hoppers, and it is not creditable to the Intercolonial Railway that we should send to New York to purchase second-hand coal hoppers, which must have been cast aside by some railway company in the United States. No railway company in the United States. No railway company in the United States would have sold coal hoppers worth \$432 for \$228, unless for some hoppers worth \$432 for \$228, unless for some hoppers worth \$432 for \$228, unless for some extraordinary reason. Over Four Millions in Use! OVER HALF A MILLION SOLD The GENUINE SINGER SEWING MACHINE

The GENUINE SINGER SEWING MACHINE has been awarded the first premium over all others more than two hundred times at Great Word's Fairs, at State Fairs and at County Fairs, in every part of the United States.

Three quarters of all the Sewing Machines sold throughout the world in 1830 were "Singers," and there must be a reason for that. When any of our style of machine used in millions of homes, leads all the other kinds to such an extent as that there must be some way of accounting for it all. Other Sewing Machine Manufacturers refuse to state their sales! Why? Companies have sprung up in every part of the Union and Dominion of Canada for making an initiation "Singer Machine." Why are not similar companies formed for making initiation of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; brass and tim never! Beware of superficially ornamented machines with an infinite number of worthless nickel plated attachments, but buy the Genuine N. Y. SINGER SEWING MACHINE, the best that ever was made.
