Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☐ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration, apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☐ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☐ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

The copy filmed here has been reproduced thanks to the generosity of:

Legislative Library
Victoria

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Legislative Library
Victoria

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The Western Canada Irrigation Association.

The Twelfth Annual Convention of this Association held at Nelson, B.C., on July 24, 25 and 26, 1918, attracted a large number to its sessions. The Local Board of Control left nothing to be desired in the manner in which they looked after the comfort and entertainment of the delegates and visitors.

A number of well prepared and instructive papers were read and the discussions which followed certain topics have no doubt already proved their value.

The following papers have already been published in pamphlet form:

- (1) Don'ts in Connection with Irrigation by Don. H. Bark, Chief of Irrigation Investigation Division, Canadian Pacific Railway, Strathmore.
- (2) The Irrigation District Form of Ownership and Operation of an Irrigation System—Its Practical Operation in California, by Mr. A. Griffin, Supt. of Operation and Maintenance, Canadian Pacific Railway, Brooks, Alberta.
- (3) Small Gravity Irrigation Schemes by W. J. E. Biker, District Engineer, B.C. Water Rights Branch, Nelson.
- (4) The Principles of Dry Farming by Hon. W. R. Motherwell, Minister of Agriculture, Regina.
- (5) The Measurement of Water by Dr. Samuel Fortier, Berkeley, Calif.
- (6) Irrigation by Pumping by Jas. J. Currie, Staff Engineer, Military Hospital, Balfour, B.C.

There has been a great request for them and the supply of the first two is already practically exhausted. A few copies of the other pamphlets are, however, still available and may be had by application to the Acting Secretary.

The report of Mr. Stead, Acting-Secretary, reviewed the work of the Association from the time of the Convention at Maple Creek and shows that the interests of the Association are being well looked after. A portion of Mr. Stead's report is quoted below:—

"Every effort has been made to keep the work of the Association and the general interests of irrigators in Western Canada before the public through the press, and it may be in order here to express the

appreciation I feel for the very generous co-operation given by the daily, weekly and agricultural paper press of Western Canada in this connection. A file of newspaper clippings, which have appeared in connection with the work of the Association will be placed on the table and you are invited to inspect it.

"The Official Report of the 1917 convention was mailed to a list of over 2,000 irrigators and others interested. Some 3,000 copies of the Official Call were distributed and over 5,000 circular letters sent out in addition to a great number of personally dictated letters, the files of which are available for your inspection.

"Cuts of speakers and officials prominent in the work of the Association have been furnished to leading newspapers and widely used. Through the courtesy of the Canadian Pacific Railway that Company's advertising space in a number of publications printed on the prairie was made available to this Association and advertisements drawing attention to this convention have appeared therein."

Resolutions

The following resolutions were passed at the Twelfth Annual Convention of the Association at Nelson, B.C.:

Resolution No. 1.

RESOLVED by the Western Canada Irrigation Association that this Convention desires to invite the urgent attention of the British Columbia Government to the widespread feeling in the irrigation districts of the province that the irrigation systems in British Columbia should be brought under Government ownership and control.

Resolution No. 2.

RESOLVED: That the Western Canada Irrigation Association respectfully recommend to the British Columbia Government that, before passing any proposed legislation dealing with the water question, opportunity should be given to those interested to become familiar with the proposed amendments.

Resolution No. 3.

RESOLVED that the thanks and appreciation of the Western Canada Irrigation Association is due to the press of Western Canada for the interest it has taken in placing the work of the Association before the public, and particularly to the Nelson Daily News for the large space devoted to the Sessions of this Convention and the excellent reports which have appeared.

Resolution No. 4.

WHEREAS the Policy of the Government of British Columbia in utilizing the ranges of the interior of this province to a much larger extent than hitherto necessitates an increased area of irrigated lands in order to provide winter fodder. Without such increase much valuable breeding stock must be slaughtered before maturity.

THEREFORE be it resolved by the Western Canada Irrigation Association, that the British Columbia Government be requested to consider making immediately exhaustive enquiries, as to the location of ranges with contiguous land suitable for irrigation, and steps be taken to bring such land under water either by the Government undertaking the work, or by community work, or any other effective organization, but always under control of the Government. The cost of this work to be a charge upon the land so irrigated.

Resolution No. 5.

RESOLVED, that the Western Canada Irrigation Association respectfully recommend to the British Columbia Government that enquiries be immediately set on foot to discover where at interior points wild grass can be cut for hay and the best means to make it available for stock during the coming winter.

Resolution No. 6.

Submitted by Coaldale-Lethbridge Water Users' Association

WHEREAS in certain provinces such provision as now exists for establishing an association of users of irrigation waters requires that such association be assented to by the company or individual holding the water license.

RESOLVED: That the Western Canada Irrigation Association endorses the recommendation of the recently formed Coaldale-Lethbridge Water Users' Association that legislation should be provided whereby water users within a territory served by irrigation waters be empowered to organize water users' associations without having first obtained the consent of the Company upon a petition of a majority of the water users resident within the proposed district and that such water users association be granted power to assess the irrigable land within the district for the purposes of the association.

Resolution No. 7.

WHEREAS it is desirable that such waters as are found to be available for irrigation should be distributed so as to supply as far as possible the greatest numbers of people and the largest areas of land.

RESOLVED by the Western Canada Irrigation Association that this Convention endorses a resolution recently passed by the Iron Springs Local Number 172 of the United Farmers of Alberta requesting the Dominion Government to carry on at once surveys, and investigation as to provide information as to the possibility and the probable cost of carrying irrigation water to as great a number of farmers as possible in the districts that can be supplied from the proposed diversion of the Oldman River west of Macleod.

Resolution No. 8.

RESOLVED that the thanks of the Western Canada Irrigation Association is due to the Mayor and Aldermen of the City of Nelson, the President and members of the Board of Trade, the members of the Local Board of Control, and the citizens of Nelson generally for the splendid and cordial reception which has been given visiting delegates and for the efforts which have been put forth to insure the enjoyability of their stay in Nelson.

AND RESOLVED, that the thanks of the Association is particularly due to the ladies of Nelson for bouquets of flowers and distributions of fruit: to the management of the Flower Show and to owners of automobiles and launches which have been placed at the disposal of delegates.

Resolution No. 9.

RESOLVED that the thanks of the Western Canada Irrigation Association is due to the speakers who have taken part in the program, many of them at considerable personal inconvenience and who by their attendance and addresses have contributed to the enjoyment and the educational value of this Convention.

Resolution No. 10.

RESOLVED that the Members of the 12th Annual Convention of the Western Canada Irrigation Association desire to tender to Mr. James Johnstone of Nelson their most heartfelt sympathy to him in his present affliction and pray that a kind Providence will bestow on him a speedy recovery.

THAT we realize that the success of this Convention for several years past has been very greatly aided by his able assistance.

THAT the present Convention now held at Nelson owes its location very largely to Mr. Johnstones' exertions.

THAT this resolution be forwarded to Mrs. Johnstone to be by her conveyed to her husband and tender our very warmest condolence to her in her husband's affliction and desire to express our admiration for her noble, wifely efforts made on her husband's behalf.
