LIEUT. WOOD, A CANADIAN, WAS KILLED IN FIGHT WITH BOERS.

Senate Bldg Room
11000
SENATE FLOOR

First Graduate of the Royal Military College at Kingston Meet Death on the Field of Battle —Relatives at Halifax.

Further Details of the Skirmish Near Belmont on Friday—Boers Fighting for Cattle at Kimberley—Mafeking Was Bombarded Without Casualties—Five Troop- ships Arrive at Cape Town—White Still Holds Out at Ladysmith.

The Allan Line Sardinian, with the Canadian contingent for South Africa on board, has arrived at St. Vincent, Cape Verde Islands, en route for Cape Town. The length of the South African campaign, according to British military experts who are figuring with the little news at hand, depends on the question whether or not General White will be able to keep Ladysmith together until Buller's relief forces arrive. It is claimed that Gen. Joubert will concentrate all his forces and make an energetic effort to bring about the fall of Ladysmith. If Gen. White is unable to hold out, he may attempt to retire south, but this will mean great loss. The hope is that he will be able to hold his position. Commander-in-Chief Lord Wolseley, when interviewed on Saturday, said the War Office had no anxiety about the position, and that he thought the worst part of the campaign was over.

As to the strength of the Boer forces there is probably no better judge than Mr. J. B. Robinson, the South African millionaire, who says that the two Republics cannot put more than 25,000 or 25,000 men in the field, but the Boers may have in addition probably 3000 mercenaries. He says, however, that they will fight to the end with great tenacity. General White is said to have a force of 12,000 men at Ladysmith, while the total Boer forces on the neighboring hills were at the last estimate 17,000 men.

A despatch from Durban says the warships there have landed a naval brigade of 20 guns for the defence of the town. This looks as if Buller was preparing for any eventualities. It also appears from the tenor of the despatch that the general did this simply to overawe the Dutch residents of the vicinity.

The British forces under Col. Gough, with two squadrons of the 10th Hussars, a battery of field artillery and one and one-half companies of mounted infantry, while reconnoitering about nine miles west of Belmont, ran across the enemy 700 strong. While the artillery engaged the enemy the mounted infantry were sent to the enemy's flank to discover their laager. In this operation Col. E. Keith-Falconer of the Northumberland Fusiliers was killed and Lieut. C. C. Wood of the North Lancashire Regiment was so badly injured that he died on Saturday. Lieut. Wood is a native of Halifax, N.S., and a graduate of the Royal Military College, Kingston. He was a grandson of Jefferson Davis. Lieut. Wood is the first graduate of the Royal Military College ever killed in battle.

The Boers have made several attacks on the outposts at Kimberley, but the casualties of the British were light, while the enemy are said to have lost heavily. These attacks seem to be made for the purpose of "lifting" cattle.

There has been some hard fighting at Mafeking. For several days the Boer forces shelled the town without damage. They were finally repulsed, and it is reported that 50 of the enemy were left dead on the field.

The War Office announces that these troops have arrived at Cape Town since Friday: Gascon, with 2nd Coldstreams and lines of communication; Lesmore ranno, 3rd Brigade staff, 1st Highland Light Infantry, and the Haverdon Castle, part of the 2nd Surrey; Antrim, 3rd Brigade staff, 1st Highland Light Infantry, and the Haverdon Castle, 2nd Royal Irish Fusiliers. The Rosslyn Castle arrived at Durban with troops.

London, Nov. 13.—(4.30 a.m.)—This morning's news from the seat of war in South Africa continues fairly satisfactory. The official cables are not very detailed with regard to the Belmont incident, which, except for the loss of Col. Keith-Falconer and Lieut. Wood, was not a very serious affair.

British Holding Out Awhile.

There are signs of greatly increased Boer activity in Natal, and along the western frontier. All the despatches tend to show that the British are holding out a while. Col. Baden-Powell reports that all was well at Mafeking on Nov. 6, Ladysmith's latest date is Nov. 9. While nothing definite is heard from the latter point and confidence is felt in General White's ability, previous experience having shown that the Boer artillery is not very effective, it is beginning to be proved that the acquisition of artillery which has destroyed

BRITISH NOBILITY IN FRONT.

Why Great Britain is a Nation to Be Feared—Neither Laggards in Love Nor in War.

London, Nov. 12.—Among the nobles who are leaving for the seat of war is the Hon. Gerald Ward, aged 22, son of the Countess of Dudley. He married Lady Evelyn Crichton, aged 21, Tuesday last. Among other departures are Lord Howard DeWald, who had leave for a week to attend his father's funeral Wednesday. Lady Evelyn Crichton has also two brothers at Orquay going to the front.

The Marquis of Dufferin has three sons on the Transvaal border and in Natal. The Marquis of Tullibardine, heir of the Duke of Athol, who married a most beautiful girl, Miss Ramsay, two months since, also leaves with the troops. The three Yorks, brothers of the Duchess of York, are already in South Africa. Lord Edmund Talbot, only brother whose sister died yesterday, has gone with the 10th Hussars.

Two sons, next heirs to Lord St. Clair, of the oldest barony in Scotland, are there, as well as the two only sons of the War Secretary, the Marquis of Lansdowne, while the Duchess of Buccleugh has two sons and a son-in-law at the front.

The Earl of Longford, married Wednesday to the daughter of the Earl of Jersey, sails with the Guards for Cape Town. The Duke of St. Alban's brother and heir is in Kimberley. The Duchess of Roxburgh has two sons with White's force at Ladysmith.

The Duke of Portland has a brother in Mafeking, while the Duchess's brother sails to-day. The Earl of Durham has two brothers there, one being in command of the naval contingent at Ladysmith, where the Earl of Derby has two sons.

Lord Edward Cecil, Lord Salisbury's third son, is in Mafeking, and Lord and Lady Tweedmouth, Lord Randolph Churchill's sister, took leave of their only child to-day, the Hon. Dudley Marjoribank.

In fact, there is hardly an aristocratic family with a son which has not one engaged in some way in the warlike operations in South Africa.

The former mobility of the Boer forces has also failed to give them any compensating advantage. On the contrary the reverse is the case. It is held here that if the Boers had not been hampered by the transport of heavy guns and their reliance on light places, General Joubert might ere this have been in Pietermaritzburg. Unless the Boer heavy artillery justifies itself by reducing Ladysmith, it will again hamper him in the eventual retreat from Natal when Gen. Buller sends the relieving force.

Propose to Attack Queenstown. It is reported that the five State forces are working slowly toward Dordrecht, with a view of attacking Queenstown, and cutting off the towns in the northern districts of Cape Colony.

Wounded, Recover Quickly. The wounded are recovering in a remarkable manner. The Mafeking wounds are small and heal quickly. Many of the wounded are applying for permission to return to the front.

ANOTHER COLONEL KILLED.

Col. C. E. Keith-Falconer, of the Northumberland Fusiliers Killed in a Skirmish.

London, Nov. 11.—The War Office has received from Gen. Buller the following despatch: "Cape Town, Friday Night, Nov. 10.—A reconnoitering force from the Orange River had a skirmish with the enemy to-day about four miles east of Belmont. Casualties in the Northumberland Fusiliers, Colonel C. E. Keith-Falconer killed; Lieut. F. Bevan and H. C. Hall wounded; in the North Lancashire Regiment, Lieut. C. C. Wood and two privates wounded. This is the only report to hand."

How It Occurred. London, Nov. 11.—The War Office has received this despatch from Gen. Buller, under date of Cape Town, Nov. 11, after-noon: "With reference to my telegram of the 10th, Col. Gough, with two squadrons of the 10th Hussars, a battery of field artillery, and one and one-half companies of mounted infantry, found about 700 of the enemy with one gun in position about nine miles west of Belmont. He engaged the enemy with his artillery and sent the mounted infantry to the enemy's left flank to discover their laager. "The losses reported yesterday occurred during this operation. "Col. Gough engaged the enemy for about three hours and then returned to camp. "The death of Lieut. Wood has just been reported."

FURTHER DETAILS FROM COL. GOUGH

Boers Were at Their Old Tactics—The Hills Were Full of Sharpshooters.

London, Nov. 12.—The War Office this morning issued the following official despatch from Cape Town, dated Sunday, Nov. 12: "Col. Gough, at Orange River, reports that during the reconnaissance of 13 miles, to a point nine miles west of Belmont, on Nov. 10, the officers of the patrol first came on a Boer position, then upon a great semi-circular ridge, standing out into a plateau. The mounted infantry on Boers develop their strength by demonstrating with two squadrons of the 9th Lancers and a field battery on the left wing, with one and one-half companies of mounted infantry on the right wing, and with artillery in the middle of the plateau with infantry fire. The enemy began by firing at our cavalry from a gun at the north end.

Hills Full of Sharpshooters. "As the cavalry, in open order, began to circle around them, the hills seemed full of sharpshooters. The mounted infantry endeavored to outflank the enemy's left, in order to discover the laager, bombing under a heavy and unexpected fire from a few skirmishers.

The Enemy Withdrew. "Our guns fired several apparently effective shots, but the enemy did not respond, having withdrawn with the wounded. The enemy did not fire on an ambulance. Col. Gough withdrew his force after a demonstration lasting three hours, and returned to camp the same afternoon, near Orange River.

Wounded at Orange River. "The guns and a few horses were brought in by rail. The wounded were sent to Orange River immediately after the action. The enemy's strength appeared considerable, apparently from one gun, under David Ebbes and P. Van der Merwe."

SARDINIAN HEARD FROM.

Allan Liner With the Brave Canadian Boys on Board Has Arrived at St. Vincent, Cape Verde Islands.

London, Nov. 12.—The Allan Line steamer Sardinian from Quebec with the Canadian Contingent for South Africa has arrived at St. Vincent, Cape Verde Islands.

The Sardinian left Quebec on Oct. 30th, at 4.15 p.m. She has still 4400 miles to travel to reach Cape Town.

VAN HORNE ON HIS DIGNITY.

Tarte Has Been Trying to Get the Railway Magnate and Hon. Mr. Blair to Make Up, BUT SIR WILLIAM HAS BEEN COLD.

President Shaughnessy Also Has Not Been Running After the Minister of Railways.

Montreal, Nov. 12.—(Special.)—There have been great doings here in Government and railway circles. For months past the relations between the Canadian Pacific Railway and the Canadian Government, especially the Department of Railways and Canals, have been strained to the breaking point, and even politicians like Hon. Mr. Tarte have felt that if Mr. Blair did not give his good behavior pretty soon there would be open warfare and along the lines of the railway. Sir William Van Horne and Sir Wilfrid Laurier's Minister of Railways and Canals fell out a few months ago, and the Liberal Government came to power and the "straw" has been kept up ever since. Mr. Blair came up from New Brunswick resolved to sit down hard upon the big railway, and, although he has worked out the campaign on these lines he has got some terrible hard knocks in return.

Sir William Silently Contemptuous. Sir William Van Horne treated Mr. Blair with silent contempt, but President Shaughnessy, it appears, has adopted ferent tactics and a little bird says that more than once the Government has been made to feel the power of the big railway corporation. "Things had come to such a pass that Mr. Tarte attempted to bring about a reconciliation. The Minister of Public Works had a two-hour interview with Mr. Blair, which, it is said, was a failure. Mr. Blair, it is said, refused to get the president of the Canadian Pacific, but to no avail, and Sir Wilfrid Laurier's interview was proceeding a little way down the street.

DEAD AT JOHANNESBURG.

Charlie Trimble, a Well-Known Former Napanee Boy, Meets an Accidental Death.

Napanee, Ont., Nov. 12.—(Special.)—News has just reached here of the accidental shooting of Charlie Trimble at Johannesburg, South Africa, on the 5th of last week. He was fatally wounded by his revolver falling from his belt and exploding. He left here about seven years ago and was connected with one of the largest mines of Johannesburg. He was a great favorite here, and his untimely death has caused great sorrow. He was about 26 years of age. Mr. Richard Trimble of Toronto is his eldest brother.

WINTER IS HERE EARLY.

Sleighting at Saranac Lake, in the Adirondack Region.

Plattsburgh, N.Y., Nov. 12.—The first genuine snowstorm of the season prevailed throughout the entire Adirondack region and continued here at Saranac Lake, on Saturday. It began snowing here at noon and continued throughout the afternoon and evening. At Saranac Lake snow fell to make good sleighing, and at Lyon Mountain and Loon Lake nearly two inches fell.

Men's Fur-Wear at Dineen's.

Men's fur caps, fur collars, fur gauntlets and fur-lined overcoats are conspicuous features in the men's hat department at Dineen's, and, with no telling how soon a sudden change to zero weather will occur, this suggestion may come at a most timely moment to the first class of real winter. As the largest manufacturing fur house in Canada, Dineen's are able to produce men's fur-wear in the very best fur qualities at prices no higher than other dealers ask for the ordinary factory-made stuff which the wholesale jobbers supply.

Funeral Building in Alaska.

Seattle, Wash., Nov. 12.—Capt. W. B. Abercrombie, U. S. army, builder of the military road from Port Valdez to the interior of the Copper River country, returned on the steamer Alaskan. He says he has completed the highway to within eight miles of the coast. The Government, Capt. Abercrombie says, can complete the road to the Yukon next season.

EVIDENTLY A MURDER CASE.

Well-Dressed Man Found With His Face Slashed From Mouth to Ear.

Tramps Camped Near the Spot. Evidence of a Struggle—Open Knives and Razor Case Found—One Arrest.

Forest, Ont., Nov. 12.—This morning the body of an unknown man was found beside of G.T.R. track, half a mile west of Forest. The left side of his face had been cut open from the mouth to the ear, and the man had apparently bled to death. The body was found in a thicket of brush in the woods near by a party of tramps who had camped last night, and near that spot were indications that a struggle had taken place, two open knives and a razor case being found there, and a large clot of fresh blood in the grass.

He Was Well Dressed. The dead man was well dressed in navy blue coat and vest, blue duck pants and good underclothes. He was clad in light blue shirt, white necktie, and white socks. He had a watch on his left wrist, and a pocket watch in his pocket. He was wearing a hat, and a pair of shoes. He was wearing a watch on his left wrist, and a pocket watch in his pocket.

One Tramp Arrested. Three tramps were seen here together last night, and now in the lock-up here. One of them was seen near the spot where the man was found. One of the men wanted was seen near Orono at noon today, heading for Hamilton. He was wearing a hat, and a pair of shoes. He was wearing a watch on his left wrist, and a pocket watch in his pocket.

Monuments. Finest work and best designs at lowest prices. The McIntosh Granite & Marble Company, 119 and 121 Yonge-street, Toronto (terminal Yonge-street car route), Phone 424.

DEATHS.

BURNS—At his late residence, No. 369 Bathurst-street, on Sunday, Nov. 12, James Burns (public school trustee), aged 48 years.

Funeral Tuesday at 2.30 p.m. Friends cordially invited.

ROBSON—In this city, on the 12th inst., Thomas Robson, in the 13th year of his age.

Funeral from the residence of his mother, 157 Brunswick-avenue, on Tuesday, Nov. 14th, at 2.30 p.m. to St. Michael's Cemetery. Friends and acquaintances please accept this intimation. Refreshment papers please copy.

HARNETT—On Nov. 12th, at the residence of his grandmother, 168 Niagara-street, a James Harnett, beloved son of John Harnett, aged 2 months, 19 days.

Funeral from above address on Monday, 12th inst., to Mount Pleasant.

MCCLEARY—Accidentally shot on Friday, Nov. 10, 1899, John McCleary, aged 32 years.

Funeral from his late residence, corner of Davenport-road and Lansdowne-avenue, Monday, Nov. 13, at 2 p.m.

O'REILLY—At his late residence, 126 Chestnut-street, on Monday morning, Nov. 13, 1899, James O'Reilly, aged 14 years.

Notice of funeral later.

WINTER—On the 12th inst., Chas. R. Winter of Toronto, in his 72nd year.

Funeral from the residence of his mother, 300 College-street, on Tuesday, 14th inst., at 2 p.m.

A GREAT STRUGGLE COMING IN THE EAST

Japan and Russia the Principals and Corea the Bone of Contention.

RUSSIA ENTRENCHED THERE

Could Watch Every Line of Japanese Communication and Cut Off Her Markets.

BUT IF JAPAN GETS THE CONTROL she Would Have Harbors More Advantageous Than Port Arthur Gives to Russia.

London, Nov. 12.—Amid much wild talk concerning the relations of Russia and Japan, The Times' Seoul correspondent writes in a suggestive fashion, which is worthy of consideration. He argues that there is going to be a great struggle in the far East, chiefly between Japan and Russia, on account of the trade of that territory. Practically Japan's only market is the United States, and this trade is destined to drop as prices begin to rise in Japan and the country becomes more industrial.

This being so, the correspondent argues, Corea is the key to the question. If Russia is thoroughly entrenched there she will be able to watch every line of Japanese communication with the Continent, cut off her Japanese autonomy. But if Japan has control of the peninsula she will have a more advantageous position in the Yellow Sea than Port Arthur gives to Russia, on account of the port of Mianpoo, for example, is one of the best harbors in the world.

Where the Danger Lies. Thus Japan, while vitally interested in Corea, must desire a disposition of Corea before there can be any settlement. If the Chinese matter is forced to the front, Japan will be compelled to hurry a decision as regards Corea. Herein lies the danger, as it is not likely that Russia will care to share her domination of the Yellow Sea with an imperial country which bids fair to become a great naval power, while holding what is considered by the world as the most important position in the world.

Hurry Order for a Battleship. London, Nov. 12.—Hurry orders have been received by the builders of the Japanese battleship, now in process of construction at Yokohama, to complete the vessel as speedily as possible. The new ship, which will be one of the largest afloat, is to be finished by Jan. 1, 1900. It is believed that these instructions are the result of the increasing tension between Japan and Russia.

Uneasiness FEELING AT SHANGHAI. A Large Russian Fleet Intends Wintering at Nagasaki, and Japan Don't Like It.

London, Nov. 13.—The Shanghai correspondent of The Daily Mail says: "An uneasy feeling regarding the relations of Russia and Japan is spreading here. There is no doubt that Japan is practically allied with China, despite the degradation which the Empress Dowager inflicted upon the Chinese envoys to Japan on their recent return. This was merely a tactical move with a view of appeasing Russia."

A large Russian fleet intends wintering in Nagasaki Harbor, and some reasonable indications that a struggle will ensue between Japan and Russia, the commander of the German squadron in the North Pacific, is nearly declared the course of a conversation that the Japanese army was in splendid condition from the European point of view. The Daily Mail says: "We understand there is considerable censorship on cablesgrams from Japan."

Able to Sit Up. Mr. Timothy Eaton, who was hurt recently in a runaway accident, is now able to sit up in bed.

Fair and Chilly. Meteorological Office, Toronto, Nov. 12.—The lower layers of the atmosphere were developed into a severe storm, which is now over the Gulf of St. Lawrence, and is accompanied by generally fine and cold weather.

Minimum and maximum temperatures: Victoria, 48-56; Kaniopsis, 42-50; Calgary, 14-20; Qu'Appelle, 28-32; Winnipeg, 18-24; Port Arthur, 14-30; Pelly Sound, 10-32; Toronto, 25-35; Ottawa, 18-29; Montreal, 20-28; Quebec, 22-30; Halifax, 16-32.

Ottawa Valley, Upper and Lower St. Lawrence—Fine and cold; stationary or slightly higher temperature.

Probabilities. Lower Lakes and Georgian Bay—Moderate winds; mostly fair; slightly higher temperature.

Gulf—Northerly to westerly gales, decreasing by night; fair and cold; Tuesday fine and cold.

Lake Superior and Manitoba—Moderate winds, cloudy to fair; a few light scattered showers or snow or rain; stationary or slightly higher temperature.

On page two will be found a description of three exclusive styles in boys' suits shown today for the first time by Oak Hall Clothing, 115 King-street east and 116 Yonge-street, Toronto.

A SERMON IN THE BOYER WAR

Rev. Neil McPherson Told Why He Believed the British Are in the Right.

There is no lack of expression, no lack of character or individuality in our clothing. The only trouble is some of our special lines don't get half enough show. Take our boys' suits for instance, how few of you realize what a fine lot we have. You can't make the complaint of any of our garments that can be said of ordinary ready-mades, that they look all alike. Our designs are new, original and exclusive.

To-day we put in Stock Three of the Newest Novelties This Season

Boys' All-wool Olive Shade Tweed Suits, check pattern, Italian linings, vest, serge front with silk, star, white peaked buttons and four rows of silk braid, for ages 4 to 10. 5.00

Boys' Navy Blue Worsted Serge Suits, vest style with double-breasted front, serge front with silk, star, white peaked buttons and four rows of silk braid, for ages 4 to 10. 5.00

Vestee Suits, made from cheviot finished serge, in same style as above, for ages 4 to 10. 4.00

These three suits are the noblest shown this season, and will please those who appreciate exclusive styles. On sale at both stores.

OAK HALL CLOTHIERS.

THIS IS A PROPER MOVE.

Lock Up All Suspicious Characters - The Work Begun on Sunday.

The police intend to lock up at once every suspicious and professional character found in the city, as a precautionary measure, before they can get any chance to carry out some scheme, the particulars of which have come to the ears of the detectives within the past few days. The Varcoe tragedy, the authorities say, will not be repeated within the city, if they can prevent it. All that is needed now is for the magistrate to put the Vagrancy Act into force and the detectives will do the rest.

The officers yesterday did not observe the Sabbath, but spent the day looking up some men whom they claim have no visible means of support. The prisoners captured yesterday are George Frough, Frank Thompson, Michael Burns, George Wilson, Harry Watson, William Penner, Tom Hastings and Frank Donovan. Detectives Burrows, Porter, Cuddy, Forrest, Davis, and P. C. Craig made the arrests. The police say they will add more names to the list to-day.

No Game on, But Names Got. Before the sun went down on Saturday afternoon Inspector Hall and Detective Hale paid a visit to a room kept by James Newman in Richmond Chambers. The officers thought that a "game" was in progress, and, although they failed to find any gambling outfit, the officers succeeded in getting the names of an even dozen young men who will probably find their way into court.

Did Morrow Do It? Detective Davis on Saturday arrested William Morrow of 874 Dundas-street on a warrant sworn out by Headmaster Nix of the Toronto Railway Company, charging the prisoner with robbing a fare box. Morrow was a motorman on the Queen and Dundas route, and it is said he used a duplicate key to get at the money.

Rolled in Apalling Fashion. The Pennland careened to starboard at an angle of 30 degrees. Her roll was so violent that it was thought for the moment that she must certainly founder. All that afternoon the captain's party was kept busy in the most appalling manner. Every precaution had been taken by Captain Neilson. He had had sparring stations on the deck, and the cabin awaiting his orders. Their duty was to arouse the passengers in case the ship should founder. The captain's party, such as the case, however, it is certain that all would have been lost.

Crew Brave and Cool. Though these awful hours Chief Officer Leander and Second Officer Turner never left their post on the bridge. Sea and wind were so bad that it was necessary to lash them for safety. Captain Neilson never flinched, but went among his men giving orders coolly and encouraging them in their work. If every man remained at his post the ship might yet weather the storm. The passengers, too, were in the captain's mind. Some way must be found to quiet their fears and compose them. Gathering a few of them about him, he started to sing, "Clementine, My Clementine." The cabin passengers joined in the refrain, and the noises from the steering gear lessened.

The Power of Song. Then, when the ship was headed right and the first cruel anxiety was over, the sailors instituted an impromptu music. They got some of the passengers to assist them, and a number of gentlemen, who led in the singing of old tunes, in which most of the passengers joined. The ladies were backed either in showing their nerve. They played eucbar and "hearts are trump" from their lips as though they were in some elegant drawing room. Instead of the cabin of a ship in imminent danger of foundering, the emigrants sang and chanted of romance as they were buffeted by the perils of hurricane and tempest. The music had a soothing effect on the women, clothed in the most enticing of Indian wardrobes, and it gave pleasure to the one of the many attractive things that this combination offers.

Why not use the best when just as cheap? English Baylacking goes further and lasts longer than any other.

Bijou Theatre. At the Bijou Theatre on Monday evening, Nov. 13, the episodes embraced in the capture of Captain John Smith by the Indians during his expedition to Poconahontas, the Indian princess, will be presented. Frank B. Carr's Lillian is the Indian. The play is a masterpiece of charm and romance as assisted by the belted by the perils of hurricane and tempest. The music had a soothing effect on the women, clothed in the most enticing of Indian wardrobes, and it gave pleasure to the one of the many attractive things that this combination offers.

Heroina Down Below. In another part of the vessel there was being enacted during all this time as great heroism as was shown by the officers and crew upon the deck. The men in the engine and fire rooms the others and firemen were hanged about by the rolling of the vessel until they were nearly as blue as the sky. They were in some elegant drawing room. Instead of the cabin of a ship in imminent danger of foundering, the emigrants sang and chanted of romance as they were buffeted by the perils of hurricane and tempest. The music had a soothing effect on the women, clothed in the most enticing of Indian wardrobes, and it gave pleasure to the one of the many attractive things that this combination offers.

Just One of a Pattern. Among the quiet and gentlemanly but rich effects in the importation of Henry A. Taylor, of the Royal Hotel, is a pair of trousers and three hundred suit lengths there are not two alike.

CANADIANS NOW ON THE WAY.

Will March With the Victorious British Army to Pretoria-General News Notes.

Hamilton, Ont., Nov. 12.—(Special.)—Rev. Neil McPherson of St. Paul's Church preached on the South African war this evening. War, he said, was a repulsive thing, but there was something more terrible than war, when men meekly said, "Peace, peace!" when there was no peace.

The surgeon's knife was painful, but more dangerous were ignorance and hoodlumism. The events that led up to the present war, and while giving the 1800 credit for being honest in their convictions, he felt that justice and right were on Britain's side. The righteousness, a proper franchise, progress, and the highest form of civilization and Christianity. He spoke of the Canadian who would march with the victorious British army to Pretoria.

Fire and Police Points. This afternoon a little child playing with matches caused a fire in the residence of William Fox, 10 Florence-st. The child was not burned, but Mr. Fox was rescued from the flames, was the fire department called out. The fire was extinguished about 8:30. Some persons turned a second alarm and saw the engine went to the fire. Of course the call was a mistake.

This morning Serg. Finch and a posse of policemen made a raid on Mrs. Anderson's unlicensed hotel, York-st., near the high credit of saving the steamer from destruction.

Captain Neilson said that not a detail was present at No. 2 Police Station when he was arrested. He said he was present at No. 2 Police Station when he was arrested. He said he was present at No. 2 Police Station when he was arrested.

Had Suffered Some Time From Asthma and Passed Away Rather Suddenly Sunday.

School trustee of Ward No. 5, passed away yesterday afternoon, at his residence, 127 West Jones one of his most prominent residents, died at his home, at 127 West Jones, at 127 West Jones, at 127 West Jones.

Had a Heavy Cargo. On Oct. 23 the Pennland steamed from the harbor of Liverpool. She carried a unusually heavy cargo, and was crowded with passengers. From the very start the voyage was unpropitious. Every precaution was taken to weather a gale of wind and rain. The barometer remained about normal and no apprehensions were felt by the officers. The Pennland was struck by a heavy sea on Friday, and was thrown on her side. The captain was thrown overboard, and the ship was thrown on her side. The captain was thrown overboard, and the ship was thrown on her side.

“MELTOSH,” THE BURGLAR AND MURDERER, IS DEAD!

Slayer of Poor Varcoe Declined to Undergo an Operation Which Might Have Given the Law a Chance to End His Career—Who knows the Dead True?

Those whose duty it is to frequent the wards in the General Hospital will long remember the scene enacted at that institution in the 40 hours after the burglary and murder committed at the home of J. R. Varcoe, 182 East Queen-st., at 2 o'clock on Thursday morning last. In that very short period John Edward Varcoe, the victim of the tragedy, and one of his assailants, Joseph Melintosh, both died from the effects of their bullet wounds. Widely different were the last hours spent on earth by the two men, Varcoe asking forgiveness for his assailants and Melintosh all the time uttering curses against those whom he had wronged.

Melintosh Delirious. During the whole of Friday and up to the death of the murderer, Melintosh remained delirious. The wound made by the bullet, eventually resulted in death. No ante-mortem statement was taken. The coroner's inquest was held in the afternoon, and the body was buried in the cemetery at St. Michael's.

Rev. Frederick Bell, curate of St. Matthew's Church, was at the death of the prisoner. Melintosh talked quite freely to the minister, but it is not known what he said. He was in the act of replying to the minister when he was struck by a bullet. He was in the act of replying to the minister when he was struck by a bullet.

Minor Matters. The police went to the commissioners to supply the details of a case. The case was a minor matter. The police went to the commissioners to supply the details of a case.

At 3 o'clock in the afternoon the inquest was held in the theatre of the hospital. There were present watching the proceedings, Crown Attorney Curry, Deputy Cudworth, Detective Forester, Sergeant Varley, P. C. Mackie, P. C. O'Reilly, and John J. Davidson was chosen foreman of the jury, and the remainder of the jury were selected from the audience.

OKANAGAN FREE GOLD MINES

Trip South from Fairview Over Kruger's Mountain to the Lower Similkameen.

ORE BODIES NOW OPENED UP.

Mill Now Turning Out Bullion and Company Paying Good Dividends—Value and Treatment of Ore.

Pacific Mining Letter No. 23—Relating chiefly to properties in the Similkameen Valley.

Oroville, Wash., Oct. 20.—Upon leaving Fairview Camp, in Southern British Columbia, one may, by traveling some few miles in a southerly direction, along the Okanagan River, come upon another mineral belt, attracted by the prospect from the mining country.

Some distance south of Fairview the broad sandy valley of the Okanagan abounds in the presence of siliceous deposits manifesting itself in the whitish scum which covers the surface of the pools found here and there.

In the midst of this low plain, which is bounded on either side by mountainous walls of considerable altitude, at the base of which the festive rattlesnake disposes itself, the river broadens out into a piece of water which is a sportsman's paradise by the name of Okanagan Lake, and from its western end rises Kruger Mountain, a hill, which, judging from its surface showings of ore, will be heard from in a substantial way. The deposits in this camp are both gold and copper bearing.

Kruger Mountain Camp. What is at present the most prominent prospect on Kruger Mountain has been recently developed by Mr. George R. Naden of Greenwood for a good number of years, and is now being worked by John Fisher and H. A. Bowerman by name. This prospect covers the divide of the mountain, and extends across both of which has been traced for several hundred feet an extensive iron capping. In several places where this iron cap has been pierced, carrying pyrite and copper pyrites, has been opened up.

I am given to understand that the mill handles 24 tons of ore every 24 hours, and that most excellent results have been obtained from it. In fact I am informed that 30 per cent of the values are saved in the batteries, 37 per cent on the plates and 10 per cent in the concentrates, or 77 per cent in all. The tailings carry about one-third per cent of the values, or something like 40 or 50 cents to the ton as waste. These excellent results were a surprise to the management itself, for, owing to the indicated presence of pyrites, it was supposed that the ore would be so largely free milling. The absence of copper, silver and galena in the rock, which is a very favorable feature, is apparent.

Results of First Mill Run. The above estimation of what the mill will do are based upon the results of the first clean-up, which was made on Sept. 3. A run of 27 tons, during which about 100 tons of ore were crushed, yielded \$900 in bullion, or \$10 to the ton. These results are due to the fact that the property is under the management of Mr. Alf. S. Edgcombe, an English mining engineer, who has spent his life in operating properties in most of the Australasian colonies. In Australasia, his is the cheapest mining and milling in the world is done, and that is the way Mr. Edgcombe got his experience. He is, moreover, assisted by Mr. W. W. Workburn of Baker City, Oregon, a mill man of experience. I refer to the mill as being supplied with better transportation facilities and the management carries out its plan of increasing its scale of operations. It should get even much better results than it has already secured, and the present with thirty men employed, the running expenses of the corporation are something like \$2000 a month, but a large portion of this expenditure is due to the cost of getting in supplies, which have to come either by way of Sicamous, on the main line of the C.P.R., Okanagan Landing and Penton, or by way of the Northern Pacific to Wenatchee, and thence by wagon road nearly ninety miles. The extension of the Columbia and the Western C.P.R. through Camp McKinney past Fairview should bring steam cars within twenty miles of the mine, but it is hoped that better shipping facilities will be afforded by the construction of a railway line which has already been surveyed to run up the Similkameen canyon and tap the big copper deposits in the north portion of the Similkameen district of British Columbia.

To Operate by Electricity. Another expensive item to the company is its wood supply, which it has to haul several miles by wagon road from the hills on the other side of Okanagan Valley south of Oroville. On these hills, by the way, the company has taken up, in addition to its original five claims, other locations. These were secured chiefly for fuel, whenever an appreciable amount is required. The company has a plan to get over the fuel question by installing an electric plant with which to operate its machinery and mill. On the Similkameen River, a mile above the mine, the company has secured a site for a dam, and the dam is now generating 50,000 horse power. It is hoped this to get over the inconvenience of using two and a half cords a day of wood, which costs \$5 a cord.

Mill and Mine for \$175 a Ton. When these favorable developments are consummated the company expects that it will be able, with 20 or 30 stamps, to mill its ore at a cost of 10 cents, instead of \$1.30 a ton as at present. Besides this, the management has indicated a plan to reduce (and that within a few weeks) the cost of mining to \$1 a ton, thus making the net proceeds of the mine, after deducting the cost of mining, 50 cents a ton. The completion of the tunnels now being run is depended upon to secure the reduction in the cost of mining referred to.

The concentrates constitute such a comparatively small item that the company will not install the cyanide plant which it has on the ground. The quantity of concentrates is so small that they will be shipped to the mill. This smallness of quantities should help the company to pay good dividends.

Dividends Being Paid. The corporation was first promoted by the late Dr. Paul Langhammer, Mr. M. F. Edgcombe and John Gordon Langley. A. S. Edgcombe is the president of the company, and the secretary is J. T. Walton. As inasmuch as the property has been under development only nine or ten months, the management has had to overcome numerous difficulties. The property secured in the development of the property at this date is considered remarkable.

Frank D. L. Smith.

RICH FIND NEAR RAT PORTAGE.

Two Prospectors Made an Accidental Discovery. Another Man Found the Property.

J. T. Walton, a prospector and miner, has written to The World regarding a rich find of gold, which was accidentally discovered near Rat Portage a short time ago.

THE COMMUNICATION IS DATED FROM THE VIRGINIA MINE AND IS AS FOLLOWS:

"I thought I would send you some news of the rich gold and northern of Sturgeon Lake, as I thought it my duty to do so for the benefit of our country here. You have helped us by your valuable paper, which I have sent to me from Rat Portage. While two prospectors were crossing down the side of the hill. In falling in removed the mass for some twenty feet and uncovered a fine vein of quartz, liberally peppered with fine gold. But for this little incident, I suppose, this rich vein would not have been found. The prospectors traced the vein 500 feet and about 8 tons were taken in the contact. They then went to Rat Portage as fast as they could to take up the land, but found it was already taken by a man named Mitchell. If Mitchell has it, he has got the richest find in this country. It is only a short distance from the rich Virginia mine and other good properties."

OVER SIX THOUSAND TONS.

Last Week's Output of Ore From Rossland Camp Was the Largest on Record.

A \$4000 GOLD BRICK ON SHOW.

The Result of the Okanagan Clean-up for October—Other Mining News.

Rossland, B.C., Nov. 11.—Last week's shipments of ore from Rossland exceeded 6000 tons, the greatest output for any one week from the camp. During the week just closed 5536 tons were sent down, making a daily average of over 700 tons. These figures speak for themselves and require no comment.

McCree, formerly of the Le Roi mine and now in charge of the giant property of the Okanagan Free Gold Mines, has been exceptionally busy at a local store, creating a good deal of interest.

A \$4000 gold brick, representing the October clean-up of the Okanagan Free Gold Mines, is on show at the local store, creating a good deal of interest.

A detailed approximation of the camp's output for the week ending Oct. 11 and 12 is as follows: Le Roi, week 2176, year 78,856; War Eagle, week 2250, year 54,088; Iron Mask, week 180, year 473; Okanagan, week 1088; Deer Park, week 131; Centre Star, week 103, year 11,292; Okanagan Kootenay, year 111; Virginia, year 50; Coyote, year 20. Total, week 5536, year 150,524.

BUDGET FROM GRAND FORKS.

Any Amount of Active Work Going on Among the Properties in the District.

Grand Forks, B. C., Nov. 3.—The Old Ironides townsite at Phoenix, the growing mining camp on the summit between Grand Forks and Greenwood, will be put on the market within ten days. The survey and pitting are now in process. As yet and a drift run from it to the present working shaft on the property.

A force of men are working on the Superintendence of J. M. Burke. A shaft has been sunk on the property to a depth of 75 feet, and a crossing is being done from that level. There are two leads, one of which is high grade, running as high as \$125 per ton. The smaller lead runs from 10 inches to two feet in width. The intention to connect both leads by means of a crosscut.

A temporary shaft is being erected on the Idaho in Greenwood Camp, and sinking has been commenced on the property of the Minnehaha in Camp McKinney. He has been appointed superintendent. A complete plant, including compressors, has been ordered for the railway spur from Eholt to Phoenix to be completed before Dec. 1.

F. H. Chadborn, ore purchaser for the Hall Mines smelter at Nelson, B. C., has been notified that the boundary with the object of making contracts with mine owners. He hopes to secure a large tonnage was prepared to quote the same terms for "buy and treat" as the smelter.

Mitchell, Wallace & Co.'s Review. Mining shares are dull in sympathy with other stocks of a speculative nature. Business generally of late year is likely to be less unless some remarkable discoveries are made in the gold fields. Extensive buying of Canadian Gold Fields Syndicate has increased the price; the stock is likely to be higher than the rumors circulating are founded on fact. We learn that important interests owned by those in possession of this company, if this is accomplished, the Canadian Gold Fields syndicate will command a much higher price. Fairview Corporation has been speculated in largely in the hope of good returns being received from the ore now going through the Smugger mill. The result of the crushing, will be anxiously awaited. The success of Fairview is attributed to the improved condition of the mine itself and also to the good showing in the reduction plant, which is the demand for Waterloo does not abate. The trial crushing will be known as the Smugger Hill to reach high figures. The rock is known to be rich. Rathmullen was one of the features of the week's trading; the fact is, the stock was principally from Rossland, the headquarters of the company. At the present time the stock is being bought and sold by the public. The demand for Waterloo does not abate. The trial crushing will be known as the Smugger Hill to reach high figures. The rock is known to be rich. Rathmullen was one of the features of the week's trading; the fact is, the stock was principally from Rossland, the headquarters of the company. WHEAT IS ON THE DECLINE.

Closed heavy in Chicago Almost at Lowest Point.

Foreign Markets Were All Lower, With the Exception of Liverpool, Which Closed Unchanged - Corn Trade is Moderate-Latest Commercial News.

Saturday Afternoon, Nov. 11. On the Chicago market to-day continued heavy and holders caused the close to be heavy within 1/4 of the lowest point of the session. December closed at 67 1/2 and May at 71 1/2.

Car receipts at Chicago to-day were: Wheat No. 2, 231, and oats 152.

Liverpool December and March wheat to-day closed unchanged from yesterday, and May wheat 1/4 higher.

Exports of wheat from America this week were 4,650,000 bushels, as against 3,946 bushels last week, and 3,775,000 bushels a year ago. Corn exports, 4,811,000 bushels this week, as against 4,303,000 bushels last week and 2,945,000 bushels a year ago.

The world's shipments of wheat this week is estimated at 7,400,000.

Snow's final estimate of the corn crop of the United States is 2,207,400,000 bushels, compared with 1,927,000,000 bushels last year, per Government returns. The Government's October report on corn suggested a total crop production of 2,023,800,000 bushels. The average yield per acre, according to November report, is 25.2 bushels.

Leading Wheat Markets. Following are the closing prices at important wheat centres to-day:

Table with columns for location (Chicago, New York, Minneapolis, etc.) and price per bushel.

Wheat, No. 2, bush, \$0.95 to \$1.00.

Wheat, No. 3, bush, \$0.90 to \$0.95.

LOCAL LIVE STOCK.

The prices for hogs have been changed, and for the present prices are as follows: All choice select bacon hogs, over 200 lbs., 12c; for all under 160 lbs., (lights), \$3.75 per cwt. will be paid.

This means that all heavy hogs, for the present, will not be rejected, but will be taken as selects and paid for at the same price.

It was seen that the price for selects has declined 12 1/2c per cwt., and that heavy hogs have been increased the same amount. This is the first time since the close of the season that the price for selects has been increased.

British Markets. Liverpool, Nov. 11.-Wheat, No. 1, 67 1/2; No. 2, 65 1/2; No. 3, 63 1/2; No. 4, 61 1/2; No. 5, 59 1/2; No. 6, 57 1/2; No. 7, 55 1/2; No. 8, 53 1/2; No. 9, 51 1/2; No. 10, 49 1/2; No. 11, 47 1/2; No. 12, 45 1/2; No. 13, 43 1/2; No. 14, 41 1/2; No. 15, 39 1/2; No. 16, 37 1/2; No. 17, 35 1/2; No. 18, 33 1/2; No. 19, 31 1/2; No. 20, 29 1/2; No. 21, 27 1/2; No. 22, 25 1/2; No. 23, 23 1/2; No. 24, 21 1/2; No. 25, 19 1/2.

London-Close-Wheat-Number of cargoes waiting at outlets 3; wheat of 100,000 bushels; corn of 100,000 bushels; on passage 100,000 bushels; on the coast nothing doing; on passage rather easy.
