Minority of Church Union Committee Hands In Report Advocating Discontinuance of Negotiations for Organic Union---Govt. Giving \$50,000 to Relieve Sufferers From Disaster---London Brakeman Killed at Komoka---Township Health Officer Blames City Authorities for Spread of Smallpox

## SMALLPOX PATIENT LET OUT TOO SOON SPREADS DISEASE

### Medical Health Officer of London Township Blames Dr. Hutchinson for Early Discharge of Sam Clinton, Now Under Quarantine in Township.

Dr. D. G. MacNeill, medical health officer of London Township, declared this morning that the early discharge of a smallpox patient from the Isolation Hospital in this city was responsible for the spread of the disease in London Township.

According to Dr. MacNeill, the patient, Sam Clinton, was taken to the Isolation Hospital about three weeks ago and after being under observation for about fourteen days he was discharged, and returned to his home in London Township, where he lives with a married brother. The latter contracted the disease since Sam Clinton came from the Isolation Hospital, made it necessary for Dr. MacNeill to put the house under quarantine.

Others have been exposed to the disease and Dr. MacNeill declares that the disease would not have spread if the patient Sam Clinton had been kept at the Isolation Hospital for the prescribed period of six weeks. Dr. MacNeill is doing what he can to keep a check on the disease in London Township.

Dr. Hutchinson Explains. Medical Health Officer, Dr. T. V. Hutchinson, who has charge of the Isolation Hospital, said today that Sam Clinton did not have a fully developed case of smallpox when he was admitted to the institution and for that reason was discharged after being there a few weeks. "The married brother had it and was nearly well when Sam Clinton was brought to the Isolation Hospital," said Dr. Hutchinson. "There is nothing in the case and there is no use saying anything about it, as it will only stir matters up," continued Dr. Hutchinson.

## Gracious Tributes Paid by Confreres to Senator Coffey

### Sir Wilfrid, Senator Lougheed and Senator Bostock Express Appreciation of His Courtesy and Integrity and Sympathy to Family.

[Special to the Advertiser.]

Ottawa, June 9.—The news that Senator Thomas Coffey, of London, had passed away was heard with profound regret by members of the both sides of parliament. Senator Coffey was for many years a familiar figure on Parliament Hill and was one of the most respected members of the Senate.

Sir Wilfrid Laurier this morning said of him: "Senator Coffey was a man who filled a useful place in the public life of Canada. He was moderate, reasonable and yet a good fighter for the cause. I regard him always as a personal friend."

In the Senate tributes were paid at the opening of the morning sitting. Hon. Mr. Lougheed: "Before the orders of the day are proceeded with it is my sad duty to make reference to the death of Senator Coffey, who

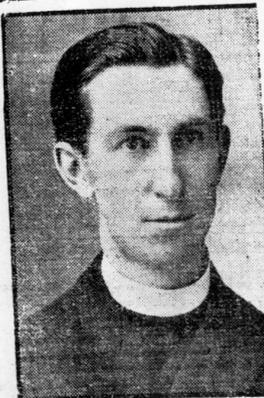

has passed away, after some weeks' illness at his late residence in the city of London. Senator Coffey had been a member of this chamber for some eleven years or more, and during all that time enjoyed the respect and esteem of every member of this chamber.

A Man of Strong Integrity. "He was a man of strong integrity of character, and had the very highest conception not only of his duties as a member of this chamber but of his obligations as a citizen. He was a man of strong and fixed opinions upon all the great questions and problems particularly which had to do with the upright living of the community at large."

"He had been a journalist of many years' standing, and particularly represented in that capacity the views and the opinions of the great re-

## Pastor Who Comes To Dundas Centre Pulpit

Rev. A. J. Thomas, B. A., who in July succeeds Rev. A. J. Johnston as pastor of Dundas Centre Methodist Church, was formerly for a number of years, pastor of Hill Street Methodist Church, in London. He is quite a young man and Dundas Centre Church will only be his fourth charge. His first charge upon graduating from Victoria College and Toronto University, from which latter institution he holds his arts degree, was Hill Street, then a mission of the Dundas Centre Church, from where he was called to Brigsden and later to Forest, which charge he leaves to return to London. He is regarded as one of the coming men of the Canadian Methodist Church.

## MINORITY REPORT STRONGLY AVERSE TO ORGANIC UNION

### Recommends Discontinuance of Negotiations, and Mentions Co-operation.

### DR. McKAY NOT IN FAVOR

### He Objects to Being Represented as Changing Position on Question.

(By Staff Reporter.)

Woodstock, Ont., June 9.—The debate on the church union was continued in the Presbyterian General Assembly this morning, the views of the minority section of the union committee being advanced by Rev. Dr. E. Scott, of Montreal, editor of the Record. He also submitted the minority report, containing recommendations that the negotiations for organic union be discontinued for the present, and that the assembly record its desire for such co-operation between all evangelical churches as will utilize to the best advantage the Christian forces of the land.

Before Dr. Scott commenced his address, principal Dr. McKay, of Westminster College, Vancouver, who seconded Dr. Clark's motion for the adoption of the majority report yesterday, rose to protest against what he described as misleading reports which had been published in certain morning newspapers.

The Toronto Globe and a paper, not The Advertiser, he said, "Published reports which were utterly misleading with regard to my position in this matter."

Not in Favor of Movement.

"I am not in favor of the present movement and I have not changed my mind on this matter, but I have agreed to the action which is contemplated by the majority, because I think it is the fairest way to find out what is the view of our people."

Dr. Herridge pointed out that the newspapers were not responsible to the assembly. Every man who spoke in the assembly, he said, was responsible for what he said, but he was not responsible for what other men or newspapers represented him as saying.

Dr. Scott Objects.

Dr. Scott objected somewhat to Dr. McKay's statement. It was not fair, he complained, for a man who rose to offer an explanation to follow that explanation with a statement intimating that the question of organic union was not before the assembly or that the only question was as to the advisability of referring (Continued on Page Eleven.)

## LONDON STILL SWELTERS IN HEAT; THERMOMETER GOES 94.5 AT 3 O'CLOCK

### Temperature Equals That of Yesterday's When a New High Record Was Established for 1914, Surpassing Even Highest Mark of Last Year—Factories Close Because of Heat

	High.	Low.
Saturday .....	87	70
Sunday .....	85.5	63
Monday .....	94.5	70
TODAY (2 p.m.) .....	94.5	

### At 3:00 the official weather observatory in South London reported the temperature as being 94 1-2.

It was hot yesterday. It is hotter today. On Monday the official temperature was given as being 94.5 maximum. At 2 o'clock this afternoon the official thermometer registered, however, Londoners, one and all, were quite convinced that today's hotness had eclipsed anything, in like nature, so far produced by Old Sol this year. "Hottest yet!" was the general consensus of opinion.

Yesterday's records, which promises to be surpassed today, was just half a degree higher than the record set for last year—84, attained on July 14 and Aug. 16. June seems to be London's hot weather month. It was so last year, and most assuredly it has been true this year. Since Saturday the temperature has been climbing upward. It started with the 87 maximum of the

week-end, went to 86.5 on Sunday and 94.5 yesterday.

Two Degree Handicap. Yesterday morning the 8 a. m. official record was given at 87. This morning it was only 85, but the amateur weather prophets are predicting that the two-point handicap will be overcome by Old Sol today without the slightest effort.

June's high record for 1913 was made on the 16th, when the thermometer went to 92. It remained there only for a short time, however, and on June 18 recorded a drop of 40 degrees, going down to 52.

Everybody's Doing It. Deep, dark cellars, shady trees, curtained verandahs, darkened rooms and the seclusion of the coolest spot in the back yard are vying with the lakeside summer resorts, the dear old farm and the rest of the out of town cooling and cool locations.

Factories Close. So intense was the heat, both yesterday and today, that some of the factories closed down. Perrin's and other of the large confectionary manufac-

ers allowed their employees a holiday during the hottest part of the day. Early closing in many stores and industrial places has been put into force during the warm weather, while the relief for others, that is, of course, if it is quite as hot tomorrow as it is today.

Negligee and Soft Drinks. Negligee and soft drinks were the order of the day, or of the week for that matter. Everybody was wearing the lightest and most summy of costumes. Dutch necks predominating among the fair sex, and apparently everyone was seeking solace from the heat by frequent visits to the drink emporiums, both hard and soft.

It is so every hot day, and the perspiring newspaper reporter is, perforce, compelled to chronicle it each year on the very hot days and also to compile in gallons the amount of thirst quenchers consumed. Today, however, it was too hot.

Fans Were Popular. At the circus last night the peanut butchers, who sell fans as a side line, took up fans as the main article of sale. They sold them, too, by the hundreds. Applause during the performance was rather noticeable by its almost total absence. They say that the performers understand perfectly, however. It was simply too warm in the big tent to further "het" oneself up by clapping and stamping even for the most darest devil acts.

Writ Issued.—The Huron and Erie Loan and Savings Company have issued a writ through Cronyn & Betts against G. A. Bell, of Ottawa, for property in that city.

## DECLARES PAJAMAS ARE PROPER SUMMER DRESS FOR SUFFERING MALES

### Prominent Physician Comes to Defence of Diaphanous Gown As He Declares That Summer Is Nature's Filtration Scheme for Mankind.

Here's hope for the heat-oppressed. It may be uncomfortable, but one of London's foremost physicians told an Advertiser man today to dry those drops of perspiration and forget it.

"If you only knew it, this warm spell is the best thing for your health that could happen," he said. "It is the system's grand filtration season. Your kidneys are relieved and rested to an extent that no medicine can accomplish. Let old nature take her course and if you work with her she'll keep you in trim shape. Get out into this hot weather. Keep your head covered, drink lots of water and wear as few clothes as possible."

"Then you believe in the diaphanous skirt, doctor?" asked the scribbler. "Believes in Diaphanous Skirt."

"Most assuredly," he replied. "The diaphanous skirt is the best thing that could happen. It is a great thing for womankind."

"And mankind does not seem to object, so we are all agreed," interrupted the frivolous scribe. "Seriously," added the doctor, "women can keep cool now. Formerly it was like wearing blankets around all day. We fool men, don't know how to dress, either. If we did we'd be going

around in pajamas, instead of woolen suits. Starched collars? Why we are all crazy."

With that the reporter tore his from his neck, ripped it in two, and cast it in the air.

Sacrifice For Sane Dress. "My sacrifice to sane dress for males," he cried. "And, doctor, if you'll give me a certificate of sanity here goes my shirt."

But the doctor told him to restrain himself and go write an article with some sense in it on hot weather.

And here it is!

## COINCIDENCE IS STRANGE IN THAT TIES PURCHASE

### Acceptance of Tender Preceded by Shipment of the Order.

### A STRANGE KNOWLEDGE How Did Company Know That Its Tender Would Be Lowest?

### ELECTRIFICATION INTEREST Manitoulin Lumber Company Directors First Opposed the Scheme.

The Manitoulin Lumber Company shipped 75,000 ties to London for the evident purpose of being used in the electrification of the London and Port Stanley Railway.

Although the ties were in London almost a week before tenders were opened, it was a coincidence that the company's tender was accepted, the statement being made that it was the lowest received.

The cars had been previously distributed along the line of the London and Port Stanley Railway, the intention apparently being to unload them. Whether the city accepted these cars or not before tenders were opened is not known, but the arrival of the shipment which came out strongly in favour of the tender was commented upon widely. The explanation given to the Advertiser was that the company knew that its tender was the lowest, and that it sent the cars ahead, confident that it would be given the business.

How the company came to know in advance that its tender would be the lowest is not known.

Supported Electrification. This much is known, however, that the men who comprise the Manitoulin Lumber Company are among the same who make up the Lake Erie Coal Company, which came out strongly in favour of electrification last year, after having been opposed to the city's scheme some time.

No information concerning the shipment of the Pere Marquette ties were brought from Sarnia this line. Twenty-eight cars were taken to White's on the L. and P. S. R. and the remainder were brought to St. Thomas and London.

It was admitted that the ties which came to London had been addressed to the city of London.

The strange coincidence of the tie company, that it could secure the contract was demonstrated in the fact that it placed the cars along the city's line, apparently knowing that this would be the most convenient method.

No Other Particulars. And it happened that the arrangement went through just as the company had expected. No particulars as to the other tenders for ties or for steel rails have been given out. The meetings of the London and Port Stanley Board have been closed to the press.

## NEW HOME FOR ADVERTISER JOB

### Will Be Located in Separate Building at York and Wellington Streets.

### LATEST WORD IN BUILDING New Plant Will Be of Most Modern Type for Printing Trade.

Plans are being prepared for the immediate construction of a large modern plant at the northeast corner of York and Wellington streets for the London Advertiser job department.

In future the job department is to be in a separate building from the newspaper owing to the great demand for space within the last year in both branches.

Although the present Advertiser building extends through half a block and is three stories high, space is at a premium for the job printing and newspaper departments. The extension of the newspaper building has called for at present in somewhat crowded quarters.

The new structure will be of the most modern type of printing building. It is probable that it will be of steel and concrete or fancy brick exterior, while inside, every facility for the handling of enormous quantities of printed matter will be provided. A committee will make a report on various modern printing plants in the United States, and the best ideas will be used in the Advertiser job plant. The building will be two stories and basement, and it is promised, will be a handsome addition to London's business houses.

JOHN GRIEVE WILL RUN IN N. MIDDLESEX

Over Three Hundred at Meeting in Ailsa Craig.

STRONG FOR TEMPERANCE

Leading Issues of the Campaign Discussed by Prominent Speakers.

(By Staff Reporter.)

AILSA CRAIG, June 8.—Enthusiastic support for the Rowell temperance policy, harmonious feeling, strong expectations of success on June 29, and an attendance that packed the town hall, were features of the annual meeting and convention of the North Middlesex Liberals, held here today. John Grieve, of Parkhill, was again nominated as Liberal standard-bearer in the forthcoming contest.

John Grieve, of Parkhill, the Unanimous Choice of North Middlesex Liberals

cost per capita \$2,800 to provide a home for each prisoner. Hanna was proud of it, also that new prisons had to be built. "If I were Mr. Hanna I would rather be proud that the asylums and prisons of the country were empty," said Mr. Ross. Seventy-five per cent of those in prison are there through drink and 35 per cent of those in asylums are there also because of drink.

Church and temperance people and the women of Ontario should unite in supporting the Rowell temperance policy. They can feel that they are working for temperance and not for the Liberal party, which could not hope to win without the Rowell temperance policy. Strong Arguments. Duncan C. Ross thought sufficient arguments had been advanced to show to every man present that the Rowell policy was the right policy for Ontario. Ninety per cent of poverty, 40 per cent of crime and 35 per cent of insanity was due to drink. "It remains for us to put the liquor traffic where it belongs," he said. "We are proud that Mr. Rowell is an old Middlesex boy. I feel sure that we will rally so unanimously and enthusiastically to his support that our candidate will be elected."

The Ontario Government did not welcome investigation in the recent scandal as other Governments have done in the past. As soon as Liberals began to draw blood and to show the guilt of the Government the lid was put on. Mr. Hanna had shown by his actions in the matter that he had lost his right to be Premier of the province. The Liberals had been prepared to prove that Mr. Hanna, in the presence of a third party, had instructed Mr. Rowell to work in the interests of the liquor people. Mr. Ross also criticized at some length the extravagance of the Ontario Government in all its departments.

BOTH ESSEX RIDINGS LIKELY LIBERAL WINS

Conservative Split in District of Reaume.

[Special to The Advertiser.] WINDSOR, June 8.—That the Liberals will carry both North Essex and the new Windsor, Wallaceburg and Sandwich ridings, specially created for Dr. Reaume, is considered certain by those in close touch with affairs. Everywhere in the north riding South Essex and the north riding over Dr. Paul Poisson, the Conservative nominee. Rev. J. C. Talmie, it is generally conceded, will have a big majority in the district. Hon. Dr. Reaume and O. E. Fleming.

PROSPECTS BRIGHT FOR SPLENDID CROP

Bumper Yield is Expected in the Hensall District.

HENSALL, June 8.—Careful enquiry among the farmers brings the information that seldom in the history of this country around Hensall have the prospects been brighter for the harvesting of bumper crops of all kinds of grain, excepting fall wheat, in many instances is patchy. There are, however, some splendid fields. All spring grains are looking splendid. The hay crop promises to be abundant, although much of the clover was injured by the early frosts. There was about the usual acreage of crop put in. The Dutch sets, of which there are about 35 acres sown, give promise of a great yield. Beans and potatoes are in good shape. The prospects for fruit are also good, although owing to scarcity of help and the coolness of the season many farmers were unable to do much spraying or give their orchards much attention. The plums and cherry trees indicate a fair crop. "Since the demoralizing strike of 1907, conditions were never brighter than at present for a complete reorganization of the commercial telegraphers of the United States," said Mr. Koenekamp.

TELEGRAPHERS CONVENE

[Canadian Press.] Detroit, Mich., June 8.—Delegates representing various sections of the United States and Canada assembled here today at the biennial convention of the Commercial Telegraphers' Union of America, of which S. J. Koenekamp, of Chicago, is president.

CLINTON FARMER HAS SERIOUS FALL

[Special to The Advertiser.] Clinton, June 8.—On Saturday afternoon, John Lindsay, a farmer here about fifty years of age, was helping his son, John, to shingle a barn. While he was at work he slipped and fell. In his fall he caught hold of the eaves-trough, which broke, throwing him to the ground, 25 feet below. He was picked up by his son. On examination it was found no bones were broken, but he was badly bruised and will be laid up for some time.

COLONEL MAYBERRY IS AGAIN NOMINATED

Rousing Rally of Liberals of South Oxford.

UNITY AND CONFIDENCE

Leader Rowell Strongly Commended for His Fight Against the Bar.

[Special to The Advertiser.] INGERSOLL, June 8.—In selecting Lieut.-Col. T. R. Mayberry as their standard-bearer at a convention last afternoon, remarkable for the large attendance from all sections of the constituency, South Oxford Liberals left no room for doubt as to their enthusiasm, unity and confidence in the clear-cut policy of Leader N. W. Rowell.

There was more to the convention than the customary formality. There was reflected the strong determination of a party undivided even in the smallest degree to support the nominee and the one great issue, abolish the bar, introduced by Mr. Rowell. Strongly Commended. Leader and candidate were alike commended for their respective parts during the Whitney regime, and the sentiment was voiced in no uncertain manner not to slum merely at holding South Oxford, but to roll up an old-time majority.

It was a convention that rekindled the fighting spirit and the stalwart Liberals of the riding have girded up their loins for a vigorous campaign. The president of the association, Mr. J. R. Johnson, of Springfield, presided. While Mr. Mayberry was given the nomination unanimously, other names placed in nomination were: Dr. Angus MacKay, ex-M. P., Ingersoll; Charles Denton, Tillsonburg; W. C. Brown, Tillsonburg, and Dr. W. C. Brown, Ingersoll. The other nominees eventually retired in favor of Lieut.-Col. T. R. Mayberry, who has been South Oxford's able representative in the Legislature, and pledged their strongest support on behalf of his candidacy.

It was too hot for comfort in the town hall, but this fact did not keep the delegates away. There has been a fog well filled, and as in keeping with the mercury, their enthusiasm kept ascending. Alive to Issues. Dr. A. Mackay, who opened the speech-making, remarked that the Liberals of the riding were alive to the issues of the day. He referred to the administration by the Whitney Government, remarking that conditions indicated "something rotten in the state of Denmark." The only issue, he said, was "abolish the bar" policy of Mr. Rowell. There has been no need for bringing on an election at the present time, but the Government was afraid to allow the issue to stand for another year. It realized that the policy of Mr. Rowell was gaining ground every day. Blocked by Government. He referred to the attitude of the Government on the temperance question, and stated that 300 delegates in the province were open because of the three-fifths clause. The fate of the Government, he contended, now stands with the thinking people of the province. There was only the one issue, and he expressed the hope that it would not be allowed to be overhauled by lesser issues. Mr. W. C. Brown spoke appreciatively of his name having been placed in nomination, and retired in favor of Lieut.-Col. Mayberry.

Dr. Rogers gave the stirring address and took the following course: that after June 29 there would be no bars. Mr. Rowell had met the wish of many of the citizens of the province for a politician who made "abolish the bar" his policy. In this connection he sympathized with many of the temperance Conservatives, but in this respect he said the line was not as marked as some would have it. Prophecies Fulfilled. There would come a time when old Liberals and old Conservatives would be fused. There would be one party that would stand with the people and all the time, and the other party would stand for abolition of the bar and social reform—a party that would be headed by Mr. N. W. Rowell. (Applause.) Continuing, he spoke of the desire of the Conservative Government to get a new lease of life while Mr. Whitney is still in office, and then Mr. Hanna or someone else would probably step into the saddle. "They are afraid of the growing popularity of Mr. Rowell," he said. "If they waited for a year and a half to bring on an election, the flood of public opinion would be against them." He expected that there would be a big change after June 29. He eulogized the frank, honest, conscientious

Skin Dried and Cracked and Hair Fell Out—Cured by Dr. Chase's Ointment.

Eczema is annoying and distressing at any time, but doubly so when it gets into the scalp and causes the hair to fall out. Here is a grateful letter from a lady who was cured by using Dr. Chase's Ointment. "I had a terrible skin disease of the scalp, which was cured by using Dr. Chase's Ointment. The trouble started with itching and pain in the scalp, the skin would get dry and crack, and at times would bleed, and the hair would fall out. I tried three doctors without benefit, and suffered for three years. Reading in the almanac about Dr. Chase's Ointment, I began its use, and am now completely cured. The hair had grown again, and I am as well as I ever was. You are at liberty to use this letter for I am glad to recommend so excellent a treatment."

Dr. Chase's Ointment has no rival as a cure for itching skin diseases.

REV. FRANK HARPER CALLED TO CLINTON Unanimous Choice of Big Congregational Meeting.

LAMBERT WIGLE WILL RUN IN SOUTH ESSEX Lifelong Temperance Man Fully Indorses Leader Rowell.

[Special to The Advertiser.] KINGSVILLE, June 8.—Lambert P. Wigle, of Gosfield South, one of the leading farmers and stock raisers of the county, was the unanimous choice of South Essex Liberals today, at the finest convention ever held in the riding.

CLINTON, June 8.—At a well attended meeting of the members of the Willis Presbyterian Church this evening it was decided to extend a unanimous call to Rev. F. C. Harper, pastor of Chalmers Presbyterian Church, London. Rev. Mr. Reid, of London, the moderator, presided at the meeting. The pulpit has been vacant since last March, when Rev. D. K. Grant accepted a call to the northwest.

Rev. Alex Stewart was pastor of the church for over forty years. Rev. Mr. Harper stated to The Advertiser that as he had not yet received any official notice of the call he could say nothing regarding the matter at the present time.

Mr. Wigle made a fine address, in which he declared that he was a lifelong temperance man, and is fully prepared to endorse to the fullest extent Leader Rowell's "Banish-the-Bar" policy. He urged Liberals everywhere to line up behind their candidates and, by giving them man to man support, strengthen Mr. Rowell by giving him a strong band to fight with. Now is the time to prepare for spraying. Sharman & Baker can supply you with materials at lowest prices. Lime, Sulphur, Soluble Sulphur, Arsenate of Lead, etc. Sharman & Baker, London R. T. No. 4. # SENATOR COFFEY DEAD; WEAKENED CONSTITUTION UNABLE TO STAND HEAT

### Aged London Statesman Passes Away After Long Fight With Death.

### GRAND OLD MAN

Was One of Most Popular Men in City. Liked By All

### OLD TIME PRINTER

Worked His Way From Printer's Devil to Newspaper Publisher

Hon. Thomas Coffey, LL.D., member of the Canadian Senate, editor and publisher of the Catholic Record, and one of the best-known Catholic laymen of Ontario, died at his residence, 504 Wellington street, at 7:30 o'clock last night, after an illness of many weeks, during which time all hope for his ultimate recovery had been abandoned by his family and physicians.

Despite his precarious condition, the aged senator had made a gallant fight for life, rallying time after time, after sinking spells that seemed to indicate that the end was but a question of minutes. Tenaciously he has fought his battle against death, but each attack has found him a little weaker. Yesterday morning again, for the last time, it was noticed that he was again growing weaker. The family, buoyed up by his previous successful rallies from such spells, hoped against hope for another change for the better, but the end came.

**Hot Weather Responsible.**  
The hot weather is held responsible for the senator's death in no small degree. Since the advent of the warm spell, the senator has been growing steadily worse, the weather destroying all chances of recovery.

**Bishop Fallon There.**

Besides the immediate family, His Lordship Bishop Fallon and Monsignor Aylward were at the bedside when death came. His wife, son-in-law, R. M. Burns, his daughter, Mrs. Burns, and his granddaughters have been in constant attendance since he was first taken ill some weeks ago.

When he first became ill, the late senator's condition was not considered serious. When, however, he experienced several sinking spells, he yielded to the pressure of his family and agreed to medical attendance. Dr. Tillmann was called at once. Since that time he has been in constant attendance on the senator in company with Dr. H. A. McCallum, Dr. McPhedran, of Toronto, was in consultation with Dr. Tillmann early last week but could do nothing.

**Death Generally Mourned.**

While not unexpected, the death of Senator Coffey is one that is generally mourned throughout the city. With his own personal acquaintances, made when he was just in the growing stages of its birth and "Tom" Coffey was "one of the boys" and, later, the acquaintanceship he had formed through the medium of his paper, the Catholic Record, made him known to thousands. His genial personality made him exceptionally popular and his elevation to the Senate, eleven years ago was one that was popular throughout Western Ontario.

Born in 1843.

Senator Coffey was born at Castleconnell, county of Limerick, Ireland, on August 12, 1843. He came to Canada

## Renewed Vigor in Old Age

### This Letter Brings a Message of Cheer to the Aged—Results of Using Dr. Chase's Nerve Food.

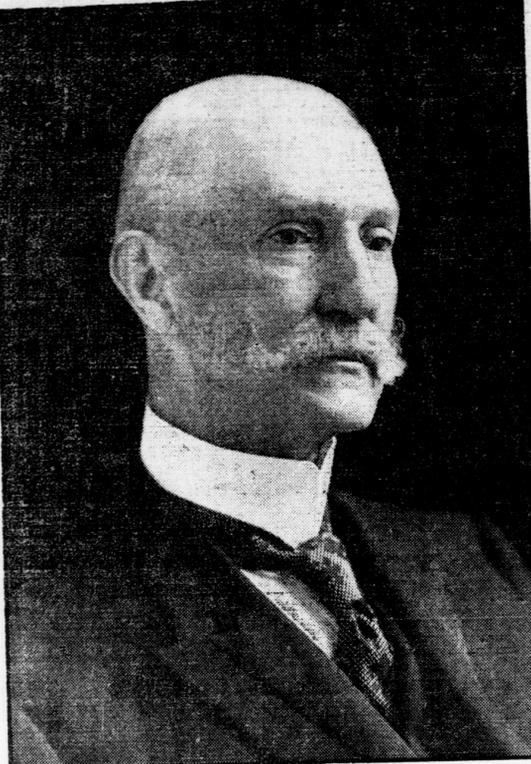

New, rich blood is what is most needed in the declining years to keep up energy and vitality. That Dr. Chase's Nerve Food is a wonderful help in maintaining good health and prolonging life is attested by the writer of this letter:

Mr. Stephen J. Leard, North Tryon, P.E.I., writes: "At seventy-five years of age my heart gave out and became very irregular and weak in action and would palpitate. My nerves also became weak, and I could do nothing but lie in bed in a languishing condition, losing strength and weight. In that condition I began using Dr. Chase's Nerve Food, and am cured. Had I not obtained this treatment I would now be in the box with the roof over my nose. At eighty-one I have an energy which means joy, and I am writing this letter so that old people like myself may prolong their health and strength by using this great medicine." 50c a box, 6 for \$2.50. For sale by all dealers.

### To Have Perfect Skin Throughout the Summer

These days the face needs special care and attention. Flying dust and dirt, the beating sun, are severe on any skin. Their despoiling effects are best overcome by the application of pure mercurized wax. This keeps skin and pores in a cleanly condition, the complexion beautifully white and spotless. Discolored, freckled and roughened cuticle are actually absorbed by it. One ounce of mercurized wax, obtainable at any drug store, is sufficient to completely renovate a soiled complexion. It is used like cold cream, allowed to remain on over night and washed off in the morning.

As the skin tends to expand in warm weather, causing wrinkles to form, a good astringent lotion should be used. Dissolve 1 oz. powdered salicylic acid in 1 pint witch hazel. Bathe the face in this during the heat of the day or before going out for theatre or social affairs. It is a remarkable skin tightener and wrinkle eraser. —Adv.

The Late Senator Coffey.

with his parents, Patrick and Ellen Coffey, while a child, living in Montreal for some time before coming to this city. He learned the printing trade in the office of the old Prototype, the old time Liberal paper in London.

In May, 1869, he was married to Margaret, second daughter of the late James Hevey, of London. The wedding was an unusual one, three of Mr. Hevey's daughters being married in St. Peter's Cathedral here on the same day. Mrs. Coffey survives him, besides one daughter, Mrs. R. M. Burns, and three granddaughters, Mrs. Frank E. Fallon, Dorothy and Mary Burns.

Called to Senate in 1903.  
His political career, while only a comparatively short one, has been in the Canadian Senate, to which he was called by Lord Minto, then governor-general of Canada, on March 12, 1903. During that year his name was prominently mentioned for a cabinet office in the Laurier Government and also as party leader in the Upper House.

In 1907 the degree of LL.D. was conferred on Senator Coffey by the University of Ottawa in honor of his work as editor of the Catholic Record.

**Dean of Newspapersmen.**  
Senator Coffey was the dean of London newspapersmen. For more than half a century he was actively engaged in newspaper work here, working his way from the galley stick of the printer's devil to the editorial chair of the Catholic Record.

In the days of the old "hand set" work on the London papers, the good old days

of the old school printers like to recall, he was one of the best known case men in the country. He worked with most of the best known printers of the country, printers who afterwards made names for themselves in American and Canadian cities. They all knew "Tom" Coffey, and while many of them have now passed the great divide, there are hundreds in all parts of the Dominion and of the United States who will learn with regret of his death.

**Old Advertiser Printer.**  
Senator Coffey's connection with The Advertiser commenced with the inception of the paper, he having been one of the printers who set the "copy" for its first number in 1863. The senator started as a printer's devil on the old Prototype, learning his trade there. Joining the staff of The Advertiser in 1863 he worked his way upward till he became foreman of the composing room. He was then transferred to the foremanship of The Advertiser job department, leaving that position in 1879 when he took over the Catholic Record.

When Mr. Coffey took over the Catholic Record it was practically defunct, the previous owners having run the paper into bankruptcy and leaving a trail of unpaid wages and bills to mark its somewhat stormy career. Its mechanical equipment was of the most limited type, there being only a few fonts of type and an old press. The present Catholic Record plant was built up by the senator from that small beginning.

Taking over the defunct paper as he did, he transformed it into a powerful organ of the Catholic Church in the country, as well as building up a large job printing trade.

WOODSTOCK, June 8.—Dr. A. S. Grant, chairman of the Board of Finance of the Presbyterian Church in Canada, told the General Assembly tonight that he was looking forward to a two million dollar budget for 1920. Moreover he declared his conviction that that amount could be raised without difficulty.

Montreal, June 9.—A London cable says: If the Lords decide to postpone consideration of the second reading of the home rule bill until the amending bill is before them, the Government would be willing to accede to their wishes, declares the Daily Chronicle.

A section of the Conservative party is urging the Lords to reject the amending bill, the calculation being that the Government would then flinch from appeal to the country. What seems more probable is that the Lords will modify the amending bill in such a way as to ensure the exclusion of Ulster without a time limit.

These modifications will necessarily be at the mercy of the coalition majority, when the amending bill reaches the Commons, but this course will in the eyes of the Unionists place the ultimate responsibility for strife or peace upon the shoulders of the Government.

## HOW WOULD YOU LIKE TO LIVE IN PARIS?

PARIS, June 8.—Two and a half inches of snow and half fell in one section of Paris this evening, and the amazing spectacle was witnessed of horses struggling through snow on a June day in the Avenue des Champs Elysees.

## CONSERVATIVES IN SENATE KILL FARMERS' BANK BILL

### Eleven of Them Vote Against Giving Aid—Fourteen Liberals Support Measure, Which Is Killed by Seven Votes.

[Special to The Advertiser.]  
OTTAWA, June 8.—The Government tonight killed the Farmers' Bank aid bill in the Senate. It was a clear case of double-crossing the depositors.

The Government carried through the Commons the measure of aid which Hon. Mr. Crothers and other Conservative members promised to the depositors before the last election to get their votes. By doing so it raised the hopes of the unfortunate depositors to the zenith. It dashed them to earth again tonight when the vote of eleven Conservative senators, it carried a motion for the six months' hoist by a majority of seven.

If the eleven Conservative senators had measured the bill would have carried by a majority of seventeen.

Fourteen Liberals With Bill.  
Though there were only seven Conservative senators who voted for the six months' hoist, there were fourteen Liberal senators who voted against the hoist. Among the Liberals who voted against killing the Farmers' Bank bill was Hon. Hewitt Bostock, the Liberal leader of the Senate. Among the senators who voted for the killing of the bill was Sir MacKenzie Bowell, the former Conservative premier, and formerly Conservative leader of the Senate.

It was announced some weeks ago your correspondent that the Government would kill this bill in the Upper House in order to save money after passing it through the Commons, in order to placate depositors, and make a pretense of showing that it intended to keep its pre-election promises.

The vote for the six months' hoist was thirty-two. Of these twenty-one were Liberals, and eleven Conservatives. The vote against killing the bill was twenty-five. Of these fourteen were Liberals and eleven were Conservatives.

The residue of his property he left to his daughter.

Lord Strathcona's holding in the Hudson Bay Company is valued for probate at £248,167, being 20,300 £1 ordinary shares valued at £10 each and 8,120 £5 preference shares valued at £45.167. His holding in the Anglo-Persian Oil Company amounts to £31,250, and in addition moneys on loan with that company amounting to £25,201. His holding in Baring Brothers & Co., Limited, amounts to £44,500. His principal holdings in concerns operating in Canada and the United States are:

Great Northern Railway of the United States ..... \$6,606,340  
Canadian Pacific Railway ..... 4,112,808  
Northern Pacific Railway ..... 3,880,328  
Bank of Montreal ..... 686,652  
The Laurentian Company ..... 495,671  
The Dominion Steel Corporation ..... 400,522

The household effects at Grosvenor Square are valued at £28,366, but of this sum £16,228 as the value of pictures which are exempt from duty, leaving a sum of £12,138 as the value of the household effects there chargeable with duty.

**EVIDENCE POINTS TO TOTAL VALUE OF ABOUT \$28,000,000—Home for Lepers in England Is Provided For.**

London, June 8.—The will of the late High Commissioner for Canada, Lord Strathcona, became public yesterday on the grant of the probate. It is dated 22nd January, 1906, and as it is proved in Scottish form, the figure for the real estate is not yet available. The total amount of the personal estate amounts to £4,651,402, of which £2,223,849 is personal estate abroad, that in the United Kingdom being valued at £2,427,553 only. The duty paid amounts to £837,838, and this, at 15 per cent, points to a capital value of the about £5,885,609. Under the Budget just introduced the estate duty payable would have amounted to £1,117,117.

The executors are Lord Strathcona's daughter, now Baroness Strathcona, John W. Sterling, councillor at law, New York, and William Garson and James Garson, writers to the signet, both of Edinburgh. The principal bequests under the will have already been published. The charitable bequests are on a lavish scale, ranging from £200,000 to the Royal Victoria College, Montreal, and £100,000 each for Yale University and the Royal Victoria Hospital, Montreal, and including a sum of £5,000 to John Burns to provide a home and maintenance for some 50 lepers in the United Kingdom. He settles his Scottish estate and a sum of £500,000 upon his daughter, the present baroness, for life, with remainder to follow the title.

**TORY CANDIDATE IN TORY TORONTO OUT FOR ROWELL POLICY**

C. J. Doughty Promises Most Active Support to "Abolish-the-Bar" Plan.

IS TAX REFORMER, TOO Will Speak and Work, During Campaign in Riverdale, for Temperance.

Toronto, June 9.—"I, C. J. Doughty, nominee of the Conservative party in the Riverdale riding, do hereby pledge myself to work and talk on the public platform from now until June 28, 1914, for the policy commonly known as 'Abolish the bar,' which is proposed to abolish the consumption of liquor in all bars, hotels and clubs in the Province of Ontario.

"I also pledge myself, if elected to the Legislative Assembly, to back any and every temperance measure brought before the Legislature, including abolition of the bar, licensing of clubs, or anything even more advanced brought up in the Legislature by any member whatsoever.

"I will go even farther and state that I am in favor of abolishing and that store licenses as well as hotel and club licenses, and will do all I can, either in or out of the Provincial House, to have such law passed at the first session of the House.

"I favor votes for women, tax reform, and will work and vote for such measures, if elected to the Local House.

(Signed) CHARLES J. DOUGHTY.  
(Signed witness) H. E. BOND.

This statement was signed yesterday by Mr. Charles J. Doughty, the candidate of the Conservative party in Riverdale, and read last night to a meeting in Armstrong's Hall, Pope avenue, to consider the advisability of having a candidate nominated on the temperance issue to support the "abolish the bar" policy.

A Starting Statement.  
It was read by Mr. R. H. J. Pasmore, who holds the document with Mr. Doughty's signature. Mr. Pasmore drafted the statement, and it was signed by Mr. Doughty. Coming well as a Conservative candidate, in a Conservative riding, in a Conservative city, it was sensational news to the meeting, and those in the riding who heard of it. This episode of a Conservative candidate not only pledging himself to support the temperance policy of the Liberals, but also two others of the foremost planks in their platform, a thing unparalleled in Toronto politics, and with the other recent upheavals in the Conservative ranks in Toronto and the provinces will greatly hearten the Liberals and temperance forces in the present fight. In view of the undertaking of Mr. Doughty, the Liberals of Riverdale have deferred for the present their convention, which was to have been held on Thursday night.

An effort was made to reach Mr. Doughty last night for a supplementary statement, but he could not be seen.

## LIBERAL CHANGES VERY BRIGHT IN TWIN CITIES

### N. W. Rowell Given Most Encouraging Reception at Port Arthur and Fort William.

Port Arthur, June 9.—Before two enthusiastic audiences last night, N. W. Rowell expounded his program of emancipation for New Ontario from the thralldom of lethargy of the Whitney Government. It was a great day for Liberalism in these northwestern ridings, and with two candidates of exceptional standing, W. A. Hogarth in Port Arthur and I. L. Matthews in Fort William, the prospects for substantial gains here are of the highest. Mr. Rowell challenged the Government's attitude towards New Ontario as being entirely inadequate to meet the needs of this great empire of the north, and declared that the reason there was not of settlement was the lack of a permanent policy of settlement and immigration on the part of the present Administration. He coupled with this the burden placed upon the settlers now by the unjust assessment law, under which land for speculative purposes escaped taxation and the improvements made by settlers were subject to impost.

To a waiting crowd at Fort William he laid bare the defects of the department of agriculture, and supported his arguments with pointed illustrations gained from his observations during the day in the rich district adjacent to this city. Loud applause greeted his appeal for the right to married women owning property to be given the municipal vote. At both meetings his challenge to the organized liquor interests and continuance of the open bar as a menace to the community was greeted with storms of applause, and proved beyond all doubt that this issue made by settlers were subject to impost.

LONDON, TUESDAY, JUNE 9.

THE LATE SENATOR COFFEY.

DEATH has robbed London of another public man and esteemed citizen. The late Senator Coffey ranked with those prominent in the building up of this community, and boy and man, was known to everyone as a genial and kindly citizen.

When a vacancy occurred in the Senate, to which it was known a Roman Catholic would be appointed, he was chosen as the most representative man of that faith in Western Ontario.

As a Liberal, Senator Coffey stood in the front rank. He was a man who fought with his party in adversity and prosperity, and who never swerved from his democratic ideals.

G. HOWARD FERGUSON.

IT can occasion little surprise, even to the casual observer, to learn that the report of G. Howard Ferguson, M. P., royal commissioner on the Trent Canal work, was unjust, partisan and untrue.

Mr. Ferguson's recent career in the Legislature has been such as to stamp him as a bitter partisan, who would go to any lengths to save his colleagues.

In this job, which he undertook illegally on behalf of the Borden Government, it now appears he followed the same tactics which he used in connection with the Proudfoot charges.

It is bad enough for the Conservative party to keep such a man as this in its ranks. At Ottawa he was called a "disgrace to the public life of Canada."

Both investigations were conducted by "royal commissions." The Conservative party has brought discredit to the royal commission. No man in the future can have faith in such a commission under similar auspices.

Hugh Guthrie, the Hon.-hearted, exposed the plot of G. Howard Ferguson and his Tory colleagues. He brings a nasty situation to the doorstep of Mr. Borden, and he has done a service to the country at large.

THE RESPONSIBLE PARTY.

IN THE discussion on the proposition to assist the Canadian Northern Railway, Government supporters are continually repeating that this enterprise is a legacy from the former Liberal administration, which fostered it, and aided it to reach its present condition.

A CONSERVATIVE PAPER'S PREDICTION

"And he (Mr. Rowell) has this reflection to give him confidence, that if the Ontario voters respond to his appeal as they did to the Ross plebiscite of fourteen years ago, he will be returned to the Legislature at the head of a working majority."—Toronto World (Conservative).

the present administration. The railway in question had a number of scattered lines throughout the western provinces, and the Laurier Government assisted it to join those disconnected links in its chain.

But the connecting of these lines was not the cause of the present financial stringency in the affairs of the Northern. It was the addition of the expensive Rocky Mountain section. With what has been already spent for this purpose, and the estimate of what is necessary to finish it, the total cost of this section will be about \$53,000,000.

But this very expensive section came into being under legislation passed by the Borden Government in 1912. And when the Government came to the aid of the company in this expensive venture we are not aware that it took any special pains to safeguard the interests of the country.

Now we say nothing here as to the advisability of completing the Canadian Northern as a transcontinental line. Nor are we discussing the advisability of giving further help now rather than permit the road to go into the hands of a receiver. The point we want to emphasize is the absurdity of the present Government trying to excuse its conduct by throwing the blame for the necessity of it on the previous administration.

As a Liberal, Senator Coffey stood in the front rank. He was a man who fought with his party in adversity and prosperity, and who never swerved from his democratic ideals.

THE SENATE'S RESOLUTION.

THE masterly commentary upon the C.N.R. proposals is contained in the resolution of the Senate, passed last week. The objections to the measure are summed up in small compass and the sound sense of the Liberal attitude places it squarely before the people.

"That this house, before assenting to the second reading of this bill, desires to express its opinion that the said bill is adverse to, and does not properly safeguard the true interests of the country, in amongst other respects the following:

"That aid in the form provided for in the said bill, implying as it does partnership on the part of Canada with Sir William Mackenzie and Sir Donald Mann, may involve the country morally and otherwise in very large additional expenditure, and will in effect bring about the payment by the Government of the outstanding securities of the C. N. R. system.

"The sanction by parliament of an issue of \$125,000,000 of watered stock is immoral in its nature, and is aggravated by the fact that the Government is taking two-fifths thereof, and that the people of this country will ultimately be made to provide interest on the whole capitalization and the carrying charges will be increased accordingly.

"The mortgages and charges to be given to the Government in virtue of said bill do not constitute a sufficient or reasonable assurance that the Government shall not be called up to pay the guaranteed securities at maturity.

"The Canadian Northern system has remained to this date a personal undertaking on Sir William Mackenzie and Sir Donald Mann, and no provision is made in said bill for their personally guaranteeing the 'guaranteed securities.' "The said bill contains no provision preventing the proceeds of the 'guaranteed securities' being applied to the payment of indebtedness of the Canadian Northern system to Sir William Mackenzie and Sir Donald Mann, or to the Mackenzie-Mann Company, Limited, of which they are reputed to be the principal, if not the only members.

...and the Worst Is Yet to Come

The maximum of the mortgage securities, which may be issued under the trust deeds referred to in sub-section 2, of section 4, and in section 11 of said bill.

"The said bill contains no provision whereby the 'guaranteed security' may through subrogation get the benefit of securities held by creditors who may be paid, or out of the proceeds of such 'guaranteed securities.' "No proper evidence has been given that Sir William Mackenzie or Sir Donald Mann are not directly or indirectly enriching themselves through the building and financing of the Canadian Northern system, or by means of subsidies, land grants or town-sites, which should have inured to the exclusive benefit of the said system.

"Valuable lands, which may be used for town sites or other purposes, and which have been given to and acquired by the Canadian Northern system, and important enterprises connected with the said system are not included in the 'guaranteed securities.' "And this house desires to ascertain whether the Government would not be disposed to facilitate the aid being given on conditions which would not be open to the above mentioned objections."

THE dream of a barless country has floated in the minds of our people for two generations now. Prohibition or abolition has been laughed at by cynics and sensualists as an illusion, or a "cure" worse than the disease. But the dream of our idealists is like other dreams with life in them. It has persisted, and persists, and will not be denied. It is bound to win.

Abolition of slavery was denounced in coarser terms even than abolition of the bar. But it came at last in the United States. A flying machine was the butt of satire 25 years ago, as the most ludicrously impossible fancy. Abolition will make Ontario fly on wings of cleanliness, prosperity and wealth. All its advantages can be secured on the 29th of this month, if the citizens of Ontario merely wish it. As in the fairy tales, one has only to wish and the thing is done. The sign of the cross in the right place will cross out the bar.

Nine thousand young Conservatives have petitioned their leaders for advanced temperance legislation. What was the use? Mr. Hanna had laughed at the abolition of the bar, so long urged by the churches, as a joke. Sir James' last idea on the question is to abolish treating. The only way to make such politicians take temperance reform as anything but a joke is to sign something more formidable than a petition. Mark not a name, but your cross on the ballot, and show that temperance reform is real and earnest.

People have been signing pledges for generations. Not to follow up the pledge with a properly-marked ballot is like subscribing money to the church and then forgetting to pay.

With the accused bar in our midst we are like Christian in the City of Destruction. Up and away; pass the Slough of Despond and throw off the miserable load from the back. The hour has struck for which temperance men have prayed. They have been fobbed off and deluded by politicians, until Mr. Rowell comes to them, places a great party organization at their disposal, and most important of all, offers himself as leader against the central citadel of the foe. Will not the host of believers in temperance follow their leader on June 29th? The opportunity may be slow to recur.

Et tu, Ferguson!

"The rout of Rowell" seems to have turned into "the humiliation of Hanna."

This is Cupid's busy month, and we trust that he hasn't found his clothes yet.

The temperance people of the province never had such an opportunity as they have today.

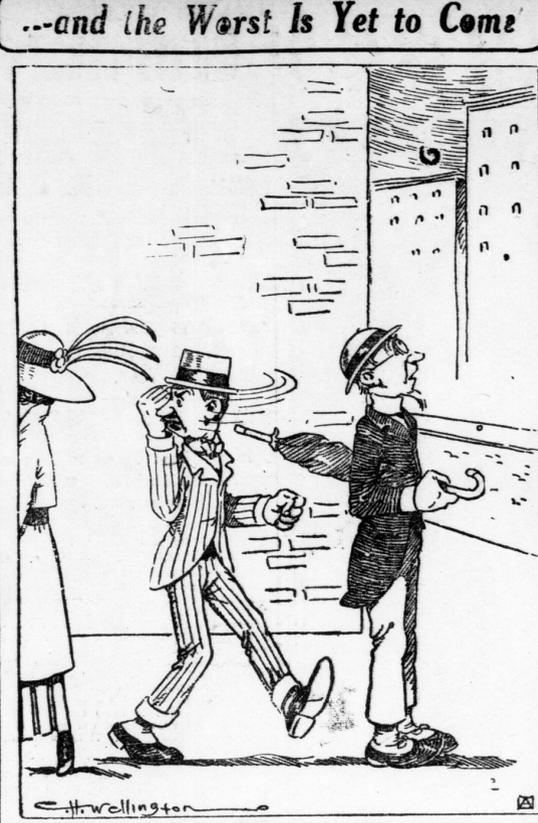

If Whitney is returned to power watch the "Seven Sleepers" roll over for another long sleep.

Men must be up and doing to hold public confidence these days. Whitneyism belongs to a past age.

In this campaign the ministers of the province are lined up against the ministers of the Government.

G. Howard Ferguson is the man who flew to Mr. Hanna's defence on the occasion of the Proudfoot charges.

For unadulterated villainess, there has been nothing in public life to equal the prostitution of G. Howard Ferguson.

PREDICTS ROWELL'S VICTORY IN REMARKABLE STATEMENT

Toronto World (Conservative) Compliments Liberal Leader on Massey Hall Demonstration and Declares That If Ross Precedent Is Followed He Will Be Returned.

A remarkable statement, practically amounting to a prediction of victory for Mr. Rowell in the present campaign, appears in the Toronto World, one of the foremost Conservative papers in Canada today. The World compliments Mr. Rowell upon the fine demonstration given him at Massey Hall, and says that "if the Ontario voters respond to his appeal as they did to the Ross plebiscite of fourteen years ago he will be returned to the Legislature at the head of a working majority."

THE REWARD OF PAIN. Till I lay ill, I did not know how high The white-armed syamores stood up to raise Its crest of leaves, but when long, empty days Were mine, I watched its play against the sky.

It is gratifying to learn that Dr. Hill will probably not leave the Institute of Public Health. In a short time he has made it a force in the life of the community, and has himself won much regard as a true scientist and as a man.

The Conservative press asks Mr. Rowell why he does not include the wiping out of the licensed liquor shops. This is probably intended for the few people who are not aware that the shops can be banished by a majority vote.

Mr. Hanna hasn't been heard from for a few days. Probably that campaign fund needed strengthening up. Is it possible that he may be arranging the modification of the Workmen's Compensation act with the manufacturers.

The Toronto News says that the Liberals are demoralized. This is ridiculous in the face of the facts. So far they have had no trouble in securing the highest type of candidates while the Conservatives are warring amongst themselves at West Toronto, Northwest Toronto and the Essexes.

At a local manufactory one of the girls called to dispose of her roses, but being told by the manager that another had been before her, she was sent away with a dollar. As she went, a workman called to her from a window that they "hadn't got any of those, wouldn't she come back." One dollar was a cheap rate for the whole factory.

FACT. [Pittsburg Gazette-Times.] The men who have to take a census of all the birds in the United States will find some relaxation in running down the night owls.

CLUB-GOLF. [Montreal Mail.] Some people will never take an interest in golf until it becomes part of the game to hit the other fellow with the club.

HIS MISTAKE. [Illustrated Zeitung.] "Do you know, my dear," asked the young husband, "there's something wrong with the cake. It doesn't taste right."

"That is all your imagination," answered the bride, triumphantly, "for it says in the cook-book that it is delicious."

AN AID TO MEMORY. [Yonkers Statesman.] "And when you were abroad on your honeymoon trip did you visit the Palace of Peace at The Hague?" asked the girl friend of the bride just home from abroad. "Oh, yes," was the reply. "We had our first quarrel there."

ONE GUESS. [Washington Herald.] Our guess is that the Baltimore man who rolled three miles without getting up will never do anything else that will attract the attention of the newspapers.

FOOLING THE COOK. [Kansas City Journal.] "Why do you quarrel with your husband so these days? Have you ceased to love him?" "No; but the cook enjoys it. She lingers with us hoping to see a fight."

WASTING HIS TIME. [Guelph Mercury.] A newspaper man was held up in Chatham by a trio of thugs. He took to his heels. This was quite unnecessary. He should have let the robbers look over his pipe, empty wallet, pawn shop tickets and dollar watch. The incident would have closed with abject apologies and sympathy for the scribe.

SUCCEEDS IN FORMING A NEW FRENCH CABINET

Senator Ribot Announces That It Will Meet This Evening.

[Canadian Press.] Paris, June 9.—Senator Alexandre Felix Ribot announced this morning that he had virtually succeeded in forming a new French cabinet to succeed that of Premier Gaston Doumergue, which resigned as a result of the recent general elections. M. Ribot said, "My cabinet is formed. I am going now to inform President Poincare of the composition of the new government, but as Leon Bourgeois does not return from the country until this afternoon, my colleagues will not meet officially until five o'clock this evening."

Five of M. Ribot's colleagues are senators and seven deputies. The list of seven unofficially by M. Ribot is as follows: Premier and Minister of Justice—Senator Alexandre Felix Ribot. Minister of Foreign Affairs—Senator Leon Bourgeois. Minister of Finance—Deputy Etienne Clémentel. Minister of Marine—Deputy Theophile Delcasse. Minister of War—Deputy Joseph Noulens. Minister of Interior—Senator Paul Peytral. Minister of Public Instruction—Deputy Arthur Dossoya. Minister of Public Works—Senator Jean Dupuy.

Minister of the Colonies—Senator Emile Clémentel. Minister of Commerce—Deputy Marie Reville. Minister of Agriculture—Deputy Adrien Darac. Minister of Labor—Deputy Marice Maunoury.

She Was In Bed For Seven Weeks Then Dodd's Kidney Pills Cured Madame Berube.

Montreal Lady Tells How, After Four Years' Illness, She Found a Complete Cure for All Her Troubles.

Montreal, Que., June 8. (Special)—Madame J. Baptiste Berube, residing at 1383 Logan avenue, this city, asserts that after four years' suffering from kidney disease she has been restored to health by Dodd's Kidney Pills.

"I had a pain in my left side around the heart," Madame Berube says in her statement. "I suffered constantly with headache and backache, and for seven weeks I was in bed with kidney disease and feebleness. The doctor could not help me, so I decided to try Dodd's Kidney Pills.

"After the first box I was some better. I continued to use Dodd's Kidney Pills till now the pain has left me, and I am a well woman, able to do my work. Dodd's Kidney Pills cured me and I recommend them to all persons who suffer as I did."

Notice how many women are rising to tell their suffering sisters that they can find relief in Dodd's Kidney Pills. The reason is that nine-tenths of women's ill springs from diseased or disordered kidneys. Every woman whose kidneys show signs of weakness should use Dodd's Kidney Pills.

Done To A Turn "THE UPPER CRUST" By the Author of "HE COMES UP SMILING," "THE MYSTERIOUS "CHARLES SHERMAN."

"Great guns!" he thought, as the car turned out of Brockton and took the road for home, "what a damnable thing it must be not to have any money and no way to get any. No one willing to lend. Poor old Molly, no wonder she wanted to marry Hancock!"

All the way home he kept thinking of the girl and his wounded love. The circumstances all pointed to her guilt, and the last month had shaken his belief in her word. He was sick with disgust at the whole affair and at the knowledge that he still cared for the girl, that he would not could not leave her behind. She had said she would marry him, and he knew that she meant it, and that he would ask her to again, that he wanted her above everything and in spite of everything. All the way home he fought his love, knowing it would conquer him in the end. He told himself that she was an unscrupulous woman, that he had trusted her because her eyes were big and blue, and her hair was soft and curly and dark, clinging to her neck and temples in tiny ringlets, and that she had betrayed him.

Again he recalled that Sunday when she had wheeled his secret from him. He felt that he was drawing to a close and that the great day was always longed for, to marry a rich man, which had come to her in this out-of-the-way corner of the world, was slipping from her grasp, never to return, and in her desperation she had resorted to anything to get the money. He remembered that she had gone across the bay on Monday morning in her motor boat, and that she had probably telegraphed Hancock that she was no one else who could have done so, and that she had been having telegraphed a confirmation of the man's demand if Holmes was not there. The circumstances were all against her, and yet he loved her, could feel still how soft her hands were as she had clung to him and had prevented her from kneeling, could hear her voice laughing at him from the springtime in its laughing cadence. He cared for her and would, no matter what she did, no matter what she said, no matter what she thought, he would care for her as he had done before.

He stopped at the village store and filled the tennet of the car with the provisions he had just left on the sloop for Canada. Bored, as he had told her, by waiting for his boiler to come, and thinking about the busy world, he had the idea to go to Canada by water came to him and he decided to act upon it. He had been thinking about it for some time, and he had tried to put him off. He had spent the morning with them, had met Hancock and James and the constable in the character of Todd, had been so introduced to them all, explaining his little masquerade as Patterson on the girl.

"Yes, certainly." "Mrs. Todd is this man your chauffeur?" The girl nodded. She felt that she could do more for Joe if she still concealed her identity from the constable. He might be able to get him out of jail quicker as Mrs. Todd than as Molly O'Toole, she reasoned in her ignorance of the law. She had been thinking about it for some time, and she had tried to put him off. He had spent the morning with them, had met Hancock and James and the constable in the character of Todd, had been so introduced to them all, explaining his little masquerade as Patterson on the girl.

"You have known him as Joseph Holmes?" asked the constable. "He came to town about three weeks ago, did he not?" "Yes, I think that is about right," "from whom?" "He said so."

For Beautiful Hair, Nourish the Scalp. Dandruff must be removed and the hair roots nourished to stop falling hair and itching scalp. It is unnecessary to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how heavy it is falling, or how much dandruff, Parisian Sage, rubbed into the scalp is all that is ever needed. The hair roots are nourished and stimulated to grow new hair, even all dandruff is removed, and the hair becomes soft, fluffy, abundant and radiant with life and beauty.

Parisian Sage, a daintily perfumed liquid, is one of the most pleasant, invigorating and refreshing hair tonics known, yet perfectly harmless and inexpensive. After the first application you will be surprised and delighted with Parisian Sage, for it will double your present attractiveness as a woman, and it is all that is needed for a treatment is all that can possibly be desired.

Be sure to get Parisian Sage from W. T. EACH MINER TO HAVE ELECTRIC SAFETY LAMP Under New Agreement Pittsburg Men To Be Better Equipped. [Canadian Press.] Pittsburg, June 9.—Adjustment of the wage scale in the Pittsburg district resulted today in many of the 40,000 miners returning to work under a contract that is to be in force for two years. Machine men are to be paid 69 cents a ton, pick miners \$1 a ton, and each miner is to be provided with an electric safety lamp, which he can wear on his head. The lamps are supplied with power from a storage battery, which is charged every day before the miner begins work. The lamp is surrounded with every possible safeguard, while allowing the worker the benefit of a strong light which he can direct to the point where it is most needed. Authorities say the lamps will cost the mining companies approximately \$250,000.

Pots, Pans and Dishes! Panshine really has no equal in the kitchen. You should not trust to hot water and soap to remove grease and all traces of the last meal's cookery. It isn't safe. Use Panshine—it makes pots clean and sweet, tin like silver, paint like new.

Panshine is a pure white powder with no disagreeable smell. Sold in Large Tins, 10c. At all Grocers.

THE EXCHANGE

London, June 9.—Money was quiet and discount rates were easy today. The Bank of England raised most of the 2 1/2 per cent. bills offered in the open market.

Although the general settlement commenced on the exchange business again advanced, especially in foreign and home rails with underground falls.

Final approval is not expected to be given by either party, however, as the mediators then will ask the American delegates to begin to ascertain the attitude of the Constitutionalists.

Should there be any new suggestions from the Constitutionalists, the United States Government will endeavor to arrive at a compromise with them.

When an agreement is reached the results will again be placed before the mediator board and the Huerta delegates.

Expectation is that if the Constitutionalists are willing to discuss the peace plan with the American Government, an agreement can be reached in a short time.

MEXICAN DELEGATES HEAR PROPOSALS OF THE UNITED STATES

Practically the Same as Mediators and Huerta Envoys Have Approved.

OUTLOOK IS PROMISING

Constitutionalist Attitude Still Has Considerable Influence on Proceedings.

Niagara Falls, Ont., June 9.—The mediators today submitted to the Mexican delegates the counter-proposals of the United States Government for the pacification of Mexico.

Within a day or two the Mexican plan and the American plan will have been dovetailed into one, and a full conference of all parties will be called.

Final approval is not expected to be given by either party, however, as the mediators then will ask the American delegates to begin to ascertain the attitude of the Constitutionalists.

Should there be any new suggestions from the Constitutionalists, the United States Government will endeavor to arrive at a compromise with them.

A PLEA FOR HELP BY CHILDREN'S AID

Increase in Scope of Work Has Depleted Funds of London Society.

ANNUAL REPORT ISSUED

Twelve Hundred Children Were Placed in Foster Homes by Officers Last Year.

Copies of the 20th annual report of the Children's Aid Society were issued this morning, accompanied by a circular appeal for help, as the society is badly in need of funds to continue its work of rescuing and reclaiming children and placing orphans in good homes.

"Within the past year the work of the society has increased materially," said Secretary Joseph Sanders today, "and our funds have not. We are dependent largely upon our friends for assistance."

Scope of Work. In the year 1913 there were 6,000 children placed into foster homes in the province of Ontario and of this number 1,200 were placed out by the local society. Of these 1,200 children, taken mostly from dissolute parents, habitual inebriates or immoral environment, 88 per cent have made good.

Four Children Held For Homes. The society now has four Roman Catholic children, two girls and two boys, which it desires to place into Catholic homes. The girls are sisters and the boys are brothers. The girls are 7 and 9 years of age and the boys 3 and 5 years. Secretary Sanders said they were very desirable children, having rosy red cheeks.

HUMANE SOCIETY DOG TROUGHS APPRECIATED

Birds and Animals Quench Thirst at Little Tubs Placed Around City.

Adam McGuire, humane society officer for London, has placed out thirty dog troughs in the city so birds and domestic animals may have fresh drinking water during the hot weather.

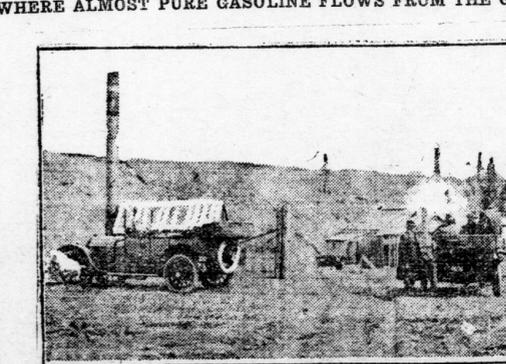

The society has received many compliments for this work and in front of private houses, where these troughs have been placed, it has been observed that birds and dogs alike use them to quench their thirst.

Wherever the troughs have been placed it has been with the understanding that they are to be kept filled with water during the summer.

SINCERE TRIBUTES TO SENATOR COFFEY

Londoners of All Creeds and Classes Mourn Death of Genial Statesman.

FUNERAL ON THURSDAY

Will Be Held From Late Residence to St. Peter's Cathedral and Cemetery.

On all sides from his fellow-citizens of every class and creed were heard this morning sincere tributes to the kind, congenial, great and noble spirit of the late Senator Coffey.

Some of the tributes follow: W. J. Reid—"I cannot speak too highly of Senator Coffey's influence as a man or of his efforts to further the interests of London.

Lieut.-Col. T. S. Hobbs, of the Hobbs Hardware Company—"I have known Senator Coffey for 35 years and always found him a man of sterling character, not only in his public, but in his private life also.

Frank Coles, Inland Revenue Department—"I worked with Tom in the old days when we were printers together. He was one of the best men I ever knew and he was always 'Tom' to the boys.

T. H. Purdon, K.C.—I have known Senator Coffey for more than forty years and have always found him a man of sterling character, not only in his public, but in his private life also.

Dr. H. A. McCallum—Senator Coffey was at all times optimistic and cheerful. During his long illness there was never a word of complaint heard from his lips.

F. F. Harper—I remember Senator Coffey when he was connected with The Advertiser. I can speak very highly of his character, straight to the point, his words carried weight, chiefly because of his earnestness.

Hon. C. S. Hyman—We have been friends for about forty-seven years. I was always an admirer of Senator Coffey for his practical business methods and unflinching tenacity.

Mayor C. M. R. Graham—I consider his death a great loss to the city and to the country.

W. J. Coles—I have known Senator Coffey all my life, and was always a great admirer of him.

Capt. T. J. Murphy—I have known Senator Coffey intimately for twenty-five years. He was a high type of citizen, always fair and generous.

Hubert Dignan, City Registrar—I have known him all my life. He has been the same in all that time, a model businessman, and a friend beyond description.

Wm. McPhillips—"I cannot speak too highly of Senator Coffey as a personal friend. He was always so genial and kind, it was a real pleasure to meet him.

GARBAGE CONTRACT COMES UP TONIGHT

Board of Control Furnishes Agreement So Council Can See Cost of Collection.

TO BUY NEW SWEEPER

Industrial Commissioner's Report Shows London Exhibit Made Hit in Toronto.

At a special meeting of the city council tonight the much-discussed traffic and public health bylaws in their amended form will be passed.

The board of control will submit a report containing the agreement between the city and Contractor W. J. Boss for the collection of garbage.

The agreement with Mr. Boss provides that he shall have a minimum of 18 men and 12 horses employed in the collection of garbage.

"Each man and horse per cart at \$3.50 per day of 9 hours.

The contractor is held responsible for all accidents occurring in connection with the work, and puts up a bond of \$1,000 as security for the performance of the work.

Street Cleaning Equipment. The council will pass upon a recommendation of the city engineer for 18 movement-cleaning handcars at \$6.50 each.

The board of control recommends the following tenders for coal as being the lowest: Brooks Bros., anthracite egg coal, \$6.85 per ton; anthracite chestnut, \$7 per ton; anthracite stove, \$6.85 per ton.

City Planning Reports. The council will receive the reports tonight of W. S. Ashplant, city engineer, and Gordon Philip, industrial commissioner.

This afternoon at 3 o'clock an inquest will be held over the body at Komoka. The body will be brought to the city afterwards.

Nelson is survived by his wife and a five-year-old daughter, Agnes.

Understood That City Will Proceed With Necessary Purchases.

GRACIOUS TRIBUTE

of which he was a permanent member, and in whose legislation at the time he took a deep interest.

A few days thereafter he was taken ill, returned to his home, and we were thus deprived of the services which he had rendered this body so acceptably many years.

He was a man most courteous and gentle in his demeanor and in his relations to his fellowmen and in the best sense of the term a high principled gentleman.

We convey to the sorrowing family our deepest sympathy in the loss they have sustained and in the bereavement which will rest heavily upon them through the death of one to whom not only his family but all who knew him were deeply attached.

Senator Bostock's Tribute. Senator Bostock—"I desire to add a few words to the eloquent and kindly remarks that have been made by the honorable leader of the Government, in reference to the death of our colleague, Hon. Senator Coffey.

All who knew Senator Coffey recognized in him an upright, honorable gentleman, who realized his duties to his country and to the community in which he lived.

He came here as a child with his parents, from Ireland, and most of his life has been spent in and around the city of London, where I presume he is better known than in any other part of the country.

Attached to Colleagues. "There he was very much respected by all who knew him, and was looked upon as an energetic and practical man of business, and was responsible for placing before this country a paper called the Catholic Record, which has established for itself a very strong position in the country.

To his colleagues in the Senate he was always very much attached, and was looked upon with great respect, and as a man who took a practical interest and did good and energetic work in this chamber.

As my honorable friend has mentioned, he took a very keen interest in the Catholic Mutual Benefit Association, about which he spoke very eloquently a short time ago before he went home, not to return to us again.

We all on this side of the House extend to his wife and family in their bereavement our most sincere sympathy and regret that we have lost in Senator Coffey a colleague whom we could ill spare."

Telegrams Pour in On Coffey Family

Letters and telegrams of sympathy and condolence poured in on the family of the late Senator Coffey today, and it is estimated that up to noon friends outside of the city had sent more than 100 telegrams of sympathy to the family.

There was no let up in the receipt of telegrams during the afternoon and messenger boys made frequent trips to the house with several telegrams on each trip.

RETURNS AFTER FUTILE SEARCH FOR HIS FAMILY

Howard McGachern Found No Trace of Wife and Three Children at Quebec.

Howard McGachern, of 754 William street, who lost his wife and three children in the Empress of Ireland disaster, returned to London last night disheartened and exhausted with his vain search among the rows of dead in the morgue at Quebec for the remains of his loved ones.

There were sixty or seventy bodies still there when Mr. McGachern returned home, but only one had been recovered within the past week.

Mr. McGachern will return to Quebec should the boat be raised or should any more bodies be recovered in the meantime.

Mr. McGachern's only remaining relative is a sister in Great Britain. He had intended returning to the old land himself about next Christmas, the intention of the family being not to return to Canada.

mangled, behind the engine after the car and locomotive had passed over it. That was the first they heard or saw of the accident.

The felt hat that Nelson was wearing was found afterwards, stuck in the couplings at the back of the flat car. It is supposed that his hat blew off after he had given the back-up signal; that he tried to recover it and was run down.

The train had only a few yards to go to pass the switch point when Nelson was standing. It was backing slowly. The engine, No. 1238, a medium type locomotive, was manned by Engineer J. Trackford and Conductor Ed. D. Plewes, both of London.

This afternoon at 3 o'clock an inquest will be held over the body at Komoka. The body will be brought to the city afterwards.

FEDERAL SQUARE WORK TO START AT ONCE

Understood That City Will Proceed With Necessary Purchases.

It is understood that the city will proceed at once with the purchase of properties required for Federal Square purposes.

The city's intention as far as possible is to secure the properties without going to arbitration, and it is possible that deals will be completed within a short time.

The residence of Lieut.-Col. Hobbs on King street is being torn down, and it is evident that the material will be used for other purposes by Col. Hobbs, who sold only the property to the city. The house was built as the Congregational Church manse during the pastorate of Rev. J. R. Dickson, D.D., of Galt. This would be about forty-five years ago.

Dr. Dickson was afterwards pastor of the Northern Congregational Church, Toronto, and during the past 30 years has been one of the leading ministers of the Presbyterian Church, being located at Galt.

LONDON SURVIVOR OF EMPRESS WILL TELL OF DISASTER

Major Morris to Recount Experience at Special Sunday Service.

Major Frank Morris, survivor of the Empress of Ireland disaster, and head of the Salvation Army in Western Ontario, will return to London on Thursday in company with Mrs. Morris and their two children.

Next Sunday evening Major Morris will take charge of a special service here, when he will recount some of his experiences in connection with the disaster. Arrangements are not completed for the service, but it will be held either in the Salvation Army Citadel or some larger auditorium.

Just how long Major Morris will spend in London immediately following his return Thursday is very doubtful. It is likely that a good share of his time may be required at the headquarters in Toronto for some time yet until the Canadian army more fully recovers from the severe reverse sustained in the loss of so many leading officers.

Major Morris' brother, Arthur Morris, has yet been found, and Major Morris will return to Quebec should any more bodies be recovered.

According to a telegram which came to Adjutant George Smith, acting divisional commander of the Salvation Army, this afternoon, Major Morris has left for his old home in St. George, Ont., where he will recuperate until he is able to resume his duties at the Empress went down.

MINORITY REPORT

ring it to the people. It was an attempt to influence the minds of the men present.

Spiritually Dead. Dr. Scott referred to the speech of Dr. Clark in moving the adoption of the majority report yesterday and credit him with the statement that: "If this union does not go on to completion, then the churches are spiritually dead."

There were cries from several parts of the church of "he did not say that." But Dr. Scott continued: "The spirituality of the church does not depend on its size, and the power of the church does not depend on its size, but on its spirituality."

Dr. Scott went on to say that, while the minority might be mistaken in its view it nevertheless was seeking earnestly for light, and was seeking it as fast and as far as it could see it, but it could not see that at present organic union was either necessary or desirable.

"We stand for no ancient ritual or creed," he added, "but for the furtherance of the work of God, and we believe that the truth of God finds expression in our church to at least as great an extent as it could under any other conditions.

Any Change the Question. "We are not two parties divided on the question of what change should be made when some change becomes essential, but on the question of whether a change should be made at all. Is not it the wisdom of men, under these circumstances, two parties see their duty differently to untiedly look upward for God's guidance, and to defer action until we can see without a doubt which way God would have us go."

"I hope and trust and believe that our people, even those who are in favor of union, do not favor the agitation which must result from pushing forward towards organic union at the present time."

The church found itself in a certain position both as to the state of the feeling of the people of the church and as to the work of the church.

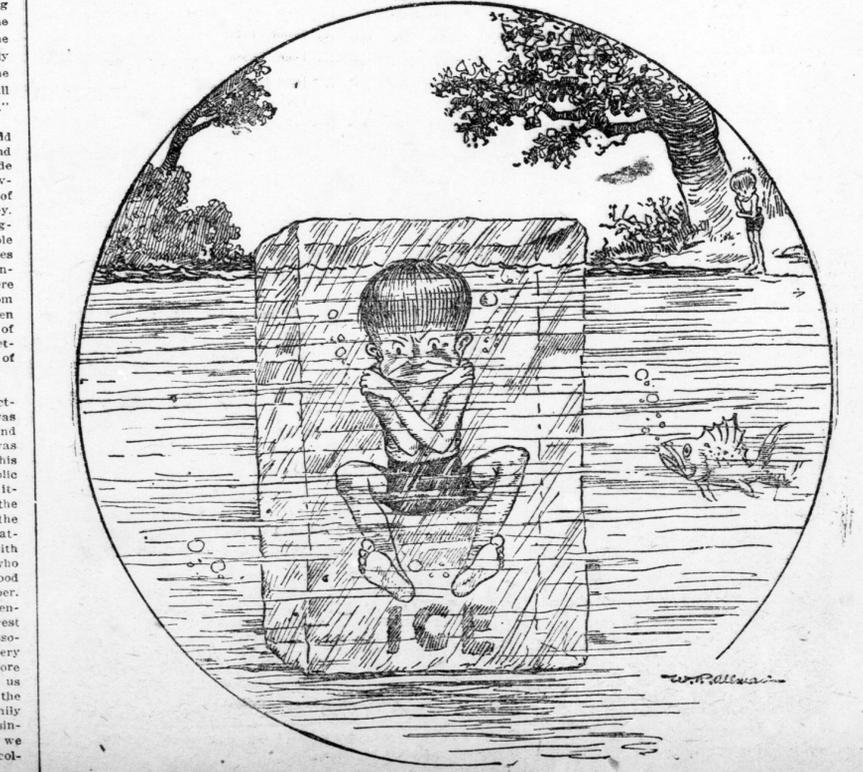

ANOTHER RAID ON MILITANTS' UNION

London, June 9.—Another raid was carried out by the police today on the premises occupied by the Women's Social and Political Union, the militant suffragette organization, where a thorough search was made for documentary evidence of the activities of the society.

The detectives succeeded in collecting a quantity of documents, books and letters.

No arrests were made.

Canada Has Set a Bad Example of Expensive Living

So Says President of Manufacturers' Association at Meeting.

HABITS TO BE UNLEARNED Business Demands More Attention to Economy, to Keep Prices Down.

Montreal, June 9.—With upwards of five hundred delegates present from all parts of Canada, the annual meeting of the Canadian Manufacturers' Association opened this morning in the Windsor Hotel and will continue until Thursday evening, when a banquet will be given.

Among the speakers at the banquet will be Right Hon. R. L. Borden, prime minister of Canada; Hon. G. E. Foster, minister of trade and commerce; Hon. Dr. H. S. Bland, former postmaster-general; Sir Thomas Shaughnessy, president of the C. P. R.; H. V. Meredith, president of the Bank of Montreal; and Sir Lomer Gouin, prime minister of Quebec.

Today was devoted to the registration of members and the delivery and consideration of the reports of the president, C. B. Gordon, Montreal; treasurer and secretary, and an address by Charles A. Dunning on modern agricultural problems.

A reception will take place at the Ritz-Carlton this evening, when visiting delegates will be entertained by members of the Quebec branch of the C. M. A.

In his address, President Gordon spoke with emphasis of the trade depression and its effect on Canada. He pointed out that rapid development of the country made heavy loans necessary, and much had been spent on various enterprises.

"If we are to get the full benefit of all these investments which we have been making, it must be from something more than the influx of agriculturists alone.

"In order to promote and develop that traffic which is necessary to make these lines pay, we must establish in those parts of the country through which they so manufacturing industries, suitable for the development of the resources of that particular part of the country, and thus get the full benefit of the capital expenditures which already have been made.

In my opinion there is nothing which will do more to increase the credit of this country in Great Britain than to let those people know that we are borrowing money, that our intention now is to devote our energies to placing upon a firm basis, the many undertakings in which money has already been invested.

In this connection I am prompted to remark that the prosperity we have enjoyed in recent years has been more or less artificial. To a great extent it has rested upon a solid basis of profitable production, but to some extent it has not.

Threatens Disunion. The general dilution of trade was indicated in the membership committee's report. The number of members in 1913 was only 35, bringing the total membership up to 3,643. No less than 46 of the resignations during the past year was due to liquidation or discontinuance of manufacturing enterprises.

H. W. Fleury, chairman of the Insurance committee, reviews at considerable length the history of the Central Canada Manufacturers' Mutual Fire Insurance Company, and the association's grievances with the Canadian Fire Underwriters' Association. Referring to the voluntary liquidation of this company, the report adds: "While never financially responsible for the Central Canada, the association allowed the company to be formed under its auspices. A forced assignment would have been expensive for mutual policyholders, and hurtful to the prestige of the whole organization, but a voluntary liquidation, with all the editors paid in full, gives ground for the hope that failure will never affect any enterprise backed by the C. M. A."

Touching on the question of fire prevention, emphasis is laid on the beneficial result of careful inspection by uniformed officers of the fire department. Statistics prove that following this system there is a marked decrease in the number of fire calls from the congested districts where the inspection is the most efficient.

Plenty of Business. Large sums of money have been spent rapidly, the chief object being seemingly to get things done no matter what the cost might be and without due regard to economy or to the overhead burdens which the increased cost placed upon the industry. Manufacturers during the past three years have had more business than they could attend to profitably.

Much To Be Unlearned. "We find ourselves handicapped for the time being by habits we have learned, which will have to be unlearned, and by methods we have become accustomed to, which will have to be abandoned. Irrespective of tariffs, taxes and freight rates, business kept forging ahead. We set for ourselves and for our work people a standard of expensive living, and none in the world. In these and other ways, our costs have become inflated as compared with the costs of competitors in other countries, with the result that our tariff no longer protects us to the same extent that it used to. I do not cite these conditions as an argument for higher protection, but rather as pointing to the necessity for more economical methods of production and development."

NO "U" APPOINTMENTS TILL PRESIDENT ARRIVES

The appointment of a number of new professors for various departments of the Western University is under consideration, but no appointments will be made before the arrival of Rev. Dr. E. E. Prathwaite, the new president, who is expected in the city about the first of August.

After consultation with Dr. Prathwaite, the appointments will be made.

A professor of physics is needed in the medical and scientific departments of the university and the need of several new professors in the arts department has already been recognized, but the board of governors will not take any further action in enlarging the faculty until Dr. Prathwaite arrives and his recommendations in the matter are received.

### Conservative Government Endeavoring to Forestall the Inevitable.

[Special to The Advertiser.]  
 TORONTO, June 8.—N. W. Rowell, leader of the Liberal party in the Province of Ontario, issued the following manifesto tonight:

"To the Electors of Ontario:  
 The Legislature has been prematurely dissolved, and the province has been put to the trouble and expense of a general election, not to serve any public interest, but to promote the political fortunes of the present administration. The signs of dissension and disintegration are everywhere manifest, and the Government prefers to take its chances now rather than a year and a half hence, when the public would understand the situation better. The important measures referred to by the Prime Minister in his manifesto are not controversial issues in the present contest.

#### Workmen's Compensation.

"The workmen's compensation act, after a year of delay, has at last been passed, though not yet brought into operation. It was passed largely through the pressure brought upon the Government by the Liberal members of the Legislature and the labor interests of the province.

#### Policy of Drift.

"We must not pursue the policy of drift in a country as rich as ours in natural resources, with the great production of wealth which we enjoy, if should be possible so to adjust our social and economic relations as to permit every honest, industrious toiler to earn as a minimum, sufficient to provide a home, to feed, clothe and educate his family properly and to lay by something for a rainy day. This is not possible to many today in our great centres of population, and the number will rapidly increase as our cities continue to grow, and as we face the situation and deal with it as patriots and Christians.

#### Good Roads Movement.

"The good roads movement was initiated by the Liberal administration, and the demand for a general province-wide measure was one of the planks in the Liberal platform at the last election.

#### Hydro-Radial Proposition.

"The hydro-radial proposals were first introduced into the Legislature by the Liberal opposition, who have been arousing the Government to take action. Hon. Adam Beck has always been a strong and enthusiastic advocate of hydro-radials, but that he had great difficulty in persuading his colleagues to move is known to everyone. We welcomed the Government's proposal, though it hardly brought down. We supported the Hon. Adam Beck's bill in the Legislature, and we pledge ourselves to promote the development of hydro-radials throughout the province.

#### New Ontario.

"In New Ontario we have a territory larger by half than either of the provinces of Saskatchewan or Alberta, and rich in natural resources. Its development and settlement constitutes one of our greatest opportunities and greatest responsibilities. Its settlement would bind together the East and the West, providing new markets for the manufacturers and businessmen of our cities and towns, and increased employment for our workmen and the food supply for the consumers of the province.

#### Financial Waste.

"We protest against the financial waste of the present Government, of which Government House serves but an illustration, while the Government last year cut down the grants to rural public schools 28 per cent. Education are the most important departments conducted by the present Government. In a province unsurpassed in natural advantages for mixed farming, and in a consuming population demanding more than a steady decline in our rural population, and a diminution in our food production. With the decline in the strength and vitality of the rural school and the rural church in many sections of the province. The whole question of rural life presents a problem of great magnitude and importance, which the present Government does not appear to be cognizant, but which we must face and help if we are to preserve our national strength and vitality.

#### Most Urgent Needs.

"Our most urgent need at the present time is a Minister of Agriculture possessing the qualities of leadership, with a thorough understanding of the agricultural situation and the courage and capacity to co-operate with the agricultural interests of the province in progressive movements and improve existing conditions. We promise, if

returned to power, to put at the head of the department the best man to be found in the Province of Ontario, whether elected at this general election or not.

"The Department of Education, under the present Government, has lost the confidence of the people. A Conservative newspaper has pointed out that the minister has his eyes on the ballot box, rather than on the schools of the province. If our educational problems are to be solved, if our educational progress is not to be further retarded, we must have a Minister of Education with modern educational ideals and with capacity and sympathy to work out the grave educational problems of this province. Our greatest difficulty arises, not so much from our laws as from the regulations of the department and the manner in which the minister administers them.

"We promise, if returned to power, to put at the head of this department the best qualified man to be found in Ontario.

"While our rural population has been steadily declining in the older counties of the province, our urban population has been continuously and rapidly increasing.

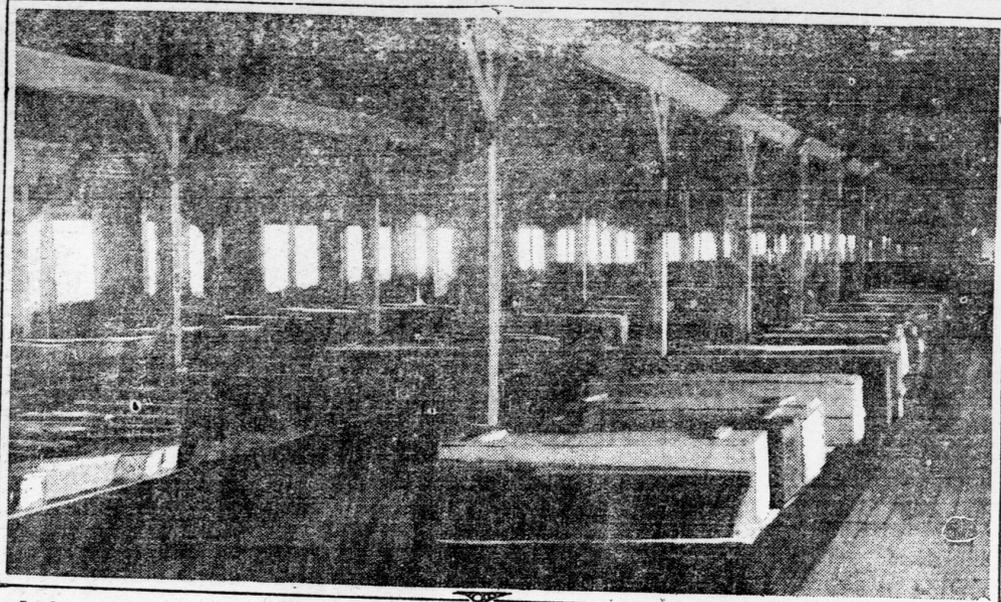

#### Problems To Be Faced.

"With the growth of our cities, we are compelled to face problems of the modern city in all industrial communities, viz., the growing richer, and the poor, poorer, a rapid rise in real estate values, making it exceedingly difficult for the workman to own his own home, and imposing a great additional burden upon the businessman; the inflation on real estate values, and tax upon the labor and industry of the future, which will weigh most heavily on those least able to bear it; insufficient and insanitary housing accommodations, congested areas, slum conditions, thousands of women and girls, who are to be the mothers of the next generations, employed in shops and factories, many of them under unsatisfactory conditions of employment, both as to hours of labor and wages and sickness and old age, without the resources to meet the latter; the blighting and destructive influences of the open bar, which tends to thwart every effort at improvement, and the social and moral degeneration which inevitably follows these conditions.

"We must not pursue the policy of drift in a country as rich as ours in natural resources, with the great production of wealth which we enjoy, if should be possible so to adjust our social and economic relations as to permit every honest, industrious toiler to earn as a minimum, sufficient to provide a home, to feed, clothe and educate his family properly and to lay by something for a rainy day. This is not possible to many today in our great centres of population, and the number will rapidly increase as our cities continue to grow, and as we face the situation and deal with it as patriots and Christians.

"Should we not, by sane and just legislation and administrative action seek to remedy the conditions which now exist and to prevent the further development of those social and industrial conditions which statesmen and

social reformers in other lands are so heroically endeavoring to solve. To this great task we promise to devote our energies, believing that the highest duty of public men is to seek to promote the health, to enlarge the opportunities and to increase the comfort and happiness of the masses of the people. We have presented to the Legislature and the people during the past three sessions, indicating the first reaching proposals, indicating the first steps to be taken along this line of progress. I shall not take space even to enumerate them all here. They deal with the settlement of new Ontario lands, the improvement of our educational and agricultural conditions, reform in land taxation, a department of labor, enlarging the opportunities of women to help us solve our problems, social legislation to improve the conditions of the workers, stopping the alienation of the public domain, and the extravagance and waste and expenditure of public money, and the curtailment of the liquor traffic.

#### Policy Before Electors.

"The following is the policy upon which we ask the electors to pass judgment: (1) The immediate abolition of the bar, including therein the abolition of all hotel and club licenses and therewith the treating system. (2) Such other restrictions upon the residue of the liquor traffic as experience may show to be necessary to limit its operations and effective to remedy its evils. Local option to be maintained and a means of wiping out the residue of the retail sale where the electors so decide. (3) The strict enforcement of the law by officials in sympathy with the law enforcement, and the elimination of political influence from the administration of the law. (4) The regulation and inspection of all houses of public entertainment, so as to insure reasonable accommodation for the travelling public.

"This policy means hotel liquor licenses, every one, wiped out. This means that liquor cannot be sold anywhere on the premises. Club liquor licenses, every one wiped out. Treating system abolished. Shops are dealt with, but in a different way from bars. (1) They will come under further restrictions. (2) They can be wiped out by local option on a majority vote where the electors so decide. (3) New shop licenses cannot be issued in the place of bar licenses abolished. (4) Note—in nine-tenths of the municipalities of the province there are at present no shop licenses. (5) In nine-tenths of the municipalities, therefore, our policy means the complete abolition of the retail sale of liquor. (6) The pledge I made in 1911 is now redeemed, and the responsibility rests upon the electors of this province to say whether the open bar shall continue in our midst or be forever wiped out.

#### A Further Pledge.

"I now make this further promise and pledge to you and to the electors of the province:  
 "If the electors express their approval of this policy by returning us to power in the next session of the Legislature, legislation will be enacted which will give full effect to the policy I have laid before you.  
 "The policy we propose is that adopted unanimously, irrespective of party affiliations, by the reorganized temperance and Christian forces of the province in the year 1902, and pressed upon the successive Governments of the province from that day to this.  
 Dominion Alliance Manifesto.  
 "In the manifesto of the Dominion Alliance preceding the general election of 1908, the following statement appears:  
 "We again affirm that the legisla-

tion which the situation demands, which public opinion will warrant and which the Legislature should do, is the abolishment of the bar-room, and the treating system, and drinking in clubs, and the imposition of such other restrictions upon the liquor traffic as would most effectively curtail its operation and remedy its evils. This was repeated in the manifesto of 1911. "That for which the organized temperance and Christian forces of the province have worked and prayed for years is now within their reach, and it rests with them to say whether the open bar shall be continued or forever wiped out. We are fighting the organized liquor interests and all the money and resources they can command. Now is the most critical hour in the fight. On which side will your vote and influence be cast? For the liquor interests and the open bar, or for the boy, the home, the church, the state? I believe the conscience of Ontario is against the open bar. To denounce. Every vote cast in this election is a vote for against the bar. Which will yours be? We are fighting your fight. We ask every man and every woman to do their utmost from now on until June 23, and if you do, the open bar in Ontario will be forever wiped out."

# Live in Lovely Lambeth → Sale Today Starts Today

There's a lot in knowing "which way the cat is going to jump." If people in great cities like Chicago, New York and others had known which way the growth of the city would trend, many of them would be millionaires today. In many a city, districts that only a short time ago were considered beyond reach of the city's growth are now the choicest suburbs. Lambeth is but 18 minutes' ride from the heart of London—the fare only 7 cents a trip, which will be further reduced as soon as population warrants. Many of London's businessmen are residents of Lambeth right now. First-comers in a movement of this kind always make the most money. Today starts the sale of a limited number of lots in

## Lambeth New Survey (THE CHOICEST LOCATION) IN LAMBETH

All lots front on Broadway Avenue, the fine wide thoroughfare which runs down the centre of the property. Lambeth New Survey will be a district of quiet streets, away from the smoke and dust, the heat and noise of the city. Here a man will enjoy real relaxation from the toil and cares of business life, and his family will benefit from the health-giving ozone, uncontaminated by factory smoke and fogs. Most lots measure 50 feet wide by 135 feet deep—ample room for gardening and chicken raising. Lambeth has excellent water, easy to get. This property has splendid drainage and commands a magnificent view on every hand. Contact on the line parallel with the property and only 100 yards away. The tax rate has been fixed at the very low figure of 10 mills. Hydrant will be available by October without fail, according to the statement of Hon. Adam Beck.

Lambeth right now is going ahead rapidly, and wherever one turns, building operations may be seen in active progress. Plan for a home of your own. Even if you do not intend to build now, you will do wisely to buy today and get a choice site, because lots in Lambeth New Survey will inevitably advance in price. The limited number to be seen means that late-comers wishing to buy will have to purchase from someone who secured a lot or two while they were still available.

**CONFERENCE URGES METHODISTS TO SUPPORT NEWTON S. ROWELL**

Resolution Passes in Hanna's Home Town, in Spite of Bitter Fight Put Up by Some Conservative Stalwarts Against It.

(By Staff Reporter.)  
SARNIA, June 8.—(1) Your committee finds reason for gratification in new temperance legislation, which, while conservative enough, is still in the right direction.

(2) "In view of the fact that we have been, and still are uncompromisingly opposed to the licensing of any evil,

"And, whereas the licensing of the liquor traffic involves partnership,

"And whereas the liquor traffic is one of the most pernicious of modern evils,

"And, whereas the licensed bar is the chief instrument in the propagation of the evil,

"And, in view of the fact that in the near future the electors of Ontario will have the opportunity by their ballot of closing the bars of this province,

"Therefore resolved, that this annual London conference most strongly urges all Methodists throughout its bounds, regardless of party affiliations, to cast their ballots in favor of closing the bar."

(3) "Inasmuch as the temperance people of this province have for many years been asking for the abolition of the bar, and, inasmuch as Mr. N. W. Rowell, K.C., leader of the opposition in the Ontario legislature, has, by making the abolition of the bar the chief plank of his platform, completely estranged the whole liquor interest from his banner, and thrown upon us the responsibility for its continuance, we deem it the duty of all Methodists, and of all Christians of all temperance people, to support this policy, which is undoubtedly the most far-reaching temperance legislation that has yet been offered us."

**Tory Stalwarts Objected.**

The London Methodist Conference this afternoon passed the above resolution, but not without a fight. A "thin, red line" of Tory stalwarts fought the issue to the last ditch, introducing amendments and amendments to amendments, and moving to strike out clauses, then to strike out phrases, then words.

They professed non-allegiance to party, urged that their efforts were bent toward an elimination of party politics in the issue, and got off some hotter points at argument than the chamber of the Ontario legislature has echoed with for some time.

It was stated that there was insincerity behind Mr. Rowell. The leader of the opposition was accused of not having shown any zeal for the temperance cause during the Ross regime, statements that were warmly challenged, while the speakers were called to order. And while the debate waxed furious and defenders of the present administration were hotly denying any alliance with the liquor traffic on the part of those who instituted the three-fifths clause, hoary-headed reverend gentlemen were having it hot and heavy on the bench, and plunging their fists into hazy "neighbourly" noses, shouting, "The resolution is Grit."

**It Was Warm.**

"No, I tell you it is independent."

"That amendment is Tory."

"No, it's independent."

It was the wildest scene that has been enacted in the London Conference in years, if ever.

The president, Rev. Geo. N. Hazen, of London, had great difficulty in keeping order, but with remarkable self-control he held down this super-heated conference, and got all the votes taken on the multitude of cross-counters through with, and left all satisfied.

The sentiment in favor of the abolition of the bar was unanimous. The anti-liquorists professed their allegiance to the principle, but it was the politics that split them.

**Editor Dingman Led Attack.**

The attack on the resolution was made by W. S. Dingman, editor and proprietor of the Stratford Herald. He wanted the whole resolution struck out, and one substituted which would pledge the conference to the abolition of the bar, provided that "this conference does not judge the consciences of individuals as to their choice of methods to attain this end."

His resolution stated that "respect must be paid to varying opinions of honest men on a difficult question, so long as the pursuit of the objective is sincere, hearty and sustained."

Mr. Dingman said he must protest against any resolution which would appear to place one party ahead of another. He said there was an element in the Conservative party that had no identification with the liquor traffic. Sir James Whitney's party included men who were prominent Methodists. The Conservative party was not going to be driven into the arms of the liquor traffic, though Mr. Rowell had endeavored to make it appear that they were already there.

Cries of "Question" came in a roar from all parts of the audience. But Mr. Dingman, unheeding, continued with raised voice: "It is a question whether Mr. Rowell can deliver the goods."

Cries of "Order! Order!" stopped the speaker, and the president's gavel thundered.

**Insincerity Behind Rowell.**

Mr. Dingman persisted, and flung out the words that there was insincerity behind Mr. Rowell.

"No, no; take it back. Order, order," shouted the throng.

"This man is not speaking to the motion."

"He must withdraw that statement," shouted Rev. W. H. Pomeroy. "We will not permit him to say that there is insincerity on the part of Mr. Rowell."

Mr. Dingman hesitated, but he thought Mr. Rowell was sincere, but he might have shown more zeal when he had an opportunity behind the late Sir George Ross.

And in Mr. Hanna's Town.

Rev. Mr. Knight jumped to his feet, and hotly arraigned the Stratford layman for indulging in personalities and dragging politics into the conference to a day.

**MRS. PANKHURST'S ARREST AT KING'S PALACE**

"Tell the King I'm arrested!" When Mrs. Pankhurst, leader of the militant suffragettes, made that famous remark, a few days ago, she was being carried in the arms of a burly policeman to a patrol wagon. "Arrested in the precincts of the palace!" was her exultant cry when carried off to jail. She had just led an assault on the gates of Buckingham palace, London—one of the most daring enterprises ever attempted by the militants. The picture was, happily, obtained by a lucky photographer just as Mrs. Pankhurst cried out her defiance, grasped tightly by the policeman, with her feet off the ground.

**HUNTING COAT, USED AS FLAG, PREVENTS WRECK ON C. P. R.**

WOODSTOCK, June 8.—Ed Dutton by his timely action averted what threatened to be a serious wreck when he flagged a freight train on the C.P.R. early today.

Dutton, with others who had spent Saturday and Sunday at Pine Pond, was on his way home, and in crossing the C.P.R. tracks at the corner near the sixteenth line and fourth co-operation of Blandford, found a large portion of the track washed away by the storm.

After holding a short consultation to consider what was the best thing to do, they decided to stand on the track and waving his hunting coat, the trainmen quickly got in touch with Woodstock by use of the emergency telephone. The train backed into the city, and a gang was sent out, and the necessary repairs made.

The storm had kept Dutton out at the pond and the party would have been home much sooner, and the train would have run into the washout.

The hail and electric storm last night, after the cyclone, caused considerable damage in the vicinity of this city. At the Glen Farm, owned by E. W. Nesbitt, near Innerskip, lightning struck the barn, and was carried down the lightning rod to the ground at the time when the manager of the farm and his assistant, a young man by the name of Weir, were in the building. Weir was knocked off his feet. A second flash of lightning brought every cow in the stable to its knees. No damage was done.

**Big Barn Burned.**  
At Princeton the barns and stables belonging to Noah Smith, on the old Evert Farm on the Governors road, were struck by lightning last night about nine o'clock, and destroyed. Mr. Smith himself was in the stable at the time, and was temporarily affected by the shock. He was speedily removed from danger, and soon recovered.

The contents included a threshing machine and some household furniture.

**Nerves Were So Bad THOUGHT SHE WOULD GO OUT OF HER MIND.**

Diseases of the nervous system are very common. All the organs of the body may be sound while the nerve centres may be affected.

Many women become run down and worn out by household cares and duties never ending, and sooner or later find themselves with the nerves shattered, and the heart action weakened.

Either the first sign of any weakness of the heart or nerves, flagging energy, or physical breakdown, do not wait until your case becomes hopeless.

Milburn's Heart and Nerve Pills will at once quieten the nerves, strengthen the heart and build up the entire system.

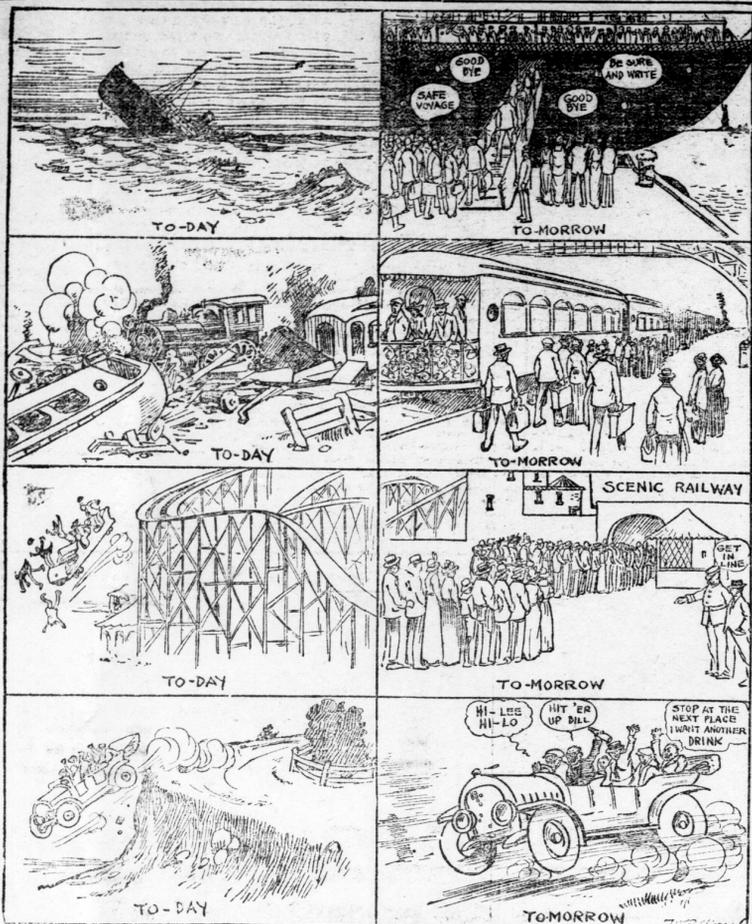

Mrs. Archie Goodine, Tilley, N.B., writes:—"When I was troubled with my heart two years ago, I was very bad. My nerves were so unstrung that sometimes I would almost go out of my mind. I doctored myself with everything I could get, until at last I got four boxes of Milburn's Heart and Nerve Pills, and they have cured me. I cannot speak too highly of this wonderful remedy, and will recommend it to all sufferers."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Impressions of the Assembly

BY SKY PILOT.

It strikes me there'll be no union this time. The minority has so much of that admirable Presbyterian quality, known as "dogged stubbornness," that no compromise is likely to be considered. But, like home rule, it will come with the mellowing of time. All progress is spiral. You come round to the same point again after a lapse of years, only you are higher up then and your outlook is wider. The thoughts of men will widen with the processes of the sun, but there's no use trying to beat the sun. We wish sometimes goodness would hurry, but goodness is not panicky; it has its own schedule. The little cool, curly-headed convenor of the union committee deserves the thanks of the church for his steady and sane behavior in a most trying situation. You can tell the Clark's, both the Montreal and Calgary man, at a distance. They have the hump in the back and the intellectual hump in the front. Sympathetic, intellectual, spirituelle, they are loved and trusted by the whole church. I'm afraid we will have to go to the Methodist church, as Gavin Birse went to Mag Lowrie, and ask shamefacedly, if the fair lady will "let us off" this time. As we sorrowfully take up again the lone furrow, we hope to hear from these great churches the kindly refrain "Will ye no cam back again?"

United States Delegates to Congress Hear Words of Appreciation From Mr. Page.

[Canadian Press.] London, June 9.—The American delegates to the world's congress of the Salvation Army, 700 strong, with Miss Eva Booth, chief of the army in the United States, at their head, and accompanied by three bands, marched this morning from the army headquarters in the city of London to the American embassy in Victoria street, where they were reviewed by Ambassador Page. Mr. Page afterwards received Miss Booth and the leading officers of the delegation, to whom he expressed his keen appreciation of the appearance of the delegates, and of the work of the Salvation Army. Miss Booth thanked the ambassador on behalf of her comrades.

A DELAY IN GETTING BODIES FROM EMPRESS

Special Equipment Has To Be Procured From England for Work.

[Canadian Press.] Rimouski, Que., June 9.—A delay of over a week in raising the bodies now lying in the sunken hull of the Empress of Ireland was decided on today by William W. Weatherspoon, the salvage expert retained for the Canadian Pacific Railway for this work. Equipment of an elaborate nature must be brought out from England before it would be safe to undertake the task, which has been made very difficult by reason of the depth of water above the wreck, and its coldness.

Britishers Will Exhibit at Panama

[Canadian Press.] New York, June 9.—Great Britain will exhibit at the Panama-Pacific Exposition, unofficially, if the United States provides the space and pavilion, according to W. A. M. Goode, secretary of the English committee, which has vainly urged the British Government to participate. Mr. Goode spoke at a dinner of the British Schools and Universities Club, last night. He said the action of the Government did not represent the sentiments or wishes of the British capital.

DR. GRANT IS ANNOYED AT SUGGESTED CRITICISM OF HOME MISSION BOARD

Takes Issue With Dr. Somerville—Work of Sabbath Schools and Young Peoples' Societies and Religious Education Discussed At Assembly

(By Staff Reporter.)

WOODSTOCK, June 8.—A heated protest at what he regarded as a criticism of the policy of the home mission board by Rev. Dr. Somerville, the treasurer of the Presbyterian Church in Canada, in the course of his explanatory remarks incidental to the presentation of the auditors' report, was made by Rev. Dr. A. S. Grant, chairman of the home mission board, at the afternoon sederunt of the Presbyterian General Assembly in Knox Church.

Dr. Somerville had drawn attention to the fact that the salaries had shown a deficit at the end of each year for several years past and advised caution. The estimates for the present year, he pointed out, were \$1,400,000 and he decried what he considered an extremely gratified \$1,900,000 was received. The home mission board was making continually increasing demands on the budget, and he suggested that, in view of the financial stringency which existed, payment of the salaries of missionaries out of the church funds, instead of being guaranteed, should be made conditional on the state of the budget.

Dr. Grant protests. "Dr. Somerville has no right to comment on the financial policy of the home mission board in presenting his report," said Dr. Grant. "His criticism fills me with disgust. If there is need of retrenchment, and I put no faith in this talk about stringency, I would suggest that the salaries of the officers be made conditional, instead of those of the men doing the work out at the outposts. "It is true that we are making increasing demands on the budget, and our demands are going to continue to increase. If any criticism is to be made, let it be made in the committee room, not on the floor of the House. Plenty of men will lose heart and drop out without encouraging them to do so by remarks such as Dr. Somerville has made. "If we must economize, let us research on the extent of our work, not on the salaries, which mean bread and butter to the men who are doing that work." Dr. Somerville, in reply, declared that he had not intended a criticism of the home mission board's policy. He had merely stated the facts.

Change in System Expected. A commissioner who rose to second the adoption of the report, called attention to the fact that, whereas the receipts were given for twelve months, the disbursements were shown for only part of the year, in some cases nine months, and in others ten months. The period should be the same in each case, he argued, so that the church would know just what the financial condition was. Dr. Somerville explained that while the general church year ended on the 31st of December, some of the boards were allowed until Feb. 28, and others until March 31, to make their returns. It had been decided to standardize the financial year, making it end Jan. 31, and as a start had to be made some time, it had been decided to make it this year. For that reason the books had been closed before all the returns were completed. The report was adopted.

The report of the finance committee, Eastern section, presented by Judge Forbes of St. John, N. B., showed a highly satisfactory condition of affairs. The total receipts for the year were \$13,204,32, being \$10,255.44 more than in the preceding year.

Young People's Work. A number of important recommendations were submitted by the board of Sabbath schools and Young People's Society and were adopted. They were: First, that through our Sabbath schools we should earnestly seek to reach the last boy and the last girl for whose religious instruction our church is responsible, and through

organized Bible classes and young people's societies we should aim to have all our young people in training for larger service.

Second, that in view of the fact that so large a proportion of the boys are being lost to the church, ministers and all religious workers be earnestly charged to make a special study of the needs of boy life, and other like movements on their behalf.

Third, that all our Sabbath schools and young people's societies be encouraged to adopt the missionary policy outlined in this report and to do their utmost to contribute their full share of the budget apportionment for their respective congregations.

Fourth, that we approve of the Presbyterian Church in Canada having representation on the new international Sunday school lesson committee, and that Rev. J. C. Robertson, general secretary, be named as such representative.

Should Reach All. Speaking of the first recommendation, Rev. A. MacGillivray, of Toronto, declared that it was not sufficient to be able to say that the very great majority of the young people had been reached. The object should be to reach every boy, girl, young man and young woman not already connected with some Sunday school.

Taylor Station, Toronto, head of a boy's work department of the Y. M. C. A., gave a splendid address in support of the second recommendation. Statistics which had been gathered, he said, proved that the decision period in the life of a boy or girl, the period when the decision for a life of Christianity or the reverse, was usually between the ages of 14 and 18, and that this period was the one in which the influence of parents and of the church were at their lowest ebb. The most potent influence in the life of a boy or girl between the ages mentioned, he continued, was "the gang," and he suggested reaching the young people through these gangs by training young men as "gang leaders," who would lead the boys to a right way of living. The missionary policy recommended in the third clause was championed by Rev. Charles Myers, assistant secretary of the Y. M. C. A. department of young people's work.

Religious Education. The final report of the commission on religious education was presented by Rev. W. J. Knox, of London. Mr. Knox deplored the fact that only 50 per cent of children in their tens attended Sunday school, and went on to say that the figures were appalling when the fact that 70 per cent of church members are graduates of Sunday schools was realized. An investigation conducted by the commission had revealed the fact that the rising generation was terribly ignorant as to spiritual matters, and Mr. Knox added that great difficulty was experienced in securing able men to teach Sunday school or to act as Sunday school superintendents. He stated also that family worship was found to be conducted in only 20 per cent of the houses, and ascribed to this the fact that so few young men are entering the ministry. The reading of suitable books would do much to head the young people in the right direction, and list of books recommended by the commission was given.

The speaker deplored the fact that so much more money was being spent on church buildings than in Sunday schools. He believed that proper religious instruction for boys and girls was one of the most important phases of the work of the church. He also thought that the Sabbath schools should co-operate to a greater extent than they are doing with the day schools in the matter of teaching religion. The adoption of the report was seconded by Rev. W. R. McIntosh, of London, who spoke in glowing terms of the work done by Mr. Knox as a

member of the commission, and was asked to endeavor to have this minimum in operations at the earliest date practicable.

Board of Missions' Report.

The report of the western board of missions shows 96 new mission fields to have been opened during the year and 61 new charges placed on the augmentation fund list. During the year 22 augmented charges reached the self-sustaining stage. As a result of the action of presbyteries and co-operation committees, 61 mission fields were dropped, merged, or ceded to the Methodist Church. In the London and Hamilton Synod there are now 38 augmented charges and 12 mission fields, the total number in all the synods being 238 and 575 respectively.

Mission work among the Jews is carried on extensively in Toronto and Winnipeg. The churches have 50 other non-Anglo-Saxon missions in Canada as follows: 23 Ruthenian, 4 Hungarian, 6 Italian, 2 Hindoo, 4 Finnish, 2 Bulgarian, 1 Syrian, 1 Russian and 1 Persian. The Greek Church with 19 ministers, received at the last General Assembly of the Presbyterian Church, is reported as making steady progress. The report refers to the difficulty of non-Anglo-Saxons.

Work Among Indians. Work among the Indians chiefly in Saskatchewan, Manitoba and Vancouver Island, is favorably reported upon.

The Women's Home Missionary Society reports total receipts amounting to \$71,001.36, an increase over last year of \$10,000. During the year 121 new societies were organized. The total membership is now 24,580, an increase of 2,000 for the year. Medical, hospital, and educational branches of the society's work are all favorably reported upon. The Eastern Townships organization of the three women's missionary organizations of the church, the Women's Foreign, the Women's Home Missionary Societies, and the Women's Missionary Society of Montreal.

The report of the district superintendent of the Synod of Montreal and Quebec reports a decreased membership in the Eastern Townships, owing to the advance of the French population, but in Montreal so wide a field of work that more missions, churches and workers are sadly needed.

Cause Annoyance.

Roman Catholic Church levies and claims on property sometimes are a source of much annoyance to Protestants, one of whom sold his property to a French-Canadian, receiving only a small part of the price in cash. Soon afterward a levy in 20 annual installments was placed on the property for a new Roman Catholic Church, and the new owner refused to pay the cash, but to lose the cash payment than hold the land. The Protestant former proprietor, holding a first mortgage, found the church claims foremost, and had to pay the 20 annual church levies before he could clear his property.

Reference to the Catholic schools of Quebec Province are made as follows: The statistics of the Catholic schools of the province show that out of 77,282 entering in 1908, 62,231 had dropped out in the first four years of school life.

The use of the Roman Catholic Church makes of these schools may be seen also in the nature of the teaching that is done there for the church. Here are some of the questions and answers of the Catechism regularly taught as part of the school exercises:

"What is the Church Jesus Christ has established?"

"It is the Catholic Apostolic and Roman Church."

"Can one be saved outside of the Catholic Apostolic and Roman Church?"

"No, outside of the church no one can be saved."

"These are for the primary class. Then for more advanced scholars."

"Do you believe that the Holy Church, Catholic and Apostolic, is the only true church in which but one baptism is given and a true remission of all sins?"

"I do believe."

"Do you reject and anathematize all heresies against this Holy Catholic Church?"

"I anathematize them."

"Many Protestant children are obliged to attend these schools owing to the fact that there are no Protestant schools within their reach, and though they are not compelled to take these classes, they learn this teaching by hearing the constant repetition of it in class."

Favorable Reports.

Favorable reports are made of the work in New Ontario. Co-operation with the Methodist Church is preventing loss of time, money, and church energies through overlapping. Reference in the reports of the western synods is made of the Synod of the Maritime Provinces, as per the financial statement. It will be seen that there is a credit balance of \$1,222.96 at the end of the year. In other words the receipts have been \$1,177.58 more than the expenditure.

An extract from the report of the augmentation committee (eastern section) is not quite so satisfactory.

The revenue for the past year totalled \$11,279.25, of which \$531.96 came as a balance in the treasury from previous years, \$688.29 from interest, donations and repayments, and \$10,059 from the congregation. The total disbursements amounted to \$11,583.80, leaving a debit balance of \$574.45. Two years ago today we had a balance in the treasury of \$2,558.37, which shows that during the past two years the disbursements overran the revenue by \$8,160.22."

The committee appended to its report the following recommendations:

That the assembly receive and adopt the report of the committee and sanction the supplementary and annual grants therein named.

That the minimum stipend in the Maritime Provinces be \$1,000 and a manse or free house.

That augmented congregations shall give a stipend of not less than \$600 per annum and a manse or free house, or \$50 per annum in lieu of manse or free house.

That such congregations shall contribute to stipend at an average rate of not less than \$5.50 per communicant, or \$11 per family under pastoral oversight where the number of communicants is greatly in excess of, or proportionately lower than, the number of families aforesaid, the degree of such excess, etc., to be left to the judgment of the committee.

That the adoption of the weekly envelope system for congregational revenue be a condition to receiving aid from this fund and that the adoption of the same for the schemes of the church be effected as soon as practicable.

That in no case shall a grant exceed \$400.

That the synod, presbyteries and con-

gregations of the Maritime Provinces be asked to endeavor to have this minimum in operations at the earliest date practicable.

W. H. SPENCER, Convener. E. A. MCCURDY, Secretary.

Foreign Missions Committees.

The report of the foreign missions committee shows receipts of \$71,481.20, an increase for the year of more than \$4,000. Interesting and greatly encouraging reports are made from the work in the New Hebrides, Trinidad, British Guiana, Korea, North Formosa, North Honan, South China, Central India. Aggressive missionary work among the Chinese in Canada is also reported upon. Work is carried on in Victoria, Cumberland, Vancouver, Winnipeg, Toronto and Montreal.

Dominion-Wide Campaign.

A Dominion-wide campaign in the interests of more and better Sabbath Schools and Young People's Societies was decided at a conference of all independent churches immediately after the June General Assembly last year.

Some of the features of the campaign will be enrolling all those persons not already enrolled, helping all schools and societies to understand and attain the approved standards of excellence. Young people will be urged to attend the regular church services. The need of missionary recruits will be explained before the young people.

Series of meetings have been held in every presbytery in the Dominion. These have borne important results by the religious instruction and training given the young people.

Work Ineffective.

Work of instructing the young people has been ineffective so far, because of the scarcity of teachers. Teachers' training classes are being organized in connection with Sabbath Schools and

Young People's Societies. They are making steady progress. The system of promoting the work is being carried out by reading courses, summer schools, winter evening classes, normal schools and theological colleges.

Great progress has been made in uniting the Young People's Societies and their work. No attempt has been made to bring them under one type or style of organization. The topic card, however, has made them think that they have a great deal in common in their work.

Religious training of the young is emphasized by Rally Week. Children's Day and Young People's Day have been combined into one Rally Day, the last Sunday in September, with additional meetings through the week.

The main feature of Rally Week will be a Sunday morning service for the instruction of young people, rally of all departments in the afternoon, and the evening devoted to the interests of the young people's organizations. An evening during the week will be devoted to a social gathering of the young men and women in the church at a banquet or similar affair. One evening will be given over to a rally of the boys of the church, including them in some organized effort in church work.

Duplex Envelope System.

The children and young people will be asked to provide \$250,000 of the total missionary budget. All the members of the Sabbath Schools are encouraged to the use of the duplex envelope and used uniformly, either in Sabbath School or church service.

The total number of Presbyterian preaching stations are 4,914. There are 3,174 Presbyterian schools, a gain of 15; 430 union schools, a gain of 5. This makes a total of 3,604 schools, a gain of 20. Officers and teachers have in-

creased 1,585 in number, with a total of 29,200. Scholars not including Bible class, 200,725, a gain of 10,928. Scholars in Bible classes total 62,649, a gain of 5,747 over last year.

Statistics for the Young People's Societies show a total of 1,051, a gain of 231. The number of Y. P. S. C. E. is 375, a gain of 94. Presbyterian Guilds number 363, and have gained 171. Other organizations number 313, and have lost 34.

A. MacGillivray and W. R. McIntosh, joint conveners, recommend that the last boy and girl be reached in religious instruction. Ministers should be charged to make an earnest study of the boys' needs, and to take advantage of the older boys' conferences and similar movements. Rev. J. C. Robertson was named as a representative to the new International Sunday School Lesson Committee.

The Record Committee reported the receipts of the year to be \$22,430.17, including a balance of \$5,950.00; with a total balance of \$3,020.00 at the end of the year.

Issue of 5,800 Copies.

The regular monthly issue for the year was 65,000 copies, an advance of 1,000 copies for the previous year.

The increase of circulation in the various publications was reported by the Publications Committee to be greatly increased. During the year about twelve million copies of Lesson Helps and illustrated papers were sent out. The report stated that new and helpful things for workers in all departments are continually being evolved.

The Presbyterian Year Book, begun in 1911, is being published at a loss, with an annual decrease in circulation. It will be continued for another year. Net cash receipts for the year were \$188,256.21, an increase of \$16,742.58.

The expenditures were \$127,087.97. Cash balance on hand is \$9,400.67. Total assets are now \$40,523.96, greater than it has ever been before in the history of the publications.

The sale of the Hymnal, or Book of Praise, was reported as steadily increasing. There were 97,598 copies sold last year. Royalties received were \$3,851.46, \$104.48 greater than the previous year.

The Book of Praise, in accordance with the instructions of the Assembly last year, is being revised. Nearly all the Psalter and Hymnal collections have been examined and much progress has been made.

A committee on the Church Praise was instructed to devise a means for advancement of praise throughout the church. A beginning was made at the summer schools at Goderich and Geneva Park. Rev. Alexander MacMillan was recommended to the General Assembly to represent the committee in advancing the interests of praise in the church for a period of five years.

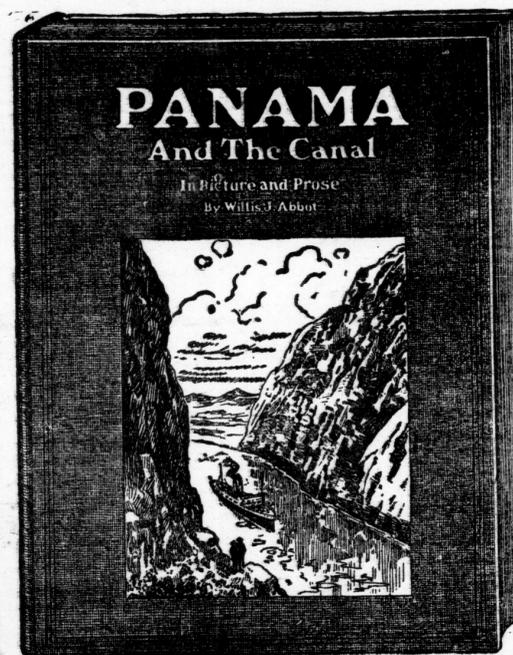

The Committee on Aids to Devotion and Public Worship reported the work of preparing the book for family worship as being a great hardship. Four of the members in the work had been ill and added to the work. It is now nearly completed. It consists of three main divisions. The first contains fourteen services arranged for morning and evening devotion for a week. The second is a number of additional prayers for morning and evening worship, and the third is made up of short occasional prayers.

Arranges Delicacies and Bouquets for Shut-Ins and Invalids.

Today, June 9, is Flower Mission Day in the W.C.T.U., and members of the "Y" branch have been busy all day arranging flowers for bouquets which are later to be taken to shut-ins and invalids in many parts of the city.

By noon today a quantity of garden blossoms, including spring, peonies, honeysuckle and many others, had been taken to the W.C.T.U. hall at 432 Park avenue, and all will be distributed before night.

On Saturday afternoon the young ladies held a most successful picnic at Springbank, when about 100 were present, including besides members, many of the students who attended the educational classes during the winter.

HIGH-CLASS WALL PAPERS We have just placed on exhibit for the first time this season a range of the finest and most artistic Wall Papers produced.

Mankind used messenger boys or even ran his own errands until he found out the telephone would do all this for him.

There may be a better way of doing some things that affect your daily life and you not know about it.

You may be pretty well pleased with your present Laundry Work: But there may exist much better work and much better service without you knowing it.

We want to tell you a few things about OUR expert Laundry Service and let you judge for yourself.

We finish all your shirts by hand and many of them we launder by hand entirely.

We put a soft velvety finish on all your garments—they feel good when you "slip into them."

We never send out a collar with rough edges to "saw" the neck.

We neatly mend all garments needing it and sew on all missing buttons.

We send your shirts home enclosed in individual wrinkle-proof wrappers that prevent them from becoming soiled or "mussed" in your suitcase or drawers.

If you are not getting this kind of a Laundry Service you're missing a pleasure that might as well be yours—it costs no more than you're paying now perhaps. Let us do your Laundry just one time. The masterly way in which we launder your first bundle will win you immediately.

Phone 3881 or 3882 now what day our white wagon may call for your first bundle.
