VOL. XXXVII.—No. 13,358

## BRITISH OPEN GREAT JUNE OFFENSIVE WITH FIVE TO LILLE ON 10-MILE FRONT

### Most Terrific Bombardment Ever Seen Precedes Attack Resulting in Capture of Powerfully Fortified Messines-Wytschaete Ridge, Followed Immediately by Carrying Germans' Rearward Positions on Five-Mile Front East of Oosttaverne—Whole Face of Country Changed by Mine Explosion, 5,000 Prisoners Counted and More Are Coming In.

## COALITION CABINET WILL CALL ELECTION IN FALL

### Laurier, Repudiated by Constitutional Liberals, Will Probably Resign Leadership—Pardee, Graham, Carvell, A. K. Maclean and Four Other Liberals Invited to Enter Cabinet—Liberal Caucus Today.

Ottawa, June 7.—A sign of relief went up this morning from members of both sides of the house when the correspondence between the party leaders was made public. The big coalition was, perhaps, too big for the ordinary M. P. to grasp, and it was, perhaps, the less welcome because it involved an immediate appeal to the people. The Conservatives at once gathered in caucus and cheered Sir Robert Borden to the echo. It was indeed, a glory hallelujah caucus. Everyone present voted for conscription upon the acceptance of the secretary of state, Hon. Mr. Seigney, minister of inland revenue, and several other Conservative members from the Province of Quebec. Sir Robert had no caucus, but gathered together in groups to discuss the situation during the day, and tonight the Conservatives were jubilant with their opponents correspondingly depressed. The Liberals, however, are to have a caucus tomorrow.

This will be the event of the session, because it is more than likely that Sir Wilfrid Laurier will tender his resignation upon the acceptance of his resignation will indicate the line of cleavage which now threatens to divide the Liberal party into hostile factions, with conscription as the bone of contention. On this account Sir Robert Borden, with the assent of his party, has decided upon a unionist government to consist of eight Conservatives and eight Liberals, but to be presided over by himself; that is, he will be the directing mind and have the casting vote.

This morning Hon. W. J. Hanna appeared in Ottawa and was at once greeted with a F. P. Pardee, chief Liberal whip. Later the two gentlemen conferred with Sir Robert Borden and the World is in a position to state that Mr. Pardee was offered a portfolio and refused the same, although he had intended to give his general support to the war policy of the administration.

Overtures to Liberals.  
This is the first stone in the road that the triumphal government chariot has struck so far. The government plan this morning was to elect in the cabinet Mr. Pardee, Hon. Geo. P. Graham, Frank Carvell and A. K. Maclean of Halifax. These four were then to select four other Liberals in or out of parliament, thus making up the eight Liberals in a unionist cabinet of 16. Up to night the other three gentlemen just named had not received any summons from the prime minister, and it is supposed that they will attend the Liberal caucus in the morning. Mr. Graham, it is said, has severed his connection with the Montreal Herald but this does not necessarily mean that he is going into the government.

Election in October.  
Government supporters are confident they can carry the conscription bill through parliament, and many of them think that they will also secure an election by parliamentary term, but those close to Sir Robert Borden say that it is his intention to dissolve parliament and have an election some time in October. If he decides upon an election, parliament will probably be kept in session during the dog days in order to pass a federal franchise act.

## ANOTHER PHOTO FOUND ON THE BATTLEFIELD

Mrs. M. Spinks, 15 Rebecca street, wife of Pte. J. Spinks, sent this photograph to the World with the information that it was found somewhere in France by her husband, who sent it to her and asked that it be put in the World. If anyone knows whom it belongs to they can get it from Mrs. Spinks.

## CONSCRIPTION MEASURE BEFORE HOUSE MONDAY

### Galleries Crowded in Expectation of Dramatic Deliverances Speedily Empty When White Speaks on Insurance Bill—W. F. Maclean Urges State-Owned Cable.

Ottawa, June 7.—Altho the correspondence between Sir Robert Borden and Sir Wilfrid Laurier, summing up the long negotiations between them for a coalition government was made public this morning, the report was current that both party leaders would state their position on opening of the house this afternoon. The result was an attendance of members and visitors almost without precedent. On the floor of the chamber was seated a party from government houses and a number of distinguished visitors, including veterans of the war, while the galleries were crowded to suffocation.

Galleries Soon Cleared.  
When Sir Robert Borden rose upon the order of the day everyone leaned eagerly forward to hear the expected announcement, but the prime minister merely gave notice that on Monday next he would move the first reading of the conscription bill. Sir Wilfrid Laurier asked when the bill would be read the second time, and Sir Robert replied that he wished to go forward with the measure as quickly as possible. Then the deputy clerk read the first order of the day, which happened to be a bill to amend the insurance act. Sir Thomas White proceeded to address the house, explaining at some length the intricacies of the privy council's recent decision declaring ultra vires the most important clauses in the insurance act of 1910. Then the ladies of government made a hurried exit, followed by nearly all the distinguished visitors on the floor of the chamber, and the finance minister's exposition was proceeded by the noise made by the sorely disappointed crowd that hurried away from the galleries.

Urges State-Owned Cable.  
Later in the day the House discussed the breakdown of the Paulson Wireless Company, with whom the government had made a contract in 1913, and whose works are being taken over by the Marconi Company. W. F. Maclean (South York) recalled his prediction made in 1913 that the company would not be able to carry out its contract, and regretted that the Dominion Government at that time had not seriously addressed itself to task of procuring a state-owned cable line between Canada and the mother country. He urged the government to

By R. T. Small, Staff Correspondent of the Associated Press.  
WITH the British armies in France, June 7, via London, June 8.—The British armies struck today on a new front and won a victory which supplements the successes at Arras during the past two months. The Germans, the apparently aware that the blow was coming and seemingly prepared to meet it, were driven from their nearly three years' hold on Messines Ridge, opposite poor old Ypres, the last remnant of an important Belgian town, which, with the help of the French and British in turn, has held out against all the massed attacks the Germans could fling against it, including the first great surprise of poison gas as a means of supposed civilized warfare.

Ypres in a sense was avenged today for Messines Ridge has been the vantage point from which the Germans have poured torrents of shells into the stricken city. The British also wiped off an old score against the Germans for they held the ridge in October, 1914, and with very thin forces, and practically no artillery fought bloody, but costly, to hold it when the Prussian troops massed their modern and overpowering weapons of war against it.

Today's attack lacked many of the elements of surprise which accompanied the battle of Arras and the successful storming of Vimy ridge. There has been no doubt for three weeks past as to the intentions of the British. The Germans knew that a big push was to be made against Messines, and they had plenty of time to prepare for the defence of that place. Prisoners taken today, however, declared that the bombardment of Vimy was child's play compared with the gunfire turned upon Messines Ridge.

Carry Ten-mile Front.  
This fire reached its climax just as dawn was greying the eastern skies and while the full moon was still suspended high in the heavens. Today's successes, won along about a ten-mile front from Observatory Ridge, southeast of Ypres, to Ploegsteert Wood, east of Armentieres, proved another triumph for British artillery supremacy. As the fighting was wholly on Belgian soil, however, the Belgian artillery stationed some distance north of the actual line, aided with a violent bombardment of the German positions within range of its varied calibre weapons.

Messines Ridge is a low-lying promontory, extending along the greater part of today's fighting front. It is an insignificant bit of ground to look at from below. At its greatest height it rises barely seventy metres above the sea level. The surrounding country is so low and flat, however, that Messines had an observation value practically incalculable. It was a position which dominated the northern half of the British line in the west, and no operations of a large character could be planned without its possession.

Seventy metres is not a great height, but when you have been sitting at twenty or thirty metres with the enemy looking down at you and pouring shot and shell incessantly about you, possession of the higher ground means a victory of supreme importance.

Germany Get Molten Metal.  
Today's attack was accompanied by all the arts and devilry of latter-day war. The enemy guns and gun crews had been bathed for days in gas shells sent over by the long-range British guns. The night was filled with red incendiary flame. Shells that spouted molten metal in surging streams of golden rain, crashed in appalling numbers about the heads of the defending soldiers. Explosions and shrapnel fire was carried out with such rapidity that the very earth writhed under the force of the attacks.

## Lloyd George Got Up To Hear Explosions

### British Premier Knew Exact Time for Opening of Attack and Heard Detonations from Mines 130 Miles Away.

LONDON, June 7.—The tremendous explosions which opened the British attack on Wytschaete Road were heard by David Lloyd George, the British premier, who was staying for the night at his residence, Walton Heath. Plans for the attack had been made in the premier's study, and he was in the house when the attack was intended to open it.

Accordingly, on retiring last night, Mr. Lloyd George gave orders to be called at 3 o'clock this morning, on the chance of being able to hear the explosions. The premier and other members of his household clearly heard the tremendous detonations, as also did persons at the premier's official residence in London, who supposed they were the sounds of heavy guns until later they learned from the despatches that they came from the explosion of mines.

There has been good fighting throughout the day, altho the artillery success had made the infantry assaults comparatively easy. Late today the Germans were reported massing in two flanking positions apparently for heavy counter-attacks. The British gunnery, however, had brought their guns far forward on the ridge and were prepared.

It was a day of intense heat and the sun worked steadily to the west. The attack went forward with clock-like regularity. At noon 2,500 prisoners had been counted and it was fully expected they would reach 5,000. The British casualties were slight. Three out of four of the casualties were reported to be walking cases, who would return to duty in a few days.

Tribute to Plumer.  
Today's victory was a tribute to the British army commander by General Sir Herbert C. O. Plumer. This army has had the defence of the famous Ypres salient ever since the salient was created. The army has set in the shadow during the brilliant phases of the Somme and Arras offensives, but at last has come into its own. The preparations for today's show had been made carefully and deliberately. Each move was worked out to the last minute detail of the itinerary of each of the tanks. The tanks, by the way, had a field day. The attack began at dawn and the setting was as picturesque as can well be imagined. The day before had been hot and sultry. Toward evening there was a series of thunderstorms which extended well into the night, the lightning mingling with the flashes of the guns, but the thunder being virtually unheeded amid the din of the cannon. The full moon struggled continuously to break through the heavy clouds which scudded across the velvety night sky. On the way to the front were all the familiar pictures of the war, endless trains of motor trucks, all varieties of horse transport, including old-fashioned wagons which had been handed down from civil war days, and British soldiers marching to battle in the shadow of an old windmill which had withstood the storms of a century and been undaunted by nearly three years of war, the correspondent witnessed the last phases of the seven days' bombardment and the final quiet which sent the British in

this final terrific bombardment began. It had seemed that the battle of the Somme attained the ultimate in the close assembly of war weapons, but this sudden outpouring on Messines Ridge was beyond all calculation. The lighter field guns far forward set up a perfect curtain fire, under which the assaulting troops pushed on steadily to their allotted goals. Farther back the deep-throated heavies began to pour out torrents of high explosive shells on the German trenches and communications, while still other guns—enough to win an ordinary battle—confined themselves solely to the task of deluging German gunners in baths of gas fired in shells of every conceivable calibre.

Gas Gas Gunners.  
The effect of this counter-battery work was appreciated until later in the day, when the infantry sent back word that their progress had been hampered by the enemy artillery. Their casualties amounted to virtually nothing.

Great black observation balloons had stolen skyward in the din of the battle. In the wood back of the windmill spring birds, awakened by the deafening clamor, had begun to sing joyously. Like many children, who have come into the consciousness of being in the midst of the war, these birds regarded the appalling noise of the battle as a normal condition of life.

The Official Report.  
The British troops made a second drive and carried the Village of Oosttaverne and the German positions east of the village over an extent of five miles. It is officially announced tonight.

The German casualties were very heavy and the British took more than 5,000 prisoners, many guns, trench mortars and machine guns.

The text of the statement reads: "Our operations south of Ypres have been continued methodically throughout the day and have been attended by complete success."

The attack on Wytschaete ridge, which for over two and a half years has dominated our positions in the Ypres salient, was stormed by our troops this morning. In this attack we captured the villages of Messines and Wytschaete and the enemy's defense system, including many strong fortified woods and defended localities on a front of over nine miles from south of La' Douve brook to north of Mont Sorrel.

Later in the day our troops again moved forward in accordance with the planned operation and carried the villages of Oosttaverne and the enemy's defense system, including many strong fortified woods and defended localities on a front of over nine miles from south of La' Douve brook to north of Mont Sorrel.

Later in the day our troops again moved forward in accordance with the planned operation and carried the villages of Oosttaverne and the enemy's defense system, including many strong fortified woods and defended localities on a front of over nine miles from south of La' Douve brook to north of Mont Sorrel.

The British rush this morning on the Messines-Wytschaete Ridge on a front of over nine miles. We have everywhere captured our first objectives, and further progress is reported to be satisfactory along the whole front of attack. Numbers of prisoners are reported already to be reaching the collection stations.

The Morning Rush.  
The British rush this morning on the Messines-Wytschaete Ridge on a front of over nine miles. We have everywhere captured our first objectives, and further progress is reported to be satisfactory along the whole front of attack. Numbers of prisoners are reported already to be reaching the collection stations.

# EATON'S DAILY STORE NEWS

## A Man's Summer is Incomplete Without Light Weight Clothing

### There's an Abundance of Men's Shirts and All Furnishings

A man does delight in a well tailored shirt —one with shoulder, chest and arm room.

THERE'S PLENTY OF ROOM, comfort and smartness in these cool Outing Shirts, with soft cuffs and attached turn-down collar.

At \$2.75 the materials are fine imported silks, and as low as 75c of good quality white duck.

Outing Shirts of plain white duck, made with attached soft turn-down collar and soft cuffs. Well made with shoulder yoke and breast pocket. Sizes 14 to 18. Price ..... .75

Sport Shirts of fine mercerized plain white cotton, in coat style, with long sleeves, soft cuffs to button and breast pocket. Sizes 14 to 17. Price ..... 1.00

Outing Shirts, made of fine quality duck, plain white, coat style, with attached turn-down collar and soft cuffs, breast pocket and all seams double sewn. Sizes 14 to 17. Price ..... 1.50

Silk Outing Shirts of fine imported silk, plain white and light tan, coat style, with shoulder yoke, breast pocket, large body/soft turn-down collar and soft cuffs. Sizes 14 to 17. Price ..... 2.75

Combination Underwear for men is made in perfect-fitting sizes. The fabric covers every curve and angle comfortably, and "gives and takes" with every bend and twist.

Men's Combination Suit of white nainsook, in athletic style, no sleeves, knee length, closed crotch, pearl buttons. Sizes 34 to 44. Price, suit ..... 1.00

Coatless Suspenders of white elastic webbing, in two and four-point styles, nickel trimmed, adjustable buckles. Price ..... .50

Wash Ties, four-in-hand style, with straight stripes, blue, black and pink, on light grounds. The patterns are attractive and the colors washable. Price ..... .50

Soft Lounge Collars of white crepe and pique, stand-up-turn-down, in cut-away, long point and close-fitting styles. Sizes 13 to 17. Price, each, 18c, or 3 for .50

### The Men's New Feather-Weight Suits--Ready

The Personal Tastes of Individual Buyers Always Enter Into Our Calculations in Producing Our Clothing for Men

SO NO MATTER WHETHER your preference is for the newest or the more conservative types, you will find your style in great variety; every garment with that manly dignity that the well-dressed man always desires.

The smart, refined patterns are a feature, as well as such materials as the new Palm Beach cloths, homespun, tropical tweeds and flannels.

American Two-piece Suits in latest New York styles and patterns are in chevots, homespun, lightweight tweeds, tropical worsteds and flannel effects. These are in plain colors, fancy mixtures and handsome stripe patterns, in fawn and grey, and single-breasted with deep facings and soft roll lapels. Price ..... 20.00

Priestly's English Aeropore are particularly light and cool. They come in dressy patterns of green or silver, narrow thread stripes on a blue ground; also in tropical worsteds of dark fawn with alternate thread stripes of red and green. Price, 22.50

"Palm Beach" Outing Suits priced at \$10.00. This material is very tough and will wear well, but is of such a lightweight texture that it provides an excellent departure from the ordinary suit of clothes, for wear during the hot weather. Palm Beach suits will launder easily and hold their shape perfectly. They come in self shades of mid-grey and cream; also cool cloth in light and mid-grey with shot-mixture; single-breasted with soft roll lapels, wide deep facings of self, unlined. Trousers have belt loops and cuff bottoms. Sizes 34 to 46. Price ..... 10.00

Suits of grey chevot with neat stripes of darker shade and Palm Beach in cream shades with stripe; also plain fawn. These come in semi-form-fitting sac style. Cool cloths in light grey with still lighter thread stripe and mixture of red and green in latest pinch-back models; "unlined." Price ..... 12.50

Palm Beach Suits in light fawn with a dark fawn thread stripe, dark grey light material, in self shade. A light grey with a dark stripe and dark fawn with grey in pin check pattern, single-breasted with soft roll lapels, patch pockets. Price ..... 13.50

Suits of light and medium grey flannel effects, in pinch-back or semi-form-fitting sac and a darker grey with a light grey thread stripe in plain sac. Price ..... 16.60

Motorcycle Suits of strong pliable khaki drill, Norfolk style, with yoke and box pleats front and back, running from yoke to belt. Trousers have safety hip pockets, riveted buttons, cuff bottoms and belt loops. Sizes 36 to 44. Price ..... 4.50

### These Boots and Oxfords For Men Are Smart and Shapely

FOR EVERY TASTE and every foot shape there's an appropriate Boot in our fine stock of Canadian and American footwear. From lightest tan to mahogany, Havana, gunmetal and patent leather, every kind of leather goes into them. The styles are the newest.

#### The "Timers Square" Oxford

The season's strongest novelty is the wing toe boot, perforated along the edge of the toe vamp and tip and at the toe itself. The shape is English recede with broad, square heel. This shoe comes in tan and black and in Mohawk calf Russia leather. It's a Howard and Foster make. All sizes, 5 1/2 to 11. Widths A to E, at ..... 9.00

#### The "Biltmore" Oxford is a "Packard"

Those who have worn the Packard know the comfort of its easy lines and perfect making. This model has all the good features of the make and, with its quiet design, is a great favorite. Semi-recede toe, square heel, half foxed, laced through blind eyelets, welted sole. Leathers are gunmetal, patent and tan. All widths, A to E, in sizes 5 1/2 to 11. Price ..... 8.50

#### A "Packard" High Boot—The "Ritz"

This American Boot is similar in lines to the Oxford described above, but even

\$4.25—This is a very special value in a fedora Panama, made of a clean white fibre with rope edges, brim slightly dipped in front and back, and trimmed with fancy Palm Beach band.

\$2.00—An English-made Boater, made from fancy straw, with 3-inch crown and 2 1/4-inch brim, black corded ribbon and hat-guard.

\$2.00—An English-made sennit boater, with 3 1/4-inch crown and 2 1/4-inch brim, trimmed with black silk ribbon and with hat-guard attached.

\$5.00—A nicely-balanced hat of bleached Panama, with fedora crown, with brim to be worn dipped in front if desired.

\$5.00—A hat of similar quality and style, with the exception of a wider brim.

We prepay shipping charges on all orders of \$10.00 or over to your nearest station in Ontario and Eastern Provinces on both Mail Orders and City Purchases.

### Straw Hat Time is Here

---and Men Should Not Be Asked to Wear the Heavy Felt Hat Longer

more simple in finish. An exceptional grade of gunmetal, mahogany or Russia calf is the leather in the uppers, with Goodyear welt soles and broad, square heels. Balmoral uppers. Sizes 5 1/2 to 10. Widths A to E. In gunmetal, \$8.00; in mahogany, \$9.00.

—Second Floor, Yonge St.

Boaters or Sailor Hats in sennit and split braids; Panama Hats in many new becoming shapes, including one in a sailor shape; also many Straw Hats in various braids in fedora shape, with different widths of brims—these are some of the salient styles in our immense selection of straws. The values are such as will pay any man to investigate before he buys his new hat. These hats illustrated are but a few of the styles, but give an idea of the prominent lines and values.

—Main Floor, James St.

### Business Men Should Note This Office Furniture Opportunity

DESPITE THE STEADILY ADVANCING prices on Office Furniture of all descriptions, we are yet able to supply, owing to heavy anticipatory purchases, an unequalled range of Desks and Chairs at quite reasonable figures. We mention the following:

MRS. HULL and daughter, 60 Summit avenue, desire to express their sympathy in their bereavement. They have returned from England.

ARGENTINE SHIP SUNK IN MEDITERRANEAN SEA.—Bombs Used by Submarine's Crew to Send Oriana to Bottom.

Paris, June 7.—The Argentine sailing ship Oriana was sunk by a submarine in the Mediterranean on Wednesday, according to an announcement made by the ministry of marine to-night. The crew was saved by a French ship, and then sent men on board, who fixed bombs in her hold and exploded them, sending the ship to the bottom.

Available shipping records do not contain an Argentine ship named Oriana. An Argentine barque named Oriana was reported to have been sunk by a submarine in the Mediterranean last April while on a voyage to Genoa. The report was never confirmed, and it is possible that this is the vessel now reported by the French ministry of marine as having been sunk.

RACE-TRACK BETTING TO END AUGUST FIRST.—Measure Will Remain in Effect Until Six Months After War.

By a Staff Reporter. Ottawa, June 7.—The order-in-council which prohibits all public gambling on race tracks will go into effect on August 1 next, and will remain in effect until six months after the war.

Spanish Cabinet Expected To Give Up Office Today.—Madrid, via Paris, June 7.—The cabinet that this afternoon will consider the political situation. It is the unanimous opinion in political circles that it will decide to announce a resignation tomorrow at a meeting to be presided over by King Alfonso.

Your Tea-pot and

will tell you a delightful story. Sold only in metal packets. Never in Bulk.

COALITION CABINET TO FACE ELECTION

(Continued from Page 1).

followers from the Liberal camp and give them portfolios in the cabinet. The Liberals feel they are being encircled but few of them are willing to formally break with Sir Wilfrid Laurier and accept office at the hand of Sir Robert Borden. The conscription bill receives its first reading on Monday and a second reading may be moved a day or two later. The line up will come upon some amendment on second reading offered by Sir Wilfrid Laurier.

Some here think that, as soon as Sir Wilfrid and the bulk of the cabinet are formally inducted, the government will dissolve and ask for the judgment of the country, but the better opinion seems to be that the house will be kept in session well into July and that at least three months will intervene between dissolution and election. One reason for this is the anxiety of the government to poll the votes of the soldiers in England and at the front.

The two matters which passed before Sir Robert Borden and Sir Wilfrid Laurier in regard to coalition follow:

Laurier's Letter. Ottawa, June 6, 1917. Dear Sir Robert: On the 12th of May you asked me to meet you on the following day, which I did after explaining fully the conditions of the situation in the light of knowledge acquired during your recent visit to Great Britain. You stated the conclusion which had led you to the conclusion that compulsory service was necessary, and you explained to me the provisions of the military service bill.

You then proposed the formation of a coalition government upon the basis that, outside of the prime minister, each of the two political parties should have an equal representation in the cabinet, and you emphasized the importance of avoiding, if possible, an election during the war.

I told you at once that if my cooperation was not invited, I was not to be invited for you had announced a policy of compulsory service, as I dreaded very serious difficulties if the present parliament was dissolved, and you rejoined that you had thought it preferable to invite me rather than to have the bill annulled.

At an interview which took place on Tuesday, the 29th of May, you suggested to me that you thought it would be better to consult your supporters, but desired to consult me before doing so. I suggested to you that to hold a caucus would not likely tend towards the objects to be attained. At the same time I suggested that as I wanted to consult you, I would like to have a clear statement in writing of your proposal, which you formulated as follows:

That a coalition government should be formed; That the military service bill should be passed; That a pledge should be given not to enforce it until after a general election; That parliament should be dissolved and the coalition government should seek a mandate from the people.

At the conference on Friday, the 1st of June, and again on Monday, the 4th, the possible personnel of a coalition government was considered, and the subject was not concluded. On Wednesday, the 6th of June, the staff conference took place, at which I announced that I had not seen my way clear to join the government on the terms proposed. I asked you at the time if conscription was the only basis, to which you replied in the affirmative.

At this and previous interviews, I always stated to you that whenever conscription was adopted, after consultation of the cabinet, I would be in every possible way obedient to the law.

Believe me, yours very sincerely, (Signed) Wilfrid Laurier. Borden's Reply.

On June 7 Sir Robert Borden replied as follows: Dear Sir Wilfrid Laurier: I beg to acknowledge your letter of yesterday in which you set forth the substance of recent negotiations respecting the formation of a coalition government. At our first interview you had expressed the opinion that compulsory service should not be enforced until it had been approved by a referendum. This reason that I submitted the further proposal on the 29th of May, which is described in the fourth paragraph of your letter.

I agree that it was the policy of compulsory service which, in your judgment, made it impossible for you to join a coalition government. I was convinced that compulsory service was necessary, and must be included in the policy of the government. It was your duty to accept a policy, and that you could not join a government which adopted it.

Yours faithfully, R. L. Borden. TORONTO POLICE GET INDIAN.—Special to The Toronto World.

Brantford, June 7.—Clarence Jamieson, Six Nation Indian, and his father, Peter Jamieson, were fined \$25 each today for assaulting High Constable W. Taylor, when he went to serve a warrant on Jamieson, the younger, recently. Jamieson got away from the constable after a melee in which the whole family took part, Taylor being roughly handled. He was found and arrested by the Toronto police.

SOLDIER PATIENTS' LIST IS GROWING

More Than Twenty-Two Thousand Canadians in British Hospitals.

EXPERIENCE AIDS U. S. Anxiety Shown to Profit by Results of Canada's System.

Ottawa, June 7.—The latest figures, based on returns from the ten units of military hospitals commission command, show that on May 31 there were 6,288 men under the commission's care, being 15 more than on May 22.

The latest returns from the director of medical services in London show that on May 31 there were 25,019 Canadian patients in hospitals in the United Kingdom, including 673 officers, as against 21,445 on May 4.

An analysis of the return shows that to profit by Canada's experience, the largest individual figure being 1,021 in the Moore Barracks, Shorncliffe. In Canadian special hospitals there were 1,513, of whom 484 were in the Granville Hospital at Ramsgate. Patients in Canadian convalescent hospitals numbered 4,828, including 2,437 at Woodcote Park, Epsom. There were 87 men in the sanatoria for tuberculosis at Hastings and Wokingham. The total is completed by 12,198 men in hospitals in non-Canadian countries; the largest number being 4,171 in the eastern command.

That the United States is anxious to profit by Canada's experience in the care of disabled men is evident from the number of official investigators visiting the various units of the hospital command.

E. H. Scannel, secretary of the commission, has gone to Pittsburgh, Pa., where he will tomorrow deliver an address before the conference of charities and corrections on the subject and he will also address the state legislature of Maryland next Wednesday.

Wireless Company's Failure. Hon. J. D. Hazen moved the second reading of his bill, entitled "An act to repeal the Wireless Telegraph Act." The minister explained that four years ago the Wireless Company had entered into a contract with the Dominion Government by which it obtained license to build wireless towers and stations at Newcastle, N.E., and to carry on the business of receiving and transmitting wireless messages between said station and the west coast of Ireland. The company had expended a great deal of money but got into financial difficulties and was now being wound up by liquidators.

The bill authorized the government to return to the liquidators some money deposited by the company with the government as a guarantee of good faith. The Marconi, Mr. Hazen explained, was purchasing the works and plant of the liquidators and would at once expend a large sum of money in equipping the station and the service efficiently.

Hon. Rudolph Lemieux recalled that he had foreseen the failure of this company when the contract was made in 1913. The Marconi Company, he was sure, would give a good service, but he felt that all humanity owed a great debt to Marconi and his system, for the many lives they had saved at sea.

W. F. Maclean's Reminder. W. F. Maclean (St. York) said he will remember the season of the house when the act was passed which the government now desired to repeal and the speeches delivered by Hon. J. P. Pelletier, secretary of the department, in reference to the cry of "indemnities and no annexations," says:

"It is impossible to state or even to estimate the amount in terms of money of the millions of lives sacrificed to the ambition of Germany's military caste, or the mental and moral agony of the people whose countries she has occupied, or the material resources she has destroyed, or of the deferred and ultimate consequences of her fight for world domination. But it is certain that she has impoverished the world and filled humanity's cup of sorrow to overflowing. It is obviously impossible to extract from those she has outraged, the material resources and articles of value which she has hoarded, or to prepare for further military adventures. The world of this must to itself. To absolve the aggressor from all material penalties, is to invite future and better prepared attacks."

LYNCH LAW INVOKED BY RUSSIAN PEASANTS.—People Near Kharkov Begin Summary Punishment of Thieves.

Petrograd, June 7.—(via London, June 5)—"Lynch law" has been invoked by the peasants with good effect for the suppression of thievery in the towns and villages in the vicinity of Kharkov, according to advices from that city. The peasants, indignant at the release of offenders by the local militia, have taken the law into their own hands, and in several instances have been successful in their efforts.

Organized bands, which flourished under the protection of the old police system, are shown little mercy. The commander of the militia in the accepted form of punishment for lesser offenses, including the selling of home made intoxicants.

RECOGNIZED PORTRAIT OF A TORONTO GIRL.—Picture Picked Up on Flanders Battlefield Was Taken in This City.

On Wednesday morning The Toronto World reproduced a snapshot of a young woman and asked if any of its readers recognized the portrait. The photo had been picked up by Pte. V. T. Sullivan on the battlefield in Flanders yesterday afternoon the portrait was recognized as that of Miss Tinsley of 270 West King street, Toronto. It had been taken to France by a friend of Miss Tinsley's, who had gone over several months ago with one of the Canadian units.

Admiral Lacaze Says Methods Will Increase in Efficiency.

NO ACTUAL BLOCKADE

Allies Have Been Able to Send Ships Wherever Necessary.

Paris, June 7.—Rear-Admiral Lacaze, minister of marine, announced in the chamber of deputies today that the proportion of submarines sunk has increased markedly, adding: "We are employing a very efficient method, and we are able to see the possibility of developing this method so as to render it more efficacious."

The minister, reviewing the submarine situation, said that Germany had announced a blockade and had fixed a certain date. The result had been that the allies were not blockaded; their ships had gone wherever it was necessary to go. At no moment could a blockade, either near at hand or at a distant point.

Admiral Lacaze took occasion in the chamber today to reply to certain criticisms of the navy and concerning the loss of various ships. Eighteen hundred voyages, he said, had been made by cruisers between Algeria and France and only the Medjerda had been sunk. The commander of the vessel was responsible for having chosen his own route. Instances of spying were now the subject of inquiry, as were the sinking of various ships.

Questioned by Deputy Minister Mesurier-Courout as to alleged inadequate protection of merchant ships, the minister protested and then exclaimed: "If the chamber questions that it is no longer its duty to give me its confidence let it tell me so, and I will return among my companions in arms, whom I know well and whom I have endeavored to defend."

Returned Soldiers

The Head Office of the SOLDIERS' AID COMMISSION OF ONTARIO (Incorporated by Act of the Legislature of Ontario), is at 140, 116 College Street, Toronto.

The public are cordially invited to cooperate with us in securing suitable employment and in doing other helpful work for returned soldiers and their dependents.

Classes for the vocational re-education of returned soldiers who have been so disabled as to prevent them from resuming their former occupations have now been provided, and any man who regards his disability to be of such a nature as to entitle him to the benefit of these classes is requested to make application to Mr. W. W. Nichol, Vocational Officer for Ontario, No. 116 College Street, Toronto, when full particulars will be gladly furnished and arrangements as to the disposition of their donation. All donations should be made payable to the order of the Soldiers' Aid Commission, and in each case an official receipt will be issued therefor.

All services are free of charge. For further particulars as to our work, please write or telephone N. 2000. W. D. McPHERSON, K.C., M.P.P., Chairman.

Secretary.

PAY PLACE PRICES ON HORSES TO SHOW

Seven Well-Filled Races Decided on Opening Day at Blue Bonnets.

Montreal, June 7.—Featured by the running of the Kindergarten Stakes, the Blue Bonnets was inaugurated this afternoon with an offering of seven well-filled races.

The course never looked better than for the opening of the season, it having every appearance of having been thoroughly overhauled since the autumn meeting last September.

The mutuals building showed that there were no show machines, while notices were posted all over the track where the pool would be divided into three, and the horse finally third would pay as much as the horse finishing second.

The idea, also, that a new one is strange to Canadian eyes, and also there were some in favor of it, the innovation can hardly be called a surprise.

At Washington (American).—The locals made it two straight from Chicago, Cleveland at New York—Wet grounds. Detroit at Boston—Wet grounds.

At Richmond (International).—Timely hitting gave Newark a 4 to 1 victory over Richmond today, making an even split of the four games. Smallwood was well supported in the pinches.

At Philadelphia (National).—Regan was ineffective, and New York won the third game of the series, 10 to 1, piling up fifteen hits, most of which came in the pinches.

Ten More Canadian Race Meets Before the Law Clamps on the Lid

It is taken for granted that the order-in-council passed by the Canadian Government concerning race track betting will read that all chartered jockey clubs will be allowed to hold their first meetings, regardless of dates.

Already there have been held six first meetings. Blue Bonnets is in progress. There are nine first meetings yet to be held, including the new Thorncliffe Park Club, that is likely to complete the track and build stands and hold a meeting, as its charter allows.

Lessee O'Brien of New York is said to be anxious to hold this meeting so as to be in line for business on the same basis as the Ontario Jockey Club after the war.

The information from the Messrs. Davies last night was to the effect that the first meeting was likely to be held. Dates for sixteen second meetings have been announced.

Six First Meetings Already Held. Western Racing Association, Devonshire Park, Windsor, Ont.: May 12 to May 19 (mutuels) 7 days.

Maisonneuve Park Jockey Club, Montreal, Que.: May 19 to May 26 (mutuels) 7 days. Ontario Jockey Club, Woodbine Park, Toronto, Ont.: May 19 to May 26 (mutuels) 7 days.

Montreal Driving Club, Delorimier Park, Montreal, Que.: May 26 to June 2 (mutuels) 7 days. Dorval Jockey Club, Dorval Park, Montreal, Que.: May 26 to June 2 (mutuels) 7 days.

Metropolitan Racing Association, Dufferin Park, Toronto, Ont.: May 29 to June 5 (mutuels) 7 days. May 30 to June 6 (books) 7 days.

One First Meeting in Progress. Montreal Jockey Club, Blue Bonnets, Montreal, Que.: June 7 to June 14 (mutuels) 7 days.

Nine First Meetings to Come. Toronto Driving Club, Hillcrest Park, Toronto, Ont.: June 9 to June 16 (books) 7 days.

Back River Jockey Club, Mount Royal Park, Montreal, Que.: June 16 to June 23 (mutuels) 7 days. Connaught Park Jockey Club, Ottawa, Ont.: June 16 to June 23 (mutuels) 7 days.

 TODAY AND TOMORROW AT THE REGENT THEATRE

**THE FINEST MOVING PICTURES**  
**Of the Greatest War To Date**

These pictures are shown this week for the first time in Canada. In England they were declared the finest pictures of the war yet taken, and that is the verdict of those who have seen them this week in Toronto. The Regent engagement concludes tomorrow (Saturday). Don't miss this picture if you have any interest in the war.

Returned soldiers who have seen this picture are enthusiastic in its praise. It is a realistic picture of some of the most thrilling features of the spring campaign of the present year, showing especially the infantry attacks in greater and closer detail than ever before attempted, while the tank pictures are marvellous to behold.

Presented by Messrs. Jule and Jay J. Allen, Canadian distributors of "Britain Prepared," "Battle of the Somme," "King at the Front," "Canadian Army in Action and the Advance of the Tanks," and "Fall of Bapaume"—the pictorial history of the war to date.

W. C. T. U. AND FRANCHISE  
 The sessions of the annual meeting of Toronto District W. C. T. U. closed yesterday when the morning was principally devoted to the appointing of superintendents and their reports. In speaking of the subject of the franchise, Mrs. Ward said that two-thirds of the signatures to the petition had been obtained by members of the W. C. T. U., and that \$300 had been given by them to the campaign fund.

U., and that \$300 had been given by them to the campaign fund.

**RUSH TO ENLIST.**  
 New York, June 7.—The rush of applicants at the British recruiting office, opened here yesterday, continued today. In the Canadian expeditionary force or the British army, 178 men enlisted.

**SOCIETY**  
 Conducted by Mrs. Edmund Phillips

His worship the mayor was received most enthusiastically in Philadelphia and has been much entertained during his stay there.

Lady Willison, president of the Canadian National Ladies' Guild for Sailors, the vice-presidents and the council have issued invitations to the fourth annual meeting of the guild at the Margaret Eaton hall, North street, on Monday afternoon at 3.30 o'clock.

Mr. and Mrs. F. N. Southam, Montreal, announce the engagement of their eldest daughter, Dorothy Jean, to Mr. Mostyn Lewis, flight sub-lieutenant, royal navy, son of Mr. and Mrs. Lansing Lewis.

Mrs. William Allen motored up from Millbrook yesterday and will return on Saturday. The Rev. Canon Allen, who has been in town for the meeting of the synod, will return with her. They are staying with Dr. and Mrs. Norman Allen, Carlton street.

Mrs. T. D. R. Hemming, Kingston, has returned after visiting her sister, Mrs. Fletcher.

Mrs. Seymour, formerly Miss Marlon Merritt, has arrived from England and is the guest of Mrs. R. C. Davison, Crescent road.

Mr. R. L. Appleyard and Mrs. Appleyard, formerly Miss Ethel Boulton, Montreal, are the guests of Lady Falconbridge.

Much interest was taken in the entertainment in Vancouver last Monday of the national officers and visitors to the coast of the Daughters of the Empire. They were taken in the afternoon, leaving the Vancouver Hotel at 2.30 o'clock for a motor drive around Stanley Park and the Marine Drive, and to tea at the Jericho Country Club, to which all members of the Municipal Chapter were invited. In the evening an informal concert was held at the Hotel Vancouver. Well-known artists took part, and the national president, Mrs. Gooderham; Mrs. Elliott Lanestadt, president of the I. O. E. of the United States; Mrs. Constance Boulton, Toronto, and Mrs. Charles spoke.

Mrs. Dew, Montreal, is returning home at the end of this week, having placed her uncle, Mr. R. Radcliffe, in a nursing home at 533 Shaw street and taken Mrs. Radcliffe back to Goderich.

The Flag Day of the Toronto Humane Society has been changed from Dominion Day to Thursday, July 5, as it has been found so extremely difficult to procure workers on the holiday, so many of the people most interested having to go away for the week-end with their men-kind, who do not have many holidays since the war commenced.

A kind-hearted motorman held a Yonge street car last opposite Shuter street between 6 and 7 o'clock because a little black and white cat was playing in the most unconcerned way on the track. Finally a woman came out and took the cat to the pavement and the car proceeded on its way. The passers-by much appreciated the action of the motorman of the T. E. R.

Mrs. Sinclair, Mrs. W. M. Ross, Miss Malaval, Miss Beatrice Embree and Miss Marie Grogan are among those who are assisting Mrs. Magann to arrange the exhibition of French posters for which Mrs. Magann has given her house in Dowling avenue on Saturday afternoon.

The Social Science Club, Winnipeg, of which Mrs. Vera Brown is the president, entertained the delegates to the annual convention of the National Council of Women at tea on Saturday.

Mrs. Allen Magee, Montreal, and her children are staying with Mr. Justice and Mrs. Magee in Elmley place.

The annual meeting of the Canadian Historical Society took place in the Normal School on Wednesday, when some of the delegates included: Miss Carnochan, Niagara-on-the-Lake; Mrs. Arthur Redmond and Miss F. Redmond, Collingwood; Miss Gilkinson, Brantford; Mrs. Simpson, Ottawa, representing several delegates; Dr. Coyne, St. Thomas; Mr. Pattullo, Woodstock; Mr. David Williams, Collingwood; Mr. Clarence Warner, Boston; Mr. Griffith, Hamilton; Mr. Mitchell, Goderich; Mr. Braid, Windsor, Ont.; the Rev. J. Gordon and a delegate from Landy's Lane. Mr. John Squair was re-elected president.

Mrs. Squires and Mrs. George Layton, are in town on a visit. Mrs. Layton has been living in Ottawa for the last three years, and is now visiting Mrs. S. M. Logan, 167 Major street. Mrs. Squires (formerly Miss Lovell, Toronto) is on a visit from Bermuda. Mrs. Squires will remain in town for a few weeks, and will then visit friends in Ottawa and Montreal before returning to Bermuda from New York. Mrs. Squires' only son, Mr. Lloyd Squires, accompanied her, and has enlisted and is at present at Petawawa.

Miss Adele M. Perry, Vancouver, B.C., who is going overseas as a nurse with the Army Medical Corps, came up from Montreal to visit her Toronto friends, and is the guest of Dr. and Mrs. William D. McKinley, East Gerraad street.

Mr. and Mrs. Albert H. Elliott and their daughter, Miss Alice Elliott, San Francisco, Cal., and Mr. and Mrs. George W.

**ROYAL VINOLIA TOOTH PASTE**

The wisdom of teaching little children to use Royal Vinolia Tooth Paste will be abundantly evident in improved health. This fine British-made dentifrice is a perfect cleanser although it will not scratch the enamel nor are there acids present to hurt the gums in any degree whatever.

Price 25c. at all good Druggists.  
 VINOLIA COMPANY LIMITED  
 Toronto LONDON Paris

**Announcements**

Notices of any character relating to future events, the purpose of which is the raising of money, are inserted in the advertising columns at fifteen cents a line. Announcements for churches, societies, clubs or other organizations of future events, where the purpose is not the raising of money, may be inserted in this column at two cents a word, with a minimum of fifty cents for each insertion.

MUNICIPAL CHAPTER, I.O.O.F., meeting Friday, June 8, at 2.30, Sherbourne House Club, 439 Sherbourne street.  
 HUMANE DAY—Ladies writing to join the Toronto Humane Society on this day, Thursday, July 5, are cordially invited to attend a meeting at 17 St. Paul street, next Monday, at 12 o'clock noon. Those unable to attend the meeting, but willing to assist, would confer a great favor by telephoning College 4181.

piano and played the Mendelssohn wedding march before the ceremony. Mr. and Mrs. Perry left later for Algonquin Park, the bride traveling in a new gabardine tail-coat suit, with white fox fur and large French hat.

# THE WORLD

learned a short time ago that, owing to the failure of a great publishing house in New York, a large number of sets of Dr. John Clark Ridpath's LIBRARY OF UNIVERSAL LITERATURE, in twenty-five volumes, were about to be sold under the hammer at the factory for storage and accrued charges for the benefit of the creditors. Realizing the wonderful educational value of this matchless and complete library of all the world's best libraries, THE WORLD made the trustees for the library a cash offer for a large consignment of the sets, providing we would be given carte blanche to name OUR OWN CUT PRICE at which they would be distributed to our readers. The books are now on their way to Toronto. We have received the bill of lading for the first shipment, and as soon as we ascertain the amount of freight, duty and shipping charges, we will be able to publish in next Saturday and Sunday issues of The World, the price at which this monumental work will be distributed to our readers in Canada. IT GOES WITHOUT SAYING THE PRICE WILL BE SENSATIONALLY LOW.

## A STRAIGHT TIP FOR THE WISE Be Prepared to Act Quickly — They Won't Last Long

The name of DR. JOHN CLARK RIDPATH is known to every man, woman and child in the English-speaking world. His LIBRARY OF UNIVERSAL LITERATURE is recognized as the most stupendous literary production of the century. No author or writer of note from the earliest dawn of civilization has been omitted. It has been truthfully said that this library contains the essence of a thousand other libraries.

### 30,000 Sets Sold at \$77

THE WORLD has been reliably informed, and investigation has proved, that about thirty thousand sets of this marvelous work have been sold in the States and Canada at \$77.00 per set, AND NO LESS.

### Watch What The World Can Do

## THE CHEAPER THE BETTER FOR ALL

This is our first great educational offer on a large work as important as the Ridpath production and we want it to go down in history as a record breaker. Owing to the hitherto high price and terms so low, easy and reasonable that every intelligent family in Canada can afford to own this greatest and most useful educational library of the age.

### A LIBERAL EDUCATION FOR EVERY FAMILY

A HINT AT ITS SCOPE.—Fifteen minutes each day set aside for the study of the world's literature, with this great Library as your College, will equip you with a complete working knowledge of the literature of the world, both ancient and modern.

Do you need entertainment to suit your varying moods? You have it provided for you in diversified form in the Ridpath Library. For your sayer moods you find the sparkling wit and smile-provoking fancies of Mark Twain, Artemus Ward, or Bill Nye, and the quaint and fanciful creations of Dickens, MacLaren, Scott, Thackeray, Cooper, Hagard and Kipling glide into your pensive hours with a mild and gentle sympathy that steals away their sadness ere you are aware of it. Would you find solace for a doubting heart, you have but to turn to St. Augustine, Wesley, Luther, Parker or Calvin; or would you investigate the disquieting theories of a so-called more liberal religion, you have the Father of Voltaire or Paine; would you drink deeply of philosophy, bid Bacon, Aristotle, Socrates, Plato, Kant, then pass on to Voltaire or Paine; would you be soothed by delightful verse or carried away by the sweet Spencer or Newton into your presence; would you be thrilled with the passion of drama or fired with the rhythm of the more serious poets, open the books at Jam as Whitcomb Riley, Robert Burns or Longfellow, Tennyson, Whittier, Goethe, Schiller, Milton or Dante; would you be thrilled with the passion of drama or fired with patriotic eloquence, you can summon either Demosthenes, Gladstone, Phillips, Castelar, Webster, Clay, Henry, or Pitt, and they all stand ready to serve you. You can travel through the boundless realms of space, descend into the bowels of the earth, or ramble over the luxuriant foliage and make the acquaintance of the strange denizens of tropical forest with a merry party of scientists like Agassiz, Audubon, Herschel, Franklin, Tyndall or Darwin to accompany you—and the vast wealth and richness of this matchless library is but hinted.

### Watch Saturday and Sunday World, June 16 and 17, for the Greatest Bargain of the Age.

By signing and mailing at once with only \$1.00 enclosed, to show good faith, the ADVANCE RESERVATION BLANK printed below, we will set aside and reserve for you a set of this Library. As soon as the price and terms have been determined THE WORLD will notify you privately by letter, enclosing you registration order blank with the understanding that if the price and terms are not satisfactory your \$1.00 will be refunded. THE WORLD'S price and terms will be so attractive that undoubtedly there will be a large demand for this work, and we may not have enough to fill all the orders. FIRST COME, FIRST SERVED.

## Advance Reservation Blank

The World, Toronto, Canada. Gentlemen: Enclosed please find \$1.00 for which kindly reserve for me one set of the RIDPATH LIBRARY OF UNIVERSAL LITERATURE, as advertised by you, until price and terms are made public and I am so notified by you. It is understood that if for any reason said price and terms are not satisfactory to me my \$1.00 will be refunded and all obligations cancelled.

## COAL FOR CANADA PARTLY EMBARGOED

### Pennsylvania Railroad, Port Burwell and Bridges Closed to Fuel.

## ITALY A LARGE BUYER

### Wants One Million Tons Every Month for Four Months.

That the Pennsylvanian Railroad, the bridges and Port Burwell are embargoed against coal shipments for Canada was the latest word in the coal situation received from Buffalo yesterday. The advice given by the Buffalo dealers is to secure their coal requirements as soon as possible, in the fall it is believed that America will see a coal famine that will completely overshadow the one of last winter. Price, it is thought, will be no object, and the mines and railways will not be able to meet the requirements.

## Couldn't Keep Back Tears

### When the Nervous System Broke Down—Queer Feelings in Back of Head caused Much Alarm.

Midland, Ont., June 7.—Collapse or breakdown of the nervous system leaves one in a most pitiable condition. Strong, healthy-looking women, and men, too, will weep from helplessness and despair.

## Winnipeg Man CURED

### Says Dr. Cassell's Tablets Saved him from Nervous Breakdown.

Mr. G. C. Inman, 230 Harcourt street, Sturgeon Creek, Winnipeg, for many years a well-known man in the business life of Canada, says: "I was terribly run down and weak. I had no appetite, and I suffered if I forced myself to eat. My nerves were in a bad way, and my sleep very disturbed. Everything pointed to a nervous breakdown. Then I got Dr. Cassell's Tablets. The first result was that I could sleep, and then my health rapidly improved. It was really astonishing how my strength and fitness came back."

## CAPT. PERCY JOLLIFFE GETS MILITARY CROSS

### Went Overseas as Corporal and Won Promotion on Field of Battle.

Captain Percy Jolliffe, who went to the front as a corporal early in the war, obtained his commission at a military school in France and was promoted to the field, was yesterday listed as having won the Military Cross for conspicuous bravery. He has taken part in several battles and was wounded in May of last year. Capt. Jolliffe is a son of Geo. Jolliffe of the Great Northwestern Telegraph Company and resided on Delaware avenue. He is a member of the Rosedale Athletic Club, the Aura Lee Club and the Argonaut Rowing Club.

## Calls Listed for Meeting Of Methodist Committee

The stationary committee of the Toronto conference of the Methodist Church at its meeting in the Carlton Street Church today will consider the following local invitations and changes:

## Dr. Ferdinand King, New York Physician and Medical Author, Says: EVERY WOMAN EVERY MOTHER EVERY DAUGHTER NEEDS IRON AT TIMES

To put strength into her nerves and color into her cheeks.

There can be no beautiful, healthy, rosy-cheeked women without iron. The trouble in the past has been that when women needed iron they got it in the form of iron pills, which often did more harm than good. Today doctors prescribe organic iron. Nuxated Iron, which is a natural iron, is easily assimilated, does not blacken nor injure the teeth nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, and overworked women. 100 per cent. in two weeks' time in many instances. I have used it in my own practice with most surprising results.

## BUILDING PERMITS.

Building permits issued yesterday: E. Keating, alterations to dwelling, Lansdowne avenue, \$500; A. Peters, garage, 462 Bathurst street, \$9000; J. R. Marshall, three attached dwellings, Silverthorne avenue, \$9500; Dominion Realty Company, branch bank, southwest corner St. Clair avenue and Vaughan road, \$16,000; W. John, deck two-story dwelling, Cuthbert crescent, \$3900.

## TO PRESS FOR INQUIRY.

Ald. MacGregor has stated his intention of pressing his motion at the city council meeting on Monday for a judicial inquiry into the affairs of the building department of the board of education. In the meantime he has no objection to the board of control taking action which will facilitate the inquiry. The alderman's resolution does not conflict with the mayor's action in the matter.

## Columbia University Offers To Care for Wounded Men

An offer to care for 500 Canadian wounded soldiers has been made by Columbia University War Hospital, New York City. Lt.-Col. Sharples, commander of the military hospitals commission, to whom the offer was addressed, has replied, thanking the university for the offer, but stating that it cannot be accepted, owing to Canada having already made provision for all wounded soldiers within the Dominion.

## PRODUCTION EXHIBIT.

Department of Agriculture Preparing Display for the Exhibition. Members of the department of agriculture for the Province of Ontario and the Ontario Agricultural College met in the parliament buildings yesterday for the purpose of preparing plans for this year's exhibit at the Canadian National Exhibition. It was decided to reorganize the exhibit in order to demonstrate the importance of production and thrift in wartime. This will be accomplished by means of demonstrations as well as displays and will tend to emphasize the present need for production. All branches of the department will cooperate and the details will be worked out later.

## Dr. Ferdinand King, New York Physician and Medical Author, Says: EVERY WOMAN EVERY MOTHER EVERY DAUGHTER NEEDS IRON AT TIMES

To put strength into her nerves and color into her cheeks.

There can be no beautiful, healthy, rosy-cheeked women without iron. The trouble in the past has been that when women needed iron they got it in the form of iron pills, which often did more harm than good. Today doctors prescribe organic iron. Nuxated Iron, which is a natural iron, is easily assimilated, does not blacken nor injure the teeth nor upset the stomach. John, deck two-story dwelling, Cuthbert crescent, \$3900.

## TO PRESS FOR INQUIRY.

Ald. MacGregor has stated his intention of pressing his motion at the city council meeting on Monday for a judicial inquiry into the affairs of the building department of the board of education. In the meantime he has no objection to the board of control taking action which will facilitate the inquiry. The alderman's resolution does not conflict with the mayor's action in the matter.

## VETERANS WOULD BAN ANTI-COMPULSION RALLIES

### Asked Board of Control to Take Action, and Request Was Approved.

In a letter to the board of control yesterday the Great War Veterans requested that immediate action be taken to prevent the holding of anti-compulsion meetings in Toronto. The communication stated that the returned men felt that they should not be called upon to take physical action to prevent the passing of resolutions opposing compulsory service. Such action impaired the health of the men who were still in hospital and tended to give a wrong impression of the aims of the association. The board approved the suggestion and forwarded it to the city council.

## RISKED LIFE TO RESCUE DROWNING COMRADE

### Lieut. G. E. Harcourt Made Brave But Fruitless Effort to Save Cadet Vaughan.

Word has been received telling of the heroism displayed by Lieut. G. E. Harcourt in diving into the muddy waters of Granta River, Cambridge, in order to go to the assistance of Cadet H. A. Vaughan, who had fallen into the water and was stuck in the sand at the bottom. Lieut. Harcourt succeeded in bringing up Vaughan, but it was found that he had expired. The commander of the cadet battalion issued a special order expressing his "sincere appreciation of Lieut. Harcourt's brave service." Lieut. Harcourt, formerly of the 10th Battalion, joined the Toronto University Training Company and went overseas with a draft in March of this year.

## PARLIAMENTARIANS RETURN

Hon. G. Howard Ferguson, minister of lands, forests and mines in the Ontario government, returned to the city yesterday much improved in health after a six weeks' sojourn in the mountains. He was accompanied by Dr. Forbes Godfrey, M.L.A., for West York.

## ESTABLISHED 1875 IMPERIAL BANK OF CANADA

## WILL MEET THE DEFICIT.

Deputation From University Interviews Cabinet Regarding Annual Estimates. A deputation consisting of Sir Robert Falconer, Sir Edmund Oler and Mr. Justice Kelly, representing the board of governors of the University of Toronto, waited upon the Ontario cabinet yesterday and discussed the deficit for the past year was over \$100,000 and it was stated at the interview that the government would meet the amount.

## COMMISSIONER'S TALK RESENTED BY PROVINCE

Claim Ontario Government Can Do Little Under Law to Control Food Prices. The statement of W. F. O'Connor, the commissioner who investigated the high cost of living for the Dominion Government, that the province had exhibited little or no interest in the enforcement of laws against accumulation of food products, unjust prices and combines, has aroused indignation in provincial government circles. Provincial authorities stated yesterday in reply that the Dominion Government by its recent regulations had taken out of the hands of the provinces, the machinery formerly held to control food prices.

## CITY HALL NOTES

Finance Commissioner Bradshaw reports that last month the city received in arrears of taxes \$207,025, leaving outstanding \$1,801,035. The Dominion Automobile Co. has been awarded the contract for one three-ton truck at \$6,100 and one five-ton truck at \$7,100 for the street commissioner's department. At the request of Premier Hearst the board of control will send a representative of the city to the provincial committee making arrangements for the celebration on Dominion Day of the fiftieth anniversary of confederation.

TO MARKET  
WEAK AND FLAT

STOCKS REGISTER  
MORE ADVANCES

Decline Started Due  
to the Federal  
Political Situation.

The Toronto stock market had a downward tendency yesterday, but was not so much affected as it appeared to be by news of the increased offerings and the decline in the New York market, especially the New York market, which had a more bullish character than the Toronto market. The decline in the Toronto market was due to the news of the increased offerings and the decline in the New York market, especially the New York market, which had a more bullish character than the Toronto market.

ONLY FOLLOWED  
DROP IN DOME

The Toronto stock market followed the drop in the Dome stock, which was due to the news of the increased offerings and the decline in the New York market, especially the New York market, which had a more bullish character than the Toronto market.

Also Suffered From  
Liquidation—Hollinger  
Steady.

The Toronto stock market also suffered from liquidation—Hollinger, which was due to the news of the increased offerings and the decline in the New York market, especially the New York market, which had a more bullish character than the Toronto market.

HOLLINGER TROUBLE  
ONLY TEMPORARY

Insiders Reported to Be Holding Tight to Stock. The Hollinger Company has 4,000,000 shares issued. Of these, the directors hold 3,750,000 shares, or 93 per cent. This does not include the holdings of the directors, which are considerable. Moreover, the directors have sold no stock. A comparatively small amount of stock has been sold during the last four months. During the last four months some twelve individuals and estates have liquidated their holdings to the extent of some 14,000 shares. These with the 14,000 shares on the open market, would come to less than 20,000 shares. The sale figures on the Standard Stock Exchange run into something like 65,000 shares during the four months period, so it is apparent how much back and forth selling and short selling has been going on. The break in the market has been due for the most part to this.

STOCKS LOWER.

Heron & Co. report: Montreal, June 7.—The local market was a little more active today, with prices down from yesterday. Dominion Iron, Steel and Canada and Civic Power were heavy in the late trading, and were the balance of the list closed a little off.

CHANGE SOCIETY'S NAME.

Bethlehem Steel Surpasses  
Leader in Point of Actual  
Gains.

New York, June 7.—Subject to persistent profit-taking, which became too strong in the later dealings to be ignored, today's extremely active market registered further general advances, especially among the industrials. The character of the trading was of such exceptional breadth as to give the impression of growing public participation. Pools were again actively represented in some of the equities and munitions. U. S. Industrial Alcohol added 3/4 points at its extreme rise to 16 1/2, making net gain of 2 1/2 points in two days. Steel maintained its leadership, rising 2 1/4, to 15 1/4, this being equal, since the recent divide of 4 1/2 per cent. to 15 1/4, and exceeding its previous maximum by 1 1/4 points. Steel's contribution to the day's huge total of 1,000,000 shares, was fully 25 per cent.

HOLLINGER TROUBLE

NEWRY FIND OF  
UTMOST IMPORTANCE

Future of Property Assured  
by Great Mineralized  
Zone.

SPECTACULAR SAMPLES

Large Amount of Mill Feed  
Put in Sight—Mill  
Working.

From World's Special Correspondent Schumacher, June 7.—A discovery of transcendent importance has just been made on the Newry. There is a zone of intensive shearing and mineralization which would, in any estimation, fill a parallelogram 1,000 feet long by 600 feet wide. It lies north and east of the vein systems which are now being developed from the Kingmill shaft. Apparently it is an independent ore zone, but if a continuation of the Hanson, Helena, Anchor and Connel veins, then the zone in which they are found has been very much enlarged in its north-eastern progress. The present find covers by far the most valuable ground on the Newry. In one respect, the discovery is in the way of a proper appreciation of the earmarks of auriferous areas, for this part of the big property was known to the manager of the Newry Consolidated and they did some trenching thereon, but manifestly at that time they had not grown in knowledge of the ore bodies of this camp or of the way in which they manifest themselves on the surface. If they had taken the trouble for the purpose of identification and comparison of the Newry and the Dome, they would have seen that this zone is larger in area than any occurring on either of these properties. The shearing is also more extensive while secondary sulfidation and the deposition of iron sulphide has proceeded on a more extensive scale.

The ground has been so thoroughly altered that in many places, ore lies loose on the surface and the sampling of this ore by the present management has yielded some very spectacular specimens. There is a great deal of visible gold—over samples assaying several thousand per cent. and an area equal to that already mentioned should all carry payable quantities of the ore. The area alone, the Newry should become one of the big, if not the biggest, mines in the camp. It will take many months to sample this whole ore zone in a thorough manner, but the surface indications of value are all here in such strength that one feels rather confident of the great future of the property if adequately and skillfully developed.

Sample from this find are now being sent to Toronto and we may add that it absolutely dwarfs anything heretofore known on the Newry. There is what would be ordinarily considered a large area of ground of secondary sulfidation, and the still Helena and the Connel veins still in size. The area is very much larger than the Kingmill shaft is now in size. It will soon cut the Newry Helena vein and then for 126 feet or so it will be continued in the best ground yet developed on any property and very satisfactory results must be expected.

The ten stamps are now pounding sixteen hours out of each twenty-four. They are being fed from a section of the dump and also from the richest portion of the tailings from former operations. A very considerable amount of amalgam is already being produced and the Newry is now a clean-up will be made in a short time.

The future of the Newry is now fully assured. In view of the latest discovery there should be on the eastern 160 acres enough ore to supply a 600 ton mill for over 50 years.

THE LABOR SITUATION.

Home R. Gibson in his fortnightly review has the following: The mine managers have practically unanimously ignored the request of the Miners' Union for a section of the points of difference. This, they seem to put the issue squarely up to the union. The managers contend that since the miners are already receiving an amount fully equal to their demands, under the bonus system now almost universally in vogue, their claim that such demands are inspired by the high cost of living are inconsistent, and that such demands constitute a fact-demand for recognition of the union. This they seem determined not to grant.

We understand that individual managers have offered to discuss the matter with a committee of their own employees as such, but have absolutely refused to enter into any negotiations with them as representatives of the Miners' Union. If such is the case it would seem reasonable if the miners cannot be prevailed upon to waive, in these times of world strife, the temporarily unimportant point of recognition of the union, and get together with their employers as men to man. We believe that such a discussion would lead to a more equitable and lasting solution of the difficulty.

ADVANCE IN CORN  
RECEIVES CHECK

Prospects of Better Growing  
Conditions Give Market  
Setback.

Chicago, June 7.—Notwithstanding that the corn market continued today to show moderate activity, sensational advances in price received a decided check. Prospects of warmer weather and of continued better field conditions for the growing crop did a good deal to ease down values. The close was heavy at the same as yesterday's finish to three cents lower, with July at \$1.53 1/2 to \$1.53 3/4, and September at \$1.45 1/2 to \$1.45 3/4. Wheat closed unsettled at \$1.50 per bushel, with July at \$2.22 1/2, and September at \$2.15. The previous range was from 50 off to a rise of 7 1/2.

General commission house buying and relative lightness of offerings made the corn market buoyant at the outset, but soon the feeling spread that the advance which began yesterday had been so extraordinary that a halt was needed for at least a time being. The result was that, after the official forecast was out, indicating more reasonable weather than had been expected, the activity of traders turned to the selling side. Profit-taking by shorts led subsequently to a fresh upturn, but the effect failed to last. Bulls were handicapped by numerous reports that country offerings of cash corn were in excess of the demand, and that material extent, and that shippers and industries had made liberal purchases.

Talk of chances that the government will continue to buy wheat for the army and navy, and that the buying side of the wheat market. General expectation was that the winter crop yield would be estimated at about 500,000,000 bushels. Advice was at hand that harvest was in progress in Texas, and that new wheat from there would reach terminal markets within two weeks. Oats sagged, owing largely to predictions that the government report tomorrow would be bearish regarding oat developments. Provisions were quiet and irregular. The market averaged 1/2 cent higher than the day in sympathy with hog and pork.
