

W. J. HANNA'S DEATH IS REPORTED

Hon. W. J. Hanna Dead Died Today in Florida.

WAS FORMERLY PROVINCIAL SECRETARY
TORONTO, March 20.—Hon. W. J. Hanna, President of the Imperial Oil Company and former Provincial Secretary of Ontario, died today at Augusta, Ga.

DIED OF A STROKE
TORONTO, Ont., March 20.—A telegram which reached this city shortly before noon today announced that Hon. W. J. Hanna, President of the Imperial Oil Co. of Canada, former Food Controller, also Provincial Secretary of Ontario, died this morning at Augusta, Ga., following a stroke. Feeling unwell, Hon. Mr. Hanna two weeks ago went south with a party consisting of his wife, Dr. S. Cummings, his attending physician, his son Walter Nesbitt and C.O. Stillman vice-president of the Imperial Oil Co. They took up their quarters at Partridge Inn, Augusta.

Word reached Toronto today that Mr. Hanna's health was improved and the announcement of his death today came as a surprise to his friends. It is believed that the death of his only son, Lieutenant Neil Hanna, while flying in Italy last November, hastened his end.

Beside his widow two daughters survive, Mrs. H.B. Spalling of Toronto now in New York, and Miss Katharine Hanna, student at Dassar College, Poughkeepsie, New York. The body will be brought home, to Sarnia for interment.

HANNA'S DEATH REGRETTED
TORONTO, March 20.—The province of Ontario has lost a very capable citizen in the death of Hon. W. J. Hanna, said C. M. Bowman, chief Liberal whip in the Ontario house. "During his term of office as Provincial Secretary he brought about a very businesslike system in regard to the institutions under the control of his department. Since assuming the presidency of the Imperial Oil Company, he clearly served his generation by the profit-sharing system which he put into effect."

News of the death of Hon. W. J. Hanna, former Provincial Secretary of Ontario, has cast a pall of gloom over Queen's Park today. Members of both sides of the house alike received the tidings with regret and were outspoken in their tributes to the character and ability of the deceased. Premier Hearst declined to make any comment until the opening of the house this afternoon, when official recognition will probably be taken by the government of the passing of the former cabinet minister.

Colonel Donald Sharp, Conservative member for Welland, expressed regret at the death of Mr. Hanna, and stated that while overseas he had met Mr. Hanna's sister-in-law, Miss McAdam, who is a member of the Alberta legislature, and who was serving as a Red Cross nurse.

"He was the strongest man in the Whitney cabinet, in point of ability and strength of character," so Allen Studholm, Labor member for East Hamilton, said. "He and I fought frequently on the floor of the house, but personally we were the best of friends. He was working toward a spirit of cooperation between employers and employees in the Imperial Oil Co., and his death will be a serious loss to the province."

TORONTO, Ont., March 20.—The undertaking, assets and liabilities of the Toronto Daily News have been acquired by a group of Canadians.

The new proprietors have decided to produce an entirely new journal in keeping with the requirements of a progressive period. The new daily will be called: "The Toronto Times" and will make its appearance on Thursday, March 27th. It will be published under the direction of Mr. C. W. McDiarmid, as general manager, and Mr. F. D. L. Smith, as editor in chief. The Toronto Daily News will make its last publication on Wednesday, March 26th. The name of the new company will be: "The Toronto Times Limited."

Improved C. P. R. Connections to City

Also Better Lake Erie and North-ern Facilities

Better C.P.R. train connections for this city are a certainty. Certain changes have been decided on by the Grand River Valley Railway Company for the benefit of this city. As a result the officials of the company immediately set about to work out a plan whereby the connections will be improved.

The most important change is the putting on of an early morning car which will leave here at 6.05 every morning and will make connections at Galt with the 6.55 a.m. train for Toronto besides Hamilton and Buffalo. This connection will enable citizens who want to get to Toronto early to reach there at 8.40 o'clock, twelve minutes later than the time at which the first train for Toronto leaves this city. The connections with the Galt train are the first class through train which carries a cafe-parlor car. This connection will also enable one to go to and get back from Buffalo on the same day. It will, therefore, be a convenience for many busy business men who may wish to meet someone over on the American city for an hour or two consultation. They have the alternative of leaving Buffalo via two ways and still arrive home the same evening. At present one cannot reach Buffalo until about five o'clock in the afternoon. The new connections, it is calculated will also be an advantage to business men who wish to reach Toronto before the Saturday hours close.

The Lake Erie and Northern connections are also improved, after the new time table goes into effect the Port can be reached at 8.50 o'clock in the morning. This is two hours earlier than at present. In the evening there will be a great improvement in these connections. Leaving the Port at night on the last car one can reach home on the twelve o'clock car, which will be an extra car on the Grand River Railway into this city.

Other improved facilities are the Paris and Brantford connections which will be found advantageous to many of the Twin City's commercial travellers.

In addition to these this city's name will be added to the regular C.P.R. time-table which will mean that the nuisance experienced by many a passenger to and from this city will be eliminated. It will facilitate the buying of tickets to this city and also the checking of baggage consigned to the city.

Speaking about the improved facilities, Mr. C.J. Whitney, the General Passenger Agent of the Company who was in the city yesterday said: "This is something which we have had in mind for some time but we couldn't do anything. We simply had to sit tight owing to war conditions."

In view of the fact that our neighboring city of Galt has about seventy opportunities in a day for its people to leave the city either via the steam line or the electric the importance of the extra facilities can be seen.

Complete details of the new connections will be found in another column of this issue.

THE WORK OF A CHAMBER OF COMMERCE OUTLINED

Big Meeting Appoints a Representative Committee
to Further Look Into the Plan Outlined by Expert.

The work and the advantages of a Chamber of Commerce were explained to a big meeting of representative citizens last evening in the City Hall by Mr. C.W. Otto of the New York City Bureau, who at present is organizing a Chamber in Stratford. The speaker made the fact clear that he came here to tell of what the Bureau which he represents has done in other cities, the work and purpose of Chambers of Commerce, their system of organization and that he would not ask the citizens to buy this system of organizing, perhaps they could do it themselves but considering the experience in other cities it was found that the Bureau was more successful in undertaking the organization than the citizens themselves. Reasons why this is so he explained later in the evening.

The result of the education of a meeting was that a big committee consisting of the chairman of the various public bodies of the city and Waterloo, including the Mayors of the two municipalities, was appointed to investigate further and decide whether the two places are to organize a Chamber of Commerce and if so who is to organize it? It might be stated that the big meeting went on record as favoring having Waterloo be represented on this committee, there being a manifest feeling that if such an organization is brought into being it should include Waterloo. This committee will meet next Monday evening when the whole matter will be gone into. The charts which Mr. Otto used to explain the workings of a Chamber of Commerce and the organizing of the same will be available for that one of the first matters that was desired in any city was peace. This object might be attained in several ways but one essential must accompany this peace; that was a connecting link. There still might be a disconnection even with peace. He said that there was no connecting link in this city, and instanced one example, that was where two important events recently were scheduled for the same evening, these were the lecture of Lt. Beverly Robinson the noted escaped prisoner of war, and the Board of Trade meeting. Had there been a connecting link in the city this overlapping would have been avoided. "It is up to us to decide whether we want some such organization here. As to the name of such an organization you can call it a discussion club, a get-together society, call it any name you like. We have with us tonight, one who will tell us how such an organization may be formed and when he has told you his views it will be up to you to judge the merits or demerits of the plan. Remember this meeting is being conducted by you and it rests with you to say what is to be done."

Mr. Davidson then informed the meeting that he regretted that Col. Foster who had intended to be present to address the meeting had been called to New York and regretted he was not able to be present. One of the other members of the Bureau who are conducting campaigns throughout the continent, who numbered eight two of whom are now in Western Ontario, had consented to speak. This was Mr. C.W. Otto, who is conducting the organization of a chamber of Commerce in Stratford.

Mr. Otto among other things said "I come here upon request in order to tell you the work and purposes of a Chamber of Commerce and the ways and means of organizing used by the American City Bureau of New York. We are not going to ask you to buy these from us. Perhaps you can do it yourselves, that is a matter for you to decide."

A Central Link Needed

"The purpose of a Chamber of Commerce is to create thought and arouse discussion of matter of interest and importance to your city. For that reason, as Mr. Davidson, has pointed out you need a forum as a central link. The purpose is community development. I propose telling you how other cities have undertaken the organization under the system of the Bureau which I represent. I will tell you this regardless of what you here may propose to do. I do not know whether you are considering the services of the Bureau or not and I do not care. That is immaterial."

By use of a chart Mr. Otto, impressed the fact that the membership of the Chambers of Commerce is built on three principles, \$25 annual dues for each member; plural membership; and a three year guarantee. Regarding the twenty-five dollar fee he referred to the amount. There was an advantage in having the fee placed at this figure because everybody who became a member would take a greater interest in the work. "It will teach the habit of appreciation of public services. Some there are who we meet with who ask what do I get out of it? Now that is the wrong way of looking at the matter. The foundation of the idea of a Chamber of Commerce is unselfishness. What can I do for others and for the benefit of my city? should be the idea. We frequently in our campaigns meet men who ask 'what do I get out of it?' and it requires some talking and explaining. But they seldom fail to change their mind and see the matter in the right light. We have had men change their point of view

after fierce fighting, to withdraw to Odessa by sea.

Further east, the Bolsheviki have reached the isthmus of Perekop, leading to the Crimea.

British Junker Sheet Opposes World League

AND CRITICIZES PRESIDENT WILSON

LONDON, March 20.—The London Globe which is consistently anti-Wilson and opposed to the league of nations, attacks the president on the charge of delaying the peace work. It refers to his "imperialistic mind" and says it is sure America will not be flattered by the spectacle of Great Britain and France awaiting his convenience while he receives the confidence of Americans. "Wilson will have to recognize that he is not boss of the show," said the Globe. "The peace terms must come first before we begin to discuss the points of Wilson's little pet dog."

Was a Graduate of St. Jerome's

THE LATE REV. FATHER CARL BOHRER MANY YEARS IN SOUTH AMERICA.

Visited Here Last Eighteen Years Ago.

Regarding the death of Rev. Father Carl J. Bohrer, in Cayaz, Brazil, which was reported in yesterday's issue. The late Reverend Father was reared and received his early education in this town. He was born in Strasburg, Alsace Lorraine in 1859 and came to this country many years ago with the family. He attended St. Jerome's College, subsequently studied at Rome for nine years under the Order of the Resurrection and was later ordained to the priesthood. He became a missionary and filled that position with success. For many years he was stationed in South America, remaining there until he was called from this earthly life.

His death occurred on November 17th. It therefore required four months for the intelligence to reach his relatives here, a letter from the bishop in South America reaching his mother, Mrs. Eleanor Bohrer, 112 Young street, on Tuesday, which stated that he had passed away in Cayaz, Brazil on the date mentioned. Death was primarily caused by influenza.

Surviving him are his mother, one sister and brother, namely, Mrs. Thompson of Washago, Simcoe County, and one brother, Mr. Emil Bohrer, the late Reverend Father visited here last eighteen years ago.

U.S. Steel Men May Reduce Price of Steel

BUSINESS MEN AND UNITED STATES GOVERNMENT OFFICIALS MEET

Washington March 19.—Initial steps toward bringing about a reduction of prices and stabilization of the basic commodities were taken today at a conference of representatives of the steel industry with the department of commerce's recently-organized industrial board. The steel men headed by E.H. Gary chairman of the American Iron and Steel Institute met with the board and later held a separate conference.

Another meeting with the board will be held to-morrow. The attitude of the steel manufacturers towards the board's proposals was not announced. The board however in a statement issued after the conference said that while an actual decision on a lowered scale of prices had not been reached, satisfactory progress has been made. Chairman Gary of the board was quoted as saying that the steel men had shown an entire willingness "to co-operate in making effective any plan that will hasten the return to normal conditions".

Canada's Population Estimated 8,835,000

ESTIMATE OF GOVERNMENT PLACED BEFORE COMMONS

Ottawa March 19.—Canada's estimated population to-day is 8,835,000 according to an answer given to Mr. Tobin in the House this afternoon. The population last census was 7,206,643.

Sir Thomas White informed Mr. Kay that up to March 12, 1919 the new print commission had cost the country \$75,945. The investigation has enabled the various newspapers to continue regulating the supply and cost of paper thus making it possible for the Government to give greater publicity to the various war loans and other necessary measures.

Hon. J.A. Calder told Mr. Proulx that the cost of the reparation committee to March 11 was \$90,720. There were 50 employed in the work of the committee at the present time. Salaries to date totaled \$20,364.

The Work of

(Continued from Page 1.)

come to us with tears in their eyes regretting that they had never known before what public service meant. Recently a millionaire who was asked to join said: "It's no use wasting my time with this. I'm too busy a man to bother with this." Well, we talked to that man for hours and finally he took a different view point and with tears in his eyes he said he never knew until then what public service meant.

May Have Many Memberships But Only One Vote.

Mr. Otto dealt with the plural membership pointing out that a man could buy as many memberships as he liked; up to 200 if he so desired. But there was only one vote for every man. The other memberships the man could add as he saw fit. For example there were manufacturers on the other side who had as many as 200 and 140 memberships. He cited instances where men bought that many memberships and allotted them to their employees. In London and Sarnia also some wealthy manufacturers had bought many memberships for their employees. Lodges, societies and other organizations, including public bodies could buy memberships and assign them to individuals as they saw fit.

Will It Live? "Will the organization live?" Mr. Otto asked. His answer was the fact that in the many cities where Chambers of Commerce had been organized they were doing splendid work after three, or five or six years existence.

An Example of Co-operation.

He outlined what had been accomplished in the way of co-operation and fostering public spirit in Springfield, Mass. In that city an auto tourist stepped out of his car one day to buy a blanket in a store. The kind he wanted was not handled in that store but other kinds were. Nevertheless the clerk directed him to another store where he could buy it. The clerk in this store also said that the store did not have the kind he wanted and directed him to a third nearby. In the last named he found what he wanted. He purchased one but went back to the first store, being so surprised at the courtesy and promptness shown by the clerk; he asked the first clerk why he had directed him as he did when he had so many other blankets which he, one would think, would have endeavored to sell him. The clerk's answer was that this was according to the manager's orders. He knew he did not want the blankets he could offer but he also knew that the blanket had to be bought in Springfield. "That's cooperation with your competitors. That's a fine example of public spirit," he said.

Mr. Otto then alluded to the success of the organization efforts of the Bureau in London, Brantford, Guelph and Sarnia where Chambers of Commerce had been organized in the order named these cities had secured memberships totalling 800 (in the time of an epidemic of influenza) 500,400 and 625. In the case of Sarnia remarkable results had been accomplished for a city of only twelve thousand people and already the good that is being done is evident, the enthusiasm and the spirit of the Sarnia Good Roads deputation to Stratford recently was the result of the new organization.

The Bureau has All Facts for Organization.

The expert then dealt with the question: "Couldn't the city itself do the organizing?" He answered this by stating it might be they could but the Bureau had valuable experience behind it, they had more facts and data than any organization in the world. He further stated that an outside organization which came into a place to organize had the advantage that it removed any possible suspicion that a particular man or a particular group of men were doing this for their own interest. The canvassing for membership of course was left to local men.

Regarding the campaign of organizing in the respective cities the following was the plan: a preliminary campaign of four to six weeks duration, an intensive membership campaign of one week and the completing of the permanent organization.

Then explaining the work of the Chamber as an established organization he used another big chart showing the composition, parts of the same. Using the directors of the Chamber as a foundation and the paid secretary as a second stratum, with the members forum as a complement body which might have representatives to attend the directors meeting but couldn't vote, the organization included the following: Administrative Committee, Publicity, Social Contact, Program of Works, Special Committees, Trips, Distinguished visitors, "Stunts," and the Publicity end was divided as follows: Daily Mailings, Newspapers, Referenda, and a bulletin which the Chamber published.

Should Have \$10,000 Income Here In reply to a question by Mr. H.F. Boehmer the speaker said that this city of twenty thousand people at the very least should have a membership of 500 and an income annually of \$10,000.

Later when Mr. L.J. Breithaupt asked how this would be spent Mr. Otto said that the services of a regular paid secretary was a first essential, the use of permanent and attractive quarters another. Then there was the expense of the regular bulletin, printing and advertising besides having a fund on hand at all times to enable the secretary or committees to make a business visit whenever necessary.

In reply to a question asked regarding the relation to the schools Mr. Otto said the Chamber kept in touch with these and made it a point to let pupils know what is going on in their city. "It is a fact that very few people really know what is all going on in their city."

The Committee Appointed.

After Mr. Davison had resumed the chair it seemed to be the unanimous opinion that steps to further investigate the proposition should be gone into. Accordingly the following committee was appointed to meet and go into the matter thoroughly; it will be noticed that the same is very representative:

Kitchener City Council, Mayor D. Gross; Great War Veterans Association, Mr. E. W. Kett; Chamber of Commerce, Mr. J. H. Dahmer; Kitchener Manufacturers Association, Mr. E.C. STUFFY HEAD CLEARED BY CATARRH ZONE

Word to catch victims we have just one word of advice—cure it now.

The remedy is "Catarrhzone." That it will cure permanently you cannot doubt. Catarrhzone has cured thousands of cases of Catarrh.

It acts in two ways: First, it destroys the germ that checks the progress of the disease. Its second action is to heal the sore places the germs caused. Nice to think of breathing little drops of healing to the throat and lungs, bronchial tubes and nasal passages. It is such absolute thoroughness that makes Catarrhzone so effective in grippe, catarrh, and colds. Then by its sedative influence upon the mucous membrane it clears away the cough and throat tenderness very quickly. We have something to a science that has given us Catarrhzone—that wonderful remedy which so surely enables us to permanently cure disease of the throat and chest.

Don't scold, Mother! The Cross Child Is Bilious, Feverish

Look at tongue! If coated, clean little stomach, liver and bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally has stomach indigestion, diarrhoea, give a teaspoonful of California Syrup of Figs and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative" and mothers can rest easy after giving it, because it never fails to make their little "in-bidies" clean and sweet.

Keep it handy, Mother! It little given today saves a sick child tomorrow but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs" which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Large expenditures are again to be made in connection with railways.

The amount to be appropriated is \$50,896,681, which is an increase of over \$23,000,000 as compared with the current fiscal year. The amount proposed for pensions is slightly over \$30,000,000 an increase of almost \$14,000,000 over the current year. Almost one and a half millions is to be voted to immigration and colonization costs, an increase of \$300,000. This does not include the expenditures in connection with land settlement for soldiers for which the sum of over \$25,000,000 is to be voted. Another large proposed expenditure is \$22,763,420 provided the department of soldiers civil re-establishment, which demands large interest in connection with vocational training of returned men.

The railway and canal votes are chargeable to capital include over \$11,000,000 for Government railway and \$35,000,000 for miscellaneous equipment. The expenditure for the Hudson Bay Railway is only \$100,000, but Western members hope that this will be increased in the supplementary estimates to be brought down later. The \$100,000 Hudson Bay vote is for Port Nelson terminals.

Provision is made for the spending of \$3,500,000 on the Welland Canal.

Railways and canal votes, chargeable to income, total over \$36,000,000. This sum includes a loan not exceeding \$35,000,000, repayable by instalments at the rate of six per cent. to be used to meet expenditures incurred in paying interest on securities to excess of the amount available from net earnings, or paying railway loans to the C.N.R., or any company included in the Canadian system, and for construction and betterments, said loan to be secured by mortgaging it on the undertaking of the Canadian Northern Railway system, containing such terms and conditions as the governor-in-council may approve.

The sum of \$25,000 is provided for the organization and payment of staff of A.W. Campbell, commissioner of highways.

Harbor votes, chargeable to capital, include \$300,000 for improvements at Port Arthur and \$75,000, \$75,000 for improvements at St. John and \$500,000 for Toronto harbor improvements. There is a long list of harbor and river votes chargeable to income, divided pretty equally between the various provinces.

Miscellaneous public works votes include \$25,000 for a monument to the late Sir Wilfrid Laurier. An additional \$2,000,000 will be voted in connection with the construction of highways.

Public works, votes chargeable to capital include \$478,000 for the river St. Lawrence ship canal and \$163,900 to complete the dredging plant for the St. Lawrence River from Montreal to Father Point.

Owing to the enlargement and increased jurisdiction of the Royal Northwest Mounted Police force the appropriation has been increased from \$1,174,000 to \$2,249,505.

General miscellaneous votes include the \$25,000,000 to be loaned to the Provincial Government to encourage erection of dwelling houses. The sum of \$100,000 will be voted to cover the expenses of the Canada Trade Commission, while \$50,000 is provided to meet the cost of the Canadian war mission at Washington.

The vote covering survey of water power resources has been increased from \$144,000 to \$172,000. The amount provided for the naval service is \$1,805,000 an increase of \$275,000.

No Military Camps.

Militia and defense estimates call for an expenditure of \$4,166,000, which is a decrease of \$28,000, or as compared with the current fiscal year. No provision is made for military camps, it having been decided that none will be held until there has been a full reorganization of the militia forces on and after the war basis.

There are a number of increases in the appropriations for the department of agriculture, including \$187,963 more than last year for experimental farms, and \$200,000 additional for the development of the live stock industry.

HYDRO COMMISSION BEING ASKED FOR ADVICE: \$800,000 NOW INVESTED IN THE ROAD.

WINDSOR, March 19.—A proposal to acquire and operate as a public enterprise the Sandwich, Windsor and Amherstburg Street Railway, now being run under franchise by the Detroit United Railway, is merging into a tangible scheme likely to have the co-operation of the border municipalities.

Mayor H. Winter, of this city, stated to The Free Press before he left for Detroit to-day, that while Windsor cannot act alone in the matter, he believed the time was ripe to start the preparation of a definite scheme for taking over the railway and converting it into a municipally owned street railway.

Winter will ask Sir Adam Beck to come to the city and address a meeting, explaining his ideas of the best means of taking over and operating the road. The city already has a report prepared by the Hydro-Electric Commission relating to the value of the railway, but is taking no action on this report till further plans are under way.

Well Considered.

The acquisition of the street railway by the municipalities is not a new idea, but was held in abeyance during the war. Windsor's interest is merely reviving as conditions become more nearly normal. Sandwhich's attitude is favorable. When that city granted its latest franchise to the D.U.R. a restriction was placed in the deed that the provincial legislature, making use of the time limit, Amherstburg, the southern terminus of the railway, will be glad to join in any enterprise tending to the advancement of the municipality, according to Dr. W. F. Park, Amherstburg mayor.

"If the people are going to make a municipal enterprise of it," said Mayor Park to-day, "now is the time to act. Amherstburg would certainly co-operate. The difficulty appears to me to be getting the D.U.R. to let us have what we want to do. With other municipalities, Windsor and Sandwhich, it may be different, but on this end they have a long franchise."

About \$300,000 Invested.

The D.U.R. is estimated to have \$800,000 invested in the line. Nobody doubts it is a paying proposition. Two years ago, according to Mayor Park, the total earnings amounted to something like \$350,000, and operating expenses were in the neighborhood of \$157,000, so that it was able to pay eight per cent. over and above the bond issue of four per cent.

"This makes it probably one of the most profitable electric lines in the country," he continued. "There is no reason why it shouldn't be made a profitable investment for the people. While it is not in favor of municipal ownership, as conducted in some quarters, there is no doubt it is the only thing to be considered in others. From Teumseh, through Windsor and Sandwhich to Ojibway and Amherstburg, the line serves what is bound soon to be one of the most thickly populated metropolitan districts of Canada."

The point is, if the D.U.R. won't sell, how are you going to compel them to?" he considered.

On the other hand, however, there is a variety of opinion. A citizen of Amherstburg, who at one time shared the franchise for the road with one other, gave it to The Free Press as his opinion that the D.U.R. was ready enough to sell.

A Levy.

In case the franchise on parts of the road is not renewed, he is pointed out that the other portions on which the company held a long-term hold would not be a profitable investment for them, and consequently when one section of the franchise lapses the road will be purchasable.

It is something of these facts that Mayor Winter, of Windsor, will explain to the Hydro-Electric Commission at Toronto. In case it is not possible to get Sir Adam Beck to address a meeting here, a request will be made for a report from the

commission dealing with the situation. In the meantime the report already in the hands of the Windsor Council is not being made public. It contains information that the D.U.R. would like to know about.

The S.W. & A. Electric Railway runs through what is sure to be one of Canada's busiest industrial sections. For seven and a half miles south of the City of Sandwhich it is flanked by paved highways, beyond which are subdivisions and factory sites along the river that are already being located on the Ojibway townsite and plant of the Canada Steel Corporation are on the line, about four miles out of this city.

community. He said the five fingers of the hand of the Movement stood for testing, service, loyalty to one's church and denomination, fellowship and a clean consistent personal life. Endeavors followed out these five things they could not fail to be a power for good in the community. He predicted great things for Christian Endeavor in moulding and directing the lives of the young people.

Mr. Hewitson, the President of the Ontario Union said that they were making a short tour of the larger centres in the province, including Hamilton, Toronto, Kingston, Ottawa and Kitchener. He said they were especially fortunate in being able to secure Mr. Gates who recently had been secretary for the State of Illinois. He had never been called to the largest task of General Field Secretary of the United Society of Christian Endeavor.

Miss Lillian Breithaupt, Superintendent of Junior Work in connection with the Provincial Union, was also one of the officials making the tour.

On behalf of the local Union, Rev. M. McBain pastor of Trinity Church, extended a welcome to the provincial officers.

The chairman of the evening was Mr. Lloyd George who filled the position acceptably.

The devotional exercise were conducted by Rev. Mr. Parker, pastor of the Congregational Church.

After the meeting, Mr. Gates conducted a school of methods and gave numerous beneficial suggestions regarding plans which might be adopted. His remarks were a decided help to all who attended.

OWING TO SPARTACAN OUTBREAKS

GENEVA, March 20.—French troops have occupied Mannheim and Karlsruhe, on the west bank of the Rhine, on account of Spartacan outbreaks there, the Vossische Zeitung says. This newspaper adds that the French have also occupied Rheinfelden, five miles south of Mannheim and Weinheim.

A Berlin dispatch, received Monday, said that reports had been received there that the British and French had advanced their outposts from the limits of their bridgehead at Cologne and Mayence respectively. The French were reported to have entered Frankfurt.

Retail Grocers Hold First Annual Banquet

The retail grocers with their clerks and wives, made merry on Tuesday evening last in the K. of P. hall, Queen St. S. the occasion being their first annual banquet. About 9 p.m. nearly 100 men and women engaged in the groovy business in the city sat down to one of the most and daintiest repasts ever served by any club in the Province. Mr. John Schmar Secretary of the Association occupied the honorable position of toast-master and to say the least he performed the duties of that office most creditably. Ald. Geo. Zettel President of the Association occupied the chair at the other end of the table. The programme committee did not present anything very elaborate, but what was there was first quality at cost prices.
President Zettel in responding to the toast "To the organization," pointed to the benefits that had been derived through organization, both past and present and he felt assured that in the very near future we would have a 100 per cent organization. Mr. Henry Knapp entertained the gathering with his humorous recitations, readings, slight-of-hand work and by his actions seemed to be possessed with the youngest spirit and feeling of any present. Ald. Jack Reid, gave a brief talk on Competition and Co-operation, which was not only interesting but instructive and which the audience appreciated. He also made the announcement that most of the good things on the tables had been donated by generous hearted wholesalers and drew the attention of all present the spirit of a unity and cooperation which exists between the various wholesalers and the retailers in the city. The following donations were generously offered and kindly accepted: J.M. Schneider & Sons, meat; John Sloan & Co. coffee and sugar; Rosedale and Shoemaker Creameries, butter and cream; O'Donnell and Henderson, Waterloo, cakes; Randall & Roos, cigars; Longo Bros. fruit; H. Dietrich, bread, Norton & Co., soft drinks. A standing vote of thanks was rendered to those firms for their generosity. Mr. Shepherd of the Rosedale Creamery on behalf of the firms mentioned suitably replied. Mr. Knapp the popular and well known East ward grocer, rendered a guitar solo with song and made a most little speech on punctuality. 7 store system, one of the most amusing sketches of the evening was a recitation by Mrs. J. Schnaar, entitled, "Blackening the Baby" towards the end of her part she had the audience in screams. Mr. Arthur Stauffer's talk on early closing and the Wednesday half holiday, had beneficial results as all present signed a petition for the half-holiday for eight months of the year. Mr. C. Dunke replying to

the toast "To the ladies" felt it answered well for the success of the association to see so many present and to find that they were so active in the retail trade in catering to the needs of Kitchener citizens. He moved a hearty vote of thanks to the Committee of ladies composed of Mrs. Zettel, Mrs. H. Lang, Mrs. Wellhauser, Mrs. Schuarr, and Mrs. Reid for the most efficient and able manner they had arranged the tables and supplied the needs of all present.
After the inner man and woman had been satisfied and the tables removed those inclined tripped the light fantastic, to music so ably rendered by Miss Gollard and Mrs. Zettel. Others engaged in cards, checkers, and pool and a most enjoyable evening closed to the strains of the National Anthem at 2 a.m.

CANADA'S WAR OBLIGATIONS AND PROTECTION

At the end of December, 1918, the net debt of Canada stood at \$1,330,228,898. When all the war bills have come in, it will be considerably higher. At the end of 1919 another three or four hundred millions may be added to it.

With the war ended, it has become necessary to provide ways and means of liquidating the national debt. This, owing to its hugeness, cannot be rapidly done. The present generation will be concerned to meet the interest and a proportion of the principal. Three coming generations will assist in paying off the debt itself.

How should the Canadian public view its burden? As an insurmountable or a surmountable one? Canadians are of too good stuff to flunk before even these huge commitments. Few there are who would say it cannot be done. Were all so to declare it would neither remove the necessity of doing so, nor pay it.

The people of Canada are faced with a reality. It is then of importance that they look it and their resources squarely in the face. On one side we have an increase in the national debt of more than one billion dollars, chiefly due to war expenditures. Has the war placed any items on the credit side of the ledger? Yes.

For one thing it has probably doubled the wealth of the country. This has been placed at \$17,000,000,000. Were it found, a year hence, that the national debt was \$2,000,000,000, the people as a whole would in a pinch have \$8.50 with which to pay each dollar of public indebtedness. Then there is no danger of the country having to call in a receiver.

For another, the exertions put forth has increased the capabilities of the nation. Canada has learned how to perform bigger tasks and grown stronger in the exercise of its known and latent powers.

The Dominion has another point to its credit. It has not like many European countries, been devastated by war. None of its cities are in ruins; its factories and commercial enterprises are whole and even more numerous and stronger than before it began; its farms, forests and mines have gone untouched by the madman. Friends and foes in Europe have greater bills of cost to pay and a considerable number of them while faced with these must reconstruct industry from the ground up.

Taxation will be one of the chief difficulties Canadians will require to face. It will, undoubtedly, be heavier and longer continued than anything they have heretofore experienced. Last year, the country's revenue was \$260,000,000. It is estimated that \$437,000,000 will, during the coming fiscal year, be required. An increase of \$177,000,000. Study is now being given to the question of how to secure this, since secured it must be.

It is the duty of the Minister of Finance to round up four hundred millions. It will be the Canadian public's duty to furnish it. Obviously it would not be a difficult matter to pay this federal tax bill could the country's domestic and foreign trade be maintained at its present and past high pitch. Assuming that it cannot wholly be maintained, since there will, if nothing else, be some deflation of prices, ought not it to be the resolve of leaders of trade to maintain output at its present level and wherever possible to increase it? A busy nation, profitably employed, can carry a heavy load. For some months reports have been circulating that it is the intention of the Canadian West to demand a marked reduction in, if not the abolition of, the tariff. There were many good reasons why the Protective tariff should in normal times be maintained. These still hold and are now, with increased taxation imminent, twice as convincing.

To remove or even lower the tariff, means buying from foreign countries articles that are now being made in Canada. This implies taking trade and employment from Canadians and giving it, for instance, to the factories and workmen of the United States. Idle factories and idle mechanics in Canada could not pay war taxes nor any other kind of taxes.

The United States, whose national debt exceeds \$18,000,000,000, will not reduce, while it may increase its tariff. This to raise more revenue and protect their industries and people against outside competition. They may also exclude immigrants for two to four years.

Canada, alone of important countries, is discussing swapping horses while crossing the stream. Cripple your industries and your mechanics will be obliged to go elsewhere for positions, leaving Canada up to the neck in debt and her commerce languishing.

Were the West to take a snar view of the tariff and of the country's needs, it would be possible to get concerted effort to maintain Canada's trade. Doing this Canadians would find it the easiest way to pay off the obligations incurred during the war.

Furthermore, as Canadians decide for Protection or Free Trade they will determine whether Canada is to become a greater and more prosperous nation or a poor, struggling, tax-ridden country.

Given Protection and Prosperity, no other country stands to carry its load with as little inconvenience nor to dispose of it so quickly.

DAYLIGHT SAVING

While there is still some hope that the federal government may reenact the Daylight Saving measure of last year, there are many persons who "hate their clocks." Opposition to it is offered on the part of rural Canada. It is not unanimous but it is, in spots, strong.

It is difficult to understand why. Our friends, the farmers, have for time immemorial have risen and retired with the sun. They have moved the hands of the clock to match the sunshine and ridiculed townspeople who lie abed in the mornings and so lose the best hours of the day. They are presently setting up the plea that the dew is not off the grass before eight o'clock in the morning, necessitating work during haying and harvesting in the evening.

Do they not overlook the fact that when they are asked to move the hands of the clock forward they still have the right to begin and cease labor when they will?

Were their influences strong enough to prevent the reenactment of Daylight Saving, it might deprive townspeople of a salutary ordinance. Living and working in the open, surrounded by sunshine and fresh air, they may fail to understand what inroads close confinement

all the year around may make upon the physique and health of factory, store and office employees. Unlike the man on the farm, these cannot be a law unto themselves and wait until the dew dries. A common time schedule is necessary, where their comings and goings are governed by a clock.

Townfolks living and working within four walls, and going and coming to their labors over concrete pavements, stand in need of recreation. Everything which can be provided to enable them to tickle the earth with a hoe or engage in athletics, either before or after the day's work, is both necessary and beneficial.

The general agreement as to its benefits has, after a fair trial, led to a desire on the part of the majority of Canadians to have Daylight Saving made a fixture in the scheme of life. It gave citizens more time for the cultivation of gardens, more time for sports and amusements and enabled them to renew their physical energies against the days of winter and steam-heated environments.

Conversing with a mechanic, who takes a live and active interest in a garden, as well as in athletics, The Record was informed that he was counting the days until he could play or witness a good ball game in the summer evenings. That he and others will be the better for it, no one who resides in a town will question. Any opposition to lengthening these hours of recreation seems based on a lack of knowledge of urban conditions. "All work and no play makes of Jack a dull boy."

Perceiving that the United States have retained their Daylight Saving law and that it will go into effect on Sunday 2 a.m., March 30, and remain in force until the last Sunday in October, meaning that there may be some confusion in the operation of trains over the boundary, unless Canada's time is made to conform with American time, the question arises, What action will Canadian towns take in event of parliament failing to reenact Daylight Saving?

It appears to us that they should generally introduce Daylight Saving bylaws themselves. It has proven to be too good a measure to be discontinued.

BY THE WAY

Everyone welcomes the coming of sunshine without a sting.

Were parliament to fail to reenact the Daylight Saving law, these two communities should adopt one of their own.

The Hamilton Spectator declares that it was "prejudice" which carried the Hydro radial bylaw. No! It was reason, based on the knowledge that public ownership gives the people services at cost.

Next Monday, the property owners of Guelph will vote on a bylaw having for its object the loaning of \$50,000 for 15 years to F. E. Patridge and associates, in consideration of their establishing a factory to manufacture rubber footwear.

Speaking of Guelph, it has set out to reach the 25,000 mark in population within 5 years. If memory serves aright, it has now slightly more than 16,000 inhabitants. To gain about 2000 yearly will call for tall hustling.

Within the lifetime of the rising generation there will be a large center between London and Toronto and larger than London. We are inclined to believe that it will not bear the name either of Guelph nor Stratford.

SCOLDING THE CHILDREN.

Nervous mothers, worried from morning to night by the care of children and the duties of the household; nervous children, perhaps worn out by overstudy, unable to sit still or stand still, or keep their minds concentrated on anything, both need Dr. Williams' Pink Pills to build up the blood and strengthen the nerves.

Try a short treatment with these strengthening, tonic pills and watch the color return to pale cheeks and lips; see how the worn tired nerves recover their poise, note how much less irritating the children become, and how much less scolding they need. Dr. Williams' Pink Pills are a blessing to nervous people everywhere, men as well as women, boys as well as girls, because they build up the blood and strengthen the nerves. They lighten the cares of life because they give you new strength to meet them.

In the case of nervous children the trouble should be corrected at once, as it is but a short step to St. Vitus dance. Give them Dr. Williams' Pink Pills to build up the blood, and whether boy or girl they will become pink-cheeked and rugged.

Dr. Williams' Pink Pills should be kept in every home, as a precaution against the many troubles due to watery blood and weak nerves. You can get the pills through any dealer in medicine, or by mail at 50 cents a box for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Helping Nature,—the Key to Good Health

Watch for these Symptoms

Kidney or Bladder affections don't develop seriously until Nature has given you plenty of warning that the trouble has commenced.

Constant headaches, dizziness, pains in the back or sides, swollen joints and ankles, brick dust deposits, or painful urination should make you realize positively and beyond doubt that your kidneys are out of order and need assistance.

Nature is wise and never sends out unnecessary or foolish warnings. Her call is for help, and you must do your part by bringing relief to those overburdened kidneys, or suffer the consequences.

Rheumatism, Lumbago, Sciatica, Gravel, Stone in the Bladder, Neuralgia, etc., are all caused by inflamed or congested kidneys and the consequent deranged kidney action. Don't suffer the agonies produced by these diseases. Help Nature to relieve the congestion—to heal those inflamed kidneys and to make them strong once more—by taking Gin Pills.

Gin Pills are the best remedy for Kidney and Bladder troubles on the market to-day. This is a fact proven by hundreds of testimonials. Try them and be sure of instant relief. For sale everywhere at 50c a box. A sample box free if you write to—The National Drug & Chemical Co. of Canada, Limited, Toronto, Ontario. U.S. address: 216 Madison St., Buffalo, N.Y.

A SMOOTH, HAIRLESS SKIN FOR EVERY WOMAN

(The Modern Beauty)

With the aid of a plain delatone paste it is an easy matter to rid the skin of unsightly hairy growths. The paste is made by mixing some water with powdered delatone. This is applied to the hairs not washed and after 2 or 3 minutes rubbed off and the skin washed. When every trace of hair will have vanished. When you go to your druggist for delatone, be sure you get the genuine article.

A SIMPLE WAY TO REMOVE DANDRUFF

There is one sure way that has never failed to remove dandruff at once and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

Injuries Through Back-Firing.

The back firing of a motor truck was the cause of injuries sustained by two drivers for the Hall planing mill. Mr. William Duenech who first had charge of the car while cranking it had his arm bruised. Later the son of Mr. Hall while he was in a similar operation had the misfortune to have his arm broken. While painful no further complications are expected.

Pleaded Guilty.

In Police Court this morning Otto Koehn appeared to answer to a charge of abusing his wife. He was remanded until to-morrow after pleading guilty. The other half of the accused was present and her countenance showed physical effects of the affair which ended unluckily for him. The defendant's excuse was that his partner in life was as much to blame as he but the latter denied this claim. Asked whether he could secure bail the court said no. And the magistrate impressed upon him the seriousness of the charge.

Another Lad Coming Home.

Corporal Geo. Schultz son of the late Henry Schultz Albert St. is expected home to-morrow. Corp. Schultz has been away for four years and has been decorated on the field for bravery. Recently in a letter to his aunt Mrs. Geo. Rausch brother Henry in Bonn, Germany after so long a separation. There they had a splendid time and were feasted with panache the kind his mother used to make.

Mr. Geo. Rausch also received a walking cane from him from Germany. George was one of the first to respond to the call and his many friends will give him a hearty welcome.

Good Roads Delegations.

Mr. E.J. Payson, secretary of the Board of Trade received a letter from the Good Roads Committee in Stratford asking this city to raise a delegation to go with other delegates to the proposed highway, to present their appeal to the Premier at Toronto. The letter follows: The highway from Toronto to Sarnia, Georgetown expect to have 100 delegates, Acton 50 New Hamburg 25, Stratford 100, Sarnia, Forest and Parkhill etc., are trying to get three cars full. Goderich to Stratford will be another car, how many are going from Kitchener? We would be pleased to have some idea of the number. In the course of a few days they will have the date set. We expect a very large delegation to go to Toronto to present the matter before the Premier and we shall attach all the resolutions passed by the various Councils and Boards of Trade to the Memorial. Would you kindly put the matter before your board. Speaking of the local delegation Mr. Payson says that steps will be taken to procure a delegation for this city.

Back to Turkey.

Rev. Dr. W.N. Chambers of Woodstock who was compelled by the Turkish authorities on the declaration of hostilities to leave Turkey is now on his way to again take up work at Odessa. In a recent letter received by relatives from Geneva, where he was acting as representative of Armenia and Syrian relief he stated that not only was he anxious to return but the time had come when the relief work could be more effectively carried on from within the district served.

Tablets as Memorials.

A committee composed of Warden Lillico and Councillors Atkinson, Allin and Johnson were appointed to prepare metal tablets for each municipality in the county with the names of all those that went overseas inscribed thereon the names for each municipality to be placed on its own tablet. If possible it is the Council's wish to have each tablet or a portion thereof made from some trophy captured by the Canadian boys from the Germans.

Boldue to stand trial.

William Boldue of Preston charged with manslaughter as a result of a fatal accident which occurred in Preston on the night of February 25th when Miss Mabel Tatum was struck by a motor car driven by the accused, receiving injuries which caused her death appeared in the Galt Police Court on Monday.

C.G. Robertson of Preston defended the accused and after Crown Attorney D.S. Bowly had presented a prima facie case, Magistrate Blake committed Boldue to stand trial at the Fall Assizes. Bail of \$500 was renewed.

Military Cases Adjudged.

Inspector Duncan of the Dominion Police Force Guelph with headquarters at London stated that there would be more arrests of deserters from the vicinity of New Germany in a short time and that every young man who had evaded the M.S.A. would be brought to justice. He does not anticipate that there will be any further trouble with these men. At the Guelph Police Court yesterday morning a large crowd gathered in the expectation of hearing the charges against those who were arrested and gave themselves up last week, but Inspector Duncan asked the Magistrate to enlarge the cases until Wednesday March 26th and this request was granted. There are in jail at present on the charge of desertion, Charles Hummel, A Rumig, Anthony and George Berberich. Bail was not accepted for any of them.

Special Courses for Returned Men

Some twenty returned men have been taking special short courses at the Ontario Agricultural College in order to fit themselves for work on the land during the coming summer. They have taken up fruit farming stock raising and gardening and as their courses will be finished at the end of the month they were anxious to know what they were going to do. In consequence of this a special session of the Soldiers' Settlement Board was held at the O.A.C. yesterday afternoon where each individual case was considered. H.C. Schofield, Chairman of the Loan Committee presided and others present were Dr. Creelman Chairman of the Agricultural Qualification Committee; Douglas Ponton, J.W. Cornell W.M. Jones, Provincial Supervisor; J.R. Spay, Agricultural Representative for Ontario and Messrs MacDonald Roundling and Fletcher of the Soldiers' Civil Re-establishment Commission.

Each soldier was called to state what class of farming he preferred, and the board will endeavor to place each man on a suitable farm during the summer months and in the fall he will come back to the board and if prepared to go into farming on his own account will be given a loan to get him properly started. If the meantime he has to keep his family and the board will give him outright \$50 a month for himself and wife and \$6 a month for each child in addition to what he earns. The men were greatly pleased at this generous offer, and in due time all of these men will be placed on good farms, where they can get practical experience along the line they most desire.

JENKINS IS MANAGER OF BATTLE CREEK TEAM.

BATTLE CREEK, Mich., March 18.—Danny Jenkins, former manager of the Adria and Bay City teams in the old Southern Michigan League, and who won the pennant for Adria in 1915, was today selected manager of the Battle Creek team in the Michigan-Ontario League. Jenkins was selected from a list of nine applicants for the work.

As a better Jenkins' record shows he is in the three hundred class, and that he is also a traveler on the bases. The new manager will report for duty the first of next month.

After the Southern Michigan League season broke up he went to the Three-I League in 1917 and managed Davenport, which played a post-season series for the championship. Last year he played independent ball, managing a Newcastle automobile team. Jenkins will report for duty on April 1.

RUBE'S A "CONSTABLE."

Hamilton Spectator: Up to the time of going to press Knotty Lee had not announced the signing of Marty Killian. As Marty is as dear to Lee as Red Fisher, it would not be surprising to see the little chap on the Brantford roster before many days.

While recalling old Canadian League days, does any person know what has become of Rube Deneau? Rube

was the first pennant of the league and managed to be up there battling each year after.

In reply to the whereabouts of Rube Deneau, who has enjoyed the honor of having managed three clubs in the Canadian League, viz.: Berlin, 1911 and 1912; London, 1913, and Brantford, 1914, it might enlighten the fans if they were told that Rube is now a county "constable" with his in Walkerville.

Dave Shean yesterday signed a contract, after having been at odds with the management on salary questions. He is second baseman for the world Champion Boston Americans.

Willie Bradshaw, a spitball pitcher, died of pneumonia on Saturday in Chicago, word was received in London. Bradshaw pitched in the Canadian League in this city in 1912 and was with the Toronto Beavers for a while in 1913.

Danny Jenkins, who won the pennant for Adria in 1915, was yesterday selected to manage the Battle Creek team in the Michigan-Ontario League. He was former manager of the Adria and Bay City teams in the old Southern Michigan League.

Rodger Bresnahan, owner of the Toledo Club, obtained John Middleton after a conference with Manager McGraw. Middleton was a pitcher in the New York National

and will now play in the Toledo Club of the American Association.

IS HE WORTH \$15,000.

Boston, March 19.—"Babe" Ruth, in the signed statement which will be made public here to-day, says that he will not play with the Boston Americans this season unless he is awarded a three-year contract for \$10,000 a year, or a contract for this season at \$15,000. He says Harry Frazee, president of the club, has offered him a one year's contract at \$8,500.

KNOTTY WANTS LEE

A Toronto Report says: "Canon Ball" Ed. Scott of Toronto who pitched Hillerests to the Ontario championship last season, has received an offer from Manager "Knotty" Lee of the Brantford team of the Ontario-Michigan League. Last season Lee attended all the semi-final and final games in the city and Ontario championships last season and spoke well of the Hillerests. He claims that the young speed marvel looks like the best seen around these parts in many seasons, and should with proper coaching develop into one of the best twirlers in the game.

Last year was the second season he played in senior company, and he was the sensation of amateur ball. He pitched three games for Hillerests in the Western City League to qualify for the finals, winning all. When the Ramsden Parkers entered the finals, Scott, who was spending his vacation in Fenelon Falls came down to Toronto to do his bit and he did. He pitched seven

crucial championship games and winning them all is his remarkable record. When asked what he intended to do regarding this matter by he said that he would not accept the offer, and that he intended to stay with the amateurs and that will be Hillerests.

The Plate Entries Total Thirty Seven

The King's Plate Line-up

Toronto:—Entries to the King's Plate, which closed on March 4, are thirty-seven in number. Sixty-one entries have been made to the Stanley Produce Stakes, thirty-seven to the Breeders' Stakes and twenty-one to the Maple Leaf Stakes.

The King's Plate this season will have \$7,750 added, the Stanley \$2,500, the Breeders' \$2,000 and the Maple Leaf a similar amount. The Ontario Jockey Club is offering generous financial inducements to Canadian owners and breeders, and plans to conduct its spring meeting on a pre-war basis, despite the fact that no official action has been taken by the Federal Government to raise the suspension placed on racing in Canada by the order in Council which provided that those should be not recognized betting for the duration of the war and six months thereafter.

Thorncliffe's Representatives. The Thorncliffe Stable of this city leads in the number of entries to the King's Plate with seven, while five are entered from Joseph E. Seagram's Waterloo Farm. The Brookdale Stable of Barrie has four aspirants to the King's guineas and Geo. M. Hendrie three. The conditions, entries and weights are as follows:—

The King's Plate (50 guineas, the gift of His Majesty King George V.), with \$7,500 added by the club. The first horse to receive the Guineas, Stakes, and \$5,000; the second horse \$1,000, and the third horse \$500. The breeder of the winner to receive \$500. A sweepstakes of \$5 payable at time of entry, and \$10 additional to start. For three-year-olds and upward, the property of a British subject resident in Ontario, foaled, raised and trained in Ontario, that have never won a race, either on the flat or across country, other than a race exclusively for two-year-olds, have never left Canada, and have never been for a period of more than one month out of this Province. Winners to carry 5 lbs. extra. Death of nomination does not render entry void. One mile and a quarter. A piece of plate will be presented by the club to the winner. The Ontario Jockey Club reserves the right to cancel this race upon pay-

Westerners are Routed by 14 to 3 Toronto Mar 19.—No more farcical exhibition has been staged at the Arena this season than tonight's junior fixture between U.T.S. and Regina Patriana. The latter were made to look foolish by the Blue Shirts and were defeated by 14 to 3. The teams are billed to meet in the final contest for the Canadian Championship on Saturday night under Western rules, and U.T.S. will experience little difficulty in repeating their victory.

The local collegians were always best and scored almost at will. Their systematic play was a treat to watch and it is safe to say that in his respect, they have no superiors in hockey. Frank Carroll has drilled the Blue Shirts into one of the smoothest working aggregations ever seen here and is to be congratulated. There is not a selfish player on the outfit and every one gives everything he has for the benefit of his team. They are worthy champions and a credit to the game.

Duncan Munro was the bright particular star of the contest. The big fellow checked and rushed in thrilling style and made the Western supporters gasp in surprise. Never in his career as he shown to better advantage and, judging by his performance he is ready

for senior company right. Rowell also turned in a nice game, proved an adept at bodychecking.

"Joe" Sullivan received many a cheer for his sensational work. On several occasions he rushed out, met an incoming forward who had outguessed the defense and blocked in brilliant style. Up on the forward all worked well, but the lion's share of the honors fell to Aggett and Jeffroy. Both these stalwarts went on a scoring rampage, and each notched six counters. Their passing was always accurate and well-timed.

Dutkowski Indifferent Player. Dutkowski, the big left wing player of the Patriotas was their best man when ever he tried, but he played in indifferent style and showed only in flashes. He found no difficulty in outfooting the U.T.S. back-checkers, but the Rowell-Munro defense proved equal to the task of stopping him. For all-round consistency little Conrad was the best for the losers. He mixed it with any and everybody and gave his best from start to finish. Brown in goal was woefully weak and unable to handle any shots with speed on them.

Patriotas are a greatly overrated team and it was a pity that they came such a long way and at so much expense to be beaten so badly. U.T.S.—goal, Sullivan; defense, Munro and Rowell; left wing Grey; right wing, Jeffroy; centre Aggett; substitutes Kearns and Gunn. Patriotas—Goal Brown; defense, Wingham and Hookney; left wing, Dutkowski; right wing, Conrad; centre Harding; substitutes Crapper and Mulick. Referee Lou Marsh; judge of play J. Hughes.

Many Laborites believe Premier Lloyd George is fully aware of the danger of the situation and personally is inclined to sympathize with the workers but they doubt whether he has the support of the whole government. Meanwhile, committees of miners, railwaymen and transport workers to-day were preparing reports to be submitted to joint conference of the leaders called for six p.m.

An eleventh-hour proposal, made by the government to railwaymen last night includes a forty-eight hour week and overtime pay at rate of time and a quarter for Sundays, time and a half for nightwork and a thirty-six cent. bonus for night. The present wage basis would continue for the balance of the year.

The government pointed out that even these concessions, which are far short of the workers demands, would necessitate a general rate increase. Nationalization of railways was not mentioned in the government's order. "It is a new and modified order but I am unable to predict what the verdict of the railwaymen's delegates will be," said J. S. Thomas, leader of railway employees. "The outlook is still difficult."

The railwaymen held a brief meeting last night but adjourned until to-day, without taking action. The status is uncertain whether they will resolve to continue negotiations on the basis of the government's latest proposition, owing to the fact that they are bound to cooperate with other members of the "Triple Alliance," no matter what individual decision they might reach.

Three reports were submitted yesterday by the special parliamentary committee, which investigated the mining situation. They were made public in the house of commons last night, by Andrew Bonar Law, spokesman of the government.

RACE BETWEEN POVERTY

Bolshevism Feeds on

PEACE COMMITTEES HURRYING THEIR WORK

PARIS Mar 21.—(By Fred S. Ferguson).—The Race between Poverty and Fertility is now on. With the advent of spring, the question of whether peace, stability and reconstruction are to prevail during the coming months, or whether Central Europe will at least be convulsed in a sanguinary struggle, will soon be answered. Bolshevism forces are known to be concentrated on the Rumanian frontier. Others are facing the Poles, and by infiltration striking at the roots of that newly-formed government. The Rumanians say they have definite information that the Bolsheviks intend to strike as soon as the weather becomes favorable.

The Poles are now involved in constant, isolated struggles, and it is believed to be only a matter of time until the fall storm breaks.

Rumania and Poland stand as the only barriers between the Russian Bolsheviks and Central Europe. Owing to the shortage of raw materials and consequent lack of employment it is said to be a question whether the present Czechoslovak government can

Britain Facing Crisis in Labor Conditions

Triple Alliance May Not Accept Concessions

MEET AT SIX O'CLOCK TONIGHT

LONDON, March 21.—(By Arthur E. Mann).—Great Britain is facing the greatest labor crisis in its history. It will culminate to-night when the "Triple Alliance"—miners, railwaymen and transport workers—meet to decide whether a general strike shall be called to-morrow.

While the government has offered some concessions to both railwaymen and miners, labor leaders declare it must yield to every demand of the "Triple Alliance" to avert an international catastrophe.

Both sides refuse to make an official statement but a leader of the railwaymen made the following declaration to the United Press: We are prepared for the worst. If we strike we will win. If we win government will fall and will be replaced by a Labor ministry. The government realizes the seriousness of a general strike. It will mean that thousands of people in the great industrial districts will face starvation, as government would be unable to run enough trains to insure distributing sufficient food."

Many Laborites believe Premier Lloyd George is fully aware of the danger of the situation and personally is inclined to sympathize with the workers but they doubt whether he has the support of the whole government. Meanwhile, committees of miners, railwaymen and transport workers to-day were preparing reports to be submitted to joint conference of the leaders called for six p.m.
