Atlantic City, Oct. 28.—By the wrecking of a three-coach electric train on the West Jersey and Seashore Railroad this afternoon at least 50 passengers perished, and the list may reach the appalling total of 75 when all is known.

While crossing over a drawbridge spanning the waterway known as "The Thorofare," which separates Atlantic City from the mainland, the train left the track and plunged into the water.

The passengers in the first two coaches, with few exceptions, were drowned. Up to midnight tonight 25 bodies had been recovered, and it is believed that at least 25 and possibly more bodies are still in the submerged coaches.

The disaster is the worst that has happened since the terrible meadow wreck of July 30, 1896. The train, made up of three heavy vestibule electric coaches, which left Camden, N. J., at 1 o'clock in the afternoon, carried probably 88 passengers, as that number of tickets were issued to the conductor. He is uncertain, however, just how many passengers the train carried, and until all the bodies have been taken out of the submerged coaches, it will not be possible to give an approximate estimate of the dead.

The cause of the wreck has not been established, but it was probably due to a defective rail or the breaking of some part of the superstructure of the first coach.

It has also been suggested that the drawbridge, which had just been closed after the passage of a yacht, may not have properly locked the rails, thereby causing the train to be thrown off the bridge.

While running at a speed said to have been moderate and not unusual, the first coach left the rails and dragged those following it over the ties for a distance of 50 feet. Suddenly the second coach plunged into the water over the side of the bridge into the water 20 feet below.

The third coach struck a heavy abutment, broke its couplings and for a brief time hung perilously suspended over the water.

SAVED MANY. Brief as was this period, however, it gave more than a score of passengers an opportunity to escape by the rear door. Then the car slid off and followed the other two into the water. It is believed every one in the rear or third coach escaped alive, tho' all were more or less injured.

The accident was witnessed by many persons on shore, and assistance was promptly sent from Atlantic City. Little could be done, however, towards saving the lives of those imprisoned in the submerged coaches. They quickly settled on the ground, and with their feet were soon hidden from sight except for the trolley poles. They were sent down and tried to reach the dead bodies, but darkness set in and the tide ran too swiftly for them to accomplish much.

Late in the evening a wrecking crew arrived on the scene, and with their aid and the use of a derrick a dozen or more bodies were taken out and brought to this city. Of the 25 bodies about 20 have been identified, and it is believed no difficulty will be experienced in establishing the identity of the others.

General Manager W. V. Atterbury of the Pennsylvania Railroad arrived on the scene tonight, and will make a thorough investigation into the causes of the accident. Until this investigation is completed.

TRAGIC TALE.

Philadelphia, Pa., Oct. 28.—Late tonight the Pennsylvania Railroad made the statement, showing, according to information received here, not more than 57 of the 80 persons on the train lost their lives in the Atlantic City accident.

The first two cars of the train were entirely submerged and the third car partially submerged, with the rear end resting on the cribbing under the draw bridge.

The drawbridge was found properly closed and locked, the signal showing a clear movement. The track was in good condition, and until the cars can be raised out of the water it is not possible to determine the cause of the accident.

It was necessary to procure divers before the train could be raised and these are now working on the wreck. Divers not being available in Atlantic City, they had to be procured from Camden and Philadelphia.

General Manager Atterbury, with a force of assistants, is on the ground, and every effort possible is being made to remove the cars from the water and recover the bodies. It is hoped with the removal of the cars that a critical examination of the equipment can be made in order that the cause of the accident may be determined.

The equipment of the train is entirely new, having been in service but a few weeks, and it is believed to have been perfect in every particular.

The train had, leaving Pleasantville, 79 passengers, of whom 23 have been accounted for, as being safe, and it is believed that several more escaped.

The motorman, Walter C. Scott, was drowned. The conductor, J. O. Curtis, and the brakeman, R. B. Wood, escaped. Eleven bodies have been recovered, only one of which, an employe, James Dempsey, foreman of car inspectors at Camden, has been identified.

Dr. Bell of the provincial board of health on Saturday returned from Sudbury, whither he went on Thanksgiving Day in connection with the typhoid scare in the northern districts.

He visited Worthington, Nairn, Webbwood, Massey, points on the branch of the C.P.R. Carries on the main line, and Sturgeon Falls and Wainnapias, east of Sudbury. Scores of cases of the fever were found in all these places, but the deaths were few.

One reason for the crowding of the Sudbury hospital was the ticket system, which has been in force there for some years. Before starting for camp the men are given the opportunity to buy what is a sort of insurance ticket against sickness. For \$2 attendance in case of accident or illness is guaranteed for six months, or \$5 for a year. The effect is that as soon as a lumberman finds himself "coming down" with fever, he puts out for board and lodging, and the ticket cash he may have, as may seem best, and presents himself at the hospital with his ticket. In previous years there has been a heavy death toll, and the hospitals were ahead. This year the lumbermen are having the "luck."

Few Railway Men Ill. The only railway construction going on was the Mackenzie and Mann extension, north of Wainnapias to the Hutton Iron Range. In the camp of the Mackenzie, where the work is being done, there is a heavy death toll, and the lumbermen are having the "luck."

Dr. Bell conferred with the camp managers at the points visited, and in several cases forbade them to send any man out of their limits. He insisted that medical treatment must be provided them and every care and assistance given them in camp.

Dr. Bell agreed with Dr. Hodgette that the cause of the typhoid outbreak was the long dry summer, in which bog streams and pools become stagnant and fouled. Germs settle on the top of the water, which men carelessly drink without the precaution of boiling. The board of health cannot too strongly impress upon the residents in these districts, said Dr. Bell, the necessity of boiling any water used for drinking or cooking purposes.

Bad Water Causes Typhoid. Dr. Hodgette, secretary of the provincial board of health, and Dr. Amyot, provincial analyst, returned on Saturday from Syracuse, where they attended the meeting of the New York State health officers.

The general opinion among the experts at Syracuse was that nearly all typhoid cases are attributable to impure water. The necessity of properly treating sewage was consequently emphasized. It was estimated that the loss to New York State alone from typhoid and resultant expenses ran to \$1,000,000 a month.

The health officer representing Pennsylvania at the meeting read one of the posters of the Ontario board of health, which are displayed in Muskoka and other summering districts, and commended it to those present as a model for adoption in many states of the union for the instruction of the people in the treatment of sewage, garbage, etc., and the care of water supplies.

Dr. Amyot's paper on sewage treatment was read with great approbation from the six or seven hundred delegates present.

PROVINCIAL FORESTER UNEXPECTEDLY RESIGNS.

Dr. Judson Clark to Go Into Lumber Business in B. C. — Was to Have Had Chair of Forestry in Toronto University.

Dr. Judson F. Clark has resigned his post as provincial forester to the Ontario Government. The unexpected announcement was made by Dr. Clark himself late on Saturday, and to contribute the coldest sums as the director of the corresponding number of days for October receipts.

This is some indication of the enormous amount of business which is passing through the port of Montreal during the present year. In one day during October the receipts amounted to \$116,000, which is a record.

For the twenty-four days up to Thursday the collections were \$167,000 ahead of the corresponding number of days for October last year. On Wednesday last the sum of \$85,000 was taken in.

PENSION FUND FOR G. T. R. The Canada Gazette contains notice of an application to parliament for an act amending the acts relating to the Grand Trunk Railway of Canada superannuation and provident fund and authorizing the Grand Trunk Railway Company of Canada to establish a pension or superannuation fund for the benefit of the company's employees and, if deemed advisable, the employees of companies controlled or operated by the said company, and to contribute thereto such sums as the directors may from time to time determine, with such powers and provisions respecting the establishment and management of the said fund as may be deemed necessary.

INSPECTOR WITHIN RIGHTS IN DISMISSING BARTENDER.

St. Catharines License Commissioners Intimate Interference of M.L.A. Was Cheeky.

The license commissioners on Saturday night upheld Inspector King in discharging Bartender Churches of the St. Catharines House for selling liquor to a man against whom papers had been issued.

Dr. Jessop, M. L. A. for Lincoln, explained that he had merely advised the proprietor in the course to be taken in reinstating the bartender.

The commission adopted a resolution empowering the inspector to summarily suspend any bartender caught selling liquor to persons against whom prohibitory papers have been issued under section 125 of the act.

FOUR BROCKVILLE PEOPLE CALLED IN LONDON PROBE.

Expected They Will Corroborate Pritchett as to Operations of Liberal "Machine."

Brockville, Oct. 28.—(Special.)—Four persons residing here have received documents calling for their appearance in the Toronto police court on Wednesday morning in connection with the London bribery scandal. These are expected to corroborate Pritchett's testimony of what took place in the White-Comstock election seven years ago. S. Elliott and W. Stewart have received subpoenas.

The names of many others have been supplied Mr. DuVernet, together with information which will assist him in probing the matter. A mass of evidence is obtainable from this end, and it is quite likely that the most of it will be given to the public.

The Liberals of Brockville riding have knowledge of the move being taken, and there is great anxiety in the camp.

TERRORISTS THROW BOMB AT GOLD-LADEN CARRIAGE

Robbers Get Away With 28,000 Rubles, But Drop Bag With Much More.

St. Petersburg, Oct. 28.—The revolutionary terrorists achieved Saturday in the heart of St. Petersburg an astounding victory over the government's protected treasury.

Along this route comes twice a week a carriage drawn by two horses and bringing notes from the printing house of the Imperial Bank for distribution by the treasury department.

The boy rushed across the bridge and seized the three leather cases, but in returning he dropped the second one containing the government securities.

The boy ran along the street into the arms of a policeman, who thought he was a pickpocket. He had almost escaped the policeman when a soldier, who was passing, felled him with the butt of his rifle, and he was taken to the hospital.

The act was unquestionably one of revolutionary terrorism and not common robbery.

HAMILTON HAPPENINGS

CALL EVANGELIST TORREY THROUGH MINISTERS OBJECT

Pastor Bell Opposes "Mushroom Christianity." But Laity Favor Revival.

Hamilton, Oct. 28.—(Special.)—Evangelist Torrey has been invited to spend from three to four weeks here next January, but the invitation was not countenanced by the ministers of the city.

Only four or five ministers, although they all specially invited, attended the meeting and two or three of them opposed the invitation.

Rev. J. H. Bell, pastor of the Hannah-street Methodist Church, announced that he would refuse to vote because the matter had been before the ministerial association twice, and the ministers had agreed that a better man than Torrey could be brought to the city.

Rev. J. H. Triggerson advised the meeting to go slowly, because of the expense. C. G. Bookers spoke in opposition, declaring that he did not believe in "mushroom Christianity."

On motion of H. S. Brennan and F. C. Kelly, it was finally agreed by a vote of about 100 to 5 to telegraph Dr. Torrey an invitation, providing that a hall could be found, and means of raising the money provided.

Mr. Alexander will not accompany Dr. Torrey, but Mr. Butler will take his place.

Omissions in Ticket Collecting Said Now to Have Resulted in Wholesale Dismissals.

Montreal, Oct. 28.—(Special.)—The Grand Trunk conductor matter is in its final stage. One of the conductors said today:

"The whole affair was a complete surprise to me, and all the more so, because I can think of nothing that I have done that would justify my services without a moment's warning."

It was learned at Bonaventure Station that the reason for the dismissals could not have been the age of the conductors.

It looks now as if the majority contest would be between Ald. Stewart and Ald. Wright.

LABORER BURIED ALIVE DUG OUT BY COMPANIONS

Was for Twenty Minutes Entombed in Drain on Czar Street.

While engaged in digging a drain on Czar-street on Saturday afternoon Harry Cousins, a civic employee, living at 70 Birch-avenue, received serious injuries by the caving in of the sides.

At the point where Cousins was engaged in digging the drain was some ten feet deep, and while none of the rest of the laborers received any injuries, Cousins was buried completely up to his eyes.

When he was finally disinterred Cousins was in a very exhausted condition and laborers dug into the nearest house and a doctor summoned.

BRITISH PARTIES AND SOCIALISM. Genuine alarm has undoubtedly been created in the British Liberal party by the aggressive action of the socialist and dominant section of the independent labor party, which, too, Mr. John Redmond claims to be in hearty accord with the aims and objects of the Irish Nationalists.

The Socialist agitation, which has developed so rapidly since the unprecedented success of the labor party at the polls, has had a sobering effect on the younger school of Radicals, and will in the long run tend to strengthen Liberalism in the country by compelling recognition of the advantages and indeed necessity of maintaining its solidarity.

The Liberal party, which has been developed so rapidly since the unprecedented success of the labor party at the polls, has had a sobering effect on the younger school of Radicals, and will in the long run tend to strengthen Liberalism in the country by compelling recognition of the advantages and indeed necessity of maintaining its solidarity.

One of the main results of the declared policy of the labor socialists has been the clear statement that the Liberal party will not stand for collectivism pure and simple as against individualism. This position is in no way opposed to the fact that Liberalism in Britain strongly supports public ownership of municipal and other utilities and services which are actual or practical monopolies, or which cannot from their nature be supplied to private companies.

Canada is suffering from cowardice as well as corruption. No one likes to hurt the feelings of anyone in his set. The administration of criminal justice rests in the hands of men chosen from one profession. They are subject to cross currents that flow from church connections, social influences, club membership, overdrafts at the bank, and so forth. Their keynote is timidity.

Our newspapers denounce crime in the abstract, but they shrink from mentioning names. We are treated to sermons, instead of indictments. All along the line there is a lack of initiative. Judges may be strong, but they can not act until cases come before them.

In the United States there are cowardly judges to be found, and the description from a brochure of real ability, entitled "Fables of the Bench," will apply to some officials on either side of the border.

It never wandered far from the beaten paths. He showed charming patience in trials and listened to all that any cared to say. His influence was used to compromise the matter, if possible. Otherwise he ascertained the stronger side or the one he feared the more and gave that the victory.

The Conservatives are not charged, at present, with the duty of constructing a cabinet. They are in opposition, and it is their business, by any honorable means available, to oust the Laurier government.

But what is the difference between Laurier and Bourassa? Are their private views not in accord upon every question which caused the latter to excite the opposition of Ontario? Laurier yielded in some cases—as in the South African war, for example—and pretended to yield in others, where to stand by his guns threatened to bring loss of prestige or popularity.

But the South African war is over. Mr. Bourassa is progressive. To-day he is fighting graft and other abuses of the Laurier government. He has enlisted for the masses of the people against every form of oppression. He is clean-handed. There is no corporation collar around his neck.

HARD TO PICK THE WINNER NOT EASY RUN FOR HUGHES

Independent Out of State Opinion Has It That Hearst Has a Good Chance.

Chicago, Oct. 28.—The Tribune's Washington correspondent, Raymond, predicts a big upheaval in congress as a result of the November election, and a big out in the Republican majority.

His Majority Fight an Awfully Tight One. This is not a bad way to look at the situation in New York State. If Hearst a year ago could carry Brooklyn in a Republican and Democratic contest at a time when he was fighting McCarran, the local Democratic boss, and when he was also fighting Jerome, who was a popular idol, it seems a safe inference that Hearst may after all get a larger vote than he was entitled to.

Majority of Over 30 Expected. It would be unwise to predict positively the results of the coming election. Conservative politicians, however, estimate on the general result of the election that the Republicans will have between 30 and 35 majority in the House of Representatives.

Old Time Democrats for Hughes. This, of course, is a distinct Republican loss, and it will probably be disclosed by the returns that it is more or less concentrated in those localities where the Hearst newspapers have secured a permanent footing and general circulation.

One Strong Edge Against Hearst. The McCarran men, the McClellan men and the old-line Democrats and conservatives generally in the party, must together constitute a strong edge against Hearst, which cannot be estimated until after the returns are in, because so much of it is under the surface.

Republican Managers Insist that they will come down to New York with not less than 125,000 majority for Hughes, and the more sanguine insist that it will be 200,000.

It is difficult to estimate the extent of the drift toward Hearst among Republican union labor. The chances are that it is greater, including both city and country, than the drift toward Hughes of the old-line, conservative Democrats. Hughes, however, is as clean a candidate as New York Republicans have put up for many years.

State Invariably Viable. Last year Hughes was cut size slasped by a great many Republican voters. He ran far behind Roosevelt, and yet he had a plurality of 80,560, in a total vote of 1,617,784, which was the largest vote ever cast for governor.

Rev. J. L. Gordon's Address at Opening Meeting of C.T.L. Campaign.

Rev. J. L. Gordon of Winnipeg, formerly pastor of Bond-street Congregational Church, addressed an audience, which completely filled Massey Hall, yesterday afternoon at the opening meeting for the season of the Canadian Temperance League.

Commenting upon the successful work of the league in the past, the chairman briefly outlined the plan of campaign for the coming winter. The educational movement instituted by the league was spreading to all parts of the Dominion.

He stated at the same time that he had been consulted by some persons as to the bank and its condition and prospects, and that if he was appointed solicitor for the bank and given a share on the board with supervisory powers, he would give his assistance and that his brother would go upon the board and make the subscriptions above mentioned and that everything would be all right and satisfactory with his clients and that there would be no trouble or difficulty.

Accuses Wm. Laidlaw. "And on two occasions afterwards before the commencement of these proceedings I met Mr. Laidlaw on the street and he informed me that there were some uneasy people who had been talking to or consulting with him, and that it was in view of the fact that I therefore believe that these proceedings are to a large extent, and entirely, being actuated and promoted by Mr. William Laidlaw."

Mr. Laidlaw's Reply. In the afternoon William Laidlaw, K.C., made an affidavit, in which he says: "In the first place, there is no power to pay commissions, and no power to appoint a solicitor, and no power to make a large number of shares than they had taken; the assurances, in some cases, that the bank would carry the whole amount of the subscription."

Major Beattie's Refusal. My brother consulted me and altho the matter was not of my business, because his own business demanded all his time and attention, we agreed that he would mention the matter to his brother and I would have a talk with W. R. Travers.

On my return to the office I called upon Mr. Beattie on the telephone and spoke to him, and he afterwards called at the office, and I was surprised to know from him that he had not subscribed and would not subscribe for a single share, and would have nothing to do with the bank.

Farmers Subscribed Heavily. Months passed over before I met a committee of the plaintiffs in consultation, and a state of affairs was then disclosed which amazed me. A sum of money amounting to \$300,000 or more had been subscribed for in the County of Halton, almost all by farmers; in some cases farmers would be able to pay; in a large number of cases farmers would not be able to pay; and it was manifest from the information received that if the subscriptions were enforced, farms would have to be mortgaged or sold and great anxiety and trouble would be brought into many a household.

Half Million to the Church. On Wednesday, Oct. 27.—The will of Col. Henry P. Martin, formerly commander of the 71st New York Regiment, filed in Brooklyn today by the American Church building fund commission of the Protestant Episcopal Church in the United States, and Foreign Missionary Society of the Protestant Episcopal Church. The income of the latter fund is to be divided among the missionary bishops in foreign lands and in the United States.

FARMERS GETS NOTES BACK BANK ACTION'S ENDED

Nine Subscriptions for Farmers' Bank Stock Canceled and Litigation is Stopped.

Nine out of the eleven farmers who issued a writ against the Farmers' Bank in process of organization, will get their money back. The other two, according to affidavits filed, were content to continue as shareholders. Under the circumstances, Judge Anglin dismissed the action to wind up the bank.

H. Watson, K.C., acting for the bank, presented the affidavit of General Manager Travers, to the effect that the whole proceedings was a piece of spite work, actuated and promoted by William Laidlaw, K.C., because he was not appointed solicitor of the bank.

Mr. Travers' affidavit, presented to the court on Saturday, says: "William Laidlaw of the City of Toronto, the solicitor acting for the plaintiffs, saw me personally at the Queen's Hotel in or about the middle of the month of July last past, and then stated to me that he thought his brother, Robert Laidlaw, would be willing to become a member of the board of directors of the bank and to subscribe for \$5000 of stock and he very urgently pressed me that his brother should be taken on the board with supervisory powers, and urged that he would be a valuable addition to the board."

Mr. Laidlaw's Reply. In the afternoon William Laidlaw, K.C., made an affidavit, in which he says: "In the first place, there is no power to pay commissions, and no power to appoint a solicitor, and no power to make a large number of shares than they had taken; the assurances, in some cases, that the bank would carry the whole amount of the subscription."

HEARST IS FURIOUS.

Bitterly Attacks Owners of Newspapers Opposed to Him.

New York, Oct. 28.—In Brooklyn last night, where he delivered 8 speeches, William Randolph Hearst made another violent attack on newspapers opposed to him. He accused practically every newspaper in New York except his own and The Press, of unfairness, and then attacked the proprietors of those papers personally.

He began with Villard of The Evening Post, then went for James Gordon Bennett, bitterly declaring that William M. Ladd is the "mortgaged mental of Morgan"; said that the tame Ochs of The Times is indebted to trusts for every word he writes; and finished up by roasting Mr. Pulitzer of The World, The World and Mr. Pulitzer's abuse, Mr. Hearst renewed his attack on Senator McCarren.

"This man McCarren," he said, "no more deserves the name of Democrat than a carrion crow deserves to be called the American eagle."

After calling Mr. Pulitzer the creator of people who used him and despised him, Mr. Hearst turned his guns on the board of election which he called a "thief of the people's rights."

He then attacked the courts of the state, and commented bitterly on the decision of the appellate division, which practically threw out the whole independence league in New York. He said that he was in the county, he said that with the assistance of his own, and with the assistance of the people he hoped to win the fight, despite powerful opposition.

THESE MEDICAL FACTS

You Can Study With Profit.

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of the transference of fluids through its component parts.

Up to a certain point the body has power to object to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable and contain no mercury, no bismuth, no injurious metallic ingredients of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved, and famous cures made every day by Dr. Hamilton's Pills, as this letter proves.

From Newfoundland, Miss Lillian Anthony of Upper Guildes, Conception Bay, writes: "In praise of Dr. Hamilton's Pills, I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples, but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Insist on having only Dr. Hamilton's Pills, 25c per box or five boxes for \$1.00, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

The death occurred of John W. Armitage to-day at the residence of his son, William Armitage, 75 McMurtry-street. The deceased was 82 years of age, and had been ailing for the past three months.

New Toronto.

New Toronto, Oct. 28.—A meeting of the board of health of Etoobicoke Township, was held in the schoolhouse, New Toronto, Saturday evening. A number of the members, including the M. H. O. Dr. Bull, protested against the epidemic as being exaggerated. Up to date, there are only 11 cases of typhoid in New Toronto and Mimico, and only one new case since Wednesday.

The board have decided to have all the lanes thoroughly cleaned, and water in the wells examined, and the factory refuse must be direct cesspools, or into the sewer system. This refuse consists of gits and casings, and is no doubt, in the minds of the majority of the board, a source of nuisance.

Mimico.

Last night fire was discovered in one of the big piles of coal at the Mimico Asylum. Water was poured on, and in a short time the danger was over. The spontaneous combustion was extinguished. The Beemer took prompt action when informed that there seemed to be a fire smouldering in the heap of coals. Inspector Rogers and other officials were also called. There was practically no damage.

East Toronto.

East Toronto, Oct. 28.—The Lady Foresters Lodge will hold a concert on Halloween in Boston's Hall. The concert will be followed by a social. Court York, No. 120, L.O.F., will give a concert at the clubhouse of the G.T.R. brake-man, who was injured while running under the doctor's care, is progressing well.

Mrs. Brown and family of Mary-street will leave in a few days for court.

W. H. Brotherson has greatly improved his property on Danforth-avenue, and has also put down a new brick walk in front of his house.

Mrs. Dr. A. F. Demory will receive on the fourth Wednesday of each month at her home, 1254 Danforth-avenue. Mrs. Cornell and family of Cleveland, Ohio, have been visiting at the home of Mrs. Cornell's parents, Mr. and Mrs. Kennedy, Ben Lamond-avenue.

The Willing Workers of St. Saviour's Church will meet at the vestry of the church on Thursday afternoon at 3 o'clock.

Work on the Toronto Type Foundry Co.'s new plant is being pushed rapidly, and within a few days the building will be placed in position. Some 600 loads were required to fill in the grounds and approaches to the works.

North Toronto.

Since building the new annex of the Davisville-avenue public school, the heating facilities are very unsatisfactory. The boiler is imbedded in a pit, which pit is filling with water to a depth of five feet, and so deep that the water even gets into the fire place. The caretaker has to employ a "floating bridge" to get to the fire place. One surface drain empties into this pit. Water is entering the furnace room thru the stone wall. To remedy this will cost probably \$500.

A course of lectures and entertainments is arranged to be held under the auspices of the Ladies' Aid of the Davisville Methodist Church. The first is to-morrow evening, at the church. When Wm. Douglas, K.C., will lecture on "The Men We Meet." Miss Clara Cawsey will take part in the musical program. Refreshments will be served.

Mr. and Mrs. Robinson of the Outlook Hotel are summoned to appear to-morrow afternoon at the county court, east side, charged with selling Hquor without a license.

Thomas Tomsett will answer to a charge of violating the health act on Thursday afternoon.

Song services were held last night at the Davisville Methodist Church. Mrs. Dundas of Toronto assisted.

The state of confirmation will be administered to a large class of candidates at St. Clement's Church next Friday evening by the Bishop of Toronto.

Town Solicitor T. A. Gibson has given a passport which, while only

LOCOMOTIVE NOT REEDED WITH NEW TYPE OF ENGINE

Steamer Motor Solving Problem of Self-Contained Unit Adopted by M.C.R.

Windsor, Oct. 27.—(Special.)—Officials of the Michigan Central and other steam roads centering here, are making plans to equip the motive portion of their system with an entirely new type of engine, the invention of two Chicago men, and motors will be constructed by the Belknap Motor Co. of Detroit.

The new engine bids fair to completely revolutionize the motive power of boats, automobiles, trucks and railroads. Most severe tests have been given it, and on each occasion it has exceeded the expectations of the builders. It is operated by the gasoline motor, with the exception that the cylinders are set at an angle of 30 degrees.

This makes it utterly impossible to "dead centre." The value of the device is in the small amount of space it occupies, its small weight, and the extremely small expense of fuel consumption.

With this engine no locomotive will be necessary. The whole apparatus fits in the small apartment in the fore end of a coach.

The engine is absolutely reversible and can be run backwards up grade with a single gear, and speed as fast forward. The saving in gasoline, kerosene or alcohol, any of which can be used, is fully 50 per cent. over ordinary engines.

The Michigan Central claims that with a motor of this type developing 144 horse power, two cars of 165 tons can be hauled on a single track, and a mile a minute. Steam can be generated in four minutes. There is absolutely no smoke, gas, or noise.

The invention was brought to the notice of the company some months ago, but Assistant Chief Engineer Robert Tom was detailed to make a complete investigation. His report is highly favorable. The Michigan Central has adopted the new system of power. It is claimed by men of authority on the subject that the adoption of a self-contained unit is solved by this invention, which has been so much desired by steam roads, competing with electric interurbans.

Unionville.

J. W. Davison, secretary-treasurer of the People's Movement Association, announces that the plowing match, dated to be held Nov. 6, 1900, has been indefinitely postponed. Money subscribed to the contest is to be returned to the donors by the parties who received the money.

Dovercourt.

The young people of the Davenport-road Presbyterian Church have organized an orchestra with a membership of twenty-five. The instruments have all been purchased and practice sessions are being held. President, Miss Stephens; secretary, Thomas Gray; treasurer, Alex. Bonner.

Dr. Cerwall will address the boys of the Davenport-road Presbyterian Church to-night on physical culture and the care of the body.

The Wesleyan Association of the Dovercourt district will meet in the new school house to-night. The special business will be "Next Year's Council."

Ringwood.

A largely attended meeting of the Ringwood Clubbers Football Club was held for the purpose of closing the business of the season. The Ringwood Clubbers have had great success considering that this was the first year of their existence. They show the club has a balance of \$38.62 on hand. The club has a large number of members, and intends to reorganize early next year. They expect to put a strong team in the field next year.

Scarboro.

The Bishop of Toronto will conduct a confirmation service in Christ Church, Scarboro, this (Monday) evening.

VETERAN SALVATIONIST DEAD

Funeral of "Dad" Watkins—Memorial Service Held.

The funeral of Robert Watkins, better known as "Dad" Watkins, Toronto's veteran Salvationist, was held on Saturday afternoon at Mount Pleasant Cemetery. The Salvation Army Band led the cortege, and the College Cadets and the City Corpse followed in full force to pay their last respects to the aged comrade.

Last night a memorial service was held at the Temple Corps, which was turned away. Brigadier Taylor conducted the service, and in endorsing terms highly commended the work of "Dad" Watkins, a simple, wide-souled Christian and a worthy example for the younger volunteers.

"Dad" Watkins was 32 years of age, and had been connected with the army for 24 years. He will be remembered by all who have seen the Temple Corps parade in the city, for he was, rather bent; a kindly face, with grizzled white beard, swinging along with an earnest participation in the service. He had been in the army since the age of 10, and when converted was under the influence of liquor. He joined the army at the age of 16, and has played in the band, led meetings, and held minor offices. As a ragman about town he was well known, but on account of ill-health he had to give up his business some years ago.

BREAD WITHOUT FLOUR MAKES HEALTHY FOOD

The Inner Bark of the Pine Tree Macerated in Water Instead of Flour.

In Kamchatka the people live in earth-covered pits. Mr. Kennan compares the sound of their language to that of water running out of a narrow-mouth jug. Their bread is made from the inner bark of the Pine Tree, macerated in water and baked without flour. They are a hardy race, the Pine keeping the blood pure, and the various organs of the body in a healthy condition. Consumption is unknown among them.

A noted specialist in throat and lung trouble, who established a camp for consumptives in the Pine Woods of Maine, and whose remarkable cures there have attracted great attention from the medical world, says that one-half ounce of the Pure Virgin Oil of Pine, mixed with two ounces of glycerine and one-half pint of good Whiskey, will heal and strengthen the lungs, break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost.

Enquiry at the prescription department of a leading local druggist elicited the information that the Pure Virgin Oil of Pine is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wood paper, showing the Pure Virgin Oil of Pine, as they will invariably produce nausea, and never effect the desired results.

DEAF MUTES OBJECT

Will Wait on Premier Re-Appointment of Dr. Coughlin.

The Toronto members of the Ontario Deaf Mute Association met at Afton Hall Saturday evening, with their president, George W. Reeves, in the chair. J. T. Shilton was appointed acting secretary. The attendance was large. Several important matters pertaining to the welfare of the deaf were brought up and discussed at length.

The resignation of Dr. Coughlin as superintendent of the Ontario School for the Deaf, after having rendered faithful service for 27 years, was discussed. CABINET OR EDITORS.

Paris, Oct. 28.—M. Clemenceau's accession to power may be called the accession of a cabinet of editors. The cabinet of 12 contains eight journalists, and two more are included among the under-secretaries. Law, the secretary of the interior, and the minister of the interior, are both journalists and doctors almost from a majority of the chamber of deputies in Paris.

A Trip Across Canada.

Frank Feigh, whose "picture talks" have for a number of years been the medium for vivid depiction of interesting scenes at home and abroad, is returning to Toronto from a tour of inspection across Canada. He was accompanied by a large audience, which was held at the Hotel Astor on Saturday evening.

The colored stereoscopic views shown numbered about 150, and were accompanied by a large audience, which was held at the Hotel Astor on Saturday evening.

Four Years for Assault.

St. Thomas, Oct. 27.—James H. Jordan, who pleaded guilty to the charge of knocking down and robbing Edward Gable, a Yarmouth farmer, near the Dominion Hotel, was to-day sentenced by Justice Magistrate Glenn to four years at hard labor in the Kingston Penitentiary. Jordan was formerly a Wabash brakeman, and has not been arrested before.

ROBERT MANTELL ASPIRES TO THE ROLE OF "BRUTUS"

Eminent Actor's View of Shakespeare Characters and Stage Presentation.

Robert Mantell, who begins to-night a Princess Theatre engagement in "King Richard III," is registered at the Rossin House. He has a big company with him, which he will have in rehearsal night and day, when not playing for the reason that they are preparing for a long New York City engagement to begin next Monday night.

Mr. Mantell has recently added "Iago" and "Shylock" to his repertoire; indeed, he staged "The Merchant of Venice" as recently as last Friday night in Buffalo, and is desirous of smoothing out all the rough places then revealed, before he repeats the comedy here on Friday night.

Mr. Mantell chatted interestingly with a World man last night.

"My success last year—and it was a foolish modesty that should make me use another word than 'success'—whether deserved or not—has entailed a vast amount of hard work," he said. "I attribute the so-called 'revival' of interest in Shakespeare's plays to nothing more than the coming-up of the maturing of a generation since the passing of Lawrence Barrett and the retirement, too soon followed by the death of Edwin Booth. It must be borne in mind that this new generation of theatregoers—it is now 16 years since the end of that glorious combination of Booth and Barrett—observed the great tragedies and the epic plays, like 'King Lear,' in stage representation. So, far as I am concerned, I believe my only part in the 'revival' has been that of my being a very fortunate man, indeed, to have happened along with my production of 'King Richard III' and 'Othello' at the right time—the 'psychological moment,' as we have grown too fond of saying, when we wish to be impressive—and I think."

"Another two years, or three, and it may be possible for an actor of Shakespeare to go along profitably in one season with one tragedy. I now, however, it seems necessary to give a repertoire. It was not my idea, but William A. Brady's, that we should stage 'King Richard III' and 'Othello' in the same season. I had never seen it adequately acted save by the elder Salvini, and I was impressed and awed by Charles Lamb's forthright declaration that the Lear of Shakespeare 'cannot be acted.' As a matter of fact, Lamb had never seen it even tried. The tragedians between Shakespeare's death and Barrett had acted the foolish and inconsequential Tate version, wherein there was a happy ending, with Edgar and Cordelia happily married, and the final curtain I have found an eager, earnest public for the tragedy, however, and an aching heartily glad that I took Mr. Brady's advice in regard to the production of 'King Richard III' and 'Othello' in the same season.
