New Outrages By Mexican Rebels Reported To The U. S. Government

Death of Five Americans, Two Girls and Three Men—Constitutionalists Investigate Killing of British Subject and Disappearance of German-American—American Government Awaiting Result Before Taking Further Steps

(Canadian Press) Washington, March 5.—Dr. J. H. Wittgenstein, naturalized American physician, is here from Mexico. He will today report to United States government three deaths of five Americans, two girls and three men, slain in Mexico.

El Paso, Texas, March 5.—Investigation into the execution by General Villa of William S. Benton, from British subject, and into the disappearance of Gustave Bauch, the German-American, was begun at El Paso today by British and American commissions appointed by General Carranza, chief of the Constitutionalists.

Persons familiar with the inaccessibility of the territory through which General Carranza will be isolated for the next ten days or more during his overland journey to Chihuahua City, do not expect that there will be any report on the subject for another fortnight.

Madrid, March 5.—Iglesias Blanco, an engineer, made a successful experiment yesterday with an ultra-violet ray similar to the P-rays used by Signor Uvini, the Italian inventor. Blanco succeeded in exploding a case of dynamite buried in the ground, at a distance of half a mile.

Dublin, March 5.—The corporation of the city of Dublin yesterday sanctioned the naming of streets, "Carson," "O'Brien's" and "Redmond," after the Ulster Unionist leader and two Irish Nationalist leaders respectively, but refused to allow a street to be called "Bonar Law" because he is a Scots-Canadian.

Toronto, March 5.—Several shallow depressions exist on the continent, with pressure remains highest in the Pacific states. The weather has been for the most part fair and comparatively mild with the exception of a few local snowfalls, chiefly in Eastern Quebec and the Maritime Provinces.

GRAVE CHARGE AGAINST PROMINENT PARRSBORO DOCTOR

Case Arises From Death of Young Woman—Criminal Operation Alleged—Doctor a Former Mayor

Word received in the city today from Parrsboro, N. S., said that excitement was intense in that town over a case of alleged murder in which the death of a young woman, Mrs. Frank Wheaton, aged 21 years, was said to have been caused after a criminal operation by a leading physician of the place. Her funeral was to be held here on Sunday last night.

DOMINION ALLIANCE

Montreal, Que., March 5.—Investigation of the Montreal police force and strict enforcement of the license law will be two of the subjects discussed by the annual convention of the Dominion Alliance in this city next Monday and Tuesday.

MRS. LAURENCE MACLAREN

Within two months of her ninety-first birthday, Mrs. Jane Murray MacLaren, widow of Dr. Laurence MacLaren, passed away last night at her residence, 76 Charlotte street. Mrs. MacLaren had been frail during the last few months, but retained her keen interest in everything till near the end.

EXPRESS COMPANY CANNOT COMPLETE

United States Company Faces Liquidation PARCELS POST THE CAUSE

New York, March 5.—The advance of twelve points in United States Express stock on Friday gave rise to a number of rumors seeking to account for it. In some quarters it was suggested that a well-known tourist agency was endeavoring to secure control of the company to enable it to better handle its Panama Exposition traffic.

ST. JOHN CLERGYMEN IN SCOTT ACT CASE

(Special to Times) Fredericton, N. B., March 5.—The firm were called out at seven o'clock for a case in Professor Styles' apartment in the new building at the corner of the street. The case was of a very serious nature.

THE "BABY MYSTERY" RESULT OF DECEPTION

Winnipeg, Man., March 5.—The "Baby Mystery" turns out to be no mystery at all. Mrs. J. B. Jones who carried off her half-hour old child has admitted no child was born to her and that the story was merely intended to delude her husband who had been told a child was coming.

CHINAMAN ON TRIAL

(Special to Times) Moncton, N. B., March 5.—The preliminary examination of Harry Fong, a Chinaman who is alleged to have entered two little girls into a back room in his laundry in Main street, on Tuesday night was begun in the police court here today.

President Appeals To Congress For Repeal of Panama Canal Tolls

Declares Exemption For American Ships Not Only a Mistaken Economic Policy But in Contravention of Treaty With Great Britain—Shortest Presidential Message on Record—Administration Leaders Promise Prompt Action

(Canadian Press) Washington, D. C., March 5.—President Wilson personally appealed to congress, assembled in joint session today, to sustain the national honor of the United States in upholding treaty obligations by repealing the Panama Canal Tolls Exemption against which Great Britain protests.

ENGLAND LEARNS OF CORRUPTION OF THE BORDEN GOVERNMENT

London, March 5.—Corruption in Canada is the heading of a sensational article in the Manchester Guardian from Toronto, in which the correspondent says that Canada is now being visited by the periodic epidemics of corruption charges.

THE STEAMERS

The steamer Bengore Head is due in Halifax this afternoon from Belfast via Montreal with a cargo of mail. She will load here again for Belfast.

POST MORTEM ON CHILD

The body of an infant was found yesterday afternoon in the rear of Charles Colville's barn on Chapel street. The body was found by William Tickbourn, and after the police and coroner Roberts were notified, the body was removed to Chamberlain's Undertaking rooms.

ANNOUNCE PLAN FOR REDISTRIBUTION IN NOVA SCOTIA

Ottawa, Ont., March 5.—The redistribution map with regard to Nova Scotia was completed today, when the government gave official notice to the opposition of the character of its proposals affecting that province.

SEVERAL CONSTITUENCIES WILL BE MERGED—A RELIGIOUS MATTER IN CAPE BRETON—PLANS FOR N. B. NOT COMPLETE

It is intended to merge the counties of Digby and Yarmouth in the west part of the province, and Antigonish and Guysborough in the east end. Richmond county will be added to Cape Breton, but this will not affect the representation of the island, as the united constituency will return two members, which with Inverness and Cape Breton, North Victoria, will still give Cape Breton Island the four members to which it is entitled on the basis of population.

S. S. ROYAL GEORGE DOCKED THIS MORNING

With the largest passenger list that has been brought to St. John this season, the Royal mail steamer Royal George, of the Royal line, Captain F. J. Thompson, R.N.R., arrived this morning and docked at No. 8 berth about 7.30 o'clock.

GAVE HIM LIQUOR AND TOOK HIS MONEY

Another robbery somewhat in the form of a hold-up, but of a more ordinary sort than some others of recent reports, is said to have taken place last evening in Bond's alley off Paradise row. In this case no gun was used, and very little violence. It was simply a case of two men being intoxicated and the old story of one just touching the bottle to his lips and keeping his eye on the "wad" of the other.

BUILDING STATISTICS FOR FEBRUARY

The figures of James Carleton, building inspector, for the month of February are greatly below the returns for the same month last year, while there is a more vast difference between the figures for the two months of January and February in comparison with the corresponding months of 1913.

SHOONER CREW RESCUED

Philadelphia, March 5.—Captain Anderson of the Norwegian steamer Storstad, bound from Lisbon from this port, reported from Reedy Island last night that he had on board the crew of the schooner Mattie W. Porter, who were picked up yesterday 110 miles southeast of Abasco. Nothing was said of the fate of the schooner, but it is believed she foundered during the recent blizzard.

FOR THROWING SNOWBALLS

Policeman Ross has reported five boys for throwing snowballs at the corner of George and North streets on March 3.

WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

SUFFERED AGONY WITH NEURALGIA

Nothing Helped Her Until She Tried "Fruit-a-lives"

Campbellville, Ont. May 8th, 1913. I cannot speak too highly of "Fruit-a-lives." For over thirty years I have suffered from Chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottle after bottle of medicine without relief. The doctor told me I would not get better but "Fruit-a-lives" proved that the doctor was wrong, by giving me quick relief and finally and completely curing me.

I would not have my present health if it was not for "Fruit-a-lives" and I am glad of the opportunity of giving you this letter about such a splendid remedy as "Fruit-a-lives," for the guidance of other women who may be similarly affected.

"WE ALL STAND" CLUB

"Won't you take my seat," asked the young man, chivalrously. "Thank you, I will stand," was the reply. That was all. That is a sample of dialogue heard on the street cars of Toronto any day now. Somewhere among the Women's Literary Societies of University College, a secret "Independence" organization has been formed, and it is pledged to spread itself among the women of every city in Canada. Prospects are good for the "Independence" League of Women, which has developed from a Trentonian League of Women, which demands some middle course between simply passive support of votes-for-women ideas, and the militancy of the English suffragettes which has not been very effective.

GIRLS! BEAUTIFUL, CHARMING HAIR, NO DANDRUFF—25 CENT DANDERINE

Try This! Doubles Beauty Of Your Hair and Stops It Falling Out. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanser." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

"THE ONE THING THAT DOES ME GOOD"

At 60 Years Of Age, Gin Pills Give Me Perfect Relief

As one begins to get along in life, the vital organs grow less active and need assistance. Men and women of 50, 60 and 70 should read the following letter very carefully. It points the way to a happy, healthy old age and long life. G. WOODFORD, Consulting Mining Engineer, 29 Broadway, New York. "Bought some of your GIN PILLS at Victoria, B. C., last September. I made inquiries in New York on my arrival there but was unable to obtain any information about them. Your remedy, I find at 60 years of age, to give me perfect relief and I regret very much that you have not made arrangements to have GIN PILLS on sale in New York and London, as I recently recommend GIN PILLS to friends of my age as being the one thing that does me good. I will be glad if you will send me a few boxes of GIN PILLS to my London address and a few to my office in New York by post if possible."

P. S. Since receiving the above letter from Mr. Woodford we have completed arrangements for supplying GIN PILLS to the British Public. Perhaps you are 60 years of age. Perhaps your kidneys are troubling you. Perhaps you have Pain in the Back or trouble with urinating. Do just as Mr. Woodford did—get GIN PILLS—keep a box always on hand—take them whenever you feel that the kidneys need help. You will find an occasional GIN PILL will keep you in perfect health and free from pain and discomfort. 50c a box, 6 for \$2.50. Write for free sample and give GIN PILLS a trial before you buy them. Address National Drug and Chemical Co., Limited, Toronto. MANGA-TONE BLOOD AND NERVE TABLETS build up the system and purify the blood. Ask your druggist. 50c a box. 194

Daily Hints For the Cook

Chocolate Cake. One cup sugar, 1 egg, 1-2 cup butter, 1 cup sour milk, 1 teaspoonful of soda in the milk, and 2 cups of flour and 2 tablespoonfuls of cocoa. Put the flour in the sieve and then put the cocoa in and sift it together. Very good.

Corned Fish. Take a fresh haddock or codfish weighing about 4 pounds. Rub well outside and in with a half cup of common table salt. Set aside in a cool place for two days, turning once or twice in the meantime. Roll in the usual manner and serve with drawn butter sauce, and you'll never see the fried codfish again.

WIDOWS' PENSIONS AND HOUSING POOR

Conditions in Europe Subject Of Report. KEEP THE HOME INTACT. Child Has Claim on State Which Cannot Be Regarded as Charity—Ideal Remedy Not Yet Discovered.

London, March 5.—Miss Irene Loeb, a member of the New York State commission to examine into the question of widows' pensions and the housing of the poor, sailed for New York today on the steamship Ludlana. During her investigation Miss Loeb has visited England, Scotland, Denmark, Germany and Switzerland, and will report to the legislature when she returns to New York. Miss Loeb says that everybody is awakening to the importance of the relations of the dependent child and the state. She says she found the best boarding-out system in Scotland where less than 2 per cent of the children returned for poor relief, and the children returned for poor relief, and the children returned for poor relief, and the children returned for poor relief.

DIVORCE FOR MOTHER OF MRS. JACK'S GERAGHTY

Newport, R. I., March 4.—Mrs. Pauline Leroy French was granted a divorce from her husband, Amos Tupper French, a New York banker, in the superior court here, within six minutes on a petition charging neglect to provide and gross misbehavior, and asking for the custody of their three minor sons, with alimony for her own and boys' support.

For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. "After I had tried most every female remedy first, without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri. Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere. It has helped thousands of women who have been troubled with displacement, inflammation, ulceration, tumors, irregularities, periodic pains, backaches, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it!

FATALITY OF WHOOPING COUGH

Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child who has it any special attention. The seriousness of whooping cough was emphasized by the Medical Health Officer in Toronto a few months ago, when he reported 14 deaths during the month from whooping cough, and only ten from scarlet fever, typhoid fever and measles combined. So many people write to us about the relief and cure of whooping cough by the use of Dr. Chase's Syrup of Limesed and Turpentine that we can recommend it with the greatest confidence. It loosens the cough, aids expectoration, and by its soothing influence prevents the terrible paroxysms of coughing which are so distressing to witness, and which wear away the strength of the child. By using this treatment the disease is held in check, and cured in a few weeks, instead of months. Look for the portrait and signature of A. W. Chase, M. D., on the bottle you buy. There are many imitations.

BABY BOY ABANDONED. Found on Rear Doorstep, East Boston at Midnight. Boston, March 4.—A two-weeks-old baby boy is at the East Boston Relief Hospital awaiting a claimant. The soundly sleeping youngster was found on the rear doorstep at 58 Saratoga street, East Boston, at midnight by A. J. Hase, who happened to be there at the time. The child was dressed in tidy white clothing and was wrapped in white knitted shawl.

The Saving of Money by the use of Royal Baking Powder is considerable

Royal is economical, because it possesses more leavening power and goes further. Royal saves also, because it always makes fine, light, sweet food, all digestible; never wastes good flour, butter and eggs.

More important still is the saving in health. Royal Baking Powder adds anti-dyspeptic qualities to the food. There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

STARTING THE DAY RIGHT

Do you begin the day with a "grrouch"? Are you tired in the morning? Do you fail to benefit by the restorative influences of sleep, which should make good the energy and vitality consumed by the day's work? Then you are rapidly becoming bankrupt as far as health is concerned. You should look to your habits of eating, make sure that you get lots of fresh air in your sleeping apartments, and restore vitality by using Dr. Chase's Nerve Food. This great food cure does not induce sleep by any drugging effect, but when you have been using it for a few days and get the nervous system into condition you find yourself resting and sleeping naturally and healthfully. By keeping up this restorative treatment you will be able to make good the waste and fill the exhausted nervous system with new vigor and energy. This means thorough cure of such symptoms as headache, sleeplessness, indigestion and tired, listless feelings.

The boarding house conducted by Thomas Murphy at the corner of North and George streets was entered about nine o'clock last evening. The burglar found in several of the rooms and among other things an overcoat, and \$17 in cash were stolen. A young woman living next door saw the man come out with the overcoat and thinking he might be a burglar she notified the occupants of the house who in turn informed the police. The woman's description of the man tallied somewhat with that given by Graham as the man whom he said robbed him on Tuesday night.

The following article was prepared for this week's issue of the Maritime Baptist:—

Brussels street, St. John—Pastor McCutcheon was greeted with large congregations yesterday, both morning and evening, it being his last Sunday as pastor of the church. His ability as a preacher, the keen interest he has taken in the larger interests of our city not only won for him a wide popularity, but hearts and lives of his own people, but the citizens generally. One brother, while at New Brunswick, during our three months sojourn there, he had become somewhat disorganized, but we are glad to say that he has since his studies. The church in the interim had become somewhat disorganized, but we are glad to say that he has since his studies.

But in three-fourths of the cases of defective vision, a stigmatism is present and its correction requires always lenses ground specially for the individual.

This means that only one person in sixty can buy ready-made glasses and have them right. Are you that one? Are you willing to take the chance? Would it not be wiser and better to have an examiner of your eyes? There is no guesswork about our methods.

St. John, March 1, 1914. To Rev. M. McCutcheon, B.D., pastor of Brussels street United Baptist Church.

Dear Pastor: It was with feelings of very real sorrow that we, the members and friends of Brussels street church, are called upon to bid farewell to you as our pastor.

Though you have been with us but three years you have won your way into the hearts of a wide circle of workers. Just before the last hymn was sung at the communion service Sunday evening, Deacon S. S. Belyea, on behalf of the church and congregation, said he had been asked to give expression to the pastor's work and had prepared the following address, which he read as follows:

Your personal ministry in our homes, in the day of joy as in the night of pain and sorrow, has ever been marked by a kindly Christian sympathy. In fact, in all the relationships which have linked us together as pastor and people, we have found you the strong, helpful leader and friend, and we have rejoiced also in the breadth of interest and sympathy which related you to the larger life of the whole community, for whose highest well-being you have always manifested a commendable zeal.

As you respond to the call of duty, which summons you to a larger sphere of labor, be assured that you bear with you, both for yourself and for your esteemed partner, Mrs. McCutcheon, the tender regard and sincere good will of those among whom you have so faithfully labored for the last three years.

May the Divine blessing unflinchingly attend your ministry and richly crown your labors with abundant success.

With most cordially yours, On behalf of the Members and Congregation of the Brussels street Baptist church.

Do You Realize The Risk? The proportion of people wearing glasses whose eyes are alike is one in fifteen. That ratio is at least the chance you stand of getting right glasses when you buy glasses without having your eyes properly examined. For all glasses sold "complete" or "ready-made" have the lenses alike in both eyes.

PENSION GERM CARRIERS. City of Manchester, England, Pays Women to Give Up Boarding House.

A peculiar bargain is being struck by some city governments in England for the prevention of the spread of disease. The Manchester city government has just agreed to grant a pension to a woman carrier of enteric germs, in return for which she has given her promise to leave all the time on incoming mail instead of throwing it away. A bail was made of all not used on outgoing mail, and this ball now measures 20 inches in diameter and weighs 75 pounds. It is estimated that it is at least thirty-five miles in length.

Four years ago the letter carriers in Cincinnati brushed postoffice began to save all the twine on incoming mail instead of throwing it away. A bail was made of all not used on outgoing mail, and this ball now measures 20 inches in diameter and weighs 75 pounds. It is estimated that it is at least thirty-five miles in length.

Famous "Pint of Cough Syrup" Recipe No Better Remedy at Any Price. Fully Guaranteed.

Make a plain syrup by mixing two cups of granulated sugar and one cup of warm water and stir for two minutes. Put 24 ounces of pure Pinex (fifty cent) worth in a 16-ounce bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of \$2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It soothes the jaded appetite and is just as effective enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, throat tickle, sore throat, and asthma, and an unequalled remedy for whooping cough and croup.

This recipe for making cough remedy with Pinex and Sugar Syrup (or strained honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. If you try it, use only genuine Pinex, which is the most valuable concentrated compound of Norway white pine extract, and is rich in gualonic and all the natural healing pine elements. Other preparations will not work in this recipe.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

RAILWAY PROJECTS

Railway legislation in Fredericton will be watched with a great deal of interest and some anxiety. There is a rumour said to be well founded that the Quebec and St. John Railway Company is seeking an additional bond guarantee of \$10,000 per mile for the St. John Valley Railway.

Another railway project which will bear close scrutiny is the request for a bond guarantee of \$25,000 per mile for a railway from Fredericton to L'Etang and thence to St. Stephen.

HIGHER LEATHER PRICES

(Shoe and Leather Weekly, Chicago) There is a feeling that the true inwardness of the leather situation is not understood by the average buyer of leather.

We learn of buyers of leather who predict that prices will be lower in thirty days. The writer hereof has no leather for sale, but has some reputation in the trade to sustain. We predict without hesitation or reservation that leather prices generally will be very much higher a month from now.

This is not an instance where the wish is father to the thought. It is common information that severe curtailment has been practiced in the tanning industry and that leather is in moderate supply.

The surplus of leather, comparatively small a year ago, has been digested. There are no burdensome stocks anywhere. Furthermore, the supply of hides is inconsiderable. Since the passage of the currency bill has made money easier hides have advanced, despite the decline in quality.

REVISION OF SAFETY RULES

Need Shown By Fire Investigation

AUTHORITY DIVIDED

Inspectors Not Sure Which Has Power in Hotels — Fire Chief Wants Modern Apparatus — One Hundred in Peril in Fire Trap

"No mortal man could have saved that boy," declared Chief Blake with conviction last night when the inquiry into the death of Alfred Johnston and Jude LeBlanc was resumed by Coroner W. F. Roberts.

While further evidence bore out the statement of the chief of the fire department, it seemed that the fact that there were human beings in the fifth flat of the Grand Union Hotel, where the disastrous fire occurred on Feb. 26, was not wholly realized at the time.

Another feature of the evidence was the apparent misunderstanding as to whether the building inspector or the inspector of factories and hotels is bound to inspect hotels and recommend improvements.

Chief Blake said the city should have motor fire apparatus.

Evidence was given by Harmon Patterson, day porter, who said that guests sometimes took rooms on the top flat of the hotel. The witness had known that Jude LeBlanc was there at the time of the fire, but though he had told the firemen of this fact, he admitted that he had not taken great pains to impress it on them that human life was in danger.

He had heard Mrs. Johnston, the mother of the boy who was killed, crying out in the hall about her son. He said he had never seen notices in the hotel room indicating the position of the fire escape.

W. L. McLellan, a call-fireman, said that he had been in the department about twenty years and had not been given particular instructions in saving life. He had been at the scene of the fire in the hotel several moments before he learned that lives were in danger.

Stalder's evidence concerning the life-saving was given by Jarvis Purdy, of the North End Marine Corps. He did not know of the death of the child until the morning after the fire.

Robert D. Johnson said that though he was not a fireman he had been at the fire and had helped Freeman McLellan. He heard a woman crying that her boy was upstairs but was later told he was safe.

James Carleton, building inspector, said he had never inspected the Grand Union Hotel prior to the fire, though he had been there in the past. He understood, was to inspect buildings when his attention was called to their being dangerous, or when records in hotels and order changes in the building.

Coroner Roberts said he hoped the jury would be able to point to certain persons on whom the blame could be laid should any loss of life in similar circumstances occur in the future. The apparent ambiguity of the present system made this now difficult.

William Kenney, factory inspector, was recalled. Coroner Roberts asked him if he considered he had any authority to order new exits to be placed in hotels. He answered that according to his interpretation of the law, he had not.

The coroner read to the jury a portion of the act respecting hotels, which said that signs should be posted in each of the rooms, informing guests how they should act in case of emergency. He asked the witness if this section was strictly adhered to. The witness answered that it was not. With reference to the Grand Union, he said that as far as he was aware, these signs had been placed on the walls.

Inspector Kenney said that in his estimation the duties of different officials overlapped when it came to hotels, so that the authority of each was not clear. He said that he contended that he was the official inspector of hotels, but other officials have rights of inspection. He would earnestly advise, however, that the inspecting of hotels from every standpoint be placed in the hands of one man.

George Blake, chief engineer of the fire department, proved an interesting witness. When he took the stand, the coroner offered him his congratulations on his efficient work in the fire department.

The coroner questioned the witness regarding his duties of inspection. Chief Blake replied that since his appointment he has inspected more than 4,000 buildings in the city, including all the hotels. He said he believed that in houses where there were thirty and forty people, there should be a balcony around the exterior of the building, by the windows.

The witness was questioned also as to the standard of the equipment of the fire department. He said that in fighting fires, say in the fifth story of an eight story building, the equipment of the city apparatus was not very appropriate and he suggested some new apparatus, including a water tower.

"The time has come," the witness said, "when John requires motor apparatus. It is almost an absolute necessity, and it is surprising to me that when the suggestions made by the commissioner of public safety, he was denied the authority to purchase pieces of motor equipment. The engines we have now are outlandish. They require to pump a certain amount, but they fall short."

Chief Blake commented upon the carelessness of many people in handling hot shoes in the houses. He said it was dangerous and often very hazardous to human life to handle them carelessly. He inspected an institution in the business part of the city yesterday and found conditions regarding safety against fire most disgraceful.

The foreman of the jury, R. T. Hayes, here suggested an adjournment, and the court adjourned until Friday night.

fire department, proved an interesting witness. When he took the stand, the coroner offered him his congratulations on his efficient work in the fire department.

TILTED GIRL SUES RUSSIAN "COUNT"

Brings Action For Breach Of Promise \$50,000 DEMANDED

But Activities of Secret Service Men Throw Doubts on Authenticity of Title — In Other Roles

Philadelphia, Pa., March 5.—Search by United States Secret Service agents for Maratoff von de Heiden, a well-dressed young man, about 25 years old, who represented himself as a Russian count, resulted yesterday in the arrest of the defendant in a \$50,000 breach of promise suit brought by Miss Besse Adams, a saleswoman. Miss Adams is a daughter of Frank Adams, a business man.

Government authorities wish to question the "count" about the alleged representations as a Secret Service agent. They say this was one of a number of "count" visits to the hotel here and in New York.

While in this city, De Heiden lived at the Bellevue-Stratford, where he spent money freely. He referred to himself constantly as a "count," and toward the end of a meteoric visit at the hotel arrested himself as a Russian count.

Embassies of the Russian government in this country disclaim all knowledge of the man. William R. Tucker, Russian Consul here, said he had received numerous inquiries concerning him, and was assured the man had no official relations.

Brings Suit The suit of Miss Adams was brought shortly before Christmas by A. S. L. Shields. It is expected to be called next month, when the plaintiff and a score of witnesses say they will give interesting testimony about De Heiden's career and boasts of his wealth in Russia.

The defendant is under \$2,000 bail. He was served with a capias, after the papers were filed by Mr. Shields. Three days elapsed before he was able to obtain bail. All that time he was in custody of a deputy sheriff.

Among varied incidents in De Heiden's visit of a year in this city, which at times interested the guests at the Bellevue-Stratford, because of his expensive habits, was a fondness for automobile riding. He contracted large bills for taxi and limousine hire, acting as host of parties of young people.

Shortly before the capias was served on him, he was made defendant in a claim for several hundred dollars brought by the Bellevue Garage. He settled with William A. Gray, counsel for the garage manager. His patronage was transferred to other garages, and the manager of the Sansom Garage, Eighteenth and Sansom streets, has been in frequent conference with lawyers over the whereabouts of the man.

Entertained at Girls' Home The "count" also changed his apartments, leaving the Bellevue-Stratford and going to the Covington, 37th and

Don't Let Gray Hair Make You Look Prematurely Old

Nothing will so quickly and surely rob a woman of her charm as gray hair, and nothing is so easily preventable. A few applications of Hay's Hair Restorer will restore gray hair to its natural color and luxuriance. It is not a dye. It is a tonic that stimulates and invigorates the scalp and hair roots to their proper performance of their functions, thereby bringing back the original color of the hair. It cures dandruff, and keeps the hair from falling out.

How Thin People Can Put on Flesh

A New Discovery

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all that fat-producing nourishment it contained? You haven't gained a weight ounce. That food passed from your body like unburned coal through an open grate. The material is there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sweet diet. Omit the cash cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those single Sargol tablets in two weeks note the difference. Five to eight good solid pounds of healthy "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food, to every part of your body. Sargol, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of weight increase or money back.

PLUM CULTURE IN CANADA

The subject of plum culture is treated in a bulletin of 72 pages issued by the Department of Agriculture at Ottawa. The information presented has been largely derived from the experience gained in connection with plum growing at the Central Experimental Farm during the past twenty-five years. In this bulletin, information is given as to the best methods of preparing the soil for a plum orchard, with particulars also as to the planting and subsequent care of the trees. Instructions are given as to methods of pruning, grafting and on many other topics relating to this branch of fruit industry. Lists of varieties of plum suitable for planting in different parts of Canada are given with descriptions as to the character, quality and time of ripening of each sort. Some of the insects and diseases to which the plum is subject are also referred to and methods of treatment suggested.

This bulletin which was prepared by W. T. Macoun, Dominion Horticulturist, is No. 48 of the Experimental Farms and is available to those who write for it to the Publications Branch, Department of Agriculture, Ottawa.

EASTERN MANUFACTURERS ARE LOOKING WESTWARD

Saskatoon, Sask., March 3—At no previous time in her history has Saskatchewan, in common with other western centres, attracted so much definite investigation on the part of eastern industrial concerns, and it is generally conceded that the east is quickly awakening to the fact that the west offers a vast field for manufacturing opportunities. Within the past few weeks some very large concerns have had their special representatives here quickly collecting data, and the outlook is distinctly encouraging. Formerly, cheap power, adequate settlement and railway facilities presented difficulties which are no longer evident. All western cities have for years expended very heavy sums upon the reduction of the cost of power to a minimum which would compare most favorably with that of manufacturing centres in eastern Canada and the United States. At the time, such expenditures may have seemed extravagant, but they are more than justified in the light of today. In addition, neither the question of settlement nor of railway facilities now enters into the consideration, so that every obstacle toward the profitable location of a large variety of industries at western points, has been finally removed.

MARGARET ANGLIN

"IN 'TWELFTH NIGHT'"
(Boston Globe, Tuesday).

Shakespeare's poetic and amusing representation of the comedy of "Twelfth Night" was presented last evening at the Court Theatre by Margaret Anglin and her company in a form somewhat of a novelty to the local stage, the play being mounted according to the so-called newer methods of stage craft by Livingston Frost, who utilizes a chieftain stage in which the scenes are suspended and changed.

Miss Anglin appeared in the double capacity of actress and producer, and proved to be successful in both; her interpretation of Viola being one of great charm, and the esthetic and pictorial features of the settings impressive and artistic.

By changing the play in this fashion Miss Anglin has preserved the richness of coloring and architectural forms in the original, yet there is a beautiful simplicity in these accessories that suggest and does not intrude by overabundance of decorations. Desperate and varicolored lightings combine in giving the dainty and effective illustration.

The list of Violas is countless, the Ilyrian heroine having been a favorite role with actresses ever since woman was permitted upon the stage. And last evening another delightful personage was added to the many already seen in this city. And praiseworthy too were her principal associates who aided in an admirable Shakespearean prettiness to the story of adventure, boldness, comedy and union of oddly-mated couples.

Miss Anglin has not arranged the play to bring Viola into undue prominence, but has related the proper balance of the characters and really sharing with three or four others in principal parts.

THE BALLOT FOR FRENCH WOMEN

The Suffrage Commission is in Favor

AN ELECTION ISSUE

Only Right Withheld is Vote For Election of National Deputies—Report Presented to Government

Paris, March 5.—Women in France will probably have the ballot in local elections before the end of the year, according to Ferdinand Buisson, president of the Universal Suffrage Commission, which is charged with the duties of the French Parliament, and which has reported favorably on the subject to the Chamber of Deputies.

The general parliamentary elections this spring will decide whether suffrage will be extended to women, and if whether to the full extent of national suffrage or with limitation mainly to municipal affairs. The question will be the rights already granted.

When the question was brought before the chamber last fall, M. Buisson alone was delegated to draw up a report on the subject, and his report has since met the entire approval of the commission. It is in part now before the Chamber of Deputies.

The extra 20 votes necessary for us to carry the house." M. Buisson's report, besides dealing with the controversial side of the question of votes for women supplies the machinery, approved of by the commission, for bringing woman's suffrage into force. This merely consists of the addition of the three words "et femmes" to an article of the French suffrage law of April, 1884. An additional article limiting the vote will be placed before the house for consideration if desired. It reads: "The modification of the preceding article does not apply to the election of deputies, for which male electors only are eligible."

The only rights not given to women by M. Buisson, "will restrict woman's suffrage to so-called municipal affairs. It will, however, give women much more power in France than is generally realized. They will, for instance, vote for the Council Municipal, Council General, the Council d'Arrondissement, and have a say in electing the electors of the Senate. The right to vote in the election of deputies.

Some of the girls who have been engaged at the houses which were recently wiped off the business map of the suburbs are reported to be in financial difficulties. In one case they were turned out of the house without a dollar and have been seeking help from former friends, to get out of town. In another house each girl has received notice to quit by the proprietor.

DEATH OF JAMES ROURKE

The death of James Rourke occurred at his home in St. Martin on March 3. He was seventy-six years of age and leaves his wife, two daughters and three sons. The funeral was held at St. Martin's this afternoon.

The Cyclopaedia of Canadian Biography says that Mr. Rourke was born in Mungahwa in June, 1838. His father was a descendant of O'Rourke, one of the kings of Ireland. He lived in Hopeville, Albert county, for several years and afterwards moved to St. Martin, where he was associated with his brother W. H. Rourke in the lumber business for several years. He was a prominent Mason and also a member of the Episcopal church. His wife was formerly Miss Charlotte Wishart, daughter of Captain B. Wishart, a man of high rank in the military life of this city and county, and one of the leading citizens of St. Martin.

FATHER AND SON

FACE SAME CHARGE IN SAME COURT

Burpee Wilkins was arrested by Policeman Briggs this morning charged with stealing a barrel about two-thirds full of flour and a metal gridiron from the schooner Isiah K. Stetson. Percy Wilkins, son of Mr. Wilkins who was arrested this morning, was taken in charge yesterday with Joseph McDonald on suspicion of stealing from the same schooner a few days before.

The two boys, who are each about fifteen years of age, were brought before Magistrate Ritchie in the juvenile court this morning and after several witnesses were heard they were remanded to the house of their father since last December and was being repaired. He visited the schooner each day and yesterday found that some articles were missing. He notified the police with the result that the boys were arrested last evening. The captain identified several articles in court this morning which he said were previously in his possession. Among the articles were a pair of lard knives and forks, sticking plaster, glasses, a table cloth and eye ballers, with which the boys were carrying the goods in when they were arrested.

Policeman Briggs said that he met the boys coming from the schooner carrying the articles. Both boys told him that their father owned the schooner and they had been told by him to get the articles from the boat. Wilkins told the policeman that he lived on Brooks street and that if he did not believe them to go up to the house and see for himself. Briggs accordingly accompanied the boys to Wilkins' house. He asked Mr. Wilkins there and asked him if he was the father of the boys. Mr. Wilkins replied that one of them was his son. Asked if he had sent the boys to the schooner he replied that he had not and the boys were placed under arrest.

Mr. Wilkins was asked if he had anything to say for his son. He asked the boy if he had not been sent to school by his parents and refused to go. He told the court that his son had been absent from home for four days at a time not long ago and he said he could do nothing with him. A sister of McDonald was in court in the interests of her brother as the boy's father could not leave his work to be present and his mother is not living. Miss McDonald said she had nothing to say with regard to the charge. The youthful prisoners were then remanded.

The case against Burpee Wilkins, father of Percy Wilkins, was next begun. The articles which he is charged with stealing are valued at \$10 and the prisoner elected to be tried by the magistrate. The charge was read to him and he was asked if he were guilty or not guilty. The prisoner hesitated and said that he did not know what to say as he had never been in court before. "Surely you know whether or not you are guilty of stealing flour and a metal gridiron, and if you do not know what it is to steal, how do you expect your son to steal?"

The court took this to mean that the plea was not guilty and the witnesses were called. Captain Hamilton said that when he went to the schooner, he found the doors of the fore-cabin and the galley broken in and the flour and metal gridiron taken. He afterwards saw the flour in the house of Wilkins and identified it by the appearance of the barrel and the quantity. Flour was also found in the house of the boy, which had been left on the schooner, thrown over the top of the barrel.

Policeman Briggs told of going to the house this morning and making the arrest. The prisoner was remanded. Before he was taken to the jail he asked the court if he were allowed to see his home as he would like to be getting home. He was ordered below.

This is the second case recently in which both father and son have been arrested for stealing. Theodore Amberg who was arrested in the schooner Isiah K. Stetson, was convicted of stealing from the C. P. R.

INSPECTORS HAVE BADGES While some comments have been heard as to the score about persons representing themselves as meter-inspectors employed by the St. John Railway Company, in order to gain access to houses with intent to steal, H. M. Hopper, manager of the company said yesterday that every bona fide meter inspector is provided with a badge which he wears on his vest as well as a letter signed by the manager in which the reason for the inspection is fully set forth. Mr. Hopper added that the men employed by the company in this work had been on the same work for as long a time as from ten to thirty years. He had examined the two cases brought to his notice of imposters having gained access to houses by means of this ruse and found that one of them was more of a joke than anything else.

TO ORGANIZE NEW CANTON The regular meeting of Canton La Tour No. 1 Patriarch Militant, J. O. D. F., held their regular meeting last night, routine business being transacted before the commencement and the P. M. degree was conferred on several candidates. Officers for the year were elected as follows:—W. R. Sanderson, commandant; T. Kerrigan, lieutenant; J. Kerr, ensign; H. C. Lemon, clerk; F. W. Stanton, accountant; W. R. Green, standard bearer; K. E. Fairweather, guide; D. Dawson, picket; B. Budge, sentinel; C. W. Seape, guard. Speeches were made by several of the officers. The canton will visit Woodstock during the current month, where a new canton will be instituted.

TO TALK ON COMMISSION GOVERNMENT Commissioner Agne left the city on the 12.40 train today for Amherst, where he will discourse before the board of trade on the workings of the commission government. The Amherst board, being especially interested in different methods of civic government in view of the fact that Amherst is about to apply for a city charter, has invited Commissioner Agne to a banquet, after which the commissioner of public works will tell of St. John's experience during the last two years under the new system and answer any questions that may be put to him. Amherst townsmen, who hope soon to be citizens, are looking forward to progressive steps and the prevailing opinion is in favor of a commission government.

C. P. R. WILL HAVE

SPLENDID OFFICES IN NEW BUILDING

Plans For Remodelled Structure on Corner of King and Germain Streets—Tenders Close on Monday

The remodelling of the building at the corner of Germain and King street, recently purchased by the C. P. R., will soon be under way and, when completed, will be a great improvement to this corner. The plans have been completed by F. Neil Brodie, architect. The whole appearance of the building, both on Germain and King streets will be changed and an extra story will be added. Tenders close next Monday for the work of remodelling.

On the ground floor, the whole King street front will be taken out, as well as the four stores on Germain street, and will be thrown into one large main entrance on Germain street. At the corner of Germain and King streets, starting at the entrance and running through the middle of the building will be a public space, finished with a marble and tile floor. At the front of the building to the right of the public space will be the ticket office and behind it the C. P. R. Telegraph Co. office. To the left of the public space will be the Dominion Express office and to the rear a large express room for freight, with shipping entrance on Germain street. At the extreme rear of the ground floor, with entrance from Germain street, will be an eight-foot hall leading to the elevator and stair-case to the upper stories.

The entire ground floor will be paneled in oak, five feet high; all the counters will be of oak with marble tops. With the exception of the public space which will be done in marble and tile, the floor will be of half-inch cork tiling. The ceiling on the second floor will be raised two feet and the interior will be entirely reconstructed. All the posts and columns will be removed and replaced by cast iron columns and steel beams. On this floor will be the general passenger department and the offices of the general passenger agent, superintendent of the marine superintendent, general superintendent and the assistant superintendent.

The fourth floor will be occupied by the engineering department. It will be remodelled into offices for the engineer and draughtsmen and will be complete with draughting and blue printing rooms. The use of the tie and timber inspector will also be situated in this story.

A fifth floor will be added to the building and this will be set apart for the use of the telegraphing department with accommodation for sixteen operators, battery room and all necessary "instrument" machinery.

New birch floors will be put in the building throughout, with the exception of the ground floor, and the walls will be all lathed and plastered. On each of the floors will be toilets with the floors finished in mahogany. The latest type of steam heating will be installed, as well as the latest type of speed elevator.

The foundation of the new building will be provided for, containing a furnace room per floor. Two new windows will be added in the Germain street side where is now a blind brick wall. The reconstruction of this building will be a great improvement in the appearance of this busy corner, and the C. P. R. will have comfortable, spacious and well equipped offices.

HOLIDAY LANDS HIM IN THE POLICE CELLS A man arrested near the I. C. R. depot about four o'clock this morning was before the court charged with wandering about the streets and not giving a satisfactory account of himself. He told the court that he went down to catch the train for Montreal which left at six o'clock but he missed it. He said he had been in the city for four days.

"What did you do all day yesterday for instance?" asked the magistrate. "What did you have to eat? Did you have your three meals?"

"Beans," exclaimed the prisoner, "I don't remember eating them." He admitted, however, that he did remember having a few glasses of ale.

"You said you were going to leave the city last night," continued the magistrate. "Why did you intend to go so soon?"

"Well, Your Honor, I didn't know that it was any offense to come to St. John for a few days to see the city."

"It certainly is an offense to come here and wander as a common vagrant; you are liable to a fine of \$5 or two months in jail but that should be nothing to a man on a holiday."

The man who had been seeing the city stood before the court with his hat in his hand and when reference was made to his "wand" he pocketed his hat on his head so as to be able to use both hands to run through his pockets and was positively asked by the court to remove his hat and take a seat again.

BOOSTING ST. JOHN The weekly board of trade newsletter which is issued today calls attention to the fact that last year's agricultural production of this province amounted to more than \$20,000,000 in value, while the value of dairy products for last year constitutes a record for the province.

The efforts of the board to secure an inter-provincial Atlantic steamship service to and from St. John are dealt with in the newsletter which also forecasts that building in the city will be extensive this year, touches upon the contract of the Maritime Dredging Company at Sand Point, and refers in glowing terms of the excellence of St. John's water supply as compared with that of other cities.

SOCIALISTS AT WHITEHEAD Members of the St. John Socialist party visited last evening their confederates at Whitehead, Kings County, where a meeting attended by farmers was addressed by G. A. Taylor, J. Branklin, Mrs. J. A. Carrey and F. Hyatt. The meeting was followed by a dance and signatures were added to the petition for the release of British Columbia miners now in prison.
