He said he had given them careful consideration but the commissioner of finance has repeatedly and emphatically informed members that there must be a revision downwards in order to carry on its financial affairs with safety and sanity, and the abnormal cost of living in 1918 and 1919 made necessary a like and these prices had receded appreciably and the city must go with the movement. In conformity with these views expressed he said he would submit the following schedule covering the pay of the employees of the city.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

"THE SHEPHERD OF THE HILLS"

A Powerful Story, Shown at the Opera House for Four Days, Starting Tomorrow.

The finalization of this great novel has been a year in the making. The author, Harold Bell Wright, wrote the scenario for the pictures and has directed every detail. His associates, consisting of actors, actresses, artists, photographers, have numbered more than 200 people, not to mention the people shown in the mob scenes. Also there is a large number of livestock used—horses, cattle, sheep, colts, dogs, birds and what-not. This company has been together a year, sometimes in California, other times in the Ozark Mountains of Missouri. Wright, who is a great stickler for detail, has spared no expense in his effort to keep the sheep where they like the original possible throughout the picture. For instance, a flock of sheep was first secured in California when the work was finished there, it was thought that the sheep would be left there. Here Mr. Wright voted an objection. There was one scene to be taken in California which must have some sheep in the background, so the original sheep actors had to travel to California to appear in that particular scene before they could be dismissed, very effective detail, and only one of the multitude which help to make "The Shepherd of the Hills" a truly great picture.

WARNING TO LOAFERS. IN WALL STREET. New York, Jan. 17.—(10:30)—Conflicting prices changes recorded at the opening of today's stock market were attributed to part to uncertainty arising from yesterday's sudden advances of call money to six per cent. Special issues favoring stock control by pools. Of the better known issues Studenbaker and Industrial Alcohol were most prominent with several of the tobacco and money specialties. Wells Fargo Express extended its rate for money to 3-1/2 per cent. Standard shares made little headway. Adams and American Express gained 2-1/2 and 3 points. Louisville and Nashville's rise of 3-3/4 points was the only noteworthy feature among rails.

NOON REPORT. New York, Jan. 17.—(noon)—Traders for the long account were not much encouraged by the 4-1/2 per cent. opening rate for money. That figure being the highest initial quotation of the new year. Standard shares made little headway. Adams and American Express gained 2-1/2 and 3 points. Louisville and Nashville's rise of 3-3/4 points was the only noteworthy feature among rails.

HAPSBURGS TASTE POVERTY

Some Members of Former Royal Family Find It Hard to Get Along.

Geneva, Jan. 17.—Scattered throughout Europe, the members of the once proud house of Hapsburg are all living in relatively poor circumstances, some of them in poverty.

Ex-Empress Charles and ex-Empress Zita, who were sent to Funchal, Madeira, are supplementing their allowance by the sale of some of the family jewels.

Archdukes Eugene and Ferdinand have been permitted by the Swiss government to remain at Lucerne, as they had nothing to do with Charles' ill fated attempt at restoration.

Archduke Max and Frederick are living with Archduchess Josepha in Bavaria. Albert resides with his mother Isabella at Budapest; Leopold Ferdinand and Henry Ferdinand have settled down in the imperial hunting lodge at Salzburg and Archduchess Maria Annunziata lives alone in the chateau Valais in Liechtenstein.

Some of them have attempted to fatten their income by working but with more or less indifferent success. Literature in the form of "memoirs" has been presented to editors, but none has shown great enthusiasm to publish the books.

TOO MUCH JAZZ WIRELESS. Thousand Amateurs Fill the Air With Discords—Steps May Be Taken to Regulate Them.

(Toronto Telegram.) Although no warning has yet been issued not to purchase portable or other wireless receiving sets, it is expected by radio experts at Ottawa that something will have to be done unless the thousands of Toronto wireless amateurs refrain from "jamming the air" with messages. It is estimated, in radio expert circles at Ottawa, that more than 1,000 inhabitants of the Queen City have become wireless telegraph enthusiasts, and that at least 300 complete sending and receiving outfits.

Experts say that when the 1,000 seekers in the sphere of idleness cut loose each stillly night that the air above Toronto resembles "a dance hall gone crazy." In fact, the situation has reached such a point that a government expert is likely to visit Toronto shortly with a view to bringing about the regulation of the wage lengths on which the amateurs will be permitted to operate.

The craze for private wireless telegraph and wireless telephone installations, according to well informed enthusiasts in Ottawa. The craze, they say, has also swept the United States. In New York wireless telephone sets are easily procurable, and it is becoming a habit to invite friends for a wireless talk concert. This idea is also catching hold of Canada, and many such concerts have been held, with much success.

The only serious objection that officials have to the operations "jam out" is that they sometimes "jam out" important messages from commercial, naval and military stations.

MONTRÉAL STOCK EXCHANGE. Montreal, Jan. 17.—(10:30)—Trading was both active and interesting on the opening of today's stock market. Several local stock exchanges during the first half hour this morning, and several noteworthy variations occurred in price quotations. Gains and declines were about equal. There was no feature. Of the paper stocks, Abitibi and the Brompton were lightly traded in the former appearing unchanged at 30-1/2 and the latter registering a half point advance to 19-3/4. Other stocks traded in during the first half hour this morning were Loyal, which was quoted at a quarter down at 30-3/4; Power, which appeared a quarter higher at 30; Transcontinental, which registered a three quarter drop to 14-1/2; Quebec Railway, which was a quarter weaker at 23-1/4, and Shawinigan, which sold at 103-1/2, after closing at 103 yesterday.

OTTAWA CITY WILL NOT ACCEPT OFFER OF THE GOVERNMENT. Ottawa, Jan. 17.—Owing to the comparatively small benefits that it is believed would be derived, it is not the city's intention to avail itself of federal and provincial legislation whereby the two governments agreed to bear one third of the difference between normal cost of civic works and the cost of such work undertaken at present prices. It is felt by city officials that this legislation does not work so liberally as it sounds.

## Statistics Say Four to One Against You

Unless you take proper precautions, the odds are four to one that you will contract Pyorrhea before or after you pass the age of forty. Something to think about, isn't it? There are two things you can do: play the long shot and pay the probable penalty, or set about in a sensible manner to insure your teeth. Pyorrhea has cost many an individual his teeth and health. It starts with tender, bleeding gums. That is the danger signal you should be quick to heed. Ignore it and Pyorrhea does its deadly work in a hurry. The gums recede, the teeth loosen and drop out or must be pulled. Pus pockets form at the roots of the teeth and disease germs swarm throughout the system. You must not let Pyorrhea gain headway in your mouth. At the first warning, see your dentist and start using Forhan's For the Gums at once. Forhan's For the Gums is the formula of R. J. Forhan, D.D.S. If used consistently and used in time it will prevent Pyorrhea or check its course. Don't wait a day longer. Stop at your druggist's at once, buy a tube of Forhan's and start using it today. Brush your teeth with Forhan's regularly. It is an excellent dentifrice and will keep your teeth and mouth in perfect health. Four out of five wait too long. Don't be one of them. 35c and 60c at all druggists.

## ST. JOHN'S GREATEST MERCANTILE EVENT OPENS TOMORROW

Oak Hall now announces to their friends and customers that their big annual January sale opens Wednesday at 9 a. m. This is not an ordinary sale, but a great selling event which covers the whole Oak Hall Store. It has taken many weeks of preparation to get ready for this great sale. In past years this great selling event has been an outstanding success, and an enormous volume of business has been done. This year will be no exception, for it will be far bigger and better than ever.

The reasons are obvious. Long ago Oak Hall cleared out all old high-priced stocks. Today their store is stocked with new high-class merchandise, the kind of merchandise people are interested in, when the prices are right and the values big. During the last few months, the Oak Hall buyers have taken full advantage of market conditions, and bought large quantities of new merchandise, for cash, securing values that can only be secured when the big cash buying power is behind the deal. These values will be passed right along to the customer. During this sale, customers and friends of Oak Hall will receive the full benefit of the savings made by the firm; owing to the efficient way their goods are bought, old goods at half price are interesting to people no longer. For during this sale Oak Hall will have a store fully stocked with new goods of quality, and the values shown and prices quoted will far surpass anything offered in the way of old stocks of high-priced goods at any price. New goods at prices lower than the lowest will be the Oak Hall's motto during this great event.

TRADE AND COMMERCE. Hon. James A. Robb, the new minister of trade and commerce, appears to have made a fine impression in an address in Montreal last week before the Export Club, which elected him its first honorary president.

A TYPICAL CASE. In Fairville yesterday a man was sent to jail for a year on the charge of non-support of his wife and four young children. He has been idle since last March, and his family has been receiving aid from church and municipal sources.

PLAY FOR ALL. A remark made by the national physical director of the Y. M. C. A., Mr. J. H. Crocker, before the Rotary Club yesterday, ought to impress everybody with the effect that in the interests of all-round physical and character development the aim should not be to perfect a small number to be cheered and admired by all the rest, but to get everybody into the game and play it for personal benefit from participation in physical culture and group games.

Referring to a suggestion that the United States would not allow Canada to own a railway in that country, the Toronto Globe says: "The problem is not at all formidable. The parts of the Grand Trunk running through the United States are, of course, subject to the laws of that country, whether they are owned by the government of Canada or by a private company. There is no more difficulty in one case than in the other."

Touching the matter of hydro-electric distribution, one of the questions the citizens are asking is as follows: "What would it cost the city to provide its own distribution plant? Another is: Is the future of St. John absolutely dependent upon the assurance that the New Brunswick Power Company shall forever pay a certain dividend on a certain capitalization?"

Irishmen are in control in Dublin Castle and the British troops are being withdrawn from southern Ireland. Cordial relations exist between the British and the new Irish government. A great burden has been lifted from the hearts of the people on both sides of the Channel.

The Quebec liquor law may be the wonder of the world, but the chairman of the liquor commission says there are fifty "blind pigs" and road-houses in the city of Hull. The fact is worth noting.

It is expected that Hon. W. R. Motherwell, the new federal minister of agriculture, will be returned in Regina without opposition.

HYGIENE IN THE HOME.

(On learning that there is a right and a wrong way of blowing the nose and that "disease germs lurking in nasal reservoirs may be expelled if methodical rather than merely effective methods are adopted.")

Away with the beetle musician. Whose utter incompetence shows when giving his poor exhibition. Of how to manhandle a nose. Who fiddles and fumbles discreetly. And handles that organ as if it were a musical instrument.

Oh, treat such attempts with derision. And play through your piece like a man. Get hold of your nose with decision. And blow it as hard as you can. Remember the thing is a fixture. And won't come uncoupled or loose—Lay hold and strike up with a mixture of foghorn and belting moose.

PAULINE FREDERICK AT OPERA HOUSE. Amazing Versatility in "The Sting of the Lash" in Part of Wide Contrasts.

"The Sting of the Lash," the current feature at the Opera House, provides Pauline Frederick, eminent dramatic star, with one of the greatest roles of her career on stage or screen.

CLARA KIMBALL YOUNG IN HIT AT THE UNIQUE. "Straight from Paris" a Picture of Class, With Noted Actress as Star.

That Clara Kimball Young is a screen actress whose art attains heights which no successive vehicle instead of exhausting her versatility—a fact that is sadly true of so many other motion picture stars, it brought home with telling force in her latest six-reel production "Straight from Paris" which opened at the Unique yesterday.

Upon the solicitation of a large number of citizens and in order to afford the people generally an opportunity to witness the Canadian Championship Skating Races at Lily Lake, Rockwood Park, I would request all citizens to observe the afternoon of Thursday next, the nineteenth instant, as a PUBLIC HOLIDAY, and to close their places of business on that day at 12 o'clock noon.

I would also request all citizens to make a good display of flags and bunting during the two days of the races. Dated the 17th day of January A. D. 1922. E. A. SCHOFIELD, Mayor.

### "CAMILLE" IS STILL BIG DRAWING CARD

Nazimova in the Name Role and Rudolfo Valentino the Infatuated Lover, at the Imperial.

"Camille," the Nazimova production which attracted tremendous crowds to the Imperial all day yesterday has been modernized for the screen in an adaptation by June Mathis. In playing the Dumas heroine, Nazimova follows the great actresses to give it a place in their repertoire; the tradition of Bernhardt, Eleanora Duse, Clara Morris, Rejane, Modjeska, Laura Keane, Olga Nethersole and Ethel Barrymore.

In Rudolfo Valentino, the dashing young actor who plays the role of Armand Duval, Nazimova has a leading man of brilliant gifts who has won much praise for his remarkable performance in "The Sheik."

The story is about a young Parisian law student, Armand Duval, who loves Marguerite Gautier, known as Camille, a notorious, beautiful woman who abandons her Parisian haunts and decides to live simply and unobtrusively with him. Armand's father, anxious for the family honor, prevails on her to leave his son. Camille consents, returns to her cabaret night life, but is deserted by her friends when illness attacks her. Slowly she sinks to poverty and neglect and at last dies, happy in the thought that she prevented Armand from ruining his chances of a career. Before she dies, Armand has learned of the sacrifice she made for him.

In addition to Rudolfo Valentino, Nazimova's supporting cast includes Edward Connelly, Rex Cherryman, Arthur Hoyt, Zeffie Tilbury, Ruth Miller, Consuelo Flowerton, Mrs. Oliver and William Orlanmond.

A feature of "Camille" is the manner in which the stage settings have been designed; they follow the modern school in evoking the atmosphere and moods of the plot.

The percentage of people who are not more or less familiar with the enthralling love story is so small as to be almost negligible. Its intensely appealing portrayal of passionate love and bitter sacrifice has been translated into the language of every civilized country, and under the title of "La Traviata" has been sung by every grand opera company in the world and today is one of the most popular offerings with the public in the repertoire of the great musical organizations.

### VOLCANO HAS TIDE JUST LIKE THE SEA

Ellis, T. H., Jan. 17.—A distinct tidal movement, depending on the sun and moon, in the entire lava column within the crater of Kilian Volcano, on this island, has been discovered. From this a system may be evolved whereby earthquakes and volcanic eruptions may be predicted, according to Prof. Thomas A. Jaggar, government volcanologist at Kilauea, who demonstrated the tidal movements by 27,000 observations. They occur daily and semi-daily and are analogous to those of the sea. The movement ranges from one to four feet.

### UNITED FINANCIAL CORP. GETS THE N. B. BOND ISSUE

Fredericton, Jan. 16.—The bid of the United Financial Corporation, Limited, of Montreal, for the issue of \$1,800,000 in ten-year five and a half per cent. province of New Brunswick bonds, at 102-267 was accepted by the provincial secretary treasurer of New Brunswick tonight.

Fifteen bids were received from prominent financial houses in both the United States and Canada. There was some variation in the bids. The three best were as follows: Municipal Bankers' Corporation, Limited, Toronto, five-year six per cent. bonds, payable in Canada, 100.249; Miller and Company, New York, and Brandon Gordon and Waddell, New York, five-year five and a half per cent. bonds, payable in Canada and New York, 102.225; United Financial Corporation, Limited, Montreal, ten-year five and a half per cent. bonds payable in Canada and New York, 102.267.

The rate of interest on the Miller bid works out at 4.99 per cent. interest and that on the United Financial Corporation at 5.20 per cent.

Either compare favorably with the rate of 5.37 per cent. on the bid of \$1,045,700 on a recent issue of Ontario bonds of fifteen-year term and five and a half rate.

The total amount of the New Brunswick issue is \$1,800,000 the proceeds of which will be devoted to hydro-electric development and to permanent highways.

### WILL WEAR TWO-YEAR-OLD DRESS IN THE COMMONS

Toronto, Jan. 17.—A Winnipeg special to the Star says: "When Miss MacPhail, Canada's first woman M. P., attends the formal opening of the first session of parliament, she will be wearing in her two year old serge dress which she wore every day during her recent election campaign in Southeast Grey riding, Ontario.

"It has been cleaned and remodeled and I am having it specially for the occasion because I have a sentimental regard for it as it is my campaign dress," Miss MacPhail declared in an interview here.

Being the first woman member is a great responsibility, according to Miss MacPhail, because to a certain extent it is her duty to break through any prejudice or traditions of the past which still exist.

"Since my election or during my campaign I have not met with much prejudice because I am a woman," she said. "If you have your subject in hand the electors do not care whether you are a man or a woman, no matter what they say before they hear you speak," she declared.

"When questioned about her plans she said she was not a lobbyist and had no special measure in mind which she wished to introduce into the House. "I believe that a change in the present economic system is necessary to give justice to the poor, and will support this principle at all times," she said.

The young men of the Waterloo street Baptist church were the guests last evening of the Girls' Friendly Class of the church at a social evening. Refreshments were served and a programme carried out. Those who took part were Miss of the programme Rev. J. A. Swetnam, Agnes Pooley, Miss Margaret Hamilton, of the church gave an address.

#### STORES AND BUILDINGS

I will venture to say that whenever war is declared against a nation, and especially when the death sentence of necessity will be the only law of that nation. Therefore the people of that civilized world, and especially those of Europe, should not depend on an agreement made by statesmen to protect them against any errors in war time that the chemist and inventor made possible. Those people have always placed too much confidence in the diplomatic version of peace and righteousness. Among the civilized nations, war and its horrors can only be prevented by an international and united effort of the people. To live according to the dividing sentiment created by the late war is to travel the short road to the complete destruction of our civilization.

The diplomatic policy which for centuries deceived the people regarding the cause of wars, and which made Europe into a battlefield whenever the people had made it into a garden, is still a living policy. If that weighty bitterness now existing among Europeans could be shifted and thrown where it be-

lie there was little to prove that any one of them were willing to depend on the "good faith" doctrine.

All that flowery oratory about the great friendship existing between this and that nation is all right at a banquet and much more when men like to say pleasant things; but exploring reality it offers these startling discoveries that the things practiced are not always the things preached.

If I had believed all that was said about friendship during the war, I would have been greatly shocked many times since the signing of the armistice, just as I would have lost faith in God if I had believed that to work His will He had adopted the cruel organized business of warfare and struggle for years in its hell to win victory.

Also, today the submarine might have been a vanishing war terror only for France. Making the Root resolution an international law may seem a pleasant substitute for a better thing, but it is well known how many of such international laws were ignored by all the belligerents during the great war, and while I do not profess to be a prophetess,

There is to be any liberty or defence for western civilization, a great change must come to Europe. All Europeans must look upon that great continent as a home belonging to each and everyone of them. They must seek for justice and for peace. They must not be ashamed or afraid to push the truth to the front and lay bare the faults of the policy that so often made their home a battlefield; and, above all other things, they must realize that he who finds pleasure in crowing over his neighbor is only fit to grow in a barnyard.

Peace tells the truth of a people. War makes savages out of the meek and fools

Letters of administration of the estate of Dennis Keenan, deceased, have been granted to the undersigned. All persons having claims against the Estate are requested to file the same duly proven by affidavit as by law required, with T. P. Regan, 50 Princess street, in this city, and persons indebted to the estate are requested to make immediate payment to him.

• Dated at the City of Saint John, this 16th day of January, A. D. 1922.

T. P. REGAN, Administrator.

NOW DEPENDS ON WEATHER MAN

Interest Very Keen as Race Meet Draws Near.

Many See Workout on Lily Lake—The Officials—Other Matters in Connection With Races.

The intense interest manifested in the Canadian skating championships on Lily Lake tomorrow and Thursday, is daily growing more evident.

Charles Jewtraw's appearance on the track at the lake was heralded with joy. All eyes were centred on the speed king and from that on the work of Jewtraw.

All that now remains to make the meet the greatest ever held in Canada, and in fact in America, is fine weather.

An Ulcer Lost me 6 Months Pay

"Four years back," writes Mr. R. Howard, of Bracebridge, Ont., "a scratch on my leg turned to an awful ulcer."

"Recently, an injury started inflammation and ulceration on my other leg. Knowing about Zam-Buk, however, this time I acted very differently. I used Zam-Buk alone, and not only was the ulcer speedily and thoroughly healed, but I didn't lose a day's work while the cure was in progress."

WHEN BREEN BEAT M'CORMICK

Both Were Kennebecasis Boys and World Champions—A Battle of Giants in the Old Victoria Rink—Fred's Story.

From a copy of the old St. John Sun published quite a number of years ago, the following description of the most famous skating race ever held in St. John, and one of the most exciting.

"About thirty-five years ago, Hughie McCormick and I were learning to skate on the rink at the Kennebecasis," says Fred Breen, the ex-skating champion, and comrade of Hugh J. McCormick.

"One of us lived on Kennebecasis, and the other on Milkish Island and both were of the farmer and fisherman.

"We knew the water as the land and were at home on the ice almost from birth. We were both of us very good skaters.

"I am younger than McCormick and strange to say, though born and brought up on the river islands within a few miles of each other, we never met on home ice.

"I remember one of the hardest races I ever had was on the Kennebecasis, where I remember one of the hardest races I ever had was on the Kennebecasis, where I remember one of the hardest races I ever had was on the Kennebecasis.

New Scientific Discovery is Rapidly Becoming Sensation of the Drug Trade Throughout America.

BREAKS UP A COLD BY REMOVING CAUSE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies Clearly Demonstrated.

Remarkable as it may seem, 380,172 bottles of Asprolox have been sold in two months and Dr. Sneath's new scientific treatment for colds is rapidly becoming the sensation of the drug trade throughout America.

The great superiority of Asprolox over the ordinary remedies heretofore prescribed has been clearly demonstrated, and people everywhere have been quick to recognize it as a preparation of remarkable merit.

Right here in Canada alone 84,564 bottles have been sold and distributed within the past two months, and it is

pened." To this the witness swore Claus replied: "We got in and we got 'em good." Later, said the witness, Claus told Mr. Clarke that "they were crowding me all around the course."

Charles Calder corroborated the story of the conversation and his testimony was unshaken by cross examination. The case continues today.

Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, feeling of depression, irritability, restlessness and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

MANSLAUGHTER CHARGE AFTER A SPEED BOAT RACE

Toronto, Jan. 17.—Arthur J. Claus, was placed on trial here yesterday on a charge of manslaughter in connection with the death of J. A. Pike, a Montreal motor boat designer, who was killed in a motor boat race at the Canadian National exhibition last September when the Leonard sailed faster than Claus.

"I went to the finish of the race in which Mr. Pike was a passenger. It developed in evidence that the Leonard, after the finish of the race in which she came second, had turned off the course of the anchored craft and she came out, crossing the bow of the Idle Hour, one of the anchored craft. Just as the Leonard was crossing along the fairway, crashed into her.

Claus swore there was no ill-feeling against Mr. Pike. Wm. F. McKeller, of lifeboats detailed to watch the race said Mr. Clarke, owner of the Leonard asked Claus "what happened."

**Kelly Goes to Reading.**  
 (New York Times)

Joseph J. Kelly, an outfielder secured by the Yankees from Jeff Tesera's Bears last spring, has been turned over to the Reading Club of the New International League for the coming season under optional agreement, according to an announcement made yesterday by Business Manager Ed Barrow of the American League champions. Last season Kelly showed his paces with the Norfolk team of the Virginia League, and tremendous paces they were, too. He was supposed to be there to get seasoning, but he proved to be composed of enough paprika and pepper to season the whole club all by himself. Kelly led his league in batting and in fielding, but outside of that he was nothing much. He batted .316 and evidenced an inclination for sending the ball on long journeys instead of just popping it through the infield for one-base taps. He played in 141 games and his fielding average was .992. He looks like a corner and the Yankees, although willing to put him through a summer's

hardening in the ranks of the Class AA league, are wholly averse to turning him loose.

Bob Shawkey, who acquired the honorable but unromantic sobriquet of "the gob" through service in the sea arm of Uncle Sam's forces in the war, dropped into the offices of the Yankees yesterday, fresh from a series of hunting trips that ranged all the way from Maine to North Carolina. Shawkey, who wasn't at his best in the latter portion of last season and failed to come effectively to his team's rescue in the world's series, had a chat with Col. Ruppert, President of the Yankees, and assured him that he had never felt better in his life and that he hoped and expected to be at top form for the opening of the 1922 pennant chase.

The noted twirler's appearance bore out his words. He bore the imprint on his bronzed features of the weeks which he has passed on the trail of game since the baseball season ended. He hunted in Maine with Jack Coombes and Jeff Plee in the early autumn and later wandered with Frank Baker in Maryland byways on the track of the gutting quail. Then he trekked southward once more and joined Ernie Shore in an attack on the plumed and furred denizens of the Tar Heel State. Now he is going back to his home in Philadelphia and will probably spend there the weeks remaining until it is time for the trip to the Yankees' training camp in New Orleans.

A remarkable case of the cure of cancer by means of radium is told by Mrs. J. C. Lake, 38 Pitt street, who recently returned from Boston, where she underwent treatment. She said that her case was described as hopeless from a surgical point of view before going to Boston. She entered a hospital there on November 10, and radium was applied, and in less than a week she was able to leave the hospital very much improved, and has been gradually gaining ever since. Although she has still to take further treatment, Mrs. Lake says that she has been assured of a complete cure, and is delighted with the strides towards health which she has already made.

BURGLARY AT RENFORTH.

Residents of Renforth this morning were shocked to hear that a burglary had occurred within the limits of that village. The store of George N. Colby was broken into, apparently through the front door where the glass had been broken. A quantity of cigarettes, chewing gum, candy and other articles was stolen. The tap on a barrel of cider was opened and the contents of the barrel allowed to run on the floor. Some chickens were moved from the place where they had been left, making it appear that the thief or thieves had intended to take them along, but had been forced to drop them. In addition to this damage the man or men who had broken in made a fire in the stove and burned a lot of Mr. Colby's accounts and papers. A stranger was seen around the station last night and it is said by some that he slept there. This morning he was seen by a railway lineman near Rothesay, about two miles away.

241 FIRE ALARMS DURING THE YEAR

205 on East Side—\$110,000 Insurance Loss—Tribute to Deceased Members of Department.

At a common council meeting this morning Commissioner T. Horton of the Public Safety Department, submitted a report of the chief of the fire department for the year ending December 31. The report showed that the department had responded to 241 alarms during the year and that losses paid by insurance companies aggregated \$110,000. Sixty of the fires were caused by chimneys and defective flues, while eleven were started by furnaces. The report contained a tribute to the late Charles F. Brown, district engineer in the north end, and also to the late Roy Evans and Walter McKay, who died during the year.

The 241 alarms, 205 were on the east side and thirty-six on the west side; 155 were bell alarms, seventy-seven still alarms and nine were false alarms.

The most serious fires during the year were O. H. Warwick & Co's store and the late Joseph's school. Nearly half the total loss for the year occurred in these two fires.

The cause of the different fires and alarms during the year was as follows:—Chimney fires, thirty-eight; spontaneous, three; self-starters, upset, three; smoke houses, one; set on fire, one; lamp explosions, two; hot ashes, five; films, one; register grates, two; thawing water pipes, two; forge set on floor, one; furnaces, eleven; children with matches, three; boiler explosion, one; cigarettes, two; oil stoves, six; defective flues, twenty-two; auto fires, two; rubbish, seven; painter's torch, one; smoking in bed, two; brush and grass fires, nine; dynamite explosion, one; electric wires, two; overheated stoves, three; fire crackers, one; gasoline, four; false alarms, nine; balance by fire, one.

I again call your attention to my recommendation of last year as to the necessity of a larger number of permittees for the fire department.

During this year the department was called upon to modernize the loss of three members, Charles E. Brown, district engineer for the north end, who passed away after a lingering illness, and his place will be difficult to fill. He was a good fireman as ever responded to an alarm, ever ready when duty called, and a kind and genial citizen, always ready to assist the needy. Roy Evans and Walter McKay, both call men, who were active and willing workers. The department tenders to the families of these firemen its deepest sympathies.

COURT HEARS STREET CAR CASE

Howard Peck charged with exceeding the speed limit in Main street on Jan. 13 in an electric car, pleaded not guilty.

James McKinney testified that he was in a sled coming down Main street and near the head of Long Wharf he turned out to pass a sled loading snow. The electric car, driven by the defendant, he said, hit the sled causing some damage. He heard no bell and was not aware that the sled was there.

Charles Rowe said he was also in the sled when it was struck by the car in the team. The street car hit it without warning. He saw the car just before it struck the sled and it was going about twenty-five miles an hour. The driver was thrown out and hurt and Mr. McKinney threw out.

John Ellis said he saw the team in Main street and a little later saw a street car, driven by the defendant, traveling along the street at such a rate that it drew his attention. He heard no bell.

Peck said he saw the sled in front of him when he was going along Main street. He sounded the bell when the sled turned out into the tracks about a length and a half ahead of him and put on the emergency brake but the back of the vehicle slewed and he couldn't stop in time to avoid a collision. He was going about four or five miles an hour when he hit the sled.

The case was postponed for a week so other witnesses could be present.

Another Street Car Case.

How far can the "gentle murmur" of a St. John street car be heard? This was one of the posers put by Dr. F. R. Taylor, K. C., to a witness in the circuit court before Mr. Justice Crockett this morning. It was during the hearing of the case of Canack vs. the New Brunswick Power Co., an action for damages resulting from a collision between a street car of the defendant company and a jitney owned by the plaintiff, in Douglas avenue last fall. Mr. Taylor represented the company, and D. Mullin, K. C., the plaintiff.

John McAdam, the only witness heard this morning, told of seeing the accident in which the plaintiff's car was damaged. He said that it was possible to hear the street car two or three blocks away, and his statement that it was making the usual noise of a St. John street car caused a smile to spread over the features of the court, the contending lawyers and the several spectators. He was unable to say, however, how the noise compared with the usual run of cars. The case will be continued this afternoon.

POLICE COURT

One man charged with being drunk, pleaded guilty and was remanded. Pedro Merveto pleaded guilty to a charge of being a common vagrant and having no visible means of support. He was remanded.

The four young fellows who were committed for trial yesterday on a charge of stealing a horse and sled from John Kelly, this morning faced a charge of intent to commit a felony in connection with their trespassing on the property of the C. N. R. about a week ago. N. R. Constables Morrissey and Barden gave evidence and the case was postponed until Friday at 2:30 o'clock.

K. J. MacIsaac appeared for two of the defendants and L. A. Conlon for one of the others.

NOT THIS MAN.

John Currie of the LaTour Hotel wishes it known that he was not the man of that name mentioned as a deserter from the R. C. G. A.
