BOARD OF EDUCATION

Committee Is Still Considering Question of Fire Escapes

Kindergarten Question Again laid Over—Peculiar Gas Bill

Every member was present at the Board of Education meeting last evening with the exception of Messrs. Brackin and McLachlan.

The teachers salaries and several accounts were passed. The Supply Committee were authorized to purchase several supplies for the schools.

In reference to the account for the Kindergarten Institute a peculiar circumstance was noticed. The amount of the account for gas was 4 cents, and for meter rent 45 cents. The meter costs more than the gas.

The teachers wrote to the Board thanking them for their increases in salaries.

In reference to fire escapes, Mr. Morley said that he had one set of plans from Raddell & Sons, Drew and Martin promised to send plans but the have not done so yet. It was felt by the Board that as far as the Chatham Schools are concerned the escapes are not of very great importance, but they should be put up to avoid all possible danger from fire. Mr. Plewes, who was present at the meeting, had some suggestions to offer, and it was decided that the committee should meet Mr. Plewes at the Central School and receive his suggestions.

In reference to the addition at the Collegiate Mr. Morley reported progress.

The Supply Committee will consider the purchase of new typewriters at the Collegiate. At present they are renting machines, and it is found that they can purchase new machines cheaper than it costs to rent the present ones.

Mr. McArthur reported that he was not in a position to recommend anything to the Board re cutting down the kindergarten staffs.

It was the general impression at the Board that the kindergartens are growing in popularity, and that the people feel that they must have competent kindergartens, providing they do not cost too much money. The Committee will consider it further.

PLOT TO MURDER WITTE

Planned by Society to Which Czar Sent His Blessing.

Bomb Was to Be Thrown at Former Premier's Carriage—Companions Betrayed Pretending Loyalty—When Taken to the Wood to Get Explosives Turn Upon Conspirator and Kill Him.

St. Petersburg, July 3.—From revolutionary sources there has been obtained and published full details of a sensational reactionary plot to compass the murder of Count Witte, the former Russian Premier, who represented his country at the peace negotiations at Portsmouth in 1905.

This assassination was planned by the Moscow branch of the Union of True Russian People, the organization to which the Emperor sent a communication on June 17, conveying his blessing to the Ultra-reactionary party, and his hopes for the success of its purposes.

The execution of the plot was entrusted to the leader of the Moscow branch, a man named Kazantseff, who came to St. Petersburg the latter part of May and secured employment in a factory as a common laborer. He befriended several of his fellow workmen, and after announcing himself as an anarchist he enlisted four men to assist him in carrying out his commission. It was planned to throw a bomb at Count Witte's carriage from the window of a cheap boarding-house on Kamenny Island, while the count was at work in attending a meeting of the Council of the Empire.

The plot, however, was betrayed by the revolutionist bureau, which gave Count Witte warning. The four workmen continued to pretend loyalty to Kazantseff in order not to arouse his suspicion. The day for the assassination was fixed, and that morning Kazantseff led his supposed assistants to a wood in the vicinity of St. Petersburg in order to get the bombs from a secret hiding-place, but at this point the four men turned on Kazantseff and killed him, carrying out the sentence of death passed upon him.

Another War Yarn Denied. Oyster Bay, N.Y., July 3.—The reports that sixteen battleships of the Atlantic fleet of the United States Navy are to be transferred to the Pacific coast because of anti-American feeling in Japan were denied yesterday by William Loeb, President Roosevelt's secretary.

A BILL OF DAMAGES.

The Grand Trunk Pacific Company is working up a magnificent bill of damages against the Government. The agreement was that a section of the road to be constructed by the Government from Winnipeg Eastward should be completed this Autumn, so that the Company which was building a line connecting with Lake Superior would handle the crop of this year. The Company will have its branch ready, but the Government is a year or two years behind. Consequently, the Company's road will stand idle and the claim for damages will be made. It will be paid, as everything is paid which the Company asks.

Well, not quite everything. Last year the Company put in a bill for money alleged to have been expended "on construction" of the prairie section. The bill included promotion expenses, for a large part of which outlay the Company submitted no vouchers or details. The Railway Department said it was all right and passed the bill for payment. But Officer Shannon and Deputy Minister Courtney held up the account demanding particulars. Rather than have the details published and examined by the Public Accounts Committee the Company withdrew the claim. All inquiry into this bill by the Committee of Parliament was blocked by Ministers and their supporters. To make concealment more complete the Government handed back to the Company the public documents relating to the claim. The Grand Trunk Auditor had them burned. This Grand Trunk official was summoned to explain the matter to the Committee. He disobeyed the order and sailed at once for Europe. These desperate measures concealed from the public have the details of the cash payments that were made by the Company to get the contract adopted and the measure through Parliament.

But there will be no concealment about the claim for damages affecting the Lake Superior branch. This bill will not be withdrawn.

"BLUE DEVILS"

Get Rid of Indigestion And Things Will Look Bright And Joyous.

Even in the present era of prosperity and good times everything appears black to those people who are suffering from indigestion. Where digestion is quick, complete and easy there is a joyous and hopeful outlook, but indigestion causes depression.

The want of a safe, effective cure for sick headache, indigestion and stomach troubles, was always felt until the prescription known as Mi-o-na stomach tablets was put up in popular form and proved its invariable success in the many forms of indigestion.

After a few days use of Mi-o-na stomach tablets, the headache, dizzy feeling, drowsiness, bad taste in the mouth, coated tongue, nervousness, sleeplessness, distress after eating—all these symptoms of a weak stomach—will disappear and perfect digestion and a good skin will show that the vital machinery is once more running smoothly.

Mi-o-na is to be taken before each meal and it will stimulate the secretory and digestive juices and strengthen the whole of the digestive system so that the unpleasant full feeling will be absent and indigestion prevented.

Mi-o-na stomach tablets are sold only in a neat metal box convenient for the vest pocket and cost 50 cents. C. H. Gunn & Co. have seen so many cures made by Mi-o-na stomach tablets that they give a guarantee with every box that the money will be refunded if the remedy fails to give satisfaction.

CITY ENGINEER GOES FISHING

In The Meantime House Numbering Scheme Goes By Default

Proceedings of City Council—Expenses For Board Of Trade

"I would like to know what the City Engineer is doing about the plan book for street numbering. I understood that the Council had made arrangements to have Mr. Jones get up a book during his spare time for this purpose. This book was to be finished by November 1, so that we could get started at this necessary work. I would like to hear from the City Engineer as to what progress is being made with the work," was the unexpected query put by Ald. John Stephens at last night's meeting of the Mayor and Aldermen.

City Engineer Jones, who was in the auditorium of the Council chambers at the time, replied that he had not had the time to get at the work. He said that he had been too busy with local improvement matters. "Ald. Stephens—I can't see how the City Engineer can plead being busy, when he can take two or three days off fishing, and without saying anything to the Council about it either. This sporting around when there is city work to be done doesn't sound very good to me."

The Mayor would like to draw the attention of the City Engineer to the fact that all city employees should ask for permission before they take holidays in this manner. We are not likely to refuse any just request, but we like to know where the civic employees are at all times.

For instance, the other day when the Engineer was away, I had several people come to me inquiring for him, and I could not tell them where he was.

ALD. KERR'S NEW LEGISLATION. Ald. Kerr directed the attention of the Council to the fact that corporation men were often put to work to cut grass on private boulevards at the expense of the city. He thought that this work should be charged up to the property owner, and gave notice that he will endeavor to bring up a by-law making it possible to charge this work up to the parties who own the boulevards.

Ald. Austin spoke of the escape of natural gas along many of the city streets, which is getting to be a big nuisance in many parts of the city. He thought that the Council should take the matter up.

The Mayor referred the matter to the Property Committee.

THE BRIDGE SWINGER'S AID. Mayor Stone said that he had been approached by the caretaker of the Third St. bridge, who notified him that he had great difficulty in swinging the bridge since it had been strengthened, and that many times he had to pay help to aid him in opening the bridge. The caretaker had asked for a dollar more per week to pay his help in swinging the bridge.

It was moved by Ald. Bensen, seconded by Ald. Austin, that the caretaker be allowed one dollar extra per week during navigation, to pay assistance for this work.—Carried.

Ald. Potter remarked that he had been spoken to by a number of citizens about the condition of Victoria Park, which is full of long grass and weeds.

Chairman Kerr, of the Parks and Cemetery committee, said that this matter would be attended to at once.

S. A. BAND GETS \$25. Mayor Stone said that he had recently been spoken to by the Captain of the Salvation Army, who asked for permission to place a number of their seats in Tecumseh Park. They also requested a grant of \$25 from the Council, for which they said they would be willing to give concerts in the park once or twice a week.

Ald. Kerr, seconded by Ald. Bensen, moved that the request be granted.

Ald. Westman objected to this grant, on the grounds that no grant had been made to the Regiment Band, if this grant were made, he said, it would be most likely that the Regiment Band would also be asking one. The tax rate, he thought, was too high to allow of these grants this year.

Ald. Austin thought that the request was a very modest one and should be granted. It was very cheap music he said.

Ald. Massey put himself on record as thinking that the contract for supplying music on the park should be tendered for by all of the bands in the city.

The motion to grant the \$25, when put to a vote, was carried.

BOARD OF TRADE'S APPROPRIATION.

Ald. Westman presented a bill from the Board of Trade for \$51—the expense of two delegates sent to interview the C. W. & L. E. officials at Towanda regarding the extension of the line to the Lake. He moved its payment.

Ald. Stephens objected, on the grounds that the Council had already made an appropriation of \$200 in favor of the Board of Trade. He was of the opinion that the bill should be paid out of this.

Ald. Westman replied that the bill had been incurred before the appropriation had been made.

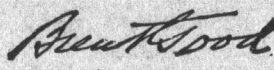

Ald. Stephens said that he was not objecting to the amount of the bill, only he thought that the proper procedure for the Board of Trade was that they should use the funds already voted to them before asking for more. If they needed more mon-

ey later on, the Council could vote it to them.

Mayor Stone said he would rather see the bill paid than have any friction with the Board of Trade. Everything had gone along most harmoniously so far, and he was anxious to see things continue so. He referred the matter back to the committee in order that an amicable arrangement might be arrived at.

Heavy 'Quake Recorded.

Washington, July 2.—The coast and geodetic survey service reports that an earthquake was recorded at Cheltenham, Maryland—observatory yesterday, beginning at 6 hours, 15 minutes and 33 seconds and lasting an hour. The principal disturbance was from 8.22 to 8.25 o'clock, the largest motion being in a north-south direction. The shock was comparatively greater than that at Kingston, but not so great as the San Francisco earthquake.

Albany, N. Y., July 2.—The seismograph at the state museum at Albany registered a fairly large earthquake movement yesterday morning. The disturbance originated apparently at a remote point about 7,000 miles to the southwest.

According to State Geologist Clarke, "it is not unlikely that considerable damage may have been done if it occurred in a settled area."

SUCCESSFUL PICNIC

The largest picnic in the history of the Township of Dover was held on Monday under the auspices of the Baldoon Methodist church in Doyle's bush on concession 13, Dover. It is estimated that over 1,000 people were present, and one of the most enjoyable events of the season was held.

In the afternoon a program of races and games was arranged. There was races for the children, girls and boys, for the young men, old men, and fat men. A tug of war between Chatham and Dover was an interesting feature, and was one of the best laugh producing occurrences of the day. A program of speeches was given by Rev. Mr. Bristol, H. S. Clements, M. P., J. M. Pike, G. W. Sulman, Councillor Fox and Deputy Reeve Crawford. A. B. McCoig acted as chairman. The Salvation Army band played excellent music for the occasion, after which a supper was provided by the ladies. The success of the occasion is an honor to the people of the Baldoon Methodist church, and they are to be heartily congratulated on the same.

BUSINESS COLLEGE RESULTS

The annual examinations at the above institution were completed last week, and the results have just been announced. The competition for all the medals was strong, particularly in the business department, where the result for the gold medal for general proficiency proved to be a tie between Messrs. W. B. Stark, of Hanley, Sask., and G. A. Barker, of Sidney, Crossing, Ont.

This is something that has never before happened in the history of the institution, and the decision arrived at by the principal was to award a gold medal to each of these contestants, and the silver medal goes to Mr. H. A. McQuarrie, of Ailsfeldt, Ont., who was a very close second, being only ten marks behind the two who stood first.

The gold medal for mathematics goes to Mr. W. B. Stark, and the silver medal for rapid calculation to Mr. W. B. Stark, of Wilkesport. This young man broke the record for rapid addition, as he added 40 columns of 21 figures each in five minutes, while the best previous record was 37 columns in the same time.

The medal for the best set of books was awarded to Mr. J. D. Caley, of Port Dover, Ont. The penmanship medal goes to Mr. Sinclair Herd, of Vancouver, B. C.

Diplomas were awarded to the following in the business department: G. A. Barker, H. A. McQuarrie, W. B. Stark, Mabel McKellar, Chatham, Ont.; C. B. Seord, Kent Bridge; Norman Appleyard, city; W. Easton, Wilkesport; Wilfrid McCorvie, city; and P. C. Green, Eberts. A number of others have a little work to complete before finishing the examination, and no doubt in about two or three days a few more names will be added to the above list.

In the shorthand department the gold medal for general proficiency was won by Miss Margaret Young, of Harwich. Miss Young passed a very creditable examination, as she received the highest number of marks that any candidate in this department has ever received, her standing being an average of about 90 per cent. of the total marks obtainable. Miss Flora Cudmore, of Hensall, Ont., wins the silver medal for general proficiency, and also the gold medal for the highest speed in touch typewriting. In this department the following received diplomas: Miss Margaret Young, Miss Flora Cudmore, Miss Susie McConnell, of Port Burwell, Ont.; and Miss Maud Paul, of Bluevale, Ont. In this department there are also some candidates who have a little work to complete before receiving their diplomas.

A SAD ACCIDENT

The following from a Winnipeg paper gives the full details of the accident whereby little Walter Plummeridge, son of Wm. Plummeridge, formerly of this city, lost his life in the Western city:

While playing on Ellice avenue near Maryland street yesterday Walter M. Plummeridge, aged 4-12 years, was run over and instantly killed by wagon No. 8 of the city asphalt plant. The driver of the wagon was John McDonald, of 402 Dufferin avenue.

The tragedy, which has robbed a home of a happy little boy, who was the pride of not only his parents and relatives, but of the entire community, happened about six o'clock. Little Walter lived with his parents at 431 Agnes street, and for a child of his age had shown exceptional brightness, and was a great favorite among his little playmates.

In company with a brother and another boy, Walter went romping out and noticing the tar wagon, the two elder boys ran along side of it, trying to pick out some of the substance, the younger lad following their example. It was while the little fellow was near the wagon that he stumbled and fell, the back wheel passing over his head, crushing it horribly and killing the boy instantly. The body was subsequently removed to Thomson's undertaking rooms.

Witnesses of the deplorable affair state that the driver of the wagon was not to blame. The horses were proceeding along very slowly. Recently a number of asphalt wagons, have been passing Ellice, on their way to Victor street, which is being paved. Numbers of boys have followed the wagons and picked pieces of tar out of them, finding great delight in making it into balls and various objects.

The wagons, which are made specially for hauling tar, are very long, the wheels being quite a distance apart. The fact of the wagons going so slowly and that there is quite a distance from wheel to wheel led many of the boys to think that there was no danger attached in running up to the side of the wagon when it was in motion, and the practice had been a very common one.

McDonald is an experienced driver and had just purchased the wagon he was driving, the day previous.

Coroner Inglis, after viewing the remains, decided that an inquest was unnecessary.

Mr. Plummeridge, father of the little fellow, is manager of the wall paper department of the T. Eaton Co. The funeral of the late Walter M. Plummeridge, who died from being run over by a wagon Saturday, took place yesterday afternoon at 2:30 to Elmwood cemetery. Rev. Mr. Robertson took charge of the services at the house and the grave. The grave was covered with many beautiful floral tributes, showing the

team in which the little fellow was held. Among those who sent flowers were: Manager T. Eaton Co., Limited; Mr. and Mrs. J. C. Eaton, Mr. and Mrs. A. A. Gilroy, The T. Eaton Co., Limited, Maryland Methodist church Sunday school primary department, Holmes street Presbyterian Sunday school, Florence and Lawrence Enright, Mr. Fairchild, Mrs. Moore, Mrs. P. McBeath, Vera M. James, Margaret and Rattie Burke, Charles and Sidney Turner, Victor Kempton, Willie Johnson, Morris Connelly and Lawrence Burke.

The Modesty of Women

Naturally makes them shrink from the delicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of proven composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

Vanity.

Little Fred—Why is it that women are always complaining about their servants? Little Elsie—Oh, that's just to let people know they can afford to have 'em.

Blenheim, June 2.—C. B. Stover, dentist, of Windsor, was a Blenheim visitor on Dominion Day.

Mr. W. E. Hall spent Sunday and Monday at his cottage at Erieau.

Mr. N. L. McLeod, manager of the Standard Bank, Blenheim, accompanied by Mrs. McLeod, enjoyed the lake breezes at Erieau over Sunday. Dr. Storey, accompanied by E. W. Knight, made quick time with his runabout while going to Ridgeway on Sunday night to attend the Masonic service held in the Church of the Advent.

Mr. and Mrs. Ira Burke and daughter Alice returned from Erieau yesterday, where they had been spending Sunday with friends.

Mr. A. Ashley Cooper, who has spent the last two weeks at Trinity rectory visiting his mother, left last night for Guelph to resume his position on the staff of the Bank of Montreal.

A great many went from Blenheim to Erieau last night to attend the first band concert of the season.

Mrs. R. M. Thompson, who has been visiting in town for the last two months, leaves to-morrow for her home in Cleveland, Ohio.

W. T. R. Smith, who has been away having his holidays, has returned to his position on the staff of the Bank of Commerce, Blenheim.

Dominion Day passed off very quietly at Blenheim, a great many people taking advantage of it being a holiday and going to Detroit, Erieau, and other points.

The local Orange Lodge will attend divine service in Trinity church, Blenheim, at seven p. m., next Sunday, July 7th. The rector, Rev. G. McQuillin, will preach a special sermon for the occasion, and there will also be special music by the choir.

Mr. G. Scroggie, who has been spending his holidays in town, left last night for Windsor, where he is member of the staff of the Bank of Commerce.

The stringed orchestra, under the leadership of Mrs. J. O. Laird, drove to Highgate last evening, where they were engaged to play for the evening.

Mr. and Mrs. O. K. Morris will move to Erieau this week to Miss Bonnell's cottage, which they have engaged for the season. They will be accompanied by Mr. Morris' mother, Mrs. J. K. Morris, of Blenheim, who will stay for a few days.

HAD HIS REASONS.

Gelsomina was searching for a wife and said to his friend, Barbetta that he wanted one rich and stupid.

And why?
Because if she is not rich, I will not marry her, and if she is not stupid she will not marry me.

SPORT

THE TRACK

At the meet held in Stratford on July 2, Peter Miller, a well-known horse in this city, captured the 250 pace, after having dragged the 250 the wire in fourth position in the first heat. King Bars, the Listowel gelding, sprung a surprise in the last heat of this race by stepping along behind the winning gelding into second place. Ideal and Jerry Dillard, who were heavily backed for first and second finished third and fifth in this heat. Jerry Dillard is owned by McRae, of Wallaceburg.

THE LOCAL COURTS

Benjamin Brodie, the young man charged with violating the transient trader by-law, was up again this morning for a hearing in Police Court. Brodie deals in house furnishings, carpets, linoleums, rugs, silverware, clocks, tapestry and curtains. He sold on the installment plan, goods which are manufactured out of the city, and did not take out any license to do so.

City Solicitor O. L. Lewis prosecuted, and Ward Stanworth appeared for the defense. Among those called upon to give evidence were Mayor Stone, Ald. Westman, City Clerk Merritt, Ed. Jordan, Peter Mitgis and Edward Jenkins.

The prosecution held that the defendant was a transient trader or peddler, and in default of paying a license, was liable under the by-law. The defense contended that the license—\$100 per year—is prohibitory, and the by-law therefore is an unjust one.

Judge Houston reserved judgment for a week, and asked the counsel for both parties to send in written argument. He stated that the case now rests on the point as to whether the cost of a license was prohibitory or not.

In the County Court yesterday, before Judge Houston, T. Mallou, of Tilbury, pleaded guilty to selling liquor to minors. He was fined \$40 and the costs—\$48.13 in all. Mrs. Elos Palmer, of Merila, was fined \$54.33, including the costs, on a charge of selling liquor without a license. Crown Attorney Smith prosecuted, and W. G. Richards appeared for the defence.

Arthur Goodson, of Tilbury, who is charged with stabbing Jeff Mallou, of the same place, was arraigned before Judge Bell yesterday, and elected to be tried by jury at the County Sessions in December.

Crown Attorney Smith prosecuted, and J. M. Pike appeared for the defence.

A SERIOUS FIRE

The sheds of John F. Liddy, Colborne street, at concession 1, Harwich Township, were completely destroyed by fire at noon on Monday.

The fire is supposed to have started from sparks from a passing train. The sparks alighting on the roof began the blaze, and in a short time the sheds were doomed. The other buildings were saved by the clever work of several men by using pails of water. The waterworks refused to work and no pressure whatever could be had.

The loss of the buildings will amount to about \$300. No insurance.

NEW CITY CLOCK

The new city clock arrived on Sunday and will, it is expected, be in its place by Saturday. An expert from Boston will be here to-night to look after the placing of the clock.

It is one of the finest clocks constructed and has a five foot dial. The bell is beautifully toned, and it is expected that on a calm day it will be easily heard at Birkenhead.

The citizens of Chatham will be glad to hear of the arrival of the new clock, and will also wish for its speedy erection. It has also been mentioned that an electric tapper or hammer may easily be connected with the fire hall, and it is up to the Property Committee to look into the matter. The tapper would not interfere with the clock but would be an entirely separate device. The idea is a good one and might be looked into.

WHITE MAN LYNCHED.

Assaults Step Daughter and is Hung in Centre of the City.

Dalton, Ga., July 2.—Dock Posey, a middle-aged white man, the self-confessed assaulter of his nine-year-old stepdaughter, was taken from the Whitefield county jail here yesterday morning and hanged to a railroad viaduct in the middle of the city. His body was found there at daybreak.

Posey, who lived with his family some miles from town, brought the girl here after the crime and first accused another man of the assault.

BLUE PILLS NO LONGER USED.

When the stomach needs cleansing, the bowels increased activity, the liver, additional power, don't use mercurial pills; try Dr. Hamilton's Vegetable in composition, extremely mild, yet sure to flush out all impurities and wastes, no remedy is so well adapted for family use. Positively a cure for biliousness and sick headache, unrelenting constipation and bowel trouble, especially good for indigestion, no medicine is so universally needed in every home as Dr. Hamilton's Pills. Good for the young, the old, the sick and the well ones, the benefits of Dr. Hamilton's Pills are manifold. Sold everywhere in 25c. boxes.

Father Accused of Murder.
New York, July 2.—Thomas Boylan, father of little Viola Boylan, who was assaulted and murdered several days ago, was arrested by the police yesterday and taken before a magistrate, but was discharged, there not being sufficient evidence against him to warrant his detention.

DOES YOUR HEART FLUTTER?

You know heart fluttering means you're not as well as you should be. It's an evidence of impaired nerve and muscular power. To obtain cure, try Ferrozone; it has a special action on the heart, as seen in the case of Thos. Grover, of Cole Harbor, N. S., who says, "If I exerted myself it would bring palpitation. To carry any heavy weight, or go quickly upstairs, completely knocked me out. When bad attacks came on I lived in fear of sudden death. Ferrozone gave me heart, the very assistance it needed, and now I am quite well." For heart or nerves it's hard to exceed Ferrozone; 50c. per box at all dealers.

Sentenced for Bigamy.
Welland, July 2.—Police Magistrate Burger yesterday sentenced H. Gibson of Sherbrooke to three months in jail, and let Mrs. Sidney Bean go on suspended sentence for bigamy.

This couple, who both have former partners living, went to Buffalo two weeks ago and were married.

WHY CHEST COLDS ARE DANGEROUS.

They lead to pleurisy and pneumonia. Follow the Advice of W. H. Powles, of Powles' Corners, Ont., says: "I used to be subject to attacks and although I used most everything, nothing relieved me quickly till I discovered Nerviline. I have used it for pleurisy and sore chest, and found it just the proper thing. For Lumbago or Neuralgia it's as quick as lightning. I cheerfully recommend Nerviline. The strongest, cleanest, most pain-destroying liniment on earth is Pollock's Nerviline. 25c. bottles sold everywhere."

Woman Takes Poison.

Athens, Ont., July 2.—On Sunday evening Mrs. George Tackaberry of Plum Hollow, the wife of a prominent farmer, took a dose of poison. She had been in ill-health owing to nervous prostration and her mind was weakened.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart or the Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

CYPRESS KNEES.

How They Are Formed—Trees' Curious Blunt Roots.

The cypress knee is a familiar object in all the lowland forests of the south, but there are thousands of northern people who have never seen them, and there are many southern people, too, who have not seen them till they stumbled over them some dark night. The knee is of solid wood, has no limbs or leaves, is anywhere from six inches to six feet in height, and its rounded top and flattened sides give it very much the shape of a human leg bent at the knee till thigh and calf are brought together; hence the appropriate name of "knee."

For a number of years I was curious as to what part the knees played in the life of a cypress tree, writes a correspondent of Forest and Stream, for they are part of its root system and do not grow independently. They were not sprouts, trying to grow into trees, for they never developed branches, and the final conclusion was that their only use was for people to stumble over.

How and why such useless appendages to the tree were formed was a mystery until one day when drifting down a deep channel which had been washed through a cypress swamp the secret was exposed.

The earth had been washed away from the roots of some of the trees, and roots in all stages of growth were in sight. None of these roots was less than two and one-half inches thick and of uniform size clear to their tips or rather clear to their blunt ends, for there was no tip.

Nature intended these roots to grow in soft mud, and they were all right for that purpose, but when the blunt end of a root encountered something too hard to push through it bent or buckled in the line of least resistance, and this was generally toward the top of the ground, and the continuing growth of the root pushing the bend further upward made the bend closer, until finally the two arms of the bend were close together and they grew together, with one sheet of bark inclosing both.

STUDY YOUR HORSE.

If the Animal Has Mental Troubles, Try to Remedy Them.

To begin with, does your horse suffer from nostalgia or homesickness? Most horses do, and many rarely pine away and die from no other cause. We can at least, by making the poor creature thoroughly comfortable, do all in our power to "give his pain succor" and to make him happy and contented, for than homesickness of the acute and chronic form men know few more wearing ailments. Is your horse's disposition sociable or misanthropic? You don't know? Well, why not find out? Does it irritate him to have his yoke-mate or neighbors eating noisily and visibly while he does? Is privacy evidently his preference? Very well, then, by boards or zinc or tin or canvas stuff off both sides of his stall at the head so that he may eat in peace and live the isolated life which he prefers.

If he lays back his ears or snaps at his neighbors or fidgets and kicks at the partitions, etc., he does not fancy company—at least at meal-times—and he will be better, do better and (here the pocket comes in) keep more cheaply if you cater to his fancy. If, on the contrary, a "shy feeder," let him see other eats; even let him by a simple arrangement feed from the same manger as one of his neighbors, which is to be tied up short until Master Dainty has eaten all he will, when, upon allowing the neighbor to partake, the fastidious one will redouble his efforts to eat just to spite the late comer at the feast. The writer has used this plan with many poor feeders from race horses down and always with the best results.—F. M. Ware in Outing Magazine.

He Hadn't Changed a Bit.

The Smiths had invited the minister to dinner. As the last course was reached little Willie, who had been closely watching the guest almost continually through the meal, looked over at him once more and said:

"You haven't changed a bit since you started eating, have you, Mr. Curtis?"

"Why, no," laughed the minister. "Why do you ask that question?"

"Because," blurted Willie, confused by the pairs of eyes focused on him, "because I heard pa tell ma you'd make a big hog of yourself as soon as you got your eye on the corned beef and cabbage."—Bohemian Magazine.

He Had Had Some Help.

The man who applied at headquarters for a "little help" from the charitable association set forth his case with so much tact and moderation that the secretary was beginning to be favorably impressed.

"I can't ask them to do too much," the applicant said modestly. "You see," he continued, in an outburst of delicacy and ingenueness, "they paid for my wedding last month, and 'twas a real swell one."—Youth's Companion.

Pain of a Wooden Leg.

"Barney's wooden leg has been paining 'im of late," said Scholes to his wife.

"How can that be?" asked Mrs. Scholes irritably.

"Mrs. Barney has been thrashing 'im with it," was the explanation.

SKIN SORE 8 YEARS CURED IN A WEEK

Spent \$300 on Doctors and Remedies Which Gave No Relief—Skin on Limbs and Feet Rough and Sore—Work Often Impossible.

TRIES CUTICURA, WELL IN SEVEN DAYS

"Cuticura Remedies have entirely cured me after all other remedies had failed. Up to a week or so ago I had tried many other remedies and several doctors, and spent about three hundred dollars, without any success, but this is to-day the seventh day that I have been using the Cuticura Remedies (costing a dollar and a half), which have cured me completely, so that I can again attend to my business. I went to work again to-night. My trouble was as follows: Upon the limbs and between the toes my skin was rough and sore, and also sore under the arms. I am a chef for a large cafe on Broadway, and I had to stay at home several times because of this affliction. I had been suffering for eight years and have now been cured by the Cuticura Remedies within a week. I am much indebted to Cuticura, and shall certainly recommend it to all my friends and colleagues in the kitchen. Fritz Hirschleiff, 24 Columbus Ave., New York, N. Y., March 29 and April 6, 1906."

HAIR FALLING OUT

Very Bad Dandruff on Scalp, Pimples Cover Face, Cuticura Cures.

"I used the Cuticura Remedies with great success. My face was a mass of pimples and the dandruff was so bad on my scalp that my hair all began to fall out, and a friend of mine told me of Cuticura and I began to use Cuticura Soap and Ointment. Before a month I saw a great change for the better, and now I am entirely cured. I had no physician in charge. My little girl is now four years of age, and knows the use of Cuticura Remedies. Soapy. Her skin is perfect and her hair remarkable for her age. Mrs. W. C. Howard, 132 N. Tenn. Ave., Atlantic City, N. J., Jan. 22, 1906."

Indian's Break for Liberty.

Edmonton, June 2.—The Indian Uellrum, imprisoned for horse-stealing, made a daring attempt to escape from the penitentiary. The Indian was working with numbers of other convicts at the brickyard. Being near the river bank, while the attention of the guard was for a moment distracted, he dashed for the bush, into which he disappeared. Guard Stewart captured his man, bringing him back at the point of revolver. Stewart was the captor of Bill Munn and his crew of train robbers in Kamloops last summer.

Toronto Man Drowned.

Buffalo, July 2.—While taking soundings from a dredge off the foot of Porter avenue, yesterday, Joseph Roach, a deckhand 24 years old, employed by the Empire Engineering Co., which is deepening the harbor near the Buffalo Yacht Club, fell in with the water and drowned. The body was recovered and removed to the morgue.

Fellow workmen said Roach was an excellent swimmer, but it is thought his clothes hampered him. He lived in Toronto.

Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child. The chances are it can't help it. The treatment also cures adults and aged people troubled with urine difficulties by day or night.

ANCESTRAL APPETITES.

Table Feats of Some Famous Feeders of Bygone Days.

A generation holding critical views on a man's intelligent, or unwise, choice of parents is not likely to indulge in ancestor worship. But there are at least one or two things in which our ancestors were truly greater than we of the present day can ever aspire to be. Take them, for instance, at table. If ancient books on table etiquette are to be taken seriously, and there is no reason why they should not be, the ancestor was in the habit of gnawing bones a la chien and of disposing of them by the simple means of throwing them under the table or over his shoulder. He worked hard with his hands in the dishes, when a succulent but slippery morsel refused to come to him by means of knife and fork. He used his table napkin for unspeakable purposes and his fork in utter forgetfulness as comb or toothbrush. In one sense, therefore, he did not know how to eat. Meanwhile, in another, he was truly great for the quantities of food which he caused to disappear at a single meal were nothing short of marvelous.

The records preserved of the ancestor's feats of the fork (and the finger) are woefully thin, but now and again one of these very human documents in the form of a menu is unearthed, and tells its own story. Such is the following list of dishes served in 1334 to a worthy citizen of Valencia on the occasion of his taking unto himself a wife. Across the space of close upon the six centuries the cranes and lamproys, the peacocks and boars' head of the feast made fine display. This is the order in which the fourteenth century wedding breakfast was served:

MENU.
Roast crane, venison, lamprey, Peacock, pheasant, guinea fowl, osprey, snipe, pike, Baked pomegranates, burnt almonds, vegetables, fish.
Eel pie and toast.
Galantine of sprats and cheese cakes.
Pheasant, crane, pheasant.
Crayfish, boar's head and savouries.
Figs, medians and wafers.
Wines.
Saint Jagon, Brance, Burgundy and Hock.

The Italians also were famous feeders and seem to have distinguished themselves in particular during the early days of the renaissance. The Bourbons valiantly followed suit, one of the most distinguished successes being scored by Louis XIV., of whom an eyewitness wrote: "I often saw him eat four plates of soup, a whole pheasant, a guinea fowl, a large dish of salad, several slices of mutton with garlic sauce, two large slices of ham, a dish of cake and dessert." The threats of his physicians finally reduced his majesty to such meager fare as two plates of pigeon broth and three roast fowls. According to Arenberg, the great king was later in life subject to attacks of indigestion.

The little suppers in the reign of the next Louis, though on a slightly less gigantic scale, are still amusingly impressive. The Marquis d'Armeny, for instance, put before her guests a star they came from the theater and before they went on to a dance this collection:

Pigeon soup, with lentils and carrots.
Chicken broth.
Patties of fowl, veal, capon, pheasant, guinea fowl.
Sweetbread and roast poulets.
Baked starlings, wood pigeons, wild duck and snipe.
Cakes, sweets, fruit.

It seems a pity no record is preserved of what happened at the dance following this supper party.

A Big Fan.

A good deal of royal significance has been given to fans. They were symbols of authority in Mexico before the conquest. Queen Mary of England reigned on New Year's day in 1558 "in fannes to keep the heat of the fire." Queen Elizabeth favored the custom that a fan was the only present a sovereign could receive from a subject. Fans have not always been dainty trifles. Jean de Balzac, a French writer of the seventeenth century, wrote from Italy during the reign of Louis XIV. of the enormous fans in use there suspended from the ceiling and worked by four servants. He says, "I have a fan that makes wind enough in my chamber to wreck a ship."

The Stone Was Not Thrown.

Genevieve's father occupied the pulpit. "Let him who is without sin among you be first to cast a stone," he chose for a text. Genevieve listened earnestly to the ensuing discourse. At the close of the service her mother tried in vain to dislodge her from the ministerial pew. Genevieve stood her ground till the rest of the congregation had passed out, then she looked up with a sigh of relief. "Well," she said, "I guess they've all sinned. Anyhow, nobody threw it."—New York Globe.

"Father," said the small boy, "what is an optimist?"
"An optimist, my son, is a man who believes the weather bureau when its predictions are favorable and who congratulates himself on its unreliability when they are not."—Washington Star.

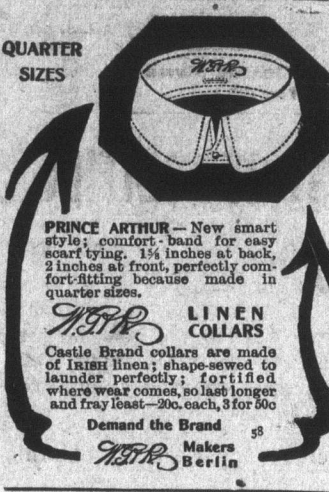

Its Hours.

"This watch will last a lifetime," remarked the jeweler as he handed the watch to the customer.

PEASANTS TAKE REVENGE.

Incendiary Movement in Russia Growing Serious—Estates Destroyed.

Tula, Russia, July 2.—The incendiary movement among the peasants, due to revenge for the dissolution of Parliament, has assumed serious proportions. Six large estates, including those of Count Vladimir A. Brombinsky, president of the Constitutional Conservative party, a marshal of the nobility and a monarchist member of the late Parliament, and Princess Vjadolskaya, were devastated by incendiary fires. The losses were heavy.

Fires get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by All Dealers.

Queer Marriages.

In southern India marriage with inanimate objects is not altogether unknown. A man who has lost two wives and wishes to marry another will go through a formal marriage ceremony with a plantain tree, which is afterward cut down. This stands for the third marriage, which is considered inauspicious, and the man feels free to make a fourth marriage with a third woman.

WINDSOR SALT—because it's pure, fine, clean, dry, piquant—used by most people all the time.

The Modern Version.

"I want my boy to be able to earn his own living."
"To earn it, Mr. Merger?"
"Well, to get it."

Hypocrisy is the necessary burden of villainy.—Dr. Johnson.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach troubles as well as many other chronic or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Therefore it cures weak stomach, indigestion, torpid liver or biliousness, and kindred derangements.

ICE DRIVERS MAKE TROUBLE.

Strike-Breakers Pelted—Police Take Charge of Wagons.

New York, July 2.—Police reserves were called to quell several street disorders yesterday when the American Ice Co. made an effort to break the strike of the ice drivers.

The company hired several scores of strike-breakers and issued an ultimatum that if the strikers did not return to work the new men would be put in their places.

When two wagons, driven by strike-breakers, drove from the company's pier on the East River yesterday a crowd of men set upon the drivers. Clubs and bricks were hurled and the police charged the crowd, which finally fell back. Two policemen were then assigned to each wagon.

More trouble occurred on Avenue C, when a score of men set upon a driver, but were beaten off by the police.

We all have our troubles.

C. P. R.'S NEW CROSS-COUNTRY FLYER.

"Trans-Canada" Makes Fastest Time Across America.

The business of the country is growing to such an extent that the C. P. R. finds it necessary to run an additional train between Montreal and Vancouver, making three trips a week during July and August. This train, which will be known as the "Trans-Canada Limited," will make the fastest time of any time across the American continent. It will carry baggage car, dining car, and sleeping cars only of the latest design and with most modern appointments, and only first-class passengers will be carried. The train will leave Montreal on the first trip July 2nd. Berths can be reserved in the points west of Winnipeg at which the "Trans-Canada Limited" stops. No passengers will be carried from Toronto for Winnipeg or points east thereof, as Winnipeg passengers arrive only one hour later by taking the "Imperial Limited." List of stops, full particulars and berth reservations can be obtained at C. P. R. local ticket office, or from G. H. Foster, D. P. A., C. P. R., Toronto.

The tourist's season is now on and we are advised by W. E. Bishop, general passenger and ticket agent, that he has some especially attractive tours for the summer season, including the following: The Temagami District, Georgian Bay, Lake Superior, River St. Lawrence and Gulf and Atlantic Coast points, and would be very pleased to furnish information to any intending passengers.

Fred is a popular boy, and his many friends are sorry to see him leave Chatham. He is a valued member of the Lacroix St. football team, by whom he will be greatly missed. His many friends wish him every success in his new home.

GOING TO COBALT

Mr. E. G. Taylor, for a number of years a resident of Raleigh, but who has lately been employed as a driver for the Wm. Gray & Sons Co., leaves shortly for the Cobalt. His friends assembled and gave him a present on the eve of his departure. The present was accompanied by the following address:

We, a few of your friends, having learned of your approaching departure from the city, desire to express our regret that you feel called upon to leave us, and we ask that you kindly accept this gift as a slight token of our esteem and good will. We assure you that you have our very best wishes for a bright and happy future in what ever field you may enter.

Signed on behalf of your friends, HUGH CARR.

Chatham, June 29, 1907.

HONORS FOR DR. BRAY

Kingston, July 2.—The council of the College of Physicians and Surgeons of Ontario met in annual session here to-day. Hon. Dr. Pyne was again nominated as registrar, a position he has held since 1880, but he announced that he could not accept the office again. His announcement came as a surprise.

Dr. J. L. Bray, of Chatham, who succeeds him, graduated from Queen's Medical College in 1883. Two years ago Queen's gave him an LL. D. The new president, Dr. W. Spradlin, of Wolfe Island, is also a Queen's man. He graduated as B. A. in 1862, and as M. D. in 1865. For years past he has been inspector of Frontenac schools, as well as medical practitioner.

Economy in buying a piano is always assured in the selection of a HEINTZMAN & CO. PIANO

(Made by the Old Firm of Heintzman & Co., Limited)

despite the fact that it is the highest priced piano made in Canada.

Economy comes in the fact that in this piano you have an instrument that will retain its musical characteristics and strength for years, however trying may be the use to which it is put. It is a piano that endures.

The lasting tone has ever been one of its chief characteristics. Of its beauty of tone nothing needs to be said. Here it reigns alone and supreme.

"I found the tone massive in its sonority and of very excellent quality with a particularly limpid tone in its mezzo tints."

ELECTRIC LIGHT QUESTION

Council Introduce Bylaw to Raise \$15,000 For Improvements

Municipal Board Express Opinion On Auditors Reports On Question

The electric light problem was again the subject of prolonged discussion at the meeting of the City Council last night. All of the members of the Council were present.

The debate on the electric light question was opened up by Ald. Potter of the Property committee, who read the report of the Railway and Municipal Board on the auditors' reports on the matter.

The Board complimented the work of both auditors in some respects, but they stated that in the matter of depreciation, both Mr. Falls and Mr. Taylor had submitted figures which were neither accurate nor satisfactory.

The Municipal Board forwarded a plan which they asked that the auditors follow out, and said that they would like to have the matter reported on by their engineer. They also stated that it is possible for the Council to pass a by-law authorizing the expenditure of \$15,000 for the improvement of the electric light works without submitting it to the people, provided the Municipal Board approved of the same.

They asked that the by-law be sent to them before it was given its third reading.

The discussion which followed was of a profitless nature, and nothing definite was arrived at until the by-law authorizing the raising of \$15,000 to improve the electric light plant was given its first and second readings. The by-law calls for the raising of the \$15,000 by debentures, to be paid off during a period of 20 years.

Finally, on the suggestion of Ald. Kerr, the Property committee were asked to send the by-law, along with full particulars for investigation to the Municipal Board.

DOVER STREET PAVEMENT.

Ald. Benson presented a petition from residents on Dover street asking that a bituminous pavement be laid on that street. The Clerk reported that the petition was insufficiently signed.

Ald. Potter moved that in the public interests the Council pass a resolution authorizing the laying of the pavement, as per the prayer of the petitioners.

Ald. Benson here rose to say that he would not vote for any more paved pavements, and he was followed by Aldermen Kerr, Bullis and Stephens, all of whom wished to see the petition laid over.

The petition was laid over to be dealt with at a later meeting.

ROUTINE MATTERS.

A letter from President L. A. Cornelius, of the Wolverine Brass Works, was read, stating that he and his brother would arrive in the city for the purpose of seeing out a site on Tuesday, July 9. He also stated that the heavy timbers for the Chatham factory had already been shipped.

The R. C. Separate School Board asked for \$800 on account of taxes to meet current accounts—Granted.

The Standard Bank tendered for the carrying of city loans and debentures at the rate of five and one-quarter per cent. This was the only tender received.

A petition for a sewer on Inches avenue could not be dealt with, as it was short one name of being sufficiently signed.

L. G. Read, of the Hornsby Gas Engine Company, notified the Council that he will be in the city to interview them next Thursday.

Peter Mitiga, peanut dealer, wanted to know from the Council what it would cost him to take out an exclusive license to sell peanuts on King street.—Received.

The Mayor asked the City Clerk to notify the North Chatham keeper of the pound to cut the weeds around the pound, and in the event of his not doing so, his resignation will be asked for.

The City Foreman was asked to look into a complaint relative to weeds on city property near Wm. Singer's property.

The M. Campbell Company asked that the Council take some immediate action to repair the holes in Colborne street pavement.

Accounts from Wilson, Pike & Co., for \$100.06 and \$62.23, were ordered paid.

Ald. Westman introduced a by-law making it compulsory for circus companies to put up a sum of money in good faith that they will take down all advertising matter placed on buildings in the city, after their show has left town. If the advertising matter is not taken down the circus people are to forfeit the money.

A CLEVER PIANIST

In the results of the musical examinations recently held by the Toronto Conservatory of Music, at the Ursuline Academy, it is noticed that Miss Donalda Foreman, one of Chatham's most talented young musicians, was most successful in obtaining the splendid results to which she attained.

Miss Foreman is the bright and charming daughter of Mr. and Mrs. William Foreman, Adelaide street. She has had a most successful career in the study of music, and is even now one of Chatham's favorite concert performers. Her many friends will be pleased to hear of her latest success.

Man never knows how hard life can be until he has lost a soft snap.
