

## Fire in Ald. Wickett's Tannery Completes Destruction of Building And Causes a Loss of \$100,000

Damage Was Estimated by Mr. Craig, One of the Owners, and is Covered by Insurance—Valuable Machinery and Hides Burned and Four-Storey Building Completely Guttled—Firemen Fought Against Fierce Heat and Some Had Narrow Escapes.

One of the most spectacular and at the same time most fires to fight which have occurred this year in Toronto, broke out at 11:40 last night in the top floor of the tannery owned by Wickett and Craig, Limited, situated on the Don Esplanade, at the corner of Eastern avenue. Before the fire was extinguished at an early hour this morning, the entire centre portion of the building had been destroyed, and valuable machinery, the entire stock of leather and chemicals were consumed, and a house nearby, occupied by Mrs. Wm. J. Archer, her mother and three children, was threatened with destruction.

The loss will amount to at least \$100,000, covered by insurance. One hundred men will be out of work until the building is repaired. Policeman Oxland (62) was patrolling his beat on Eastern avenue when he saw the flames burst from the roof of the centre portion of the building. He was on a bicycle, being acting patrol sergeant. He heard the fire whistle at the factory, and as it is blown only in case of fire, he at once went to the nearest fire alarm box, at the corner of Eastern avenue and the Esplanade, and rang in an alarm.

The firemen from Berkeley street station were the first to arrive, and at once it was seen that the fire would be hard to fight. The mansard roof was blazing fiercely, and a general alarm for the sections in the eastern district was run. Fire Chief Thompson and Deputy Chief Noble were on the scene a few minutes after the first reels arrived and took charge of the operations.

The fire started in the chemicals stored on the top floor of the four-storey building, and used for treating the leather before it is tanned. It spread very quickly. The leather, piled in heaps on the third and fourth floors, was soaked with oil, and thus burned very fast. The flames leaped up the elevator shaft and burst thru the roof in a red glare which could be seen all over the eastern end of the city. The firemen, handicapped as they were by the intense heat, soon were on ladders pouring tons of water into the burning building, at the direction of the chief and his deputy. The flames ate their way thru the roof, and soon the crashing of heavy burning timber warned the firemen that it was dangerous to remain too near the building. Firemen George Ellis of Lombard station was on top of the extension ladder with a line of hose, and to his good work is accountable the fact that the flames did not spread any farther.

Horses Were Saved. Immediately east of the Wickett & Craig tannery is a city stable, in which forty horses were housed. As soon as the fire was discovered a rush was made by nearby residents and men in the other factories contiguous to the burned building to release the animals, which were all got out safely. The watchman and engineer in the tannery awakened several people who were asleep in the houses on Eastern avenue, and with their assistance two or three lines of private hose were turned on to the Taylor soap factory, south of the tannery, and the bark and lumber houses thus were saved. The machinery on the third and fourth floors was totally destroyed, or so badly damaged as to be unfit for further use. What is left standing was so badly warped by the heat that it would have to be completely rebuilt, and that portion of it that is destroyed is lying in a useless heap on the first floor, where it fell thru when the third and second floors gave way.

Family Escapes. When the flames burst thru the roof of the building there was a rush for the open air by Mrs. Archer and her mother, who live in a house not a hundred feet from the building, and directly across the street. Mrs. Archer and her mother were just about ready to retire, and the three children were asleep. Fearing that the flames would jump across the street and set fire to their frame house, Mrs. Archer and some of the neighbors rushed all the furniture out of the rear door and across the roadway tracks. The three children, of course, were taken out first. Then the carpets were removed from one of the floors in the house, spread on the chders beside a row of freight cars, a mattress was placed on top, and upon it the two smaller babies

### Monument to Massenet

ST. ETIENNE, France, June 16.—(Can. Press.)—The City of St. Etienne has decided to erect a monument to honor the memory of Jules Massenet, the famous French composer, who died in Paris last summer. The movement is being supported by some of the best known musicians, artists and statesmen of the French Republic, and copies of the appeal are being sent out by the French city where Massenet was born.

## CANADA NOT TO HAVE OPEN DOOR

Countervailing Duties to Be Imposed by United States on Natural Products.

WASHINGTON, June 16.—(Can. Press.)—The much mooted agriculture schedule of the Underwood tariff bill was suddenly upset again by the majority members of the senate members of the committee today, when a motion was made to reconsider action taken earlier in the day approving the free listing of live stock and wheat, subject to a countervailing duty.

The proposal now is to strike out the provision for a countervailing duty and leave cattle, sheep, hogs and wheat on the free list until restricted. Members of the committee said tonight that this would be done.

The house put four and meats on the free list, leaving live stock and grains dutiable at ten per cent, and valorem and ten cents a bushel, respectively.

A Countervailing Duty. The senate finance sub-committee, soon after receiving the schedule, agreed to equalize the rates and eventually voted to make the raw materials and the finished products all dutiable. No sooner had this conclusion been reached than Senator Simmons' and other Democratic members of the senate determined that the problem would not be settled rightly if settled that way.

They were of the opinion that all things that enter into the cost of living should go to the free list. Senator Simmons communicated this information to the sub-committee and it reconsidered its action, placing all these products on the free list. Later it was announced that the committee would add a countervailing duty clause, which would make the products free only from countries which did not make them dutiable from this country. This would operate against the free entry of live stock from such countries as Canada and the Argentine.

The committee today further enlarged the free list by voting to take flax, hemp and ram from the dutiable list.

## BRUCE'S INJURY RESULTED FROM HEAVY BLOW

Doctors Testify That Man Had Apparently Been Hit Over Head and Body Thrown In to River—Inquest Adjourned to Allow Gathering of Further Evidence.

GALT, June 16.—(Special.)—Although a coroner's jury still has the case before it with some twenty witnesses to examine, the consensus of public opinion in this community is that Chas. Bruce, whose body was found floating in the Grand River, was a victim of foul play. So strongly are the authorities impressed with the gravity of the case, that William Greer, of the provincial detective department, has been assigned to investigate and was here this evening at the adjournment of the inquest.

The court room was filled to overflowing when Dr. Radford, coroner, opened the proceedings. M. A. Secord acted for Crown-Attorney Bowby and examined at great length the two medical witnesses who with John Bruce, brother of the dead man, were called, an adjournment being ordered until Wednesday at one o'clock.

Heavy Blow on Head. Dr. Dakin read his report of the autopsy. He said there were two severe scalp wounds, beneath which was discovered a fracture of the outer shell of the skull, and a cut and contused wound on the right temple. They apparently had been inflicted by some blunt instrument. The testimony as to there being no water in the bronchial tubes, lungs or stomach of Bruce, indicated that either death or insensibility had preceded submersion of the body.

Dr. Virdam, associated with Dr. Dakin in the post mortem, corroborated strongly the evidence of the surgeon. In his opinion the man had either been dead or stunned before submersion, and the wounds had been inflicted with some implement wielded with force.

Conflicting Stories. It is understood that the adjournment is at the request of the provincial officer backed by Mr. Secord.

Meantime, "Coo" Gerrard, the man on whom Bruce's watch was found, is being held on the nominal charge of larceny. Wm. Spain, a witness in the case, is understood to have a story varying from that told by Gerrard in accounting for the possession of the watch. Several witnesses have spoken freely to The World, two of them being young men whom "Coo" Gerrard requested to come with him and help keep a "drunk" from falling into the hands of the police. This man was about at seven p.m. on Saturday. The "drunk" was James Bruce, and he was led away from the C. P. R. subway after having come down from Preston to a point further down the river.

The intoxicated man had a flask and his companions helped themselves to its contents. What happened afterwards remains to be disclosed.

### DROWNED IN CHIPPEWA CREEK.

NIAGARA FALLS, N.Y., June 16.—(Special.)—William Storey, a waiter, was drowned in Chippewa Creek last night when a canoe containing Storey, Bernard Waltz and Gordon Scott overturned. The young men attempted to change places and the crazy craft upset. The body was found today.

## DEATH AND HAVOC FROM STORM IN QUEBEC

Huge Shed, Tossed About by Wind, Crushes Man's Life Out at Montreal—Military Camp at Three Rivers is Hit by Small Cyclone.

MONTREAL, June 16.—(Can. Press.)—Harold Lindsey, 21 years of age, was crushed to death early tonight when a wooden shed 250 feet long and 20 feet high was blown from its foundations during a fierce wind and hail storm. The storm lasted for half an hour, and was one of the most severe in recent years, but the damage done to poles and wires was comparatively small. Along the lake and river shore the threatening signals drove all craft into shelter, and no loss of life is reported. The ferry boat plying between the Indian town of Caughnawaga and Lachine was caught in the middle of the river and had to anchor until the storm abated.

### MILITARY CAMP SWEPT.

THREE RIVERS, Que., June 16.—(Can. Press.)—The City of Three Rivers and the military camp of the Montreal Infantry regiments here were visited by the worst thunderstorm in years late this afternoon. More than half the camp was leveled to the ground. Supplies and bedding were strewn about and thoroughly water-soaked.

In the town the power wires are down, and no light is promised for two days. The roof of the Dominican convent was blown off, and many houses suffered similar treatment from the wind, which blew with hurricane velocity.

### Snapped Like Matches.

In the camp the evening meal had been spread out on the tables in the mess tent. Almost with the first full blast of wind the tent pegs sprung to the strain on the canvas, and ridge poles snapped like matches. The tent collapsed, burying everything beneath it. Although efforts were made to stem the tide of destruction, the storm had practically spent itself before an organized effort in this direction could be made. The officers suffered most, and were obliged to come to Three Rivers for their evening meal. No injuries of a serious character were reported, although several of the men were bruised when caught beneath falling tents.

## SAVED FROM BURIAL IN POTTER'S FIELD

New York Authors Defray Funeral Expenses of Angus Hamilton.

NEW YORK, N.Y., June 17.—Thru the good offices of Richard Harding Davis, acting with Governor Morris and other authors, the body of Angus Hamilton, stepson of Pliner, the great English playwright, has been saved from burial in the Potter's Field.

Since last Friday afternoon, when the London war correspondent, lecturer and author killed himself in the Hotel St. Louis, his body has remained at the morgue and would have gone to city burial grounds. The clan of war correspondents and authors got together and a plot in Evergreen Cemetery was picked.

## SEEKING TO SAVE HIS CHUM YOUNG FRENCHMAN MEETS DEATH WITHIN FEW FEET OF SAND BAR

### Valuable Books Mutilated

CAMBRIDGE, Eng., June 16.—(Can. Press.)—Three hundred volumes, many of them valuable, belonging to the library of St. John's College, have been mutilated. Indications point to the suffragettes as responsible for the vandalism.

Harmadous L'Archeveque, Thinking His Companion Was in Danger of Drowning From Capsized Craft, Swam Out to His Rescue and Sank in Seven Feet of Water.

Shouts from his companion, which he mistook for cries of distress, lured Harmadous L'Archeveque, aged 26, to his death at the island sandbar late yesterday afternoon. Bent on rescuing his chum, who he thought was drowning, the young man plunged into the water, and calling out, "I am coming," sank. The chum, not understanding L'Archeveque's words, swam out a little farther. Realizing then that he alone was above the surface, he reached shore and secured assistance. Although the body was recovered within 30 minutes, artificial respiration methods were applied in vain.

## HYDRO SERVICE TIED UP FOR FIVE HOURS

Trouble on Line Between Dundas and Port Credit Plunged City Into Almost Complete Darkness and Caused Inconvenience to Thousands of Citizens Last Night.

Trouble on the Toronto hydro-electric lines between Dundas and Port Credit plunged Toronto into almost complete darkness last night. A heavy electric storm passed over the country between Niagara and Toronto, and although the hydro has been remarkably free from breakdowns on account of having every modern appliance for controlling and directing the current, the storm played havoc with the wires at this point and caused a break at 4 p.m., which was not located until about 9:30, the power being turned on at 9:37 p.m. Many accidents were narrowly averted by motor-car drivers and motor-cyclists, and it was only by driving slowly and with great precaution that some drivers did not run into wagons and bicycles which had neither head nor rear lights, and which loomed up in front without warning.

A heavy dray came on to Shuter street, near Church, and gave the driver of a motor-car a scare, as he was almost hitting it, and it was only his quick work in shutting down the power and applying the emergency brake of his car which saved him from a collision.

Hundreds of homes were unfortunate in having to trust to the hydro-electric alone for light, and in many cases lamps which have not been in use for some time had to be re-set. It was a great detriment and handicap to business men who use the hydro service both for power and light.

### Factories Hard Hit.

The greatest inconvenience was caused to the city manufacturers. They were much out of pocket as a result of the service difficulties. When the power went off shortly after four o'clock in the afternoon the entire plants of scores of factories in the city were thrown out of commission and work had to be suspended. After a long wait many of the employees were sent to their homes, while others, more eager to put in full time, stood around the machines in the hope that the power would again be turned on.

At this particular season of the year the factories are, as a rule, very busy, so that the trouble occurred at a very inopportune time. Some of the factories were fortunate enough to be able to place their employes on hand work. The larger and more modern manufacturers were absolutely forced to suspend operations.

After business had been practically at a stand-still for five hours and the city streets had been veiled in darkness, the city was flooded with a bright radiance and the hydro-electric once more placed Toronto in a position to take up the train of work where it had been severed.

### Bad for Hair, Head, Health.

All hard hats are called in. Hard hats are out of season, as well as out of style. They are out of both style and season, because the heavy hat is uncomfortable in hot weather. Many people scoff at style, but in men's hats the dictates of fashion are really sensible. It is bad for the hair, bad for the head and bad for the health to wear a heavy hat in hot weather. Most particularly when you can get a good summer hat for less than a heavy hat costs. \$1.50 up—for summer straws. The largest assortment of English made straw hats in America. Dineen's, 140 Yonge street. Also Dress Suits, Cases, Club Bags. Hat Boxes, Umbrellas, Raincoats. Established 1864, Yonge street corner Temperance.

### Walker Prostrated.

How the real accident occurred is very difficult to determine, owing to the prostrated condition of Walker. He has, however, been able to give meagre details as to the tragedy. When about 60 feet from shore Walker slipped off the sailboat and began splashing about. In some manner the boat tipped. L'Archeveque shouted, and in his underclothes sprang into the water. He swam 30 feet and sank in 7 feet of water. Mrs. McLean, at 23 Western Sandbar, telephoned Captain Frank Ward at the life saving station. Ward dispatched the Ruth to Scott street to secure a pulmotor from the Toronto Electric Light Company. He set off at full speed in the Patricia for the sandbar, and arrived seven minutes after receiving the call. The body was recovered by him just as the pulmotor arrived. The victim could not be revived. The body was removed to the morgue, where an inquest will be held.

## GUELPH WITHOUT POWER SERVICE

Tie-Up Followed Severe Electrical Storm—Street Cars, Factories and Newspapers Suffered.

GUELPH, June 16.—(Special.)—One of the severest electrical storms ever known here raged this morning from one to three. In the city the only damage done was to the high chimney at the Raymond Sewing Machine factory, which was struck by lightning and some of the brick work torn out, which crashed thru the roof below. The hydro-electric power which was off intermittently all morning was entirely shut off at 3:30 p.m., stopping street car traffic and many plants from operating, among them the local newspapers, which were not able to print until late in the evening.

The fine large barn of John Laird, in Guelph Township, on the York road, was struck about 2:30 a.m. and completely destroyed by fire. Two calves and a colt were killed, and a great quantity of hay and grain went up in smoke. The damage is only partially covered by insurance.

### Berlin Also Hard Hit

BERLIN, Ont., June 16.—(Special.)—Hydro power was off for five hours today and the evening papers were unable to publish their usual editions.

## DEATH LURKED IN PIPE STEM

## Baby Sucked at Father's Discarded Meerschaum and Died From Nicotine Poisoning.

### Special to The Toronto World.

SOUTH NORWALK, Conn., June 17.—A discarded pipe was given as a plaything to a child here today, and an hour later he was dead of nicotine poisoning.

The victim was Harold, aged 2, son of Mr. and Mrs. Nathan Thornfield of New York, who had been spending a few days with Mrs. Thornfield's brother, Harry A. No-nember. While the two wives were rummaging among keepsakes in the attic an old meerschaum pipe was found. Little Harold cried for it, and the mother, having no suspicion of danger, gave it.

Sitting on the floor and clapping his hands, the child imitated his father, inserting the pipe in his mouth and puffing off imaginary smoke. Within ten minutes he toppled over in convulsions, which shortly gave way to coma.

## PARTIES PREPARE IN E. MIDDLESEX

Dr. Routledge May Again Be Liberal Candidate—Two Conservatives Already Named.

### LONDON, June 16.—(Can. Press.)

Candidates for the vacancy in East Middlesex, in the house of commons, consequent on the death of Peter Elson, M.P., are already being discussed.

It was stated today that Dr. Routledge, whom Mr. Elson defeated by over 600 votes in September, 1911, and who has three times been defeated in the riding, might again come forward as the Liberal candidate. There seems to be a considerable dearth of candidates upon the Liberal side, probably due to the recognized Conservative leanings of the constituency. Ald. S. F. Glass and Captain Tom Robson are prominently mentioned upon the Conservative side.

WELLAND CANAL IS AGAIN OPEN

Damage Done in Steamer's Collision With Lock Has Been Patched Up.

ST. CATHARINES, June 16.—(Special.)—Traffic on the Welland Canal, delayed since Sunday morning by the carrying away of four gates at lock one by the steamer Porter, was resumed at 10 o'clock tonight. The new gates were placed this morning at 4 o'clock, but boats were obliged to wait for the big lower level of the old canal to rise as well as the level now used for navigation. Weakness of the walls separating the two canals at Port Dalhousie made this necessary.

HEAVY DAMAGES ARE AWARDED TO INDIAN

BRANTFORD, June 16.—(Special.)—H. D. Staats, a Six Nation Indian, who was injured on Sept. 13 last while in the employ of the C.P.R. as a brakeman, was granted \$17,000 out of the \$30,000 damages asked. Staats was one of a switching crew on the day in question and when he got off an engine to go back to the depot on business, the train backed up unexpectedly and struck him. He lost all his fingers excepting one on his right hand; his left leg and right heel were taken off and he also received a scalp wound reaching from ear to ear around the back of the head.

RAILWAY HAS TROUBLE IN ACQUIRING PROPERTY

BRANTFORD, June 16.—(Special.)—There are five outstanding properties wanted by the Lake Erie and Northern Railway, all of which are along the river front on the northwestern limits of the city, which have not yet been secured. The five properties are those of Col. M. F. Muir, Joseph Stratford, L. S. Vanstratum, George Schulz and the golf links, and none of these has been secured by the Lake Erie, though an arrangement was arrived at whereby work could be done on with on the golf links, subject to the final of the arbitrators. No work has as yet been started, however. The owners are holding out for more money than the railway is willing to pay.

ROUND UP ALLEGED PICKPOCKETS

BERLIN, June 16.—(Special.)—Ten thousand people saw Barnum and Bailey's circus here today. The police staff rounded up four men, alleged pickpockets, who on being searched were found to have plenty of coin. Detective A. R. Boyd of Toronto, representing the Ontario Government, is succeeding in securing the men, and, along with Detective Huber, is keeping an eye on them.

FINE COUNTRY CLUB OPENED

GUELPH, June 16.—(Special.)—The formal opening of the Country Club's handsome residence and grounds took place this afternoon. A large number of guests visited the place and admired the comfortable and commodious residence, just completed, overlooking the River Speed, near Riverside Park, and the grounds, which have been well laid out, were duly inspected.

WOMAN ENDS LIFE AT GUELPH

GUELPH, June 16.—(Special.)—Ethel Clayton, an English woman about 20 years of age, committed suicide this morning by jumping into the Speed River at the rear of the water-works plant. The woman, who has only been in the old country for eleven months, was despondent. She posted a letter last night to the hotel proprietor stating that she intended to do away with herself. Men worked all day on the river with grappling irons, the body being located this evening. An inquest will be held.

FIRE AT BERLIN

BERLIN, Ont., June 16.—(Special.)—Fire tonight did a thousand dollars' damage to Pinder and Nelson's livery stables and the Merchants Printing Co.

DELLA FOX DEAD

NEW YORK, June 16.—(Can. Press.)—Della Fox, famous as a vocalist and musical comedy actress, died suddenly of acute indigestion in a New York sanitarium last night. The body will be taken to St. Louis for burial.

Summer Sailings, Niagara, St. Catharines Line.

Commencing June 17th, the "Dalhousie City" and "Garden City" will resume their full summer service between Toronto and Port Dalhousie, making connections at the latter point with the fast electric trains of the Niagara, St. Catharines and Toronto Ry. for Niagara Falls. These boats will leave the Yonge Street Wharf and will make four round trips daily, except Sunday.

Convenient boats will leave Toronto at 2:00 and 5:00 p.m. every Saturday so that passengers will reach Niagara Falls, Ont., at 8:10 and 8:30 p.m. respectively. Returning a train leaves the Falls on Monday at 6:40 a.m. for Port Dalhousie, ensuring arrival at Toronto at 10:30 a.m. thus constituting a delightful week end trip.

A really serviceable booklet has been issued by the Canadian Northern Passenger Department, entitled "The Niagara, St. Catharines Line," which covers this scenic route through the wide flung garden of the Niagara Peninsula to the awe inspiring majesty of the Falls. Other publications are "Week End Fares from Toronto" and a handsomely illustrated map.

CONFERENCE AGREES TO SELL "DEBORAH"

'Twas Not Famous Play, However, But Church in Owen Sound.

"Deborah" came before the Toronto Methodist Conference twice yesterday afternoon, once in a resolution endorsing Rev. John Coburn's recent efforts, the other in giving consent for a church property in the Owen Sound district to be disposed of.

"Shall we sell Deborah?" asked President Watch. Laughter accompanied the assenting vote.

Rev. J. Bryce of Earlescourt was prostrated by the heat in the Central Methodist Church yesterday afternoon and could not give the report, for which he was scheduled, respecting social service work.

The Conference Laymen's Association report was heard in its place, and it vigorously endorsed the citizens' committee and Rev. John Coburn. The report as adopted said: "That this Laymen's Association of Toronto Conference desires to express its appreciation of the campaign now being waged in Toronto by certain public-spirited citizens in behalf of public morality.

"We approve of the action of Rev. John Coburn, a member of this conference, in seeking to bring to justice purveyors of public indecency thru the medium of the stage. We assure our brother and those co-operating with him, of our sympathy and the support of all right-minded citizens.

"We deplore the fact that in a Canadian court of justice a citizen seeking to render a public service was subjected to indecent and insulting treatment at the hands of a prominent

king's counsel, without a word of rebuke from the presiding judge.

"We call upon our people to loyally support the authorities and citizens in their efforts to suppress vice in its many forms.

"We would also urge upon our ministers, as faithful watchmen, to sound a note of warning and seek to arouse the public conscience with regard to these matters."

The report of the committee on statistics gave a total church membership in the conference of 61,430, an increase of \$205 for the year.

The Trustees of the Toronto General Hospital announce in connection with the Opening Ceremonies of the new Hospital on College Street on Thursday next, that the buildings will be thrown open to the public for their inspection at 8 o'clock on Thursday evening. A cordial invitation is extended to the citizens to avail themselves of this opportunity of seeing the buildings. The bands of the Q.O.R. and the 48th Highlanders will be in attendance, and Hospital officials will be present to give information. The buildings will also be open to the public on Friday evening and Saturday afternoon of this week.

FIVE THOUSAND WILL ATTEND CONVENTION

Toronto will have to put in her best ticks at entertaining when the Ad. Clubs come for their convention a year from now. The Denver crowd is bringing a tribe of Indians, Atlanta will march behind a brass band of 80 pieces, and the Pilgrim Club of Boston is now hunting for a novelty. The Pacific coast will have its district convention at Vancouver and will load

the whole crowd on a train and bring it to Toronto.

The Texans have now started a special bank account for the 1913 convention, so that they may exemptify in Toronto the blowing of money.

Mayor Hocken expects 5000 delegates. He wants the convention to be held in Exhibition Park, where the delegates will feel that they are not far from paradise. Already he has planned to astonish the delegates with a parade and drill of the school cadets.

ALLOW CITIZENS TO BUY CITY STOCK

While in Baltimore last week Mayor Hocken became much interested in the plans there for selling city securities to the citizens. He will give his ideas to the board of control, and the result may be that Torontonians who have a little stake left by, and are drawing only 3 per cent. interest thereon, may have the opportunity to buy \$100 shares of city stock and receive a 1-2 per cent. interest.

FORGED TICKET CASE HINGES ON ONE WORD

In the case against William Crawford and E. G. Leaman, charged with issuing forged tickets for the Laurier meeting at the Arena on May 5 last, Crown Attorney Corley stated yesterday that their charge hangs on the one word "knowing."

An argument on this point will be heard in the police court next Wednesday, and it will then be brought out whether the men accused did use the forged tickets issued, or attempt to cause other persons to use, deal with, or act upon the same as if they were genuine.

LADY PAID FINE OF YOUNG OFFENDER

An unusual incident took place in the police court yesterday, when Edward Dahlstrom was fined \$5 for trespassing upon the property of the Conger Coal Company, and did not have the money to pay the fine. He looked appealingly around the court to see if he could find some friend to help him out of his difficulty.

A lady visitor who took pity on him, called out, "Can nothing be done for this young man? I will pay his fine," and immediately took out a \$5 bill and paid, receiving many thanks from the grateful man.

Modern Methods Are Favored In Civic Finance Matters

WICKETT'S REPORT ON FINANCES REFERRED TO TREASURY BOARD AFTER STORMY TIME IN COUNCIL

Church Made Petulant Attack on Ward Two Alderman, Characterizing Him as a "Long-Haired Intellectual Giant" Controller McCarthy Pointed Out That Reorganization of City Bookkeeping Was Necessary to Keep Pace With Times.

"I move that Mayor Hocken, Ald. Anderson and Ald. Wickett be a committee to investigate civic bookkeeping and report back if a reform is necessary," said Ald. Hubbard to the city council, "and that we give a vote of thanks to Ald. Wickett for his report upon civic financing."

"I ask for one untruth in my report," Ald. Wickett demanded. "You simply want to interrupt," Controller Church retorted, and refused to answer.

"I don't know anyone in the council who knows less than you do," Mayor Hocken fired back at Ald. May.

To Carry It In The Pocket The distribution of Gas Lighters and Cigar Lighters will soon cease. You cannot afford to be without one of these useful and necessary articles if you use gas in your house; they are ever ready, durable and clean, and enable you to effect a considerable saving in the cost of matches.

Hang one up beside your gas range or mantle light, and it is always ready—no groping for a match in the dark—simply place the Gas Lighter in the fumes of the gas and instantly it is alight.

THE SMOKERS' DELIGHT No longer will the hapless smoker traverse the wilds of New Ontario being dependent upon a box of damp matches. Carry one of The World's famous Cigar Lighters and always be equipped for a light. Contained in a small nickel case convenient to carry in the vest pocket; it is always ready, and with a small bottle of Aeme Spirit, with which to replenish the wick chamber, in your suit case, you can defy dampness, wet and cold. Secure one before you go for your holidays. Secure one before the offer is withdrawn. Forty-nine cents and six coupons out from consecutive editions of The Daily World will obtain one of these indispensable Cigar Lighters. For 39 cents and the same six coupons you can secure the Range and Gas Lighter. Distributed from The World Office, 40 West Richmond Street, and 15 East Main Street, Hamilton. By mail, 2 cents extra for postage.

A quick, harmless, painless way to remove unwanted hairs is to use a paste with a little delatone and water. This should be applied to the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed. This simple treatment banishes every trace of hair or fuzz and leaves the skin without spot or blemish. No harm can result from using the delatone treatment, but care should be exercised to see that you get real delatone.

Frequent application of pyroxin to the hair roots with thumb and forefinger will make them grow long, silken and curly, growth being due to the physical charms. Rubbing pyroxin on eyebrows makes them come in thick and always. The care and don't get any pyroxin where the hair is wanted.

white hat with pink roses and forget-me-nots. They carried bouquets of pink sweet peas and forget-me-nots. The groom's gifts to them were pearl and turquoise pins. Dr. Gillette of Toledo was best man.

Mrs. Langlois held a reception after the ceremony, wearing gray chambray.

Mr. and Mrs. Wright left later for a trip across the line before going to their new home in Toledo, the bride traveling in a gray tailor-made and hat to match.

The Loretto Alumnae luncheon for pupils and ex-pupils took place very successfully yesterday, when a daily luncheon was served at small tables, and an orchestra was in attendance.

At the close a business meeting was held and the following officers elected: Hon. president, Montreal M. Stanislaus; hon. vice-president, Mrs. Rooney; president, Mrs. Maloney; first vice-president, Mrs. P. Lawlor; second vice-president, Mrs. Sullivan; secretary, Mrs. Alma Small; financial secretary, Miss Bertha Boland; corresponding secretary, Miss Gertrude Kelly; convocation house committee, Mrs. Doan; convocation entertainers committee, Mrs. J. P. Haynes; convocation members' committee, Mrs. McLaughlin; convocation press committee, Miss Margaret O'Grady.

Mr. John Stewart and Miss Flora Stewart have left Ottawa on a motor trip to Toronto.

Mrs. R. F. Reid (nee Miss Lena C. Moore) will receive for the first time since her marriage, on Friday, June 20, afternoon and evening, at the home of Mrs. R. O. Reid, 71 Wilson avenue, Parkdale, Mrs. John Moore will also receive with her.

The engagement is announced of Florence Isabel, daughter of Mrs. Isabel Johnson, College street, to Mr. Gordon D. Campbell, eldest son of Mr. C. F. Campbell, Dupont street. The wedding will take place quietly the first week in July.

The assembly hall of Havergal College was filled to overflowing by the parents of the girls and the friends of the college, who were gathered for the annual prize distribution. The girls, dressed uniformly in white, made a most effective entrance as they trooped slowly up the centre aisle and ranged themselves on the raised platform at the end of the hall.

After the singing of the school hymn, "O God, our Father, God the Father," and prayer offered by Archdeacon Cody, H. Hoyle, the president of the college, spoke a few words to the guests.

Miss Knox spoke of the satisfactory results of the year, the growth of the school, and the excellent results gained by the matriculation form last year. The target ground has given fullest opportunity of developing out of door life of the girls, and the annexation of the Rutherford House, the Heighington House, has meant that they have been able to increase their numbers considerably.

She went on to speak of the progress of the Havergal school, an additional class is to be added next year for the elder girls, and another house has been taken into use to allow for the growth of the school, which already shows signs of quick development. Miss Knox dwelt upon the healthy effect of school life and the part it plays in molding the character of the girls. She touched upon the enormous value which individual girls have put upon the wide education the Scripture study which plays such a large part in their school lives.

The principal brought her speech to a close by thanking Dr. Hoyle and Mr. Millinchamp for their splendid support, and Mr. Cody for his interest and sympathy for the scholars as a whole and for the individual girl. The prizes were then distributed by Dr. Hoyle, after a few words by Dr. Cody, the school sang "O Canada," and the girls filed out of the hall. The guests assembled on the lawn, which was charmingly lighted by Chinese lanterns and fairy lights. Among the guests were: Archdeacon Cody and Mrs. Cody, the Rev. Canon and Mrs. Gould, Dr. and Mrs. Hoyle, Mr. and Mrs. Galt, the Rev. Lord Bishop of Toronto and Mrs. Sweeney, Mr. Macdonald and Mrs. Sullivan, Principal and Mrs. Aiden, Mr. and Mrs. Clark, Prof. and Mrs. Prof. and Mrs. Davidson, Mr. and Mrs. A. Huettis, the Rev. and Mrs. Cotton, Rev. Dr. and Mrs. Law, Miss Mowatt, Mr. and Mrs. W. R. Rowley, Mr. and Mrs. and Mrs. N. W. Rowley, Mr. and Mrs. Griffith Thomas, Mr. and Mrs. A. Brown, Principal and Mrs. Waller, Mr. and Mrs. Clark, Prof. and Mrs. Keys, Mrs. H. D. Warren, the Rev. and Mrs. Warren, Mr. and Mrs. Graham Campbell, Mr. and Mrs. Edgar, Mr. and Mrs. McPherson, Mr. and Mrs. Macdonald, Mr. and Mrs. Burrows, Mr. and Mrs. Scott, Mr. and Mrs. Horrocks, Dr. and Mrs. Primrose, Mr. and Mrs. Smallpiece, Miss Shiebo, Mr. and Mrs. Ritchie, Mr. and Mrs. Ballantyne.

Can a boy between two and three years of age eat all the fresh fruits, berries and vegetables that come in summer? Perfectly fresh ripe fruit may be given to children in small quantities if it agrees with them. Berries should be cooked and strained. Fresh green vegetables—except corn—are all good if they are very thoroughly cooked and mashed.

Will you please tell me if you advise slippers and socks for summer wear for baby when she is dressed up?

I do not advise slippers or socks for baby's wear at any time. Mind you, I think they look very pretty and dainty; but I do not think they should be worn. Long stockings and high shoes are the proper thing for growing children summer and winter.

Especially do little children need ankle support, and you say your baby wears them. Let me tell you what happened to the baby at our house when he was just that age.

The aunt, who knows all about babies—you've heard of her before—insisted that boots and stockings were uncomfortable for the wee man those hot, hot days last July. So when we started on our holidays we packed the hot things and put socks and putout slippers on the boy to make the journey. We arrived at our destination about two o'clock, and the child had half an hour's real comfort before bedtime. That cured me, the sunburned knees and tortured feet were sufficient to pack those socks and slippers in the bottom of the trunk where they stayed. After that, long stockings, light-weight cashmere, and corset shoes were the rule for play or dress up. Probably some children can wear these slippers without the tell-over on the foot; but from what I see, it is not the usual thing. The ankles need support until they are fully developed in size and strength.

The NURSERY CONDUCTED BY Elvira Murray. Questions and Answers

For some time I have been answering letters privately because the column is now written two weeks ahead of going to press, and I do not like to keep correspondents waiting that length of time for answers. However, when the answer is not urgent it can stand over for the regular column. I prefer to answer the letters this way, since the answer to one person may help another.

SPEND HOLIDAYS HELPING MOTHER. Archbishop's Advice at Closing Exercises of St. Joseph's College. EIGHT ARE GRADUATED. Musical and Vocal Numbers Were Finely Rendered by Students.

In spite of the high temperature which was doing its best to distract their attention the students of St. Joseph's College Academy broke into open laughter at the closing exercises yesterday afternoon when Rev. Archbishop McNeil began to lay down a program for the spending of their holidays. The girls who were being addressed were more than five hundred in number, and had just finished the presentation of a pleasant musical entertainment for which they had been rehearsing for a month or more.

When Archbishop McNeil began to speak of the holidays the girls one and all raised their heads in anticipation of something good. The Archbishop outwitted them, however, and did it so well that the girls could not keep from laughing.

"Engineering a cook stove and helping in the kitchen" was the program which Archbishop McNeil gave the girls for their holidays. "I have no doubt that you have earned your vacation," said the Archbishop, "beginning when we old people get our holidays—we like to rest, but for healthy young people like you there is nothing so good as a change of activity. For the past scholastic year you have been studying physics and chemistry and many other subjects, and now in your holidays I would advise you to see how much physics and chemistry is applied in the kitchen. There is a whole lot of science around the kitchen stove. When you go to your homes tell your mothers that you have been learning just how cooking should be done, and then turn in and give her a rest."

The present theatrical scene ever staged was rivaled by the scene which was presented when the eight graduates stepped to the platform at the beginning of the exercises. The eight girls wore graduating gowns of white silk and behind their backs the students, dressed in the black uniform of the college with white Eaton collars and seated in rows of desks, sang a chorus from the opera "The Barber of Seville" by Rossini. The girls were attended by eight little flower girls from the primary school, dressed in white, and carrying also dressed in white. The flower girls carried bouquets of white roses and lilies, and the girls carried bouquets of roses and peonies of many colors hung over the edge of the platform. The part of the program which was the most interesting was the singing of the "Good Bye" chorus from "The Barber of Seville" by Rossini. This number was sung with piano accompaniment by Miss Kathleen O'Connor, Miss Marie Jorie Power, one of the graduates, then gave the "salutatory" address, whereupon the graduates filed down from the platform and bent on their knees, while Archbishop McNeil placed the crowns upon their heads and presented them with their medals. This little ceremony was executed perfectly and the little girls conducted themselves as well as the graduates. Moszkowski's Concerto in E Major was then played by Miss Kathleen O'Connor on the first piano, and Miss Viola McNulty on the second piano.

The duet showed that Miss O'Connor is a master of both interpretation and technique, and that in playing she can get the fullest tone that can be produced. The next number, Chaminade's "A Harlequin" was the best on the program. This piece, whose melody resembles that of Robin Adair, is written in five parts, with soprano obbligato. The college chorus sang it unaccompanied with the girls falling in the pitch and this is the biggest compliment that could be paid to Sister Eiberberg, the conductor of the choir, who was just as much pleased with the singing of the girls as with the piano, and Miss Viola McNulty on the second piano.

What Piano Shall I Buy?

The Gourlay comes as the real solution to this important problem—musical pleasure and education in the home.

On the purchase of a piano depends permanent satisfaction and pleasure, or disappointment and regret. It is therefore an investment that requires most careful thought and investigation.

The thousands of Gourlay owners throughout Canada are the most enthusiastic supporters of the Gourlay tone-producing qualities. It retains its intrinsic value—winning true and sympathetic friends wherever it is played or heard.

The marked success which gives the

Gourlay Piano

a recognized place among the best grade pianos of the world, is based on detailed perfection of workmanship, and finest qualities of materials. Each stage of construction reflects the highest human skill in piano making.

The cost of manufacture has always been a secondary consideration—first and only thought being given to quality and perfect workmanship.

You can make no mistake if you buy a Gourlay. It kindles in the home a lasting happiness.

TUESDAY MORNING, JUNE 17

PUT THE PASSENGER BUSINESS UPTOWN.

The Canadian Pacific Railway are now double-tracking their line from Yonge street crossing up town eastward eleven miles over to Agincourt, where their new late front line to Montreal begins. This double-tracking involves the building of four new bridges across the two ravines in Rosedale and over the two branches of the Don. The excavations for the two largest of these bridges are now under way, viz. at the crossing of the West Don (at Leslie street extended) and the crossing of the main Don (at Woodbine avenue extended).

What The World cannot understand is why the Canadian Pacific having agreed with the Canadian Northern to join as far as the West Don does not take the new cut-off line of the Canadian Northern and use it jointly with their lake front line as far as Cherrywood in Pickering Township. Certainly much better results for these two lines, and for the Grand Trunk for that matter, could be received than by using the old C. P. line even when double-tracked and double-bridged east of the West Don. The Canadian Northern's new grade is away ahead of the old Canadian Pacific one.

Some time ago The World published a plan for the concentration of all the passenger business of Toronto at the north instead of at the water front, and along the joint trackage now being completed by the Canadian Pacific and the Canadian Northern, with a large terminal station in North Toronto between Avenue road and Yonge street. So far nothing has been done in the direction of this suggestion. Of the World's, the everybody who understands the situation is in favor of it. The World trusts that the railway authorities and the city authorities and the government at Ottawa will yet be able to get together and carry out a scheme of this kind. Instead of the one-sided scheme involved in an elevated trackage on the Esplanade at the front of the city. The uptown scheme would put the passenger business in the centre of population, would save forever a climb of 140 feet, would save three miles at least in distance, and leave the front of the city unimpeded by an unsightly bulk.

Now is the time to make the shift instead of deferring it until after millions have been wasted.

CALLING THE BLUFF

A day or two ago Secretary of the Treasury McAdoo announced that \$500,000,000 of emergency currency would be available if applied for. It was an announcement which came as a body blow to the money changers of Wall street, who were charging high rates of interest and creating a condition of panic by the claim that they had not sufficient money to meet legitimate demands of business. Since then according to The New York World:

"Call rates have fallen about one per cent. Time money, before it miserably supply at high rates, is now freely supplied at a substantial reduction in rates."

Wall street is not well pleased with the prompt action of the government and The New York Sun declares that the trouble has not been that money was tight, but that there was a lack of credit owing to world-wide conditions.

At any rate with another bumper crop in sight, the people of the United States are not likely to have their business opportunities hampered by the cry of "money famine" from the banks. If the banks need more money they can procure it from the government to the extent of \$500,000,000.

The so-called emergency currency of the United States is provided for in the Aldrich-Vreeland law approved May 30th, 1908. This law created the National Monetary Commission and devised a temporary plan for an increase of currency, which will be effective until June 30, 1914. This plan in a word provides for national banks forming themselves into a national currency association. With this association the banks may deposit U. S. bonds, state and municipal bonds and prime commercial paper. The association may then apply to the government for additional circulation, up to 75 per cent. of the securities held by the association in trust for the United States. There is a tax on circulation which varies with the collateral deposited, being only two per cent. a

year where the collateral is United States two per cents, and rising to the maximum ten per cent. a year, or one per cent. a month, where the collateral is commercial paper.

In practice the deposit will be in United States bonds and the circulation tax will be equivalent to the interest on the bonds paid by the government. In short, the national government is prepared to furnish currency to the banks at two per cent. interest, which they can lend to advantage to their customers.

Canada should have something of the same kind.

IN MR. HANNA'S BAILIWICK

We trust none of our readers have realized the difficulty of getting into an asylum or hospital for the insane, nor that they ever will experience the difficulty. Unfortunately our artificial methods of living, our vices, our failure to preserve the balance between our physical and metaphysical natures; and the tyranny that imposes on the individual, in competition with other individuals and society as a whole, the necessity of hoarding for a more or less indefinite future, tends more and more to upset the pole of the less normal constituted. There is a tremendous increase in the number of the mentally defective at any rate, and while we have been going ahead famously in the treatment of the weak-minded, and such institutions as that at Whitby mark a lofty standard of efficiency, there yet remains a notable blot in the method of committing the insane to the public charge. We are probably as far or further behind in this respect than any country with similar claims to civilization.

Week after week we hear of cases being brought before the police magistrate. It is not long since a prominent magistrate boasted on the bench that he knew nothing of psychology and did not want to know anything. The patient, as he or she were a criminal, is remanded to jail, and may remain there indefinitely, even though certified as a fit subject for hospital treatment, if accommodation be scanty elsewhere.

The object is or was praiseworthy enough, and is intended no doubt to prevent scandals that Charles Reade exposed in his celebrated novel. Under the old system inconvenient relatives were frequently hustled off to private asylums, which were little more than living graves. Between that extreme and the present extremity, Hon. Mr. Hanna should be able to adopt some means which would avoid the evils of both. There are cases where the sudden development of homicidal mania requires instant expert treatment which the police are not permitted to give, with the result that a maniac may be allowed to murder his whole family while no one can legally interfere. In such cases the law has been broken with great benefit, but there is no reason why the law should not be adjusted to fit the conditions that constantly arise. We ought to get away from the police court commitment.

RE-CENSORING THE CENSOR.

A commendable heart-searching has overtaken the "Committee of Forty." Intelligent members of that body who saw the performance censured by Rev. Mr. Coburn, must have felt that zeal and discretion do not always operate together. At any rate it appears that the committee is to be reorganized. The suggestion made by one of the members that an expert layman should undertake the work of censoring, if any censoring is to be done, is not without reason. But it contains in itself a slight on that expert layman, the present censor, appointed by the police commissioners. The "Committee of Forty," in fact, does not seem to think that the law of the land, or its execution is adequate.

FATHER MINEHAN WOULD PLACE THE ONUS ON THE MANAGERS OF THEATRES, BUT THAT IS EXACTLY WHERE IT IS AT PRESENT, AND THERE ARE NO MORE EXPERT LAYMEN TO BE FOUND FOR THE CENSOR'S PURPOSE.

They know what the public want, and they know that the general public does not want dirt. There is really more to be done in the direction of educating the public not to want dirt, which is the work of the church, than in trying to discover dirt and advertising its presence, which is the work of the "Committee of Forty."

Charles Dickens tells how he read Fielding and Smollett as a child without being aware of any uncleanliness in their pages. Men of the type of Rev. Mr. Coburn are unfortunately

THE SMALL DEPOSITOR

It is more and more appreciating the only convenience, but the advantages of a deposit account against which he may issue cheques. He is found that it lends a certain individual prestige, no one knowing how much may stand behind it. Again, it imposes a salutary restraint on personal expenditures, besides necessarily exposing their assets. The spending impulse is sometimes chilled by noting the contemplated purchase in black and white. Then, to many it brings a new joy in making the balance grow, an incentive to thrift itself before.

We welcome all such accounts, and allow compound interest. Three and One - Half Per Cent. per annum. One dollar opens an account.

precluded from such innocent amusement. Some eyes are so constituted that they see the coarser rays below the red, while others see the finer rays above the violet. Those who see below the red on the stage are, perhaps, honest in being unable to appreciate the vision of those who see beyond the violet. Most people, however, see the ordinary scale of color with tendencies neither morbid nor transcendent. It is to these the stage appeals. Stage standards should not, therefore, be set by morbid abnormal types, who are blind to everything from ultra-violet down till they arrive at their own octave of obscurity.

NORTH TORONTO CAR SERVICE.

The biggest anomaly in the city transportation service exists in what was formerly the Town of North Toronto. To reach the north limit of the city, Bedford Park, three fares are required, one on the city cars to the C. P. tracks, the street Metropolitan Railway to Glen Grove, and a third of two cents, from Glen Grove to Bedford Park. This is certainly taking all that the traffic will stand.

The matter should long since have had the attention of the mayor and been brought to the notice of the Ontario Railway and Municipal Board, which body should certainly act quick in remedying what is a palpable injustice. The Metropolitan Railway should, at the same time be required to extend their maximum local service to Bedford Park, and not as at present to Glen Grove Park. Who is the member of the city council public-spirited enough to take this grievance up and see the remedy effected?

POLAR EXPLORERS HONORED BY CITY

Dr. C. S. Wright Presented With Watch—Companion With Pin.

Dr. C. S. Wright, in his seat on the throne in the council chamber, carried off with a smiling countenance the honors of a civic welcome home from his expedition to the South Pole with the Capt. Scott party. With him was another of the Scott party—Frank Debenham of Australia, who was geologist on the expedition.

Mayor Hocken's address of welcome to Dr. Wright evoked the sentiments of the people of Toronto. He presented the honored guest with a gold watch, with engraved inscription. Mr. Justice Craig, for the Empire Club, presented Mr. Debenham with a tiptop of Lake Superior amethyst and a diamond.

Other addresses of welcome were given by President Falconer of the University of Toronto, Commodore Jarvis of the R.C.Y.C., J. R. Bone of the Canadian Club, Mrs. Jas. George of the I.O.D.E., and Rev. Albert Hall of the Antarctic Heroes' Ladies' Guild.

There are only five men who have done all this, and were heroes whom all may well envy. Dr. Wright said during his reply to the address of welcome. He referred to those who have given their lives in the search for the South Pole, Mr. Debenham also made a short address. Society was present in force and the ceremonies ended at 10:30 p.m.

AYRSHIRE ASSOCIATION.

The Toronto Ayrshire Association held their first picnic this season on Saturday, June 14, at Lambton, where 200 people enjoyed a grand day, and after partaking of a sumptuous repast, they had a ramble along the Humber. Toward the latter part of the evening the young folks enjoyed themselves dancing the real Scotch dances. Much praise is due to Mr. Dunlop, who had charge of all the arrangements.

BUSY DAYS.

If you're waking call me early, call me early, mother mine; rouse me from my weary slumber while the twinkling stars shine, wake me up in thirty seconds, 'twill not be a bit too soon, for I'm very, very busy changing wedding gifts in June. Place my raiment good and handy to my little trundle bed; ere the roosters start to crow, crowing crows to wake the dead, I must discontinue sleeping, I must hasten to arise ere pale Phoebus' shafts I've peeping thru the darkness eastern skies; I must hurry down to business, for the glimmer of the moon, there to change the wedding presents for the brides of Jerry King. All this month they'll keep as busy swapping divers sorts of wares—carving sets and butter dishes, bows and clocks and jartons, rings and eggs and bracelet watches, silver knives and forks and spoons, they have back to be seen curdling as in other busy Junes. When we're changing wedding presents we behold some curious scenes—I've been offered cut glass vases for a quart of Lima beans; oftentimes this month I've peeping thru the darkness eastern skies; I must hurry down to business, for the glimmer of the moon, there to change the wedding presents for the brides of Jerry King. All this month they'll keep as busy swapping divers sorts of wares—carving sets and butter dishes, bows and clocks and jartons, rings and eggs and bracelet watches, silver knives and forks and spoons, they have back to be seen curdling as in other busy Junes. When we're changing wedding presents we behold some curious scenes—I've been offered cut glass vases for a quart of Lima beans; oftentimes this month I've peeping thru the darkness eastern skies; I must hurry down to business, for the glimmer of the moon, there to change the wedding presents for the brides of Jerry King. All this month they'll keep as busy swapping divers sorts of wares—carving sets and butter dishes, bows and clocks and jartons, rings and eggs and bracelet watches, silver knives and forks and spoons, they have back to be seen curdling as in other busy Junes. SHIPPERS REALLY OWNERS OF CARS

So Railways Complain in Defending Demurrage Charges From C.M.A.'s Attack.

OTTAWA, June 16.—(Can. Press.)—That under present conditions a railroad could not call its cars its own was the statement made by Transportation Superintendent Crombie of the Grand Trunk Railway today when the railways commenced their argument against the adoption of average or reciprocal demurrage before the board of railway commissioners. Mr. Crombie pointed out that for three-quarters of its existence a car was in the shippers' hands.

Delayed Across Border. Mr. Crombie said the railways had been putting forth strenuous efforts since the beginning of the year to improve their service and that they had been more or less successful. He attacked the list of delays of shipments by the G. T. R. and said the delay was on the American side of the border rather than on G.T.R. lines. The road, he said, had been suffering for some time from the buying many new cars, and had built 84 additional miles of main tracks during the past year.

Shipper Real Boss. A railroad could hardly call its cars its own, said Mr. Crombie. It was under the jurisdiction of the shipper for the greater part of its life. He claimed that railroads had already all the incentive they needed to handle cars promptly.

This closed the argument on reciprocal demurrage, and Mr. Walsh, traffic expert of the Canadian Manufacturers' Association, then proceeded to explain the system of average demurrage also proposed.

By the average demurrage system the charge on all cars held for loading or unloading by shipper or receiver shall be computed on the basis of the average time of detention of all such cars released during each calendar month.

YORK COUNTY AND SUBURBS LIBERALS HELD ANNUAL PICNIC

Two Hundred Stalwarts Attend the Gathering at Scarborough Grove.

MACKENZIE KING SPOKE

H. H. Dewart and Other Prominent Liberals Also Gave Addresses.

Two hundred Liberals were present at a picnic given at Scarborough Grove yesterday afternoon by the Scarborough Liberal Association.

Hon. W. L. Mackenzie King, ex-minister of labor and future candidate for North York, was the last and most prominent speaker of the day. He reviewed the naval question and the stand of the two parties thereon, the action of the senate in throwing out the bill until passed by the people, and the probable future of the same legislation.

"We take the stand," said the speaker, "that Canada is now a big and growing country, and we don't like to hear men from England or any other place telling us we cannot build our own ships. We believe we can build anything that any other civilized nation can earth builds. The powers that be in the old had wanted to boss our army, wanted us to have a standing army controlled from England. To this Canada said, we will have our own army and boss it in our own country."

The Naval Policy. Premier Borden's naval policy, declared the speaker, was a policy outlined to gain favor with the French in Quebec, to whom the National Convention of Canada's premier as a man who did as little as possible for the old country, and that to discharge the obligation, and to win favor with the Ontario imperialists as a man who had saved the empire by voting \$25,000,000 to England. Now you've got to admit that that is going wrong," said he. This sum he figured out to be a direct tax of \$150 per average

Family for every family in the Dominion. G. Inwood, Liberal organizer for the province, was the first speaker. Providence, he declared, had seen it to give that riding a Conservative representative in both Provincial and Dominion Governments, but this deplorable state of affairs he hoped would be rectified in the next election.

George T. Hamsden, probable future Liberal candidate for Centre York, made humorous references to the Conservative party. The senate, he declared, had done a good piece of work in throwing out the naval bill, which, after all, they had only declared must be submitted to the people first. It was according to him, once in about 92 years that this body had anything really of importance to do, and this was one of the occasions, and they had done the right thing.

K.C. spoke at length on the naval situation, upholding the action of Sir George Ross and the senate. Liberal sentiment, he declared, was arising as never before, not only in Ontario, but throughout the whole Dominion, and at the next election he had no doubt but what Sir Wilfrid Laurier, the greatest living Canadian statesman, would once again hold the reins of power.

Prominent Liberals at the meeting were Ex-Controller Alfred Maguire, Dr. Sisley, W. D. Angus, James T. Stewart, McEwen, Corson, R. W. Resor and Edward Wilson.

BAIRD PARK ONE IN NAME ONLY

Nothing Yet Done Towards Improving West Toronto's Playground.

Several thousand citizens of ward seven enjoyed their first band concert of the season in Baird Park, Keele street, last evening. The concert was rendered by the band of the Royal Grenadiers, under the conductorship of Mr. J. Waldron. The park, however, as it now stands is hardly worthy the name.

The water pressure in ward seven last evening was very low, and citizens were wondering if a water famine were imminent, but towards 9 o'clock the pressure increased, and while not normal was sufficient to supply household and even the luxury of a hot bath on less than an hour's notice.

West Toronto now obtains its water from the former pumping station at the Hummer, and the increased pressure was due to the fact that the vast majority of citizens were using the hose on gardens and lawns simultaneously.

As Rappaport has taken out a permit for a moving picture theaterium and apartments at the corner of Gilmore avenue and Dundas street, the new building will cost about \$100,000.

The death occurred suddenly yesterday afternoon of Mrs. Elizabeth Charlton, wife of Thomas Charlton, of 147 Franklin avenue, in her 67th year. The funeral will take place to Prospect Cemetery this afternoon.

THOUSANDS SAW THE BIG SHOW

General Opinion Was That Howe's Has Improved in Every Way.

The not so stupendously gigantic aggregation as other circus that have passed this way Howe's Great London Show succeeded in furnishing two very sprightly seasons of entertainment at Dufferin Park yesterday.

Beautiful summer weather greeted the Masters Painters and Decorators' Association in their annual picnic at Bond's Lake yesterday afternoon.

IN THE RAIN AT CONNAUGHT PARK

But Not Until Five Races Were Run—Montreal Bets Make Coup.

OTTAWA, June 15.—The second day's racing of the Connaught Park Jockey Club passed off successfully. Rain came down in torrents towards the close of the afternoon's card, delaying the sixth and seventh races and driving the spectators to cover, but for the most part the weather was fine.

There were two big surprises during the afternoon. Head of the Montreal contingent, who had bet heavily on the favorite, Malament, won the third race, a selling event for three-year-olds, defeating Kay-derwood, Clinton and other good ones.

Malament opened at 7 to 1 and the Montreal victor was heavily on his feet. He won easily. The books got another jolt when John W. Schorr's Greenbrae carried off the juvenile purse at five furlongs. Requiem was the favorite, but Greenbrae, after closing at 10 to 1, won by a couple of lengths.

Malament won her second purse of the meeting in the first race and Jougull rewarded a large following in the fifth. M. Bekert, another jockey, proved the good thing in the sixth, while the seventh went to Inclusion, the favorite. The Owner Schorr and his friends had backed heavily to the limit. Afternoon also ran.

Indesta won her second purse of the meeting in the first race and Jougull rewarded a large following in the fifth. M. Bekert, another jockey, proved the good thing in the sixth, while the seventh went to Inclusion, the favorite. The Owner Schorr and his friends had backed heavily to the limit. Afternoon also ran.

SPECULATORS ARE MOVING CAUTIOUSLY

Toronto Market Moving Hand in Hand With Wall Street.

While speculators in Toronto have pretty much recovered from the fright inspired by the heavy slump in the stock markets early last week, they have not forgotten the moral of the recent downward movement, and are, therefore, playing very carefully.

Following out this idea, our market developed an easier trend when prices began sagging in the New York Exchange yesterday. Our market was heavy throughout, with the share down over 3 points to 217 1/2 at one period and the close only fractionally better than that figure.

Some Redeeming Features. Bargain hunters were again in evidence, and buying for their account was responsible for further upticks in some of the recent weak spots.

One of the most interesting events of the day was the continued weakness of the bank stocks. Commerce at 20 1/2 and Imperial at 21 1/2 made new lows in years.

FAIR INCREASE IN RAILWAY EARNINGS

Railway earnings continue to make a good showing, the latest returns indicating fair gains over last year. For the first week of June the gross of all Canadian roads reporting was 1.2 per cent ahead of the gross of the same lines last year in the corresponding period.

Complete returns for the month May from all roads reporting in the United States reveal the fact that gross earnings were 8.3 per cent ahead of May last year. This is the largest increase shown since January, as the following record shows:

Table with columns: Month, Gain, Loss, etc. Rows for One week June, Month May, Month April, etc.

FOREIGNERS DUMP OVER OUR STOCKS

The past year has demonstrated that the immense holdings of our securities abroad, which at one time were regarded as the strong point of the situation, are at times the source of weakness to the markets of Europe, which in the past instance, has resulted in the prices of our securities being indirectly affected by the uneasiness and uncertainty prevailing abroad.

DECREASE SHOWN IN U.S. VISIBLE

Visible grain supplies in the United States now at a week ago and a year ago compare as follows:

FOREIGN EXCHANGE.

Glazebrook & Croppin, exchange and bond brokers, report exchange rates as follows at closing: Between Banks—Buyers, Sellers, Counter.

MINNEAPOLIS GRAIN MARKET.

Wheat—July, 95c to 94c; Sept, 91c to 90c; Hard, 91c to 90c; No. 1 northern, 94c to 95c; No. 2 do, 92c to 93c.

DULUTH GRAIN MARKET.

BRAZILIAN IN LONDON.

Donard & Co. presented cables from London quoting Brazilian Traction as follows (Canadian equivalents about three points below):

ONE INDICATION OF BETTER TIMES

Bank Clearings Made Favorable Showing Last Week Here and Across Line

Those who regard the bank clearing records as the best indication of the state of business will find room for consideration in the fact that the clearings showed an increase both in Canada and across the border last week.

Clearings in Canada last week totaled \$12,854,240, a gain over last year of 3.2 per cent. This compared with a decrease of 4.4 per cent in the week June 22; 6.8 in the week May 29; 3 in the week May 22; 6.8 in the week May 15; 1.1 in the week May 8, and 2 in the week May 1.

UPS AND DOWNS IN N. Y. MARKET

Erickson Perkins & Co. report average New York Stock Exchange prices of ten leading rails and ten leading industrials for 1913 as follows:

TWO SMALL FAILURES IN LONDON MARKET

LONDON, June 16.—Two small failures were posted on the stock exchange today, but the announcement had little effect on the market during the forenoon, when the prices were generally cheerful and advanced under the lead of investment shares and American and Brazilian rails.

NEW BANKS OPENED ACROSS THE BORDER

WASHINGTON, June 16.—Acting Comptroller of the Currency Kane announced that during the month of May, 1913, nineteen applications to organize national banks were approved.

STRAIN ON CAPITAL DEPRESSING FACTOR

It is the strain upon capital, present and in prospect, that is the really depressing influence. The Bulgarian-Serbian struggle, which within possibility of settlement through arbitration—only puts off longer the return of confidence, and with it the hidden gold of Europe. It is a market in which apparently bad news hurts, and what seems good news other times, has little effect.

OUTLOOK IS FOR MORE CONFIDENT MARKET

In reality there is a better buying power in the market than has existed in several months. This has been brought about partly by liquidation and partly by the accumulation of large sums of money for the purpose of investment.

WE CAN BREATHE EASIER NOW.

WASHINGTON, June 16.—The supreme court adjourned today for the summer months until Oct. 14. The case of the Kentucky Railway Commission versus the Louisville & Nashville was carried over to next term with the Inter-Mountain cases.

GLOOM IS BACK IN WALL STREET

Hesitation Follows Early Strength and Marked Weakness Toward Close.

NEW YORK, June 16.—In spite of the resolute advance of stocks late last week and the evidence of increased buying power, the market today showed none of its recent restlessness. There was some difference of opinion, which the course of the day's trading did not entirely clear up.

On the assumption that the rise would proceed further, bull traders bid up the market late in the day. But it was evident that outside buying had weakened, and that the market was receiving little support, aside from that given by the professional element.

RAILROADS AGAIN HIT.

The decline was accelerated by the information placed by the street upon the success of the Missouri case, followed closely by the Missouri case—followed closely by the Missouri case.

MONTREAL STOCKS INCLINED TO HALT

C. P. R.'s Weakness Had No Marked General Effect—Ottawa Power Strong.

MONTREAL, June 16.—The stock market fluctuated somewhat erratically today and developed no definite trend. The comparative indifference shown by other issues to a weaker feeling in C.P.R. stock, attested the most favorable factor.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, June 16.—The strength in America on Saturday prompted short covering here and opening values were higher than in the previous session.

HOLLINGER HIGHER ON SHORT COVERING

Big Porcupine Issue Soars At Most a Dollar a Share in Short Order.

While the mining market showed a good deal of irregularity yesterday, the general tone was one of firmness. Many of the prominent issues came in for a sustained demand, and as stocks were not offering freely, advances in quotations occurred in natural order.

What looked much like a short covering movement was under way in half a dozen of the leading stocks. As hinted the bears found prices marked up on them. The uptick of 25 points in Hollinger, which sold as high as \$18.10, for instance was clearly due to covering.

NEW RECORDS MADE.

In the general list of Porcupines, Dome Extension at 10 and Penarum at 21 were both at new records for the month. Porcupine stock gained a point at 11 1/2, Swastika half that amount at 5 and Jupiter was up 25, which compared with the previous sale at 34 1/2.

In the Cobalts, Beaver, Peterson Lake, Timiskaming, Chambers-Ferland, La-Rose, Nipissing and Conias all improved. Swastika half that amount at 5 and Jupiter was up 25, which compared with the previous sale at 34 1/2.

Weakness was shown by Pearl Lake, which lost a full point at 35 1/2, within half a point of its low level of the year. Dome Lake, which dropped to \$14.40, and McIntyre, the latter was at its lowest since February at \$2.60.

Development of Mineral Resources Greatest of Earth's Industries

The millions of people inhabiting the earth today engage themselves in thousands of different occupations, the principal idea in mind being to make money to provide the necessities and, if possible, some of the luxuries of life.

Of the multitudinous money-making pursuits with which men and women busy themselves today, it seems to us that success in the development of the earth's mineral resources brings more satisfaction and greater money returns than any other.

It is now practically the only industry in which large profits possibly can be made quickly from small investments. It is nearly the only avenue by which the man or woman of limited means can achieve fortune without a lifetime of work and drudgery.

Our illustrated booklet giving the names of the Directors and all the essential facts, which you are sure to find of great interest, as it tells all about quicksilver, how it is found and to what uses it is put, we shall be pleased to mail you upon request without any obligation or expense on your part.
