JURY DISAGREED IN THE COLLINS TRIAL AFTER BEING OUT 3 HOURS

Chief Justice Tuck in His Address Characterized the Prisoners Story as Ridiculous

And Urged the Jury Not to be Influenced by Any Feeling of Sympathy—The Case Well Conducted He Says—Jury Retired About 12 O'clock.

HOPEWELL CAPE, July 3.—The jury in the Collins case which retired to their room at 12 o'clock, went to work at 2:30 that they were unable to agree on a verdict and had no prospect of agreeing.

Under Mr. Jones's cross-examination the prisoner seemed greatly embarrassed.

Hon. Mr. McKewen began his address to the jury when the cross-examination of Collins was concluded. He claimed the accused was suffering at a great disadvantage, not being able to secure witnesses or other evidence with the same facility as the crown. The crown had been fixed upon him at the commencement, and the crown had not looked elsewhere for a possible perpetrator of the deed. He said there was no motive for the crime, as the prisoner was on friendly relations with Miss McAuley.

HOPEWELL CAPE, July 3.—The jury in the Collins murder trial retired at 12 o'clock and did not return until the court adjourned at one o'clock.

When the court was resumed at ten o'clock this morning Solicitor General Jones concluded his address. He went fully into the facts and circumstances of the evidence. He said he did not feel the jury could imagine any reasonable or rational story that would fit in the innocence of the prisoner. The circumstances were too strong against him.

In closing the Solicitor General said that in view of the facts he left the case with the jury in the strong conviction that they would deal with the matter fearlessly and honestly.

HIS ATTEMPT WAS VOID. They had been having a discussion concerning the necessity or otherwise of purchasing a new silk dress in order to be on a level with the De Moneys next door. Banks had vetoed the purchase on the ground of extravagance and want of funds, and his wife was much out.

"Yes," answered Mrs. B. Shortly. "Must try again," said Banks to himself. "Ah, my glad that the gods would call 'an aching void' Sarah."

APPRECIATE THE WORTH OF SLEEP. The amount of sleep required by a person can be determined better by the effects obtained than by the numbers of hours consumed, for it differs greatly with age and the condition of health.

Few fallacies are more dangerous than that which is often adopted by busy people, more especially by those engaged in scientific or other forms of intellectual work, when they assume that the duration of sleep is largely a matter of convenience.

The harmfulness of deficient sleep may not reveal itself until the age of decline has been reached, but it will surely hasten the decline.

DEAD SEA BATHING. In an article on bathing in the Dead Sea a clergyman who has made the experiment says: "No sooner has one plunged into the water than one is whipped off one's feet and goes bobbing helplessly about, like a wretched cork. In the effort to regain one's footing and get back to store one's feet and shins are barked by the jagged stones and pebbles and when at length one does emerge from its treacherous bosom, with the lower limbs bleeding and torn, one becomes aware of a horrible tingling and burning sensation in every pore of the skin, from the brain to the bottom which have penetrated everywhere. Unless great care is taken on the bath in the Dead Sea is liable to an eruption, which breaks out all over the body and which is commonly known as the 'Dead Sea rash.' The best antidote to this is to hurry across as quickly as possible to the river Jordan and take a second plunge there. In the soft and muddy waters of that sacred, hot dirty stream will effectually remove the salt that has infiltrated the body."

The governor general's gold medal was won by Almon Stiles and presented by Rev. Mr. Smithers. The prizes of \$15 offered by Mr. Sumner of Moncton and those offered by Hon. Mr. McClellan and Rev. Mr. Smithers will not be presented until school reopens in the fall, in order that the students may have more time to perfect their collections of flowers, seeds, leaves, etc.

Mr. Trueman, the principal, reported an attendance during the past year of 233 pupils and a splendid retention of interest in the work of the school. A number of books had been added to the library, the debt on the piano paid off and about \$100 spent in the garden and grounds without a cent's direct expense to the district, the money being raised by concerts, etc. Mr. Trueman strongly urged that something be done in the way of providing the children with systematic training in singing, attention being drawn to the fact that few people in the churches today join in the service of song, and one seldom met a man who could sing by note. Mr. Trueman claimed that the only remedy for this was to teach the children beginning in the lower grades and make music a regular part of the school work. The singing in the school was excellent, but as it was all by rote, the evil mentioned was not being properly met.

The address to the graduating class was given by Hon. A. R. McClellan, Mr. McClellan spoke of the change that had come over the world in the way in which labor was regarded. No longer was it a disgrace to work with the hands, rather was it an honor. He reviewed the graduates never to shun hard work. He said that the greatest sin of the world, perhaps the only sin, was selfishness, and he urged the class to find higher motives than the advancement of purely personal interests. At the close of the exercises gifts were presented to Miss Ruel, Miss Atkinson and Miss Turner, the teachers, who are leaving the school.

VOICES FROM THE SEA.

Common Phrases That Have Had Their Origin Aboard Ship.

It is remarkable what a number of common expressions in use every day come to us from the sea. You grumble at a third party for "showing in his ear" in a conversation. A friend inquires after your health. "Oh, first rate, thanks," you reply, using a term derived from the days of old wooden line of battle ships. Probably each of us knows of some one who is "falling under false colors."

THE DEPRESSION IN NORTHERN.

At the present time there is a slump in Arctic. Stock in polar expeditions is going a begging, and would-be explorers find it difficult to make capitalists appreciate the glowing promises set forth in their various prospectuses. Walter Wellman, backed by a Chicago newspaper, is seeking, not so much any additions to scientific knowledge, as personal notoriety and advertising for the journal which he represents. The much heralded balloon expedition has been in course of preparation for several years, but it is safe to assume that a few generations will still be required before an airship voyage to the far north comes within the realm of successful effort. Wellman and the Chicago Record-Herald are, however, much talked about, and in these days notoriety is scarcely distinguishable from fame. Robert Peary, who has attained a certain distinction by voyages to the north, eclipsed on his last journey all that he had previously accomplished but made a serious mistake which resulted in the failure of his main purpose. Realizing now, better than ever before, the difficulties and uncertainties to be encountered he is preparing for still another journey, but before starting must still raise almost half the amount required for the trip. He has interested men in all walks of life in his plans, but seemingly this interest is not deep enough to touch the pocketbook, for Peary is still \$100,000 short and his prospects are not good. Our own Captain Bernier has for many years vainly endeavored to secure adequate support, but in Canada he finds that people are not sufficiently excited over either his plans or the north pole to aid him in equipping a vessel. The depression in Arctic is general. Quotations are low, owing to a dull market and a healthy demand for other and more productive securities. Opportunities for investment are offering in latitudes where human life can easily exist, and where active endeavor brings material results. Scientific research is not being neglected, but this particular branch which at the best can make only a meagre addition to the present store of knowledge, must give place to the more practical, for this is a material age.

EVERYBODY SPITS.

A St. John business man who recently returned from an extended visit to Europe, was deeply impressed by a remark made by an acquaintance in England. Methods of transportation were under discussion and the Englishman after remarking that the compartment idea was not favored in Canada, and that all people were herded together in large cars, concluded with: "In your country everybody spits." It is true, and it is a disgrace. Watch any assembly of people, on the streets, in halls or on trains, and it will be found that within a very few minutes the majority of the men find it necessary to spit. Expectorate might be a more pleasing term, but such a disgusting habit should not be disguised. It is a habit and a most filthy one, yet few persons seem to pay attention to the ordinary rules of decency and health, judging from the numbers who practice it. Every pavement in St. John bears spots of tobacco juice; every railway car is provided with spittoons, and every street car is plastered with notices forbidding the custom. We even have a civic by-law, but unfortunately no attempt is made to enforce it.

NOT WELL INFORMED.

"Is he a well informed man?" "I doubt it. He qualifies as a juror too frequently to be a man who keeps posted on what is going on."

WOMAN'S CHIEF JOY.

"I suppose," said the inquisitive young man, "there is nothing that pleases a woman more than the devoted attention of the man of her choice." "No," replied the wiser girl, "except, perhaps, the devoted attention of the man of some other girl's choice."

FORGOT JOHN DE ANGELIS.

Years ago there was a negro preacher in Mound City, the Rev. Pompey Johnson, who called himself "the Lord's favorite." One Sunday he preached from a text from the Gospel of John, and he began by saying: "Let me explain, brethren and sisters, dey and three Johns named in the Bible—John de Baptist, John de evangelist, and John de Bunyan. Dis one am John de evangelist."

CETTINE, Montenegro, July 2.—A sensation was caused here today by the arrest of fifteen officials of the Montenegrin army on charges of high treason. It is declared in explanation that the authorities have discovered a military plot against the Tomonovic Government.

MAGAZINE TECHNIQUE.

"The city editor was dashing off his leading editorial at two o'clock in the morning." Extract from a recently published magazine story.

Now while the city editor was doing such a stunt, The man who handled "orbits" wrote a column on a bun.

The night police reporter was reviewing Henry James, And the advertising manager was covering polo games.

The foreman of the Linotype reviewed the newest play, While the "make-up" man was busy doing "Topics of the Day."

The stily news man was working on a Presidential boom, And the woman's page was being written in the sporting room.

The literary editor was writing ads of soap, While the music critic labored on the latest racing dog.

And the daily column humorist, perhaps ought to add, Was attempting to be funny, but his stuff was pur-ty sad.

TIME AN EXCUSE.

Thomas A. Hueston, the champion pool player of the world, replied to a toast on "The Spring."

"The Spring," said Mr. Hueston, "has his joys. It has its sorrows, too. Here is a story:

"Smith was suing Jones, his next door neighbor, for five feet of ground, which he claimed had been encroached on. Jones' lawyer began cross-examining him.

"Now, Mr. Smith," the lawyer said, "did you or did you not tell my client last year that the five feet of ground in question belonged to him?"

"Permit me," "No, I permit nothing. Answer my question, yes or no. Did you tell Mr. Jones those five feet of ground belonged to him?"

"Yes, I did," said Smith, desperately; "but please remember that the month was April and we were both working our lawn mowers at the time."

DESPERADO SHOT POLICE OFFICERS.

But Was Chased and Captured by a Crowd of Summer Visitors at New York Resort.

UTICA, N. Y., July 3.—An exciting man hunt of George Delcour, of Lake Placid, came to an end this morning, near Bloomingdale, about a mile from the scene where Delcour committed the crime for which he was wanted. Delcour had been driving his horse on the sidewalk in Lake Placid and policeman Fred Cutler and John Arnold went out to gather him in. They found him in a barber shop getting shaved and Cutler told him that as soon as the job was over they wanted him to go to the town hall with him. Delcour said that he did not propose to go anywhere with them and keeping from the chair shot Cutler over the heart. Arnold ran and exchanged several shots with Delcour but finally got a bullet through his pistol arm and retired. Then Delcour, waving the pistol sought the woods and escaped. In a little time the big hotels and various resorts turned out automobiles, heavy rigs and horse-back riders and armed men followed the desperado. It was learned that he had gone towards Saranac Lake and both roads were patrolled. However, Delcour escaped his pursuers and passed through the village of Saranac Lake without detection. As the whole country had been aroused and his crime was known in every direction, where the telephone line ran, Delcour was soon heard of west of Saranac Lake. Large numbers of the searchers followed and about two o'clock this morning the man was surrounded and captured. Cutler is very dangerously wounded and is not expected to live.

CONDITIONS UNBEARABLE SAYS JAPANESE PAPER United States Must Take Proper Action—U. S. Fleet Not to be Sent to the Pacific.

OSTER BAY, N. Y., July 3.—Published reports that 16 battleships of the Atlantic fleet of the United States navy are to be transferred to the Pacific coast, because of anti-American feeling in Japan, were denied today by William L. Frost, Roosevelt's secretary. Mr. Frost said that the report is without foundation, in fact that such a movement has never been considered by the President and that its consideration is not contemplated.

TOKIO, July 3.—The Nichi Nichi, in a leader regrets the necessity of being compelled to write again on the American question in defense of the rights of Japanese patriots in San Francisco. "Developments in the anti-Japanese sentiments," says the Nichi Nichi, "show signs of progressive and systematic movements aiming at the deprivation of the sources of livelihood of our compatriots. The last clause of article second of the treaty can properly be called into operation only after a law has been passed but no legal step has been taken by the federal government disabling the Japanese from engaging in the employment agency.

The usual kindergarten games have been provided in abundance. When the boys the favorite games today were hand-ball and tossing the bean bag. The girls soon discovered the sand heap and before long had ball castles from which the enchanted princess would emerge in due time. The swings were also popular with the girls.

At eleven o'clock both grounds were well crowded with happy youngsters, who enjoyed themselves thoroughly not mindful of the presence of some of the older women "who had just come in to see the little ones enjoy themselves."

The children had by far the best time, but some mothers who brought their children to the grounds and met them in charge of older children, walked away with happy faces, for as one woman whose two young children were present said, "I always feel nervous when they are playing around the door steps, but now contentedly running out to them but now—and she heaved a sigh of relief.

COLLISION AT THE NORTH STATION IN BOSTON

BOSTON, Mass., July 2.—A collision outside the north station this afternoon between an outward bound train of Marblehead and an incoming train of empty cars resulted in the derailment of four of the empties, the injury to the fireman of the Marblehead train, a brief fire to one of the cars, and the tying up of the traffic over half the tracks of the station for several hours. None of the passengers were hurt, but the fireman, C. W. Thompson, was taken to the relief station suffering from internal injuries. The wreck occurred near one of the draw-bridges.

### RAISULI CAPTURES

#### SIR HARRY MACLEAN

The Sultan's Chief Adviser, a Former British Officer, Was the Victim of Treachery.

TANGIER, July 5.—Kaid General Sir Harry MacLean, commander of the Sultan's body guard, has been made a prisoner by Raisuli, the bandit chief, and will be held as a hostage by the latter until the Sultan agrees to pardon Raisuli on his own terms. Gen. MacLean was negotiating with Raisuli regarding the latter's pardon when he was made a prisoner. Gen. MacLean is a former officer of the British army. All his influence with Sultan has been exercised in the interest of civilization and humanity, and he is universally respected even amongst the most fanatical of the foreign-hating Moors.

The latest exploit of Raisuli in capturing Kaid General Sir Harry MacLean brings the noted bandit to public attention after a period of comparative retirement. MacLean is probably the most influential man in Morocco being the English adviser who organized the Sultan's army and civil administration, and who stands next to the Sultan himself in the practical conduct of Moroccan affairs. His capture, therefore, is even more of an achievement for Raisuli than his former captures of Ferdiearis and Harris, the latter the London Times correspondent. Morocco advisers are often misleading, owing to the inaccessibility of the mountain marauders and the magnified reports of their operations. But if Raisuli's capture of MacLean proves correct the bandit has an unusually rich prize with which to negotiate with the Sultan and

### MANY WERE HURT IN A TROLLEY COLLISION

Smash up in Washington—Passenger Car Was Run Into by Loads of Rails.

WASHINGTON, July 3.—A dozen persons were seriously injured and as many more slightly hurt in a collision today between a Washington bound trolley car and two carloads of rails on the Washington, Arlington and Falls Church Electric Railway. The passenger car left West End Station at eight o'clock with employees in the government departments at Washington. At Spruce station there were two flat cars loaded with steel rails which were being taken to West End Station. The freight laden cars were pushed out without waiting for the Washington trolley to pass and they came together with a crash.

The rails on the forward car extended several feet beyond the truck, and when the crash came they ripped into the passenger car almost completely telescoping it. One rail passed entirely through the abdomen of Motorman Wm. Mock, and one passenger had one leg severed. There were many women on the car and several of those were badly injured. The passenger car was proceeding at a rate of about 45 miles an hour in an effort to make up lost time at Ashdale. Twelve of the injured passengers were taken to Georgetown Hospital and those less seriously injured were treated near the scene of the wreck.

possibly with England, to whom MacLean still holds allegiance and with France and Spain who are jointly charged with the internal politics of Morocco.

### SHOT A POLICEMAN WHO WAS MAKING AN ARREST

Young Man in Port Arthur Got Gay White Drunk and Will Have to Answer a Serious Charge

PORT ARTHUR, Ont., July 3.—Yesterday Officer A. Grant of the C. N. R. police arrested a man who was trespassing on the company's property, and was proceeding with him to the cells. When near the Bank of Montreal they encountered a young man, apparently under the influence of liquor, and who ordered the policeman to release his prisoner. He threatened to shoot if his command was not instantly obeyed. The policeman made a move to secure his gun but the other had his revolver out in a minute and fired. The bullet struck the officer in the jaw and ploughed its way along to point just in front of and below the ear. One of the city night men heard the shooting and hastened to the scene.

The wounded man was taken to the hospital and a search instituted for his assailant. He was located at the Marquis Hotel and arrested. He gives the name of Arthur Carman.

### IS MISSING WITH NEARLY ONE HUNDRED THOUSAND

Teller of the Windsor Trust Company Has Strangely Disappeared With a Valise Full of Money.

NEW YORK, July 3.—Detectives throughout the United States are searching today for Chester B. Runyan, paying teller of the Windsor Trust Company, who, the directors allege, is missing with \$86,317 in cash. The case is being handled by private detectives. Geo. W. Young, a director of the Trust Company, confirms the reports of the defalcation, which the detectives say is one of the most remarkable ever reported.

Runyan is accused of having placed \$86,317 in currency in a suit case last Saturday, and, after shaking hands with his banking associates, left the Trust Company. Since then he has not been seen. Runyan, it is said, did not even go to his apartments to bid good-bye to his wife to whom he had been married for five years. He is said to have taken all the cash available in the bank last Saturday. The directors, it is stated, have made up all the loss of the defalcation. Runyan was a man of exemplary habits so far as known and his conduct was such as not to arouse any suspicion. When the auditors went over his accounts on May 1 they were found to be all right.

### RAILWAY COMPANIES ARE FIGHTING IN ALASKA

Military Assistance Asked to Prevent Bloodshed—Crossing Blocked by a "Go-Devil."

SEATTLE, Wash., July 3.—A special to the Post-Intelligencer from Valdez, Alaska, tells of the preparations for an armed conflict between the Copper River and Northern Railway forces and the Alaska-Pacific Railway men at the Alaska-Pacific Railroad which is known throughout Alaska as the Guggenheim proposition, aiming to tap the Copper River district. It is attempting to cross the right of way of the Alaska-Pacific Company known as the Bruner Line, which also aims for the Copper River district, by way of Lake Charlott.

The Bruner people have applied to Governor Haggart, of Alaska, for the protection of United States troops, alleging that the Guggenheim forces contemplate an armed attack upon them, and that at Valdez admit that the situation is serious.

The launch Pioneer, which arrived at Valdez from Katalina, had been erected a "Go-Devil" at the crossing which the Bruner Line, which also aims for the Copper River district, is attempting to cross the right of way of the Alaska-Pacific Company known as the Bruner Line, which also aims for the Copper River district, by way of Lake Charlott.

Several times the right of way of the Guggenheim Road has been dismantled when the Bruner engineers claimed the Copper River Road has crossed their territory. An injunction was asked recently by the Alaska-Pacific Railway and Terminal Company against the Guggenheim Road, was denied.

Mr. Morse is making a tour of the world, visiting Young Men's Christian Associations in various countries.

### WESTERN CROPS ARE IN AN EXCELLENT CONDITION

A Little Late, But are Coming Along Well as Reports from All Sections Indicate

WINNIPEG, July 3.—Knowing the anxiety with which business men throughout Canada are watching the western wheat crop, the Press-Tribune on Saturday night wired to the hundreds of points in Manitoba, Alberta and Saskatchewan the following message:—"Send one hundred words stating as accurately as possible the condition of wheat crop as compared with the same date last year; average height of wheat for district; how much rain has fallen and is more needed; at what date will wheat be in shot blade?"

All replies are in, but sufficient have been received to give an idea of conditions throughout the country as a whole. The first thing to note that the crop is a very spotted one, as is usual following a late season. The worst reports come from southern Manitoba where conditions prevail similar to those in the States immediately across the border.

One thing however, is especially worthy of note, and that is that there is no mention of green bugs in any message received. Conditions are decidedly better in Manitoba along the main line and north of the main line to the boundary of Saskatchewan and throughout the whole of Saskatchewan. The worst that can be said of the crop is that on the average it is two weeks later than last year and the crop is short. On the twentieth of July last year, 75 per cent. of the wheat was headed. This year at that date, about 75 per cent. will be in the shot blade. History repeats itself and this was about the same condition

### FORSTERS' HIGH COURT DISCUSSED THE REPORTS

(Continued from Page One.)

Between four and five hundred Forsters and their ladies went up river yesterday afternoon in the steamer May Queen, to discuss the reports of the order in this city and Fairville. The party took cars at the head of King street at 2 o'clock. The Carleton Place band was in attendance and played a fine programme of music.

At the landing sports were carried out and the prize winners were as follows: 75 yards dash—William Gillespie, which fob. Kicking football—Dr. McCuaig, watch charm. Ladies' race—Mary Owens, 1st, blouse; Mrs. Stanley, 2nd, brooch. Fat man's race—W. F. Ingram of Court Ottawa, Ontario, necktie pin. Throwing race—Frank Jenkins and John Kearns, 1, O. P. pins. Running broad jump—Frank Jenkins, 1, O. P. pin.

The ladies of the Tabernacle church served supper in the pavilion, and an excellent meal was enjoyed by all. The steamer left St. John shortly before seven o'clock, and with a rapid start car service from Indianopolis members of high court were enabled to return to their homes at 8:30 o'clock. The outing on the river was one of the most successful ever held by the Forsters, and the manner in which it was conducted reflected the highest credit on the central committee of St. John and Fairville members.

The high court resumed business at 8:30 o'clock last evening with the high chief ranger, H. W. Woods, presiding. After the reading of the minutes of the morning session the supreme official, the supreme vice chief ranger and the supreme secretary were received.

The high chief ranger expressed the regrets of his honor, Judge Wetmore, past supreme chief ranger, at his inability to be present owing to judicial duties. He also read a letter from E. R. Chapman, P. H. C. R., now in Manitoba, regretting that he is not able to be present at this session of the high court.

Although a motion prevailed that the official reports be taken as read, another motion was passed that the High Chief Ranger read his report. This he did.

The distribution committee made a report assigning the various sections of the officers' report as follows: 1. That the first three paragraphs of the H. C. R. report be referred to a special committee, and the remainder, except No. 9, to the committee on state of the order; and that No. 9 be referred to the H. S. committee; that the above special committee take in first two paragraphs of the High Secretary's report; the remainder of the report to be referred to committee; that the finance committee take up all final sections of these reports.

The High Secretary of P. E. L. J. V. Powder, when called upon, addressed the High Court, and in the course of a vigorous speech made some suggestions in reference to improving the order. One was the improvement of the official order, by enlarging it, adding new matter, new advertisements, rose a point and then lost it. Mackay Companies gained one and Canadian Pacific lost one. Southern Pacific, Reading, L. N. and American Smelting declined large fractions.

### JOHN D. ROCKEFELLER IS STILL AMONG THE MISSING

Constables Who Are Trying to Serve Papers on the Oil King are Unable to Locate Him.

NEW YORK, July 3.—The whereabouts of John D. Rockefeller, president of the Standard Oil Company, were still unknown today to United States Marshall Henkel, and his deputies, who are trying to serve a subpoena upon him to attend court in Chicago July six. Six process servers were on guard last night and today around Mr. Rockefeller's estate near Harrytown, N. Y., but their vigil was unavailing. Entrance to the estate was permitted only after identification by men employed about the farm.

At the office of the Standard Oil Company, nothing could be learned either as to Mr. Rockefeller's whereabouts or as to whether he intends to give the United States Deputy Marshal who are searching for him in three states, an opportunity to serve their summons.

### WALL STREET.

NEW YORK, July 3.—Opening changes in the prices of stocks were small and mixed and business was on a light scale. Great Northern, pfd., rose a point and then lost it. Mackay Companies gained one and Canadian Pacific lost one. Southern Pacific, Reading, L. N. and American Smelting declined large fractions.

TORONTO, July 3.—The estate of the late Timothy Eaton has passed to the succession duties department, on account, \$100,000.

Including 10 cents for each pattern desired. Orders filled by mail. Several days usually required. When ordering patterns, write name and address, size and number of pattern carefully.

4129—A SMALL APRON OF GOOD STYLE. Aprons as well as frocks differ in smartness, and while they are primarily useful, their general appearance should also be considered inasmuch as the activities of youth demand that they form so important a part of the wardrobe. A pleasing little apron which is simply made and most practical is sketched in hope that it will give a suggestion to mothers who fashion such garments. The yoke-band forms the shoulder straps and may be of 2-inch wide embroidery if desired. The waist portion is full so as to blouse a bit while the skirt is short in the style of the French dress. Cross-barred muslin, dimity and lawn are the favored materials for these aprons intended for everyday. In the medium size, 1 1/2 yards of 36-inch material are needed. 4129—Sizes, 4 to 12 years. The price of this pattern is 10 cents.

4145—A BOX PLEATED FROCK WITH REMOVABLE SLEEVE. A small frock which would serve equally well for the boy or girl has box pleats combined with a shield which is removable—two popular features in children's dresses. The box pleats lend an appearance of height as well as supply fullness to the blouse and extra width to the hem. The scheme is further carried out in the sleeves where two box pleats hold the fullness at the cuff. A contrasting material may be introduced in blouse or belt or the latter may be of leather. Serges, pongee, plique or linen may be used for the dress. The medium size calls for 2 1/2 yards of 44-inch material. 4145—8 sizes, 2 to 5 years. The price of this pattern is 10 cents.

### HORRIBLY TORTURED PRISONERS HE HAD TAKEN

HONG KONG, July 3.—It is reported here from Hong Kong that imperial troops surprised a band of insurgents recently, capturing eighty of them. The Prefect of Way Hin tortured the prisoners, pouring burning resin upon their bare bodies in an attempt to extract the names of the leaders of the uprising in which, however, he was not successful.

MORTON'S HOMECOMING

By Lester Comstock

(Copyrighted, 1907, by C. H. Sutcliffe.)  
The cabin boy Morton was a handsome fellow, and his homecoming was a great event for the hotel. Morton named another hotel, only to find that it was a disappointment. Morton named another hotel, only to find that it was a disappointment. Morton named another hotel, only to find that it was a disappointment.

He smiled at himself for his belief, but the vision seemed so real that he kept on and presently sank into a seat beside the door. The girl raised her head and smiled. "Lucy," he said wonderingly, as he looked at her, "I really do not know you, but you seem so familiar. You have come to me hundreds of times before, each waking and dreaming, but never so plainly dear."

MORE EVIDENCE OF C.P.R. CONTROL

Sleepers from C. P. R. are Being Put Down and C. P. R. Steam Shovels are at Work on the Line

The new passenger terminus of the New Brunswick Southern Railway presents a very gaudy appearance with a fresh coat of paint. This wooden building at the head of the western ferry floats was formerly the terminus of all the western ferries before the advent of the C. P. R. and the building of the Cantilever bridge. A new platform will be built and in other ways the services will be made better than hitherto been given by the Shore Line.

Shipping Companies of Montreal Decide Thus—Both Legs Cut Off Above the Knee

MONTREAL, Q., July 2.—The shipping companies of the port of Montreal have decided to accept and be bound by the terms of the award of the board of conciliation and investigation appointed by the department of labor to inquire into merits of the dispute between them and the longshoremen with regard to wages. Notice has been posted upon wharves notifying the men that all those who intend working out the season will be paid after closing of navigation a bonus of 1 1/2 cents per hour for every hour worked since July 1st. Union objects to bonus system and has turned it down, but the men who do not belong all accepted it, four hundred having signed today. It is expected that this will cut off the union's contemplated strike at the end of October.

BLACK DIAMOND STEAMER WRECKED

CAPE SABLE, July 2 (by Marconi wire).—The Black Diamond steamer Carhagina was wrecked off Halmont ledge, one mile from Blanche Island, ten miles from Carleton Place. The ship, commanded by Captain Feiert, an American, laden with coal, was bound from Michigan to Bonaville and the crew had no difficulty in reaching the shore. They are now being cared for by Wm. Smith at the lifeboat station. Today the steamer is full of water and breaking up. Only expect to save engine and boilers.

LIFE PRISONER GRANTED PAROLE

Left Kingston Penitentiary Yesterday After Twenty-Two Years Behind Prison Walls

KINGSTON, July 2.—There was released from the penitentiary here yesterday a life prisoner named William Gillis, who has been for the past 22 years within prison walls. In the year 1885 Gillis was sentenced to life imprisonment for a murder committed in a rolling pin. The victim was the caretaker of Sherwood cemetery, and Gillis, an aged man, who was supposed to have some money in his house. His skill was bent in by the murder. He was sentenced to life imprisonment, but later the sentence was commuted to life imprisonment. For nine years he remained in the penitentiary at Dorchester, N. B. In 1894 eight prisoners from that institution were transferred to the penitentiary at Kingston, and since then Gillis has remained here. Several times he tried to get the justice department at Ottawa to consider his case, but the time some body blocked his attempt to get paroled. Now Hon. Mr. Aylesworth has seen fit to grant the life prisoner his parole, and at noon yesterday Gillis was released through the penitentiary gates to a free man. He immediately left for the United States. Gillis originally belonged to Charlotteville, P. E. I. In the penitentiary he was a model prisoner.

The other views would include London, The Fencing Master and the Catch of the Season, are being presented. Send your name and address today to the Mother's Seal, 88 Cleland Bldg., Detroit, Mich., for interesting information about this wonderful remedy. They will send you a 50c. or \$1.00 box, all charges prepaid, on receipt of price, or you will find it for sale in St. John, A. Chipman Smith's, G. A. Moore's, and Royal Hotel Pharmacy.

MONTREAL, Q., July 2.—According to reports current tonight the control of the Dominion Iron and Steel Company has passed into the hands of James Ross, president of the Dominion Coal Company, and his associates. Mr. Ross and his friends have lately been heavy buyers of iron common stock on the market, and Ross is stated to be now the largest individual shareholder in the Steel Company.

I.C.R. FREIGHT HANDLERS STILL OUT AT HALIFAX; BOARD OF TRADE ACTION

HALIFAX, July 2.—The I. C. R. freight handlers are still out in the yards. Today the Halifax Board of Trade met and drafted a resolution urging upon the authorities to grant temporarily the demands of the men until the conciliation act is applied in the case. Copies of the resolution were sent to Deputy Minister Butler and General Manager Pottinger. The board claims the business interests of the city are suffering as a result of the strike. The electrical workers are still idle, and the bosses have so far not shown any inclination to grant their demands.

SENAC WILL BE INSPECTED TODAY

Wm. Thomson & Co., managing owners of the Senlac, can make no statement as yet as to what will be the result of the inspection which was held in Dartmouth Cove. An inspection, however, will be made of her today and it will then be possible to say whether she can be repaired or not. Wm. Thomson & Co. were not prepared to state what insurance was carried. The steamer Rosalind was labelled yesterday for the sum of \$100,000. The agents of the Rosalind furnished bonds and the steamer proceeded on her trip to St. John's, Nfld.

THREE TRAINMEN KILLED; PASSENGERS INJURED

SUNBURY, Pa., July 2.—Three trainmen were killed, one probably fatally injured, and 12 passengers were slightly hurt today by a collision between a northbound Buffalo express and a freight train on the Pennsylvania railroad, about two miles from this city. George Lantz of Williamsport, the baggage master, was probably fatally injured. None of the twelve passengers were seriously hurt. The accident occurred in the yards of the railroad and was caused by an open switch. The freight train crossed south, by means of an open switch leading to the passenger track, crossed the northbound track and collided with the passenger train. That more persons were not killed was due to the fact that the train was not running at high speed.

TEN PERSONS WERE HURT

CINCINNATI, Ohio, July 2.—Ten persons were hurt in the collapse of a four-story business block on Main street today. Forty-two others escaped injury. The accident was caused by the weakening of foundations by excavation at Ninth and Main streets, for a new ten-story building. The building that fell was occupied by an office furniture firm. Its outer wall fell over into the excavation where forty laborers were eating their mid-day meal. In the falling building were a dozen other men, some of whom were shot out through the windows and wreckage into the street. The falling timbers, however, formed arches, which protected the men. Isaac White, of the firm of Loeb & White, was slightly injured. His stenographer, Fred Miller, was badly hurt by being thrown out of the elevator into the street, and Joe Donald, a fireman, was struck on the head by a brick while working on the ruins. The others injured were laborers, none of whom were dangerously hurt.

BUSINESS BLOCK COLLAPSED

LONDON, July 2.—Judge Hall, of Montreal, died at Beamstead, Dorsetshire, last night.

BODY FOUND AND POLICE SUSPECT FOUL PLAY

SALISBURY, N. H., July 2.—Bearing marks that led the police to believe that foul play had been committed, the body of an unknown woman of about 35 or 40 years of age, was found in Canobie Lake this evening. Up to a late hour the identity of the victim remained unknown. The body was at once taken in charge by the police, and a search was made for one eye and marks of a blow over one temple. In the woman's clothes was found a bagcase check, indicating that she had shipped a trunk from this town to Windham Junction. The trunk was traced and located at Wymond Junction, but was not opened, pending the report of the medical referee, who was summoned from Derry.

There was considerable comment on the river on Monday over some of the new boats which made their first appearance. Many points for admiration were discovered, but all yachtsmen seemed to agree that the sails on the Claxson boat were the prettiest on the river. These sails were made by Holders of St. John, and appeared to great advantage alongside of some of the best known makers in Canada.

### CANADIAN COLLEGIANS SANG THE MAPLE LEAF

Surprised American Students at Northfield With Great Burst of Patriotism.

Stanley M. Smith, son of W. G. Smith of this city, who is one of the Mount Allison University delegates to the Collegiate Y. M. C. A. convention at Moody's home city in Northfield, Mass., writes very interestingly to friends in this city about the proceedings of the convention of students.

He says the addresses by renowned clergymen and other workers for good are excellent, and the camp life highly enjoyable. There is abundant opportunity for music indulgence, pianos being placed here, there and everywhere about the grounds. Mr. Smith has been filling a position on the staff of pianists since his arrival, and St. John people know how qualified he is to fill it, being a thorough instrumentalist especially at pipe organ playing.

A pleasing thing occurred a few days ago, the Mount Allison delegate relates, when a series of college yells was going round the dining room, Yale, Harvard, Columbia, McGill, Princeton, Mount Allison, Acadia and all the big American and Canadian institutions were loudly proclaimed with shouts ancient and modern, when at the close of this babel of 1100 voices, the whole Canadian contingent rose in a body and sang the Maple Leaf with unrestrained enthusiasm. The American students gave them an ovation in this manner in which St. John people have shown their appreciation of the Keith way of entertaining, and did not hesitate to promise some radically new features in the very near future; specialties that have made sensational hits throughout New England and other divisions of the American republic.

Though Mr. Westgate was non-committal in the matter it is reported that F. G. Bradford, who has successfully managed the Nickel since its inception, has resigned to assume more important duties in a larger city. Owing to Mr. Bradford's absence no confirmation of this report could be obtained, but if it so transpires, that he is to leave St. John there will be much regret, for his gentlemanly treatment of all with whom he has come in contact has made him deservedly popular.

Moving pictures in the illustrated songs are among the novelties promised for St. John.

### KEITH'S "IDEA MAN" STRIKES ST. JOHN

F. Westgate, of Providence, Promises Even Better Things for the Nickel.

F. Westgate, of Providence, R. I., a trained and experienced member of the Keith staff of amusement purveyors, arrived in the city by the Colvin Auld train yesterday, and is attending to some details in connection with the Nickel Theatre. Mr. Westgate is one of Keith's right-hand men, and travels from showhouse to showhouse making valuable suggestions, installing new features, and generally keeping the circuits keyed up to the Keith standard of excellence and propriety.

When seen by a Star reporter today the visiting gentleman had numerous nice things to say about the substantial manner in which St. John people have shown their appreciation of the Keith way of entertaining, and did not hesitate to promise some radically new features in the very near future; specialties that have made sensational hits throughout New England and other divisions of the American republic.

Though Mr. Westgate was non-committal in the matter it is reported that F. G. Bradford, who has successfully managed the Nickel since its inception, has resigned to assume more important duties in a larger city. Owing to Mr. Bradford's absence no confirmation of this report could be obtained, but if it so transpires, that he is to leave St. John there will be much regret, for his gentlemanly treatment of all with whom he has come in contact has made him deservedly popular.

## SALVATION ARMY MAY BUY THE OLD BAPTIST SEMINARY

### Negotiations in Progress for the Purchase of the Abandoned Institution at St. Martins, to be Used as a Rescue Home

The Salvation Army authorities have for some time past been intending to change the location of the Rescue Home, provided a more suitable site could be obtained, than the present one on St. James street.

One of the situations inspected by the Army authorities was the Baptist Seminary at St. Martins. The building appeared suitable but the distance from the city rather counteracts the benefits of the place.

Brigadier Turner informed the Star that although the idea of acquiring the St. Martins Seminary had not been abandoned, he thought no definite decision would be made for some time. In the meantime a still more suitable site may be obtained.

Major Phillips of the Army, is at present in Bermuda. He will return next week, when further plans will probably be laid concerning the matter.

## WANT THE CITY TO BUY OUT DRY DOCK

### Harbor Committee Said to be Considering This In Order That all West Side Lands May be Free—Strong Opposition Has Developed.

It is stated on very good authority that the newly appointed harbor committee which has so far held two meetings, has been seriously discussing the future of the dry dock, preparatory to making any definite plans for a system of harbor improvements. It is felt by one or two members of the committee that the city should be entirely free in the disposition to be made of West Side properties, and in order to hold this position, the dry dock company must be dealt with.

The proposition which has been made is that the city shall take over that land on which the company now holds an option and pay back to the company that money which the promoters have so far expended in developing their scheme. This suggestion is very strongly opposed by others of the committee who feel that the city has no right to recoup promoters of any undertaking for their outlay.

It is understood that the proposition is a number of members of the committee who are not inclined to look upon the dock scheme as one of immediate practical value. It is the discussion of this question which has somewhat delayed the outlining of a plan for harbor extension.
