BELIEVE STRIKERS HAVE LOST

Pressed Steel Car Plant Getting More Men Daily—The Peonage Charge

Pittsburg, Aug. 25.—The strike situation at McKee's Rocks has now settled down to the quiet that prevailed several weeks ago before the Sunday night riot. It is generally conceded that from now on trouble, if any, will be of a minor character, and rioting practically out of the question. It is further conceded, even by several of the strikers' executive that the strike workmen here all but lost their cause as the Pressed Steel Car Company is in daily operation now and is increasing the number of imported workmen daily. Agents of the federal government today will enter the plant of the Pressed Steel Car Company at McKee's Rocks to investigate the charge that peonage has been practiced there since the beginning of the strike of the 3,300 employees of that corporation.

NEW MATTER IN FREE SPEECH CASE CAME OUT THIS MORNING

Trial of Merissis Began in the County Court—Some of his Evidence—Crown's Case is Closed

Indications are that the case of George Merissis will be in the hands of the jury this afternoon as the crown's case is closed. It is expected that Merissis will be the sole witness for the defence. His cross-examination will consume much time this afternoon, and subsequently the addresses of counsel and Judge Forbes will be delivered. Mr. Mullin would not agree to combination of the two trials. Mr. Merissis in the latter's store. Merissis displayed a typewriter item which Mr. Golding's copy and said he wrote to Merissis to request that items bearing on employees of the Nickel be suppressed. He said he received items each week concerning Nickel employees, and advised the witness to refrain from speaking of receiving the items to outsiders. Mr. Golding was recalled, and said that he had been in the store for some time. He said he had seen Merissis in the latter's store. Merissis displayed a typewriter item which Mr. Golding's copy and said he wrote to Merissis to request that items bearing on employees of the Nickel be suppressed. He said he received items each week concerning Nickel employees, and advised the witness to refrain from speaking of receiving the items to outsiders.

THE CANADIAN BROTHERHOOD BUSINESS TODAY

Moncton, N. B., Aug. 25.—(Special)—The Canadian Brotherhood of Railway Employees today heard two reports of the Grand Board of directors and committee for constitution. They will be taken up later. The financial statement showed a substantial surplus. This afternoon the solicitor for the society, A. D. Allan, is giving an address. A new corporation was secured from Ottawa in July last.

Fashion Hint for Times Readers

A CALLING GOWN OF BROADCLOTH.

Clothes, especially broadcloth, are fashionable for this fall and winter. This stunning calling gown is built on the princess plan. The button trimming down each side of the gown is completed in the buttons from shoulder to elbow of the sleeves. These sleeves show the two material style that is so popular in Paris at the present time—the top part, in this instance, is broadcloth, while the lower is of lace, braided with narrow stonche. Around the neck she goes a fitting of satin, and at the waist and hanging in front is a Directors sash.

FIVE DOLLARS TO SEE MRS. BELMONT'S HANDSOME HOME

Money Raised in Interest of Votes for Women—First Stranger Across Threshold in 14 Years.

Newport, R. I., Aug. 25.—Unique among the varied events which have characterized Newport's summer resort life of many years, was the meeting yesterday at Marblehouse, Mrs. O. H. P. Belmont's magnificent summer home, in the interests of women's suffrage.

The meeting, which was under the auspices of the National Woman's Suffrage Association, was held in a parlour tent, pitched on the extensive lawns surrounding Marblehouse. In the centre of this tent a platform had been erected for the speaker.

HARNESSING LONG SAULT RAPIDS

Brookville, Ont., Aug. 24.—Hon. Geo. P. Graham has been warmly welcomed home. While absent the master of harnessing a project of the Long Sault Rapids for power purposes has been of interest to the residents of Eastern Ontario and on the occasion of a ball announcing the completion of the project, the minister of railways and canals said:

"It is a big proposition. It will have to be decided from the standpoint of the Canadian people. The plans, first proposed in 1870, have not been carried out to date. The project is of great importance to the province, and it is my duty to see that it is carried out as soon as possible."

SHOTS FIRED AT GLACE BAY TRAIN

Glace Bay, N. S., Aug. 24.—More skilled miners went into the Dominion Coal Company's mines today. Of these twenty-six arrived at Sydney from Glace Bay by train.

BRUNET GIVES HUMOROUS TURN TO MONTREAL INQUIRY

Montreal, Aug. 24.—A humorous turn was given to the work of the Civic Royal Commission today when Rodolphe Brunet, the famous middleman for the distribution of road contracts, came into the spotlight on the witness stand.

SEVEREST INDIGESTION CURED BY "No. 11," Father Morrissy's Stomach Remedy

So many people with Stomach Trouble came or wrote to Father Morrissy that he gave the matter special attention, and devised his "No. 11" Tablets. Each of these tablets will digest 24 pounds of food—a good meal—so that even if the stomach can scarcely eat at all, the meal will be digested.

THE MESSAGE

By LOUIS TRACY

(Continued.)

"Here is Rabat," he said, "and here, beyond the mountain chain, Lektawa. Now, there appears to be little doubt that Captain Warden was the European who counteracted at Bel Abbas, and I am inclined to believe the north-bound caravan's account of his proceedings there. A long way south, at the very verge of a tremendous stretch of desert, we come to Timbuktu. The obvious inference is that he adopted the Sahara route as safer than the journey across Morocco, and headed that way in order to reach Nigeria, the place where his duty lies."

"Can he do it? Dare I even hope that he will pass unharmed through thousands of miles of wild country inhabited only by savages?"

Her voice broke and the sailor saw that her eyes were filled with tears. More pleased than ever, he tried to dispel her foreboding, though none knew better than he the perils Warden would have to encounter.

"Steady, Miss Dane," he said cheerfully. "He jumped the worst fence when he got away from Lektawa with money and supplies. The fact that he made Bel Abbas vouches for his ability to take the rest long before he reaches the thousand-mile limit. Once there, he is practically in British territory. To put it bluntly, two months ago I didn't think his chance of being alive amounted to a row of beans, whereas today I am confident he will pull through."

"So you did not tell me everything at Funchal? Are you keeping back the less pleasing facts?"

"No, on my honor, I have given you the whole budget."

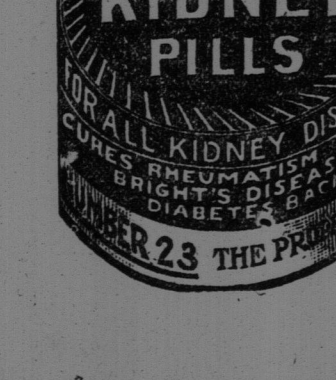

"When will it be known whether or not he has arrived in Nigeria?"

"Ah, that depends on so many circumstances. It is six hundred miles from Bel Abbas to the Niger, and there may be difficulties. May I ask you a personal question, Miss Dane? Are you Captain Warden's fiancée?"

"I thought so," sobbed Evelyn.

"You thought so? Didn't you know?"

"There was a moment when I knew whether or not she had arrived in Nigeria. The moon beamed a silvery ribbon across the dark Atlantic, and I saw her in the distance. She had magic path laid Africa, and her heart had bridged the void ere she was severed."

SICK HEADACHE MONTREAL GIRL TRAPS BURGLAR

Awakened to Hear Him at Work, She Slips Out of House and Gets Police.

Montreal, Aug. 24.—Caught in the act, a man named Hornblow, 677 Dorel street, appeared in the Arrondissement charged with burglary. The thief was collecting his spoils, preparatory to leaving the house, when he was arrested.

The house at the time was occupied by two girls, Miss Constance and Miss Brewer.

It was about four o'clock in the morning when Miss Constance was awakened from her sleep by the noise of falling glass and judging from the sound she guessed that it was the dining room window that had been smashed in. Instead of fainting as most girls would have done, Miss Constance donned a wrapper and crept cautiously down the stairs. As she passed the dining room door, she heard faint sounds coming from the room and the door handle rattled as if somebody were about to come out of the room.

Clinging to the wall, not daring to breathe, she crouched in abject terror, and after what seemed to her a year, but was in reality only a few seconds, the noise stopped, and taking advantage of the opportunity, she ran to the front door and softly let herself out to the street.

Dreading that she might be followed by the burglar, she ran along the street, and finally came to a house occupied by Mr. Lefebvre, whom she knew. Briefly she stated her case, and he telephoned for the police. Er five minutes had elapsed Constable Rochon appeared on the scene, and together they repaired to the house, where the "Bill Sykes" was quietly plying his trade, totally unaware of his impending fate. Letting themselves carefully into the house they heard sounds proceeding from the kitchen, indicating the robber's whereabouts. He nearly fainted with surprise when the constable touched him on the arm, and advised him quietly not to resist.

He pleaded not guilty when he appeared before Judge Lacombe, and was remanded.

GREAT GROWTH OF CANAL BUSINESS

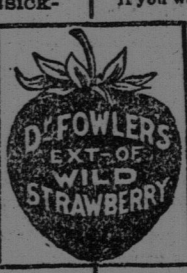

Ottawa, Aug. 24.—Canada's canal business is showing a marked increase. This growth of commerce is throwing an increase on the waterways of the country and the traffic returns to the end of July show that the total tonnage was 5,293,719 ahead of the tonnage of goods carried during the same period last year.

The Sense of Bees

Bees have a special sense not unlike that of carrier pigeons. This has been shown by their knowledge of living. They are not guided by sight or odor, and can fly two miles from a hive and then return on a direct line with their supply of honey. This has been tested when bees have been taken two miles in a closed box and then released. They have returned on a direct line to their hive. Other tests have been made which show that the sense of smell with the bee is not strong enough for it to be guided back to the hive after a two-mile journey.

Fredericton, N. B., Aug. 24.—City Treasurer Golding states that the amount collected in taxes this year up to August 20, when the discount expired, was slightly in excess of \$46,000, or about the same as last year. The assessment for the year is \$71,000 and the discount allowed was five per cent.

FOSTER AT HALIFAX ON ASPECTS OF CANADIAN NATIONALITY

Halifax, Aug. 24.—Hon. G. E. Foster addressed a large audience tonight, delivering a strictly non-partisan address on an imperial subject. His topic was Some Aspects of Canadian Nationality, with special reference to naval defence and Canada's relation to the empire.

WANT MORE MEN IN WEST

Statement made today by an official of the provincial government, Manitoba is facing a serious situation because of the scarcity of farm help. Ten thousand men are urgently needed in the province, yet in Manitoba, out on Hartney branch, says, farmers asked for 500 men and received a dozen. Grand View received twenty, though it could employ 130. In the southwest of the province thousands of acres are lying uncultivated. In some places women and children are working in the fields.

MILITARY DRILL

A correspondent who is very strongly opposed to military training in the schools urges the Times to join vigorously in a protest, and says—

"The provincial government and board of education seem about to do their part to carry out Sir Frederick Borden's scheme of instituting military drill and rifle practice into the common schools of Canada, as they recommend its introduction into the Normal School, also the U. N. B. No one who is at all in sympathy with the great peace movement throughout the world, and who cares enough to exert himself in its furtherance can afford to look on and do nothing when such a step as this is in contemplation. Even if nothing can stop the mischief it can at least be deferred until the people are familiar with the significance of it, which they certainly are not at the present time in New Brunswick. Protests may be made, resolutions formed, by committees or societies, which may serve as a basis for or as a means of creating a peace society in St. John, which is much needed, to instruct the community in the ideas of a court of arbitration as a substitute for war, the work in that direction already accomplished, the growing internationalism, and kindred subjects. Such a step would make it manifest to the whole world that the peace movement is not a mere propaganda in the province."

"The Times is unable to assent to the views here expressed. Military drill in the schools will not develop a bloodthirsty generation. It will improve the physique and the general health of the pupils, and will teach them habits of discipline, and will tend to injure them in any way. In the opinion of the writer, it is not necessary to instruct the community in the ideas of a court of arbitration as a substitute for war, the work in that direction already accomplished, the growing internationalism, and kindred subjects. Such a step would make it manifest to the whole world that the peace movement is not a mere propaganda in the province."

"The Russian government continues to treat revolutionists with great severity. Decisions have been handed down at Orel, in the case of the twenty-six Social Revolutionists recently placed on trial there on charges of promulgating their views among the peasants. One of the prisoners was sentenced to death, twenty-four sentenced to penal servitude, and only one was acquitted."

"There will not be as much interest in the return of ex-President Roosevelt to the United States as has been manifested by the return of Mr. E. H. Harriman. The condition of Mr. Harriman's health has a bearing on dividends, and that comes very close to the pockets of the people. Hence the anxiety."

MORNING NEWS OVER THE WIRES

Frederick R. Sumner, one of Moncton's popular young business men, was tendered a complimentary dinner at the Brunswick Hotel last evening. Mr. Sumner is to be married this evening to Miss Denier, also of Moncton. Capt. P. Delaney of the steamer Bruce, has accepted the position of ship's husband of the Reid Newfoundland Steamship Co., and will be succeeded on the Bruce by Capt. Drake, of the Gloucester. Miss Grace Fordham, of Toronto, has gone to Northern Mongolia, where she will be a missionary. She has been sent by the East End Mission of Toronto. Chatham, Ont., has passed a by-law imposing a license of \$50 a year on laundries and appointed an officer to see that they are kept in a sanitary condition. The new law is aimed at the Chinese. Emory Shelley, the sixteen-year-old boy held at the Simcoe, Ont., jail on suspicion of having caused the death of Michael Hall, a blind farmer, near Wainwright, was liberated, as the police have been unable to get evidence against him. Farmers in the vicinity of Hillsboro, Albert county, are complaining of the loss of their sheep by dogs. More than \$100 worth of stock has been reported de-

the full benefit of the big corn crop. Food ought to be, and probably will be, cheaper than it has been lately. But cotton and wool are high and textile prices show no disposition to recede. Most of the prices are rising. Structural steel is not a commodity that the average citizen purchases, but he is affected by its price; and all steel prices are up. The most important item of expense is rent, and with the growth of population it tends upward, but the extensive building operations all over the country may keep abreast of the demand.

In Europe the same question is being debated. Thus the Vienna correspondent of the London Economist writes—

"The cost of living is the subject of numberless meetings held in this country, where not the workmen only but the middle classes, with fixed salaries that cannot be increased by any ingenuity, are at a loss how to make ends meet. Nearly all government officials from the chief of a section in a government department to the young assistant, who has to serve ten years at a nominal salary, are in debt. In Hungary people are even worse off than in Austria. A democratic paper in Budapest writes: 'In no civilized country does the laborer and skilled workman pay so much for the necessities of life as in Hungary. The rents of miserable rooms and kitchens swallow up one-fourth, in the best cases one-fifth, of the year's income. Nowhere in Hungary do the government or the employer provide cheap lodgings for their employed. Important articles of consumption are monopolized by the state, such as salt, tobacco, spirit, petroleum. And where there is no competition the price is high. In Hungary, the corn (wheat) growing country par excellence, bread is dearer than in Austria, Germany, Belgium and Holland. Meat at present is dearer in Hungary than anywhere else. The system of taxes makes the brewing of cheap beer an impossibility. Nobody in Hungary thinks of growing vegetables in a garden. Instead of promoting agriculture, the government seems to learn to more than its profit. It spends its millions upon creating an industrial class, the employers of which have to be materially assisted, and the employed are for the most part aliens, since the Hungarian laborer, who has in numberless generations tilled the earth and cultivated the vine cannot know a more profitable occupation on an enormous scale than the result. The census shows that the Hungarian workman earns less than the European average of 288 crowns, or 120 shillings a year. Yet nowhere in the world are there as many coffee-houses, casinos and clubs as in Hungary, and as many people who spend their whole time playing cards and discussing politics."

A recent Winnipeg letter gives some evidence to show how real estate values have gone up in that city. We quote: "Two record prices of real estate were made this week. One of these was a price of \$1,500 a foot for a lot on the main street, well out on the avenue, and the other was a price of \$130 a foot for a residential property on Wellington Crescent. These are the highest prices ever reached in their respective localities, although Portage avenue frontage near Main street has sold for \$3,000 a foot."

The Russian government continues to treat revolutionists with great severity. Decisions have been handed down at Orel, in the case of the twenty-six Social Revolutionists recently placed on trial there on charges of promulgating their views among the peasants. One of the prisoners was sentenced to death, twenty-four sentenced to penal servitude, and only one was acquitted.

There will not be as much interest in the return of ex-President Roosevelt to the United States as has been manifested by the return of Mr. E. H. Harriman. The condition of Mr. Harriman's health has a bearing on dividends, and that comes very close to the pockets of the people. Hence the anxiety.

The premier of Newfoundland says there was not a discordant note at the imperial defence conference. This is sad news for the St. John Standard, which thought it heard echoes of wild strife caused by the determination of the Canadian delegates to regard England as an Enemy.

There will not be as much interest in the return of ex-President Roosevelt to the United States as has been manifested by the return of Mr. E. H. Harriman. The condition of Mr. Harriman's health has a bearing on dividends, and that comes very close to the pockets of the people. Hence the anxiety.

AN UNHEARD MELODY

"Grandma, won't you play the music that you played in years gone by?" And she smiled upon us sadly.

Half a smile, half a sigh— And she murmured, "See, my children! So, you would her chair in silence there the dim uncertain gloom, Where the grand piano rested In a corner of the room, From the dressing garden drifted All the lilac's deep perfume.

Then the wan, slim hands that trembled, Touched the sleeping ivory keys; Was she thinking in the twilight, Of forgotten melodies? And of years more sweet with music And of brighter days than these?

One faint, half-discordant echo, One light touch and nothing more And she knew that she would never Play the notes we love so dearly 'Till she saw the sunrise breaking On the future, distant shore.

So we closed the grand piano; Wheeled he softly to the light; Struck that just to have a look, Should have made our eyes less bright, And we played no more that night!

IN LIGHTER VEIN

THE DIFFERENCE

"Some men are so unreasonable," sighed Mrs. Jones, "that I don't know how to deal with them."

"Yes, and all women are," replied Scottie quickly.

DIFFICULT

One tooth has grinded only one, And when worn on the cob is served by stipe it goes down, Not sideways—What a job!

HIS REQUEST

"So you're going away for a couple of weeks, are you?" said the neighbor very gravely.

"Yes, answered the man, 'I think I will be gone that long, if I don't get better.' 'Good,' answered the neighbor, 'Let us take your horse and your garden hoe till you get back, will you?'

"The June groom had an awful shock yesterday."

"What happened?"

"The June wife fished her first millinery bill out of him."

PROOF

"Was his motor going so very fast?"

"Your honor, it was going so fast that the building on the road behind him looked like a dachshund."

PROVIDED

"I am sorry, my dear sir, but I neglected to bring my usual instrument with me. That will be all right, doctor. The plumber has left his tools here."

SOFT SNAP

"Gee," said the observing small boy, "when I grow up I'm going after a political job."

"What for?" asked the man.

"So I can go to the mill game every afternoon," he replied.

EASY JOB

Of the culprits halted before a police magistrate for a traffic violation, one was asked to explain the cause of his offence.

"I was driving along," he said, "when I saw a policeman standing in the middle of the road. I stopped, and he asked me what I was doing."

"I was driving," he said, "and he asked me what I was doing."

"I was driving," he said, "and he asked me what I was doing."

LIBERTY OR DEATH

"Darling, I have something to tell you."

"As she spoke the young and beautiful girl looked anxiously at her lover."

"Are you prepared," she murmured, "for the worst?"

"He stired uneasily."

"Before we can be married it will be necessary for you to submit to a test. Next week there will be in our house a family reunion. It is a very important occasion. Suppressing an involuntary shudder, the young man said, 'I will do anything to please you, but I will not submit to a test. I am not a coward, and I will not let myself be controlled by a supreme effort.'

"That is all right," she said, "but I will not let myself be controlled by a supreme effort."

"I will do anything to please you, but I will not submit to a test. I am not a coward, and I will not let myself be controlled by a supreme effort."

BREAKS LEG ON WAY TO D. R. A. MEET

Charlottetown Cadet Hurt—Truro Man Leads in Governor-General's Match.

Ottawa, Aug. 24.—In the cadet team shoot for the Roberts cup at the D. R. A. meet today a team of eight boys put on an aggregate score of 410 at 200 and 300 yards. The score will be forwarded to London and compared with scores made by other cadet teams in various parts of the empire.

Cadet MacKenzie, of Charlottetown, who was to have shot, broke one of his legs getting off a street car before the match could not compete.

Ottawa, Aug. 24.—In the D. R. A. meet today the first stage of the governor general's match was shot. Conditions were favorable and fine shooting was done at the two ranges—400 and 300 yards. Lieut. Sutherland of the 78th Truro, won first place, taking the Patterson cup and \$30 with a score of 69 out of a possible 70. He put on thirteen bull's eyes and an inner with his fourteen shots. The eighth man was Corp. Pevell, 63rd, Halifax, who won \$12 with 65; nineteenth, Pte. Peel, 78th Truro, 68, 67; twenty-third, Capt. Gibson, 6th Woodstock, 68, 66; twenty-seventh, Captain Forbes, 72d Chatham, 68, 66; 45 each with 60 points. Pte. Dickson, 69th Annapolis, 68; Governor general's tyros—84 with 60 points. Sgt. Parker, 66th Halifax; J. Kennedy, Truro, with 61 points.

The second and final stage of the governor general's match will be shot tomorrow.

ANOTHER HOPE FOR THE STOUT WOMAN

There is a little shop just off the fashionable Rue de la Paix in Paris which makes wonderful "reducing garments" guaranteed to bring down obstinate hips to Moya-age measurements. The latest is a rubber hip cyle which fits skin-tight and is provided with eight stout straps, each may be drawn in as the inches melt away. Each hip reducer is made to order and is to worn three hours a day during a brisk walk, corsets being dispensed with at this time and a long, loose top coat covering the figure. The applicant for leanness is assured that ten pounds a week may be dropped in this way.

Do not have a hat covered with perishable flowers, but choose a rough straw shape and a smart bow.

CIRCUS GOOD, BIG CROWDS PRAISE IT

Menagerie Interesting and Ring Shows are of a High Standard—Fine Trapeze Work.

The Norris and Rowe Circus drew big crowds yesterday and pleased them greatly. It is a good show and well conducted. There is, too, an interesting menagerie. The performance opened with an introductory pageant in which the performers passed in review before the audience. The first display was an equestrian novelty in which groups of gentlemen riders performed a fancy drill very gracefully. Five young ladies in status grouping and posing were loudly applauded as was Mr. Antonio in an act in which he displayed the sagacity and cleverness of a diplomat. The act of Mr. Merritt with his troupe of Shetland ponies was very creditable, while Miss Kate Holloway mounted on a prancing charger, showed herself a very capable horsewoman.

Miss Castello in a horseback riding exhibition, Miss Rose Dockrill in a high class equestrian act; Dave Costello and George Holland in some hair-raising feats on galloping horses pleased the spectators with their skill and cleverness.

The wire acts were well up to the standard and favorably received. In one ring the Mellouries, man, woman and two children, performed some sensational acts on the wire, in the other R. Orton, in a clown's costume, showed himself thoroughly familiar with his work on the slack wire, and on the stage in the centre the Orton troupe merited much applause by their finished performance on the tight wire.

Some balancing feats on ladders by Ben Lucier and Hugh Melnott were exceptionally good, as was comedy acrobatic work by Nelson brothers. The Schenk family acted on the stage in acrobatic and tumbling acts, and on the triple trapeze received a double share of praise. The acts on the double trapeze and triple trapeze by the Ortons, Banyards, Mr. and Mrs. F. Glascock, Miss Meyers and Mr. Dooley, in which they performed the thrilling and sensational feats, were of a high standard. Mr. Dooley's head balancing act on a single trapeze was especially clever.

What was considered by many the most extraordinary act of the whole performance and the one requiring the most daring and skill was the aerial display by the "Peerless Pottery," a man and woman, executing the most perilous deeds of vaulting, passing and catching each other in the air and numerous other reckless but accomplished feats.

John Holland's bareback riding act on a mule was very laughable and clever. The Baker troupe—three men and two women in a number of new and dexterous acts on bicycles and cycles, was a feature of the show.

The performance closed with some fine exhibitions of horsemanship, a group of Cossacks performing some accomplished acts in and out of the saddle. The elephant and pony races were very interesting.

The circus concert band played entertaining selections throughout the performance. Excellent order was maintained on the circus grounds, thanks to the vigilance of Chief Clark and fifteen patrolmen. Not one case of "dim-flaming" or "short changing" was reported.

MEAHAN CONTRADICTS GREEK

Moncton, Aug. 24.—George Meahan, who is referred to in the evidence of Merissa in the Free Speech case, contradicts the Greek Gaily. He says Merissa wasn't introduced to him but came into his shop and introduced himself, asking to be taken to Free Speech office and introduced to the editor. He didn't go with him. He had no correspondence with Merissa concerning Free Speech and had nothing to do with the paper whatever. July 12, Merissa says, Meahan visited his store in St. John. Meahan says this is absolutely false, as he was at home in his place of business that day. He denies having anything to do with Free Speech in any shape or form.

Vessels Had No Charts

After the battleships Montana and North Carolina had been ordered to the relief of the Americans in Turkey several months ago, the Navy Department at Washington was starting to receive a wire message from Captain Marshall to the effect that neither vessel had charts of the Turkish waters in which they were to sail. Inquiry at the naval station at Guantanamo led to the discovery that none of the charts was available. The problem was finally solved by purchasing from the British government the necessary maps when the ships stopped at Gibraltar. This action would not have been permissible in time of war, and the American government would have run the chance of a great loss through this neglect.

OBITUARY

Capt. Charles Babbitt

After an illness of four days, Captain Charles Babbitt died yesterday afternoon at his residence in St. James street. Although in his eighty-first year, Captain Babbitt was in fairly good health until last week, and was able to attend to his duties as clerk in the I. C. R. freight house. During the greater part of his life Captain Babbitt was engaged in the steamboat business on the St. John river, and was of Small & Hatheway in the river trade. He was an exceedingly courteous and obliging officer and indeed was a very kind-hearted and agreeable man generally, with hosts of friends throughout the country. Before he entered the mercantile profession he was an active member of the Liberal party. Captain Babbitt was of Loyalist descent. The late Robert I. Babbitt, of Gasquetown, was a brother; a sister lives in California. Captain Babbitt is survived by his wife, a daughter of the late Judge Williston, of Northumberland. His body will be interred at Gasquetown.

Howard C. Carson.

St. Martins, Aug. 24.—The death of Howard C. Carson, of West Quaco, on Sunday, of paralysis, after a very brief illness, has made a profound impression upon the community. He was well and favorably known. Deceased, who was thirty-three years old, was the eldest son of Thomas and Lavinia Carson. Besides his parents, deceased is survived by five brothers—Raymond, Walter, Omar, Clarence, Ira; and one sister, Miss Bessie. Interment took place in the Brown burying ground this afternoon. The funeral was largely attended. Rev. Mr. Manuel, Free-burien, conducted the services.

Mrs. Philip Breen

St. Stephen, Aug. 24.—(Special)—Mrs. Philip Breen, who has been in failing health for some time, passed away at her residence in Marks street at an early hour this morning. Mrs. Breen has the sympathy of the community in his sad bereavement. The funeral will be on Thursday afternoon.

CHIEF OF POLICE FOSTER IMPROVING

Hartland, N. B., Aug. 23.—The latest word from Chief of G. T. P. Police Foster is that he is gaining, and if nothing unforeseen occurs he is likely to recover. It is now surmised that he had typhoid in mild form for some time before he succumbed to illness, and that the disease is past the critical stage.

Harry F. Gardner, who has been at Waterville since the death of his father, returned to Fort Fairfield (Me.) today.

Miss Bertha Woodworth, of St. John, who has been spending the summer with friends at Somerville, Andover and Bath, will return to her city tomorrow.

Harry Tompkins, who for three years has lived in Houlton (Me.), is removed from there and will temporarily live at the home of his father, H. M. Stevens, Somerville. In September he expects to move his family, consisting of his wife and three children, to Riverside (Cal.) to reside indefinitely.

Mrs. George DeWitt has returned from a three weeks' visit with her son, Ernest DeWitt, of St. John.

Tomorrow Miss Marion Tompkins-daughter of the late Nehemiah Tompkins, of East Florenceville, and who has been visiting a couple of weeks in Waltham (Mass.), will leave for city for Vancouver (B. C.)

Harry Tompkins, of Oakland, near here, has a severe attack of typhoid fever.

Arthur Kyle, bookkeeper for F. E. Sayre & Co., returned today from a few days' visit in St. John.

A representative gathering of the congregation of the United Baptist church met at the church on Saturday evening and gave a warm reception to their new pastor, the Rev. E. L. Stearns, and family. A pleasant time was spent and a picnic supper on the church grounds was much enjoyed.

WHERE IS GOVERNMENT

GRANT FOR TEACHERS?

Several of the teachers stated yesterday that there is considerable dissatisfaction among the members of their profession in the city and county of St. John over the non-arrival of their government grant. What makes the matter all the worse from their standpoint is the report that the teachers in some of the other counties of the province have received their grants and they are beginning to ask why an exception should be made in the case of St. John. One of the most prominent teachers of the city, talking with a Telegraph man yesterday, said that for the last fifteen years the teachers had received their grant twice a year, the checks always coming to hand on February 10 and August 10. Last February, however, it was the 15th before they got their money. According to the strict letter of the law, he admitted, the board of education can send these grants up to August 31 but he thought that they should explain why the custom which has held good for fifteen years should be discontinued now.

COLD STORAGE COMPANY MEETING

The annual meeting of the New Brunswick Cold Storage Company, Ltd., was held at the company's offices, Main street, yesterday afternoon. The retiring board of directors met at 12.30, there was a general meeting of the shareholders at 1 o'clock and afterwards the new directors met and completed organization. At the general meeting the reports for the year showed the business to be in fairly good shape. It was decided to increase the number of directors from five to seven. Directors and officers were elected as follows: President, George McVitty; vice-president, John B. M. Baxter; secretary-treasurer, L. S. Macoun, Ottawa; directors, John W. Yanwart and H. R. Ross, St. John; R. J. Graham, Belleville (Ont.), and F. O. Lewis, Ottawa. Hon. D. V. Landry, commissioner of agriculture, and Hon. J.

CHARGE A. O. U. W. OFFICIAL

K. Flemming, provincial secretary, are ex-officio directors representing the government. H. R. Ross was re-elected manager. John Osterholme, for three years financial secretary of Clinton Lodge, No. 44, A. O. U. W., was arrested by Patrolman Dart last night on a warrant sworn out by the trustees of the lodge charging misappropriation of the lodge funds to the amount of \$702. When he appeared before the magistrate this morning he was held on \$1,000 bail.

WERE QUICKLY HIRED

Winnipeg, Aug. 23—The 9,000 harvesters who arrived at Winnipeg between Saturday noon and mid-day on Sunday were quickly engaged for work, some before Winnipeg was reached.

THE WHEAT CROP

Large Yield Assured—Oats, Barley and Flax Doing Well

The Winnipeg Telegram has compiled with considerable care, a statement of crop conditions throughout the West based on reports received by wire from nearly three hundred correspondents, who covered every grain growing district in Manitoba, Saskatchewan and Alberta that could be reached by telegraph. The information contained ought to set at rest any misgivings as to crop prospects. The sum of the report is that the western wheat crop, up to the commencement of harvesting operations, has shown a serious damage from any cause. A number of districts have suffered from hail, but these represent an area of inconsiderable percentage of the wheat area. Most of the hailed districts report an increased acreage, which will enable them to reap a heavier crop than last year, notwithstanding losses from hail. The reports as to the yield are extremely cheering. A hundred and thirteen places say the crop will be over twenty-two bushels to the acre, and in a great many the estimate is made that the yield will ultimately be found to run from thirty-five to forty bushels. One hundred and nineteen places predict a crop ranging from 18 to 22 bushels, and only 20 expect less than 18. Several of these thirty-nine have been affected by special cases, and in a few cases runs very much higher. A majority of the bulletins indicate a yield of from forty to fifty bushels of oats, while several of them run to considerably higher figures. Flax in the districts where it is cultivated has also done well.

CARRYING RAILS TO THE PACIFIC

Vancouver, B. C., Aug. 23—Big shipments of steel rails are being made to Victoria and Vancouver and Prince Rupert, some of the steamers on the way being scheduled to proceed to the northern port with their cargoes. The last steamer added to the list, which now comprise a fleet of large freighters, are the Wadon which reached Ross on July 22 from Tatal and is proceeding to New York to load, and the steamer Foxley which arrived at Baltimore on August 2 and proceeded to New York a few days ago to load rails. Other vessels are the Hercules, Crown of Galicia and Belle of Spain, all of which are bringing cargoes of rails from the Dominion Steel Company's works at Sydney, Cape Breton. The Hercules, which left Sydney on June 11 is now fully due. The Crown of Galicia, which is 38 days out from the Cape Breton mills, passed Fernando Noronha on July 24. Other steamers are expected to be listed shortly to bring further cargoes of rails to this coast, for street railroad work and for the Grand Trunk Pacific railroad and C. P. R. Every steamer of the Blue Funnel line which has arrived for the past few months has brought heavy shipments of rails which have been landed at Vancouver.

A YOUNG THIEF

Kingston, Ont., Aug. 23—A purse-snatcher, a thirteen-year-old lad named Stanton, will be placed in a home for guardianship. He matched Mrs. E. Ford's purse. After a lively chase he was captured. He confessed his guilt and he also admitted robbing a man's clothes while the owner was in swimming.

BAPTIST CONVENTION AT HALIFAX CLOSED LAST NIGHT

Presentation of Gavel to Rev. Dr. Cohoon—Strong Resolution on Moral Reform—Home Mission Amalgamation.

Halifax, Aug. 24—The maritime Baptist convention closed tonight at 11 o'clock but Hon. Mr. Foster's lecture in Masonic hall appreciably delayed the house in the evening. The public meeting was devoted to the presentation of Christian education. It was prefaced by a little departure from the programme, the presentation to the president, Dr. Cohoon, of a gavel made from wood from the last four walnut trees planted in the city by Wm. Carey. The gavel was a gift from Mrs. J. C. Archibald, who was, however, ill and therefore unable to be present, the presentation being made by Rev. Mr. Higgins. The first speaker was Dr. DeWolfe, principal of Acadia Seminary. He dwelt upon what Acadia has done for the churches. It had unified the churches. She was more responsible for this desirable thing than any other force within the past seventy-five years. Rev. Dr. Kierstead, of McMaster University, stressed the importance of Christian education bears to the growth of the church and the stability of the nation. He thought it might be well to invite attention to some of the church educational institutions outside provincial limits, to institutions in the west, in Manitoba, in Quebec, where the Grand League mission is located; the flourishing conditions of all; the growth, notably of McMaster, where there are 112 ministerial students was referred to in a most convincing and interesting way. Coming to Acadia, he congratulated the convention upon the splendid financial

HARRIMAN HOME, IS FAR FROM WELL

Feeble and Gaunt but Hopeful of Regaining Health—Effect in Wall Street

New York, Aug. 24—Edward H. Harriman, financial leader of men and master builder of railroads, came back to the United States today, while the financial world stood on its tip toe in anxiety and expectancy. He came back as he left in June 1 last, a sick, tired man, seeking health. Tonight, surrounded by his family and physicians at his magnificent though uncompleted summer home at Arden on the Hudson, he has begun the "after cure," which he will maintain in seclusion, how long it will be before he resumes the active direction of the vast railroad interests, depends solely upon his health. He arrived today feeble, face gaunt and voice weak. "And I have come for work," he said, "to see if I can get on my feet." Many great Americans have returned to their country's shores under extraordinary circumstances, but never has there been a more remarkable home-coming of a private citizen than E. H. Harriman's. Great stock market operators passed as his ship drew near, the stock market itself marked time and the industrial world turned its eyes seaward, as it were, eager for a glimpse of the face of the man whose illness abroad has furnished much material for stock market rumors. Contrary to expectations the financier did not leave the Kaiser Wilhelm II. down the bay, but remained on board until he had reached at Hoboken. Then, after being assisted ashore, he boarded the Southern Pacific tug and was taken to Jersey City, where he was again assisted to his private car. From there the trip was quickly made up the Hudson to his mountain home at Arden.

THE CRY OF THE WEST.

The west is crying out for more laborers to assist in the harvesting. There is a great scarcity of farm help in the west, and as the number of laborers who went from the provinces on the first excursion was only half of what was expected there is a great shortage. In order to save the crops it is necessary for the west to have additional assistance from the east, hence the cry "More Harvesters, More Harvesters" is being heard. The Canadian Pacific Railway is called upon to run "ANOTHER FARM LABORERS' EXCURSION" which has been arranged for September 1. The arrangements will be as simple as were in effect for the previous excursion. Fare from St. John to Winnipeg \$12. Tickets will be issued from points on the Intercolonial, Prince Edward Island and Dominion Atlantic railways at same rates as were in effect for previous excursions.

BYRCE'S ST. ANDREWS VISIT OFFICIAL

(Montreal Herald.) Sir Thomas Shaughnessy, president of the Canadian Pacific, returned today to official headquarters after spending ten days at his summer vacation at Andrews. The Right Hon. James Bryce, British Ambassador at Washington, accompanied by Mrs. Bryce, came to a visit to St. Andrews on Wednesday, and on that day and the following they were the guests of Sir Thomas and Lady Shaughnessy. The purpose of Mr. Bryce's visit was to secure, by personal inspection, some information about the waters and islands in that vicinity, presumably in connection with the forthcoming adjudication of the Atlantic fisheries dispute before the Hague tribunal.

SURE TO ASK The Kind of Coffee when Postum is Well Made

"Three great coffee drinkers were my old school friends and her two daughters. They were always complaining and taking medicine. I determined to give them Postum instead of coffee when they visited me, so without saying anything to them about it, I made a big pot of Postum the first morning, using four heaping teaspoons full to the pint of water and let it boil twenty minutes, stirring down occasionally. Before the meal was half over, each one passed up her cup to be refilled, remarking how fine the coffee was. The mother asked for a third cup and inquired as to the brand of coffee I used. I didn't answer her question just then, for I had heard her say a while before that she didn't like Postum unless it was more than half old-fashioned coffee. After breakfast I told her that the coffee she liked so well at breakfast was pure Postum and the reason she liked it was because Postum was properly made, that which is boiled long enough to bring out the flavor. I have been brought up from a nervous, wretched invalid, to a fine condition of physical health by leaving off coffee and using Postum. If you think I can help the world out of coffee slavery to Postum freedom, and have earned the gratitude of many, many friends," Read "The Road to Wellville," in pkgs. "There's a Reason."

WOULD USE IDLE SAILING SHIPS

Arrangements for Grain Chart-ers From British Columbia Ports to England.

Charter negotiations are said to be under way for the fixture of the three British sailing vessels lying at British Columbia ports to carry grain from the Sound to the United Kingdom. These are the British steamer Senator, the British bark Hadden Hall and the British ship Halewood. The Senator is thought to be under charter at the present time, though to announcement of the fixture has been made. She has been lying at Esquimaux since May, 1908, and has just been ordered to the Sound for the summer. Her recent orders are regarded to mean that she has already been chartered. The Hadden Hall has been at Esquimaux since November, 1908, and word is expected at any time that she has been placed at the disposal of the British government. She is at Vancouver where she has been in the disengaged fleet since last December. No new charters have been reported during the past week for grain loading. The French bark Genevieve Molinos, which reached the Sound yesterday from Europe, has been fixed by the Portland Flouring mills to load grain outward and will probably take her cargo at this port.

THE SCHOOLS TOMORROW

On Thursday, August 26, the public schools will reopen for another year after the summer vacation. Many of the school buildings have been undergoing repairs during the last two months and everything now is about in readiness for the children. Particularly noticeable is the completion of the fire escapes on many of the buildings. There are but few changes in the teaching staffs. The principalship of the Aberdeen school, made vacant by the resignation of Inspector McLean, will be filled by Beverly Steeves, of the High school staff. Mr. Steeves' room in the High school will be taken by Grover Martin, B. A. Up to yesterday afternoon more than 600 permits had been issued. This number was stated to be slightly larger than last year. In most cases it was found that the board of health regulations concerning vaccination had been complied with.

THE FIGHT OVER BRITISH BUDGET

London, Aug. 21—Having succeeded by means of an all-night sitting of the House of Commons in passing through committee the clauses of the budget imposing a tax on land values, the government has given the members a week's release from their arduous labors, during which time less contentious measures will be considered.

The fight over the budget, which will fairly revolutionize the system of taxation in England, has been one of the most strenuous in the history of the parliament. A mere handful of Unionists as compared with the huge Liberal majority, has been able to hold up legislation week after week, until the government, though the champion of the budget, has been obliged to introduce a number of important concessions, chief among these being that in regard to the valuation of land. Under the bill introduced by the Lord Chief Justice, it was originally proposed that the valuation placed upon property by commissioners appointed for that purpose should be final, but the Lord Chief Justice pointed out that this would be in direct contravention to the British constitution, which expressly gives the right of appeal in all cases to the House of Lords. Therefore, amended the bill allowing the right to appeal.

Another such criticized provision of the bill imposing a tax upon unimproved minerals was also withdrawn, and a tax on mining royalties and rents was substituted. The government, however, maintained the principle of taxation on land values, and in a campaign throughout the country, in which the cabinet ministers are taking part, is attempting to justify its policy. The Unionists are just as busy in opposition to this policy.

The masses seem to favor the measure, and some Unionist newspapers, recognizing this, are urging the party to give up the fight and turn its attention to tariff reform. The leaders are supported by a majority of the party, and it is said that the contest goes on until the bill reaches the House of Lords, when the majority of the party in the House will either amend or throw out the measure and thus believe force the government to appear.

It is doubtful whether the Lords will take the extreme step of interfering with taxation, which has heretofore been considered the prerogative of the House of Commons alone. Even if they did it is considered doubtful whether a general election would follow.

Mr. Lewis Harcourt, first commissioner of works, in a speech yesterday, said that if the House of Lords by refusing to give the bill, plunged the country and the Constitution into chaos, the cabinet could be depended upon to resign such advice to the Sovereign as would best conduce with the immediate future predominance of the will of the electors. In some quarters it is held that the Liberal majority, enough Liberal peers to overcome the Unionist majority.

If it is possible in any clause of the budget to deal with upon which the opposition promises to continue its fight, the government will be obliged to discharge its duties, income tax, and stamp customs.

The veiled prophesies, psychic marvel, the Panzer type and the flexible Venus accompany Clivette on his tour of the world.

LIBERTY FOR ONE HOUR

STAR'S FEATURE

One of the most intense dramas dealing with prison life and an escaped convict, is taut which the Star Theatre will show tonight and tomorrow. It is the film-fiction of a man who breaks away from Sing Sing and during his flight saves a dear little girl from drowning. The action of the piece is laid in one of the prison towns of the United States and is startlingly realistic.

The other pictures are Selig's whole reel depicting the great story, "The Peasant Prince." For laughing matter, "The Judge's Whiskers" will prove a hit. Miss Annie Edwards in good songs and blithe music as well.

NEW CANADIAN NORTHERN SERVICE

The new Canadian Northern service between Montreal and Quebec has been inaugurated. The initial trains were well patronized.

The Canadian Northern's new service from Quebec city to Shawinigan has also been successfully started.

Montreal, Aug. 25—Joseph Aimey, business agent of the Joiners' Union, has been appointed organizer of the American Federation of Labor for the Province of Quebec.

OTTAWA SCULPTURAL COMPETITION OF DESIGNS FOR TWO MONUMENTS

Competitive designs are invited for two monuments, one to the memory of the late Honorable George Brown and the other to the memory of the late Honorable Thomas D'Almeida. Each monument is not when completed in stone to cost more than ten thousand dollars, including pedestal from the level of the ground.

The competition is open only to artists resident in Canada, and artists of Canadian birth residing elsewhere.

The site will be at a point in the Government property at Ottawa, to be hereafter decided.

Designs shall be in the form of sketch-models, in plaster, made at a uniform scale of one and one-half inches to the foot. A description of the design shall accompany each model. No names, initials or other distinctive device is to be attached to the models or description. The competitor shall send his name in a sealed envelope without distinctive mark thereon.

The author of the best design will be awarded the commission of the work, the second best \$50.00 and the third best \$30.00.

The models and all communications regarding this matter shall be addressed to: Advisory Art Council, Department of Public Works, Ottawa, Canada.

The designs must be delivered before the 1st day of February, 1910. They will be kept from public view until the award has been made. All expenses of delivering the sketch-models and accompanying descriptions shall be paid by the competitor. Sketch-models are merely amusing and eccentric. In the hands of Miss Robson, however, the character becomes simply adorable. It is only once in a great while that the theatre-going public of St. John has a chance of seeing such a play. The laughter in it is not confined to the most capricious and approaches the limit of physical discomfort. It is expected that tonight's audience will be large.

MAY ROBSON AT OPERA HOUSE

Another large audience last night greeted May Robson in the Rejuvenation of Aunt Mary in the Opera House. There is no room for even the most capricious from beginning to end. The Aunt Mary conceived by Anne Warner in her novel is merely amusing and eccentric. In the hands of Miss Robson, however, the character becomes simply adorable. It is only once in a great while that the theatre-going public of St. John has a chance of seeing such a play. The laughter in it is not confined to the most capricious and approaches the limit of physical discomfort. It is expected that tonight's audience will be large.

NICKEL'S BIG BUSINESS

Though there were counter attractions of an unusual character in town last evening the Nickel was packed to absolute capacity during its three programmes and the tremendous sensation made among musical people on Monday was duplicated. Indeed, many of last night's patrons were patrons of Monday night as well and all were surprised and delighted. Tonight the Bush Family Quintette and the Nickel orchestra will amalgamate again in the numbers mentioned in the advertisement and on Thursday the Bush Quintette will have a new list of numbers as follows: (a) Andante Religioso—Thome; (b) Nocturne, Opus 9, No. 2, Chopin; and (c) Hungarian Dance—Brahms. Mr. Cairns' Thursday selection will be that old favorite, "Jessey in the Deep," with amalgamated orchestral effect. Today the Nickel's picture bill will be changed with the strong Biograph Wall Street drama, "With Her Card," as the feature. Matinee one hour long.

COMING TO OPERA HOUSE

The great Clivette company appear at the Opera House Monday and Tuesday, August 30 and 31. This company is composed of European celebrities. The London Morning Advertiser says: "The clever faces of Clivette, the autocrat of non-music, excited very keen interest, and were warmly applauded their great variety of animals are graphically represented in shadow by the action of the fingers only the shadows being perfect silhouettes, which followed in rapid suc-

J. N. HARVEY TALKS ON BOARD OF TRADE ACTION

J. N. Harvey, of this city, has returned from Charlottetown, where he attended the recent session of the Maritime Board of Trade. Speaking of the action of the St. John delegates in announcing the withdrawal of the local board from the maritime board, he said he was convinced it was the only wise step to be taken under the circumstances...

A Modern Cottage, Estimated Cost \$3,000

This low style of Gambrel roof cottage is well adapted to a city or town lot. The double pitch of roof allows full, square-ceilinged rooms in the second story, while the main floor has a low roof, taking little material and being economical to build. There is another feature in favor of this form of construction that is not often thought of. By reason of the low double pitch of the roof the frame is very rigid and strong to resist heavy winds.

LEAVE ALMS HOUSE, BACK TO OLD CAMP

Englishmen—One Sick, Other Caring for Him—Again in the Open.

The two Englishmen, Wilkes and Mooney, found a couple of weeks ago in an old camp near Robinson's Lake, Mooney sick and Wilkes caring for him, have left the Municipal Home, where they were placed and are again in the old camp.

They are existing chiefly on what Wilkes can secure during the day time in the city. Yesterday his earnings amounted to twenty-five cents. He bought some provisions and with a supply of food which he received from some people who were aware of his hard lot, went back at nightfall to his consumptive companion in their lonely abode in the woods.

Wilkes told his story to a Times man last evening. He is 21 years old and came to this country from Staffordshire, (Eng.) seven years ago. He has been in this city about seven months and he did not know his chum Robert Mooney, a man of 20 years and a native of North Shields, until he came here when they met and, being countrymen, naturally had a mutual interest.

Mooney had had \$800 saved up while he was working but it had all gone for medicine and he was penniless. In this old camp they were found by some men and were eventually placed in the Municipal Home. While Wilkes was not sick, his feet were badly swollen from tramping and it was thought that he needed a rest. They remained in the Home only one week as Mooney was desirous of a change, his health seeming to be worse. Back again they went to their home in the woods with no money and no food. The younger man sought odd jobs and soon had money enough to buy some provisions. He wants to go to Montreal, now, however, but does not like to leave his companion in his miserable condition.

Yesterday, Wilkes said, he went to St. George's Society in the hope that the society would be able to do something for them.

PYTHIANS' PLANS FOR TOMORROW

Route of March to Cemetery for Decoration of the Graves—The Service

The annual memorial day observance of the Knights of Pythias will be held tomorrow afternoon when the members of New Brunswick Lodge, No. 1; Union Lodge, No. 2; and St. John Lodge No. 30, together with Victoria Company, No. 1, and Cygnus Company, No. 5, Uniform Rank, will parade to Fernhill and decorate the graves of members.

The knights will assemble at their hall, Germain street, at 2 o'clock and, headed by the band of the 3rd Regiment, C. A. S., will march along Germain and up Prince street to Charlotte. Here they will be met by the two branches led with flowers and the march will be continued along Charlotte to Union and out Waterloo streets. A brief stop will be made to decorate graves there, and in the Methodist burial ground, across the road. The march will then be continued to Fernhill, where the usual service will be carried out, followed by the dedication of the new K. of P. plot.

TWO AND THREE-PIECE SUITS FOR SCHOOL WEAR: An Extensive Showing of Stylish New Models, Exceptionally Well Made Suits in the Most Attractive and Substantial Fabrics. When the boy is outfitted for school it is important to know that his clothes will wear to the best advantage, as nothing is quite so discouraging as to see the school suit giving out before it has rendered even passable service. The most important point about M. R. A. Suits for Boys is "wear." The materials are carefully selected, extra well and carefully sewn, linings and pockets are unusually strong. The suits are especially built to successfully resist the dihyrambic efforts of active, robust little chaps and represent school suit values of the most extraordinary and satisfying sort. Two-Piece Suits from \$2.50 to \$8.50: Coats double breasted and generously roomy, long broad lapels, some with fancy cuffs and pocket flaps, with and without belt. Straight pants and bloomer pants. Made of Cheviots, Saxons, Tweeds, broad and narrow stripe effects in brown, green and grey shades. Three-Piece Suits from \$5.00 to \$12.00: Coats both single and double breasted, nicely shaped lapels, perfect hanging sleeves and front, fancy cuffs and pocket flaps. Straight and bloomer pants. Cheviots, Saxons, Tweeds, in fine and broad stripe patterns. Separate Pants for School Wear: Tweed Mixtures, in dark grey and brown. Great Bargain. Special price, per pair 70c. CLOTHING DEPARTMENT.
