COLLEGI RY.

REPORT OF THE

MISSIONARY SOCIETY OF THE M. E. C. IN U. C.

From 1st. Sept. 1829 to 1st. Sept. 1831.

It is with feelings of gratitude to God for the abundant blessings with which he has favoured the Methodist Missionary Society, during the two past years, that the Board present to the public their Sixth

Annual Report.

There is no subject that more engrosses the minds of Christians in Great Britain and America, and there is no benevolent institution which calls forth more united efforts for its support, than the cause of Christian Missions, and we think it would be difficult to find in either country, an enlightened Christian, who would assert, that this cause is undeserving of the support which it receives from its most devoted friends. Nothing can be more pleasing to a benevolent mind than a view of the vast sum of good which is effected through the instrumentality of the Methodist and other Missionary Societies of England, in sending the blessings of Christianity and civilization to many thousands dwelling in Asia, Africa, and the "Islands of the Seas." In this great and glorious enterprise, Missionary Societies of different names in the United States, are taking an active part, and although the operations of our Society, when compared to the labours of these powerful Associations are very limited indeed, yet we cannot but rejoice in the great honour the Lord has conferred upon us, in crowning the labours of the Society with success, in the conversion of several hundreds of the Aborigines of our Country, and in favouring with religious instruction and Christian ordinances, hundreds living in new and destitute settlements situated far in the interior of the Province.

Most of the tribes of Indians which have been christianized, are now located in villages and settlements, which have been principally prepared for them by the Colonial Government, in all of which places School Houses are erected, and Literary and Religious instruction, are regularly imparted through the instrumentality of Missionaries and Teachers mployed and supported by this Society.—But as a particular knowledge of these interesting Missions is desired by our Patrons and Friends, we proceed to give a more detailed ac-

count of them.

GRAPE ISLAND MISSION.

Continues (as usual) in a state of prosperity, the School is well attended and numbers between 40 and 50 Scholars, the most of whom are making very considerable proficiency in acquiring useful knowledge.—The following is an extract of a letter from the Teacher; dated Grape Island, August 20: "The number of Scholars in this School is 42, twenty six Boys and sixteen Girls, the different branch-

bers

rece

es taught are, Spelling, Reading, Writing, Arithmetic, and English Grammar; together with Geography, Astronomy, and Natural Philo. sophy. The last of these branches are principally taught on the infant plan." Of the Society, the committee have to state, that although there is a little decrease (owing to deaths and removals) in number, yet there is no abatement in the fervency of the piety of those who remain, but with very few exceptions they still continue "steadfast; unmovable;" and show by their lives they are "honest in a sacred cause." There have been several triumphant deaths, at this station during the two past years; among whom we would beg leave to mention, those of Johnson and John Pauls. Of the former, the Rev. W. Case, in a letter to Dr. Bangs, dated "Grape Island, July 16 1831," (and published in the Christian Advocate of August 20th,) says, "The night before his death I administered the Lord's Supper to Johnson, it was a season of much melting of hearts, and strength of faith, and all present were greatly blessed; Johnson was very happy, raising his emaciated arms abroad, he many times brought his hands together, exclaining 'God opens the door of Heaven; I see the light of his glory; my soul is very happy; I am going to heaven where Jesus is!' May our last end be like this Christian Indian's, triumphing in the God of our salvation." With respect to John Pauls, Mr. Hulbert, teacher of the school writes as follows: "John Pauls had been consumptive for some years, but was not confined to his bed until about two months before he died, from that time he appeared to be sensible of his approaching dissolution, and seemed to have no desire to live, but to depart and be with Christ, and when the fatal hour arrived, so great were his joys, and so strong his comforts that he appeared altogether insensible to his sufferings which at times apparently were very great, but he could sweetly say, 'Jesus makes my dying bed, as soft as downy pillows are,' until he breathed his soul out into the arms of his Redeemer, there to participate an everlasting repose." Brother Paul was an exhorter and had been employed several times as Missionary among his brethren, particularly in company with John Sunday to Penetanguishine and Mackinaw during the nummer of 1830, when he was very useful. The number of members in society at this station is 108. Two hundred altogether are receiving Christian instruction.

RICE LAKE.

A part of the Indians belonging to this Mission, are situated on hands lying on the Mud Lake, where there is a school, taught by a teacher employed by the New England Company, it is composed of scholars principally from Rice Lake and Schugog Lake, the school of the latter of these places is now discontinued, in consequence of the Indians having removed to other stations; a part of them with their children, to the Narrows, at Lake Simcoe, and the rest to Mud Lake. Of the Rice Lake Station, the Missionary writes as follows: "This Mission is situated on the North shore of the Rice Lake, the tract of land occupied by the Indians, contains about 950 acres, the

blessings y, during eir Sixth

Christians nstitution the cause to find in , that this n its most enevolent d through Societies ivilization Islands of ary Sociean active mpared to ed indeed, conferred ess, in the r Country, rdinances, far in the

Ir

soil is of a light sandy nature. There are at the Rice Lake and Mud Lake stations, about 200 adults and 100 children, between 70 and 80 of the latter are in the schools, whilst a number of the former can read the Scriptures; the children evince an anxiety to acquire knowledge, they read fluently in the Bible and English Reader, have made some progress in English Grammar, Arithmetic, Geography, and Natural History, and evince a state of improvement and promise usefulness in their Nation." An excellent school-house has been erected here, and fitted for the Pestallozzian system. Several of the most promising boys at this school have removed with their parents to Mud Lake, and now attend the school there.

MAH-JE-DUSK.

The Indians at this station have been in an unsettled state; their residence not having been permanently fixed. The Lieutenant Governor has now assigned them lands at Coldwater River, on the communication road between the Narrows of Lake Simcoe, and Penetanguishine, to which place they will shortly be removed. The school consisting of 33 children, has been taught in a temporary hut erected for that purpose, by Mr. Currie the Missionary, who was assisted by a Native youth from the Credit, acting as Interpreter, &c. On account of the unsettled state of the Indians the scholars have not made that proficiency which they otherwise would, though several of them are able to read in the New Testament. There are 82 members in Society, and 147 under religious instruction.

LAKE SIMCOE.

The principal establishment of the Simcoe Indians, is now at the Cove, near the Narrows of the Lake, where a Village is laid out, and buildings are erecting by the Governor; one of which is a spacious building for Schools & Meetings. To this Station, Chief Snake's Tribe has removed, so that Snake's Island, in Lake Simcoe (where the Society had erected a house for Schools and Meetings, and another for the Mission family, and when twenty acres of land had been brought under cultivation,) is now abandoned. It is much to be regretted, that the Society had not been made acquainted with His Excellency's intentions, as it would have saved them much labour and several hundred dollars expense, the union of two bodies of the Indians, at this place, will however, render the Mission less expensive as a less number of Missionaries and Teachers will answer. At the Cove during the past year a Mission House has been erected, by the prudence and industry of the missionary with very little expense to the society. There are 180 members in society at this station and 50 children are taught in the school.

RIVER CREDIT.

This Mission, in point of importance and usefulness stands at the head of all the stations under the society's superintendance, as this Tribe was the first that embraced Christianity, and by their means, especially through the instrumentality of Preachers and exhorters

raised up amongst them, the Gospel with all its attending blessings has been sent to hundreds of their Brethren. There are at present 110 members in Society who are divided into seven classes, and there are fifty children in the school, some of whom are very pious, and promise great usefulness. The number of souls who are receiving instruction at this station is 220. The village which consists of about 30 houses, (including the Parsonage, Hospital, School and Meeting Houses, together with a large building 40 by 24 feet, and two stories high, for a workshop &c.) is neatly laid out, and pleasantly situated, on the Banks of the River. The Indians in their manner and habits are greatly improved so much so that the cleanliness and order of their houses &c. is not interior to Whites, under similar circumstances. During the past year a sawmill was erected, the expense of which was defrayed out of the funds belonging to the Indians. This will be of great advantage to the Indians as there is abundance of Pine timber in the neighbourhood, and every facility for transporting the lumber, to York and other markets.

GRAND RIVER.

A very powerful revival commenced here about eight months ago, and is still going on though considerably abated, the fruit of this revival is the conversion of more than 60 souls, the principal part of whom joined society. There are at this station 500 souls who are receiving instruction from the society's Missionaries and Teachers. 220 of these are actual communicants, and there are about 60 children in the three schools. There is a large Chapel and 2 schoolhouses, and the society is about erecting a Parsonage house, a part of the money for the defraying the expenses of which has been raised by the benevolent exertions of Miss Barnes.

MUNCY TOWN.

At this station during the past year the Governor has laid out a village, and is now erecting dwellings for the Indians, as also a commodious house for schools and meetings. In this house the school is now taught, with respect to which the teacher writes as follows: "The school numbers 25 children, 15 boys and 10 girls; 4 of the scholars can write, and read in the English Reader; 9 more are reading in the Testament." There are 560 in this station who are receiving religious instruction, 55 of whom are regular members of the Church. Of the Mission generally the Missionary states "during the past season several have experienced Religion, 4 have removed, 2 have apostatized and 2 have died."

CONARD, AMHERSTBURGH.

This is a settlement of Wyandott Indians, situated on the Detroit river, about three miles above Amherstburgh, there are about forty belonging to the Methodist congregation eighteen of whom are members of society, they are under the pastoral care of the preacher on the Amherstburgh Circuit; those not under our care are principally Roman Catholics.

MOHAWKS, BAY QUINTY.

Considerable changes have been affected in this body, through the preaching of the Word. In the two years past the Society has been increased one half, so that it now numbers 73 members. 150 is the number receiving Christian instruction, there are 40 children belonging to the school, and during the past year a house 22 by 30 feet has been erected for Schools and Meetings.

SAH-GEENG.

This Mission was commenced during the past year, with respect to which, Mr. Case states in a letter published in the 89th No. of the Christian Guardian, and dated Belleville, June 28th, 1831: "The friends of Indian improvement will learn with pleasure that a school has lately been established among the Indian of Sah-Geeng river, on the South side of Lake Huron; it is now three years since Thomas McGee and John Thomas, native speakers, visited this Tribe, they penetrated the wilderness one hundred miles, found them in retired families, poor and wretched, subsisting principally on Fish. At first they looked on our native Missionaries with suspicion and treated them with indifference. At length the Chief became willing for a school. When Mr. Jones and his brethren traversed the South shore of the Lake, in the summer of 1829, they found them immersed in ignorance and superstition, yet they solicited a school for the instruction of their children. In this visit of Mr. Jones, some were awakened to a sense of their sinful state, and their need of a Saviour. From this time the work of Religion progressed, until about 40 adults have professed to experience a change of heart. During the religious awakening of this people, they were so hungry for the "word of life," that most of the tribe have several times travelled through the wilderness to the white settlements, a hundred miles, to hear the Gospel. They visited the River Credit Mission, a distance of 150 miles, to hear the word and receive Christian Baptism. When they came out last winter for instruction, they obtained a promise, that we would soon send them a Missionary and School teacher. This Mission Mr. John Benham has undertaken, accompanied by a Native youth from Grape Island, who acts as Interpreter and assistant in the school. These brethren left the Island in March last, having been provided with windows, nails, &c. for their new house, and various tools for joiner work and farming business. After a journey of 330 miles (part of the way through a wilderness) they arrived at Sah-Geeng, their destined place, on the 19th April." Particular knowledge of the present state of the work at this place, will be had from an extract of a letter of Mr. Benham's, published in the same Guardian. Mr. B. says, "We arrived here the 19th of April. After consultation with the Indians, and all things being understood and mutually agreeable, we commenced clearing a garden, with their assistance we have got an acre cleared for the House and Garden, having got our House up 18 by 24; we commenced school on the 16th of May. The Indians have cleared and planted 15 acres—their living has been poor, as they raised little or nothing last year—their tha 40, ing tha the fan

–their –their main dependance is fish. Our Indian Society members are about 40, ten of whom have been added since our arrival here. Our meetings are well attended and are sometimes powerful, the whole number that belong to this tribe is found to be 177. The greater part make their home here, others are expected this season; other scattering families and some from the other side of the Lake are expected to settle here."

"You would be pleased with our situation, our house stands on the table land, above the extensive flats on the river, about one mile from the Lake, the situation very much resembles that of River Credit, only we are on the West bank of the river. A beautiful spring opens near our house. The river moves briskly, but I think is navigable for boats. On the whole, our commencement is favourable; we are encouraged with prospects of usefulness to this poor people."

This Mission is situated (as has been mentioned above) on the South side of Lake Huron, and is 70 miles from any white settlement. There are between 25 and 30 children belonging to the school; one of whom reads in the Testament, ten are spelling in three and four syllables, the rest in words of one syllable and learning the alphabet.

MACKINAW, SAUT ST. MARY.

John Sunday accompanied by some of his native brethren, has twice visited this region, and it seems from his journal, and from communications from that quarter, that the Lord is there opening a great and effectual door to preach his word. The field is very extensive and is already "white to harvest." There are many thousands of Indians who speak the Chippeway tongue, scattered throughout the north and extending even to the foot of the Rocky Mountains in the west, many of whom, no doubt could be Christianized, were Missionaries and Teachers sent among them. Through the instrumentality of John Sunday and his companions, fifty of the poor wandering Iudians have professed faith in Christ, and between one and two hundred more gave him pledges that they would embrace the Christian Religion, should there be a missionary sent among them. During Sunday's stay there he established a temporary school where he taught about 20 children, and a number of adults the Alphabet, to spell &c. and he says from every quarter the cry could be heard "come over and help us." How powerfully should this cry affect us, and what strong claims has the Society upon the liberality of the Christian public. Your Committee are assured, did the Society possess the means, they would not fail to find the men, through the instrumentality of whom, the "glad tidings of great joy" would be sent to these perishing thousands, "now sitting in the valley and shadow of death."

Gospel of Matthew has just been completed and will soon be pub-The Mohawk will be printed on opposite pages with tho English, when this is done, the five Nations, will have the four Gos-

pels in the Mohawk language, which they all understand.

In the Chippaway (O-chip-way) beside the Hymn Book in that tongue, already published, the Gospels of Matthew and John, have been translated by the Messrs. Jones, at the expense of the York Bible Society, the former will soon be printed by that Society, the latter is taken to England by Mr. P. Jones, to be printed by the British and Foreign Bible Society. It is expected that both Gospels will in a few months be put into the hands of the Chippeway Christians, 150 of whose children now read both in Indian and in English.

The Society will proceed, to have the remaining portions of the New Testament translated and published in the Chippeway, and they will proceed the more cheerfully in this good work, encouraged by the liberality of the British and Foreign Bible Society, who have forwarded one hundred pounds, requesting the whole New Testament

may be translated and printed at their expence.

SUMMARY AND GENERAL REMARKS.

There are under the superintendance of the Society at the present time, nine Missionary Stations, besides places and tribes which have been occasionally visited, and in some of which places conversions have taken place, and societies have been formed. There are employed at these stations nine missionaris, who impart religious instruction to about 2000 adult Indians. These missionaries are assisted by a number of native exhortes who are employed on special missions or otherwise, as occasion may require. Besides these, the Rev. Peter Jones, native missionary, is appointed to labour among his brethren generally throughout the province.

There are eleven schools & as many teachers, in which about 400 children are taught, 150 of whom can read in the Testament. Society has it in contemplation to establish other missions and schools the ensuing season, and the Board has passed resolutions to that

By referring to the Treasurer's Report it will be seen, that several benevolent individuals have subscribed ten dollars a year for ten years to the funds of the Society; and several others have presented the Society with very liberal donations. To such individuals the Society is under special obligations, whilst its best thanks are presented to all the friends of Indian Missions, who, according to their several ability, have helped on with this good work. The continuance of their aid is most respectfully and earnestly solicited, under the firm persuasion that it will not be in vain in the Lord.

On reviewing the operations of the Society, the Treasurer's report of its financial concerns, and the field of missionary labour yet unoccupied, or very partially cultivated, the following facts have sug-

gested themselves:

1. That the practicability of reforming and civilizing the Indian tribes, is no longer a matter of doubtful speculation, but a fact estab-

pubtho Gos-

that have York the Britwill tians,

they they have

have risions e emus inussistl mise Rev.
ng his

The chools that sever-for ten sented is the pres-

report et un-

theur

Indian estab lished by the most indubitable evidence.

2. That the Missions and Schools generally are in a state of encouraging prosperity, not exceeded at any former period since their first establishment.

3. That a remarkable Divine influence has attended the labours of the Missionaries and Teachers; which proves their work to be of God, and that their labours are, in an especial manner, owned and blessed by Him.

4. That a large moral territory has been won, great changes and improvements have been effected, and an extensive system of benevolent operations is now being carried on, with very limited but judiciously applied means.

5. That the present funds of the Society are altogether inadequate to support the Missions and Schools already established, and furnish the means of imparting the instructions of religion and the blessings of civilized life to those numerous bodies of Indians who inhabit the forests of the West and North, who are hungering and thirsting for the bread and water of eternal life, and on whose benighted minds the light of christian truth has never shone.

Shall any Mission or School be permitted to fail, or the operations of the Society be retarded? or any portion of the original proprietors of our soil be left to perish for lack of knowledge whilst we have the means to impart it to them? The parting command of our Saviour, "go teach all nations," forbids it; christian sympathy forbids it. They need our aid, they ask it-they must perish without. The long-tried and numerous friends of Indians Missions can afford them aid without robbing themselves or their children. The Owner of the earth and its treasures has abundantly blest very many of them in their basket and in their store since they began to contribute to this treasury. He will continue to bless the cheerful giver here—the promises of the Gospel assure him of a rich reward hereafter—and the blood-washed souls of converted heathen will rise up in the day of eternity and call him blessed. But let it never be forgotten that every gift should be accompanied with humble and faithful prayer to Him who gives the increase, and then shall it accomplish the thing whereunto it is sent.
