BELGIAN MINES GETTING BACK TO NORMAL

Production in May, 1920, is 90.9 Per Cent. of That Seven Years Ago — Mons Mines Producing More.

Brussels, July 21.—Belgian coal mines have almost reached pre-war production. The output of the Belgian mines for the month of May, 1920, reached 90.9 per cent of the production for May, 1913, amounting to 1,757,080 tons as compared with 1,910,710 for the same period before the war.

What is more remarkable still, production for the Mons coalfields, taken alone, was even greater during May than during the same month before the war, the percentage being 104.8.

Further illustrating the wonderful progress toward reconstruction which Belgium has made, Director-General of Telegraphs and Telephone points out that 282 central telephone offices out of 288 have been re-established and 80 per cent of the pre-war subscribers have been regained.

At Antwerp, Malines and Turnhout more telephone subscribers are reported than before the war. The scarcity of materials has prevented even greater results in reconstruction. Wires were hard to obtain, the Germans having carried away most of the wiring throughout Belgium. Installations in Brussels were carried to Berlin where they were located by Allied officers and two engineers were sent to recover what materials they can identify.

The Germans carried away \$400,000 worth of telephone and telegraph materials from Brussels and \$12,000,000 from Belgium as a whole.

BLAMES THE GOVERNMENT

Attorney General Raney Says It is Responsible for Conditions at Border.

Erin, Ont., Aug. 7.—Hon. W. K. Raney, K. C., attorney-general for Ontario, took an address at a public held under the auspices of the United Farmers of Ontario here yesterday, and at the same time dealt with the Ontario government's position on the question of the liquor traffic. Mr. Raney blamed the government for the present conditions in the border cities of Ontario.

TELEGRAPHERS' CLAIM SETTLED

Finding of Board of Conciliation Is Accepted — The Increases.

Montreal, Aug. 7.—The Canadian Pacific Railway telegraphers' claim for increased wages was settled yesterday afternoon by the acceptance of the board of conciliation judgment by both parties. Thomas Carruthers, chairman of the men's union, stated that the following increases have been granted and they are in accordance with the finding of the board and also with the vote of the men. Morse telegraphers in first-class offices such as Halifax or St. John, receive an increase of \$20 a month in position, that is, for the first three ratings at Vancouver, Calgary, Moose Jaw, Winnipeg, Toronto, Ottawa, Montreal, St. John, Halifax and Hazel Hill cable station.

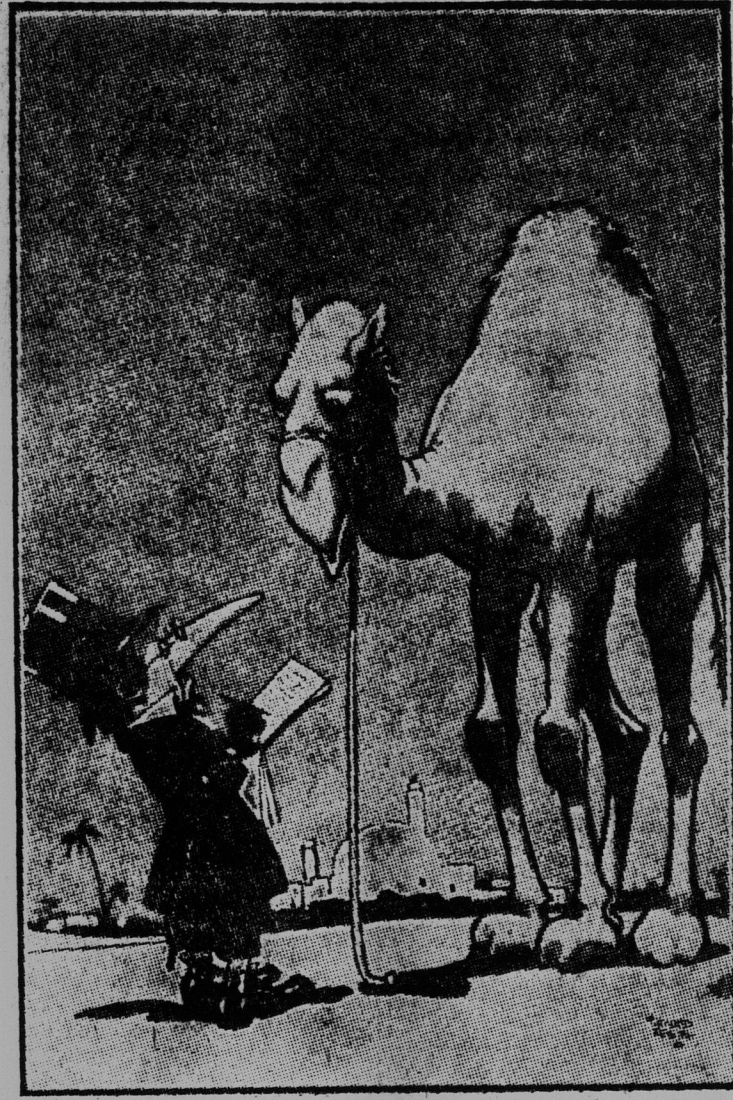

REQUESTS OF MINISTERS ARE BEING MET

Methodist Clergymen Receiving Consideration in Appeal for Higher Salaries.

Toronto, Aug. 7.—"Not one board has so far refused the request of the committee on behalf of the ministers," said Rev. D. G. Ridout, secretary of the Dominion Ministerial Support committee, of the Methodist Church here yesterday, with reference to increases of salary for Methodist ministers throughout the country.

"We are asking for \$1,500 for country ministers," continued Mr. Ridout, "\$1,800 for those in towns and \$2,000 for those stationed in cities."

IN THE SAHARA

"Now tell me, how is it you can go so long without a drink?"—Alfred Leece in the Bystrander, London.

POLICEMAN GAVE LIFE FOR PAYROLL

Wounded Sergeant Lying on Floor Drove Bandits Away With Gun.

Chicago, Aug. 6.—In a revolver battle with three pay roll bandits this week Sergeant Frank McGurk, one of the old Chicago police department, was shot and killed in the offices of the Illinois Vinegar Company at West 48th and South Leavitt streets. For some time McGurk had been detailed at the company's office each pay day, for just such an emergency. Today it came. He defended the firm's money at the cost of his life.

OPEN GRAVE AND TAKE MAN'S HEAD

Police Seek Vandals Who Pried Open Caskets of Man and His Wife.

Malden, Mass., Aug. 5.—State and local police have joined in an effort to learn the identity of vandals who pried open the casket of Casper Liert in Holy Cross cemetery and severed the head from the body, carrying away the head. Liert died in South Boston on Oct. 12, 1912, aged eighty-five years.

MONTREAL STREET CAR WAGE DISPUTE STILL UNSETTLED

Montreal, Aug. 7.—(Canadian Press)—President E. A. Robert of the Montreal Tramways Company, yesterday afternoon refused to agree to the ultimatum presented by the employees of the company following their meeting in Thursday when the men rejected the increased wage award of the board of conciliation and demanded acceptance of their official demand with a twenty-four hour ultimatum to expire at noon tomorrow, failing which they declared they would take such action as they considered necessary. The men will hold a final meeting tonight at which the problem of whether the dispute can be amicably settled or not will be solved.

FOREST FIRES IN MANITOBA

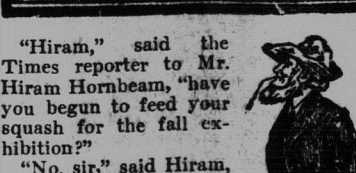

Winnipeg, Man., Aug. 7.—Two forest fires raging in northern Manitoba are endangering thousands of dollars worth of timber, one on the east side of Lake Winnipeg at the headwaters of the Manitogagan river and the other on the east side of Lake Winnipegosis, north of Lake Pickering, according to word received yesterday by the Winnipeg office of the Dominion Forest Service. The situation is rendered more acute by the fact that the north country is drier than it has been for twenty years, officials said.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. R. F. Stewart, director of meteorological service.

SHOWERS. Maritime—light to moderate south-west to southeast winds; partly fair with a few scattered showers.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "have you begun to feel your squish for the fall exhibition?" "No," said Hiram, "but Hanner's been busy puttin' fruit an' things in glass jars, an' she's got some of the finest knittin' an' quilts an' fancy work you ever seen. I calculate she'll get some of the prizes this year. She's goin' to show some honey, too. Hanner bet a way with bees that makes 'em their level best. She's got a nice jar of honey for you, too. She was wonderin' yisterday when you was comin' out to the Settlement."

BOY KILLED IN STREET ACCIDENT

Vancouver Street Car Hits Truck, Killing Lad and Injuring Driver — Motorman Held.

Vancouver, B. C., Aug. 7.—Chow Wing, aged four, is dead on Harold Caldwell is in the hospital seriously injured as the result of an accident yesterday when a street car crashed into a motor truck driven by Caldwell.

THREE MORE KILLED IN DENVER RIOTS

Disorders Resumed Last Night—City Under Martial Law — Strike Called Off—Peace Reigns Again in Illinois.

Denver, Colo., Aug. 7.—Three men were killed and thirteen injured when rioting was resumed by striking street car men and their sympathizers at the east side car barns last night. The dead are—Dan Sullivan, Dan Flannigan and Charles Hanson, all of Denver.

FOR NOVA SCOTIA

International Gypsum Corporation of Annapolis Royal — Other Companies Incorporated.

Ottawa, Aug. 7.—(Canadian Press)—Joint stock companies incorporated during the past week include the following: The International Gypsum Corporation, Annapolis Royal, N. S., \$1,500,000; Quebec Portland Cement Co., Ltd., Montreal, \$200,000; The Magog and Newport Steam Navigation Company, Ltd., Montreal, \$300,000; Quebec Portland Cement Co., Ltd., Montreal, \$200,000.

TRADE CONDITIONS REPORTED GOOD

Optimistic Report of Credit Men's Trust Association.

Winnipeg, Aug. 7.—(Canadian Press)—The general condition of business throughout Canada seems to be very satisfactory. With good fruit crops in the east and a better than ordinary grain crop in the west, wholesalers and manufacturers look for a busy fall, says the weekly trade report of the Canadian Credit Men's Trust Association.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. R. F. Stewart, director of meteorological service.

SHOWERS. Maritime—light to moderate south-west to southeast winds; partly fair with a few scattered showers.

French and British Premiers To Confer On Polish Question

Marshal Foch Is Expected to Be Present at Conference

Rumania Will Assist Allies If Necessary — More Optimistic Reports of the Fighting — Bolshevik Offensive Slowing Down.

London, Aug. 7.—Russian Bolshevik armies hammering the Polish lines northeast and east of Warsaw seem to have encountered serious difficulties. With the exception of the area around Brest-Litovsk, east of the Polish capital, no new advances by Soviet troops have been reported.

Polish forces have been forced to retire from Teresopol, about four miles west of Brest-Litovsk, and have lost Muranow, about five miles to the south. The Bolsheviki have gained a foothold on the west bank of the Bug river in this region, but it is probably their farthest progress will be very slow, as permanent forts erected years ago to defend the city, must be stormed if the Soviet legions are to gain ground there.

Northwest of Brest-Litovsk, along the river Bug, the Polish troops have launched vigorous counter-attacks and have succeeded in driving back across the river Bolshevik detachments which have succeeded in reaching the left bank of the stream.

Further north along the battlefield, a great battle is being fought, but no details of the outcome have been given in late despatches.

At Mysynsk, about five miles from the German boundary, the Poles are well entrenched and appear to be holding their own in spite of savage assaults against their positions.

In the southern sectors of the front fighting of a serious nature is going on, and the Poles seem to be gaining ground at some points.

Premiers Lloyd George and Millerand are expected to meet at Moscow tomorrow, long expected. It is expected by that time the Soviet government will have accepted a basis of agreement with the French and British.

London, Aug. 7.—Rumanian attitude in the Russo-Polish conflict is one of the strictest neutrality, but in event of any Rumanian action, Rumania will co-operate with the remainder of the Allies, according to the Roumanian press.

London, Aug. 7.—(Canadian Press)—The Polish foreign office has sent to the League of Nations a note representing the Polish side in the peace and armistice controversy with the Soviet government of Russia.

Paris, Aug. 7.—Opposition to intervention in Poland against the Russian Bolsheviki on the part of the French united Socialist party has resulted in that organization appealing to members to take action intended to prevent France from becoming involved in the struggle before Warsaw.

MONTREAL'S NEW GOVERNMENT

Charter Commission Confirms Recommendations — New Body Will Have Nine Members and City Manager.

Montreal, Aug. 7.—The ten points relating to city government as recommended by the sub-committee of the commission were confirmed yesterday by the Charter Commission. These suggestions, which had previously been all approved by the commission, include that the city of Montreal be a governing body to be known as the council, consisting of nine members, that there be one electoral district, that the mayor be appointed by the council that the municipal elections shall be conducted on the principle of proportional representation.

HON. G. BRYSON BADLY INJURED

Thrown From Carriage at Fort Coulonge Yesterday — Condition Critical.

Ottawa, Aug. 7.—(Canadian Press)—Hon. George Bryson, member of the

CONJECTURE AS TO WHERE ARCHBISHOP MANNIX WILL LAND

Liverpool Prepared to Give Him Hearty Welcome — Rumors of Move to Prevent Demonstration — Late Irish News.

Liverpool, Aug. 7.—"If Archbishop Mannix lands here, we will give him a reception such as never before has been accorded any Irishman in Liverpool," said Councillor J. P. Kelly, president of the Irish Self-Determination League and an ardent Sinn Feiner.

Prominent Irishmen estimate that fully 80,000 people residents of Liverpool, Manchester and nearby cities will participate.

Just where the reception is to take place has not yet been announced, but it is stated that it will not be at the landing stage, which the authorities declared to be closed to all but duly authorized persons.

Canon Madden, a cousin of Archbishop Mannix, has been chosen to present an address. It is even intimated that the freedom of the city of Dublin may be conferred on him in Liverpool.

All sorts of reports are in circulation as to what the government intends to do to balk the demonstrators. One of them is that the archbishop will be taken off the Baltic by a government craft before the steamer reaches Liverpool and landed at some other port, perhaps Southampton. It is rumored the Irish channel will be patrolled by destroyers to guard against the archbishop being taken aboard some unauthorised craft and spirited away to Ireland.

London, Aug. 7.—In view of the police report of the possibility of rioting in Liverpool, the government has decided that Archbishop Mannix shall not be allowed to land there, says the Daily Mail.

The newspaper quotes "an authoritative source in close touch with the matter as saying the archbishop may land at Avonmouth, Plymouth or Southampton, or that he may be taken off the Baltic on a tug and landed on some unnamed place."

Cork, Aug. 7.—Although ocean liners usually wireless their position to Ireland two days before their arrival at Queenstown, no word has thus far been received from the Baltic. Archbishop Mannix, on board, and it is assumed here he is taking the southern course and will proceed to Southampton.

Last evening the corporation decided to confer the freedom of the city of Cork upon Archbishop Mannix. Alderman O'Sullivan, who is acting for the lord mayor during the latter's absence from Dublin, declared last night: "The freedom of the city is presented somewhere in Australia, if necessary."

MAY USE NEW SAFETY DEVICE

Marine Department Here Is Negotiating with Yarmouth for Use of a Trihedron — A New Invention.

J. C. Chesley, agent of the Marine and Fisheries Department office in this city, has written to Yarmouth, saying that there is now under consideration the placing of a trihedron at some point where the ships sometimes use search lights.

The trihedron is a new invention and its object is to give ships with the aid of their searchlight their correct position. When they are used, they can be moderately thick, weathered, and are thrown in the direction of the trihedron, it reflects back to the ship and the mark readily defines its location. Yarmouth has many advantages as any port along the coast and is considered the best point under ordinary conditions to place it to make the experiment. The department has asked for suggestions as to where would be the best place to locate.

The matter has been considered by members of the harbor board and also by Captain Kinney, of the Boston and Yarmouth Steamship Company, who has taken the matter up with the masters of the ships of that line and in out of this port. It has been suggested, and the suggestion is worthy of much favorable consideration on the part of the department, that a spindle, provided it is at all possible, be established on Sallows Neck.

SENT UP FOR TRIAL ON ASSAULT CHARGE

Quebec, Aug. 7.—(Canadian Press)—George Marcoux and Wilfrid Gagnon, charged with criminal assault on a school teacher, have been committed for trial to the fall term of the criminal assizes.

VETERAN OPERATOR DEAD

Montreal, Aug. 7.—Rudolph A. Boyle, fifty-seven years old, a veteran C. P. R. telegraph operator, died instantly at the site of the Colonial Cafe, this city, last night. He was going into the cafe when he suddenly collapsed and when the ambulance was summoned, he was found to be dead.

Boyle expected to be transferred to Sydney from the press dispatch department of the C. P. R. within a day or two. He worked in the Calgary office a few years ago.

ENTRIES FOR MONDAY'S SPORTS

Three Crews in the Four-Oared Race in Courtenay Bay — The Officials.

Arrangements were completed today for the feature aquatic events which are to be held in Courtenay Bay Monday evening under the auspices of the Courtenay Club. The races will start at 7:30 from a point off the south side of Union street to buoys anchored opposite the old tanks, which makes a mile and a half course.

The first event will be the four-oared, three crews participating, namely Renforth, Belyea and Stack. The second event will be the boys' race over the same course, McCavour, Belyea and Brackley participating.

The third event will be the boys' race over the same course, McCavour, Belyea and Brackley participating. The fourth event will be the boys' race over the same course, McCavour, Belyea and Brackley participating.

Quebec legislative council, was seriously injured yesterday when he was thrown from a carriage in which he was driving near his home at Fort Coulonge, Quebec, late yesterday indicated that his condition was considered critical, but Dr. Mulglin, physician in charge, stated that he was slightly improved last night.

MADE HOMES IN THE WILDERNESS

How a Colony of Swedes Made Good in State of Maine

They Passed Through St. John Fifty Years Ago This Summer - Now Number Five Thousand.

The colony of New Sweden, in Maine, has just celebrated its fiftieth anniversary. The following are extracts from the address of Hon. W. W. Thomas, former minister to Sweden and founder of the colony.

In August, 1637, the Swedish ship of war, Kalmar Nyckel, accompanied by smaller vessels, the Fogel Grip, set sail from Gothenburg for America, with the first New Sweden in the New World on the banks of the Delaware. Two hundred and thirty-three years later, on Saturday, June 28, 1870, I sailed from the same Gothenburg in the steamship Orlando with the first Swedish colony of Maine.

This adventurous band then left home and country and faced the perils of a voyage of 4,000 miles and the hardships and toils of making a new home in the wilderness of a strange land without as much as the scratch of a pen by way of contract or obligation, but with simple faith in their leader and in the honor and hospitality of Maine.

The colony was composed of twenty-two men, eleven women and eighteen children, fifty-one souls in all. All the men were farmers, in addition some were skilled in trades and professions; there being among them a lay pastor, a civil engineer, a blacksmith, two carpenters, a basket-maker, a wheelwright, a baker, a tailor and a wooden-shoemaker. The women were neat and industrious, the housewives and diligent workers at the spinning-wheel and loom. All were tall and cheerful, honest, brave and not a physical defect or blemish among them and it was not without strong feelings of state pride that I looked upon them as they were mustered on the deck of the steamship Orlando.

Not a day's illness. The colony then numbered thirty-eight men, twenty women and fifty-eight children, 104 souls in all. A number that passed its first winter on the new English coast. While the healthy was the climate of our Maine woods, and so vigorous were our Swedish settlers, that for the first time in the history of man, woman or child in New Sweden.

Brisk, hard work continued throughout every day of the colony's life in 1871. Its second year. All the soil was plowed, potatoes and seed for the other crops were hauled into the ground around the blackened stumps in the way of burning the year before with the opening of navigation, new immigrants from Sweden came pouring in by the ship.

These were recruited, located and cared for. New lots were run out by the surveyors for the first time. The colony was surveyed and cut out through the woods from the center to all parts of the township, bridges built, and a large part of our main highway toward Caribou was unrolled to render possible the increasing travel. New clearings were begun, old clearings enlarged, and good crops harvested on the clearings of the year before. The first public school was opened.

Throughout the third and fourth year of the colony life active work progressed and it was the joy of my life to remain with my children in the woods, plan for them, work for them, and superintend the development of the settlement. Settlement Successfully Established. In the fall of 1873 the collection of the colony was excellent. The little settlement of fifty had grown to 600 and outside of New Sweden there were many more Swedes located in our State. In 1874, just four months from the passage of the act authorizing this enterprise, the first Swedish colony of our state arrived at its new home, and the settlement of Maine. At the wagon train stopped in the woods, a little south of the Swedish capten now stands the Swedes instinctively drew together in a little group around me, and here in the shadow of the forest, I was devoutly thanked God, who had led us safely on our long journey, and fervently prayed for His blessing and guidance in the great work that lay before us. Here, too, I baptized the town.

New Sweden. A name at once commemorative of the past and auspicious of the future. Here in behalf of the state of Maine I bade a welcome and Godspeed to these far travelers, our future citizens, and here at the southwest corner of the cross roads, under a camp of bark and by the side of a well of pure spring water, Swedes and Americans broke bread together, and the colonists ate their first meal on the town's soil, where they were to live themselves homes out of the forest. And so, night came on, and we camped for the first time in the heart of the wilderness.

The next day was the Sabbath. The first religious service on the township was a sad one—the funeral of Hilma C. Chase, a little Swedish girl who had died on the passage up the St. John river, the only one who had perished by the way. Monday the Swedes drew lots for their forest farms. Each man received a lot of 100 acres. Tuesday morning, July 26, the Swedes commenced the great work of converting a forest into a home, and that work has gone happily on without haste and without rest to this day. All through summer and fall there was busy work in this wilderness. The principal American forest ranger from north to south with the blows of the Swedish axe. The prattle of Swedish children and the song of Swedish mothers made unwonted music in the wilds of Maine. One cloudless day succeeded another. The heats of summer were tempered by the woodland shade in which we labored. New clearings opened out, and new log-houses were rolled up on every hand. Old bits of board and the happily twisted branches of trees were quickly converted into needed articles of furniture. Rustic beds, tables, chairs and the omnipresent cradle made their appearance in every house, and Swedish industry and ingenuity soon transformed every log cabin into a home.

For myself it was a pleasure to share the toils and privations of our new settlers. Every day I was among them from morning till eve. On foot or on horseback, I visited them all, except on horse-

remote, and cheered all at their labors; and every night I lay down in my log-house tired but happy, for every day had beheld something done, something tangible accomplished for the progress of our state of Maine.

First Child Born

On August 12th a new immigrant arrived in the colony. He was a native American, a good-sized boy, born to Koron, wife of Nils Persson, the first child born in New Sweden. He is alive and well today, a man and a voter. He rejoices in the name of William Widgery Thomas Persson, and is happy in contemplation of the constitutional fact that he is eligible to the office of president of the United States. Sunday afternoon, August 21st, occurred the first wedding. I then united in marriage Jons Persson to Hannah Persdotter. The marriage ceremony was conducted in the Swedish language, but according to American form. In the evening was a wedding dinner at the Persson's. All the spoons were of solid silver, heirlooms from Old Sweden. Thus within the first month of the colony's existence it was established that three great events in the life of man—birth, marriage, death.

Between August 10th and 20th, nearly all the choppers were felled. On some, good barns were obtained, and nothing but the trunks and larger branches of the trees were left on the ground; the fire merely dashed over others, leaving behind the whole tangled mass of branches, trunks and twigs to fret the settler. From this time forward till snow fell, every Swede that came to the colony went to the clearing, junking ax and brand on his clearing, junking the land for a crop. New Sweden became a land-mark in the wilderness. From her hills arose "a pillar of cloud by day" and "a pillar of fire by night."

Every Sabbath, divine service was held by Nils Olson, the Swedish lay minister, and a Sunday school was soon started, which still continues its good ministrations.

Meanwhile, the colony steadily increased. Swedes who had promised to join the Maine colony, but who were unable to get ready to sail in the same ship with me, came following after, and dropped into New Sweden from time to time throughout the year. On September 21, twenty more followed direct from Sweden. Each one received a lot, and as he arrived took up a lot, received an axe and went to work.

At the close of 1870, it was found that every Swede who sailed from Sweden with me or promised to follow after, had arrived in Maine, and that was the climate of our Maine woods, and so vigorous were our Swedish settlers, that for the first time in the history of man, woman or child in New Sweden.

Brisk, hard work continued throughout every day of the colony's life in 1871. Its second year. All the soil was plowed, potatoes and seed for the other crops were hauled into the ground around the blackened stumps in the way of burning the year before with the opening of navigation, new immigrants from Sweden came pouring in by the ship.

These were recruited, located and cared for. New lots were run out by the surveyors for the first time. The colony was surveyed and cut out through the woods from the center to all parts of the township, bridges built, and a large part of our main highway toward Caribou was unrolled to render possible the increasing travel. New clearings were begun, old clearings enlarged, and good crops harvested on the clearings of the year before. The first public school was opened.

Throughout the third and fourth year of the colony life active work progressed and it was the joy of my life to remain with my children in the woods, plan for them, work for them, and superintend the development of the settlement. PONZI'S MILLION DOLLAR SUIT IS SETTLED

Arrangement Made and Case Withdrawn - No Report on Investigation.

Boston, Mass., Aug. 7.—Attorney-General Allen, who is conducting an investigation of the business methods of Charles Ponzi, communicated through an assistant to the chief of the Secretariat of State Robert Lansing, Assistant Attorney-General Abbot, Jr., and Mr. Lansing's home in Watertown, N. Y., and conferred for several hours with the former chief of the Secretariat.

The attorney-general refused last night to discuss the report on the conference given by Mr. Abbot by telephone from New York. Ponzi announced last yesterday that he had accepted the offer of \$100,000 against him by Jos. Daniels had been withdrawn and a settlement effected between him and Daniels.

Daniels had claimed a share of the profits in Ponzi's operations, asserting that he had assisted Ponzi financially in getting started.

WILL AWAIT THE PERMISSION OF U. S. GOVERNMENT

Miami, Fla., Aug. 7.—Declaration that the Western Union Telegraph Company will await the permission of the U. S. government, was made by officials of the company yesterday upon the arrival here of the British cable ship Colonia.

CHASE AUTO THIEVES WITH SHOT GUNS

Webster, Mass., Aug. 7.—Two hundred citizens, armed with shotguns and rifles, surrounded the Chace automobile on the Webster road last night after two men in an auto chased by twenty taxi cabs and with police driven them to corner and exchanged several volleys. The men are said to have been doing wholesale auto stealing.

LOCAL NEWS

PUNERAL TOMORROW The body of Miss Nellie Ward from Hillsboro, Albion, will be buried tomorrow afternoon from the residence of her uncle, Josh Ward, 19 Duane street.

STILL UNBURIED The body of Andrew Smith, who was found on the banks of the Dominion Coal Company's sheds on Tuesday morning, is still lying in Chamberlain's undertaking parlors awaiting the authority of some official body to give his burial.

Band concerts, Seaside, afternoon and evening.

POSTMEN'S PICNIC TODAY. For a real good time you should go to the Postmen's Picnic. Games and prizes for every one. Today at The Ferns.

THE BIBLE CONFERENCE. We would remind you of the Bible Conference to be held on Aug. 9, 10 and 11, at the residence of Mr. J. P. McGuire, "The Rectory" at Woodman's Point. Rev. W. B. Williston of the China Inland Mission will speak at the morning, afternoon and evening sessions. In addition Revs. R. P. McKim, W. H. Sampson and C. W. Nichols will address the conference. Consult local time tables for convenient train and boat service.

PERSONALS The condition of Mother Patrick, who is ill at the Infirmary, is about the same. Mrs. Charles Bailie and Miss Carrie Bailie have returned home from Boston, where they were visiting friends.

Miss Florence Maber has returned home after visiting friends in Halifax. Miss Blanche Robertson arrived home last evening after spending her vacation in the Arctic region in an effort to reach the North Pole, was forced to postpone her departure on account of delay in having supplies on board the Maud. He announced he would sail today. A gold medal was presented to the captain by the city council at a public reception.

REFUSE TO COME DOWN A romance in bird life requires some explanation to those who witnessed it in Imperial Theatre yesterday afternoon and evening. It is still going strong. The company playing the house with a road show at present have two trapeze artists which are supposed to "mate" during a song in the programme. The female bird is continually kept on the stage in a miniature house and the feathered swain is supposed to be released from the house, flying to the trapeze, where they were still billing and cooing this forenoon, refusing to be coaxed to earth until a great deal of reach of the tallest extension ladders.

WATCHING WRANGLER (Bangor Commercial) A London despatch states that the Soviet government of Russia has agreed to promise immunity to General Wrangel if he stays in the Crimea. Wrangel, according to his statements, will demand more than this, for he says that there must be a line of demarcation drawn and that the territory now held by him must be allowed to stay under self-government.

In press despatches regarding Russia the name of General Wrangel is coming into more and more prominence and in some quarters the belief is expressed that he is the man who may bring order from chaos in Russia. Wrangel is the leader of the national troops in South Russia, more specifically in the Crimea, the head of the only Russian force now remaining in arms against the Bolshevik government. He is the successor of Denikin, being appointed by the latter when he retired from leadership.

Wrangel certainly succeeded to a forlorn hope. When he took command, Denikin's army had been pretty nearly annihilated in the northern Caucasus. The troops, such as were left, were scattered and discouraged. Realizing that he could not withstand the Soviet forces, Wrangel transported the remainder of his men by water to the Crimea and has succeeded in standing off the attacks of his opponents, possibly because they have been too busy with the Poles to send a large force against him.

General Wrangel must have confidence in the situation, for he has refused the British suggestion that he make peace with the Soviet government, unless a line of demarcation be drawn that will include the Lauridian plains to Dnieper, territory that Wrangel has brought under his jurisdiction since his withdrawal to the Crimea.

The Soviet government has recently offered to make peace with Wrangel with a promise of immunity for the latter and his followers, so both factions are standing pat. Close observers believe that Wrangel is more likely to succeed against the Soviet administration than was Kolchak or Denikin, because he has undertaken his task in a different manner. Kolchak and Denikin both sought to overthrow the Russian government by military methods and paid little attention to the peoples and conditions that they held with the result that these peoples turned against them, voluntarily recruiting stopped and their forces dwindled.

Wrangel is striving to establish a real state that can withstand attack from without. He recognizes local authority and is extending great freedom to the residents. It is his belief that with South Russia prosperous under liberal government the remainder of the country may demand similar self-government and Soviet rule thus be eventually overthrown. And close observers think that is by no means impossible.

Rome, Aug. 7.—Authorization to occupy Constantinople has been given the Greeks by the Allied nations, according to a despatch received here.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"THE SILENT AVENGER" COMING William Duncan, star of the Vitagraph's great serial, "The Silent Avenger" will be shown at the Opera House commencing next Tuesday.

Thunderbolt, the famous American beauty, Katherine McDonald, will be seen in the remarkable drama, "The Unusual Evening Detail." Matinee 2.30. Two evening performances, 7.15 and 8.45. Usual prices.

LAST TIME TO SEE JIMMIE EVANS CO. Lyric Theatre. Jimmie Evans Co. will say au revoir at the Lyric today. Concluded to be the best musical comedy ever staged in St. John. Matinee today at 2.30; evening 7.15 and 8.45.

SISTER OF J. F. MASTERS DEAD IN FREDERICTON (Special to Times) Fredericton, Aug. 7.—Mrs. Jose S. Masters Creed, widow of Dr. H. C. Creed of Fredericton and daughter of the late John P. Masters of St. John, died here this morning at the residence of her son, Clifford Creed. She had an attack of heart failure in Halifax a year ago and since that time has been an invalid. The funeral will take place Sunday afternoon.

CAPT. AMUNDSEN POSTPONES HIS ARCTIC TRIP Rome, Aug. 7.—Captain Amundsen, Norwegian explorer, who planned to sail yesterday on a five year expedition into the Arctic region in an effort to reach the North Pole, was forced to postpone his departure on account of delay in having supplies on board the Maud. He announced he would sail today. A gold medal was presented to the captain by the city council at a public reception.

REFUSE TO COME DOWN A romance in bird life requires some explanation to those who witnessed it in Imperial Theatre yesterday afternoon and evening. It is still going strong. The company playing the house with a road show at present have two trapeze artists which are supposed to "mate" during a song in the programme. The High Rent Problem

And the importance of making smaller homes attractive as well as comfortable. Everywhere people are confronted by the necessity of either renting a room or two or moving into smaller apartments. These conditions exist everywhere.

We have on our floors a beautiful stock of Davenport, Couches, Iron and Brass Beds and Mattresses for that spare room at old prices.

Prepare for the BIG RUSH to the Exhibition. Are you ready to receive your guests? Come in and select your wants now.

Amland Bros., Ltd., 19 Waterloo Street

LATE SHIPPING PORT OF ST. JOHN. Arrived Aug. 7. Coastwise—Sch. Levuka, 50, Tupper, from Port Wadsworth, N.S.; str. Stadium, 49, Pils, from Alima, N.B.

Cleared Aug. 7. Coastwise—Sch. Levuka, 50, Macdonald, for Digby; gas scow Mary S. T. Gaudreau, for Dorchester; str. Stadium, 49, Pike, for Alima.

CANADIAN PORTS. Quebec, Aug. 6.—Cld. str. Pretorian for Montreal; steam barge J. A. Mackee for Sydney.

MARINE NOTES. The R. M. S. P. Chalmers sailed at Halifax for the West Indies via Antigua. Wm. Thomson & Co. are the local agents.

The schooner Annabel Cameron arrived at Havana from Antigua with a cargo of tiles and will load a cargo of mahogany in Cuba for Havre. E. T. Knicker & Co. are the local agents. The steamer Lake Akkra has finished discharging a cargo of sugar at the refinery and will probably sail today for a United States port. J. T. Knight & Co. are the local agents.

AGRICULTURE A LA MOTOR The Belgian government has hit upon a novel scheme of teaching the farmers of the country better methods of farming. The idea of a school for farmers is not new, but the idea of taking the motor car to the farmer by means of a motor caravan is certainly novel. The one powered with a gasoline motor; in short a building section on a motor truck. The three rolled into position and joined together make the complete motor caravan.

From August Motor. Sackville Post.—It is said Sackville has exported so far this year about \$28,000 worth of strawberries. There will be a few thousand dollars more worth of berries and blueberries, so that it is safe to say the total shipments of berries from Sackville this year will be upwards of \$30,000. More people are going into the business every year, but in spite of that fact it was almost impossible to buy a box of strawberries in the local stores this season under twenty-five cents. The export demand seemed greater than ever.

Has Studio in Halifax. Halifax Echo.—Mrs. McAvity, well known portrait painter, has returned to the city and taken a suite at 37 Tophin street. She had spent the previous six months of the year in Bermuda, where she was commissioned to paint a portrait of the governor of the island. Mrs. McAvity's art will be recalled by those who have seen her portrait of the Hon. M. H. Goude, which hangs in the Provincial Buildings. She has several commissions from Halifax citizens.

NO HOTELS NEEDED. Digby Courier.—A party of Americans have arrived here who are entirely independent of hotels and hotel restrictions. They have brought a complete camping outfit with them and are occupying a field on St. Mary's street. Two large tents and a number of smaller ones, with two autos enable them to live the simple life and they are apparently enjoying themselves to the utmost.

WASH UP WITH SNAP after raking out the furnace, cleaning out the cellar or doing any other dirty work around the house. SNAP removes grime and grease and keeps the skin smooth and soft. Better than Soap

First Arrivals of Cloth and Fur Coats for Women

Forerunners of the fashions to be the vogue for autumn and winter. To see these first arrivals is to decide then and there in favor of their interesting modes.

The New Fur Coats Rich With Quality and Beauty

These will command the interest of women in general. You will find the fashions depicted in the new furs, the quality of skins, the matching of pelts and the workmanship all that you could wish for.

Among the different kinds are—Hudson Seal, Electric Seal, Natural Muskrat, Sealine, Persian Lamb, Pony, Ring-tail Opossum, Australian Beaver, Kolinsky and Mole Coney. These are plain or with collar, cuffs and other trimmings of contrasting fur.

One Fur Coat of unusual interest is made of Hudson Seal with wide cape collar, cuffs and broad band around bottom of Mole Squirrel. This is 32 inches long and has an extremely smart braided leather girdle. It is lined throughout with broadened satin.

Some Coats Are Priced as Low as \$103.00
(Fur Section—Second Floor)

Lovely New Cloth Coats

Too early to wear them, of course, but not too early to form an idea of what you would like for the colder weather. The styles are very charming and many new shades are showing.

The newest coat materials are Duvelyn, Silverstone and Velours. Some models are slightly fitted for fall, others still hold to the loose-fitting style. Belts and buttons are used in various ways and broad cape collars, shirred at neck, are strongly in evidence.

Style and comfort are charmingly combined in these coats. The newest colors are owl, bark, beaver, mole and other shades of greys and browns.

PLEATED SKIRTS FOR AUTUMN

Ideal for wearing with the coats mentioned above. Plaids and plain colors, box, side and accordion pleated.

Plaids are in light and dark color combinations, striking or more subdued. A few have deep borders on bottom.

Plain colors are in black, navy and white. \$12.50 to \$31.50

(Costume Section—Second Floor)

STOP THAT INCESSANT COOKING!

Why waste your entire life in the kitchen? Why spend your total energy over the stove, thus driving the element of pleasure-seeking far from your mind or body?

Stop it—drop it for a while! Try the new way of preparing your meals. Let the College Inn do your cooking, your baking, your roasting, your boiling! Get the delicatessen habit, and utilize our time, money and labor-saving service.

A visit is convincing. We do not need to explain. Drop into the home of economical perfection at 108 Charlotte street. It will give you a new viewpoint of life. Yes, it will. And a cheerful one.

PARENT'S DOOM WAS SOUNDED BY ALARM

Daughter Gave Father Time Limit to Sign Confession Then Killed Him.

Atlantic City, N. J., Aug. 6.—Ten minutes by the clock was the time limit set by Mabel Coleman, seventeen-year-old daughter of Nathaniel Coleman, for her father to sign a paper setting forth what he had attempted to do when he entered her bedroom. Failure of Coleman to have signed the paper when the alarm went off as it had been set, resulted in three shots being fired at him, two of which took effect and resulted in his death.

Half an hour after the tragedy at the Coleman home in Pleasantville yesterday morning the girl was taken into custody by Magistrate Brown. She virtually confessed committing the crime and was immediately sent to Mays landing and locked up in the county jail.

Acting Assistant Prosecutor Burton Gaskill, accompanied by Chief of Court Detectives John P. Wilson and A. R. Littleton, court stenographer, went to the county seat early this afternoon.

The investigation made by Detectives Wilson and Mays disclosed that the girl stood in fear of her father because of forced relations which she resented. She had lived with her father since the separation of her parents seven years ago.

According to her story, her father entered her bedroom early yesterday morning and, upon seeing him, the girl hurriedly obtained a revolver, which had been owned by her mother. She ordered him out of the room under pain of being shot. The man left the room.

For fully forty-five minutes the girl kept the father under cover of the weapon. He had gone out into the yard, but returned to procure food for chickens.

The girl still fondled the revolver. After feeding the poultry the man came into the kitchen and began preparing breakfast for himself. It was then that the girl informed her parent of her purpose.

RECENT DEATHS

Philip Patrick Farrabee.
The death of Philip Patrick Farrabee occurred yesterday morning in the St. John County Hospital, set out about a year's illness. He was the son of Anstus Farrabee, of Doherty's Corner, near Chatham, and contracted tuberculosis while in the army. Besides his father he leaves one sister, Stella. Flowers were sent by the Red Cross and flowers and a Union Jack were sent by "Mother" Tilton. The body will be sent to Hardwood Ridge, Sanbury county, today, for interment.

Miss Nellie M. Ward died at the home of her father, J. T. Ward, Hillsboro, yesterday afternoon, following a lengthy illness. Besides her father, she leaves three brothers.

DO TELEPHONE WIVES REDUCE NUMBER OF LIGHTNING STORMS?

Regina, Sask., Aug. 7.—(By Canadian Press)—Is there any connection between the extension in the west of rural telephone lines and the alleged decrease in rainfall? This question is raised in a letter from G. W. Booth, of Seaman, Sask., to the Regina Leader. Mr. Booth writes as follows:—There is considerable comment on the decrease in rainfall throughout the west, each year seems a little drier.

"I have been a resident of the Seaman district for fourteen years and while severe electric storms are very rare of late years, whilst in the early days we used to get every year a number of heavy rainfalls accompanied with severe electrical disturbances.

"There is, I believe, a possibility that electric wiring and rodding is doing much to lessen disturbance in the sky, for instance read Professor Dodd on letting electricity escape from ground to sky through his lightning rods, and also his remarks on groundings.

"I cannot remember one close violent display of lightning or thunder near our home since 1912 when our first rural line was built. It would be interesting to know if there is anything in this."

Two Rats to Each Person.

San Juan, P. R., July 30.—Porto Rico has a rat population of 2,000,000—two to each inhabitant—and it costs the island \$15,000,000 annually to support them. This is the estimate of Major G. M. Corpat of the United States public health service, chief quarantine officer for Porto Rico.

Each rat, according to Major Corpat, consumes provisions, or damages crops and property to the extent of \$6 monthly. The recent census gave Porto Rico a population of approximately 1,000,000. On this basis each man, woman or child in the island contributes about \$11 annually to the support of the rat family.

The British mails here will close at 5 p. m. August 10 for the steamship Empress of France, via Quebec.

KILLED HUSBAND BUT GOES FREE

Under French Law Crime Committed Fifteen Years Ago Is Outlawed—Body Found in Stable.

(Associated Press Correspondence)

Bayeux, Calvados, France, July 21.—Self-confessed slayer of her husband in 1905 jointly kept the Golden Lion on the outskirts of this town. Their marital life was unhappy, violent quarrels often breaking the monotony of long periods of sultriness and mutual silence.

Then one day Monsieur Huches disappeared. Madame Huches explained that he had abandoned her and eloped to America a few days ago.

A vicious horse lashed out with both heels in the stable of the "Golden Lion" six months later and left the town. An uncooperated broken plank of his stall a rusty old trunk. It contained the skeleton of a man.

The police, remembering the disappearance of the former landlord, set out to find Madame Huches, whom they promptly located in Grenoble. At their invitation she returned to Bayeux. She confessed to having murdered her husband. Both had since died. She is still living and was immediately summoned. He admitted digging a hole beneath the floor of the stable and having placed therein, at Madame Huches's request, a large trunk which the landlady told him contained silverware and linen that she wished not to include in the impending sale of the inn.

Madame Huches broke down and confessed. The police took her at once before the local judge. He immediately discharged her from custody.

According to Article 637 of the French code the crime is outlawed, as no legal action or investigation had been taken within ten years of the day the murder was committed.

Before departing for Grenoble where she will resume her occupation as a boarding house keeper, Madame Huches purchased a long, heavy black veil. For the first time in fifteen years she was officially a widow.

GERALD C. MEILKE OF HALIFAX WINS THE CHAMPIONSHIP

As a result of the last day's play of the Maritime Provincial Golf Association tournament on the Riverside Golf and Country Club links, the A. J. McDonald cup, emblematic of the maritimes, will go to the Brightwood Golf Club, Halifax, Gerald C. Meilke, of that club, having won the championship, by one up.

The runner-up, the cup Mr. Murphy, of the Brightwood Golf Club, who defeated the runner-up, A. C. Currie, also of the Riverside Club, by one up.

The driving competition was won by Hugh Henry, who received a cup, aggregate for three drives being 883 yards.

In the approaching and putting competition, which was at 25, 50, 75 and 100 yards, the first trial resulted in a three-cornered tie as H. N. Stetson, A. C. Currie and G. C. Meilke did it in thirteen strokes. In the play-off Meilke won, doing it again in thirteen strokes with Kellie taking fourteen and Currie fifteen.

Much interest was aroused by the professional match, which was won by A. Kellie of Amherst, who in the first round was tied by L. Quessel, of the Brightwood Club, with a score of 162. In the play-off of eighteen holes Kellie scored 86, and his opponent 89.

Following the close of play the members gathered in the large room of the club where the presentation of prizes took place. Andrew Jack, president of the Maritime Association, presented the cup to Mr. Meilke as well as a medal. He also presented a medal to J. M. Murphy, the runner-up in the championship. The prizes for the winners of the first and second consolation events were presented by J. G. Harrison, president of the Riverside Golf and Country Club. G. H. Peters, vice-president of the club, presented a pipe to G. C. Meilke for having made the lowest score in the qualifying round. He also presented the prizes for the driving competition and the approaching and putting competition, which were won by Hugh Henry and G. C. Meilke respectively. The Brightwood Club four-man team composed of Messrs. Meilke, W. A. Henry, H. Henry and H. M. Wylie, which won the team championship, also received prizes.

His Honor the Lieutenant-Governor presented the cash prizes to the winners of the professional events, the first of \$75 going to Mr. Kellie, the second of \$40 to Mr. Quessel and the third of \$20 to Mr. Braut.

Short speeches voicing the appreciation of the visiting players of the reception accorded them were made by Mr. McAulay, W. A. Henry and Dr. Sprague.

Toronto Rabbi Dead.
Toronto, Aug. 7.—Rev. Solomon Jacobs rabbi of Holy Blossom Synagogue, this city, died at his home here yesterday. He was born in Sheffield, England, in 1861 and was widely known.

LOCAL NEWS

Because of the paving operations on in City road the street cars from Haymarket square will run one way, up Brunswick street and down King, today.

A trolley wire fell down last night about 11 o'clock at the corner of Stanley and Winter streets, but nobody was hurt and the power company soon had a crew on the job to repair it.

The steamer Ocoee went around in a heavy fog on Thursday morning on the channel bank above Palmer's wharf and remained there until pulled off in the evening by the tug Daniel. The Ocoee was uninjured. There were few passengers on the boat at the time of the accident and these caught a later down river boat.

A fire in the blacksmith shop of Lewis Breen, Marsh road, last night, shortly after 1 o'clock, was extinguished in slightly more than half an hour, with little damage. The alarm was rung in from Box 421, at the corner of Marsh road and Frederick street, at 10:12 p. m. and the all-out sounded at 10:48.

The tourist record for the maritime provinces is broken this year while the summer is only half over. Since the first of June the Boston boats have been bringing between 200 and 300 a trip, the trains have often had to come in two and even three sections, and those traveling in automobiles is larger than any other year.

At the recent meeting of the board of commissioners of the General Public Hospital officers were elected as follows: Hon. Senator Daniel, president; M. E. Agers, vice-president; Frank Flewelling, treasurer. Lieutenant-Colonel Alexander McMillan was elected to take the place of Dr. Thomas Walker on all committees of which he had been a member.

A meeting of the creditors of William C. Day was held yesterday in the office of the Canadian Credit Men's Trust Association where a statement of the debtor's affairs were submitted. The liabilities are in excess of \$6,000. The value of the assets has not been determined.

CANADA'S TRADE.
Montreal, Aug. 7.—Canadian Government Merchant Marine movements continue to be the main feature of trade between Canada, South American and West Indian ports.

Today's report also indicates that the new trade route opened up between Montreal, Prince Edward Island and Newfoundland is now thoroughly established.

The Montreal-Newfoundland service is now pronounced to be a successful venture reflecting credit on the originators of this trade route.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, AUGUST 7, 1920

WHY MONEY IS SCARCE

(Paul Clay in Forbes Magazine, N. Y.) Overproduction is the well known cause of falling prices; but in this year 1920, especially in May and June, we witnessed a decline in commodity and goods prices brought on by underproduction.

It has come about that the less the laborer does, the more pay he gets for it, and that the less the farmer and manufacturer produce, the higher are the prices they get for their output.

Both producers and their employees discovered many months ago that the less they did the more they made. Correspondingly, the efficiency of both labor and capital diminished, and prices went sky-rocketing. The rule of capital was to raise prices enough to cover advances in wages, and fully maintain the margin of profit; the rule of labor was to obtain frequent advances; and the rule of the various governmental and semi-official labor and arbitration boards was to make the wage increases retroactive. The men could well afford to strike often when they were paid to do so and the

of their products because they could not borrow more money at the banks, the spending money in the hands of the people ran short. According to estimates, the shortage was at the rate of about \$4,000,000,000 per annum or \$333,000,000 per month. Hence it required extra persuasion to sell goods, and there was nothing to do but cut prices. The question of overproduction or underproduction was immaterial, for our business

FEATS IN WIRELESS TELEPHONY

(New York Evening Post.) The wide attention given the wireless conversations which the steamer Victoria has been holding from mid-Atlantic with both England and Canada is an indication of the slowness with which the new means of communication has been developed. In 1912 wireless telephony was successfully carried on in Italy over a range of 250 miles and inventors declared that it would soon be in general use. In 1915 the voice was carried by wireless from Arlington, Va., to Honolulu, 4,500 miles distant, and a little later from Arica to Paris. In 1916, anticipating recent achievements in Europe, De Forest transmitted musical selections by wireless for distances of a score of miles or more. Two years later considerable telephone conversations were held between Canada and Ireland and Washington and Paris. Wireless telephony shared in the development that so many recent inventions received during the war and was extensively employed over short distances by sea, land and air forces. Nevertheless, its progress since 1912 has not been what sanguine people hoped. If it had been, the press would not be giving headlines to an account of how im-

perial press delegates on an English steamer talked over several hundred miles of waves with ease. Wireless telephony will have come into its own when it is used on a large scale for commercial purposes and supplements wireless telegraphy as effectively as the latter now supplements the electric cable. That hour seems near. Marconi made his first fully successful experiments with wireless telegraphy in 1885, but it was not until 1907 that a public commercial service was established across the Atlantic. A little more time and conversations like the Victoria's will be too commonplace for notice.

How Soviet Russia Is Compelling Recognition

In all the fighting that has been going on in Eastern Europe and in the negotiations involving Moscow and Warsaw and Paris and London there is but one certainty, observes the New York Globe, that is, that the situation is approaching what we may call a "show down." "Shaking hands with murder" is Lord Northcliffe's phrase, but as the New York Sun is forced to agree the murderer is now in a position to say whether we shall shake hands with him or whether war-weary Western Europe must take arms against him. Strange as it may seem, says the Sun, "the international vagabond of 1919 has gained the amazing position of being in control of European stability, and perhaps of World stability in the year, 1920."

The Russian situation is the biggest problem that America and the rest of the world has to face today, and in the leading article in THE LITERARY DIGEST for August 7th, the most recent phases of this perplexing complication is dealt with comprehensively.

Other news articles which you will be interested to read in this number of "The Digest" are:

LOCAL NEWS
NEW ARRIVAL.
Mr. and Mrs. A. Waters of East St. John are being congratulated on the arrival of a little daughter at their home last night.
TO INSPECT INSTRUCTORS
Dr. W. S. Carter, superintendent of education, is in the city today and will visit the cadet instructors' camp at the armories this afternoon. Dr. Carter will address the camp.
BY-LAW CASE
Fred Ryan was reported for refusing to stop when signalled to do so at the foot of King street on August 2. Police officer Colwell gave evidence in the police court this morning touching the charge. The case was postponed.

GOING TO NEW YORK.
J. M. Woodman, general superintendent of the C. P. R., New Brunswick district, will leave tomorrow for New York, going as far as Montreal in his private car New Brunswick. He is accompanying his daughter, who will sail from that city next Wednesday for South America to join her husband.
LEFT FOR THE WEST.
Mrs. Wm. MacFarlane and little son, Wesley, left last evening for the Canadian west, where they will join Mr. MacFarlane who went a few months ago and has taken up a homestead position there. Their many friends wish them the best of luck and prosperity in their future home. Miss Miss MacKinnon, who will also take up a position in the west, accompanied Mrs. MacFarlane.

N. B. HYDRO WORK.
The members of the New Brunswick Water power commission inspected the proposed new site at Musquash yesterday afternoon and expressed themselves as favorably impressed with the opportunities afforded for the development of water power there. This morning they left for Fredericton intending to proceed from there to Shogomoc to inspect the proposed site on that river. C. O. Foss, said that a party of hydro engineers had nearly completed preliminary field work on the Musquash and would soon have sufficient information available to determine what would have to be done in the way of development in that area.

POLICE COURT.
In the police court this morning Robert Hamilton was charged with being drunk and also with having liquor in his possession. He pleaded guilty to being drunk, but not guilty to having liquor in his possession. Police Constable Smith accused was sitting in Haymarket Square and when he got up off the seat a bottle of gin fell out of his pocket. He was fined \$8 or two months in jail for being drunk, and the magistrate said he was liable to \$200 or six months for having liquor in his possession. He was remanded to jail.
One man, charged with drunkenness, pleaded guilty, and said he got it from a boy. He was remanded to jail.

MRS. ROBERT KNOX DEAD.
Many will regret to hear of the death of Mrs. Robert Knox which occurred at the home of her daughter, Mrs. Charles E. Hann, 81 Watson street, West St. John, last night. Mrs. Charles E. Hann of Lorneville and was in her fifty-eighth year. Besides her husband she leaves her father, Samuel E. Galbraith of Lorneville. Five sons and three daughters also survive. The sons are William and Hollis of West St. John and Edwin, James and Herbert of Lorneville. The daughters are Mrs. John A. Lunt of Everett, Mass., Mrs. Charles E. Hann of West St. John, and Mrs. Nellie Cunningham of Lorneville. Three sisters, Mrs. James McAfee and Mrs. James McAllister of Lorneville and Mrs. William Murray of New River, also survive. The funeral will be held tomorrow afternoon from the residence of her daughter; interment will take place in Lorneville.

Man, Woman and Child May Benefit Here at Magee's Next Week
Monday opens a new opportunity for the family to benefit by Magee's clearance prices and here in thumbnail form are three features.
For the Man
All straws regardless of former price at \$1.45. This means much more than a casual reading would indicate because some hats sold as high as \$8—and none below \$3.
For the Woman
All Betty Wales dresses at precisely one half the initial sales figure. Hardly more need be said—than that they're Betty Wales!
For the Child
All kiddies' straw hats are placed on the bargain table to move at \$1.00. This is indeed an opportunity the alert mother will appreciate.
D. Magee's Sons—Limited—Saint John, N.B.

WARRANTS OUT FOR TWO INDIANS
Charges of Assault Against Both — Preparing to Elect Indian Chief at Oromocto Reserve.
(Special to The Times.)
Fredericton, July 7.—A warrant is out for an Oromocto Indian named Simon Saccie, who is wanted to answer the serious charge of criminal assault upon a child six years old, daughter of Andrews Saccie also of the Oromocto reserve. In spite of the similarity in names, none but the most distant relationship exists between the two Indians.
The alleged crime was committed near Oromocto about two months ago but the authorities kept it quiet in the hope that the Indians would be arrested. John Paul, of the St. Marys reserve, Devon also is wanted by the police. The offence charged against him is assaulting a police officer in the case, Town Marshall Hayes of Devon.
The Indians of the Oromocto reserve will elect a chief on Tuesday next. Indian Agent B. J. Griffith of Fredericton will conduct the election, action on instructions from Ottawa.
This is a new departure, as heretofore the Oromocto reserve and the St. Marys reserve in Devon have been one as far as chief is concerned. The chief of both usually being a St. Marys Indian. Recently the Oromocto Indians have raised objection to this arrangement and have asked for their own chief. Upon the situation being placed before the Indian department at Ottawa, instructions were issued to the agent to hold an election.
There appears to be as many tricks to an Indian election as to any other. Already the question of qualification has been raised. Indians residing at Gagetown are classed as belonging to the Oromocto band. Efforts, however, are being made to have the franchise extended beyond the confines of Gagetown and are being resisted by the agents.
It is very unusual to hold an election for chief at this time of the year, and the Oromocto reserve is receiving an added distinction. The form of election is similar. The agent will call for nominations and after they are made he will prepare the ballots and the "braves" will vote in the usual way.

N. B. APPLE CROP WILL BE SHORT
Yield This Year Estimated at 60 Per Cent. of Last Season — Dry Weather Caused Heavy "Drop" — The Strawberries.
(Special to The Times.)
Fredericton, N. B., Aug. 7.—New Brunswick is not going to experience two big apple crops in succession. That was not expected last season when a first rate crop of almost all varieties was obtained; as two remarkably good years seldom follow one another, but the crop is now far enough advanced for a rough estimate to be made. A crop sixty per cent. of that of last year is what is expected. At the first of the season it promised much better, but the protracted period of dry weather in the late spring and early summer caused an abnormally heavy "drop." Young fruit fell to the ground in large quantities. In 1919 the export of apples from the St. John valley reached proportions which had not been reached before. Montreal taking the bulk of the fruit at prices superior to those obtained by any other market. It is anticipated that Montreal again will take a large proportion this year. Prices are expected to be firm. Of the different varieties, Alexander and Famous will show the greatest reduction. Every apple will not show the reduction to the same degree as the later ones. Duchess and similar varieties form the bulk of the early apples.
Strawberry Crop
The strawberry crop in New Brunswick is assuming greater importance each season. Much of this is exported. Montreal taking a large share. It is not believed that as many strawberries were exported this season as last. The Fredericton section did not send as many, but the Sackville section kept up its average. The later section made an innovation in the matter of direct refrigerator cars which proved a great improvement over the former method. Provincial prices for strawberries kept up, and that tended to reduce the quantity export.

JAMES RYAN LANDS A NICE ONE
Three and a Half Pounder Taken Yesterday at Loch Lomond.
Loch Lomond gave up one of its best prizes for anglers on Friday morning and it fell to the good fortune and skill of James Ryan to be the winner. Mr. Ryan is spending the summer as a customary, with his family, at Johnston's Hotel, and finds his greatest pleasure in fishing the trout from their home. Some excellent trophies have been the result in other years and that of Friday equals any, for he caught a very fine red trout, weighing 3 1/2 pounds. It was taken in the lake and required skillful handling to get into the boat without a landing net.
At the hotel the fish excited much admiration as Mr. Ryan was warmly congratulated. He sent the trout in to Rev. W. M. Duke, pastor of the Cathedral parish, to grace the table at the Bishop's Palace.
Good Use for Movies.
Paris, July 25.—Motion pictures showing modern methods on the farm and other useful information are to be produced by the ministry of agriculture. Money prizes and medals have been offered by the government for acceptable scenarios.

THE BUSINESS COLUMN

Edited by MANSFIELD F. HOUSE

Where Are the Five Best Retail Centers in the U.S.?

That the chain stores come into a town, seize the most desirable locations and ultimately injure those locations for all business, was the opinion expressed by real estate men in national convention in Kansas City.

The influence of the chain stores, it was claimed, was mainly to enormously increase the rental of properties in the larger cities. W. H. Dyer, a Cincinnati real estate man, said that real estate men, despite commissions they might earn, were concerned to find chain stores, after taking the best locations, worked injury to those locations.

He said that chain stores demanded a 100 per cent location and had the capital to bid up the rental to any point necessary to win the location. He suggested these new stores should be required to purchase rather than lease valuable properties, on the theory that they exploited any given corner for immediate and temporary gain.

The chain stores were defended by a real estate man in a small town, who declared they brought pep into a community of sleepy merchants.

The realtors were much interested in an address by C. C. Nichols, New York city, on chain store stores.

There are now fifty non-competitive lines of chain stores in the United States, Nichols said. "More than 400 companies are operating chains of more than ten stores each. One of the most profitable features in the real estate business is the leasing of business property of chain stores."

Nichols said the shady side of streets had proved best for stores catering to women, and that, on the whole, the women's store locations were worth from 10 to 20 per cent more than similar locations for men's stores.

Asked to name the five best retail centers in America outside of New York city, Mr. Nichols gave in order the southwest corner of Madison and States streets, Chicago, occupied by a drug store; Peach Tree and Edgewood streets, Atlanta, Ga.; Chapel and Church streets, New Haven, Conn.; High and Broad streets, Columbus, O.; and Twelfth and Walnut streets, Kansas City, Mo.

Posts Make Good Auxiliary Centers.

A use has at last been found for the somewhat ungraceful and often disagreeing posts or columns supporting the ceilings in retail stores.

A fixture that can be utilized for the display of merchandise of various forms has been devised in the Wing, Minn.—a metal strap clamped around the post or column. Radiating from the post is a number of braces which support a large circular band, on which are many books. On this rack are hanging lanterns, cigar cases and other articles of similar proportions. The band is held sufficiently far away by the braces to permit lanterns.

Marott Knows the "Weight" to Hold His Customers.

Getting weighed is always interesting, but George J. Marott, an Indianapolis shoe dealer, has an added attraction in connection with his scales.

Marott has scales in his store and invites every one to step on it. This gets a good many people into the store. But, of course, the big idea is to get them to come back and eventually buy a pair of shoes.

So Marott has a pack of weight cards in a pocket on the scale. Each card has space for three different weighings. When the customer steps on the scale the first time his weight is recorded on the card. Naturally, if he wants to know if he is gaining or losing, he will come back to the store for the second and third weighings, as all cards are retained at Marott's.

This store now has a regular list of "weight customers" who fill in the cards at stated intervals and have long formed the habit of dropping in. Needless to say Marott regards it as a good habit.

Jammed Auto Made a Good Advertisement.

"We know people are hurrying to buy our merchandise, but don't crowd. Come around to the back door if you want to get in."

This was the sign placed by J. J. Woodcock on his dry goods store in Greenfield, Mass., when an auto, which had become unmanageable, wedged itself into the front door of the store and for some time declined to be moved out of that position. A large crowd gathered and Woodcock took advantage of the opportunity to invite people into the store.

A Drought That Makes \$2,000 a Year With Books.

Some people say it's because the war developed the habit of reading.

Others maintain that the increasing price of amusements, the addition of the war tax and the general rise in the cost of living are responsible.

But, be that as it may, the fact remains that more people are buying books at the present time than ever before, and a considerable percentage of them are purchasing their fiction in the drug stores.

At least that's the experience of an enterprising pharmacist in the Flatbush section of Brooklyn who, after turning down the suggestion several times, finally permitted the salesman for one of the big publishers of popular-priced novels to place a display in the centre aisle of his store. In fact, the salesman had to hustle around the corner and purchase a second-hand kitchen table before the proprietor would let him put the books in place.

Now he wouldn't allow them to be taken away for almost any consideration.

One month and eleven days after the druggist had received his initial order of \$188 worth of copyrighted fiction he could have purchased a couple of dozen kitchen tables of his own with the profits of the venture. In the forty-one days he had bought \$315 worth of books, had made sales amounting to \$490 and had \$116 worth still on hand, giving him a profit of \$232.50 in a month and a third, or an annual profit of more than \$2,000 from the stock piled on top of that second-hand kitchen table!

But before the end of the forty-one-day period the druggist had come to the conclusion that a single table wasn't sufficient. He knew that the books ought to be segregated according to topics. So he fixed up three tables.

One of these was devoted to stories of the "hammock type"—love stories and the lighter sort of current reading. The second was piled high with detective and mystery stories—the summer "best sellers"—while the third was given over to children's books.

"It got so that after a few days I could make a pretty good guess as to what table each customer would patronize," says the book-selling pharmacist.

But the mystery books were the first for the table containing the books by McCutcheon, Harold MacGrath, Ethel Dell, Kathleen Norris, Elizabeth Gray and the like. They went something with a dash of sentiment. They don't make a pretty good guess as to what table each customer would patronize," says the book-selling pharmacist.

But the mystery books were the first for the table containing the books by McCutcheon, Harold MacGrath, Ethel Dell, Kathleen Norris, Elizabeth Gray and the like. HANS AND FRITZ ENTERTAIN MANY

"The Katzenjammer Kids" Score Two Successes Yesterday — A Bright Humorous Show — Some Clever Dancing.

Two large audiences witnessed George M. Cuff's presentation of the "Katzenjammer Kids" in the Imperial Theatre yesterday and judging from the frequent bursts of applause and hearty laughter they enjoyed the antics of the characters so familiar on the funny pages of weekly newspapers. The musical comedy was well staged and the principals essayed their parts in a creditable manner. The ballet dances were graceful and the scenic effects very striking. Some of the scenes were exceptionally good, especially the one introduced in "London Town," in which an empty log was twisted with crepe and the mourners led off the stage to the tune of a daisy.

The plot narrates the experiences of the Captain, whose lamentations were "I hate to lose you, I'm so used to you now," and other members of the cast.

Another amusing scene was when the Captain was narrating his experiences in the jungle and telling his audience of his daring exploits when suddenly his captives were taken to contact with the mane of a lion—not a real one—but formed by his two tormentors, Hans and Fritz. His facial expressions were good and his sudden cessation of boasting coupled with his hasty exit evoked prolonged laughter.

There were a number of other laughable scenes, which were well portrayed. The plot narrates the experiences of the Captain, whose lamentations were "I hate to lose you, I'm so used to you now," and other members of the cast.

BETTER TRAINING IN CITIZENSHIP

Aims of National Council of Education Are Detailed — Idea Is to Secure Interchange of Ideas Throughout the Empire.

The following statement has been handed out by the National Council of Education.

The National Council of Education, organized as a result of the conference on education in relation to citizenship which was held in Winnipeg last year, has briefly three principal duties. First, the setting up of a national bureau of education, a non-government institution, which, it is hoped, may in course of time at least partly supply needs of a federal bureau; secondly, the carrying out of a survey of school texts; and thirdly, the consideration of matters affecting the status of the teaching profession.

Under the British North America Act the provinces are autonomous in respect to the administration of education is concerned, and fears have been expressed that in the creation of a federal bureau there would be danger of infringement of provincial rights. The national bureau, however, organized purely as an advisory and co-ordinating factor and general clearing house of educational data, has received the endorsement of representatives of the Winnipeg conference dealing with the subject into effect.

The bureau will embody features of the department of special enquiries and reports of the English board of education at Washington. On matters affecting education the various states in Canada are of an equally similar place to our own province, although there the federal bureau is no wise being founded to be a source of danger to inter-state rights.

There seems no reason therefore why similar, though voluntary, institution in Canada should not be feasible. Canada's present system of education is not intended to be a national system under central control, but a national system of education which shall be fully expressive of Canadian life and ideals.

SENSATIONAL FACTS
Condemning the So-Called
One-Man Car

N. B. Power Co. and N. B. Telephone Co. Twin Sisters

Extensive advertising having been resorted to by the N. B. Power Company in order to misrepresent the real facts concerning the so-called one man car it is about time that a stop was put to this camouflaging. The public is asked to lift the curtain and from an unprejudiced standpoint see what is transpiring in this city. If they fail to do so they will eventually discover that in addition to being throttled by the N. B. Telephone Company they are being choked to death by the N. B. Power Company. Have citizens not noticed that in the issue of this paper of the second instant one side of a page was split fifty-fifty in advertising between these twin sister corporations?

of the present depreciation; the depreciation fund should really be about \$700,000 at the present time. On the present basis of setting aside depreciation, the street railway will have a deficit this year of \$43,533.72 and if depreciation is set aside this year on the basis of 1914, an additional \$88,688 will have to be added to the 1920 deficit bringing the total to more than \$80,000. Another item that the superintendent mentioned in his telegram was in reply to a previous statement of the mayor that track construction under the former superintendent had been improperly done. Concrete track work that has failed, said the superintendent, in his telegram, was put in by contractors and supervised by inspectors appointed by the city not by me as well as curbs and gutters. Commenting upon this, Mayor Marshall said that the superintendent provided the specifications under which the track was built and that he had not followed standard street railway construction methods in spacing ties about two and two and a half feet apart from center to center, but had them placed four to five feet apart allowing too much spring to the rails and consequently damaging the concrete bed; also that he had laid down in the specifications an insufficient depth of concrete.

NECESSITY OF RIPPING OUT ALL THIS PAVING BETWEEN THE TRACKS AND ON EACH SIDE FOR A FOOT OR SO IN ORDER TO INSTALL THICKER CONCRETE AND HEAVIER RAILS. In view of the several dangerous railway crossings that St. John has such as Mill street, Douglas avenue, Haymarket Square, Fairbairn crossing, Rodney street, where the company has ordered the conductors to run the tracks and signal to the motorman, here is an instance published of how it is worked with the one-man car. "Sunday, March 14, in South Bend street, a one-man car was stopped while the motorman-conductor ran ahead to signal himself across a railroad. The car was well filled with passengers. During the absence of

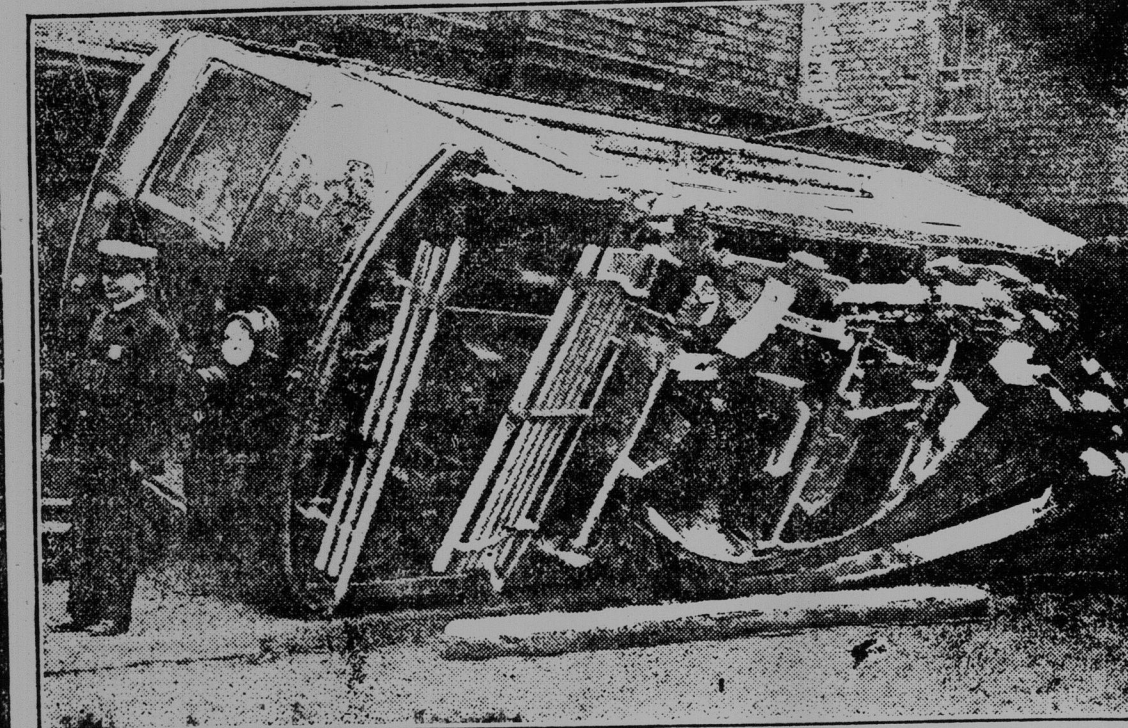

Caused \$22,408 damage at Calgary where three killed and dozen injured.

man cars that are seen in Calgary. Following up all references to Calgary conditions read the Calgary Press of March 11 wherein it is set forth: "22,408 damage claims will be paid by the city, etc." At the time of the accident to Edwards he was traveling in a Belt Line car on the Ogden Line, that car having been diverted there on account of the accident in the morning. He was the only passenger in the car at the time and was coming from Ogden. The car met two others going to Ogden and it was necessary for the motorman to back up and let them pass. The motorman asked him to go to the back vestibule to hold the trolley. Edwards suffered severely with the result that one leg had to be amputated below the knee and the other leg had three compound fractures, etc." Note what would happen in St. John particularly in the winter season when cars have to be backed up to get a start on the icy rails. In regard to the condition of the Calgary road, here is what was published: "Street railway equipment is just worn out. This condition cause of accident on North Hill, R. A. Brown says. Blame not attached to the motorman. "Worn out equipment was responsible for the accident on the North Hill last Wednesday. No. 4 jumped the rails on the slight curve at Twelfth Avenue and Fourth street, south end, etc." In addition to the above here is reported what the mayor of Calgary is reported as saying: "The long distance controversy raging by telegram between Mayor R. C. Marshall and the former superintendent of Calgary Municipal Railway, had a new chapter added Saturday, etc. The mayor explained the contention as follows: The \$300,000 borrowed from the depreciation fund of the street railway is not nearly adequate to take care

of the present depreciation; the depreciation fund should really be about \$700,000 at the present time. On the present basis of setting aside depreciation, the street railway will have a deficit this year of \$43,533.72 and if depreciation is set aside this year on the basis of 1914, an additional \$88,688 will have to be added to the 1920 deficit bringing the total to more than \$80,000. Another item that the superintendent mentioned in his telegram was in reply to a previous statement of the mayor that track construction under the former superintendent had been improperly done. Concrete track work that has failed, said the superintendent, in his telegram, was put in by contractors and supervised by inspectors appointed by the city not by me as well as curbs and gutters. Commenting upon this, Mayor Marshall said that the superintendent provided the specifications under which the track was built and that he had not followed standard street railway construction methods in spacing ties about two and two and a half feet apart from center to center, but had them placed four to five feet apart allowing too much spring to the rails and consequently damaging the concrete bed; also that he had laid down in the specifications an insufficient depth of concrete.

Another published in Springfield, March 22: "A one-man safety trolley car with forty passengers got out of control on a steep grade in State street today and coasted a quarter mile or more before being stopped with a hand brake. Several women fainted and two men jumped off after wrenching open the hand brake. The car was equipped with devices supposed to prevent such an occurrence. In Saint John today under the

Six injured in the Halifax accident. Birney Safety Car ran across street, cut two telephone poles off and rolled over on side at store window, passengers breaking way out.

application to increase rates would be made January 1921 in any event. In Calgary rates were increased after this make-shift was put in operation. Alderman White said: "There is no objection to the ten cent fare, and asking the transients to contribute that much is not outrageous. The result will be that the people will buy tickets and THIS WILL SAVE CONSIDERABLE TIME." (This one-man affair is a slow boss.) And Edmonton had all kinds of trouble, too. Here is how that city was put "on the map": "The system some of the investigators are inclined to attribute the improper construction of concrete sub-base under the street railway lines, which is alleged to be responsible for the rapidly collapsing condition of some of the lines. In any event it is alleged that a three inch concrete sub-base was laid whereas an EIGHT INCH BASE SHOULD HAVE BEEN PROVIDED. THE SIGNIFICANCE OF ALL THIS IS THAT THE STREET RAILWAY IS NOW FACED WITH THE

two-man car there are two brakes, and if one fails the other is ready. On the regular one-man car, operate the men do not refuse to operate, there is the "dead-man" control, but on the McCauley Special, there is nothing but one hand brake in case of accident. One more case will be sufficient to show how it has been rejected, but only after serious damage done. Under the press heading, "One Man Operation Will Be Abandoned," the following appears, dated November 28, Saginaw (Mich.): "Seven persons were injured, three seriously, on Friday noon, when a Michigan Central switch engine and West Gession street car collided near M. C. station. The street car was dragged fifty feet along the railroad track. Its steel construction is believed to have saved the car from being crushed, and all its occupants killed. The car door's mechanism was jammed. The injured passengers were taken out through the windows. Two man cars will be returned to service in Saginaw at once, the city giving such

orders to the traction company. The accident today, when a one-man street car ran into a locomotive, brought the situation to a climax, and the order to restore two-man service followed." (Detroit Free Press, November 29.) An accident which occurred here on June 2, 1920, shows just why two brakes and two men to operate them are required in St. John. Shortly after six o'clock that evening a car going down Mill street, filled beyond seating capacity, struck a team and were it not for the motorman signaling the conductor, to apply the brakes in the rear of the car, a serious accident would have resulted, as the gates at the crossing were down on account of a train crossing Mill street. The motorman's brakes had refused to work. What would have happened if the McCauley Special, with the passengers locked in were in the same position. Now motormen and conductors place some value on their own lives. They know the danger and they feel that the majority of the public do not stop to study the situation. The citizens depend upon the city fathers and the safety department.

The public is invited to view the work at the corner of Charlotte and the North side of King Square, and they will find being installed, old cast-off rails and a frog which has been in the junk heap for years. The actual cost of transforming the old cars into Black Maria costs in each case at least \$433.94, which if questioned will be published in finished form. The Power Company heads its readers, "Demonstration means—To prove beyond doubt." Has it not been "demonstrated" to the public that it is not safe to ride in a "Black Maria"? (Signed) F. A. CAMPBELL. (Advertisement.)

PETER FARREN IS RECORD BREAKER IN CHATHAM RACE

Chatham, Aug. 6.—Another record fell to Chatham's track this afternoon when Fern Hal forced Peter Farren to do the second heat of the free-for-all in 2:08 1/2. Coming into the home stretch in this heat, Fern Hal drew up alongside of Peter Farren and was only beaten by a

nose. In the first heat of this event John A. Hal led all the way and coming into the stretch Brickley came up on the inside. When almost under the wire John A. broke and finished third. The final heat of this event went to Peter Farren in 2:08 flat, the fastest third heat paced in Canada on a half mile track. In this heat Fern Hal broke at the third quarter and made it easy going from that to the wire. From the time taken at the third quarter of this heat it looked as if the heat would have been done in 2:07 and there were many who believed that Fern Hal would have been the winner. She ran a game race and this was the first race on this track that she has been seen to break in. The 2:26 pace went to Pack the Clipper, Caribou (Me.), in three straight heats with Jennie Hal in second position. Signature was drawn in the third heat Lincoln and Morris Tipton were distanced in the second heat. The 2:18 trot and pace was the best race of the day, it taking five heats to

decide the winner. In the first four heats all the horses were well bunched at the finish. Brage took the first, Bill Be Sure the second and third. In the fourth Bill Be Sure broke coming up the stretch and finished third, giving Brage first place and Tommy Cotter second. In the fifth Brage and Bill Be Sure were the only starters. Brage led all the way until the third quarter pole and went off his feet. Bill Be Sure finishing first in 2:15. With the closing of the mid-summer meet here, the Chatham track has made four new martime and dominion records. In yesterday's events The Exposer set the new record for trotters, 2:09, a record for all Canada over half mile tracks. He also did the other two heats in 2:10 and 2:11, the three fastest heats ever trotted on a half mile track in Canada, and today Peter Farren's new dominion record is 2:08 1/2, and his time for the third heat, 2:08, the fastest third heat ever paced on a half mile track in Canada. Three thousand persons were present.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question. No-To-Bac is made by the owners of Cascares; therefore is thoroughly reliable.

The Nationals, Ritchie hit to Donaldson, Donaldson making a great catch of the hit, tried to hold Peters on third. Donaldson going to first made an over-throw, scoring Peters and putting Ritchie on third. With two men down Simonds made a hot liner to shortstop, scoring Ritchie and reaching second on the error. In the same inning Ritchie figured in a double play to Lahead. In the sixth inning with the score seven to six the Nationals filled the bases and it looked as if the S. P. A. boys were defeated, but Ritchie made another double play, Ritchie to Peters, and in the same inning Corey of the S. P. A. made a great running catch, ending the game with a score of seven to six in favor of the S. P. A.

The batteries: For the winners, Ritchie, Lahead and Peters, and for the losers, Besharan, Kelly, Lenihan and Donaldson.

HAY FEVER and ASTHMA

Conquered by the World's Only Two-bottle Remedy. Don't suffer a minute longer. Send to-day \$1-32-day treatment. Trial size 25c, and guaranteed. W. K. BUCKLEY, Mfg. Chemist, 97 Dundas Street, E., Toronto.

RUB AWAY THE PAIN
with ABSORBINE JR. The pain may come from muscle—from rheumatism—from sprains—burns—cuts—bruises—stomachache—headache—neuritis. Whatever the cause, Rub Away the Pain will relieve it.

Absorbine Jr.
THE ANTISEPTIC OINTMENT

will heal and soothe. It penetrates the most delicate skin, is harmless to the most sensitive tissues, and is a vegetable germicide that destroys germs, is non-toxic, most soothing, and does not stain.

\$1.25 a bottle—at most druggists or sent postpaid by W. F. Young, Inc., Lyman Bldg., Montreal.

VITRO
NO TROUBLE
TANKS

There is no reason why you should forego the pleasure of an attractive, well-fitted bathroom.

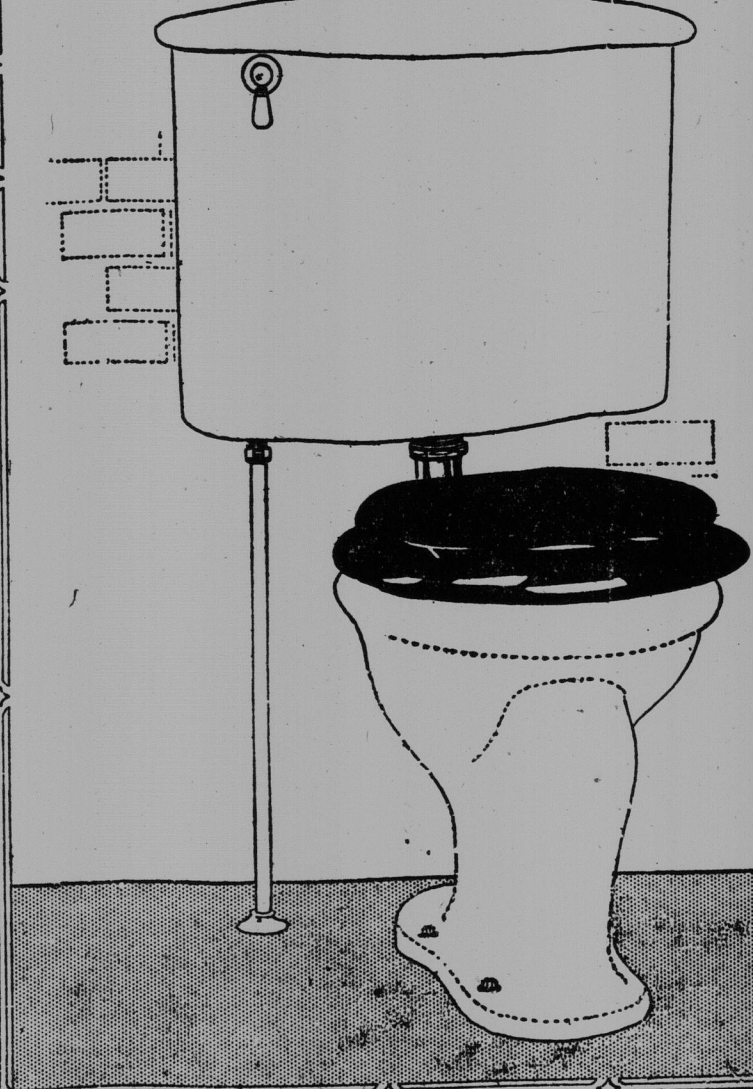

The Vitro "No-Trouble" tank, handsome and distinctive, can be installed in your home at low cost. The Vitro is a permanent fixture—will NEVER leak or crack—never needs replacing. Handsome in line, the Vitro is molded from a special non-porous composition that cannot rust or corrode.

The beautiful lustre of the Vitro Tank is a lasting one. Sparkling, snowy white and rich, fine-grained oak are the two popular finishes in which Vitro Tanks can be obtained.

Vitro "No-Trouble" fittings are the best used in any tank. Investigate the Vitro to-day and rid yourself forever of the trouble and annoyance of the old-fashioned tank. Your plumber will gladly install a Vitro in your home.

We will be pleased to send you an illustrated descriptive folder.

SITUATIONS WANTED. SEWING WANTED BY DAY OR AT home. Phone 4507-41, evenings. 8898-8-11

near the surface a spring salmon, estimated to weigh about twenty pounds, leaped clear of the swift moving current. Quick as a flash the eagle dove his sharp talons into the fish's back. There was a great splash as the fish dived, taking the eagle beneath the surface. All hands rushed to the rail to watch the struggle. Three times, they said, the fish and the bird disappeared in the water while the Roosevelt steered a course close behind them.

Finally the eagle loosened its hold on the salmon and hopped over on the surface of the water completely exhausted. It had put up a game fight, but had lost its prey. The crew of the Roosevelt pulled the bird aboard with a bait hook. While the battle between the bird and the fish was in progress two other eagles, the Roosevelt's main aid, flew around the vicinity screaming loudly. Capt. Garney Pedersen presented the captured eagle to one of the public parks.

MARINE NOTES

The three-masted schooner E. M. Roberts went up the river yesterday to Inlandtown, where she will load lumber for Stetson, Cutler & Company, for New York. R. C. Elkin is the local agent.

The schooner Francis J. Elkin, which discharged a cargo of hard coal here at the Dominion Coal Company pier, will sail today for Parrboro where she will load a cargo of lumber for the United Kingdom. R. C. Elkin is the local agent.

From New Zealand to Alberta. Edmonton, Alta., Aug. 6 - W. A. Sowman, of Blenheim, New Zealand, is a recent arrival in Edmonton from the other side of the world. He will spend the coming fall and winter in Alberta, and will take up live stock farming on a large scale as soon as he has had a good look around.

Mr. Sowman is an experienced sheep raiser and poultry fancier, and for several years has been one of the most successful prize winners in both classes at the New Zealand fairs. It is his intention to import some standard breeding stock from the Dominion, and to try out in Alberta some of the sheep raising methods that have made New Zealand a land of wool and mutton.

A Savings Account for Your Child

The habit of saving develops a child's character, strengthens his will power and provides him with the determination to succeed. Teach your child to save regularly instead of spending thoughtlessly. Open a savings account for him to-day where his money will grow. By the time he reaches maturity he will be equipped with the capital as well as the will power to win his own way in the world.

LARGEST CO-OPERATIVE ORGANIZATION IN WORLD

Lincoln, Neb., Aug. 7. (By Associated Press) - What is said to be the largest co-operative organization of farmers in the United States has just been formed here. It will market the grain of 400,000 members of the Nebraska Farmers' Union and eliminate middlemen and brokers.

WATERWAYS WILL REDUCE LIVING COSTS, SAYS WINNIPEG MAYOR

Winnipeg, Aug. 7. - Cost of food, fuel, building material and other necessities in the prairie provinces could be greatly reduced, if the waterways of the west were developed, according to Mayor Charles R. Gray. "By developing the Hudson's Bay route through Lake Winnipeg and the Nelson River to the open waters of the bay, also by developing the Saskatchewan river, an untapped waterway would be opened up to western Canada."

KANGAROO COLONY IN B. C.

Vancouver, B. C., Aug. 6. - Another little advertised but highly successful Vancouver industry is located in Stanley Park in the shape of the kangaroo colony. So successful have the park authorities been in raising these animals that they are now being used for exchange medium to augment the park zoo. Some time ago kangaroos were sent to Spokane, and that city reciprocated by sending a female ostrich, which is now sitting on ten eggs.

HINDU BURIALS

Vancouver, B. C., Aug. 6. - Following recent action of the city council in notifying the local Hindu colony that no further open air cremation of bodies would be allowed in the plot hitherto reserved for that purpose in the Mount Vancouver cemetery, a petition has been presented to the civic health committee by the Khalsa Diwan Society against such action.

RECOVERS HER BEAUTY

But Parisienne Must Now Neither Laugh Nor Cry. Paris, Aug. 6. - Within the last few days a Parisian woman, forty-nine years old, has recovered the beauty she had when she was twenty-five. All signs of age have disappeared, no wrinkles mar her face, her complexion is as fresh as in the heyday of her youth, and the contour of her features as round as twenty years ago.

INTERFERE WITH HINDU FUNERAL RITES, FOR THEIR RELIGION REQUIRES OPEN AIR CEREMONIES. THEY OBJECTED TO USING THE CEMETERY AS THE ALDermen SUGGESTED.

The fight against cancer will be materially helped by the purchase of radium by New York State. The free treatment of cancer sufferers will begin about the middle of October. The 2 1/2 grams of this precious mineral are reckoned as sufficient to treat 2,000,000 cases of this dread disease. The State Institution for the Study of Malignant Diseases, under the direction of Dr. Gaylord, will receive and treat any American citizen, though New York State. Appliances necessary for treatment are now being constructed and the technical administration of the cure will be in the hands of an expert.

is available for extension of Canadian trade abroad. In addition it maintains a Foreign Department specially equipped to handle all foreign exchange transactions.

THE CANADIAN BANK OF COMMERCE

PAID-UP CAPITAL \$15,000,000 RESERVE FUND \$15,000,000

RECOVERS HER BEAUTY

But Parisienne Must Now Neither Laugh Nor Cry.

Paris, Aug. 6. - Within the last few days a Parisian woman, forty-nine years old, has recovered the beauty she had when she was twenty-five.

All signs of age have disappeared, no wrinkles mar her face, her complexion is as fresh as in the heyday of her youth, and the contour of her features as round as twenty years ago.

The only disadvantage is that she must suppress her sense of humor and emotions and refrain as far as possible from smiles, frowns and crying.

The operation was simple enough, it appears, and hurt only a very little. It amounts to this, that small incisions are made behind the ears and on the scalp, the skin stretched much in the same way as one stretches a carpet.

"It didn't hurt at all," the patient said, "and I told the doctor while he was doing it to pull harder."

The only sign of the operation appears in the skin behind the ears, hidden by the hair. The cure is expected to last eight or ten years, and the patient may expect to have her luxury of laughter. But by then she will be nearly fifty-nine.

WATERWAYS WILL REDUCE LIVING COSTS, SAYS WINNIPEG MAYOR

Winnipeg, Aug. 7. - Cost of food, fuel, building material and other necessities in the prairie provinces could be greatly reduced, if the waterways of the west were developed, according to Mayor Charles R. Gray.

By developing the Hudson's Bay route through Lake Winnipeg and the Nelson River to the open waters of the bay, also by developing the Saskatchewan river, an untapped waterway would be opened up to western Canada.

The time has come," the mayor declared, "for the formation of a western waterways commission essentially for the development of waterways in western Canada," he concluded.

KANGAROO COLONY IN B. C.

Vancouver, B. C., Aug. 6. - Another little advertised but highly successful Vancouver industry is located in Stanley Park in the shape of the kangaroo colony.

So successful have the park authorities been in raising these animals that they are now being used for exchange medium to augment the park zoo.

Some time ago kangaroos were sent to Spokane, and that city reciprocated by sending a female ostrich, which is now sitting on ten eggs.

Word has been received that Mr. and Mrs. Kangaroo and their small son, sent to Toronto from here, arrived safely at the Riverside zoo. It is understood that the Toronto zoo is raising the park pelicans for the Stanley Park collection.

HINDU BURIALS

Vancouver, B. C., Aug. 6. - Following recent action of the city council in notifying the local Hindu colony that no further open air cremation of bodies would be allowed in the plot hitherto reserved for that purpose in the Mount Vancouver cemetery, a petition has been presented to the civic health committee by the Khalsa Diwan Society against such action.

True in the 18th Century Truer in the 20th

"Next to clothes being fine, they should be well made and worn easily." Chesterfield.

So wrote the great arbiter of manly fashion two centuries ago. Chesterfield is still an authority on what a gentleman should wear and how he should wear it.

So your trust of a concern entrusted with the task of making your clothes must lay with one that buys good materials, builds them with scrupulous care along lines conforming with YOU, and then interests itself in their appearance until the far off day when they are cast aside.

May we modestly suggest Gilmour's? Clothing - Custom and Ready Tailored. Mid-season Sale of "Odds" in the Ready Department.

POOR DOCUMENT

M C 2 0 3 5

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, AUGUST 7, 1920

SUNSET'S YOUR CLUB IF YOU'RE PAST 60

If You're a Young Thing of 59, However, You Can't Be a Bona Fide Member.

Birthday Is Changed — Organization Without Red Tape Is Extending Influence—Will Aid Aged Women of France.

(New York Times.)
If you can count your age up to six decades you can belong to the Universal Sunset Club of America, a bona fide member, for it's the club in the world whose sole test for membership is to be 60-and. If you are a young thing of 59 you can join the juniors, a poor, little immature band with nothing to distinguish it except that it is an ad-

ject to the real Sunsetters, its mixed age limit running from six to sixty.
The Sunset Club at its annual meeting this week changed its birthday from midsummer to midwinter, not because its older members needed the change, but because those spineless young juniors were most always to be found in summer, and the seniors want to give them a good time.
It was easy to change the birthday, because the Sunset Club is the one organization in New York which is absolutely without red tape. It has no initiation fee, no dues, no elections. Mrs. C. A. H. Rugg, who founded it, merely remarked to different members, when she found a few officers essential:
"Now, my dear, you will be the historian and you will be the secretary. We won't need a treasurer for we will not have any money. If there are any expenses incidental to office why?"
"We'll pay them ourselves," said the secretary, and that was done.
The historian of the Sunset is 87 and glories in it and never misses a meeting. The oldest member is 88, and the Sunset is looking forward to having a really fine age list some day, for while its members are gradually growing younger mentally and physically in their joy of the club the actual years continue to pile up.
Woodie's Stay on Staff.
Mrs. Rugg, who started the club, did so because, though her own situation was most agreeable in her Sunset days, she

CLEAR YOUR SKIN

SAVE YOUR HAIR

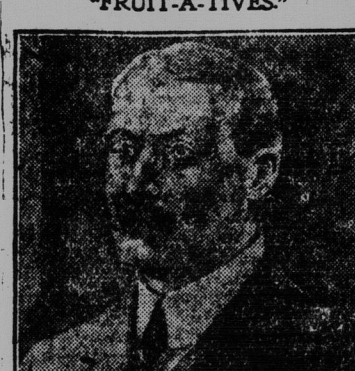

WITH CUTICURA

Daily use of Cuticura Soap, assisted when necessary by Cuticura Ointment, promotes a clear skin, good hair and soft white hands in most cases when all else fails. Always include the exquisitely scented Cuticura Talcum in your toilet preparations.

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GULLDERSON
P. O. Box 123, Parrsboro, N. S.
"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance."
"I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back."
"In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took them right along for about six months and the Rheumatism was all gone and I have never felt it since."
"Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

she lives in the Bronx, New Jersey or Brooklyn.

Many Women Seek to Join.

"We have letter from women all over the country who want to join us," says Mrs. Rugg, "from Chicago, from Kalamazoo, from Salt Lake City, from Alberta, Canada, and one of our sixty-past's wrote us from Nevada, where she has been with her engineer son for the last four years, that she had not had a roof over her head all that time! We're a rugged lot if people only let us live!"
"The latest branch is in Australia, Mrs.

A SICKLY WIFE NO FIT MATE FOR ANY MAN

LOOK WELL TO THEIR HEALTH AND STRENGTH

Never before was physical health and vigor so highly esteemed and so eagerly sought for as today.
No man finds happiness in a sickly wife, and the woman who wishes to enjoy the pleasures of life should spare no effort to maintain perfect health.
Is your daughter growing up strong and rosy? Has she strength to drink so zealously seeks—or is she compelled to use the street car instead of enjoying the delightful exercise of walking—does she after the ball arise refreshed and vigorous, or is she exhausted, indifferent, and perhaps irritable?
When strength and vigor can be so easily maintained by Ferrerozone, when the glow of health is so quickly brought to the cheeks and elasticity to the step, it is plainly a mother's duty to see that Ferrerozone is on hand to assist her daughter back to health.
Upon the wake of Ferrerozone quickly follows a stream of rich, nourishing blood which imparts that power and surplus energy so earnestly desired by those in ill-health.
Stop and think what this means for your daughter—certainly a great deal, and it can be accomplished by Ferrerozone.
Every growing girl and young woman derives enormous benefit in many ways from this nutritive, vitalizing tonic.
It is specially suited for young women, and is a guarantee of health and regularity as long as it is used.
Ferrerozone is free from alcohol and perfectly safe to use. Prepared in the form of a chocolate-coated tablet and sold in 50c. boxes or six for \$2.50, at all dealers, or direct from The Castellanoz Co.,

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

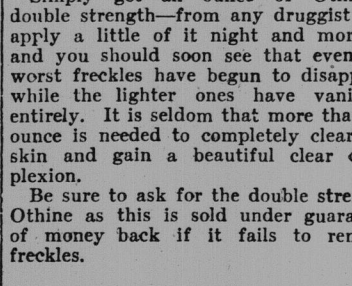

There's no tinger the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.
Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.
Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

Keeps Hair In Curl On Hot or Windy Days

Here's a hair curling secret that is decidedly "worth while." Just apply a little hair using a clean tooth brush for the purpose, drawing this down the hair from the crown to tip. In three hours you will have as beautiful curls and waves as you could wish for. The waviness will look so natural no one will guess it was artificially created. And it will last ever so long, regardless of heat, wind or dampness.
You can obtain liquid silmerine at any drug store and a few ounces will last a long time. It is neither sticky nor greasy and is pleasant to use. It is doubly useful because of also serving as a beneficial dressing, keeping the hair soft, silky and lustrous.

WHOOPIING COUGH

SPASMODIC CROUP ASTHMA COLDS INFLUENZA BRONCHITIS CATARRH

A simple, safe and effective treatment for Whooping Cough, Croup, Asthma, Spasmodic Croup, Influenza, Bronchitis, Catarrh, etc. It is a powerful expectorant and soothes the inflamed mucous membrane of the throat and lungs. It is also a powerful sedative and relieves the coughing and wheezing. It is suitable for children and the elderly. Send for postal order form and descriptive booklet. VAPOR-RESOLINE CO., Lansing, Mich., U.S.A.

VACCINATION OF EMPLOYEES

THE FOLLOWING IS PUBLISHED FOR THE INFORMATION OF THE PUBLIC, GENERALLY, AND ESPECIALLY OF THOSE DIRECTLY CONCERNED.

1. "Section 30 of 'The Public Health Act, 1918,' being 8 George V., Chapter 88, is hereby amended by adding after the last paragraph thereof the following paragraph:

"No person shall be employed in any camp, ship, factory or other place wherein the employees come at frequent intervals into close and prolonged contact one with another, unless and until such person produces to the employer or the employer's representative a certificate, signed by a regularly qualified medical practitioner, of successful vaccination, or a like signed certificate that he is immune to vaccination as proven by three consecutive non-successful vaccinations, or that he is immune to small-pox by reason of having had the disease and no employer shall employ any person in employment as set forth above, without such certificate being produced. When any person contracts small-pox, who is at the time of the inception of his sickness employed as set out in this section, or was so employed within fourteen days prior to the inception of his sickness, and who has not complied or caused to be complied by said employer with the employer's representative, with the foregoing provisions prior to his employment, then in such case the employer shall be primarily liable to pay all such costs, charges and expenses as the sub-district Board of Health concerned may have incurred in necessarily protecting the public health: provided such charges, costs and expenses were incurred in or about the necessary precautions relative to or immediately appertaining to any such case of small-pox, and such costs, charges and expenses may be sued for and recovered with costs, in the name of the Chairman of the sub-district Board incurring the same, in any court of competent jurisdiction, within six months of the recovery or death of any such person. Such liability shall be in addition and without prejudice to any liability for any penalty provided for any violation of the provisions of this Act.
"The terms and conditions of this section shall not become operative until the first day of July, A. D., 1920."

How Women Are Often Cheated Out Of Their Best Years

Physician Explains How Many Women Undermine Their Health and Wreck Their Happiness by Letting the Iron in Their Blood Run Low. Tells How Organic Iron, Like Nuxated Iron, Helps Strengthen the Nerves, Put Roses in the Cheeks and New Vigor and Health in the Veins of Pale, Careworn Women.

Lack of iron robs the blood of its power to make firm and healthy tissue, brain, and muscle out of the food we eat and the oxygen we breathe, and turns a woman with rosy cheeks, sparkling health and boundless energy into one who is pale, run-down, tired and hopeless. Her thin, watery blood, lacking strengthening iron, under-nourishes her body and brain and robs her of her natural energy and cheerfulness. She loses interest in life and cannot enter into the normal healthy pleasures of those about her. She is literally cheating herself out of the best years of her life, when she might in most cases, quickly regain her strength and vitality by feeding her blood with organic iron—Nuxated Iron.

The alarming deficiency of iron in the blood of so many women of today has been explained by a number of doctors as being due to the abnormal hurry and strain of modern life, as well as worry and over-work, and our refined, unnatural diet. These all tend to drain the natural iron from the blood faster than the body can replace it without assistance. Under these conditions we should feed the blood with organic iron, and Dr. James Francis Sullivan, formerly of Bellevue Hospital (Outdoor Dept.), New York, and Westchester County Hospital, explains below why organic iron, like Nuxated Iron, is administered to nervous and run-down women to make them stronger, healthier, and happier.

"Every woman has the right to years of vigor and health. But many a woman cheats herself of her best years by allowing lack of iron in her blood to undermine her health."
"To me the saddest feature of modern life is the number of unhappy, careworn women who might so easily regain happiness and health. Doctors' offices are filled with women who are constantly tired, pale, sickly, uninterested in life. I am convinced that many such women, by simply putting iron in their blood, might readily build up rich red blood, increase physical energy, and set themselves into a condition to ward off the millions of disease germs that are almost continually around us. To put the necessary iron in the blood, I have prescribed Nuxated Iron many, many times, and I have seen frequent instances where it gave renewed strength and energy, increased power of endurance, steady nerves, and the rosy bloom of health in about ten days or two weeks' time. I consider Nuxated Iron one of the foremost most blood and body builders—the best factory results to every purchaser or manufacturer's Note: Nuxated Iron, which is recommended above is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped as follows: 'Nuxated Iron' and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturer guarantees successful and entirely satisfactory results to every purchaser or manufacturer who will refund your money. It is dispensed by all good druggists."

NUXATED IRON For Anaemic, Nervous, Run Down People

There's health in the morning glass of ENO

WHEREVER your work may be, whatever your sports and amusements, Good Health must be yours if success is to crown your efforts. Digestive disorders, lassitude, biliousness, and general "out of sorts" condition, impair the vigour of mind and body and if neglected may develop into serious complaints. Dispel these depressing ailments and keep your system clean and fit by taking first thing every morning a glass of

ENO'S FRUIT SALT

"The Regulator of Health"

BASEBALL.

American League.
Babe Ruth added two more circuit blows to his string in the second game of the Tiger-Yankee series yesterday, bringing his total for the season to forty-one. New York won the game. Ruth's first homer came in the third in the top tier of the bleachers in center field. The second, in the sixth inning, cleared the wall over center field. The second drive scored. Peckinpaugh and Ward ahead of him. New York 11, Detroit 7.

Dick Kerr won his own game yesterday when Chicago defeated Boston in Chicago. Williams, who started for Chicago, did not permit a visitor to reach first base for six innings, but weakened in the seventh and eighth. Boston & Chicago 4.

Philadelphia won from Cleveland in ten innings yesterday, scoring the winning run on a single by Dugan, a sacrifice fly by Shannon and a single by

8 to 5. The batteries were, for the winners Starr and Thompson. The teams wish to extend their thanks for the use of the grounds.

West Side Game.
On the Queen Square diamond, West Side, last evening the Young Carletons defeated the Young Acadias by 9 to 5. Features of the game were home runs by R. Brown and H. Mosher, and a triple by R. Brown. The batteries were: For the Carletons, R. Brown and H. Maxwell; for Acadias, N. Veno, H. Doyle and H. Mosher. The Young Carletons have won every game played.

Western Union Roses Victors.
In an interesting baseball game on the Crown street diamond last evening the Western Union Roses defeated the Duke Street Stars by a score of three to two. The batteries for the winners, Denovan and Hachey; Gorman and Maxwell.

Young Glenwoods Win.
The Young Glenwoods defeated the Brooks Street Lions on the Rockwood diamond last evening, six to three. Batteries for the winners, Singer and Burgess; Lee and Harrison.

Industrial League.
The Stetson, Cutler Beavers proved to be too strong for the T. S. Simms' nine in the Industrial League game last evening at Nashwaak Park, winning by a score of 13 to 8. The game was called in the sixth inning on account of the fog, which made playing difficult and accounted for several errors towards the close of the game. O'Toole and McNulty batted well for the Beavers and C. Pugh played well at second base for the Simms team.
