and money. No better market can be found for these three commodities than at Victoria. What a revolution the first ton of pig iron would cause? It would be the harbinger of immense rolling mills, the super-cedence of iron for wooden shipbuilding, the manufacture of steel rails, and even ordnance and armour plate might follow. Victoria is a wealthy place, people have become millionaires almost in spite of themselves, and would be ready to give substantial financial backing to this or any other enterprise calculated to encourage the growth and importance of the city and Province by the turning to profitable account her many natural resources. Hitherto two things have militated against these developments, the scarcity and dearness of labor, and the sparseness of the population. But these conditions will right themselves in time. Already the great transcontinental line, the Canadian Pacific Railway, is reaching out its arms to every part of the Province. Other railroads are now projected, and will soon be built, and good wagon roads are being constantly constructed, furnishing means for rapid and cheap transportation, working even in advance of the usual pioneers, and opening up for settlement and the development of its vast resources the richest country in the world, and seek-

ing to make Victoria, what she is sure to become, the greatest centre on the Pacific coast for all kinds of manufactories and industrial enterprises

INDUSTRIAL ESTABLISHMENTS.

The value of the various industrial establishments within the Province approximates four million dollars, and give work to about 12,000 employees; in the fish canneries alone nearly one-half of this number is employed, but one-third of the capital is invested in sawmills and sash and door factories. The industrial establishments have increased nearly 300 per cent. since 1881, and in proportion to the population, British Columbia now takes first place as the manufacturing province of the Dominion. The recent establishment of good modern oatmeal and other mills, has stimulated the local production of cereals, and further developments in this line may be expected as soon as connections are improved. Fruit growing and canning is making rapid progress, and there is every prospect of this new industry very soon being of great importance to the Province. The Government appear to have recognized this and the establishment of a Board of Horticulture is a move in the right direction. With this year commences a new era in the breweries of the Province; lager beer, hitherto imported, is now being produced in quantities for exportation. The paper mill at Alberni will commence operations very soon under favorable auspices.

CROFTER COLONIZATION.

The Crofter project for colonizing certain lands on the sea coasts and islands of British Columbia has been advanced by the passage of two Acts during the last session of the Provincial Legislature. The first is known as the "Colonization Act, 1892," which enables the Local Government to make arrangements with Her Majesty's Imperial Government for bringing a number of colonists (not to exceed 1250 families) from the United Kingdom and to settle them at the points named, also to pledge the credit of the Province to secure the repayment of sums aggregating £150,000 which Her Majesty's Imperial Government will grant as a loan under certain conditions.

The second is entitled "Deep Sea Fisheries Act, 1892," whereby the Government of British Columbia is empowered to enter into an agreement with a Commercial Company, having a capital of not less than £1,000,000, which is to be formed for permanently establishing fishing and other industries within the Province. When proper guarantees are furnished, the Provincial Government will grant the Commercial Company 500,000 acres of land and certain other privileges. The scheme is bold and comprehensive and bids fair to open up large new industries and to settle an industrious population on hitherto unsettled portions of the Province. It is to be hoped that the details of the plan will subserve the interests and independence

of the immigrant settlers and locate them as owners of the soil, while due protection is given those who are investing their capital in the Commercial Company. With the knowledge of the markets and the influence and capital which the Company have at their command, large development of our sea-wealth will be secured, and a new era in British Columbia fisheries will be inaugurated.

The untimely death of the late Premier, Hon. John Robson, who was largely instrumental in furthering the Crofter scheme, is a matter of universal regret, but the scheme itself was so advanced by Legislative enactments that it will not likely be seriously interfered with by his deplorable decease.

THE LATE HON. JOHN ROBSON, PREMIER OF BRITISH COLUMBIA.

The death on the 29th June last of the foremost statesman and Premier of the Province, the late Honorable John Robson, in London, England, where he had gone to confer with the Imperial authorities in connection with the Crofter scheme, calls for more than a passing notice, not only as a tribute of recognition of his marked ability and of an almost life service devoted to British Columbia, but as exemplifying through the circumstances attendant upon his death, the great and increasing sympathy which exists between the Mother Country and the dependencies of the British Empire. The Queen of England sent with condolence a wreath to be placed on the coffin of British Columbia's statesman; the funeral services were solemnized at St. Margaret's, Westminster, the church of the House of Commons, and were attended by the Imperial representatives, and by leading representatives of the Home and Colonial Empire. The Second Congress of Chambers of Commerce of the Empire, then assembled in Great Britain's capital, also passed a resolution of sympathy in the loss sustained by this Province through the death of its chief executive officer, and instructed the delegates from the several Boards of Trade in the Province to convey such expression to their members. Such a kindly and

sympathetic act of honour by Her Most Gracious Majesty to the memory of the Premier of the Province, while specially esteemed by the relatives of the deceased, has yet a Provincial emotion, and in this distant Province of the Dominion tends to bind still more closely the ties of attachment to Great Britain and Britain's Queen, while the resolutions of a Second Congress of Chambers of Commerce of the Empire, prove the existence of a chord of consanguinity between the Mother Country and the several Provinces and Colonies of the Empire upon which the sun never sets.

MINES AND MINERALS.

The collieries of Vancouver Island are yearly growing in importance, and give employment to 3,194 hands. The output of coal for 1890, was 678,140 tons; and for 1891, 1,029,097 tons. The exports for 1890 and 1891 were 508,270 tons, and 806,479 tons respectively. The quality of this coal is not equalled on the coast and is much appreciated in California, to which state 641,011 tons were exported in 1891. Estimates of the comparative value of this and other fuels for steam raising purposes, by the War department of the United States, will be found on page 51, together with a statement showing the annual output of coal on Vancouver island since mining commenced.

GENERAL TRADE AND OUTLOOK.

The short pack of salmon, followed by exceptionally low prices; the peremptory closing of sealing in Behring Sea in the middle of the hunting season of 1891; the collapse of the South American lumber markets, and the slackness of the California coal trade

have all combined to injuriously effect the trade of the year under review. However, notwithstanding such adverse conditions it is satisfactory to find that the Customs returns for the Province exceed those of the previous year, which were the most favorable on record.

EDUCATION.

Victoria is admirably provided with the best facilities for the proper and advanced education of the youth of the city. The central and High schools—besides other excellent private schools and Colleges among which the Corrig College hold a prominent position three in number—are located on a fine healthy site, surrounded by ten acres of tastefully arranged grounds, and, combined, form one of the finest educational institutions in the Province. The buildings, constructed of Victoria bricks, are all separate from each other, and are designed specially for the use intended being bright and cheerful well ventilated, possessing a perfect sanitary system and furnishing with every necessary appliance for instruction. They comprise one high school for the advanced education of both boys and girls, one boys' graded school of eight divisions, and a girls' graded school of a similar number. There is also one graded school of three divisions in Victoria West and four ward schools in different parts of the city. The direct or detailed management of the city schools is under a board of seven trustees, three being appointed by the Government and four by the City Council. The total valuation of Victoria school properties, including land, buildings and equipment, stands on a moderate estimate at \$175,000. The basis upon which the educational superstructure of the Province is built is broad, liberal and non-sectarian, and the object of the Act is to set forth clearly and decisively: "To give to all children a thorough, pure and secular education." The curriculum or course of studies in the Victoria high schools is of a very high standard, and it is necessary for any pupil seeking admission into any Dominion university to satisfy the examiners that such candidate is proficient, not only in elemen-

tary subjects taught in lower forms, but also in higher mathematics, classics, including Greek, natural philosophy, chemistry, zoology, botany and astronomy, algebra, general history and literature, in which candidates to pass must obtain at least 40 per cent of the required marks in each subject. This is the requirement laid down by the Education Board. The convocation, which consists of 127 members (see list of names of members in Provincial information), graduates of some of the best Canadian, English, Scotch and Irish colleges, residents in all parts of the Province, have under consideration securing a site of 'twenty-five acres, charmingly situated in one of Victoria's most salubrious and popular suburbs, overlooking the Straits of San Juan de Fuca, and in the near future suitable and complete university buildings will be erected.

SOCIAL.

As a truly social city, Victoria is almost alone on this coast. The chief aim of its business men being not solely the making of money, but a proper distribution of their time, between work and pleasure, office and home, commercial pursuits and social duties, and the obvious result is a people cheerful, intelligent, courteous and genial, always ready to join in the refined pleasures and social requirements for which the city is noted, and as well prepared to sternly meet every emergency and vicissitude of life.

Wealth, broadly speaking, is not the line which separates its contented and prosperous inhabitants into groups and clans, and while there is a dividing line as there ever must be in cul-

tivated society, it is not loudly proclaimed, nor visibly seen, being known more by intuition, and in consequence acknowledged and felt as the only means whereby culture and refinement, intelligence and integrity are freed from the disregards and violations of social law, so often noticed in many new cities which are rising into prominence, and in which money, place, power and name are only thought of, and sought for. Here the foundation of society was firmly laid by the first English and Scotch settlers. Traders then, in the early days of the country, they are now the leading commercial men and manufacturers of the city, whose worth and character are recognized by all. Men, who, while possessed of fortunes, make no vulgar display of their wealth. Quiet and unostentatious in manner, conservative in action and speech, retaining still the courtly grace and polish of the old school, they form an element highly respected, valued, and necessary to the solid reputation of the city.

RESOURCES IN AND ABOUT VICTORIA.

Agricultural Grounds--Situ- ated near the Driving Park, in one of the principal avenues leading from the city to the romantic and picturesque shores of Cadboro Bay, the electric street cars running directly to the grounds. A magnificent exposition building was erected a few years ago. Victoria, with her characteristic enterprise and public spirit, combined with the association in finding the necessary funds, and this structure is not only an ornament to the city but of inestimable value to the entire Province. The main portion is 60x180 feet, with two projecting wings from the centre of 25 feet each, making the entire width 110 feet. 52 large plate windows extend from the floor to the roof, making it almost a crystal palace. The main roof is 56 feet high, surmounted by an octagonal tower, rising to a height of 140 feet, and having an open cupola resting on a colonnade, which supports a flagstaff, making the total height 170 feet. At either end of the building is an orna-

BRITISH COLUMBIA DIRECTORY

mental colonade cupola, giving the entire structure a very imposing appearance. Around the outer edge of the dome is an open balcony some 75 feet from the ground., from which a view of unsurpassable grandeur and loveliness is obtained, overlooking, as it does, a scenic picture unrivalled in natural charm and beauty. The ground floor of the main building contains 26,160 square feet. The entrances are at each end of the building, through wide and lofty port coheres. From the centre of the main floor a handsome arcade rises to the galleries above, forming an imposing feature of the interior decorations and finish. A magnificent ornate fountain beneath the arcade sends its curling spray amid rare exotic ferns and flowers, and adds life and brilliancy to the charming scene. The galleries, which contain 10,250 square feet of space, are used for lighter exhibits, and are reached by four wide staircases placed at the extreme corners, and from this elevated position a view of the entire main floor may be obtained.

Beacon Hill Park—Is the pride of the city, one of her chief ornaments and a bright jewel among the many which stud her crown of attractions. Lying to the south of the city, and overlooking the Straits of San Juan de Fuca, it commands from its highest point a view of surpassing grandeur many miles in extent. Inland, the mountains and valleys of Vancouver Island stretch out their varied vistas to the delighted vision, dotted with city, hamlet and farm, sparkling with lake, and fringed with the emerald of noble forest, presenting a panorama upon which no one can gaze without acknowledging its surpassing beauty. The park is the resort of the athletic and sport loving people. Nestling at the base of the hill and amid groves of grand old oaks and firs, beautiful lakelets peep out from shaded corners, and cosy retreats invite the wanderer to repose. Scattered here and there in attractive quarters may be seen some of the native animals and birds of the country, from the shaggy bear and grim wolf to the gentle deer and timid hare. It is a breathing place, a spot

in which to forget the outside world with its tranquil scenes the rest and solace which nature freely offers to all her worshippers

Clover Point—Is the most southerly point and is the mouth of the great main sewer.

Church Hill—Where the present Church of England cathedral now stands, commands a fine view of the city. On this site a new edifice will be constructed, said to cost \$250,000.

Douglas Monument.—Erected to the memory of the late Sir James Douglas, Governor of the colony, by the citizens of Victoria, among whom he was greatly respected and beloved. The site is a very beautiful one, situated in the grounds of the Provincial Government buildings on James Bay.

Foul Bay.—Is situated at the southeastern extension of the new city limits, and is a beautiful bay, however inaptly it may have been named. The drive there is charming, particularly the road passing Ross Bay Cemetery.

Gorge.—Reached by a lovely drive from the city, is another of the many attractive spots frequented by residents and visitors. The name amply expresses the nature of this enchanting retreat, but conveys only a faint conception of its beauties and attractions, its romantic scenery and its picturesque surroundings. An extension of Victoria arm, from the harbor facing the city, it winds among the hills north of the town, the silvery waters nestling among bowers of evergreen, only ruffled by the gentle zephyrs which fan its placid surface, and lapping the moss-grown, rocky banks which live on its shores. No words can describe, no brush portray the beauties of this exquisite scene. Here

and there, spreading out into minia-
ture lakes, and again into gloom
under the frowning headlands
which tower above it then narrowing
into a rushing torrent as it dashes
through the closing defiles which seek
to stay its progress, it is truly a scene
of sylvan beauty, a retreat of quiet
loveliness, a spot where health comes
for the lingering, & recreation for
the simple acceptance of all it has to offer.
Upon its liquid bosom dart the swift
shells of the oarsmen, float the pleas-
ure laden barge, and skim the white
winged yacht. Upon its shores merry
parties fill the dim old forests with
shouts of joy and gladness, and gather
the treasures of fern and flower, with
which they abound.

Holland Point—Lies directly
south of James Bay, and conveniently
reached by the electric street railway
and Dallas road, it commands a fine
view of the entrance to the harbor.

Indian Reserve — Contains
about 108 acres on the west side of the
harbor and is connected with the city
by two bridges, one being that of the
E. & N. Railway, which has a swing to
allow the passage of vessels. A large
number of indians are generally
camped on this reserve, especially in
the fall of the year, when they come
to Victoria to make their purchases of
supplies, and which amounts to a large
sum of money.

Laurel Point—At the entrance
of James Bay and on which is located
the large furniture manufactory of
Sehl & Co.

Outer Wharf—Is situated at the
entrance to the harbor and affords a
landing place at all stages of the tide
for the largest vessels afloat. Mr. R.
P. Rithet, one of Victoria's most

enterprising citizens, owns the wharf,
and is now having constructed a large
breakwater and extension to this dock,
which, when completed, will very ma-
terially increase shipping accommoda-
tions. The Pacific Coast Steamship
Co.'s steamers call here twice every
five days on their way to and from San
Francisco, and arrangements have
been made for the C. P. R.
Company's. The Northern Pacific
and the Upton China lines of steam-
ers to call here each way, the latter
making this their terminal point.

Old Cemetery—Is between
Quadra and Vancouver streets, now
never used for burial purposes, the
new cemetery being at Ross Bay.
The first burying ground for Victoria
was a small town lot, 60x120, at the
corner of Johnson and Douglas
streets, now the business centre of the
city.

Ross Bay—Fronting on this bay
is the new and beautiful cemetery
above referred to, which will amply
repay visiting.

**Rock Bay and Esquimalt
Road**—Is at the north end of the
city and is crossed by a long bridge
over which the electric railway cars
run to Esquimalt, which is reached in
about fifteen minutes from the post
office, Victoria, the distance about
three and one-half miles; it lies on a
peninsula separating the harbor from
the Royal Roads. Its superior facili-
ties caused the British Admiralty to
select it for a naval station many years
ago. Here are also an arsenal, where
large quantities of naval and
ordnance supplies are stored, a
naval hospital, a dock yard and
powder magazine. The Dominion
Government have built an immense
dry dock, sufficiently large to admit
of any of Her Majesty's ships of war
being docked therein. Its dimensions
are, length, 400 feet; depth, 26 feet;
width of entrance, 90 feet. It is sub-
stantially built of concrete, faced with
sandstone, at an expenditure of nearly
\$1,000,000. At Rock Bay are the Rock
Bay saw mills, the largest excepting
the Victoria Company's at Chemainus,
on Vancouver Island. They have a
capacity of 65,000 feet of lumber per
day, besides 25,000 lath. These mills

cover a large area, and are fitted up with all the latest and most improved machinery, having also in connection two completely equipped planing mills. Two engines, 16x18, and 20x24, with three 24 feet boilers, each containing five 9-inch flues—furnish the motive and generating power, sawdust alone being used for fuel, which is also supplied to the Electric Tramway Company, on the opposite side of Constance street. The refuse is burned in the immense furnace attached to the mills, while the slabs, which in so many mills are similarly disposed of, find a ready sale in the suburbs and outlying districts. These mills, together with the lumber camps and steamer Hope, give employment to over 150 hands.

Royal Jubilee Hospital.—This noble institution, supported by the benevolence and charity of the city, entered upon its career of mercy May 22, 1890, when it was formally opened by H.R.H. the Duke of Connaught, during the visit of the Royal party here, and is one of the gifts in honor of Her Majesty's jubilee year from the citizens of Victoria. Its total cost was over \$55,000, exclusive of the handsome grounds upon which it is located, which amount was raised partly by private subscription, supplemented by a grant of \$20,000 from the local government, and to-day stands as a monument to the beneficence of its founders and a credit to the city. The electric railway runs past the hospital grounds on the Cadboro Bay road, which by its picturesque surroundings, has grown largely in favor, and is fast becoming

one of the popular residential portions of the city.

CANADIAN PACIFIC NAVIGATION CO., LD.

This Company was incorporated in the spring of 1883, and commenced business with the steamers "Princess Louise," "Enterprise," "Otter," "R. P. Rithet," "William Irving," and "Reliance." Shortly afterward the steamers "Western Slope" and "Gertrude" were purchased, and in July of the same year, the fast and commodious steamer "Yosemite" was added to the fleet, which has since been increased by the purchase or building of the following steamers and steamships, viz: "Wilson G. Hunt," "Maude," "Premier," "Sardonyx," "Islander," and "Danube," thus placing the Company in a position to transact any business in connection with water transportation that the public may demand, and offering superior inducements for the public patronage, by the number of steamers being a guarantee to fulfill any undertaking in the water transportation of British Columbia.

Daily trips are made between Victoria and Vancouver, connecting with Bellingham Bay and British Columbia Ry for Puget Sound ports, tri-weekly trips between Victoria and New Westminster, there connecting each trip, during river navigation, with river steamers of the same company, for Hope, Popcum, Sumas, Chilliwack, Langley and way landings on Fraser river; semi-monthly trips to Fort Simpson, Metlakatla, Skeena River, Bella Bella, Alert Bay and intermediate ports on the Northern coast, which, when inducements are offered, are extended to ports on the West coast and those of Queen Charlotte Islands, carrying Her Majesty's mails over these various routes.

Two regular monthly trips are made to Alberni and ports on Barclay Sound. Trips are also made to Bute Inlet and other points, as occasion requires.

During the tourist season of 1893, trips will be extended to Alaska.

This company has been since its inauguration under the able management of Captain John Irving. The Board of Directors are:

T. R. Smith, President; Sir J. W.

FIRE ALARM BOXES.

Obtain key at the nearest house to Alarm Box.
Open outer door of Box. PULL DOWN BRASS HOOK ONCE ONLY AND LET GO. (Brass Hook is plainly in sight projecting from inner door.)
Remain at Box and direct firemen to the fire.
Never turn in an alarm for a fire seen at a distance, unless sure that firemen pass the box on the way to the fire.
Failing to hear fire bells immediately after pulling brass hook, telephone No. 538 or No. 539. Key will remain in box.

ENCLOSURE

Tobacco Plant.

Come ye citizens and strangers,
Miners, sailors and western rangers,
Listen to the truthful story
Of Frank Campbell of Victoria.

He in truthful words will tell you,
Just the goods he has to sell you;
Mind ye, now, he isn't joking,
If you are fond of chewing or smoking.

Or if you are given to snuffing,
What he keeps does not need puffing;
He has brands will suit you really—
Tobacco users prize them dearly.

From all parts of the "Old Dominion,"
He has stock, and his opinion
Is, that none will suit you better—
They will please you to the letter.

His Cigars, just from "Havana,"
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion,
Just to suit the taste and passion.

And it is in Canada stated
His tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also.

Are the Fine Cut brands for chewing,
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinche or poker.

Pipes of briar, and stems of cherry,
More than any man can carry;
It would take a week to tell you,
All the things he has to sell you.

While in town you may be stopping,
At the "Pritchard Corner" drop in;
Campbell you'll find at that location,
Ready to give you information.

Or to see you well provided
With what is by all decided—
The smoker's and the chewer's glory—
The best and cheapest in Victoria.

UNCOVER

VANCOUVER.

With a population of 15,000 is probably the finest located city on the Pacific coast. It is situated on Burrard Inlet and has a natural harbor 11 miles long by two and a half to three miles wide, completely landlocked, and it is impossible to conceive a more favorable position for a large naval and mercantile port. Vancouver is the western terminus of the Canadian Pacific Railway, the only railway line on the American continent that reaches from the Atlantic to the Pacific, which is controlled by one company, and has from this circumstance alone the certainty of becoming a place of great importance.

In 1886 this city of the Sunset Province had no communication by railway with the rest of the world, and the only way by which either passengers or mails arrived was by a steamer calling on its way from Victoria to Port Moody. Now steamers

ply between Vancouver, Victoria and Nanaimo daily, and to Portland and San Francisco. The Seattle, Lake Shore & Eastern and the Bellingham Bay and British Columbia roads and other valuable connecting systems are now in operation and give closer connections with the different cities and towns of the Pacific coast.

The Canadian Pacific Railway was completed to Vancouver in May, 1887, when the first through train arrived in that city from Montreal. That year also the Canadian Pacific Company put a line of steamships on the route between Vancouver, Japan and China. Last year the boats

hitherto employed on this route were replaced by three magnificent new steel steamships, aptly termed "ocean greyhounds," and respectively named the "Empress of India," "Empress of China," and "Empress of Japan," specially designed for that trade. Those two important projects gave an impetus to the growth of the city, by placing its advantages entirely beyond the realm of speculation, and the advancement made was truly marvellous.

The city is laid out on a magnificent scale, and it is being built up in a style fully in accord with the plan. Its residences, business blocks, hotels and public buildings of all classes, would be creditable to any city. It has a splendid and inexhaustible water supply brought from a lake in a ravine of one of the neighboring heights. There is a good electric car service throughout the city, and also has electric car connections with Westminster, a distance of thirteen miles. The inlet, which has the most accessible and in several ways the best anchorage on the mainland, affords unlimited space for seagoing ships. The land falls gradually to the sea rendering drainage easy, and the situation permits of indefinite expansion of the city in two directions.

Fronting the wharves, to which the largest vessels can freely steer at all times, the view of the north shore is extremely picturesque, the fore shore being a gentle slope, giving place at a distance of a few miles to a ridge of mountains whose peaks, towering to over 4,500 feet, are snow-capped for the greater part of the year, while their

sides are covered by an unbroken forest. Two of the peaks, as seen from Vancouver, bear a most marked resemblance to lions couchant, hence the appellation of "The Lion's Gate." The city occupies, at first a peninsula sloping gently on the one side to the inlet and on the other to English Bay, behind which rise the extensions of Mount Pleasant and Fairview, while eastward it is bounded by the township of Hastings. Although but five years ago the embryo city was entirely destroyed by fire Vancouver now possesses over 60 miles of graded streets, 50 miles of planked sidewalks, and an assessed valuation exceeding \$12,000,000.

Vancouver is seventy-five miles from Victoria and thirty-five miles from Nanaimo, on Vancouver Island, and what San Francisco is on the Pacific and New York on the Atlantic to the United States, or Liverpool to Great Britain, Vancouver will become to the Dominion of Canada, and she will always be a city of the greatest importance to the Imperial Government.

The following statistics showing the state and progress of the City of Vancouver during the year 1891, are compiled from the annual report of the Vancouver Board of Trade for 1892, and will doubtless be interesting to many of our readers.

Of the many cities, which, from time to time, the extension of British commerce and the development of her colonial possessions have created, there is perhaps no one whose position is so unique, whose growth, while solid, has been so rapid or whose

future is so assured as that of Vancouver, British Columbia, nor at the same time is there perhaps a city about whose geographical position and surroundings so little is actually known by the world at large. For this, there may doubtless be advanced in excuse that until the barriers of the Rocky Mountains had been overcome, and the arrival and departure of the Montreal express become daily events on the shores of the Pacific Ocean, public attention had scarcely been aroused to the fact that Canada even possessed a Pacific province, and still less that by bringing this formerly almost inaccessible of colonies in touch with the world, she may not inaptly be said to have permitted the *debut* of her youngest and fairest daughter.

During the past year the chief financial centres of Europe have experienced exceptional difficulty, the apprehension of crisis overshadowed the American continent, business enterprise has been limited, and depression induced by restricted monetary circulation. The manufacturing towns of England and the vigorous communities of the Pacific Slope have alike suffered in sympathy with the main centres of commerce. That during this period, and amid prevalent depression, a comparatively young city should have made rapid and unabated progress marks it as an exception of singular vitality. This appears to have been the case with the City of Vancouver, which is fast becoming the leading seaport of the North Pacific.

Montreal and Vancouver are on almost a straight line between Liverpool and the seaports of China. Thence energy and resource of the Anglo-Canadian Federation have been concentrated on the construction and equipment of this line of communication. Vancouver is the connecting link by land and sea. There the Canadian Pacific trains and the China steamers discharge their freight on the same wharf. The famous high speed steamships of the C.P.R. Empress line run now between Vancouver and China, and the mails have been carried from Japan to England under 21 days. The English press takes the view that this route will cause a revolution in the

commerce of the Orient, foreign countries apprehending its value are adopting it as the most expeditious for mail service, and the number of passengers by the steamers has already exceeded the accommodation. The freight carried over this line, every package of which is handled in Vancouver, is assuming gigantic proportions.

Looking more closely at the British Columbia port, we find that in other ways, its means of communication and transport have been largely increased during the year. The connection of Vancouver and New Westminster, by one of the largest electric railways on the continent, besides opening to settlement and remunerative culture the intervening district has, along with the Fraser ferry given Vancouver connection with the State of Washington over the Westminster Southern railroad. The Fraser river having been bridged at Mission junction, a second railway connection with Puget Sound has been effected over the Canadian Pacific and Bellingham Bay lines. It is needless to add that there is extensive traffic over these roads.

Being the objective point of about all the lines of transcontinental railways and of many Pacific ocean steamship lines, Vancouver's anticipations are by no means small. Prospective connections being as follows: Direct steamship line with Australia. Direct steamship line with Alaska. Considerable additions to our local coasting fleet and improvements on those now employed. A railroad along the North Arm of the Fraser river between New Westminster and Vancouver, reducing the time between these points very materially. Railway and bridge or railway ferry to Ladner's Landing and southeast from there, directly connecting Vancouver with an immense farming section and with a system of railways south of it. An electric tramway to Lulu Island. Vancouver's connections with the outside world and the different points in the Province may be summed up in part as follows: The Canadian Pacific Railway with all east coast points, and United States Pacific coast, Sound, up-country and other places. The Canadian Pacific Railway Company's magnificent steam-

ship line to China, Japan &c. The Canadian Pacific Navigation Company's steamers to Victoria. The Union Steamship Company's steamers to Nanaimo, Comox, U. S. service, Moodyville, etc. Steamers "Robert Duns-muir," "Eliza Edwards," and others to Nanaimo, Ladner's, New Westminster and Lulu Island. Steamer "Saturna" gives connection with Howe Sound.

On surveying Vancouver we see that she is the natural western rampart of the Dominion—the continent behind, the ocean before her. Her harbor is perfect, her main railroad the longest in the world. The country, of which she forms the empowium and focus of communication, is of immense resource, and, while yet in its infancy, pours riches into her lap. Forest and fishery, mine and agricultural district, must indefinitely augment her wealth. Her traffic is extending in every direction, her centralized industries are being multiplied, and each year the commerce of China, the East Indies and Australia, enters more largely the gates of her harbor. It seems as though Vancouver may yet be the great port of the Pacific, or to adopt the words of President Harrison in his last year's message to the Congress, that we see "Vancouver substituted for San Francisco as the American terminus."

Nature having provided one of the finest imaginable harbors and one of the most suitable sites for a great city, the Canadian Pacific Railway Company naturally adopted the position as the terminus of their extensive line, which now makes part of the great rapid transit route between Great Britain and the Orient. part of an immense corporation, the
extent of whose connections closely
identifies them with the best interests
of the British Empire, at once made
the promise of future greatness for
Vancouver City beyond the doubtful
stage.

The ordinary observer can readily
see at a glance that this rapid advance-
ment in Vancouver has been brought
about by a natural location as a con-
necting link between railways and
shipping, admirably adaptable as the
leading receiving and distributing
point of a province possessed of im-
mense resources in mineral, piscal,
agricultural and arboreal wealth. By
its mild, equable and most healthful
climate and by its rapidly increasing
population, being an energetic, hard
working, thrifty, law abiding class.

At the writing, reports from the
mineral sections point to the excite-
ment of early days in British Columbia
being repeated in the near future, and
just so sure as this comes about Van-
couver will, through her favorable
position, reap her full share of the ad-
vantage.

Of some forty sawmills in the pro-
vince a dozen or more are tributary to
Vancouver, their shipments to foreign
places bring ships of many different
nations to its harbor. The immense
forests of the country guarantee a con-
tinuation of this.

The residents, believing in a national
policy, are anxious to have indus-
tries established within the city, and
the manufacturers often find an early
extension to their factories necessary,
two cases in point being the British
Columbia Iron Works and the Sugar

Refinery, which commenced operations
early in 1891, and both of which con-
cerns are doing large businesses.
Others have had to increase their
capacity, such as foundries, furniture
factories, ship yards, breweries, lime
kilns, brick yards, cigar factories, etc.,
might be noticed at length did space
permit.

Unlimited fishery grounds contigu-
ous to Vancouver abounding with
wealth await intelligent attention to
make them a great stimulus to the
trade of the city, while a grand climate,
most productive soil, good prices and
a rapidly increasing population in
other lines guarantee the agriculturist
a good return for his investment and
labor.

Vancouver City assessment
for 1892 shows from the latest returns
the sum of \$16,871,830.

Population—For population and
Dominion census returns see page 69
in provincial information.

Schools—The year 1892 began
with twenty-seven teachers, and
school buildings and lands valued at
\$100,000. And it is estimated that
during the year the sum of \$125,000
additional will be added to school
property by three new eight-roomed
brick schools, a remarkable evidence
of the advancement made since the
days when a one-roomed school was
sufficient for all educational require-
ments.

Streets—The municipal council
have, during the past year, responded
well to the calls made made by the

New Buildings in 1891.

Building was somewhat overdone about three years ago, and the citizens seem determined not to fall into the same error a second time. What has been done this year has therefore been to meet actual wants. The Bank of British Columbia has completed its handsome edifice somewhat resembling one of the fine bank buildings in London, Eng. Two brick and masonry warehouses, (Major and Gold), have been built close to the water, and contiguous with the Canadian Pacific Railway track, for the storage of merchandise. Both are good repositories, the former being considered the most substantial in British Columbia. The new Hotel Metropole and the Douglas House, are structures of architectural merit, while fully half a dozen other new blocks are worthy of notice. The city has re-graded part of Cordova street to suit the footings of the new railway depot, where work is now in progress, and the post office and customs house are expected to be finished next year. These promise to form an imposing building. The opera house, completed nearly a year ago, has already had on its boards many well-known artists, and stated by Mme Sarah Bernhardt to be the best theatre of its size which she had entered. Upwards of 400 residences have been erected during the year, and the city electric railway has been considerably extended. An excellent club house is contracted for, and the Bank of British North America is erecting a fine new stone building.

The number of new buildings erected in 1891, is as follows :

Residences 301, value.....	\$521,975.	average cost.....	\$ 17,354 00
Other buildings, 28, value.....	354,500,	“ “	12,667 00

Railroads—Of which all are of more or less interest to the trade of Vancouver.

The Westminster & Southern, lately opened, gives, with its connections, a railroad clear through to California.

The line from Mission, through Chilliwack, will, when completed, open that splendid agricultural district to the city.

The Shuswap & Okanagan will also open up and make tributary to the city one of the large tracts of British Columbia agricultural lands.

The Columbia & Kootenay, with steamboat connections, leading in among the riches of the mines, will lend importance to the Terminal City as a point of supply.

Union Steamship Company. The Union Steamship Company's fleet, of Vancouver, is comprised of the following :

Electric Tramways.—The Vancouver Electric Light and Tramway Company was organized in 1890, and the electric lighting and tramway plant set in complete and successful operation. Vancouver is now well lighted with both arc and incandescent lights, and the street track during the past year has been considerably extended, whereby New Westminster has been connected with Vancouver. The whole management and operation of the system is giving complete satisfaction to the public.

Ward Limits and Representatives.—Ward 1. Aldermen—R. A. Anderson and H. E. Connor comprises the Government military reserve form-

Tramways.—The Van-
couver Light and Tramway
Company was organized in 1890, and
has since that time been engaged in
the lighting and tramway
business, and has been successful
and profitable. Vancouver is now well
served with both arc and incandescent
lighting, and the street track during
the past year has been considerably
extended by New Westminster
and has been considerably
improved with Vancouver. The
management and operation
of the same is giving complete satis-
faction to the public.

Limits and Represent-
ation. Ward 1. Aldermen—R. A.
and H. E. Connor comprises

ing part of Coal Harbor peninsula,
lot No. 185, group 1, New Westminster
district, that part of lot 541 and False
creek, lying west of a line drawn
along the centre of Richard street
from the shore of Burrard Inlet to
False creek and north of a line drawn
midway between the banks of False
creek from the centre of Howe street
produced southwesterly to a point
midway between the banks of False
creek to the mouth of False creek.

Ward 2. Alderman—H. Collins and
A. W. Scoullar comprises that
part of lot 541 lying east of
the eastern boundary of Ward
No. 1 to Abbott street and that part of
False creek lying north of a line drawn
midway between the banks of False
creek from the centre of Howe street,
produced.

Ward 3. Aldermen—Dr. McGuigan
and P. McCraney comprises that part
of lots 196 and 181, 182, 183 and 184,
group 1, New Westminster district,
lying north of the centre of Hastings
street, and blocks 1, 2 and 3, old Gran-
ville township.

Ward 4. Aldermen—Prof. E. Odium
and J. L. Franklin comprises lot 182,
183, 184, 264 a, these parts of lots 196
and 181 lying south of the centre of
Hastings street, that part of False
creek lying east of the present traffic
bridge, and that part of lot 195 lying
within the city limits.

Ward 5. Aldermen—R. Mills and J.
J. Gavin, comprises that part of the
city of Vancouver bounded on the
east by the western boundary of lot
264 a, the shore of False creek to the
present traffic bridge, and along said
traffic bridge to a point midway be-
tween the banks of False creek from
the centre of said traffic bridge to the
mouth of said creek; thence by a line
drawn southwesterly across the mouth
of False creek to the point on English
bay west of the Indian reserve; thence
along the shore of English bay to the
western boundary of the city on the
west by the western boundary of the
city, and on the south by the southern
boundary of the city.

City Limits.—Commencing at the
eastern boundary of district lot 184,
running westerly along the shore of
Burrard Inlet and English Bay to a

point in district lot 540. Thence east-
erly along the southern boundary
of district 540 to the eastern
boundary of district lot 264A; thence
northerly along the eastern boundary
of 264A and 184 to the point of com-
mencement.

Fire Limits.—Commencing at a
point 130 feet east of Carrall street,
thence running southerly in a straight
line to the lane in block 14, district lot
196, thence southerly to the shore of
False Creek, thence westerly to a point
100 feet west of Carrall street; thence
northerly to a lane in block 29, district
lot 541; thence westerly along the line
of said lane, produced and following
lane between Hastings and Pender
streets to the east boundary of lot 16,
block 23, sub-division of lot No. 541;
thence south-westerly by a direct line
to the northern end of the lane be-
tween Granville and Seymour streets;
thence northerly along said line to
Robson street; thence westerly along
Robson street to the lane between
Granville and Howe streets; thence
northerly along the said lane to the
south-east corner of lot 5, block 32;
thence in a direct line to the south-
east corner of lot 5, block 22; thence
westerly along the lane between Has-
tings and Pender streets to Howe street;
thence northerly along the east side of
Howe street to its intersection with
the south side of Cordova street, pro-
duced westerly; thence easterly along
Cordova street, Water street, Alexan-
der street to a point 100 feet east of
Columbia avenue and embracing a
strip 50 feet in width on the north side
of Cordova, Water and Alexander
streets.

Sun Life Insurance Company
 of Montreal.

Eastern Fire Insurance Co.,
 Victoria Hydraulic Mining Co,

ises in the the snow crowned moun-
 tains of the Howe Sound district and
 flows almost due south, emptying into
 Burrard Inlet at the First Narrows.
 The source is not a mountain lake, but
 the accumulated waters derived from
 melted snow and ice falling from the
 mountain summit. It is of a most
 superior quality. Being a mountain
 stream it is throughout its whole
 course very rapid, averaging five feet
 per second, and falling at the rate of
 70 to 100 feet per mile. The point
 where the supply is taken from is 6½
 miles up stream, at which place the
 river was carefully gauged and ascer-
 tained to be discharging at extreme
 low water an average of 450,000,000
 gallons per 24 hours. The system is
 being acquired by the city, and will be
 managed by a committee of the city
 council. A double service of main
 pipes is being laid, which will ensure
 an uninterrupted supply. The service
 throws over the highest buildings a
 very considerable distance.

President, Capt John Irving. Direc-
 tors, Sir J W Trutch, C. M. G.; R P
 Rithet, Thomas Earle, D M Ebarts.
 Secretary, J W McFarland. Chief
 Engineer, G A Keefer, C. E. Resident
 Engineer, H B Smith, C. E.

Vancouver Gas Co.—Office, 100
 Cordova street. Capital, \$150,000, in
 7,500 shares of \$20 each. President,
 G L Milne; Secretary-treasurer, C D
 Rand; manager, Walter Thomas.

**Vancouver Electric Railway
 and Lighting Co.**—Office, 313
 Hastings street. Capital, \$500,000 in
 5,000 shares of \$100 each. Chairman,
 T Dunn; secretary and treasurer, H T
 Ceperley. About four miles of track
 is already laid. Thompson-Houston
 system.

Vancouver Club—Lefevre block
 Hastings street, cor Seymour street.
 President, H Abbott; committee—J C
 Keith, J M Browning, F O Cotton, A
 St. Geo Hammersley, R H Alexander,
 R P Cook, C Sweeney; honorary secre-
 tary and treasurer, G R Major.

MERS OF THE

Co, JOHN IRVING,
Manager

COAL : COAL

The New Vancouver Coal Mining and Land Company, Ltd.

(Formerly the Vancouver Coal Company)

Are the Largest Coal Producers on the Pacific Coast

Nanaimo Coal **Southfield Coal**

(Famous Gas and House Coal)

(Steam Fuel)

New Wellington Coal

(Favorite House and Steam Coal.)

These Coals are Mined by this Company only and by
Union Labor.

THE NANAIMO COAL gives a large percentage of gas, a
high illuminating power, unequalled by any other bitumi-
nous gas coals in the world, and a superior quality of coke

THE SOUTHFIELD COAL is now used by all the leading
steamship lines on the Pacific

THE NEW WELLINGTON COAL is the favorite fuel for
domestic purposes. It is a clean, hard coal, makes a
bright and cheerful fire, and its lasting qualities make it
the most economical fuel in the market

The several mines of the Company are connected with their Wharves at
Nanaimo and Departure Bay, where ships of the largest tonnage are
loaded at all stages of the tide. Special despatch is given to Mail and
Ocean Steamers.

Samuel M. Robins,

Superintendent.

NANAIMO, Vancouver Island, B.C.

WEST

UNION STEAMSHIP CO'Y

Of B. C., Ltd.

Head Office and Wharves:
VANCOUVER, B.C.

Vancouver and Nanaimo—S S CUTCH leaves C P R wharf daily at 1 p m, returning from Nanaimo at 7 a m. Cargo at Company's wharf until noon

Vancouver, Comox and Northern Settlements—S S COMOX leaves Company's wharf every Monday at 2 p m for Comox direct, returning from Comox Tuesdays at noon. Leaves Company's Wharf every Wednesday at 11 a m for logging camps, settlements and Comox, returning from Comox on Friday at noon via same route.

Vancouver and Moodyville—S S SENATOR leaves both points every two hours

Steamers and Scows always available for Excursion, Towing and Freighting Business.
 Ample storage accommodation on Company's Wharf.

LARDEAU CITY

Situated on the north-east arm of the Upper Arrow Lake, is the gateway of the most promising mining camps of the famous West Kootenay District. The Fish Creek, a magnificent mineral region named after a creek of the same name which flows through it and Lardeau City into Arrow Lake, has besides its rich mineral resources, vast forests of Ash and Timber; also excellent stretches of rich bottom lands and hay meadows. The Lardeau mining camps are all tributary to this point with their rich ledges of argentiferous and auriferous metals. Few places in West Kootenay, or the Interior for that matter, have the natural advantages and great mineral resources of Lardeau City, it being the supply point for this vast and excellent mining region. There is communication by steamer from Revelstoke distance 40 miles. A branch railroad will be built from Revelstoke to Arrow Lake which will give this important point communication at all seasons of the year.

NEW WESTMINSTER.

The Royal City of the Pacific Coast and the head-quarters of the salmon canning industry, with a population of about 9000; is situated on the north bank of the Fraser River, fifteen miles from its mouth, the most important river of British Columbia. It is the great waterway which reaches from the Rocky Mountains to the interior, and in its course to the ocean flows through some of the richest gold mines and most fertile agricultural lands on the continent. New Westminster is the only City on Fraser River, and is, therefore the distributing point and place of export for all the commerce which the river and adjacent territory produce. Besides possessing the advantages of its situation on the river, New Westminster is well supplied with other commercial avenues. The city is easy of access from all parts of this territory, by railway, steamer or wagon road. The Fraser flows through the finest agricultural and timber lands anywhere to be found, and no other medium can compete with water in point of cheapness for the purpose of transportation, the Fraser gives New Westminster a substantial advantage in this respect over any other City in the province. It is, therefore, one of the most desirable points, for both trade and manufacturing.

It is the freshwater terminus of the Canadian Pacific Railway, and through passengers over that road, destined for Victoria or points beyond, may choose between the Burrard Inlet route, via Vancouver and the Fraser route, via New Westminster, the latter being shorter by about twenty-five miles. It

is also the western terminus of the Great Northern Railway, which reaches it over the New Westminster Southern a road constructed by the energy and enterprise of its own citizens. By means of this new road New Westminster is brought into direct railway communication with Seattle, Tacoma, Portland, San Francisco and the whole American railway system, east and south.

Regular steamboat communication is established between this City and Victoria; to Nanaimo and Vancouver; to Ladners and the settlements on the south arm of the Fraser, daily; to Portland, weekly. An electric tramway connects the city with Vancouver, and the distance between the two cities (12 miles) is covered in an hour. Another electric tramway to connect the city with the magnificent farming lands of Lulu Island, is also projected.

As New Westminster is the most centrally situated and easy of access from all parts of the Province it has been selected as the site, for several important Provincial Institutions. Here are situated the Provincial Penitentiary, Provincial Lunatic Asylum, the Provincial Central Prison for the mainland, and the County Court House. There is also a Postoffice in the east end known as Sapperton; also a Public Library, the building for which is the finest and most complete of its kind west of Ontario. The Y. M. C. A. have also a very handsome building, and is fitted up with all the modern appliances. Both this and the Library building are lighted throughout by electricity. The city has also

a cathedral, opera house, several public halls and three first-class hotels. In addition to the Public Library already mentioned, there are libraries and reading rooms in connection with the Church of England, Church of Rome, and the Y. M. C. A. The city is well supplied with churches, schools, hospitals and various benevolent societies.

During the past few years the city corporation has undertaken a number of large and important public works, some of which it has completed, and others are in course of construction.

There are several large salmon canneries within easy reach of New Westminster. These establishments represent and invested capital of \$500,000, they employ over five thousand men during the fishing season, and pay out over \$400,000 a year for supplies. This is one of the most important industries of that region. Lumbering operations are also extensive and profitable.

Ward Limits and Representatives.—Ward 1. Aldermen—Jas Beer and Thos Levi. All that portion of the city lying west of the middle of Thirteenth street, and also Poplar Island, and the reserve on the eastern end of Lulu Island included within the city limits.

Ward 2. Aldermen—A. M. Herring and W. A. Duncan. All that portion of the city lying between the middle of Eighth street and Thirteenth st.

Ward 3. Aldermen—T. R. Pearson and M. Sinclair. All that portion of the city lying between the middle of Eighth street and the middle of Fourth street, and a line being the northeasterly boundary of Fourth street produced to Fraser River.

Ward 4. Aldermen—T. G. Gifford and H. Elliott. All that portion of the city lying between the Third Ward and the northeasterly boundary of Queen's Park, and a line being the said northeasterly boundary of said Park produced to the northwesterly boundary of the city and to Fraser River, also that certain parcel of land on the south shore of said river included within the limits of the city.

Ward 5. Aldermen—Geo McKenzie and Jas. Rousseau. All that por-

tion of the city lying between Ward 4 and the easterly limits of the city.

City Limits—Commencing at a point on the right bank of the north arm of the Fraser River, the southwest boundary of suburban block nine (9); thence northwesterly along the centre of the street which forms the westerly boundary of suburban blocks nine (9) and twelve (12) to the centre of the street which forms the northern boundary of suburban lot twelve (12); thence in a northeasterly direction along the centre of the street which forms the northerly boundary of suburban block twelve (12), fourteen (14) and four (4), and its production to its intersection with the Brunette River; thence in a southerly direction, following the right bank of the Brunette River, to a point of suburban lot 7, block 8, would intersect the said right bank of the Brunette River; thence in a southerly direction and the easterly boundary of the said lot 7, block 8, to the right bank of the Fraser River; thence southerly along a prolongation of said easterly boundary of said lot 7, block 8, to a point 350 feet below high water mark; thence, following a line parallel to the above lines of said right bank of Fraser river, to a point 350 feet below high water mark, and on the production southerly of the centre of the street forming the westerly boundary of suburban lots nine (9) and twelve (12); thence, in a north-westerly direction to place of beginning. Also all that other piece or tract of land as follows:—Beginning at a point at which the west line of lot 4, group 2, New Westminster District, produced northwardly, intersects the southern boundary of the city of New Westminster, and thence southwardly along the said west line of lot 4, produced, and the said west line of lot 4, distant three chains from the southern shore of the Fraser river; thence eastwardly and at right angles to the said west line of lot 4, thirty chains, more or less, to a point on the east line of lot 2, group 2; thence northwardly along the east line of lot 2 to the southern shore of the Fraser river; thence westwardly along the said shore line of the Fraser river to a point on the west line of lot 2; thence

 T. C. Atkinson. Chief of Police, Wm.
 Huston. Sergeant, John Cartv. Lock-
 up Keeper, A. G. Smith. Constables,
 Thomas Domin, John Douglas, D.
 Box, James L. McInnes, M. Dilla-
 baugh, Robert Harper, W. Miller.

Water Works Department.

Engineer, A. E. Hill, C.E. Water
 Commissioners—J. C. Armstrong, W. A.
 Duncan, Geo. Turner, C.E. The source
 of supply is Coquitlan Lake, about 435
 feet above high tide level, and distant
 about 14 miles. The works have been
 constructed by the City, at an esti-
 mated cost of \$380,000. The main is
 to be riveted steel pipe, and the dis-
 tribution system cast iron pipe.

Fire Department.

There are three fire halls, No. 1 on
 Columbia street opposite Lytton
 Square; No. 2 on Royal avenue, near
 Sixth street; No. 3 on Front street at
 foot of Begbie street. The appliances
 consist of one steam fire engine, one
 chemical engine, one hand engine, one
 hose wagon, hooks and ladders, three
 teams fire horses. The steam ferry is
 also supplied with a powerful steam
 pump with hose always ready for fire
 purposes. Chief of Fire Department,
 T. Ackerman; Assistant Chief, W. H.
 Vianen; Engineers, Jao Kelley and
 Jao Watson; Assistant, Jas. Croll;
 Drivers, Jas. Hamilton, Jao Watson
 and J. Logan; Hosemen, E. Noble and
 seven call men.

Electric Light Department.

Electric Light Station, Tenth street,
 near Agnes street. The works were
 constructed and are being operated by
 the City. Cost, \$60,000. There are
 three dynamos in operation, 83 street
 arc lights of 2,000 candle power each,
 and 790 incandescent lights. There
 are 23 miles of arc wires on the streets.
 Another 1,500 lamp incandescent dy-
 namo has been put in, with additional
 machinery.

Ferry Department

The steam ferry boat Surrey was
 constructed and is operated by
 the Corporation across the Fraser
 River from the city to Surrey. Cost,
 \$24,000. The ferry runs from 6:30 a.
 m. to 7:30 p.m.; Sundays, 9:30 a.m. to
 7:30 p.m. Fare, 10 cents.

Library Department

The Public Library and Reading
 Room was erected by the City at a
 cost of \$25,000. It is managed by the
 following commissioners: Wm. Baillie,
 A. Morrison, Dr. DeWolf-Smith, Thos.
 Turnbull, A. Shepherd. The institu-
 tion is free.

 daily every hour.

**Westminister-Vancouver
 Tramway Co.**

The electric street railway of New
 Westminister, is not only a street rail-
 way, but is also a connecting link with
 the neighboring city of Vancouver.
 The company that built this tramway
 line between Vancouver and New
 Westminister was incorporated in the
 year 1890, with a capital stock of \$750,
 000. The work was begun in Novem-
 ber, 1890, and completed in August,
 1901. There are 14 miles of road con-
 structed, but the company anticipates
 adding to that according as the traffic
 demands. The power house is situated
 about three miles from Westminister
 in the way to Vancouver, and is at
 present equipped with two 150-horse
 power engines, two dynamos, 80,000
 watts capacity (in electricians' langu-

age), or equal to about 220 horse-power
 each, besides all the other necessary
 equipment for the running of a first-
 class road. The line is fitted up with
 40-pound steel "T" rails, and is running
 eight cars. Four of these are large
 and specially equipped with double
 trucks for the through service and
 have 50 horse power electrical equip-
 ment. Three of them are ordinary
 street cars with 30 horse power motors
 while the eighth is a baggage car and
 has 60 horse power motors. The of-
 ficers of the Company are: President,
 D. Oppenheimer; Vice-President, B.
 Douglas; Sec-Treasurer,
 Auditor, E. O. Jenks; Solicitor, J. A.
 Forin; Bankers, Bank of British Colum-
 bia; Directors, D. Oppenheimer, B.
 Douglas, H. V. Edmonds, S. Oppen-
 heimer.

New Westminister Gas Co.—
 President, J. Cunningham; Secretary,
 A. Smither; Manager, C. Jeffrey.

**The New Westminister and
 Southern Railway.**—New West-
 minister is most advantageously situat-
 ed as regards railway connections.
 The New Westminister and Southern,
 which is a part of the Great Northern
 coast system, extending from New
 Westminister to Blaine, the Fairhaven
 and Southern, extending from Blaine
 south to its connections with the Seat-
 tle and Montana; the Seattle and Mont-
 ana from that connection at Jarmin's
 Prairie south to Seattle, and the Port-
 land and Puget Sound railroad from
 Seattle to Portland. This road makes
 New Westminister the only point of
 importance in the Province of British
 Columbia having direct railway com-
 munication across the international
 boundary line, and thus forming close
 connection with the great trans-con-
 tinental railway systems of the United
 States. The Southern Railway, which
 was built by the enterprise of the
 citizens of New Westminister, is of sub-
 stantial benefit to the city and country
 generally.

Clubs.

WILLIAMS' B. C. DIRECTORY LTD

THIS BOOK

: : : CONTAINS : : :

Over 1,000 Pages.

If you want a complete compendium of information regarding all matters relating to British Columbia, you cannot do better than subscribe for the well-known WILLIAMS' DIRECTORY for 1894, which, like the Province, becomes more important year by year, and should find a place in every Office, Library and Reading Room throughout the Dominion.

++ + + + + +
