

"I ATTRIBUTE MY CURE SOLELY

And Entirely To Taking "Fruit-a-tives"

Hull, Que., Dec. 24th, 1909.
 "For the past twelve years I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times I had no movement of the bowels for two weeks.
 Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 80 pounds and everyone thought I was going to die. Finally, I had the good fortune to try "Fruit-a-tives" and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved.
 Now I feel very well, weigh 115 pounds and this is more than I ever weighed even before my illness.
 I attribute my cure solely and entirely to "Fruit-a-tives" and can never praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend "Fruit-a-tives" as a miraculous remedy."
 MRS. ANDREW STAFFORD.

Trade and Loyalty

(St. Andrew's Beacon.)
 During the reciprocity campaign, Canadians were told with all seriousness that the adoption of reciprocity would bring about annexation with the United States—that our people would not be able to withstand the lure of American money. Now that the United States has revised its tariff downward and has placed many articles that were in the reciprocity pact on the free list, Canadians who circulated and believed this silly talk will have their silliness and chicanery abundantly demonstrated.

SUFFERED AWFUL PAINS

For Sixteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and was thin, weak and nervous. When I would lie down it would seem as if I was going right down out of sight into some dark hole, and the window curtains had faces that would peep out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and I had awful pains.
 "I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."
 Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

Another Case.
 Gifford, Iowa.—"I was troubled with female weakness, also with displacement. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."
 Mrs. DINA MILL-SLIGLE, Gifford, Iowa.

NEW OCCUPATION FOR BLIND GIRLS

Successful as Telephone Operators

KEEN HEARING HELPS

So Far Work Limited to Private Exchanges — Seeking Simpler Board For Blind Operators

Baltimore, Sept. 18.—The blind telephone girl has come to stay. An exceptional girl two years ago passed the severe tests of the work and has since then been a conspicuous example of what the blind, when gifted in other ways, may do, but now a Maryland board for the blind has turned out five other well-trained girls, and the managers believe that they will be able to open this field of work to many other girls. These six pioneers, who are leading the way for other blind girls of the future, are working with the regulation switchboards, but efforts are being made to evolve a new kind of board which will greatly simplify the training of the girls and increase their efficiency.
 The most difficult board now run by blind girls is that at the Central Young Men's Christian Association. The Young Men's Christian Association is a club, an hotel and a clearing house for many lines of religious, social and athletic activities. Just as an hotel, it has about 200 rooms. The building has here and there eight pay stations besides many house telephones.
 A member of the association is apt to be in any one of a score or more parts of the building when he is asked for over the telephone. But wherever he is the blind girl will find him, if switching and asking and "searching" can locate him. What makes this position difficult is the fact there are not separate phones in every room, but only annunciators by which a bell in a room may be rung, summoning the roomer to the nearest telephone on his floor.
 Succeeded in Asylum
 The girls who have had seven weeks' test here and have given satisfaction are Misses Mary Waters and Elizabeth Lynch. The first blind girl operator was Miss Elsie Sonderman at the Sheppard Pratt asylum. She has been there two years, and now has other duties besides handling the exchange. She directs visitors to the rooms they seek, and has in her mind, ready for immediate reference, a complete map of the whole institution. She took the position after the institution had got satisfactory service from other girls. Her work has been superior to that of any other girl who ever held the position.
 At the Maryland Workshop for the Blind there are two girls who can and do operate the switchboard. They are Miss Louise Hasker and Miss Goldie Rosenthal. James Walker, a teacher at the workshop for the blind, trained all these girls except Miss Sonderman, who got her instruction from an employee of the telephone company who took an interest in her desire to learn the work. Mr. Walker himself is president of the switchboard, and is trying to invent some better board for the use of blind operators. He knows of a case of a blind girl in New York State who operates a telephone exchange.
 Keen at Detecting
 With the present switchboards the girls by the keenness of their ears are almost able to detect at once over which wire the call may come by the falling of the little drop. They always slip their fingers along the board to locate the drop to be sure they have the right one. They plug the trunk wires in the right holes by a fine acquired sense of location, although with this they can always make sure of it by the quick use of their fingers.
 The blind operators keep at hand all the time their stylus and slides for taking down notes. The reports on long-distance calls are later read off to some person to transcribe on the regular blanks.
 Apple Blossoms
 While inspecting his orchard one day last week, Malcolm Dick, of Lower Napoleon, was surprised to find one apple tree in blossom.

GRAND DUKE WAS ARRESTED AS A BURGLAR

Caught by Police When He Entered His Own House by Window—Spent Night in Cells

Dresden, Saxony, Sept. 18.—Arrested for climbing through his own window at night and for stealing his own watch and wallet of money, being locked up till morning in a German police station was the experience of Grand Duke Gabriel Constantinovich a short time ago. All Dresden is laughing at the story.
 It appears that the grand duke, who, when traveling for his own pleasure, never has with him more than one attendant, was supping at a restaurant in the town when he met some ladies whom he found so entertaining that he asked them to go for a motor drive. The ladies accepted. He then discovered that he was without money, his attendant being in like condition. Indeed, his companion was worse off, for the supper of which the two had partaken had been so generous that the attendant declared he could never find his way home to get money.
 The grand duke decided he must go himself. Arriving at the door of the house he had taken as a temporary residence, he discovered he was without a latch-key. Being an athlete, this troubled him little, and, springing lightly upon the window ledge, he clambered into the house, secured money, a revolver, and his latch-key, and nimbly leaped out onto the street again. There he found himself in the hands of a stalwart police officer.
 "Now, I've caught you red-handed," exclaimed the burly officer in triumph.
 In vain the grand duke protested that the house was his, and the property in his hands belonged to him. The policeman would not listen to explanations, but hauled him off to the police station, where his money, revolver and watch were taken from him as evidence of his guilt. Furthermore, the patrolman swore he recognized the grand duke's features the face of a dangerous burglar wanted by the police. The grand duke spent the night in jail.
 Next morning a superior officer, possessing superior intelligence, identified Constantinovich, and in a terrible state of tremor the police hastened to apologize.
 The grand duke's humor soon relieved their minds. He promised not to make

...fuss about the affair and departed laughing heartily over the adventure, swearing he would never again enter his house by the window while in Germany.
 Grand Duke Gabriel is the son of Constantin Constantinovich, one of the Czar's uncles, and is much liked for his simplicity and good-humor.

The Fredericton Fair

Fredericton, Sept. 17.—The biggest attendance of the week marked the third day of the Fredericton exhibition. With favorable weather during the balance of the week the record of attendance made in 1911 will be surpassed. Judging in cattle and poultry, two of the strongest departments of the fair is pretty well completed. In the other departments it will continue tomorrow. So far the exhibition has been remarkably free from disturbance or misconduct. Some shows upon the midway to which objection had been taken, were closed today.

Many Children Injured

Poughkeepsie, N. Y., Sept. 17.—A collapsible platform, sixteen feet above the ground, on which 731 pupils of the Poughkeepsie High School were grouped for a photograph, gave way shortly after noon today. Fifteen pupils were terribly injured; twelve of them were taken to the Vassar and General Hospitals, most of them suffering from fractured arms and legs.

Fragrance

WHEN you open a tin of Red Rose Coffee, you will surely be pleased with its unusual fragrance, and you will note particularly the small, even grains, free of the yellow flake or chaff which you have always been accustomed to see in the ground coffee you have used. This is the result of our new crushing process. The small grains settle quickly, so the coffee is never muddy, but always bright and clear. You will be convinced before you taste it, that it is a coffee of unusual quality.

DOMESTIC LAWS WILL BE CHANGED
on W. J. Roche Promises Greater Encouragement For Cattle Raising in Canada

Winnipeg, Sept. 18.—Changes in the domestic laws, looking to the encouragement of cattle-raising were introduced by Hon. W. J. Roche, who

has just spent a month in the west. During his trip the minister was waited on by many deputations representing the ranchers. In speaking of their requests he says: "I cannot but feel that some changes are desirable. It is our policy to encourage the cattle-raising industry throughout Canada, and there is reason to believe that some amendments to the home-stead laws are desirable. I expect that amendments will be introduced permitting settlers to get patents on their lands by stocking cattle." Dr. Roche will take up the St. Peter's Indian reserve case with a deputation from Selkirk. He claims that the crop is the best in the history of the west.

CALGARY CLAIMS POPULATION OF CLOSE TO 90,000
Calgary, Alta., Sept. 18.—That the population of Calgary is now close to 90,000 is the estimate of a directory company in issuing its annual directory of this city. The growth of the city is perhaps no better indicated than in the increase of the school population. For the first two days of the school session which opened the first of the month the enrollment in Protestant public schools of Calgary was 6,748. The number registering at the opening of last year was 4,980. At the close of the school year last June the enrollment was 5,975. The schools, of course, has great difficulty in coping with this growth and new school buildings are constantly required to accommodate the pupils.

REGENT WEDDINGS

Dunham-Tapley
At the home of the officiating clergyman, Rev. J. J. McCaskill, Alexandria street, a very pretty wedding took place on Wednesday evening.

The bride was Miss Winnifred Tapley of Fredericton, and the bride groom Edmund Dunham of the Sons of Temperance, Dunham's Point. Miss Agnes Gillies was bridesmaid, while the groom was supported by Joseph Foley of this city. The bride's costume was of blue silk, and the bridesmaid's costume was white. The bride carried a beautiful bouquet of pink roses and the bridesmaid one of dark red. The bride's going away costume was a blue serge suit and a black picture hat with black ostrich tips. On their return from a trip through different portions of the province they will reside in the city.

The wedding of Miss Nellie Myrtle McFarland to Charles Edwin Howard, news agent for the C. P. R. on the steamer St. George, took place yesterday at the home of the bride's father, H. H. McFarland, 98 Victoria street, the ceremony being performed by the Rev. J. C. B. Appel in the presence of a large number of guests. The bride and bridegroom left last night for a honeymoon to Montreal, Toronto, Boston and New York via Buffalo.

The wedding of Miss Georgina Lister Balmis, daughter of Mr. and Mrs. William Balmis, and Walter Edward Stone, occurred in Woodstock, N. B., yesterday afternoon. The ceremony was performed by the Rev. William Hanna, which had been gaily decorated for the occasion. Mr. and Mrs. Stone left after the ceremony for a honeymoon to New York and other eastern cities.

Solemnized by Rev. Canon Hanington, the wedding of Miss X. Winnifred Dixon, daughter of Mrs. Sarah Dixon, of Norton, to Stanley B. Dixon of Norton, took place yesterday in the Church of the Ascension, Lower Norton. Miss Margaret Dixon of St. John attended the bride and Murray Dixon was groomsmen.

A quiet wedding took place at the Lincoln Park Baptist parsonage, West Newton (Mass.) on September 6, when William E. Earle of this city, was united in marriage to Miss Catherine H. McCrea, of Newtonville. The ceremony was performed by Rev. Mr. Vankirk, and a wedding trip, Mr. and Mrs. Earle, will reside in Mecklenburg street, St. John.

An interesting wedding took place at the Portland Methodist parsonage on Tuesday evening, when Rev. H. Pierce, B.A., united in marriage Lorne C. White and Miss Edna A. Johnson, both of this city. The young pair were attended by Hazel E. Johnson as bridesmaid and Burton F. White as groomsmen, both of Brown's Flat. Mr. and Mrs. White will reside in St. John, North End.

The death occurred at his home in Mundeville, Kent County, Monday, of Wm. Masterson at the age of 78 years.

Mr. Masterson is survived by a widow, three sons and four daughters. The sons are Masterson, teaching at Edmondton, John Wm. Masterson at the age of 78 years.

daughters are Miss Sarah, of Boston Mass., Mrs. J. Sinton of Colbyway, Mrs. Oswald Young of Chatham, N. B., and Mrs. Walter Orchard of Portland, Maine.

RECENT DEATHS

The wedding of Miss Nellie Eran MacDonnam to Allan Boyd Crowe, a member of the firm of McLaughlin and Crowe, D. D. S., took place at the residence of Mr. and Mrs. Moore MacDonnam, the bride's parents, at Annapolis yesterday. The bride and bridegroom will honeymoon and hunt at the same time, and if love-making doesn't interfere with sport they expect to bring back a moose head as a memento of the happiest occasion in their lives.

The death of Mrs. Patrick Mullins, of Chatham, took place on Thursday night of last week. She was 79 years of age and leaves her husband, one daughter, Mrs. Albert Trevors of that town, and three sons, James and Robert of Paterson, Me., and John, of St. John.

James Goodfellow Williston died at the home of his nephew, James Williston, at Bay du Vin on September 10. He was seventy-three years of age and unmarried. Two brothers and one sister survive. The funeral was held last Saturday and the services were conducted by Rev. W. J. Bate of Newcastle, assisted by Rev. W. J. Williston, of Springfield and formerly rector of Bay du Vin.

Mrs. Michael Gallagher, of Rosebank, N. B., died at the home of her daughter, Mrs. James Keane. She was eighty-two years of age and is survived by two children.

Mrs. John Nowlan of Redbank, died at his home on September 17. She was eighty-four years of age and is survived by five children.

Edward McCarthy, one of the oldest residents of Moncton, died at his home yesterday. He was eighty-three years of age. Mr. McCarthy was a prominent temperance worker and was past grand worthy patriarch of the Sons of Temperance. Charles McCarthy, air brake inspector of the I. C. R., is a son.

William Willis, stone cutter of Bear River, N. S., formerly of this city, died at his home on the fifteenth, leaving his wife, two sons and one daughter. His mother, Mrs. Rebecca Willis resides in St. John, and Charles, James and Samuel of this city are brothers. Mr. Willis' many friends in St. John will regret to hear of his death.

The death of Mrs. Ella Blanche McLean, wife of Captain C. W. McLean, of 171 Bridge street, occurred on September 16 at one o'clock. She leaves her husband, two sons, Cecil and Francis and one daughter, Carrie, all at home also her mother, Mrs. Ann Smith, of Cumberland Bay, one sister, Mrs. Monro, of Kingston, N. S., and one brother, Charlie Killam, of Campbellton. The funeral was held on Tuesday evening, and the body was taken to Cumberland Point for burial.

How Long Have You Kept That Corn?

How often have you pared it, just to keep it down? How many old-time, foolish treatments have you applied to it? Yet the corn remains. During all this time a million corns monthly have been taken out by Blue-jay.

Folks apply this little plaster, and the pain stops instantly. In 48 hours they remove the plaster, and the corn lifts out. No pain, no soreness, no discomfort whatever. And no more doctoring of that corn. Think of it—a million corns monthly are ended in this way while you, in other ways perhaps, still treat the same old corn. Why not try the new way on one corn?

In the picture is the soft B & B wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to fit comfortably. D is rubber adhesive to fasten the plaster on.

A Question for YOU

As you grow older, will you be able to do the same kind of work you do now, and do it exactly as well?

There are few occupations in which good sight does not play an important part.

If you allow your sight to be injured through thoughtlessness and neglect, it is certain to affect the quality of your work.

Often the symptoms of eye-strain may be detected by slight headaches or a strained feeling about the eyes.

If you suspect any such trouble have your eyes examined scientifically by our optician. He will tell you just what your eyes need.

There has been a decline in rent in some western cities. Evidently the effort to provide houses as fast as they are needed has been more successful in those cities than in St. John.

It is now suggested that the Thaw case may not be decided for years. A few more years of Thaw would make most of us fit subjects for Matteswan.

The cost of living in Canada increased a little more during the month of August. When the United States market begins to absorb Canadian products, there may be a further increase in the price in Canada.

The St. Andrew's Beacon says:—Under the new U. S. tariff, the farmers and fishermen of Canada will be able to get a part of what they would have got under reciprocity, minus the countervailing duties.

Some people are doubtless filled with regret because Schmidt, the New York murderer, although he had been in holy orders, was and is criminally insane.

The members of the Manufacturers' Association are not disposed to let the federal government off in the matter of technical education with the mere preparation and publication of a report.

The ferry service between East and West St. John shows a steady and satisfactory increase. Perhaps the citizens do not give much thought to the matter, but it is worth noting that during the last year or more there has been no serious complaint about the ferry service.

The Montreal Herald refers to the fact that the residents on one of the streets of that city are opposed to laying car tracks in the street, because it is the only playground their children have.

The fine showing by the grateful children on Fletcher's Field was evidence enough of this. Let the city meet the association's full requirements—and they are not excessive—and our little boys and girls will not have to take their chances of horses, motors or tramways or, worse still, of the prowlers of the night.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable.

It cannot be too often nor too emphatically stated that good roads are one of the great assets of a country, and until the province of New Brunswick wakes up and makes such an expenditure on roads as will make them compare with those over which the people of other enlightened communities travel, the people must be content to suffer loss, and to be reckoned among those who not only lack enterprise, but ordinary business foresight.

MANY ATTEND OPENING OF CITY CORNET BAND FAIR

The opening of the "Around the World Fair" of the City Cornet Band in St. Andrew's rink last evening was attended by a very large number of people who were delighted with the entertainment provided and the various amusement features offered. The rink was a blaze of light and color, and showed in the decorative arrangement the results of the efforts of the bandmen and their friends to give it a bazaar appearance. Several new and popular games were introduced last evening and these, as well as the various booths were liberally patronized.

Mrs. J. T. McCormack won the ladies' bean toss last evening, and James Hayes carried off the gentlemen's. The City Cornet Band was present and played a number of selections, which were well received. Tonight the St. Mary's Band will play.

The following ladies were in charge of the different booths:

Candy booth—Mrs. M. Higgins, Mrs. F. Waddington, Misses Ella B. Connolly, G. Killen, N. Alexander, M. Connolly, N. Bresnahan, M. Bresnahan.

Post office—Misses L. O'Reilly, M. Tobin, M. Murphy, N. O'Leary.

DOCTOR'S WIFE VICTIM OF HIS EXPERIMENT.

Explosion of Tanks in Synthetic Rubber Process Wrecks Laboratory.

Woodbridge, N. J., Sept. 18.—Mrs. Louis Gottschalk was killed by an explosion in her husband's laboratory this morning while watching the progress of his work in trying to make synthetic rubber.

Dr. Gottschalk had, tanks filled with gases and fluids under compression. Before breakfast the doctor and his wife had applied heat to increase the pressure and left the chemicals while they ate breakfast.

Mrs. Gottschalk was impatient to get back to the laboratory and see what progress was made. She left the table before her husband and as she stepped outside the house on the way to the laboratory the building was blown to bits. Gottschalk found his wife dead in the wreckage.

It was impossible to discover what had caused the explosion, whether it was due to some injudicious act of Mrs. Gottschalk, or was due to a weakening in one of the tanks.

CHAMCOOK SARDINE NOTES

There is still no sign of revival of the sardine-canning industry at Chamcook. The belief is gaining ground that the plant will not resume operations until the spring opens. Mr. Lynch, secretary-treasurer of the company, told the Beacon that nothing would be known regarding the movements of the company until after President Johnson, who is now on his way out from England, handed in his report. Mr. Lynch said he had gone to New York to meet Mr. Johnson. Only a few families now remain at the new town.

George F. Johnson, president of the Canadian Sardine Company, sailed from England on Saturday in the Laurentic. He has been enquiring into market conditions in Great Britain, and it is reported that he has been greatly encouraged.

Last week, the amounts that were due the fishermen for fish supplied were paid by the Bank of Nova Scotia here.

FISH-WAY FOR ST. GEORGE

Beacon: The new salmon fish-way which has been devised by Prof. Prince and Knight of the Biological Board will be placed at the Magalloway river as an experiment. This fish-way is in the form of an elevator, with a fish cage and a counter-weight. The fish cage takes the fish at the bottom of the falls, then the counter weight lifts it up, permitting its contents to escape in a sluice from above. The device is a very clever one, but may require some time to adjust it to local conditions.

A Difference in Foxes

Beacon:—There are foxes and foxes. Recently, the Black's Harbor fox ranching company disposed of two pairs of foxes. For one pair they received \$80, and for the other \$10,000. One was red and the other black, which accounts for the difference in figures. The company could easily get \$15,000 per pair for their black foxes now.

A CHATHAM SENSATION

(Chatham Commercial.)

Certain facts have recently come to our notice which reveal the existence of bovine tuberculosis in this district to an extent that is not dreamt of by the ordinary individual. Neither is it known as a rule by the owners of affected animals, who in perfect good faith, are using themselves, and offering for sale, milk and flesh that, to say the least, is not good for human food.

From information which we have gathered, there appears to us to be ample grounds for the town and county boards of health to move in the matter.

FIVE AGED SISTERS

The death of Christina S, aged 88 years, wife of Angus McIntosh, took place at her home, Chatham Head, Monday. She is survived by her husband, two sons, David of Vancouver, and Donald, at home; and three daughters, Mrs. Moore Leslon of Vancouver, Anna and Lizzie at home. Four sisters, Misses Elizabeth, Barbara and Mary, and Mrs. Adam McLean, all of Black River, also survive. It is worthy of note that the aggregate ages of the five sisters was 484 years, giving an average of 97.

Still Going Up.
Ottawa, Sept. 17.—Wholesale prices moved upward again during August according to the department of labor record, though only to a slight degree. The index number for 870 articles was 188.3 compared with 188.9 in July. In August a year ago it was only 183.8.

The advance was due to higher prices in grains and fodders, eggs, potatoes, wool, calfskins, lead and anthracite coal. At the same time there were somewhat lower prices for cattle, beef, butter, trout, whitefish, coffee, benzene, rubber and a few other articles. Comparing the

month with a year ago, the chief increases are among animals and metals, and chief decreases among grain and fodders. In retail prices there was a general advance in eggs and butter and in certain meats. Receipts were down somewhat sharply in several western cities, but were firm to upward in the east.

SULZER AROUSED AND TAMMANY TREMBLES IN FEAR OF REVELATIONS

Deposed New York Governor's Declaration Has Caused Consternation in the Murphy Ranks—Feared Sulzer Will Spring Sensational Details of Tammany's Secret Workings

Albany, N. Y., Sept. 18.—Governor Sulzer's statement that he not only intends to "have a fair trial" but feels he is "going to be acquitted," puts an entirely new aspect on the impeachment situation.

The prediction of Mr. Sulzer's Tammany friends that he would take the case without even putting up a fight, and that he would never go before the impeachment court has proved contrary to fact.

Mr. Sulzer has caused consternation in the Tammany ranks by his unequivocal declaration of his purpose to meet all the charges which have been leveled against him, and for his taking hold of Tammany leaders, lest they may be unexpectedly exposed. Fostering of Sulzer has displayed considerable of the lethargic spirit that seemed to have gripped him since August 14, the day his counsel warned him against further statements for publication. Mr. Sulzer shows his old vigor in directing the final arrangements for the defence he is to make to the assembly's articles of impeachment.

Mr. Sulzer, according to those who observed his "come-back" today, displays no tendency towards irritability. The Tammany legislative leaders who came to Albany last night to prepare for the opening of the impeachment trial on Thursday, were not cheered by the reports that came from the executive chamber.

They had heard before leaving, news that the governor was "in the dumps," and this to them had been a reassuring sign, but when told of the change that had suddenly come over Mr. Sulzer they began to cast about for an explanation.

The Tammany leaders know that the Sulzer agents have been probing their records, and this seems to be the cause of the fear which exists in their midst.

CHANGED BUSINESS METHODS ARE FOR THE BETTER

Those of us who can look back twenty or thirty years see great changes in the world of machine building and selling, and while there has been almost a revolution in the cutting speeds, the kind of machines used and the general methods of building, there have also been great changes in the methods of securing business, observes the editor of the American Machinist.

IMPORTANT RULING ON INSURANCE LAW

Court Declares Contract Creates Trust in Favor of Living Wife Even if Previous Wife is Named in Policy

Toronto, Ont., Oct. 18.—Probably what is the most important decision ever given in the Ontario courts concerning insurance contracts was handed down by the Appellate Division at Osgoode Hall, yesterday, in a Walkerston widow's action against the O. I. Insurance Co. The court reversed the decision of Mr. Justice Middleton, and directed that one half of the insurance money due on the death of her husband, when the first wife had been specifically mentioned as beneficiary, at the time the policy was issued.

MONCTON WINS RIFLE SHIELD

The match for the Moncton City Rifle Club shield competed for today on the local range was won by the team from that city. The weather conditions were most unfavorable to good shooting, but some clever scores were registered.

MAY HAVE MEETING. It was said at City Hall this morning that the council might meet this afternoon at three o'clock to consider the tenders for heating apparatus for No. 4 shed. The tenders have not yet been opened.

WILL HOLD SUBURBAN. I. C. R. suburban due to leave St. John at 11 p.m. will be held until 11.35 p.m. Friday, the 19th inst., for the accommodation of those attending the opening of the new Imperial Theatre.

CRIB TO BE SUNK. At low tide this afternoon about four o'clock the last crib on the north side of the first slip at Sand Point will be sunk by Connelly & Charlson, thus finishing the substructure of one side of the slip. Work on the south side will probably begin about the end of the month.

A FEW SEATS LEFT. Only a few of the 75 cent seats for the Imperial Theatre opening now remain. There is still opportunity for a good selection. All the seats in the house command the stage, and admirable locations for tomorrow night's big function can be had. It is advisable, however, to make a choice at once at the Imperial Theatre box office.

MILL STARTED TODAY. The sawmill of Murray & Gregory at Marble Cove resumed operations this morning with the regular crew of men necessary to operate the plant. Some of the old hands are not at work, but their places have been filled. None of the old deal-pilers returned, but their work is being done by other hands at the old wage-scale.

CONSPICUOUS NOSE PORES

How to reduce them. Wring a cloth from very hot water, rub it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at each color your nose feels sensitive. Then finish by rubbing the nose for a few minutes with a lamp of ice.

Woodbury's Facial Soap cleanses the pores. This treatment with it strengthens the muscular fibres of the nose pores so that they contract properly. Do not expect to change in one day. Use this treatment persistently. It will gradually make the enlarged pores vanish and your skin will be clear.

Woodbury's Facial Soap also for general toilet use. It makes a delightful feeling it gives your skin.

CURRENCY BILL TO BE SENT TO SENATE TODAY

No Material Changes Made by the House, and Only Formal Vote Remains For This Afternoon

Washington, Sept. 18.—The administration currency bill will be passed by the house and sent to the senate tomorrow. In order to complete the detailed consideration of the measure and leave nothing but the formal vote for tomorrow afternoon, the house sat to night and concluded the voting on proposed amendments. No material changes were made in the bill.

Republicans and Progressives today concentrated their fight on a list of amendments offered to the note issue section of the bill, which the Democrats disposed of with a rolling chorus of "noes" monotonously repeated.

The attack was directed principally at the provision making the federal reserve notes proposed to be issued through the federal reserve banks, government obligations. The Republicans declared this a return to "greenbackism" and declared that Secretary Bryan had written into the bill the monetary theories "for which he has contended since 1896."

The committee proposed and the house wrote into the bill an amendment which prohibited federal reserve banks from engaging in loan transactions with any one other than the government. This change was made to prevent the federal reserve banks from engaging in a commercial business in competition with the member banks which are forced to supply the capital upon which the reserve banks will operate.

No obstructive tactics were resorted to by the opposition to the bill, and the reading of the measure to the house went along smoothly. A recess was taken before the evening session in order to allow the banking and currency committee to perfect certain minor amendments to be offered to perfect the phraseology of the bill.

Problems of note issue and question of whether the government or the banks should control the issue of paper currency occupied much of the attention of the senate committee during its hearing on the currency bill today. Wm. H. Berry, collector of customs at Philadelphia; John Clarke, of New York; and Prof. O. M. W. Sprague, of Harvard University, were heard this afternoon.

BACKACHE VANISHES RHEUMATIC PAINS GO

Few Doses of Croxon Ease Stiff, Sore, Swollen Joints and Muscles, Relieving Backache and Bladder Disorders

If you suffer with backache—have pains in the neck or sides—have dizzy spells—a few doses of Croxon will relieve the congestion and you will be surprised how quickly all kidney, bladder and rheumatic troubles will disappear.

Croxon promptly relieves these diseases because it really does reach the real cause. It soaks right into the walls and linings of the kidneys, cleans out the stopped-up inactive organs, neutralizes and dissolves the uric acid and makes the kidneys sift from the blood the waste and poisonous matter that lodge in the joints and muscles to scratch and irritate and cause rheumatism. It soothes and heals the delicate linings of the bladder and gives the kidneys renewed strength so they can filter the blood and keep you well.

Croxon is different from all other remedies. It is so prepared that it is practically impossible to take it without results. An original package of Croxon costs but a trifle, and all druggists are authorized to return the purchase price if it should fail in a single case.

Probably Not True The Eastport correspondent of the Bangor Commercial says: "All the extensive machinery is to be removed from the Canadian sardine factory at Chamcook, which would indicate that this plant is to be abandoned, as far as canning fish and other products is concerned. Many of the high priced motor boats have been chartered by local fishermen."

"A PRINCE OF EVIL" STRONG SOCIETY DRAMA

Attractive Bill of Varied Character at Gem Theatre—Singer Again Scores Success

A splendid cast of players appeared yesterday at the Gem Theatre in the Vitaphone feature production "A Prince of Evil," a society drama depicting the life of a young man who is seduced by a woman to a life of crime. The play was cleverly staged, the photography excellent, and the acting, if possible, even superior to the standard maintained in Vitaphone feature presentations. The two comedies, "The Widows' Kids" and "Cupid and the Cook," both of which caused much merriment and laughter, as they abounded in fun and in perplexing situations, as the Biograph Co. comedies generally do. E. A. Emil won hearty applause in a new song number, while the orchestra had their usual pleasing programme of musical hits.

EDUCATION AND TRANSPORTATION WERE DISCUSSED

Halifax, Sept. 17.—Canada's manufacture in the first day of their annual convention here today, but the chief discussion centered around technical education and transportation. The report of the various committees in charge of these subjects were adopted in the discussion on the technical education committee's report, many speakers urged the introduction of vocational training in Canada. The chief feature of the transportation discussion was a paper contributed by D. R. Fairbairn, of Toronto, urging the construction of a government-owned and operated system across Canada run at the lowest possible cost in conjunction with a government line of steamers from the maritime provinces to Hudson's Bay giving a short road for eastern produce to the west. His plan met with strong criticism on the ground that it would interfere too greatly with private capital. Technical education, transportation and the tariff occupied their afternoon session today. The technical education committee strongly endorsed the report of the royal commission and stated their belief that the dominion government were not indifferent to this matter in spite of all contrary reports. They strongly recommended the various provincial governments to have the dominion authorities to act along the lines of the Robertson report.

A discussion of proposed changes in the association's by-laws was the sole business transacted at the evening session of the Canadian Manufacturers' Association. A resolution by W. C. Phillips, of Toronto, to the effect that the existing by-laws be repealed was passed. The association, sitting in committee of the whole, then discussed each of the proposed new by-laws in turn. Very little opposition was offered, and at this morning's meeting the by-laws will be voted on as a whole. Among the changes made by the new laws is the holding of the annual meeting within six weeks preceding the first day of May. It was also proposed that provincial vice-presidents be eliminated from the list of officers. An active committee with special powers is called for. The technical education committee's name changed to the education committee.

Danish egg exports started with 15,000 dozens annually 50 years ago, says an American Consular report, and started from 80,000 dozens in 1871 to 274,000 dozens in 1872. By 1911 the number had risen to 85,860,000 dozens.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knolly's Danderine from any drug store or toilet counter and try it as directed.

TRIBE OF AMAZON WARRIORS FOUND IN SOUTH AMERICA

Boston, Sept. 18.—An Amazon tribe of warlike women that dwell in the South American jungle, isolated from men except at certain periods, when males from distant tribes visit them and then are sent away loaded with gold and the magical and precious "green" stone is the startling discovery made by Dr. A. Hamilton Rice, the wealthy young society man explorer, just back in Boston from a thirty-months trip through the darkest South America. His discovery promises to outlive the ethnological interests the recent "blonde Eskimos" find in the Arctic. There were about twenty children and twenty women in this community, all stalwart, muscular and exceedingly sagacious; "women," declared Dr. Rice, "who fought as well as men and with whom the males, while they were with them, conferred on all important questions."

"I came upon this strange race during the later part of my long trip through the interior. The tribe was located on what is known as the Little Yuridia River, and with them were two huge Indians, one from the Guanin River tribes and one from the Icaira River tribes; the former being about three days away, the latter nearly a nine days' journey off. These males have paths through the jungle which are kept secret and these routes they always follow on their semi-yearly visits to the women. The twenty children were all strong, clean-limbed boys and girls. But save for two men of utterly different tribes, there were no males. Andrew Carnegie has promised to donate \$200,000 towards the installation of the Institute of Chemistry now building in Paris.

NEW CANADIAN WELFARE LEAGUE

Established in Winnipeg Yesterday With Idea of Extending From Coast to Coast

Winnipeg, Sept. 18.—During the progress of the Canadian conference of Charities and Corrections this afternoon, the new Canadian Welfare League, which purposes to cover Canada from coast to coast in its operations, was organized. The plan of the league involves the establishment of a central bureau as a clearing house for social work, and intends to stimulate the erection and direction of community in favor of securing trained leadership for social work. The officers of the league are: President, Dr. J. Halpenny, Winnipeg; vice-president, A. Chevallier, Montreal, and second vice-president, A. B. Cushing, Calgary. The headquarters of the league are to be in Winnipeg, and Rev. J. S. Woodworth, Winnipeg, was appointed secretary.

DECREASE IN THE NUMBER OF TRADE DISPUTES

Ottawa, Sept. 18.—There was a considerable decrease in the number of trade disputes in Canada during August, as compared with the number during the previous month and corresponding month last year. There were also fewer employees involved and fewer working days lost than during July. Of 4,866 employees were affected by disputes during August, as compared with 105,228 during July and 125,000 during August, 1912. The number of working days lost during August was approximately 105,228, compared with 186,967 working days lost in July and a loss of about 106,000 during August, 1912. Nine disputes actually occurred during August.

THE CONTROVERSY OVER THE FAMOUS PILTOWN SKULL

Birmingham, England, Sept. 18.—The meetings of the British Association have been followed by a continuation of the controversial battle started, but left undecided by the recent World's National Congress in London. It was over the old question of which of the two reconstructions of the famous Piltown skull is the closest to the original skull of the earliest European man. Dr. Smith Woodward has procured fresh support for his reconstruction, which allows for the skull's capacity than Dr. Keith's model, which gives the Piltown native more brains than his descendants of today. William Dawson, who found the remains from which the reconstructions were made, has gone over the ground again, and it was said he had found new and important evidence. The report of the Marconi Company for 1912 shows a net profit of £418,294. A sum of £100,000 is appropriated for a reserve fund, and a final dividend of 10 per cent is recommended. Oscar Straus, an American citizen on his way to The Hague, said he thought the British Liberals were 20 years ahead of the Progressives in the United States.

Columet, Mich., Sept. 18.—The presence of President Chas. Moyer, of the Western Federation of Miners, has been productive of absolute quiet in the proper strike region. Moyer has commended against disorderly tactics and since his arrival here a few days ago there has been no attacks on workmen nor noisy demonstrations. The strikers today contented themselves with orderly parades and picketing. John N. Walker, president of the Illinois Mine Workers, has returned here, bringing fresh assurances that his organization will support the strike. She—"I always think of all the unkind things that I've said during the day before I go to sleep at night. He—"You don't say so! How can you do with so little sleep?"

VACANT FLATS ARE SCARCE Two flats were demonstrated by a want ad. in the Times last night. One is that vacant flats in St. John are scarce, and the other is that the Times is a great advertising medium. An ad. was inserted in yesterday's Times telling of a five room flat to let. Before 8.30 o'clock in the evening fifteen enquiries had been received and several people had called to get fuller particulars about the flat. And they were still coming.

VISIT TO FERNHILL The directors went to the cemetery yesterday to make the last inspection of the grounds this year, and were well satisfied with the condition of all lots. Arrangements were made for some necessary work at once in the way of opening new lots and to prepare for further extension next summer. The water system lately installed was examined and the hydrants tested, when it was found a stream over fifty feet was thrown. This system will give protection for the buildings in case of fire and will be most valuable in the summer in case of a drought such as occurred this season. The new lots on Iberia path with concrete walk are finished, and will be for sale next year.

BAPTIST CONFERENCE HERE NEXT WEEK

The New Brunswick Baptist Association will meet in Beauséjour street church next week, the ministers conference being held on Tuesday afternoon at 2.30. The association sermon will be preached on Tuesday evening by Rev. James McLueke of Florenceville. Rev. J. L. Campbell, D. D., of Cambridge, Mass., noted Baptist divine, will be present at the conference and will deliver three addresses on the following important subjects: "Can the Old Book be Trusted," "Equipment for Service," and "Lost Souls." The association will continue in session until Friday evening, when an address on education will be given by Dr. Cullen of Acadia University, Wolfville, and by Professor W. C. Kierstead, of the U. N. B., who will speak on Baptist and national education.

GOVERNOR'S RECEPTION

Plans for the gubernatorial reception, the first to take place in the city for many years, which will be held in the Assembly rooms, tomorrow afternoon from four to six o'clock, are nearing completion and it is expected that many citizens will attend. William C. Cruikshank, secretary to the Lieutenant Governor, has been in the city during the last couple of days making preparations for the event. Tomorrow will be a notable day socially in the city, with the reception by Lieutenant Governor Wood and Mrs. Wood, the opening of the new Imperial Theatre, which they and members of their suite will attend in the evening, and the grand opera performance at the Opera House. Although it has not definitely been decided, it is thought that the card system will probably be used tomorrow instead of the customary practice of registration. Mrs. Wood is expected to join the governor who is at the Royal tomorrow. His honor will be attended by his staff, Major F. B. Black, A. D. C., Major Hamilton Gray, and Col. J. L. McAvity, A. D. C. The assembly rooms have been handsomely decorated for the function, the decorative arrangements being in the capable hands of David Lynch. The catering will be done by Bond's, while the music will be furnished by Jones' orchestra. Formal afternoon dress will be the rule for visitors.

LONDON MANSION BURNED

London, Sept. 18.—Fire today destroyed the Theobalds Park, the beautiful mansion at Wallington, about fourteen miles north of London, bequeathed, together with a large fortune, by the late Lady Meux to Admiral Sir Hedworth Lambton on condition that he take the name of Meux. Valuable furniture was removed. No evidence was found of the cause. In the vicinity is the Abbey Church of Waltham Holy Cross, whose construction was begun by King Canute and finished by King Harold early in the eleventh century and which is still used as a parish church.

ONLY TRINITY'S LITTLE JOKE

Solemn Old Church Clock Having Fun With The Time—Not Striking But on Strike

Serious consternation prevails in Anglican church circles in St. John. The whole local religious fabric threatens to rock with nervous perturbation. A strange malady has seized Trinity church clock. That aged timepiece was the subject of a delicate operation Tuesday when a jeweler destroyed its accustomed stability by removing its weights. It isn't every clock that can have weights, and consequently Trinity clock was indignant when a mere human had the temerity to remove them. And when St. John's "big Ben" was told in confidence by a friend in a watchmaker's window on King street, who had the spy on the sidewalk outside, that it was the intention of the church trustees to forever destroy its independence by connecting it by electric wires with the observatory clock, the Trinity time-teller went into spasms of rage. Its anger was accentuated by an old-time feud with the observatory clock—a family affair hitherto kept strictly private. Efforts to record its emphatic disapproval of the proceedings by discordant striking during morning service proved futile, and Trinity clock went into executive session to plan out a campaign of protest. The meeting resulted in an inspiration. Everybody in

VISITING SHRINERS ARRIVE, VIA DIGBY, THIS EVENING

Local Delegation Crossed the Bay to Meet Them—Plans for Their Entertainment

Charles Robinson and Frederick H. Barr of Luxor Temple constitute a delegation which left for Digby on the noon boat to meet the party of Shriners from Melba Temple, Springfield, Mass., who have been touring Nova Scotia and en route back to St. John, arriving on the St. George tonight. The visiting shriners and the delegation will be met by a party of shriners at the wharf and escorted to the Royal Hotel, where rooms have been reserved for them. Tonight they will be the guests at an informal reception held by the Luxor Temple at their rooms in the Masonic building. At eight o'clock tomorrow morning the party will be taken in carriages for a tour about the city, and at ten o'clock the steamer May Queen will leave the Indiantown wharf to take the visiting mystics on a trip up the river. Luncheon will be served on board and the steamer will dock at 6.30 p. m. on return. The visitors will then take special street cars to the Eastern S. S. Co's wharf, where they will embark on the steamer "Halvin Anita" for Boston. Le Baron Thompson, of the Eastern Steamship Company, who accompanied the shriners on their trip from Boston and their tour through Nova Scotia will return on the boat with them. F. B. Ladd, past potentate of Melba Temple, is the grand officer of the visitors, acting in the place of Potentate A. E. Taylor, who was unable to make the trip. The party is in charge of A. C. Wentworth.
