TORONTO BUSINESS INTERESTS RESENT SLIPSHOD FREIGHT SERVICE OF C.P.R. AND ENDORSE "WORLD'S" DEMANDS

Railways Should Give Local Officials Full Power To Deal With Ontario Problems, Say Board of Trade Members-How Freight is Delayed.

TORONTO SIDETRACKED AND PROTESTS IGNORED

A red-hot meeting of the Toronto Board of Trade yesterday afternoon passed a heart-searching resolution to rthe perusal of the C. P. R. and G. T. R. authorities at Montreal, . nd for the Dominion Railway Commission, on the question of freight congestion, as set forth by The World for some time past. The meeting was of the most representative character, the board room being crowded, and the

speakers voiced all sides of opinion and many trade interests. President W. J. Gage occupied the chair.

Mr. Gage referred to fhe demand from The World to know what the board of trade was doing. A fortnight ago the board had communicated with merchants, and had received replies so unanimous, and complaints of so serious a character that the meeting was ous a character that the meeting was at once called. The board had written to Montreal on the 15th inst., and stated the condition of affairs to the C. P. R. management. Mr. Gage was sorry to say that the reply was so unsatisfactory and offered so little prospect of immediate relief, that the further step was then taken. Of the 17 replies received from leading merchants, 13 detailed serious grievances, and one stated that for a year past the service had been so unsatisfactory that it had been determined to send no more goods

by the C. P. R. The reply from the C. P. R. to the board's letter of 15th was dated 18th, and Mr. Gage characterized it as impertinent, while other members of the board were still more severe in their

THE BOARD OF TRADE'S OFFICIAL PROTEST TO THE RAILWAYS

MOVED BY: Hugh Blain. SECONDED BY: R. S. Gourlay, And RESOLVED:

That the board of trade protests against the management of the Grand Trunk and Canadian Pacific Railways, as conducted in this city.

Toronto is the largest and most important railway distributing centre in Canada and should be properly equipped. The companies have neither the trackage nor the rolling stock necessary to handle the business of this city, one of the evidences of which is the condition of the freight service of the Canadian Pacific Railway at the present time.

The board is also of the opinion that the authority is too remote from the business and would recommend that the officials stationed here should have full power to direct the business of this district without having to refer to the head office.

That the secretary be instructed to forward a copy of this resolution to Sir Thomas Shaughnessy and Mr. C. M. Hays, with the request that immediate steps be taken to place the management of this district on a more stable and efficient basis, commensurate with the requirements of the district.

Get a Tag From Boys on Saturday

t Will Show Your Interest in the Club Fund for the Little Merchants of the Street.

Saturday you will have a chance to show whether you believe with James Whitcomb Riley, that all boys are good, for then you will have a chance to chip in to help completion of the Newsboys' Home and Club fund. The boys will go out to get you with tags, and your tag will cost you what-ever you want to pay for it, so that your tag will be your measure in a way.

Perhaps you have never enjoyed the thrill of giving something to help another whom you know but slightly or not at all. It is one of the things that you should not miss. Try it on Saturday, and it is safe to say that when you see a happy boyish face smiling up into your own, as a result of your benefaction, you will get the habit, and become a regular giver to all

things that are good. If you do so, you will be a better citizen than heretofore, and will realize the urgency of trying to make these boys realize the best that is in them. That is what this nome and club is intended for, and surely there could be no more laudable object than making the most of the boy whom T. C. Editor World: Jokes reflecting on Hamilton have always bored me, and a visit to that city the other day failed to show the point of these alleged funny quips. Should there be occasion, however, to read the motto outlined in electric light on the city

hall, "Welcome to Hamilton," it should make one feel too warmly disposed towards the city to poke fun at it.

This much can be said for Hamilton: If it has not a beautiful waterfront, Toronto's is worse. The number of ugly wharves is fewer and the vision is spared the sight of dirty box cars, smoke and other unpleasantnesses of a railway yard. The waterfront is easy to reach, as trams run down within railway yard. The waterfront is easy to reach, as trams run down within seventy yards of the dock, five minutes' ride taking one from the centre of the city to the water edge.

The intersection of King and Jamesstreets forms the centre of the town, and the former is Hamilton's pride. It is a fine wide street and contains many imposing buildings, including the postofice, the Waldorf Hotel, the Bank of Hamilton and the terminal station of the rural electric car lines, where large waiting rooms are provided. A miniature park, about 100 yards long, running on King-street to James, gives the street at this point the appearance of a square.

To see these wide streets, the modern buildings and yet to be in a city free from dust and noise, is well worth a trip to Hamilton.

AUTO UNDER A FLAT CAR THREE KILLED, 12 HURT

Meter Dashed Into Moving Construction Train at Level Crossing That Hadn't Been Noticed.

NEW YORK, Aug. 23.—Three persons vere killed and eight, including the train conductor, were hurt this afternoon when an automobile crushed into the side of a construction train on the Long Island Railroad, at the Merrick-road crossing at Springfield, Queens-borough. Four others were less seri-ously injured.

The automobile, which belonged to

Adolph Hirsch of Far Rockaway, en-countered closed gates at the crossing, which had been lowered by the gate-man because of a passing freight train. On the other side of the freight train was the construction train, unseen by the gateman or the automobile party. So when he raised the gates, just as the freight went by, the automobile shot forward and jammed itself under the flat car of the construction train. Pinned in this fashion and with the flat car careened on its trucks, the automobile was dragged fore than 200 feet, finally rolling down the embank-ment with one of the flat cars.

> "The Girl in the Taxi," which comes to the Princess Theatre for an engage-ment of one week, beginning August 29, was first produced in Paris under the title"Le Fils a Papa," which might be rendered "Like Father Like Son." The piece created one of the greatest sensations the French metropolis has ever known, and ran for more than 1000 nights. It was originally written by Anthony Mars, that past master in the art of intrigue. The American adaptation was made by Standalays adaptation was made by Stanisiaus Stange. The locale has been changed from Paris to New York, but the play retains all the humor and atmosphere which made it so popular abroad.

Wright Lorimer opened the season with his Biblical drama, "The Shepherd King," at the Shubert Theatre, Boston, last night before a large audience, in which were many clergymen of various denominations from Boston and the vicinity, as well as a strong delegation of Odd Fellows. IN SOCIETY.

Mr. and Mrs. G. A. Richardson and family, 14 East Bloor-street, who have been spending the summer at Isle Dunelg, Muskoka, will return to the city on Sept. 1.

Miss Gertrude Tomlin is on a visit to some friends in Winnipeg, Man. A quiet wedding will take place in St. Andrew's Chapel, Westhampstead. London, England, this afternoon, when Miss Ethel Arnott of that place becomes the wife of Wm. T. Tait, boys' secretary of the West End Young Men's Christian Association.

The bride is the daughter of Dr. Arnott, who for some time resided on Dunn-avenue, Parkdale. Miss Arnott was an active member of Parkdale Presbyterian Church while in the city. Two years ago Dr. Arnott and family returned to their old home in London, England, going over on the boat that carried the Canadian Olympic team to the games in London. Mr. Tait accompanied the team on that trip. For a dozen years he has occupied the ser-retaryship of the boys' department at West End. After the wedding, the will leave for a short tour, taking in Edinburgh, Glasgow and Birmingham, leaving Liverpool for Canada on the Victorian which sails Sept. 2.

MADRIZ LEFT UNDER FIRE But Ex-President of Nicaragua Folled

a Prison Plot. WASHINGTON, Aug. 23.-The final word telling of the passing into his-

tory of the Madriz government at Managua, was received at the state department to-day in an official despatch from United States Consul Oilvarez, stationed at Managua; The message was dated 11 p.m. Sat-

urday. It told of the disorder that po?ceded the downfall of Madriz at Man-

sulate on Friday night and voluntarily made affidavits to the effect that the commandant of the prison had hatched tal state for some time, during which he swallowed anything he could get fall of the Madriz faction. Prisoners from foreign nations were among those behind the bars.

The American and foreign consuls at

Managua promptly laid the matter he-fore Madriz, who undertook to look into the charges. On Saturday morning Madriz dismissed the commandant ing Madriz dismissed the commandant of the prison. Before Madriz had abandoned his office that afternoon the prison, left without guards, had emptidits inmates into the streets. About 600 of the prisoners had been arrested for political reasons. Many of them obtained rifles and roamed the streets, in some cases firing upon transport the in some cases firing upon troops of the Madriz faction.

The Season's Fancies in Furs

The daily opening up of boxes in the women's fur department reveals many novel introductions, both in designs and in the treatment of peltry; among the novelties is a notably smart auto or driving coat of our own production, developed in natural black rat, resembling in all but color the popular muskrat; in length forty-eight inches, with fall sweep to skirt, and high storm collar and lapels, this garment is ideal provision for motor or carriage use. It is priced at \$85.00

The Re-establishment of Persian Lamb as a prime favorite in the fashioning of muffs and fancy neck pieces has resulted in the display of numerous examples of scarfs, stoles and cravats in this particular fur; heads and claws, as of yore, characterizing the finishing touch of many. Prices run from ... \$10.50 to \$25.00

In muffs the return of the round Granny design represents, perhaps, the most sensational feature; silk fringe in the trimming of the large rug muffs stands as another novelty. The selection, which includes a varied offering of pillow and Empire muffs, in large or small sizes, ranges in price from\$12.68 to \$35.00 -Second Floor, Albert St.

Economy in Our Ribbon Prices

The continued vogue of the large hat, intensified rather than lessened by the season's new models, has increased the demand for ribbon as a millinery feature; the broad-spreading bow and the voluminous rosette are called into of bonnets for old and young; ruchings and shirrings of ribbon are employed in the decking of crowns and brims, and in a myriad of deft ways it is draped and folded; for children's hats ribbon is the dominant note; our logish turning out ribbon department in keeping pace with the trend boasts a stock of rare beauty and unusual range; moderation in price is even more pronounced than formerly, as the two following items will show :-

Six-inch Satin Ribbon, in a soft finish, with beautiful sheen; in all the colors specially identified with the Autumn of 1910, including the new purple shades to be known as "Comet Shades," the new mahogany, tan and pumpkin tones; also royal, navy, nattier blue, cadet, coral, Bordeaux, rose, wine, tilleuil, champagne,

Also Shot Ribbon Representing a Popular Fancy of the Season of Good Weight and Handsome Finish, in many combinations of beautiful shades, such as sky and cream, Alice and sky, rose and cream, champagne and peacock, navy and peacock, tan and sky, mauve and sky, Nile and cream, peacock and red; a ribbon that serves admirably for the trimming of the hat required to accompany costumes of differing colors: the width of this is six inches. · Trotting First Day At Duffer At Dufferin

Note and Comment

Husbands and brothers went home yesterday from office, store and factory by scores to find only something cold to eat. Those dear wives and sisters and even mothers were reveiling at the ball game as the guests of President McCaftery. It was ladies' day. However, when the girls returned with the good tidings that the home team had won in the tenth all was forgiven.

Indeed the holiday makers were enabled to regale the hungry members with thriling tales of the combat—how Spade and Muener battled for six innings, then on to nine and it was still even; how Ducky Holmes and Rube Waddell, fresh from his moneymoon, tried to save the day for McGlunity, and it was only when our own Doc Newton mowed them down in the tenth that victory came. It was hard to make the stay-at-homes believe that McDonald singled and tied the score in the 9th and then batted in the winning run in the tenth. But he did.

The opening day of the midsummer meeting yesterday at Dufferin Park was up to the standard and expectations of the Toronto Driving Club. The crowd was splendid, the betting brisk and the racing keen and fast. The heat of Joe Patchen II. in 2.17%, the first of the day, was the best from a speed standpoint. The patrons were immensely pleased with the improvement at the park. Another good card of two well-filled races is on for to-day.

A Cornwall despatch says the National Lacrosse Club suggested W. C. Mc-lityre. Ottawa, Tom O'Comrell Jack Brenran and P. Murphy of the Sham-rocks as officials for Saturday. Cornwall premptly accepted Messrs. O'Comell and Murphy so that, therefore, the question for the big game here on Saturday is practically settled. The Cornwalls had a light work-out yesterday and seem to be greatly improved. It is quite possible that there will be two changes on the line-up for this game, but the team-will not be selected till Friday. The muragement of the Brockville excursion 'have wired for more seats and were given an

MORRISBURG, Ont., Aug. 23.—Albert Sweet, the star pitcher of the Morrisburg Baseball Club, and Potsdam, Northern New York State League nine, left for Montreal to-night, where he will be given a tryout with Montreal's Eastern League team, Manager Barrow heard of Sweet's work in the bush league and sent for him. Sweet has a splendid record this year, pitching 25 games, winning 22; has a no-hit no-run game to his credit, as well as half a dozen shutouts. Besides having speed he has good control and fields his position well. The local ball enthusiasts are anxiously waiting the result of the tryout.

Tickets can be had at Toronto Bowling Club, 11 Temperance-street, or G. R. Ticket Offices.

COUNTLESS AT 5 TO 1 WINS HURON HANDICAP

Hampton Court, 20 to 1, is Second and Martinez, Favorite, Third in Feature at Saratega.

SARATOGA, Aug. 23.—Countless, well ridden by Koerner, and held at 5 to 1 in the betting, won the Huron Handicap by a head on the post to-day. Martinez, the favorite, was beaten thru Davis' hustling in sending him out to make the pace. He led in the start to the final furiong, when Countless came up fast and, standing the long drive gamely, won by a head from Hampton Court, with Martinez third. Hampton Court's performance was a startling improvement over his recent efforts. Summary:

The opening day's racing of the Toronto Driving Club yesterday was a great success in every way, the card being success in every way, the card being big, the weather fine and the racing of the best. In the class for 2.30 pacers thirteen answered the starter's call, which made two tiers to score away. In the draw for positions Jim Fisher, the Collingwood pacer, drew the rail, with the favorite, Joe Patchem II., in seventh position, trailing the pole horse. Starter Noole had some trouble with this bunch, as he had a couple of bad actor's to handle. He finally got them in line fairly well and gave them the word. Jim Fisher went away boiling and got a big lead. The favorite, Joe Patchen, went to a break. At the half the former was six lengths to the good with the pony pacer, Violet, second. The positions were unchanged at the finish of the heat, the favorite in third place. In the second heat Joe Patchen was steady and got Jim Fisher at the half mile pole. From there home the big horse held his field safe at all stages. Lew. Jean came from behind with a rattle and was second.

Fitz Bingen and Lady Brant took up the battle in the trot and they fought it out to the end, the stallion winning the heat by a neck, but was placed second for breaking and swerving. In the third, and it was a bruising finish between them. Fitz Bingen looked to have a royal chance at the % pole in the third, and it was a brisk on both events. The pool seller did a big business and kept the buyers on the jump all the time. The books handled a lot of money on the result of the heats. For to-day's races there promises to be some lively bidding in the pools, as the horses are all evenly matched, and the races big, the weather fine and the racing of

Japan, progressive in this as in other directions, has adopted a new system based on the Elmira, the Borstal and her own experience. Under it every convict will be given the opportunity to reform. Rewards and reduction in sentences will follow obedience to the rules in which he will be required to pass an examination. Before work is allotted to him he will be interviewed and examined by a board and will receive And Special Inducements Are Offered technical training in the art or craft assigned him. On his release work will be found for him, and it is madel ar, indictable offence to molest or boycott him after his crime is purged. This new system is reported to have had surprising results. DEBASING MOVING PICTURE SHOWS.

Attention has very properly been called by Mr. J. J. Kelso of the department for neglected children to the employment of children on the moving picture stage. It is most unfortunate that the moving picture entertainments could not rely upon their own best attractions for their audiences. The illustrations of foreign countries, national life in all parts of the world, wild animals and scenery at the ends of the earth, patriotic and other national scenes, and the infinite variety of social life in the great cities of all nations might have been expected to supply an unending series of attractions, both interesting and amusing, instructive as well. But whether it be the fault of audiences or managers, the tone of the moving picture business has been steadily failing, until one is by no means safe in going to see one of the so-called en-

ents. Into the middle of this requently debasing show, the manathe parents of these poor little ones do not understand the utter degradation to which they are bringing their clever, and often brilliant offspring the authorities, when permitted by the them. BIG POLITICIAN ACCUSED

Conspiracy to Debauch Voters is the Charge Laid.

FRANKLIN, Pa., Aug. 23.—Joseph C. Sibley, who last night withdrew as a candidate for congress on the Republican ticket in the 28th district, supposedly owing to ill-health, was arrested on a warrant charging "conspiracy to debauch voters."

According to his own figures, filed in obedience to the legislative act requiring a public statement of a candidate's expense account, Sibley spent \$17,000 in Warren County to secure his nomina-tion, and in the entire district \$32,500, which, according to population, averaged \$4 per vote.

In the warrant three other prominent politicians in the 28th district are also charged.

Sibley is a manufacturer and farmer and reputed to be a millionaire. He was elected as a Democrat to the 53rd and 56th congresses, and as a Republican to the next three congresses. In the Democratic national convention of 1898, Sibley received the largest number of votes for the nomination for vice-president, but wired the convention to withdraw his name.

The Open Square.

On entering the arched gateway, probably the most striking change to greet the regular visitor will be the open square which has been created and which in itself would make a small park. Formerly this snot was almost and which in itself would make a small park. Formerly this spot was almost an eye sore with it old tumble-down greenhouses, and two frame buildings. On the right of the square is a double sidewalk between which is a row of lights, set on Venetian masts. It is one grand view now from the entrance down to the lake front. In the centre of the square is a band stand. of the square is a band stand.

On the right of the entrance is a new building, which is more of a convenience. This is a "woman's rest building," where ladies and children can repair when tired. The Interior is provided with all conveniences, and there will be a staff of women attendants on hand. A large plazza skirting three will be a staff of women attendants on hand. A large piazza skirting three sides of the building will afford a view of the square and of the front and south sides a view of the lake. This building consists of two private residences which were last year located on the lake shore, but which were moved on rollers to their present location and then joined into one building.

With the extra sodding and extension done this year along the waterfront, Controller Ward's sea wall will now present a more attractive appear-

andce than last year. Besides the extra lighting which tops the numerous Venetian masts thruout the grounds, one of the newest dis-plays is on the roof of the manufac-

is simply so much land given over to weeds.

The Iowa law does not compel the laying out of roadways 60 feet wide, altho that is generally the custom. There are 100,000 miles of roads in this single State of Iowa, and it is a fact that they are mainly neglected.

There are over 800,000 acres of land belonging to the highways, and if the people resume the cultivation of one-third they will have added a good deal over 200,000 acres to food production. The annual net revenue per acre in Iowa is set down at \$15, a very modest estimate, but this would make the income of the restored land at least \$4,000,000.

"We believe that Governor Carroll's proposition is all right, and that it stands good for every state in the union," says The Independent. "We are confirmed in this by the correspondence called out by our article advocating road economics. There is no reason why there should be broad strips of waste land running in every direction across states. The roads that we do have should be better made, and whatever land belongs to the public on either side of the road should be made gardenlike.

"At present the weed-breeding strips called roads are a nuisance and a preventive to good farming. They sow down adjacent lands and make fine cropping more difficult. The worst weeds we have to contend with have mainly traveled across the country by way of the roads. But with proper culture these same land strips could be made beneficent models of culture and beauty.

The City and Radials,

Mr. Blain then proceeded to roast the city council, charging that body with barring the radial railways out of the city. Mr. Moore of the Toronto and York Co. had said: "You guarantee us entry into the city and we will tee us entry into the city and we will guarantee you the finest radial system in the country. We'll come in on any terms that the railway commission or any other properly constituted board of arbitration may choose," What with the rallways, the water-front and the city fathers, Mr. Blain concluded, things were in a pretty state. "Something must be done," he said, "and now is the time to do it." R. S. Gourlay, in seconding the resolution, said that a stage had been reached in the history of Toronto when some determined action must be taken to ensure the recognition of be taken to ensure the recognition of this city as an efficient and formidable rival of Montreal in the matter of freight arrangements.

The facilities were not even sufficient to handle the normal business, for the railways had not kept pace with the growth of the city; there were smallier places in Canada where the local officials had much more power and the facilities were much better. The Montwal executives should detail their authority so as to enable the business to be properly handled.

Mr. Gourlay wished to emphasize the fact that the resolution contained no phrase of histility to the railways. He hoped that it would be productive of results which would be cause for immediate congratulation to all parties con-

The man in the street had expressed opinions which the speaker did not con-sider justifiable. It had been said that Toronto's poor freight arrangements were a "punishment" for our behavior in regard to the viaduct question. He did not believe it for a moment; the This was, however, no time to make heads of the railways were big men and accustomed to doing big things. He would not credit them for a moment with taking so small a view.

Control of Express Companies. Another thing people said was, 'What's the use, so long as the railways control the express companies?" did not believe this either. It would be a short-sighted policy for the companies to boost the freight rates for front district, and these properties had

The president then called on the assembly for a discussion. Mr. Gelber form had been opened at Parkdale, of the Imperial Manufacturing Co. and additional tracks laid. A large stated that a consignment of goods had left England on the Empress of Ireland on July 25, and the goods had not yet been received. He thought that the should refer the whole matter to the railway commission at Ottawa: that was the body that had the neces-

J. J. Arnoldi thought that 26 days was pretty good time for a shipment He had been transferred from Mon-treal, and the vice- president had ex-cused himself for doing this by saying to travel from Buffalo to Toronto. "Even then," he said, "we have to search thru the sheds for days before We can find it and get it out. Then they charge us storage. I think that

is the height of impertinence." J. D. Allan was willing to testify to the truth of Mr. Arnoldi's remarks. It was recessary to go down to the sheds day after day, only to be greeted by misleading remarks. He wished to imply no personalities; it was the sysof which he complained. The City of Toronto had too long been treated this village fashion; it was only in the last ten years the rates from Toronto to Kingston had become comnensurate with those from Kingston

Superintendent James Oborne of the C.P.R., who was present with several other officials at the invitation of the board, was asked to speak on behalf of the company. He began by saying that, in all the speeches he heard, one important fact has been overlooked. The C.P.R. had, by the recent strike, been placed in the posion of a mechant who wakes up in the morning to find that all the oth er merchants in his line of business have suspended operations the night To have such a monopoly unexpected thrust upon it was more than any institution could stand. As it was the first ten days of the strike the C.P.R. had handled all the freight in a highly satisfactory manner. course, they had anticipated the strike for a few days before, it was declared, and had made arrangements to handle the business that would be turned over to them, that would be amply sufficient for a week or more, and they had not expected that the strike would last longer than that. "Is Toronto real estate on a soun basis?" is the question that is now being asked by business men of this city. To it The World gives but one answer: It is. The city is growing at a very rapid rate in every direction, and, as pointed out several times in these columns, the influx of capital from the Northwest, the Cobalt and the other mineral camps of the north, and from other sections of the great Dominion, for manufacturing and other purposes, is such that even still greater strides will be made in the

MY ELECTRIC BELT

IT WILL CURE YOU of indigestion, nervous debility, rheumatism, headache, anaemia, neuralgia and many other acute and chronic

Nature will cure you if you will give her the right kind of rissistance. The reason your nerves are weak is because they are not properly fed. I don't mean that you do not eat enough. Nerve food is a force that comes from electricity. When your supply of bodily electricity has become depleted the nerves do not get the proper nourishment, and various complications result.

The only way to cure nervous roubles is to restore this electricity. You can't get nourishment from poison; that's why drugs don't help you.

Dr. McLaughlin's Electric Belt fills the nerves with electric life while you sleep. They drink in this force, just as a sponge absorbs water, and convey it to every organ, giving health and strength to every ailing part.

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST If you are skeptical, all I ask is rea

There is a good deal of misappre-hension in some parts of York County as well as in the city respecting the jurisdiction of the York County Coun-cil with respect to the proposed "good roads" movement

"With the endorsation of the York County Council, which meets in November, as well as that of the city council, there will be no reference of the matter to the local municipalities included in the district," said Mr. Ramsden.

"In other words, if the members of

That the scheme will go thru is now conceded on all hands. With the city giving one-third, the government one-third, the plan appeals very strongly third, the plan appeals very strongly to the average farmer.

"Simcoe and Peel Countries," said Mr. Ramsden, "each receive government aid, but York County is singularly favored in only giving one-third, whereas Peel and Simcoe, having no city contiguous, contribute two-thirds and the government one-third."

The only fly in the cintment is the fact that wit hbetter roads will come more autos, and the auto is not a favorite with the average farmer, nor

vorite with the average farmer, nor yorite with the average farmer, nor yet the farmer's wife.

The members in the northern part of York County, while they will be eligible to vota on the project, are not interested, as the plan does not apply north of the boundary line bettween Markham and Whitchurch and King and Vaughan Townships.

CONTROLLER IS CURIOUS

Foster Wants Some Information From the Engineer.

Controller Foster yesterday had five questions referred to the city engineer. He wants to know the cause of delay with the new waterworks engine; the date for cleaning the reservoir; his arrangements for extending the intake; when it is proposed to empty the water tunnel, and the delay in com-

mencing Weston-road bridge.

Because Contractor Leslie would not give a bond for his ability to lay the intake pipe extension the city engineer will do the work. ser will do the work.

Several ratepayers have objected to paying the penalty of five per cent on a taxes, which they failed to pay before July 10, stating that considerable delay occurred in the deliverance of the bills. The board accordingly instructed the city treasurer and city solicitor to report.

Regarding the application of the Toronto Electric Light Company for permission to do business in sections of the city annexed since the agreement, the board ordered that a report be

Methods in Shade Trees.

doctors from Kent, Ohio, towards the preservation of trees afflicted with the infirmities of age and decay.

The process employed is simple, and something in the nature of dentistry. In fact, three elementary principles underlying tree surgery are practically identical with those of the latter science. When a tree's interior has gone to rot, the decayed pulp is removed, water and sap fluids excluded and the cavity ratefully made ready for the filling. This preparation consists in a treatment of resin, cresote and coal tar being applied to the cavity walls and niches. In some cases, where the tree is a large one, holes are perforated in the thunk and several fron cross bolts are put in as braces. The next move is to set in a filling of cement and finally to place a zinc covering over the aperture in such a fashion that, in the course of a few years, a healthy layer

A BROKEN-DOWN SYSTEM. This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-dewn, es it were, of the vital forces that sustain the system. No matter what may be its causes (for they are aimost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour—

VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of THE NEW FRENCH REMEDY THERAPION No. 3

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existeace imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicament is suitable for all ages, constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement whose main features are those of debility, that will not be speedily and permanently overcome by this recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

Erickson Perkins & Co. had the following:

Wheat—Market opened steady and ruled strong thruout the greater part of the strength was by shorts and local professionals and a good part of the strength was in sympathy with that shown by the northwestern markets which led in the advance. Reports of snow flurries and forecast for light frosts in Canada are largely accountable for the strength in the northwest and Canadian markets. We think the advance to-day is hardly justified by the news at hand and consider it due, in part at least, to local pit conditions. It does not seem to us as the frost in Canada at this period should be detrimental to any extent. On the other hand, cash demand locally does not show any signs of improvement and while receipts show a material decrease, stocks are large and must be taken care of.

Corn—As long as weather conditions continue favorable we believe corn should be. sold on strong spots for moderate prices at which eats are selling will have rather a bearish effect on corn values.

Oats—Eastern buyers seem to be filled up at the moment. Iowa has marketed very few eats as yet, but is beginning to seek buyers. The situation looks extremely the way and we are inclined to think that prices must decline to an export level.

Reports of Ontario Commission At-

tract Outside Notice. An indication of the attention which reports issued by the Ontario Depart-ment of Agriculture attracts, is fur-nished by a few communications recently received. One was from a professor in Berlin, Germany, asking to be supplied with a copy of the report of the Ontario Milk Commission. A dozen copies of this report were recently forwarded to Chicago for the use of a commission which is conducting an investigation into the milk question there. It is also being used as the basis for an agitation for an improvement in the milk supply of Vancouver, B.C.

ATTACKED BY DOGS

Two Cases in Oxford County Which Cause Alarm.

WOODSTOCK, Aug. 23.—(Special.)—
The mad dog scare in the country was revived to-day, when reports reached the city of two cases which bear a serious aspect. A child belonging to George Buchanan, at the new Lawson cheese factory, was bitten by an uncheese factory, was bitten by an un-muzzled dog, and the animal's head has been sent to Toronto for examina-tion. On the farm of Levi Gee, near Peebles, a thresher was attacked by a collie dog, and he had his hand badly Five Thousand Dollars' Damage Done take action as result of great damage done to the fuel lighter, Emma

Traders played for a further reaction at the local exchange today. This was apparently successful in the calls of Rio and Sao Paulo, but offering down other securities did not meet with much success. The market in speculative stocks is highly professional, and an active bear campaign is only debarred because of the small amount of margined shares and the recognized presence of real investment purchases. It will require the selling of actual stock to put prices down, and for the time being this is not occurring.

New York Stocks Have Sharp Reaction Early, But Firm Up Later-Domestic Issues Quiet With Small Price Changes.

Tuesday Evening, Aug. 23. The Toronto Stock Exchange to-day adopted its usual state of torpidity, the transactions being exceedingly slim in the active securities.

While there was no outstanding feature to the market, reading between the dealings it would appear that the pressure against prices at present is purely tentative, not being backed up by a substantial ground-work.

The open season for wild ducks and other water fowl having been changed from September 1st to the 15th, the superintendent of game and fisheries, trusts to the common sense and manliness of the sportemen of the province, not only to observe the law themselves, but, as far as possible, to compel others who are not sportsmen to do so.

It is the intention of the department to protect the interests of the law abiding sportsmen by having those guilty of infractions punished to the fullest extent of the law. This change has been made in the interest of the general public, who in consequence of the game in the province, common to all, should all be game protectors and respecters of the laws.

th further indicates comparatively narrow range within which to trade. Chas, Head & Co. to R. R. Bongard: The stock market to-day has shown a recovery of a point or over during the early trading, following a rather sharp decline, and then became dull with a sagging tendency. Trading was very light, the professional contingent being apparently unwilling to make commitments on the rally, while the outside public showed marked indifference. The money situation tends to keep sentiment conservative, as with the orop moving period at hand the banking interests do not favor rampant speculation. The market closed at below the best for the day, the indications pointing to narrow fluctuations for the present, so that we advise purchases only on fair setbacks for moderate profits.

Erickson Perkins & Co. had the following:

Trading in cotton was extremely dull and uninteresting to-day, with prices about ten points over yesterday's closing, most of the session, until in the closing fifteen minutes, when the market cased a trifle on scattered profit-taking. Continued claims were circulated that Texas has gone back rapidly, some observers declaring that where the recent rains were recorded they had caused shedding and that where there had been no rain the plant was in bad shape. However, few of the leaders in the option market care to undertake buil campaigns with prices practically on a four-teen-cent level and we still believe that the market can be sold for a scalp on all bulges.

Cotton Crop Conditions.

The Galveston-Dallas News this morning gives an analysis of cotton crop conditions in Texas and Oklahoma as gathered from 750 correspondents, Aug. 17 is the condition date. As compared with the same day last year there is a gain of 2.9 in Texas and a gain of 20.6 in Okla-

"Regardless"

Few men can dress regardless of expense; in fact, it is safe to say that the neatest dressers among men are the best buyersalways on the look out for some good thing below the market price. For that reason these new trousers will appeal to men who are particular about their, appearance.

These trousers are made from imported English worsteds, and are just the thing to wear with some coat (the pants of which are too far gone for further use). The pattern are new, and a very wide range ig the three hundi and fifty pairs that go on sale tomorrow morning. You'll find any size from 31 to 42 waist. If these trousers were taken into our regu-lar stock, instead of being bought for a quick sale, they would be priced at \$3.50, \$4.00, \$4.50 and \$5.00.

To-morrow all go on sale at \$2.00.
