out a place to lay their heads," and who could smile at that grim enemy which is destined some day, so we learn, to destroy the word in the twinkle, as it were, of an eye: no one. Within these last few weeks we have made rapid strides towards civilization, so far as our new Sani tary Regulations are concerned. Up to

this time it has been a puzzle to a great many how Providence has allowed some members of this community to practise their filthy habits without visiting them with an epidemic of some nature but think it more to be wondered at that they were toierated by the authorities, to aos with impunity. But it would appear that steps have now been taken in the right

direction. Sergeant Nichol, late of th Police Force, has been appointed with a number of subordinates, to inspect pub ic and private building, to see people do, that which, by nature they ought to do without compulsion. Our local papers have bestowed upon Mr. Nichol free encomulms for the manner in which h s exercising his duty, therefore I shall not add to the universal applause for :-· To gild renned gold, to paint the hily, To throw a perfume upon the violet; Is wasteful and realculous excess.

There is one peculiarity about these ent emen (walking) which will very to ibly strike our outharbor friends when tney visit St. John's, viz :-- The strange iress they have in order to distinguish them from other members of society. the Sergeant is "dressed to kill," a suid of navy olue, (apparently new), arms de corated with gift, which is su posed to mentary schools. And in the face of such represent gold, "All that Gliters is not irregularity as this can it be expected fold; 'and a hat which shines unrival ed and is more dazzeling than the sun. The supordinates also have navy blue suitsguit on the arms-but. Oh, ye Gods none on the hat. What do you think they have? A band of white, as if they were joing Pall Bearers to a funeral. 1 may ery safely affirm that this white band the most silly production of modein days or street and oack yard cleaners. True t is that white is an emplem of purity for hich reason I presume it has been cho sen, but considering the duties they have to them than is at present afforded. The Voices of Nature.

Voices of nature whence come ye? We come from brook and hill and lea. We come from the laden thigh of bee, From cover head and chestnut tree.

We pratt'e with the dropping spring. Where richest notes the wi'd birds sing, From flocks the echoing cries we bring, And sigh where ivy branches cling.

Through the long hours when mortals sleep

We swell forth from the mighty deep, Or, with the nightingale, we keep Our evening tryst, while thick dews weep. handwriting,

Or with the leaf-all golden dyed-We rustle through the wood ands wide, We splash when rain drops kiss the tide, O er winter's howling blast we ride.

But louder still, and still more loud-When lurid mists the earth enshroud, And giant trees like reeds, are bowed-We roll along the thunder cloud.

We come, like rush of winged feet, Treading the air, unseen and fleet; With a thousand blending chords we

meet, And all are varied, all are sweet,

(CONCLUDED.)

'Well, look here.' Was it to steady Slowly, with cold shaking fingers, she wound the black ribbon around the paps himself that Paul Gascoigne leaned so heavily on a chair, that shook with the ers, and put them back into a drawer; feeling, as she closed it, that she was trembling of his broad, strong hand rest. putting away the love of her life forever. ing on its back?
