STRIKE

LONDONDERRY QUIET, BUT CALL GOES OUT FOR MORE SOLDIERS

Institution of Martial Law Asked in Appeal to Dublin Castle.

SITUATION VERY GRAVE

Londonderry, June 22.—The city was quiet this afternoon. At 3 o'clock the inquest on the body of William Kane, who was shot and killed this morning, opened, but it was adjourned for a week. Of the persons injured Sunday night, two are in grave condition.

A meeting of the magistrates this afternoon decided to send a second urgent request to Dublin Castle for military reinforcements and the institution of martial law. Telegrams were also sent to the attorney-general, urging the necessity of the immediate dispatch of troops.

More Troops Asked.

Dublin, June 22.—Citizens of Londonderry, including several magistrates, have requested the Irish government to send more troops to that city. They urge that control of the city be assumed by competent military authority and that martial law be proclaimed.

The situation in Londonderry is regarded as extremely grave.

The government again today directed that the police board the train at CloghJordan for Dublin, and the railroad workers again declined, as they did yesterday, to move the train.

Other than this incident, no developments are reported in the railroad situation.

A police bicycle patrol of four was ambushed today near Bantry. One constable named Brest was killed, a sergeant was shot in the head, and another constable was shot in the body.

Appeal to Belfast Citizens.

Belfast, June 22.—The Evening Telegraph issues an appeal to the citizens not to follow the example of Londonderry, saying:

"We would appeal to those who may be anxious for reprisals to be patient. Nothing would do more to rebel party more than to see the city turned upside down by disturbances and bloodshed. To play into their hands would be a grave mistake. The bounden duty of every patriotic man is to support the authorities in repressing and maintaining law and order."

Citizens Keep Indoors.

London, June 22.—An earlier report said Civil war continued through Londonderry today with one more death, bringing the total list to eight.

Troops were protecting some of the principal streets this afternoon, but enough firing was going on to terrify the citizens and keep them indoors.

BORDEN SEEMS LIKELY TO RETAIN LEADERSHIP

Air Somewhat Cleared by White's Announcement—Unionist Caucus Discusses Increased Indemnities, Shipbuilding and Wheat Board.

Ottawa, June 22.—(Special)—Today's caucus did not definitely dispel the uncertainty which prevails about the government leadership. The subject was not mentioned, but it is now positively known that Sir Thomas White will not accept it, is, therefore, Sir Robert Borden, if he will retain it, and the impression is growing that he will, or Hon. Arthur Meighan, altho Sir Robert appears indifferent toward accepting the responsibility. "Matters of grave importance will be discussed at a caucus to be held later," announced the prime minister and this is taken to mean that on Friday next, or Tuesday of the coming week, as will announce his intention toward remaining in public life.

Three questions, increased indemnities, the wheat board and the shipbuilding campaign were before the caucus. There is little hope for the duration to continue the wheat board in office if desired and the latter policy was endorsed.

There is no doubt that there is nearly a unanimous demand in the parliamentary indemnity. Sir Robert Borden stated in caucus today that he had been in conference with Hon. W. L. Mackenzie King and Hon. T. A. Cresser on increases in salaries for judges, cabinet ministers and parliamentary representatives. They favored the first two receiving increases. Mr. King admitted that many of his supporters desired the increase in the seasonal indemnity, but reserved the right to take any position on the matter in parliament he desired. Hon. T. A. Cresser opposed the increase to members and declared his party was opposed to it.

This is news here, as the majority of his supporters were understood to favor an increase. Under the circumstances, Sir Robert said he did not propose to be responsible for bringing financial reward or political glory to Mr. King and his supporters, and this stand was endorsed by the caucus.

There was considerable opposition to continuing to effect the wheat board for another year. The Winnipeg Grain Exchange and others put up a big fight, but the caucus agreed to give the government the authority.

On the new shipbuilding policy there was complete accord. It is believed this policy will give Canada an important permanent industry, and also profit to the people without costing the country a dollar.

SHIPWORKERS' STRIKE WIDENING IN SCOPE

Liverpool, June 22.—Officers and engineers have joined the other shipworkers in their decision not to sail on ships unless they carry union wireless operators, who are on strike. The first two wireless operators, who were made in shipping circles the first to refuse to sail, were virtually at a standstill by the end of the week.

London, June 22.—The London offices of trans-Atlantic steamship companies do not anticipate that any of the big liners will be held up by the strike of wireless operators. Passengers are being booked.

NOW IT'S YELLOW FEVER REPORTED IN VERA CRUZ

Mexico City, June 22.—Yellow fever has been reported in Vera Cruz, where numerous cases of the bubonic plague were reported recently, according to newspaper despatches received today.

HOME RULE WILL NOT BE SOLUTION

Lord Robert Cecil Throws Taunt During Discussion of Bill.

London, June 22.—In the house of commons today, the government accepted an amendment to the home rule bill, proposing that the Irish representative in the imperial parliament should be 46 instead of 45 members, in order to include four representatives of the Irish universities in the interests of the minorities of south Ireland.

The government opposed an amendment suggesting that Irish representation at Westminster should cease on the Irish parliament's achieving union.

Walter Hume Long, in behalf of the government, expressed the opinion that the northern parliament would never consent to be divorced from the imperial parliament. The amendment was rejected by a large majority.

During the course of the discussion, Lord Robert Cecil declared his conviction that not a single member of the government had the slightest belief that the home rule bill would do anything whatever to solve the Irish question.

LEAGUE OF NATIONS TO DISCUSS THE ALANDS

London, Wednesday, June 23.—The London Times announces it has reason to believe that representations have been addressed to the Swedish and Finnish governments, on behalf of the so-called "minority" powers, to the effect that Sweden and Finland should refer the question of the sovereignty of the Aland Islands to the league of nations.

Sweden desires a plebiscite in the Aland Islands, which are situated in the Baltic, between Finland and Sweden, claiming the majority of the population is of Swedish origin. Finland, however, is holding out against separation of the archipelago from the mainland, on the ground that they are more nearly connected with the Finnish mainland, and are definitely referred from Sweden.

SAYS LEAGUE OF NATIONS "IS NO LONGER A DREAM"

Sir Herbert Ames, in Special Address in House of Commons, Brings Message of Confidence—Canada Made No Mistake in Entering League.

Ottawa, June 22.—(Canadian Press)—A message of confidence in the success of the League of Nations, and of praise for Canada's part therein, was delivered in the commons tonight by Sir Herbert Ames, financial secretary of the league.

"The League of Nations is no longer a dream," Sir Herbert said. "It is a reality. It has been formed; it has organs; it has functions. Many difficulties have been overcome. Many dangers avoided. There are still difficulties and dangers in the way, but I am today convinced that ultimate success is reasonably sure, so convinced that I am ready to stake my future on this issue."

Speech Closely Followed.

The speech of Canada's representatives of the secretariat of the league was followed with close interest by members of all three parties. He said he had returned to record a solemn declaration, that in his opinion, G.W. entering the league, Canada had made no mistake. He urged, if possible, fuller cooperation. Canada's position in the league was unique. She had joined, not for what she could get, but for what she could give. "Not with hampering reservations, indicative of distrust, striking at the very root of the spirit of mutual confidence in which alone a league of nations can successfully operate. She accepted the pact in its fullness, believing that the interpretation of the obligations involved would be reasonable, willing to trust and to be trusted." The dis-appointment over the failure of the United States to enter had turned all eyes toward Canada.

Canada to Share Expenses.

Canada would be asked to bear her share of the expenses. For her beyond would be no immediate return beyond the approval of conscience and the esteem of the world, but the day would come when what Canada is now giving would be returned a hundredfold. Sir Herbert appealed to Canada to be as generous as nations toward sick and suffering nations as they were known to be as individuals toward suffering individuals.

International relationships, he declared, should be based on the principle of mutual respect and cooperation.

RENTAL RECEIPTS BEAR SIGNATURES OF J. DOUGHTY

Whether Missing Secretary's or Sisters Public May Decide.

MANY SMALL RUMORS

There was a story around town yesterday to the effect that John Doughty, the private secretary to Mr. Small, and for whose arrest a reward of \$5000 is offered, was known to be in or about the city as late as the end of April last. The foundation upon which this story was built was the supposition that Doughty was signing receipts for the payment of rentals due to him, and he was also supposed to have signed a typewritten notice to one of his tenants to quit.

The World today is able to reproduce a genuine signature of Doughty, a some of his writing with the signature "Jack," a supposed signature which was on a rent receipt, and the typewritten letter to a tenant, giving him notice to quit, and signed supposedly by Doughty himself last April. The World leaves it to its readers to decide for themselves if there is any similarity between the known genuine signature and writing to the signatures on the rent receipts.

Miss Jean Doughty, a sister of the missing man, has not only been collecting her brother's private rentals, (Continued on Page 4, Column 2.)

PRINCE ARTHUR FOR SOUTH AFRICAN POST

London, June 22.—Prince Arthur of Connaught has been appointed governor-general of the Union of South Africa. He will succeed Viscount Buxton.

Prince Arthur, K.G., K.T., P.C., G.C.M.G., G.C.V.O., C.B., born Jan. 15, 1852, is a son of H.R.H. the Duke of Connaught, former governor-general of Canada, and was for many years A.D.C. to King George. On Oct. 15, 1913, he married the Duchess of Fife.

ALLEGED COLONEL HELD FOR THEFT

Sought Warrant Against General for Defalcation of Tag Funds.

WANTED HIMSELF

Hubert J. Fisher, of Newfoundland, was arrested on Shuter street yesterday afternoon by Detective Dawn for the theft of a horse and buggy valued at \$25,000 fraud rumored.

Fisher claims he turned over to a Brig-Gen. McFadden, the general was said by Fisher to live in Hamilton, and Fisher claims, McFadden secured in all some \$40,000 and was keeping it for himself.

When Fisher refused Monday afternoon and asked for a warrant, Crown Attorney Corley refused to do so until the detective had investigated the charges. No trace of an officer named McFadden of such high rank could be found and after interviewing the military, Fisher was himself detained on the information received from London.

A number of tags were printed in Hamilton, and read: "A Voice from the Dead. Remember the Soldier's Dependents." A circular also distributed declared the objective of the campaign to be \$100,000, and stated 5,000 parentless children in need of soldiers are asking to be cared for.

Fisher is alleged to have stolen a horse and buggy in London, and driven to another town. After keeping the horse for one week he is alleged to have left it. A number of people were employed as canvassers at a rate of \$3 a day and expenses. They headed their collections in, but told Detective Dawn they were still owed expense money by Fisher.

SEVEN WOMEN AMONG HARDING'S ORGANIZERS

Washington, June 22.—Management of the national Republican organization was entrusted today to an executive committee of 21 members, headed by Chairman Hays of the party's national committee. Seven women have joined on the executive committee.

Group of Harding today received a letter from the suffrage question, declared that, while he could not with propriety attempt to force any state to hasten action on the federal suffrage amendment, he would recommend ratification should any state official seek his opinion.

RAILWAYMEN'S STRIKE BEGINS; ONE THOUSAND CARS IDLE; CITY AWAITS BOARD'S ACTION

Every Effort Fails to Avert Transport Tie-Up—Railway Board Must Give 48 Hours' Notice Before Taking Over System—Daylight Sees Rolling Stock in Barns, and Jitneys Thronging Main Arteries of Traffic—Thousands Must Walk.

A thousand street cars are idle as the paper goes to press, and the morning as the myriad men and women of Toronto's varied industries go to work at office and lathe a thousand jitneys, automobiles and lorries are busily plying their trade in the public and private interests at so much per foot of yet another street railway passenger. In other words, Toronto is in the throes of another street railway strike, with limitless possibilities. Many manufacturing concerns are having conveyances arranged for their employees; on the other hand, many others are refusing this boon to their employees for various reasons. The large departmental stores are making minute arrangements for the conveyance and general comfort of their employees.

In general the situation is quiet but unpleasant. In those cases where employees are not being conveyed by their employers to their factories or places of business the strike will mean either that they remain at home and lose more than usual on account of Jitney fares, or that they will pay at least 60 cents apiece a day.

Eleventh hour conferences were held yesterday between the cabinet at Queen's Park and representatives of the men and the city to ward off the expected strike, but these proved unavailing. Among those who attended the conferences were Mayor Church, Commissioner Harris, J. W. Curry, M.L.A., Controller Gibbons, ex-Controller W. D. Robbins, Arthur Conn, Joseph Tomerment the necessity of bringing the O.R.R. to a proper sense of its duty in the men, but this was impossible, and at five o'clock Premier Drury gave out a statement to the effect that the conference had proved futile.

Every Effort Made.

Every effort had been made by the representatives of all bodies, but the Toronto Railway Company itself, to "eleventh hour" the strike, and further returning home from their shifts, deciding not to return to their cars. Midnight cars were run, and a few here and there were noted on the several routes.

Will the company attempt to run the cars while the men are out on strike? This is a question which the public would like to know. The executive committee are silent as to these intentions on the part of the company. If so, men and the company, and who might become vitally interested if the company did attempt to run the cars, stated that he had excellent authority for the statement that the company would not try to run any cars during the strike. If so, only one alternative remains. That is for the Ontario Railway does this the public will suffer no inconvenience. This, at least, is the opinion of members of the executive, who hold that if the O.R.R. accepts the conditions it wants to continue to give service to the public.

Railway Time Tables

In the event of the expected strike the following time tables will be of special interest to the public:

Trains leave the Canadian Pacific Railway station at West Toronto for Toronto at 8:03, 8:50, 9:10, 11:15, 12:25, 4:40, 6:25, 7:10, 7:25, 8:40, 10:40. Leave Toronto Union Station for West Toronto at 8 a.m., 8:40, 9:00, 10:20, 4:30 p.m., 5:40, 6:10, 6:20, 7:35, 8:00, 11:00, 12:40 (daylight saving time).

Grand Trunk trains from Weston road station for Toronto, leave at 8:10 a.m., 10:55, 12:22, 4:35, 7:15, 9:15. Leave Union Station for West Toronto at 8:00 a.m., 8:40, 12:35 p.m., 3:25, 5:00, 6:30.

Parkdale (standard time)—Leave for Toronto—7:20, 8:20, 11:02, 11:22, 12:35 p.m., 3:05, 4:45, 7:25, 7:50, 8:05, 9:25. Leave Union Station for Parkdale at 7:45, 8:50 a.m., 1:00, 12:35 (Continued on Page 4, Column 3.)

DEMOCRATS EXPECT TO FAVOR ADOPTION OF PEACE TREATY

Coming Convention Will Have to Cordially Endorse Wilson Administration.

THE IRISH QUESTION

San Francisco, June 22.—Trains from the east, bearing delegates to the national Democratic convention, have begun to arrive, but the situation as to the presidential nominations remains quiet. The Democrats are frankly on the outlook for "Hardy or Harding." They believe that a colorless candidate without enemies, and with no outstanding political past, would be their best bet in the next campaign.

It is recognized that the farming of the platform will involve a good many difficulties, and to the academy that may be engendered by certain planks of the platform they have no desire to add any animosity against the candidate. The feeling is well-nigh universal that President Wilson's administration will have to be cordially endorsed, even to the extent of recommending the adoption of the treaty of peace without reservations. Few practical politicians, however, believe that the league of nations will be a success.

BRITAIN IS EAGER TO SETTLE WITH URUGUAY

Montevideo, Uruguay, June 22.—The British government has offered to advance to July 1 the payment of \$10,000,000 gold, part of the credit of \$30,000,000 given by Uruguay for the purchase of products of that country by Great Britain. The payment under the credit agreement is due in December next. The Uruguayan government has accepted the British offer.

DENY CRISIS IS REACHED.

London, June 22.—Semi-official announcement was made today that no crisis exists in the negotiations which Premier Lloyd George is conducting with Leonid Krassin, the Russian Bolshevik minister of trade and commerce.

PENSION RECOMMENDATIONS ARE APPROVED BY COMMONS

Report of Special Re-establishment Committee is Adopted and Bills to Give Effect Introduced—W. F. Maclean Says Soldiers' Grievances Increasing—Favors Giving a Modest Bounty.

Ottawa, June 22.—(Special)—The soldiers' re-establishment problem after two special committees—ops last year and one this—have considered it still remains to some degree unsolved. This year's committee, under the presidency of Hume Cronyn, did excellent work, but refused gratuities, certain pension increases and class re-establishment.

On the presentation of the report of these committees today, all the speakers paid tribute to the exhaustive work performed, but Col. Peck declared that justice has not been done the fishermen soldiers, and moved an amendment to this effect, which he afterwards withdrew, so that the work of the committee might not be lost.

Capt. Powers (Quebec Centre) and W. F. Maclean (South York) warned the government that the soldier-problem was not entirely solved. The former declared that he had known in the past what he did now he would have supported the proposition to grant each soldier a lump sum.

View of W. F. Maclean.

W. F. Maclean warned the government that the problem could not be settled by classes, and said in part: "I wish at the outset to emphasize how much I have been impressed by the report submitted by the committee. I believe the country appreciates what the committee has done. But I have been around the country a great deal. I have seen many of the returned soldiers in the cities and towns, and they still have a grievance. I notice in this house and that those grievances are increasing, and that they are now taking the form of an appeal on behalf of classes or divisions."

Claims Will Increase.

"Today a claim is put forward for the fishermen who were soldiers, and the suggestion is made that they be assisted in re-establishing themselves (Continued on Page 2, Column 3.)

GERMAN CABINET HAS SHORT LIFE

Majority Socialists Refuse to Give Support to Fehrenbach Ministry.

London, (Wednesday), June 23.—The Fehrenbach cabinet has collapsed, owing to the majority socialist refusing to support it. This announcement is made in a despatch from Berlin to The London Times, sent at 10:30 o'clock last night.

"It is learned Tuesday night," says the correspondent, "that the majority socialists at a meeting today declined to give a vote of confidence to the Fehrenbach ministry. The on which they consented to join the government have not been fulfilled, he peoples party, also, it is reported, refuse to support the Fehrenbach government. The crisis, therefore, is again acute."

IRISH RAILWAYMEN PREFER A LOCKOUT

The Refusing to Handle Munitions, They Will Not Strike.

Dublin, June 22.—Altho some Great Southern Railway men have been dismissed for refusing to drive trains, in pursuance of their anti-munitions policy, it is expected a strike will not follow.

The policy of the men seems to be to avoid a strike, which, they say, the premier is playing for. They announce they will continue in their refusal to handle munitions or drive trains with troops aboard. They are prepared for individual dismissals, but say they will not strike in protest.

If there is to be a wholesale stoppage of traffic, the men prefer it should be by a lockout.

Officials of the National Union of Railwaymen are standing aside, and of this attitude is meeting with criticism by the executive of the Irish Labor party. The latter issued a manifesto today, advising the men not to precipitate a general walkout, but to remain steadfast in their refusal to man troop and munition trains. The manifesto declares the premier and chancellor are scheming to bring about a strike.

PENSION RECOMMENDATIONS ARE APPROVED BY COMMONS

Report of Special Re-establishment Committee is Adopted and Bills to Give Effect Introduced—W. F. Maclean Says Soldiers' Grievances Increasing—Favors Giving a Modest Bounty.

Ottawa, June 22.—(Special)—The soldiers' re-establishment problem after two special committees—ops last year and one this—have considered it still remains to some degree unsolved. This year's committee, under the presidency of Hume Cronyn, did excellent work, but refused gratuities, certain pension increases and class re-establishment.

On the presentation of the report of these committees today, all the speakers paid tribute to the exhaustive work performed, but Col. Peck declared that justice has not been done the fishermen soldiers, and moved an amendment to this effect, which he afterwards withdrew, so that the work of the committee might not be lost.

Capt. Powers (Quebec Centre) and W. F. Maclean (South York) warned the government that the soldier-problem was not entirely solved. The former declared that he had known in the past what he did now he would have supported the proposition to grant each soldier a lump sum.

View of W. F. Maclean.

W. F. Maclean warned the government that the problem could not be settled by classes, and said in part: "I wish at the outset to emphasize how much I have been impressed by the report submitted by the committee. I believe the country appreciates what the committee has done. But I have been around the country a great deal. I have seen many of the returned soldiers in the cities and towns, and they still have a grievance. I notice in this house and that those grievances are increasing, and that they are now taking the form of an appeal on behalf of classes or divisions."

Claims Will Increase.

"Today a claim is put forward for the fishermen who were soldiers, and the suggestion is made that they be assisted in re-establishing themselves (Continued on Page 2, Column 3.)

GERMAN CABINET HAS SHORT LIFE

Majority Socialists Refuse to Give Support to Fehrenbach Ministry.

London, (Wednesday), June 23.—The Fehrenbach cabinet has collapsed, owing to the majority socialist refusing to support it. This announcement is made in a despatch from Berlin to The London Times, sent at 10:30 o'clock last night.

"It is learned Tuesday night," says the correspondent, "that the majority socialists at a meeting today declined to give a vote of confidence to the Fehrenbach ministry. The on which they consented to join the government have not been fulfilled, he peoples party, also, it is reported, refuse to support the Fehrenbach government. The crisis, therefore, is again acute."

RAILWAYMEN'S STRIKE BEGINS; ONE THOUSAND CARS IDLE; CITY AWAITS BOARD'S ACTION

Every Effort Fails to Avert Transport Tie-Up—Railway Board Must Give 48 Hours' Notice Before Taking Over System—Daylight Sees Rolling Stock in Barns, and Jitneys Thronging Main Arteries of Traffic—Thousands Must Walk.

A thousand street cars are idle as the paper goes to press, and the morning as the myriad men and women of Toronto's varied industries go to work at office and lathe a thousand jitneys, automobiles and lorries are busily plying their trade in the public and private interests at so much per foot of yet another street railway passenger. In other words, Toronto is in the throes of another street railway strike, with limitless possibilities. Many manufacturing concerns are having conveyances arranged for their employees; on the other hand, many others are refusing this boon to their employees for various reasons. The large departmental stores are making minute arrangements for the conveyance and general comfort of their employees.

In general the situation is quiet but unpleasant. In those cases where employees are not being conveyed by their employers to their factories or places of business the strike will mean either that they remain at home and lose more than usual on account of Jitney fares, or that they will pay at least 60 cents apiece a day.

Eleventh hour conferences were held yesterday between the cabinet at Queen's Park and representatives of the men and the city to ward off the expected strike, but these proved unavailing. Among those who attended the conferences were Mayor Church, Commissioner Harris, J. W. Curry, M.L.A., Controller Gibbons, ex-Controller W. D. Robbins, Arthur Conn, Joseph Tomerment the necessity of bringing the O.R.R. to a proper sense of its duty in the men, but this was impossible, and at five o'clock Premier Drury gave out a statement to the effect that the conference had proved futile.

Every Effort Made.

Every effort had been made by the representatives of all bodies, but the Toronto Railway Company itself, to "eleventh hour" the strike, and further returning home from their shifts, deciding not to return to their cars. Midnight cars were run, and a few here and there were noted on the several routes.

Will the company attempt to run the cars while the men are out on strike? This is a question which the public would like to know. The executive committee are silent as to these intentions on the part of the company. If so, men and the company, and who might become vitally interested if the company did attempt to run the cars, stated that he had excellent authority for the statement that the company would not try to run any cars during the strike. If so, only one alternative remains. That is for the Ontario Railway does this the public will suffer no inconvenience. This, at least, is the opinion of members of the executive, who hold that if the O.R.R. accepts the conditions it wants to continue to give service to the public.

Railway Time Tables

In the event of the expected strike the following time tables will be of special interest to the public:

London, Ont., June 22.—(By Canadian Press).—"It is my honest conviction that I did not make the bribery charges at the picnic of the United Farmers of East Middlesex in this city recently which were credited to me by certain newspapers," said Andrew Hicks, M.L.A. for South Huron, when interviewed today. Mr. Hicks spent a few hours in London while en route to Toronto, where he and Attorney-General Haney will go into executive session regarding the matter. "I was confused," he said. "I had no notes of the speech to prove that I didn't say it. When the papers all over the country came out definitely that I did say it, I became puzzled. Then you see, Hon. Peter Smith, the provincial treasurer, who is one of my best friends, supported in a measure, the claims of the newspapers a few days later. I thought then that there must have been something in it."

FAITH HEALER DREADS PUBLICITY

Local Clergy Refuse James Hickson's Toronto Address—Must Keep Quiet.

The coming visit of James Moore Hickson to Toronto is causing quite a stir in religious circles. Mr. Hickson will arrive in the city tonight, but the place where he will stay or the time of his arrival is being kept a secret, as the "faith healer" has a great dread of publicity. Hundreds of people have written and telephoned the local clergy asking for Mr. Hickson's address, but all have been refused, as it is desired that Mr. Hickson shall have absolute quiet during his leisure in the city.

Time for Services. The services which Mr. Hickson will conduct in St. James' Cathedral under the auspices of the Toronto Anglican society will commence on Thursday morning at 9.30. The south door of the cathedral will be opened first and 750 ticket holders admitted. Only those desiring to be healed, with attendants and the clergy will be admitted. Fifteen hundred "healing tickets" have been issued, and the remaining 750 will be admitted on Friday morning. Only a few tickets have been issued to persons outside the city.

An invitation has been extended to ministers of all denominations to attend the healing missions at St. James', provided room can be found. The services will be opened with prayer and address by Mr. Hickson follows. The sick will then make their way to the chancel rail, where there will be the laying on of hands by Mr. Hickson. The benediction will be pronounced by the clergy.

Depend on Faith. The results will depend to a large extent on the faith of those receiving attention and their spiritual devotion before and after the laying on of hands. On Thursday evening Mr. Hickson will lecture in Convocation Hall. Ticket holders will be admitted up to eight o'clock. Then the doors will be opened to the public.

As to where Mr. Hickson will go to when he leaves Toronto, the clergy cannot tell. "Wild horses could not draw Mr. Hickson what he intends to do next," said Canon Plumptre. "He has a great horror of publicity. In appearance he seems to be just a quiet business man, but he has a beautiful character and great spiritual power." Vouches for Healer. Yesterday morning Canon Brain received a letter from Rev. H. F. Munson, rector of the First Baptist Church, Louisville, Ky., where Mr. Hickson has lately visited. The reverend gentleman wrote the following: "I am glad," says the letter, "that you are to have Mr. Hickson in Toronto, for we had a wonderful mission here a year ago. His spiritual influence and uplift has been the result. His missions require a lot of preparation, and I strongly emphasize the fact that it is a spiritual mission, and that one was not just looking for bodily results. The people should be made to realize that the spirit is more than the body, and in ministering to the spirit you are bound to minister to the body; and so there have been remarkable results, both physically and spiritually. People have told me how much they have been helped both ways, and the spiritual atmosphere created in the church at certain places in the city was wonderful. The best part of it is that it is still being felt by the people."

SPECIAL REPERT PROGRAM.

Toronto's newspaper critics have spoken well of the feature attraction at the Regent Theatre this week, and have complimented Mildred Harris as the Chaplin in "The Inferior Sex." One review states: "There is a good deal of surprise at the end, but an interesting finish to a plot that seems commonplace at first, though it develops considerable ingenuity." The feature attraction both Saturday and evening will be pretty Mary Miles Minter, in "Nurse Marjorie," while each afternoon at 2.30 sharp a Red Riding Hood will be shown especially for the children, and each Monday, Wednesday and Friday thereafter until last trip September 12.

"TECH" TEACHERS' CLAIMS DISALLOWED

The Industrial Education Committee Do Not Consider Grievances Justified.

"It would cost the city of Toronto \$20,000 a year to have all the fitting up and repair work at the Central Technical High School done by outsiders," declared Principal A. C. McKay at the meeting of the advisory industrial education committee yesterday afternoon.

Principal McKay declared the plea that the petitioners were on a par with the regular teachers was mere poppycock. They were engaged at a higher rate of pay than they enjoyed a regular rate, ranging from \$2000 to \$2750 a year. They had a nominal allowance of three weeks' vacation, but they actually had about five weeks. Some weeks ago they conferred with him on the subject, and he understood that they had been convinced that the basis on which they were engaged was equitable.

On motion of Trustee Dineen it was decided to make no change in the present terms upon which the industrial teachers were engaged.

SENTENCED TO PEN

In the sessions yesterday, Judge Coatsworth passed sentence of three years at Kingston Penitentiary on George Webster for the theft of \$40 and a watch from Dan De Gallo, an Italian, who told the court that accused and another man had robbed him by violence after an unsuccessful attempt to get him to join in a poker game.

Mrs. Groves, chairman, stated that two of the industrial teachers had called on her, and that she had assured them that any grievance brought before the committee would be carefully considered.

PROTEST AGAINST DELAY

Principal McKay made a vigorous protest against any further postponement of the erection of the branch technical high school for the eastern district. He pointed out that the demand for industrial education in the Riverdale and Danforth areas districts was outstripping the facilities and that a site was acquired several years ago north of Danforth, between Greenwood and Donlands avenues.

Miss Elsie D. Ashall's resignation as assistant clerk in the registrar's office was accepted.

The costs of the solicitors acting for W. J. Hevey in his action against James Simpson were yesterday taxed at \$780.50. The Principle of Promotion.

The Dominion Civil Service Commission did much to make civil service reform acceptable when it promoted Postmaster Lemon, of Toronto, to his present position. It was taken as indicating that government officials, like the officials and employees of private corporations, could confidently count upon advancement if they rendered satisfactory service. The same principle should obtain in municipal affairs.

The city council Monday night in referring back to the board of control the appointment of Henry Reburn as finance commissioner, apparently departed from that principle, but upon the ground, as we understand it, that Mr. Reburn was not qualified for the position. The majority of the board of control thought that he was, and it was stated in the debate on Monday night that Mr. Bradshaw considered Mr. Reburn to be qualified for the position.

However, this is a question of fact and does not affect the principle. No one should be appointed to any office for which he is not competent. But where several candidates possess the proper qualifications that candidate should certainly be appointed who is entitled by his merits to promotion.

An Undemocratic Democracy.

The Democratic national convention which assembled next week at San Francisco will be handicapped by two rules which certainly appear to be undemocratic. The first is the unit rule under which the majority of the delegates from any state may cast the solid vote of that state for their candidate. Thus if sixteen of the thirty delegates from Indiana favored Mr. Marshall and the remaining fourteen favored Governor Cox, the sixteen Marshall delegates could cast thirty votes for their candidate ballot after ballot no matter how strenuously the fourteen Cox delegates might object.

The other rule to which we refer is the one that requires a two-thirds majority to nominate. Eight years ago at Baltimore Chamberlain had a clear majority on several ballots, but Mr. Bryan, in control of something like over one-third of the convention, was enabled to bring about the nomination of President Wilson. Three hundred and thirty-four delegates in a convention of one thousand could absolutely veto the nomination of a candidate enthusiastically supported by a majority of the convention.

This two-thirds rule would seem to make for endless deadlock and delay, and it has worked out in that way in two or three instances. As a rule, however, the candidate clearly favored by a majority of the convention has no difficulty in getting the necessary two-thirds. It is because there is no outstanding favorite at the coming convention that something like a deadlock is expected. Perhaps, however, at San Francisco, as at Chicago, the hotelkeepers and their rates may combine to expedite the work of the convention.

Hicks, Taylor and Fox.

Many papers have been all hot up over the three-cornered bribery talk of Hicks, Taylor and Cox—three members of the legislature for constituencies that abut on the southwestern shores of this banner province of Ontario. But none of the commentators who become indignant at the peculiar talk of the three seem to descant on the most interesting aspect of the phenomenon. It is that a new type of politician is reflecting an old type of political mentality in a new way.

Hicks says appalling sums of money have been offered U.F.O. men to support legislative measures. Taylor says he was offered a thousand dollars, but he won't say by whom. Fox says Hicks is making a fool of himself, for what he, "Fox," said to him was by way of a joke, and nothing more should have been thought of it.

Aside from the indiscreet tongue-lashing of the U.F.O. whip, what do these talkings imply? They indicate that in the circles from which the U.F.O. men come there had grown up a habit of regarding financial impropriety in political life as so common a condition that it could be joked about without notice taken, and that it could be baldly asserted on a public platform to the advantage of thousands of rural listeners without anybody giving particular heed to it. Mr. Hicks is much surprised that so much attention has been paid to his remarks, the accuracy of the first report of which he denied, and then admitted.

The important factor in these singular episodes is that they reflect a political mentality that was evidently prevalent where political affairs were considered. They show that an improvement in tone is desirable in the country, just as the timber disclosures

before the Riddell-Latchford commission prove that a revision of standards is urgently necessary among those who buy live timber from the government, and a recognition among those who are employed by the province that a man cannot honorably serve two masters.

Making Two Bites of the Cherry.

The board of commerce will shortly submit to the attorney-general of Ontario its opinion that the firm of H. P. Eckardt & Company of Toronto are guilty of an offence under section 17 of the combines and fair prices act by keeping in stock an unreasonable amount of granulated and yellow sugar, beyond what is reasonable for the purposes of business, and also in selling sugar at gross profits of approximately 13.8 per cent. in the case of granulated sugar and 23.6 per cent. on sales of yellow sugar—Canadian Press despatch from Ottawa.

The above despatch illustrates the slow and roundabout methods of our combines and fair prices act. A federal government board conducts an investigation and arrives at the conclusion that the law has been violated, and that a certain firm has been guilty of hoarding and profiteering. The board may be right or it may be wrong in its conclusions; as to that we express no opinion, but under the law it can do nothing more than call upon a provincial attorney-general to proceed against the offender. The despatch says that "the board of commerce will shortly submit to the attorney-general of Ontario its opinion." This, we have no doubt, the board will do, and we have every confidence that Attorney-General Raney will launch the necessary prosecution.

But it is up to Attorney-General Raney to make up his own mind and proceed in his own way. The members of the board are officials of the Dominion government. In the natural order of things they should go to their own attorney-general, the Dominion minister of justice, and he should proceed with the prosecution. Indeed, he should be in close touch with them so as to enforce their findings and proceed against those indicted by them as profiteers.

They seem to get more direct action in the United States. The last edition of The Sunday World carried a New York despatch which opened thus:

Frederick Gimbel, first vice-president of Gimbel Brothers' department store, with branches in many cities throughout the United States, was arrested today by department of justice agents on a charge of profiteering in clothing.

Agents of the federal department of justice collected the evidence against the Gimbel firm, communicated it to the department, and officials of that department lost no time in making the arrest. The accused gave bail and was released after a running fight with moving picture men, which slightly entertained Broadway, and their preliminary hearing before a magistrate appointed by the federal government is set for next week.

The whole responsibility is and should be on the one government. It is the statute against hoarding and profiteering and created the board of commerce. It was the Dominion government which appointed the members of that board, and the Dominion government should be the one responsible for enforcing the law and following up the work of the board.

In the Canadian case above cited we have every confidence in the board of commerce getting word to the attorney-general of Ontario, and in the attorney-general doing what he conceives to be his duty in the premises. He may not agree with the board of commerce and decline to bring any prosecution. In any event there is delay and divided authority. The law is made by the Dominion, but its enforcement depends upon the provincial governments. Any provincial government can thus nullify at its pleasure the law of the Dominion. The one remedy every day more needed is federal enforcement of federal law.

"In the Public Interest."

The full correspondence with Judge Robson on his resignation of the chairmanship of the board of commerce is withheld from parliament because Sir George Foster says, to disclose it would not be in the public interest. In international diplomacy the League of Nations is to displace the age-long habit of making secret treaties. Henceforth no treaty is to be binding unless it is fully disclosed when it is made. The time has gone by when nations will accept obligations to shed unlimited blood because a few men secretly signed documents pledging other men to die for certain bargains with the making of which they were concealed from them. The principle is sound internationally. It is sound domestically, and there is plenty of room for its frank observance. Instead of continuance of the policy of telling the people that they must not know details of their own affairs.

The board of commerce handles matters that concern every day's purchases of every Canadian housewife. Its creation was an innovation upon governmental administration and judicial practice. Its head resigned under circumstances which caused his late colleagues to announce that he was not in sympathy with certain of the purposes for which the nation believes

THE PUBLIC TO JITNEY DRIVER: "Once there was a man and he had a goose that laid him a golden egg, and he killed him—now, go easy on your goose."

FIND MANY FLAWS IN NEW PENSIONS

(Continued From Page 1.)

who can prove the existence of such an understanding should be given consideration, not less generous than already given to the "war bride" of a few days' acquaintance before marriage.

Speaking of insurance, Mr. Turley said: "The plan suggested sounds fairly good, but the government might consider the wisdom of giving a fully paid-up policy to the men whom they now want to buy up by offering payment of small disability pension in a lump sum. Such a policy might be used as security for loans, etc., and insurance would not be too much to give, and there is likely to be some objection to paying on the part of the policy holders, when they note that the man who is not a pensioner may, in the event of becoming a total disability, receive payment of the full amount of the policy, together with waiving of premium."

The beneficiaries listed are too limited. In place of parents, wife, husband, grandchild, brother or sister, the policy should be payable to the "next of kin," nearest friend, or whoever the insured may name as beneficiary.

Mr. Laws Needed.

Then touching on loans for re-establishment, Mr. Turley went on to say: "Further effort should be made to obtain an extension of the plan of granting loans for re-establishment. The original N.V.A. plan could be amended to come within the limits of financial aid already extended to the two classes who now qualify, and the result would be very beneficial to the individual in need of a 'boost.' While the state, in turn, would see its reward in the resultant 'welding' into Canadian citizenship of men who are apt to seek elsewhere if no further aid to contentment is offered them here."

Altho pension commissioners' recommendations have not yet been adopted by parliament, the text of their report has been received in Toronto, and promises an increase all round.

The pensions of all ranks below lieutenant have been lifted to the equivalent scale.

The pensions of dependent parents or widows of the above-named ranks in each case \$720 annually, or \$144 more than they are getting at the present time.

Orphans' Pensions.

Pensions in respect of the children of widows have been brought up to the level of the standard pensioners' allowance: First child, \$180; second child, \$100 to \$144; third and subsequent children, \$106 to \$120.

Orphan children of all ranks are to be granted the following increases:

Present rate.	New rate.
First child	\$80 \$90
Second orphan	240 258
Subsequent orphans	192 240

DEMOCRATS FAVOR THE PEACE TREATY

(Continued From Page 1.)

is taken for granted that the committee on resolutions will turn down any wet plank, but the fight on this issue may be carried to the floor of the convention. The wets are not asked for the repeal of the eighteenth amendment, but only an amendment to the Volstead act, which will permit state local option in the matter of light wine and beers. Such a plank, it is argued, would help the party powerfully in big cities like New York, Chicago, Detroit and St. Louis, and might affect the result of the election in states like New York, Illinois, Michigan, Ohio and Wisconsin. The adoption of a moist plank would almost necessitate the nomination of a candidate quite satisfactory to the drys, and would therefore, militate against the chances of Governor Cox, M. Cox of Ohio, who still seems to be the leading candidate for the presidential nomination.

A plank on the Irish question is certain to go before the committee on resolutions and its rejection might seriously embarrass the party in Democratic strongholds, where the Irish vote is predominant. The Tammany delegation will strenuously insist upon some such plank being placed in the national platform. It is not certain how Mr. Bryan will stand on this issue. He has already taken in a good deal of territory with his fight against the peace treaty. President Wilson's father was doing him undertakes to fight Tammany Hall on the Irish resolution he may find a powerful combination arrayed against him.

Anybody's Guess.

Gossip about the presidential nomination is largely guesswork as no candidate can possibly claim anything like a two-thirds majority in the convention. The Tammany delegation has developed a certain strength, but it is feared that his nomination would be taken as a challenge by radical and socialist groups all over the country. Governor Cox suffers from being the leading candidate and from the open attack made on him by Mr. Bryan and the Anti-Saloon League. Vice-President Marshall and Senator Carter H. Glass of Virginia will be present at the convention and are likely to develop strength as the balloting proceeds. Beyond that there is little in the way of forecasting.

Democrats, like the Republicans, are noisy about the possible formation of a third party. William Randolph Hearst wants a new party and would cheerfully support Senator Hiram Johnson. A new party is likely to be formed at the convention called to meet in Chicago next month, which will endeavor to unite the farmers' labor party and the national republican league. The movement will be the logical candidate of the new party, but he is feeble healthily and the nomination is likely to go to Senator Johnson. The movement will appeal to the radical element throughout the country and is likely to receive financial and journalistic support from Mr. Hearst.

REPARATION ISSUE IS UP TO EXPERTS

(Continued From Page 1.)

Supreme Council of Allies to Meet in Brussels, July 2.

Boulogne, June 22.—The supreme council of the allies, after holding a three-hour session today, adjourned to meet at Brussels on July 2, leaving most of the questions on its program undecided.

The problem of the German reparations was referred to experts, who will meet in Paris and endeavor to reconcile the conflicting viewpoints among the allies regarding the division of the sums Germany is to pay.

The experts likewise are still confronted with the task of reaching a final decision as to the total amount of the reparations and the method of payment.

The Turkish question is considered to have been settled by the council's approval of military action against the Turkish Nationalists, as planned by Marshal Poch and Field Marshal Wilson, and by the decision that the Turks must reply to the peace terms by the time set, June 28. This decision is interpreted as meaning that the Turks must sign the treaty, as it was prepared at the San Remo conference.

The Russian question came up this morning, but was left undecided. It was agreed, pending further consideration, that the economic negotiations between the French and British delegates and the soviet representatives should continue, without implying in any sense recognition of the soviet government.

Premier Lloyd George leaves this afternoon for England, and Premier Millerand for Paris.

JUDITH OF BLUE LAKE RANCH

By JACKSON GREGORY.

CHAPTER III. (CONTINUED).

In due time Ward came back. He was leading a saddled horse, a great, wild-eyed roan that snarped viciously as he came on, walking with the wide, spreading stride of a horse little used to the saddle. Judith measured him with her eyes as she had measured the men in the bunk house.

"He's an ugly devil," she said, and Lee, at her side, smiled again. But the girl had not altered her intention. She stepped closer, looking to cinch, bit, and reins. She commanded Ward to draw the laigo tighter, and Ward did so, dodging back as the big brute snapped at him.

Judith laughed. "Look out, Ward," she taunted him. "He's after your hair!"

Two men held the Prince. At Judith's command they shortened the stirrups and then blinded him with a bandanna handkerchief. Then, moving with almost incredible swiftness, she was in the saddle, the reins firmly gripped. The Prince, a sudden trembling thrill through him, stood with his four feet planted. The girl leaned forward and whipped the blind from his red-rimmed eyes.

"There's a good boy!" said Judith coolly. "Buck a little for the lady, Prince!"

Slowly the great muscles of Prince's leg and shoulder and flank corded. The trembling passed; he was like a horse carved in bluish granite. He shook his head a little. Judith, her hand tightening upon the reins, held his head well up, the severe bit thwarting the attempt to get his nose down between his forelegs.

Then suddenly, without sign of warning, the horse whirled, leaving far out to the left, striking with hard hoofs hunched, gathering himself as he landed, swerving with the quickness of light, plunging again to the right. And again he stood still. Judith, sitting securely on his rebellious back, laughed, her laughter, cool and unafraid, sent a strange little thrill through Bud Lee, who, with fear in his heart, was watching her.

"Look out for him now," he called warningly.

In truth the Prince had not yet begun. He had tried a trick which would have unsettled any but one who rode well. He knew that he had to do with something more than a rank amateur.

Now he plunged toward the corral, his purpose plain, the one desire in his heart to crush his rider against the high fence. But Judith's spurs answered him, and the bit, savage in his jaws, brought him about, whirling, striking, bucking as only a strong, fearless, devil-hearted horse knows how to buck. He doubled up a series of short jumps which tore and jerked at her body, which strove to lean her knees away from his sides and break the grip of her hand on the reins. But it seemed to her that she knew how to sway her body, two separate beings but just one, moving together in some mad devil dance. The Prince, in the midst of the vicious bucking, tried to rear, seeking to throw himself backward; a quick, sharp blow of a loaded quirt

between his ears brought his forehead back to earth.

"Can she ride?" whispered Bud Lee.

"Can she know?" Judith asked.

Again the maddened Prince reared and again she brought him to earth. Again he resumed the terribly tearing series of short, sharp bucks. And still, her hair tumbling, blown about her shoulders, she rode him.

Old Carson was muttering and pulling at his lip nervously. Out of the corner of his mouth in a voice that was almost a whimper he kept cursing and saying to Ward Hannon: "Now hold a steady law it when she was too close to avenge."

The men watching saw her lean forward in the saddle, gather her reins, lift her head. Then the lifted whip came down on the reins, the Prince's sweating sides, the big horse leaped far and clear of the ditch and there floated back Judith's laughter.

Three minutes later she rode back to the bunkhouse and slipped from the saddle in his hand, she said to her, had his hand on her hip.

"Now, Ward," she said quickly, her breathing hurried, her cheeks red, "what do you say?"

"I said I'd stick it if you rode him," muttered Ward. "And—"

"And," cried the girl with quick passion, "I'll tell you something. You've got a great big lumbering coward! Stick with me!" She laughed again a little, laugh ringing with her scorn. "Here's your outfit. I've gentled him a bit. You ride him!"

His fellows laughed at Ward, for the field foreman was no horseman and the timorous way in which he had fought off the Prince, the fact that he drew back now, muttering.

"Ride him!" cried Judith, her voice stinging him. "Ride him or get off the ranch! Which is it?"

Ward Hannon, glad of the opening, answered surlily: "Aw! think I want to take orders off'n a woman? You're right, I'll get off'n the ranch!"

"That's two down," said Judith. "Now, take this horse back to the stable. I'm going up to the office. You men come there in five minutes. If you want to stay, and are worth your salt, you can. Or I'll give you your time. It's a free country. But you are a pretty low-lived bunch!"

Then, without turning, she went swiftly to the ranch-house. Old man Carson wiped the sweat from his forehead.

"I remember hearing about Luke Sanford's girl," he said simply. "This is her, all right."

LITTLE YORK DEPOT DISGRACE TO CITY

Is Opinion of East Toronto Business Men—Terminal Approaches Inadequate.

Little York, the new eastern terminal of the Dominion Government Railways is 70 acres in extent, extending from Danforth avenue to East Gerrard street and will be sufficiently commodious to handle the great volume of traffic expected when arrangements are completed.

At the present time, however, the approaches are of the crudest description, those to the freight yards being only mud roads and the cause of endless complaints by shippers, business men, teamsters and others.

The old wooden bridge on Main street over the tracks is in a dilapidated condition and dangerous to heavy traffic. According to business men it is a disgrace to the city and should be replaced by a viaduct.

Little York station is out of date and only suitable for a wayside village. The waiting room can only accommodate 22 passengers, when at the present time as many as 200 passengers are to be seen waiting for trains. On wet days many women and children are compelled to stand on the open platform unable to secure shelter.

Another accident occurred during the day, when a little boy, a member of the Sunday school, was kicked by a galloping horse and rendered unconscious. The boy was taken home by his parents.

The driver of the Salada truck was attempting to cross over the intersection of St. Clair gardens and St. Clair avenue, as the civic car was approaching from the west, the truck head on and turned it upside down, smashing the woodwork and tearing the wheels from their sockets.

The civic car was slightly lacerated and this was the only injury. The civic car did not escape from the front of the car was torn off, the fender crumpled and the packages of tea were strewn over the tracks.

Another accident on St. Clair avenue occurred yesterday around 5 p.m., when a large auto truck owned by the Salada Tea Company came into collision going east with a civic car No. 18. The driver of the truck was attempting to cross over the intersection of St. Clair gardens and St. Clair avenue, as the civic car was approaching from the west, the truck head on and turned it upside down, smashing the woodwork and tearing the wheels from their sockets.

Could Not Sleep

Mr. Ernest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Advertisement for RINSO soap. Text: "Try it next Monday RINSO—not a cake soap, not a washing powder—a new form of soap in granules. SOAK the clothes; that's all. —the very hardest things! Children's rompers, grimy from the playground—kitchen aprons, long used curtains, towels—things you dread washing because they need so much rubbing—pile them into a tub with RINSO. Other things too! RINSO harms nothing! Let them soak over night or for three hours in the morning. Then—just rinse them. They're gleaming white and CLEAN. The gentle strength of rich RINSO suds has loosened the dirt. It just runs away. The bubbly tubful of rich RINSO suds has done all the work. Seems too good to be true, does it? Just one package of RINSO—enough for the week's wash—will prove it." WHAT GOOD IS ARBITRATION?

THE Amalgamated Association of Street and Electric Railway Employees to which our employes belong, advocate arbitration as the best means of settling wage disputes. This principle has been honored more in the breach than in the observance by our employe members of this union.

They applied for a Board in 1910 and accepted the findings which gave them an increase in wages.

In 1917 they refused an Arbitration Board under the Industrial Disputes Act, saying that government arbitrations were too slow. They were then offered an Arbitration Board of Toronto citizens and an immediate hearing, which they likewise refused and went on strike for two and a half days. Efforts on the part of Provincial Government officials resulted in the men returning to work at an increase of 6c per hour and the promise of an Arbitration Board to further consider their case. They then accepted a government Arbitration Board, which they had previously refused, and were awarded an additional cent per hour and an agreement was made to run for two years, expiring in June, 1919.

In the Fall of 1918 the union "flopped" its policy, this time to ask for a Conciliation Board to grant a "war bonus." The Board was granted, and awarded 2c per hour although our agreement still had eight months to run.

When the eight-months' period was up and the agreement expired in June, 1919, the union "flopped back" again and refused to accept an Arbitration Board or to appoint a representative to it, and the Government had to appoint one for the union. While this Board was sitting, the men, in defiance of the law, went out on strike for twelve days. The Railway Board took possession of the property and offered the men the scale of wages then being paid on the civic lines, a maximum of 48c per hour, pending the decision of the Arbitration Board; but the civic wage scale was not good enough for them at that time and they refused it. Subsequently, the interim report of the Conciliation Board, recommending that a five-cent fare be granted the Company, and that the men be paid the present scale of wages, was announced, and the Railway Board offered this to the men, which they accepted and returned to work. This arrangement covered the period up to June 15, 1920.

This year the men accepted an Arbitration Board, appointed a representative to it, and the award of this Board states that the men are not entitled to a further increase in wages. The men once more "flopped" on their policy and decided they would not accept the award, and have gone on strike to secure an entirely different demand to that which was originally claimed by them.

The Company has always accepted the award of the Arbitration Board, regardless of whether an agreement was in force or whether we considered the award to be just or otherwise.

OUR EXPERIENCE IS THAT ARBITRATION IS ALL RIGHT IF THE AWARD SUITS THE MEN, BUT IS SOMETHING TO BE CAST ASIDE WHEN IT DOES NOT MEET WITH THEIR APPROVAL.

IS IT A QUESTION WITH THE UNION OF "HEADS I WIN, TAILS YOU LOSE"?

IS IT A QUESTION OF MIGHT AGAINST RIGHT?

If the Company, despite its adverse financial condition, has accepted all of the awards when they granted increases, surely some element of fairness in public opinion will declare that the men should accept the award in this instance;

Otherwise Arbitrations are a farce.

If arbitration awards are for acceptance by employers when it means the payment of wages satisfactory to the men, but non-acceptance by the employes when the award is not satisfactory to them, how long will employers continue to respect awards of Arbitration Boards, and who will blame employers for not accepting adverse awards?

In these circumstances, is the public to expect strikes every year unless the Company hands out just whatever the employes demand?

CORN DECLINES ON HEAVIER RECEIPTS

Big Commission Houses on Selling Side—Oats Also Unloaded.

Chicago, June 22.—Corn underwent a sharp break in price today, largely as a result of opinion that receipts would for some time continue to be in excess of what bulls had looked for. The close was unaltered, 9 1/2c to 2 1/2c net lower, with July \$1.78 to \$1.79 1/2, and September \$1.69 1/2 to \$1.69 3/4. Oats lost 1 1/2c to 2 1/2c in a volitional sale to 15c.

Instead of showing curtailment, receipts of corn today proved heavy and bullish confidence vanished. Right from the outset, big commission houses were active on the selling side, and in the absence of any energetic resistance were able to force an almost continuous set-back of values.

CATTLE RUN LIGHT AND PRICES STEADY

Calf Market Strong After the Decline.

With around 300 cattle on sale yesterday and a good many of these held over for today's market, trading was quiet for all classes, with practically no price changes of note. What cattle were offered and sold were readily disposed of other. It looks as tho we would have a fair run for today.

In the sheep and lambs the trend was toward former prices, with the calf market stronger and anywhere from 50c to \$1 up over Monday's decline. The hog market is steady on the basis of 13 1/2c to the farmer, 18 1/2c f.o.b. and 19 1/2c fed and watered.
