

The Little Fellow and His Clothes

We are often asked how old a youngster must be before he can be put into one of our handsome little suits. We say that he must be about this time that he will become the apple of his dad's eye, and please him exceedingly by exchanging his dry goods store clothes for

REAL BOYS' CLOTHES
Our blouse suits, Russian suits, Suits, Navy suits, Boy suits, etc., are as dainty and fine as any mother could want.

Suits at \$3, \$4, \$5 and \$10.
We've everything for these little men—and we're known all over as the store for Children's Clothing.

OAK HALL CLOTHIERS

J. COOMBS - MANAGER.

OBJECT TO ALEX SMITH

Because of His Affiliations With the Toronto Ry. Co.

At last night's meeting of the Trades and Labor Council, Delegate Elliott recorded an objection to the appointment by the Ontario railway board of Alex Smith as examiner of motormen. Such a man, he said, should be independent of the railways.

Delegate James McDonald said that the street railway employees would strongly object. Mr. Smith had been released from the Toronto Railway Company on purpose to fit him for the appointment, but his present position with the York Radial should act equally as a bar.

Delegate Gibbons stated that the G. T. R. machinists' strike was still on.

CHURCH PARADE CALLED OFF

Story Heard at the Armories that it's Off This Fall.

There was a story around the armories last night that the autumn garrison parade will not take place. The reason advanced was that the building improvements under way would interfere with the parade.

Lieut.-Col. Stimson said that he was not in a position to state positively before the next week anything on the subject.

SINKS IN RED RIVER

Only Steamer in Winipeg Goes Down—Crew Escape.

Winipeg, Sept. 20.—(Special.)—The only steamer Winipeg boasts, the Alexandria, which has been plying the river for years, was sunk this afternoon and the crew had a narrow escape from drowning. She was ordinarily used as an excursion boat, but between seasons was used for general purposes.

She was bringing a barge, loaded with sand, down the river and opposite Ward street, the current caught her in some manner against the steamer and stove in her side. She sank in a few minutes.

ISAAC CASWELL DEAD.

After three days' lingering in the balance Isaac Caswell died in the Western Hospital last night. An inquest will be held. Mr. Caswell was traveling by a car on Dundas street early on Monday night.

He was 70 years of age and a brother of the late Thomas Caswell, city solicitor.

Fined \$2 and Cost.

Magistrate Ellis yesterday in the county court decided to use the council chamber instead of the little conference room where he has hitherto handed out justice.

The three-adjourned case of Charles Garfunkel, the Long Branch citizen who charges some of the residents with stoning his house, came up. L. V. McBrady appeared for Garfunkel and made an appeal for protection for his client and members of the Jewish persuasion generally.

Mr. Garfunkel was worse here than in Russia, said counsel. "In the latter country they are warned of any contemplated attack."

Mr. Godfrey, who appeared for the boys charged, offered to plead guilty for each of them, on condition that they pressed a desire to compromise to that extent, his worship imposed a fine of \$2 and costs, which latter his worship intimated would be pretty heavy.

CHILD CRUSHED BY CAR.

Ottawa, Sept. 20.—(Special.)—The two and one-half-year-old daughter of a Mr. Goldfield, a Hebrew, was caught in the fender of a St. Patrick street car this evening, from which she rolled under the wheels and one of her legs was severed from her body at the thigh.

Home: Sherburne, 104-106 Sherburne Street, P. O. Connor, proprietor. \$1.00 and \$1.60 per day.

HAMILTON HAPPENINGS

CUT OFF CATARACT LAMPS
BOARD FAVORS NATURAL GAS

Latter Will Cost Only \$25.00 While City Pays Company \$82.50

CHEAP LIGHT PROMISED.
Hamilton, Sept. 20.—(Special.)—Engineer Todd of the Western Ontario Municipal Niagara Power Union is seeking to get Hamilton out of the old-fashioned gas lamps. He points out that the city would get a street lighting rate of 40 cents per lamp instead of paying the Clearwater Co. over twice that amount.

The aldermen will likely arrange a conference with him.

CUT OFF ELECTRIC LAMPS.
Hamilton, Sept. 20.—(Special.)—The board of works decided this evening to cut off all street lamps that are not obliged to take from the Cataract Power Co. at a rate of \$25.00 per lamp, and to substitute natural gas lamps. About 100 electric lamps will be cut off and 250 natural gas lamps will be installed on boulevards. The gas lamps will cost only 25 cents a year.

A sub-committee was appointed to draw up a bylaw regulating street traffic. The council will be asked to supply the money for starting streets near the center of the city leading to the asphalt pavements.

D'Arcy Martin and George E. Mills were given permission to open up three 50-foot streets between King and Wilson streets, east of Sandford avenue.

Left to Council.
The finance committee this evening decided to leave the choice of a city solicitor in the hands of the city council, which will meet next Monday evening. The committee made no recommendation, it is practically settled that Frank R. Waddell is to be the city solicitor. His salary will be \$4000 a year, but he will have to pay his own clerk out of that. He will not be allowed to collect fees when the city wins a case as it was argued that this might tempt him to enter litigation in the hope of getting costs.

E. B. Wilmington asked the committee to pay him \$500 for picking out routes for the Hamilton, Waterloo and Guelph Railway, but the aldermen said that the bill was too high, and the chairman undertook to see that it was cut down.

The Children's Aid Society got a grant of \$500, but its request for \$500 for a shelter was turned down.

It was decided to pass a bylaw providing for the annual revision of the assessment rolls. Bylaws giving the Cataract Power Co. permission to connect its tracks with the H. G. and B. T. streets, and the Brantford and Hamilton Railway running rights over the same tracks, were sent on to the council.

The division of the \$17,500 extra revenue that will be derived from liquor licenses was not made, but it will likely be divided among the different wards, after the aldermen hold a conference on the subject.

DEATH OF A. L. MacKENZIE

This afternoon A. L. Mackenzie, a surveyor of 60, died at his residence, 155 South Hudson street, after an illness of two weeks. He was born in Scotland in 1828, and came to this country in 1850. He was a member of the Royal Grenadiers, and served in the Crimean War. He was a member of the St. John Presbyterian Church, and was a member of the St. John's Lodge, No. 1, of the Grand Lodge of the Y. W. C. A., Brantford.

The funeral will be held Saturday afternoon, and will be private.

FOR EDUCATIONAL COUNCIL

J. W. Rogers of Toronto Will Be Candidate of Toronto Teachers.

Joseph Whyte Rogers, principal of Dewson street school, has yielded to the solicitations of the Toronto Principals' Association and will be a candidate for a place on the educational council of education, voting for which takes place on the third Wednesday in October and the first in November.

Four members of the council are to be chosen by the teachers of the province.

HOW MEN DRESSED THEN.

Knickknocks of New York Wear the Dress of Their Grandfathers.

At a recent period dance in New York all the guests wore suits and dresses worn by their forefathers before the war. The men wore high collars and stock ties, coats with broad velvet collars and peg top trousers, light dancing slippers and white stockings. In many cases original costumes were worn.

It needed just such a garment exhibition to emphasize the sartorial achievements of the Semi-ready tailoring system in the present period. The contrast was great, but the simplicity, culture and real lines of art in the evening dress suits and only the Semi-ready Wardrobes have never been attained in any other era of the world of fashion. Every Semi-ready garment, whether \$15 suit or a \$35 Semi-ready Chesterfield, is tailored as an individual work of art.

CAPTAIN SHOTS MATE

Outcome of Fracas on Wharf at Amherst, N. S.

Amherst, N.S., Sept. 20.—(Special.)—A shooting affray occurred at Amherst dock to-night when, during an altercation between the captain of the ship Anna L. Lockwood and first mate, the captain drew his revolver, shooting the mate in the breast, narrowly missing the heart. The wound is not likely to prove serious. No action was taken.

BOARD HELDS; NO STRIKE

Ultimatum That Staff Would "Go Out" on Monday Brings Trustees to Time.

Port Hope, Sept. 20.—(Special.)—A special meeting of the public school trustees was called this evening to consider granting an increase of salaries to certain lady members of the staff. The alternative was a strike, and the utter demoralization of the educational machinery of the town on Monday next. Three lady teachers and the assistant principal, R. Gillies, were recently favored with increases and this led to dissatisfaction among the rest of the staff.

An ultimatum was sent to the trustees yesterday demanding similar recognition, coupled with a request for an answer favorable or otherwise not later than Monday next.

The board gave the grievance favorable consideration and granted an increase of \$25 per annum, commencing Oct. 1.

CONTRACT TAMPERED WITH

Name of Contractor Erased With Acid and Knife.

Ottawa, Sept. 20.—(Special.)—There was a sensation at the meeting of the library board this evening. The board was discussing the claim of P. Kennedy, the contractor who wants \$777 for work done over and above his contract, when the mayor announced that in the original contract for the library, which had been drawn up two years ago, Kennedy's name and also the specifications for his part of the work had been erased.

The contract has been in the city clerk's keeping for these two years, and the erasure was only discovered two weeks ago.

It has been done with acid first and then a knife, but the name can be seen through a magnifying glass. It was very clumsily done, as some of the other names are also partially erased.

The mayor made no charges at all nor would he cast any imputation. The matter is entirely unexplained, and seems purposeless.

FEWER FOREIGNERS COME

First Eight Months Show Decrease—More Britons Here.

(Canadian Associated Press Cable.)
London, Sept. 20.—The number of foreigners proceeding to British colonies is decreasing. During the first eight months of 1906 they numbered 22,687; the year the number was 22,770, of whom nearly 15,000 went to Canada. More than half the Britons who left England went to the colonies. These totaled 121,550, of whom 92,513 went to Canada.

AT MERCY OF OCEAN WAVES CREW OF 18 ARE RESCUED

British Bark "Austria" Disabled in Gale—Was Built at St. John, N. B.

New York, Sept. 20.—News of the loss at sea of the British bark Austria was brought here to-day by the Atlas line steamer Aital from West Indian ports.

The Austria sailed from Gulf Port, Miss., for Rio de Janeiro, with number 3003 last, and the crew of sixteen men of the Austria, having taken them from their waterlogged vessel off Cape Henry, were transferred to the Aital.

The Austria sailed from Gulf Port, Miss., for Rio de Janeiro, with number 3003 last, and the crew of sixteen men of the Austria, having taken them from their waterlogged vessel off Cape Henry, were transferred to the Aital.

THREE KILLED BY DYNAMITE.

Eight other G.T.R. Laborers Are Badly Hurt by Explosion.

Fort William, Ont., Sept. 20.—Three men were dead and eight are injured as a result of the inadvertent explosion of a dynamite cap, which occurred yesterday in the Grand Trunk Pacific tunnel at Finmark.

The dead are: Peter Ventillan, 33 years; Henry Parvianen, 22 years; Nestor Rajala, 48 years.

The injured men who survived the shock have been taken to the private hospital of the Grand Trunk Pacific at Finmark.

At the time of the explosion the laborers were engaged in the work of blasting in removing debris that had been blasted from the cut on the previous day.

Charles J. Johnston, a foreman, had his left arm blown completely from his body.

Will Sue British Cos. Frisco Fire Suffers to Test the "Earthquake Clause."

San Francisco, Sept. 20.—The Examiner says to-day that the Sharon estate, Parrott estate and California Marine Association have decided to combine in a \$600,000 suit against the British insurance companies, which by reason of an earthquake clause in their policies, are refusing to settle their San Francisco losses in full.

The companies referred to include the Commercial Union, Alliance, Palatine and Norwich Union.

Added to these are the Indemnity and Westborough City of this country, whose policies contain the same provision pertaining to exempt them from liability for loss caused by earthquake.

Canadian—But Unique. Plans for Reorganization of a Chicago Bank on "New Style."

Chicago, Sept. 20.—From the ruins of the Milwaukee-avenue State Bank will arise in the near future a new bank which James B. Forgan, who is to be chairman of the board of directors, will be in operation in a few weeks.

He had been in the same provision pertaining to exempt them from liability for loss caused by earthquake.

MILK PROTECTION IN CITIES. In the October number of The Technical World Magazine, W. G. Fitzgerald has a timely article on Milk Protection in Cities.

From the stringent regulations obtaining in Europe it is evident how thoroughly the health authorities there are satisfied that the supply of pure milk is an absolute necessity and that the public must be protected against dishonesty of all kinds.

In New York the system of milk inspection, in Mr. Fitzgerald's opinion, undoubtedly saves the lives of thousands of infants.

The New York department is under the charge of Dr. Herman M. Biggs and maintains two inspectors "of long scientific experience, whose sole duty it is to examine with scrupulous impartiality and system all the dairies and creameries for many miles around, that supply America's greatest city."

Their beat extends to within twenty miles of the Canadian boundary and includes remote corners of New Jersey, Pennsylvania and Connecticut.

It is to be seen that the "dairies" are kept in strict sanitary condition, and secondly, that no milk is shipped which is above a temperature of fifty degrees.

Also the inspectors have no jurisdiction outside their own state, they can compel observance of the regulations by condemning the milk of any recalcitrant dairyman when it reaches the city.

Many thousands of quarts of milk are destroyed in this way in New York," says Mr. Fitzgerald, "and hardly a day passes that heavy fines up to \$200 are not inflicted on dishonest dealers.

A second offence means that the dealer's permit will be entirely revoked." A valuable regulation permits any citizen to bring in a sample of doubtful milk, to have it analyzed free of charge.

In London, Eng., inspectors are always on the move through the streets testing the wares of itinerant vendors and their weights and measures. These cater to the very poor and are the worst offenders.

A second offence involves double or triple the first fine, with an added term of imprisonment and hard labor.

France has the most elaborate system in Europe. The principal laboratory is in charge of Prof. Girard, who has a very large staff of inspectors and assistants—numerous enough indeed "to cover the entire city and act with absolutely deterrent effect upon possible evildoers."

claim to be the pioneers in this respect in Canada, one or two firms have antedated them across the line in introducing the simplified spelling into their advertisements.

In the United States, John Wamaker's advertisements in The Philadelphia North American are on the new method, and such words as "embosom," "dauter," "lifter" and "unpakt" are to be met with.

In his New York advertisements, however, while some of the papers follow the new style others apparently don't.

AVOID PROVINCIALISM. In his admirable and suggestive address, delivered at the annual banquet of the Canadian Manufacturers' Association, declared that in place of nationalism there is a certain amount of provincialism creeping in which is not to the interest of the country at large.

Illustrations of that tendency he found in the limitations imposed by some of the provinces of the Dominion in the free practice of professional callings and in the restriction of trade and commerce caused by the license systems.

He urged the "Western States to do a good work for Canada by treating legislation in a broad and liberal sense, so that all Canadians, whether in Halifax or Vancouver, may be on the same footing in each and every province and county of this splendid country.

The president was absolutely right in censuring provincialism of this kind, and in pronouncing it one of the rocks which Canada should avoid.

It is the product of the mistaken notion that increased prosperity in one state or province of a nation involves loss elsewhere.

The progress of the nation as a whole is thus hindered, each province inclines to become self-centred, and to deprive itself of the greater field, a really national policy in these matters would afford.

The United States has avoided this rock to the manifest advantage of the whole country, and the individual states themselves.

The defect Mr. Cockshead indicates can be corrected by the provinces themselves, and its existence does not assist the demand made in some quarters, that the jurisdiction of the federal government should be strengthened at the expense of the provincial.

It is more than ever necessary for the provinces to retain their exclusive right to legislate on all subjects affecting their own interests.

In the centralized governments of the old world there is a distinct current towards devolution, and, situated as Canada is, special reasons are clearly apparent for holding fast to the principle of provincial autonomy.

A striking example of the difficulties attending federal legislation was given by the course of the Sunday Observance Act in parliament.

The ridiculous form it ultimately assumed supplied a forcible argument against encroaching further on provincial rights.

The habit of looking on provincial affairs from a national standpoint is the best preparation for thinking imperially on national affairs.

What is true here is equally true with regard to local, national and imperial patriotism.

Where a union of states is a matter of free-will the continuance of a national spirit in its parts strengthens instead of weakens it.

The more loyal a citizen is to his own country the more valuable will he be to the union if he has acquired the larger vision Mr. Cockshead urged.

The imperialist the empire needs has its primal source in national patriotism.

There is no real incompatibility between them. The obstacle to closer union among the imperial states can and will be overcome if they are met in the spirit with which each of them resolves its own problems.

PROVINCIAL PREMIER'S INCOMPETENCE. The interprovincial conference to be held in Ottawa may be of the first importance, or it may degenerate into a pink tea.

Some of the premiers, like Whitney of Ontario and Murray of Nova Scotia, have reasonable prospects of long administration in their respective provinces.

Others, like Roblin of Manitoba and McBride of British Columbia, have soon to face a general election.

None of them will appear, flanked by any resolutions from their legislatures, and, as a rule, the impending conference has nowhere aroused much interest among the people.

The public every day is manifesting, more and more, an indifference to things political, that is closely allied to contempt.

The impression that this meeting of premiers has for its object a loot of the national treasury under guise of a subsidy grab has not quickened the interest of a nation accustomed to grabs.

With this end of the performance our own prime minister can have no sympathy beyond seeing that Ontario gets her share of what is, largely, her own money.

The entire system has been condemned, and the conference would accomplish much if it brought about its entire abolition.

Other questions of greater moment are to be considered. The Dominion government will ask that the provinces surrender to its jurisdiction, all steam railroads, and that, hereafter, they shall cease to bonus or otherwise promote the building of railways.

All this might be agreed to, but before the subject is passed Mr. Whitney should exact from the federal government a solemn pledge to keep "hands off" the electric railways of Ontario.

He should go further, and insist that the "raincoat charters," obtained by Ontario corporations at Ottawa, be taken away.

Of the electric railway companies of Ontario it is safe to say that one-third of them after being called into being by provincial charters and after en-

joying every privilege from the Ontario government, have defied provincial regulation and escaped provincial control by obtaining an additional charter from the Dominion government.

At the last session, when the skies above Queen's Park looked threatening for corporate greed, and an act was being passed creating a provincial railway commission, electric railway companies came flocking to Ottawa seeking Dominion charters to place over their provincial charters.

These they obtained without difficulty, being often aided, it is to be regretted, by Conservative members from Ontario.

"What do you want a Dominion charter for?" "This was a common query.

"What need have you, entirely within one county or township, for an additional charter? Have you not operated for years under the provincial charter?"

"Well, they are passing a railway act in Ontario and we want to get out of the wet."

That was the truthful answer to the query: "What do you want a Dominion charter for?"

In a word, there was no need for federal legislation. The Dominion charter was to serve as a raincoat to keep them out of the wet, to render harmless the legislation of Ontario.

To such length has this been carried that a railway from Chippewa to Queenston, seven miles long, and built entirely upon land belonging to the province, is subject to the railway board at Ottawa and taken under the control of the railway board of Ontario.

The electric power question should be dealt with, and especially the situation at Niagara Falls.

The Laurier government has at least the merit of frankness in its outpoken and malignant opposition to the doctrine of public ownership.

It has granted licenses galore to take water from the Niagara and Welland rivers. It will, if permitted, exploit Niagara power, or cause it to be exploited, for the monopolist, and not for the people.

Ontario has one request to make of Ottawa, and that is: "Leave us alone."

The repeal of the "raincoat charters" and the paper licenses for exploiting Niagara power (under none of which a dollar has ever been expended) would please the province best and crown with laurel our premier's return from Ottawa.

OUR LABOR BUREAU. The labor bureau of the Ontario government, since the voluntary retirement of Robert Gocking, is without a head.

The bureau has proved its worth, and it is probable that its scope and usefulness are capable of extension.

To develop the labor bureau in the direction of statistical gathering and on other lines similar to those exemplified by the work of the deputy minister of labor at Ottawa, may be a matter worth the consideration of the Ontario government.

But in choosing a new head for the bureau the experience of the past will emphasize the need of getting a man whose predilections run neither to the labor body nor to the capitalist class.

What is wanted is a man who will study labor conditions from every standpoint, who will bring a trained mind to his task and whose sympathies will be wide enough to embrace all classes.

Such a man might be found among the recent graduates of Toronto University, in the department of political science.

If this department has done its work well, it has prepared many men capable of taking up the labor bureau and making it a valuable adjunct to the industrial life of Ontario.

William Lyon Mackenzie King, C.M.G., deputy minister of labor at Ottawa, is a graduate of Toronto University, in the department of political science.

Differences of opinion may arise as to the benefit accruing from some of the matters he has been connected with, but few will deny that he has compiled valuable statistics and organized a branch of departmental work that is productive of public good.

Where is the Ontario W. L. M. King? That's the man for the labor bureau.

MOVEMENT GROWING STRONGER. Galt Reporter: The hammering the public ownership movement is getting on its knees only makes its friends more determined to take up additional ground.

The movement thrives on opposition. It is too strong now to be squelched by the agents of the corporations. Its exponents do not know how to beat a retreat, and they cannot be taught to show the white feather at a time when government and municipalities, cabinet ministers and privates in the ranks of our politicians are pleased to proclaim themselves champions of the principles that are embraced in public ownership of public utilities, and that make for the extinction of natural monopolies in the hands of private individuals.

No man can well serve the public who deserts the public in the issue of the day. No government can hope to live long that has ever a prop out to help franchise-holding corporations.

NEED OF RURAL POLICE. Harper's Weekly: The rural town of this country offers many advantages to the professional crackman.

Not only is he not troubled by the bank robber, the burglar, the thief, the pickpocket, the sneak thief, the other night when a thief helped himself—"he legal fees of the day from the nearby waistcoat of the slumbering strong arm of the country; houses are easily entered; the country gentleman does not know enough about human vermin to shoot them readily; and there is no protective force for the office of constable is usually held for the pay only. These rural burglaries may awaken people to a necessity of our growing civilization.

Continental Europe has national police forces which protect the rural parts of the country, and our own rural communities will not be adequately pro-

ected from criminals until the State organizes constabulary forces to guard small towns and the more lonely parts of the country neighborhoods.

It would be a great improvement if our legislatures would turn their attention to fitting out the villages, the hamlets and the lonely highways with well trained constables, even if this involved their dropping for the moment schemes to combat, for political only, the police forces of great cities.

HORSE AND DOGS BURNED.

"Citizen" Kelly's Loss is \$1000—Hugh Kelly is Injured.

Fire which destroyed the barn of "Citizen" Wm. Kelly, at Queen-street and Logan-avenue, at 3 o'clock yesterday morning, burned also a horse and half a dozen dogs. In addition, Hugh Kelly nearly lost his life.

It is not known how the fire started; but when a policeman roused the Kelly household the flames had almost full possession. Hugh Kelly rushed in to try and save the horse, but was beaten back. He, however, was making another attempt when two strangers who had been passing went after him and pulled him out. His head was severely burned.

An alarm was turned in from Queen-street and the G.T.R. crossing, but the firemen could do little good.

The loss is placed at \$1000, with no insurance. The horse was worth \$300, and there were also eleven sets of harness, a buggy, a sleigh, a cutter, a cutting machine, blankets and buffalo robes. Four Bedlington spaniels, a hound, and a terrier were burned to death.

There had been no one in the barn, who had a right to be there after 6 p.m. Wednesday, and tramps are blamed for having started the fire.

Shortly after 7 o'clock last night a live wire ignited some woodwork in the doorway at the Rice Lewis establishment at King and Victoria streets. A small alarm was sent in by P.C. Harrison to Lombard and Bay-street stations, and a big crowd watched the firemen fix things so that the blaze could not happen again.

NO BIRDS FOR LADIES HATS. Humane Societies to Petition Ottawa Government for Legislation.

Yesterday's meeting of The Toronto Humane Society was well attended and a number of important matters were brought up for discussion.

A communication was received from the Montreal Humane Society, stating that formal application had been made to the minister of justice and the minister of agriculture to pass such legislation as would make illegal the killing of insectivorous birds for the decoration of ladies' hats.

The question of blinkers on horses was introduced by Dr. McCausland. General opposition was expressed regarding the formation of a humane society from Regina were read. Some ninety-five prosecutions and eighty-five convictions were registered during the three summer months.

The members were invited to be represented at the International Humane meeting in Chicago on Nov. 15 and 16.

AUTO RIDE FOR CHILDREN. Toronto Club Members Map Out Entertainment for Unfortunate Tots.

The members of the Toronto Automobile Club are of a benevolent turn of mind. At a meeting held in the Toronto Club last night they resolved to take the children of all the Toronto charitable institutions for a drive round the city.

It was agreed that the children should be called for at the respective institutions at 10.30 a.m., and that the machines should then all assemble at the Queen's Park. Thence it was proposed that the route should be round the city to High Park, where it is intended to hold a series of games the day after tomorrow.

After the games refreshments will be served. The idea being to make the day as perfect a holiday for the children as can be arranged. Children of commending parents were appointed as follows: Mrs. Doonick; Mrs. T. A. Russell; Mrs. George H. Gooderham; Mrs. Marshall; refreshments, T. A. Russell.

GETTING JEWELS. Visitors Take Advantage of Toronto's Moderate Prices.

The difference between diamond prices in Canada and the United States is commented upon every day by visitors to Diamond Hall. Indeed, it is a matter of great surprise that a Toronto jewelry store has one of the three largest gem stocks in America, and of prices on this continent that cannot be duplicated on any other.

Ryrie Bros. Ltd., now make a specialty of insignia and regalia, as well as of personal jewelry.

MRS. PENTECOST IMPROVES. Ottawa, Sept. 19.—(Special.)—Mrs. Pentecost of Toronto, who was so severely injured in the Gilmour Hotel fire, is reported as doing favorably, and it is now expected that she will recover.

By the judgment of the master in chambers, delivered yesterday, in the action of Elgie against Edgar, he directed that the other actions of Clemens v. Elgie and Edgar v. Elgie, be stayed until the first action is tried.

The defendant is allowed to put his statement of defence within ten days, notwithstanding that pleadings are not closed against him. The defendant, Clemens is to amend his statement of defence or counterclaim as advised also within ten days.

The costs were made in the cause except those of allowing Edgar to defend.

G. T. R. Losses Appeal. The G. T. R.'s application before Chancellor Boyd, appealing from the divisional court in the suit of Gilmour against McKinnon dismissing the appeal of the defendants with costs. Mr. Justice Angell delivered the judgment, which was concurred in by Chief Justice Mulock and Mr. Justice Clute.

The Turner Lumber Co. of Midland are appealing to the court of appeal from the judgment pronounced against them at the trial of the action, Norman L. Playfair, a Midland lumber-

To Men, This Store Stands For Better Clothes

The reason's plain—and vastly important, because a great money-saving item—

Because the clothes this store sells are of better quality and better tailoring than can be obtained, price for price, anywhere. That's a fact!

Thoroughly right in every detail of style correctness. Built shapely, not pressed into a temporary shape. Exclusive, because sold only here, and the fabrics bought solely for this store's use.

No clothes better tailored; no clothes look better. And no clothes cost less; make them ourselves, no makers' profits to pay.

There's big money saving for you there.

12.50 Blue or Black Suit Fine rich finished clay worsteds, indigo dyed, single or double breasted, perfect fitting. A special value.

15.00 Black Suit Vicuna and clay worsteds, fine pure wool fast dyed length, deep centre vent, best of trimmings, sizes 34 to 44.

12.50 and 15.00 Colored Suits English worsteds and imported soft finished tweeds, new colorings in neat mixtures with overplaid, big choice in patterns. Single or double breasted.

A Good Chance in Raincoats We've priced 85 brand new stylish cravenette raincoats, beauties, at a figure that means dollars to you. Great big saving on every garment. They're of good length, cut with full sweep to skirt, lined with Italian cloth, sizes 36 to 44. The clearing price, each..... 6.50

AT OSGOODE HALL

ANNOUNCEMENTS. Master's chambers—Cartwright, master, at 11 a.m.

Judge's chambers—The Hon. the Chancellor at 11 a.m.

Divisional Court. Peremptory list for 11 a.m.: Fleuty v. Orr.

Cobb v. Belleville. Rex v. Union Life. Payne v. Murphy.

Court of Appeal. Peremptory list for 11 a.m.: 1. Wilson v. Hamilton Steel and Iron Company.

2. National Malleable Castings Co. v. Smith's Falls Casting Co.

The case of Lady Wilson against the Toronto General Trusts Co. is again before the court.

An application was yesterday made before Chancellor Boyd in single court to add the beneficiaries named in the will of the late Sir Adam Wilson as party defendants and that one of the beneficiaries be appointed to represent the other beneficiaries.

The court appointed Shirley Denison to represent all parties, if he consents, and if not, then the Victoria Hospital for Sick Children will act.

If the judge at the trial thinks other representatives are necessary they may be then appointed.

By the judgment of the master in chambers, delivered yesterday, in the action of Elgie against Edgar, he directed that the other actions of Clemens v. Elgie and Edgar v. Elgie, be stayed until the first action is tried.

The defendant is allowed to put his statement of defence within ten days, notwithstanding that pleadings are not closed against him.

The defendant, Clemens is to amend his statement of defence or counterclaim as advised also within ten days.

The costs were made in the cause except those of allowing Edgar to defend.

G. T. R. Losses Appeal. The G. T. R.'s application before Chancellor Boyd, appealing from the divisional court in the suit of Gilmour against McKinnon dismissing the appeal of the defendants with costs.

Mr. Justice Angell delivered the judgment, which was concurred in by Chief Justice Mulock and Mr. Justice Clute.

The Turner Lumber Co. of Midland are appealing to the court of appeal from the judgment pronounced against them at the trial of the action, Norman L. Playfair, a Midland lumber-

man, by agreement with the Turner Lumber Co. was to be supplied during 1905 with certain logs to enable him to run his saw mill. These the defendants failed to deliver, and great loss resulted to Playfair. The case was tried at Toronto and judgment rendered for Playfair, the damages to be ascertained by the master at Barrie. The court reserved judgment.

Want Their Money. A Buffalo physician and the Buffalo Homoeopathic Hospital rendered names to William Owens, an infant, who has money in court in Ontario. Not having been paid they have filed an order preventing the payment out of the money to anyone without notice to them.

Will Be Examined. The application of the Chesley Chair Company and John Krug, one of the defendants in the action of Chesley Chair Company against Krug, are to appear for examination before a special examiner at Toronto. The order was made by the master in chambers.

Must Amend Their Claim. The application of Island Constable Ward to have the City of Toronto amend their statement of claim has been granted. Master in Chambers Cartwright has given judgment directing the city to amend within a week, and giving him costs in any event.

Think They Should Not Pay. The W. W. Chown Co. of Belleville appealed to the divisional court to set aside the judgment given against them by a jury in April last awarding one Simmons, an employee of theirs, \$150 for the loss of the sum of \$600 as security. Hand, Simmons was operating a machine for stamping sheets of tin into shape for the construction of lanterns when he met with the accident. He claimed that the machinery was defective and sued for \$1000. The company claimed he disobeyed instructions and was negligent. The appeal was dismissed with costs.

Injunction Dismissed. The injunction in Johnston v. South-west Traccon Co. was dissolved on payment into court on or before Tuesday next of the sum of \$600 as security. Costs were reserved to trial judge or further order.

In single court yesterday judgment in Field v. Green was given as agreed upon between the parties.

ST. GEORGE'S SOCIETY. A special meeting of St. George's Society will be held to-night in the society's rooms, Elm-street, at 8.30, to consider the matter of the displaying of the official flag-pole at the recent Industrial Exhibition of the Stars and Stripes, instead of our national flag. Full attendance of members is requested.

Fire Near Belleville. Belleville, Sept. 20.—The residence of Jerome Cronk, on the Trenton-road, were burned last night.

Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb.

SOCIALLY AND POLITICALLY

REVIEWED FOR THE WEEK

Cattle Market Not Up to the Standard Wanted—Hogs and Calves Strong.

It was a case of too many cattle of poor quality this week, for which there is little or no demand, and prices for these have again declined; in fact, there is no demand scarcely, as many of these cattle were left unsold at the close of yesterday's market.

Several buyers who supply the local butchers with choice cattle for the best trade in the city, which has become very large, were at their wits' end to know where to find a few choice and good quality animals.

Trade in feeders and stockers is dull. Not many orders of good quality are being brought on sale. Few farmers have commenced to buy their winter supply, as grass in many parts of Ontario is not plentiful on account of the hot dry weather.

No important change was to be noted in the market for milkers and springers. The demand was strong for the good kinds, and the sellers seemed to be well satisfied with the market so far as the good ones were concerned.

The market for live calves is strong, with prices steady at \$3.50 to \$4 per cent. for buttermilk or hok calves, and \$5 to \$6 for medium and good, and \$6.50 to \$7 per cent. for prime milk milking calves.

Sheep and lamb values are not quite as good as last week, owing to heavy receipts of a lot of culls and buck lambs. But notwithstanding the poor quality trade was active. Export ewes sold at \$4 to \$4.40 and bucks at \$3 to \$3.50 per cwt. Lamb sold from \$5 to \$5.75, the bulk going at \$5.50 to \$5.65, and 96 per cent. of these were bucks.

The hog market remains steady to strong, at \$6.40 per cwt. for select, with light deliveries. The farmers are getting about ready for the market, and hogs at home, and seem to be fairly well satisfied.

CATTLE MARKETS.

British Markets Steady—Hogs Firm—Again at Chicago.

New York, Sept. 20.—Beef—Receipts, 510,000 lbs.; exports reported for 27th day's market, 40 cars tomorrow, 1200 quarters of beef.

Chicago Live Stock. Chicago, Sept. 20.—Cattle—Receipts, 100 head; slow and unchanged. Cows, \$2.50 to \$3.00; active and 200 higher, \$4.00 to \$5.75.

BREEZY OPINIONS FROM READERS.

The Bacon Industry. Editor World: The bulletin issued by the Ontario department of agriculture a short time ago, regarding the condition of the swine industry in the various counties in this province is worth studying in view of the many discussions lately held in the public press as to the necessity of the packers discriminating somewhat in price in favor of hogs of bacon type, as opposed to other types. The bulletin comprises a summary of answers from correspondents in the province to a number of questions submitted by the department, amongst which were the following: What breeds, grades or crosses of hogs appear to be most popular in your district? Has there been any general tendency to change from one kind of type to another during the past two or three years? Are grade sires used in your district? What is the best cost of production of bacon hogs fitted for market (a) summer feeding; (b) winter feeding? The replies, summarized, show that out of 42 counties, Yorkshires are reported the principal breed in 33, and in 14 out of the 33 Yorkshires are far in excess of the most popular breed. Berkshires are next in popularity, followed by Tamworths and Chester Whites. Yorkshires are found in strongest numbers, comparatively, in counties west of Ontario County, while Chester Whites are mostly found in the eastern part of the province. Yorkshires are fairly evenly divided in almost all counties. Tamworths are the most favored in Bruce, Grey, Simcoe, Dufferin, Peterboro, Victoria, and in the counties from Northumberland to Dundas. The most popular cross in the Yorkshires is Berkshire and Berkshire-Yorkshire. There seems a desire on the part of breeders to meet the packers' requirements, but it is not noted that the white Yorkshires are increasing in the greatest numbers. Berkshires are showing higher percentage of gain. This is caused, according to some of the correspondents, by the fact that some feeders find the Yorkshires take somewhat longer to mature than the Berkshires and Chester Whites, while the cross of Yorkshire-Berkshire gives a hog of a good fair bacon type and an easier feeder.

It has been objected by some that Yorkshires are a hard-feeding breed of hogs. It is fair to say, however, that in conversation with a breeder who has himself bred in this line, he stated that he found Yorkshires just as easy feeders as Berkshires. There have undoubtedly been Yorkshires imported to this country from strains that were hard feeders and descendants of these can be found scattered over the province, and it may be that those responsible for the importation of these are handling some of this kind. And, again, so-called pure Yorkshires grades, which are not so hard to feed as those that have been imported from the United States, and their progeny are liable to reproduce the undesirable characteristics of their parents. A Yorkshire grade boar might sire offspring harder to feed than those of a Berkshire grade boar, but Yorkshire grade sires are still well to considerable extent, as well as Berkshire grades. Correspondents say almost 20 per cent. of sires are grades, and in some parts nearly all but grade sires are found.

As regards the cost of feeding, it is evident that the cost of feed is the most important factor in the cost of production of hogs. The replies given are more or less in line with the cost of feed. The cost of feed is the most important factor in the cost of production of hogs. The replies given are more or less in line with the cost of feed. The cost of feed is the most important factor in the cost of production of hogs. The replies given are more or less in line with the cost of feed.

A satisfactory feature is a general increase in the number of brood sows throughout Ontario. The average number of pigs per litter is 7.77. It is evident from the reports received that the breeders are anxious to furnish bacon hogs for the market. There is a wide-spread opinion, whether well-founded or not, that they cost more to raise than other types, and the packers, if they wish the supply of bacon hogs maintained or increased, should pay a little more for the better quality of the pig. The farmers in preference to those of a bacon type.

Good Market Reports. Editor World: The move on the part of the World, to place the farmers in possession of a daily that will give them the best of market reports and will advocate those things politically that will tend towards the building up of the farm, is a very commendable one. The farmers, it is said, are a hard class of people to pull together for a united organization, making politics in their union for common interest. Had the farmers the same unanimity of purpose, with the same determination to stand together, and business in the parliaments, and their rights to power, telephone, telegraph and transportation facilities would be secured, and perhaps that is the reason they gave Charlie the benefit of the doubt.

The handbook cases will come before the court this morning.

CHONG IS NOT GUILTY.

The Chinese puzzle perjury case came to an end in the sessions late yesterday afternoon.

Charlie Chong was charged with bearing false witness against his fellow countryman, Quong How. The evidence was as clear and intelligible to the jury as a dish of chop suey would have been, and perhaps that is the reason they gave Charlie the benefit of the doubt.

The handbook cases will come before the court this morning.

120 CARS AT CITY MARKET GENERAL BUSINESS NOT GOOD

Trade Dull and Prices Lower—Lambs, Sheep and Hogs Are Steady.

Receipts were large, 120 cars being reported since last Tuesday, composed of 1200 cattle, 888 hogs, 2715 sheep and lambs and 150 calves.

The quality of the fat cattle, with few exceptions, was not good. Trade for a few of the best cattle was brisk, but the bulk were slow of sale at 11c to 20c lower prices, and at that they were not all sold at the close of the market.

There was a large number, principally eastern stockers and feeders, and the best of these were sold at 11c to 12c. The market for hogs was steady, with prices for the good ones at 11c to 12c. The market for sheep and lambs was also steady, with prices for the good ones at 11c to 12c.

The market for calves was strong, with prices steady at \$3.50 to \$4 per cent. for buttermilk or hok calves, and \$5 to \$6 for medium and good, and \$6.50 to \$7 per cent. for prime milk milking calves.

The hog market remains steady to strong, at \$6.40 per cwt. for select, with light deliveries. The farmers are getting about ready for the market, and hogs at home, and seem to be fairly well satisfied.

The market for live calves is strong, with prices steady at \$3.50 to \$4 per cent. for buttermilk or hok calves, and \$5 to \$6 for medium and good, and \$6.50 to \$7 per cent. for prime milk milking calves.

The market for sheep and lambs was also steady, with prices for the good ones at 11c to 12c.

BREWERY WORKERS VOICE REBELLS

Decide to Increase Weekly Strike Benefit—Local Arbitration Compulsory.

The Maltsters Union of St. Louis, Mo., sent forward their new agreement, in which the 8-hour day proposition was the paramount issue, for examination by the International Brewery Workers' Convention.

The convention endorsed in its entirety yesterday a resolution providing for the organization of a brewers' union in Providence, R. I., was adopted from the brewery proprietors of Bealeville, Ill., in which they claimed they couldn't compete with the brewers of St. Louis under the present wage schedule. It will be referred to the incoming executive board.

Some delegates protested against continuing the charter of Branch 4, Los Angeles, Cal., but the protests were not sustained. The convention will be sent out to Minneapolis and Wisconsin at the request of the Duluth, Ill. local.

A request from the Trades and Labor Council of Canada that the brewery workers of Canada be affiliated with that body was granted.

A charter was given the brewery workers of Walla Walla, Washington. A committee was instructed to visit Haddock & Betz of Jersey City to settle difficulties in their bottle shops.

The proposed formation of a culinary council, to include representatives from all the affiliated food producing trades, was referred to the incoming executive.

A resolution instructing all local unions of the State of New York to use their utmost influence against local option as proposed by the Anti-Saloon League, was carried unanimously.

The International Brewery Workers of America will not withdraw from the A. F. of L. The proposition to withdraw from the A. F. of L. was voted down.

Two hundred dollars was voted to aid the revolutionists of Russia.

It was suggested to make it optional for all locals to have an arbitration board in their agreements, but a convention ruled that such a clause be made compulsory.

It was decided to raise the weekly strike benefit from \$5 to \$7 per week. Joint local executive boards were accorded the right to withdraw labels from firms violating agreements.

In the case of brewery workers coming to this country from Germany, Switzerland or Austria, who are not members of labor organizations, they will be charged an initiation fee of \$25.

In order to hasten along proceedings for all locals to have an arbitration board in their agreements, but a convention ruled that such a clause be made compulsory.

WON'T STOP CARS AGAIN

Manager Fleming Says Parades Mustn't Block System.

City Engineer Rust has written to the mayor, asking that in future steps be taken to keep parades off streets where the car tracks are. The street railway system was paralyzed and many citizens were put to great inconvenience.

In this connection General Manager Fleming declared yesterday that henceforth the cars will not be interfered with by parades.

"It's a gross outrage upon the public," said Mr. Fleming, "I am sure in saying that a hundred thousand people were inconvenienced by the blocking of the car lines yesterday. The car service was demoralized for five hours."

"Consider the thousands of people trying to make the trains, trying to get to the boats, or trying to get back from the races. Consider the thousands that we carry between 5 and 6.30."

"It's not going to be repeated. The Toronto Railway has the right, and I intend, in future, to operate the cars. If people want to show off, let them go on streets where there are not cars. An American city wouldn't have stood yesterday's tie-up for five minutes."

"Besides which, the people who want to see the parade would rather see it on streets clear of cars."

It remains to be seen what will happen when the garrison parade next month.

Collides With Street Car

Kingsport, Sept. 20.—In a collision with a street car the rig of Charles Boyd of Glenvale was smashed and Mr. Boyd seriously cut and bruised.

YORK COUNTY AND SUBURBS

The Daviessville Young Men's Club will close their baseball season by playing a doubleheader on their athletic grounds with the Blue Jackets B.B.C. at 2.30 p.m., and the East & Co. team at 4.15 p.m., to-morrow (Saturday). The following players are required to report on the grounds this evening: Saunders, Sweeney, Pratt, McCann, Barlow, McEldon, Finnigan, Clewes, Marsh, Middlebrook and McCarra.

County Police Magistrate Ellis held weekly court at the town hall yesterday afternoon at which he gave judgment in the case of Mrs. Jane Robinson, imposing a fine of \$30 and costs of about \$15. Sam B. Ebert asked his worship to adjudge the difference of \$7.50, wages due him by Alex Bryce. The magistrate allowed plaintiff \$5 without costs.

Rev. Nathaniel Wellwood of the Eglington Methodist Church returned yesterday from a week's visit to his brother, Rev. S. D. Wellwood of Lodi, O.

Kew Beach Association.
At the annual meeting of the Kew Beach association held at the club house, the following officers were elected—Hon. President, John Philz; President, James Knox; Vice-President, Joseph Oliver; Sec.-Treas., John Kirby; House Committee, Chas. Spanner, Chas. Purkis, H. Watt; Rep.-Bowling section, W. N. McEachern; Rep. Aquatic sports, E. W. Turner; Rep. Tennis section, Frank McEachern; Club Orator, Dr. Hammill; Harbinger, Master, E. Powell. The annual report showed the association to be in a flourishing condition. Committees were appointed to make the bowling and tennis ground second to none in the city. It is also intended to make important alterations to the club house.

At the annual meeting of the bowling section, the following officers were elected—President, E. Halliday; Vice-President, A. R. Riches; Secretary, W. N. McEachern; Assistant Secretary, Donald Bain. Prizes were presented to the following winners by the past president, W. Forbes. First prize for singles, W. Hunter; second prize for singles, W. T. Kernahan; first prize Scotch doubles, W. N. McEachern and E. Forbes; second prize Scotch doubles, W. Hunter and E. L. Edmunds. W. Hunter was also presented with a handsome cup donated by Ald. Oliver for the winner of the singles to be won two years consecutively.

Schoenberg.
McEwen and Salgeon, auctioneers, have received instructions from William Conron, to sell by public auction, 100 heifers and steers from 1 to 2 years old, on Monday, Oct. 1, at William Harris Hotel, Schoenberg. These are said to be a fine lot of young cattle, of good quality and in thriving condition, just the kind for farmers to winter over. Sale to commence at 1 o'clock sharp.

Three months' credit will be given on approved paper, and 5 per cent. off for cash.

Daviessville.
Editor World: In your Sunday issue you called the Daviessville Young Men's Athletic Club "the Daviessville Young Men's Conservative Association." The club was organized and is carried on under no denomination or party. It is strictly non-sectarian and non-partisan.

A. W. Urmy, Secretary.
Daviessville Young Men's Club.

Thornhill.
Mr. Hall of Berlin has purchased the coal and wood business from Jessie Winger.

A. W. Wright, who recently purchased the Ford property, is erecting a large pigeon barn for breeding purposes and has purchased one hundred pair to start with.

The usual house famine still prevails. A number of parties have been looking to rent or purchase.

The Epworth League is paying a fraternal visit to Buttonville league on Tuesday evening next.

Nobleton.
McEwen and Salgeon, auctioneers, have received instructions from William Conron, to sell 100 heifers and steers, from 1 to 2 years old, at McArthur's Hotel, Nobleton, on Saturday, Sept. 29, 1906. These cattle are said to be an extra fine lot, well bred and in thriving condition, just such as farmers require for winter feeding.

Sale to commence at 1 o'clock sharp. Three months' credit will be given on approved paper, and 5 per cent. off for cash.

Kleinburg.
Mr. and Mrs. D. Evans went to Bond Head to attend the funeral of their uncle.

J. Goodman, C.P.R. section foreman, has removed his family to Woodbridge, to which section he was recently transferred.

Messrs. Natross & Kaake, drovers, shipped a carload of hogs to Toronto from here Monday.

Contractor J. Watson has finished putting in the cement wings at Messrs. Howland Bros. limited, flouring mills and the mill will soon be in operation again.

Mrs. J. Brown has recovered from her recent illness and is able to be about again.

R. McIntosh, the new C.P.R. section foreman, has moved here from Grand Valley.

John Brown, of the Imperial Soda Water Works, is in Toronto for a few days.

Mrs. A. Benn is laid up with a severe attack of erysipelas.

Geo. Jones & Son, butchers, are having their barn raised to put stabling under it. Thos. Simpson is doing the work.

Stouffville.
Dr. Lyman W. Button of Norwich, Conn. is visiting John R. Button, at this place after an absence of twenty-six years. Dr. Button is compiling a genealogy of the "Button" family and is gathering data for this purpose.

Cup for Rifle Competition.
Cobourg, Sept. 20.—The Cobourg Rifle Association has accepted the offer of J. A. Culverwell to donate a silver challenge cup for competition among the rifle associations of the United Counties of Northumberland and Durham, at their annual fall meeting at Cobourg.

The cup is to be won two successive years and the competition to be under the usual regulations of the government association.

Arson Charge Falls.
Beamsville, Sept. 20.—John A. Graham, who was accused of setting fire to an old blacksmith shop owned by Linnus Woolverton, was acquitted by the magistrate.

It was shown that he had uninsured furniture in the building.

DERBIES AND SOFT FELT HATS...

Hats are not all alike. Not only do makers differ in their "blocks" for the season, but there's a sharp selection necessary among the styles offered by each maker. You not only get a good hat, but a style selected by a hatter with an eye for shape.

SOFT HATS are in their glory now. The weather is just right; they are light, seasonable and comfortable. Very becoming to most men. We have a full range of them, in black, brown, gray and fawn.

COMMANDER SPAIN SUED

His Wife Claims Allowance Not Paid Since Separation.

Ottawa, Sept. 20.—Commander Spain of the Dominion service, will be a defendant in the high court here before Judge Anglin next week. W. Almon, barrister, Halifax, on behalf of Mary Beatrice Spain, the defendant's wife, understood to be residing in New York, is suing for \$1200.

She asserts that since their separation, in January, 1906, she was to get an annual allowance of \$840. She also further claims \$4200 alleged to be owing her, as she paid insurance premiums for her husband and lent him money. She asserts that the latter transaction meant \$6000, and that only \$1750 was paid. She wants the balance with interest.

EX-MAYOR NABS THIEF.

Kingsport, Sept. 20.—Ex-Mayor Carson had his trousers pockets picked at the Napanee fair yesterday. He grouped with the thief and handed him over to the police. The man restored the money, \$75.

He had a list of fall fairs in his pocket.

HAUL OF WATCHES.

Kingsport, Sept. 20.—Last night burglars broke into the store of D. J. Garbutt and stole a number of watches and some jewelry.

Poultry Show a Success.

St. Thomas, Sept. 20.—(Special.)—The poultry show at the Made-in-St. Thomas exhibition was a grand success. Five hundred dollars in prizes was given and the entries were large.

At the musical program Bert Bushy, an old St. Thomas boy and baritone soloist of the Savage Opera Co., New York, received an ovation from the citizens of his native town.

Gets Good Job in West.

Kingsport, Sept. 20.—Norman T. Black, M. A., a recent graduate of Queen's, has been appointed an inspector of schools in southeastern Saskatchewan, at a salary of \$1500 per annum.

Jail Not for Lemmings.

St. Catharines, Sept. 20.—The governor of the jail has refused to admit an Italian named Tongos, committed as a lunatic.

CITY HAPPENINGS

Dr. Sheard is going to stir up the works committee in an endeavor to have something done to clear up Ashbridge's Bay.

Because he would not support his wife, Arthur Birch will be supported in the jail for 90 days by the government.

Harry Fryer of Garnet-street, a driver for the American News Agency of Bay-street, was thrown from his wagon on Spadina-avenue yesterday and had his arm broken.

There was a splendid turn out of the Toronto Festival Chorus at the Toronto College of Music Tuesday night, and the work done on portions of Max Bruch's "Mater" and Handel's "Messiah" showed that Dr. Torrington will have a fine choral force this season.

NEGLECTED ALGONQUIN PARK

SPORTSMEN THINK DIFFERENT POLICY SHOULD BE FOLLOWED TO PRESERVE FOREST RESERVE.

A special correspondent of The Detroit Tribune writes as follows from Algonquin Park, Ont.:

Sportsmen and men to whom the beauties of nature appeal strongly are wondering at the seeming failure of the provincial government of Ontario to realize the possibilities of Algonquin National Park, or at least to protect it. They declare that unless there is an awakening in the near future this beautiful spot of Canada, perhaps the beyond repair by the ax of the lumberman.

Algonquin Park, it may be explained for the benefit of those who are not well informed on the geography of the Dominion, lies some 200 miles to the north of Toronto in what are known as the Highlands of Ontario. It has an area of over 1,000,000 acres, and its average elevation above sea level is about 1000 feet, with several hills, or perhaps they should be called mountains, rise to 2000 feet.

Within its confines are some 1200 lakes and streams. The lakes are deep and clear and abound with bass, salmon trout and speckled trout. The streams furnish great sport to the sportsmen. In the woods are deer in the greatest abundance, and moose, beaver and otter are also comparatively common.

Lovers of nature who have traveled America from one end to another declare it to be one of the most beautiful regions the new world possesses. The climate is magnificent; the scenery charming and impressive, and here, only a few hours' run from the capitals of the Dominion and of Ontario, one may bury himself in a forest almost primeval.

Outside of Park Superintendent Bartlett and his staff of fourteen rangers and a few others, located at Algonquin Park, on Cache Lake, in the southern part of the park, and a comparatively small number of campers and tourists, the only inhabitants of the reserve are employees of the lumber barons.

To make the situation clearer, it should be explained that the leases held by the lumber companies were taken out before the park came under the control of the government of Ontario, twelve years ago. Some ten or twelve companies hold leases within the park, among them being A. Barnes & Co. of Bellevue, the Brennans, the St. Anthony Lumber Company, McEachern Bros., the Hawkesbury Lumber Company, J. D. Shier, Brucebridge, Mickie, Dymont & Co. of Gravenhurst, and Heath, Tate & Turnbull of Huntsville.

These concerns cut the big pine off their holding several years ago, and for some seasons have been doing comparatively little work in the park, but now with the increased prices of lumber and the demand for hardwood they are beginning to cut the birch, maple and other hardwood.

Will Mar Park.

Sportsmen who have visited the park do not believe this should be allowed, for the lumbermen leave the tops of the trees where they are felled, regardless of the fact that this seriously mars the beauty of the forests. Besides, it is pointed out that the park, as the property of the government, should be immune from the inroads of the timber workers.

To this the lumbermen reply that their leases protect them.

"Abrogate the leases," say the sportsmen. "The lumber companies are not the big pine in mind when they secured the leases, for which they pay only a nominal sum. They are now cutting them out. They have secured everything which they intended to get in the first place, and should be satisfied."

There are numerous reasons advanced to back up the claim that the timber should be left standing. Altogether the lumbermen have their eye on the beauty of the park there is the scenic water-power of it. It has been estimated that the streams having their rise in the park furnish annually aggregated water-power equal to that which would be produced by burning 1,500,000 tons of the lumber which is cut off. It is asserted, the streams in the park would be dried up, the lakes lowered, and the water-power on the lower river systems seriously impaired.

Lumbermen's Plan.

The lumbering interests, of course, look at it from a purely business standpoint and say they merely seek their rights. Aside from the question as to whether they have not already cut all the timber they expected to get when the leases were granted, it is pointed out that the government could better afford to pay them an indemnity than have several millions of acres of the park ruined for water-power purposes. And the sooner the companies are bought off, if this must be done, the better it will be for the public, such as they are, will be even more valuable than now.

Another grievance held against the lumber interests by friends of the park is the flooding of the streams for damming purposes and allowing the water to remain at the high mark for so long a time that much timber along the edges of the lakes and streams is killed.

The shores of Cache Lake, where the park headquarters are situated, and which should, of all places in the park, be an exciting spot, are lined with dead trees, gaunt and bare. They detract much from the beauty of a body of water which even now is exceptionally charming.

This killing of the shore trees has been going on for some seasons in spite of the protests of the park authorities. It is claimed that no harm would be done if the water was lowered again before warm weather sets in, a cold water does not kill the timber, but the lumber companies let their dams remain for emergency purposes, preventing the water from falling to a level of probably 75 per cent. of the lakes in the park are affected in this manner, as the streams used in logging operations extend everywhere throughout the park.

Bad for Fish, Too.

Besides giving the shores an unsightly appearance, the presence of this dead timber, much of which falls into the water, is a real source of danger to the canoeist, and also tends to spoil the spawning grounds of the fish.

"If the park was well taken over by the government in the first place, as the sportsmen argue, it is worth preserving in as near its natural state as possible, just as the Yellowstone Park is being preserved by the United States."

Ontario's forest resources are not so limited, it would appear to an unpre-

Are Your Clothes Genuine--or a Sham?

The most famous philosophy of clothes ever written dealt largely with the exposure of shams. How many men of to-day recognize the clothing-shams that are parading themselves before the public eye? Have you seen the ready-made suit that is as good as the tailor-made? or the domestic fabric that is better than the imported? No permanent or responsible business organization can afford to notice such shams. If a man wants a suit specially cut for himself by an expert tailor, we can supply him with it at a comparatively low price. If a man wants clothing that is ready-to-wear we can give it to him for about half that low price, and it will be straight honest clothing, sold close to the cost of production, and nothing extra for 'sham. Here are some examples.

Men's New Fall Suits, made from a dark heather-mixed English tweed, in small pattern, with colored overplaid, single-breasted saque style, coat cut medium length and lined with good durable Italian cloth, Saturday, \$75.00.
