BALKAN DRIVE BEGINS Anglo-French Forces Advancing on Front of One Hundred Miles ---Number of Villages Captured. MORE HEIGHTS IN CARPATHIANS ARE CAPTURED BY RUSSIANS THE FRENCH MAKE ADVANCES ON BOTH BANKS OF THE SOMME

ALLIES OPEN DRIVE IN BALKANS TAKE VILLAGES AND STATION

British, French and Serbians Engage Bulgarians on Hundred Mile Front and Make Chief Artillery Effort in Region of Doiran.

PARIS, Aug. 16, 10.55 p.m.—The allied forces on the Saloniki front have captured the railroad station at Doiran and four villages at other points on the front, according to an official statement issued by the French war office tonight.

The statement shows that the Bulgarians are being engaged along practically 100 miles of the Serbian-Greek frontier. This announcement is the first official news of the launching of their offensive from Saloniki by the allies. Fighting, consisting chiefly of artillery preparation, is still proceeding with the allies making their chief effort in the region of Doiran.

SEVENTY-FOUR SHIPS OF ALLIES SUNK IN JULY?

Berlin Says Total Tonnage Exceeded One Hundred Thousand Tons.

BERLIN, Aug. 16.—An official statement issued here today says that during July 74 merchantmen belonging to the allies were sunk by German and Austrian submarines and mines. The ships had a total tonnage of 103,000 tons.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE allied offensive has opened in the Balkans with fighting in the form of engagements of advanced posts and patrols, according to a French official communication issued last night. So far the allies have captured the railway station at Doiran and the neighboring Hill 227, as well as the following villages: Rempi, near Lake Presba; Potka, Palmis, Sovko, and Matnica, at the foot of the chain of the Beles. The Bulgarians are being joined in battle on a front of 100 miles and artillery actions have become especially vigorous in the region of Doiran, indicating that the allies may choose that point for breaking the Bulgarian front.

On both banks of the Somme in Picardy yesterday the battle entered into a new phase when the French again joined in active offensive infantry operations and captured three segments of German front of an aggregate length of three miles. It appears from the Paris official communication of last night that the British artillery gave the French considerable aid. The fighting gained for our ally a considerable, also as yet uncounted number of prisoners and machine guns. Intensive artillery work, spread out over several days, preceded this advance. Owing to the nature of the country, making it easily adaptable for formidable defence, the French regard their progress as important. The action was fought to a finish in a brief

Special Cable to The Toronto World.

PARIS, Aug. 16.—The French attacked the enemy in three sectors on both banks of the Somme River and in Picardy today, and they carried trenches of three-quarters to a mile and a quarter frontage at each of the places, taking an uncounted number of prisoners and machine guns. The gains extend north and south of Maurepas village to the Maurepas-Guillaumont and east of the Maurepas-Clergy roads, and the French regard the progress as important in the fighting the French report that they were assisted by the British. The total frontage taken was about three miles.

brought us important gains. North of Maurepas, assisted by the British, we captured one entire line of German trenches on a front of 1500 metres, reaching at certain points the Guillaumont-Maurepas road. "South of Maurepas on a front of two kilometres and to a depth of 300 to 500 metres our infantry occupied all enemy positions east of the Maurepas-Clergy road after a sharp attack which cost the enemy heavily. These two operations, brilliantly and rapidly conducted, resulted in the capture of a considerable number of prisoners, whose numbers are not yet obtainable.

Visits of King and Kaiser To Front Were Coincident

Orders Found on Captured German Officer Gave Details of Military Review Held Before Wilhelm—King Conferred Long With Poincare.

PARIS, Aug. 16, 10 p.m.—President Poincare had a long, confidential conference with King George during the British monarch's recent visit to the Somme front. The visit of the King and president to the fighting line was coincident with the arrival of the German emperor on the German front.

An order found on a captured German officer gives details of the military review which was held before the emperor. The order directs that exhausted soldiers be sent to the rear so that the emperor should see only the best element of the troops. It also directs that those who fought at Verdun should occupy the first ranks.

Petrograd, Aug. 16.—In heavy fighting the Russians have again advanced their lines on a 75-mile front between a point in front of Tarnopol and the Carpathians. At several places on the lower Zlota Lipa river they have occupied the western bank of the river, where the enemy has resumed his counter-attacks, checking a further advance for the time being.

Nickel is Storm Centre of Campaign Controversy

FERGUSON FORSAKES ENEMY DEPENDS ON NICKEL AND LIQUOR CANADIAN NICKEL

Declares They Are Minor Issues Compared With Bilingualism. But for It, Germany Would Not Have War Vessels Afloat.

DEFENDS GOVERNMENT SAYS GEORGE WILKIE

Tells Audience He Will Not Be Coerced on Nickel by Criticism. Asks What Ontario Government Has Done to Defeat Kaiser.

At the Orange Hall, corner of College and Euclid avenue, last night, Hon. G. Howard Ferguson pleaded with the 800 voters there assembled to return James Norris as the member for Southwest Toronto. He declared at the outset that "Nickel and Booze" were minor issues compared with bilingualism, and fully three-fourths of his address was devoted to a discussion of regulation 17 and the bilingual agitation. Mr. Ferguson, however, did not make the fighting, aggressive speech which the audience expected, but, on the contrary, devoted himself mainly to defending the government against the charge of rage hatred and intolerance. He had nothing to say against the French-Canadians or the French language, but blamed the entire agitation upon "the imported hybrids."

Priests Were Hybrids. The imported hybrids, he explained, were the Roman Catholic priests who had been driven out of France because of their disloyal machinations against the government of that country, and who came to Canada with the desire to build up a new France to their own liking on this side of the ocean. These priests, he said, forbade their people to speak English or to send their children to English schools and from their pulpits denounced all French-Canadians who enlisted in the army of the Empire. They were backed up, he said, by George Graham, Sir Wilfrid Laurier, "that little fellow Rowell," and that dirty contemptible cur, Hartley Dewar.

Brief Reference to Prohibition. After briefly referring to the liquor question and insinuating that the plebiscite on prohibition might be taken "much sooner than anybody expected," Mr. Ferguson again referred to the nickel issue. He claimed to have found a process for refining nickel in Canada and to have compelled the International Nickel Company to pack its trunk and move from New York to Ontario. No Canadian nickel, he said, had ever found its way to a Canadian soldier "that journalistic genius, W. F. Maclean," to the contrary, he said, there were many nickel concerns, he said, in the United States, and anybody in that country was free to buy nickel in the open market, but they could not obtain an ounce from the International

But for it, Germany would not have war vessels afloat. Defends government says George Wilkie. Tells audience he will not be coerced on nickel by criticism. Asks what Ontario government has done to defeat Kaiser.

Royal Templars' Hall, Queen and Davenport, was the scene of a good meeting in support of Mr. Dewar's candidature. George Allen, president of the Toronto Recruiting League, who had presided at the chair once before, and set the keynote for vigorous support of Mr. Dewar, the candidate who had shown his fitness to represent the people by his success in his own profession. The chief speaker of the evening, however, was George Wilkie, K.C., the author of the article on "Nickel" in The Canadian Magazine for August. Mr. Wilkie recapitulated the substance of his article in classic and historic narrative, and the greater part of the audience listened to the control of Ontario nickel was lost to the government and to the British admiralty, the information and facts detailed appeared to pall on the interest of a noisy couple in the gallery. In a speech of an hour's length Mr. Wilkie paid his respects to a Magistrate Cohen for having appeared on a political platform, after having just had \$1000 handed to him from the public purse, the propriety of which should rather have been considered by him than the holding of an election in war time. A war time election would not be a bad thing if it succeeded in "wiping up a somewhat dozy bunch of men from a long sleep."

What Mr. Wilkie wanted to know, he asked, was the cabinet done? He had the cabinet done to produce the defeat of the Kaiser? It was as much their duty to organize the labor and resources of the province as for Lloyd George to do it in England. It was not nickel alone but their whole conduct of the war which had to be judged. Mr. Wilkie proceeded to state his story of the nickel election and their alienation. He closed up the interrupters by his analysis of the big gun and armored war vessel statement put for Canadian nickel there would not be a German war vessel afloat today. Ordinary steel guns could only fire black powder. It needed nickel steel guns to withstand the force of cordite, melinite and other high explosives. He was amazed at the proposals of Hon. Mr. Ferguson. There was no satisfaction

to think, by the public opinion aroused by the World, that some confessions Tuesday night and promised great reforms in the near future. These confessions and promises of reform The World receives sympathetically, because it was the World that brought Mr. Ferguson and his master to their knees. With his personal vilification of Mr. Maclellan we are not greatly concerned, nor will we be drawn from the main point into an exchange of personalities with Howard Ferguson. We propose to deal fairly and dispassionately with his speech delivered in this city on Tuesday night.

Mr. Ferguson approached his subject from three standpoints. First, he defended the Conservative government at Queen's Park for having done practically nothing in seven years towards having Ontario nickel refined in Ontario. Mr. Ferguson had to confess that on this subject the Mowat, Mackay, Ross and Whitney governments had been equally unprogressive. Mr. Ferguson said he was the first minister of the crown in Ontario to do anything on this subject. He appointed a nickel commission, got professors at the university busy, discovered an electrical process for smelting nickel, and induced the International Nickel Co. to promise to refine a portion of their ore in this country.

These things are as they may be. We do not think the International Nickel Co. intends to use Mr. Ferguson's process at all, and Hon. Dr. Beatty says it was Premier Borden who made that company promise to build a refinery in Canada. Mr. Ferguson, we understand, first learned of it a few weeks ago. But, however that may be, it is certain that no nickel commission would have been appointed, no steps would have been taken to compel the refining of nickel in Canada, had it not been for the campaign of the World and the fierce white flame of public opinion which it generated.

The second phase of the nickel question, according to Mr. Ferguson, is the one relating to taxation. In 1907 a law was passed requiring all mining companies to pay to the province three per cent. upon their net profits. Mines are usually taxed by a levy in the nature of a royalty on the ore at the pit mouth. But the Canadian Copper Co., which is the Canadian ally of the International Nickel Co., had Ontario pay the net profits instead, and then so manipulated their accounts as to show practically no profits. Along about 1913, however, when the International Nickel Co. was carrying up a ten-million-dollar mine, it was impossible to keep the profits secret and, therefore, the province was induced to go into an arrangement whereby the company had only to pay \$60,000 a year. That deal, we say, was one of the rottest ever made in Canada. But we hold Mr. Rowell just as responsible as Mr. Hearst and we admit that Mr. Ferguson was no then in the government. We commend Mr. Ferguson for saying that he is going to make the company pay its taxes hereafter, and refund some of the money out of the province's treasury. The province in the past. But, if the province gives any money out of the nickel company, it will be largely due to the publicity given this nefarious trust by The Toronto World. All this activity in governmental circles about nickel has been caused, we venture

As to our nickel getting from Canada to Germany we quite admit with Mr. Ferguson that part responsibility rests upon the Borden Government. That nickel does trickle thru the United States to Germany no man with any intelligence can for a moment doubt. Intelligence can for a moment doubt.

BIG FRAUD IN FOOD FOUND IN GERMANY

Vast Quantities Smuggled Into Berlin and Sold at Huge Profit.

THE HAGUE, Aug. 16, via London, 10.45 p.m.—The new German "war usury bureau" has justified its existence by revealing surprising details of widely ramified food frauds, according to reports received here. The frauds are said to involve half a dozen leaders and a hundred accomplices. These men are said to have smuggled hundreds of tons of wheat, rye and barley flour from the Province of West Prussia to Berlin, where it was sold at a profit of 300 per cent.

The existence of the flour, reports say, was concealed from government officials by all means as Mr. Hearst and was shipped on night trains as potatoes or machinery. Among the accomplices and ringleaders were several government officials and several station masters, who are charged with connivance in the fraud by consigning flour under false descriptions. German newspapers are demanding exemplary punishment for the men arrested.

KING OF ITALY PAYS A VISIT TO GORIZIA

Monarch Risked Being Hit by Shell From Long Range. GORIZIA, Aug. 16, via Rome and Paris, 4 p.m.—Altogether this city is still under bombardment by long range Austrian guns. King Victor Emmanuel stopped here on one of his tours of inspection along the Italian lines, watched the effect of the hostile artillery fire and visited the tunnel by which the Italians penetrated and surprised the place.

While he was entering an automobile to leave Gorizia, the king saw a soldier wounded in the hand and foot standing at attention. "Don't bother to salute me, comrade," said the king, who shook hands with them and then saluted the soldier.

EXHIBITION OF ART WILL BE WONDERFUL

Belgian and French Collections Undoubtedly the Best Ever Shown.

HIVE OF INDUSTRY

Canadian National Exhibition Grounds Now in Splendid Shape.

The three hundred-odd paintings, prints and sculpture, comprising the French and Belgian exhibit at the Panama Pacific Exposition, have arrived at the Canadian National Exhibition Grounds, and are being installed in the fine arts gallery, preparatory to hanging.

The shipment contains scores of pictures, upon which a value of \$2000 to \$25,000 has been placed. The highest price for a picture is \$1000 for a picture of which \$1000 is asked. The "Cathedral of Rheims," an interior scene of the Hellenic before the bombardment, is worth \$10,000.

The sculpture, too, is very valuable, one of Gustave Lambert's productions bearing a price ticket of \$4500.

The Canadian National Exhibition of Art, in addition to the foreign exhibit, there will be a Canadian section, comprising eighty selected paintings, and the whole art exhibit, including the graphic and other arts will, it is estimated, have a total value of approximately a half-million dollars.

The J. M. Arts Commission anticipate considerable difficulty in accommodating the entire exhibit, but plan to take care of the overflow in the building occupied by graphic arts, the exhibit of which has been restricted in order to accommodate the fine arts.

Artists who have seen the Belgian and French collection unreservedly declare it to be unquestionably the best and most representative collection ever shown at the Canadian National or other Canadian Art Exhibition.

"Preparations in the grounds and buildings generally were never further advanced," declared Dr. Orr, after a trip of inspection yesterday, in which he was accompanied by President Marshall.

The exhibitors are early on the scene, and the grounds are being prepared for the public after today, and the offices of the Exhibition will be moved from downtown on Saturday next.

In price in circulation and that the members of the board are determined to get the exhibition in the best possible shape yesterday. Eight-cent bread is said to be their objective and it is likely that the city fathers will have to fall back on their threat of establishing a civic bakery to put the bakers in their place.

FOUR HUNDRED COWS SAVED FROM DEATH

Big Barn at Price's Dairy Farm Burned to the Ground.

SILOS DESTROYED

Great Work of Neighbors Saved Surrounding Buildings.

The big barn at Price's Dairy Farm at Eridaple, on the Credit River, took fire yesterday shortly before noon, probably from spontaneous combustion, and was burned to the ground, together with all the contents, including over 20 tons of hay and a large quantity of grain.

In the barn at the time of the fire were 430 milk cows, every one of which was saved by being turned loose. Surrounding buildings were saved by the great efforts of the men on the farm, aided by the neighbors and scores of people who assisted in fighting the flames, until all the adjoining buildings were prevented from catching fire. There is a strong water pressure, which was used to flood the roof. The loss is fully covered by insurance.

BRIG.-GENERAL LOGIE RECEIVES PROMOTION

Made Major-General by Militia Council—Col. F. Marlow Appointed Chief Med. Inspector.

DUKE TO VISIT CAMP

Twenty-Seven Battalions Will Take Part in Great Sham Fight at Borden.

CAMP BORDEN, Ont., Aug. 16.—Brig.-General W. A. Logie, commandant of military district No. 2 (Toronto), and Camp Borden, has been promoted to rank of major-general, by the militia council, Ottawa.

Col. F. W. Marlow, director of medical services for the Toronto military district, has been appointed chief medical inspector of the Canadian Expeditionary Forces in Canada. The appointment is for the purpose of his making a report on medical matters in the various military districts of the Dominion. He will likely continue to make Toronto his headquarters.

Lieut. A. F. Conventry, district intelligence officer, has been raised to rank of captain.

The militia department informed headquarters here today that His Royal Highness the Duke of Connaught and Princess Patricia, would come to camp Borden on Monday, September 4. It is stated that the duke will inspect the troops on his brigades march, and that there will be a march past on the ceremonial area.

Big Sham Fight. Twenty-seven battalions will take part in the manoeuvres areas on Camp Borden tomorrow, tomorrow night and on Friday. On Thursday night the soldiers will bivouac in the open instead of returning to their tented area.

One force will be known as southern and will be commanded by Lieut.-Col. S. Wigle. The other force, the northern, will be directed by Lieut.-Col. W. C. McDonald. The northland is supposed to consist of the districts of Nipissing, Sudbury, Algoma, Thunder Bay and Manitowish.

The southern force will have Toronto, as its hospital and consist of Simcoe, Grey, Dufferin, Wellington, Peel, York and Halton Counties.

The northern and army will assume the offensive. Both forces will consist of four infantry brigades with artillery support. All the manoeuvres will be confined to government property within the camp.

Must Have Health Certificates. Before battalions leave for overseas a certificate in triplicate, must be rendered, signed by the commander and examining medical officer, showing that each member of the unit is fit for overseas service, and neither under nor over age. One copy of this certificate will be retained by the commander of the battalion for production on entry in England.

A Million a Minute and No Time for His Daughter!

While Millionaire Howell, railroad president, holds Wall street at bay, Marjorie, his beautiful daughter, is placed on the bargain counter for the money her body will bring. An unscrupulous mother attempts to barter her for John Burton's gold, though the girl's heart has been given to another—A mother's greed has accomplished a daughter's ruin!

Is Humanity in the Grip of Evil?

Read—THE GRIP OF EVIL

By Louis Tracy. A wonderful new motion picture serial with a master plot in fourteen installments, narrating the pitfalls of life, depicting the perils that surround us daily in politics, in business, in social circles, in the home! The story is a grim slice of life itself.

Speed—Accuracy—Reliability

These three essentials are combined in Dominion—the only Canadian-made ammunition. That is why Canadian sportsmen have adopted almost unanimously Dominion Shot Shells as the correct load for small game. Quality of materials, skill in workmanship, careful wadding, sensitive primers and double chilled shot make possible these three essentials of

Dominion Shot Shells

No matter where you are—in the blind or following a dog—if you see "Dominion" on your shells be satisfied that you have the best small game load that it's possible to make.

"Dominion" stands for rigid inspection and absolute guarantee of perfect shooting qualities. It means sure-fire and even pattern—a shell that will back your aim to the utmost in filling your game bag.

In Canada, Crown, Sovereign, Regal and Imperial you have well balanced Dominion loads for every purpose. Look for the "D" on the box and avoid disappointment.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

time and the Germans had not counter-attacked up to the moment the report for the war office was compiled.

To go into details, the French, operating in three spheres, first captured a whole line of German trenches on a front of about a mile and situated north of Maurepas; secondly, captured about a mile and a quarter of German defences set up south of Maurepas, having a depth of 300 to 450 yards, and situated east of the Maurepas-Clergy road. The first attack brought the French to the Guillemont-Maurepas road in some places. All this was done north of the Somme. Thirdly, south of the Somme, the French in a rush carried a powerfully organized system of German trenches on a length of three-quarters of a mile below Belloy-en-Santerre, taking 60 prisoners. Heavy losses were inflicted on the enemy in these attacks.

The attacks north of the Somme and the consequent gains serve to bring the French lines nearer to the southwest head of the river, and a little further progress will enable them to encircle Peronne from the north. It is probable that the recent inactivity of the French lulled the enemy into a false confidence which he was busily engaged in watching the British operations. Another purpose of the advance north of the river will be to get a further command of the ridges up which the British are progressing and to permit the French to assist the upward march by their artillery fire. The first job set for the British and the French armies on this front appears to be the gaining of the mastery of the whole Albert ridge.

Action on the British front in Flanders yesterday was conspicuous by its absence of mention in the official communique of general headquarters. It is presumed that the time is now being occupied by Sir Douglas Haig and the British staff in moving up fresh troops and in sending the men who have borne the brunt of the fighting for the past few weeks behind the lines for a rest. It is probable that a new stage of the operations is about to begin. As British shell production now keeps abreast of the requirements, no reason exists why the offensive should be suspended, except during periods of preparation for carrying it forward again.

The Anglo-French lines are now in such a position that by rolling them forward a little more the Germans would be compelled to evacuate the salient formed between Arras and the Ancre by the past six weeks' fighting.

In Mesopotamia, the British army, with wings now established both on the Tigris and the Euphrates, is still awaiting the signal for action. Official word last night was "to the effect that the situation was unchanged on both these historic rivers. It appears from debates in parliament and from letters sent home by officers that the first stages of the campaign were dogged and cursed by inadequate medical and transport arrangements. The British general staff in London recently assumed control of the forces in this theatre and it has been devoting strenuous labors to the organizing of the Mesopotamian expedition on an efficient transport and hospital basis. Meanwhile the extreme heat may hold up infantry operations until September. It is also probable that the intense heat of this country, on up to mountains of Armenia, is what is holding up the Russians in northeastern Mesopotamia, the region of Lake Van, and western Persia. It is practically impossible for white troops to wage a campaign with the temperature 132 degrees in the shade.

The Italians have continued their wearing away of the Austrian defences east of Gorizia and on the Carso Plateau with fresh and appreciable results. Gains in the shape of Austrian trenches captured were made in both directions of attack. It is reported that the Germans have taken over the defences of Trieste and that they have sent a specially trained garrison for the purpose of holding out in this citadel. This town is too important as a seaport for the near east to permit Germany to relinquish it without a struggle, for its fall, unless a surprising Teutonic blow were made afterwards, would cut the central empire off from the Adriatic and the Mediterranean to a great extent. But a garrison locked in a fortress in these days of modern high power artillery is as good as doomed. It can only at the best hope to delay the inevitable.

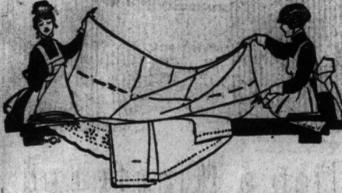

The Russians have evidently paused in their operations, excepting in the region of the Carpathians and west of Delatyn and at some places on the western bank of the Strips River. In the mountains they have captured some more heights and they have stopped a Teutonic offensive by their fire. On the western bank of the Strips they have been constrained to arrest their advance to repel Teutonic counter-attacks. Meanwhile the Russians, who have got considerably ahead of their heavy guns in their rapid pursuit of the enemy, are waiting till these come up before they undertake further strenuous offensive action.

FORTY-SIX HEROES WELCOMED HOME

Impressive Sight at Union Station When Train Pulled In.

TELL OF INJURIES

Pte. Strange Hit by Shell While Aiding Wounded at St. Eloi.

Yesterday morning an effective and impressive sight was witnessed at the Union Station when a large crowd of relatives and friends assembled to greet and welcome home a party of forty-six heroes who returned, after accomplishing their bit at the front, many happy reunions took place and many tears were shed, but they were tears of happiness at having the loved ones at home again safe from the dangers of the battlefield.

The men were taken by motor 2275 to the Reception Hospital on College street, where many more happy reunions took place. Addresses were delivered by Mayor Church, Controller Cameron, Ald. Rydman and Cannon

Dixon. Mayor Church told the men that Canada could not do too much for them, and he assured them that the City of Toronto would see that everything possible would be done for their welfare. The first call on vacancies which occur in city employment.

He referred in his remarks to the methods of the provincial and federal governments and their "useless commissions" formed for the purpose of taking care of returned soldiers. He said that the government had not done its duty by the men who have fought and died to preserve the glorious name of the empire. The municipal authorities have all the work of caring for the returned men, and they have performed their work well, as over ninety men have been placed in positions during the past month. He closed by remarking that the government will have to take care of these men, and he intended to see that it does take care of them.

The Men's Injuries. Many of the men who returned yesterday had never been at the front, but were invalided home because of sickness while training in England. Several, however, had suffered injuries at the front which necessitated their return home.

Pte. F. Strange was with the C.A.M.C. and was injured at St. Eloi while aiding the wounded by the bursting of a shell over his tent, a portion of which struck him in the head.

Sergt. H. Martin suffered from gas at Ypres. Sergt. H. Pittan received a serious gunshot wound at Festubert. Pte. G. S. Powers of the 48th Highlanders of Ulster, was gassed at Ypres. This and other troubles brought on tuberculosis.

HAVE NO DESIRE TO OBSTRUCT RADIALS

Government Intended to Give Authority, Declares Hon. I. B. Lucas.

WILL BE RECTIFIED

Any Difficulty Regarding Raising of Bonds to Be Removed.

In reply to the letter from the central executive of the Hydro-Electric Railway Association to Premier Hearst, Hon. I. B. Lucas said yesterday: "In my opinion section 9 of the Hydro-Electric Act of 1916 does permit the government to authorize the commission to purchase right of way for any part of any radial system at any time and to do the financing therefor."

After explaining that he was not giving a carefully prepared legal view of the question, the attorney-general went on to say that he thought the association was mistaken in a matter of legal interpretation. "It certainly was the intention of the government to give such authority, and there was no intention to prevent the proper financing of the right of way," he said. Will Be Amended. In their letter to the government.

WANTED WOODSTOCK OFFICIALS "SACKED"

Trader Complained to Hon. I. B. Lucas of Crown Attorney and Magistrate.

PROMISE UNFULFILLED MAY SERVE SENTENCE

L. C. McDonald, Guilty of Theft, Failed to Enlist When Given Chance.

That Judge Winchester may sentence L. C. McDonald on an original theft charge under which he was released on suspended sentence providing he would enlist, Judge Denton yesterday remanded McDonald to jail until the opening of the September sessions. McDonald was found guilty of theft in May, and instead of enlisting went to the United States. Later he was extradited on a charge of having stolen \$25,000.

It was W. A. Williamson of Brampton who tried to start a controversy with Hon. I. B. Lucas over "two dirty grits" at a campaign meeting on Tuesday night. Bright and early next morning he was up at the parliament buildings. It appeared that he wanted the police magistrate and the crown attorney in Woodstock to be "sacked." The attorney-general replied that if he would make specific charges against these public officials his department would be pleased to investigate. In reply, Mr. Williamson told his story. In it the attorney-general failed to find any charges that called for investigation. It appeared that in November, 1915, Mr. Williamson, who is said to be a horse trader, had been arrested on a charge of false pretences on the complaint of a farmer. The police magistrate was away and the crown attorney offered to take \$50 of the \$100 that Williamson had on his person, and a bond as bail. He stretched a legal point to do so. This was not regular enough for Williamson, who preferred to remain in jail for 27 days. He demanded a jury trial and refused to trust a lawyer. He was acquitted. Later he called a meeting in the town hall at Woodstock to hear him speak on "The Legal Menace." He complained of injustice, but declined to take action against the farmer who had laid the information.

WILSON HAS PLAN TO AVERT TIE-UP

It Will Be Submitted to Railroads and Their Employes Today.

OBSTACLES ARE SEEN

But Outlook for Settlement of Differences is Considered Good.

WASHINGTON, Aug. 16.—President Wilson completed a definite plan for settlement of the threatened nationwide railroad strike and will submit it to representatives of the managers and employes tomorrow.

The proposition outlined by the president, following conference with the managers and employes since Monday morning, proposes that the railroads should concede the eight-hour workday, with an agreement that it will be observed. Later it probably will be proposed that a federal commission be appointed by the president or created by congress, to investigate all problems which have arisen during the present discussion.

Several Toronto Bakers Announce Increase in Small Loaf.

SHORTAGE OF LABOR

Unsettled Wheat Market and Advance in Flour Are Reasons.

That the high cost of living continues to soar upward was indicated yesterday when several Toronto bakers announced an increase to seven cents in the price of a small loaf of bread.

The reasons assigned by the bakers for the strike were the steady rising prices of the ingredients, especially sugar, used in the manufacture of bread.

Flour has advanced in price and until it drops the increase in the cost of bread will be a permanent one, it is understood.

THROWING DUST IN EYES OF PEOPLE

What the Socialist Candidate Says of Hon. G. Howard Ferguson.

ON HIS NICKEL TALK

James McArthur Connor Addressed Four Open Air Meetings Last Night.

There might be a landslide in South-west Toronto, Mr. Hearst and Mr. Ferguson both jumped the job it took the other extensive disintegration in both parties with new line-ups.

Mr. Lucas' speech was an appeal for the vote of the liquor and brewery interests, and an appeal for the vote of Mr. Hearst.

By-elections in England are used more and more as read-the-plot-act to go policy, to bend to new conditions, for purposes of jobs and reminders. They are getting equally fashionable in this respect in Ontario.

When a patriotic man like Colonel Denison rushes across the road to grasp the hand of Mr. Maclean by the hand and say: "I wish to congratulate you on your stand, there is still some little roadway current in a rather low-played game."

There is a chance for a reorganized party, for a reorganized G.P. party, but who wants to see either of the present ones survive another election?

ALL SMILES BEAT BORROW IN HANDICAP AT WINDSOR

Large Fields Go to Post on Opening Day of Second Summer Meeting.

WINDSOR, N.Y., Aug. 16.—All Smiles, the rank outsider, beat Borrow and a small field. The feature handicap on opening day pays \$100 for \$2. An immense gathering turned out to witness the racing. Heavy showers during the night made the going at bit slow. The footing improved as the afternoon progressed.

FIRST RACE—Purse \$800, two-year-olds, foaled in Canada, five furlongs: 1. Minnetonka, 100 (Pallon), \$14, \$3.70, out.

2. Isabelle H., 115 (Robinson), \$2.40, out. 3. Dandy Fay, 100 (Brown), out. Time 1:09 4-5. McCornub also ran.

SECOND RACE—Purse \$500, for 4-year-olds and up, claiming race, five and one-half furlongs: 1. Stout Heart, 104 (Motcal), \$5.30, \$3.50, out.

2. Kootenay, 111 (Pickens), \$3.30, \$2.10, out. 3. York Lad, 100 (Carroll), \$2.10, out. Time 1:09 4-5. Rattina, Rio Brazos, Soila, Minnie, Jimmy, Mack Gayle, Lady London, Ethan Allen, Little Nephew and Rhodes also ran.

THIRD RACE—St. Clair Purse, \$500, 3-year-olds and up, six furlongs: 1. A. N. Alkin, 110 (Robinson), \$5.20, \$3.70, out.

STOCKS ADVANCED ON ACTIVE TRADE

New British Loan Stimulates Speculation at New York.

GENERAL LEVEL RISES

Greatest Volume of Business Transacted for Any Day of Month.

NEW YORK, Aug. 16.—Disregarding the deadlock in the railway labor controversy and the increasing pessimism reported from western and northwestern agricultural centres, today's market added variably, but for the most part substantially, to price accretions of the early week.

Trading was the largest on the upswing of any day thus far this month, and comprehended a far greater number of issues. There were indications of extensive short covering in more than a dozen securities from investment sources.

Prices were merely firm at the outset, but gathered force before midday. The terms of the British loan, which is expected to ease foreign pressure upon this market, seemed sufficiently attractive to stimulate speculative sentiment in some issues to the point of buoyancy.

U. S. Steel, Mercantile Marine, common and preferred, and Reading and the more prominent motors and equipments constituted the most active features. Steel, on an overture of about 25,000 shares, rose to 91 1/2, its highest quotation since 1909, when it made the record price of 94 7/8.

Marine common attained a new record on rise of 5/8 to 34 7/8, with new maximums for the old and new bonds, and another stripping issue, Atlantic Gulf and West Indies, touched a new minimum of 10 1/2.

Other striking features included Canadian-American Sugar, which rose 1/2 on the declaration of extra cash and stock dividends, the independent steel and iron shares, mentioned in the U. S. Industrial Alcohol and Mexicana. Gross advances in these various issues, which were retained in large part at the close, ranged from 3 to 4 points. Total sales amounted to 285,000 shares.

Heavy dealings in Anglo-French 5 1/2 per cent, the new French 5 per cent, and the new French 4 1/2 per cent, featured the steady bond market. Total sales, par value, \$6,960,000.

STEEL OF CANADA MOVED UPWARDS

Better Demand for Steel Stocks—Spanish River Quiet and Easier.

The steel issues were favorites in the Toronto stock market yesterday, with Steel of Canada acting as leader. It is understood that consideration is being given to the division of Steel Company of Canada common stock will be given by the directors at their meeting next month, when action is to be taken on the preferred dividend, due Oct. 18. The payment is more than likely to be made, however, during November, in line with the policy of separating the dividend dates and so making financing of the payments easier. The company's business continues at a very high level, and its financial position has been further improved during the past few months as a result of the favorable outcome of operations. It is stated unofficially that it is now in much better shape than when the last annual report was compiled.

The better feeling was reflected in the stock yesterday, the common advancing to a new record since back in July at 56 3/4, and the preferred 12 1/2. The market for the new Scotia Steel shares at 12 1/2 and Dominion Iron was up 1/4 to 15 1/4. Cement, not so active as recently, held at 60. Spanish River turned easier, opening at 14, the previous day's close, and selling down 3 full points to 13, closing at this figure. Smelters went down one-half point on the opening at 38 1/2 and closed at 38 1/4. Toronto Rails was in quiet demand and advanced one-half point to 92. Trading in shredded wheat fell off again, selling down one-half point to 113 1/2. The bank stocks were in good demand, with Imperial unchanged at 125 and Toronto up four points to 125 on the close. The war loan was quiet at 98.

C. N. R. EARNINGS.

Canadian Northern Railway gross earnings for the week ending Aug. 14 were \$44,500, as against \$47,600 last year, an increase of \$3,100. From July 1 to date this year earnings amount to \$5,547,700, as against \$5,277,800 for the corresponding period last year, an increase of \$271,900.

MONTREAL CATTLE MARKET.

MONTREAL, Aug. 16.—At the C.P.R. live stock market today the increasing supplies of common stock coming forward caused prices in some instances to be limited, and only for small lots in actual want on account of warmer weather prevailing, consequently trade on the whole was slow, with sales of few choice steers at \$8.25 to \$8.50; good fat, 7 1/2 to 8; and lower grades at from \$6.25 to \$7, and bulls from \$5.25 to \$7, and culls from \$4.25 to \$5, and culls from \$3.25 to \$4.25 per 100 lbs.

There was no further change in the market for small meats, prices being steady. The demand for lambs was good, \$10.75, and sheep from \$6.25 to \$7 per 100 lbs. The trade in calves was fairly active, and prices were well maintained at 5 to 7 per lb. for grass-fed stock. Hogs were firm, with a good demand, and selected lots selling at \$12.25 to \$13, and rough cut, weighed off cars, \$11.50 to \$12.50 per cwt.

Of a membership of 1950, seven hundred of whom do not live in Toronto, the Royal Canadian Yacht Club has sent 325 to the World of this week.

WHEAT HESITATES IN UPWARD DRIVE

Chicago Trade is Satisfied for Moment and Takes Profits.

CROP DAMAGE DONE

Liverpool Market Goes Higher—Values Fluctuate Considerably.

CHICAGO, Aug. 16.—Yesterday's advance in wheat apparently satisfied the trade for the moment, as bulges were seized upon today to take profits. The result was a net loss, 7-8c to 1-2c. Corn closed 1-8c lower to a shade higher. Oats unchanged, and provisions irregular—from 2 1/2-3c lower for December pork to 10c up for October ribs.

The best prices for wheat were attained early in the session. Crop advances continued bullish and Liverpool was higher, and these factors encouraged holders for the time being to hold back for a further rise. When it came, however, there was plenty for sale, and thereafter every bulge found selling orders waiting. Fluctuations covered an extreme range of 4 1/2-5c. Some of the selling here was for the purpose of closing spreads between this market and those of the northwest. One expert in Canada telegraphed that black rust damage in Canada had reached its maximum. The earliest arrival of new wheat ever known in Winnipeg was reported. It graded No. 1.

Corn prices covered a range of 7-8c and were influenced largely by wheat advancing early and reacting later on profit-taking. Official weather reports included information that crop damage in Illinois was less than 25 per cent, and the same in Iowa. The better weather reports were not considered significant, and prices reflected the trend in neighboring pits. Buying by seaboard exporters was more than offset by local profit-taking.

Provisions advanced early on liberal shipments of lard and the advance in live hogs, with shorts leading in the buying, but realizing sales later found little support, and the gain was mostly lost. Closing prices were at the bottom.

Mining Notes

PROMISING VEIN CUT.

A promising looking vein, about four to eight inches in width, was cut on the 560-foot level of the Cochrane property yesterday. Some patches of silver were found and it is believed that drilling on it will prove an ore shoot of some importance. The Cochrane is taken under option a couple of months ago by the Crown Reserve Mining Co., and present operations are being carried on by the latter company. The Cochrane property lies to the south of the Timiskaming mine.

NEW PLANT TO COMMENCE.

Shortly after Aug. 15 the new oil flotation plant at the Buffalo mines will be in operation. The four tube mills for regrinding the tailings and the required number of flotation cells have already been installed. A large steam shovel, with a capacity of lifting one ton per load, was purchased and is now in place near the tailings pile. When the mill is in operation, approximately 600 tons a day will be treated. Of that amount 500 tons daily will come from the tailings pile and 100 tons daily from the mine.

SCHUMACHER'S NEW SHAFT.

The new shaft on the Schumacher, 1400 feet from the present main shaft, has been started and work is being pushed rapidly. The new shaft will be the point from which the vein system running along the quartz porphyry-basalt contact will be explored. Several veins underground are being followed. Some free gold was found out what they amount to underground. Previous development and mining work on the Schumacher has been confined to a few acres near the McIntyre-Porcupine line.

CLAIM CHANGES HANDS.

A promising prospect changed hands in Halleybury this week, when the Elliott-Orr claim was purchased by P. J. Oddy and G. J. Greene of Toronto. The claim in question is located adjacent to the McKane property of the Kirkland Gold Mines. It is now under a working option to Beaver Consolidated, and the Teck-Hughes property. The price paid is said to have been \$3000, the main being for cash down. The sellers, Messrs. Stephen Orr and David Elliott of Halleybury, each retain an interest in the property. Some free gold was found on the surface of one of the veins on the property last fall.

THE SILVER SITUATION.

Samuel Montagu & Co. report on silver in London as follows: The tendency of prices has been somewhat better during the current week, fluctuating either side of 30d, with an inclination toward the higher. The improvement has been mainly owing to the firmer tone of the China exchanges, which have shown reluctance to fall in sympathy with silver prices.

On several occasions during the last week or so, rather heavy sales have been made, attributed to "bulls" and other exceptional sources. When eastern rates are discouraging, buyers hang back, the total of the note issues is in their hands, but when rates are stable steady, they are only too glad to take whatever offers. The silver reserves in the Indian treasuries continue to increase, but as in preceding weeks, the total of the note issues is enlarged to about the same extent.

MONTREAL STOCKS STRONG.

Heron & Co. report: MONTREAL, Aug. 16.—The local market today has a more active tone and a fair volume of trading in the active stocks. The leaders, Laurentide, Steel, Scotia and Iron were strong and active.

A Word to You and Your Wife About Our Homelovers' Club

The furnishing of the average Toronto home has undoubtedly improved during the past few years, and one great contributing cause has been The Homelovers' Club.

This Club has made the finest stock of Homefurnishings in Canada available to people who did not feel justified in making a big hole in their cash reserve, and were therefore compelled to pay the long prices charged by "instalment" houses—and this on merchandise that was inferior.

Our fourth and fifth floors hold a collection of high-class Homefurnishings chosen with excellent taste and marked at unmatchable prices. These prices are strictly cash, but a member of the Homelovers' Club (which is an association of householders and leaseholders with tremendous buying power), is allowed to spread his payments over a certain number of months and is charged not one cent for the privilege. This applies on all sale values as well as on our regular values.

To Become a Member of This Club
Come to the 4th Floor and see the Club Secretary. He will enable you to get things delivered just as soon as you pick them out.

N.B.—Out-of-town Customers will find that the saving and convenience enjoyed by members of the Homelovers' Club will make a trip to Toronto well worth while. They can join the Club and make their selections at the same time.
