Among the wounded Canadians who arrived in St. John last week we notice Pte. Letourneau was with the 13th Pte. Letourneau was with the 13th Canadians at Vimy Ridge, where he received his wounds, which were caused by flying shell fragments striking him in the left leg. Pte. Letourneau is the proud possessor of a German violin, which he succeeded in taking from a German dugout. He prizes the trophy very much for no less a reason than that he had to fight for it. While leaving the dugout he was attacked by two Germans, and the tussle which ensued succeeded in killing both of them with his bayonet.

WORKMEN'S COMP. ACT COMMISSION

Meeting Held at Campbellton to
Consider Proposed New Plan
Of Compensation.

Mr. Knowlton and Mr. Sugrue of Workmen's Compensation Commission held a meeting in the Murray Hall Friday afternoon at 8 o'clock which was attended by the employees of labor and others in this district. Mr. Knowlton said they were visiting the various towns, at the instance of the Government, to find out what employers of labor and also those who do actual labor, feel regarding the Employers' Liability Law now in force in New Brunswick. He would explain this class of legislation. First, he said, I think there is a liability on employer to employees for injury which is caused to his person by reason of accident suffered within the employment of the employer. Common law throws around that principle certain safe guards from the point of view of employer, and there grew up several doctrines—one of them that the employee must not himself be negligent; secondly, if injury was caused by a fellow servant liability of employer would be cut off; thirdly, if an employee agreed to work with an employer, that he assumed the risk of the employment himself, and by virtue of taking the money of the employer for a consideration he contracted himself into what is called the "doctrine of the assumption of risk." The Workmen's Compensation Act now in New Brunswick provides that a man may receive as much as \$2,500, a man may receive 75% of his wages, but not exceeding \$16 a week. Since 1910, Workmen's Compensation Acts of a different character have been enacted in British Columbia, Nova Scotia, Ontario and Manitoba.

Object Was to Force the Government Make Peace—Leaders Were Punished.

Copenhagen, Oct. 10.—Vice Admiral von Cappell, German minister of marine, announced in the Reichstag on Tuesday that a plot had been discovered in the navy to form a committee of delegates to the Russian model and to paralyze the fleet so as to force the government to make peace. The guilty parties have been arrested, and have received their just deserts, the minister added.

A meeting of the Town Council was held in the Council Chamber Tuesday evening. His Worship Mayor Andrew presiding. There were present Councillors McBeath, Champoux, Miller, Quinn, Patterson, Alexander, Evans and Harquail. The minutes of the previous meeting were read and approved. A communication from the Lieut. Governor, re British Red Cross funds was read. This set forth the need of a vast sum and expressed a hope that Campbellton would do its share towards raising funds for this purpose. The letter was laid on the table for further consideration. The residents of Hanover street do not like the German name and are asking that same be changed to Windsor street. A petition signed by the residents was read setting forth the above and was referred to the Public Property and Streets Committee. The Town Solicitor was present and stated that he had carefully examined the clause, re exemption in the J. & D. A. Harquail Co. Ltd. contract and in his opinion it covered everything in connection with the business. The following departmental accounts were passed—

PORT DANIEL MAN ENDS HIS LIFE

While Temporarily Insane Shot
Himself With a Rifle and
Lived few Minutes.

On Wednesday, Oct. 3rd there occurred at Port Daniel West one of the saddest deaths ever recorded in the history of that place namely the death of James Dow only son of the late Joshua Dow. Mr. Dow had not been in very good health for some few days but had been about his work as usual. On Wednesday he complained of a severe headache and after partaking of a slight lunch retired to his room about one o'clock. In a short time his wife heard the report of a rifle and rushed up stairs but the sight that met her eyes can better be imagined than described as poor Jim had in a fit of temporary insanity put a bullet through his breast about one inch below the heart. He lived for twenty minutes dying before medical aid arrived. Dr. DeWolf, Coroner, was notified at once and the verdict given was death by his own hand while in a fit of temporary insanity. Mr. Dow was one of the most thriving farmers of Port Daniel West and was well liked in this community always being kind and obliging to neighbors and friends, his death comes as a great shock to all. He leaves to mourn his loss a widow and five little children, the eldest a boy of eleven and the youngest an infant of six months. To Mrs. Dow and her family of little children, our sorrowing hearts go out in this their sad hour of bereavement. The funeral which was very largely attended took place on Friday at St. James Episcopal church where the funeral service was conducted by Rev. Whitley who gave a very fitting address for the sad occasion. After the church service ended the cortege repaired to the burying-ground where the body was lowered in the ground with the solemn words so familiar to all, to await the glorious Resurrection when we shall all meet face to face with our Saviour to reign together eternally.

THE PRUNE CLUB. "A certain woman of my acquaintance always reminds me of a railroad," said the young man with the red tie coming to the boarding house breakfast table.

"On account of her curves, I suppose," suggested the thin boarder.

"No, no," came from the first speaker.

"Because her trains are always behind," mentioned the blond typewriter.

"Nixy," came from behind the red tie.

"You can't mean because she has so many switches," chuckled the old maid boarder.

"No. Listen. Because whenever I meet her in the street it seems to suggest, 'Stop, Look, Listen'."

AN EXPENSIVE LOAN. "I borrowed two dollars from him once and I'm sorry I ever did."

AUSTRIANS ARE BRUTAL

How Czechs Have Been Tortured by Government.

Recent cablegrams reported the strength of the revolutionary movement in Austria, and especially of the Czech opposition to the Austrian Government. But the details of the various speeches delivered during the recent session of the Austrian Parliament, particularly by the Czech deputies, says the Slav Press Bureau, are beginning to trickle through various sources only now. The charges made against the Austrian Government are indeed sensational and show how far the decomposition of this Empire has progressed. It seems to be held together by chains only. From a speech delivered by the national Czech Socialist Deputy George Strbrany in the Austrian Parliament, June 24, it appears that 5,000 Czechs, who were political suspects, were interned in Talerhof, in Styria. One thousand two hundred of the interned died of epidemics alone. In the Talerhof Cemetery there are now 2,000 new graves. Old men, women and girls were sent to this place, frequently bound together in groups, in filthy cattle wagons. In many cases the interned, when they arrived at Talerhof, were beaten till the blood flowed, and they were otherwise tortured. One transport of 43 interned was massacred on the way to Talerhof, by companies of Magyar Honveds (who correspond to the Austrian Landwehr).

Stormy scenes occurred during the speech of Deputy Strbrany. The Czech, Polish, Yugoslav, and Ruthenian deputies vigorously assailed the Government. A pan-Germanist, Heine, replied that too few of those opposing Germany and Austria were hanged.

The Austrian terror in Bohemia goes even to the extent of shooting down women. Thus the Vienna Welt of June 21 refers to an interpellation in the Austrian Lower House concerning events at Prostějov on April 26. The original cable reports had it that riots did occur in Prostějov, but nothing definite was said to certify. It now appears, according to the interpellation made by the Czech Socialist Deputy Bechyně that a detachment of Honvedy Regiment 12 fired on people demonstrating in Prostějov and killed and wounded many men and women and children. It also appears that this occurred during a demonstration mainly by women, who were accused by reports that no more bread, flour, coal, or fat would be available.

Not Due to War Alone. The Russian Revolution is so near to us that it is quite impossible yet to estimate its full magnitude, says the London Spectator. Already, however, we know enough to be able to say that it is one of the greatest events in the world's history, most nearly comparable to the French Revolution of 1789. That it is not entirely the outcome of war, but a result of the fact that the Russian people have been produced without long preliminary work, the war that work, far as can be gathered, was almost entirely done by the idealist section of Russian society, backed by a Socialist movement among the working classes.

Doubleless pure idealism finds a large place in socialist movements, but in the main these working-class movements spring from a very practical desire to better the material conditions of life. The idealism which guides them is provided by what in Russia is well called the "intelligentsia." This combination of forces succeeded as far back as 1905 in forcing what for a moment appeared to be a successful revolution; but reaction followed, and except for the great event of the creation of the Duma in 1905, little progress was achieved. The relative failure of the revolutionary movement of 1905 can only be attributed to the fact that the upper and middle classes, generally speaking, abstained from the movement, leaving the working classes with no trained leaders and only the somewhat vague idealism of the "intelligentsia" to guide them.

The First Aerial Duel. In these days when aerial duels are almost hourly occurrences it may be interesting to recall the circumstances of the first conflict of this nature. This combat, which was the result of a quarrel between two Parisians, M. De Grandpre and M. L. Pique, over a lady engaged at the Imperial Opera, was fought in 1898.

The two rivals, having agreed to settle their respective differences by a duel, decided that the fight should take place in the air. Two balloons were constructed of identical in every detail, and on the appointed day Grandpre and his second entered the car of one balloon and Le Pique the other. The scene of the combat was the Garden of the Tuilleries and thousands of spectators journeyed from all parts of Paris to witness so novel an event. The rivals had agreed to fire at each other's balloon, with the idea of bringing it to earth by escape of gas.

When the balloons were some eighty yards apart and about half a mile from the surface a signal to begin firing was given. M. De Grandpre sent a ball through Le Pique's balloon, which collapsed with such frightful rapidity that Le Pique and his second were dashed to pieces. De Grandpre, however, continued his ascent, and terminated his voyage at a spot some twenty-one miles from Paris.—Dundee Advertiser.

Getting Dry-cleaned. To have a bath without water is one of the latest fashions. A thin robe is entwined with wires, and, when put on, a current of electricity is passed through the wires. The wearer of the robe soon finds his body getting warmer, until in a little while he pringles as freely as if he were in a Turkish bath.

ONE MORE SCALP. He—I've a notion to propose to you. She—Please do. I'm trying for a record.

YOU SAY IT. Head-lins come easy sometimes, as when we note that Mr. James Tait of Chatham was recently married to Miss Alta Tait of Cleveland.

CHEEF WARDEN HAS RESIGNED.

A Fredericton despatch to the St. John Globe: Mr. Arthur E. O'Leary, of Richibucto, for several years past chief game, fire and fish warden, has tendered his resignation, and it has been accepted. Mr. O'Leary met with a serious accident about two years ago, from the effects of which he has not completely recovered, and his physical condition interfered to a considerable extent with the discharge of his duties. Hon. Mr. Smith states that a permanent appointment of a successor will not be made for some time. Mr. George F. Burden, ex-M. P. of Pictou, York Co., is acting as chief warden."

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Alder-ka benefited her INSTANTLY. Because Alder-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. A. MCG. McDonald, Quebec, Oct. 5.—The exact majority of the prohibition vote polled here yesterday was 3,222 in favor of the petition.

Judge Langelier of the Police Court, one of the leading anti-prohibitionists stated today that the fight had not ended with the closing of the polls.

Quebec, Oct. 5.—The exact majority of the prohibition vote polled here yesterday was 3,222 in favor of the petition.

Pay Will Be The Same

Men selected under the Military Service Act will receive the same pay as those now on active service receive. Pay will start from the time a man reports for duty. Money from the Patriotic Fund and Separation Allowance will also be available for selected men.

Canadian soldiers are well paid. The fact that wages in Canada are generally higher than those paid in Europe is recognized in the system of remuneration for men on active service. Clothing and all equipment in addition to food is also supplied to the Canadian soldier, leaving him with no expense except personal incidentals.

The rate of pay for men in the Canadian Expeditionary Force, other than commissioned officers, is as follows:

Rank	Pay	Field Allowance
Warrant Officers	\$2.00	20 cts.
Regimental Sgt.-Major, if not a Warrant Officer	1.85	20 "
Quartermaster-Sergeant	1.80	20 "
Orderly Room Clerk	1.80	20 "
Orderly Room Sergeant	1.50	20 "
Pay Sergeant	1.30	20 "
Second, Batt. or Co. Sgt.-Major	1.50	20 "
Colour-Sergeant or Staff Sergeant	1.60	20 "
Squad, Batt. or Co. Q.M.S.	1.15	15 "
Sergeant	1.35	15 "
Lance-Sergeant	1.15	15 "
Captain	1.15	15 "
Lance-Corporal	1.05	10 "
B. Sergeant, or Band Corporal	1.05	10 "
Tr. Sgts., Buglers, and Drummers	1.00	10 "
Private, Gunner, Drivers	1.00	10 "
Sergeant, Battalion, etc.	1.00	10 "

As in the case of those already gone overseas, Separation Allowances will be available for those dependent for livelihood upon selected men. The Separation Allowance is \$20.00 per month for the rank and file, \$25.00 for sergeants and staff-sergeants and \$30.00 for warrant officers. The experience is that many men can afford to assign half their pay to dependents, in addition.

A considerable number of men who have enlisted in the Canadian forces have found themselves better off under the army rate of pay, which is granted in addition to board, lodging, clothing, equipment, transportation, etc., than they were while in civilian positions. Their wants are provided for, and they receive a steady addition to the bank account each month.

Issued by The Military Service Council.

THE REAL FOOD CONTROLLER.

The dividend declared a few days

ago by the Ogilvie Flour Mills Com-

pany is adding to the unrest of the

Canadian people under their food bur-

dens. Dissatisfied people should re-

member that in peace time they tax

themselves by the protective tariff to

build up just such private monopolies

as the Ogilvie Flour Mills.

The people of this country, paying

famine prices for food while the

privileged few reap extraordinary profits,

however, are not being encouraged to

lend all the moral support necessary

to maintain the full vigor of Canada

in the war. What are people to think

when they read of the profiteering

dividends made out of flour?

The Ogilvie Company, in addition

to paying the regular 10 per cent, on

the common stock for the year, dis-

tributed a cash bonus of 15 per cent.

Therefore the shareholders of the

company, dealing in the most essen-

tial food of the people, were awarded

with dividends equal to 25 per cent of

their investment, in this one year of

war.

People are being advised by national

propaganda for food economy, to

use less wheat flour and more corn

meal. To do so. But when they go to

buy corn meal they find the price has

been increased from ten cents to

twenty-five cents. What encourage-

ment is it to buy corn meal when the

private food controllers so increase

prices, under the pretext of supply

and demand?

The fat dividends and huge surplus

profits of the privileged few interests

in this country, very largely inter-

locking interests, are teaching the

Canadian people that it is not the re-

tal merchant who is responsible for

high prices. Public opinion must in-

form itself still further, however.

There is nothing to be gained by

blaming the shareholders or the di-

rectors or the management of the

profiteering companies. The way out

of bondage is only by intelligent ac-

tion for profit in all essential

war industries.—Ottawa Citizen.

The Ladies' Road.

No doubt a good many readers who

have seen references in the news

papers to the fierce fighting between

the French and the Germans along

the Chemin des Dames, or Ladies'

Road, have wondered how that shel-

ter highway got its pretty and ro-

mantic name.

The road, says the New York Tri-

bune, dates from the time of King

Louis XV. It begins at the Paris

Maubourg Road, about ten miles

north of Soissons, and crosses

the plateau of Craonne at a distance

of about 12 miles. It then descends

into the valley of the Ailette, to cross

the Vaucouleurs to the domain

of the ancient Chateau of Doye, near

Bouconville, where the Princesses

Adelaide, Sophie, and Marie, the

daughters of Louis XV. used to visit

one of their ladies of honor, Mme. de

Narbonne, every summer.

The roads of the region were de-

testable in those days. Out of con-

sideration for the princesses a new

road was built along the crest

of the plateau, and ever since it has

been called the Chemin des Dames.

The Empress Eugenie.

Though the late Emperor Francis

Joseph was the oldest reigning so-

vereign in Europe, he was not the

oldest royal. The Empress Eugenie

is four years older, while the Dow-

ager Grand Duchess of Mecklenburg-

mail scheme. He had letters from

various prominent persons, mostly

women, which he intended to use to

protect himself if ever his power

was threatened. Fortunately he did

not have time to call upon his vic-

tims for protection, as he was mur-

dered out of hand by a group of loyal

Russians.

One amazing letter was written to

Rasputin from Berlin, in a secret

German cipher, and was dated

August 29, 1916. It was written at

the time when it appeared that Brus-

iloff would have effected his great

offensive between Pripiet and the

Rumanian frontier. The signature,

scribbled in blue ink, was that of

Steinbauer, chief spy of the Kaiser,

and controller of the whole German

secret police throughout the world.

The letter began by saying that it

was a matter of great urgency that

the Brusiloff drive should be stop-

ped and the battle turned into a Ger-

man victory "as promised us in your

despatch of July 1." Rasputin was

accused of not keeping faith, and he

was reproached with the fact that

Prussian students were leading the

Russians to victory in his speeches.

"His triumphant telegrams to Mr.

Brusiloff must cease. They only serve

to encourage the Allies," warned the

chief German spy.

He goes on to complain that a

couple of ammunition factories had

not been destroyed as ordered, and

protested that Karlhoff, a clock-

maker, who had blown up explosive

works at Viborg, in which 400 lives

were lost, had been arrested and

shot, together with a woman named

Ravensky, whose father was in the

Department of the Interior under

Petrovitch. Rasputin had informed

his German paymasters that the pair

had fallen in love, and that it was

better they should be executed for

fear they might become dangerous.

The apology seems to have been

somewhat charitably received, and

the letter proceeded to give Rasputin

instructions to secure the release of

three or four other prisoners, await-

ing trial for similar outrages. The

letter went on to specify certain am-

munition works which were to be de-

stroyed, named the agents who were

to be entrusted with the various

tasks, and also the amount of money

he was to pay out in each case. In

parenthesis it is to be noted that in

the Rasputin dossier were found one

hundred advice notes. German

money paid to the monk through the

most suspicious channels.

He was instructed with consider-

able particularity how he should ar-

range the murder of Korniloff. He

was to be removed by the accidental

explosion of a hand-grenade "in the

same manner in which Gen. Zhukov-

sky was removed in March last at

Pultusk." The chosen assassin was

to be a soldier named Paul Kriahiv-

sky, who as a despatch rider had ac-

cess to headquarters. He was to pre-

tend to be examining a bomb, "a

plausible one in pretence, and re-

lease the pin by accident. For this

service he was to get 18,000 roubles.

The attempt was made upon Kornil-

off ten days later. The general's

horse was killed on the spot, but

Korniloff escaped with a cut on the

face. What happened to the soldier

is not known, nor is it explained how

it would be possible for a man to give

an air of calmness to an accident with

a bomb which killed somebody else

GADSBY'S LETTER

TTAWA, Oct. 11.

The general opin-

ion at the

Hanna's

bank, and his trust company are

also interested in the C. N. R. as

the object of which is to make Can-

ada pay two hundred million dollars

more for a railway which it owns

already. This is one of the reasons

why the Borden Government goes on

stacking cards in order to win the

election. It has got to get back to

the thing through.

Food Controller Hanna promises

to issue statements from time to

time giving further reasons why he

doesn't dare to disturb current

prices. Evidently Food Controller

Hanna believes in the east wind as a

northing diet. At any rate that is

all Canada has got from him so far

or has any chance of getting from

him in the future.

Fuel control is another job. A

hard winter is approaching. The

rich people bought their coal at bottom

prices in April. The coal companies

are now selling it at top prices. There

is more coal available in this North

American continent than there ever

was, but that doesn't make any

difference to the coal profiteers.

Everybody's doing what they are

going to have their share of the

swag. Fuel Controller McGrath,

though animated by the highest mo-

tives, has done nothing at all to al-

leviate the situation. One wonders if

Canada wouldn't get more action

from a food controller whose rela-

tions are not in the coal business.

William Boobe, exploring an African

low, tells of a peculiar beetle which

he encountered. Close to my face,

so near that it startled me for a mo-

ment, over the curved length of a

long, narrow abdomen, I saw a

Steadily they moved forward, coming

They passed, and the broadside view

You and I Help Make or Mar Our Community.

It has been said that "a community is no better than the men and women who live in it." How true it is. If you or I fail to do our part in the work of building up our town, our town affairs.

A town is similar to an individual the wrong medicine will kill, while proper treatment will cure.

Take for instance the habit of trading out-of-town. Nothing will so quickly kill the business interests of one's home town.

But, let the individual apply the remedy of "Trade-At-Home" and you will see that community thrive and prosper like a sick man who grows strong under the proper treatment.

The practice of buying away from home is worse than a curse to the people of any community—it will spread and grow like a contagious disease unless checked by the individual efforts of every citizen.

REMEMBER THIS—you have your duty to perform toward your home town just the same as your neighbor.

Your individual efforts will go a long way towards upbuilding or retarding the growth of Campbellton.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health.

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."

—Mrs. JAMES CONLEY, 215 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

BAIMORAL.

The whole community has been cast in mourning at the sudden death of Mrs. Edward Bernard, one of Baimoral's most respected and beloved citizens.

Never has a sudden event occurred in the parish; never has more grief been shown and the supreme departure of our fellow-citizen.

Deceased had felt unwell for a few days but thinking it was only a cold, she gave no heed to her family's advice to get treatment. She was so active a worker that she thought illness could never affect her seriously.

On Saturday, Sept. 22nd however, she could hold no longer and lay down. The priest was summoned to her bed, but thought there was no immediate danger. Shortly afterwards, however, she became unconscious, and never regained a moment's consciousness until her death at 2.30 p. m. the following Monday.

On Sunday Doctors Pinault and Doucet were summoned. They found the case a hopeless one, pleurisy and inflammation of the brain were unconquerable at this late hour.

The funeral was held at 8.30 Wednesday morning. The church was crowded to the doors, showing the high esteem in which Mrs. Bernard and her family were held. A considerable number of strangers of all denominations attended. The church was magnificently draped with black and purple, the service was solemn and impressive.

The pall bearers were Messrs: Zee Nelson, Henry and James Bernard, brothers-in-law of deceased, and Messrs. Joseph and Alexander Bernard her nephews.

Mrs. Bernard was forty-three years of age and a daughter of the late Thomas Levesque of Colebrook. Besides her mother she leaves a devoted husband, twelve children, five sisters and four brothers. Mrs. Joseph Arseneau of Baimoral is a sister. One son, John had left but a few days previously to join the Order of Brothers of the Cross at Rimouski. The other children are at home.

The two eldest daughters, Clara and Rose Anna, are left with the care of the household and to fill their dear mother's place near the young ones. Mrs. Bernard was a model Christian and a most dutiful wife and mother. Her kind, motherly and Christian disposition had won her a large circle of friends who bitterly mourn her untimely death. She was a faithful member of the Third Order of St. Francis, and the Society of the Way of the Cross.

DALHOUSIE.

EVERY HEADACHE HAS A MEANING

If there is one practice more dangerous than neglecting a headache altogether, it is taking drugs merely to subdue the pain. Headaches are nature's warnings and serve a useful purpose. They tell of a function overworked or deranged and the wise use of woman takes steps accordingly.

When the kidneys are not performing their natural function the blood stream becomes clogged with impurities—a fruitful cause of headaches, constant headaches, and nervous complaints if nature's warning is not heeded.

The sufferer feels sluggish, unwilling to work, the back aches and there is a dizzy sensation on stooping. If the cause of the trouble is unobscured, Rheumatism, Lumbago, Swollen Joints and Ankles follow, until Gin Pills are resorted to and the kidney action restored to normal.

The beauty of the Gin Pill treatment is that first it will in all probability remove both headaches and cause second, if there is no cure, the simple remedy can do absolutely no harm, and you have only to write the manufacturer and your money will be refunded.

Gin Pills are sold at 50c a box of 6 boxes for \$2.50 on the money-back guarantee. If you have any difficulty in securing Gin Pills write for a free sample to the National Drug & Chemical Co. of Canada, Limited, Toronto, or to the U. S. address, Na-Dra-Co Inc., 102 Main St., Buffalo, N. Y.

of her limbs.

Mr. and Mrs. A. C. Bellefleur Campbellton, were visitors to town on Friday.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, liver and bowels.

Look at the tongue, rather! If coated, your little one's stomach, liver and bowels need cleansing at once. When fresh, clean, healthy, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, discharges full of mucus, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, congested waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains just delicious fruit juices, child-friendly, and is for grown-ups.

DRAFTED MEN FROM
HERE WILL BE FOR 26th
AND 104th BATTALIONS.

That the men drafted under the military service act are to be detached, when they arrive in France, to the unit which hails from the province in which they were selected has already been announced. This means that the men drafted in New Brunswick will after their preliminary training in St. John be sent to England and there be attached to the 19th Reserve Battalion from which they will be drafted into the 26th and 104th. The latter information was received at the office of the New Brunswick command.

There has been some talk of a train

ing staff being sent to England to trap and as quick as lightning. Those who know me call me a human dynamo."

For a Kicker's Breakfast!

Most men are critical about coffee. They travel around among the best hotels and taste coffee prepared by expert chefs.

Now Red Rose Coffee was produced especially to meet the critic's keen, educated taste. It is a blend of the richest coffees, and is crushed—not ground!

Some men, whom we know to be real kickers, have been kind enough to say that the flavor is equal to that of any coffee they have ever tasted.

If you are a kicker, have your wife make you a cup and then tell us what you think of Red Rose Coffee.

The same price as it was three years ago.

Buy At Home

MERCHANTS and business men of the Bay de Chaleur should remember that the farmers and citizens in general are not the only ones guilty of sending out of town for goods they require.

Hundreds of Dollars of Restigouche money are sent out of the country each year for all classes of Commercial Printing which could be procured from the local printing offices. If this money was spent here, it would mean that the local offices would have to employ more help, and that would mean more money spent at home.

Better Goods, Less Money

As a rule the local offices charge no more than the larger city offices, and the quality of work is as high. In fact that turned out by the Graphic is above the average.

Mr. Merchant!—Consider This

Every dollar you send out for anything you can buy in your own country, makes that country a dollar poorer.

The Graphic can supply your demands for Anything in the line of Printing, from Counter Check Books to the smallest Card.

We are making a bid for YOUR WORK.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! Ouch! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Frezzone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right off without pain.

He says Frezzone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of Frezzone will cost very little at any drug store, but is sufficient to remove every hard or sore corn or callus from one's feet. Millions of American women will welcome this relief when the season of the bad feet begins.

POOR COPY

Foolish Stranger.
Senator Chamberlain, while conducting the food control bill through the senate, listened one afternoon with a bored look to a long and prosy opposition speech.
As he listened he happened to look up, and in the strangers' gallery he saw a deaf man take out a car-trumpet and blow it to his ear.
Senator Chamberlain stiffed a jaw, and, nodding towards the deaf man, said:
"Look at the deaf fellow up there, throwing away his natural advantages."

THOUSANDS OF MEN IN NAVY

Many Canadians have joined Various Naval Services Since War Began

Ottawa, Oct. 5.—Since the war began Canada's men of fighting age have paid considerable attention to the navy. Naval service has become an important feature of the nation's war activity.

From the start of the war, 5,300 officers and men have joined the Canadian Naval Service, cruising in home waters. Canadians to the number of 400 are officers in the motor boat patrol section of the Royal Navy, which includes in its duties the exciting task of looking for U-Boats off the British coasts and elsewhere. Thirty-six cadets have gone from the Royal Naval College at Halifax to be officers in the Royal Navy and 40 are taking the course of training there now before joining the navy.

Canadians are particularly well fitted for such duties as those of the motor boat patrol service, owing to the abundance of waterways and the mer throughout the country. Canada great vogue of water sports in summer is doing much essential work for the Allied cause through the medium of her water ways.

"Let Me Help You Carry the Burden, Mother"

"If Canada fails us in October, we must curtail many of our activities."

Sir ARTHUR STANLEY, Chairman, Executive Committee, British Red Cross.

It now costs \$300,000.00 a week to carry on the work of the British Red Cross, or \$16,000,000.00 a year.

Every minute of the day and night it costs \$30 to minister to the sick and wounded and dying.

Last year Canada's magnificent contribution paid for the entire work of the British Red Cross for nearly seven weeks.

This year, in view of the greater need, it is earnestly and confidently hoped that Canada's contributions will be as great proportionately as the magnificent offering of last year.

Our trust is, that the Citizens of Canada will give generously to this noble cause on—
