Kiel. June 20.-This being the 58th anniversary of the accession of Queen Victoria to the throne of Great Britain, by special command of Emperor William a royal salute was fired at noon from all the German warships, which at the same time hoisted the British flag to the strains of the National Anthem of Great Britain.

PRODDING THE UNIONISTS. London, June 20 .- The Standard this morning states that it hears the Unionists meditate moving a vote of no confidence in the Government. The Times, in an editorial, suggests the same thing, and says that the Government is almost certain to be defeated on a well chosen issue. If the Unionists 9,310; 35 young women's societies and neglect to grasp the opportunity presented to them, it says, a neavy responsibility will rest both upon the leaders

GERMANS TOAST FRENCHMEN. Kiel, June 21.-The officers of the German warship Bayern gave a dinner on beard their vessel on Wednesday to Admiral Menard, commanding the French squadron, and others. #### THE FETES AT KIEL.

A Warm Welcome Accorded the Kaiser-Magnificent Naval Pageant.

Kiel, June 20.-The Emperor, on board the Hohenzollern, came in sight at Holtenau locks at 12:30 p.m., and the immense crowd set up a mighty cheer. The Emperor stood high upon the bridge behind the mainmast, attired in the full uniform of an admiral of the German navy. The bands of the regular and veteran troops struck up "Heil Dir Riegerkranz," which the Kaiser acknowledged by a salute. It was a grand spectacle. On each side of the lock was drawn up a company of the First Foot Guards of Potsdam. The admirals and generals stood upon the center May 31 at \$393,544 58, all invested in choice platform, which divided the sections of the lock. The immense crowds kept up continuous cheering as the Hohenzollern passed through, and went to her anchorage, followed by the Kai-

Kiel, June 21.-Everybody was stirring at an early hour this morning, securing places of vantage to see the cermony of laying the keystone of the canal at Holtenau. Never did the harbor of Kiel present so animated an appearance. Dozens of vessels were flitting from one point to another. Two grand-stands of vast proportions had been erected. The principal one took the form of a crescent, at each end of which Kiel students in gala dress were grouped. Special places were set apart for the Chancellor, the members of the Bundesrath, the Prussian Ministry, the presidents of the Reichstag and Landtag. The navy and army were also largely represented by officers in bril-

At 11 o'clock shouts of "Der Kaiser Kommet" arose. The Emperor, whose arrival was the signal of deafening cheers, was in admiral's uniform and walked to his place with martial bearing. He acknowledged the enthusiastic greetings smilingly, and then read a document relating to the ceremony, after which he approached the stone and tapped it thrice with a mallet. The stone also received blows from the royal princes present, from the members of the Bundesrath, Ministers of State and

a score of other officials. The stone being laid, the Kaiser returned to his place on the dais. At the conclusion of the ceremonies the Emperor went on board the Hohenzollern, where he took luncheon. Salutes for his majesty were fired by several of the warships in the bay. Shortly after the parade of all the German and foreign warships took place, the Kaiser reviewing them. The parade lasted two

dresss were delivered by Mrs. Clara Parish, Mrs. H. M. Stoddard, Mrs. S. M. Walker and Miss Margaret Watts. Mrs. Ann Gordon, of Boston, presented the report of the W. C. T. U. secretary. It showed that the present membership of Australian colonies is 7,500, there being 290 local unions. The visit of Mrs. Elizabeth W. Andrew and Dr. Kate Bushnell stimulated many unions and increased public faith in the purity of the department.

Queensland has 35 W. C. T. U.s and 13 Y. W. C. T. U.s in good working order. The membership is 21,008; 36 supperintendents are in charge of as many departments. A large number of signatures have been secured to the polyglot petition, and two petitions have been presented to the Parliament of Australia, one for the better protection of girls and one for the establish-

ment of inebriate homes. New South Wales is the oldest colony in the group and had the honor of organizing the first W. C. T. U. on their side of the globe over twelve years ago. Nearly every department so far taken up has been rushed. There are ten young women's societies, with a membership of bright educated young women. There are 50 local unions in New South Wales, with a membership of 2,000, and a membership of nearly 300 in the young women's unions.

There are now some 57 unions in South Australia, with a membership of 1.600 women and 400 honorary members. The Loyal Temperance department has received a great impetus; 31 departments of work are in active operation, and many others are being prose-

cuted in various localities. The work in the Hawaiian Islands is maintained, although there are but few societies. There is a young woman's society in Honolulu and two juvenile bands-one for white children and one for native Hawaiians. Prohibition is

out of the question yet in Hawaii. All the divisions with but few exceptions in India have been visited. There are 26 European and seven native unions, with a total membership of

The Dominion of Canada reports 442 local societies, with a membership of organized. Thirty-two departments of work are carried on, this convening all the different lines of work of the W. C. T.U. There is at present a stronger public opinion in favor of total prohibition than has ever been. The plebiseite has been tried and carried with large majorities in four of the Provinces, the majority votes in favor of prohibition being as follows: Manitoba, 12,582; Onpolled is: For prohibition, 266,498; against, 133,580; majority for prohibi-

Says He Will Introduce Another Remedial Order When Greenway's Statement Is Received.

(Special to the "Advertiser.") Ottawa, June 21.-In the railway committee this morning the Buffalo, Hamilton and Toronto Railway bill was reported. The bill respecting the International Radial Railway stood over for further consider, tion. A French Canadian member of Parliament stated today that Premier Bowell told him that a remedial school law would be introduced in Parliament as soon as the official answer of the Manitoba Legislature was received. This document cannot arrive in Ottawa until next week. The statement attributed to the Premier must, under the circumstances, be taken with a grain of salt.

For the Young Liberal Fleet Regatta in Queen's Park.

A Magnificent Turnout of the Organization.

Ovation to Mr. Hyman-The Coming Performance,

The rain last night couldn't dampen the ardor of the Young Liberals, and the clouds above or the mud beneath didn't scare a man jack in the fleet is then taken until Springbank is away from the parade. It was a magnificent turnout. The fleet assembled at the Armory, Simcce Street Rink, about 8 o'clock, and the seven companies were put through drill exercises preliminary to the march. The column was headed by the Marine Band, under trestles over ravines. Mr. Fred L. Evans. Admiral Wanless, on horseback, was in supreme command, assisted by Rear Admiral Davis, Vile Admiral Cowan, and Capts. Tune, Santo, Macdonald, McCrimmon, Som-erville, Sippi and Martin. The route was as follows: Simcoe street to Richmond, Richmond to Maple, Maple to Ridout, Ridout to Dundas, Dundas to Colborne, Colborne to Queen's avenue, Queen's avenue to Richmond, then

south to Simcoe, and east to the armory Despite the drizzle hundreds lined the streets. The soldierly appearance of the young men, their natty costumes, uniform movement and rapid transitions from figure to figure, commanded the admiration of all. Seen in perspective, the fleet looked superb, and such a display on a wet night shows that it is an organization that has come to stay and Has Surface Water Been Regarded as is growing in numbers and enthusiasm. Upon returning to the armory the companies were drawn up and received orders from Rear Admiral Davis. The members of the fieet spying Mr. C. S. Hyman, M.P., called lustly for the popular member, who was received with ringing cheers as he stepped forward. Mr. Hyman said he was delighted to see such a splendid turnout. It was a credit not only to the Liberals, but the city of London. He deplored the petty spirit shown by some in their efforts to injure the Young Liberal demonstration on July 1 next. "Although we are Libsaid he, "we are none the less good citizens, and I feel sure that should the time come when you are called upon, not only to defend Liberalism, but I hope your holiday will be enjoyable ranks with patriotic readiness. (Cheers.) If this were a Conservative organization, I would have enough manliness about me to wish to see it succeeed.

would fail in its object.

Rear Admiral Davis said they were all I think that they took surface water proud of the fleet, who were a credit for spring water, which accounts for to the city and the country. When they went to the United States they demonstrated that they could hold their line whatever way the mistake came own with anybody, not only in Canada, about, it is well that the public now but over the border. They were fitting knows that when water is most need-types of the British sailor, who never ed both for sanitary and fire purposes, knew defeat, but conquered the world.

THE COMING DEMONSTRATION. The parade called attention to the demonstration of the fleet in Queen's Park on July 1, which promises to be entirely original and the most attractive ever given by the Young Liberal Fleet. The fleet will leave the armory at 1 p.m. for Queen's Park. The performance will be in the nature of a three-ringed circus with a half-mile hippodrome track. The same exhibition will be given simultaneously on three different platforms, so that people in any of the grand stands will have an equally good view. For the convenience of spectators the ticket offices on the grounds will be open for the sale of grand stand seats an hour before the performances begin. Come early and avoid the rush. There's going to be a big one. There will be no pleasanter way of spending the afternoon than on the shaded grand stands. No admission fee to the park charged—only a small one to the stands. Thousands are expected, not only from the city, but from the surrounding

country.

Captain William Martin, No. 7 Com-pany, entertained his men at the Hub Restaurant after the parade. The fleet will drill every night next

Rear Admiral Davis has donated three handsome gold pins to the captain and lieutenants of the company showing the best attendance at drill until July 1. A number of the members were unable to turn out last night because their uniforms were not ready, the cloth having arrived too late.

Grasshoppers So Thick in Colorado as to Stall Railroad Trains.

Denver, June 21.-Ravages of grasshoppers have become alarming in Washington and Yuma counties, eastern Colorado. Trains have been delayed on account of the hoppers gathering in vast numbers on the rails. It is hoped that they will take flight as soon as they have grown wings, which will be about the middle of July. In wheat and oat fields the hoppers have trimmed the leaves and clipped the heads.

McCook, Neb., June 21,—Grasshoppers

have appeared in such quantities between Eckley and Otis, a distance of twenty-five miles, as to cover the Burlington Railroad track and cause much trouble. The engines have been provided with steel brushes with which to clear the track. At Yuma, Colo., they have invaded the grain fields, doing much damage. They seem to be working their way southeast.

MAD AT MARTIN.

Detroit, Mich., June 21 .- The published assertions of A. F. Martin, of the Manitoba Legislature, in his remarks on the school question, have aroused the A. P. A. members here. Wednesday night W. J. Stephens, Michigan, president of the association, also sent to Mr. Martin a message demanding to know

Street Railway Company Settles the Springbank Route Question.

Railway Street and the River Bank-The First Construction Wagon at Work.

The street railway company finally settled the question of route to Springbank this morning, and this afternoon the first construction wagon started out. The route decided upon is on the south side of the river, leaving the Wharncliffe at railway street, and running down this street almost parallel to the Grand Trunk track until the neck of the Cove is reached. The river bank

Several owners of land at the termination of Railway street gave the company free right of way across their fields in order to induce them to build their line on the south side. It is thought that the work of construction will be completed and the line in operation by July 12. CITY WATER SUPPLY.

able man.

An Important Statement by Dr. Gardiner.

Springs.

To the Editor of the "Advertiser": The city boasts, and justly so, of having the purest and best drinking water

on the continent. Unfortunately, the supply is limited, and we hope that the demand each year will become greater. When money was asked for new machinery to increase the pumping power, the first question I asked our commissioners was "How about the supply?" The answer of Mr. Jones was that there was an ample water supply, and by going a little farther down the river an unlimited amount could at any time be procured. On the strength of statements similar in character to this, as well as on the recommendation of the engineer, the City Council granted money for the new machinery.

Now it is found that the supply is I hope yer holiday will be enjoyable limited, and from my own personal and successful." (Cheers.)

Vice Admiral Cowan, who was called upon, said he was glad to see the magnificent turnout. All who saw the parade must have been delighted with it. He also alluded to the hostility shows francs for drink, and only 4,000,000 for francs for drink, and only 4,000,000 for education. In Phillipopolis there are the fieet in connection with the coming misled or they wilfully misled the pubmore than 400 saloons for the 33,000 in the saloons for the saloons fo sition. The first is bad enough. And

In whatever way the mistake came

ed, both for sanitary and fire purposes, we cannot have it. Our sewers must go unflushed, our streets become a cloud of dust, our lawns, instead of emerald, become a beautiful russet-and the saints defend us from a big fire, for a good-sized popgun would give more stream.

Now, what about a remedy for this serious condition of things? Our engineer is proposing a steam threshing boiler with pumping apparatus. This will give us the water now going to waste at Byron, which, by the way, ought to have been taken up to the pumping house when the other springs were procured, but even this will be used up by fresh services in one or two seasons. I know futile efforts have been made to increase the supply by welldigging and other visionary schemes, but think our engineer's experience in the holes will have to be pretty big and pretty deep in order to get below it, and there is great danger of our engineer and commissioners getting buried in them if too much money is expended

in this way. Now, we have plenty of machinery at Springbank, and there is plenty of water there, but it is river water, not spring water. If this river water were pure, for all purposes but that of domestic use it is better than spring water. Then the problem is simply to keep the city refuse out of the river. Put in a fresh main, which, by the way, the commissioners say we require, extend double mains along Dundas and Richmond streets, for hotel and street watering purposes, and follow the lines of railway to supply our factories, and for the next 40 years we will be well supplied with water, with a more rapid increase of population that we have had in the past.

J. H. GARDINER, M.D. BOTH CONFESSED.

Rev. Mr. Spencer Says Hendershott and Welter Confessed that They Murdered the Lad.

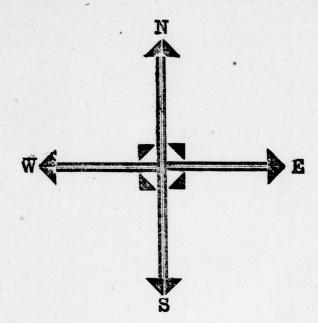

St. Thomas, June 20.-The funeral of the executed men, Welter and Hendershott. took place Wednesday afternoon at 4 o'clock. The services were conducted by Revs. Dr. Hannon and D. Spencer, in the presence of officials and inmates of the jail. Immediately after the funeral Rev. D. Spencer went out to Middlemarch to see the families and friends of both men. Mary and Rosie Hendershott are prostrated and sick in bed. Mr. Spencer told the gathered families how the men had died, and spoke such words of consolation as were possible under such heart-rending circumstances. Mr. Spencer simply told them of the confession, but not the details. It was on Monday night and Tuesday morning Hendershott and Welter told Mr. Spencer the story of their crime and answered many questions put to them. They said that dozens of times as he left the cells they wished they had told him, and again and again made up their minds they would, but their courage at the next visit failed them. The particulars of the false statement about whether he had been correctly quoted in a third party have not been out of Mr. stating that he had testimony regarding the education of girls in the public schools of does he ever intend divulging the particulars the United States which he considered was of the crime. It is enough, in his judgment, unfit to be read in public. Mr. Stephens that the country knows the crime was condemanded proof of the allegations or an ceived, planned and committed by the two dead men, and by them alone.

Woman is a conundrum most decidedly. Still we do not propose to give her up. Let a woman have her health and spirits and she is the sunshine of the house. But suppose she is sick, what then? Why, then there is a shadow all over the house. Happily, in thousands of homes such shadows have been removed. Thanks to Dr. Pierce's Fa-vorite Prescription, the diseases and weaknesses incident to their sex have been removed, and, with health restored their bright spirits have come back, and the household has passed from the winter of its discontent to a glad summer of comfort. O, suffering women, for your own sakes, and for the sakes of those about you, use these simple means and be healed. The only remedy so effective in nervous and general prostration, "Female Weakness," periodical pains, irregularities and kindrd ailments, that it can be guaranteed or sold on trial.

The young woman who aims to be a belle should remember that the young men who come to summer resorts for two-week vacations not infrequently would prefer repose to the violent forms of exercise dear to her heart.

It is also well for her to remember that a summer hotel room affords but little space for the accumulation of sweet, suggestive mementoes. And that it is better to let the mer-

### Closing Conclusions

The General Assembly Winds Up its Big Budget of Business-Presbyteries of St. Johns, Nfld., and Halifax United-Proposal to Reduce Representation One-Sixth—The Chinese Immigration Question Discussed, and the \$50 Poll Tax Condemned-No Use for the Pan-American Congress of Religion and Education-Moderator's Closing Remarks.

THURSDAY AFTERNOON.

The attendance had diminished considerably when the afternoon sederunt was constituted. The judicial committe sustained the finding of the Presbytery of St. John, N. B., which recommended the severance of the pastoral tie of that church. The Assembly adopted the report.

Rev. Samuel Houston, Kingston, delegate to the Assembly of the Presbyterian Church of Ireland, read a congratulatory minute adopted by the Assembly with reference to the Canadian Church. The name of Rev. R. J. Craig will be retained on the appendix of the roll of the Presbytery of Kingston during his absence in Europe.

An overture from the Toronto Presbyery asking for a definition of the duties of sessions and boards was referred to a special committee to report

An overture from the Presbytery of Guelph in regard to the employment of retired ministers was received and referred to the various Presbyteries for

an expression of opinion. The committee dealing with the travexpenses of commissioners reported that it was estimated that next year Calgary was entitled to send four commissioners, and the cost would be \$75 each; Kamloops, two commissioners, at \$70 each; Westminster, four commissioners at \$70, and Victoria three commissioners at \$80 each. It was recommended that the Calgary ministers be allowed \$20 each, one from Kamloops, \$20; two from Westminster, \$20 each; two from Victoria, \$30 each. And that for this year \$25 be paid to Mr. McQueen, Edmonton, and \$30 to Mr. Buchanan, Richmond, B.C. The amount will be taken from the home mission

In response to a petition from the Synod of the Maritime Provinces a union was effected between the Presbyteries of St. Johns, Nfld., and Halifax.

The committee empowered to bring in a remit on the question of the recommendation to reduce the ratio of representation from one-quarter to oneeighth reported. It stated that the number entitled to attend the present As-sembly was 533, an increase of 31 over last year, and pointed out that it would likely increase in a similar degree next year. Therefore it was recommended that the report be sent to the Presbytries under the Barrier Act.

The Assembly thought the decrease from one-fourth to one-eighth too great and altered the remit to read one-sixth. CHINESE IMMIGRATION.

Principal Grant read the report of the committee on Chinese immigration, of which he is convener. It gave a comprehensive review of the history of Chinese immigration, including the finding of the Royal Commission of 1884 which the Government did not see fit to adopt. The commission reported that it was well to admit the good and men, and that a fee of \$10 a head be charged in order to maintain the system. Any country, the commission said, should be willing to receive good men no matter what their color, and to keep out bad men irrespective of nationality. If it was found that too many foreigners were coming into the country the number could be fimited by treaty and by objectionable restrictions. The Dominion Government, ignoring the report of the commission, and siding with the political element, instituted a Chinese poll tax of \$50. The recommendation of the committee was that this discrimination be repealed, and that legislation be adopted along the lines of the finding of the Royal Commission of

Rev. James Buchanan, Richmond, B. C., opposed the resolution and gave the economic side of the question in British Columbia. There Chinamen were supplanting white men in saw-mills, in factories, and in every laboring occupation. A certain class of Chinamen brought in slaves and compelled them to hand over their earnings, while their habits were immoral and filthy, and they were inveterate gamblers. They also lived in houses made of soldered tin cans, and could

even subsist on 25 cents a week. Rev. John Nichols, Montreal, gave a better account of the Chinamen of Montreal, who were a cleaner class, industrious and studious. None of them were slaves. He only knew of one to be arraigned before the courts. They were a peaceable, law-abiding and respectable class of citizens.

Rev. Robert Campbell, Montreal, took the part of the heathen Chinee "which the same he was free to maintain." He thought their vicious principles should be counteracted by Christian teaching, and that it was a laudable thing for any man to patiently solder tin cans to build himself a house, and to be able to live on 25 cents a week. Dr. Milligan took a diverse view to

the previous speaker and dwelt largely on the economic side of the question. It was a very vital question, this effect of illimitable Chinese immigration on the living of the working classes. They believed in a Presbyterian minister having a competency of \$750 and a manse, and he thought that a workingman should also have a reasonable competency, and he did not believe in allowing men who could live on 25 cents a week to compete with the Canadian workingmen. The latter could not live on rats and mice. "I think it is only fair," said Mr. John

Cameron, "that we should distinctly recognize that there is also a Canadian workingman side to this ques-

tion. And I think that even more emphasis might have been placed by Principal Grant on the point that a nation has a distinct right to limit the infusion of human material that cannot be usefully assimilated. I agree very generally with what I know to be Principal Grant's broad and liberal principles on this matter, but I am inclined to believe that we need a little more time to make a deliverance on this question which, while it upholds sound principles generally, shall be fair to our Canadian workingmen. I believe that it is just as important to take a little more time, to send this to a committee to have a fair, broad and just deliverance, as it was to send the various resolutions pertaining to the Manitoba school case, a course which resulted so favorably. In general I amwith the oppressed, even if I am in the min-ority, but there is a Canadian work-

ingman's side, and I think it should be given attention." Dr. Thompson, Montreal, favored the committee's finding, and was glad that the Assembly was willing to place itself

on record in the matter. Robt. McQueen, Kirkwall, urged the dropping of all discrimination and asked how they expected the Chinese to treat the missionaries humanely unless they treated the Chinamen as Chris-

tians should. Mr. John Cameron then moved in amendment: "That consideration of this matter be deferred, so that a fuller deliverance on all the aspects of the question may be given than can be secured at the hurried close of an As-

sembly. Rev. James Buchanan seconded. Principal Grant spoke again in support of the report, and Prof. MacLaren, who seconded the resolution to adopt it, said that the treatment received by Chinamen, especially in the States, was scandalous to Christianity. The amendment was defeated and the

resolution adopted. THURSDAY EVENING The first business of the twentieth and final sederunt was the naming by the moderator of the following committee on Chinese immigration: Principal Grant (convener), Principal MacVicar, Principal Forrest, Dr. Moore, W. T. Herridge, Dr. Barclay, Rev. Dr. Joseph Thompson, E. D. McLaren, J. Neil, R. Johnston, Dr. Fletcher, J. Buchanan Dr. Campbell (Victoria), A. B. Winchester, Dr. Duval, Dr. Armstrong, Hamilton Cassells, Geo. Hay, D. B. Mc-

Tavish, Andrew Jeffrey, Colin H. Campbell, J. B. McKilligan, Dr. Shorburn and Issac Creighton. The new Presbytery of Halifax (Halifax and St. Johns, Nfld.) will hold its first meeting on Aug. 6, at Halifax, Dr.

Morrison to be moderator.

The report of the committee on systematic beneficence was presented by Dr. Morrison, Halifax. It concluded

with the following clause: exclude the undesirable from our "There remains much work-educa-shores; that a special court be instition and quickening—to be done. Withtuted to deal with difficulties of China- in our bounds are many members who conscientiously realize their steward-ship. We have large individual givers, and many liberal congregations. But no one that considers the wealth of our church, and the average contributions to mission work, can claim that we have attained the full measure of our ability With 96.163 families, 18,534 single persons, and 181,376 communicants reported last year, we gave for all the schemes \$296,700. That is, we gave at the rate of \$2 90 cents per family, and \$1 60 per communicant. In the face of the clamant needs of the world this is not an adequate showing.

A polyglot petition was received from the International Peace Conference praying for the growth of mercy and peace and for the peaceful settlement of all international difficulties. A letter which accompanied it asked for a grant of \$50 and for the appointment of representatives to the conference. The petition was received, but no ac-

tion was taken. On motion of Mr. John Cameron, seconded by Mr. H. J. McDiarmid, a grant of \$100 was made towards the expenses of the Dominion Alliance.

By act of Assembly the Presbytery of Ottawa was authorized to transfer Rev. Geo. M. Clark to the Halifax Presby-Loyal addresses to the Queen and

Governor-General were adopted. There was read a communication from A. M. Rosebrugh, secretary Prisoners' Aid Society of Canada, asking the Assemly to indorse a memorial to the Dominion Government, craving the establishment of a reformatory for young men, and inviting the Assembly to reappoint a prison reform committee to co-operate with other church organizations in seeking prison reform egislation. A sympathetic resolution was adopted.

INVITATION DECLINED. The secretary of the Pan-American Congress of Religion and Education wrote asking for the appointment of delegates to the coming conference in

Toronto. "I hope this Assembly will not have anything to do as an assembly with this congress," said Dr. Laing, Dundas. 'The Parliament of Religions at Chicago was enough for most of us in regard to the religion of Christ and a meeting of so-called religions in which Buddhists, Mohammedans and Brahmins, and all kinds of heathens are standing on the same platform as evangelical churches. I think we should be on our guard and not send delegates to any so-called Congress of Religion. It was decided to acknowledge the letter, but to take no further action. A number of minor matters had been dealt with, and it was just ten minutes to ten when the aged clerk said: "Mr. Moderator, the docket is com-

pleted." Hearty applause greeted the announcement.

The following minute was adopted: 'The General Assembly cannot refrain from noticing with sorrow the removal by death of the late Rev. J. A. To Dr. Bucke, superintendent of the insane as lum, for the opportunity given to the members of visiting the grounds connected with that important institution and spending a few hours there in pleasant social intercourse. 4. 1'o the citizens of London for their generous hospitality in throwing open their doors so widely to receive the members of the Assembly in their homes. 5. Mr. John Robbin, Truro, seconded,

and the resolution carried.
THE MODERATOR'S CLOSING WORDS. In his final address the moderator said inter alia: "First, let me return thanks, my hearty thanks, to this General Assembly for the high honor conferred upon me in my election as moderator. I return thanks to you rather than to the next General Assembly, for you elected me, with you I sat, and you gave me valuable help in the conduct of the business. I have to express my gratitude to the clerks and to the committee on bills and overtures for the valuable help they gave in the arrangement of the business and in bringing it to a successful conclusion. I do feel, however, that the business of the Supreme Court of our Church is increasing rapidly, and I could wish that some parts of it were arrested at the Synod, and less come up here, or that we could sit for a longer time than we sit just

Continuing, Dr. Robertson said he felt the stress of business particularly this time because the work of the judicial committee took so many of the very best members from the deliberations just when their counsel was desired. It was very clear if the volume of work grew that some change would have to be adopted. After thanking the commissioners for their forbear-ance with him, the moderator went on to give an outline of the important work of the Assembly. He spoke in feeling terms of the retirement of Dr.

Reid and Dr. Gregg, and referred to Dr. Gordon's transfer to Palestine and to Prof. Falconer's elevation to a chair. He gave a glowing synopsis of the mission work and said that last year the church preached the Gospel in ten different languages-four in the foreign fields and six in the home field in the Northwest, and said that it was particularly encouraging that 13,400 had joined the church last year by profession of faith. His closing advice to the commissioners was to go home and advance the work of the Lord and Saviour Jesus Christ.

The moderator intimated the time and place of the next Assembly, after which a prayer by Prof. MacLaren, the singing of Psalm 123, and the pronunciation of the benediction by the venerable Dr. Reid, brought the proceedings to a close.

Health in a Marvelous Manner. Anna, Ill., June 17 .- A very interesting ease of recovery from a complicated form of kidney trouble has taken place here, and the details are gradually becoming made public. The sufferer was Miss M. T. Loomis, who for a long while has been a victim to severe pains in all parts of the body. She consulted a number of doctors, and was treated for a great variety of cases, the diagnosis all proving faulty. At length she determined to try Dodd's Kidney Pills, having read and heard much of their efficacy, and found her expectations justified in a complete cure.

DELAY PROBABLE.

It was suggested in the "Advertiser" two or three weeks ago that as a result of the conference between the Governor-General and Messrs. Greenway and the Manitoba school question might be referred to a royal commission, in order that the facts relating to it might be made known to the Dominion authorities.

Evidently the Manitoba Government is willing that the dispute should take this turn, and seeing that whatever form the settlement is to take it is likely to be final, it is but right and proper that all the facts and circumstances should be clearly known.

It may be humiliating to the Government at Ottawa to take this course for it would be a confession that the action of the remedial order was hasty and inconsiderate. Yet it is better that the sensibilities of a Government should suffer than that a matter so intimately related to the life and wellbeing of a people as its public school system should be settled in a way to be a permanent source of bitterness and discontent.

AN UNSURPASSED REIGN.

Yesterday, fifty-eight years had elapsed since Queen Victoria ascended the throne of Great Britain. Her Majesty has reigned for a longer time than any of her predecessors, with the exception of George III. His reign extended for fifty-nine years, but from 1811 to 1820 a regency existed, owing to the esty, so that personally the Queen has in the public interest, without regard controlled affairs eight years longer to political affinities, that there should than her grandfather. Henry III who be a change of managers at the helm than her grandfather. Henry III., who be a change of managers at the helm. began to reign in 1216, while a boy, and It is coming. was on the throne for fifty-six years, dying when 65, comes next to the Queen. No other European sovereign now living has reigned as long as Queen Victoria. The sovereign who comes nearest to her in point of length of office is Emperor Francis Joesph of eleven years after Queen Victoria's accession. Her Majesty has had a phenomenal reign. She has been an exemplary sovereign, and the British people wherever found today will wish her continued health and happiness in her declining years.

SEVEN MILLIONS OF CANADIAN PUBLIC MONEY WAS "WASTED, BOODLED OR STOLEN."

At an early hour yesterday morning the Dominion House of Commons divided on the motion condemning the Curran bridge rascalities and those who were responsible for them-the men in power at Ottawa. The motion was proposed by Hon. Mr. Davies, and was in these terms:

"It appears from the report of the commissioners appointed to investigate the facts connected with the construc-tion in the year 1893 of the two bridges at Montreal across the Lachine Canal, that in the building of the superstructures for the bridges, the estimates for which were \$122,000, the Government has been already actually defrauded out of about \$150,000, while sums for large amounts for labor and materials alleged to have been supplied, are still

"That the construction of such substructures was carried out by the Department of Railways without calling for public tenders, without proper supervision or check, and with a reck-less abandonment of business rules, which invited and encouraged fraud and wrongdoing.

"That after the knowledge had been partment of the reckless extravagance which prevailed in the construction of these bridges, no real or effective at-tempt was made to insure an honest carrying on of the work, but, on the contrary, enormous sums of money were after such knowledge improperly paid to contractors and others, and the door was left wide open for the perpetration of fraud upon the Government. "That although the evidence discloses the names of many persons who were parties to these frauds, no attempt has been made to punish any of them crim-

inally except St. Louis. 'That under these conditions the Min-Jeter of Railways is responsible and deserves the severest censure of this House for negligence, for inefficiency and gross mismanagement in connection with these works, and for the losses the country has sustained."

Though this motion was a recital of the facts, and though every independent newspaper in the country has condemned the steal and those respons-1ble for it, the Government managed to get a majority of 37 to vote it down. This fact exemplifies that the House of Commons now no longer represents he feeling of the country, which has d a surfeit of exposures of this kind ring the past five years, and now

s for a change. e have been told that it is imposto reduce the annual expenditure country, or take burdensome off the people. Not while these ' as confessed by the chief ative organ, continue. But

the taxpayers have been defrauded in elected. recent years. Within the present Parliament, as has been affirmed without a dissenting voice by Hon. Mr. Isaac on the floor of the House, the country has been shown that over \$7,000,000 have been squandered in corrupt or grossly extravagant expenditures, and the end is not yet, for the settlement of many expenditures is held posure. Here are a few noteworthy items of expenditure which demonstrate how the public treasury has been robbed of millions of dollars: On Onderdonk contract......\$1,118,000 sible. On Tay Canal, "Haggart's

claim of \$250,000i is made ... Wasted, stolen or boodled, St. 281,000 Charles branch, Government Intercolonial Railway. 1,500,000 Whisky Commission .... Labor Commission .....

To this list has to be added the huge over-expenditure in connection with the Soo Canal, now being laid bare, much against the will of the Haggarts and the Carons.

If this money, which has been, as stated, "wasted, boodled or stolen," had been paid over to the provinces they would have each received \$1,000,-000; for each county there would have agents to receive declarations. The bill been \$32,000. But better far would it have been if the taxpayers had been introduced a bill adopting for the Fedremitted to keep their money to themselves, and had been allowed to spend it as they pleased. There would have been fewer men growing rich at their expense, far less money available for corruption at election times, and cleaner and better government.

When the only defense Ministers drawing targe sums public money is that "origies" of corruption and rascality take place in spite of them, that they are impotent to prevent the wholesale plundering or to punish the subordin-

The school question continues to be the uppermost topic in the minds and on the lips of the members of the two Houses, especially the French Canadian members. Mr. Joncas, M.P., has tele-graphed his paper in Quebec that a Minister authorized him to state that remedial legislation would be intro-duced this session. Another Minister, Sir Adolphe Caron, is willing to accept a waiting policy.

Mr. J. S. Ewart left for Winnipeg last evening, bearing with him, it is said, a proposal from Premier Bowell to Premier Greenway that no bill would be introduced at Ottawa if the Manitoba Government will agree to introduce a remedial measure in their cwn Legislature establishing separate schools under state inspection and control, with authorized text books and teachers licensed by the state. Mr. Greenway might very well agree to this, because such schools would then be separate in name only, just as they are now in the Northwest Territories. It is evident-notwithstanding Mr. Ouimet's assertion—that the last thing Messrs. Bowell, Tupper, Haggart and Montague want to see introduced is a remedial school law, and now it can be introduced without the consent of every

Queen's Avenue Congregation Indorses the Board's Action.

No Minister But Their Choice Will Receive a Congregation.

Full Report of the Trustees' Action-Only Four Dissenting Votes.

A large and representative propor tion of the Queen's Avenue Methodist congregation assembled at the regular prayer meeting in Somerset Hall last evening. Rev. Dr. Sanderson conducted the service, and at the conclusion said: "We have all looked with a great deal of anxiety to the time when the church officers would lay before you the proceedings of the last few months. This is an authentic record, so that the minds of the congregation might not be led away by false reports. Every church member will have the privilege to vote, but I will not answer any question put to me at the close; you must simply vote, and so if you are not in favor of the proceedings you can vote against them." At the close of the reading of the report the vote was stand taken by the board, which is thus indorsed by the congregation. Mr. R. J. C. Dawson read the report

To the Members and Adherents of Queen's Avenue Methodist Church: In August last a committee was appointed by the Quarterly Official Board to look out for a successor to the late Rev. J. W. Annis, after his third year. This committee met several times, and went over the ground thoroughly, and lad many names before them, but owing to the unexpected death of Mr. Annis in February last the committee had to look for a minister who would be changing June, 1895, instead large one.

twenty times, and on Saturday evening (May 18) presented three names before the Quarterly Board, Dr. Daniels being one of the three.

The names were voted upon, and three times Dr. Daniels received a malority of the votes cast, and it was decided by a vote of 12 to 6 to invite Dr. Daniels to become our pastor for the ensuing conference year, some of the members of the board not voting.

When the first draft of the stationing committee appeared in the papers with a name other than our choice, the board was called together on June 25, at 7:30 p.m. The following resolution was car-

"The members of the Quarterly Board now assembled regret that their invitation, which was given to the Rev. Dr. Daniels, to become their pastor for the ensuing conference year, has not been accepted by stationing committee. We now feel bound in all honor and justice to stand by our invitation already given, andwhich passed the board three times, which invitation was duly sent to the Rev. Dr. Daniels, late chairman the Brandon district, and acknowledged by him under date of May 26. in which he thankfully accepted the invitation, subject, of course, to the action of the stationing committee.

We now beg to renew that invitation and respectfully request the stationing committee to comply, and would also call upon our lay representatives to conference to do all in their power to further the wishes of the Quarterly Board."

The resolution was caried by 17 to 4, some again remaining neutral. (Those This resolution was sent to conference by our recording secretary.

was also resolved that a special deputation be sent to conference to strengthen the hands of the lay representatives, and urge the appointment of the man of our choice.

It might be here stated, in reference to Dr. Daniels, the transfer committee had transferred Rev. Leo Gaetz from London to Manitoba Conference. This follows: transfer took place some weeks be-

The following night a special committee of the Quarterly Board met with the president, Rev. Dr. Wililams; Chairman Rev. A. L. Russell, of London district; Mr. McIntyre, of Chatham district, with their respective financial secretaries; W. Rigsby and H. Crews.

The board urged upon the president trouble of any kind, and that the encountry of securing the respective of and chairman the necessity of securing tire responsibility was now on the stationing committee. At this meeting the president came before our committee (which was waiting in another room while the ministerial committee was considering the case) and asked if there could not be some compromise, and, when asked what compromise he would suggest, he asked if our board would guarantee to make up to Mr. Cunningham the difference between the salary paid by the Dresden congregation and the St. Marys congregation, viz., \$400. The reply was "No," but two members of our board personally agreed to guarantee that this \$400 would be raised for peace sake. It was shown that Mr. Cunningham was in town and he was telephoned for by Mr. Rigsby, and we understand that Mr. Cunningham refused to go to Dresden, and now, notwithstanding all that has been said and done, the conclusion reached by Messrs. The committee met some fifteen or Rigsby was as follows:

"Inasmuch as the stationing committee considered all the circumstances affeeting Queen's Avenue Church, and inasmuch as the entire responsibility of the stationing of Rev. A. Rev. Mr. McIntyre and Rev. Mr. Crews dissented to this decision.
It might be here stated that the late Crews dissented to this decision.

It might be here stated that the late chairman of this district had repeatedly rule, robust, and the chaps who lead urged our committee and board not to ask for the appointment of a man who had been only one year on his circuit, lieve the age of short clothes will reas the stationing committee was oppos-

Carman, who was in Nashville, Tenn., that our board would like to see him. Dr. Carman wired that he was passing through London on his way from Tennessee to the Lower Provinces, and a strong deputation from the quarterly board had about ten minutes with him. He stated that our church laws did not give the general superintendent any power in such cases, but he would write to the president immediately upon his arrival in Toronto.

There the case now rests, and the matter is fully and openly laid before you, and you are now in a position to judge correctly for yourselves whether our actions are in accordance with your views or otherwise.

Report on Temperance Raises a Breeze.

And Is Finally Withdrawn for Revision.

The Synod Finishes Business and Adjourns.

Election of Delegates to the Provincial Synod-Project to Form a New Diocese Postponed No Manitoba Schools Resolution.

THURSDAY AFTERNOON. Shortly before adjournment this morning the Synod received the third annual report of the committee on temperance. It had not been possible, the report said, for the committee to undertake any active work in the dio-cese, owing in a measure to the fact (and for this the members were thankful) that there was far less drinking and drunkenness in Canada, than in any other part of Britain. A second reason was that in the diocese there were not many large cities. There was a third reason why direct active work for temperance was limited—the existence of other societies, such as St. Andrew's Brotherhood, Christian Endeavor, King's Daughters, whose existence, however, was not lamented. "It is a cause of deep gratitude that true temperance principles are spreading throughout the land," continued the report," and it is a noteworthy fact (whether all agree with him, is another matter) that a bishop of the church in this land, namely, Bishop Bond, of Montreal, should say in adressing his Synod: 'I stand here to commend the cause of total abstinence, as an avowed abo-olitionist, and that this sentiment should be followed by the applause and approval of the Synod. Our own bishop has repeatedly, from his first charge onward, spoken in eloquent and unmistakable language in the cause."
The balance of the report was confined almost entirely to consideration of affairs in the old land.

The reading of the report created a little confusion and heavy-weight attacks were made upon the committee for going out of their jurisdiction. The first three clauses were promptly dropped, and subsequently Rev. Mr. Taylor chairman of their property of the continuous con lor, chairman of the committee, asked

permission to WITHDRAW THE WHOLE REPORT. It seemed to him that a man was little short of a fool who would roll himself up into a ball and say to others: "Kick me." (Laughter.) No doubt the report was very imperfect, but the committee had striven to do their duty. He moved

the withdrawal of the report. Rev. George B. Sage, of London West, seconded, expressing regret that the diocese was not more alive to the great question of social reform. He hoped the day would soon come when a renort like the one presented would be treated in a very different spirit. Bishop Baldwin considered it going to the extreme to withdraw the whole report. Those who objected to the first few clauses, he thought, had no objection to temperance; on the contrary, there was no doubt but that the whole Synod was in touch with it. Bishop BESIDES Baldwin assured the discour 3 mitteemen that the opposition was not to temperance, but to the improper wording of the report.

In amendment Canon Young moved that the whole report be referred back to the committee for revision and modification. Carried.

EXTENDING THE EPISCOPATE. The committee on church and parsonage buildings reported, and were reappointed.

The committee on the extension of the church episcopate in its report stated that no mere rearrangement of boundaries of dioceses would meet the necessities of the church in regard to episcopal supervision. They recommended that a new diocese be constituted, comprising the counties of Grey, Bruce, Dufferin, Simcoe and North Welling-

Rev. Arthur Brown, in presenting the report, gave a history of the movement to form a new diocese. It would, he considered, be a good thing for the church as a whole, for, said Mr. Brown, we cannot shut our eyes to the fact that the church is not making the progress that it should.

The effect of such a change from a financial standpoint was ably discussed

hy Messrs. T. H. Luscombe and A. C. Clarke, Rev. Canon Young, Chas. Jenkins, Mr. Dymond and others, and Mr. Jenkins offered an amendment that the committee suspend their consideration until the question of the future of Algoma is dealt with by the Provincial Synod, as in the proposed rearrangement the territory of Algoma is left in-

Before putting the vote on the adoption of the clause and the amendment, Bishop Baldwin expressed approval of the proposition to reduce the extent of the dioceses. Mr. Jenkins' amendment carried by a large majority.

THURSDAY EVENING.

The Synod of Huron, at its session Thursday evening did not, as was expected, reach the resolution offered on Tuesday in regard to the Manitoba school question. A greater portion of the session was consumed in discussing a resolution offered by Rev. W. Craig and Mr. W. J. Imlach, and relating to Mrs. Boomer's memorial re Huron College. It read:

Consumers paying lawn rates are allowed to use water for lawn sprinkling from 6 to 8 o'clock p.m. on Saturday, 22nd inst., but not again until further notice. By order, O. ELLWOOD, Secretary.

### MARK IT WELL

A Development Peculiar to the Present Generation Dangerous and Often Fatal.

As each generation comes and goes it is marked by changes, developments and discoveries unknown to its predecessors. From a physical standpoint, one of the most to be dreaded conditions, and peculiar for its rapid increase during the present generation, is when the mind labors under the delusion of persecution, continual restlessness, pain in the back and head, twitching of the muscles of the face and hands. furred tongue, breath foul and heavy, nausea and further indications of stomach trouble. There may be delirium, convulsions, or sinking spells. Medical authorities apply different names to the conditions that are unintelligible to the average reader. The actual facts are the demoralized and dangerous state of the system is due to the accumulation of "Body Poison" in the blood that should and would be thrown off by the Kidneys if in a healthy condition. In order to restore health, strike at the root of the disease with Chase's Kidney-Liver Pills, the only medicine known that will control the changes going on in the Kidneys, enabling them to furnish for the whole system blood free from disease-breeding polson, building up the shattered condition of the nerves and relieving mental depression.

## The Secret Out

"She is courting a wretched fate," he so near to scandalous will not only destroy her in her own esteem, but sever all connection with her kindred and friends who have hitherto made up her world. She is lost if it is allowed to take place. Her mother must stop it, and since you do not feel yourself equal to the task. And to the mother Dr. Cameron's look of gloom did not

"Your are right," he assented. "Let Mrs. Gretorex be told of her daughter's position as soon as possible. But why teed I go with you?"

'To save your good name intact. You are expected to be on hand to marry Miss Gretorex at eight o'clock. If she is too ill to marry you, society will confine itself to commiserating your disappointment. But if you are not He stopped, for the doctor's whole

manner had changed. "Shall we not go to the elevated road" asked Mr. Gryce in his quiet

"Certainly, certainly," came from the doctor, in ringing tones strangely in contrast with his late apathetic ones; anything to get there in time. Who knows but my honor may at least be saved." And the voice which gave the orders to the coachman now was his, and it was his foot that first touched the pavement and his form that led way up the stairs to the elevated

They were fortunate in catching a train immediately, and once upon it, both breathed easier. Twenty-five minutes certainly would suffice to carry them to One Hundred and Twenty-Fifth street, fifteen minutes more to take them across town, and fifteen minutes additional to see them at the house. Fifty-five minutes, and they had an hour and forty minutes. That is, an hour and forty minutes before eight o'clock. But Mrs. Gretorex had to be informed of her daughter's critical posi-tion and got down to the hotel by nine. Could it be done? The calm face of the detective asserted his confidence

But there are accidents that upset all our calculations. Just as they were awning up, you may be sure." congratulating themselves on the good time they were making, the cars gave a sudden jerk and came to a standstill. instantly all the ladies in the car rose, and next moment the gentlemen, for they had just left a station and were yet some distance from another.

"A break-down!" exclaimed the doc-"In the middle of the block!" added his companion. Yet they did not believe their own words, and it was some minutes before they fully realized that the engine had really given out, and that they were virtually prisoners, and liable to stay where they were for half an hour at least. When they did, and had calculated the possibilities of escape and found none (for like all such accidents it had taken place in the highest portion of the road), they turned from each other with an irrepressible expression of dismay. For even if they succeeded in reaching the house by eight o'clock, the half-hour now being lost made the expectation of getting Mrs. Gretorex to the hotel in time to save his daughter's marriage, no longer within the possi-lilities. Her fate was then decided, and by a power higher than her own. The thought affected the doctor deeply, for he knew, or thought he knew, enough of Dr. Molesworth to foresee anything but happiness for her in an alliance with him. Even if he were a man of her world, which he was not, he had characteristics of disposition that would try the meekest woman; and she was a decidedly haughty one, with memories behind her that would make a life of constant concession impossible.

In the blank of the dull window out of which he looked, he perceived her image, tied with all her accomplishments and lady-like proclivities, to this brusque, stern, self-contained man, whose ambition was as hard as his poverty, and whose will was united to something narrow and constrained, rather than to what was broad and lelpful. The result was pity. Not the pity that is akin to love, for love he could not have now or ever again for this woman. The shock she had given his pride had killed its very germs in his heart. Even if he could bring himself to believe in the detective's plausible explanation of her conduct, and find in her very inconsistencies the evi-dence of a hidden and baffled affection for himself, his feeling must still remain one of pity alone. The fact that he saw her face as never before; that its least line struck him with a sense of beauty that had sometimes been lacking in his contemplation of her, did not go far to dispel this conviction. Misfortune while separating them had emphasized her figure in his eyes; and though she was his no more, he could not but marvel over the fate that had come between him and one whom he now saw could easily have been his ideal of what was personally fascinating and attractive. The Genevieve he had seen at his last interview—not the one he had seen today—was beauti-ful: and pitiable as it was to consider

had shown signs of that feeling attrib-

uted to her by his companion. He

flushed as he remembered it, and rig-

re rose from his seat and walked the

length of the train, talked to the en-

crously turned away his thoughts. But they had taken deep root, and although

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* gineer and interested himself in one or two passengers whose countenances betrayed apprehension, ne could not escape them, nor substitute with any other vision the picture of her face as it had looked to him on that night. He saw it in the clouded skies as he glanced out, in the plaze of the fire as he peered into the furnace, finally in the abstracted visage of his compan-ion, as he returned to his old seat and sat down again by the detective's side. Do what he would-and his pride impelled him to make very effort possible—the shy, almost beseeching glance so new to those proud eyes, the bright, alluring smile, even the turn of her form as she looked back on leaving him, would recur to his memory with a photographic distinctness that effectually blotted out the wild disheveled woman of whom he had that hateful and stolen glimpse through the curtains. Had it not been for the hurried beating of his heart, the fierce, almost unbearable, irritation of his nerves worn to exasperation by these lingering moments of enforced waiting, he could almost have imagined that the events and revelations of the day had been a dream, and that he was going forward with warmth and heart and hope in his soul to a marriage that promised love and honor. As it was, no clinging and perdeclared. "A marriage perpetrated in this manner and under circumstances man could blot out the shameful fact man could blot out the shameful fact that he was on his way to anything but a happy bridal scene; that instead of honor he should meet mortification, and in place of love, defeat and possible

Mr. Gryce-who, in the wisdom of his old age, never chafed at what was unavoidable-had nothing to say during this time of inaction. Possibly he had taken the opportunity to study up some other case, possibly he thought silence more discreet than speech; at all events he made no effort to break it, and the minutes went by, and the seemingly in-trminable half-hour came to an end, without a word having been uttered between them. But with the first onward movement of the car both roused

and Mr. Gryce spoke. "Thirty-five minutes lost! That's bad! But if the fates are propitious we may succeed in our intentions yet. Come to the door and don't stop for any courtesies now. Seconds are of importance

now." And seconds were made use of. Old as Mr. Gryce was, he showed that when hurry was demanded not even his proverbial rheumatism stood in the way. As soon as the cars stopped at One Hundred and Twenty-fifth street, they were out of them, and signting a train on the cable road, ran, caught it and were on their way across town before some of their fellow passengers had reached the bottom of the elevated

There was no delay this time: St. Nicholas avenue was reached at a quarter to eight, and as they had but a few minutes' walk before them, they stepped out with a decision that was almost hopeful. Suddenly a carriage rolled by them.

"Good God!" exclaimed Dr. Cameron, "a guest going to the wedding." Another carriage and another; the street seemed alive with them.
"Why didn't I think of this?" muttered the doctor, feeling the cold sweat

breaking out over him. "Did you expect anything else?" asked the detective. "The parents, hoping for her return up to the last, naturally could take no measures to warn their guests. You will even see an

"'Tis horrible!" came from his comwith hitter emp the corner of St. Nicholas Place he almost stopped as if he felt himself unto proceed. But the detective's firm figure passing hurriedly on, he recovered from his momentary weakness and followed him.

Meanwhile the stream of carriages kept up, and presently they could hear the slamming of doors as their occupants alighted. Something in the sound, in the general aspect of things, seemed to move the doctor strangely. "Hark!" cried he, clutching at the de-ective's arm to stop him. "There is tective's arm to stop him. "There is no confusion, no delay; the guests go in and are received. And look! Lights -lights from basement to garret! What goes it mean? Do those wretched parents still hope that she will come?"

For answer, Mr. Gryce drew him hur-(To be Continued.)

College, and declare its sympathy with Huron College and its work; that while the Synod is unable to devote any of its funds to the educational objects of the college, the members feel they would be out of harmony with the devotion of the Church of England to higher education, if they did not accord their willingness to support any reasonable plan which may be adopted in the various parishes of the diocese for providing aid to the college."

The debate was participated in principally by the mover and seconder, Rural Dean Mackenzie, of Brantford; Prof. Sherwood, of the college staff, and Rev. Mr. McCosh, of Chatham, and resulted in the unanimous adoption of the resolution.

The committee on provincial organi-

zation submitted the report of the Diocese of Toronto upon the subject, and commended it to the Synod for adoption. The first section recommended that the boundaries of the several ecclesiastical provinces be co-terminous with the civil boundaries thereof. The second section proposed to transfer the authority of the several provincial Synods. The first recommendation was approved of, but the second was not wholly acceptable, the Synod passing a resolution favoring the adherence to the resolution passed last year, "That the General Synod shall not take away or interfere with any rights or power of any diocesan synod within its own

territorial limits."

Five amendments to clause 20, of which due notice had been given by Rev. David Williams, were withdrawn. Mr. A. H. Dymond moved: "That a committee of nine clergymen and seven laymen be appointed to consider what amendments may be necessary in canon 22 on 'The Discipline of the Clergy, and canon 20 on 'Differences Between Clergymen and Their Congregations.' Mr. Dymond's resolution met with the hearty approval of the bishop, and he (Mr. Dymond) named Revs. Dean Innes, J. C. Farthing, Alfred Brown, W. Craig, T. R. Davies, Rural Dean Mackenzie, Canon Hill, Canon Young, and Archdeacon Davis as the clerical members, and Messrs. Matthew Wilson, Q.C., R. Bayly, Q.C., S. Smith, Charles Jenkins, T. H. Luscombe, Judge Ermatinger and A. H. Dymond, as lay members. The bishop was named chairman, and the committee will report next year.

A memorial from the Diocese of Toronto was received, asking the Synod to aid in having the public school laws so amended as to make provision for a half-hour of religious instruction every day in the school hours. In connection with this a notice of motion by Mr. W. J. Imlach was considered, requesting Bishop Baldwin to annually appoint a committee on religious instruction in the public schools, with power to co-operate with similar committees from other synods. No action was taken in the memorial. Mr. Imlach's motion was adopted.

Rev. Alfred Brown's amendment to make the proposed pro rata reductions of grants on the basis of the whole stipend instead of on the incomes derived from the mission fund, was warmly discussed and lost

Mr. Charles Jenkins introduced in a very able manner a resolution favoring sider the advisability and expediency of petitioning the General Synod to take measures for bringing before the next Pan-Anglican Conference the question of a revision and expansion of the ordinal for deacons. Rev. D. Williams seconded. Carried.

SYNOD CLOSED. The 38th session of the Synod of Huron was brought to a close at noon today with the usual fervent farewell from the Bishop of Huron. The business of the Synod this year was considerably lighter than usual, and it was transacted with the promptness and dispatch which has characterized meetings of a similar nature in the past. In his closing address, the bishop said: "In looking back upon the work done, the most serious legislation which we have had was in reference to the finances of the diocese, and I can only trust that the members will labor for the removal of the debt and the placing of the Synod in the best possible light, and the funds on a good, sound basis. next most important regislation is the proposed change in the limits of the diocese. Make it a matter of prayer. It is a matter of deep moment, and we wish to do only that which is best. The appointment of a committee to see that the public schools are given a half hour's religious instruction daily also one of vast importance. The true education of our young is foremost when we see the secularization of the young of our age, and it consequently behooves us to endeavor to put in a plea for their education in the eternal truth. We will now depart with three determinations: First, to pray more earnestly for the weal and influence of the diocese; second, to be bound closer together in the principles of unity and fraternal love; and thirdly, to do more in our daily life in the building up of the blessed kingdom of our Redeemer and the establishment of his church in this particular part of his vineyard,"
MANITOBA SCHOOLS,

The resolution on the Manitoba school question, which was offered by Rev. Mr. Beaumont, came up for discussion, and instead of an hour, as was expected, it occupied about one minutes' time. This resolution has been already published. It strongly condemned any federal coercion of Manitoba, and declared the separate school system pernicious.

As soon as the resolution was announced there was a mingled chorus of "Drop!" "Withdraw!" "Lost!" etc. Addressing the mover, Mr. Dymond stated that he thought the remedial order was about as dead as a door nail. Bishop Baldwin also informed Rev. Mr. Beaumont that he considered it wise to withdraw the resolution, which

THE BISHOP'S BIRTHDAY. Today was the anniversary of the Bishop of Huron's birth, and when the Synod was deep in the regular business on the paper Dean Innes crose and moved the suspension of the order of business. He then announced the fact, and in the name of the Synod wished the head of the diocese many happy returns.

The applause throughout the dean's remarks was loud, but at their conevery cleryman and layman rose to his feet and continued the clapping of hands and stamping of feet. Bishop Baldwin gratefully acknowledged the good wishes of the Synod.

GENERAL BUSINESS. Rev. Robert Sims offered a notice of motion that Bishop Baldwin be requested to have a resolution drafted. expressing the desire of the Synod to record its gratitude for the success vouchsafed to the reformers of Spain and Portugal in carrying on their work, and welcoming the consecration of a bishop for the Spanish Reformed Church. Mr. Matthew Wilson, Q.C., of Chatham, seconded, and the motion was unanimously adopted. As a loyal and patriotic churchman, Rev. G. B. Sage, of London West, introduced a resolution in regard to the

Sunday school leaflet of Feb. 11 last. which practically stated that there were

only held two. He wanted such teachings condemned. It was explained, however, in the discussion that the inter-diocesan committee of the Provincial Synod was not responsible for the teaching contained in the leaflet, as the committee simply arranged a scheme of lessons. The comment was issued by the Diocese of Toronto committee. At the suggestion of Mr. Wilson the bishop will be requested "to call at-tention to the objectionable features of the leaflet. At this season the thoughts turn lightly to love, is an old sentiment. A man or a woman in love naturally gives much attention to the details of dress. No matter how well a woman may be gowned, if her shoes are ill-fitting or shabby, she is dowdy in the eye of men of taste. The same is true of the sterner sex, and it has been said that a man with good shoes, clean linen and a pair of gloves, could bid defiance to the world. Cook can fit you on the shoe question, and perhaps that is the one thing wanting to make you who read happy for life.

-Petrolea firemen picnic at Port Stanley tomorrow. -The postponed concert of the Seventh Fusiliers Band will be held this

(Friday) evening, weather permitting. -Malcolm McKellar, a young Komo-ka man, has been committed for trial by Squire J. B. Smyth on a charge of biting James Brown's finger. The finger will probably have to be amputated.

-About \$40 worth of damage was done by fire yesterday in the third story of Collett's old hotel, corner of Burwell street and Hamilton road. It is supposed to have originated from a coal oil stove.

-Sprigbank is becoming a great picnic ground for outsiders as well as for citizens. A large crowd from Crumlin picnicked there the other day, and yes-terday the Sunday schools of Thamesford enjoyed themselves there. They left the city via the steamer Thames. -The estate left by the late Mr. Geo.

McNab is valued at \$50,000, of which the only realty is his late residence. By his will Mr. McNab left a handsome bequest to his mother, the remainder to his wife and children. Mr. George C. Gibbons, his late partner, and a warm rersonal friend of the deceased, was made sole executor.

-The London and Port Stanley Railway Board held a short session yesterday afternoon for the purpose of re-ceiving plans and specifications for the new bridges over Kettle Creek and Mill Creek. A large bundle of applica-tions were on hand, but were referred to a sub-committee, consisting of Engineers De Gurse and Graydon, and Secretary Kingston, to consider and report back to the board. Auditor Jewell's report on the expenditure for repairs to the road, and which is to be deducted from the first rental, was filed. Members present: Mayor Little, Messrs. Wm. Bowman, Frank Leonard and Moses Masuret, Frank Leonard, O'Meara, Parnell and W. Heaman, Engineers De Gurse and Graydon, Sup-erintendent Woollatt and Secretary

Kingston. -The pupils at the Collegiate Institute yesterday decided that Mr. J. O'Grady was the most popular pupil in attendance at that institution. Voting was by ballot and was conducted in the rooms separately, Mr. A. O. Jeffery, one of the members of the Board of Education, being the returning officer. The trustees in attendance beside were Messrs. D. W. Blackwell, Sanders, Griffin, Murphy, Buchner and Stephenson. The lower school had an attendance of 199 and the upper school 259. Of this number one refused to vote, one cast a blank, and two ballots were spoiled. The winner polled 84, and the next three had the following vote James Little 44, S. K. McEvoy 34, Lucy Southam 31. Other votes ranged all the way from one to eighteen. Mr. O'Grady was a prime favorite with the young women attending the institute and it is largely due to this fact that he can attribute his success in the contest, and he can thank them for being able to possess the Robinson medal.

DIED FROM GRIEF. Mrs. A. Grant, of Biddulph, mother of Mr. W. J. Grant, of Parkhill, who was committed to Central Prison last week for six months, for stealing \$5,000 belonging to the Bank of Commerce died soon after learning of her son's sentence, and was buried at Granton cemetery the other day.
AT THE "Y" ROOMS.

At the regular semi-monthly meeting of the Y. W. C. T. U. a thank offering was taken, as it was the 100th meeting. A Bible reading on "Christ, our Example," was very helpful, and the monthly reports were encouraging. The total attendance at the rooms for May was 1,356, of which 794 attended during the day, 562 in the evening, and 446 were present at lunch hour. The Bible class met twice during the month, and will probably discontinue its meetings during the summer. The club-swinging and drill class held two meetings early in the month and disbanded until cooler weather. The art class has met regularly every Thursday evening, with a good attendance. The choral class holds interesting meetings every Saturday evening. Mr. Colt, of the London Shorthand School, having kindly offered to teach members of the Y. W. C. A. free, a class is in process of formation, and will hold its meetings on Tuesday evenings. At the usual literary evening an article on Canadian poets was read and discussed. Instead of the usual monthly reception, a concert in aid of Summerholm was given. Mrs. Boomer favored the members one Saturday evening with a continuation of her talks on travels in other lands. Her graphic descriptions of places and people were greatly enjoyed. After the reports were received, the chief subject of discussion was how to procure funds to carry on the work of the association, which has proved so helpful to the young women of the city, and it was decided to make an urgent appeal to the public, feeling assured that there are many who would respond when reminded of the needs of the work.
