ROBINSON & RALSTON. Ayer's Sarsaparilla,

No. 102.

discorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tuber-oles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla is advisable, even when no scrive symptoms of disease. Tetter, Sait Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorribar or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its

arrival of trains.
Shediac. Dec. 29, 1871.

dec 29 3m will pay a dividend of more than 91/2 per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tri butary fertile country, the Northern Pacific is WILLIAM JONES, assured of a vast and profitable business from the outset, with a large increase for the future.

The Value of Land Grants. The average price BEGS to state that after the first of January next he will adopt the cash principle in his business, in order to enable him to fill orders as promptly as he would wish.

The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$1.08 and the lowest \$2.07. With few excepper acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few exceptions, the average selling price has steadily in-creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,000 per mile of road—more than three times the nossible cost of construction and three times the possible cost of construction and equipment; or, at the lowest average of any Companies of upwards of Fifty grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earning, and the market value of Capitals and Accumulated Funds. Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific Railroad Bonds. Construction. The road is now complete neross Minnesota, (255 miles); work is progres sing westward through Dakota, and 65 miles are under construction on the Pacific coast. In cluding purchased lines, the Northern Paci Company now has under its management 570 miles of finished track. Contracts are let for the struction of 635 miles more, to be finished pefore the close of 1872. The 7-30 Gold Bonds. The first mortgage bonds of this company, which, after full invest gation, we strongly recommend as a reliable an unusually profitable investment, and which no stand among the solid and favorite securities of the country, have the following leading features: 1. They are exempt from United States tax: the principal in 30 years, and the interest sem annually at the rate of 73-10 per cent. per annum, Denominations, from \$100 to \$ 0,000 Present selling price-par and accrued interest in United States currency at pres nt rate of gold (109) these bonds yield 8 per cent gold 2. The bonds are a first and only Mertgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each 3. They are at all times receivable at 10 pe cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if neces ary. Exchanging 5 20s. In view of the ability and \$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the presen premium on Government Bonds and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without ex-JAY COOKE & CO.
