To the average reader of news the statement of Russia's move seemed scarcely more important than had the first report of the border risings in January, but to the men who had watched the growth of the disturbance it came charged with presents mean.

watched the growth of the disturbance it came charged with portentous meaning. Through the entire ranks of the opposition, from Fraide himself downward, it caused a thrill of expectation—that peculiar prophetic sensation that every politician has experienced at some moment of his career.

In no member of his party did this feeling strike deeper root than in Loder. Imbued with a lifelong interest in the eastern question, specially equipped by

imbused with a lifelong interest in the eastern question, specially equipped by personal knowledge to hold and proclaim an opinion upon Persian affairs, he read the signs and portents with instinctive insight. against the shah that occupied the thinking mind, nor was it the fact that

Russian and not Persian troops were destined to subdue them, but the deep-ly important consideration that an

The thought of Lakeley's keen eyes and shrewd enthusiasme al-ways possessed strong attractions for his own slower temperament, but even had this impetus, been lacking, the knowledge that at the St. George's offices, if anywhere, the true feelings of the party were invariably voiced would have drawn him without hesitation. I WOULD TRY TO MAKE GOOD.

To get things DONE. To give everybody A SQUARE DEAL.

To secure A DOL-LAR'S VALUE for a DOLLAR SPENT.

To SAVE where possible, but to SPEND where needed. To save or spend FEAR-LESSLY

To apply my experience of ten years in commerce and fifteen in law towards the production of a BUSI-NESS ADMINIS-TRATION.

WILLIAM F. O'CONNOR, K. C., Candidate for Board of Control.

In short, I would endeavor to produce

CIVIC EFFICIENCY

EFFICIENCY IS merely APPLIED COMMON SENSE—the doing of the needed thing as SOON sible, as WELL as possible, as CHEAPLY as possible—but the DOING of it because needed.

I might make specific promises, but I deliberately refrain. Instead, I promise to aim at CIVIC EFFICIENCY, which will ensure the supply of all things necessary and obtainable within the limits of civic-means. Surely this is no more than COMMON SENSE. Civic efficiency will entail such things as more lights, better police protection, and many other blessings as MERE INCIDENTS of proper city government.

CIVIC EFFICIENCY includes the institution of efficient business practices in city departments, and precision, orderliness and economy in the performance of civic tasks. It implies avoidance of topsyturvyism and of a too hasty interference with the things that are. TIME AND CAUTION ARE REQUISITE TO EFFECT CHANGES AND TO INSTITUTE REFORMS.

A HARD TIME AHEAD

This controllership business is a new thing and an experiment. Therefore, I think that the first controllers of the City of Halifax ought carefully to guard themselves against TOO MUCH SELF CONFIDENCE. Along with the opportunity for two years of hard, intelligent, constructive work lurks the possibility of the engulfing of some reputations in the breakdown of a new system.

I am led to anticipate election, and cannot contemplate it without considerable concern. If elected, my next two years will be occupied day in and day out with the solving of innumerable definite and unfamiliar problems, each requiring the application of clear knowledge, prompt decision and effective action. If such is to be, I shall devote to the solution of these problems the best that is in me. I class myself no higher than as AN HUMBLE APOSTLE OF THE PRINCIPLE OF THE SQUARE DEAL.

HELP WANTED

This is a cry for help. I am one of those who believe that any four of the candidates in the field would. under proper conditions, form a competent Board of Control. But official integrity, clean purpose and ability, alone, are not a guarantee of efficient civic government. It is necessary, that to these be added the support of an INFORMED, ALERT, EXACTING CITIZENSHIP, and the sympathy of a WELL-CONDUCTED PRESS.

For that reason, I believe in co-operation between the civic governing body and citizen associations ce, social improvement and public spirit; yet I conceive that in case LESSLY ACT UPON IT.

THE PUBLIC'S RIGHTS

I believe that the public is entitled to full knowledge of all the activities of the various city departments and that citizens should be ENCOURAGED TO MAKE ENQUIRIES, submit complaints, and propose improvements in the public service, with THE ASSURANCE OF QUICK, INTELLIGENT AND EFFECTIVE ATTENTION. I think that the civic government should issue frequent, brief and understandable civic reports. I am sure that among the results would be a much needed quickening of interest in civic

A WORD OF THANKS

I make the occasion one for sincerely thanking a host of friends who have assisted me throughout, the couple of thousand electors whose names appear upon my nomination paper, and the many others who have promised me APPEAL TO ALL RATEPAYERS, WHETHER FOR OR AGAINST ME, NOT TO NEGLECT THE EXERCISE OF THEIR FRANCHISE, BUT, IN THE INTEREST OF THIS GOOD OLD TOWN AND IN PERFORMANCE OF THEIR PLAIN DUTY AS CITIZENS, TO TURN OUT AND VOTE.

Yours very sincerely,

CHAPTER XVIII.

HAT night for almost the first time since he had adopted his dual role Loder slept ill. He was not a man over whom imwas not a man over whom imagination held any powerful sway. His doubts and misgivings seldom ran to speculation upon future possibilities. Nevertheless, the fact that, conscious ly or unconsciously, he had adopted a new attitude toward Eve came home to him with unpleasant force during the hours of darkness, and long before the first hint of daylight had slipped through the heavy window curtains he had arranged a plan of action—a plan wherein, by the simple method of altogether avoiding her, he might soothen his own conscience and safeguard Chil-cote's domestic interests. It was a satisfactory if somewhat

negative arrangement, and he rose next morning with a feeling that things had begun to shape themselves. But chance metimes has a disconcerting knack of orestalling even our best planned chemes. He realized within the space of a few moments that the let-sure Eve might have claimed, the let-sure he might have been tempted to de-vote to her, was no longer his to dis-pose of, being already demanded of him from a quarter that allowed of no refusal. last night out of consideration by the

"Scutari is from to-day Montenegrin," is the defiant reply of King Nicholas to the European invitation to surrender the hard won Turkish citadel. The King made this statement in the course of a speech delivered from the balcony of the Royal Palace, among his audience being the Minister of the Balkan States, who came to congratulate him. He adder "Should Europe still think of snatching Scutari from Montenegro, who has almost given her life blood to take it, Europes will have to carry out the task by force of arms."

DALHOUSIE CONVOCATION. Eloquent addresses delivered at the Academy of Music yesterday afternoon.

The annual convocation of Dalhousie University was held at the Academy of Music yesterday afternoon. The weather was most favorable, and the attendance was very large. Several eloquent addresses were delivered. Professor H. R. Mackintosh, of Edit

aigniteance of the industrie of Databusie, not only in Nova Scotia, but throughout the entire Dominion.

Following the invocation by Rev. Dr. Forrest, President MacKenzie gave a brief introduction to the ceremony, showing that Daihousie was forging ahead, thanks to the beneficial results of last year's

that Dalhousie was forging ahead, thanks to the beneficial results of last year's campaign.

In his address President Mackenzie said "I want to bring to your attention the fact that we are celebrating this mouth the jubilee of our second birth. On the 20th day of April, 1833, the "Act for the regulation and support of Dalhousie College," became law, and the Dalhousie which we know, the many sided institution with its Schools of Arts and Science, of Medicine, of Law, and of Dentistry, with its affiliation with Schools of Divinity, of Music, and of Pharmacy, with its four bundred students, with its starff about twenty men who give their whole time to its teaching and about fifty more who give part of their valuable time practically gravitiously to assist, especially in professional training, and with its annual disbursement of \$50,000, is the growth of but a scant fifty years.

At the conclusion of his remarks, the president announced the undergraduate prizes and scholarships. The degrees were then conferred. In presenting his successful candidates for degrees to the president, Dr. Lindsay, Dean of the Medical Faculty, said that, although it was at one time feared the Dalhousie graduates and the barred from registration in Great Britain, all doubt was now over.

In presenting the Governor-General's medal to the successful candidate, the president appreciated the goodness of the Duke of Connaught in so recognizing Dalhousie's worth as toward the gold medal, very few of which are granted, to the University.

G. S. Campbell, chairman of the Board of Governors of Dalhousie, outlined the work done by the Board during the past year, and stated the present condition of affairs. The Dalhousie campaign had far exceeded expectations. They had started out to secure \$400,000, had done better than calculated, and received \$450,000, and before the present year was out expected to reach the half million dollar mark.

Mr. Campbell spake strongly of the pressing need of a new Ars Building. The edifice would cost about \$150,000, a

Surprise for robbers. Mistake cracker bag for strong b when they bold up salesman on road.

PROVIDENCE, R. I., April 22.-Arme PROVIDENCE, R. I., April 22.—Armed daylight robbers got a box of crackers to day instead of a strong box containing \$4,600 in cash.

Boward Sullivan, representative of a Boston biscuit company, was held up at the muzzles of three revolvers in the hands of two men on the road from Westerly to White Bock, as he was driving along leisurely in a buggy.

The high waymen relieved Sullivan of a leather has which contained samples of crackers, ordered him to "keep s' going" to White Bock, crossed the Pawestank River in a boat and were joined by a third man. There they made their way from the seens in an automobile.

The highwaymen apparently thought they were holding up the paymaster of the White Book Mills, who was due along the road at about that hour with \$4,600 in his possession. They were disguised with automobile goggles and wore long automobile coats, and were hidden behind a fence.

SUFFRAGETTE PLOTS To blow up Harrow School and residence of an M. P.

residence of an M. P.

London, April 25.—The Standard says the police have fearned of a Suffragette plot to burn the buildings of the famous school of Harrow. The buildings are consequently being stuarded day and night. The police have also heard of a plot to blow up the residence of Mr. Blair, M. P., near Harrow. The Suffragettes have a grudge against Mr. Blair, because he defeated Mr. Lambury, the Suffragette advocate, at a by-election last November in the Bow and Bromley division. Mr. Justice Lush, who sentenced Mrs. Pasikhurst to three years imprisonment, also lives at Harrow, and the neighborhood of his house is being very closely watched. The police learned that the Suffragettes were plotting to kidnes the son of the Justice. The Milliams attempted to hold a meeting at Harrow Mst. night and there was great disorder. The women speakers could not be heard because of the interruptions of the crowd. Pepper, sunff and ill-smelling chemicals were scattered throughout the hall, and the police had shard job to protect the women when they departed. The Suffragettes made an attempt to wreck the Northumberland County Councils Office at Newcastle-on Tyne, by a bomb. The damage was small, but the caretaker had a narrow seesape.

Cardiffer, Wales, April 25.—"Yotes for women, R. I. P.," were the words painted but the caretaker had a narrow escape.

CARDIFF, Wales, April 25.—"Votes for women, R. I. F.," were the words painted on a bomb found this morning by a patrolman on the dcorstep of Lloyd's Eark in this city. The fuse attached to the bomb was burning when it was discovered, and was pluckily selzed and extinguished by the policemen.

BUFFALO, N. Y., April 25.—Fred. W.
Lang, Jr., of North Tonawanda, who was
taken in February to Pasadens, California, suffering from pulmonary tuberculosis in an advanced stage, has returned
apparently cured by the Friedmann treatment. When he left he was so weak he
could hardly walk, and Dr. C. T. Crance,
who attended him, said there was little
hope for him.

Dr. Crance obtained from Dr. Friedmann, however, sufficient vaceine to treat
three patients and selected Lang as one of
the patients. Lung had just suffered two
hemorrhages, and was very weak. In a
few days he had gained two pounds. An
other injection was given, and later a
third. After remaining under observation
of the California deptor, Lang was allowed
to return to his home, near this city, apparently a well man. missioned by the State of California to make weekly examinations of the patient, said that Lang had not a symptom of the beroulosis and was apparently absolutely cured. When Lang went to California the State Health Department made a verified statement that he was in an advanced state of tuberculogic. The last injection was given over two weeks aco

Our Greatest Source Of Revenue!

Deprived of the Royalties now received from our Coal Mines, our Provincial Government would find it a difficult matter to 'make both ends meet.' Of these Royalties, so necessary for our Provincial Housekeeping, the DOMINION COAL COMPANY, LIMITED, contributes the largest amount. With numerous collieries in different parts of Cape Breton County, their out-put has increased tremendously since the Company's formation. They mine the celebrated RESERVE Coal, which is so well-known and so largely used in Halifax for every purpose for which Coal CAN be used. As a domestic fuel, it is a "best seller," while for steam purposes it has a world-wide reputation. SPECIAL NOTICE.

Our place of business will be closed every WEDNESDAY AFTERNOON at 12.39 sharp, commencing the first Wednesday in May, and continuing during the months of May, June, July and August.

Our directors have come to this conclusion for the following reasons:

1st. At the suggestion of the majority of the 76 people in our employ we have granted this Wednesday afternoon in the months mentioned above.

2nd. Public sentiment tends in this direction and appreciates the action of any firm, whether large or small, that will sacrifice something in favor of its employees. And we believe the public, both in the country and city will agree with us that it is fair and just, and will arrange their shopping accordingly.

3rd. We hope and trust that other dealers will think favorably of this idea and will do likewise and make this practice universal in the city. Thus all may go off for the half day in the middle of the week and have a rest and enjoy the beauties of nature in our beautiful surroundings, coming back to work refreshened.

Wr be a strong admirer of the rugged old sage, and he gave the audience a vivid and picturesque portrayal of the great litterateur, who was born more than 200 years ago. Johason, he said, had been talked about far more since his death than during his life, and it is an evidence of his greatness that though two centuries have elapsed since his birth, the subject seems young, and we are almost surprised when thus reminded of its age.

The early struggies of Johnson, his independence of spirth, his hatred of sham, his idiosyncracies and his wonderful powers were depicted in masterly touches by the lecturer.

A vote of thanks was moved by Rev. Canon Liwyd and Professor Fraser Harris. The Ganon spoke of taking lunch at the inn in London at the very spot where Johnson had so often sait, and of having ordered a "lark pie," which he did not like at all. and he gave the audience a vivid and pic-

MEETINGS AT PINE HILL.

The post graduate course at Pine Hill College was continued yesterday, when Rev. Dr.W. P. Archibald, D.D., conducted the meeting and Dr. Pringle was the object. the meeting and Dr. Pringle was the chief speaker. He dealt largely with conditions about Sydney and Glace Bay, as effected by the large and varied foreign population.

Hollowing Dr. Pringle's address a most interesting discussion took place, in which Rev. Mr. Parker and Rev. J. B. Cropper and others took part. Mr. Cropper created a sensation by the way he scored the Canarian Government for its treament of the Orientals who desire to come to our country, and also some unnamed college for its treament of East Indian students. Ready for Gloves?

TO the particular woman no detail of the costume is of more importance than the gloves.

At all times-and more particularly in Springtime-you will find here stylish, well-made gloves in the various colorings that the season brings forth, ready to give the finishing touch to the costume and at a comparatively trifling price.

Our \$1 kid glove is positively the best glove that is offered for the money. Its fitting qualities are unexcelled; we rarely have a pair brought back.

One often hears people say that they wish they could save money and invest it. Most of them are under the impression that in order to invest, it is necessary to save at least several hundred dollars. This was the case a few years ago.

Since large concerns have been established, calling for large amounts of capital, much more than that which could be supplied by one person or a few individuals, there has arisen a great demand for money from investors.

money from investors.

Thus, a person with a few dollars to invest may become a partner in a country's greatest enterprises. And the partnership hability is limited to the extent of the money so invested.

Now, the man who can save a few dollars a week or month, may become an investor. Don't wish you were an investor-become one. We shall be glad to tell how you may become an investor although your savings may amount to but a few dollars a

month.
