It was touching to hear the throughous voice of the prophet of these tremulous voice of the prophet of those days dwelling on the wail which was wafted across the border from the overtaxed people of the United States, groaning under a high protective tariff, which was treated with unmeasured and unmitigated abhorrence. Under the benign ægis of Confederation, the people of old Canada were to have con-72 ferred upon them the blessings of reduced customs imposts, and happy generations, in the coming Dominio were to grow prosperous under a twelve or fifteen per cent tariff. The then down-trodden working-man of Miramichi, and New Brunswick, generally, was to have his choice of employment at high wages; he was to sell to every-

income with only nominal expenditure - an era of individual ease and affluence and of national wealth, prosperty and contentment. Eleven years passed and the prophetic vision had failed. The prophet was, nowever, again heard on "the noble Miramichi," but as he offered only a National Policy, with a tax on flour and International Steam Ship other necessaries hidden in it, together with potato starch and paper factories, he was "turned out." The Sun should however, bear in mind that the people did it. Theodore B. Land, broker, of No. 54 Wall street, testified that he was walking down that street on Saturday afternoon, and was about crossing to William street to get to his office, when a telegraph boy ran up to him, held up a large blue envelope and said: "Did you drop this, sir ?"

He took the envelope mechanically and without looking at it said "No." He handed it back to the boy and remarked: But perhaps those gentlemen ahead did." There were three or four persons immediately in advance of him, and he noticed two in particular who were walking together. He did not try to read what was on the envelope, and did not know why he did not, but as he handed it back to the boy, he thought he saw the name "Brayton Ives & Co." on it. "Don't give it away to anybody!" he said to the boy, who did not wait for him to finish his senting the beginning which it confers. Intervals the beginning which it confers. My Edgers have now been running in St. John
and Miramichi for twelve months and have given
every satisfaction desired and I feel pleased to be
able to refer to any of the Mill owners who have
them, including: Messrs. Randolph and Baker
Long & Barnhill, Clark Bros.—Firms of sucstandings as are well able to advise intending purchasers as to what is best for their interests and in
regard to the practical superiority of my machine
over all others. My COMPOUND OR DOUBLE MACHINE

will edge 10,000 feet per hour, if re juired. My Sinole Edder, which I am getting up expressly for
Steam Mills of limited power, with a view to do the
most work with the fewest hands, will be about
half the weight of the Compound, and about hal
the price, will have only two saws and will run 40,
000 feet per day of 10 hours. My Re-sawing Machin
is got up expressly for recutting deals and scall
