

JEALOUS WOMAN KILLS HER HUSBAND.

Shot Him While Asleep and Then Attempted to Take Her Own Life.

Mrs. Bradley Tells the Judge and Jury How She Shot Senator Brown.

New York, Nov. 20.—Half crazed by jealousy because of her husband's attentions to another woman, Mrs. Lottie Hitchcock shot and instantly killed her husband, Robert L. Hitchcock, as he lay sleeping in bed in their home in the borough of the Bronx, early to-day. Then turning the revolver upon herself, Mrs. Hitchcock inflicted several wounds on her head and breast from which she is expected to die.

Hitchcock was a compositor on a New York newspaper. The man and woman were married about a year ago and had an apartment in 158th street. Late in the evening of the 19th, Mrs. Hitchcock had frequent quarrels and Mrs. Hitchcock has repeatedly complained to her neighbors that her husband has been spending his evenings with another woman when not at work.

THE BROWN MURDER.

Mrs. Bradley Tells of the Final Tragedy When She Shot Brown.

Washington, Nov. 20.—The climax of the Bradley trial was reached to-day when Mrs. Bradley, testifying in her own behalf, related the particulars of her final interview with former Senator Brown in the Raleigh Hotel, in this city last December, and gave all the details she could remember of the shooting which followed. She was prompt, as usual, in entering the court room and if any one had believed that yesterday's ordeal would render her unfit to proceed with her narrative it must soon have become evident to such a person that he had not taken into sufficient account the reserve power of the woman.

She had yesterday related practically all of the details of her life with Senator Brown during their intimacy of nine years, and it was understood generally that after a few preliminary statements concerning the time preceding the entrance of both parties to the tragedy in Washington, she would be led up to that affair and asked as the only possible witness to tell the story.

"We shall be brief," said Judge Powers, the Salt Lake Attorney, "in dealing with this phase of the case. It will not take Mrs. Bradley long to give us all she remembers of it."

District Attorney Baker thought the cross-examination would consume about three hours time, so that it was apparent from the beginning of the day that the entire sitting would be consumed by Mrs. Bradley.

The court room was again crowded. Judge Stafford had no sooner taken his seat than Mrs. Bradley resumed her place in the witness chair. She was first asked to identify a number of letters written her at different times by Senator Brown, and did so. They covered the time from 1901 to 1906, and were presented for the purpose of showing the relation between Mrs. Bradley and Mr. Brown, but no effort was made to read them as they were introduced.

P. D. CRERAR, K. C., Newly elected President of the Liberal Association of Hamilton.

DIRECT APPEAL OPENED THE BALLOT BOX.

In the Collins and Perkins Gas Explosion Cases.

Before Chief Justice Moss at Osgoode Hall yesterday an important motion was made in Collins and Perkins vs. the T. H. & B. Railway Company and the Dominion Natural Gas Company. At the last Assizes here Mrs. Collins obtained a verdict for \$7,000 and Mrs. Perkins \$2,000 for herself and \$500 for each of two children against the two companies, for personal injuries to Mr. Collins and the death of Mr. Perkins, respectively. Both companies are appealing. The railway company had already given notice of appeal to the Divisional Court. Yesterday Mr. G. M. Clark, for the Dominion Natural Gas Company, moved for leave to appeal direct to the Court of Appeal. Mr. C. J. Holmes, for the railway company, agreed to allow the Railway Company's appeal to take the same course. Mr. D'Arcy Martin represented Mrs. Perkins and Mr. J. G. Farmer appeared for Mr. Collins, and consented to the change, so that the two appeals will go direct to the Court of Appeal.

FREIGHT PITCH IN.

Cars and an Engine Damaged at the Y To-day.

About 5 o'clock this morning there was a pitch-in on the G. T. R., near the "Y," a short distance past the high level bridge. The two trains that figured in it were freights and several of the cars and one engine were badly damaged. No one was seriously hurt, but the tracks were blocked for several hours. The trains to and from Toronto this morning used the Beach spur. The line was reopened about noon.

FOR IRELAND.

Birrell's Bill Gives Her Two New Universities.

Dublin, Nov. 20.—According to the Evening Telegraph, Secretary for Ireland Birrell's Irish University bill will propose the establishment of a new university at Belfast and a new university to supersede the existing royal university which consists of Queen's College, Cork; Queen's College, Galway, and New College, Dublin.

GROUND TO PIECES.

One Man Killed and Another Loses a Foot on the Rail.

Buffalo, Nov. 20.—John Ward and Hugh Dugan, while stealing a ride to their home in Wilkesbarre, Pa., on a Lehigh Valley freight train, last night fell from the train just beyond the depot. Ward was ground to pieces under the wheels, and Dugan's left foot was so badly crushed that it will have to be amputated.

The men were found by the engineer of a train following. Dugan was brought to a hospital here.

SKIDOO.

Cleans children's heads of all "strangers," and keeps the hair in a healthy condition. Skidoo is not greasy to use, but is a clean preparation and does the work which it is intended to do, every time. Sold in 25c bottles. Parke & Parke, druggists.

STATION ROBBED.

Bridgeport, Ont., Nov. 20.—A robber entered the station of the Grand Trunk Railway at Stevensville, about 11:30 o'clock last night, and forced the night operator, William Hodgson, to part with \$21, all the money he had in his possession.

The Man In Overalls

It was unanimous for P. D. Yes. That was a fine meeting. Everybody pleased and everybody ready.

Lots of coming men, but no has been in the Liberal party.

You should have heard the cheers for the new President.

Well, Mr. Chisholm deserves a little rest.

Providence was kind. It didn't rain last night.

I am growing tired waiting for the Nelligan investigation. What's the hitch?

Mr. Bougard, the Spectator's French friend, is now somewhat of a hero.

No, Maude. They are not widow's weeds.

Everything has its use. The bagpipes are useful for scaring wolves. They also scare the enemy.

I don't think the Herald has any particular right to speak for "decent" Liberals or any other kind, if there are any other kind. What annoys it is that the Liberals now know where it is at.

It would be great if the Times were muzzled. Then the Herald could hustle for Whitney and his alleged "promise."

And "those public spirited Hamilton citizens" kept every Grit off the deputation, kept Mr. Studholme off and put Mr. Scott on, who holds no official position whatever. Why? The people are not fools—neither are they blind.

The Farrar organ is a sort of cross between a phonograph and a megaphone. That's how it keeps up such a racket. The annex editorial room on the Market Square is a busy place.

There are still twenty-five dark spots in the city, and thus the police are unable to spot the law-breakers as they would wish.

Can't the Conciliation Committee do something for the barbers?

There is little change perceptible in the financial stringency. It seems to be as hard as ever to borrow a quarter.

Perhaps the Y. M. C. A. or the Ministerial Association would like to send a diver to the bottom of the basins to see how rank it is.

Pritchett learned the ballot-switching trick from the Tory thumb nail men up in Manitoba—the men who were sent up by the Toronto Tory managers to steal the elections.

Has the wave of crime receded?

We had no sucker nonsense under the ward system.

Well, now what did Whitney promise?

The Board of Works, which hasn't a cent to its name, threatens to spend hundreds of thousands of dollars next year.

And I thought Ald. Farrar said he was to retire at the end of his term.

I don't hear of anybody who is going to vote against Sealey.

Didn't Mr. Barker have some dealings with this man Pritchett?

Up to the time of going to press the Citizens' League had not filed an application for permission to rake the basins in search of weeds.

PAINFUL ACCIDENT.

Little Walter Bruce Had His Arm Broken Yesterday.

Little Walter Bruce, the five-year-old son of Major Walter Bruce, met with a rather bad accident yesterday. He and some more boys were playing near his home, and the other boys, who were a little older, were tossing him into a big pile of leaves. He was enjoying the fun as much as the others, but none of them knew that a stone was lying under their feet. Coming down on the stone, Walter sustained a bad fracture of the right arm, just at the elbow. It will be quite a long time before he thoroughly recovers.

MAY LEAVE IN JUNE.

Mr. Geo. Robertson Retiring From First Choir.

Mr. Wilfrid Oaten will begin his duties as organist and choir leader of First Methodist Church the first Sunday in January. There will be no other changes in the choir and the splendid quartette will be the same—Miss Longhurst, Miss Rowsome, Mr. Hamilton Robinson and Mr. Geo. Robertson—for the present. The last mentioned, who has been absent for a good many years, some time ago expressed his desire to withdraw, but has consented to remain until June next, to assist Mr. Oaten. He will be greatly missed whenever he leaves.

THE UNION JACK.

Ottawa, Nov. 20.—St. George's Society has sent a protest to the Minister of Justice against the use made of the Union Jack in advertising. A few samples were enclosed for the Minister's perusal.

Our Home-Made Mince Meat.

Is made of the choicest beef, rich white suet, fatless apples, the finest quality of raisins and currants, each carefully washed and seeded, the best imported candied peels, prepared with minute exactness, juicy and luscious, as nice as if you made it yourself. Made to please particular people. It costs a little more than the factory kind. Let us send some with your next order. Bain & Adams, 89, 91 King street east.

BEST POLICE WORK IN SEVERAL YEARS.

Resulted In Arrest of Five Men and Capture of Load of Stolen Stuff.

Constables Brannon and Barrett and Detective Coulter Come In For Great Praise.

William Brooks, 70 Napier street, acquitted of the charge of receiving stolen hides a week ago.

Lewis Levi, Barton and Caroline, in partnership with his father in the second hand and scrap business.

Harry Weinstein, about whom the police know little, but say that he is an ex-convict.

Joe Goldberg, son of the man who formerly ran the scrap business now belonging to Levi and his son.

Albert Dunsmore, who is a carter and owns the horse and rig which was used to cart the stolen copper wire, of former good character.

These five men are all in custody as the result of one of the cleverest pieces of police work ever done in Hamilton.

Arresting them at the point of a revolver and driving them handcuffed to No. 3 Police Court on top of a load of copper wire which they were charged with stealing, was the daring feat accomplished by Constables Brannon and Barrett, doing plain clothes duty, this morning. Yesterday afternoon the police received word that a lot of wire had been disappearing for some time mysteriously from the Brantford & Hamilton and the Dundas lines. Detective Coulter was put on the job alone, and he started out after supper to get a line on the stuff. He soon got a general idea of who the gang was which was responsible for the mysterious disappearance of the wire, and he hunted up a man in the city, a prominent brass and copper manufacturer, who had arranged not an hour before to take a load of copper wire from five or six men. The detective after this started out to find the hidden wire, and in a short time he was able to get a good idea of where it was. After dark he verified this by finding a number of coils of wire, which would weigh considerably over a ton. He went back for men to remove it, and took Constables Sayers and Robson out with him. They were also in plain clothes. When they got out there Coulter decided that it would not be a bad idea to wait there, and see if the men would come after the "swag." The wire was found by Detective Coulter in the gully about 200 yards this side of Ainslie Wood, and the two constables had the gully all night in the hopes of catching the thieves. About 6:30 this morning they left, and Constables Brannon and Barrett started out for the spot. When they arrived they set a watch, and shortly after 8 o'clock their vigilance was rewarded with a sight of five men coming out on a lorry. They laid low, and allowed the men to pass and get to work on the wire. The five started to work cutting up the wire with an axe, but two of them were detailed off as guards, and the two constables had no chance to spring a surprise, so they decided to take a chance and crawl around the gang, and getting behind them, crawl into the city after them, where they could get help to capture them. They made a long detour through the marsh, walking in mud and slime knee deep, and after a toilsome journey got to the T. H. & B. track, but were not much better off, as they could see the two sentries on the hill keeping watch in their direction. Nothing daunted, they discarded their overcoats, and creeping

ran out from the roadside and grabbed the horses of the two men by the bits. Scott struck one of the men with his crop, and the highwayman promptly drew a revolver and fired two shots in the air. Scott's horse took fright and bolted back along the road, and went some distance before Scott got him quieted. Leaving his watch and money in a house nearby, he rode quickly back, but by the time he had arrived Hall had handed over \$17 in cash and a gold watch, and the men had disappeared.

The police think the three mounted men could easily have hidden them down and saved their money.

The police gave out this afternoon that the wire was all the property of Woodman Bros., the contractors for the Cataract Power Company and that there was about \$6,000 worth of it. It will be brought to town this afternoon. The value is estimated at about \$1,500.

A DARING HOLD-UP NEAR THE HIGH LEVEL BRIDGE.

Three Men on Horseback Stopped and One Robbed of Watch and \$17.

A daring hold-up, one of the most daring ever pulled off in this vicinity, was worked successfully last night at the hill just north of the Valley Inn. David Scott, of T. H. Pratt & Co.; George Hall, who works for J. Hammond, and Willie Hammond, son of J. Hammond, were the victims, and they allege that two colored men held them up, but the police opinion is that it was two whites with their faces blacked for a disguise.

The two men and the boy were riding horseback, and were on the way home in the dark when the two marauders

LOST A FINGER.

Harrison Horning, a young son of Mr. Judson Horning, Ancaster township, met with a painful accident yesterday. He was working with a crowbar, prying a large stone, when the bar slipped and allowed the stone to fall on his hand, crushing one of his fingers so badly that it was necessary to have it amputated.

LORD'S DAY ACT.

Ottawa, Nov. 20.—(Special)—An interpretation of the Lord's Day Observance Act has been asked for from the Board of Railway Commissioners by the Grand Trunk Railway. Recently the Lord's Day Alliance sought to take action against the Grand Trunk for switching freight cars and making up freight trains in Toronto.

RAILWAY STRIKE IN INDIA, PASSENGERS LEFT STRANDED.

European and Native Employees Quit Work--- Long Hours, Poor Pay.

Calcutta, Nov. 20.—Traffic on the East Indian Railway, 2,165 miles long, and the second largest line in India, is rapidly becoming paralyzed by a strike. The trouble originated with the engineers, who are almost entirely European, and yesterday and to-day great numbers of natives belonging to the traffic staff joined in the movement. The most important section of the road, from Calcutta to Allahabad, is practically tied up, and already six thousand passengers are stranded at Amuzel, Bengal, the junction of the East Indian and Bengal-Nagpur Railroads, where the strikers

are threatening violence. Reports are constantly coming in of engineers leaving their trains at remote stations, and in some cases of driving off with their locomotives and leaving the cars.

The jute mills are seriously affected by the strike. They have been obliged to stop work in consequence of the shortage of coal, and it is feared that the tie-up will lead to loading outstrips.

The strikers complain of overwork and poor pay.

The strike at the present time is especially serious, in view of the famine conditions, which are becoming daily more widespread, necessitating the speedy transportation of relief supplies.

SIX WERE UP FOR ELECTION.

SOLDIER DOYLE AND PALS WILL BE TRIED IN DECEMBER.

Frank Anderson. Alleged Purse Snatcher, and Harry Quackenbush, Accused of Theft, Will Come Up Next Tuesday.

George Young, Walter Hildreth (Soldier Doyle), Howard and John Campbell were before Judge Monck this morning for election. Mr. J. L. Schelter appeared for Young, Hildreth and Howard Campbell, and Mr. George Kerr was present for John Campbell. The charges of stealing were read separately to each one. Young was charged with stealing jewelry and other valuables from the residence of John Sintel, 32 Grant avenue, on the night of Nov. 12. Hildreth was up on the same charge. They both elected to be tried by a jury, as did Howard Campbell. John Campbell declined to elect, on both charges. The quartette were also charged with breaking into the house of John Wright, 18 Hughson street south, on Nov. 7. R. S. Boniface's residence, 250 Charlton avenue west, on the night of the 10th, and on the night of the 3rd of November into the residence of Catherine O'Shaughnessy, 66 Ashley street. They elected to be tried by a jury, with the exception of John Campbell, who declined to elect. Judge Monck remanded them until the next sittings of the court, which will be in December, before Judge Snider.

WRIT ISSUED.

Sam Weaver Suing Geo. Wild For \$10,000.

Mr. S. F. Washington, K. C., of Washington & Martin, has issued a writ of slander, on behalf of Samuel Weaver, against George Wild, for alleged defamatory statements made by the defendant at a meeting of the Parks Board. Mr. Weaver is asking for \$10,000 damages.

TAKEN TO GUELPH.

George Malotte, a colored man wanted in Guelph, on a charge of assaulting J. Doyle, a Fuslinch county farmer, was arrested in this city yesterday afternoon by Detectives Campbell and Coulter. He has been a fugitive for some time, and escaped from the police at Preston after they had arrested him, and this will probably make another charge against him. Chief Randall, of Guelph, claimed his prisoner this morning, and left on the noon train with him.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables.

TRADERS BANK OF CANADA.

WILL CHANGE THE CAR RUNS.

ONLY LARGE CARS ON KING STREET EAST AFTER THIS.

Will Run on Barton and King East, While G. T. R. Stuart Street Cars Will Make the James Street South Run.

It is announced that some changes will be made on December 1 in connection with the operation of cars on the City Street Railway. After that date the "green" cars will no longer run from the Stuart street station to King street east terminals, but will go around the James street south belt line. The Barton street cars which now go James street south will run east on King street, the cars going up Sherman avenue and Westworth street alternately. There will be no change in the running of the James street north cars; they will continue to loop the loop via King street west. It is the intention of the Board to use all big cars on the Barton and King east lines, as it is figured out that the travel in these two divisions of the system is heavier than in any other division. The Radical cars running on King street east will give some relief, too. For some time residents of King street east have been complaining about the service, the cars not being able to handle the traffic at the noon hour and at 6 o'clock.

THE BEST PIPE TOBACCO.

The strongest proof of the superiority of the Extra Special Smoking Mixture is its enormous sale. This tobacco is sold in half-pound tins for 50 cents only at peace's cigar store, 107 King street east.

Love and Crime

"Oh, I see!" Lydia exclaims, with a great assumption of satisfaction and relief. "Oh, I am glad to know it was only a foolish flirtation, as you say, Lord Cardonnel! Mrs. Mallibrane's anger and agitation quite—quite astonished me when I alluded to her former knowledge of this Roderic Lindsay's father."

"And why did you allude to it, Lydia?" Lord Cardonnel says, gravely.

"To convince her that I knew what I was talking about when I warned you against Roderic Lindsay!" Miss Surtees answers, with a rather startling curtness and outspokenness, contrasted with the general shyness of her words and tone. "I learned the story of Mrs. Mallibrane's too generous friendship—shall we say—for Keith Lindsay from the same source that I learned of Roderic Lindsay's past life and its associates. I may confide in you now more fully than I did at St. Gray's Abbey, my dear Lord Cardonnel!"

"In the softest and most seductive of confidential murmurs, irradiated with the softest of smiles. 'I promised to keep the name of my informant an inviolable secret. Ought I, or may I, tell you?'"

"Considering the relation in which we stand to each other in the present, and the relation in which we hope to stand in the future, I think, my dear Lord Cardonnel, says, impressively, 'that you ought to tell me. We should have no secrets from each other.'"

"No, I suppose not," says Lydia, with a sweet little smile of assent. "Well, if we are to have no secrets from each other," looking up radiantly at her adoring lover, "I must tell you, dear Lord Cardonnel."

"Don't you know my Christian name, Lydia, my love?" interposes "dear Lord Cardonnel," with tender reproach.

"Yes," says Lydia, with pretty bashfulness; "but it seems such a liberty to take! I have looked up to you, you know, your rank and earnings, and—"

"And my age, Lydia," with a perfect trust in me?"

"No, indeed, dear—Ruthven—there! How bold that seems!" Lydia says, laughing and flushing charmingly. The art of calling up a blush at opportune moments is not by any means an art. "Well, it was a lawyer whom I employed when, as I told you, this Roderic Lindsay strove to—win my good opinion by every means in his power."

"Very presumptuous, indeed, on the part of Mr. Lindsay! Yes, I know—you told me, Lydia," interrupts the Earl of Cardonnel, with a slight look of discomfiture.

"Yes," she says, with the calm of conscious innocence; "and you know that being rather good-looking, and with pleasant, frank manners, Roderic Lindsay can, when he wishes, make himself very attractive to a girl's fancy. Well, nevertheless, he is, I suppose, a very prudent, worldly-wise and cautious man—as I am—I watched him very narrowly, and became a little suspicious of his motives for such attention and general devotion to my affairs; so, when I came to England, I employed a hard-headed, cautious lawyer, whom I knew, to make inquiries about Mr. Roderic Lindsay, and the result was what I was so sorry to have to tell you."

"Yes, I know," Lord Cardonnel says, hastily. "You found out that he was a lawless sort of fellow, whose associates were men of the worst class in a scarcely settled part of the colony of West Australia, and that he was mixed up in a sort of partnership with that miserable man—that relative of his—who was murdered in a gambling quarrel, or something of that kind—a horrible account, indeed, to receive. A profligate, a gambler, and—as a necessary sequence—a fortune hunter! Shocking! most shocking! You acted with admirable discretion, in ascertaining the truth about this person. You have taught me a lesson in prudence, my dear girl!" the earl says, with enthusiasm, as if that is a very remarkable performance, indeed; "not that I am easily imposed on by a fair exterior of winning manners."

"No, indeed! I am sure you are not," Lydia says, with a swift, admiring glance. "But, from what you and I know of this adventurer, I think we can say that he is able to baffle the keenest penetration, and banish the slightest suspicion as to his real character, unless one is forewarned and so forearmed."

"Yes, indeed," she says, emphatically. "A thorough adventurer, and a past master in the art of deception, as you say, Lydia! Happily, we are quite rid of him, I trust!"

"I trust so!" Lydia repeats, fervently. "But you haven't told me the name of your informant—the secret you are going to share with me, dear!" Lord Cardonnel says, playfully. "No evasions, Miss Surtees! The truth, the whole truth, and nothing but the truth! What is the matter, dear Lydia! Are you ill, dearest?" he interrupts himself, with a gasp of alarm.

A spasm distorts her lips, her eyes contract in their pupils, and glare wildly; a dreadful, bluish pallor withers all the freshness of her face. For the first time a faint wonder crosses Lord Cardonnel's mind respecting the age of this beautiful bride-elect. She has spoken of herself vaguely as being about six-and-twenty. She might be six-and-forty by the look of her at this moment, and that after a hard and miserable life. "Noth—nothing?" she stammers, shivering and frowning. "My nerves aren't what they ought to be, since that railway accident. A slight spasm of the heart, I think."

"I know! I know!" the earl says, with deep concern in his face and voice. "Christabel told me you suffered from such attacks occasionally. You must have the best advice at once, Lydia!"

"Nonsense!" I won't have doctors about me," she protests, with a burst of angry impatience, which makes Lord Cardonnel wonder again, for the first time, if his Lydia's temper is not a little defective under the surface. "I have had the best doctors in New York and 'Prisco—San Francisco!' They told me it was nothing serious, but tremulously, and is shivering visibly, and tender regret drives every other feeling out of Lord Cardonnel's mind.

MOTHER DROPPED DEAD.

Son Was Drowned and She Could Not Withstand Shock

Newcastle, N. B., Nov. 19.—A telegram from Denver, Col., says George Crocker, of Millerton, N. B., was drowned in the lake there yesterday while skating. The mother, who lived with him, fell dead when informed of the accident. Crocker was thirty, and had been married only a short time.

ARRESTED IN BOSTON.

Police Claim to Have a Canadian Raffles in Custody.

Boston, Nov. 19.—Samuel Welsh, of Kingston, Ont., fashionably dressed and irked an up-to-date Raffles, was arrested here to-night in a pawnshop.

The police claim he is the leader of a gang of robbers and safe-crackers who have committed at least 25 burglaries in this vicinity.

Welsh made no effort to escape, though a murderous-looking revolver was found on his person.

MARKETS AND FINANCE

Toronto Live Stock. Receipts of live stock at the city market since Friday, as reported by the railways, were 129 car loads, composed of 1,930 cattle, 873 hogs, 2,699 sheep and lambs, and 120 calves. There were also 580 hogs that went to packers direct.

The quality of cattle is getting no better, but, owing to the number of poor quality cattle is becoming larger as the season advances, and the better class smaller.

Trade was somewhat erratic—that is, unsteady, but prices were unchanged all the while.

Exporters—There was nothing doing in exporters excepting for a few bulls, and these sold at \$1.30 to \$1.75 per cwt.

Butchers—Medium cattle sold from \$5.50 to \$5.80; common at \$3 to \$3.40; cows at \$2.25 to \$3.50; canners, 75c to \$1.50 per cwt.

Feeders and stockers—Prices generally were not any higher. H. & W. Murby report the following quotations: Best feeders, 1,000 to 1,100 pounds, at \$3.25 to \$3.60; best stockers, 800 to 900 pounds, at \$2.50 to \$2.65; best stockers, 600 to 800 pounds, at \$2.25 to \$2.60; medium stockers, 600 to 800 pounds, at \$2 to \$2.50; common stockers, 500 to 700 pounds, at \$1.50 to \$1.75.

Milkers and Springers—Prices were a little easier, if anything, but there were a few that sold up to \$65. Good to choice sold at \$40 to \$45; common to medium at \$25 to \$35 each.

Val Calves—Veal calves sold at the old prices, \$3 to \$4 per cwt.

Sheep and Lambs—Export ewes sold at \$3.75 to \$4; a few choice yearlings sold at \$4.50 per cwt.; lambs sold at \$4.75 to \$5.25 per cwt. for the bulk. Inferior quality lambs sold as low as \$4, and selected ewes and wethers as high as \$5.50 per cwt.

Hogs—Mr. Harris reports \$5.75 for select and \$5 for light finished.

British Cattle Markets. London.—London cables are firmer at 10c to 12 1/2c per pound, dressed weight; refrigerated beef is quoted at 10c per pound.

Winnipeg Wheat Market. Following are the closing quotations on Winnipeg grain futures to-day: Wheat—No. 1, \$1.04 bid; Dec. \$1.03 3/8 bid; May \$1.12 3/4 bid. Oats—Nov. 53c bid, Dec. 51 1/2c bid, May 56 1/4 bid.

that he had never seen the Foster property, as a mine, looking better than at present. Lots of ore was in sight, but the company did not care to make shipments under the present conditions.

SUED GIRLS. Toronto, Ont., Nov. 20.—A case of considerable interest to employers of labor as well as employees, was decided by Police Magistrate Denison this morning.

The girl signed a contract under which they were to work for the company at not less than \$6 a month, and the advances were repaid, but they left the company's service still owing about \$50 each. The company had them arrested on the charge of obtaining money under false pretences, and the case came up to-day.

The defence was that an action could not be taken under the Criminal Code; that the offence, if any, was a civil one, and a breach of contract, and that the company would have to sue in the civil courts for the recovery of the money. The Magistrate took this view of it and dismissed the case.

HANGS HIMSELF. BUFFALO MAN, IN POOR HEALTH, COMMITS SUICIDE. Buffalo, Nov. 20.—Unnerved at seeing her father-in-law, Peter Best, slow, slowly struggling to death in a slip noose he had made for his own neck, Mrs. Frank Best, of 412 Elm street, ran to call the assistance of her husband. When Frank Best responded to the call his father had accomplished his purpose, for the rope in his hand.

Peter Best, the suicide, was 63 years old, and lived on the second story of the building at 412 Elm street, corner of Tupper street. He was a tinsmith.

The circumstances surrounding the suicide give rise to the belief on the part of the authorities that the deed had been carefully prepared his chosen means of death by selecting a long piece of clothes line and nailing it securely to the archedway in his room that led to an alcove in which his bed stood. The rope was wound several times about a large nail and the end fastened securely to the wall in two places to insure success.

So low had the noose on the end of the clothes line been hanging, that when he fell into it he had to double up his legs at the knees so that he would hang clear from the floor.

Best had, according to his relatives, been in failing health of late, though his illness was not of a nature that could be defined by the members of his family, nor did it cause any alarm. None of them had any reason to suspect suicide.

Memphis, Nov. 20.—Memphis may soon enjoy the unique distinction of having the only woman dog catcher in the United States. Mrs. Laura Comstock Dunlap is certain to enter that exclusive class if the Legislative Council on Thursday acts favorably upon her petition.

Mrs. Dunlap, who has lived here for some time, does not desire this hitherto thankless job for the love of money. She is a leading member of the Society for the Prevention of Cruelty to Animals, and believes that if she were given the position she could treat the vagrant canines humanely and at the same time earn money for the city.

NO STRIKE. Switchmen to Hold Their Jobs—Financial Stringency. Chicago, Nov. 20.—The Switchmen's Union of America to-day withdrew its request for an increase of wages for switchmen, switch tenders and foremen employed by all roads entering Chicago, St. Paul and Minneapolis.

The withdrawal was admitted by the switchmen to be caused by the money stringency. The action affects all railroads in the United States, as the outcome of the Chicago controversy will end for the present any requests being made to railroads by the switchmen for higher wages. The conference between the switchmen and railroad officials has been in progress for two weeks.

Put-in-Bay, Ohio, Nov. 20.—The Canadian patrol boat Vigilant fired a shell at American fishermen yesterday afternoon, and captured them and their boats after a lively chase. The Vigilant came upon two fishing boats containing four men, and a gasoline launch, near Old Hen Island. The fishermen when ordered to surrender hurried aboard the launch and set out for American waters.

The Vigilant chased, but not until the patrol boat sent a shot after the Americans did they surrender. The men were taken aboard the Vigilant and kept prisoners for some time, but were finally taken to other boats fishing on the American side and given their liberty.

The fishing boats were retained by the Canadians.

Funeral of Mrs. Beckman—Death of Two Infants. The funeral of Mrs. Fred Beckman took place this morning from her late residence, 314 Hunter street west, to St. Joseph's Church, where Father Holden said mass. He also officiated at the grave, in Holy Sepulchre Cemetery. The pall-bearers were J. Mark, M. Hutzler, J. Beckman, J. Woelke, A. Friday and T. Meehan. There were many floral tributes.

Pansy, infant daughter of Mr. and Mrs. Walter Meyer, passed away at the City Hospital at an early hour this morning. She was nine years old. The funeral will take place from the parents' residence, 21 Case street, on Friday.

Friends of Mr. and Mrs. Walter Potter will regret the death of their sixteen-months-old son, Wilfrid Frank, after a very short illness, at an early hour this morning.

FOOTBALLER FINED FIFTY.

Association Player Heavily Punished For Kicking Opponent.

Abe. Davis Committed For Trial in Snatching Case.

Cost \$1 to Refuse to Admit a Meter Reader.

When charged in the Police Court this morning with snatching Mrs. Burgoyne's purse on November 5th, in company with Frank Anderson, who was committed on two counts yesterday, Abraham Davis, through A. M. Lewis, pleaded not guilty and declined to elect. Mrs. Burgoyne testified that she saw a man waiting and apparently watching beside the steps when Anderson snatched her purse, and that the man had run away with Anderson. Mrs. Gray, who was with the witness at the time of the theft, positively identified Davis as the man who was with Anderson. Several of the Asylum attendants swore to having seen Davis in that vicinity several times. Mr. Lewis did not offer any defence and Davis was committed for trial.

A fine of \$50 or two months in the common jail, was the dose meted out to Samuel Dutton, Barton, who was found guilty of aggravated assault upon Christopher Armstrong, 456 MacNab street north. The aggravated assault consisted of Dutton kicking Armstrong in the face during a game of association football, played in Cotter's field, on the mountain, on Saturday. Several witnesses swore that Dutton, who was wearing a white shirt, and that he had kicked the ball when he kicked Armstrong, who had fallen to the ground when he collided with Dutton. In addition to kicking him, Dutton, the witnesses said, jumped on his wrist and knocked it out. The defence offered by Dutton, who elected for a summary trial, was that he had thought he could kick the ball and misjudged the distance, and kicked Armstrong in the mouth. Armstrong swore that he had lost five teeth, three good ones and two false ones. In imposing the fine the Magistrate said he intended to show his marked disapproval of brutal scenes like this in football.

C. C. Moore, MacNab street, refused to allow a meter reader of the Gas Company to go in to read the meter, as he had made an assignment, and the assignee had told him not to allow any person to go into the shop. He was told to be more careful in future and was assessed \$1 and costs.

Saul Barran, Barton east, was fined \$2 for striking an employee named Art Dodgson. He hit him, the complainant said, because he asked for more money, claiming there was a shortage in his pay.

Joe Parker, Buffalo, and A. Pease, city, were fined \$3 each for acting in a drunken and disorderly manner on Bay and Napier streets last night.

PARKS AND BILLBOARDS.

AMERICAN CIVIC ASSOCIATION AND MUNICIPAL LEAGUE.

Value of Parks as a Business Asset—Railroads and Civic Improvement—Smoke Nuisance on Locomotives. Providence, R. I., Nov. 20.—Today's meeting of both the American Civic Association and the National Municipal League, which opened a joint convention yesterday, were among the most important of any which will be held during the four days that the societies meet here. The gathering of the American Civic Association today had its importance in the national scope of the subjects which were arranged for discussion. The railroads and municipal topics were the subjects for the forenoon meeting.

"Municipal Adornment and Parks" was the general subject of one or two round-table gatherings which was presided over by Dr. John Quincy Adams, Secretary of the Municipal Art Commission of New York. The other round-table conference was on "Billboards," and had as its chief speaker Harlan P. Kelsey, of Salem, Mass.

Railroads and allied subjects were treated in two addresses, one on "The Railroad as a Factor in Civic Improvement" and another under the head "Smoke nuisance on Locomotives."

Joe T. Richards, general engineer of the Pennsylvania Railroad, told of his observations on the first subject during his long connection with railroads. Geo. W. Wiedner, of the New York, New Haven & Hartford Railroad, told of some of the experiences of his road on abating the smoke nuisance.

The annual meeting of the National Municipal League was held this afternoon in the auditorium of the Brown Union, and chief among the subjects for consideration was the election of officers. The addresses of the morning were all on the general subject of taxation, headed by the report of a special committee appointed to consider municipal taxation.

WESLEY BAZAAR.

Successful Sale Conducted By the Ladies Yesterday.

Wesley Church Sunday school was converted into somewhat of a fairland yesterday afternoon and evening, the occasion being the annual sale of work. During the afternoon and evening pretty maids in pink and white were seen fitting in and around the crowd, selling their wares. There were many tastefully decorated booths, and they reflected upon the ingenuity of the designers. One of the booths which attracted attention was the Old English Residence Booth. The exterior arrangement showed the outside of an English residence, with its latticed windows. In the interior electric lights were placed. Another that attracted attention was the ice cream and candy booth. It was decorated in pink and white. A bevy of young ladies attended to the wants of the large crowd. During the evening a short musical programme was presented by Miss Florence Clark, Miss Ruby Cummings, and Mr. W. O. Pettie. The following ladies were at the different booths:

Five o'clock tea booth—Mesdames Waugh, McNally, Hind, Dixon, Nohle, Seaman, Smith and Philp. Home-made booth—Mrs. Findlay Temple. Ice cream booth—Misses Ina Dixon, Jessie Ross, Jennie Kirkpatrick, Maud Smith, Nellie Gray, Edna Hill, Louise Estlin, Ethel and Misses Venator, Fannie Hind and Rose Ennis.

Candy booth—Misses Gladys Robinson, Kate Wright, Belle Wright and Edna Ennis. Old English novelty booth—Misses Maud and Jessie Magee, Muriel Cowan, Georgia Weiser and Misses Striking, Calenda and Miss Jessie Dixon.

Fancy work booth—Mrs. W. W. Cole, Mrs. W. Marshall, Misses Maud Cole and Nellie Marshall. Apron booth—Mrs. G. B. Dowsett, Mrs. B. Chrysler, Mrs. E. Miner, Mrs. Gibbs, Mrs. G. W. Wilson, Mrs. Fred. Dowsett and Miss Rigley.

A GREAT SUCCESS.

St. Thomas Church Ladies' Sale and Entertainment.

The school-room of St. Thomas Church was the scene of much activity yesterday afternoon and evening, when the bazaar, given under the auspices of the Woman's Aid Society, was opened.

The five booths were most artistically decorated, the first one upon entering the room was in yellow and black. Small Tigers, and inviting confections in Tiger colors, made the evening striking; and purchasers of boxes of these dainties received Tiger buttons.

The flower booth was quite suggestive of summer, with its trailing rose vines, palms, and cut flowers. Innumerable were the dainty articles offered for sale at the fancy department. Christmas suggestions on every possible form, shape and color brought many purchasers to this booth.

Pink and white were the prevailing colors at the doll booth, while blue and white were used in the apron department. Both these booths showed many useful and dainty articles, and they did not lack patronage. The tea-room was elaborately adorned with red, white and blue, and was a blaze of light, while the ice cream room formed quite a contrast, with its soft lights and oriental draperies.

In the evening a short programme was given, consisting of vocal solo, by Miss Ethel Ross; violin solo, Miss Armstrong, and vocal solo, Mr. John Brethour, Miss Lillie Peens acted as accompanist. Rev. S. J. Etherington, the rector, and the officers of the church were present and did much to add to the success of the evening.

IMPORTANCE OF BATHING.

Exercise or labor increases the circulation of the blood, and the blood, while it feeds the tissues, at the same time drives the impurities to the outside; bathing removes these impurities, and if a man don't believe in taking a bath for health's sake, says Prof. Barton, he should take one at least for the sake of his friends. Mr. Barton at his illustrated lecture Friday night will explain the different methods of bathing; also many other helpful hints.

SCOTCH GRIT.

STARTS BATTLE OF LIFE IN A POTTERY CLAY PIT.

Soldier Who Fought Under Kitchener Has Plenty of Grit—Was Disowned by Haughty Family.

New York, Nov. 19.—Dressed as a laborer, shoveling coarse clay into the hopper for hours at a time, for a pittance of a wage, Captain Charles Glen Collins, once a British captain under Gen. Lord Kitchener in the Sudan, a dashing officer in the crack Highland regiment, "The Black Watch," in the Boer War, wounded in the battle of Paardeberg, and later the proud husband of beautiful Natalie Schenck, of Newport and New York, tells now as a "hand" in the South Boston works of a pottery company. The petted and spoiled son of a famous Scotch family, who was divorced by the proud and disappointed society belle, because he did not have the fortune she had thought he had, is humbly beginning life over again. Why? Who knows but the love for his pretty and accomplished wife, the faded beauty of the richest and smartest "set" in America still lingers in the heart of Collins? Who knows that he is not proving himself a man for the sake of "Sunny George" their pretty three-year-old boy? But, most of all, to a certain extent an infringement of personal liberty, and with prohibition it would be no worse than without it.

The third question was one of hereditarily. It needed no answer but a look at the scowling and insane people who were in such a condition through the intemperance of their parents. Her advice was not to put any confidence in government control.

Rev. Dr. Williamson and Mr. J. H. Hamilton moved a hearty vote of thanks to Miss Kearney at the conclusion of the lecture.

AT FORMAL OPENING

Mr. Sam. Barker Talked Corruption and Graft, as Usual.

Last evening the Conservative Club's quarters in the Sun Life building were formally opened for the season. There was a pretty fair turn-out of the faithful and Mr. John Milne presided. The speakers of the evening were Mr. E. A. Donovan, M. P. of Brockville, Hon. J. S. Hendrie, M. P. of St. Catharines, Mr. Samuel Barker, Mayor Stewart and Messrs. Bridgman and McCullough.

Hon. Mr. Hendrie intimated that the Ontario Government is considering the advisability of moving the Central Prison from Toronto to a site in the country, where convicts would be employed at raising produce. He said that the commission on prison labor had filed its report, and while not being at liberty to divulge its contents he would say that in the course of a year or two prison-made goods would not come into competition with products of free labor. He upheld the administration of the Whitney Government, mentioning that the revenue from the Mining Department amounted to nearly two million dollars this year.

DOING WELL ABROAD.

The city of Cleveland has a real live Real Estate Board, the honorary president of which is Mr. W. M. Lottridge, who about a quarter of a century ago was one of our townsmen. Mr. Lottridge is an expert appraiser, and besides being active in that line is President of the Public Enterprise and Legislative Committee. The Times is glad to see its former fellow-citizen prospering abroad. It only wishes he had the services of such public-spirited men enlisted for Hamilton's service. Mr. Lottridge is a Times subscriber of considerably more than thirty years' standing, and still closely follows it in the news of his former city and country.

Stabbed to Death.

Buffalo, Nov. 20.—As the result of the refusal of Luigi Gambacurta to pay a gambling debt which Raymond Farni alleged he owed him, Gambacurta to-day drew a stiletto and stabbed Farni to death at the corner of Mississippi and Ohio streets, when, in the presence of nearly 100 Italians, passing on their way to work. The two men had been arguing over the alleged debt. Gambacurta was captured after a long chase. The Italians made a demonstration, but were scattered by the police.

FOR PROHIBITION.

Miss Kearney's Lecture in St. John Church Last Night.

Last night at St. John Presbyterian Church Miss Belle Kearney had a large audience to hear her lecture on temperance. Her subject was "Christian Citizenship." Rev. John Young was in the chair, and before the lecture, Rev. J. Roy VanWyck sang an excellent solo. Mrs. VanWyck accompanied him on the organ.

Miss Kearney started with a mention of the contest going on in her own State, Mississippi, for prohibition. She spoke of the strenuous work and advocacy of the two factions, but all seemed to be more or less in favor of prohibition. She mentioned "Blind Tigers" as bars paying no license, were called, and said it was better to have liquor sold in than that it was to have the open sale contemplated by the law, as respectable people would not go to unlicensed places.

The question put by the liquor people was where could the country get released, but the answer she gave was that there would be less expense and those in favor of prohibition would gladly pay the difference. Another question put by them was would it not be an infringement of personal liberty. Her answer was that every law in the statutes was to a certain extent an infringement of personal liberty, and with prohibition it would be no worse than without it.

DUNDAS WATER

Supply Pipes Enlarged With Very Beneficial Results.

Dundas, Nov. 20.—(Special)—For some time past the water in the reservoir has been alarmingly low. It was thought by some of the officials that there must be a leak in the supply main, while others thought the pipes were not getting the four-inch supply they were supposed to get at Greensville. Fire Chief Knowles was one of the latter. For some days he and Street Foreman Hyde have been laying new and larger pipes in order to ensure the four-inch supply. On Saturday this work was completed and from then until to-day the water in the reservoir rose from 6 feet 6 inches to 9 feet 11 inches. This is taken to prove that the trouble was in the inadequacy of the supply pipes, rather than to leaks.

All in Readiness for Christmas

Just four and a half weeks—then Christmas. The busiest weeks in all the year. Just four and a half weeks to think, and to hope, and to contrive, yes, and perhaps to sacrifice, to make this the best Christmas we have all ever known.

Just four and a half weeks to plan for the most beautiful day in all the year, because on that day you make more people happy than on any other day.

Just four and a half weeks, yes, busy weeks, but we are going to ask you to come early—before the rush and the crush. We're going to ask you to come, not only early in the season, but early in the day. If you do, it will make shopping easier, not only for yourself, but for us.

Will serve you just as speedily and quickly as willing hands can serve, but we can do it just a trifle better in the morning hours than in the afternoon. Do it better now than we can the few days directly preceding Christmas. Tomorrow is

Formal Christmas Opening Day

and we invite one and all to come, to see and inspect the result of our grand preparations as shown in the multitude of gift articles displayed in every section and corner of the store. Be sure to see everything.

At the School Board meeting on Monday night a committee was appointed to recommend a site for the new High School. Six of the seven members inspected the various sites yesterday, but failed to agree. Three were in favor of accepting Col. Grafton's offer, but the other three favored the purchase of the grounds and residence of G. C. Wilson.

The school will almost certainly be defeated, unless a site can be agreed upon.

FOUR WORKMEN KILLED AT TORONTO WATER TUNNEL. Steel Cable Snapped and Seven Men Hurlled to Bottom of Shaft.

Men Were Just Returning From Day's Work and Were Near Surface—Death Came Without Slightest Warning—Two Killed Instantly and Two Died Shortly Afterwards—Most of Victims Came From Hagersville and Had Been at Work Only a Few Days.

THE DEAD.

- Fred. Blackmore, a nipper, 78 Pelham street, Toronto Junction; leaves a wife and five small children.
Huron Elliott, an Indian, and driller, Hagersville, 21 years of age, died while being taken to the hospital.
James Gordon, Hagersville, died in the hospital.
J. Neilson, a driller, Hagersville.

THE INJURED.

- Leo Dougherty, a driller, Hagersville, 25 years of age, married, an engineer, compound fracture of left leg and badly shaken up.
George McHugh, Sault Ste. Marie, 24 years of age, fractured arm and fracture of femur.
Angelo Towpino, an Italian, Hagersville, 19 years of age, a broken thigh; may not recover.

Toronto, Nov. 20.—By the parting of a steel cable seven men in a bucket were dropped one hundred feet down the shaft at the entrance to the new waterworks tunnel at the island, which Messrs. Haney & Miller are constructing, last night. Two were instantly killed, two more survived but an hour or so, and three more had a marvelous escape from death, but are badly injured.

The accident occurred shortly after 7 o'clock, when the seven men finished their day's work. A blast had just been fired in the tunnel underneath, and the men were returning to the surface in the bucket specially provided for such a purpose. They had just neared the top of the electrically lighted shaft when there was a quick snap.

Without the slightest warning the steel had given way. The free end of the cable curled upwards when relieved from its burden, telling in an instant a fearful story to the waiting men above. Almost simultaneously a shriek of terror was heard, then the dull thud as the car with its human freight struck the bottom.

Rescue Party at Work. No time was lost in forming the rescue party. Blankets were thrown down the shaft in the hope that something could be done to ease the pain of any who had chanced to escape from the sudden death. Then parties were made to descend with another bucket to render all necessary assistance.

The heavy boom from which the bucket was suspended was turned around and the cable which had played so farcically in its place it was found to be too short to reach the men in the slush and mud, now stained a darker hue with the blood of the victims. Again the boom was swung and a longer cable substituted. In the meantime telephone messages had followed the rescue party for assistance. Dr. Wallace Scott, the contracting company's physician, was at the John street wharf as rapidly as possible. The company's tug made the trip across in quick time, and the doctor was on the scene of the tragedy almost as soon as the rescuers had reached the men at the bottom. Dr. Bruce Gordon and Constable Hunt of the Union Station followed on the second trip across.

Injured Brought to Surface. Two of the injured men were first brought to the surface. Their heavy oilskins and rubber boots were removed, and they were tenderly placed on blankets, where Dr. Scott did everything possible for them, and he was assisted by Dr. Rordan, who arrived with a little later. Mattresses and clothing were plentiful for the nature of the disaster had spread rapidly and every one was eager to render any assistance possible.

The two men who had met death in the shaft were brought up last. It was found that Neilson's skull was badly crushed, probably from the heavy pulley striking him. He had, however, kicked off his boots and stockings in the death struggle in the shaft. Blackmore's neck was found to be broken, and it is doubtful if he lived many seconds after the fearful drop.

Lay at Bottom of Shaft. The stories conflict as to the length of time which the men lay in the shaft after their fearful journey of one hundred feet. They are those who say that it was nearly two hours before the rescuing party were successful in bringing the first of the injured to the surface, but it is admitted that the difficulties which had to be contended with in a short space of time were many, and the replacing of the short cable took up considerable time.

At half-past 9 o'clock the tug with the dead and injured had reached the city wharf, and tenderly the injured men were laid on the dock to be placed in the ambulances. Huron Elliott, an Indian, whose bones being broken, he was horribly shaken up and injured internally. In the hope that life might still remain he was hurried to St. Michael's Hospital, but it was too late. Twenty minutes after arriving James Gordon also died, making the fourth fatality.

"That cable was only put in there a week ago," said one of the foremen last night. "It was of three-quarter-inch steel, and we thought it was good. Seven men and a bucket should not have been any too much weight for it."

got up just about ninety feet from the bottom, when I heard a funny little rattle, and I saw the cable running free. I knew the minute I heard that noise that the skip had dropped, and almost on top of it came the crash of the wooden thing as it struck the bottom of the tunnel. No, I didn't listen for any groans. I just went as fast as they could go, and when they were all down we heaved blankets and bedding straight down the shaft."

"How long was it before you got the injured up?" asked the reporter. "Bout three-quarters of an hour. We have a phone on the place, and I called up Dr. Wallace Scott."

To Replace Broken Cable. Mr. Bradley then went on to tell of how the contractor's tug steamed under foot of draught to the John street wharf, where the doctor got aboard, and was hurried out to the desolate mouth of the shaft. Hurriedly the men worked to replace the broken cable, and finally a new bucket was lowered away.

"You are sure to feel better, sure to experience the buoyancy of robust health that comes with Dr. Hamilton's Pills. No medicine is more gentle, more searching, or surer to give that buoyant feeling of sound health. For the family no remedy is so universally satisfactory as Dr. Hamilton's Pills, 25 cents per box at all dealers."

Returned Cheque. Courteous letter from Japanese Consul at Vancouver. Says his Government declines to accept reward for protection of the interests of Japanese Subjects.

Victims of the Accident. Frederick Blackmore of 78 Pelham street, and James Neilson, of Hagersville, were killed instantly in the awful fall to the bottom of the shaft. Blackmore was a young man employed as a "nipper," who carries power, tools and water to the men while at work. Neilson was a cousin of Huron Elliott, and the two had come from Hagersville, their home, after a time spent up in Cobalt. He was employed as a driller.

Huron Elliott was about 21 years of age and was an Indian of the Ojibway tribe. He was unconscious when brought to the top of the shaft and died on the way at the foot of John street. The young boy books of the Ontario Police Court of this case, observed Mr. Johnston.

PRITCHETT DECLARES That Sam Barker and Others Saw Him in Detroit. Promised Him Immunity if He Would Make Affidavit. Was Severely Cross-examined by Mr. E. F. B. Johnson.

Toronto, Nov. 20.—Fourteen witnesses were on the stand yesterday in the trial of the London bribery case, and their testimony, while proving beyond doubt that there was bribery in the by-election of June, 1905, was by no means conclusive in the direction of showing that a conspiracy existed between the four defendants in Toronto, as charged in the indictment. So far as the actual promise or payment of money was concerned, the evidence showed that in most cases Jerry Collins was the agent, though some of the witnesses stated that Mulloy was present when the bargain was made. In other cases testified to yesterday the name of Tom Lewis was mentioned as the party who carried through the deal. Shortly before the adjournment Judge Winchester indicated that it was undesirable for the Crown counsel to prolong the evidence bearing on bribery, as there was a good deal of repetition. A considerable part of the sitting was devoted to cross-examination of John G. Pritchett, who, as the leading witness of the Crown, was severely handled by Mr. E. F. B. Johnson, K. C. If not the inventor of ballot-switching and ballot-spoiling, Pritchett admitted that he had taught others how to work these processes, while he also acknowledged that if necessary he would have perjured himself in the West Elgin election, that he obtained the position of deputy returning officer for fraudulent purposes by using a wrong name, that he had committed forgery by signing certain statutory papers in that election with a name not his own, and that he had endeavored to induce certain persons to swear what was false. Generally, Mr. Johnston's line of examination seemed to indicate that the contentions of the defence would be that whatever Pritchett and others did, it was upon their own responsibility, and was not part of any arrangement made at Toronto with the defendants. There was a larger attendance in the court room yesterday than on the previous day.

When the court resumed yesterday Mr. E. F. B. Johnson, K. C., counsel for the defence, began his cross-examination of Pritchett. To the man on the witness stand Mr. Johnston said, steadily, in opening: "So you are selling yourself for a few dollars?" "If you say so."

"Were you?" "No, sir."

"Were you selling your conscience and your honor for a few dollars?" "No, sir."

"What were you offering John O'Gorman to do?" "I have answered that."

Mr. Johnston—Answer it again. "Mr. Johnston—you will get more of what is all right by and by. You knew that this was a crime contrary to election law and moral law?" "I never gave it a thought."

"Did you make an affidavit in Detroit in 1905?" "Yes."

"Who asked you?" "Some parties from Hamilton and St. Thomas."

"Was Mr. Barker there?" "He was the Conservative organizer at Hamilton?" "I believe so."

Mr. Stanton objected to the name of Mr. Barker being dragged in. The Crown counsel declared it was only a move to make political capital. "Enough political capital was made in the Police Court out of this case," observed Mr. Johnston.

"I had nothing to do with it," said Mr. Stanton. "The Crown had, and you cannot get away from the Crown."

Coming back to the affidavit made in Detroit at the instance of Mr. Barker, Pritchett explained he was aware it was read in the Legislature here. "What was the affidavit?" "I did not receive a five-cent piece." "And not a dollar since?" "No."

Mr. Johnston—Of course that answer is based on the same appreciation of an oath that you showed in West Elgin? "Yes."

"I suppose if money had been offered for the affidavit you would not have refused it?" "That is a question. Most of us are out for it. Money talks with all of us."

"If there was any arrangement at all it was to deal with each individual election?" "Yes."

"There was nothing planned for the whole Province?" "No."

BEER BENEFITS THE WHOLE BODY (NO OTHER FOOD-BEVERAGE DOES THAT MUCH)

NOT six people in a thousand (and those six have either diabetes or gouty tendencies) can get anything but real good from the use of good beer with their meals. Because that kind of beer (and no other kind is brewed in Ontario) benefits the whole body of the normal adult,—enriches the blood, vitalizes the stomach, makes kidneys and liver active, builds flesh and betters nerves.

Beer Is Not A Mere Tonic

Good beer, drunk with meals and at bedtime, is not merely a tonic—for a tonic simply gets one part of the system to work better for a while, by stimulating its activity, while beer, rightly used, does the whole system permanent good.

Beer Builds Up Thin Folks

That is why good beer is such a notable flesh-builder, and why it is so effective in changing the too-white blood of anemic people into the red, strong, healthy blood of the vigorous. It has qualities that are very valuable to women, especially. It is distinctly NOT an intoxicant, nor a hurtful stimulant. Ask your doctor if beer wouldn't be good for you as an item of daily diet.

*BEER is a term which covers lager, ale, porter and stout; and, in the practice of Ontario brewers, implies beverages made under most hygienic conditions from Ontario barley (the best in the world) malt, hops and pure water.

TRIED FOR ARSON.

FIRE CHIEF RAYMOND, OF BLIND RIVER, COMMITTED. Charges Against Oullett Brothers, Dorion and Sullivan Dismissed—Evidence Against Raymond Heard at Sault Ste. Marie.

Sault Ste. Marie, Nov. 19.—George Raymond, chief of the Blind River fire department, the Oullett brothers, Dorion and Thomas Sullivan, incendiary fire suspects, appeared to-day before Magistrate Elliott. The first charge was against Raymond, for setting fire to the Campbell House on September 3rd. The first fire started at this house at 11 p.m. and the second at 4 o'clock the next morning.

Witnesses swore that they saw Raymond coming down from the scene of the fire after the first alarm, and also saw him going in the direction of the house before the second alarm, and saw him jump over a fence around the house. He was then seen going to his own house, and standing in the back door and slapping himself by shouting fire from his own yard. On this charge Raymond was sent for trial to the Assizes.

Raymond was also charged with setting fire to the Edwards House on October 9th. Evidence was partly taken, and the case adjourned for a week for the Crown to get witnesses from Quebec.

The third charge against Raymond of firing Elly's mills was dismissed. The charges against Thomas and Adelaide Oullett and the man Dorion of writing letters threatening to burn a house were dismissed. The charge against Thomas Sullivan of firing the Maranger House was also dismissed.

SMALL BOY A HERO.

With Two Broken Bones He Tried to Hold His Horses. Cobalt, Nov. 19.—Joseph Bethune, a small boy in his sixteenth year, employed as a teamster for J. Tripp, Cobalt, had both bones in his right leg badly broken close to the ankle in a runaway accident to-day. The wagon slipped on the frozen ground over the edge of the road, upsetting the wagon and causing the team to run away. The young boy heroically tried to prevent the team getting away, even though his leg was broken.

STEAMER IONIC OVERDUE.

Sighted Off Jackfish in Dilapidated Condition. Fort William, Nov. 19.—The steamer Ionic is now four days overdue, but no anxiety is felt yet as to her safety. She was sighted off Jackfish by the steamer Manitowish with two funnels and lifeboats gone. She had been badly buffeted by the great storms which prevailed on the lakes recently, and was running for shelter when last seen. It is possible that she was partially disabled and may not make port for some time.

MUSIC AND DRAMA

Lovers of melodrama were provided with a feast at the Grand Opera House last night, when "The Mysterious Burglar," or "The Peculiar Fellow," held the boards. The play drew a top heavy house, and it pleased immensely. The story is exciting from start to finish; the roles were well filled and the scenic effects were good. The "burglar" was just as mysterious as the midnight mechanics who have kept the Hamilton sleuths awake at nights for some time, but he was not as bad. In fact, this burglar was a good, kind one, that foiled the villain, and even the heroine had to cause to fear him.

At the Savoy.

A bright, snappy bill, brimful of good rollicking fun and combining about all that the vaudeville devotees could desire, is attracting big business to the Savoy theatre this week. Louis Simon and Grace Gardner in their screaming farce, "The New Coachman," are presenting the liveliest sketch seen here in many a month. Simon and his cap-companions produce more laughs to the minute than any attraction the Savoy has booked yet. The frolic begins with the rising of the curtain and is carried along at a furious rate right up to the finish. The sketch is a clever satire on the marital relations of some U. S. families and the ludicrous situations arising from the theft and clothing of a chumman, who is sobering up in a New York hotel, supply ample scope for laugh making. There is one act of which the audience has been unparalysed in its approval it is the "Four Lukens," whose sensational casting act, introduces a number of thrilling feats, not the least exciting of which is the double somersaults of the men while being hurled through the air at top speed. For those to whom artistic musical offerings appeal, Frosini, "The Wizard of the Accordion," will prove especially entertaining. He does some truly remarkable playing on this much despised instrument, extending from classical to popular selections. Kenny and Hollis, "The College Boys," have a lively talking skit. Rube, "Acrobatic dancers," has as dainty a little acrobatic act as has been seen here in a long time. Dick and Alice McAvoy, "The Kids of Hogan's Alley," are another team of fun-makers who get a good share of the laughs with their bowery skit. May Hollis, a pleasing soprano whose songs get the gallery gods whistling the refrains; Robin, the tramp juggler, in a novel offering and the kinetograph showing an attack by torpedo boats on the Dreadnaught make up a thoroughly enjoyable bill.

George Hall to-morrow.

The attraction at the Grand to-morrow night will be George F. Hall in his new musical show "I'm Married Now." The piece is said to be crowded with funny situations, catchy music, pretty girls and enjoyable singing and dancing. The costumes, scenery and all the accessories are said to be of the best.

At the Bennett.

In addition to being known as the home of all-star vaudeville, Bennett's theatre as a result of the merging of the Klav-Erlanger and Keith-Proctor interests, will be "further advanced" as the home of "further advanced" vaudeville also. This is a combination of the meaning of which time alone can explain to the theatre-goers of Hamilton. Already, however, the effect is being seen in the excellent bill which is on the boards at the popular house during this week. The large audiences which have been present since the opening performance augur well for the success of the week's business. No act that has been through here this season has not with more favor than that of Fred Walton, entitled "Crisis in the Dream." The portrayal of child life in all its innocent candor is fascinating beyond expectation, but the clever manner in which Walton and his company do their work has not a little to do with the popularity of the act. The pantomime of the dream is well worked out.

The Kitamura Japs are about as clever a troupe of acrobats as ever a Hamilton audience had the pleasure of gazing on. They are neat in dress and faultless in their work. Joe Deming, monologist, has a rare line of jokes and songs and he has a good talk, and every time he appears it is the signal for loud applause. For an amusing act Felix and Barry have a winner in "The Boy Next Door." There are three people in the act, and Felix succeeds in keeping the audience in roars all the time. Something entirely new is offered in the combined dancing and violin playing of Frank Whitman, who never misses a note. Lind, the celebrated female impersonator, is a whole show in himself, and it is not until he removes his wig that the greater portion of the audience has even an intimation that he is a man. Charlotte Coate and Little Sunflower have a neat and pleasing act, entitled "Wanted an Errand Boy," while Johnson and Wells, colored entertainers, are above the average of "rag time" performers.

About "The Lancers."

"The Lancers," a comedy war of hearts, will introduce Cecilia Loftus and Lawrence D'Orsay as co-stars under Henry Miller's management at the Grand Opera House for one night, Tuesday, November 26. Handsome soldiers are pitted against beautiful women with Cupid as generalissimo, and the resulting contest is high spirited and of surprising interest. The play is commedial with a strong flavor of sentiment. At times it borders on the farcical, and is seldom serious. There is a song here and a dance there—melody and rhythm intermingled with the drama. The play has the charm of the drawing room and the fascination of the barracks. It is brilliant with evening gowns and showy with uniforms. Into such an environment Miss Loftus and Mr. D'Orsay naturally fit—sparkling gems in a worthy setting. The scenes are laid in Quebec, which in itself bespeaks picturesque accessories and distinctive atmosphere. Miss Loftus' role calls for grace, charm, a fine sense of humor, emotional strength and marked ability as a comedienne, all of which qualities she possesses in abundance. The chief assistants of Miss Loftus and Mr. D'Orsay are the Misses Phoebe Coyne, Eileen Anglin, Suzanne Rusholme, Grace Fisher, Doris Cameron, Maud Rowland and Messrs. Fred Tyler, Arthur R. Lawrence, Ben Field, Hubert Harben, A. H. Van Buren, Bertram Allen. A chorus of over a score of singing and dancing girls is carried. Seats will be on sale Saturday.

Other Shows Coming.

"The Burgomaster," the most tuneful of all the Pixley & Luder's musical comedies, will be the strong attraction at the Grand on Saturday afternoon and evening, with Gus Weinburg and Ruth White as the featured members of the cast. Mr. Weinburg and Miss White were the originals in the parts of Peter Stuyvesant and Willie, which they will portray here. The costumes this year are especially elaborate, and the production is a handsome one. The chorus has been picked for its singing ability as well as for its beauty. As usual, the male choristers are fine singers. The sale of seats opens on Thursday. Croker's educated horses will be at the Grand on Thursday of next week, with special matinees at 3.45. This will give the little ones a chance to attend the performance.

Cole and Johnson are booked for the Grand on Wednesday of next week in "The Shoo-Fly Regiment," the piece in which they were seen here last year.

Paderevski Next Wednesday.

The appearance of Paderevski at Massey Hall, Toronto, on Wednesday evening next, Nov. 27, will attract a large number of our music lovers. He is admitted to be not only the greatest pianist but the noblest artist in the world to-day. No other individual is so highly paid, not even Caruso, the tenor, or Melba, the soprano. The train service to Toronto has so greatly improved that music lovers are now able to take advantage of these opportunities. Tickets can be secured by writing the manager, Massey Music Hall, or through Mr. E. J. Wilson, of Nordheimer's.

HELLO; IS THAT MARS

This is Nikola Tesla, Talking From the Earth.

New York, Nov. 19.—Nikola Tesla announces that with the co-operation of power producing companies at Niagara Falls he is preparing to hail Mars with Niagara's voice. A way has been found at last for transmitting a wireless message across the gulf, varying from 40,000 to 100,000,000 square miles, which separates this earth from Mars. Once that has been accomplished and Mars, which is considerably older and supposedly more advanced in science than we, has acknowledged the receipt of our signal and sent back flash for flash, it will remain to devise an interplanetary code through the medium of which the scientists of this world and of Mars will be able to understand what each is saying to the other.

Mr. Tesla has been quietly working for several years on a wireless power plant capable of transmitting 10,000 horse-power to any part of the world or to any of our neighboring planets. The mere matter of distance between dispatching and receiving points is no object whatever. Wireless power, Mr. Tesla says, may be sent one million or more miles just as easily as one mile. Several of the electric power companies with immense generating plants at Niagara Falls have agreed to co-operate with Mr. Tesla in any effort to reach Mars by wireless.

LOSES AN EYE.

London Man Burst Blood Vessel When Running.

London, Nov. 20.—As a result of having become greatly excited Sunday noon, when little Archie Blackwell was drowned, Mr. Wm. Spettigue, of Hill street, an employee of the London soap works, has lost the sight of one eye, perhaps permanently.

When Mr. Spettigue heard of the accident he ran as fast as he could to the river, and in doing so strained the muscles back of the eyeball so greatly that a blood-vessel broke, destroying the sight of one eye.

Mr. Spettigue has been under medical treatment since the occurrence, but it is expected that he will lose the sight of the eye. Three specialists have already been called in.

Some foundation facts

IT is a fact which thousands of people have demonstrated, that day after day, in lines sold here, The Right House prices are LOWER than prices outside this store.

Another fact that seems generally known is that no matter what the price, the QUALITY of Right House merchandise may always be depended on.

These two foundation facts—added to a store and delivery service as prompt, pleasant and accurate as it can be made—make it the SOUNDEST ECONOMY to buy goods at The Right House at all seasons and whether you have much or little to spend.

This November is proving to be one of the greatest value months in the history of the business. It will pay to watch Right House advertising and the store as closely as you can.

Stocks are splendidly reinforced with great offerings of new merchandise under price.

Newness. Beauty. Great values. OPPORTUNITY. These are the keynotes of the store's activity now. Make Right House saving opportunities your opportunity if you will.

SECOND COMING.

Third of A. H. Zilmer's Addresses in Hamilton.

Mr. A. H. Zilmer, of Milwaukee, delivered his third lecture in the C. O. F. Hall on Monday evening, his subject being "The Holy Land, and its Relation to the Purpose of God in the Earth." Mr. Zilmer showed from the scriptures that the Holy Land was given by God to Abraham and his seed for an everlasting inheritance. Abraham's children, known as the children of Israel, went into the land after coming out of Egypt by the hand of God, and God gave them a law, and told them if they kept it they would be the greatest and most blessed people on the earth. The Jews kept the law for a time, but in the course of time after the death of King Solomon the twelve tribes were divided, disobeyed the laws of God, and were scattered. Their iniquity was complete when they rejected their Messiah. He told them they would be trodden down of the Gentiles until the times of the Gentiles be come in, and this has been fulfilled to the very letter, but Jerusalem it yet to become a great city. Has the promise God made to Abraham failed? He promised him the holy land for to inherit it, and Abraham died without receiving one foot of the land. Some ministers teach that this promise was fulfilled when Abraham was taken home to heaven. God did not promise heaven to Abraham, but the land of Canaan, and eleven hundred years after the promise was made the prophet Micah prays to God and says, "Thou wilt perform the truth to Jacob and Thy mercy to Abraham, which Thou hast sworn into our fathers from the day of old." The apostle Paul in writing to the Hebrews says all the faithful, whom he names, had all died in faith, not having received the promises, but saw them afar off. Has not, then, failed to keep His promise? The seed of Abraham came in the person of Jesus. Jesus did not inherit the land. He said, Blessed are the meek for they shall inherit the earth. He was the meekest man that ever lived, yet had no place to lay His head. What, then, must happen? Why, Jesus must return from heaven and raise the dead. He must come and judge the quick and the dead. Then shall Jerusalem be rebuilt, and all the faithful of all ages shall be rewarded with eternal life. Abraham and all of like faith will inherit the land with Jesus as king over the earth. The Jews are going back to their own land now, and the day is fast approaching when the Holy Land will be the garden of the Lord.

GEORGE WESTINGHOUSE,

Now at Age of Sixty-one, He Faces Troubles Due to Financial Stringency.

Pittsburg, Pa., Nov. 20.—Facing several bankers seated around a big table stood a man about forty-four years old, who, with impassioned speech, begged for the loan of \$200,000. When they had heard all he had to say these bankers politely, but firmly, refused the request. They had been informed that unless the money was borrowed vast enterprises would have to be closed down, thousands of men thrown out of employment, and privation and suffering follow. This had no influence, and when the would-be borrower saw that his eloquence had no effect he lighted a cigar, turned on his heel and left. He went to New York, where he was comparatively unknown, and through a friend obtained an audience with capital-

ists. He told the same tale. He was given close attention and the money he wanted was forthcoming. With this he returned to Pittsburg, continued his business and kept every man at work.

This was in 1890 and was the first real crisis in his financial affairs experienced by George Westinghouse. Now, at the age of sixty-one, he is facing a debt of \$8,000,000, and has but three years in which to pay it.

George Westinghouse seems to flourish on opposition. He is a fighter. Everybody said his airbrake was not practical, but for forty years he has been controlling the trains of all countries. When an attempt was made to prevent his fulfilling the contract for lighting the Chicago World's Fair, he made a slight change in the Sawyer-Mann electric lamp, went into the courts against the Edison invention, which had formerly triumphed over his, obtained an injunction against his rivals to prevent their stopping him from the use of these lamps, and gave the "Windy City" its brilliancy.

In a little workshop in Schenectady, N. Y., his father worked on inventions. The boy wanted to follow in his footsteps.

"Not until you have a college education," said the father.

So George was sent to Union College, where he remained until the civil war began. He answered the call in 1863, and was with a New York regiment until Appomattox. Then he went back to work in his father's little shop.

Then he invented a device for replacing derelict cars. This was adopted by railroads all over the country, and the name of Westinghouse was becoming known.

One day there walked into the little shop a young woman who asked Westinghouse to subscribe to a magazine. He was busy, and without asking what the publication was, bought it.

In one of the numbers read that compressed air was being used in the construction of the Mont Cenis tunnel, connecting France with Italy through the Alps. That was the answer to his dream of controlling trains. Try compressed air for operating the brakes!

He did. But railroad after railroad turned the proposition down. Finally he appealed to Commodore Vanderbilt, then the greatest railroad manager in this country. He explained his mission while the Commodore sipped his tea. When the inventor paused, Mr. Vanderbilt was ready with his answer:

"Young man," he said, "do I understand that you propose to stop a train of cars with wind?"

It's none too early to make Xmas selections

troubles of several companies amount to about \$8,000,000, but the collateral representing this amount borrowed is worth many times this amount.

Mr. Westinghouse is more than six feet tall and well proportioned. He is as erect as an oak, with large hands, scarred from work, broad shoulders, a full chest and a massive head, covered with almost white hair.

His step is firm and elastic. When he is sitting his feet are moving or his hands are employed in toying with whatever object is nearest to him.

The object of his life seems to be best found in an expression from him one day when his brakes had saved a passenger train from disaster:

"If some day they say of me that with the air brake I contributed something to civilization, something to the safety of human life, it will be sufficient."

The Wrong Man.

Professor Huxley was once surprised by being asked to preside at a meeting of the Anti-Tobacco League. He accepted the invitation, and was heartily greeted by a large audience. In his speech he told an anecdote of a visit he paid to another scientist to discuss on all subjects except one. "My friend," continued Huxley, "was a great smoker, while I hated tobacco in any form. (Great applause.) On one occasion, when nearly suffocated by my friend's cigar smoke, I expostulated with him, but he pushed the cigars towards me, saying: 'take one yourself, old man; it's the best remedy.' Reluctantly I took one and smoked it. And since that time, ladies and gentlemen, nothing on earth would induce me—(frantic applause)—to forego my after dinner smoke." The learned gentleman was never again asked to preside at a similar gathering.

CRERAR PRESIDENT OF CITY LIBERALS.

Unanimous Choice at a Largely Attended and Euthusiastic Annual Meeting.

Confidence in Ontario Leader and Devotion to Sir Wilfrid and His Policy.

Hamilton Liberals by a unanimous vote elected Mr. P. D. Crerar, K. C., as their President last night. There was a fine attendance at the annual meeting, held in the large hall at the Liberal Club's quarters, Arcade building, and the utmost harmony and enthusiasm prevailed. Mr. James Chisholm, President, was in the chair, and old and young Liberals were alike largely represented. In opening the meeting Mr. Chisholm gave a brief account of his stewardship. He has held the office four years, during which time the Liberals succeeded in winning a seat in the Dominion Parliament from the Opposition. He considered the outlook now very much better than when he took office. He felt that Mr. Adam Zimmerman still held West Hamilton in the hollow of his hand, and believed by hard work East Hamilton could also be won. He had heard Conservatives say that Mr. Barker is not as strong now as he was four years ago. In regard to such an estimate, there was a certain amount of uncertainty owing to the probability of a re-division to make three constituencies. The Liberal and Labor interests were so closely allied that he could scarcely see the need of a three-cornered fight in East Hamilton. Liberals had united with Labor in the by-election to deal a blow to prison labor and other Tory abuses. One other thing he wished to speak about. It was evident that the Conservative party was intent upon getting into power by means of a campaign of scandal talk. They had circulated scandal stories to such an extent that they had gone to and been printed in England, to the great detriment of Canada, but they did not seem to mind doing their country untold harm if only they could gain control of Parliament. He strongly advised criminal prosecution of Tories who were making insinuations against public men, so as to force them to retract or go into court.

Message From Mr. Zimmerman.
Mr. Adam Zimmerman, M. P., was unable to be present, being out of the city, but the following letter from him was read by the Secretary, Mr. W. T. Evans, and was received with applause.
Mr. Jas. Chisholm, President Reform Association, city.

Dear Mr. Chisholm—Owing to a most important business engagement on Tuesday and Wednesday in Montreal, it will not be possible for me to be present at the annual meeting of the Reform Association on Tuesday evening.

Owing to the close proximity of the Provincial and Dominion elections, I feel confident the association will carefully fill the various offices with faithful, earnest and conscientious officers, men who can and will make what sacrifices are necessary to place the Liberal party at the head of the polls in the coming struggle. We have had such men in the past, and with their good hand and the same unity and enthusiasm among the workers which prevailed in the last Dominion elections, there will be no cause to fear the results of the coming contests.

I cannot close without tendering the present officers, the Liberal workers and the Liberal party my sincere thanks for their confidence, assistance and support during the several years which I have had the honor to represent them at Ottawa. I wish especially to thank you, sir, as President of the association, for your valuable assistance and advice to myself personally, and for the untiring interest you have taken in the association and Liberal party generally. I also wish to commend the splendid services rendered by the Secretary of the Young Liberal Club, Mr. Frank Woolcott, in securing so large a membership to the club, of young men who feel sure will give the best services when called upon, in upholding the cause of Liberalism in this city.

Again thanking the officers of the association and the Liberal party for their whole-hearted good will and confidence, and wishing you all a successful meeting. Believe me, faithfully yours,
P. D. Crerar.

Ontario Leader.
In a short but pointed speech Lieutenant-Col. W. A. Logan brought in the following resolution, which Mr. Andrew Ross seconded, and which was carried amid applause:

That the Liberals of Hamilton, having heard the new leader of the Liberal Party in Ontario, desire to place on record this expression of their confidence in his sincerity of purpose, tact and ability to fill the onerous position of leader of the Opposition, and do pledge themselves to warmly support the progressive platform which he has announced, and to do all that lies in their power to promote the success of the Liberal cause at the approaching elections.

Sr. Wilfrid's Leadership.
Messrs. K. T. Laed and H. W. Temple submitted the following, which was carried by a unanimous standing vote:
That we, the Liberals of the city of Hamilton, assembled at our annual meeting, do hereby renew our pledge of fidelity to the principle of Liberalism as proclaimed and practiced by our illustrious leader, Sir Wilfrid Laurier, and do hereby place on record an expression of our unwavering confidence in his policy for the development of Canada, faithfully and consistently carried out since his accession to power in 1896, which has placed our country in her present proud position among the nations of the world, and do furthermore assure him and his able assistants in the Cabinet of our determination to do our part in assuring the continuation to Canada of that beneficent Government which in so short a period has made possible such a wonderful transformation.

Date of Annual Meeting.
On motion of Messrs. A. O'Hair and Fred Taylor, the date of the annual meeting was changed from the first to the third Tuesday in November.

Selecting Candidates.
On motion of Messrs. Cal Davis and W. Ainslie it was resolved that whenever it may become advisable to select candidates for either the Dominion or Provincial Houses the selection shall be made in convention by the Liberals of the particular riding for which the candidate is to be chosen. The motion passed with a vote of 10 to 0.
That it be definitely understood that in all cases where it becomes necessary to choose a candidate of the Liberal party in either or any electoral district of Hamilton, that the Liberal voters of each electoral district shall in convention choose the candidate to represent that particular district in both Dominion and Provincial elections, and that the constitution of the Hamilton Liberal Association be amended accordingly.

ALABAMA DRY.

Women and Children Thronged Corridors and Galleries, and Even Pushed Senators From Their Seats on the Floor of the Chamber.

Montgomery, Ala., Nov. 19.—Unprecedented scenes were enacted in the Senate chamber of the historic Capitol of Alabama to-day when the statutory prohibition bill was passed. Women and children thronged the corridors and galleries, and even pushed the Senators from their seats and giving vent to their enthusiasm by shouts and cheers that echoed through the building. Senators who opposed the bill were pushed when they arose to speak against the measure, and Lieut.-Governor Gray, the presiding officer of the Senate, was forced to remove the spectators.

The statutory prohibition bill which was passed to-day was in the nature of a compromise between the "antia" and prohibitionists.
The "antis," seeing the handwriting on the wall, agreed to give up the right provided the time was extended to January 1, 1909, when the sale of whiskey will be forbidden in the State of Alabama. This amendment will be sent to the House and will be concurred in without a fight.
Governor Comer will approve the bill, and it is understood that a movement has already been started by the State W. C. T. U. to make the signing of the bill a very formal affair.

Officers Elected.
The election of officers resulted in the return of the President, Secretary and Treasurer by acclamation. For Vice-Presidents there were three candidates in the east and three in the west, a first and second Vice-President to be elected for each. The voting was by ballot and the contests were very close. The results were:
President, Mr. P. D. Crerar, K. C.
First Vice, East Hamilton, Mr. A. O'Hair.
Second Vice, East Hamilton, Mr. Jas. Mathews.
First Vice, West Hamilton, Mr. J. L. Cunnell.
Second Vice, West Hamilton, Mr. Jos. Kirkpatrick.
Treasurer, Mr. Wm. Dixon.
Secretary, Mr. W. T. Evans.

TORONTO BROKER CHARGED WITH CONSPIRACY TO DEFAUD.
A Warrant for Partner—Authorities Also Want Mr. Lockhart Russell—Prisoner Released on Ten Thousand Dollars Cash Bail.

Toronto, Nov. 20.—Immediately following the announcement of acting Crown Attorney W. H. Price in the Police Court yesterday afternoon that the case for late Crown against Mr. Frank Law, of Law & Co., mining brokers, of Toronto, was completed, Detective Newton placed Frank Law under arrest on a charge of conspiracy with the acting Crown Attorney, and after securing under a search warrant from officers of the local detective department, proceeded to the offices of Law & Co. and took charge of the books and documents of Law & Co., including a large sum of money, a silver safe and other valuables.
Late in the afternoon Mr. Law was released upon his own cash bail of \$10,000.
The charge on the warrant reads that "Frank Law and Lockhart Russell did conspire with each other and with other persons at present unknown, by deceit and falsehood and other fraudulent means, to defraud the public."
Steps are being taken to lay an information under the fugitive offenders' act in order that a warrant may be served upon Mr. Russell, who is at present in England. The Police Court trial for conspiracy will open this morning, and evidence will be taken in the absence of Russell.

This startling denouement of the Law case, which has attracted considerable attention during the past two weeks, followed a lengthy conference at Queen's Park yesterday morning between Magistrate Kesteven, Crown Attorney Price, Assistant Provincial Secretary Thomas Mulvey and Deputy Attorney-General John Cartwright, and was sanctioned by the official chiefs of the two last named gentlemen.

ONTARIO WITHDRAWS.
The Placing of Immigrants Left to Dominion Government.

Ottawa, Nov. 19.—Formal notification of the intention of the Ontario Government to retire from the work of placing immigrants in situations through the agency of the provincial officials has been received from Hon. Nelson Monteth, Minister of Agriculture, by the Dominion Government. An order to the provincial officials has been issued to the effect that the views expressed during the recent conference at Ottawa, and expresses the belief that the Dominion immigration authorities should now be left in full charge of the work of distributing the immigrants at Toronto.
Mr. O'Hair would have preferred having the Ontario Government co-operate, as at present, with his department, believing that any serious friction between Federal and Provincial agencies might easily be avoided, and that both were doing good work. But since the Ontario Government takes the opposite view, the Dominion Government will now step in and take full charge of the work of distribution in Ontario.

The department already has some two hundred agents among the farmers of Ontario, who are placing immigrants on the farms in their localities as applications are made. Mr. O'Hair and the only change necessary in the present arrangements in order to adequately continue the work hitherto done by both Governments will probably be a reorganization of the Dominion Immigration Office in Toronto, which will be established on a permanent basis under an official of the department.

ALBION GASPUEL, president of English Benedictines, will shortly bring a scientific revision of the Vulgate, under instructions received from the Vatican.

SALVATION ARMY PLANS.
Several Vessels Chartered to Bring People to Canada Next Year.

Montreal, Nov. 19.—The tide of immigration set in motion by the Salvation Army will probably during next year exceed by many thousands the numbers which have come in during any year in the past. The plans for transportation include accommodation for about twenty thousand. Already ten sailings by vessels of the Dominion, Canadian Pacific and Allan lines have been chartered, and there will be large numbers to come in smaller parties.
The Dominion line will carry the greatest numbers, all passenger space for eight sailings having been booked in full. The immigrants will begin to come about the first of February, two parties coming on the Kensington, and two on the Southark to St. John, and two again on each of the same two liners to Montreal in the early summer.

TO PROTECT THE STREETS.

Aldermen Suggest Scheme to Lay Sewers Under Boulevards.

Would Revoke Permission Granted to Lay Switches.

A scheme to lay sewers under the boulevards instead of tearing up the streets after they had been macadamized and put in good shape was suggested to the Board of Works yesterday afternoon by Ald. Kennedy. Even though sewers had to be laid down on each side of the street or tunneled under the pavement from one side to the other, he thought it would be cheaper in the long run than tearing up the streets. It was done, he said, in Detroit and other large cities.
Chairman Sweeney thought it would be a good idea to look into some scheme like this. Some of the aldermen thought that where streets were torn up in this manner the parties interested should be taxed for putting them in shape again. The Engineer will make a report.
Ald. Baird called the committee's attention to the fact that the Hamilton & Grimsby Railway had permission to construct switchbacks from the east and west to property on the southwest corner of Main and Catharine streets, it being understood at the time that the authority was granted that the property was going to be used as a freight yard. He pointed out that the land had been sub-let to some one else, and he moved that the authority granted be revoked. The committee decided to do this at the next meeting unless the railway can show good reason why it should not be done.
Ald. Baird also called the attention of his colleagues to the fact that the Grimsby company still had the old tracks on Sherman avenue, south of Main. These were used before the route down there was changed, but are idle now. He thought they should be taken up, and said he understood that several months ago the City Engineer had been empowered to order the company to do this or rip them up himself. Some of the aldermen said it was understood the tracks would remain if the company put the other part of the street in shape. A report will be received from the Engineer.
At a meeting held with the Parks Commissioners the agreement to accept the offer of W. D. Platt, who donated eighteen acres in the west end for a park site, was accepted, on the conditions named at the meeting of the sub-committee. The city pays \$7,500 in three instalments for the five acres he owns.
It was decided to close Copeland avenue from the easterly limit to Euclid avenue, at the request of the City Hospital Board of Governors.

MONEY MUST BE VOTED.
Legislature May Deal With Request of Essex People.

Toronto, Nov. 20.—It is not probable that a decision will be given immediately in reference to the recent request of the people of the town of Essex. They asked that the proceeds of the fine inflicted on the Michigan Central Railway for carelessness in handling the dynamite which exploded in place of that place, be paid to the municipality, to aid in repairing the damage done by the accident.
It is said that the Provincial Government could not itself make such a payment of public money, for which there is no appropriation at once by order-in-Council. The grant would have to be voted by the Legislature.

A STRENUOUS REST CURE.
Kaiser Rushing 'Round Isle of Wight in Automobile.

London, Nov. 19.—Emperor William, concerning whose health there have been circulated various rumors of late, is pursuing a rather strenuous "rest cure" at Highcliffe Castle, on the Isle of Wight.
Yesterday he was at his desk at 7 a. m., and he engaged two hours with State affairs before breakfast. Then both in the morning and in the afternoon he took long drives in a powerful motor car through the surrounding country, in company with members of his suite. The machine ran mostly at a pace of about thirty miles an hour, but in some places, where there was no danger, the speed reached 60 miles an hour.
The Emperor is sleeping well in the pine-scented country, and his catarrh is steadily improving.

COLLAPSE OF BIG TANK.
A Hundred-Foot Structure at Toronto Falls Through Wall.

Toronto, Nov. 19.—With the collapse of a tank containing 15,000 gallons of water yesterday evening at twenty minutes to six about \$35,000 damage was done to the factory building and contents of George H. Heas, Son & Co., manufacturers of window shades and upholstery goods, on Pears avenue. The damage is covered by insurance. The tank had just been completed for the company by the Ontario Wind Engine and Pump Co., and was gradually being filled with water from the main for the first time, there being about 15,000 gallons in it when it fell, this amount equalling a weight of about 75 tons alone.
With the tank the total structure towered a hundred feet in the air, and the whole seemed to have collapsed like a pack of cards. The tank fell away from the factory and was so utterly destroyed that scarcely a single hoop is unbroken. It broke down the yard fence round the house at 262 Devonport road, and of thirty fowls in a coop sixteen were killed. Flying wood broke windows in the same house, and dirty water was spurted everywhere.
The neighborhood felt a shock like that of an earthquake. The only man in the building at the time was James Collins, the watchman. He was on the third storey when the tank came down, and the tangled mass of steel ripped through the factory walls not ten feet away from where he stood.

Killed at a Crossing.
Ottawa, Nov. 19.—Crawford Corbett, a farmer, 75 years of age, living near Bell's Corners, was struck last night while driving across the C. P. R. tracks at Britannia and instantly killed by the Brockville express. The victim was driving home from the city at the time, and apparently did not notice the approaching train.

WITNESS FAINTED.

MISS ROBINSON WAS AMANUENSIS TO BAZAAR-KEEPER DRUCE.

Swore That Her Employer Told Her He Was Duke of Portland—Charles Dickens Informed Her of Druce's Double Life.
London, Nov. 19.—Miss May Robinson in the Orlenwell Police Court to-day continued her testimony in the Druce suit, involving the claim to the Portland estates. She was on the witness stand all day long, but the case developed slowly. The witness detailed her association in the capacity of amanuensis with the late T. C. Druce, who is said to have been the deceased fifth Duke of Portland.
According to Miss Robinson, Charles Dickens informed her in 1870 that T. C. Druce was the Duke of Portland, and when she questioned Mr. Druce on the subject the latter was much annoyed.
The witness, however, added that in 1871 Mr. Druce told her he was the Duke of Portland, that he used the name of Druce because he had been twice married, that he had children by both wives, had married below his station in life, and that there were family reasons for his retention of the name of Druce.
Continuing, Miss Robinson said that while they were at Aberdeen in 1876 she and the Duke of Portland quarrelled, and thereafter their friendly relations ceased. She saw him again in 1878, and subsequently went to New Zealand. Seeing references to the Druce case in the newspapers, witness had communicated with prosecuting counsel.
Horace Avery, counsel for Herbert Druce, the defendant in the present suit, then began to cross-examine Miss Robinson, but after a few introductory questions she fainted, and the case was adjourned until November 21st.

CANADIAN BILLS WANTED.
Theatrical Companies Are Remitting in Currency to New York.

Montreal, Nov. 19.—Canada is enjoying the novel experience of having its bank bills in demand at par in United States centres. Ordinary theatrical companies doing business in Canada remit their net receipts to their United States principals in bank drafts. Now, however, the companies have received word in obtaining cash for the drafts in New York.
The manager of the Savage Grand Opera Company, playing in Montreal last week, received word to remit Canadian bills in place of drafts, and this was done by express. United States manufacturers with Canadian connections are also after Canadian bills, having notified their representatives here to remit them by express in place of doing business with cheques and drafts.

BIG BALL AT WELBECK ABBEY.
Underground Room to be Used in Honor of Spanish Royalty.

London, Nov. 19.—The grand underground ball-room of the celebrated Welbeck Abbey, which was excavated by the fifth Duke of Portland and which has not been used for many years, will be the venue of a brilliant ball to-morrow night, in honor of King Alfonso and his wife, Queen Victoria. Their Majesties are now guests of the Duke whose magnificent ball will make her social debut at the ball. A large number of titled and noble persons will attend. The whole suite of subterranean chambers and the passages communicating with them will be dazlingly illuminated with electric lights.

CUPID GOT AHEAD OF THE LAW.
Order for Arrest of Eloping Girl at Peterborough Too Late.

Peterboro, Nov. 19.—Mr. Harold Connes and Miss Luella Bell, daughter of Mr. George Bell, Brighenorton, were married here last evening. Just after the ceremony Chief Russell received a message from Constable Cullen, of Brighenorton, to stop the ceremony and arrest the girl, as it was stated she was not of age. The couple, however, were wedded before the chief could interfere and had left on their honeymoon trip. Miss Bell is 17 years of age, and, owing to her parents' objections, eloped with Connes.

A FAMOUS TRIPLE PLAY OF LONG AGO

In a reminiscent story Horace S. Fogel recalls a famous triple play made in Brooklyn years ago. It is as follows: Mike Kelly, catching for Boston, once administered a crushing defeat to Brooklyn in the days of the Brotherhood at Eastern Park, when the Brooklyns included such renowned stars as Ward, Van Halteren, Hemming, Orr, Bierbauer, Joyce, McGeachy and Wehling.

Before a vast concourse of fans the battle was waged this way and that, Kelly and Ward, those kings of the diamond, employing all the skill and artifice they knew to gain victory.

With commonplace reasoning the Boston pitcher tackled this crisis by trying to strike out the man at bat, who was a weak hitter, thinking to retire one of the enemy and trust to luck for the others.

Exactly what he had in mind at that moment is not known, but when he turned they do not want to, but because they feel that they have lost enough time through football this year.

FREE KICKS. Capt. Pare, of McGill Seniors, says he has quit football for ever.

The senior intercollegiate championship has been won as follows, 1890, Toronto University; 1900, Queen's University; 1901, Toronto University; 1902, McGill University; 1903, Toronto University; 1904, Queen's University; 1905, Toronto University; 1906, McGill University; 1907, Ottawa University.

SIXTY YEARS OF WEDDED LIFE.

DIAMOND JUBILEE CELEBRATION AT TOWNSEND LAST WEEK.

Grandparents of Dr. Claud Freeman Have a Unique Celebration and a Large Family Reunion.

A rare and happy event occurred on Friday, Nov. 15, at Pine Grove farm, Townsend, Ont., where a happy family group gathered at the old home to celebrate the sixtieth anniversary of the marriage of Mr. and Mrs. Charles Bannister.

In 1847 in the Wesleyan Church, in Brantford, he was united in marriage with Miss Anne Dale, of Bramshill, Yorkshire, England, who with her mother and two brothers had lately settled in the locality, the father having soon died after their arrival in this country.

Forty grandchildren, of whom thirty-four are living, four great-grandchildren, together with those present in marriage, increase the family number to seventy-three, most of whom were present at the diamond wedding.

Other guests were Mr. William Dale, of Teeterville, and Mr. John Dale, of Brantford, brothers of the bride of sixty years; Mrs. William Dale, Mr. and Mrs. Thos. Hague, of Brantford, and Mrs. Dunnett, old-time friends; also Rev. Mr. Collins, pastor of the family, and Mrs. Collins. Mr. William Dale was groomsmen in 1847, and Mrs. Jonas Smith, the bridesmaid, is still living, though in poor health.

Mr. Bannister is the only survivor of his family, though four of his five brothers passed away in childhood. Mr. and Mrs. Bannister are in good general health, though the former is confined to his chair, and the latter has been blind for thirty-five years.

When Paul had finished his supper he suddenly pushed back his chair, took up a gun and deliberately shot Maxin through the head, without a word of warning.

KILLED BROTHER.

GALICIAN SHOT IN COLD BLOOD NEAR SELKIRK.

Paul Bisliko, Rising From the Table Without a Word of Warning, Deliberately Shoots Maxin Through the Head.

Selkirk, Man., Nov. 19.—Paul Bisliko, a Galician, murdered his brother, Maxin, in cold blood in the family residence at Little Britain, just south of here, last night. The crime was evidently premeditated, but unprovoked. The murderer, with his two brothers, Wasy and Maxin, had been in Winnipeg the afternoon returning home for supper. Maxin had finished his meal, and was sitting on a bed in a corner of the room conversing with a neighbor by the name of Paleski. His wife and brother, Wasy, were also present.

When Paul had finished his supper he suddenly pushed back his chair, took up a gun and deliberately shot Maxin through the head, without a word of warning. The fatal shot also cut the right ear of Paleski. The murderer then rushed from the house, and so far has not been captured, although the entire neighborhood is searching for him. An inquest was held this afternoon.

PARK SCHEME TAKING SHAPE.

Options Secured on Much Land on Mountain Front.
 Engineer Barrow Will Have Suggestions to Make.
 Estimate of \$362,847 For New Road Work.

The representatives appointed by those behind the scheme for a greater parks system, to get options on land along the mountain face from below the East End Incline to west of Garth street, will report this afternoon at a meeting to be held in the Board of Trade rooms. The scheme is in concise shape now, and it is expected, will be carried to a successful issue. The city, by purchasing the five acres in Chedoke ravine and accepting W. D. Platt's offer, settled the question of securing the land beyond Garth street. From Garth to Queen streets options have been secured on nearly all the lots along the brow and slope of the mountain. Members of the committee say that the owners with one or two exceptions were most generous in their dealings. It is hoped that the Brantford & Hamilton Railway will donate the lots in its possession. One owner who has a big house and grounds wanted \$15,000. The committee thought this was too steep. The members say they can do without this place if necessary. From Queen to James streets will be a matter for the city to take up with the Government at any time. The idea in closing the deal for the western property at once is to save it from being built on or destroyed.

Although he will make no recommendations for any radical changes, City Engineer Barrow, has some suggestions as to a better distribution of the work, which he will make to the committee appointed to investigate his department with a view to reorganization. "They have proven nothing against the department," Mr. Barrow said this morning. "The things that have been brought up I can and will answer." The engineer says he does not intend doing anything in a rush. The scheme he has in view he will think out carefully, and will not make it public until it goes before the committee.

Ald. Farrar, who made a move at the meeting of the Fire Department Committee the other night to dismiss Myles Hunting, caretaker of the filtering basins, is seriously considering asking for City Engineer Barrow's resignation. It is said on pretty good authority that there is not an alderman in the Council who would second such a motion. "Myles Hunting did not deceive me," said the engineer this morning, referring to the remark made by Ald. Farrar, and on which the latter moved for Hunting's dismissal. "I made my report on what I saw, and take all the responsibility for it myself," Mr. Barrow added.

Chief TenEyck, of the Fire Department, said this morning that the wiring of many of the electric signs on the principal streets is imperfect, and in danger of causing fire or loss of life. This is a question that the Fire Underwriters in Toronto have insisted on the authorities taking up, and it is likely that something will be done here.

The Hamilton Radial Railway has abandoned its attempt to force an entrance into Toronto, says a despatch from there, and has agreed to insert a clause in the bill which is to come before Parliament at its next session. The City Solicitor wrote the Board of Control today that Hon. J. M. Gibson has agreed to add to the bill the words: "but shall not construct or operate its railway without first obtaining the consent of the municipalities and upon terms to be agreed on with such municipality." He explained that if the company's railway is a street railway it must get the consent of the municipality. This new clause is to safeguard the city in case it is a "railway and not a street railway." The city will offer no opposition to the bill.

The members of the special committee which was to have considered some scheme yesterday afternoon for permanent roads, decided to take copies of the estimates away with them and look them over carefully before tackling the question. Secretary Brennan submitted a statement showing that \$362,847 was needed to pave the streets of which amount \$246,214 was for permanent asphalt and brick pavement and \$116,633 for other roadwork.

A deputation from the Trades and Labor Council will appear before the Fire and Water Committee at its meeting to-night, it is said, and ask for permission to inspect the filtering basins on its own behalf. Mayor Stewart said if he was asked he would refuse to grant the permission. "I have no objection," he said today, "to the Trades and Labor people or anyone else looking at the basins, but I do object to the Council delegating its authority to any one for that purpose."

It was reported at the City Hall today that F. J. Lyne, the contractor, who was to do the carpenter work on the sewerage, had thrown up the job. Chairman Clark did not admit this. He said he stopped the work for half a day himself because he did not understand a certain thing. He told the Engineer to instruct Mr. Lyne to proceed with the work then. The contractor, he said, is rather sensitive to the row that was being stirred up over the sewer. If he did not go on with the work, Ald. Clark said, he would be obliged to get another contractor. The job is not to cost more than \$1,400. The Mayor says he would like to see the work done at once, now that it has been begun.

The city officials say Ald. Nicholson is talking through his hat when he complains about being over charged for the work done at the patrol station and cement walks laid on the market. The lowest tender for the sewer work at the patrol station was \$64 for the sewer, receiving basins and iron tops. The city did this for \$41.37. The cost of the cement walks on the market they say was not excessive when it is considered the way the work was hampered on market days.

Mayor Stewart will not be present at

As Mr. Sam Weaver has to vacate his living quarters in Dundurn Castle before December 1, and Harry Marshall does not assume his duties until January 1, the Parks Board has placed the curator, Mrs. Sellery, in charge at Dundurn to look after the Board's property there in the meantime. She has taken up her residence at the castle, and will remain there until Mr. Marshall goes in.

TEA TABLE GOSSIP.

—Rev. H. B. Christie, of this city, will preach anniversary services in Caledonia on Sunday, December 15th.
 —Rev. R. H. Bell, B. A., of this city, was a guest at the home of Mr. and Mrs. M. S. Hallman, Waterloo, over Sunday.
 —Mrs. Geo. Brown, of this city, formerly of Waterloo, paid a visit to Mrs. Kumpf and Mrs. McBride, there, on Monday.
 —Mr. W. J. Booth, of the Spectator, was called to St. Catharines this afternoon, to the bedside of his mother, who is not expected to live.
 —The full 91st band will be the extra-ordinary attraction at the Alexandra for ladies' night to-night. Balceny warm and comfortable all the time.
 —Mrs. Radzyk, widow of the murdered Andrew Radzyk, got Magistrate Jelfs to sign the death certificate of her husband to enable her to draw the \$8000 insurance on his life.

—At Britannia Rink last evening Mr. James Barry, Mr. J. Taylor and Mr. G. Beamer, judges, selected L. Young and B. Dayman as the most graceful roller skaters, to skate in the finals on Friday evening.
 —In Cairns vs. Westinghouse, an appeal from the order of a local judge adding one Woodhall as a party to the action was dismissed yesterday, at Osgoode Hall. W. J. O'Neill made and T. H. Cregar opposed the motion.
 —Mr. J. A. Kneale and Mr. W. J. Robinson, secretaries in the Y. M. C. A., left on an early train this morning for Washington, where they will attend the international Y. M. C. A. convention.
 —Sam Welch, Kingston, arrested yesterday in Boston on 25 charges of burglary is now well in Ontario as an expert burglar, and is said to have operated in this city, although the local police have never had their hands on him.

—At noon to-day the local brewers made a cut of 50 cents a barrel on lager beer and 25 cents a barrel on ale. No change was made in the prices of bottled goods, however. Lager is now \$7.50 a barrel, and it was \$7 prior to the raise a short time ago.
 —Rev. A. A. Miller, returned missionary from Africa, will give an address of his travels in the fever district, Portuguese East Africa, on Thursday evening, and on Friday evening he will give a stereopticon talk of the field at Olive Branch Mission, 33 King William street, booked for Europe at Chas. E. Morgan's office: David Thompson, Geo. Jones, Chas. Parker, Mrs. Chas. Parker, H. Fryer, Percy Barrell, Geo. Covgill, A. M. Smith, John Hemphill. They will sail from Montreal to-morrow on the S. S. Virginian.

—The many friends of Mr. H. M. Arthur, York street, will be sorry to learn that he is in a precarious condition, having congestion of the lungs. As he is 86 years of age, the doctors have little hope for his recovery. He is father of Mr. Ben Arthur, the well-known musician.
 —When your fingers begin to feel the cold weather get around to waugh's, post office opposite. A big shipment of English make gloves arrived this morning. Specials with fur wrist one fifty; fur lined two dollars.
 Don't forget the hat sale now on at waugh's; twenty per cent. off the latest hats.

—The public are cordially invited to spend a social evening with the young people's association of Unity Church beginning at 8.15 to-night. Miss Alice May Magly, of Cincinnati, O., and Miss Cora Rand Maguire, of Norwood, O., have kindly consented to give readings and piano solos, which will be a treat to all who hear them. Admission free.
 —After eight years as editor and manager of the Tweed Weekly News, Mr. D. B. Taylor has given up that position to go to Woodstock, where he will enter the office of The Sentinel-Review. Mr. Redfern Brown, an old Hamilton boy, formerly of The Belleville Sun and Hamilton Spectator, will take the place vacated by Mr. Taylor. Mr. W. J. Taylor, of Woodstock, still retains the control of the paper, which he obtained fifteen years ago.

Offered you 50c a suit profit to take the whole lot. We said, "No, we want these bargains for our customers, who will surely take advantage of this tremendous sale." We have one line of 103 suits, that are sure worth \$15, which we will sell at \$8.98; another bargain is a pair at \$2.50, well worth \$4. You don't need to be a clothing man to see the big saving. Sale starts Saturday morning—Fralick & Co., 13 and 15 James street north.

LATE SPORTING NEWS

President McCaffery, of the Toronto Baseball Club, has not yet arrived in the city center with the local persons who have been talking of buying the Montreal franchise in the Eastern League. The feeling is general here that while money would be subscribed to put a good team in the Eastern, or the proposed International League, it is doubtful if a price would be paid for a franchise.

Port Hope, Ont., Nov. 26.—David Longford, who is endeavoring to walk from Oshawa to Toronto and thence to Port Hope and return to Oshawa, a distance of 138 miles, in 35 hours, arrived here at 10.55 this morning. He says the roads are bad in many places. When he arrived he was limping badly. He was an hour ahead of Jimmie Reynolds' time and was confident of beating Reynolds' record. Longford looked pale and weary, and it was the opinion here, that he could not go much further. When he started away he limped very slowly and painfully up the hill toward Oshawa.

BACK TO ITALY.

Great Exodus of Italians From This City Reported.

There will be a great old boys' reunion in Palermo shortly if the exodus of Italians from other Canadian cities is as great as from Hamilton. On account of the cold snap and the stopping of work on the Brantford & Hamilton Electric Railway, a large number have secured passage at the local steamship offices. At Morgan's booking office forty-two steamer tickets to Italy were sold in one day last week. Some of the Italians intend to return to Canada in the spring. They can get back to their homes for \$40 to \$50 each.

Notices of Births, Marriages and Deaths which are inserted in the Daily Times also appear in the Semi-Weekly Times. 50c. first insertion; 25c. for each subsequent insertion.
