10,000 PRISONERS, 150 GUNS ARE TAKEN BY CANADIANS

Machine Guns By the Thousand Also Captured in One of the Most Glorious Achievements in Their History, According to Details of Recent Successes.

Ottawa, Aug. 16.—The following despatch was received here from Sir Edward Kemp, minister of overseas forces: The capture of prisoners by the Canadian corps in recent operations is now reported to be 10,000 and 150 guns, and machine guns which are now estimated in the thousands. The territory retaken in the advance of the Canadian corps, representing an initial frontage of 7500 yards, finishing up on a frontage of 10,000 yards and penetrating to a depth of 20,000 yards, includes towns, some of which are of considerable size. The proportions of a single shot could be fired before the

when it is remembered that in the battle of the Ypres salient last year, commencing on July 21 and continuing over four months, the total advance did not exceed six miles. The facts connected with the entire operation constituted one of the most glorious pages of the history of the Canadian army overseas. It reflects not only the gallantry and devotion of all ranks, but is a tribute as well to the efficient staff work and organization. The greatest success marked the move of the corps to the attacking front. Many of our batteries were so close to the enemy trenches that not a single shot could be fired before the

battle began. Despite this the infantry declare they never followed a more perfect barrage. The dash with which every division entered the attack and carried on day after day is illustrated in this observation from the Canadian corps commander, Sir Arthur Currie, who states: "Canada has been thrilled many times by the record of the deeds in the field of battle by her sons, but never before have our battles given so much cause for pride as in the fighting of our men. They were simply irresistible. One of the tanks, which accompanied us in the fight, and was christened the "A-1 Dominion," went into action with a pipe of an infantry battalion playing for all he was worth."

FORCES OF ALLIES STEADILY ADVANCE

Sharp Fighting Continues at Old Line Near Armancourt.

CLING TO ROYE LINE

Germans Draft Troops for Reserves From Other Sections.

With the French Army in France, Aug. 16.—Allied forces occupied Villers-les-Roye and St. Aurin, and reached their old line of trenches east of Armancourt yesterday. Farther north, they pressed forward toward the Châlines-Roye line, taking Damery Wood in the evening. Sharp fighting continues east of Armancourt. Just west of Lassigny there was a lively combat for Chasseurs trenches, in the middle of Plessier Park. The fighting ended in a victory for the French. The Germans are still clinging stubbornly to the Lassigny-Roye line. They have given no indications whether they hope to hold it longer than may be necessary to save material and withdraw troops from communication trenches from flanking movement. Capture of Ezeuville, which facilitated the taking of Ribecourt, has been followed by the occupation of the Monolithe Farm, giving the third army another grip on a vital position near Thiécourt and threatening the German line of retreat along the road to Noyon. Germans Lack Reserves. There is evidence that the German reserves are no longer sufficient to maintain the defence, and that drafts are being made from the troops holding other important sectors. The French division that took Ribecourt met there enemy troops which had been recently drafted from the Verdun front. They were old acquaintances, the French division having been cited for gallant work in the defence of the fort of the Meuse against these same Germans. The fall of Ribecourt followed close upon the capture of the height of Arville, which was a German stronghold. It also overtook the German line of retreat along the road to Noyon. The possession of Monolithe Farm facilities operations against the Loerment height, a mile and a quarter to the northwest. This spur, in turn, dominates Plessier, which is the strongest enemy position in the Lassigny massif. It also overlooks the leading northwest to Lassigny. The hold of the enemy upon Lassigny is very precarious. When this flank breaks, the whole line must crumble.

ALL ALIEN ENEMIES HAVE TO REGISTER

New Regulations of Government Affect All Over Sixteen Years of Age.

Ottawa, Aug. 16.—All alien enemies over the age of 16 years are now required to register under the alien regulations. Previously these regulations required only aliens of enemy nationality of military age, and having no permanent place of residence or abode in Canada, to register. Existing alien regulations also require all registered aliens, including certain aliens of enemy nationality who are nevertheless well known to be friendly aliens, to report monthly to the chief of police. By order-in-council it is now deemed expedient that certain of these friendly aliens, namely Czechs or members of the Bohemian national alliance, Turkish subjects who are by race Greeks, Armenians, Assyrians, or of other community well known as opposed to the Turkish regime, be exempted from this obligation at the discretion of the chief commissioner of police. The new regulations provide also that all ticket agents and conductors of railway or steamboat companies or other officers, shall refuse to sell tickets or give transportation to any alien of enemy nationality who does not produce certificate of parole with notice of permission to travel from one point to another. A chief of police may refuse permission to any enemy alien to depart from any place unless satisfied that he has complied with the law, and regularly engaged in some useful occupation.

Paris, Aug. 16.—French and Canadian troops have made progress against the Germans over a front of more than three miles between Goyencourt and Laucourt, west of Roye, according to the French official communication issued this evening. The Bois des Loges, five miles south of Roye, also has been penetrated deeply by the French. The text of the communication follows: "During the day our troops, by a series of local attacks, have repulsed the enemy, in spite of his resistance, in the region west of Roye. "North of the Avre, in conjunction with Canadians, we have advanced our lines on the front of Goyencourt, St. Mard-les-Triots and Laucourt. South of the Avre we penetrated far into the Loges Wood. British Also Make Gains. London, Aug. 16.—The British on Thursday evening repulsed a strong German counter-attack at Damery, and today, in co-operation with the French, made substantial progress in the direction of Fresnoy-les-Roye and Fransart, according to the official report from Field Marshal Haig's headquarters in France, issued tonight. The text of the statement says: "Yesterday evening the enemy launched a strong counter-attack against our new positions at Damery. His troops were everywhere repulsed with great loss, leaving over 250 prisoners and a number of machine guns in our hands. "Today our advanced troops in this locality have pushed forward in co-operation with the French, and have made substantial progress in the direction of Fresnoy-les-Roye and Fransart. We have taken a few prisoners. "On the remainder of the British front there is nothing to report except artillery activity on both sides in different sectors."

ALLIED AVIATORS RAID BRIDGES OVER AISNE

French and American Squadrons Attempt to Destroy Traffic.

With the American Army on the Vesle Front, Aug. 16.—A group of twelve American aviators participated in a bombing raid on the Aisne bridges. Early Friday other American flyers went up and took photographs for the purpose of ascertaining the effects of the bombs dropped. A great deal of traffic had been reported passing over the Aisne bridges, and the French and Americans in an attempt to destroy as many bridges as possible. As a result of the reports of observers, the French and Americans laid down a box barrage during Thursday night on machine gun nests along the hills to the northwest of Plessier. Observers and patrols reported Friday morning that twelve machine guns had been destroyed and every German gunner killed.

GERMANS EMPLOY 450,000 TROOPS

Thirty-Six Divisions on a Front of Forty-Eight Miles.

BRITISH GUNS ACTIVE

Great Speed Made in Forward Movement of the Guns.

With the British Army in France, Aug. 16.—It was learned today that since Aug 8 the Germans have employed 36 divisions on a front of 45 miles. Of this number, 21 were in the line at the beginning of the Somme attack, the other 15 being brought in as reinforcements. It is learned from prisoners recently captured that the British artillery during the past few days has caused considerable destruction within the enemy lines. The British guns have been especially active in searching out German ammunition dumps, a number of which have been destroyed. It was partially for doing just this work that such speed was made in the forward movement of the guns. From the start of the offensive not a moment has been lost in moving up the artillery. That it has been a paying proposition is proved by prisoners' statements as to the havoc wrought by shell fire. Some slight troop movements eastward are reported now and then to the rear of the German lines along the Somme, but they are insufficient to warrant any conclusions regarding the enemy's intentions.

FRENCH FINALLY CAPTURE WOODS

Germans Driven From Positions Held Desperately for Several Days.

LOCAL ACTIONS FOUGHT

Thirteen Hundred Casualties Inflicted on Enemy in One Day.

With the British Army in France, Aug. 16.—By a brilliant manoeuvre, the French have finally captured "Z" Wood and Damery Wood, in these two wooded tracts the Germans have been holding out desperately for several days, realizing the value of these positions. The little patches of forest which are now in the hands of the allies are virtually on the extreme right of the British line and from their eastern borders it is possible to observe closely quite a wide stretch of ground. The allied position for several miles on each side of the two woods was materially improved by their capture. These were virtually the last of the ally more important positions on the new front to which the enemy has been holding and which the allied forces desired. The enemy launched a heavy attack late yesterday against the new positions at Damery. After sharp fighting he was repulsed, leaving 150 prisoners. Local Actions. Other purely local actions had been fought here and there along the new front for the purpose of improving positions. During these combats during the past 24 hours the British have captured 260 prisoners and four machine guns. The casualties in killed and wounded inflicted upon the enemy in these local affairs are estimated to be at least 1300. To the north, in the direction of La Couronne, the lines of the British have also been advanced slightly. Artillery activity continues along the entire front, especially in the new Somme battle area, but the enemy does not seem to desire to launch any extended infantry attacks, even at Roye and Châlines, where he is strongest.

EJECTED FROM MEETING AND NOTES TAKEN AWAY

Young Woman Was Keeping a Record of Bell Telephone Girls' Deliberations.

The feature of last night's closed session of the newly organized union of the telephone girls, held at the Labor Temple, was the discovery of a girl taking notes contrary to the required custom. The president, when his attention was drawn to the fact, stated to the meeting that if the girl was a reporter she would accede to the request of the meeting to consider its deliberations as private. The girl evidently did not agree with his remarks and continued to make notes. She was finally ejected, according to information received from officials of the union. It was discovered that she belonged to a business establishment, the nature of which was not made public. The notes were taken from her. The meeting practically ratified the agreement recently drawn up by the committee appointed for this purpose, a few minor points remaining in abeyance for further consideration. It is expected the agreement will be presented to the Bell Telephone Company, and that if the company refuses to accept the agreement as presented to the union, which is affiliated with the International Union of Electrical Workers, will ask for a board of conciliation under the Industrial Disputes Act.

AMSTERDAM, AUG. 16.—The first connected story on the advance of the entente forces southward from Archangel, in northern Russia, is given in a special despatch to The Daily Telegraph from Stockholm. The despatch, which is dated Aug. 14, says: "Last Monday 3000 Russian troops, reinforced by 3000 Russians, assembled at Archangel, and the same night the order was given to proceed southward. Three thousand Russians embarked on 11 steamers and a number of barges towed by tugs, the destination of which was Kotlas, on the Dwina River. The remainder of the troops marched along the Archangel-Vologda railway, with orders to halt at Trusanovskaya, 70 miles south of Archangel. "The flotilla was first fired upon from both river banks near Kakutziya, and a half mile further on encountered a barricade of sunken boats, which impeded further progress. Here the troops were compelled to land to await fresh orders. "Nor did the land troops reach their goal. They encountered their first resistance by the Soviet troops at the point where the Log River bisects the railway. The entente forces halted here. This movement seemed a feint, and the main operation apparently is on the Dwina River. "Monday night there arrived at Solombolsk, near Archangel, four transports, from which an American contingent was transferred directly to barges in the mouth of the river, without touching at Archangel. "Admiral Kemp (British) on Monday issued a proclamation to the Russians saying that the Moscow rulers had betrayed Russia to the Kaiser, who was now sending troops to destroy the liberty gained by the expenditure of so much blood."

LOSSES OF BRITAIN RUN TO MILLIONS

Lord Northcliffe Estimates Total of Nine Hundred Thousand Men Killed.

London, Aug. 16.—Lord Northcliffe entertained Canadian, Australian and American visitors to luncheon today in the historical courtyard of the Times office in Printing House Square, which has been roofed over with a spacious tent for the occasion. Besides the visiting Canadians, Australians, and New Zealanders, there were also present Lord Northcliffe, Premier Hughes, Massey and Borden; the Australian, Canadian and New Zealand high commissioners and a host of other prominent citizens of the dominions.

Lord Northcliffe, in toasting the guests, said that the boys who went overseas responded at the beginning of the war and had been coming over ever since to help the old country was one of the most touching things in history. What they did at Gallipoli and Vimy Ridge the American heroes have been doing at Chateau Thierry.

One of the great miracles of the world was the way the Americans had been transported by sea and land. The railroad handling alone had been a great achievement, and all of it had been done with order and astounding punctuality far in advance of their government's promises.

Lord Northcliffe proceeded to criticize the secrecy of the British government, and the censorship whereby the world never realized the magnitude of Britain's silent effort. The best proof of what Britain had done existed in the casualty lists which the consuls in London had known to us or to the allies, whilst the Germans knew the extent of British losses to a man.

His lordship estimated that "we had had 800,000 men killed during the war, and last year our total casualties were over 800,000."

His lordship also stated that every pacifist newspaper in Great Britain was subsidized, indicating a lack of public demand for such publications.

London, Aug. 16.—The population of the Murmansk region received with joy the British forces that landed there recently, according to an allied diplomat who has arrived in London from Petrograd.

BOLSHEVISM SEEN IN LABOR'S DECISION

Winnipeg, Aug. 16.—The Free Press today discusses the decision of the Winnipeg Trades and Labor Council that a general strike would be called in sympathy with the striking metal workers in Minneapolis.

The Free Press characterizes the decision of the trades and labor leaders as "Bolshevism, naked and unashamed," and calls upon the sane and conservative elements of the labor to combat the proposal to plunge the city into the useless discomforts of mob rule.

The Free Press declares that the labor leaders want a general strike to force the courts of this province to be governed, not by the instructions of the country, but by the instructions of the labor leaders.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

In the centre of the battlefield yesterday French and Canadian troops conducted a series of attacks against the line of Laucourt, St. Mars-les-Triots, Goyencourt, Fresnoy-les-Roye and Fransart Villages. By evening they had achieved what is being described as a substantial advance against strong German resistance. The front of the Franco-Canadian-British attack of yesterday, marked by the foregoing villages, runs from a point on the Avre about two miles due west of Roye to a point six miles northwest of the town. The operation has therefore the character of a turning movement on Chaulnes, combined with frontal attack, and a turning movement on Roye. It is an attempt against the left flank of the Roye-Chaulnes line. In conjunction with this operation the French also advanced far into the Loges Wood, lying five miles southwest of Roye, and below the River Avre. Before the opening of this large local action, the British crushed a counter-attack against their new position at Damery. They took about 250 prisoners and many machine guns in this successful defensive fighting.

As the French on the Avre are now within a mile and a half of Roye, it seems probable that they and the Canadians will complete the operation of occupying the position in the immediate future. The Germans have packed the Lassigny-Roye-Chaulnes line with picked troops and are making a stout defence, but the allies apparently will not be denied in their advance. The defence of towns like Roye, however, against direct assault, is comparatively easy, as was seen at Lens, where the cost of capturing it was prohibitive. The present allied plan of advancing north and south of Roye and threatening to surround it, appears likely to make the Germans clear out of the town, unless the enemy can definitely check the allies upon the present line. This so far they have been unable to do.

The general scheme of the allies is to work near enough to both German flanks at Roye and Lassigny so as to carry these towns by a strong attack, and to throw the German rear into confusion. Owing to the delay

COAL MINERS TO CALL FOR INCREASED WAGE

Indianapolis, Ind., Aug. 16.—Labor conditions in the coal mining industry for which "the only logical solution is a substantial flat wage increase to be applied to all classifications of mine labor" will be discussed at a conference of district presidents of the United Mine Workers in the city of Washington, D.C., Aug. 22, according to an announcement made here tonight by Frank J. Hayes, president of the United Mine Workers of America.

In announcing the conference, President Hayes said it had been called "to avert, if possible, a rapidly developing labor conflict in the coal industry which, if permitted to go unchecked, would undermine coal production plans."

The wage increase "can be met and applied by the coal operators without the necessity of an increase in the selling price of coal to the consuming public," asserted the miners' official, who added that the paying of bonuses by many mine owners now "is a most notable evidence that the industry is able to bear an advance in wages."

ANOTHER COMB OUT OF GERMAN ARMY

Loss of Man-Power Causes Anxiety to Von Ludendorff.

With the British Army in France, Aug. 15.—Germany has acknowledged that her man power, once so freely used, now is dwindling in proportions great enough, apparently, to cause considerable anxiety to the high command. The toll taken, particularly in recent fighting, by the allied armies and the prospect of being confronted by ever-growing American forces has caused General Ludendorff to issue most imperative orders for a vigorous, immediate comb-out in the German army in order to recover from auxiliary units all men capable of entering the trenches.

GUELPH'S FIRE SYSTEM NOT UP TO STANDARD

Guelph, Aug. 16.—The enlargement of Guelph's water reservoir system to accommodate 5,000,000 gallons, and the installation of an additional pump at the water works capable of pumping 4,000,000 gallons a day are the chief items referred to in the report submitted to the City of Guelph by the provincial fire underwriters of Ontario.

These were in the form of a report from the inspectors, one of whom visited the city in June of this year, and made a series of tests. The adoption of nothing less than six-inch mains is declared to be badly situated, the fire alarm system poor, and the brigade understrength when the inspection was made.

The suggestions made were under consideration at a joint meeting of the departments here today. The water works branch has for some time discontinued the installation of electrical pump, and this is going to be done as soon as the power problem can be worked out.

Austria Wants Germany To Evacuate Belgium

London, Aug. 17.—According to a despatch to The Daily Mail from the Hague, Germany has demanded that Austria send ten to fifteen divisions to the western front. Austria assented to this, the despatch says, on condition that Germany would accept Austria's solution of the Polish question, including the naming of an Austrian archduke as king, and 250 despatch asserts.

LEASIDE FACTORIES ERECTED LIKE MAGIC

Buildings Started in July Will Be Ready in September and October.

The promptness with which big undertakings can be tackled and rushed to completion by private enterprise, even in war times, is aptly illustrated in the Town of Leaside at the present moment. The Leaside Munition Co., Ltd., started to break ground on July 1 for a massive machine shop close to their present plant, 640 feet long by 130 feet wide, covering approximately two acres of ground, and a forge shop, 230 feet long by 150 feet wide, standing on one-quarter acre. At the present time three-fourths of the roof is on, and the laying of floor is being proceeded with, and, according to the rate of progress, the company expects to complete the forge building and start operations in September, and the machine shop in October.

Extensive Machine Shop. According to J. Warren, engineer, the machine shop is a solid-brick structure, with 20 feet steel truss centres and roof beams of solid steel, factory ribbed steel sash, and is being finished in brick. The approximate weight of steel used is 750 tons. The building will be heated with the latest improved hot-air system, consisting of fans driven by a steam engine, which delivers hot air to a system of overhead galvanized iron heating ducts. These ducts are so arranged as to deliver hot air at various heights in the building will be electric lighted through-out.

The machine tools are arranged in groups and driven by independent motors, mostly 75-horse power, to eliminate loss in friction. The boiler house on the north side of the machine shop will be fitted up with 500-horse power boilers, and adjoining them a steam engine and compressor room. These buildings will be connected with a radial brick chimney, about 100 feet high.

The forge shop will be a steel frame building, with galvanized iron roof, with large motor-driven pumps, and four hydraulic accumulators, also forging presses and draw benches.

The foundations go down solid about ten feet. Ten large fuel oil tanks are also being installed.

New Office Building. The erection of a solid-brick, two-story office building, 65 feet by 70 feet, is now in contemplation. The office premises being inconvenient and inadequate.

Transportation Problem. Between 1000 and 2000 additional employees will be required when the buildings are completed for the manufacture of 12-inch United States shells. The transportation of the additional number of employees is a problem which will have to be solved by the company, and the only real solution is a car line," he said.

The company is also putting in a complete sewerage system, with sanitary fixtures. One mile of private tracks run thru the plant, and the company is now planning to connect them with the public tracks.

At rush hours, including the present war, we carry 120 passengers, but our present service of two buses, with this is totally inadequate," he said.

JAPANESE TEA GARDEN.

Runnymede Sunday School Teachers Spend Enjoyable Evening.

Under the auspices of the Sunday school teachers of the Presbyterian Church, the grounds of the home of Mr. and Mrs. A. Cameron, 481 Beresford street, were last evening transformed into a Japanese tea garden.

The decorations were suggestive of Japan, and a fish pond and the sale of home-made nookings and ice cream helped to augment the collection. The musical music was given, and Mrs. Cameron, a T.C.M. (Columbia) by request, gave two clever impersonations. Rev. D. J. Ellison, the new pastor of Runnymede Presbyterian Church, gave an address. L. LARGE FRENCH HARVEST.

Paris, Aug. 16.—The total production of wheat in France this year is estimated at fifty million quintals (183,000,000 bushels), being an increase of twenty-five per cent. over last year's crop, according to The Intransigent.

MARKHAM FARMERS THRU HARVESTING

Few Have Cleaned Up Fields Which Grew Record Crops.

Markham Township farmers are already beginning to clean up on the harvest fields, one of the first to finish being Harold Harper of the sixth concession. With the help of Frank Frisley, the two men have put away a lot of good spring wheat and oats, and if the weather holds fair today a lot of other farmers will wind up the ingathering of one of the best harvests in years. Not in a long time have the farmers of York County been so favored in point of weather, weight and quality of yield.

The best yield of alsike clover probably ever reported in the Province of Ontario comes from Victoria Square, in Markham Township, where Walter Scott, ex-revee, from one acre secured 15 bushels, 15 per cent. over the standard, and the seed is said to have been of splendid quality. A good average yield this year is from 8 to 10 bushels to the acre.

For a high average yield over a large acreage, C. Hardy, who lives near Stouffville, probably takes the lead. One day this week Silver Bros., grain merchants for \$1245, the net proceeds from 12 acres of alsike seed. In the ordinary way the land which the seed is sown on is worth in the neighborhood of \$75 an acre.

The executive committee of the ladies' auxiliary of the Earlscourt branch of the W.M.A., are taking up the matter of a parade for the ladies' auxiliary of the Earlscourt branch at 707 Yonge street, Friday evening, Mrs. Waldron in the chair. The parade will be held on the 20th inst. at the Canadian Exhibition in which all the ladies' aid societies of Toronto are taking part.

A letter was read from the York executive, thanking the members for the work they had accomplished. The special features for Women's Day will be a large and imposing float, and a miniature club house for the members will carry banners by request of heads of quarters. The parade will be held on the 20th inst. at the Canadian Exhibition in which all the ladies' aid societies of Toronto are taking part.

There is a movement in North Earlscourt to raise rabbits as a win-the-war fund. The matter is being taken up by the matter seriously. A rabbit club is to be formed and exhibitions will be held both before and after the fall fair. It is thought that if a large number of these young animals can be raised on the local market, a decrease in the price of butcher meat will be the result. Rabbits are bred in the back yard of the garden and this makes it an easy proposition and an economical one. If you are already breeding rabbits in this section.

VETERANS TO HAVE PICNIC.

Earlscourt great war veterans are planning an outing for the members and friends to Wabasing Park. The Canadian War Veterans Association has made a liberal concession in the fares, which will enable the association to take a trip to Wabasing Park. The picnic will be held on the 20th inst. at the Canadian Exhibition in which all the ladies' aid societies of Toronto are taking part.

Danforth

VIADUCT RAIL-LAYING HAS BEEN STOPPED

The rail layers have evidently quit work indelibly on the Danforth viaduct. No rails have been laid on the strip of road between the Rosedale bridge and the west end of the main bridge. At 8 o'clock this morning a few lengths previously laid from the east end of the Rosedale bridge to near Castle Frank road were embedded in concrete, and the blocks laid for a short distance yesterday.

The wires are now strung on the poles between the two bridges and lamps placed in position on four of the poles.

On the main bridge five men were engaged yesterday in tarring the surface of the roadway south of the track allowance commencing from the Danforth end, and a little over one-eighth of the distance was covered. A pile of wood blocks was placed in position for laying on the Danforth end of the bridge.

Workers have begun the wrecking of the house on the corner of Sherbourne street and the filled-in road, recently occupied by Dr. Eaton. The wooden timbers to support the bridge over Glen road are now in position on the west side although the steel is not yet on the ground.

EXTRACT OF LEMON NEARLY KILLS FARMER

Regina, Sask., Aug. 16.—By reason of the narrow escape today from death of J. McAneney, a farmer of the Vinton section, from excessive lemon extract drinking, it is learned that the provincial police of Saskatchewan will make a special representation to the federal authorities relative to the grave dangers existing in the promiscuous sale of lemon extract. At 8 o'clock this morning a provincial policeman stationed at Assiniboia received word that a man was dying in a wheat field about eight miles from the town. With a doctor the officer rushed to the scene and the two of them, after many hours of work, succeeded in literally bringing the man back from the edge of the grave.

COTERIE OF AGITATORS BEHIND STRIKE VOTE

Manitoba Bridge Works Issues Statement on Attitude of Labor.

Winnipeg, Aug. 16.—While organized labor in Winnipeg is taking a strike vote in sympathy with the striking metal workers on account of an injunction issued against them by the Manitoba Bridge and Iron Works for \$100,000, the company has issued a statement denying that the injunction was the only weapon left to them for use against lawless interference that it prevents the metal trade workers from using intermediation against employees engaged to work in the shops. The company claims that it is still prepared to enter into negotiations with men in regard to increased wages. It says that the question is in the hands of a small coterie of agitators.

The result of the strike vote will be compiled next Wednesday.

GERMAN AIRDROMES HIT HARD BY BRITISH

Twenty-Two and Half Tons of Explosives Drapped by Royal Air Force.

London, Aug. 16.—The official communication dealing with aerial activities reads: "On August 15 the number of combats was not great. Four hostile machines were destroyed by our airmen and two German observation balloons were shot down in flames. Five hostile machines were driven down out of control. One of our airplanes is missing.

"Much reconnaissance work and a good deal of observation for artillery were successfully accomplished during the day. The total weight of bombs dropped by us in the course of the 24 hours amounted to 22 1/2 tons. Two German airdromes were heavily attacked, as well as several of the enemy dumps and railway connections. One of our night bombing machines returned safely."

MINISTER TO VATICAN RECALLED BY CHINA

Personal Friend of German Admiral as Papal Envoy Caused Cancellation.

Peking, Aug. 16.—The Chinese Government has cancelled the appointment of its minister to the Vatican and has ordered the minister, who has reached Madrid on his way to Rome, not to proceed.

The Chinese Government had declined to receive Monsignor Petrelli, recently appointed papal nuncio to China, on the ground that he was a personal friend of Admiral von Hintze, German secretary of foreign affairs and formerly minister to Peking.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the ugly freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove freckles.

CAR GOES OVER A BANK; FARMER AND HORSE ALSO

Motor Rolls 30 Feet Turns Over Three Times, but None of Six Passengers Hurt.

St. Thomas, Aug. 16.—A peculiar accident occurred at midnight on the Union road between Port Stanley and St. Thomas. An auto driven by D. E. Carrol of Middlemarch, containing six people, went to the side of the road to allow another car to pass, when it slipped over the edge of the road and fell down a 30-foot embankment. The car turned over three times and alighted in a bean field. Not one of the passengers was seriously injured, all escaping with minor bruises and scratches. While the parties were endeavoring to extricate themselves a farmer drove up, and while investigating the accident, his horse became unmanageable and bolted the auto all the way down the embankment, smashing the buggy to kindling wood. The farmer also escaped injury.

STATION IN LORRAINE ATTACKED BY FRENCH

French Bombing Squadrons Make Expeditions Behind Battle Zone.

Paris, Aug. 15.—The following official communication was issued: "Aviation: On Aug. 15 our crews dropped or put out of action 23 enemy airplanes. Thursday night our bombing squadrons made several expeditions behind the battle zone and dropped more than 14 tons of explosives on railroad stations at Neulestang and Charleville. A total of 25 1/2 tons was used."

HARBORING DESERTERS MADE BIG OFFENCE

Order-in-Council Provides Fine or Imprisonment for Concealing Defectors.

Ottawa, Aug. 16.—Amendment has been made to the military service regulations by order-in-council. They now provide that any person who knowingly employs, harbors, or conceals, or in any way assists a deserter or a man absent without leave from the Canadian Expeditionary Force is liable to imprisonment not exceeding six months or a fine of not less than \$100, and not more than \$500.

AUSTRIANS REPULSED THREE TIMES ON PIAVE

Italians Inflict Heavy Losses in Fighting at Gravi di Papadopoli.

Rome, Aug. 16.—The war office statement today is as follows: "In the Tonale region, enemy reactions against our advanced positions were repulsed. On Wednesday night, on the Piave southwest of Gravi di Papadopoli, three hostile attacks against our garrison were dropped on the railroad station at Thionville and on the region of Mezieres and Charleville. A total of 25 1/2 tons was used."

CROP PROSPECTS BETTER.

Regina, Sask., Aug. 16.—Crop prospects in eastern Saskatchewan have improved 25 per cent. in the last two weeks, while ripening has been retarded to some extent, according to an announcement made today by Hon. W. B. Motherwell, minister of agriculture. At the same time Mr. Motherwell was somewhat doubtful of the estimate of the 100,000,000 bushels for Saskatchewan as reported from Ottawa.

NORTHERN RUSSIANS WILL RESUME WAR

Government Formed Will Work With Allies to Expel German Invaders.

London, Aug. 16.—"The government of Northern Russia," has been formed with M. Tchaikovsky as president and minister of foreign affairs. The other members of the government include Socialists of various parties.

The political program of the new government, which has just been formed, contains the following clauses: First, the recreation of Russian democratic power; second, the re-establishment of local government on a basis of universal suffrage; third, the re-creation of the Russian national army and a renewal of the war on the eastern front; fourth, the expulsion of the German invaders and other enemies of Russia, to be carried out with the aid of and in co-operation with the entente allies.

CAPT. CARTER IS DEAD.

Quebec, Que., Aug. 16.—The death occurred today of Capt. William Henry Carter, former collector of H. M. customs, Quebec, at the age of 54 years. He was the second son of the late Admiral Carter who served with Nelson at Trafalgar, was in the British army and came to this country in 1854.

OPENING OF VIADUCT DURING OCTOBER

Commissioner Harris Promises Public Will Be Able to Get to Parliament Street This Fall.

In two months, according to Works Commissioner Harris, the Bloor-Danforth viaduct will be opened to the head of Parliament street.

An inspection was made of the under-structure and Mayor Church wanted to know if two shifts could be worked so as to hurry things along but was told by Commissioner Harris that there was trouble in getting enough men for one shift.

The idea of securing a part of the Don Valley for park purposes appealed to the city fathers. It would make a fitting surrounding to a splendid piece of engineering work.

The bridge over Glen road was also inspected. Fear has been expressed that accidents would occur at this point because of the restricted view caused by the piers carrying the superstructure projecting three feet out on the roadway.

The idea of securing a part of the Don Valley for park purposes appealed to the city fathers. It would make a fitting surrounding to a splendid piece of engineering work.

CAPT. F. G. POWELL REPORTED MISSING

Geo. H. Powell of 597 Dovercourt road received a cable yesterday informing him that his son, Capt. F. G. Powell, of the Royal Flying Corps, had been missing since Aug. 8.

It is understood that Capt. Powell had recently been in charge of a squadron which had been bombing German lines. His last letter home stated that he had been able to bring down four enemy machines.

TAX COLLECTIONS BETTER THIS YEAR

Taxes received at second instalment, 1918, \$2,685,000. Taxes received at second instalment, 1917, \$2,605,000.

Increase for 1918, \$80,000. Also there is an increase this year over last in the collection of the second instalment of taxes. It was not as large as was anticipated by the city finance commissioner.

The amount of taxes due for the whole year is \$20,267,727, an increase over last year of \$2,338,406, and is payable in three instalments, as follows: First, June 14, \$9,712,317, or 47.92 per cent.

LIEUT. R. F. MURRAY SERIOUSLY INJURED

Serious injuries were received by Lieut. Ronald F. Murray of the Royal Flying Corps in an airplane accident at Catterick Camp, Yorkshire, England.

News of his being injured was carried to his father, G. S. Murray, commander of the Toronto Harbor Commission, 23 Woodside avenue, West Toronto.

BUILDING PERMITS

The following permits were issued by the city architect yesterday: Canadian All-Clippers Company, one-story addition to building at Lansdowne avenue and Davenport road, \$70,000; department of militia and defence, frame and iron garage, 1200 George street, \$7000; R. Rogers & Co., two coal pockets at the Queen street subway, \$500; Anglican Church, addition to St. Alban's Cathedral, \$2000; R. E. McDonough, 299 Huron street, detached two-story brick dwelling on Dufferin street, near Clavelly, \$3200.

DECORATED, THEN WOUNDED

Lieut. Hugh Eric Cochrane, M.C., whose decoration was only announced five days ago, is now reported to have been wounded. He is the son of Robert Cochrane, 225 Spadina road, and nephew of Frank Darling. He formerly attended the Royal Military College and Trinity College School at Port Hope. He went overseas in 1916 with a draft from the Royal Canadian Dragoons.

GLENHOLME PLANS READY

MANY APPLICATIONS FOR SIBERIAN FORCE. A flood of applications from men seeking service with the Canadian expeditionary force going to Siberia is reported by the Toronto mobilization centre. An immense interest, the mobilization centre states, is being taken in the latest Canadian expeditionary force, the letters from applicants coming from all over the Province of Ontario.

SHORTAGE OF LUMBER. There will be a shortage of lumber this coming season and a consequent increase in the price of the commodity, according to Hon. G. Howard Ferguson, minister of lands and forests. The minister stated yesterday that there was a great difficulty in getting anything like the required number of men to work in the lumber districts this year. Last year the shortage of help was very marked, only about 60 per cent. of the required men being available and this year it is expected conditions will be much worse.

REPAIRING TABERNACLE. The work of repairing the towers of the Broad Street Methodist Tabernacle, corner of College street and Spadina avenue, which were damaged by lightning in May, has been commenced. The lightning tore off a large number of tiles on the larger tower, and also did considerable damage to the smaller one and the roof. The work will cost \$12,000.

TANK SENT AFTER FISH. The government tank car "Beaver" was sent to the Nipigon Lake district last night. Samples of all kinds of fresh water fish will be brought to Toronto and will be placed on show at the coming exhibition in the provincial natural products and resources pavilion.

VISITOR FROM CALIFORNIA. Rev. Byron Stauffer, formerly of Bond Street Congregational Church and now of San Francisco, California, arrived in Toronto yesterday and will preach in his former church at both services tomorrow. He declares that the western states are entertaining a very enthusiastic war spirit. He said the west had raised 700,000 men and there were at present 200,000 men in training through the Pacific coast states.

NOTHING TO WORRY ABOUT. Lieut. E. C. Carroll, who went overseas with the 124th Highland Battalion from Toronto, son of Mrs. M. D. Gordon, Alinger apartments, is reported to have on Aug. 8 received a telegram from the Hon. the Minister of Public Works, Ottawa, which says there is "nothing to worry about." The lieutenant is now at the University of Toronto.

NEWS OF LABOR

Soldier-Labor Candidate Will Not Speak on Sunday

William Varley, soldier-labor candi-
date for Northeast Toronto, stated
yesterday that he wished to emphati-
cally deny the report that he was in-
tending to address any meeting on
Sunday afternoon, either at the Labor
Temple or anywhere else. The meet-
ing which was to be held at the Labor
Temple would be for the purpose only
of gathering together the scrutineers
for the day of election, and would be
purely a business meeting. He did
not expect to be present even at this
meeting, which would not need him.

LETTER CARRIERS MEET

Messages Received From All Parts of
Canada on Recent Strike.

The Letter Carriers' Association, at
last night's session, filed a number of
communications from various parts
of the Dominion expressing their
opinions relative to the recent strike
in Toronto. A few of the western
centres criticized Toronto men for
quitting when they did. Brantford,
Ontario, admired the action of the
Toronto men in fighting judiciously
for their rights and incidentally for
the rights of the men throughout
Canada. The Brantford men had been out just
six minutes when they received a
Toronto letter ordering them to
back. Amherst, Nova Scotia, believed
that Toronto should have taken a
referendum from every branch in the
Dominion before going out. Hamilton
went so far as to invite the Toronto
members of the association to a picnic
around the city, which they are to
attend on their way to Hamilton on
September 4.

Eighty-one applications were re-
ceived for membership, and 38 mem-
bers were initiated. The meeting was
held in a room at the corner of
Witley Camp, in England.

FIRE AT STREETSVILLE

Streetsville, Aug. 16.—Fire breaking
out from unknown origin in the
stables of J. E. Bally and W. Kemp,
the extent of \$7,000 to the stables and
houses in the vicinity. The outbreak
occurred at 5 o'clock and it was not
until early in the evening that the
flames were checked. Fed by a stiff
breeze the flames caught on to a row
of houses and slightly burned the
home of J. E. Bally and W. Kemp, a
teacher in the Toronto Technical
School. The water pressure was good
and the blaze, considering the start
it had, was soon under control.

MR. P. H. McHUGH,
103 Church Street, Montreal.

"I was a great sufferer from Rheum-
atism for over 16 years. I consulted
specialists, took medicines, used
lotions; but nothing did me good.

"Then I began to use 'Fruit-a-
tives'; and in 15 days, the pain was
easier and the Rheumatism was
better. Gradually, 'Fruit-a-tives'
overcame my Rheumatism; and now,
for five years, I have had no return
of the trouble. Also, I had severe
Eczeema and Constipation, and
'Fruit-a-tives' relieved me of these
complaints and gave me a good
appetite, and in every way restored
me to health." P. H. McHUGH.

FIRE AT STREETSVILLE

Streetsville, Aug. 16.—Fire breaking
out from unknown origin in the
stables of J. E. Bally and W. Kemp,
the extent of \$7,000 to the stables and
houses in the vicinity. The outbreak
occurred at 5 o'clock and it was not
until early in the evening that the
flames were checked. Fed by a stiff
breeze the flames caught on to a row
of houses and slightly burned the
home of J. E. Bally and W. Kemp, a
teacher in the Toronto Technical
School. The water pressure was good
and the blaze, considering the start
it had, was soon under control.

LIUET. ALEXANDER TREES IS WOUNDED

Official word has been received
from Ottawa that Lieut. Alexander
George Trees, 28, Second Canadian
Mounted Rifles, has been seriously
wounded in the left thigh, during the
recent drive made by the Canadians.
He was educated at Upper Canada
College, and graduated in mechanical
engineering from Toronto University
in 1910, entering the firm of Samuel
Trees & Co., Limited.

WEEKLY AIR SERVICE TORONTO TO OTTAWA

Mail Delivery by Airplane Proves
Success by Trial Trip.

Through the kindness of the officer
commanding and officers of the Royal
Air Force of Canada, the Aero Club
of Canada was able to obtain authori-
zation for the posting of a general for a
trial aerial mail trip from Toronto to
Ottawa. Application was made for a
temporary weekly service to be car-
ried out by R.A.F. officers on their
week-end and which matter is still
under consideration by the postal
authorities pending the success of the
trial trip to Ottawa and return.
On advice from the postoffice, ap-
proval by the R.A.F. commandant at
Leaside, a time schedule was drawn
up and successfully accomplished for
the Toronto-Ottawa trip.
The mail left Toronto postoffice at 9
o'clock Thursday morning, the 15th
inst., accompanied by Mr. Lemon, the
postmaster, who has shown great in-
terest in this new service at Leaside.
Lieut.-Col. F. J. Wanklyn, O.C., 43rd
wing, R.A.F., and some officers of the
Aero Club of Canada, namely Col.
William Hamilton Merritt, president;
Major H. F. Fisher, R.A.F., vice-
president; Adair G. Penton, honorary
secretary, and Capt. James P. Beaty,
honorary treasurer, witnessed the
departure of the mail in the gift air-
plane, "Winnipeg," Lieut. Tromper
Longman, R.A.F., being the pilot. De-
scender was reached at 11.50 and
lockfire rifle ranges, Ottawa, at 2.50
p.m., from which place the mail was
delivered at Toronto by postal car
at 3.30 hours as the best time possible
under existing train mail service. For
the first time, therefore, a mail service
has been authorized to issue pilot cer-
tificates for the Dominion of Canada.
The return mail trip will take place
today.

WILLIAM PERKINS BULL

Hon. W. D. McPherson, A. J. Young
and other members of the Royal Cana-
dian Yacht Club tendered a com-
plimentary dinner at the Island Club
yacht club last night to William Perkins
Bull, K.C., of London, England, who is
visiting Canada as a member of the
British Red Cross Hospital at
Lethbridge, where he had been badly
wounded in the field and had been
in hospital for some time. The dinner
was given by Mr. Bull's work in provid-
ing a home for Canadian soldiers
at Putney Heath, and the guests
were chiefly Toronto mothers and
fathers whose sons had been received
into Mr. Bull's home in London and
returned officers who had experienced
Mr. Bull's hospitality.

MAKE RECORD RUN

The life-saving crew made another
record-breaking run yesterday, when they
received a telephone message to the
effect that a sailboat had capsized off
Havlan's Point. Shortly after receiving
the message the crew was on the scene and
rescued the man, who was clinging to
the keel of the overturned boat.

IMPORTANT NOTICE TO HARVESTERS

There is every probability that Har-
vesters' Excursions to the West Coast
after August 22nd will be can-
celled. Those intending to go west
should leave on the first excursion.
Dates of sale from Toronto and
east and north August 20th; from Tor-
onto and west and south August

WON'T BUILD HOUSES

Guelp, Aug. 16.—The scheme to erect
houses for working men in this city has
fallen thru, owing to the high price of
everything and the fact that the tenders
for the houses are out of sight—from 15
to 20 per cent above the estimates of
those who were prepared to go ahead
and erect at least 20 houses had the
prices been reasonable.

Cudgel Makes New Record at Saratoga

Saratoga Springs, N.Y., Aug. 16.—A new world's record for a mile and three-sixteenths was established by Commander J. K. L. Ross' four-year-old Cudgel in the fourth race, the Schenectady Handicap, here this afternoon. Cudgel carried 121 pounds and covered the distance in 1:58 flat. The old record was 1:56 2-5, established by Milton B. at Latonia in 1912. Cudgel won the race by the smallest possible margin from Wilfred F. West's Hogan.

The track record fell in the last race of five furlongs, when J. W. McClelland's two-year-old colt Eternal traveled the distance in 58 2-5 seconds.

FIRST RACE—Purse, \$544 added, for three-year-olds, five and one-half furlongs: 1. Wonderman, 112 (Robinson), 9 to 5, 4 to 5, 2 to 8.

SECOND RACE—Purse, \$600 added, stepchase, selling, for four-year-olds and up, about two miles: 1. Sun King, 142 (Allen), 13 to 5, even, 4 to 5, 1 to 3.

THIRD RACE—Purse, \$600 added, stepchase, selling, for four-year-olds and up, about two miles: 1. Sun King, 142 (Allen), 13 to 5, even, 4 to 5, 1 to 3.

FOURTH RACE—Purse, \$1044 added, Schenectady Handicap, for three-year-olds and up, mile and three-sixteenths: 1. Cudgel, 121 (Sando), 13 to 20, out, out.

FIFTH RACE—Purse, \$644 added, for three-year-olds non-winners of \$250, five furlongs: 1. Eternal, 107 (Schuttinger), 7 to 2, 4 to 5, 3 to 5.

SIXTH RACE—Purse, \$644 added, for three-year-olds non-winners of \$250, five furlongs: 1. Eternal, 107 (Schuttinger), 7 to 2, 4 to 5, 3 to 5.

The World's Selections BY CENTAUR.

SARATOGA. FIRST RACE—Louise V., Petrovna, Appleton Wiske. SECOND RACE—Weldship, Bet. Draught. THIRD RACE—Terentia, Tuscaloosa, Sticking. FOURTH RACE—War Cloud, John, Sun Brar. FIFTH RACE—Hank O'Day, Torchbearer, Regal Lodge. SIXTH RACE—Equilman, Madge F., Crystal Ford.

TODAY'S ENTRIES

AT SARATOGA SPRINGS. Saratoga Springs, N.Y., Aug. 16.—Entries for Saturday are: FIRST RACE—Three-year-olds and up, claiming, six furlongs: 1. Louise V., 114 (Adels) 10 to 1, 5 to 2.

SECOND RACE—Stepchase, handi-cap, about two miles: 1. Weldship, 124 (Bet. Draught) 10 to 1, 5 to 2.

THIRD RACE—Two-year-old fillies, 5 1/2 furlongs: 1. Lady Rosebud, 114 (Stetson) 10 to 1, 5 to 2.

FOURTH RACE—Three-year-olds and up, claiming, one mile: 1. Eternal, 107 (Schuttinger) 7 to 2, 4 to 5, 3 to 5.

FIFTH RACE—Three-year-olds and up, claiming, one mile and three-sixteenths: 1. Cudgel, 121 (Sando) 13 to 20, out, out.

FARM AND GARDEN

CROP MAY BE LOST THRU LACK OF LABOR

Fredericton, N.B., Aug. 16.—"Unless something is done to secure labor for the farmers of this province within the next five or six weeks a large portion of this season's crop will be lost," says the Hon. J. F. Tweeddale, minister of agriculture, in an interview on the labor situation.

CALF CLUB ORGANIZED IN PEEL COUNTY

The department of agriculture has instituted a new scheme for the improvement in the shape of a "calf club." This club is to be organized and directed by the Peel County Milk and Cream Producers' Association, in conjunction with the Peel Department of Agriculture.

MCCARTHY'S FARM BURNED

Prescott, Ont., Aug. 16.—The extensive barns and outbuildings situated east of the old Greenville Brewery, one mile west of here, were completely destroyed by fire early this morning. About 200 tons of hay, three horses and a number of hogs, with other farm property, were also destroyed.

KILLED BY STREET CAR

Windor, Aug. 16.—Injuries sustained when she was knocked down by a street car in Detroit last night caused the death in Grace Hospital today of Mrs. Clara E. Clark, aged 73. Mrs. Clark was a resident of Windsor for 60 years, only recently moving to Detroit to keep house for her son, George Clark, a prominent official of the Detroit and Cleveland Navigation Company.

HINDOOS ARRESTED

Cornwall, Aug. 16.—U. S. immigration officers have arrested nine Hindoos and one West Indian at Massena the Hindoos being charged with entering the country illegally and for coming from a barred zone. They all claim to have been sailors on British boats which were torpedoed, and being landed at New York deserted their boats and were sent to Massena by employment agencies.

YOUTHFUL SENSATIONS

At Boston—the veteran doubles team, Fred B. Alexander and Beals C. Wright of New York, outclassed the western title holders, W. T. Hayes and Ralph Burdick of Chicago. In the lower half of the semi-final round of the national doubles lawn tennis championship, at the Longwood Cricket Club today, by the score of 6-3, 6-2, 6-3.

YOUTHFUL SENSATIONS

The final tomorrow will bring Alexander and Wright, each of whom has played on former championship teams, against the youthful sensations, Vincent Richards of New York and W. T. Tilden, 2nd, of Philadelphia.

YOUTHFUL SENSATIONS

Woodstock, Aug. 16.—The winners in the field out crop competition conducted in East Nisour Township by the Agricultural Society have been announced by the presiding judge, James Boyd, of Markham, as follows: 1. W. A. Briggs, Thamesford, 91 points; 2. John Bradshaw, Thamesford, R. R. No. 2, 90 points; 3. J. F. Day, Thamesford, R. R. No. 1, 89 points; 4. G. R. Matheson, Harrington, 88; 5. Mercer Bros., Thamesford, 87; 6. F. G. Seaton, Lakeside, 86; 7. D. Thompson, Thamesford, R. R. No. 2, 85.

WINTER STORAGE FOR VEGETABLES

The war gardener having a quantity of potatoes, cabbages, beets, carrots and turnips for winter use without sufficient cellar room for storing them can safely leave them in piles in the garden, protected with earth and straw, so far as danger from freezing is concerned.

FAILURE OF RASPBERRIES

There has been some complaint from amateur gardeners regarding the poor crop of raspberries this season. Raspberries require ample moisture, particularly from April to July. During the spring we usually have sufficient rain, but the plants are likely to suffer from lack of water during June and July, when the plants should be well soaked several times a week.

MILKING MACHINES TIMED BY COW'S HEART BEATS

According to tests made by the Canadian Government, milking machines to operate properly should take into account the heart beats of the cow. Examinations have shown that there is a relatively small amount of milk in a cow's udder at any one time, says the September Popular Mechanics Magazine. Many times that amount can be obtained in a milking because nature secretes the milk from the glands to which blood is supplied, as fast as the udder is emptied.

COVER CROPS FOR THE GARDEN

Cover crops are quite as important for the small garden as for farm fields. Parts of the garden vacant during September, should be sowed and well covered with hydrated lime. A plot 200 by 200 feet will require from 1000 to 2000 pounds, smaller plots in proportion. Lime is not a fertilizer, but it neutralizes acid soil and makes inert plant food available.

ON WEDNESDAY, AUGUST 28th

AVERAGE WHEAT CROP MAY BE HARVESTED IN MANITOBA

W. J. Whitehead of the Canadian Northern Railway staff, who is in the west to report on the crop outlook, says who has already sent reports on the situation in Alberta and Saskatchewan, summarizes conditions in Manitoba as follows: The crops in Manitoba seem to have suffered the least of the three prairie provinces from the vagaries of climate.

The latest government crop estimates show a possible increase in wheat within the province slightly in excess of three million one hundred thousand bushels. The average yield in wheat in Manitoba the last ten years is 17.5 bushels to the acre.

WHEAT CUTTING IN ALBERTA. Regina, Aug. 16.—Wheat cutting is now fairly general throughout the province. The binder started to work about a week ago, and can now be seen in every direction.

There were needed to oats in Manitoba this year, as closely as may be figured now, 1,800,000 acres.

The unlisted section provided the feature of trading on the Toronto market yesterday. Black Lake Asbestos issues responded spiritedly to the announcement that another interest in the stock had been ordered. The payment of three per cent. on the bonds which were on offer at the close on Thursday at 31, opened yesterday at 32, with a closing bid 35 1/2 and 35 asked. Transactions in the bonds were of a par value of \$30,000. Black Lake Asbestos opened slightly higher at 1/4, ascended to 3/4 and closed at 1/2, dealings totaling 641 shares. Trading in the listed stocks was quiet to the two weeks, but the trend was slightly firmer. Publication of the Canadian Company's annual report had little effect on the stock, 100 shares being marketed at 37 1/2, an advance of 1/2. Porto Rico was in good demand, gaining a point yesterday. The company's recent monthly statements of earnings have been excellent, and buying has been persistent of late, resulting in an upward movement of 1/2. The Toronto Paper at 71 1/2, and Steamships preferred 1/4 up at 77 1/2, while Mackay preferred was buoyant at 55 1/2. Toronto Paper at 71 1/2 showed a decline of 1/2, and Cement was shaded 1/4 at 63 1/2.

An interesting feature was a transaction in C.P.R. at 158, the highest level of the year locally, with the closing bid 159 and 160 1/2 asked. In the water loans, the price ruling 1/4 higher at 93 1/2. The 1915 issue was unchanged at 96 1/2, and the 1916 issue sold at 94 1/2, the bid at the small block, with 94 1/2 the bid at the close. The day's transactions in listed debt securities, one selling at 52 1/2 and other at 52 1/4.

LONDON MARKET QUIET, BUT TONE SATISFACTORY

London, Aug. 16.—There was satisfactory tone in the stock exchange today. The outside public was doing less business; still there were some buoyant spots in the list, notably the Mexican and Canadian issues. Oil stocks were active. The demand for Bakul Oil securities was stimulated by the news that a British subsidiary had secured a concession in the Russian governments were quiet. The Russian group was dull. Some of the mining companies were more active. The monetary conditions were unchanged.

GENERAL MOTORS STOCK BARRED FROM EXCHANGE

New York, Aug. 16.—The common stock of the General Motors Co. in which there have been spectacular price movements from time to time, was today stricken from the list of issues cleared by the New York Stock Exchange. This bans trading in the stock on the exchange.

LIVERPOOL COTTON.

Liverpool, Aug. 16.—Cotton futures closed steady. August 17, September 21 1/2, October, 22 1/2, November, 22 1/2, December, 21 1/4.

STOCKS EX-DIVIDEND.

Stocks ex-dividend yesterday were: Bank of Commerce, 1-2 per cent.; Home Bank, 1-4 per cent.

MONEY AND EXCHANGE

London, Aug. 16.—Money, 3 per cent. Discount rates, short bills and three months' bills, 3-17 1/2 per cent.

PRICE OF SILVER.

C.P.R. AT HIGHEST OF YEAR MELON-CUTTING RUMORED

Appointment of G. N. Bosworth as Chairman of Ocean Services Taken as Move Toward Policy of Segregation of Assets for the Benefit of Shareholders.

The new practice of the C. P. R. in segregating special incomes, has proved to be most satisfactory to the stockholders, and the investing public. Formerly, the practice was to show every source of income in the annual reports, without special classification. This was found to be misleading. In this way, for instance, the would-be investor looking at the large figures would be disposed to lump all under a single denomination, and the result would be that the business of the company was that of the largest mercantile firms operated by C. P. R. shareholders. The company has in its own or chartered ships one of the largest mercantile fleets operated by any single corporation. The following extract from the Montreal Gazette is of interest:

MARKLE HIGHER IN QUIET MARKET

Gold Stocks Are Slightly Easier—Thompson-Krist Liquidation Halted.

Some irregularity was shown in the mining market yesterday, there being a disposition to shade prices of prominent gold stocks, but net changes for the day were not significant. Dome, which has been extremely inactive both in New York and Toronto for some days, came out lower at 8 3/8 for 200 shares, but the fact that at the close the stock was held at 3 00 was significant of the dearth of floating stock. As has been pointed out, shorts, who a short time ago found it an easy matter to borrow Dome stock to cover contracts, have discovered that the situation has undergone a change, and short selling has in consequence been reduced to a minimum. Hollinger was of a point at 4 5/8 and McIntyre stationary at 1 3/8. Liquidation of Thompson-Krist, which was so conspicuous the day before, was little in evidence yesterday. The volume of trading in this issue being only about one-third of that of Thursday. The price did not drop below 5-1-8 with 5-1-2 asked. Operations at the 400-foot level have shown promising results, and during the last few days a good deal of cheap stock has been picked up by those close to the management. It is said. Purchase of 5000 shares of Moneta at 7 attracted some attention, owing to the infrequency of dealings in this stock. In the Cobalts, an incident of note was the advance of McKinley-Darragh to 41 1/2. McKinley has been selling at 40 so long that it seemed as if the feat of raising it a point or more might be a superhuman one. La Rose was a point at 20 and Peterson Lake was slightly lower at 9 3/4 on a deferred delivery basis. Adanac rallied 1-2 to 7 and Ophir was 1-4 higher at 4 1-2. The bid for Kerr Lake moved up 1/2 to 5 7/8, reflecting the excellence of the July statement. Rockwood Oil was quiet and 1-3 lower at 29.

ON NEW YORK CURB

Hamilton B. Wills received the following wire at the close of the New York market yesterday: Stocks as a whole were rather quiet today, but those which became active scored moderate gains. U. S. Steamship sold ex-dividend 15 cents a share and was in good demand. American Writing Paper continued strong, due to reported inside buying. Actva was active around \$12. Hecla was strong under heavy buying, due to the fact that earnings are reported to be running at an even higher rate than those of 1917 and that substantial dividends are expected. Houston Oil sold fractionally higher and was traded actively. Northwest Oil was strong upon a report from Wyoming that the well now being drilled has a showing of oil at 2270 feet where the well creek sand should be encountered.

FORGINGS AGAIN RISES IN MONTREAL MARKET

Five-Point Advance on Rumor of Stock Melon—General Market Quiet.

Montreal, Aug. 16.—Today's market locally was the smallest in volume of trading since July 25. Canadian Forgings and Forgings stood out prominently. Turning over a third of total trading, and was the strong feature for the day. The paper stocks as a whole showed more attention, followed by the power group, while the steel stocks were neglected. Prices were irregular, with gains predominating. Accompanied by more talk of bisecting the part value of the stock, there was a flurry in the price of Forgings at a turnover of 800 shares. The opening was unchanged at 1 1/2, but the stock advanced to 2 1/2 at the close, a net gain for the day of five points. In the paper group, attention was centered equally in Brockton and the unlisted department in N. A. Pulp, the former at an advance of 1/2-point, to 3 1/2, of car letters at an advance of 1/2, to 3 1/2. Spanish River was the least active of the lot, with a decline of 1/2-point, to 1 1/2. The bond list was quiet, with prices about steady. Total business for the day, with comparisons for the corresponding day a year ago:

NEW YORK STOCKS IN NARROW RANGE

Noteworthy Incident is Action Taken in Regard to General Motors.

New York, Aug. 16.—Trading in stocks today was uninteresting and unimportant from start to finish. The nominal turnover of 150,000 shares was again confined to a few favorites, investment issues participating in negligible degree.

One of the significant incidents of the session, as illustrating the conservative attitude of the exchange, was an order removing General Motors from the issue to be "cleared" in the future. General Motors has been one of the most sensational and unstable features of the stock market, and today's action resulted from an exhaustive investigation of its speculative ramifications. It was said that other stocks lacking wide distribution may meet with like restriction. Money once more proved a deterrent, although local bankers were quoted as depressing reports of undue stringency on call loans, a mixed collateral held at six per cent, an advance of 1-2 per cent, being demanded for all industrial, while funds were limited to small renewals.

BETTER WEATHER HALTS CORN'S RISE

Bullish Effect of Unfavorable Crop Reports Offset by Changed Conditions.

Chicago, Aug. 16.—Improved weather conditions more than offset in the corn market today the bullish effect of unfavorable crop reports. Prices closed unsettled, 1/2 to 3/4 net lower, with September 16 1/2 to 16 1/8, and October 16 1/8 to 16 1/4. Cuts finished 1/2 to 3/4 up, and provisions down 1/2 to 3/4.
