

THE ACADIAN AND BERWICK TIMES.

HONEST, INDEPENDENT, FEARLESS, DEVOTED TO LOCAL AND GENERAL INTELLIGENCE.

Vol. VIII.

WOLFVILLE, KING'S CO., N. S., FRIDAY, APRIL 5, 1899.

No. 33.

CASTORIA

for Infants and Children.

Castoria is so well adapted to children that it is recommended as a purgative for infants and children of all ages. It is a safe and reliable medicine, and is the only one that is so well adapted to children. It is the only one that is so well adapted to children.

THE ACADIAN.

Published on FRIDAY at the office WOLFVILLE, KING'S CO., N. S.

TERMS: \$1.00 Per Annum.

(IN ADVANCE.)

CLUBS of five in advance \$4.00

Local advertising at ten cents per line for every insertion, unless by special arrangement for standing advertisements will be made known on application to the office, and payment in advance is necessary.

The ACADIAN JOB DEPARTMENT is constantly receiving new type and material, and will continue to guarantee satisfaction on all work turned out.

News communications from all parts of the county, or articles upon the topics of the day are cordially solicited. The names of the party writing for the ACADIAN must invariably accompany the communication, although the same may be written over a fictitious signature.

Address all communications to DAVIDSON BROS., Editors & Proprietors, Wolfville, N. S.

Legal Decisions

1. Any person who takes a paper regularly from the Post Office—whether the agent of the publisher or not—is responsible for the payment.

2. If a person orders his paper discontinued, he must pay up all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether the paper is taken from the office or not.

3. The courts have decided that refusing to take newspapers and periodicals from the Post Office, or removing and leaving them uncollected for some face evidence of intentional fraud.

POST OFFICE, WOLFVILLE

Office Hours, 8 a.m. to 8 p.m. Mail is carried up as follows: Halifax and Wolfville close at 6:50 a.m. Express west close at 10:35 a.m. Express east close at 5:15 p.m. Kentville close at 1:15 p.m. G. V. RAND, Post Master.

PEOPLES BANK OF HALIFAX.

Campbell's Cathartic Compound

It cures Constipation, Bilious Disorders, Headache, Neuralgia, Dropsy, Indigestion, and all the ailments of the bowels. It is a safe and reliable medicine, and is the only one that is so well adapted to children.

Selected Poetry.

"Thou Shalt be Satisfied."

Impatient, struggling, weary one, Craving that which can never be won, In the beyond, when life is done, "Thou shalt be satisfied."

Fiercely toiling, seeking no rest, Cursed art thou where others seem blest, Doubting even that God knows best, "Thou shalt be satisfied."

Finished will be each tiresome task, Fallen will be each irksome mask, "Thou shalt be satisfied."

Earthly trials will then be over, Heaven be thine for evermore, And, with the loved ones gone before, "Thou shalt be satisfied."

Interested Story.

BIG HANNAH.

The dry-goods merchant, Jeremiah Poole, of Halifax, Nova Scotia, was not a rich man so far as worldly goods were concerned, but, if a man is blessed with olive branches number seven he was to be envied.

Seven young Pooles assembled together around his table three times a day and many a sigh did he heave as he saw what terrible loads their vigorous young appetites made on the contents of his larder.

Mrs Poole was a fair-haired woman with a perpetual smile, which looked somewhat frost-bitten. She was accustomed to pacify duns, and lived in a state of tension, always unsuccessfully striving to make both ends meet.

"Mamma," said the eldest child one day, "there is a woman at the door who says she heard you wanted a girl."

"So I do, Abbie," replied the mother, "but we must get Jane out of the house first. She is saying the most terrible things about not getting enough to eat and the scarcity of blankets on the servant's bed, and I am sure I do the best I can. If the new girl hears her she will be just as saucy as Jane herself."

"Well ma, I'll tell her to come to-night, and meanwhile we can get rid of Jane."

The Pooles lived in a tumble-down, wide-spreading cottage in the middle of a big garden, a short distance out of the city.

There were not famous tidings, and were glad to get any kind of a servant, not having the face to be particular as to references, for help was scarce, and they were poor.

Mrs Poole was a painstaking but remarkably unsuccessful housekeeper. Her children had been allowed to come up anyhow, and partook largely of their parents' shiftlessness. They were a healthy and handsome crowd, but everything was at sixes and sevens in the home of the Pooles.

Jane was disposed of, not without trouble, and the new girl came and took her place.

The young Pooles immediately christened her "Big Hannah," for her proportions were indeed massive. Her form was tall and square built, and her hands and feet were large. Her face, however, was handsome, but heavily sunburned, and the features somewhat masculine.

Big Hannah was strong and active and worked with a will. She swept, and the worn and fragile carpets fairly flew off the floor; she dusted, and a breeze rushed through the house; while her exertions were always accomplished by a cheerful whistle, which seemed odd and somewhat out of place on the part of a female domestic.

Mrs Poole delighted in her, for never had there been found such an adept in the art of getting rid of duns; and the children loved her, for she excelled all other servants, male or female, in putting up swing tiles, etc., etc., and seemed to enjoy this portion of her duties more than her regular work.

Everyone knows that Halifax is a garrison town, and that desertions from the ranks of the regiments of the British army stationed there are numerous.—The single report of a heavy gun from the citadel, or one of the forts by which the harbor is surrounded, is the signal that a man has deserted, and the look-out soldiers are warned to search for him without delay. The punishment, too, for the crime of desertion was one time terribly severe. The offender was "triced up to the

THE ACADIAN.

WOLFVILLE, N. S., APRIL 5, 1889.

The Franchise.

The Franchise Bill introduced into our Local Parliament during the present session does not seem to meet the expectations of either of the political parties of the day if we are to judge by the utterances of their several organs.

Universal suffrage has been for a long time anticipated and desired, and it was expected that when the government should bring down a measure for the extension of the franchise it would be so liberal as to extend to every male person of the age of 21 years and upwards subject to the proper condition of citizenship and having no legal disabilities.

The weight of the argument from the government side of the house seems to be that the intelligence of our people is not at present high enough to be intrusted with so important a boon. It is a sad commentary upon our boasted land of free schools and colleges when we have to admit that our intelligence is not sufficiently high to enable us to enjoy the privileges of our neighbors in New Brunswick, Prince Edward Island and other provinces whom we have never considered above us either in education or intelligence.

In the new franchise bill are to be found the most of the objectionable features of the Dominion Franchise Act without a corresponding number of desirable ones. Taking it all together it appears to be a very bad imitation of the Dominion Franchise Act.

The grounds of justification for property qualifications are extremely small and there seems to be no just reason why the person who owns \$300 worth of personal property or whose income amounts to an equal amount in 12 months should be any more entitled to a voice in the selection of those who are to preside over our Municipal or Provincial matters, than has the person who owns but \$299 or a less amount or who earns a similar sum during the twelve months.

A Thriving Business.

We have before omitted to make reference to the improvement which our enterprising Boot & Shoe dealer, Mr. C. H. Borden, has recently made in his store. The partition between the front and back shops has been removed and the store extended the entire length of the building, making one of the most convenient and attractive places of business in the county. Mr. Borden began business in Wolfville about eight years ago and by strict attention to the wants of his customers has built up a large business and succeeded in drawing trade from distant parts of the county. For some time past it has been evident to him that his business required more extensive quarters, and this spring he determined to have the change we have referred to. Mr. Borden has also made some changes in his lines and has added to his stock of boots and shoes, hats and caps, and genteel furnishings of all kinds, a large stock of ready-made clothing. He informs us that he is carrying a much larger and better stock in all lines this year than ever before and the appearance of the shelves of his shop prove this to be true. Persons wishing anything in his line may be pretty sure of getting it at Borden's. His stock is always fresh and in the latest style, and he is always ready to wait on customers. His brother, Mr. C. R. Borden, who last fall returned from a five years' stay on the Pacific coast, will assist him in making it pleasant for customers. We are glad to see these signs of prosperity in the affairs of our townsman and wish him a good season's trade.

Canning W. C. T. U. Meeting.

Since the organization of the auxiliary of the W. C. T. U. here in January last the initiation has gradually advanced, its members now number thirty-three with every prospect of increase.

Two public meetings have been held; the last on Saturday the 30th inst., the principal features of which was a very excellent paper by Mrs. W. L. Chittier, on "Building," and an eminently practical address by Mrs. Wm. Trenholm, both these ladies, who are members of the Hantsport Auxiliary, did admirable work for the cause. Rev. Mr. Kempton and Capt. Joseph Toiker addressed the meeting in an impressive manner, Miss Effie Woodworth recited a poem in commendable style, and Mrs. Dr. Eaton read an interesting article entitled "A Thrift at the Decanter?" these, with suitable music by the choir, constituted the programme. The choir was occupied by the President, Mrs. L. E. Tost. Several signed the pledge.

Work on the Cornwallis R. R. is steadily progressing.

W. A. Payzant, dentist, has just returned from dental college and is prepared to do finer work than ever. All kinds of dental work done by the latest methods. Office at his residence, Station street, opposite Acadia Hotel, Wolfville.

C. W. Bishop wishes to inform the people of Wolfville and the neighboring country that he is prepared to do all kinds of painting, paper-hanging, kalsomining and glazing in best style. Send along your orders.

Progressive Nova Scotia.

A CORRESPONDENT VISITS EASTERN NOVA SCOTIA WITH HIS EYES OPEN.

Mr. Editor,—Many persons are inclined to think that our province does not make such rapid strides in improvements and industry as we observe in other places. Some of these professional grumblers think that we shall never prosper as a country unless annexed to the United States; but if some of these persons should take a trip through our land with their eyes open they might find much that would agreeably surprise them.

During a recent trip in some of our eastern counties I have been astonished to note the progress in every trade.

Even in our slow and conservative capital, Halifax, for instance, there are several things that will attract notice. The new dry dock, which, when finished will be of immense value to the city, as ships of any size can be repaired at all times of the year; new freight sheds on the wharves, with rail tracks running to them; the N. S. Sugar Refinery, although not comparatively recent carrying on a large and profitable business; the Cotton Factory running on full time;—these are some of the industries which deserve attention. Also, we might speak of the new steamer Halifax, owned and managed by N. S. capitalists, which makes her trips from Halifax to Boston in the winter, and Cape Breton, P. E. Island and Boston in the summer.

Taking a run up the I. C. R. the thriving, go-ahead town of Truro contains many objects of interest. Besides the well-known schools there are a number of foundries, factories, mills and canning establishments which are doing a large business.

I wish to speak also of the Provincial Agricultural Fair, under the management of Prof. H. W. Smith, lately started, where young men can learn, at a small cost, the science of farming.

In New Glasgow we find a veritable hive of industry; three or four foundries, the glass works, steel works, and forge works, some of these being the largest of their kind in the Dominion. Through the kindness of the manager, Graham Fraser, we were also shown through the steel and forge works. They manufacture the gas for smelting the iron and scrap iron. About three hundred men are employed, and the amount and style of work would astonish anyone who had not witnessed the like. They make spring teeth for harrows, horse rakes and springs for reaping machines. One man gave an order for 8,000 harrow teeth. A firm ordered 3 car loads, (about 24,000), another 25,000 springs for seed sowers; the majority of which go to the Upper Provinces. The forge works are turning out large quantities of iron axes, ship knees and other heavy work.

The coal mines in this section are too well known to need a description, but mention might be made of the Acadia or Londonderry Iron Mines, which are now in successful operation.

In Cumberland Co. we had the opportunity of visiting the Dominion Experimental Farm at Nappan, which is superintended by our genial friend, Col. Wm. Blair. He is draining the farm with tiles and testing different kinds of fertilizers, planting grains, roots, apple trees and small fruits; and keeps a record of the growth and value of everything raised there. A large barn has been erected where they intend to keep improved kinds of stock. They have six fine looking horses now.

The work has been started on the Short Line Railway, which will connect Oxford, Cumberland Co., and Pictou. Other lines of railway are under contract and process of construction, as, for instance, the Chignecto Marine, which will materially aid commerce in this vicinity. In contrast to the enterprise manifested in the eastern part of our Province in this matter of railroads is the progress being made to finish the missing link between Annapolis and Digby, so long needed to give a thorough route to Yarmouth.

One could enlarge further on this subject, but not wishing to trespass further on your valuable space

I remain yours,

AN OBSERVER.

Resolutions of Sympathy.

Whereas, it has pleased Almighty God, in his providence to call from our midst Bro. Thomas Wallace, and

Whereas, our Bro. Wallace was for a number of years a prominent member of Acadia Lodge, faithful in the discharge of all his duties, ready for every good work, honored and respected as a citizen;

Therefore Resolved, that we place on record this tribute to the memory of him whose kindly presence and wise counsel was ever appreciated.

Further Resolved, that we tender our most sincere sympathy to the bereaved family, asking them to remember, that he who has called our Bro. up higher, has promised to be a father to the fatherless; and also, that one for whom they mourn has passed all sorrowing and is now happy where the wicked cease from troubling and the weary are at rest.

Resolved, also, that a copy of these resolutions be sent to the family of the deceased, and that these resolutions be inserted in the ACADIAN.

On behalf of Acadia Lodge,

AUSTIN T. KEMPTON.

EDWARD BLACKBURN.

Now is the time to subscribe for the ACADIAN! If you are getting it now have it sent to a relative or friend.

Adaptation of Fertilizers to Crops.

SOME POINTS FOR FARMERS BY ONE OF THEMSELVES.

Plants require certain nourishments from the soil in common, though not all in like proportion. An examination into the analysis of the ash constituents of different field crops show vastly varying proportions.

An analogy may be found between the diversity of food requirements for plants and for those of animals. While all domestic animals require carbohydrates (starch, sugar), and albumen for the formation of flesh and muscle, and ash constituents for the formation of bone, yet the farmer deals out to his animals the foods containing these substances in such proportions and conditions as will suit the nature and period of growth. Some of these foods are bulky, some concentrated, and these containing greatly varying nutritive ratios. Perhaps in some cases, if the farmer were asked why he did this, he might at first be lost for an answer, but the fact remains and the feeding of animals is now reduced to a science in some sections.

If the farmer is to practice economy the great variety of agricultural plants must be treated in a similar way. It has been demonstrated beyond dispute that 95 per cent. to 99 per cent. of the entire mass of plants is derived directly or indirectly from the atmosphere. The part required directly from the soil consists of nitrogen, sulphur, potash, soda, lime, magnesium, phosphoric acid, chlorine, and silicon. The proportions of these, as has already been said, vary in different plants. And it must be borne in mind that the small per cent. derived from the soil is essential as though the whole plant came directly from that source.

Silica is an abundant ingredient of all soils; and chlorine, magnesium, soda, and sulphur are, for the most part, in sufficient quantities in all cultivable soils. Then the farmer is interested mostly in supplying potash, nitrogen, and phosphoric acid. Other substances, as salt (sodium chloride), and lime, are often useful, but may properly be called amendments rather than fertilizers.

In discussing the adaptation of fertilizers to crops, three things must be considered. First, the composition of the crop; second, the nature of growth; and third, the period and duration of growth. R. Warrington, F. C. S., says:—

"The true economy of manure can be understood only when we are acquainted with the special characters of the crop we cultivate. The composition of the crop is no sufficient guide to the character of the manure appropriate to it. It is not only the materials required to form a crop, but the power of the crop to assimilate these materials which must form the basis of our judgment. This fact has been much overlooked by many scientific writers, who have counselled farmers to manure their land in every case with all the constituents required by the crop, a proceeding both impracticable and unnecessary."

Then having a basis, it will be well to examine the constituents and characteristics of our common farm crops. The cereals—wheat, barley, and oats—resemble each other very closely in their ash constituents, and these contain much less nitrogen than the leguminous (beans, clover) or root crops. The amount of phosphoric acid found is not very different from that found in other crops. Phosphoric acid is, in fact, the most constant of all the ash constituents of crops. The root crops contain a large amount of nitrogen, and among the ash constituents potash greatly predominates. Hay, while it resembles the cereals, never matures its seed, or should not, and may be regarded as a straw crop. In accordance with this characteristic, hay is found to contain a larger amount of potash and lime than grain crops, and a much smaller amount of phosphoric acid.

Next, as to nature of growth: It is known that the spring sown grains possess fibrous roots and strike them to a moderate depth into the soil. Autumn sown grains (wheat and rye) have more deeply penetrating roots and a longer period of growth than the spring sown grains, and are better able to supply themselves with the necessary plant food from the soil. Mangels draw their supplies from quite a depth, while turnips strike their roots to a less depth.

Regarding the period of growth, the early spring is very important with the cereals, and they mature in the early part of autumn. For this reason a dressing with a fertilizer containing phosphoric acid and nitrogen is of great importance to them. Mangels require the full season for growth, from early spring to late autumn, and they possess, in a marked degree, the peculiar power of appropriating the phosphoric acid of the soil. Therefore, a fertilizer for mangels should be rich in nitrogen. Turnips, on the contrary, make their growth during the latter part of the season, feed near the surface, and have not the power of appropriating the phosphoric acid of the soil. They require to be supplied with this latter ingredient. Potatoes occupy the best growing part of the season, and while they are general feeders, yet they appropriate a large amount of potash.

If, then, in the purchasing of chemical fertilizers, the farmer wishes to practice economy and obtain "the largest return at the smallest cost" from the soil, he should sum up the foregoing and kindred facts, and something like the following will be the result:—For the cereals the fertilizer should be rich in phosphoric acid and nitrogen (a nitrate on ammonia);

for the grasses, clover and potatoes, the fertilizer should be rich in potash as well; for turnips, the most important element is phosphoric acid; for mangels, to obtain the yield, it is important that the fertilizer should be rich in the essential plant foods, except the nitrogen should be less in proportion; otherwise a large growth of foliage may be stimulated at the expense of the fruit. Phosphoric acid, potash, and the alkali salts should predominate for the fertilizing of the soil for fruit culture.

In the United States and Ontario the practice of applying special fertilizers has been observed for years, with the best results; but in the Lower Provinces for the most part, the one fertilizer has been sold for most purposes, which is not economy for the farmer, to say the least of it. To illustrate, a fertilizer suitable for potatoes or mangels worth \$40 per ton, should contain about \$3 worth more ammonia and potash, and about \$3 worth less phosphoric acid than a perfect fertilizer for turnips, making the fertilizer for turnips worth \$35 per ton.

TAKE NOTICE.—If your razor is dull, take it to J. M. Shaw's Barber Shop, and he will put it in first-class order for the small sum of 15c. 10

Minard's Liniment is the Best.

LECTURE.

—BY— Frederic Villiers.

—IN— College Hall, April 5th.

SUBJECT: "WAR ON A WHITE SHEET," OR

An artist's experience in the last decade.

Introduction.

How sketches are prepared for the Illustrated Papers. Our artist on a Pacific Field. Our Artist on a Warlike Field.

Russo-Turkish.

The Great Ravitza Redoubt and March of the Russians on Plevna. My Charger at Radahova. July, Plevna, Serbia. My Friend, Archibald Forbes. On the Heels of the Retreat. Sandwich and I in our Sleigh. The Death-tramp of the Plevna Prisoners. The Little Sister.

War and Peace in Egypt.

The Exodus from Alexandria. Lord Charley and the Ship of the Desert. His Hobby Horse. The Drill of the Fifers of the Conqueror. The Guns all Aport. The Conqueror before Marabout. Covering the Landing Party at Port Mex. Port Cameron.

Ruins of Alexandria.

Bluejackets in Clover. The Square. Officers of the Grenadier Guards. Arabi and his Counsel, A. M. Broadley.

To Abyssinia With the Mission.

Across the Desert with Herbert Stewart.

General Stewart. Burnaby. The Camel. A Mid-day Halt in the Desert. A Halt at Night. Sir Charles Wilson. Death of St Leger Herbert. The Square on the March to the Waters. The Great Rush on the Square. The Nile and the Wounded. Bureford's Boat. Woeful Tidings—Kartoum is Fallen.

Admission 35 Cents.

Students,

You can learn to write well and rapidly from the start. Indeed if you like you can follow a speaker quite easily. Probably you will find that a help in school as well as in business. How can I teach by mail? Well, it is not how much you write but the way. Many men write every day for several years yet do not become good writers. There are a great many habits that prevent success; they can be pointed by mail just as well as personally.

Actually three months is enough. The charge is \$4. The work is not much if the student is bright.

S. G. SNELL,

Windsor, N. S.

Send \$5.00 to

G. A. HUESTIS

For a genuine Waltham or Illinois Watch in Solid Nickel Case, or \$12.00 for the same kind of Watch in 3 oz. Coin Silver Case. Either watch warranted and sent by mail free on receipt of price. Address—

G. A. HUESTIS, Windsor, N. S.

All kinds of Watches, Clocks, Jewelry, Spectacles, Silverware, &c., in stock.

WE HAVE

HIT

UPON A PLAN

To Benefit Our Subscribers.

THE ACADIAN is pleased to announce the completion of special arrangements whereby it is enabled to offer its readers two of the best family journals for but little more than the price of one.

FOR \$1.50

We will send, for one year, to any address,

THE ACADIAN

and the Famous Family Weekly,

The Detroit Free Press

The Free Press is without question the

Greatest Literary and Humorous paper

now before the American people. It is

not a new aspirant for public favor;

established over fifty years ago, it has

stood the test of time, and is to-day

stronger, better and more popular than

ever—120,000 subscribers affirm its sur-

passing excellence. The funny sketches

and sayings of the Free Press are every-

where quoted and laughed at, while in

respect to literary excellence it will compare

favorably with the expensive maga-

zines. "M. Quad," "Luke Sharp," "Eva

Best," "Rose Hartwick Thorpe," "Chas. F.

Adams, Hamilton Jay, Lizzie Torke Case,

Bronson Howard, H. C. Dodge, and a host

of other favorite writers, contribute regu-

larly to its columns. Recognizing the

growing demand for first-class fiction,

1,000

Fine Florida and Jamaica Oranges, Lemons, Bananas, Cocoanuts, Dates, Prunes. Fresh Oranges and Lemons at 25c per dozen.

Choice American Onions, 5 Bbls. retailing at 3c per pound. 15lb Sugar (bright yellow) for \$1.00. Two bars Glasgow Soap, 5c.

Seeds, Crockeryware and Glassware. Wait for my spring stock which will be the finest in the county.

TEA 15 CENTS!

R. Prat,

March 23d, 1889.

THE ACADIAN.

WOLFVILLE, N. S., MAR. 29, 1889

Local and Provincial.

Hear Villiers.

BAPTIST.—Twenty-one persons were received into fellowship in the Baptist church on Sunday morning last.

FOR SALE.—Good Rockaway Coach and 1 good double seated wagon for sale very low. Enquire of this office.

WANTED.—A first-class Shoe Maker. Must be a thorough workman. Apply at once to F. J. LARKIN, N. S. Wolfville, N. S.

Hear Villiers to-night.

SLEIGHING.—More snow has probably fallen so far during April than we have had all winter. It was taken advantage of by a large number of persons and sleighs and sleds were numerous on our streets the first days of the week.

SPRING.—The gentle bull-frog was heard for the first time this season on the night of March 25th. But this was no sign of spring as the last days of March and the first of April were much more wintry than for weeks previous. The ground was covered with snow and sleighs were in order. Poor frog!

Wife Fencing, plain and barbed, and Posts at WALTER BROWN'S.

PERSONAL.—We had a pleasant call on Monday from Rev. Mr. Clark, of New-tax, who was spending a few days in Wolfville. The Rev. gentleman preached Sunday morning in the Baptist church and in the evening in College Hall, before the F. M. C. A. The sermon on each occasion is said to have been a good one.

A full line of Brushes of all kinds at WALTER BROWN'S.

THE BASIN STEAMERS.—The basin steamers will begin their regular trips next week, the Acadia leaving here for Parrsboro on Monday. The Hiawatha will also make regular trips this season to St. John as usual. We hope the boats may do a good season's traffic. See time table and particulars in another column.

Latest American Styles Ladies Hats opened this week at BURKEE WITTER'S.

WOLFVILLE DIVISION.—The officers of Wolfville Division, S. of T., for the current year were installed on Monday evening last as follows:—

W. P.—D. Davidson.
W. A.—E. Blackadder.
R. S.—F. B. Sanford.
A. R.—Miss Annie Caldwell.
F. S.—G. H. Paterquin.
Treas.—K. E. Bishop.
Chap.—Miss Eliza Wallace.
C. S.—R. Gilmore.
A. C.—Miss Etta Cook.
S. S.—Clifford Jones.
O. S.—F. Argus.

Johnson's Decoration Pure White lead; warranted equal to any lead in the market at WALTER BROWN'S.

RIE'S NEW ROOMS.—Mr Lewis Rice moved into his new rooms in the Paterquin building this week. They are much nicer than those destroyed by the fire, being very conveniently arranged and adopted for living first-class work. The entrance being directly off the street will also be much better. We are glad that Mr Rice has decided to continue the branch here and hope he may do a large business. This is the only first-class photo-studio in the county and as good work can be obtained here as in the Province.

Open this week at Burkee Witter's 2 cases prints in light and dark patterns.

THE "AT HOME."—We regret that we were prevented, through sickness, from attending the "At Home" given by the Acadia Athenaeum Society on Friday evening last. From those who were present we learn that all present enjoyed themselves heartily. The "At Home" was held in Assembly Hall, which was prettily decorated for the occasion. Among other pleasant features we hear of music by the College choir; readings by Miss Wallace, and violin music by Miss Manie Fitch, &c. Altogether this, the first "At Home" given by the members of the Acadia Athenaeum, is said to have been a grand success and to have reflected the greatest credit on those having the matter in hand.

Black, Brown, Orange and Alligator.

A SPLENDID ASSORTMENT JUST RECEIVED AT

Borden's, Wolfville.

Port Williams.

Mr Oscar Chase, of the firm of E. & O. Chase, Port Williams, the noted breeder of short horn Durham cattle, returned home last Saturday from a trip to Ontario, bringing with him another importation of this famous breed of cattle. This enterprising firm certainly deserve the approbation and patronage of the public in their laudable endeavors to improve this branch of the live stock of our county.

Cornwallis is celebrated for its fine Easter beef and this year is no exception. We would call special attention to the stock of Mr O'Blens, of Church St., and that of Mr Leander Eaton, of Canal St. A stream of visitors may be seen at either place or almost any day, and any lover of fine cattle would be well repaid for a visit to either or both places.

Mr McKay, of Stellerton, a graduate of Guelph Agricultural College, Ontario, who was appointed by the Provincial Grange to give a course of lectures throughout this part of the province, paid us a visit last month. On account of the misdirection of a letter he was not expected here, and no notice having been given, the lectures had to be postponed until some future time. Mr McKay however gave an address before Harmony Grange, of Sheffield Mills which was so well received as to insure him a full house when he visits us again.

Dr Fullerton has purchased the building lot a short distance north of the Baptist church, from the church of the Disciples, and expects to build thereon this summer. The Disciples had intended erecting a parsonage on this lot, but have instead bought the house formerly owned by Mr Power, situated on the cross road between Port Williams and Church St., which they intend to thoroughly renovate this spring. Opposite to this Mr Lewis J. Donaldson is building a house and outbuildings. Mr R. Bishop & Son, of Greenwich, have moved the building formerly standing at the end of the station platform to the north side of the track and are fitting it up to carry on the evaporating apple business—success to them.

Mr Benjamin Payzanson is getting a frame ready for a new barn. So with the above as a start, and more to follow, we bid fare to exhibit our share of the progressive spirit of the age.

Our genial postmaster is about moving from the old stand to the store close to the bridge, formerly occupied by Mr Bishop as a grocery store. This has been thoroughly repaired and forms quite an addition to our growing town. No doubt your readers in Port Williams will receive this issue from the "new stand."

Grand Pre Whispers.

The measles are still fashionable in Grand Pre. Our village has a writing class. A Pearson, one of Mr Snell's students, is the teacher.

Officers elected for the ensuing quarter in Evangeline Division:—

W. P.—Bro. W. K. Rathbone; W. A.—S. A. L. Denison; R. S.—Bro. W. C. Hamilton; A. R.—S. H. Patterson; I. S.—Bro. J. N. Fuller, M. D.; Treas.—Bro. I. H. Harris; Chap.—Sis. Mrs. A. R. Curry; Cond.—Bro. M. Duncanson; A. C.—Sis. L. L. Davidson; J. S.—Sis. L. D. Palmer; O. S.—Bro. V. A. Lyman; Organist.—Sis. A. A. Patterson.

The semi-annual meeting of the proprietors of the Grand Pre dyke was held in Evangeline Hall last Saturday, p. m. They waxed rather warm toward the dyke.

A BUTTERFLY.—Our little Canning friend, Miss Hattie Harris, being unable to send the usual May-flowers this year sends us instead a very pretty butterfly. Thanks.

CASH.—This week we have received from Mrs P. Constantine, Horton Landing, \$2.00; J. W. Harvey, Port Williams, \$2.00; from a subscriber who does not wish his name published, \$2.00. Total, \$6.00.

Minard's Liniment Cures Colds, etc.

Married.

COFFILL—SWEET.—At Wolfville, March 30th by Rev R. D. Ross, Herbert L. Coffill, of Horton Landing, and Jane Sweet, of New Ross.

WOOD—MCLEAN.—At Woodville, at the bride's parents', on the 27th inst., by the Rev. E. C. Ford, Mr Arthur Wood and Miss Bessie M. McLean, daughter of Daniel McLean, Esq., all of Woodville, King's Co.

BERWICK TIMES.

NEWS, NOTES, JOTTINGS, ETC.

Rev. D. O. Parker is our representative in Berwick, and is prepared to take orders for job printing and advertising. We are constantly adding to our plant, and will give prompt attention to all work. Get our prices.

—With this issue we lay one side the self imposed work which has indentified this paper for more than a year. For our own village of Berwick it has accomplished all and more than we anticipated. It has directed a number of most worthy citizens to elect their homes here, and there are several enterprising gentlemen now who would move here if there were houses to let. The state of our health, together with increasing business cares, make our retirement necessary.

—Mr Thomas Margison, whose sickness we noticed last week died quite suddenly on Saturday evening. He was buried at Gratton on Tuesday with Masonic honors.

—E. C. Davison has moved into his new house which he has been building this winter.

—Mrs R. Lydiard will build this summer as contemplated by her late husband.

—Mrs Messenger, from Kingston, visiting at her sons in Berwick, is quite sick.

—Isaac Shaw, Esq., is moving into his new quarters on Foster St.

Suicide of James T. Manning.

Our village was startled on Monday morning last by the news that James T. Manning, Esq., J. P., of Greenwich, had committed suicide by hanging himself the night previous. At first it was thought to have been some person attempting to perpetrate a gigantic "April fool," but shortly after reliable intelligence corroborated the truthfulness of the report.

It appears that when the family retired on Sunday evening they left him writing at his desk, which was not an unusual occurrence. After he had finished writing some letters, which were found upon his desk in the morning, he must have lighted his lantern and gone to his horse-stable. Fastening the door after him and hanging his hat and lantern on the wall, he took a small line which he fastened to a joist over the stable and made a noose in the end of it. By means of a box some 12 inches in height he was able to slip the noose over his head, after which he kicked away the box, causing him to be suspended by the neck, in which condition he was discovered in the morning by his son.

An inquest was held Monday afternoon by Coroner Fullerton, when a verdict was returned in accordance with the facts.

Deceased was well and favorably known in this county, having in early life followed the avocation of a blacksmith. Selling out his business some years ago he devoted his attention to the business of a Justice of the Peace, of which he was ever considered a capable and conscientious judge. In connection with his other duties he practiced the calling of an auctioneer in which capacity he excelled. The cause of this sad painful event is shrouded in complete mystery, although it is surmised that financial troubles may have had something to do with it. We extend our heartfelt sympathy in this their sad affliction.

HOSPITAL REMEDIES.

What are they? The growth of intelligence in medical matters has given rise to a demand for a class of genuine, reliable medicine. The opportunity of the ignorant quack, who grew rich curing everything out of a single bottle has passed. To supply satisfactorily this demand this list of remedies has been created. They are the favorite prescriptions of the most famous medical practitioners of the day, gathered from the hospitals of London, Paris, Berlin and Vienna. Prescriptions which cost the patients of these specialists from \$25 to \$100 are here offered prepared and ready for use at the nominal price of one dollar each. Not one of them is a cure all; each one has only the reasonable power of curing a single disease, and each one keeps its contract. Sufferers from Catarrh, Diseased Lungs, Bronchitis, Asthma, Consumption, Rheumatism, Dyspepsia, Liver and Kidney Complaints, Fever and Ague, Neuralgia, Female Weakness, Lencorrhoea or Nervous Debility, should send stamp for descriptive catalogue to Hospital Remedy Co., 803 1/2 West King St., Toronto, Canada. If your druggist does not keep these remedies remit price and we will send direct.

Died.

DAVIDSON.—At Greenfield, April 28th, Charles N. Davidson, aged 83 years.

WAITIN' FER THE CAT TO DIE.

Lawry! don't I've got it! That's the old swing in the lane! Right and proper, I expect. Old times pass, some back again But I want to state, of my own accord, and I could say 'What my cat was, 'y'ing!

WILD ASTERS.

How They Took the Place of Orange Blossoms.

It was very charming little shopping bag, and Sadie had wanted such an one for a long time. When she discovered it on her dressing-table her birthday morning it pleased her more than all her other presents combined, though some were more valuable.

Later in the day she had a shopping bag, and Sadie had wanted such an one for a long time. When she discovered it on her dressing-table her birthday morning it pleased her more than all her other presents combined, though some were more valuable.

ITEMS OF INTEREST.

Use Seavey's East India Liniment. 13 Minard's Liniment for Rheumatism. Minard's Liniment Cures Diphtheria. The Starr Manufacturing Company, of Halifax, made a net profit of \$12,000 last year.

Some hater of the canine race has been poisoning dogs at a wholesale rate in Antigonish. Evaporated vegetables are being shipped from Canning to Bermuda, for the use of the British navy.

A fact that all men with gray and many shaggy whiskers should know, that Buckingham's Dye always colors an even brown or black at will. Persons wishing to improve their manes or strengthen their power of attention should send to Prof. Loiseux, 237 Fifth Ave., N. Y., for his prospectus post free, as advertised in another column.

Another gold find in the streets of Halifax is reported. Gold quartz, containing some fine specimens, was discovered on Fenwick street, in the course of excavations for the street railway.

During the winter about 9,000,000 sup feet of logs have been cut in the vicinity of Bois Verte, 7 million of which will be handled by E. C. Gooden & Co., the balance by Messrs. McKean and Copp.

Just what we are looking for—the languid feelings frequently experienced by delicate persons in the spring can be corrected by PUTTNER'S EMULSION OF PURE LIVER OIL WITH HYPOPHOSPHITES. It will not work miracles, but it will do wonders and after using it a short time you will find just what you were looking for.

Something New in Foot-Gear. "Of all the astonishing inventions," says Invention, "that which is credited to a Japanese gentleman for walking on the water is one of the most surprising. He is stated to have triumphed after twenty years' labor and sorrow, study and experiment and has now applied for a patent. It is described as something in the nature of a foot-gear, made of iron, paper, gum-elastic and wood, clipped in shape, having gutta-serena tubes and a life-line attached. It is said to be so constructed that it is so achieved, but it is said that three miles an hour will be the pace. The apparatus weighs two and one-half pounds only, and the wearer will be able to carry a load of twenty-five pounds."

Majolica and Faience Ware. Majolica was the name at first given by the Italians to a certain kind of earthenware, because the first specimens that they saw came from Majorca. But as subsequently a large manufacture of the same kind of earthenware was carried on at Faience, Italy, the name "Majolica" was dropped and "Faience" substituted. The term Majolica is now used to designate white opaque varnishes, so as to resemble "faience," but it is of much less value than the latter.

An Expensive Joke. An English joker took down the calendar in a business office and in two years old. Dates for 1901 were written on it, and it was sent to a relative.
