The Bank Merger a Blow to Ontario

The World is convinced that the question of supreme interest here in the east is that of banking and bank mergers. It is of such paramount account that the newspapers are afraid to touch it or touch it only on secondary points. The Globe of yesterday dealt with the topic of inspection. It goes all around it. There is only one thing to demand that is government inspection. The public will insist on this and will have nothing else. And it must be thoroughgoing at that.

But what about the mergers and the Traders-Royal deal? We can see no great blow at Toronto in twenty years! It means that the absolute control of fifty millions of capital leaves Toronto and goes to Montreal. And the consolidated bank if allowed will increase its control of Ontario capital from fifty to a hundred million in one year, five years! And Toronto papers sit mull! Some of them started in to sell the deal as a blessing from heaven. As things now are the rate of interest in Montreal is a half per cent. lower than in Toronto. Another merger and the difference will be one per cent. in favor of Montreal. How does that strike the business men of Toronto?

Anyone who read our illuminating quotation yesterday from The United States Investor will see what prices American banks pay to get control of other banks and that they do this for the one thing of getting control of deposits: Montreal wants the deposits of Ontario, the richest province of Canada, and if we lie low now she will get them. The Toronto papers will sit quiet apparently. But the deal is not yet thru, and we do not propose to let it go thru. There must be an investigation as to how this thing was done and who are to be the beneficiaries of the transaction. Also if there has not been a breach of trust in some direction.

It is idle talk to say that after this deal is allowed the law must be made more stringent. We say that the government must stop this deal by aid of the law as it is—stop it by refusal of government sanction. And the intimidation should be conveyed forthwith and parliament should meet right away to deal with mergers and the banking law.

The Ottawa Journal goes part of the way but not far enough. Here is the conclusion:

As has been previously said, the moral at present is that the Dominion bank of Canada is the only revision of the Banking Act which does not merely provide for better government supervision of the banks than hitherto, but for independent bank audits, and it should take into special consideration the tendency of the banks towards mergers and frame the law so as to prevent further steps that way except by specific government cognizance and permission.

Here is a more outspoken opinion from La Patrie of Montreal. We translate:

THE BANKS. The recent merger of several of the most important Canadian banks has led many people to ask themselves if we are not tending towards the creation of a gigantic monopoly of the banking business.

There are in Canada twenty-eight incorporated banks, which represent collectively a capital of two hundred millions. But the capital of the five principal ones is almost equal to that of the twenty-three others, and that proportion will be still more accentuated if the rumors which announce other approaching mergers are realized.

In spite of the defects of our banking system, defects which repeated failures have brought into plain view, no one will deny that our banks have contributed mightily to the development of the country, to the expansion of its commerce and its industries, and that if progress is to be maintained in all these directions, their co-operation will be none the less indispensable.

But one naturally asks, if when we shall have only a few colossal banks which will have absorbed the little ones, commerce and industry will be able still to subsist otherwise than on enormous accumulations of capital.

Already our most important banks do nothing to promote small business and modest industries. The big banks are naturally organized to cater to big clients, and consequently disdain the more humble.

That is why certain people have suggested that, in the approaching revision of the Banking Act, the government should not fail to provide measures strongly obstructive to bank mergers which will tend to the establishment of a monopoly.

The banks are already in possession of vast privileges, and their management will probably ask to be more strongly entrenched by the state. The present law delegates in effect to the Bankers' Association powers which it would be more prudent to reserve to the minister of finance.

It is a long time since this law

ROOSEVELT WINS OHIO ENDING TAFT'S HOPES COLONEL SCORES 3 TO 2

Twenty of 42 Districts Captured by Roosevelt Delegates and Only 14 Are Conceded to Opponent—Cities Show Divided Preferences—Harmon Probably Victor Over Woodrow Wilson.

COLUMBUS, Ohio, May 21.—(Can. Press.)—On the face of the early returns in Ohio's first presidential preference primary today, Col. Roosevelt led the Republican ticket by three to two over President Taft.

Apparently Gov. Harmon has carried 12 out of the 21 districts, giving him 24 of the 42 delegates to the national convention. If this proves true, it also will give him the six delegates-at-large from the state. In the call of the Democratic convention it was stipulated that the winner of the primary should name the delegates-at-large.

Only on the Democratic ticket does the count represent a direct presidential preference vote. On the Republican, the vote computed is the total number of ballots cast in precincts counted for delegates to Col. Roosevelt or President Taft. It was impossible from the early returns to gather an indication of the number of delegates either President Taft or Col. Roosevelt had gained.

Out of 21 congressional districts in the state, totals computed at a time when fewer than half the precincts were counted, indicated that Roosevelt will have 20 of the 42 district delegates, and that Taft will have 14, while the returns are so incomplete

that eight delegates at present cannot be counted by either side. President Taft appears to have carried Cincinnati by a large margin, and also Toledo and Dayton, among the larger cities. This was more than offset by the vote given Col. Roosevelt in Cleveland, Columbus and other cities. The Roosevelt lead in the north end of the state, it seemed, would give the former president an advantage which Mr. Taft could not overcome by his vote in the south end of the state, including Cincinnati, his home and the rural districts.

Gov. Wilson, like Col. Roosevelt, was given his biggest vote in the City of Cleveland and the surrounding counties. Gov. Harmon polled a heavy vote in Columbus, the capital, and also in his home city, Cincinnati.

Harmon's campaign managers, despite the early figures, declared that their candidate had carried the state thru the heavy vote they expected had been given him in the country districts. Gov. Wilson's chief strength, they say, had been in Cleveland, where Mayor Newton D. Baker had waged a strong fight against Harmon. Mayor Baker, however, in a statement issued by him at Cleveland, insisted that Gov. Wilson had carried Ohio by a vote of 2 to 1.

BOY WAS KILLED BY COMPANION

Oliver Stevens Shot When Everett Yates Pointed Rifle at Him and Pulled Trigger.

PORT HOPE, May 21.—(Special.)—Oliver Stevens, 12 years old, was shot and instantly killed by his companion, Everett Yates, the same age, while the lads were shooting groundhogs on Dr. Carbett's farm, about 12 miles north of here, this afternoon. The boys went fishing in the afternoon, but their luck was poor, and they got a rifle for the purpose of shooting groundhogs. Yates pointed the rifle at Stevens in fun and accidentally pulled the trigger. The boy fell and died almost instantly. Yates at once ran to his employer, E. Corbett, and Dr. Beattie of Garden Hill was called.

The boy's body was taken to his father's home nearby, and Coroner Aldrich will hold an inquest.

Stevens was a home boy and was popular with the farmers' and other boys.

AMUNDSEN AT MONTEVIDEO

MONTEVIDEO, Uruguay, May 21.—Capt. Roald Amundsen, the discoverer of the south pole, arrived here today aboard the British steamer Remora. He received a warm welcome from the secretary of President Ordonez and several members of the government.

has been modified in its essential form. With the development of the country conditions have changed, and prudence recommends adapting it to the present situation. The Hon. Mr. White, minister of finance, on whom this task falls, will know perfectly how to discern the reforms which it is expedient to introduce if he has the foresight to dissociate himself from influences which will try to hamper his work.

If mergers keep up the small trader will be driven to the postoffice savings bank far at least transaction collections, and certainly the farmer will insist on the establishment of farmers' banks on the line of the successful system now in vogue in Europe and which are more or less state institutions. And the state will insist on being a partner in the banking business. The mergers bring all these things to the front with a rush.

And the minister of finance will not be able to take any middle-of-the-road plan to meet the situation. The country will insist on drastic action. We have landed into a railway monopoly and only parliamentary action forthwith will head off a banking monopoly.

One first effective step is to start a number of new small banks and have them given reasonable protection in their infancy.

CLAIM 50,000 FOR ROOSEVELT

Colonel Will Be Nominated on First Ballot—Taft's Managers Are Silent.

WASHINGTON, May 21.—(Can. Press.)—At midnight Senator Dixon issued the following statement from the Roosevelt National Headquarters:

"There is no further room for argument. On last Thursday at Columbus, Mr. Taft in his speech said: 'The vote in Ohio, my home state, will be the decisive one and will settle the question of the nomination.'"

"Ohio has spoken. By a majority of probably 10,000 she has declared her preference for the Roosevelt and Republican nominees for president. Roosevelt will have 44 of the 48 delegates in Mr. Taft's own state.

"Theodore Roosevelt will be nominated as the Republican candidate for president on the first ballot at Chicago and will be elected in November by the biggest majority ever given a presidential candidate. This is the end of the contest."

No statement was issued by the Taft managers to-night. It was stated at the president's headquarters that an complete returns would be awaited before comment would be made. Both headquarters were besieged by members of congress and political leaders to-night for news of the Ohio fight.

BOY DROWNED IN ETOBICOKE RIVER

BRAMPTON, May 21.—(Special.)—Archie McKechnie, aged 11 years, was drowned in the Etobicoke River late this afternoon. With three other little boys, he was endeavoring to secure by a pole drift wood washed down by recent rains, when he fell into the water.

He was the only son of the late Archibald McKechnie, who was a well known barrister of this town. Every effort has been made to secure the body, but without avail. The creek is greatly swollen by the rains, and the current is very strong.

KILTIES ATTEND CONVENTION

DALLAS, Texas, May 21.—The Toronto admen to-night attended a grand reception in full kilted costume.

Rainy Day and Good Hats

The bud season of May has been a weepy sort of an affair; but every morning we expect to find it with dry eyes and a smile. Here are the Woodbine, the Island and a score of attractive garden functions waiting on this May-morn, for we desire to get into our new clothes and new hats without being forced to apologize for doing so. About men's hats: The Biscuit Company have made some special importations for the race meet, including blocks by Henry Heath, maker to His Majesty, and for whom Dineen, 140 Yonge-street, is sole Canadian agent. The company are also showing the latest English raincoats and umbrellas.

BLACKMAIL, SAYS TRAVERS OF NOTE FOR \$25,000, SIGNED BY WISHART; STILL REFUSES TO TELL OF CHEQUE

Former Manager of Farmers' Bank Says He Loaned Large Sums to Wishart and Nesbitt From His Bank Funds, In Order to Float the Keeley Mine—Wishart Defaulted But Got His Note Back—Will Not Give Answers Which Would Implicate Nesbitt—W. J. Lindsay Not Curious About \$5,000.

As the investigation into the affairs of the Farmers' Bank proceeds before Commissioner Sir William Meredith at Osgoode Hall, more mystery is thrown about the conditions that existed before the collapse of the bank by the rather vague testimony of W. R. Travers, who is exceedingly reluctant to implicate any other person.

Under the examination of Frank Hodgins, K.C., ex-Manager Travers finally blurted out a statement to the effect that a note left in his private desk at the office when the failure occurred, bearing the signature of George Wishart, was there for blackmail purposes, but more than this he absolutely refused to say until he thought the matter over.

Hunter on Stand. W. H. Hunter, the solicitor, who took the trip to Ottawa with Travers to secure the certificate and who also mailed the banker the three blank cheques, was recalled by Mr. Hodgins and questioned about the preparation of the subscribers' list.

"When the preparation of the list took place you were acting as solicitor for the bank?" queried the examiner. "I was solicitor for the provisional directors," Hunter then went into an explanation of the part he took in the

arrangement of this report. He did not know anything about the second advance that Travers had received from the Trusts and Guarantee Company, and the method applied to the making of the list was sound as far as he was conversant with it.

This concluded the evidence of Hunter, and Mr. Lowms, a former director of the bank, took the stand.

"Mr. Lowms, here is a statement showing an amount of \$500 paid to you," began Mr. Hodgins. "What was it for?"

Lowms Received \$40,000. In reply, Mr. Lowms said that the money was given in numerous payments to him by Mr. Smith and was for organization expenses. Witness did not know why the amount was kept separate from the other accounts, but he said the cheques were always passed at the directors' meetings. During the one and one-half years he was in charge he received \$40,000 for his work and expenses. There was no official check over the expenditures to see that no money was squandered, but Travers looked over the figures once or twice.

Lowms and Travers Differ. "Mr. Travers says that prior to July 4, 1906, the directors refused to allot the stock he asked for."

"No, I think he had some dispute with one of the directors."

"Why Travers says he was held up and had to pay the \$20,000?" "That is not correct."

"Well, then tell us your version of it," invited Mr. Hodgins.

According to Mr. Lowms, Travers agreed to compensate the directors for their work, and he was not held up. Sir William: Would it be likely that the provisional directors would not want Travers to get control of the stock?

"No; I don't think that was the reason."

In order to get the question properly before the witness, Mr. Hodgins asked him if the position did not appear to be that if they allotted the stock to Travers he could get control of the meeting and would not consent to the passing of the money for their work or expenses, the agreement between the directors and manager being conditional upon the assent of the subscribers.

No Hold-Up. "Well, there were several mixed up parts about it. I don't think there was any hold-up. We were willing to

CHIEF DENIES ALL CHARGES

Head of the Guelph Fire Brigade Says There Is an Organized Effort to Oust Him From His Position.

GUELPH, May 21.—(Special.)—At to-night's meeting of the Guelph Board of Trade Chief L. G. Finch of the fire brigade gave a statement of conditions in the fire department since he has been in charge, beginning October, 1909. The meeting was held in the council chamber, which was packed to the doors. The chief absolutely repudiated the charges of drunkenness, cruelty to horses and of swearing at the men, in fact every charge that had been made against him at the investigation. He stated that there was an organized effort to get him out of his position and that Aid. Mahoney had sent word to him that he had made up his mind to put him out of office.

The chief's statement was referred to the fire and light committee.

Haldane Goes To Germany

LONDON, May 21.—(Canadian Press.)—Viscount Haldane, secretary of state for war, left for Germany to-night. It was announced that he would continue his mission, begun in the early spring, relative to international relations and the restriction of armaments. But it was officially stated to-night that Secretary Haldane's visit to Germany was purely of a private nature and was undertaken for his health. It is announced further that the secretary is not going to Berlin.

Wound 27 Years Old Causes Loss of Leg

BELLEVILLE, May 21.—(Special.)—At the City Hospital to-day Sergeant Maiden, a veteran soldier, had his left leg amputated as the result of a wound received in the Northwest rebellion in 1885. The sergeant, who was also a veteran of 1896 and was at the garrison at Gibraltar and Malta for 11 years and in the Zulu war in 1877.

In the Northwest rebellion he was sergeant of a company of the Midland Battalion, under command of the late Col. Williams.

Recently the wound, sustained 27 years ago, threatened blood-poisoning and to save his life amputation of the limb was found necessary.

NORTH TORONTO COUNCIL IS OBSTINATE

Resolution Asking For Annexation of Toronto Was Buried Out of Sight and Town Engineer Was Asked to Report on Cost of Widening Street For Double-Tracking.

At last night's meeting of the North Toronto Council, the greatest interest centred round the question of annexation, which was introduced by Councillor Ball, and later on, by the votes of his colleagues, was practically buried out of sight.

Councillor Ball's resolution stated that it was deemed expedient, in the opinion of the council of North Toronto, to enter upon annexation, and ask the city to adopt a similar course. That Councillor Ball substituted another resolution for this, saying down the annexation vote of a year ago as a basis of an agreement, and asking the city to co-operate.

Offer an Alternative. He vigorously supported the principles enunciated in his resolution and made a strong appeal for support, frankly avowing that his purpose in doing so was to offer an alternative to the double-tracking proposition. Council declared that if a petition emanated from the people they would consider it, but not otherwise.

Councillor Lawrence got thru a resolution requesting Engineer James to at once bring in a report as to the cost of widening Yonge-street in the town limits. The report will be presented at next meeting of council.

The Toronto Burial Trust Co., thru Solicitor William Davidson, sent a characteristic letter, stating that the council could not consider the signing of the agreement already agreed to by the Township of York and the Town of North Toronto, and which they had already signed. They suggested the substitution of the route away to the east of the present one as determined upon and which North Toronto have repeatedly refused to entertain. Council were not surprised at the turn of events, and it was freely suggested that the only way to secure a fair deal was to go at once to Sir James Whitney and lay before him the full facts of the case. Before this is done, however, the Burial Trust will be given another opportunity to make amends and straighten out the tangle.

Action Threatened. A letter received from the authorities of Mount Hope Cemetery threatening legal proceedings to the amount of \$25,000 damages due to the proposed location of the filtration plant on their property to the east of the town. This

NEGRO RISING CAUSING ALARM

Rebels Clash With Cuban Guards, Bloodshed Resulting—Spaniards Appeal to Consul.

SANTIAGO, May 21.—(Can. Press.)—Parties of armed negroes, headed by Gen. Estenoz and Irujo, are reported operating in the vicinity of El Caney, El Cobre and San Luis, and also at various points close to this city. The band led by Irujo passed thru the Firmeza property of the Juragua Iron Co. and seized a large number of horses and a quantity of explosives.

The authorities consider the situation serious, but refuse to give out news. At Sevilla and Ocaña the insurgents attacked and looted stores owned by Spaniards, who have protested to the Spanish consul at Guasimas. An encounter is reported between insurgents and the rural guard at Yarbaguinas, the guard having two men killed and several wounded.

The strike of the longshoremen has taken on a serious aspect, as it is impossible to load steamers, and the authorities are not able to give protection.

RADICALS CONTROL REICHSTAG NEW TAXES PAY FOR ARMAMENT

In Consenting to Strengthen Army and Navy Condition That Obnoxious Inheritance Tax Be Enforced is Imposed Upon Government—Old "Bloc" Proves to Be in Minority.

BERLIN, May 21.—(Can. Press).—The reichstag to-day passed the third reading of the bills increasing the German army and navy. The navy bill provides for an extra squadron, for which three additional battleships and two cruisers are to be constructed before 1920. The estimated additional annual cost is \$24,250,000 this year, \$31,750,000 next year and \$28,500,000 yearly afterwards. The army bill provides for an increase of 29,000 men, excluding officers, non-commissioned officers and other details in the peace footing of the army. The contention that part at least of the cost of the increases in the army and navy should be borne by new taxation imposed on the wealthier class has prevailed. Inheritance Tax Reintroduced. The reichstag adopted the two laws first, on the condition that it would grant the necessary funds upon the introduction by the government of legislation providing for some form of general property tax and its enactment before Oct. 1, 1916. Its second condition was that the government should reintroduce the inheritance tax bill, the rejection of which overthrew Chancellor von Buelow and which was one of the principal issues at the last general elections. The secretary of the treasury announced that the government accepted the first condition, which was interpreted as demanding some form of taxation of wealth or inheritance, and would introduce a measure to that effect, but it was unwilling to bind itself to the inheritance tax contemplated in the second condition. Old Guard Routed. The reichstag nevertheless adopted the second condition by a vote of 184 against 169. The majority comprised social democrats, radicals, national liberals and anti-semites. The result of the vote was a clear victory over the old anti-Buelow "bloc," and a vindication of Adolf Wermuth, former imperial secretary of the treasury, who resigned office because the government's proposals for financing the army and navy measures were inadequate. The reichstag cut in two the expected revenue from the abolition of the distillery rebates, and found the additional revenues required by postponing the promised reduction of the sugar tax until after the enactment of the property tax demanded by the majority.

GOES TO LONDON AS EUROPEAN MANAGER

Wm. Phillips of C. N. R. Leaves on Monday For New Position in Which He Will Control Traffic of C. N. R. in Great Britain and the Continent.

It is the general understanding of transportation men in Toronto that an early announcement will be made of an important change in the personnel of the C. N. R. traffic department. The rumor, which is semi-official, is that Wm. Phillips, general freight agent of the company, and G. F. and P. A. of the Canadian Northern Steamships, will leave Toronto Monday next, sailing on the Royal George for London, England, to become European traffic manager for the company there. As European traffic manager, Mr. Phillips will control the traffic of the company in Great Britain and the continent. Mr. Phillips was the first traffic official of the C. N. R. to make his headquarters in Toronto, coming here from Winnipeg in 1902, from which time he has been in charge of the traffic organization in Eastern Canada. It was Mr. Phillips who organized the company's trans-Atlantic steamship service in 1910. Mr. Phillips has been continually engaged in transportation for the last twenty-nine years. His early experience was with the G. T. R., with which company he graduated thru the various traffic departments, following this with seven years of service as general western agent for the Northern Navigation Company, which secured to him a useful experience of inland navigation. When seen, Mr. Phillips could not confirm the report, but made the characteristic reply that his services were available for the creation of traffic for the C. N. R. system, and steamships, and that the territory in which he operated was at the allotment of his company.

UP TO BERLIN RATEPAYERS

BERLIN, May 21.—(Special).—The Ontario Railway and Municipal Board, who have been considering the Berlin parks board's application to have set aside a certain portion of Victoria Park as an athletic park, handed down their decision to-day, directing that the matter be referred to the property owners for approval. Not to be outwitted by the so-called "little villagers," who are opposing the whole scheme here, the parks board, at a special meeting this afternoon, decided to send an urgent request to the city council for a special meeting of that body so that the ratepayers may have an early opportunity of expressing their opinions.

Friction Not Ended In Hard Coal Mines

Minor Troubles Crop Out In Collieries Week Before Complete Resumption

PHILADELPHIA, May 21.—(Can. Press).—Expected friction and misunderstandings incident to the resumption of mining in the anthracite coal regions began to crop up to-day, and are looked for until the mine workers and coal company officials better understand one another under the new agreement signed yesterday by the operators and miners. At a small independent colliery in the Schuylkill district to-day, about 200 men and boys refused to return to work because they claimed the officials of the colliery had declined to agree to the 10 per cent. increase given by the big coal companies to the miners' union. An early adjustment of the trouble is looked for. A week is expected to elapse before there will be a complete resumption of mining. Thousands of coal cars that had been used in transporting bituminous coal, are being rushed into the hard coal fields.

CLEARING OF HIGH-GRADE UP-RIGHT PIANOS.

This is the season of the year when a big concern like the old firm of Heintzman & Co., Limited, 188-196-197 Yonge street, call in pianos from several and others that are in the hands of colleges, conservatories and music teachers. The firm have to-day about one hundred and fifty upright pianos that have come into their hands in this way. They have all been thoroughly overhauled by their own workmen and are guaranteed in first-class condition. One has the choice of some of the best known makers of upright pianos at prices about half the regular price, and any piano will be sold on payment of a small sum down and a trifle each month. The opportunity is a rare one to buy a high-class piano at a nominal price and in a way that makes it possible for anyone to own a piano.

Save Work

Carrying coal, emptying ashes and kindred tasks are disagreeable at any time of the year, but in Summer weather are especially distasteful. It is now the rule in the majority of households to keep the fire on tap. It saves money, time, labor and worry. The fire is ready for work in the fraction of a second, you do not have to rush through your upstairs work and come down a half hour before meal time to coax an obstinate fire that positively refuses to burn. A Gas Range, such as the one illustrated, will cost \$22.00. It has a large roomy oven, broiling oven, four burners, and a steaming burner. After it is installed our Service Department will inspect it and regulate it every three months free of charge. Can be purchased on easy terms if desired. Look over the stove on the floor of our Appliance Branch, 12 Adelaide Street West.

There is a scarcity of shipping facilities all over the world. The "animated newspaper" issued by a French firm for display in moving-picture establishments is said to be the most costly newspaper issued from the standpoint of the subscriber. These films are very popular with a certain class of patrons of the "movies." They are edited in much the same manner as the typical newspaper. A corps of operators is kept ready and the editor is in constant touch with many sources of news. As soon as a promising tip reaches him, the editor sends out two or three men as he

things necessary for the purpose. Frequently the three films are patched together to make one complete reel. Correspondents are maintained at different points, and these are assigned by telegraph to go to certain points where their services may be needed. Mine explosions and railroad accidents are regarded as particularly attractive features, and men are sent at once to these whenever they are reasonably accessible. Pictures of the debris and the work of removal are always objects of interest to patrons of the "movies."

What Man Mustn't Forget.
A few little essential things there are

that a man should never on any account forget. To begin with, his position when walking with a lady is always on her outside. Besides being correct, it flatters her vanity to feel she is walking with a man who knows what is right. If a man argues with a woman it merely spells defeat in the long run, as woman, besides being "illogical," is slippery as the proverbial eel. A woman must always be told exactly where she is going to when taken out, so as to dress accordingly. Any infringement of this rule causes heartburning.

And of all other things—if he wishes for peace—man must never forget that openly to admire a woman's dress, face, or figure when in the company of another is but running his head into a noose. It is one of the things a woman can never forgive.

The Nursery

The baby at our house was invited to a party; and because the mother of the two-year-old host knew how to give baby-parties, our 15-months-old was allowed to be present for one hour. And it was a party! The eight little guests and their mothers had a royal time, "the way they played together was beautiful to see." As a very special privilege I was invited, too, and I am sure no one had a better time, unless perhaps it was the baby I was most interested in. Considering it was his first public and social appearance this department was very good. He had never seen buttered bread before, so it was not so very surprising that when it was passed to him a second time he politely put back the piece he was eating and helped himself to another.

MORROW CASE DISMISSED

MORROW CASE DISMISSED

Only Brought as a Warning to Ministers, Says Crown Attorney.

The case against Rev. J. D. Morrow who sometime ago performed a marriage ceremony in which a white girl and a Chinese were the principals, was dismissed yesterday morning. Harry Martin, the taxicab driver testified that he could not swear as to the hour in which he drove the marriage party to the preacher's home. Crown Attorney Corley said that his object in bringing the case into court was to warn the ministers of the city against marrying young white girls to men who might be polygamists.

FAT VANISHES ONE POUND A DAY

BY NEW DRUGLESS TREATMENT
GET MY FREE BOOK, COMMENCE REDUCING AT ONCE
\$5,000.00 IN GOLD IF I FAIL
Thousands of Grateful Patrons Proclaim This Wondrous Drugless Fat Treatment the Climax of Efficiency.

Here I Am After Reducing My Excess Weight Quickly and Without Harm With My Drugless Home Treatment.

THE JOY OF LIVING IS THE HERITAGE OF THE LEAN—I WAS FAT. My friends were charitable and called it obesity; others said I was STOUT, and I know, it was just bulky fat. I was miserable, and so are you if too stout. To reduce your weight, you must do as I did. I FOUND THE CAUSE—THE REST WAS EASY. Before I succeeded, I tried everything within and some things beyond reason. It was maddening, disgusting, alarming. All I had to do was to remove the cause, and sweat under oath that I would not use any medicine, without drugs, medicine, nerve-wrecking exercises, or starvation diet. I reduced my enormous weight permanently, quickly and positively, without harm to myself while taking treatment, or afterwards, and I guarantee that you can reduce as little or as much fat as you desire, with my treatment just as I did.

TRUE SUCCESS AT LAST. With my safe, sensible and natural treatment quick and permanent results are obtained. I have used my straps, belts, cups, wires, jackets, sweating, electricity, snap, salts, pills, oils, cathartics, drugs or medicines of any description, making it positively the greatest treatment the world has ever known. If you are interested in your

happiness, health and figure, you will let me tell you how to reduce fat "Nature's Way," the true way, my way, and it is astonishing the thousands of grateful letters I am receiving. J. E. Boleselle, Box 322, Great Bend, Kan., writes that he lost fifty pounds with my harmless treatment. W. L. Schmitz, Montevideo, Minn., lost thirty pounds in thirty days. Mamma McNelly, Desloge, Mo., lost sixty-five pounds. Mrs. L. S. Smith, Los Angeles, lost 164 pounds safely, and I can refer to thousands of satisfied customers.

BETTER GET RID OF FAT BEFORE FAT GETS RID OF YOU. I have written a book, entitled "Weight Reduction Without Drugs," which I send free and prepaid so that you may secretly at home without harmful exercises, starvation diet, drugs or medicines. This interesting book is free to all fat persons, so write to me very day for your copy. Here is what you have long sought. Why long? Write to-day, later may be too late. I offer \$5,000 in cash if I fail to prove my great drugless treatment anything but safe, quick and harmless in fat-reduction. Write to-day for my free book.

Strongly Denounced by the Grand Jury Yesterday.

The grand jury took occasion yesterday morning to strongly denounce conditions at the jail. Two specific cases, that of a negro, insane and suffering from a poisonous disease, who was allowed to associate with other prisoners and also to keep by her a seven months old child, and the case of a young man, who, altho as yet not convicted of any crime, is forced to wear prison garb, met with severe censure from the grand jurymen. Such an impression did these disclosures make on Mr. Justice Clute that he promised to bring the matter before the notice of the attorney general immediately. All the other public institutions were found to be in good condition, with the exception of Agnes-street police station.

WINDSOR TABLE SALT

Grocers are firm friends of Windsor Table Salt. They like to sell it because it is pure and clean and good. Ask any grocer for his best salt, and he will give you Windsor Salt every time. Not because it costs more—it does not—but because the grocer knows that Windsor Table Salt pleases their customers.

METHODISTS AT THE WOODBINE MEETING

Christian Guardian Has Seen Names of Many on Church Rolls and Says Encouragement Given to Racing. By High Society Is Out of Place.

Too many prominent Methodists are patronizing the Woodbine races, according to The Christian Guardian, which says: "The spring meet in Toronto of the Ontario Jockey Club has been an unusual centre of interest this year. The presence of the governor-general, a royal prince, and his family has given the occasion a special society interest, and the attendance seems to have been very large. We notice in the list of names of those in attendance not a few that stand also upon Methodist church rolls. We are not the keepers of their consciences, and we do not presume to say what they should do, but we cannot forget that race meets are kept up by the gambling that is carried on in connection with them, and we know something of how utterly demoralizing gambling is. And when we remember that many of the state legislatures across the lines are putting down race-track gambling with a strong hand, we cannot but feel that the special encouragement some of our high society are giving it in Ontario is out of place. From the governor-general down, they might surely have been, as we see it, much better employed."

FINGER-PRINT RECORDS.

It is but a few years since M. Bertillon promulgated his method of detecting and identifying criminals by finger prints, but it has proved so reliable, so effective and so nearly infallible that it has been adopted by detective agencies in all civilized countries, has been the means of convicting many criminals and has, with other evidence, sent many to the electric chair. Without disparaging its value as an agency in fastening crime upon the guilty, it may now be said that the fingerprint method seems destined to vastly greater utility. In fact, its application to more beneficent purposes seems to be almost limitless. Some time ago it was noticed that if a young tree puts out a branch three feet from the ground and the tree grows straight to maturity, that branch will always be exactly three feet from the ground. In like manner it is now claimed that the finger prints on a child's hands will ever remain the same, unaltered by the day of identification. Experiments made in New York seem clearly to establish this claim, and to open a wide field for the use of larger print records. No two finger prints are exactly alike, any more than two individuals are so nearly identical as every particular that it is impossible to tell them apart. It is easy to see how readily the fingerprint method could be used in a number of ways. In the case of the infant touch of Charlie Ross had been recorded, he could be identified to-day, so he had no objection whatever to his abduction. If finger print records were made and filed as city or county records, along with other vital statistics, they would unquestionably be found of incalculable value. The mind instinctively reverts to the great Titanic disaster, and to the dead who have been picked up but buried again at sea because it was impossible to keep or identify them. How much of a mystery would be cleared up and sorrow to a degree assuaged if, through words taken years ago, each victim could be identified with certainty. The experiments made in New York may yet revolutionize the present system of keeping vital statistics. If the finger print method out of its present limited relationship to criminals and increase its value a thousand fold.

A Gladstone Legend.

With home rule again in the air, the talk naturally turns towards Gladstone. Here, then, is a little news about the man of to-day's memory—a little history with never a mention of his collar. Gladstone was born in 1789, and could boast of a father who was a Bulgarian. There was a hint of greed in his disposition, for his love of gold made his complexion yellow. He was of medium height; his face was decorated with whiskers close-cropped, and, as a sign of his satanic myth, his forehead and upper forehead were bare. His evil temper has made his hair fall off, so that from a distance he might be taken for quite thus an old Turkish newspaper of Conservative taste.

King George's New Coach.

The King's new stage coach, a masterpiece of British workmanship, has been taken to Buckingham Palace from Barker & Co.'s in South Audley-st., Mayfair. This is no rival of the massive gilded coach, which appears on occasions of full state. It is lighter and less gorgeous. The body is dark in color, but the panels are made of the full royal arms. A shining carved rail of rose, thistle, shamrock and palm, the latter being emblematic of the empire. The same design figures in the specially woven silk and shrouds upholstery of the interior. A magnificent blue and scarlet hammer cloth, with gold tassels and borders, covers the driver's seat. Every bit of the material is British, except the panels of Honduras mahogany. The frame is of British ash and from first to last the coach took 15 months to build. It takes the place of the one that was burned a year ago, and will doubtless be used at the coming levee. Its builders have been coachmakers for 200 years.

Asparagus Stalks.

Asparagus, just coming into season, was a great dish with Dean Swift. Dining with him one day George Faulkner, the London publisher, asked for a second helping of his favorite vegetable, but Swift pointed to the stalks on his guest's plate, and said: "Sir, I wish to tell you that what is before you is not asparagus, but stalks." "What?" exclaimed Faulkner, "eat my stalks?" "Aye, sir," belittled the imperious Dean; "eat your stalks, or you will get no more." King William III. always ate his stalks. Asked once, when he was telling the story, whether he really did eat his stalks, Faulkner replied: "Yes, certainly; and if you had dined with Dean Swift you would have been obliged to eat your stalks, too."

THEY ALL WANT HYDRO POWER

Deputation From Beaverton and Other Towns Wait on Commission—Engineers Will Make a Report.

As a result of a request made by a deputation from Beaverton and vicinity in the hydro-electric commission yesterday engineers will be sent north to go over the ground and make a report on the advisability of including this territory in the hydro-electric belt. The deputation pointed out the need of hydro current and the fact that a great many farmers would use it. The chairman, Hon. Adam Beck, explained at length the hydro scheme, and all questions were answered satisfactorily. The deputation was headed by Hon. W. H. Hoyt, speaker of the legislature, and consisted of Mr. Smith of Beaverton, Thomas Wilson, reeve of Cannington, Joseph Humphrey, councillor, Cannington; W. A. Robinson, town clerk, Cannington; Reeve Falowdown, Township of Brock, Thomas Welch, Cannington; Mr. Yrooman, Sunderland; Mr. Stabuck; Woodville; Reeve L. J. Cameron, Beaverton; Mr. Furness, Beaverton; Adam Dobson, Cannington.

take Mr. Travers' word," was the reply. "Who did the arranging with Mr. Travers?" "I think I did." "Now, wasn't this the position: If Travers got control of the meeting he could refuse to ratify the agreement. Wasn't that one reason why you refused the stock?" "Yes." "Sir William: Well, the only point of difference between you and Travers is that he says you forced him to give money; is that true?" "No; I differ." "When Travers rose to testify Sir William instructed Mr. Hodgins to question him in regard to the cheque for \$10,000. This cheque is No. 23, and passed from Travers to Lindsay. The sum of \$10,000 was payable on its presentation. At previous sittings it was shown that Travers gave Nesbitt a cheque for \$5000 in exchange for the equivalent in cash.

THE MISSING \$3000

The examiner he switched to the matter of the \$3000 cheque that was used at Ottawa to assist in the securing of the certificate, and about which Travers was questioned last week. In answer to Mr. Hodgins as to whether he was willing to tell about this cheque or not, witness said that on the advice of his counsel, he had decided to state that it was no one in the finance department who got the money and, anyway, it was a personal cheque of his own, paid on commission. Mr. Hodgins was not satisfied, however, and promised to take up the matter again.

Leave Out Fiscal Question

LONDON, May 21.—(C.A.P.)—Sir John Lubbock, O.M., member of the Imperial trade commission, speaking at the Imperial Industries Club to-night, said the commission's scope was wide but he believed it was the right course to exclude the fiscal question therefrom. Premiers Fisher and Ward at the Imperial conference were both against such forming a matter for the commission to deal with. He believed that with the fullest possible development of trade within the empire, we should also seek to become producers for the world at large.

DR. McLAUGHLIN'S ELECTRIC BELT

They are a warning of kidney trouble, nervous debility, locomotor ataxia and lumbago. When you feel a pain in your back something is wrong and you had better get the cure. The Canadian Pacific Railway will issue return tickets at single fare between stations in Canada, east of Fort Arthur, also to Niagara Falls and Buffalo, N.Y., and Detroit, Michigan. Tickets good going May 23 and 24. Return limit May 27. See that your ticket reads via Canadian Pacific Railway, Toronto City Office, 15 East King-st., Toronto.

DR. McLAUGHLIN'S ELECTRIC BELT

This is the treatment that has restored thousands of people to the highest standard of manhood and womanhood. It is adapted especially to this trouble, and never fails in its grand work.

Latchford, Ont., April 17, 1911.

Dear Sir,—I have been wearing your Belt for thirty days, and find myself better. My back does not bother me now; I feel better in every way. The emissions have stopped. Yours truly, THOS. SIMLIS, Box 6.

No one is too weak to use electricity. In such cases a longer building-up process is required. But the results are just as certain as water is to extinguish a fire when applied in sufficient quantities. If a proper battery is used, it is possible to supply a very strong current, free from all inconveniences.

How much more pleasant is it to be cured in this way, while resting, than to be pouring medicine into the poor, weakened stomach until it is impossible to do without it. This drug habit grows on one, like the whiskey habit; and no wonder, as alcohol forms the chief ingredient of many preparations. It is simply adding more poison to the weakened organs. Why not stop it?

Rheumatic sufferers, those crippled with this or that, the person with the victim of weakened stomach, kidney, liver, bowels or bladder; the person with the shattered nervous system and suffering from Paralysis, Epilepsy, Neurasthenia, Insomnia, Neuralgia or Heart Trouble, should seek restoration of health in the electric cure. Don't say: "It might not do me any good!" It will do you good if you resort to the right means. It will cure you.

There is a book for free distribution among all readers which covers this subject fully. You should not be without it if you are not in possession of perfect health. It tells the cause of weakness and disease, and how a cure can be gained. It describes the most successful remedy known—the Dr. McLaughlin Electric Belt. The history of many cases is sent with the book. It costs you nothing to get it.

Electricity is life to the nerves and organs of the body. They cannot live without it. Get back the power and make yourself a man among men.

Real Estate and Building--News and Opportunities

RESIDENTIAL ASSESSMENTS ARE LOW ALSO

Down Town Not the Only Section Where There Is a Wide Difference in Assessment and Sale Valuations—House Properties Sell at About Twice City Figures:

Are residential properties bearing too great a share of the burden of taxation compared with downtown properties? No, not according to the sales being registered. The World made an analysis of the city's registrations at the city registry office, and the result shows that while downtown property is assessed at an extremely low percentage of its selling price, residential property averages just about as low a ratio. And vacant building lots are away, way down below the value fixed by sales.

On Monday the transfers of 22 houses west of Yonge-street were recorded. The sale price averaged \$5231, the assessment averaged only \$287. These figures include both land and buildings. The increase of sale price over assessment is about 82 per cent. The total assessment was \$65,506, and the total sale price \$115,515.

East of Yonge-street 33 houses were registered as sold. The assessment averaged \$1770, the sale price \$3430, or almost double what Mr. Forman has the owner paying taxes on. The total amount of the assessment for these houses was \$58,069, and the sale amount \$125,575.

It is in vacant building lots, that the greatest disparity exists between assessment valuation and buyers' valuation. In the east district there were 15 lots, with a total selling amount of \$39,442 registered, and the assessment on them was only \$11,230. The difference represents an increase of 170 per cent. over assessment.

In the west end even a far greater difference was apparent. Nine lots were sold at an increase of 760 per cent. over Mr. Forman's figures. They were scattered from the Avenue-road district to the York Loan section, and while their assessment was \$500, their selling price amounted to \$37,400. A great difference like this is exceptional. A glance over the recent sales of building lots registered showed that the buyer is willing to pay about 200 to 300 per cent. more for a lot than the city hall thinks it worth. The lots registered Monday were none of these subdivisions property. They were all on streets almost completely built upon.

It was also noticed in a number of instances that the market value of the land alone in house properties was equal to and even greater than the assessment for both land and building. In downtown properties the market value of land is often double the assessment for land and improvements. If the land assessment was brought up closer to its actual value, the market by sales, there would be no necessity whatever for taxing the improvements. The worth of such a move is well known to everyone in the fact that when land must carry all the taxation there will be a greater disposition to better improve it.

The registrations of Monday represent an average day. The variations in the ratios of selling valuation to assessments are very small from week to week, as anyone studying the question will see. These figures show that the small property owners are not much worse off averaging them up, than the big property holders downtown. They show also that in general the assessment figures are far too low. Mr. Forman says that selling prices do not represent the property's value, but then Mr. Forman thinks as he figures up the tax rolls for 1912, and takes no account of the fact that the cost of labor and material is the biggest portion of the selling price of a house.

WELLAND

SEEING IS BELIEVING

Some weeks ago a prominent merchant of Sutton, Ontario, without seeing the property, purchased three lots in the choicest subdivision at Welland, known as **WELLAND SOUTH**, for the sum of \$1000.00, paying thereon \$200.00, and agreeing to pay the balance within one year.

However, somebody knocked the property, and the merchant wrote in demanding his money back and a cancellation of the agreement.

We advised him to go to Welland and inspect his lots personally, and then if he found them not as represented, we would cheerfully refund his money and cancel the sale.

About 10 days ago he visited Welland and inspected his lots—with the result that instead of asking for his money back he came immediately to Toronto and to our Head Office and paid up in advance the balance of \$800.00 on his lots and got his deeds.

We have hundreds of clients who have visited Welland during the past year, and after satisfying themselves that Welland is the greatest manufacturing town in Canada, and is sure to become a great city, they have also decided that as **WELLAND SOUTH** was the only restricted high-class residential district near the factory section, it was the only spot in which they wished to invest any money—and have immediately purchased as many **WELLAND SOUTH** lots as they could afford to buy.

Some have already sold and made as much as

100% PROFIT

Others are holding for a couple of years, and will make even larger profits than this, if the future can be judged by the past.

Would you not like to own one or two of these lots and make some easy money? The time to buy is now, because every week and every day sees the choicest lots growing less in number—and soon your opportunity will be gone forever.

TENDERS.

TENDERS FOR DREDGING

Sealed tenders, addressed to the undersigned, and endorsed "Tenders for Dredging Toronto Harbor, Ont.," will be received until 4 p.m. on Tuesday, June 4, 1912, for dredging required in Toronto Harbor, in the Province of Ontario.

Tenders will not be considered unless made on the forms supplied and signed with the actual signatures of tenderers.

Combined specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Dredges and tugs not owned and registered in Canada shall not be employed in the performance of the work contracted for. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, for five per cent. (5 per cent.) of the contract price which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for. If the tender is not accepted the cheque will be returned to the tenderer. The Department does not bind itself to accept the lowest or any tender.

R. H. Beck of the Anglo-American Fire Insurance Co. has purchased a country house on the lake front, near Bowmanville, for \$18,000. The price includes a house and about 20 acres of orchard and woodland. The spot is a really two stars. One, known as the cliff extending out into the lake,

Some Wonders of the Pole Star. The pole star, which is the one star in the heavens which always seems to keep its place, can be seen when observed through a powerful telescope. It really is two stars. One, known as the "second magnitude," is fairly bright,

and the other close to it, is of the ninth magnitude, and is not so clearly seen. The brighter of the two is really three stars revolving round one another, or, rather, round their common centre of gravity. One of these stars, playing "ring a ring o' roses," is always facing north. The reason that it does not appear to move

as the others do is because it is nearly in line with the axis of the earth. Its distance from us is enormous. This can be judged from the fact that also the earth in its journey round the sun is to-day about 190,000,000 miles from where it was six months ago, that makes no appreciable difference to its distance from the pole star. It must therefore be many times 190,000,000 miles away.

Monday night and returned about 11 o'clock. He was assisted to his room and nothing more was heard of him until his body was found about 1 a.m. Cotterill was 40 years of age and unmarried, and came to this country from England about a year ago. The body was taken to the morgue, where an inquest will be held.

75 CARS AT CITY YARDS CATTLE TRADE STEADY

Prices for All Classes Were Firm, But Unchanged at Monday's Quotations.

The railways reported 75 carsloads on the City Market, comprising 1122 cattle, 1199 hogs, 318 sheep and 387 calves.

There were a few good cattle, that sold at high prices as were paid at the Union Yards on Monday, quality considered. In fact, trade was about the same in all the different classes.

Butchers. Steers of export quality, 1000 to 1200 lbs., sold at \$11.00 to \$12.00; loads of good, \$4.50 to \$5.00; medium, \$4.00 to \$4.50; common, \$3.50 to \$4.00; inferior, \$3.00 to \$3.50; calves, \$4.00 to \$4.50; bulls, \$4.00 to \$4.50; canners, \$2.50 to \$3.00.

Stockers and Feeders. Feeders, 800 to 1000 lbs., each, are worth \$7.00 to \$7.50; stockers, 500 to 800 lbs., each, \$6.00 to \$6.50; yearling calves, \$5.00 to \$5.50; calves, \$4.00 to \$4.50; hogs, \$4.00 to \$4.50; sheep, \$3.00 to \$3.50; lambs, \$2.50 to \$3.00.

Market Notes. Joseph Stone of Sault Ste. Marie, Ont., had received loads of very choice butchers' cattle, the best on the market, which he is offering to the market.

Market Notes. At this market there were only 19 cattle out of over 2000 on sale sold by Mayne & Wilson, and 2 sold by Rife & Whaley.

WERE BROKERS CAUGHT SHORT OF SAO PAULO

After monopolizing the centre of the stage in the Toronto stock market on Monday, Sao Paulo maintained its leadership in point of achievement again yesterday, the stock making an advance so extended in scope as to be almost unparalleled in the history of the Canadian stock exchanges. Its top record for the day was about 16 points above the high price reached on Monday, and while the gain was not held in its entirety thereafter, the closing quotation was at a material appreciation for the session.

The movement in the stock, singularly enough, was made in spurts of about four points each, and this fact was emphasized as freely by market followers. Opening at 230, an advance of four points overnight, the shares jumped to 234, and then to 238, and finally to 241, as mentioned above, about four dollars a share represented in each spurt.

While London buying was generally accredited to be the real foundation of the advance, there was a well-founded opinion that the sharp upturn had been due more to professional operations than an actual demand for public account. It was freely stated that some Toronto traders had been caught on the short side, that they had, in fact, sold their customers' stock on the day that the recent advance had been overdone, and that they could cover on the subsequent reaction. This latter never came, and consequently the marking up of the price yesterday.

Comparisons were drawn frequently between the movement in Sao Paulo and that in Winnipeg Electric in the year 1907, the element being that at that time the latter stock sold up to a figure pretty much on a par with that of Sao Paulo, in the same way, in anticipation of the new stock issue. Since then, the Toronto market has been a good deal more active than that of the big South American traction company will enrich its shareholders in the same way.

YOUNGER SET WILL CONTROL N.Y. MARKET

WALL STREET, May 21.—Both the younger and older elements of the New York Stock Exchange members admit that changes will be effected as result of a recent election of the independent nominating committee, the vote of 461 to 230. These changes will come peacefully, the older members accept the case and cooperate. The younger element contends that something more should be done to increase the popularity of the exchange, to relieve the cumbersome machinery of election and administration and to head off or anticipate possible action towards state or federal incorporation of the exchange. The progressives consider a mode of administration and election which has allowed a board of governors to be virtually perpetuating for 40 years as antiquated. They will work for more open elections and greater publicity of administration.

To increase the popularity of the exchange will be their endeavor. They deprecate the necessity of stock exchange houses doing business on the New York. They desire the report that a banking house last year did \$100,000,000 business in preferred stocks, none of which was listed on the stock exchange. Some would prefer that new city bonds be listed on the exchange. They claim that the public interest in speculation and investment in their stock exchange channels has declined. For these reasons ways and means of making the exchange more popular are being considered.

HEAVY TONE IN STOCK MARKET

Wall Street in Uncertain Mood and Speculation Showed Lack of Leadership—Improvement Shown.

SAO PAULO UP IN AFTERNOON

Stock Jumps Fifteen Points to New Record—Wild Rush to Take on Stock—Rio Soaring Also.

NEW YORK, May 21.—Eliminating sporadic flashes of activity, to-day's stock market was dull and utterly lacking in significance. Dealings were in declining volume and mirrored the conservatism of the trading of professional element quite as much as the absolute indifference of the investing public.

Leading stocks were under further pressure to-day. United States Steel fluctuated within a fraction of yesterday's close. Lehigh Valley and Reading both bore the marks of cover liquidation and bear attacks, and the standard or dividend paying granulars, trunk lines and transcontinentals were more or less neglected. There was the now familiar contrary movement in minor specialties, and some of the high-priced values, including Sears-Roebuck, which sold as high as 190 1/2 on buying ascribed to inside interest.

C. P. R. Sold Off.

The lower range of prices with which the market opened was again attributed to London, where American securities, in common with other stocks, were dull and irregular. Canadian Pacific followed its decline abroad with a two point decline here, and this was soon extended to 3 1/2 points. Minneapolis, St. Paul & Sault Ste. Marie, an affiliated road, also was heavy, with more selling of Reading and the local favorites. Before noon the list recovered a material part of its early reverse. The dull afternoon session was marked by further irregularity in the market leaders and additional gains in obscure issues, the closing being fairly steady despite renewed heaviness in the coalers and Canadian Pacific.

RIO WORTH 140 WHEN PUT ON 7 P. C. BASIS

If the dividend on Rio be increased to 7 per cent per annum, the valuation of the company should demand a valuation of 140 under the present conditions. This is the conclusion drawn by a Montreal broker's house, who have gone thoroughly into the position of the company. They call attention to the fact that Rio has been in the same way as a period of uninterrupted construction, and it was only by the end of 1911 that the system was practically rounded up. These expenditures have been very much heavier than was originally expected, but when the increase in the price of the stock is considered, it is not surprising that the original estimates fell far short of the actual cost.

The following is a comparative statement of the earnings for the past five years:

Year	1907	1908	1909	1910	1911

STEEL TRADE IS IMPROVING ACROSS LINE

PITTSBURG, May 20.—A Pittsburgh Stock Exchange membership sold yesterday, an advance of \$200 over the last previous sale. At the transaction took place, \$2400 was bid.

NEW YORK, May 21.—All the steel companies have shown a gradual improvement in earnings since the first of the year, and this improvement will continue if they are able to maintain present production.

Earnings of the Steel Corporation for the first half of the current year will run close to \$2,000,000. Its earnings have improved gradually and may reach \$10,000,000 for June, comparing with a little over \$7,000,000 in March. The Lackawanna Steel plant has hit harder than the average steel company, due to the fact that it is substantially a Bessemer plant, and orders have been running more largely to open-hearth steel than ever before.

A representative of one of the largest independent steel companies says consumers who are looking for a downward tendency in prices from a downward level are doomed to disappointment.

"It is evident," said he, "that the high-grade ores of the United States are rapidly being exhausted, and this means that with occasional downward movements in steel prices, the tendency will be distinctly upward. Consumers will be paying more money for their steel ten years from now than they are paying to-day, the growth in steel consumption has been enormous, and there is nothing to show that this movement will be interrupted. We are now taking one of the ground between the 50,000,000 and 60,000,000 tons of ore a year, and with a continued growth in steel consumption it will not require many more years to exhaust the Lake Superior ores."

BERLIN IS STILL SELLING C. P. R. IN LONDON MARKET

LONDON, May 21.—Money was scarce to-day owing to the payment of \$15,000,000 for treasury bills. Discount rates were firm. The stock market was again depressed and all sections closed heavy. Home rails declined from 1/2 to 2 points on labor troubles, and dividend fears, and underwriters sold gilt edged securities in order to take up recent new issues. Berlin offered C. P. R. which lost two points, but Marconi and oil shares rallied a fraction and closed above the lowest.

American securities opened steady and a fraction higher. Realizing depressed prices below parity during the first hour, but later Wall Street supported the market and prices hardened and closed steady.

ACTIVE TRADE IN LEADERS IN MONTREAL

MONTREAL, May 21.—(Can. Press.)—Trading was lighter to-day, but continued strong in the face of further declines by Dominion Steel and Canadian Pacific.

A sensational feature was furnished in an advance of over 20 points by Sao Paulo, which on last trading jumped from 220 in the last transaction yesterday to 241 1/2 at the close to-day, and closed at 241 1/2 to-day. The movement was apparently to be ascribed to some definite information among the investors with regard to the new financing plan. While Steel retained its leadership in the centre of interest shifted to Montreal Power, which sold up to a new high closing price of 26 1/2, two points over closing price of Monday. Steel moved in a very narrow range, realizing on the recent advance preceding very quiet with the stock meeting good support on all declines. Total business 12,884 shares.
