BILLS ARE ABOUT READY

Amending Bill Will Be Dis-
cussed Provisionally on
Monday Next.

[Canadian Press.]
London, July 16.—The policy of the Government with regard to the home rule amending bill will be settled at an important meeting of the cabinet which has been convened for this morning. Yesterday, in answer to a question put by Mr. Bonar Law, Premier Asquith announced his intention of placing the bill down for discussion on Monday provisionally, but the second reading is not likely to be taken on that day.

Rush Finance Bill.
From the parliamentary point of view it is important that the finance bill should be carried without further delay, and Monday, Tuesday and Wednesday will probably be utilized for that purpose. In the meantime the second reading of the amending bill will be moved on Thursday of next week.

What the fate of the bill will be no one can predict, the circumstances being so abnormal. It may not survive its passage through the Commons, but if it should happen to do so, the bill transformed by the lords will be returned to the Upper House in a very attenuated condition. Hopes of a settlement by consent are fading.

A remarkable whip was sent by Percy Illingworth, chief Liberal whip, to all members yesterday, marked "Strictly private and confidential."

Must Be Present.

It says "It is perhaps unnecessary to remind you that during the few remaining weeks between now and the end of the session the fate of the bills under the parliament act is at stake. The exact date for the ending of the session depends upon that of the conclusion of the discussion on the home rule amendment bill. Any diminution of the normal Government majority in any forthcoming division will merely encourage opposition to the Government's proposals on the assumption that the Government's supporters are indifferent to the fate of the parliament act bills."

A Sustained Effort.

"The constituencies beg that no Liberal member should do anything either by speech or action which would in any way weaken the power of the Prime Minister to deal with the present difficult and complicated situation. The time has arrived for a sustained effort, and with everything at stake, for which generations of Liberals have labored, I am relying on your constant attendance and support for the remainder of the session."

LONDON MAN DIES AFTER DRINKING COLUMBIAN SPIRITS

With Companion, He Is Taken From Freight Train in the
Ignace, Ont., Yards, and Expires in Few Minutes
After Doctor's Arrival.

[Special to The Advertiser.]
Ignace, July 16.—Two men, who gave their names as Frank C. Brown, London, Ont., and James Walker, Toronto, were taken from a freight train in the McKay yards early this morning seriously ill. Brown died a few minutes after a doctor arrived, and Walker is in a precarious condition. According to Walker's statement, the two men had been drinking from bottles of Columbian spirits obtained at a drug store in Ignace. Both were suffering from exposure. The coroner has been notified and an inquest will probably be held.

ANOTHER LAKE CAPTAIN EXPIRES ON HIS VESSEL

Death of Capt. McKay, of South America, Followed Few
Days Later by Sudden Demise of Captain
Cox, of Majestic.

[Special to The Advertiser.]
Owen Sound, July 16.—The steamer South America arrived here this forenoon with about two hundred passengers on board. During the trip the ship's master, Captain William McKay, died suddenly of heart failure, about four o'clock Wednesday morning, between Fort William and Duluth. Throughout the trip the vessel encountered incessant fog, especially on Lake Superior.

Ex-Mayor Lemon, Mrs. Lemon and Miss Mary Patterson, of Owen Sound, were passengers on the South America on this trip and were on board when the captain's death occurred. Captain Cummings, who was formerly first officer on the ship, and now in charge, and the other officers, including Captain McLean, who is a well-known marine man, has been appointed first officer.

ARMY WORM MAY BE COMING HERE

Prof. Dearness Says the Last
Visit to County Was in
1899.

CAN DO GREAT DAMAGE Natural Enemies Are Para- sitic Insects Which Propa- gate Rapidly.

Professor John Dearness, of the London Normal School, discussing the depredations of the army worm today, said that while he had not heard of the worm's approach on London or Middlesex County, he intimated that it could come quite quickly. Reports of this worm's activities in the north and east have caused the farmers in this vicinity some anxiety.

Were Here in 1899.

"The army worm's last visit to Middlesex County was in 1899, according to my recollection," said Professor Dearness. "At that time they appeared in the eastern part of the county, near Avon. They were quite numerous at the time, and did considerable damage. They have not been heard around here since."

Their Natural Enemies
"The natural enemies of the army worm are parasitic insects, which multiply rapidly according to the size of the invading worms. These insects are largely responsible for the almost total extermination of the army worm, so that you hardly ever see two seasons of the army worm in one place."

"It is characteristic of this worm to move straight on and devour everything. They have been seen to cross the roads one behind the other, eating everything in sight, and such invasions and depredations are of course quite costly to the farmer."

BRANT MEN ARE ALARMED

Scourge Threatens To Destroy
Corn and Other
Grains.

A FIGHT IS BEING WAGED

Pests Driven Into Holes and
Then Exterminated With
Fire.

[Special to The Advertiser.]
Brantford, July 16.—District Agricultural Representative Fisher has sent word to Ottawa asking the department of agriculture to give him assistance in fighting the army worm.

While there is a danger of wholesale destruction of crops, the damage so far has not been such as to indicate that the plague cannot be overcome.

[Canadian Press.]
Brantford, July 16.—The dread pest of the farmers, the army worm, has invaded Brant County in millions along the high lands, and is now climbing into the high lands, where the corn and grain is growing, and unless checked within a few hours, will have utterly ruined a great proportion of the crops.

This morning they made their first appearance in Brantford Township, surrounding the city, a quarter-acre batch of corn being wiped out by an advance guard, which has been reinforced by millions of worms from the main army, located at the present time along the creek.

Devastate Fields.
Starting by cleaning out the pastures along the creek, the worms are now invading the high lands and are devastating the fields of corn and grain. Burgessville, Paris, Northfield Centre, Falkland, Fairfield Plains, Brantford, Brantford and other points in Brant County report that there are millions and hundreds of millions of worms now in those sections, and every effort has to be extended to fight them.

Killed With Fire.
District Representative of Agriculture Roy Schuchman and his assistant are leading in the fight, and already millions of worms have been destroyed by post holes dug in trenches, which are filled by the worms and down which coal oil is poured and set fire to, exterminating them.

The reason given for the invasion is that the wet weather has wiped out the enemy of the worms and at the same time has given every advantage to the worms for hatching out.

CROWD GATHERS TO WATCH
WORMS.
Princeton, July 16.—The much-dreaded army worm has made its appearance on the farm in this neighborhood. Amongst the sufferers from this pest are Richard Costen, William Reed on the Yarrington farm, on the 2nd concession of Blenheim, and Byron Hall and Thomas Rawlinson on the 1st concession of Brantford Township.

Late last evening quite a crowd of people assembled on the south road to Burford near Byron Hall's farm to watch the worms crawling into the field of hay. There were millions of these destructive insects. They appear to follow the creeks and low marshy land and have done considerable damage to the hay. The Government inspector is expected this morning, and the neighbors have turned out to help fight the pests.

According to the "official report" of the meeting of the London and Port Stanley railway commission, today, handed out by Secretary William Spittal, contracts were awarded for the reconstruction of the roadbed of the line between here and Port Stanley.

The Pere Marquette was the successful tenderer, according to Mr. Spittal. He declined to give the figure for which the work will be done.

"Work will be started right away and will be completed within eight weeks," said Mr. Spittal.

WINNIPEGERS HURT WHEN FLOOR FALLS

[Canadian Press.]
Montreal, July 16.—A London cable to the Daily Mail says:
After a lecture at the Occult Club last night on "Psychic Experiences" a woman speaker referred to a reported strange behavior of the ship's cat of the liner Empress of Ireland.

When the vessel was about to leave Quebec, she said, the cat came hurrying down the gangway, bearing two of her kittens in her mouth. Efforts were made to get her to return, but nothing would persuade her to go back. Consequently she escaped destruction on the foundering of the vessel.

HAMILTON LANDS GRAND LODGE FOR ITS NEXT SESSION

Principal Officers of Previous
Year Are Again Re-
turned.

LODGE OF INSTRUCTION

A Provincial Body Will Be
Organized—Sum of \$600
Being Voted.

[Canadian Press.]
Niagara Falls, Ont., July 16.—With the temperature outside registering something like 90 in the shade, and a battery of electric fans doing business under the vaulted roof of the Arena rink, between 600 and 700 members of the Grand Lodge of Canadian A. F. and A. M. worked its way through a long program.

The final touch of general business was the appropriation of \$600 for the purposes of a provincial lodge of instruction. The matter was one of the left-overs from last year, and was put through after much debate and amendment to give the motion a year's hoist.

Hamilton Is Chosen.
No other city in Ontario apparently wanted grand lodge, and as Hamilton was the only place nominated through the extension of an invitation, the annual communication of the grand Masonic body will be held in Hamilton.

The nominations resulted in the re-election by acclamation of the principal officers of the grand lodge. Those re-elected were:

Grand master, M. W. Bro. W. D. McPherson, K.C., M. P. P., Toronto; deputy grand master, R. W. Bro. S. A. Luke, Hamilton.

WESTERN ONTARIO IS WELL REPRESENTED

Has Many Students Enrolled
at Ontario Agricultural
College at Guelph.

The report of the Ontario Agricultural College and Experimental Farm for 1913, which has just been sent out, contains many interesting papers and a great deal of information valuable to farmers, horticulturists, beekeepers, fruitgrowers, stockraisers, dairymen and others of agricultural occupation or interests.

Out of a total of 449 students from the province of Ontario in attendance at O. A. C. in 1913, 22 were from Middlesex County, 29 from Lambton, 8 from Perth, 12 from Waterloo, 16 from Norfolk, 26 from Brant, 7 from Bruce, 12 from Elgin, 6 from Essex, 5 from Kent, 10 from Huron, 8 from Kent, and 13 from Oxford. The other provinces of the Dominion sent 83 and foreign countries 75. England sent 28 students and the United States 21. Other countries represented were: Argentina, Belgium, British West Indies, Germany, Iceland, India, Japan, Mexico, Newfoundland, Russia, Scotland, South Africa, Panama and Spain.

GLADSTONE RAY MUST ANSWER FOR MURDER

Alleged To Be Responsible
For Death of John
Barr.

[Canadian Press.]
Guelph, Ont., July 16.—Gladstone Ray was sent up for trial at the fall assizes for the murder of John Barr, who was killed on Sunday night, June 21.

Magistrate Watt considered the evidence sufficient to warrant holding Ray.

The points made by the crown were that Ray had been with Barr for some time previous to the murder; that an Italian coin, a pocket piece of Barr's was found in Ray's possession, and blood stains were found on Ray's clothing.

When his commitment was announced Ray seemed to be the most unrepentant man in the room.

AVIATORS DESTROYED MOUNTAIN STRONGHOLD

Morocco Tribe Routed From
Hitherto Impregnable
Position.

[Canadian Press.]

Paris, July 16.—How two military aeroplanes destroyed with bombs the mountain stronghold of the Riata tribesmen in the Taza region of Morocco is described in dispatches which have just been received here.

The tribesmen's retreat had been located and General Gouraud sent out the two aeroplanes, one manned by Lieut. Peierstein and Capt. Raymond, and the other by Lieut. Paret and Morlet.

The attacking parties carried four bombs each. They speedily discovered the hiding place and dropped the bombs with such precision that the camp was destroyed, many tribesmen being killed.

The aviators then made maps, showing the position of the fastness, which enabled Gen. Gouraud to round up the natives who had escaped death by the bombs.

Sanitary Inspector James Lutman, who received the letter, said today he did not know of the Galvin family or the Ireland family, and he will wait until the papers have had a chance to locate them before he sends back a reply to Mrs. Ivey.

ENTRANCE RESULTS WILL BE PUBLISHED SATURDAY

According to a statement issued by Public School Inspector C. B. Edwards this morning, it will be Saturday before the London entrance examination results will be released for publication here. The results have been compiled by the local board of examiners, but are being held, subject to the sanction of the departmental authorities at Toronto.

POPULAR MAJORITY FOR THE LIBERALS

Winnipeg, July 16.—The popular vote in the Manitoba elections, as compiled by the Free Press in 45 constituencies out of 46, is as follows: Opposition candidates 66,887, Roblin candidates 64,271, Independent candidates 7,148. Total, 138,301.

In 1910, the Roblin Government polled 50.77 per cent of the total vote; Liberal 47.58 per cent, and Socialists 1.65 per cent.

Relative figures for 1914 are: Liberal 48.36 per cent, Conservatives 46.47 per cent, for Independents, Socialists and Labor candidates, 5.17 per cent.

DIPLOMACY WINS

Pall Mall Gazette Says
Wilson Was Patient
And Persistent.

(Canadian Press.)

Washington, July 16.—President Wilson will not recognize Provisional President Carbajal nor any other government in Mexico, not set up through a legal election or in accordance with the protocols signed at Niagara Falls. Despite the resignation of General Huerta he will continue his watchful waiting policy until the situation is more clarified.

A Peaceful Entry.

The expectation of the American President is that attempts will be made for the peaceful entry of the Constitutionalists into Mexico City in case Carranza and his generals finally refuse to accept Carbajal, pending the holding of an election.

President Wilson believes other nations will not recognize any new government until the United States has indicated its willingness to do so. For that reason, he thinks that the Constitutionalists will be very careful in their procedure. The President is understood to have no objection to Carbajal except on the score that he derived his power from Huerta, and is willing to accept him, if the Constitutionalists will agree, as provisional president until elections.

No Looting Likely.
White House officials were confident today that the Constitutionalists would be careful in their acts when they enter Mexico City. They believe there is no danger of wholesale killing or looting.

[Canadian Press.]
London, July 16.—The resignation of Gen. Huerta of the presidency of Mexico is regarded as a victory for President Wilson's policy, and is regarded by the British public and official circles here as a possible solution of the Mexican problem. A peaceful end to the complex situation is greatly desired here, on account of the large British financial interests in the country.

Most of the London newspapers, however, express doubt as to whether conditions will be better under Carranza than when Gen. Huerta was in power in Mexico City.

Benton May Be Avenged.
The Pall Mall Gazette points out that if Francisco Carbajal, the new provisional president, surrenders to Gen. Carranza, as he is expected to do, "it may soon be possible to exact reparation from Gen. Villa for the murder at Juarez of William S. Benton, the Scottish rancher."

The Evening Standard says: "The Washington Administration has won a diplomatic victory." President Wilson has been persistent and patient in his policy of non-recognition of Gen. Huerta, but it is likely enough he will be met now by other obstacles just as hard to surmount as was Gen. Huerta's obstruction."

PEOPLE TAKE CHANGE CALMLY

The Globe has much the same to say: "The elimination of Gen. Huerta is a triumph of sorts for President Wilson... but it may be assumed that his difficulties and anxieties are by no means over. There is no reason to suppose that the real opinion of the Mexican people will have more opportunity to assert themselves under Gen. Carranza than they had under that of Huerta." LAY CORNER-STONE OF SUNDAY SCHOOL

Wellington Methodists Have a Pleasing Ceremony to Mark Extension of Building.

LARGE CROWDS ATTEND

Band Concert Given in Evening Draws Appreciative Audience.

Large crowds attended the services, which marked the laying of the corner-stones of the Wellington Street Methodist Sunday school building yesterday afternoon and the band concert given by the Salvation Army band in the evening. The cornerstones were laid by John McClary and William Yeates. Addresses were given by Rev. C. R. Gunne, of Christ Church, Anglican; Rev. J. H. Boyd, of Adelaide Street Baptist Church; Rev. W. R. McIntosh, of King Street Presbyterian Church; Rev. H. A. Graham, of Centennial Methodist Church, former pastor of Wellington Street Church; and William Jeffrey, superintendent of Wellington Street Sunday school. Rev. G. N. Hazen, pastor, and Mr. Jeffrey, were joint chairmen, each presiding over part of the program.

Other ministers who took part in the service were Rev. W. H. Harvey, Rev. J. M. Keyes, Rev. L. W. Wickett, Rev. D. N. McCamus and Rev. A. McKibbin.

Miss Leta Layman rendered a solo, and the Sunday school orchestra, and a chorus of the children of the Sunday school also participated in the musical part of the service.

On behalf of the trustee board of the church, James Loney presented a silver trowel to Mr. McClary, and J. T. Wallace presented one to Mr. Yeates.

In one of the cornerstones were placed copies of the local newspapers, the Christian Guardian, lists of members of the trustee, quarterly and other church records, and the building committee, and in the other the names of the teachers, officers, and pupils of the Sunday school, a report of the W.M.S., a financial report of the church, a record of the proceedings of the day, Sunday school papers and various other documents. Following the laying of the cornerstones, supper was served by the Ladies Aid Society of the church.

Rev. Mr. McIntosh, speaking in the afternoon, emphasized the work of the Sunday school, and expressed the opinion that the church of today did not sufficiently recognize the great work done by the Sunday school.

Rev. Mr. Gunne dwelt upon the value and importance of religious education, and declared that religious education including Bible teaching, ought to be provided for in the public school curriculum.

DENIES ANY "FLOP" TO MAYOR'S WING

Ald. W. A. Wilson Avers That He Never Made Overtures to Graham.

Alderman W. A. Wilson writing from Halifax, N.S., enters a vigorous denial to the story that he ever made overtures to Mayor Graham to become identified with the mayor's wing of the council. Alderman Wilson intimates in his letter that he always retains his independence on all matters and that it is a reflection on him to say that he ever tried to "flop over" into the mayor's corner on any issue.

The question arose in the matter of the subway fight when Alderman Wilson was made chairman of the subway committee. It was alleged because the committee did not work with much speed that Alderman Wilson was teaming with the mayor to hold off as long as possible on the report.

In his letter from Halifax Alderman Wilson says he is for subways first, last and all the time.

SEARCH FOR PATMONT HAS BEEN GIVEN UP

Friends of Missing Clergyman Are "Keeping Mum" and Awaiting Developments.

According to dispatches from Detroit, friends of Rev. Louis P. Patmont, who disappeared from the home of Rev. Claude F. Whitty, 160 Perry avenue, west, four weeks ago, have given up the search for the missing preacher. Rev. Mr. Whitty, who had been one of the chief instigators in the search for the supposed kidnapped minister, states that the searchers are now "keeping mum and awaiting developments."

Detroit friends are given to discrediting the stories that Rev. Patmont was in the vicinity of this city. When reports reached the city of the Stralts that it was probable that he was in hiding in London, it is stated that searchers came to this city to investigate. Their findings convinced them that the missing preacher was not in the Forest City.

Rev. Mr. Whitty says that he is convinced that Patmont is alive and the captive of representatives of the liquor interests, who he alleges were responsible for his disappearance from Westville, Ill., in May.

Letters received from members of the Church of Christ from all over the United States show them to be greatly agitated over Patmont's second "kidnapping," as they call it. Most of the letters express willingness to contribute towards the expenses of hunting down and prosecuting those to blame. Already the sum of \$54.41 has been received as an aid in the search, while the sum of \$44.41 has been subscribed for the support of Mrs. Patmont and the two children during the father's absence.

OFFERS FIVE ACRES FOR PARK PURPOSES

[Special to The Advertiser.]

BERLIN, July 15.—The board of the Berlin and Waterloo Hospital has offered the use of about five acres of land, commonly known as the Green Bush, to the Berlin Park Board, to be used for park purposes for the citizens of Berlin and Waterloo, living in the vicinity until such time as it will be required for hospital purposes. The property is located on King street, near the Waterloo boundary line. The Waterloo park board has offered to furnish the trees that will be necessary to beautify the proposed breathing spot.

BETTER SANITATION FOR RURAL SCHOOLS

District Health Officer Points to North Middlesex as Illustration of Its Great Need.

The report of the provincial board of health for 1912-1913 has just been issued. The report of the district officer of health, Dr. D. B. Bentley, of Sarnia, makes little reference to London.

During the year smallpox outbreaks occurred in Lobo, Plympton and Blenheim townships and Essex county. Typhoid epidemics at Sarnia, St. Thomas, Windsor, Sarnia and Chatham are dealt with. The Windsor outbreak was attributed to bad water and an outbreak at Forest was traced to contamination by means of milk supplied from the home of a patient.

Slaughterhouses in twenty unnamed municipalities were found to be in a terrible condition. Dairies were not quite so bad, Dr. Bentley reports. A school inspection in North Middlesex is referred to as illustrating the great need of better sanitary improvements and conditions in rural schools.

BATTLE CENTENARY

Big Program Planned for 100th Anniversary of Lundy's Lane on July 25.

Invitations have been issued by the Lundy's Lane Historical Society for the big celebration of the one hundredth anniversary of the Battle of Lundy's Lane, on July 25 at Lundy's Lane battlefield.

The program of the battle celebration will be international in character, part of it including the decoration of the monument and graves of those who fell in the battle by a committee of twelve Canadian and American young women. The mayor and common council of Niagara Falls, New York, and the mayor and board of aldermen of Niagara Falls, Ont., the centenary peace celebration committees of the two Niagara Falls; Col. Sam Hughes, minister of militia; Governor Sir John Robson, of Ontario; U. E. Loyalists, Six Nation Chiefs and other Indians, as well as other notable persons will participate in the program.

CANCEL CONTRACT FOR NEW STEAM BOILERS

Stratford Falls in Line With Hydro Commission Suggestion.

[Special to The Advertiser.]

STRATFORD, July 15.—The Stratford water commissioners have decided to fall in line with the suggestion of the Hydro-Electric Commission and to cancel the contract for new steam boilers with gasoline engines. Chairman McIlhargey has returned from Toronto, where he interviewed the hydro people on this and obtained expert advice, although a contract for steam boilers had previously been signed by the Stratford Waterworks Limited, of Stratford and Toronto, and some work had already been done on the boilers.

This firm and the water commission arrived at a satisfactory agreement concerning the cancellation of the order. Engineer Carter has been asked to attend to the securing of the gasoline plant.

WHITEWEAR!

Manufacturer's Clearaway Friday and Saturday--To You at Factory Prices---Fresh New WHITEWEAR

THIS sale will commence promptly at 8:30 Friday morning, and will be the most important event of its kind we have held for some years; many opportunities are here to secure record prices on wanted Whitewear at the very time when many are thinking of replenishing their supply.

This is another occasion when we act as a clearing house for one of our regular standard manufacturers, who finds it a vital necessity to "cash in" the surplus manufactured stocks at the close of each season. Our buyer made a special trip to the factory when informed that they were ready to dispose of the balance of the season's output, and made selection from thousands of dollars worth of the newest, freshest and choicest Whitewear, which will be on the floor for Friday and Saturday Sale, at exactly manufacturer's prices, some lines for less. These goods are not bought to carry in stock, but to clear in two days, as only this season's newest Whitewear garments will be found in this sale, and we expect a sweeping exit on Friday. Dundas street window display will demonstrate the bargains that await you tomorrow in this sale. We will be unable to give descriptions of style and trimming, but will give a rough estimate of quantities, values and prices.

Every Garment at Manufacturer's Prices---Many Less

The purchase includes DRAWERS, GOWNS, SKIRTS, CORSET COVERS, PRINCESS SLIPS, COMBINATIONS and KNICKERS, prettily trimmed with lace embroidery and insertion; also some embroidered in pretty floral designs. Come early for selection of choicest garments.

BODY WASHED TO SHORE

Fateful Wind Brings Remains
Back to His Own Cottage,
Terras Beach

[Special to The Advertiser.]
Ridgeway, July 15.—Escaping from his cottage at Terras Beach, five miles south of Ridgeway, at 12 o'clock last night, Cuthbert Patrick, aged 28, a wealthy Detroit, threw himself in Lake Erie. This morning his body was washed upon his own beach an off-lake wind having carried back all that was mortal of the unfortunate man to almost his own doorstep.

Under medical care for the past three years Patrick was the victim of a nervous breakdown, and the successful attempt to take his own life is believed to have been accomplished while temporarily insane.

For six weeks he has been staying with his wife at Terras Beach, and during that time was under a physician's care.

As soon as his absence from the house was noticed last night, a search was instituted by the cottagers. The beach was patrolled, boats put out into the lake for some

Thin Men and Women

Here's a Safe, Easy Way to Gain 10
to 30 lbs. of Solid, Healthy,
Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste. What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste or flesh-leakage is to use Sargol, the recently discovered regenerative food which is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.—adv.

LIBERAL CLUB FOR E. LAMPTON

The Liberals of Forest, at a
Splendid Rally, Form a
Strong Organization.

[Special to The Advertiser.]
FOREST, July 15.—Tonight the Forest Liberal Club came into existence at a splendid rally called expressly for the purpose of organizing such a body, and held in the town hall.

A great many of those present signed the register as members at the close of the meeting and a further meeting of the club will be called shortly at which officers will be elected.

Dr. J. H. Pickering, who presided, explained that the Forest Liberal Association had come to the conclusion that some better system of organization is needed if Liberalism is to be maintained on a sound footing in East Lambton, and thought the best way to bring about such a result is to form a Liberal Club.

Other Clubs To Be Formed.

It was hoped that later on other clubs of a similar nature would be inaugurated in other centres in the riding. So far as Forest was concerned, it was proposed to have permanent, comfortable quarters, where the interests of Liberalism could be fostered.

It was very evident, said Dr. Pickering, that in the provincial campaign which had recently concluded, the Liberal organization throughout the province was not what it should have been. Liberal workers had done their best, but their work had not been as effective as it might have been because of the lack of proper organization.

The hall was packed, in spite of the intense heat, and at the conclusion over 100 of those present signed the register as members of the newly-formed club.

Ovation for Mr. McCormack.

R. J. McCormack, declared the victor in East Lambton over Dr. Martyn, after a recount of the votes, was given a tremendous reception. In the course of a characteristically humorous speech, he declared that he had been declared defeated and defeated alternately so often that he hardly knew where he stood. "I think," he said, "I had better go down to the House, get hold of my seat and tie up safely somewhere."

In previous elections, Mr. McCormack said, when on the first count he had been declared elected the Conservatives had insisted on having all marked ballots thrown out. Now, however, the boot was on the other foot and those same Conservatives were not so sure that marked ballots should not be allowed to count. He added: "Why should I not have the same fairness of treatment as Dr. Martyn had on other occasions?"

Mr. McCormack declared his conviction that many Liberal-minded Conservatives voted for him in the recent election, and made the statement that some of his worried friends in East Lambton were Conservatives.

Address by Mr. Pardee.

F. F. Pardee, M.P. for West Lambton, commended Dr. Pickering for his vim and enthusiasm in the Liberal cause, which was just what was wanted to put Liberalism on a firm foundation. One great mistake which had been made by the Liberals in the past was in leaving organization until just before an election. If they wanted to win out, they would have to fight between times as well.

Borden's Failure.

Mr. Pardee arraigned the Borden administration, declaring that it had not advanced a single policy since coming into power in 1911, which had been for the good of the Dominion. On the other hand, Mr. Borden and his followers had loaded on to the country a debt greater than it could bear. Not only had the national expenditure been raised from \$122,000,000 to \$183,000,000 since 1911, but the annual revenue had dropped \$6,000,000, while the appropriations for 1914 and 1915 were enormous.

And this, Mr. Pardee said, is in face of the fact that the country is richer than it has been for many years, and that hundreds of men are out of work is that the kind of a government the people of Canada want?

The Wasteful War Lord.

During the whole of Sir Wilfrid Laurier's regime, the speaker continued,

every year had seen a surplus. The military expenditure, he went on to say, had increased from \$1,000,000 in 1909, and 1910, to \$7,000,000 in 1913 and 1914, when Sir Frederick Borden was minister of militia, and even some Liberals have complained that this was too much. However, in 1912 and 1913, Sir Hughes had increased the amount to \$10,275,000, and for 1914 it went up to \$10,938,000, and for 1915 it was \$12,800,000, almost double what it was the last year the Liberals were in power.

Sam Hughes, said the speaker, is carrying this thing to such an extent that one wonders where it is going to end if he is allowed to keep it up for another four years.

Drill Halls to Catch Votes.

Drill halls are being erected all over the country where there is absolutely no need for them. They were being put up just to catch votes, Mr. Pardee accused the Conservative party of having shirked the real issue in the campaign of 1911. They know very well that reciprocity would mean greater prosperity for the country at large, but under the coercion of the capital, they had endeavored to stampede the electors by pretending that reciprocity would mean the absorption of Canada by the United States and the disintegration of the British Empire.

Yet, he pointed out, when Mr. Wilson became president of the United States, he had removed some of the duties barriers, with the result that Canadian exports with the United States have increased by \$9,651,000, and in spite of that, no disintegration of the empire had taken place, and no one ever thought of suggesting the possibility of such a thing now. As a matter of fact, such a danger never had existed, but the Conservatives had raised the cry just to divert from the real issue.

Another Case of Insincerity.

In the matter of a navy policy, also, the Conservatives had shown insincerity. They had professed hearty concurrence in the policy formed while Sir Wilfrid Laurier was in power, but when they had found that such a policy was not popular in Quebec, they had told the people of that province that money should not be spent in giving naval assistance to Britain, while in Ontario they had taken an exactly opposite stand, declaring that the amount the Liberals were proposing to spend was not enough.

Later, after the Conservative party was returned to power, the Nationalists threatened to desert the Government if aid were given to Britain, and the Ultra-loyalists in Toronto threatened to unseat the Government if it were not.

Mr. Borden introduced a policy under which, instead of building ships in Canada and giving employment to Canadians, it was proposed to borrow \$25,000,000 from financiers in the Old Country, paying 4 per cent interest for it, and to leave it there to pay for the building of ships in England.

If there were one thing that had been talked about and argued for more than any other, Mr. Pardee said, it was "lower taxation, and in this connection he asked, "Did you get it in the budget brought down by Hon. W. T. White in 1914? The Government did not remove the duty from any single thing."

Mr. Pardee said, "The duty was lowered from 17½ cents to 12½ cents, but on seventeen other articles the duty was increased. The people of Canada are paying no less than \$750,000 extra in duty on nails alone."

To Be Liberal Again.

In conclusion, the speaker said, "There may be an election soon or there may not be one for some time. In any case be prepared. We want next time not only to make East Lambton Liberal, but to return a Liberal government to power. In the old days the riding always was Liberal, and there is no reason why it should not be Liberal again."

Thaw In Control

of Large Income

PITTSBURG, July 15.—After six months of legal battle, Harry K. Thaw, in a decision handed down by Judge James W. Over, in orphans' court early today, is awarded the income from his father's estate, which has been denied him by the trustees since he was adjudged insane for the slaying of Stanford White.

By the decision, Thaw gets \$160,773. Judge Over says Thaw is legally entitled to the money, despite the fact that alienists declare he is suffering from an exaggerated sense of self which would make it unwise to commit any large sums of money into his personal charge.

ACRES STRIPPED BY ARMY WORM Great Destruction by Pest on the Farms of Oxford County.

BIRDS TO THE RESCUE
Feathered Folk Helping Farm-
ers in Battle With Little
Destroyers.

[Special to The Advertiser.]
WOODSTOCK, July 15.—The farmers in Burford Township are busy today in an attempt to stop the march of the millions of army worms that have been devastating the crops. The Advertiser visited the scene today and saw some of the fields that the worms had destroyed. The average person cannot imagine the destruction that the worms have accomplished.

In the pasture fields the grass is gone and not a particle of green can be seen anywhere. The fields look as though a fire had passed along and burned everything in the way.

Millions of Worms.

Along the creek some distance from the creek it is impossible to walk on the ground without crushing hundreds underfoot.

Travelers Seven Miles.

The worms, it has been learned today, were first seen near Burford Village, about seven miles from where they are now located, and they have visited dozens of farms and destroyed practically all the pasture of the following farmers: J. A. Thompson, M. M. Neil, Joseph Chant, E. Reid, Charles Weir, Alex. Weir, W. Stephenson, J. Kinsley, W. Melmine and many others.

Mr. Neil lost about four acres of corn, besides the loss of his pasture and some of the others lost considerable corn.

The army worms have evidently finished the pasture in Burford County, and today are making their way into East Oxford, as the road that divides the two counties is black with them.

Large flocks of birds are ably assisting the farmers by devouring the worms, as in every field the birds are feeding on the pests.

The damage done by the worms cannot be estimated at the present time, as it cannot correctly be ascertained how many acres of pasture have been destroyed, but it will probably amount into the thousands.

Today quite a number of citizens are visiting the place, and each party has a theory as to how the worms could be stamped out, but the general opinion of the farmers is that the worms are now dying out, and that they will all disappear in the course of the next few days.

GOVT. CLOSES DEAL
WITH CAN. NORTHERN

Mr. White Signs Papers, Mak-
ing Canada a Joint
Stockholder.

[Special to The Advertiser.]
OTTAWA, July 15.—Canada is now a full-fledged partner of Mackenzie and Mann. Sir Wm. Mackenzie has been waiting for several days for Finance Minister White to come back and close the deal. Hon. Mr. White came back at noon. In the afternoon a cabinet meeting was held. The trust deed was ratified. The National Trust Company was appointed trustee and the Canadian Northern was consummated. The next step will be the handing over to the Government by Mackenzie and Mann of forty million dollars. Canadian Northern common stock. The \$45,000,000 guaranteed bonds will be put on the market at once some disposition here to criticize the Government for having appointed the National Trust Company as trustee. Hon. Mr. White is general manager of the company. Z. A. Lash has been one of the leading officers since its organization. It has always been regarded as a Mackenzie and Mann institution. It is felt here that it would have been as well to have appointed a disinterested company. There is considerable interest shown concerning the way the British investing companies will receive this issue of securities and the price they will bring.

The trust company appointed in England for the transaction is the British Trust Corporation, which is another Mackenzie and Mann concern.

HUERTA DRINKS
LAST TOAST IN
FAVORITE RESORT

Tears Filled His Eyes as He
Drank to the New
President.

MEXICO CITY, July 15.—Shortly after 8 o'clock tonight General Huerta, accompanied by a few friends, entered the French cafe which he has been in the habit of visiting several times during the past year or more, and took for the last time a place near the entrance. An immense crowd followed the ex-President to the cafe, shouting "vivas" for him. Many shook him by the hand, while others embraced him, and several kissed him on the cheek.

The stern old soldier was overcome and tears filled his eyes as he raised his glass and said, "This will be my last toast in my favorite resort and I drink to the new president of Mexico."

WOMEN BURNED TO DEATH.

DALLAS, Tex., July 15.—Two women were burned to death, and three other persons were seriously injured in a fire here early today. The dead are Mrs. Mary E. McCauley, and Mrs. Dora Roberts, who were sleeping on the second floor.

COL. MAYBERRY GAINS IN OXFORD RECOUNT

Conservatives Concede Three
Ballots That Had Not
Been Counted.

[Special to The Advertiser.]
WOODSTOCK, July 15.—During the progress of the South Oxford recount it has been learned here today that three envelopes containing rejected ballots—four in all—from No. 2 South Norwich, Norwich Village and Dereham, had not been produced. Counsel for Col. Mayberry demanded that these rejected ballots be produced. They will be handed over to the judge for inspection.

As the matter now stands, Mr. Mayberry has made a gain of three ballots; that is to say, three ballots that were not counted for him by the deputy returning officers are conceded to him by Mr. Sinclair's representative.

If Judge Wallace takes the same view of the matter on these ballots, Mr. Sinclair will only have a majority of one.

Col. Mayberry, when seen by The Advertiser this afternoon and asked if this story was correct, stated that Conservative representatives have conceded the three votes to him.

REGINA, July 15.—Austin Drewnick, convicted of murder and sentenced to die, was today granted a reprieve by Judge Brown in the district court of this city. The execution, which was to have taken place tomorrow morning, was postponed until Aug. 15. Drewnick was found guilty of murdering a fellow-workman in a construction camp near Prince Albert during March. In the district court yesterday counsel for the condemned man, appeared before Judge Brown with evidence to prove that a man at present in jail at Mooseomin had made a statement declaring that Drewnick was not guilty of the charge and that he could name the guilty one.

MR. MONK'S VERDICT.

SIR ROBERT BORDEN will not be pleased over the publication of a letter written by the late Hon. F. D. Monk after his resignation as a member of the Borden ministry, in which that high-minded minister gave his impression of Canadian public life, received, it is fair to assume, as a result of his connection with the Conservative regime.

According to a telegraphed summary of the letter, Mr. Monk wrote that "public life in Canada was rotten and overrun with gang rule." He continued:

"We are living in an age in which personal interest and egotism are the paramount considerations. In this young country of ours it is high time that we should conduct ourselves in political life as we conduct ourselves in the relations of private life—that is to say, with honesty and straightforwardness. A reaction is required."

While no fair-minded Liberal will maintain that Mr. Monk excluded the Liberal party from this denunciation, it is patent that he secured his dark picture from his intimate relationship with the Conservative party. In fact, it might be claimed that he secured this impression so strongly that he was disgusted, and that it caused him to resign. He was close to the men highest in Conservative ranks for a term. He knew their methods and it was from his attachment to them that he learned of dark and mysterious proceedings. Certainly, Mr. Monk was not the counsellor of the Liberal party, and it is fair to draw the conclusion that he did not have his eyes open until he had come close to the throne of Conservatism, and had seen what manner of fountain head the party drew the fluid of its life from.

The Conservative party has always claimed to be the virtuous party in Canada. People who parade their virtues are always worth watching and Mr. Monk has torn the curtain from the innermost chamber of Toryism.

SPOILED BALLOTS.

THE RECOUNT of the vote in East Lambton and in West Kent was a condition of affairs which is to say the least, by no means creditable to the intelligence of the duty returning officers. In the one there were over a hundred ballots spoiled by the officer failing to remove the counterfoil; and in the other not less than six hundred ballots were spoiled in the same way. As in these cases the throwing out of both ballots would give the election to the Liberal candidate it is safe to say that they were not spoiled with intent. Government candidates would have been better off if the ballots had been properly treated. We take it to mean there was either a lack of proper instruction, or that the deputies were incompetent to understand the instructions given. It is quite possible that in many other constituencies there have been found the same condition as a purely partisan point of view, to the friends of the defeated candidates who would thus be counted the decision of the Judge in East Lambton and other constituencies would be very satisfactory. They will really say that the result must be decided by the majority of legal votes, not by the actual number of votes cast. The law requires the ballot to be torn off the ballot before it is deposited in the box. If it is not done the ballot is illegal, should not be counted. There is nothing in that contention; there is more in it if the ballot was torn off by the voter himself. But the voter did his part all right, and that the deputy returning officer, whether through ignorance or carelessness, spoiled the ballots puts the matter in another light. The acceptance of that principle would leave it for any deputy in a closely contested election to spoil sufficient ballots to decide the contest in favor of a candidate of his own choice. That is a right not reasonable.

LABOR VS. OLIGARCHY.

THE growth of the Labor party in Great Britain has been, and is, in some ways, a menace to the British Liberals. But, on the whole, it has as yet hurt Conservatism more. Not only do the Laborites in Parliament vote usually with the Liberals; not only does Labor stand strongly against militarism, or misuse of the constitution with a great mass of organized workmen, the physical force of the nation, a potential host of Ironclads; but the Labor party educates the workmen in politics and economics. It opens their eyes against deception and specious bribery. Thus, the danger under oligarchy is universal suffrage that oligarchy should bamboozle, bulldoze and buy up the poor, as has happened in some countries, is somewhat obviated. The Labor party has lined up the masses against reactionary Conservatism. Many democrats have had misgivings about enfranchising the very poor and ignorant because of their dependence on the wealthy. But Mr. Asquith is not now afraid to bring in the law of one man one vote, and one vote to every man. Thanks to the Labor movement, the British masses know what to do with the vote.

ATTACKS AN INSTITUTION.

A CHICAGO magistrate has declared spooning to be a crime. This is an absolutely new view of a time honored institution that is almost a classic. Perhaps, he called it criminal, because of the torture it inflicts on innocent bystanders, and there is no doubt that the hypochochondria who finds his favorite park bench in possession of a pair of spooners, votes them a public nuisance, if not a public menace. But, was there ever a wedding that was not preceded by spooning, sometimes of five minutes duration, again five years? It does seem as if spooning were essential to the general scheme of things. Doesn't Chicago Judge know that moonlight and lovers' walks, summer dusks and all the rest of it exist merely as backgrounds to the happy, if idiotic, spooner. Our parents spooned, our grand-parents spooned, and likewise our great grand-parents, although in that latter loop-skierted period it

nality is a questionable one. All the more so, when the acceptance of that technicality as a precedent opens the way for injustices, and possible damage to the same party in the future. We are inclined to think that where the result of an election is to be changed by the blunders of a deputy there should be a new contest. That would involve labor and expense. But it would be better than to have a choice between seating a man who has not received a majority or seating the other in violation of the law.

THE MAGNET REVERSED.

WHILE some cities, Ottawa included, are seeking the deportation of a large number of able-bodied men for whom there is no work in Canada, it may be relied upon that the immigration officers of the government in Europe continue to paint alluring pictures to attract the men to this land. All through the period of acknowledged depression, immigrants have been brought in in as large numbers as possible. Some have been brought into this district and literally dumped into the community stream to sink or swim. Recently an inspector who had sent word that no men were required in his district, resigned after several families had been shipped into his territory.

Now the cities are demanding that the Government deport able-bodied men who are not able to support themselves. Many of these men were brought to this country by the Government, some of them to give Tory strength in years to come, while there was no demand for them. This is a policy that will bring discredit upon this fair land. The Liberal immigration policy brought a splendid class of citizens to our shores and most of them quickly established themselves. But the Conservative Government, both provincial and federal, have weakened the nation and themselves through their conduct of the policy.

IS THIS SOFT SOAP?

THE representative of an English soap company, which is located at a plant at Hamilton, stated in an interview given yesterday that it was because of the British policy of protection that his firm was induced to bring a plant to Canada. The ultra-protectionist papers will make much of his statement, citing it as an instance of industrial expansion as a result of the tariff. Yet while there may be a good deal to what he says, it is quite natural that the gentleman would praise the country that has a tariff which enables him to keep prices up to a high level, and to take more from the public than he would be able to take if there were no tariff.

And while we would not presume to appear wise it is quite possible that if the demand for soap were sufficiently great in this country there would be large soap factories whether there was a tariff wall or not. For instance, if there were no tariff wall both American and English soap makers would be in competition in Canada. Would the English maker allow the American just across the border to take the market or would he meet him in the battlefield of business and cut out the cost of ocean carriage by building a factory? It is quite probable that for Canadian trade both the English and American maker would be in Canada with large plants, and that Canadian soap makers would be quite as active and healthy as ever. Just as many men would be employed, and the public would not be paying such large profits. This is an age of branch factories located in the centres that afford the best shipping and purchasing facilities. For shipping and supply often make a much greater item than the tariff.

LABOR VS. OLIGARCHY.

THE growth of the Labor party in Great Britain has been, and is, in some ways, a menace to the British Liberals. But, on the whole, it has as yet hurt Conservatism more. Not only do the Laborites in Parliament vote usually with the Liberals; not only does Labor stand strongly against militarism, or misuse of the constitution with a great mass of organized workmen, the physical force of the nation, a potential host of Ironclads; but the Labor party educates the workmen in politics and economics. ATTACKS AN INSTITUTION.

A CHICAGO magistrate has declared spooning to be a crime. This is an absolutely new view of a time honored institution that is almost a classic. Perhaps, he called it criminal, because of the torture it inflicts on innocent bystanders, and there is no doubt that the hypochochondria who finds his favorite park bench in possession of a pair of spooners, votes them a public nuisance, if not a public menace. But, was there ever a wedding that was not preceded by spooning, sometimes of five minutes duration, again five years? It does seem as if spooning were essential to the general scheme of things. Doesn't Chicago Judge know that moonlight and lovers' walks, summer dusks and all the rest of it exist merely as backgrounds to the happy, if idiotic, spooner. Our parents spooned, our grand-parents spooned, and likewise our great grand-parents, although in that latter loop-skierted period it

must have required considerable agility. But, if spooning be criminal, there are many millions of young people who should be jailed, and should it ever be declared unlawful, the Government will be compelled to multiply a hundredfold the prisons of the country. Sam Hughes' demand for armories, and more armories will seem trifling compared to the demand for places in which to sequester young couples who have fractured the spooning regulation. To spoon is human, also divine in the estimation of the spooners, and is so widely popular that any government which tries to legislate it out of existence, courts sudden death. Anyway, is there anybody from prince to peasant who hasn't spooned?

THE TIGER'S JUNGLE.

A STORY is told of the late Professor Goldwin Smith that, being informed one day of some law reform and simplification in prospect, he said: "Did I hear that the lawyers are going to simplify the law? I shall hear next that the tigers are going to abolish the jungle."

In the late Ontario campaign one would have thought, to hear some of the Conservative-Whiskey party talk, that they were the only almost-pure temperance reformers on the map. But, however it may be with tigers, or lawyers, we need not expect the whiskey party ever to abolish the bar. Their organs, wet and dry, have indeed told us that temperance progress must, according to human nature, be very slow, to be reckoned, doubtless, in geological periods. The whiskey tiger's jungle and lair is the bar. When the bar falls, falls the tiger.

Subways are in-sight.

The Wellington street boulevard idea would greatly enhance the southern section of the city.

Chicago highwayman who snatched a woman's purse returned the chewing gum. What did he do with the powder puff and mirror?

Wrecked liner was obliged to throw fifteen automobiles overboard. Joy riding will now become a favorite pastime of mermaids.

Perhaps, now that the election is over, the Ontario Government will have a little time to devote to the whereabouts of one J. W. Moyes.

A north end resident who has just come through a long bout with mustard plasters, has barred "Too Much Mustard" from his grammophone.

We would not expect the same treatment from our opponents, but it would be a gracious thing for the Liberals to refuse a seat that is won on a technicality.

No, G. Howard Ferguson will not give up his seat for Dr. Reaume. In fact, G. Howard may even suspect that Dr. Reaume is going to give up his cabinet seat to him.

The result of the Manitoba elections does not mean that the hand of Bob Rogers has lost its cunning, but that the province is "getting wise" to the cunning hand of Roblin.

It was not to the militants that the official statement was made that the British Government would have to deal with the suffrage question. Verily the race is not always to the strong.

The proposal to build an amusement park at Springbank is one that should be encouraged. There is little harm and lots of enjoyment to be had at the average "White City," and it is possible that a little more fun of the clean kind would do this city a world of good. We are inclined to take ourselves a little too seriously. Looping the loop has never injured the morals of anyone.

The National Housewives League of the United States wants to know what has become of the enormous quantities of Argentine beef imported into that country. The president of the league knows of only one place in New York where the beef can be bought, and urges inspection of the beef trust larder. All of which seems to emphasize the fact that there is still a fine market in the United States for Canadian cattle.

THE COLD BATH BORE.

[Detroit News.] Everybody knows that tiresome individual who insists on going into particulars concerning his ailments. "Cold plunge every morning of my life, no matter what the weather," he beams, and then slaps you on the back. He never realizes that others are just as little interested in his bath as in other commonplaces of the daily routine. "It will be a shock to this person to read Dr. Morgan McWhinnie's articles

---and the Worst Is Yet to Come

In the Medical Journal on the cold bath myth. It is not a bath but a strain on the nervous system to be salutary. It does not add to life and strength, but is, on the contrary, an added strain on both.

Other physicians have decried the icy dip and Dr. McWhinnie merely adds his testimony. But the opinions of experts will have little effect on the cold bath bores. Most of them leap into the frigid water and leap out again, not because they think the act an aid to health or cleanliness, but because they want to talk about it.

NOT A CHANCE.

[Ottawa Journal.] William Randolph Hearst says that the next President of the United States must not be a snow dreamer and thinker. Nevertheless it is hard to see where William Randolph has a chance.

"TRUCK" FARMING.

[Toronto Star.] The Windsor Record says that almost any day there may be seen on the streets of Windsor a large, square truck that comes up from the Leamington district with new cabbage—the home-grown kind that make delicious salads. The motor truck is destined to play a large part in the transportation of farm products.

THOROUGH SETTLEMENT.

[Chicago Tribune.] Speaking for himself (and we may say that he voices our opinion also), the Marquis of Creve believes that if John Redmond, Sir Edward Carson, William O'Brien and two or three other Irishmen were to get together, they would settle the Ulster question. It is not known what question the Kilkenney cats set out to settle, but whatever it was they settled it.

WHERE "CANADA WAS BORN."

[Fall Mail Gazette.] Where was the Dominion of Canada born? Not many folk, perhaps, could supply the correct answer, viz., at the Westminster Palace Hotel. The hotel has been the scene of numerous important political gatherings, but none more historic and vital to the empire than the conference which culminated in the union of the British North American colonies. A memorial tablet was recently placed in the room where the delegates met.

THE EXCHANGES.

July 15. Signs of further liquidation were manifested by today's stock market in the early declines.

Have been the feature that made for increased apprehension, selling at 4 1/2, a fraction under its low record of yesterday and a decline of 1 1/2 from the close.

Baltimore and Ohio was the weaker member yesterday on the Union Pacific, which was 1/2 point higher.

Lower prices, and New York Central came within a fraction of its lowest price in a score of years.

Canadian Pacific, which rose smartly at the outset, was not so strong as it appeared.

On assurances that no immediate financing is contemplated, soon lost much of its gain.

Partial recoveries followed the first decline.

Paris, July 15.—Prices were firm on the bourse today. Three per cent rent, 82 francs 35 centimes for the account.

Exchange on London, 25 francs 17 1/2 centimes for checks; private rate of discount, 2 1/2 per cent.

Berlin, July 15.—Trading was quiet and prices closed higher on the bourse today. Exchange on London, 20 marks 49 pfennigs for checks; money, 2 per cent; private rate of discount, 2 1/2 per cent.

New York, July 15.—Wall Street, noon.—The market showed decided recuperative qualities by noon. New Haven getting more than full recovery, as the selling in that quarter ceased, but the list as a whole was subject to feverish fluctuations.

Selling of United States Steel, ascribed in part to the bears, became the feature of the second hour, the stock declining 1 1/2 points to 5 1/2.

Baltimore and Ohio, which was fairly large offerings, Baltimore and Ohio suffered an additional setback.

30,000 CANADIANS

RESIDE IN CLEVELAND

Canadian Club Holds Its First Picnic Across the Lake.

Cleveland, O., July 15.—Two hundred members of the Canadian Club of this city answered "present" yesterday afternoon at the annual picnic of the club at Gordon Park.

With their families more than 700 spent the afternoon and evening in games, running races, renewing old acquaintances and talking of the good old times across the lakes before they came to the United States.

The picnic was to have been held July 1, but on account of rain was postponed. Dinner was served shortly before dark.

The main address was to have been delivered by Director of Law John N. Stockwell, but he was called out of the city. In his place Dr. H. W. G. Biggar welcomed the crowd, told of the objects of the club and of the hopes for a membership of 2,000 within a year.

He pointed out that at least 30,000 Canadians reside in Cleveland and that with population declared the members of the club to increase the membership to that figure.

First discussion of the banquet to be given by the club in the fall came up and members are determined to make the largest event of the club has given.

At least five prominent Canadian officials have been invited to attend.
