

GOT \$10 FROM LIBERAL ALSO SIGNED STATEMENT

Evidence Presented at the Sault Ste Marie Election Petition Trial Yesterday.

Sault Ste. Marie, Jan. 13.—(Special)—The trial of the Sault election petition began this afternoon before Judge O'Leary and N. Simpson appeared for the appellant, C. N. Smith, while Edmund Bristol was associated with Moses McFadden for Andrew MacCampbell, M.L.A., the respondent.

Conservative Organization.—The afternoon was chiefly spent in inquiring into the Conservative organization for the campaign, J. A. Hand, president of the Liberal-Conservative Association, and S. L. Penhorwood, its secretary, were the first to be called. Mr. MacCampbell's evidence, given in his examination for discovery, was read.

He testified that M. Moreault, a Montreal lawyer, had helped him in his campaign among the French residents of the town. He did not give him any money, but thought Mayor Thompson had presented him with \$25, but had not been reimbursed.

Did Not Honor Draft.—F. D. Monk of Montreal, who had come to the Sault to speak for him, had drawn on him for \$100 for expenses, but he had not accepted the draft. Homer Parent said Albert Roy had been offered \$3 or \$4 by Moreault, to assist the latter, but was told he could vote as he pleased.

Voted as He Liked.—On the charge that Roy was bribed by Moreault, Roy gave evidence. He stated Moreault asked him, on May 25, three days before the election, if he would work for him, and promised him \$5 a day. Witness agreed to work in the day time. He just checked off the names in Ward 3. He did not get all the money he was promised. Only \$6 or \$7. He did not go only to work, he could vote as he liked.

Got \$10 From Reformers.—Mr. Bristol drew out of Roy that he had secured \$10 from the Reform organization for work, and that he had signed a statement for a Reform meeting at the trial.

Mr. Bristol asked that this statement be produced in court. Mr. Aylesworth objected. This was as far as the case got when the court rose.

CIGARETS LED TO SUICIDE.—A man who smoked 100 a Day Preferred Death to Life Without 'Em.—New York, Jan. 13.—Excessive cigarette smoking, which brought on nervous prostration, caused the suicide yesterday of James Forster, a pawnbroker's clerk, 20 years old, of No. 30 Diamond street, Greenpoint. He shot himself while embracing his only child, a girl of two years. Forster, with his wife and child, lived in a small private house. It was not unusual for him to smoke 100 cigarettes a day. When he became ill a few weeks ago and put himself under the care of a physician, he was warned that unless he ceased smoking altogether he would find an early grave. Forster told his friends that he would rather die than live without cigarettes.

THE RICH FLEE.—A Population Nearly as Large as the Whole City of Toronto.—Only a few of Toronto's advertisers have gone into the question of telling their daily store news to the residents of the four counties about the city. Yet they are the richest and most populous districts in the province. York County has 112,978 inhabitants. Ontario County has a population of 54,205, and Halton and Peel have 34,222 between them, making 200,427 in all. This is the World's particular territory. There is the richest and most populous of the four counties which do not receive its bundles of Worlds. It is a territory with a population nearly as large as the whole city. Ten thousand copies of the World circulate in this field, or about one-third of the daily issue of the World.

NESTORIANS FOR NORTHWEST.

Reading Room as Wants to Bring to Canada.—Montreal, Jan. 13.—The Rev. Dr. Adams, a Nestorian pastor, a Persian by nationality, is in the city endeavoring to interest the churches in a movement for bringing 5000 Nestorian Christians, persecuted subjects of the Sultan of Turkey and the Shah of Persia to the Canadian Northwest. Dr. Adams stated today that negotiations had been in progress for some time between himself and the executed sects and the Hon. Mr. Sifton and Mr. Smart, the Deputy Minister of the Interior, with a view to their being located in a desirable locality.

FORM WIRELESS COMPANY EMBRACING ALL CANADA

Inland and All Foreign Communications Controlled by New Company.—Montreal, Jan. 13.—The organization of the Marconi Wireless Telegraphy Company of Canada was completed today, when the directors elected were: G. Marconi, Andrew A. Allan, Robert Forgy, Lieut.-Col. Fred C. Henshaw, Willard B. Green, New York, and John D. Oppie, representing the English company, who will be the manager in Canada.

Additional directors will be elected by important shareholders in other large cities, such as Toronto and Quebec. The capital is one million shares, which are of \$5 par value, in order to correspond with the one-pound shares of the English company.

The Canadian company acquires all rights to the Marconi system of Canada and Newfoundland, including the completed station at Glace Bay. This gives it control of the inland wireless business, as well as of all other communications with foreign countries.

HOME RULE IN RUSSIA.—Minister Arranges for Participation of People in Local Governments.—St. Petersburg, Jan. 13.—In a speech Monday on the occasion of the celebration of the 100th anniversary of the establishment of the Russian Ministry of the Interior, M. Von Plehve said that a conference would soon be held at the ministry in which representatives of the local bodies of the empire would participate to discuss anti-famine organizations, various economic questions and measures insuring closer co-operation between the central and local government.

GOES TO ENGLAND AS INSPECTOR-GENERAL OF CAVALRY.—London, Jan. 14.—A telegram from Johannesburg announces that Gen. Baden-Powell has been appointed as inspector-general of cavalry, and that he will come to England in June to take up his appointment. The general has been in charge of the South African Constabulary.

NO DANGER TO CANADA.—From the Invasion From the U.S. Says A. W. Hickman.—London, Jan. 13.—A. W. Hickman read a paper on "Canada" at the Colonial Institute to-night. He said he believed that the American invasion of the Canadian Northwest involved no danger to British interests; that the majority of Americans who went to Canada rapidly became good Canadian citizens, and that the investing of American money in the Canadian Northwest was but the forging of another link in the chain of Anglo-American friendship.

KILLED BY STREET CAR.—WATERLOO MAN'S DEATH.—Adam Doering Tried to Get in a Moving Car—Struck on the Head.—Waterloo, Jan. 13.—Adam Doering, proprietor of the Waterloo Sun Laundry, was instantly killed while attempting to board a Berlin and Waterloo street car, opposite the hospital to-night. He was on his way to the hockey match at Waterloo.

KILLED HIMSELF IN NIGHT.—St. Catharines, Jan. 13.—Alex. Notman, a highly respected resident, committed suicide at an early hour this morning. He had not been well for some time, and last night, not knowing he was worse, got up from bed and went to call his brother. During her absence her husband secured a revolver and shot himself. Deceased was a machinist by trade, 33 years old and a son of William Notman of Toronto.

KILLED BY HIS OWN GUN.—Victoria, B.C., Jan. 13.—Milton Edger-son of Duncan was found dead in the outskirts of Victoria to-day. He was shot by a friend and was hunting. Falling to return, a searching party went out and found him lying dead, with a wound in his breast, pointing to the fact that in climbing a fence overgrown with brambles, he had thrust the gun in front of him, and the trigger being caught in the bush had discharged the contents of the gun into his heart, killing him instantly.

OTTAWA BOARD OF TRADE.—Ottawa, Jan. 13.—The annual meeting of the Board of Trade was held to-night. The officers are: President, John R. Reid; first vice, J. W. Woods; M.L.A.; second vice, J. W. Woods; treasurer, C. A. Douglas.

HIT WITH FOUR BULLETS HOTELMAN MAY SUCCEUM

Young English Waiter, South African Veteran, Locked Up for the Deed.—Quebec, Jan. 13.—Charles Shirley, a prominent former member of the city police force, and now proprietor of an hotel on the St. Louis Road, lies at the Jeffrey Hale Hospital with four bullet wounds, two in his head, one in his left shoulder and one in the arm.

About noon to-day, while he was working in a stable in the rear of the hotel, John Guad, a waiter at the Chateau Frontenac, entered the stable, and without warning opened fire upon Shirley, with the above result. Shirley was immediately removed to the hospital, where the doctors set to work to extract the bullets. Guad was immediately arrested and lodged in jail. The would-be murderer is a young Englishman about 24 years of age, a member of one of the South African contingents. His motive for the rash deed is not known.

The doctors do not consider Shirley's wounds as necessarily fatal, and he may recover, if poisoning of the blood does not set in.

5000 TO CONSCIENCE.—New York, Jan. 13.—A man, who refused to disclose his identity, called on the City Chamberlain to-day and handed him five one thousand dollar bills, saying he had been troubled for some time over a financial indebtedness to the city. The money was credited to the conscience fund.

ON A VERY COLD EGG.—The coldest day last winter was Jan. 28, when the mercury went down to one degree above zero. There is no indication of a let-up. Today will be very cold, and the alleged cold scarcely will continue to cause a great deal of suffering throughout the province.

Peary has decided to make another attempt to reach the North Pole. Capt. Samuel Bartlett of Briggs, Nfld., Lieut. Peary's ice navigator, is in the city to-day, arranging to charter one of the largest sailing steamers for a voyage north next summer. Lieut. Peary's steamer, Windward, is said to be in adequate for the large outfit to be taken on the proposed trip.

AN ACADIAN SENATOR.—Representative From Nova Scotia on His Way to Ottawa.—Montreal, Jan. 13.—Dr. Delaney, who represents the Magdalen Islands in the Quebec legislature is in the city on his way to Ottawa. The doctor states that he proceeds to the capital on an important mission, having been deputed by the Acadians of the Lower Provinces to ask that an Acadia be appointed to the Senate from Nova Scotia.

FATAL TRAIN WRECK.—St. Louis, Mo., Jan. 13.—The St. Paul passenger train on the Chicago, Burlington & Quincy road, due in St. Louis at 5:55 p.m., and running 50 miles an hour, to make up time, was wrecked this evening by spreading rails, five miles northeast of Alton, Ill., killing the engineer, Frank Chatham, 47, and injuring four trainmen. No passengers were injured, beyond receiving minor bruises.

ST. LOUIS OVERDUE.—New York, Jan. 14.—Up to 1:30 o'clock this morning, no report of the sighting of this part of the American liner, St. Louis, had been received. The Red Star Line steamer Vandalin, from Antwerp, which made port last night, reported having seen nothing of the St. Louis.

DEATH FROM ODD ACCIDENT.—Atlantic City, Jan. 13.—When preparing for a midwinter cruise on his yacht, Abraham Casto was overcome to-day by the fumes of gasoline and, falling overboard, was drowned. His body was found several hours later in a tangled mass of ropes beneath the bow of the boat.

PROUSSIA'S POOR FINANCES.—Berlin, Jan. 13.—The Prussian Diet opened to-day. The speech from the Throne took a gloomy view of finances. The accounts of 1901, closed with a deficit of \$9,775,000. The accounts of 1902 are not expected to be brighter.

THE COAL SITUATION.

At a meeting of the Canadian Pacific Railway Club at Toronto Junction, last night, which was largely attended by engineers, firemen, trainmen, shopmen and employees of the building and bridging department, it was announced that the committee appointed to interview the management of the railway, that the C.P.R. would supply all its employees on the Ontario Division with soft coal at \$3.50 per ton, with prospects of getting hard coal at close rates. The meeting was unanimous in accepting this generous offer, and a committee was appointed to weigh out coal. The fuel will be on sale this morning.

The World has received a communication from Gould Bros., coal dealers of Uxbridge, which is interesting in view of the discussion of fuel prices. They say: "We cannot see why coal should be so much dearer in Toronto than here, when it costs us 50 cents more than the city dealer, neither can we understand why one should get coal at \$8.50 and another pay \$12. Surely one man's money is as good as another's, and if ever there was a time when the poor should be put on equal footing with the rich it is now, when they are in need and have the money to pay. As we have been quoted several times as selling coal for little or no profit, it might interest you to know that we have a better profit than ever before."

The lowest temperature recorded at the Observatory yesterday was 8 degrees above zero. Jan. 9 still holds the record for this season, when a temperature of 5 degrees below was noted. The coldest day last winter was Jan. 28, when the mercury went down to one degree above zero. Today will be very cold, and the alleged cold scarcely will continue to cause a great deal of suffering throughout the province.

TARTE FEARS "JIM" HILL AND HIS RAILWAY PLANS

Finds Fault With Ex-Premier Greenway and Hon. Mr. Sifton's Newspaper.—Montreal, Jan. 13.—Hon. Mr. Tarte, commenting on the attitude of Hon. Mr. Greenway in seeking to influence the Roblin government in favor of "Jim" Hill's railway projects in Manitoba, and the support given to the movement by the Free Press, which La Patrie calls the principal organ of Mr. Sifton, says: "We sincerely regret the attitude of that paper. It is an anti-Canadian and an anti-national policy. Instead of cultivating local projects, the Free Press should apply itself to the development of better means of transportation on Canadian soil and within the limits of our own territory. The Northern Pacific and the Great Northern threaten us in British Columbia as in Manitoba and the Territories, and if we do not with the St. Lawrence route to be destroyed and that Montreal, Quebec, Three Rivers and St. John shall lose their trade, which nature intended they should have, then we must adopt a Canadian policy and not permit Mr. Hill and his partisans to carry out their projects."

ST. JOHN BOARD OF TRADE OPPOSED TO SUBSIDIES

Intercolonial Should be Extended and Railway Franchises Should Revert to People.—St. John, Jan. 13.—The St. John Board of Trade this afternoon, at a largely attended meeting, held to take action in regard to the proposed Grand Trunk line across Canada, and the Quebec scheme of the trans-Canada line, passed the following resolutions: Moved by James J. Robertson: "That the St. John Board of Trade places itself on record as favoring the extension of the Intercolonial Railway from Montreal across the continent thru Canadian territory, and improvement of harbor facilities, particularly on the Gulf of St. Lawrence and on the Maritime Province coast."

It was also moved by Mr. Frank Hatheway: "That in granting charters to transcontinental railway lines, it should be the policy of the government not to grant a subsidy, either of money or lands, to such railway lines, but rather to consider that the right of way given by such charter is a valuable franchise owned by the people and should be guarded so that within a definite term of years it would revert to the people, if so desired; and further, that all such transcontinental railway charters should specify that the eastern terminus in winter and summer must be a Canadian port."

SULTAN AGAIN DEFEATED.—Escaped to the Westward—War Minister Menebbi Killed.—London, Jan. 14.—The Tangier correspondent of The Morning Leader reports serious fighting outside of Fez. He says the Sultan has been defeated and that he escaped to the westward. War Minister Menebbi, one of the Sultan's strongest supporters, was killed. All the consuls excepting the British representative have left Fez. Fighting among the tribes is also proceeding near enough to Tangier for the sound of shooting to be heard in the city. The population of Tangier is alarmed and is asking for the protection of warships. A pasha took out a force to restore order, but he found it impossible to proceed and has returned to Tangier.

SULTAN HARD PRESSED.—Madrid, Jan. 13.—Fighting is proceeding between the troops of the Sultan of Morocco and the forces of the Pretender to the throne, according to a despatch received by El Globo from Fez. The followers of the Pretender are said to be overcoming the Imperial forces. The correspondent of El Globo adds that the Imperialists would have been against the Sultan, and the anxiety of the Sultan is increased by the fact that the Sultan's representative at Tangier has been ordered to seize arms, and to despatch reinforcements to the Sultan.

GOVERNMENT PARALYZED.—London, Jan. 14.—In a despatch from Tangier, dated Jan. 13, the correspondent of The Times says: "A serious fight occurred to-day, two miles outside of Tangier. Successive attacks on a tribemounted village defended by only sixty men. The attackers were repulsed and four of them were killed. The fighting may be resumed at any moment. It does not involve any danger to Europeans, but it shows that the Moorish government is paralyzed by the rebellion and incapable of maintaining order."

EUROPEAN COMPLICATIONS.—Vienna, Jan. 13.—The 'Allgemeine Zeitung, which is well informed in political matters, expresses apprehension of a collision between British and France in Morocco. The paper says that after the Spanish-American war France and Spain negotiated a special arrangement to take common military and political action in Morocco and secure Italy's neutrality by promising her a free hand in Tripoli. France, irritated by the disturbance of the balance of power in Africa by Great Britain's conquest in the Transvaal, says the 'Allgemeine Zeitung, has an opportunity of revenge and restoration of the balance of power in Morocco. In this connection Great Britain appears to be isolated unless she obtains the support of Germany, whose attitude is unknown.

THE POPULAR JACKET.—Electric seal certainly holds the public favor as the best thing on the market for style and good wearing and appearance generally. The Dinenen Company in their big necessity sale have some thirty of these jackets in the newest designs and the best finish. They originally sold at \$28 to \$32; will be cleared out this week at \$22.50 each. See these and satisfy yourself.

FAIR AND COLD.—Meteorological Office, Toronto, Jan. 13.—(8 p.m.)—Decidedly mild weather prevails in the Northwest States and Territories, Edmonton and Calgary both recording a maximum of 42, but from Manitoba eastward it keeps decidedly cold. Minimum and maximum temperatures: Victoria, 36-44; Kamloops, 26-39; Calgary, 22-42; Qu'Appelle, 29-26; Winnipeg, 2 below-22; Port Arthur, 22 below-2; Perry Sound, 2 below-16; Toronto, 16; Ottawa

Mechanical Readers: Fall to Apply to Themselves the Facts They Read.

"I am a proofer and have come into almost daily contact with your advertisements of Postum Food Coffee since they first appeared," writes Mr. W. H. Stanley of Louisville, Ky., "but never paid any attention to them until about eighteen months ago, when my daughter, who was a great sufferer from gastric indigestion and its natural results, stopped coffee and used Postum. She had been growing fat and strong daily.

"After a few weeks' trial of Postum she regained her health and strength and is now completely restored to her former self. Noting the effect of changing from coffee to Postum in her case, I concluded to try it myself. My habits are sedentary, sitting and reading from six to eight hours each day. I had been subject for 25 years to sick headaches and indigestion, and lost on an average one day of each week from my work. I was weak and weighed only 140 pounds and was losing strength and energy all the time. I dropped coffee and had the Postum made strictly according to directions.

"I liked the change from the start and have kept up the use of Postum with the result that I have not had a headache in over a year and have not lost a day on account of sickness in that time; have gained strength steadily and now weigh 191 pounds.

"Before I commenced Postum I was a good deal of a sufferer from the dizziness for headache powders and dyspepsia remedies, but have used none since I began to use Postum and can now eat anything without ill effects.

"If anyone could have my experience from coffee, than I have, and I can heartily give all the credit to Postum for my health and strength."

CITY HALL WIRING

Proposed to Put in a System of Exposed Wiring.

Hamilton, Jan. 13.—A meeting of the Market and Police Committee was held tonight to consider the matter of the improving of the defective wiring of the City Hall. On investigation it was decided that it will not be necessary to take out the old wires, which were put in when the building was built, but that a system of exposed wiring can be installed.

There was also much discussion on the matter of asking for tenders for the work. At last the following resolution was passed, moved by Ald. Webb, and seconded by Ald. McLeod: "That tenders be asked for the cost of wiring the City Hall, subject to specifications prepared by the City Engineer, and to approval of the fire underwriter's inspector. All tenders to employ union labor only."

The committee will meet on Friday evening at 7 o'clock, when the report of the City Engineer will be presented. The committee will also consider the matter of the proposed new building for the City Hall, which is now being prepared by the City Engineer.

WOMEN FIGHT THE SALOON

Recent Election in New Zealand Throws New Light on License Question There.

ONE DISTRICT EXCLUDES TRAFFIC

Wellington, N.Z., Jan. 12.—The women showed their power in the recent parliamentary election in New Zealand on the question of the licensing of the liquor traffic. Interest in the election centred in the fact that the women voted, and here the results of the contest were unexpected and notable. It is perhaps necessary to explain that in New Zealand prohibition in the sense in which it is understood in Canada does not exist. There is no probability of the question of the sale or non-sale of intoxicating liquor being ever settled here by a resolution of vote of the legislature.

The licensing law provides for a triennial vote of the people being taken on the question whether or not licenses shall be granted in the various districts, and the condition of things for the next three years in each district depends upon the decision given by the people at that poll. Every electorate for parliamentary purposes constitutes a licensing district, and all the electors enrolled on the parliamentary roll for any district have a right to vote in the licensing poll for that district. Every man, and woman as well, of the age of twenty-one years and upward—that is, who has resided in New Zealand for twelve months and in any one electorate for three months—is entitled to a vote in that electorate.

Questions Voted on.

The questions submitted to the vote of the electors are three: That the number of licenses granted in the district be reduced; that the number of licenses granted in the district be increased; and that the poll shall be a valid poll, at least half the electors in the district having voted. In order that the third proposition—no licenses—shall be carried, the electors must record their votes in favor of the proposition to carry reduction more than half the voters must record their votes in favor of reduction. If neither reduction nor no license is carried, then the first proposition is carried, even though the voters support it. Each elector may vote for either one or two of the three propositions; and the electors are instructed to "strike out" the top line only—thus voting for both reduction and no license. A very large proportion of the electors, however, refused to vote reduction, being unwilling to countenance licenses at all. As alcohol has been a great cause of poverty and suffering in New Zealand, the carrying of "no license" in any district means that for the next three years no liquor can be sold within that district.

Both Sides of Case.

But it will be seen that the "Prohibitionists" are called "no license" and are heavily handicapped, and that the odds are strongly in favor of the "continuation" party. In fact, the "no license" party is only up to a subsequent poll by three-fifths of the voters voting for the restoration of licenses, so that once again no license is fairly secured. If reduction is carried, the number of licenses is reduced, and the number of licenses is increased in the district. It is expected to see to the general conduct of the trade. Twenty-five per cent. of the hotels may be closed in a reduction vote. If no license is carried, the number of licenses is increased in the district. It is expected to see to the general conduct of the trade. Twenty-five per cent. of the hotels may be closed in a reduction vote. FEITO DEMENTED BY A FALL

Alfonso's Assault Met Accident Working as Street Car Conductor in Buenos Ayres.

ONCE BECAME VIOLENTLY INSANE

In Lucid Moments He Was Trustworthy and Returned to Spain Last Year.

Buenos Ayres, Jan. 13.—Jose Felito, author of the attempt against Alfonso, lived here during many years. He married, ten years ago, a French woman, Marie Etcheverry, who is still living here with two children, eight and six years of age. He had various kinds of employment until 1880, when he entered as guard of a tramway company.

He was a fall, which seems to have disturbed his mental faculties. On March 7, 1900, he was committed to the Mercedes Lunatic Asylum in this city, from which he was discharged on Feb. 17, 1901, after his family. He was much improved by had frequent violent attacks, but the symptoms disappeared shortly afterward.

At the beginning of 1902 he expressed a wish to return to Spain. His wife, who is a hard working woman, gave him some money and he started his journey. She has since then given him her two letters from him.

She was interviewed today by a reporter for the Prima, and manifested herself much surprised by his attempt. She is now engaged to keep the house whose owners have gone to a summer resort.

Felito was in Mexico. All reports referring to his stay in that country are enveloped in mystery. He was arrested in Buenos Ayres, where he was arrested under the name of Juan Martinez. "SIX FROM FOUR— YOU CAN'T." The kind of leather in a shoe decides the kind of wear it will give! How can you get more than 80 cents of wear from a \$2.50 shoe? It cost 70 cents for finish and labor, with 25 cents for wholesale profit, and 75 cents for retail profit—leaving 80 cents for leather, etc. What kind of leather will 80 cents buy, when the cost of linings, laces, eyelets, etc., have been deducted? Shoe-life resides in the shoe leather. This is why the Slater Shoe System, compels the Retailer to sell The Slater Shoe, at a price set by the Makers, who alone know the materials put into each pair under the finish. EDITORIAL. Editor World: I notice that you are opposed to prohibition, but at the same time advocate the abolition of the treating system. In my experience, I have learned to regard this as the curse of our country. I frequently am forced to take more than one drink because I meet friends in saloons, and it is the custom to treat, but I never got too much liquor. If it were not for the treating system, the value of country taverns would decrease by one-half, and many families would prosper at once.
