A Grit Journal on the Benefits of the N. P.

ACTIVITY IN THE WOOLLEN TRADE.

MONTREAL, Dec. 7.—The following tribute to the success of the National Policy is from the Witness:—"It is gratifying to be able to state that among the reviving industries of the Dominion, that of woollen manufacture is conspicuous. During the past twelve months, the manufacture of woollen fabrics has been steadily increasing. Mills that for a considerable time previously had been running on half time, now put in the full complement of hours and pay their hands an ample day's wage. It would appear that the Province of Quebec and Ontario may boast next Tuesday to represent the woollen trade of the Dominion, since Nova Scotia, New Brunswick, and the other Provinces possess no woollen manufactures known as Custom mills, but not any on a scale that could be said to affect the trade generally, as in any degree an index regarding it. There are in the Province of Quebec, the aggregate value of whose products the past year has millions of dollars, and fifty thousand dollars. The total number in Ontario is forty-four, turning out an aggregate value of work during the past year of three million five hundred and ninety-five dollars, making a total for both Provinces, or for the Dominion, of over nine million eight hundred and forty-five dollars. These mills are ALL RUNNING ON FULL TIME and have at present orders sufficient to keep them fully employed through the end of March, and in some low beyond is not clearly known. In the words of one of these transactions with several of the mills in large and small quantities are being choked with work. Two mills only, those belonging to the Messrs. Cox, situated at Jackson Place and another two miles in the distance, have not resumed, although it is thought they may do so. The feeling appears to be general in Montreal that the greater the coming season than has been known in the last seven years.

There can be no doubt also that the trade from the United States here is for the present at an end. The representative of Boston lately, who has been in the city some days, has reported that he has done many thousand dollars worth of trade annually with one house in this city (Messrs. Grant Brothers) said to a member of the firm on Tuesday: "We can do no more business with you. Your tariff has killed us." It is the opinion of Mr. Morris, whose extensive knowledge of the woollen and cotton manufacture in this Province need not be mentioned, that the tariff has been beneficial, or, in his own words, "it has done more good than it has done harm, although the tendency is greatly to exaggerate the benefit, that benefit has been the result of the tariff, and a new tariff, and the benefit will continue."

ALMONT'S INDUSTRIES.

ALMONT, Dec. 2.—Sir Leonard Tilley arrived here by the noon train, for the purpose of visiting the woollen mills of this town, and ascertaining the effect of the Boston tariff on the industry. He was met at the station by a number of prominent citizens and conducted to the various mills. Mr. Jameson, who is the general manager of the mills, accompanied him, in company with Mr. Jamieson, visited the extensive mill of the Messrs. Grant Brothers, where it was seen that 200 men were employed, and that the mills were

in a state of things that has not existed for the past five years. Mr. Rosmond, in answer to Sir Leonard, stated that he had recently made extensive improvements to his machinery, and that sixty-five looms were now in operation. He also stated that orders that they could fill, and, notwithstanding the fact that the raw material had increased from 10 to 15 per cent, since the adoption of the new tariff, it was not found necessary to increase the price of their goods. Mr. Rosmond expressed some high praise for the National Policy. After a thorough inspection of the goods manufactured, the operatives assembled in a large room, and requested that Sir Leonard would make a short address.

He complied, congratulating them on their improved condition, and referring to the future prospects of the industry in the N. P. He was frequently applauded, and when leaving, three rousing cheers were given for Sir Leonard and the National Policy.

ALMONT, Dec. 3.—This morning Sir Leonard Tilley continued his inspection of the Almonte industries. The places visited were Cannon's furniture factory, MacGinnis's furniture establishment, and Young Bros. foundry. All are running full time, and bear evidence of returning prosperity. Sir Leonard inspected minutely the machinery of the several establishments, and sought information from both employer and employee. He expressed a high regard for what he had seen here, and Mr. Rosmond has advanced the wages of his weavers ten per cent.

ERS' COOL—GRAVELLY AND COMFORTING.—"By a thorough knowledge of the nature and properties of the various articles of digestion and nutrition, and by a careful application of the fine properties of well-selected cereals, Mr. Epps has provided our breakfast tables with a deliciously flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle miasms are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shiver by keeping ourselves well fortified with pure blood and a properly nourished frame."

RUSSELL ELECTION PETITION.

Collapse of Mr. Moran's Case.

OTAWA, Ont., Dec. 4.—The trial of the Russell election case commenced and terminated today by the Chief Justice, Justice and V. C. Blake, Mr. C. O. Robinson, of Aurora, acted as Registrar of the Court. Mr. M. O'Leary and Mr. A. J. Christie appeared for the respondent, and Mr. A. McIntyre for the petitioner. The facts elicited were that at the general election Mr. Baker (petitioner) had been elected by a majority of 38 votes, and that on a recount the votes in three polling subdivisions, No. 5, G. G. Goussier, and No. 2, and C. O'Leary, had been thrown out on the ground that the ballots had been improperly marked by the deputy returning officer, the respondent. The petitioner, Mr. Baker, was left in a minority, after the addition of six votes for Mr. Morgan, of 23 votes. The evidence fully established that the deputy returning officers acted in good faith and under the impression that they were carrying out the provisions of the statute. Upon the withdrawal of the counter petition, the Court made an order declaring Mr. Baker duly elected, and that the deputy returning officer be and he be paid his salary as provided by law, and that each party should pay his own costs.

STORMONT ELECTION TRIAL.

THE RESPONDENT UNASSISTED, but Disputed the Validity of the Election. STORMONT, Ont., Dec. 2.—The trial of the Stormont election took place today, before Chief Justice, Justice and V. C. Blake. Mr. Blake appeared for the petitioner, and Mr. Hector Cameron, Q. C., for the respondent. The facts of the case were stated by Mr. J. F. Parkes as short-hand reporter. After the examination of six witnesses, it was brought out that one Jno. M. Campbell, during the campaign, sent three packages of money to several persons, and that the fact of the money was clearly proven, except as to the question of agency of Mr. Campbell. Mr. Cameron stated that the agency was not proved, but the judges held that the respondent knew that he was acting in his interest, and he did not dispute the fact that he was acting in his interest. They accordingly decided that he was liable to return the money. On the facts above stated the election was set aside.

On the facts above stated the election was set aside. The Court, in delivering judgment, said that he wished it distinctly to be understood that the bribery was carried on without the knowledge of the respondent, and that the fact of the money being introduced into the election was not an ad hoc influence so far as the evidence showed.

The Court decided to report Campbell to the Attorney General as a witness in the case of bribery, but were not willing, unless the Act were amended, to fine him. Mr. Cameron said he wished a nominal fine, at least, to be imposed, in order to let the public know that a penalty in addition to the return of the money was necessary.

The Court accordingly fined Campbell \$1, and wished it to be generally known that the Court is prepared to impose a heavy fine for offences against the election law, and that any person seeking in violation of the Act to secure a seat in election is liable to severe punishment in addition to disqualification.

SHOOKING SUICIDE.

THE MAN YAKES HIS OWN LIFE IN A MOST BURNING MANNER. A young man named Campbell, who was a member of the fire department, was seriously injured by a fire which occurred near his place early this morning. The victim is a young man named Campbell, aged about twenty-three, and he is now lying in a hospital, where he is being attended to by the medical staff. The fire broke out in a building near his place, and it was not until a few minutes after the fire had broken out that the fire department was notified. The fire was extinguished, but the damage was considerable. Campbell was the only person injured, and he is now recovering from his wounds.

FIRE AT BOW PARK.

SEVEN BUILDINGS BURNED, WITH A NUMBER OF PERSONS ESCAPED. BRANTFORD, Dec. 3.—About eleven last night a bright light suddenly sprang up, appearing in the south-western part of the town. The fire broke out in a building near the Bow Park, and it was not until a few minutes after the fire had broken out that the fire department was notified. The fire was extinguished, but the damage was considerable. Seven buildings were burned, and a number of persons escaped. The cause of the fire is not yet known, but it is believed to have been caused by a gas leak.

RECEIVED HIS DESERTS.

A WOULD-BE SWINDLER IS HIMSELF SWINDLED. NEW YORK, Dec. 4.—Wm. A. Ross was placed on trial in general sessions yesterday on a charge of swindling. He was charged with having obtained money from a number of persons by means of a false story. The evidence against him was strong, and he was found guilty. He received his deserts, and was sentenced to a term of imprisonment.

HOT POLITICS.

A PHILADELPHIA JUSTICE ARRESTED FOR THE MURDER OF A WOMAN. PHILADELPHIA, Pa., Dec. 4.—Squire Matteson, who led a gang which broke up two Democratic conventions in Philadelphia, was arrested yesterday on a charge of the murder of a woman. The evidence against him was strong, and he was found guilty. He received his deserts, and was sentenced to a term of imprisonment.

EXTENSION OF TRADE.

A Monthly Steamer Between Jamaica and Halifax.

HALIFAX, N.S., Dec. 7.—In accordance with the arrangements entered into with the Imperial Government, the monthly Cunard steamers from this port will, after January 10th, come to call at St. Thomas, and make Kingston, Jamaica, their destination. Canada trade with Jamaica has already assumed considerable proportions, and with regular steam service, the through trade from Toronto, it is believed that that trade can be greatly increased. In an interview with your correspondent, and Mr. William Murray, a Jamaica missionary, who is at present visiting this city, said that exports are principally rum, coffee, pigment, ginger, arrow-root, coconuts and dyewoods. Lately a considerable trade has been established in such commodities as pine-apples, &c. The chief markets for these being the United States, from Florida to New York. Tobacco, manufactured and unmanufactured, is also a large export. The business has sprung up within the last few years. Our people are now making gains in Jamaica that are equal to the best Havana, and can be sold for half the price paid for Havana. CORRESPONDENT.—What prospects of the Jamaica trade? Mr. MURRAY.—Fish of all kinds are exported to Jamaica, and our third largest export is our sugar. Most of our sugar is now making gains in Jamaica that are equal to the best Havana, and can be sold for half the price paid for Havana. CORRESPONDENT.—What prospects of the Jamaica trade? Mr. MURRAY.—Fish of all kinds are exported to Jamaica, and our third largest export is our sugar. Most of our sugar is now making gains in Jamaica that are equal to the best Havana, and can be sold for half the price paid for Havana.

YORK'S WEALTH.

ASSESSMENT RETURNS OF THE METROPOLITAN COUNTY FOR 1879. The returns just handed in by the assessors to the various municipalities in the County of York, and the value of the property, and the number of the population during the past year. Of course it is not to be expected that in a short time the population of the County will be increased, and the value of the property will be increased, and the number of the population will be increased. The returns show that the value of the property in the County of York for 1879 was \$1,000,000, and the number of the population was 1,000,000. The value of the property in the County of York for 1878 was \$900,000, and the number of the population was 900,000. The increase in the value of the property and the number of the population is a sign of the progress of the County.

A NOTORIOUS SWINDLER.

Arrest of Alfred Eugene Lagrave—A Portion of the Money Stolen from the Assistant Receiver-General's Office Found in His Possession.

A reporter of The Mail called on Saturday on Alexander Fraser, the Assistant Receiver-General, and ascertained that the following particulars, having a reference to the robbery of \$200,000 notes from his office in 1878, were in substance correct:—Additional particulars regarding the arrest in Montreal of Alfred Eugene Lagrave, who was charged with the robbery of \$200,000 notes from the office of the Assistant Receiver-General, were given by Fraser. He stated that Lagrave was arrested in Montreal on Saturday last, and that he was found in possession of a portion of the money stolen from his office. Lagrave was a notorious swindler, and had been charged with the robbery of \$200,000 notes from the office of the Assistant Receiver-General in 1878. He was arrested in Montreal on Saturday last, and was found in possession of a portion of the money stolen from his office.

PERTINENT QUERIES ON THE TRADE QUESTION.

To the Editor of The Mail. Sir,—I see numerous articles in the Globe and in other papers, in which the free trade movement, thinking it is better for a country to admit all the goods of the world, and to let the countries produce what they can best produce, and to let the countries import what they need. I would like to answer the following questions:—(1) Is it not a fact that the Government has not yet decided to meet the expenditure of the railway, and not allow it to be a burden on the people? (2) Is it not a fact that the Government has not yet decided to meet the expenditure of the railway, and not allow it to be a burden on the people? COLONIZING THE COLONIES.

A NEW English emigration movement has set in, and the destination of the thousands who will leave their native land next season will undoubtedly be Canada.

THE NEW PARLIAMENT BUILDINGS.

THE Ontario Government has decided upon erecting new Parliament Buildings in the Queen's Park, the site of the present buildings being manifestly unsuitable for several reasons.

THE EXPORT CATTLE TRADE.

THE importance of the business of cattle raising and exportation, which is of very recent origin, remains a subject of the highest interest to the Dominion.

THE FUTURE OF ONTARIO POLITICS.

WITHIN a month the Ontario Legislature will re-assemble, and the serious question must have occurred to many, what good purpose is the meeting likely to serve?

AFFAIRS IN IRELAND.

THE anti-rent agitators are keeping up the excitement in the West of Ireland. Meetings were held during the past week at Ballinrobe and Swinford, and there was a large demonstration at Castlereagh yesterday.

centres and market towns of poorer districts. The vast tracts of bog and mountain land afford but a scanty pasture for the tenant, while the lowlands and valleys, turned into bullock pastures, belong almost exclusively to the demesnes of the landlords.

It is not necessary to dwell on the changes that the prohibition on the importation of cattle from the United States is prejudicial to the interests of the cattle trade.

EDITORIAL NOTES.

Mr. Flynn was elected for Gaspé by acclamation on Saturday, the attempt of Mr. Flynn's friends to bring out an irrecusable majority was frustrated.

THE HOME RAILS COMPACT.

THE Home Rails Compact that Ireland has not its fair share of Parliamentary representation, and that the Government generally prevails that there is force in the contention.

THE MIDDLEMAN.

THE middleman is reaping the bulk of the profits derived from the meat trade in the complaint made by English as well as Canadian farmers.

A NEW English emigration movement has set in, and the destination of the thousands who will leave their native land next season will undoubtedly be Canada.

THE NEW PARLIAMENT BUILDINGS.

THE Ontario Government has decided upon erecting new Parliament Buildings in the Queen's Park, the site of the present buildings being manifestly unsuitable for several reasons.

THE EXPORT CATTLE TRADE.

THE importance of the business of cattle raising and exportation, which is of very recent origin, remains a subject of the highest interest to the Dominion.

THE FUTURE OF ONTARIO POLITICS.

WITHIN a month the Ontario Legislature will re-assemble, and the serious question must have occurred to many, what good purpose is the meeting likely to serve?
