More than this, the process has of late years become more rapid. Greenland is now one wast thrilling region of thick ribbed ice. The Galf of Greenland used to be navigable up to the Grinnell Land and Kanc's open sea. Now it is blocked with an immense flood of crystal, which comes rolling down, crumpling up before it all that comes in its way, as a railway train would crumple up an egg. Parry—keenest, truest, most chivafrous of our Arctic voyagers—did his best to reach the open ocean upon sledges. The ice, with him upon it, travelled faster towards the south than he upon it could make headway towards the north. He found himself, as it were, upon a huge glacial treadmill.
