**Man's Liniment relieves Rheumatism.**

"For a long time I suffered with stomach and liver troubles, and could find no relief until I began to use Ayer's Liniment. I took them regularly for a few months, and my health was completely restored."  
—D. W. Baine, New York, N. Y.

An Assignment.—"Mr. Collins," said the city editor to one of his reporters, "do you think?"

"I wish you would acquire the liquor habit for me. I want you to make a personal visit to the city editor, and get him drunk and write up in a good style."

There is no reason why children should be allowed to suffer from rheumatism, scrofulous sores and glandular swellings when such a pleasant, effective, and economical medicine as Ayer's Liniment is available. It is also curative of dandruff, itchy scalp, and all scalp affections.

The smallest man in it.—Manager: Have you finished those 'par-bills' yet? And not all the names on it?

Priest—Yes, sir. I think so. I have the names of the actors, the manager, the stage-manager, the gas man, Good heavens! I have left of the names of the dramatist.

Manager—Oh, that doesn't matter. Send them around to the theatre immediately.

Half Vegetable Sicilian Hair Restorer. Restores the hair. It is also curative of dandruff, itchy scalp, and all scalp affections.

Man's Liniment cures Rheumatism.

WHEN NATURE SMILES AGAIN.—When nature smiles in the mild spring days, mankind often greets her with the effects of bad blood and kindred troubles engendered by the long hard winter. Remove the cause of all the trouble by purifying your blood with nature's remedy, Burdock Blood Bitters, the best blood purifier and tonic.

HAVE YOU SEEN IT?—The new Egyptian Dream Book is waiting quite a stir. Whether you believe in dreams and visions or not it will interest and instruct all who read it, as it contains full attractive features. Sent by return mail on receipt of 3 cent stamp.

FOR YOUNG OLD.—GENTLEMAN.—One of my little girls (aged 4 years) had been troubled with colic and was in the worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be back before using. She lost her appetite and growing weaker and delicate. A friend of mine who had used B. B. B. with great results for the same disease advised me to try it, and also the Burdock Pills, which he did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since, and she is now eight years old.

Man's Liniment cures Rheumatism.

NOTHING SUCCEEDS LIKE SUCCESS.—Burdock Blood Bitters is a household remedy for dyspepsia, it expels rheumatism and neuralgia from the system, and is an efficient agent on the stomach, liver and bowels, antagonizes blood poisons, builds up and revitalizes the bodily functions and restores and purifies the entire system.

The "Tough."

100 Miles an Hour.

DESCRIPTION OF THE PROPOSED WEDGE NOSE ELECTRIC CAR.

The individual perishes, the type remains. There are some types that ought to be exterminated; but the species is immutable, and to the end of time the type known as the "tough" will no doubt exist. As a noun, the name of this species is not in Worcester's Dictionary, but as an adjective we find "tough" in the same work, and it is defined as: "strong, hard, and tough in all things."

The English call a variation of this type a "cut." To be a cut is to be unscrupulously mean, selfish and insolent. The tough is all these and more. He is a hypocrite and a coward, because he pretends to be more than he is for the sake of gaining the applause of those who are not his equals. He is a hypocrite and a coward, because he pretends to be more than he is for the sake of gaining the applause of those who are not his equals. He is a hypocrite and a coward, because he pretends to be more than he is for the sake of gaining the applause of those who are not his equals.

For him the whole order of the world is reversed. He asks evil to be done to him, he enquires after all good things; his life is occupied in trying to be as hideous, as nauseatingly impudent as his companions.

The tough who dares "steal steps" on the street corners in winter, with the double object of keeping warm and showing his familiarity with the variety stage, is of the same type. He is longer at clubs, who drinks until he is blind and then boasts of it, and who cultivates a habitual tone of contempt for women.

There are two classes of toughs. The "hoodlum" of the lowest class, and the "tough" of the highest; the one is not ashamed to steal, the other is,—that is the only distinction between the aristocratic tough and the plebeian tough. The one has no public opinion to fear, the other has.

When a young man begins to associate with the vulgar and the low, and falls about the vice he has wallowed in, in order to gain a footing with the victims, he is beginning to "toughen up." He will soon be a cut; when he lounges all day, and looks for a night of drinking as the end of existence, he is a tough. The first indications of either toughness or hardness are a desire on the part of the young man to appear worse than he is. You remember the myth of Daphne. She was pursued by Apollo, and she prayed that she might be turned into a bay tree. Various artists have represented her from her fingers, and one scene in the history of transformation. It is so with the young tough; one can see the hardening process day by day,—the bay leaves, as it were, are seen springing from his fingers, the bark forms layer on layer, and in a short time all that is best in the young man has become hardened out of sight.

The boy begins to be a tough or a cut when he throws aside the lessons of the good, and chooses a prize-fighter or a variety actor as a model; when he tries to imitate the monkey, and the dog, and the pig, and the other animals, and lives in a dream of them all day long; when disobedience and disrespect come to be his, and become means by which he gains the applause of his friends. When there is no toleration for the frailties of age in the youthful heart; when good manners and kindly and generous usages become things for laughter; when selfishness becomes the rule of life; when sisters are bullied and mothers outwardly despised,—then the tough begins to approach the history of the variety stage.

The vicious group he loved soon disappears or is dispersed; he feels himself different from those good people who were once his equals; he has degraded himself; and worse than all, his contact with all vile things has so saturated him with villainy that he no longer desires to be other than vile.—M. F. Ryan in the Ave Maria.

**Bigits Rebutted.**

Rev. Lyman Abbott, D. D., the late Henry Ward Beecher's successor in Plymouth Church, administered a stinging rebuke to the bigits and cranks who proclaim to the world the purpose to destroy the Catholic Church. "I cannot understand," he said, "the folly of men who would blot out the Roman Catholic Church in this country. John Jay, Dr. Miner, the committee of One Hundred and the massory faction are the conspicuous persons who are guilty of this folly. Of the need of the Catholic body in this country the Plymouth pastor said: 'Thank God for Cardinal Gibbons. Long may he wear his red cloak and his red cap, and if there should be an election now, and you and I could vote, I would vote to make him Pope. His word hung out with courage and strong significance, has done more than any other word in this country by politicians or by leeches, to make the leaders of the leprosy abolition club a halt and at the last pretend a retreat.' God give us courage to turn it into a work." What a contrast between this broad Christian spirit and the narrow, sectarian view of the Know-Nothing cabal that infest Must-Halt-and-pretend-a-retreat!

WEDNESDAY, MARCH 30, 1892

All matter for publication in the Herald should be in this office by noon on Tuesday.

THE PUBLIC ACCOUNTS.

A COPY OF THE Provincial Auditor's Report on the Public Accounts of the Province for the Year 1891, has been handed us.

Receipts, 1891. From Dominion Government \$183,450.53. Public Lands 72,878.43.

Expenditure, 1891. Administration of Justice. Supreme Court Salaries, Justices Fees and Disbursements, County Courts, etc.

By adding the deficit last year (\$30,430.20) to the balance against the Province at the end of the previous year (\$190,242.77) it will be seen that the deficit of the Province, on the 31st Dec. last, was \$153,236.99.

As the report of the Commissioner of Crown Lands has not yet been given to the public, it is impossible to state what the discounts, allowances and remissions of compound interest, in connection with the collection of the \$72,878.43, amount to.

According to the report of the Commissioner of Crown Lands, for 1890, the balances on the Land Office amounted to \$411,880.67, and according to the figures already given, these assets must now be reduced to nearly \$300,000.

Another fact that should not be lost sight of is that the system inaugurated by the present Government, of making large discounts and allowances, will have for its effect that no one will pay the full amount of his indebtedness to the Land Office.

It is the financial record of the present Government, for the short time they have been in power, amounts to this: they have added upwards of \$300,000 to the debt of the Province; and reduced the Provincial assets by about \$100,000, by their management of the Land Office.

FINANCES OF THE DOMINION. The financial statement, known as the Budget Speech, was delivered in the Dominion House of Commons, by Hon. Mr. Foster, Minister of Finance, on Tuesday the 23rd inst.

was slightly amended when he rose to reply to the Leader of the Opposition. Regarding the public accounts, he said that the public accounts were considered by him as a whole, rather than in detail.

Mr. Foster said that the attention of the House on the forecast made by him in 1889, to the effect that by the year 1892 we should have reduced the revenue and expenditure to a balance.

The Minister pointed out that under the present conditions of tariff and revenue, so long as they last, we must not expect much surplus.

Mr. Arsenault, pointed out the injustice that had been done to many poor people in the matter of making discounts at the Land Office.

SESSIONAL NOTES. Sir H. interest has thus far been taken by the public in the proceedings of the Legislature.

There was so little in the speech, which the Legislature was opened, that the Minister of Finance, Mr. Foster, had to be content with the House of Commons.

It was expected that Mr. Bell would be the speaker of the address, as his name appeared second on the committee for that purpose.

The speech of Mr. McLeod, leader of the Opposition, was witty and to the point. It bristled with facts that notified the members of the Government.

warded the labor of the husbandman, and was glad that a message of condolence had been sent to the bereaved.

Mr. McLeod said that the Government was not to be blamed for the present state of affairs, but that the people themselves were responsible.

The bye-election to President, Ont., takes place to-day. The candidates are, Frank, the unassisted girl candidate, and J. J. Linnell, Lib-Con. Provis has a majority of 661 last March.

Mr. JOHN CHAMBERLAIN, a farm laborer aged about 60, broke through the ice near McEwen's Wharf, West River, Thursday afternoon, and was so chilled and exhausted when rescued that he died a short time afterwards.

Don't forget the Lecture, on Daniel O'Connell, in the Lyceum to-night. The lecture will be by C. B. McNeill Esq., and is under the auspices of the League of the Cross.

MESSRS. JAS. K. DORSEY and JAMES HANDRICHAN, of this city, and W. G. BURKE of Georgetown have successfully passed their final examination in Medicine, at the University of New York, and received the degree of M. D. Congratulations are in order.

The Stanley entered this port on Wednesday afternoon last, and is now making trips to Pictou every other day. Large quantities of freight are being carried both ways. The mails will be transferred to her as soon as the ice will permit of her making usual trips.

JOHN CHAMBERLAIN, a native of this island, was instantly killed at the mill of the Webster Paper Co., at Oranville, Me., last week. He had worked for the company for some time and was employed as a coal boy. In some manner his clothes became entangled in the dryer and the result was that he was crushed to death almost instantly. Chamberlain was 21 years of age and unmarried.

CYRUS SHAW, Esq., M. P. F., has received a letter from Prof. Robertson, Dominion Dairy Commissioner, in which the Prof. says he will be on the island from April 2nd to 6th, inclusive, and that while here he will deliver three addresses on dairying. As can be seen by reference to our advertising columns the dates of holding two of the addresses have been fixed.

MICHAEL BURNS, a young man charged with having obtained goods and money under a false pretence from the late Stipendiary Magistrate, Thursday morning. He was sentenced to three months' imprisonment with hard labor. He requested to be released on the opening of vacation, which His Honor granted on the 26th. He is now in the custody of the police, and will be returned to the owner the money fraudulently obtained. The offence was committed last November but the prisoner's capture was not effected till last week.

The fourth of the course of Lenten sermons was preached in St. Dunstan's Cathedral on Sunday evening last, by Rev. Dr. Morrison of St. Dunstan's College. His theme was the Apostolicity of the Church. The eloquent preacher handled the question in a most masterly manner. He addressed the most powerful and unanswerable arguments to prove that the church was Apostolic in her origin, her teaching and her authority. For about an hour he held the undivided attention of a very large congregation while he marshaled his array of telling arguments and proved point after point of his discourse.

We are pleased to notice the Guardian has published the fact that a "Catholic" has given a donation of \$50, to the Prince Edward Island Hospital, as well as a like amount to the Charlestown Hospital and the St. Vincent de Paul Society. This gives an emphatic contradiction to the Guardian's correspondent, "Diagnosed," of the 25th inst., who declared that St. L. Hospital. The knowledge that the St. Vincent de Paul Society has been so generous to have been seized upon by this correspondent as an excuse for railing against that institution, as if he were possessed of an evil spirit; per haps he was. We, of course, expect he will now withdraw his slanderous statements and make an ample apology for his unbecoming conduct when under the influence of his evil genius.

THE Hon. Charles Young, LL.D., Judge of Probate, passed away Saturday evening, at the advanced age of 80 years. He was born at Glasgow, Scotland, in 1812 and received his education at Dalhousie College, Halifax. He was called to the bar at Nova Scotia and Prince Edward Island in 1838, and practised for a short time in the office of his elder brother, Sir William and Hon. George Young, before coming to this Province. He sat in both the House of Assembly and the Legislative Council, and was Attorney General for two terms. He was also an advocate of responsible government and Lord reformer. In 1852 he was appointed Judge of probate, and in 1859 Judge of the Supreme Court. He was a son of the late John Young, of Halifax, survives him.

THE BEHRING SEA EMERGENCY

LONDON, March 28.—Lord Salisbury, under date of March 26, replying to Sir Julian Pauncefote, in response to Wharton's note of March 22nd says: "Notice has been given owners of ships sailing for the Behring Sea, that the London agreements are at present under discussion between Great Britain and the United States—that as to intermediate arrangements affecting the sealing of the Behring Sea, they have notice of their liability to possible interruption, and in this subject to that notice. In form the President that when the treaty has been ratified there will arise a new state of things. Until it is ratified our conduct will be governed by the language of your note of the 14th of June, 1890. We think the prohibition of sealing, if it stands alone, will be unjust to British sealers. If the decision of the arbitrators be adverse to the United States, we are willing when the treaty is ratified to agree to an arrangement such as that of last year, if the United States will consent that the arbitrators should, in the event of their decision being adverse to the United States, assess damages that the prohibition of sealing shall have inflicted on British sealers during the pending of arbitration, and have inflicted on the United States or its lessees. We are also willing, after the ratification of the treaty, to prohibit sealing in the disputed waters if the vessels be prohibited from the prohibition which produces certificate that they have given security for such damages as the arbitrators may assess. In case the decision is adverse to Great Britain, the arbitrators are to receive necessary authority on that behalf. In this case the restriction of slaughter on the islands will, in point of equity, be necessary. Her Majesty's Government are unable to see any other than one of these two methods for restricting seal hunting in the disputed waters during the arbitration which will be equitable to both parties. A late note from Lord Salisbury to Sir Julian Pauncefote, dated March 26, says: "I am not prepared to admit that we have objected to the arbitrators having jurisdiction as to damages inflicted in the past by either party against whom the award is given. I only object to Her Majesty's government being liable for acts they have not committed. I am ready to consent to reference on this point on the following terms: That in case the arbitrators shall decide in favor of the British Government, that Government may ask them further to decide whether the United States Government have since 1885 taken any action in Behring Sea directly inflicting wrongful loss on British subjects, if so, to assess the damages incurred thereby. In case the arbitrators decide in favor of the United States, that Government may ask to decide further whether the British Government have since 1885 taken any action in Behring Sea directly inflicting wrongful loss on United States or their lessees—if so, to assess the damages incurred thereby. A Washington despatch states that the above reply is very satisfactory to the United States Government, and that, with a few modifications, it will no doubt be accepted.

CITIZENS MEETING IN MARKET HALL.—The meeting of the citizens, in the Market Hall, Friday night, to discuss the merits and demerits of the "Act to abolish the Water Commissioners for the City of Charlottetown, and to make other provisions in lieu thereof," was a large one. The Mayor occupied the chair, and Mr. Duncan McIntyre was appointed Secretary. Messrs. Coates, Hargrave, Taylor, H. C. Dore, J. Murray, E. H. Norton, J. P. Tupper, J. Curtis and D. Nicholson expressed themselves as favorable to the proposed change, while Commissioners, Laird and McKinnon and Messrs. Chas. Palmer, Henry Rankin and A. McNeill advocated the retention of the present mode of operation. The sentiment of the meeting was taken on resolutions moved by Messrs. Tanton and Palmer, and found to be overwhelmingly in favor of the abolition of the Commissioners' office.

Mr. Tanton's resolution, which was seconded by Louis McKay was as follows: Whereas, the City Council have adopted and submitted to this meeting a bill to abolish the water commissioners of the City of Charlottetown and vest the power and authority now exercised by said commissioners in the Water Works Act in the Mayor and City Council of this city and whereas the other constituents in office, considering the work to be performed by said commissioners, would further entail a large and useless expenditure upon the rate payers.

Further Resolved, That this meeting of citizens approve of the said bill of amendment, and hereby endorse the Bill under consideration in the hope that the Legislature now in session will give effect to it in the wishes of the rate payers by placing it among the local statutes of the Province.

The following resolution was proposed in amendment by Mr. Palmer and seconded by Mr. Chas. Palmer: That the meeting be and is anxious to curtail the expenses of the working of the Charlestown Water Works as far as practicable, they nevertheless deem the proposed act objectionable in substance and form. This meeting considers it their duty to present at all events for many reasons to take the management out of the hands of the water commissioners, and to vest the same in the City Council, contrary to the terms of the Charlestown Water Works Act, 1887.

The original resolution was on division declared carried.

The meeting, which opened about 8 o'clock and continued for about three hours, was extremely amusing to all present, except perhaps for some of the speakers. The works as far as the water supply is concerned, while airing their ideas, were highly applicable to the times, while their remarks of a satirical and humorous nature, at times, of both the sublime and the ridiculous.

The Secretary's report was offered as for publication, but was not of space prevents its appearance.
