

FORCE THE CROWN TO CALL A WITNESS

Starting Allegations Against R.N.W.M.P. Are Made at Strike Trial.

SAY WITNESS COERCED

Canadian Press Despatch. Winnipeg, Dec. 16.—In support of a motion to force the crown to call a witness named Harry D. Dasnak, formerly secret service agent, whose name as witness appears on the back of the indictment, counsel for the defence of H. K. Russell made starting allegations against the crown.

Letters were produced with reference to this particular witness, which, defence counsel claimed, showed that bribery and force had been used to coerce the witness into giving evidence which he knew to be false.

Declares Evidence False. Col. Starnie, other counsel for the R.N.W.M.P., in Winnipeg, in one of the letters, is stated to have admitted that he had promised Dasnak \$500 for giving evidence.

A. J. Andrews, K.C., speaking on behalf of the crown, stated that the absent witness had been subpoenaed to appear at the present trial, but had refused to come.

Mr. Justice Metcalf declared that he would issue a bench warrant for Harry Dasnak, and that he would bring to Winnipeg under escort.

Sta. Defence Case. A start was made today with the case for the defence in the witness case. R. B. Russell, the evidence that will be put in was outlined by J. Edwards.

Use Letters Against Russell. Letters between Tom Beattie, Coleman, Alberta, and C. Stevenson, Vancouver, were admitted as evidence today against R. B. Russell.

"We are right in the middle of a strap here (Vancouver), which promises to be the beginning of something."

The writer was referring to the plan of the returned soldiers to stop the Socialist's meeting and signed himself, "yours in the scrap."

Stevenson to Beattie, Feb. 17, 1919: "Both Calgary and Winnipeg locals report trouble with the boys, but without headquarters. Their landings got scared—however, they are full of fight and enthusiasm."

In Edmonton three or four hundred soldiers broke up a propaganda meeting. No harm was done but the singing of patriotic songs.

Stevenson to Beattie, Nov. 3, 1918: "I think I can handle anything you send along or at least try. There are quite a number of boys here among the Ukrainians, Russians and Italians, but I can't say the same about the English speaking class, though I can place seven or eight who are O.K."

Develop a Trade in American Money. People in Windsor Use Newspapers as a Medium—Wage Earners Benefit.

Windsor, Dec. 16.—(Special.)—There has developed here within the past few months an active business in the purchase and sale of American money, and with the recent rise in the rate of discount to above ten per cent, competition has become so acute that some of the newspaper merchants are openly advertising in the newspapers that "they will pay the highest prices" for American currency.

To these small dealers go many of the small wage-earners with their Detroit wages in their hands. For each American dollar they receive back here from \$1.06 to \$1.08—not a bad profit.

The office girl with her \$10 or \$15 in American money is particularly welcome. She gets back \$11 or so in Canadian money for her ten-dollar bill and the broker then takes the current rate to any of the larger Detroit banks, who are glad to pay even as high as \$12 per \$100 to get rid of their stock of Dominion of Canada notes.

Local banks who handle the larger transactions were paying eight per cent premium today.

"It is the music that has been the cause of the strike," said the Russian pianist, who has just returned from a tour of the city.

The writer was referring to the plan of the returned soldiers to stop the Socialist's meeting and signed himself, "yours in the scrap."

Stevenson to Beattie, Feb. 17, 1919: "Both Calgary and Winnipeg locals report trouble with the boys, but without headquarters. Their landings got scared—however, they are full of fight and enthusiasm."

TRIPLE SHELVES NEWS PAPER EMBARGO

At Montreal, Declares Not He, But Government, Must Issue Order.

Canadian Press Despatch. Montreal, Dec. 16.—The meeting of Commissioner Pringle and counsel for the Canadian Pulp & Paper Association, together with counsel representing individuals in the newspaper companies, took place here today.

It was to determine whether the commissioner should issue an order calling upon the newspaper publishers to meet the Canadian publishers' paper needs, at a price per ton much under that obtainable in the United States.

Pringle's statement. "My position is not an enable one," said Commissioner Pringle. "It has been suggested that this can be done by suggesting to the government that it be continued by another board which can look at it as I have other things more urgent to engage my attention than issuing orders against the manufacturers of the country."

Commissioner Pringle intimated that the world would retain until he had cleared up all the work, and suggested that the order regarding prices for next year be made directly by the government, which would obviate any appeal.

Commissioner Pringle will return to Ottawa tomorrow.

### CITY DECIDES TO FIGHT MANDAMUS

#### Claims Smallpox "Epidemic" is Non-Existent—No Deaths From Outbreak.

The provincial health authorities and the city council have turned down their demand for the issuance of a compulsory vaccination order. In applying to the courts for a mandamus to compel the city council to obey their orders, yesterday morning H. M. Mowat, K.C., appeared before Mr. Justice Kelly at Osgoode Hall to ask for special leave to apply on Thursday next for a mandamus against the city to compel it to sign a compulsory vaccination order. In support of his arguments, Mr. Mowat presented affidavits from Drs. Wright, McCullough, Provincial medical officer of health, Bell, Moloney and Graham. All these doctors state definitely that smallpox is not a contagious disease in Toronto, and not in epidemic form; that compulsory vaccination is absolutely necessary to stamp out the disease, and that the vaccine being pure, there is absolutely no danger to the individual from vaccination.

**Regrets Anti-Meditations.**  
Dr. A. H. Wright, the chairman of the provincial health board, regretted the meetings of persons opposed to vaccination, at which applause was offered those who denounced the safety-first method. Dr. Wright goes on to deplore the fact that the result of these meetings was to make the council hesitate to vote for compulsion. He also looks with dismay at health measures being delayed or destroyed by clamor of persons who are prejudiced.

**Issues Order to Mayor.**  
As a result of Mr. Mowat's visit to Osgoode Hall, the following notice of motion for action was served on the mayor last night:

"Take notice that by special leave of the Hon. Mr. Justice Kelly, the judge presiding in weekly court for the present week, a motion will be made before the judge presiding in chambers at Osgoode Hall on Thursday, the 18th day of December, 1919, at 10 o'clock in the forenoon, or so soon as the motion can be heard after the conclusion of court business, a peremptory order of mandamus directing the council of the municipality of the city of Toronto effectively to order the vaccination of all persons resident in that municipality who have not been vaccinated in accordance with the provisions of Section 12 thereof, and to issue a proclamation to be published in posters and in at least one newspaper published within the municipality, warning the public that the said Section 12 is in force."

"And take further notice that upon the said application will be made before the Hon. Mr. Justice Kelly, the judge presiding in weekly court for the present week, a motion will be made before the Hon. Mr. Justice Kelly, the judge presiding in chambers at Osgoode Hall on Thursday, the 18th day of December, 1919, at 10 o'clock in the forenoon, or so soon as the motion can be heard after the conclusion of court business, a peremptory order of mandamus directing the council of the municipality of the city of Toronto effectively to order the vaccination of all persons resident in that municipality who have not been vaccinated in accordance with the provisions of Section 12 thereof, and to issue a proclamation to be published in posters and in at least one newspaper published within the municipality, warning the public that the said Section 12 is in force."

"And take further notice that upon the said application will be made before the Hon. Mr. Justice Kelly, the judge presiding in weekly court for the present week, a motion will be made before the Hon. Mr. Justice Kelly, the judge presiding in chambers at Osgoode Hall on Thursday, the 18th day of December, 1919, at 10 o'clock in the forenoon, or so soon as the motion can be heard after the conclusion of court business, a peremptory order of mandamus directing the council of the municipality of the city of Toronto effectively to order the vaccination of all persons resident in that municipality who have not been vaccinated in accordance with the provisions of Section 12 thereof, and to issue a proclamation to be published in posters and in at least one newspaper published within the municipality, warning the public that the said Section 12 is in force."

**Meaning of Epidemic.**  
The word "epidemic" means "common to or affecting a whole people or a great number in a community." The city authorities argue that the outbreak has not affected a great number of people, as the official figures up to the present prove that not 1,600 out of the 500,000 population of the city have been stricken with the disease. This is roughly one-quarter of one per cent. of the inhabitants and it is argued that such figures are not proof of an epidemic. The city authorities, especially when many of the cases are said to be chickenpox. It is further said that the officials will argue that the mayor cannot sign a proclamation without the consent of the council and that there is no council to meet until after the one is elected in January next. It is said it would be impossible to get a quorum in the council until after the election. A further agreement is to be set up in that the act is ultra vires and at this point will, it is necessary, be fought out as far as the privy council.

A Toronto gentleman who has made a study of city council doings and elections for many years than he cares to count has figured out already the names of the members of the new board of control. Here it is for what it may be worth: Cameron, Cameron, Maguire and Gibbons. Our informant says that should Aid. Ball run for the board he might have to revise his list.

A great many of the women who voted at the last election for the provincial government are already selecting the candidate they propose to favor with their vote in the municipal contest. The great majority of them will be disappointed to hear that they have no vote in municipal matters. Unless a woman is a property holder, a taxpayer, or an income taxpayer, she is not entitled to vote. The majority of householders and taxpayers are men, and the women on the voters' list are a very decided minority.

If anyone should be sufficiently unfortunate to be sent during the summer months to the jail farm for six months, they would be well advised to ask the judge to make it 12 months. When you leave they give you back your summer clothing and at the present temperature of the early morning it is not calculated to make one perspire from heat. Mr. Chisholm, the property commissioner, is asking for donations to purchase overcoats for those who are so unfortunate as to be turned loose from the farm at this period of the year.

It was stated at the city hall yesterday that three more employees of the architect department may be leaving shortly to join Mr. Pearese at the education department offices. C. H. Stanton is leaving immediately and will receive a salary \$2,500 per annum in place of \$1,800. The other members of the drafting department at the city hall—Messrs. Woolnough, Gilles and Carter—will also probably go to the board of education. The nominations for the office of mayor and board of control will take place at the city hall on Tuesday, December 23.

Nominations for alderman and board of education will be received at noon as follows: Ward 1, the Riverdale Collegiate Institute, by W. F. Summerhayes; Ward 2, Winchester Street School, by George Brown; Ward 3, Kindley School, by William Lee; Ward 4, Lansdowne School, by David W. Clark; Ward 5, Harbord Collegiate Institute, by Nathaniel J. Stevenson; Ward 6, at Kent School, by Samuel Hobbs; Ward 7, at Annette Street School, by Malcolm Strachan; Ward 8, at New Beach School, by William Corbett.

**THE CONSUMERS' GAS COMPANY**

The fight between the city and the government has only just commenced. It will be a lengthy and costly one, and the outbreak will likely be ended before a legal discussion is arrived at.

It is believed, owing to the light nature of the disease, that the provincial authorities would not go to the extreme limit of quarantining the whole city, as it would serve no useful purpose. There were fifty-six new cases of smallpox reported yesterday, which makes a total of 674 persons at present under treatment for the disease.

### DOMINION GRANGE ELECT OFFICERS

J. C. Dixon is Worthy Master and Miss Robinson Secretary.

The Dominion Grange concluded its two-day convention at the Carls-Rite Hotel yesterday. The elections resulted as follows: J. C. Dixon, worthy master; W. F. Fisher, worthy overseer; Miss Hattie Robinson, secretary-treasurer; Howard Bertram, associate secretary-treasurer; W. McRae, chaplain; J. G. Leithbridge, lecturer; John Pritchard, auditor. W. McCrae was appointed representative to the National Fair Board, and W. E. Wardell was appointed representative to the Western Fair.

### CITY HALL NOTES

For the day after a council meeting there were more aldermen and controllers around the city hall yesterday than is usually the case, especially as there was no business doing in the way of committees, etc. Of course, they may have just called in to ask after the mayor's health, to clear up their papers or to take just one last glance (for some of them) of the pictures on the wall. But there was a reason!

Some aldermen were very disappointed on Monday evening and again yesterday to find the cheques in payment for their valuable services to the public for the past three months were not forthcoming as usual.

Controller McBride is busily engaged organizing his election campaign and already has promises of much influential support in business circles, and quite an army of workers are proffering their services. Even if he does the city win the chief magistrate's chair it will not be for want of energy or organization. It is said, however, that the controller has made one miscalculation in planning his campaign. He banked on the returned soldiers evening up with the labor candidate and by taking the soldiers' vote and part of the business vote away from the present mayor he thought he could easily slip into first place. As the soldiers are pledging their support to Mayor Church it looks as if the controller will have to seek pastures new for part of his support.

Mayor Church has not up to last night declared himself or his intentions in regard to running for the chair next year. His friends say, however, he is a certain starter.

A Toronto gentleman who has made a study of city council doings and elections for many years than he cares to count has figured out already the names of the members of the new board of control. Here it is for what it may be worth: Cameron, Cameron, Maguire and Gibbons. Our informant says that should Aid. Ball run for the board he might have to revise his list.

## SELLERS-GOUGH FUR COMPANY LIMITED

244-246-248-250 YONGE STREET, TORONTO

### RETURNED MAN PASSED WORTHLESS CHEQUES

Marcus Cootes, 1246 College street, was arrested last night by Detective Tuft, on a charge of forgery. He is alleged to have entered the Russell Shoe Store, 292 Yonge street, and passed a worthless cheque for \$35 on L. Libbether. The cheque was made out on a form used by the soldiers' book of debts department. A civil re-establishment department. A book of these cheques, made out for sums ranging from \$30 to \$35, was found on the accused. He also had two military discharge papers—made out in his own name, showing him to have been discharged in England from a Toronto battalion for medical unfitness; the other was made out in the name of Marvin Symonds—made out in his own name, showing him to have been discharged in England from a Toronto battalion for medical unfitness. The name of a paymaster was stamped on the cheques, and they were made payable at the Bank of Montreal.

The Urgent Political Duty. The middle of Ottawa can never be successfully cleared until the democracy Canada fought resumes functioning without the repressions of the war period.

Two years ago, today the Union government was overwhelmingly endorsed at the poll. But, as events count, December 17, 1917, is a very important date.

Those who would implement so ignoble a theory can only be blind leaders of the blind. If they could have their way they would only assure for themselves the major restoration of political unfaithfulness.

GRATUITY QUESTION WILL BE REVIVED

U.V.L. Declare Agitation on Returned Men's Behalf Will Be Kept Up

That the gratuity question is to be revived with greater vim and that the country must recognize and make good its obligations to its soldiers were the statements of the various speakers at the meeting last night of the West Toronto Branch, United Veterans' League, held in the West End Y.M.C.A.

The meeting was held in the West End Y.M.C.A. among the speakers, all of whom were received enthusiastically by the large gathering, were Mayor Church, Capt. Jack Ramsden, M.C., M.L.A., and Sapper Clinton Taylor, who told of his experiences in prisons in France and England.

Mayor Church, who was introduced by Chairman Kennedy, as a candidate again for the mayor's chair, said that sooner or later the soldiers will have to have a political party if they are to get their rights.

The parliament of Canada did not give a satisfactory answer to the gratuity question, but the matter can be settled by the board of control, and an honorable member of the U. V. L., when he spoke on municipal and soldier problems.

FOOD TO BE SENT TO HUNGRY AUSTRIA

Supreme Council Decides to Despatch 30,000 Tons to Trieste.

Paris, Dec. 16.—Initial measures of relief for Austria were taken by the supreme council today after that body had heard a lengthy presentation of his nation's difficulties presented by Dr. Karl Renner, the Austrian chancellor.

It was decided that as a first step in relieving the Austrian food shortage, 30,000 tons of food should be despatched to Trieste to be shipped thence into Austrian territory.

Although it was officially announced that the health of Premier Clemenceau was perfectly satisfactory this morning, no building was held at the meeting of the council was held at his residence.

The council took up the question of the desire of Verghy, the principal in the northwest, to detach itself from Austria. It was decided to use every means to assure the unity of the principality with Austria, as provided for by the treaty of St. Germain.

FARMERS TO ENDORSE PROPOSAL AS PREMIER

His Ratification as Leader of Legislature Will Be Considered by Convention Today.

At the close of the U. F. O. meeting last night in Massey Hall, Secretary Morrison made the announcement that ratification of the selection of Hon. E. C. Drury as leader of the party in the legislature by the membership will come up. Col. John Z. Fraser will introduce the subject.

It also transpired that each member of the cabinet will have something to say about his particular department and Hon. Mr. Bigger, minister of public works, will deal with the subject of the provincial highway and county roads for the farmers along lines somewhat different from those drawn by the premier when addressing the members of the Grange.

A. H. Sainsbury, secretary of the Canadian Fruit Growers' Association, is one of the visitors to Toronto attracted by the convention of the U. F. O. He addressed the farmers and said if the government in Canada helped along the co-operative movement the benefits to the consumers were not easily calculable.

He thought, for instance, that the government might afford legal assistance to the co-operative movement in an advisory capacity. But above all other considerations having the moral support of government behind the movement was the chief advantage.

In reply to a question President Burnaby announced that at the next meeting of the board of directors he would recommend the opening of a branch of the U. F. O. stock department of the co-operative company on the Montreal market. The directors would meet on Friday afternoon and be in session till 10 o'clock and members in eastern Ontario action on the Montreal branch would not be deferred.

He had every confidence for the recommendation would be carried out and a good English farmer speaking representative appointed in Montreal. Improve Quality of Cattle.

Manager McCurdy of the Toronto live stock department said the necessity of the day is to improve the quality of cattle offered on the western market. The farmers and the buyers would make more money handling fewer cattle of better quality. He delivered a knock to the present steer in particular. Horn-cattle are not wanted, he said, at the present time in the United States, while in Canada hundreds of thousands of dollars are lost by neglect to dehorn.

Mr. McCurdy was asked a number of questions, among others whether the owner of cattle had to drive a large wagon with the U. F. O. buyer. Mr. McCurdy said the owner got the right price without bargaining. In regard to the handling of grain President Burnaby said when they got the advance market, the farmer, conditions would be very much better. But the they had sent a deputation to Ottawa, they had not got the advance market, and for the same reason that they had a car at Newmarket—the political reason.

Mr. Burnaby did not agree with Mr. McCurdy's opinion of the Holstein steer. F. J. Futhorpe of the live stock department urged the farmers all over the province to send their hogs to one open market in Toronto. Packers are not philanthropists and they deduct from their prices the cost of buying at points outside Toronto. Last year witnessed a great market for hogs. Next season should be restricted in supply on that account. But the benefit either way was all to farmers by concentrating on one market.

## ROACH OINS PROS. WILSON ARRIVES

Dentals and Argonauts Clash Tonight—Gossip of the Players.

The third game of the senior S.P.A. series will be staged at the Arena tonight when the crack Dentals will meet Argonauts. It will be the scullers first game in four years, and they are sure to get a great welcome. Argonauts did their bit royally and several members of the team are just back from the great game across the sea.

The double blue claim a star in Bishop, a member of the Hamilton intermediate team that won the O. H. A. honor a few seasons ago. He is a speed merchant and a pretty handy hand. Hicks, McCamus and Bishop will start on the forward line for the challengers, and the Dentals will have to put their best forward to get away. Argos will check all the way, and if the defense stand up it will be a battle worth seeing.

Dick Carroll is trotting out the best the Dentals have, and each club will use three substitutes. Forbush will be the Dental net guardian for this game, and he is one of the best in the game. The game is called for 8.30 p.m., and a big sale was reported at the Arena yesterday.

The St. Patrick pros. made a ten strike yesterday when they 7-1. Mickey Roach, the Hamilton star. Mickey signed late yesterday afternoon and will be out to practice today. Tom McCarthy, his side partner, is another that thinks he can make good in the pro ranks and will come down on his own hook and try out. Roach and McCarthy are two men that the O. H. A. barred for all time.

Cully Wilson arrived in town yesterday and will be out to practice today. Babe Dye joined the squad yesterday and made a good impression. Nothing has been heard from Rickety, the Seattle player, as yet.

Argonauts have numbered their players as follows: 1, Crook; 2, Knight; 3, McCamus; 4, Hicks; 5, Sullivan; 6, Bennett; 7, Bishop; 8, Knappan; 9, Rodden; 10, McIntyre; 11, Farlow.

Mack Mackenzie was out with Balm Beach yesterday.

M. J. Brophy called the delegates from O.H.A. intermediate district No. 8, Woodstock yesterday afternoon, and drew up the schedules for the O. H. A. season. Tillsborough won the intermediate district with a game at Ingersoll in December. The junior lid will be pried off in this district with Tillsborough and St. Thomas battling in the Railway Standing on December 26.

McGILL TEAM TO TOUR; PLAY ARGOS HERE

Montreal, Dec. 16.—With the suspension of lectures this week at McGill University, for the Christmas holidays, the hockey team will make a trip and five games will be played in preparation for the opening of the club's regular scheduled season.

Arrangements have been made to play the Argonauts of Toronto at Toronto on Monday night, Dec. 21. The players are playing in Hamilton on Dec. 23 and in Port Colborne on Christmas eve.

Following these games the team will visit Pittsburgh where two games will be played with the amateur athletic team of that city. Other cities included before the team returns to Montreal for the opening of the City Amateur League games. Definite word has been received from all of the scheduled places with the exception of Port Colborne, and the McGill players will be made with the Port Colborne club tomorrow.

The McGill players have had several practices on the open rink at the stadium and will start on the trip in fairly good condition. Several of the players of the hockey team played rugby all autumn, which accounts for their good condition. Notwithstanding the cold weather, a light workout was held this afternoon, when two full teams were in uniform. McGill will not play their first scheduled home game in the intercollegiate Union until Saturday night, January 24. St. Anne's club of the City League are anxious to visit Toronto for a game.

Area affected: Two to three acres.

Spectacular and providential was the description given by spectators last night of the fire at the King street subway in which the flint glassware warehouses of the Dominion Glass Company were destroyed between the hours of half-past five and half-past six. The damage was variously estimated at from \$75,000 to \$400,000, but the general manager, Ralph King, in an interview with *The World*, estimated it at \$150,000, all insured. The area covered was between two and three acres, all of which at 7 o'clock was as a barren desert pitted with charred ruins of heaped cases, looking for all the world like charred remains of brick residences. Not a thing was covered by insurance. Neither the fire department nor the management was able to state the cause of the fire, which occurred ten minutes after the men had finished loading at the side of the G.T.R. lines. Ten reels responded.

Thanks to Providence. An employe of the firm strongly emphasized his feeling that the disposition of Providence was largely responsible for the protection of the office and main building. He stated that there were several buildings, the main building and offices, the flint glassware and the amber glass warehouses and a quarter of a mile from the fire was first noticed the wind was southeast and all set for the main building. The wind suddenly veered to the southwest and remained at that angle, thus saving the main building and the main warehouse. Had the fire reached the boiler house, the main and the amber would have reached the main building. Cowan avenue fire-fighters stated that the fire gained very rapidly at the outset and that when they arrived on the scene it was seen at once that nothing could save the main building from destruction. Every available effort was, therefore, made to prevent the flames reaching the main building. The entire warehouse was a mass of ruins in less than fifty minutes, and it was with difficulty that the flames were prevented from spreading over the yards of the Massey-Harris Company. The fire-fighters stated that the heat was intense and that large volumes of smoke made the work of fighting the flames very difficult.
