START TRIAL OF GERMANS

The real security for France, he said, was the specific guarantee under the League of Nations, equally protecting both sides of the line from aggression. The international solution of the question in this manner, which should include the revision and final settlement of the unworkable clauses in the treaty of Versailles, was the only safe way to proceed.

German Statement. Berlin, Jan. 24.—Renunciation of the policy of sanctions and pledges by Germany's creditors is essential to any successful reparations negotiations, in the opinion of the German Government, as set forth in a semi-official statement. Germany, it also asserts, should also be allowed to develop freely by her own plans for solving the problem and should be permitted to discuss them "on an equal footing with her opponents."

London Views Differ. London, Jan. 24.—Whether the British Government will modify its attitude of benevolent neutrality towards the Franco-Belgian action in the Ruhr in consequence of developments in the British occupation zone, is still unknown but the opinion is crystallising, especially in Liberal and Labor quarters, that British support or even condonation of such incidents as the expulsion of Herr Von Laszner, Chief Collector of Customs at Cologne, cannot continue.

The Daily News contends that the situation is becoming "impossible for the British. "Our only course," this newspaper says, "is to withdraw immediately. Today withdrawal is possible, tomorrow it may be too late."

On the other hand, another section of newspaper opinion continues to endorse the French action. "The most aggressive exponent of this view, declares that the stories of excitement and unrest in the Ruhr are exaggerated and believes that the German Government will very soon bring itself to face the realities."

Woman Got \$2,500 by Scaring Engaged Couple With Threats—Told Man He Would Die.

New York, Jan. 24.—Judge Mulqueen in General Sessions sentenced Mrs. Rose Santora of 628 Timpson Place, the Bronx, to serve twenty years in Auburn for robbing Eddie Stoppello of 246 Mott Street of \$2,500 by pretending to keep "evil spirits" away from the complainant and his fiancée. She was convicted two weeks ago.

The Grand Jury indicted Mrs. Santora, Clementino Carbo, who lived with her, and Mrs. Marie Aquaro of 242 Mott Street, the stepmother of Katie Diiodati, the fiancée. Mrs. Carbo and Mrs. Aquaro will be tried in a few weeks. Assistant District Attorney McQuaid announced after Mrs. Santora was led from the court.

The full penalty was imposed in Mrs. Santora's case because she had been indicted as a second offender, having served a prison term for a similar offense several years ago. Judge Mulqueen declared that the trial revealed

Former Dorothy Campbell; Golf Champion, Gives Up Pittsburgh Suit.

Pittsburgh, Pa., Jan. 24.—Dorothy Campbell Hurd, former United States, British and Canadian golf champion, has abandoned her suit for a divorce from J. V. Hurd, a Pittsburgh steel man.

In her petition to the court, Mrs. Hurd said that she had given up her home in Pittsburgh and did not wish to return to push the suit. The husband, in an answer to the petition, said that he did not object to the step taken by Mrs. Hurd.

The wife in her suit for a divorce charged cruel and barbarous treatment.

The Evening Times and Star

ST. JOHN, N. B., JANUARY 24, 1923.

GETTING TOURISTS.

It will help us to forget the rigors of winter if we turn our thoughts to next summer and the joys we will have to offer to the tourist. The completion of a good highway between St. John and the border of Maine should bring us more American motorists, this year. The Moncton Transcript says—

"The authoritative statement that the State of Maine derives \$200,000,000 a year from the tourist traffic should have the effect of arousing the Maritime Provinces to the importance of this class of business. A Dominion Atlantic Railway official says that Nova Scotia received \$5,000,000 from American tourist business last year, and that much more is expected this year."

Two things are very profitable to the tourist business, one is publicity and the other hotel accommodation. The latter should really come first. The tourist does not care whether he finds a palatial hotel or not so long as what he gets for his money is to his taste. He does not expect miracles. A suggestion has been made to the Times that we had in New Brunswick an association of hotel men, who could take counsel together and disseminate such knowledge as would enable all of them to meet better than most of them do the requirements of the tourist who whose sole duty it would be to go about and arouse local interest in city and town and villages in making each locality more attractive to the tourist. The reward would more than compensate for the effort and the expense. There is no doubt about the existence of the traffic. Maine gets it, and Maine has no objection to its not being duplicated in New Brunswick. Civic authorities, boards of trade, merchants and hotel proprietors all have an interest in this matter, and the winter and spring afford opportunity for a joint movement. It is not enough to advertise. Behind the advertisement must be the goods, and the goods include those creature comforts which are found on a good table and in good sleeping accommodation. The scenery and climate and roads will speak for themselves, but the tourist wants comfort in order to enjoy the other features of a tour or a visit. Cannot a movement be inaugurated that will bear good fruit during the present year? Not to make the effort is to ignore a great source of revenue throughout the summer season.

Mr. W. P. G. Harding, Governor of the Federal Reserve Bank of Boston, declares that the Cuban treasury "is now on an even keel," and he does not now of any better foreign field for American investments. Mr. Harding spent five months in Havana, by request of the Cuban Government, and made an investigation of Cuba's financial and banking system. Because the Maritime Provinces are interested in trade with Cuba there will be much interest in the address which Mr. Harding made on Cuba before the Exchange Club of Boston last week. He said—

"There has been a marked revival in Cuba in the last twelve months. The improvement is due very largely to the dissolution of the sugar commission, and the absorption, in a natural economic way of the large stock of sugar they had on hand. The crop to come in is estimated at about 4,000,000 tons, and they are keeping the price around \$3.50 to \$4. The Cubans are now realizing, after seeing sugar up to over \$50, that there is such a thing as a consumption of a commodity being regulated by its price. I have never seen a more genuine and sound money sentiment than that which I found in Havana. There is no disposition among the Cubans, so far as I could find, for any initiation of credit. Altogether, 42 banks are open and doing business in Cuba today, 37 of them Cuban and five French, Canadian and American. These 42 banks hold about \$100,000,000 in deposits, and it is estimated that there is from \$75,000,000 to \$100,000,000 locked up in safety boxes or otherwise put away."

The Government of Cuba fell very much behind in the years 1919 and 1920; they made appropriations of all kinds without reckoning that their income might decline, so that the budget for 1920-21 was \$120,000,000, against a revenue which fell to less than \$80,000,000.

Mr. Harding pays a tribute to Gen. Crowder, who went to Cuba in 1921 as a special representative from the President of the United States, and says he exerts a very healthy influence and has brought about many great reforms.

"He has aided the Cuban Government to balance its budget, so that the estimated expenditures for the next fiscal year will be around \$86,000,000 or \$87,000,000, as against current expenses of about \$88,000,000, not counting revenue from a tax expected to bring in \$10,000,000 or \$12,000,000. It seems now as if the necessary legislation will be had to enable the President of the United States to appoint Gen. Crowder first ambassador to Cuba, and if that is done it will be a great thing for Cuba herself and for the American business interests in Cuba, because it will be a very satisfactory guarantee that the administration of the Cuban Government will be along correct and business lines."

THE BRIGHTER SIDE  
In a New York paper of Saturday last it was announced that John D. Rockefeller, Jr. had given \$175,000 toward the rebuilding of Mount Holyoke College, of a dormitory which had been destroyed by fire. His father had built the original dormitory. In the same paper it was announced that the late John Wanamaker had bequeathed to Bethany Collegiate Church \$200,000, to the Bethany Brotherhood \$50,000, and to the Friendly Inn, an institution he had established for deserving men while seeking employment, \$50,000. He also made provision for a home in Philadelphia for boys who would otherwise be sent to the House of Correction. His purpose was "that there may be a proper place for temporary detention at the discretion of the judges of the court who wish to take merciful cognizance of a foolish boy who is led into mischief or crime without knowing where he was going." In the same issue of the paper is a record of bequests by Mrs. George D. Pratt of Long Island as follows:—To the National Child Labor Committee and New York Child Labor Committee, \$20,000 each; Lincoln Settlement of Glen Cove, founded by Mrs. Pratt, \$15,000; Christian Science Benevolent Association, \$25,000. It is worth while to note the fact that while the columns of the press from day to day give much news of vice and crime there is also a daily record of acts which remind us that all is not evil in the world.

THE AMERICAN PRESS TAKES A REASONABLE view of the situation in regard to Britain's debt to the United States. The return of the British negotiators to London without having completed satisfactory arrangements is not regarded as a serious matter. The New York Tribune says both countries have the will to come to agreement on terms, and adds—

"In this discussion there are no differences as to fundamentals. Great Britain intends to pay her debt, just as the United States in a similar situation would be determined to pay hers. The discussion is over details. As to these the British representatives ask concessions which would make payment somewhat lighter and more convenient for them—and possibly, all things considered, more advantageous to us. The United States does not take these requests amiss. We are willing to be a reasonable and courteous creditor—to do as we would be done by. Comity between nations—especially between nations who fought together as allies requires this."

THE TRIBUNE declares that in view of British and American war co-operation the United States is willing to accept an interest rate lower than it is paying on most of the bonds it sold in order to raise the money loaned to Great Britain, and to spread the payment over a longer period than the twenty-five years fixed in the debt commission act. That there will be an agreement is confidently predicted by the Tribune, because "the debtor knows that, if put to it, he will pay without any relaxations and the creditor is conscious that he owes it to the conditions under which the debt was created to be both sympathetic and considerate."

PRESCRIPTION SENT BY RADIO IS DELIVERED IN TEN MINUTES  
A radiophone was used in Bayonne, N. Y., a few days ago by a physician under a prescription from a drug store. When Dr. Frederick C. Gray called at the home of Mrs. Marie Wandell, he found her suffering from influenza, which showed signs of developing into pneumonia.

In an adjacent room the physician noticed Mrs. Wandell's son, Paul, 21, operating a radiophone. Dr. Gray asked the young man if any drug had been had a radio outfit, and Paul remembered that of A. C. Nuber Jr. at 599 Broadway. The drug had happened to be at his set, the prescription was ordered by radio, filled and delivered within ten minutes.

DIPHTHERIA TO DISAPPEAR SOON

Dr. Bela Schick Says Results of His Test Convince Him of Its Success—165,000 Pupils Immunized.

New York, Jan. 24.—New York City leads the world in the campaign which will eventually stamp out diphtheria, said Dr. Bela Schick, originator of the Schick test which is being used extensively in the public schools, after spending an afternoon at Public School No. 4, Rivington street, watching the administering of his test to the pupils under the direction of Dr. Abraham Zinger, Assistant Director of the Research Laboratories of the Department of Health. In Manhattan and the Bronx more than 165,000 pupils have been given the test, which determines a child's susceptibility to diphtheria. Those that have been immunized, even as far back as ten years, are still immune, according to Dr. Zinger. Dr. Schick said that the results obtained here, where his test was given a fair trial, have convinced him that the disease must soon disappear entirely, when the public fully understand the facts and offers its co-operation.

The noted Viennese physician, an authority on pediatrics, has come to this country to deliver the Harvey Lectures at the Rockefeller Institute and other institutions in the field of child diseases. He is especially interested in the work of the Department of Health toward the prevention of diphtheria. This work has been advanced to the point which has been able to reach in Vienna, due to the unsettled conditions there.

The Schick test is used to determine where it is necessary to institute the injection toxin-antitoxin. Experiments have proved that the greatest susceptibility is among the children of the higher ages, the president of the greatest districts of the city the percentage of children already immune has been found as high as 87, due to the fact that their constant exposure to the disease has resulted in an automatic antitoxin. In the public schools of the better districts it has been found that 80 per cent of the pupils were susceptible.

The injection is painless and is given only with the parents' consent, but the great ignorance prevailing among the foreigners sometimes makes it difficult to obtain their permission. It is doubly difficult to reach children of pre-school age and it is these who are highly susceptible to the disease. Dr. Schick supported Dr. Zinger's statement that 85 per cent of all cases and of death were among such children.

LOCAL NEWS  
George McLeod, a longshoreman working on the steamer Lakonia at Sand Point, died last evening about seven o'clock and broke his leg between the knee and thigh. He was taken to the General Hospital.

The mission service at the Mission church last night was attended by a very large congregation. Rev. Father Bickerton, took for the subject of his sermon, "The Frightful Sin" and greatly impressed the congregation. The attendance at the mission service has grown steadily.

The committee on Sunday schools of the Protestant Diocesan Synod met last evening with Bishop Richardson presiding. The committee recommended that schools use examination forms as a privilege and an advantage. There was some interesting discussion concerning week-day religious instruction.

D. W. Ledingham will leave this evening for Ottawa to attend a meeting to be held at the end of the week with reference to the raising of a tariff on Canadian potatoes by the Cuban Government. He will attend as a representative of the St. John Board of Trade. T. W. Caldwell, M. P. for Carleton-Victoria, and a number of large potato raisers also will be present.

Rev. H. W. T. Mowll, assistant Bishop of West China, lectured last evening to a very large gathering in the school hall of St. John's Roman church. His lecture was of the places he would pass on his way to his new charge and was profusely illustrated with lantern slides. Bishop Richardson was present and spoke warm words of welcome to the visiting clergyman.

Inspector Killen, Detective Saunders, plainclothesman Kilpatrick, Policeman Laird and MacInnis visited a house in Pond street about ten o'clock last night and secured a bottle of alleged liquor and arrested John Bossep. It is said that when the officers entered a bottle of liquor was thrown out the window of an upper room. Later a bottle, still intact and about half full, was found in a snowbank outside the house and gathered in as possible evidence.

The Sunshine Class of the Tabernacle Baptist Church held their annual business meeting last evening at the home of Mrs. George Gray, Waterloo street. The treasurer reported that the sum of \$280 had been raised during the year. The election of officers resulted as follows: Mrs. Bertha Peterson, president; Mrs. J. K. Lawson, first vice-president; Mrs. M. R. Pitt, second vice-president; Mrs. Vincent Copp, recording secretary; Mrs. L. A. Patruen, corresponding secretary; Mrs. M. Patruen, treasurer; Mrs. T. E. Owens, convener of social committee; Mrs. George Gray, convener of sick committee; Mrs. George Fry, treasurer of flower fund.

Burning of Rome is Sensation in "Nero"

Whole City Destroyed—Structure After Structure Attacked and Consumed by Relentless Flames.

The latest William Fox master picture, "Nero," will be shown for the first time at the Queen Square Theatre tonight. According to all accounts, this is a record-breaking production. It was received during its New York run with the highest praise from press and public and has been setting a new high mark on the box office statements. "Nero" is a wonderful spectacle. Written by Charles Harvey and Virginia Tracy, it follows the historical facts in the life of the last of the Caesars and introduces a beautiful love story in which a Roman general and a Christian princess are the principal characters. Sensational effects of unusual merit abound in "Nero." The one that presents the most novel and impressive features is the burning of Rome. There have been fire scenes on the stage and in the movies, but it remained for William Fox to give the public the nearest approach to a genuine conception that has ever been presented. Gordon Edwards, famous director, spent more than a year in Italy with a company made up largely of foreign actors and the burning of Rome, the scene of the interior of Nero's palace, and the marble portico from which he hurled the burning of Rome, of the fear-maddened populace flee for safety through the streets. Jacques Grotell, the Nero of the cast, gives a splendid portrayal of the character. Paulette Goddard as Poppaea, Alexander Salvini as Horatius, Eddy Darvas as Acte and Violet Mercier as Marcia are leading members of the cast.

Sir Henry Newbolt

Interest in England in His Visit to Canada—Here This Month.

The interest which is being taken in England in the forthcoming visit of Sir Henry Newbolt to Canada may be gauged from the fact that during the last few weeks he has had interviews with no fewer than three members of the British Government, the Honorable Edward Wood, the president of the Board of Education, the Duke of Devonshire, Colonial Secretary, and the Prime Minister, Bonar Law. This information was contained in a letter which has been received by Major F. J. Ney, the general secretary of the National Council of Education. Lady Newbolt will not accompany her husband, but it is possible that she may join him during the first week of April at Toronto where the national Council will hold an important conference at which prominent educationalists of the Dominion are expected to be present.

In addition to his popular lecture on "Literature in Relation to Life" which he will give in St. John on Monday 29th, at the Pythian Castle, Sir Henry is coming prepared to deliver various other lectures of an educational nature. These lectures will be "What is Education," "The Object of Education," "English in Education," "The Bible in Education," "The Future of the English Language."

THRILLS IN BOYS RACES AT LAKE

Logan and Lee Win Honors in First Day of Schoolboy Meet.

Some keen competition was witnessed in school boys outdoor skating races which were held on Lily Lake yesterday afternoon. One of the best was the final of the 220 yards in which there was a great rivalry between Frank Logan and George Lee. Coming down the back stretch they raced side by side and it was one of the prettiest races of the afternoon. Logan, who represented St. Peter's school won both events, while Lee, who represented Latour school, finished second.

The official yesterday were: Referee, E. C. Breen; starter, Thomas T. Jones; judges, T. J. Sweeney and Noel Jenkins; timers, Fred Logan and A. J. Mackay; clerk of the course, Ernest Striling.

The details of the races yesterday were as follows:  
220 Yards.  
First heat—George Lee, Latour School, first; Frank Logan, St. Peter's School, second. Time, 28.45 sec.  
Second heat—Frank Logan, St. Peter's School, first; Robert Maxwell, Water Street School, second. Time, 27 sec.  
Final—Logan, first; Lee, second; Maxwell, third. Time, 27 sec.

440 Yards.  
Logan, first; Lee, second; D. A. Myles, Albert School, third. Time, 56 sec.

SPENT \$7 TO GET ASSAILANT.  
Man Pays Many Fares to Find Conductor He Says Hit Him on Nose.

New York, Jan. 24.—After spending a dollar a day in car fares for nearly a week looking for a conductor of the Seventh Avenue surface line, who, he charges, hit him on the nose with a transfer punch, Harry Scheff of 1241 College Avenue, the Bronx, gave up the search and asked for help. Scheff obtained a summons from Magistrate Joseph E. Corrigan in the Jefferson Market Court.

Court Officer Julius Stern went out and came back in an hour with the conductor, who was paroled in the custody of Michael J. Daley, counsel for the railway company. Scheff says the conductor hit him last Saturday after an altercation about the opening of the car door.

DIES FROM GRATE SPARK.  
New York, Jan. 24.—Neighbors who forced an entrance found that Mrs. Celia Shaw, 84-year-old cripple, had been burned to death in her apartment on the second floor of the building at 229 Hawthorne Avenue, Yonkers, Crutchley beside her body. A lamp was still burning on the table. Smoke had been seen coming from her apartment. Detectives decided that a spark from the open grate had ignited her clothes and that she had rolled over on the floor in an attempt to extinguish the flames.

TO OFFER \$2,500 PENSION TO HON. R. J. RITCHIE

Matter of Bond Issues for Street Construction—Common Council in Session.

At a meeting of the City Council yesterday afternoon J. M. Truesman sent a written request for permission to make repairs to a building in Charlotte street, owned by Mayor Fisher. The building inspector had refused a permit on account of the building being in No. 1 fire district where the type of construction proposed is not allowed. During discussion on the matter the Mayor retired and Commissioner Frink took the chair. It was decided to refer the matter to the committee of the whole. A delegation of city tailors headed by LeB. Wilson asked the Mayor to withhold a license to a representative of an English tailoring house to do business in the city. His Worship promised consideration. Commissioner Frink said that the N. B. Power Company was paying its share for construction of foundations under the tracks and he had found that the city would not need to issue as many bonds as had been authorized for the work. There was still about \$18,000 outstanding against the company.

A resolution by Commissioner Bullock fixing a fixed valuation for the Canada Brush Co., Ltd., and C. H. Peters' Sons, Ltd., for a period of ten years was adopted.

For Police Magistrate.  
Mr. Thornton introduced a resolution providing that, when Magistrate Ritchie resigned his position as police magistrate, he be granted an annual allowance of \$2,500 for life. He said that Magistrate Ritchie had said that he had received no increase since he took over the position, but it was on the records that he had taken the position at \$2,000 and had received two increases of \$200 each, bringing his salary up to \$2,400. The motion was seconded by Mr. Bullock, who said he would support the resolution and would have given his support if the amount had been more.

Committee to Present Questions to City Commissioners—Officers Elected.

The annual meeting of the St. John Policemen's Protective Association was held yesterday afternoon. The president, Edwin Thomas, in the chair. The most important item of business taken up was a discussion of the inauguration of the new quarter. Power, Detective Sergeant Detective Sergeant McLeese, Scott, O'Neill and Baxter, Police Division were appointed a committee to draft a schedule to present to the city commissioners. Reports from the various officers showed the association in a very good condition. The election of officers resulted as follows: President, Edwin Thomas; vice-president, William Blackwell; treasurer, Stephen Spencey; recording secretary, Frank Killen.

CHIN TELLS HER STORY.

Chicago Doctor Says It Measures a Stenographer's Ability.

Philadelphia, Jan. 24.—The time has passed when a man must worry about selecting a capable stenographer. All he has to do is to survey the applicant. If her chin is pointed—"Yes," otherwise, "No." If it be of the "softly rounded variety" with a dimple, or even the square, sturdy type, it's a bad sign.

BIRD SHOT BRINGS PRISONERS TO TIME

Hundred Rebel in Maryland House of Correction and Fire Hose Fails to Subdue Them.

Baltimore, Jan. 24.—Fourteen prisoners at the Maryland House of Correction at Jessup were wounded by small bird shot fired into a crowd of about 100 of them during a riot yesterday. No one was seriously hurt. Warden Lanford said he used the weapon only as a last resort after they had fired blank cartridges and streams of water from the fire hose. The prisoners surrendered.

The men were dissatisfied with their food at breakfast and refused to go to work. They broke furniture and defied the prison authorities for about two hours.

**ENVELOPE.**  
In radiotelephony the continuous wave of radio-frequency is voice modulated by an audio-frequency wave form of speech or music. The resultant wave is so modulated that when it is impressed upon a receiver the sounds which originated at the transmitting station are accurately reproduced. The boundary of this voice modulated wave is known as the envelope.

**COIL TRANSMITTER.**  
When it is desired to transmit a wave having directional properties, it has been experimentally determined that this may be accomplished by using for a transmitter two similar coils which are mounted perpendicular to each other on the same axis. Coil transmitters of this type, which radiate a wave in a particular direction, have been used for assisting airplanes to determine their position with regard to the transmitting station.

**ELECTRON FLOW.**  
When the filament of a vacuum tube is heated by the passage through it of an electric current, electrons or negative charges of electricity are evaporated from the filament. If a source of positive potential is connected to the plate of the tube, the electrons are attracted and flow in a stream from the filament to the plate. The direction of electron flow is from negative to positive while the current flow has an opposite direction from the plate to the filament, that is from the positive or higher voltage to the negative or lower voltage.

**SELF-HETERODYNE.**  
In heterodyne reception the original radio wave is combined with a local oscillation, differing slightly in frequency, with the result that "beats" are produced at an audio-frequency and the signal is rendered audible in the receiving telephone. If the vacuum tube serves simultaneously as a detector and as a local oscillator for producing "beats" in combination with the incoming signal this is known as the "self-heterodyne" method of reception.

**AMPLIFICATION COEFFICIENT.**  
The ratio of the change in plate current per volt change on the grid to the change in plate current per volt change on the plate is known as the "amplification coefficient." It is apparent from an examination of the characteristic curves of a vacuum tube that an increase in the value of the grid voltage produces a much greater increase in the plate current than could be produced by an increase of the same amount of the plate voltage.

**KILOWATT.**  
The kilowatt is a practical unit of power and is employed when the amount of power has considerable magnitude. This unit is equal to 1,000 watts, a watt being the power expended by a current of one ampere in a resistance of one ohm. Seven hundred and forty-six watts equal one horsepower.

**SHIELDING.**  
The employment of several stages of amplification may result in "howling" due to the amplified energy being fed back into the input circuit. This may be practically eliminated by surrounding the tube and the transformer of each stage of amplification with a grounded metallic compartment, this method of preventing interfering noises being known as "shielding."

Tennessee Clafin Dead

Was Widow of Sir Francis Cook — Pioneer for Women's Rights—Wall Street Broker Half Century Ago.

Lady Cook, who was formerly Miss Tennessee Clafin of New York, widow of Sir Francis Cook, died in London last week. Tennessee Clafin, with her sister, Victoria, was one of the most widely known women in the U. S. 30 years ago. They dabbled in Spiritualism, took up finance and with the supposed aid of Commodore Vanderbilt founded a brokerage house in Broad street, New York, sponsored eugenics and equal rights, were arrested and generally impressed themselves on the public. Then they both went to England and married men with large fortunes. Tennessee was born on Oct. 26, 1845, at Homer, O. Her father was a well known lawyer in that part of the state. The early history of the sisters—there were six, but these two were the best known—is little known at the present time. Before going to New York, however, Miss Clafin, then known as Tennie C. Clafin, settled in Chicago, where she became known as a medium and clairvoyant. She was also an ardent advocate of woman's rights and suffrage, but her sister, Victoria, achieved greater fame in this way.

To New York in 1868. The sisters went to New York seeking a wider field of action, about 1868, and after two years formed the brokerage firm of Woodhull, Clafin & Co., Victoria having been married to a Mr. Woodhull. Henry Clews, in his "Fifty Years in Wall Street," refers to the firm as "notorious," and used it as an argument in trying to prove that woman had no place in Wall Street as speculators. Commodore Vanderbilt was generally credited with having been their backer. "Very soon after the Commodore had helped to set these two women up as brokers in Broad street, the firm was known all over the land," said Mr. Clews. "The present titled Lady Cook was then plain Tennie C. Clafin. She

PHAROAH'S ROYAL ROBES IN TOMB

In Excellent State of Preservation—Need Chemical Treatment

A Gold Inlaid Throne—Wicker Baskets Brought to Light Exactly the Same as Modern Product—Jewelled Walking Sticks.

(Special Cable to the N. Y. Times and Montreal Gazette) Luxor, Egypt, Jan. 19.—Howard Carter moved things today in all directions...

The first things were brought from the tomb soon after ten o'clock. There were ten additional egg-shaped boxes of metal, gesso, fowl, and venison...

After these boxes came a large oblong box four feet long by two feet high and broad, containing further specimens of Tutankhamen's underwear...

Visitors who just arrived were impressed with this display of magnificence and freely commented that Tutankhamen must have lived amid surroundings of splendor...

The next thing brought out was a magnificent chair or throne. It was about the same as an ordinary dinner chair, but the back is curved comfortably...

On the front of the back were two figures of the hawk-headed God Horus, with two winged sun discs above them and emblems of eternity below...

It is understood that this chair was the queen's throne, though it is uncertain, pending a more detailed examination...

About noon four stretchers made a procession from the tomb. On the first were two platters of straw, oval-shaped baskets, which excited tremendous interest...

On the next stretcher were magnificent collarettes, necklaces and insignia of the king which had fallen from the robes of the king.

The official robes of Pharaoh were on the third stretcher. They were in a wonderful condition. It is understood, the experts will be able to preserve them sufficiently to allow the collarettes and insignia to be replaced...

Thus the world will have for the first time in thousands of years an opportunity to see the royal robes of Pharaoh. The robes were made of excellent linen. It is faded, but it is possible to treat the fibre...

On the fourth stretcher were more linen and an exquisite walking stick, remarkable for its finish and the gold filigree work ornamenting the handle. There were a hundred miniature gold balls on every square inch of the handle...

It was rivalled half an hour later, however, by two other walking sticks which were brought out with a few miscellaneous pieces of picked up on the floor. One walking stick was embroidered with gold and ivory of astounding delicacy...

The significance of this was that Pharaoh had an Asiatic in the hollow of his hand whenever he grasped this stick.

Samuel Lean, charged with having been over-strength in his shop in Prince Edward street, was supposed to have been over the police court again yesterday afternoon but the defendant did not put in an appearance and his deposit of \$2000 was forfeited. The prosecution refused to have the case settled in that manner so a postponement of one week was made and the accused will have to appear next Tuesday. W. M. Ryan conducted the prosecution. A case of non-support was settled by the Magistrate yesterday afternoon as the parties concerned had reached an amicable agreement.

BEAUTIFUL HAIR IN A MOMENT

35 Cent Bottle of "Danderine" Also Ends Dandruff; Falling Hair!

Immediately—your hair becomes beautiful. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time...

It is to the hair what fresh showers of rain are to vegetation. It goes right to the roots, vitalizes and strengthens them. Its stimulating properties help the hair to grow long, heavy, strong.

You can surely have beautiful hair, and lots of it, if you will spend 35 cents for a bottle of Danderine at any drug store or toilet counter. It is not greasy, oily or sticky.

SIR CARL MEYER WAS FAITHFUL TO NEW ALLEGIANCE

German-Born Mining Magnate Emphatically Repudiated War-time Infamies—Dead in 71st Year.

(London, Dec. 19.—(By mail).—Sir Carl Meyer, 71, died yesterday at his residence in Park Crescent, Portland Place, of heart failure, having recently completed his seventy-first year. Sir Carl was particularly known for his interests in important mining enterprises, and also for his support of the scheme for Shakespeare National Memorial Theatre.

Sir Carl was born at Hamburg on September 23, 1851, the second son of Siegmund Meyer of that city and Elise Rosa, daughter of Reuben Hahn. He was educated abroad, and was naturalized a British subject in November, 1877. He was on the board of the Burma Ruby Mines (chairman), De Beers Consolidated Mines (deputy chairman), Capri Explosives Works, Consolidated Company, Bultfontein Mine, Griqualand West Diamond Mining Company, Dutoitspan Mine, National Bank of Egypt (London committee), Premier (Transvaal) Diamond Mining Company (London Committee), and Union Corporation. He was one of the lieutenants for the City of London, and had qualified as a magistrate for Essex, where is his country house, Shortgrove, Newport. In the summer of 1910 he was created a baronet, being described in the official note accompanying the announcement as "a leading supporter of the Shakespeare National Memorial Theatre."

Afterwards it became known that he was the donor of the £70,000 towards the object, which has been acknowledged as an anonymous gift by the committee in 1909. He was also known as a man of musical taste and a consistent supporter of the opera and concert.

Public Disavowal. During the war Sir Carl Meyer was one of a number of well-known persons of German birth who responded to a suggestion made in the Times by Sir Arthur Pinney that naturalized British citizens should publicly avow their disapproval of German methods of warfare. On May 12, 1915, was published a letter from Sir Carl Meyer, in which he said:—

"I shall be very glad to join in a loyal address to the King to express on behalf of naturalized British subjects of German birth their feelings of detestation at the horrors committed by the German army and navy in the prosecution of the war, eliminating the cold-blooded murder of the innocent victims of the Lusitania. Meanwhile, as Sir Arthur suggests that subjects of German birth should publicly avow their disapproval of German methods of warfare, I take the earliest opportunity of declaring, in the most emphatic manner, that my feelings are no less strong and unequivocal than those of any British-born subject of His Majesty, and that I have lost all sleep and appetite for the last three years, which is not ashamed of applauding such acts of infamy."

Sir Carl Meyer was married in 1883 Alice, daughter of Julius Levy of Belsize Grove, Hampstead; she survives him with a son and a daughter. The son, Frank Cecil Meyer, who succeeded to the title, was born in 1886, married in 1920 Marjorie, daughter of Frederick Seely of Essex, Cheshire, and had a son, Sir Carl's daughter is the wife of St. John Murray Lambart.

CONSECRATES \$100,000 ALTAR Archbishop Hayes Conducts Service at St. Jean Baptist's Church, New York.

Archbishop Patrick J. Hayes on Sunday consecrated a new main altar and two side altars at St. Jean Baptist's Church, Lexington Avenue and Seventy-sixth street, New York. The Archbishop had to go through the same ritual at each altar, which made the ceremonies last three hours.

The main altar, which cost \$100,000

is in four tiers to the height of forty-seven feet, forming at the top a pedestal for the monstrance, which itself is six feet high. It is the gift of a benefactor of the church who wishes to remain anonymous. The other altars are gifts of groups of parishioners. The new altar is in harmony with the architecture of the church which is Roman Renaissance.

The Loyalist Temple Pythian Sisters held another Tuesday night dance in the Temple building in Main street, last evening, when a large number attended and greatly enjoyed the evening. Mrs. A. G. Brown was the general convener.

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if cold, feverish, illious, constipated or full of cold, children love its "fruity" taste, and mothers can rest easy because it never fails to work all the souring food and nasty bile right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which as directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

FOUND WONDERFUL RELIEF FROM CONSTIPATION BY USING MILBURN'S LAXA-LIVER PILLS

Constipation is one of the most prevalent troubles the human race is subject to, and is the greatest cause of many of our ailments, for if the bowels cease to perform their proper functions all the other organs will become deranged.

Keep your bowels working gently and naturally by the use of Milburn's Laxa-Liver Pills, and thus do away with the constipation and all other troubles caused by it.

Mrs. A. R. Spence, Springhill, N. S., writes:—I have suffered for some time from constipation, and was advised by a friend to try Milburn's Laxa-Liver Pills. After taking a vial them I have found wonderful relief, and would advise all those who are constipated to give them a trial, for I feel sure they will also receive the same benefit I did.

RAID REVEALS ANARCHIST PLOT

New Orleans Police Arrest Ten Negroes at Meeting and Seize Literature.

New Orleans, Jan. 24.—Evidence of a nation-wide anarchist plot among negroes was declared by Department of Justice operatives to have been uncovered by a police raid recently on a meeting of the Universal Negro Improvement Association in Longshoremen's Hall.

Ten negroes, eight officials and two "high members" were arrested by the police and charged with inciting to riot. Books, letters and telegrams of the organization were seized today and were turned over to the Department of Justice.

Colonel George Shanton, Chief of the Department of Justice in Southeastern Louisiana asserted that there were between 2,000 and 3,000 members of the Improvement Association in New Orleans, all of whom would be examined. Charges would be lodged against the leaders, he added.

Last night's raid has a direct connection with the death of the Rev. J. W. H. Eason, a negro preacher, who it was said, at the Federal Building was to have been a Federal witness against Marcus Garvey of "Back to Africa" fame, and now under arrest in New York, charged with using the mails to defraud.

William Shakespeare, who has a warrant showing he is "Chief of Police" of the association and F. W. Dyer, "patrolman," both Jamaica negroes, are under arrest on the charge of killing Eason, and police say they found documentary evidence to indicate two men who were sent here for that purpose. The police entered the hall where the meeting was in progress and listened to speeches. The speakers, they reported, denounced the white race in violent terms. The negroes arrested were:

Ike Whitmore, vice president and acting president, Universal Negro Improvement Association here; Thomas Anderson of New York City, assistant general secretary of the New York of

LOCAL NEWS

Rev. Arthur K. Herman was present last night at the special services in the Main street Baptist church. The service was led by Rev. David Hutchinson and an address was given by Rev. Mr. Herman on the subject, "If ye know these things, happy are ye if ye do them." Solos were sung by Mrs. Wesley McEllen and Mrs. Hutchinson.

Last evening was a very busy one at the Y. W. C. A. recreational centre. The regular gymnasium classes were carried on, the Girl Guides held a meeting in the secretary's office, the girls of the staff of Manchester, Robertson, Allison, Ltd., entertained their friends in the large lower hall and the Loyalty Club had a hike and a meal later in the centre.

The Ladies Auxiliary of the Y. M. C. A. held their annual meeting yesterday afternoon in the Association rooms with Mrs. G. Wilford Campbell presiding. It was announced that the finances were in good condition and it was planned to buy a piano during the year for the boys' work department. The election of officers resulted as follows: President, Mrs. G. Wilford Campbell; vice-presidents, Mrs. Howard D. Fritz and Mrs. G. B. Taylor; secretary, Mrs. E. A. Dykeman; treasurer, Mrs. Ralph Fowler; convener of the Father and Son banquet, Mrs. A. B. Gilmour.

A humorous story from a paying teller's store of anecdote was related at a recent dinner to a prominent New Yorker. "A minister in one of the towns upstate received a gift of \$50 from his loving congregation," said one of the speakers, "in the form of a check on a bank in a neighboring village. The clergyman repaired to the bank and presented the check to the paying teller. 'Just endorse this, will you?' said the teller. 'Whereupon the minister carefully wrote across the back, 'I most heartily endorse this check.'"

FREIGHT WAR FOR OCEAN BUSINESS

Cut in Rates for Transportation Between Great Britain and Australia.

London, Jan. 24.—(Canadian Press)—Reductions in freight rates on home and outward bound cargoes between Great Britain and Australia, announced yesterday, have furnished a subject of lively debate in shipping circles here. It is regarded as marking the beginning of a freight war between the Commonwealth Government and the powerful group of so-called conference lines.

G. S. CAMPBELL PRESIDENT BANK OF NOVA SCOTIA

Halifax, N. S., Jan. 24.—Charles Archibald of Halifax, resigned the presidency of the Bank of Nova Scotia at the annual meeting of the shareholders here today and is succeeded by George S. There is some liquidation of Standard Oil of Calif. due to the appointment over the declaration of its dividend.

The fifty cents a share shows no change in the rate since declaration of the stock dividend. Standard Oil of N. Y. is weak in anticipation of the same action.

Hudson Motors declared dividend 50 cents and 25 cents extra.

Pac Gas and Elec. Co. declared quarterly dividends \$1.50 first PA and original stocks, both pay Feb. 15 record Jan. 24.

Coca Cola quarter ended Dec. 31 net income \$960,141 after expenses but before federal tax. For year ended Dec. 31 net income \$1,146,549 equal after Pfd dividends to \$123.89 on common.

Sharp Drop in Egg Prices (Montreal Gazette, Monday) The weakness that has characterized the local egg situation for strictly new laid stock for some weeks past was again the main feature of the trade last week and prices recorded further declines amounting to 10c per dozen, which makes a net drop from the high water mark of the season of 36c per dozen. This has been due to the steady increase in the production throughout the Provinces of Ontario and Quebec and the importations of quite a few carloads from British Columbia and the United States. At the lower level of values the consumption has been steadily increasing and in consequence the demand from grocers and other dealers for supplies to meet their daily requirements was good, which resulted in an active trade being done, with the latest sales at 50c per dozen.

On account of the above a weaker feeling has also prevailed in the market for storage eggs and prices are fully 2c per dozen lower than a week ago, but at the lower level there has been a good demand and sales of car lots of Ontario firsts were made at 32c per dozen and car lots of mixed storage stock were sold at 28c per dozen firsts and at 26c per dozen for seconds, f.o.b. Winnipeg. Supplies for this class of stock in wholesale jobbers' hands are not so pretty well exhausted as in the case of fall fresh eggs at 45c, selects at 38c and firsts at 34c per dozen.

FIRM TONE AS MARKET OPENS

Buying of Railroad Shares Resumed This Morning—Quiet in Montreal.

New York, Jan. 24.—(Opening.)—Resumption of yesterday's late buying of railroad shares imparted a firm tone to prices at the opening of today's market. St. Paul preferred, Great Northern Pacific preferred, Pere Marquette, Atchafalpa and Frisco preferred were among the first shares to move to higher ground. Baldwin advanced three-quarters, and Cluett Peabody and Federal Mining and Smelting preferred one each. Beecham Packing dropped 3/4 points, and heaviness was noted in Pacific Oil and Standard Oil of California.

MONTREAL EXCHANGE.

Montreal, Jan. 24.—(10.30)—With the sole exception of a point advance in Toronto Railway, which yesterday rose three points to 88, nothing worth mentioning transpired on the local stock exchange during the early trading today. The shares mentioned sold at 88. Brazilian and Dominion Glass were each down one-eighth at 49 1/2 and 29 1/2, respectively, while Consolidated Smelters were off a half to 26. Dominion Textile and National Breweries were unchanged at 63 1/2 and 48 respectively. None of the paper stocks were traded in.

MORNING LETTER.

(McDougall and Cowans, private wire) New York, Jan. 24.—There is no change as yet in the European situation that would warrant a change in the course of the stock market. The last two days' trading has been particularly noticeable from the fact that volume of sales was the smallest in some months. It would seem that the public is waiting for some exact news before entering and an upward movement can make little headway, until the public takes some interest. Lead of course the news is apt to change suddenly and the market get under way with no warning but in the present situation, particularly in regard to the high priced industrials it seems better policy to wait for a change of news. Both the industrial and railroad averages showed small advances yesterday, but for the first time in a long period yesterday the rail average showed a more substantial advance than the industrial. There is no question that rail earnings are improving and that the carriers as a group have been selling below the market value for some time. The talk of a radical legislation has been down in the last month and it is possible that the rails could have a fair price of a great deal of irregularity in the choice of the cheaper, non-dividend paying rails and this because it is expected to go on a dividend basis in the next few months.

SWEDEN'S TRADE RECOVERY

A review of the Swedish foreign trade of the last year states that, while it is somewhat early as yet to sum up the results, "it is important to record that the Swedish trade balance is reported as beyond expectation. During the whole of 1922, except for the two months of August and November, the visible trade balance was unfavorable. During 1922, up to and including October, the latest five months showed a material export surplus and for the ten months, January to October, inclusive, there is an import surplus of only \$7,400,000 crowns, as against an import surplus during the same period in 1921 of 178,000,000 crowns."

PREPARE FOR BIG CARNIVAL PARADE

Arrangements for Bands, Lights, etc.—Organizations Asked to Take Part—The Route.

A meeting of the committee of the St. John Retail Merchants Association appointed to look after the matter of the proposed torch-light parade was held last night in the association rooms. Representatives were present from several organizations expected to take part, including the Rotary Club, the G. W. Club, the Power Boat Club, the Royal Kennebec Yacht Club, the South and East End Improvement League and the Trades and Labor Council. Everett Hunt, the chairman of the committee, presided at the meeting. He stated that it was considered probable that they would be able to finance the parade as to bands, torches, floats and other things necessary. The route of the parade, he said, was not considered safe. It was suggested that other organizations should be invited to send members to the next meeting and those named were as follows:—Y. W. C. A., Catholic Women's League, Y. M. C. A., Pythian Sisters, G. W. U. A., Brotherhood of Railway Trainmen, Polymorphous Society, St. Peter's Y. M. C. A., the men's clubs of the Church of Assumption and St. John the Baptist church, the Garrison Sports Club, the Law School, the St. George Athletic Club and the Hardware Clerk's Association.

A meeting of the committee was held after this meeting. Mr. Hunt and Mr. Hunt were appointed a committee to look after the arrangements for the parade. Mr. Hunt was appointed to see about torches. Mr. Hunt was appointed to see Commissioner Thornton for permission to hold the parade. The committee decided to give the following prizes for torches: For the most ridiculous, \$10; for the best price, \$15, and for the best organized parade, \$20. The appointment of judges was left to the next meeting.

How is Business?

(N. Y. Tribune, Monday) Cottons—Demand good; prices advancing; production steady. Woollens—Fall selling season open today; higher prices expected; production well maintained. Furs—Auctions beginning today to set price level; manufacturing trade hesitating; production low. Apparel—Demand for women's spring garments good; prices firm; production quiet seasonally. Jewelry—Retail demand spotty; road salesmen's orders encourage jobbers. Leather—Demand for both hides and leather improving; leather and footwear business gains. Rubber—Crude prices continue to go higher; additional price advances to be announced shortly. Metals—Copper prices fractionally higher; tin and lead prices steady; zinc and lead prices stronger.

THE COUNTY ASSESSMENT.

Appropriation of the county assessment has been completed. The share the city has to provide is \$6829 of the total and amounts to \$807,291.76. The amount for the city of Moncton is \$383,986.56. To this is added \$38,986.65 in specials on the parish. The total of \$690,032.21. Simonds' percentage is .0280 and that parish is asked for \$16,328.11 and \$2,900 in specials, making a total of \$19,228.11. St. Martin's percentage is .0164 and the assessment \$7,075.31. The Musquash percentage is .0082 and it will have to provide \$2,378.98 of the total assessed. To these amounts will be added a percentage to cover the cost of assessing and collecting.

## PROHIBITION CASES HEARD

Result of Visits Last Night  
Made Known in Police Court.

The attention of the police court was occupied almost entirely this morning with cases brought under the Prohibition Act. After hearing evidence in each case all were postponed.

One, George Marshall, pleaded guilty to being drunk and not guilty to supplying liquor. The latter charge arose out of the arrest of George Doherty in the Belmont Cafe in Mill street early this morning charged with being drunk. Sergeant Spence said that 12:25 he had seen Doherty come out of the cafe drunk and he had arrested him. With Policeman Laird he had gone into the restaurant and had seen Marshall and a man named Brown there, as well as the proprietor and a woman, said to be his wife. Marshall had been seated at a table at which was a glass, smelling strongly of liquor. Upon searching him they had found a bottle containing intoxicating liquor. They had seen Marshall under arrest, charged with supplying liquor to Doherty. When they had taken Marshall to the lock-up, Doherty had said "The man who had paid me money to supply liquor to come to court. Policeman Laird gave corroborative evidence.

George Doherty said he remembered being in the Belmont and that he had got liquor there. He identified Marshall as a man from whom he got liquor. He said he had paid nothing for it.

"Where did you say the place is?" inquired the magistrate anxiously.

Continuing the witness had paid some money to Paradise for liquor which he got from him.

The case against Arthur Paradise was next taken up. He pleaded guilty to supplying liquor to Del-cery, to which the charge was amended by W. M. Ryan, acting for the prohibition officers. Sergeant Spence gave evidence to the same effect as in the previous case. He said Doherty had said he got liquor from Paradise. Policeman Laird corroborated Doherty's statement that he had seen Paradise there and had bought liquor from him at 50 cents a drink.

To Paradise he said he had got liquor from him several times yesterday morning and evening.

Mrs. Simonne Paradise, a pretty little French woman, went on the stand but could not be of much assistance to her husband as she was unable to speak English. The case was postponed until this afternoon in order to have an interpreter present.

As a result of the visit of the forces of the law to his premises last night John Bessop appeared in court charged with having liquor for illegal purposes. Inspector Killen told of visiting the house last evening along with several policemen. The door had been locked. Flashing his light through the glass in the door he said he had seen a man come to within two steps of the door and then retreat. As he was armed with a search warrant the inspector put his shoulder to the door and forced it open. Detective Saunders, who had gone right up stairs had called to him that something had been thrown from the window and later he had found a partly filled bottle of intoxicating liquor in a snow bank near the house. Another bottle had been found in a room at the top of the stairs. There was rum in both bottles. Glasses with a strong smell of rum in them had been found.

To J. A. Barry, the defense, he said he had not seen the bottle thrown from the window. Policeman Laird told much the same story. He said a man named Riley had come through the window and he had held him until Bessop had come.

W. M. Ryan conducted the prosecution. The case was postponed until Thursday.

Joseph Murphy pleaded not guilty to having intoxicating liquor in his possession. He pleaded guilty to being drunk. Policeman Laird told of arresting him and of finding liquor on him at the police station. J. A. Barry, for the defense, said the man was not a boot-legger and asked for leniency for him. The magistrate said he would give the accused until Thursday to think it over and if he cared to tell then where he got the liquor he would see what could be done for him.

**REAR OF THE  
BOOTS IN ARMORY**

Officials have been apportioned, everything has been checked over and everything has been made ready for the amateur boxing tournament to be held in the Armory tomorrow night. There are several well-known local boxers entered and a good night's sport is promised. Fifty per cent. of the net receipts have been promised to the Gyro Club's Charles Germain fund.

The officials are: Clerk of meet, Major E. J. Mooney; announcer, Captain W. V. R. Winter; weighers, Lieut. F. V. Markham and Lieut. K. Linton; referee, James Power; judges, Dr. J. L. Day and Allan Gundry; timers, Fred Logan and Martin Dolan; doctors, Lieut.-Col. G. G. Corbet and Major G. B. Peat.

Among the entries received are: Carlin, Whipple, Monteth, Ricketts, Orr, Ingraham, the two Leslies, Sand, Arthurs, L. Britt, L. Donovan, Stanley Belding, G. Coyle, D. Britt, Lockhart, Veniot, Spellman, Coyle, Alfonso Hogan and Shanks. The cups and medals are now on exhibition in the window of Edwin A. Ellis, in Germain street, and make an imposing array.

**BOX SOCIAL AND DANCE.**

The members of the Last Car Club held a most successful dance in the Orange Hall last evening, with about 150 present. Dancing commenced at 8:30 and continued until ten, when daintily prepared boxes were successfully auctioned by Mrs. Caddell and E. McClean. The box which drew the highest bid was donated by Mrs. Caddell. It realized \$4.75. The response from the patrons was most encouraging. Then refreshments were served by members of the club, the conveners being Mrs. G. Post, Mrs. McClean and Mrs. Wrench. Dancing was continued until 11:45. C. L. McFord was master of ceremonies for the evening. T. C. Nickson and S. Caddell officiated at the door. The National Anthem brought a most pleasant and successful evening to a close. The musicians for the evenings were Messrs. Allan and O'Hara.

## Estimates So Far Are Below Last Year

Harbor, Fire and Salvage Corps Budgets Passed Today—Question Raised Over the Cost of Assessing and Collection—Matter of Increased Salaries Again Receives Attention.

Consideration of the estimates of the ferry and fire departments and salvage corps was taken up by the Common Council in committee this morning they were passed. The fire and salvage corps budget is a few dollars less than last year while the harbor estimates as passed upon were about \$6,000 less than last year. The total reduction to date is about \$4,000, as follows:—

1922	1923	
St. Lighting .....	\$2,648.00	\$2,076.09
Police .....	104,298.65	104,026.93
Ferry .....	82,294.39	84,126.50
Harbor .....	16,428.32	10,400.00
Fire and S. C. ....	120,100.70	120,087.75
	\$35,767.68	\$31,641.28

**Rodney Wharf Paving.**

Consideration of the harbor estimates was resumed. The item of \$15,500 for repaving North Rodney wharf was taken up. Commissioner Bullock felt that the repaving would mean a saving over the cost of planking. In addition to that, street traffic regulations had been adopted. He said the annual cost of repair was between \$2,500 and \$3,000. The asphalt he expected to last at least twelve years.

The city engineer said the asphalt surface should outlive the wood structure underneath. The cost of repair should be less than the wood, he said. It was planned to put a layer of asphalt on the present planking. The cost of entire replanking was about \$6,000. He said if the cost was bonded, the amount would be taken into consideration if the harbor was put into commission.

"The matter of harbor commission, according to the commissioner, is dead," said Commissioner Thornton. "If we are going to open that matter again, let us also open up the question of hydro again and let the people have an open say."

To Commissioner Fink, the engineer said that the sub-structure would last as well under asphalt as under planks.

Commissioner Bullock said he included this in the statement of the year's work, as there should be a provision made for fixed charges. The capital charge, however, was not included in the estimate. He thought this method should be used by all commissioners.

Mayor asked if some reduction could be made in the estimate to obviate the necessity of assessing \$10,400 for harbors.

Commissioner Bullock said his draft of proposed expenditures had been reduced by about \$112,000, which might be expended in repairs, etc., including re-wiring of the West Side sheds. He felt that if the city was willing to take a chance on neglecting some of the other work, he could eliminate the \$10,400 amount, but he would not recommend it.

Commissioner Bullock moved that the following items be recommended to Council for bond issue and eliminated from the estimates: Unlaid wharf, No. 2 shed sub-structure, \$1,800; managers for doors in No. 6 shed, \$2,900, and surfacing Rodney wharf, \$18,600. Carried.

Commissioner Bullock said that the chamberlain had asked him to add four per cent. to the estimates for collection.

Commissioner Thornton said he had added three per cent., and he thought this few years ago was figured at 1 1/2 per cent.

The harbor estimates were passed at \$10,400.

**Fire and Salvage Corps.**

Commissioner Thornton presented the estimates for fire and Salvage Corps. The former totaled \$112,885.60 and the latter \$4,756.50. From this was taken annual grant of \$800 and to it was added \$3,496.25 for the collection making the total \$120,087.75 as compared with \$120,100.70 last year.

The details follow:—

Fire Department	1922	1923
1 Chief .....	\$2,000.00	\$2,000.00
1 Engineer .....	1,620.00	1,660.00
10 Firemen .....	10,500.00	10,080.00
2 Chauffeurs .....	2,880.00	2,760.00
6 Chauffeurs .....	8,280.00	7,920.00

**SAW GIRLS DRINKING  
IN A CITY THEATRE**

Magistrate Ritchie this morning, commenting on conditions in the city, told an ear-opener. He said he went into a local theatre one evening recently, and, contrary to custom, took a seat in the balcony. Ahead of him were two girls, and during the progress of the show one of them produced a bottle, the label on which bore the name of a well-known and justly famous brand of whiskey. She took a good-sized swig, he said, and passed it over to her companion, who also did full justice to it. Verily this is the age of equal rights. Miss Honor had the story in "Black and White."

The commissioner said that the number of hose and laddermen had been reduced by five but did not affect the efficiency of the force.

More was asked for fire alarm supplies to improve the call system in the call-men's houses. Ground rent was eliminated by the purchase of land on which the West Side station stands. No hose was purchased last year, but \$2,100 was asked for purchase this year. Last year \$2,027 was spent for new hoses, but no expenditure was anticipated this year. The fire alarm estimate of \$200 last year was increased to \$400 as it was anticipated that two new boxes would be installed this year.

The charges for collecting and assessing, for cost of collecting and assessing.

**More About Salaries.**

The city chamberlain, called in, said that four per cent. was necessary to add as half of his own salary and the salaries of the assessors and clerk were included in this item. He thought that provision should be made for increases in salary for some of the staff.

Commissioner Fink said he had in mind a proposed increase for some men in his department.

Commissioner Thornton said this would mean a revision of his estimates. Consideration of the estimates will be continued tomorrow morning.

## COMPANY WINS INSURANCE CASE

St. John Matter Concerning  
Automobile Burned at  
Musquash.

(Special to The Times)

Fredrickton, N. B., Jan. 24.—Mr. Justice Chandler, who concluded the sitting of the Court of King's Bench here on Tuesday night, prior to his departure filed two judgments in cases of importance in other sections of the province. One is from Northumberland County and one from St. John.

In John Journey vs. Railway Passenger Assurance Co. judgment is given for the defendant company. This was a St. John case. The plaintiff insured an eight cylinder gasoline Cole touring car for \$3,500 with the defendant company. The car was burned at Musquash and the plaintiff took steps to collect the amount of the policy by bringing action after refusal to pay.

The effect of the judgment is that the policy is void and the plaintiff cannot recover. It also is found that there was material concealment on the part of the plaintiff in making application for insurance and breach of warranties contained in the policy on the part of the plaintiff.

In Stanley J. Smith Son vs. Clarence Estey, a case tried without jury at Newcastle, judgment has been entered for the defendant, Estey, who is a resident of Fredericton, with costs.

This case arose out of the business difficulties of the firm, Arch, Alcorn, Ltd., with head office at Blackville, Simpson, according to his own statement, with the permission of Alcorn entered upon lands of the company and cut railway ties. Estey acting for the creditors of the company prosecuted Simpson for wrongful appropriation of the ties. On that charge Simpson was acquitted and he in turn brought an action against Estey for malicious prosecution. Mr. Justice Chandler has found that Estey in his prosecution of Simpson was not actuated by malice.

**ELECTION IN  
CAMPBELLTON**

Campbellton, N. B., Jan. 24.—In the Campbellton election yesterday there was a contest only in Ward 3, where there were four candidates to fill two vacancies. The mayor of last year, N. C. MacKay, and two councillors at large and councillors of Ward 7 and Ward 2 were all returned by acclamation.

In Ward 3 Councillor David A. Graham was yesterday re-elected and A. Benjamin Gorham was elected to fill the seat formerly held by J. Homer Matthews, whose term expired last week and who did not re-enter the contest.

The vote yesterday was: A. Benjamin Gorham, 91; David K. Graham, 84; J. Walter Howard, 83; J. Wesley MacDonald, 69.

**COMMISSIONER BULLOCK**

Commissioner Bullock said his draft of proposed expenditures had been reduced by about \$112,000, which might be expended in repairs, etc., including re-wiring of the West Side sheds. He felt that if the city was willing to take a chance on neglecting some of the other work, he could eliminate the \$10,400 amount, but he would not recommend it.

Commissioner Bullock moved that the following items be recommended to Council for bond issue and eliminated from the estimates: Unlaid wharf, No. 2 shed sub-structure, \$1,800; managers for doors in No. 6 shed, \$2,900, and surfacing Rodney wharf, \$18,600. Carried.

Commissioner Bullock said that the chamberlain had asked him to add four per cent. to the estimates for collection.

Commissioner Thornton said he had added three per cent., and he thought this few years ago was figured at 1 1/2 per cent.

The harbor estimates were passed at \$10,400.
