PREFACE.

THE Publishers, in presenting the ninth edition of the Saint John Directory, have much pleasure in stating to the Public that on account of the surprising energy of the Business Men and others in Saint John in building up their city, they are enabled to present to their supporters a Directory as nearly correct as it is possible to make one.

On account of the number of vacant lots, and the irregularity of numbering the houses since the fire, the Publishers deemed it advisable not to insert the usual Street Directory, as it would be impossible to make it correct; but they hope, before another edition of the Directory is issued, the houses will be properly numbered, and the vacant lots built upon.

The Appendix will be found very full and complete, in which is inserted correct information of Post Office. Customs Regulations, Societies, Institutions, &c., corrected up to July.

To the supporters of the Directory, and all who have assisted in obtaining information, the Publishers return their sincere thanks. The City authorities have cordially given all information asked for by our agents. They are glad to state that the Public are waking up to the fact that the Directory has become an indispensable need, and who not only give the information required, but support the Work by its purchase or by advertising it its pages.

It will be found a valuable advertising medium.

Directories being similar to newspapers as it regards their circulation, depending almost entirely on their advertising support, and not on their sale, the Publishers would say that they obtain but little profit by their endeavors. They hope, however, when business improves, the advertising community will give them a larger share of their patronage.

Registered Letters.

Letters intended to be Registered, when addressed to places in CANADA or NEWFOUNDLAND, must be prepaid by stamp, 2 cts each, in addition to the postage rate. To the UNITED STATES 5 cents each; and to the UNITED KINGDOM 5 cents each. All Letters for Registration should be posted fifteen minutes before the hour of closing the mails.

REGISTERED LETTER STAMPS have been issued of the denominations of 2, 5, and 8 cents, which may be obtained at Stamp Office.

Registration is applicable to Letters and Parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover, the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and is further suggested that letters containing money should invariably be secured with wax, and not by the usual method, by mucilage, or self-sealing envelope.

Newspapers and Periodicals.

The Time Ball on Reed's Point Wharf, St. John, N. B.,

Will be hoisted half its elevation each day (Sundays excepted) at fifteen minutes before one o'clock. At 1 minute before 1 o'clock it will be hoisted its full height; and at 1 o'clock, mean time, the Ball will be dropped. A Chronometer keeping correct Greenwich time should then show 5h. 24m. 15s., and the difference between this and the time shewn by a Chronometer, is its true error on Greenwich time at the moment. As the above hour of 1 o'clock, when the Ball drops, represents 5h. 24. 15s. at Greenwich, the error of a Chronometer may be ascertained, no matter where the ship is lying. Masters of vessels arriving at Saint John should compare their Chronometers by the Time Ball, as it will enable them to get the sea rate, which frequently varies from harbor rates. Latitude 45d. 16m. 42s. N. Longitude 4h. 24m. 15s. West.
