Salvation Army. THE EVENING DISCOURSE. "The Personal Religion of Jesus" did not know where to place it in the churches of today. Some claimed it was Pantheism, but it was more. Vas it in the Gregorian, the Greek atholic, the Roman Catholic or any f the Protestant denominations?

'Whatever difference people have in reeds, all agree as to what His re-igion really was. It was a mighty, od of God and the Sonship and Broherhood of man. The origin, purpose, and destiny of life is wrapped up in Jesus' conception that He came from God and was going to God. Get the same conception of life as He had—that it is a mission—and the dark places will become light. Redemption is a part of creation. God is still naking the world. What we see is rude and raw. Every mystery simply vists because the world is not form Get that thought, and the rowing of grass will seem a divine ecupation; labor a real communion with God. All the achings of your heart, all the troubles and gloom of your life have come because you have separated yourself from the great lovng Father. We are taught the brotherhood of man in the words 'Our Father.' That belief is the glory of the church, but it is her infamy that she has not preached it with all the power that she could. Jesus was empted in all things, as we are. The

owest and meanest may reach the deal. Recognition of this is the only hought that gives power, character, rce and earnestness to our words." illustrate Jesus' confidence in en. Mr. Mills told about Zaccheus, the lewish tax collector. "In these days," he said, "we are apt to honor men who get money, no matter if their hands are red with blood and reeking with dishonesty. The Jews would not have done that, and I rather honor them for it." After dwelling upon Jesus' faith in man, the speaker said:

"Social problems would be solved without any lectures if only we had THE OVERFLOW MEETING. Mr. Mills' text at the overflow meet- number of patients for the year, and

"But there never was such an age of faith. The age is not only broad, but deep and high. I have the profoundest sympathy with agnostics. There are hundreds and hundreds of righteous men and women going about with their heads down, crying 'They have taken away my Saviour, and I know not where they have laid Him.' John Stuart Mill has said that if he would have to go to hell if he could not believe in a God the conception of which was repugnant to him, then he would go to God the conception of which was repugnant to him, then he would go to hell, and there never was a saying that had more of the essence of the Christoff which was rejugnant to him, then he would go to hell, and there never was a saying that had more of the essence of the Christoff was rejugnant to be paid for on the termination of the five years, such excess of patients to be paid for on the had more of the essence of the Christian faith. A Challenge Answered

When Sir Charles Tupper recentl counseled his friends to seize the Pro vincial Governments, that they migh be used as agencies to aid him to re gain power at Ottawa, he was at least frank.

Two provinces have already respond ed to the challenge of the Opposition

Nova Scotia and Quebec by very large away in the vain effort to rehabili tate him or his family.

Ontario will be heard from next. The people of the banner province will give an equally emphatic verdict against the of the Nova Scotian knight. This province means to manage its own affairs, and it can best d so by retaining in its service the tried statesmen whose record cannot be suc cessfully assailed.

There was very keen competition for appointment to positions on the In dian guard of honor, which left Cal cutta on Saturday to participate in the one of the striking features in the

Visit of a Premier.

Premier Seddon, of New Zealand, who now the guest of Lord Aberdeen and Premier Laurier at Ottawa, is on his way to England, to participate in the diamond jubilee festivities. Mr. Seddor ish Empire. They have woman suffrage there, and the system has work strong interest in local affairs, and was worker. His influence grew steadily till he attained the undisputed leadership of the party which now holds the government of the interesting colony.

There Must Be Apprenticeships. The American Foundrymen's Association, which has been holding profitable sessions in Detroit this week, has says the Free Press of that city, done the various branches of the craft a most important and substantial service by adopting the well-considered report of the committee appointed to take up the matter of apprenticeships.

After a thorough discussion of the over details than anything else, the competent, full-fledged craftsmen. Under the classification approved by the convention, boys taking up the department of machinery molding must serve an apprenticeship of four years, in stove plate and agricultural implement molding he must put in three years, in bench and brass molding two years. If the apprentice has had the advantage of training in technical schools, the term of service is to be studying the demands of the markets, modified according to his educational equipment. The duties and compensations are also to be made to comport with the educated apprentice's

Bonuses of \$100, \$75 and \$50 for the first three classes respectively were favored on completion of apprenticeship, and the question of compensation was left undetermined, it being a matconditions. A probation period of eight weeks is required before the beinner can be indentured, and his aptitude being demonstrated in that time of service will equip the youth for a career of usefulness and efficiency in

The revival of the apprentice system by such an important industrial body as the foundrymen of America will be hailed with satisfaction by those prideful and painstaking master workmen and by employing foundrymen, as well who have held that a great number of ncompetent, slipshod and thriftless workmen of all trades and callings was lue largely to the decline of a rigid ystem of preparation. Young mer ave been allowed to remain in a oundry or shop long enough to get a mattering of one branch of the business and have then gone forth feeling that they were competent craftsmen, an illusion soon dispelled when they were called upon to assume some exs bound to be a molder, if the ambiion possesses all his thoughts and energies, he will not loose his enthusiasm in an apprenticeship of from two to four years. If he does, the craft is better off without him, for his of the sultan will be worse than the aversion to proper preparation will prove his incompetency.

More and more the demand will be for competent, experience, well-trained craftsmen in all lines as civilization ad vances. The apprentice system requir ing the novice to work his way up from an humble beginning and to master every detail as he goes along, and stimulating him to do his best by a graded course of compensation and responsibilities, is calculated to furnish the kind of men which the times will

PUBLIC SCHOOLS AND TEACHERS Canada Baptist. W. Ross, the Ontario Miniser of Education, in an address a few days since, to the students and staff of the normal and model schools at Ottawa, said that the Normal School term would in a short time be extended to at least ten months, so that teachers might receive a proper and much desired training. Special training in the science and art of teaching good and necessary, and we daresay a lengthening of the Normal chool term will in many cases improve the teacher's fitness for his or ner work. But it is at the bottom our opinion, rather than at any igher point, the work of improvement school methods should comence. The most serious defects arise rom the immaturity in mind and the ducational deficiencies of many of the third class teachers. The second class and first class teachers who go ou om the normal schools are, as a rule, efficient. Radway's Ready Relief WILL AFFORD INSTANT EASE. Instantly stops the most excruciating pains, llays inflammation and cures congestions.

Radway's Ready Relief Cures and Prevents Colds, Coughs, Sore Throat, Influenza, Bronchitis, Pneu-monia, Rheumatism, Neuralgia, Head-ache, Toothache, Asthma, Difficult Breathing.

Moberly. Mo., Jan. 21, 1896. Radway & Co.

Dear Sirs: I nave been keeping in the house your Radway's Ready Relief for the last six years. I have used it in every way, and found it to be the best on earth. Six years ago I was sick: I tried all kinds of medicines, but they did me no good. My father saw the advertisement in the paper; he told me to try a bottle. I did so, and by using it three days I was able to be out. I have kept it on hand ever since, and I have told my neighbors about it. My wife had been troubled with toothache. I gave a trial of the medicine and it cured her pain instantly. I was gathering corn and got my Radway & Co. trial of the medicine and it cured her pain instantly. I was gathering corn and got my hand caught between the wagon-bed and standard, and mashed it badly. I ran to the house and poured on a lot of Radway's Ready Relief, and had no more pain. I tied my hand up with a piece of flannel, poured on more Radway's Ready Relief, and in an hour I was ready to take hold of my work again. I cannot be thankful enough. I could write a great deal more, but this paper would not hold half of what I could write. Yours truly, half of what I could write. Yours truly,
JACOB J. KAPPLER.

THE "GRIP." Dr. Radway & Co., Gentlemen: I have used your Ready Relief for more than twenty-five years with much satisfaction—have used it for La Grippe, Pneumonia, Pleurisy and all sorts of aches and pains and have found it unfailing

Dr. Radway: My family are in the habit of trusting entirely to your Ready Relief and Pills as our household medicine, rarely requiring any other remedial aid. I myself follow closely your directions in taking the Ready Relief as a preventive for Chilis and Fever, say a teaspoonful in some water before my breakfast on an empty stomach when I visit my yard, as I am accustomed to do at that time. The result is a perfect success, as I time. MYSTERIOUS SHOOTING

Of N. B. Clark, the "Bark King," of Michigan.

Milwaukee, Wis., May 17.-The dead

body of N. B. Clark, of Grand Rapids, Mich., a member of the Michigan Bark and Lumber Company, was found on one of the residence streets along the lake shore Saturday morning. There were two bullet wounds and a revolve was found at his side. Diamonds and jewelry were found on his person, but no money. The looks of the wounds make it rather doubtful whether it is a case of suicide. When Clark left his hotel last evening he said he was going for a walk. He was 50 years old. It is believed that Clark was the victim of thugs, as one of the bullets en ered his back and his own revolve was found in his valise. The Masonic fraternity, of which Clark was a popu lar member, will probe the mystery the bottom, and bring the murderer t justice if possible. The body was found in the rear of the Ivanhoe flats, an apartment building near the Northrest depot. Mr. Clark was known i Milwaukee as the "Bark King" o Michigan, and furnished the tanners here with large amounts of bark.

Doctors Could Help, but Couldn't Cure-Dr. Chase's Catarrh Cure Released the Prisoner, and To-day She is as Well as Ever-She Says it is a Great Remedy

"Yes, I am Mrs. Dobell," said a comely, pleasant-faced woman at her home on Horton street to a News reporter to-day, "and I will very gladly tell you what you want to know. About three years ago my husband was very night and go for a doctor or to the druggist. In my hurry I often neglected to properly clothe myself, and contracted several heavy colds, which turned at last to chronic catarrh. I tried doctors, who helped me, but did not cure me, and several special catarrh medicines. I was relieved but not cured. I was suffering intolerably when Mr. Shuff recommended me to try CHASE'S CATARRN CURE, and it began at once to help, and in about two months had entirely cured me. I cannot speak too highly of this remarkable medicine, and cheerfully recommend it to all sufferers from catarrh.'

Died of the Rabies.

A Skye Terrier Bitten by a London Mad Dog Died Saturday.

The Little Daughter of Mr. W. E. Rice, Who Was Bitten on the Cheek by the Same Dog, to Be Sent to the Pasteur Institute, New York.

The question of sending another child to the Pasteur Institute, New York, will in all likelihood be brought up at the City Council tonight.

It will be remembered that a few days ago a dog of the Great Dane breed, belonging to Alonzo D. Harvey, created a sensation on the Hamilton road by biting the little daughter of Mr. W. E. Rice, killing a goat and oiting two Skye terriers belonging to Mr. Kilpatrick, and several other dogs round the neighborhood. The Great Dane died at the city pound the fol-lowing day, and Dr. McDonald and Medical Health Officer Hutchinson exracted a quantity of spinal serum with the object of reporting upon the quesacted a quantity of spinal serum with

Death of one of Mr. Kilpatrick's terriers has brought the matter forcibly to the front again. After the two terriers were bitten by Harvey's dog Mr. Kilpatrick took one dog to the pound, but kept the other at home locked up thief: "This di in a loft in his barn. All last week me in Paradise the dog was as well and playful as usual, but on Friday Mr. Kilpatrick her sister, Mrs. Charles Richardson, he returned home at noon Friday his short visit at Woodlands. South wife complained of the horrible noise the dog had made all morning. Mr. Kilpatrick went out to the barn, and when he went to ascend into the loft the dog gazed down at him, covered with foam and frothing at the mouth. The dog was left alone and was found dead on Saturday morning. lev. G. T. Carr at the Southern Con gregational - A Farewell at St. James' - Pulpit Exchanges, Etc.

Rev. G. Trotter Carr, of Stratford formerly of this city), preached two able discourses to large congregations in the Southern Congregational Church yesterday, to further celebrate the opening of the new edifice. Rev. Mr. Claris preached in his stead in Strat-ford. Mr. Carr referred feelingly to former ties, when they worshiped in a large room in Spencer block, but now, through earnest work on the part of the pastor and congregation, they had a fine new edifice of their own. He also was happy to meet his old Lon-don friends on an occasion of this kind. Mrs. Carr accompanied Mr. Carr, and will remain for a short visit here.

Archdeacon Davis yesterday preached the last sermon in St. James' Church (South London), previous to the alterations to be made in the building. The work begins on Tuesday. The church has been erected 20 years. The arch-deacon told his congregation not to disperse to other churches in the meanime, as there would be room in the Sunday school.

Christ Church (Episcopal) was crowded at both services yesterday, and in the evening standing room wa obtained with difficulty. Rev. Mr Gunne, of Wyoming, occupied the pui pit on both occasions, and preached two eloquent and impressive sermons. The renditions by the choir were far above the average, and the baritone solo and chorus, "O, Tolling Bells," was the feature of the evening's musical programme. Mr. J. T. Dalton was the soloist.

Rev. D. R. Drummond, successor t Knox Church, St. Thomas, preached able sermons at St. Andrew's Church yesterday. It was his first appearance Rev. D. Drummond, of Knox Church,

of St. Andrew's city, exchanged pulpits ing, and, from the degree of appreciation manifested, showed they were not disappointed in the least in the latest addition to the London Presbytery from the east. Mr. Drummond's personal appearance betokens a well-balanced and thoughtful mind and a large reserve fund of spiritual energy and intellectual force, rather than physical vivaciousness. He is one who would ise in the estimation of a congregation the longer he remained in their nidst. His style as a preacher, whi not oratorical, is calculated to arrest and impress. He has few gestures, and these are not studied ones. They are the external way of showing the force of a soul that is greatly exercised by the burden of truth. His sermons are carefully prepared, and come with a freshness to the people that indicates a mind which is active in its morning was on Galatians, i. 4, and in points showed a liberality of theologi al thought that is always the outof whom it need not be ashamed.
