IN COURT OF JUSTICE

Joseph Cram And His Associates Charged With Turkey Stealing

COME UP AT SESSIONS

Joseph S. Cram came up before Judge Dowlin this morning and elected to be tried before a judge with no jury, and was remanded until the second day of the sessions. He is charged with stealing turkeys in the Township of Howard. He pleaded not guilty.

On the 21st of November ten turkeys were stolen from the farm of Joseph S. Cram, of the Township of Howard. In the morning of the next day, fresh tracks of a team of ponies without any shoes were found at the gate and also the tracks of a man walking in from the tracks of a man walking in from the gate to the turkey coop. There were also tracks of two men found between the coop and the shanty in which Cram lived. The ponies were tracked to Bothwell, and a day or two after, ten turkeys were offered for sale to a butcher in Bothwell by a man named Clinger-Smith. Cram, Clinger-Smith and Murray have all been arrested, and they had their preliminary hearing before Justice of the Peace Ingalls, of Thamesville. They were at that time committed for trial. Clinger-Smith and Murray are out on bail for \$500 apiece. Cram could not get bail.

James Brethune, of Windsor, was brought to this city last night, where he is charged with stealing a raincoat valued at \$12 from a man named McDonald, and a watch and chain valued at \$35 from another man. He was brought up this morning in the Police Court and pleaded guilty. He assisted in the recovery of the property and paid all expenses in the case. He was let out on suspended sentence.

Four little colored boys came up in the Police Court this morning for running away with a horse and buggy belonging to James McGeachy. The boys wanted a ride and quietly took the outfit. They were caught as they were tying it up again. Three of the boys were at that time with a warning, as they claimed that the other boy took the horse and rig and invited them to have a ride. The fate of the fourth boy is not yet decided. He is at present locked up in the Police Court cells.

Ed. Moran, of Tilbury, was up in the Police Court this morning charged with being drunk. The magistrate allowed him to go with a fine, as he is an old pensioner of the British army. He has served in all 21 years under the British flag.

RUNAWAY LOCOMOTIVE

Winnipeg, Nov. 30.—Three men were killed and four injured in a railway accident yesterday afternoon in the Canadian Northern yards. One of the victims was William Neil. The other two men killed are foreigners.

An engine was being put in readiness to take out a freight train, and the engineer and fireman had stepped off, when it is supposed the throttle blew out, and the monster started off at a terrific pace, ran into a switch and crashed into a dead train on a siding, on which a number of men were unloading supplies.

The jar threw a concrete mixer the full length of a flat car, almost instantly killing three men and seriously injuring four others.

PROBATES GRANTED

Probate of the will of the late Edmond Arnold, of Chatham, has been granted to Georgina Arnold. Probate of the will of the late John McBrayne, of Howard, has been granted to Susan McBrayne. Probate of the will of the late W. L. G. Snell has been granted to Sarah and C. Alvin Snell. Probate of the will of the late Stephen Johnson, of Ridgeway, has been granted to Edward Bryan and William Simpson.

NOVEL INVENTION

Mr. Wright, an English architect, recently arrived in this country, who has taken office in the Scane block, is about to patent a window sash which he claims can be used on any building. This sash, by means of a novel and simple device, is so constructed that the window can be reversed in a moment's notice, so that the interior of the building, thus dealing away with the danger at present experienced in cleaning windows in upper stories. With the Wright patent, the whole window can be cleaned from the inside.

OIL IN RALEIGH

It was reported yesterday afternoon that oil had been struck in the Chatham and Tilbury Oil and Gas Co.'s well on the Parsy farm in Tilbury. Mr. McCallum was out to the well yesterday afternoon to see what truth there was in the report. He said this morning that no oil had been struck. The drillers are now down to a depth of 1,200 feet, and they intend to drill about 200 feet deeper.

Quite an important strike was made yesterday on Mrs. Finn's farm on the fifth concession of Raleigh. This well is three miles east of any other paying well and is the farthest north of any of the wells.

A FINE HOSPITAL

The Lacrosse Sunday Chronicle, published in Lacrosse, Wis., contains a column write-up of the Lutheran Hospital, of that place. Miss Kate Wemp, formerly of this city, is the superintendent of the hospital, which is one of the most modern equipped in that state.

There have been admitted to the beds in the hospital during the year 1905, 781 patients, making the total of 13,341 hospital days. This is 1,338 more than last year. The number of discharges taken for the year is 195, number of treatments given, 375. Many times the capacity of the beds has been taxed to the limit, as may be noted by the surgical report, and surgical work still increasing with results that have been eminently satisfactory.

MUTINY ON WARSHIP

Norfolk, Va., Nov. 30.—Men from the cruisers Tennessee and Washington, which conveyed President Roosevelt on his trip to Panama, while in Norfolk yesterday, declared that a "mutiny" on the Tennessee occurred while the cruiser was being coaled on the isthmus for the return trip home.

Men on the Tennessee alleging poor and unsatisfactory rations, refused to coal the ship. The marine guard was ordered out and to shoot the first gun, threatening to quit his post during the coaling of the cruiser.

Prominent Dairyman Dead.
Brookville, Nov. 30.—John Franklin, an ex-license commissioner for Brookville district, died yesterday at Rockfield, aged 63. He was a progressive dairyman, an ex-reeve of the township of Escott, and a member of the County Council for four years.

THE MAN FOR MAYOR.

The Brantford Examiner in anticipation of a keen contest for the Mayorship in the Telephone City sums up, for the benefit of the city voters, the qualifications of aspirants for the mayoralty chair, which, while so few, are such that but few men are able to fill the bill. They are:

1. A clean record.
2. Progressive and well considered ideas for the improvement of the city.
3. A good address and ability to represent the city creditably on all occasions.

The Galt Reformer reproduces the above, wisely adding, by way of comment, that the standard demanded in Brantford should be the standard in every municipality in the country. Were all municipal elections fought with the above standard always in the minds of the people, the grafters and opportunists that so often get a grasp on office would surely be forever extinguished.

HINT TO MR. STURGIS.

At the opening of the Fall session of the Elgin County Council, Warden W. E. Lutton gave an excellent and thoughtful "Speech from the Throne," in which he pointed out the needs of the people residing in the rural districts, and reviewed the different measures along lines of advancement and the improvement of present conditions, which the Council would be called upon to consider during the session.

Among other things, he pointed out that the farmers should take every advantage offered them towards securing Niagara power, and his words are worthy of consideration from other commissioners besides those in the Elgin Council. Referring to Niagara power, the Warden said:

"A number of the largest towns and cities are applying to the Provincial Hydro Electric Commission for electric power. The possible benefits to be derived therefrom are very great, and are not confined to the urban communities alone. I believe it is only a matter of time until Niagara power will be in general use throughout Ontario by manufacturers and farmers alike. The towns, villages and townships between Rodney and Niagara should all apply for power, so that a distributing line will be necessary through the lake shore townships. This would encourage rural communities to combine and complete arrangements so that they may participate in the benefits to be derived from the use of electricity at actual cost for light, heat and power purposes."

Here is something for the Kent County Council to think over. Now that the December session of this municipal body is drawing near, it might be a good idea if Warden Sturgis would make a study of the possibilities of Kent along these lines, and entreat his Council to promote and encourage some scheme for securing this power, if it is at all feasible. Possibly he has never thought of it. If he hasn't, now is the time to get busy.

Only four weeks before the Municipal election, and as yet not a single man has offered himself as a candidate for the position of alderman!

Peterborough is to have a new factory. A large carpet manufacturing concern has been secured by the Board of Trade of that city. This is another of Chatham's daily lessons of what this city is missing through the fact that we have not at present an active body of men looking for a few of these industries.

In the House the other day Archie Campbell, M. P., in the debate on the address, criticized the members of the Opposition for their discussion of the electoral corruption at London. He said there was nothing in the work which was done in that election by Hyman's supporters to justify the "wild and untruthful statements of honorable gentlemen opposite." Upon being reprimanded by Mr. Speaker for his unparliamentary language, he apologized and substituted the word "inaccurate" for "untruthful." Neither Mr. Hyman nor the Premier consulted Mr. Campbell, evidently, before the Minister of Public Works resigned. They, judging from their actions, were convinced that something had been brought out as a result of the investigation. "After all," said Mr. Campbell, in all seriousness, the modest sum of "only \$2,300 had been shown to have been spent corruptly." Mr. Campbell further added to the amusement of the members of the House by referring to the "five million dollar surplus" at Toronto, which "was piled up by the Liberal Government." The

INSPECTOR TILLEY EXPLAINS THE NEW REGULATIONS

Prominent Educationist Gives A Public Lecture On The Amendments To The Educational Act—The Matter Of Teacher's Salaries

Mr. J. J. Tilley, Provincial Inspector of Model schools, paid an official visit to the class here Thursday and expressed himself as more than pleased with the standard of the class in every respect.

During the afternoon, Mr. Tilley gave a talk on the New School Act, touching particularly on the two clauses pertaining to the training of teachers and the payment of teachers, in order that the teachers in training might have an intelligent knowledge of these points and be able to meet the erroneous objections to the new state of affairs that prevails in many rural sections.

In the present condition there are two grades of teachers, those attending Model schools for fifteen weeks and acquiring their class certificates for three years, and those attending Normal for one year for the life certificate. Forty-five per cent. of the present rural teaching staff hold third class certificates; seventy-five per cent. of students trained in Model schools leave teaching at end of three years. The average length of service of teachers in Ontario is five years. Imagine the effect on the country if at the end of five years every professional man leaves the field and inexperienced persons take their places. Under these conditions it is not to be wondered at that the progress in country schools particularly, is not entirely satisfactory. It is proposed by the new measure to do away with the county Model schools and third class certificates, and increase the number of Normal schools and the term to one year, with a life certificate to be granted at the end of one year's successful practical work.

The necessity for this change was brought to the attention of the department by the recorded resolutions for several years by the different departments of the Ontario Educational Association. That the time teachers was the opinion of all educators who had studied the point.

It was first suggested that the Model term be extended, but then the necessity of extending the term could arise, and the time of teachers would be temporary, so the only feasible plan was to have only one year in training in a Normal and make the certificate for life.

One objection raised was that it was unjust to students after a lengthy academic training to compel them to spend a year in training before becoming independent. Teachers are trained for public good, and private interests are always subordinate to public good. With the increase in professional requirements, comes the increase in pay. Under present conditions the average salaries of rural teachers, according to the last report of Minister of Education, was \$383 for male and \$294 for female teachers.

It is now proposed to raise the salary in two ways (a) township grant (b) assessment or levy on each section. If total assessment of township is such as to give an average assessment per section of \$20,000, the amount to be raised by each section in that township is \$300, and that is to be applied on teachers' salary. The average township assessment in Kent County is \$75,000.

The scale of salaries is fixed as follows: If assessment of section amounts to \$20,000 or over the sec-

tion must raise \$203, and salary is \$500; if over \$150,000 they must raise \$150, and pay \$450; if over \$100,000 they must raise \$100, and pay \$400; if over \$50,000 they must raise \$50, and pay \$350; if over \$30,000 they must raise \$25, and pay \$325.

The township assessment will levy the same rate on every man's property, and large sections will thus help small sections. One mill on dollar will be uniform rate. The amount to be raised by each section is determined by the ability of the section as shown by assessed valuation.

In the early settlement of the country the sections were made very large to keep down taxes, and the smaller sections formed later felt the burden of their school tax. The new measure will remedy this evil.

The great difficulty to be met with in introducing the new measure is in compelling trustees to do away with prevailing conditions justified by change. There was an undue scarcity of teachers which necessarily lowered the standard for schools must be kept open and unqualified teachers must be engaged.

The old district certificates were originated to help out the poorer, sparsely settled districts of Ontario, but later the older sections of Ontario demanded these teachers and now there are 954 district certificates out of 5,700 rural teachers in the Province as compared with 463 five years ago. Of the remaining teachers 3,994 are third class, 1,693 second, and 143 first class. The reason of this is that salaries are so low here, and so much better in Manitoba and the West that our better trained teachers all flock to the West.

Another cause of regret is that men are leaving the profession. In the Normal schools during the last three years, out of an attendance of 820 students, 54 were men, or 6.6 per cent. and one-half per cent. One objection claims that it will destroy competition, but the competition hitherto has been all on the trustees side, and hundreds of them even are glad that the law has come in and justifies them in giving better remuneration. The best teachers will now be sought—not the cheapest teacher.

The Government grant is now proportioned according to the salary paid the teacher.

Another objection raised according to a newspaper of the day is that trustees "will pay as much for culls as for best timber," that they will pay as much for inefficiency as for efficiency, but the only test of efficiency is the work. Of ten teachers of excellent academic and professional training are unsuccessful. To guard against this a permanent certificate is not granted until the end of one successful year's work guaranteed by the trustees and inspector.

This question is not one of party politics. It was agitated by the late Government, brought in by the present administration and passed unanimously by every member of Parliament. All are alike responsible for its failure or success.

The new law does not necessarily contain elements of permanency. It is an experiment and the success of it rests with the teacher.

In conclusion, Mr. Tilley pointed out the necessity of fact on the part of the teacher in his attitude to the new condition of affairs, to assist the trustees to adapt themselves to the changes.

ANNOUNCEMENTS.
(Supplied To The Planet by Press Agents.)

At the Brisco Opera House—
Bonnie Brier Bush—Dec. 1 and 3. Deserted at the Altar—Dec. 6. The Wayward Son—Dec. 8. Return of Morris-Thurston Co., New Year's week—Dec. 31 to Jan. 5.

In Kirke La Shelle's production of "The Bonnie Brier Bush," which comes to the Brisco Opera House, Saturday and Monday, Dec. 1st and 3rd, we are to be entertained with a charming play in which Scotch life is most really portrayed.

"A simple story is 'The Bonnie Brier Bush.' There is no intensity of dramatic feeling, no straining for effect, no running the gamut of emotions, but a plain, straightforward tale direct from the shoulder that is accurately aimed and hits the right spot. It is an old story in a new garb. The supposedly erring daughter, the cruel, unrelenting father, the true, steadfast lover, the imaginary wrong, the denouement, the mistake, forgiveness, happiness, curtain—is all there as of yore, but it is told in a higher vein in 'The Bonnie Brier Bush,' is natural and true to life and written by a master hand, so cannot fail to make an impression. The characters of the crusty, stern and narrow-gauged father, Lachlan Campbell, and the tipping, but far-sighted 'Posty' are both unusual and exceptionally artistic."

A company of metropolitan players, including many of the original cast and a beautiful scenic production are promised.

CRAWFORD---TAYLOR

(From Our Own Correspondent)

Wallaceburg, Nov. 29. — A very pretty wedding took place last evening, when Mildred Taylor, second daughter of Mr. and Mrs. Samuel Taylor, was united in marriage to Roy Crawford, of this place. Only the immediate friends of the family were present. The bride looked charming in a gown of pearl grey Panama with lace trimmings. Rev. Wesley Cowen tied the knot. Mr. and Mrs. Crawford have taken rooms with Mrs. Ellison on Elizabeth street. Fred. Nevarre, a Walpole Indian, was arrested yesterday and lodged in jail for being drunk and disorderly.

Mrs. Richard Little is visiting her son, Harvey Little, in Toledo, Ohio. Miss Yada McGregor has returned home from Wyandotte.

Household Hints For Women

Useful Household Hints From Table Talk

LEMON PUFFS

Lemon puffs are our old friends, popovers, under a new name. When mixing add to the batter the grated rind of a lemon and serve with a tart liquid lemon sauce. On another day use an orange in the same way.

STUFFED APPLES

Stuffed apples are wiped and cored, without paring or cutting, the centres filled with a mixture of a half cupful of fine bread crumbs, one tablespoonful of melted butter, a half teaspoonful of cinnamon, pinch of cloves and two tablespoonfuls of more according to the acidity of the apples—of sugar. A few spoonfuls of hot water are added and the apples baked in a quick oven until very tender. They are best served cold with cream.

BAKED BANANAS

Baked bananas make a simple and good dessert. From each banana strip off one-third of the skin and loosen the remainder so that the fruit rests in it after the fashion of a boat. Sprinkle each with a teaspoonful of sugar and a little lemon juice, lay on a flat pan and bake in a quick oven until tender; this will take from fifteen to twenty minutes. Serve at once without removing from the skins.

STEAMED DATES

Steamed dates are excellent for dinner as well as luncheon. Wash a pound of whole dates, cover with

cold water and let soak over night. Next morning add half a cupful of sugar, bring slowly to the steaming point, then simmer for five minutes. Transfer the dates to a serving dish and reduce the syrup fully one-half. Let stand until cool, add a teaspoonful of vanilla and, if liked, two tablespoonfuls of sherry and pour over the fruit. Serve cold, with or without cream. Figs may be prepared in the same way.

EGGS IN BLACK BUTTER

As a breakfast dish eggs in black butter are good and easily prepared. In a small saucepan melt two tablespoonfuls of butter and cook gently until it is very dark colored but not burned. Throw in one tablespoonful of vinegar, add a dash of salt and pepper and keep hot at the side of the fire while poaching the eggs. When the latter are set lift out carefully, drain, trim, arrange on a hot platter and pour the black butter over them.

FRUIT APPLE ROLL

For luncheon mix together a pint of flour, two scant teaspoonfuls of baking powder, a half teaspoonful of salt and one teaspoonful of sugar. Rub in two good tablespoonfuls of butter then mix to a soft dough with sweet milk and roll out in a long sheet. Chop fine tart apples to give a half pint, add a half cupful of sultana raisins, two tablespoonfuls of sugar, a pinch of cinnamon and cloves. Spread this over the prepared dough, roll up, pinch the ends to prevent unrolling, lay on a greased flat pan and steam for half an hour, then place in the oven long

enough to dry the top. Serve with a hard sauce.
As an after dish cook some macaroni until tender. Fill a dish with alternate layers of sliced turkey, macaroni, stewed tomatoes and seasoning and bake in a moderate oven. Turn out and serve with a sauce made from the gravy and stuffing and a garnish of sliced eggs, lemons and watercress.

MAKING KOUMYSS

As this Swiss-made dish becomes appreciated in the diet of the invalid, it is well to know how to have it home-made; it insures its freshness and becomes reasonable in price. Take a quart of fresh milk and warm to blood heat. Use a dairy thermometer and do not let the heat rise above 98 degrees or 100 degrees; add one-fourth of a cake of compressed yeast which is previously dissolved in a little warm water. Add a small tablespoonful of sugar, one-fourth of a teaspoonful of salt to the warm milk. Bottle tightly at once. Stand the bottle in a warm place for twelve hours, then place on ice for twelve hours, when it is ready for serving.

TILBURY

Tilbury, Nov. 29.—Mrs. O'Neil, of Niagara Falls, is the guest of Mrs. Alex. Campbell.

Mrs. H. Johnston, Mrs. W. A. Hutson and Mrs. (Dr.) Ferguson went to Detroit Tuesday to hear Madame Schumann Heink.

A number from here attended the Harold Jarvis concert in Comber last evening.

LADIES ASSISTING SOC.

A most enjoyable meeting of the Ladies Assisting Society was held on Monday afternoon at the home of Mrs. Cornell.

After the usual routine business had been dealt with, the returns for the recent ball were made, and the ladies were very much gratified by the result. They wish to extend a hearty vote of thanks to all who endeavored to make it such a success. It was decided to hold a rummage sale in the spring. The next meeting will be held on Jan. 4th at the home of Mrs. E. R. Smith, Lacroix street.

The Secret of the Maple.

No thoughtful person who has ever visited a maple grove in the early spring while snow banks are yet lingering in sheltered hollows and has seen painful after painful of sweet sap drawn from the auger holes in the shapely trunks can have failed to wonder what forces govern the flow of the sap. When the warm sun touches the treetops the flow increases. A rise of a few degrees in temperature often causes a great increase of flow, if the rise passes the zero point on the centigrade scale—that is, the freezing point of water. But a considerable change of temperature in which the fluctuations do not cross the zero line causes no marked change in the flow of sap. Dr. K. M. Wiegand, discussing these and other related facts in the American Naturalist, reaches the conclusion that neither expansion of gas in the wood nor expansion of water nor expansion of wood itself is the underlying cause of the pressure which produces the flow, but that this pressure arises from the effects of temperature in altering the osmotic permeability of the pit rays cells.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is not a matter of the muscles alone; it is a matter of the stomach. A man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutriment through the stomach. The strength of the body depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Fara, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, and everything would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly, I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctors' medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise." Don't be deceived by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicine, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 1 cent stamp for paper copy, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 603 Main Street, Buffalo, N. Y.

Preparing Meals.

Without going deeply into the chemistry of foods any sensible person can so arrange dinners as not to make one mild and tasteless and for another serve several acid dishes and refreshing sauces. For instance, do not have the Friday fish dinner of white boiled fish, mashed potatoes, hominy, canned corn and rice pudding, and then on Saturday have a roast, with tomatoes, slaw, apple sauce, sweet cider and lemon pie. Such bad combinations are not imaginary, but are found in the sad experience of many who live in boarding houses. One is all white and tasteless; the other combines a variety of acids, which is a mistake in the other direction.

GREAT DISTRESS IN HER THROAT

Not an uncommon experience was that of Mrs. H. S. Wilmet, of Shuler, N. S. Doctors failed, still a quick cure was found in Catarrhazone. Notice this statement: "I have been most distressful suffering from bronchial trouble and catarrh. On damp days I would hawk and suffer great distress in my throat. I used all kinds of medicines, but didn't get permanent relief till I used Catarrhazone. It has strengthened my throat, cured my cough and made me entirely well." Refuse substitutes for the one reliable bronchial and throat cure. All dealers sell Catarrhazone in 25c. and \$1 sizes.

CONFIRMS THE JONES LOSS

Two Life-boats Of Wreck Of Steamer Ashore At Christian Island

THE DETAILS ARE GIVEN

Owen Sound, Nov. 29.—This reported finding of wreckage from the steamer J. H. Jones was confirmed yesterday morning, when a letter was received by Mayor Joyce from Rev. John Wilson, Methodist missionary, and teacher of the Indian School at Christian Island, which leaves no room for doubt as to the fate of the boat.

Rev. Mr. Wilson gives details as to the wreckage found, which includes two lifeboats bearing the name J. H. Jones, and part of a wheel house. He adds that the northwestern shore of the island is strewn for miles.

A rumor was current yesterday that Captain Crawford, Engineer Shaw and a passenger had been found, still living, on Barrier Island, but so far no foundation can be found for the report. It is, however, possible.

One Ackerman, a Polish Jew, resident in Owen Sound, was said to be among the passengers on the ill-fated steamer. He may have to be added to the list of lost given yesterday.

Warton, Nov. 29.—It is now realized that the Jones foundered in deep water after passing Cape Croker, and nothing more will likely ever be heard from her. Every available tug boat and sailor from Warton, Owen Sound, Menard and Christian Islands as the north shore were put into commission on Saturday last by the Crawford Tug Co., the owners of the Jones, to secure information and render aid if possible, but the only reports received were from Penetanguishene and the Christian Islands, where a lifeboat and a portion of the cabin were reported respectively.

Warton is in mourning, and there are others. Besides the crew of thirteen or fourteen Warton people on board the Jones, there were fifteen passengers from points north of here, and on the Manitoulin Island all friends and business acquaintances of Warton people, and thus the blow is doubly severe.

And while every flag in town is flying at half-mast, the citizens are working. Yesterday forenoon a number of our prominent business men organized a relief committee with Mayor Cameron as president. The gentlemen are busy already, and it is safe to say the widows and babies will not want.

Sault Ste. Marie, Ont., Nov. 29.—The barge Agawa, which broke away from the steamer Leaford on Monday, was picked up Tuesday afternoon 20 miles off Eagle Harbor by the steamer Caralie, and arrived here yesterday uninjured.

Gale on Lake Erie.

Cleveland, O., Nov. 29.—A gale which reached a velocity of 60 miles an hour raged on Lake Erie the greater part of Tuesday, and compelled even the big passenger boats to seek shelter, but no wrecks are reported.

Steamer Phasant Lost.

Vancouver, Nov. 29.—The steamer Phasant has been wrecked near Beaver Dam, on the Skeena River. She is a total loss. Capt. Benson brought the crew here Tuesday night.

MASONIC FUNERAL

The Late R. M. Thompson Reverently Laid To Rest—Marriage In Blenheim

From Our Own Correspondent.

Blenheim, Nov. 29.—The funeral services of the late Mr. M. Thompson was conducted this afternoon at the residence of the deceased's father, Mr. Geo. Thompson. The service was conducted by Rev. R. J. Freeborn, brother-in-law of the deceased, and Rev. G. McQuillin. A large number were present. The funeral was in charge of the A. F. & A. M. and A. O. U. W. Lodges. In religion he was an Anglican, and a prominent member of the Reform party in politics. As a graduate in the Arts course at Osgoode Hall, Toronto, about ten years ago, since which time he has successfully followed his chosen profession in Blenheim. A few months ago he was appointed town clerk. He was married about seven years ago to Miss E. Freeborn, daughter of Mr. A. Freeborn, of Invermay, Ont., who survives him. The wife, parents and relatives of the deceased have the sympathy of the whole of the residents of the town and vicinity.

A very quiet wedding was solemnized yesterday, Wednesday, at 2:30 p. m., at the residence of Mr. S. H. Russell, John street, when his eldest daughter, Elizabeth E., was married to Mr. S. H. Foster, of Winnipeg. The ceremony was performed by Rev. G. McQuillin. Mr. and Mrs. S. H. Foster intend spending the winter in California, after which they will reside in Winnipeg.

Mr. J. C. Markle, of Sarnia, was in town on business yesterday.

The C. O. F. and I. O. O. F. carpet ball teams are drawn for a game this evening in the hall of the former team.

The funeral of the late Charles Reynolds was conducted yesterday afternoon in the Baptist church by the Rev. G. W. Ray. The funeral was in charge of the I. O. O. F. and I. O. F., members from each lodge being present. The floral emblems were very choice.

Words were received on Wednesday morning of the sudden death of Mr. H. Rotz, who conducted a store here some years ago. He was just moving to Highgate to open a general store.

Women's Coats at Greatly Altered Prices

The warm weather has considerably lessened the enthusiasm of buyers in our Cloak Section. You may want a coat, if you do you can make a big saving by buying here this week.

Winter Coats \$7.98

Handsome Coats of Light Tweed and Black Kersey Cloth, made in latest styles. We could get full price for them by holding until colder weather, but we need the space. Your gain. Reduced price \$7.98.

A Big Saving at \$10

The coats we have reduced to \$10 are coats that are well worth \$15 and \$16, with some new models added. It represents a big saving for so early in the season. Reduced price \$10.00.

Underskirts at Wholesale

We bought a Manufacturer's lot of Sample Underskirts, all perfect goods, but crushed slightly by frequent showing and packing. They are such good qualities it did not hurt them much. The wholesale prices were \$12 to \$60 per dozen. We have grouped them into four lots, less than wholesale price

- Lot 1 your choice 98c
- Lot 2 your choice \$1.25
- Lot 3 your choice \$1.89
- Lot 4 your choice \$2.09

Several hundred skirts to select from and each skirt in the lot at much under the wholesale price. Our advice is to buy an undershirt; it will mean a big saving.

Shaker Flannel

Thousands of yards of Shaker Flannel in pink, blue, white and light and dark stripes. These were intended for our Mill End Sale, but were not received in time. The best value we ever saw for 12 1/2c. yd. while they last two prices—6c. and 7c. per yd.

Tweed and Venetian Cloth Skirts \$2.98

The great crush of last Saturday prevented a great number of ladies from getting one of these skirts. Certainly the biggest skirt bargain Chatham has had for a long time. 55 Tweed and Amazon Cloth Skirts in a good variety of colors, light and dark tweeds, navy, black and red Venetian cloths, beautifully trimmed, pleated and strapped. Not a skirt in the lot worth less than five dollars—the balance of the week your choice, \$2.98.

BONNIE BRIER BUSH IS AS GOOD AS EVER

A Capable Company
From End to End
At The Russell
This Week.

That always welcome story of the Scottish Hills, "The Bonnie Brier Bush," was presented at the Russell yesterday, maine and night, to audiences which tested the capacity of the theatre.

The company, which is a large and capable one, gives a delightful performance of the play. Chas. E. Bloomer as "Posty" is a delight. The humorous characterizations of the typical postman are brought out with killing effect, and this actor will hereafter be a welcome visitor to the local stage.

Miss Reynolds as Flora Campbell unites beauty with great dramatic ability and is easily the superior of any of her predecessors in the role. David Davies as "Lachlan Campbell" puts force and strength into his scenes and shows more than the ordinary actor. In saying that he is inary ability. In saying that he is inary ability. In saying that he is inary ability.

Miss O'Meara as Kate Carnegie left nothing to be desired. She was magnetic at all times and possessive of an indurability that was active. The same can be said of Miss Warren as Annie. Miss Cairo as Margaret and Kenneth Mackenzie as "Tammie" were easily recognizable as being natives of Auld Scotland, and Robert McClure as Leonard Howe, who gives a really finished portrayal as Lord Hay. A delightful feature of the performance is the singing of the male quartette.—Ottawa Free Press, Nov. 6th.

FINE PRODUCTION OF THE "BONNIE BRIER BUSH"

That old-fashioned drama entitled "The Bonnie Brier Bush," was presented at the Grand Opera House last night. A good sized audience greeted the play which in other years won the hearts of the Kingston public.

The troupe is composed of artists, each of whom fits into the various parts in a very creditable manner. The scene is laid in the Highlands of Scotland, where the owner of the land is the ruler of the people. The chief character, that of Lachlan Campbell, and formerly played by the great Sheddard, was filled in a very creditable manner by David Davies, who was ably assisted by Camelia Reynolds as Flora, Charles E. Bloomer, the successor to Reuben Fax, ably filled the duties of "Posty" adding a laugh to the otherwise affecting scenes by his frequent interruptions, and his application of the bottle. Kenneth Mackenzie as Thomas Mitchell, and Leonard Howe as Lord Hay, completed a staff of principals who will undoubtedly find public favor wherever they go.

When Flora is turned from the house by her father, brought the tears to the eyes of many of the audience, who were only relieved by the intrusion of "Posty." Nothing need be said of their favor in the past and know the story from beginning to end. Last night's production was the kind of drama of which the public never seems to tire.—Kingston Whig, Nov. 1, 1906.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. This tablet—called Dr. Shoop's Headache Tablets—coaxes blood pressure away from pain centers. Its effect is charming, pleasantly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 30 minutes, and the tablets simply distribute the unusual blood pressure.

Brise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

The 2-Cent Fare Case.
Toronto, Nov. 29.—The stated case in connection with the prosecution of the G.T.R. for neglect to provide a two-cent railway fare between Toronto and Montreal, was yesterday submitted to Magistrate Denison. Over to an objection by J. W. Curry, K.C., for the plaintiffs, to the statement that the company had not "at any time provided that at least on a train having in it third-class carriages shall run every day throughout the length of the line," a day's remand was made to enable the magistrates to consider the objection.

LIKE A THIEF IN THE NIGHT.

That's how pain comes. We sit near an open window, get stiff neck or sore back. Perhaps cool off too quickly after exertion—rheumatism develops. Spend what you may, but money can't buy anything better than Polson's Nervine. Its penetrating power enables it to reach deep tissues—that's why it cures aches that all else can't touch. For outward application we guarantee five times more strength than in any other liniment. Inwardly it's harmless and as sure as the hereafter to ease at once. Don't accept a substitute for Polson's Nervine, which is the one great household panacea of today.

O'Brien-Burns Fight Drawn.

Los Angeles, Cal., Nov. 29.—An enormous crowd attended the championship fight last night for the championship of the world. Referee Jeffries, at the conclusion of the 20th round, decided to draw. Burns began to improve after the 6th and made it an even go to the finish. The men have been claiming the title since the retirement of James J. Jeffries.

OH, FOR A CLEAR COMPLEXION!

A clear complexion is the outward evidence of inward cleanliness. In bad health the face becomes a sign-board, telling of disease within. If yellow, bile is not properly secreted; if pallid, the kidneys are faulty; if skin is murky and dark circles beneath the eyes, look for constipation. Whatever the cause, no remedy compares with Dr. Hamilton's Pills, which give mild, safe, purifying and vitalizing results. They are marvelous rest-givers to the system, brighten the eyes and establish health that defies age and disease. Sold everywhere in 25c. boxes.

HOLLWEY COMMITTED.

Charged With Defrauding University Out of Part Price of Lands.
Toronto, Nov. 29.—T. W. Hollwey was yesterday committed for trial on a charge of conspiring to defraud in connection with the sale of lands on behalf of the University of Toronto. The allegation is that while acting on commission as agent of the university he made a dummy sale to Leonard Foulds and then resold at a personal profit of \$16,000.

THIS TONIC BUILDS UP.

Many medicines stimulate, break down, leave you worse than ever. Ferrone's is different—it's a blood-former, a nerve-trengthening, a body builder. Pale anemic girls are given color and vigor. The tired and sleepless are strengthened and restored. "Better than all tonics I found Ferrone's," writes Mrs. F. F. Castleton, of Woodstock. "I was completely run down, cheeks were blanched, lips white and had every sign of anæmia. Ferrone's added to my weight, gave me strength, ambition and good health." Nothing better, try Ferrone's yourself, 50c. per box at all dealers.

A godly heart is better than a golden tongue.

Men and women who eat fat meat and drink strong coffee usually have coarse, florid skins. Hollwey's Rocky Mountain Tea makes the skin soft and fair. 35 cents.

BACKWARD BOYS.

Brilliant Men Who Did Not Shine in Their Younger Days—Some Notable Examples.

I think most men who have been educated at any large public school will readily agree to find numerous instances of boys who were always winning prizes, yet have not done anything worth mentioning in after life. And I am confident that upon investigating the early years of those who have had strenuous and remarkably successful careers it will be found that the majority were rather lazy than not before they entered upon the actual battle of life.

Oliver Goldsmith was looked upon by his schoolmaster as a dunce. That may possibly have been the fault of the latter. I fancy there is something specially narrowing to the mind in a scholastic career, just as there is in a doctor's. That at least is my individual experience. Gladstone never took a prize at school, if I remember aright, though he subsequently gained a double first at Oxford. Those high priests of science and philosophy, Darwin, Huxley, Tyndall and Herbert Spencer, did not particularly shine in their younger days.

We find plenty of evidence that people who in the first stages of their career make prolonged and exhaustive demands on their stores of nerve force rarely attain length of days. Whether the demands have been made merely in the pursuit of wealth or for some more noble object does not matter. The result is the same. Thus Napoleon considered about four hours in a "good night's rest." He joined the majority at fifty-one. Dickens passed over at fifty-eight. Byron, achieved his unique reputation in the short compass of thirty-six years. Mozart in thirty-five and Schiller in thirty-three. Alfred Beit died at fifty-three and Cecil Rhodes at forty-eight. —London Chronicle.

Graft Even in Sponges.

Certain public officials were recently discussing the question of graft in one of the largest cities of the United States when the following was told: A physician on the city health commission had ordered ten pounds of sponges. In due course he received a number of sponges that together fell short of a pound in weight. Later a voucher came for his signature, so that the contractor might get his pay from the municipality. Of course the physician refused to sign the voucher. "Why not?" asked the contractor. "For the reason that the order calls for ten pounds," replied the physician, "and the sponges sent me weighed considerably less than that."

"That's funny," said the contractor, "with an air of doubt, 'because I weighed 'em myself.'"

"And so did I weigh them," was the dagger response the physician made. "If you don't believe me weigh the sponges again. There they are, the same."

"What?" cried the contractor as he placed the goods in question. "You don't mean to tell me that you weighed 'em dry?"

Might Have Changed History.

Napoleon III, of France, when a prisoner in the fortress at Ham, wrote and published a paper on the possibility of linking the Pacific and Atlantic oceans by means of a canal. This created so profound an impression that the minister plenipotentiary of Guatemala offered him the presidency of the construction of the Nicaragua canal. The proposal was followed by the offer of the presidency of the Ecuador republic. The latter offer was conditional upon King Louis Philippe's releasing the captive and upon the latter's giving his parole never to return to Europe. Louis Napoleon was prepared to give his parole, and Sir Robert Peel, then prime minister of Great Britain, was willing to back up his application for release upon these terms. Lord Aberdeen, however, would not hear of it, so the prisoner remained to be president and emperor of his native land.

The Biblical Auto.

Some one has found a hint, as some always does when there is a new notion or discovery, of the automobile in the Bible. It is the vision of hum, the Elkoshte, concerning the den of Nineveh. In the account given by this sect of the military mission and array of the Medes and Babylonians against the doomed City of Nineveh, the mistress of witchcraft, an "the people in the midst of her women, the Elkoshte has this remarkable verse: 'The chariots shall be in the streets, they shall be like against another in the broad ways, shall seem like torches, they shall be the lightnings.' A variant of word 'foetle' which the original drew will, it is said, equally well better bear, is 'pass swiftly, with particular purpose, to and fro,' a derring which brings the cars, of Hebrew prophet into, perhaps, a closer connection with the motor of the present day.

GROWING OLD WHILE YET YOUNG

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young. From early morn till late at night they have been on the go year after year, attending to the household duties. Is it any wonder then that sooner or later there comes a general collapse. Palpitation of the heart, nervous prostration, another and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal

MILBURN'S HEART AND NERVE PILLS

Mrs. W. J. Russell, Vasey, Ont., writes: "At one time I suffered greatly from my heart and nerves, and the shortness of breath was so bad I could scarcely do my housework. A friend of mine advised me to try Milburn's Heart and Nerve Pills, which I did and I only took them for a short time before I was better. The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

Fly From London to Geneva.

London, Nov. 29.—Two aeronauts, Percival Spencer and Leslie Bucknall, who started from a suburb of London Tuesday, in a balloon, landed at daybreak at Vevey, on Lake Geneva, Switzerland, accomplishing the notable journey of 420 miles in 16 hours.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven, however, that Catarrh is a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 4 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

M. and M. Get Control.

Montreal, Nov. 29.—The rumor is confirmed as to the reported control of the Quebec and Lake St. John Railway by the Canadian Northern. It transpired yesterday that Mackenzie and Mann have purchased 51-100 part of the stock of the company at \$34 a share, the capital stock being \$6,000,000.

It will soften and heal any skin ailment. Get a free trial box, at our store, and be convinced. Large, nickel-capped, glass jars, 25 cents. Sold by C. H. Gunn & Co.

On Holiday Trip, Dies.

St. Catharines, Nov. 29.—David W. Corbin of Victoria, B. C., was found dead in bed at the residence of Nelson Haight yesterday morning. Mr. Corbin was 74 years of age, and before going west some 25 years ago was a prominent business man in this city. He arrived in the city yesterday en route to England, with a niece, Miss Harris. To all appearances he was as well as usual when he retired Tuesday night. He was an ex-alderman of this city.

The worries of a weak and sick mother are only begun with the birth of her child. By day her work is constantly interrupted and at night her rest is broken by the wailing of the peevish, puny infant. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It lightens all the burdens of maternity, giving to mothers strength and vigor, which they impart to their children. In over thirty years of practice Dr. Pierce and his associates have treated and cured more than half a million suffering women. Sick women are invited to consult Dr. Pierce by letter free of charge. JUDGMENT RESERVED.

Buckingham Strikers' Trial Before Judge Choquette—Albert Maclaren to Be Discharged.

Buckingham, Que., Nov. 28.—Last evening the preliminary hearing closed in the case of the six strikers, charged with rioting and manslaughter. Judgment is reserved.

The preliminary hearing of Dr. Rodrigue, the coroner, charged with neglect of duty, was also held yesterday, and judgment reserved. C. A. Wilson, counsel for the defence, declining to put in any defence at this stage.

To-day Judge Choquette will hear the preliminary proceedings against Mayor Vallée, who, like Dr. Rodrigue, is charged with neglect of duty in not taking steps to prevent the riot.

In the case against the strikers yesterday, Dr. J. W. Wallace, J. D. Sicard and John McComb testified to the death of Detective Warner on Oct. 15, a week after the riot, from a wound received in the riot.

Urged to Bring Revolver. James Laforce, a non-member of the union, swore that Isidore Renaud asked him to join the strikers and bring him a revolver or a sock with a stone in it. He heard Renaud speak in the hall, but could not understand him. Laforce's address, which was spoken very rapidly.

All the witnesses called recognized some or other of the six men arraigned, and some of them had seen the whole of them—Charles Hamon, Clement, Bastien, Landry and Croteau. Henry Aylen, Detective McCaskill and Joseph Landry were called to testify against Dr. Rodrigue, besides John McDonald and the boy, Chisholm Pearson, whose evidence was heard at the inquest.

Maclaren Discharged.

Ottawa, Nov. 28.—Albert Maclaren was discharged yesterday morning. He was charged with criminal offence in bringing in the detectives and armed men, but Judge Choquette held he had a perfect right to arrange for the protection of his property.

PRESIDENT MUST WAIT.

McGill's Case Must First Be Disposed of—Mr. Cockburn's Counsel—Elects Trial by Magistrate.

Toronto, Nov. 28.—Judge Winchester will on Monday give a decision on the application of the crown to obtain a commission to New York to investigate the brokerage accounts revealed in the examination of the Ontario Bank ledgers.

The application made yesterday was opposed by R. E. McKay, acting for McGill, on technical ground, the chief contention being that the crown had not given sufficient notice of the application. Frank Arnold, K.C., on President Cockburn's behalf, held that there was nothing to justify sending the case of his client to New York.

The understanding reached was that Mr. McKay would file a formal objection on Saturday, and that judgment would be given on Monday.

Cockburn Case Must Wait. Mr. Arnold, who should first be taken up, and announced that his client would elect to be tried by Magistrate Denison. The magistrate returned that the McGill case must first be disposed of.

The bank's books were not submitted. Proceedings in the theft charge against McGill were also blocked by reason of the requisite papers not being on hand.

A. E. Ames was examined for a few minutes on ledger entries in the first minutes, showing deposits made to the credit of "Chas. McGill," "Chas. McGill, in trust," and "Chas. McGill, special." Mr. Ames was not able to determine just how much money the firm had received.

LIBERALS WROTH.

Demand That Lords Assumed Right to Veto the Will of the People Be Settled at Once.

London, Nov. 28.—The intensity of the political feeling aroused by the treatment of the education bill in the House of Lords found expression yesterday in an emergency meeting of the general committee of the National Liberal Federation, at which a resolution was unanimously adopted, urging the Government to reject the Lords' amendments to the bill, and "resolutely to determine that the present Parliament shall not come to a final arbitration upon the question whether the House of Peers should any longer possess the right to veto the will of the people, as declared by the House of Commons."

The meeting was the largest and most representative of its kind which had assembled during the last twenty years. A letter from Sir Henry Campbell-Bannerman was read, in which the Premier said "the education bill, as amended, perpetuates, if it does not extend, the very grievances and wrongs fixed upon the country by the Act of 1902. Of one thing you may rest assured: 'We will have no tampering with the main principles upon which our bill is founded. If within those limits an arrangement can be reached, all well and good. If not, it will be for us to see that on this question of education, and on others, a way is found by which the wishes of the country may be made to prevail.'"

A Brute For a Husband. Calgary, Alta., Nov. 29.—Two Danes came to the police station who live in some shack terraces near the C.P.R. pumping station, told the police how a woman living next to them had shouted through a partition and asked them to get a policeman as she was locked in. Officer Hardisty and Mrs. Galloway, aged 17, in the middle of the room. Her face was battered, bruised and bloody, her eyes were both black and she could hardly speak. She said she had been locked in the bed and locked in for two days. Her husband had pounded her until she was almost unconscious. The husband says she was too friendly with an employee of a livery barn in the city.

Odd Proposal of Marriage.

That celebrated painter of flower and figure subjects, William Hunt, was on one occasion commissioned by a gentleman to paint his portrait in the attitude of kneeling and holding in his hand an open scroll wherein were written a declaration of love and an offer of marriage. The lady to whom this unusual proposal of marriage was sent replied with a chalk drawing of her self with a sheet of paper in her hand, on which was inscribed a laconic "Yes."
