## MILLET STEWART FOUND GUILTY OF MANSLAUGHTER

Millet Stewart, who has been on trial here on the charge of murdering James Ross on the night of August 2, was found guilty of manslaughter on Thursday.

His Honor Chief Justice McKeown completed his charge to the jury Thursday morning, and the jury, after being out for two hours, returned to court and asked His Honor for further instructions on the question of self-defence, murder and manslaughter.

After having received these instructions, the jury again retired and, after being out for six hours, brought in a verdict of manslaughter.

The prisoner was remanded for sentence.

In the case of the King against Edward Hachey, charged with breaking and entering the store of Allen Black at Newcastle, the prisoner pleaded guilty and was allowed to go on suspended sentence.

## FRANCE ACCEPTS NAVAL SHIP-RATIO

PARIS, Dec. 23—Premier Briand has sent Ambassador Jusserand in Washington a final and definite acceptance of the capital ship ratio. France, however, it is said, maintains her position regarding submarines and coast defence ships, although she is willing to negotiate. France insists on her security, but it disposed to cooperate with the United States as far as possible.

PARIS, Dec. 23—Premier Tachibashi of Japan is quoted by the Tokio correspondent of the newspaper Excelsior as declaring:

"The quadruple entente, which for Japan replaces the Anglo-Japanese alliance, is much wider in bearing and removes all chances of war."

"I venture to say," he continued, "that the Washington Conference has opened a new epoch in the Pacific and the world. I not only believe that the entente will result in making the Japanese people happier, because it will lighten their burdens but further, that by reason of the guarantee we obtain, the position of Japan is strengthened in the Far East."

In regard to China, the Premier was quoted as saying: "China is in an advanced stage of decomposition. It will be an unpleasant situation for Japan and a misfortune for China, if, as the result of her anarchy, she does not co-operate with the friendly powers seeking to bring about her unifications."

The Premier concluded by characterizing the report that Japan had de signs on French Indo-China as "an absurd fable which has no foundation in the past, and will not have in the future."

If there was any discussion in Japan about Indo-China, it was because Japan had not been given favored nation treatment there.

He hoped that a commercial agreement on this subject would strengthen the good relations between Japan and France.

**"BUY AT HOME"**

To all my friends whose steady patronage we so gratefully appreciate, we extend the Season's Greetings, with wishes for a Happy and Prosperous New Year.

Stranahan Publishing Co., Ltd.

## NAMES MENTIONED FOR NEW CABINET

OTTAWA, Dec. 22—While Hon. T. A. Crerar speeds eastward for his conference with Ontario Progressives cabinet making is more or less suspended. The line up from present indications appears to be: Nova Scotia, Hon. W. S. Fielding, minister of finance; New Brunswick, A. B. Copp, secretary of state; P. E. Island, John E. Sinclair, minister without portfolio; Quebec, Ernest Lapointe, minister of justice; Dr. Beaudry, postmaster general; Hon. Jacques Bureau, solicitor general; Hon. Rodolphe Lemieux, minister of marine and fisheries and James Robb, minister of customs. There is a possibility of another port folio for Nova Scotia to go to D. D. McKenzie, Hon. A. K. MacLean or E. N. MacDonald, K. C. For Ontario the prospects include, besides the Hon. W. D. Ross, W. D. Ross, W. D. Ross and James Murdoch, for a constituency yet to be found, and one one for the following four: T. A. Low, W. M. German, James Malcolm or Manley Chew.

If the Progressives and Liberals can come together the prairie province ministers may be Hon. T. A. Crerar, minister of railways; Hon. A. B. Hudson, minister of immigration; Hon. W. R. Motherwell, minister of agriculture, or Premier Martin or ex-Premier Stewart of Alberta minister of the interior. Hon. Dr. King, now minister of public works in British Columbia, might have a similar position here. If General Victor Odium could find a seat he might be the choice as minister of soldiers' civil service re-establishment.

## SUPREME COUNCIL TO MEET SOON

London, Dec. 21—Another meeting of the Allied Supreme Council, this time at Cannes, on the French Riviera, is the outcome of the parleys between Premier Lloyd George and Premier Briand of France during the last few days. The meeting will be held the first week in January. It will be preceded by a meeting of the council of ambassadors within a few days at Paris for arranging the details of the Cannes meeting.

A pledge of secrecy was entered into between the two premiers regarding their London conversations, but the supreme council evidently has been called either to revise the reparations provisions of the treaty of Versailles or to deliberate on the advisability of calling a still larger international conference with a view to dealing with the whole question of international finances and exchanges, which is linked up with the question of reparations.

That such a conference is in contemplation and will possibly include Russia and Germany, if not the United States, seems to be shown by the fact that the commission entrusted

## DEFEAT OF HON. R. B. BENNETT PRACTICALLY CONCEDED

Calgary, Dec. 22—The election of J. T. Shaw, Progressive, over Hon. R. B. Bennett, Minister of Justice, in the federal constituency of West Calgary was practically conceded to night after all the polls had been recounted. Mr. Shaw had majority of twelve votes.

There are, however, 76 ballots on which Judge R. W. Winter has reserved judgement.

## MR. J. P. WHELAN WILL BUILD BLOCK

Negotiations have just been completed whereby Mr. James P. Whelan has purchased the important property standing on the corner of King and St. George's streets, Ballarat, N. B. formerly owned by the Knights of Columbus.

This conspicuous business stand enjoys a central location the value of which is enhanced by the fact that it stands at the junction of the leading thoroughfares in town.

Speculation has been rife for some time regarding the future of this corner. In the first place it was thought that the Knights of Columbus would build their hall on that spot but apparently the offer of Mr. Whelan succeeded in persuading them to part with it.

It is Mr. Whelan's intention to build a substantial brick block on this property, and while he will not be committed to any definite time for the commencement of this operation he conceded that in all likelihood it will take place next year.

with the examination into the Russian situation has drafted a report which is now under consideration by the French and British experts.

The meeting today between M. Briand and George Harvey, the United States ambassador, is believed to have been concerned mainly with naval questions. Its occurrence at the present juncture, however, was the cause of considerable speculation as to whether it may not also have been connected with the known desire of the Entente powers to induce the United States to interest itself in reparations questions.

It is said that Premier Lloyd George purposes to leave for Cannes the middle of next week, so as to secure a few days of rest before the meeting of the supreme council.

M. Briand this evening made the announcement to newspapermen that the council of ambassadors would meet in Paris and that it would take up the question of German reparations as an outcome of the present conversations between Lloyd George and himself. M. Briand added that real progress has been made in the conversations. Several points had been smoothed out with complete cordiality and he was very much satisfied.

## CHRISTMAS BUSINESS

While Christmas business this year was not as brisk as last year, still considering the prevailing conditions and weather, the merchants generally are well satisfied with the holiday trade.

# Local and General News.

**BE GENEROUS**  
Elsewhere in this issue will be found an appeal for funds for the Salvation Army. This organization will look after Christmas cheer for the needy and we trust that the response will be generous.

**THE NEW CHOIR MASTER**  
The Young Peoples' Club of the Methodist Church, presented the "New Choir Master" in St. James' Hall last Friday evening. There was a large attendance and the evening's entertainment was appreciated by all. Each member of the cast excelled in the presentation of their part and many favorable comments were passed. H. A. H. Cole was director and Mr. Harrison Gough, pianist.

**BEAVERBROOK'S VISITORS**  
Beaverbrook, Dec. 21—Lord Beaverbrook's weekend visitors included Lord Ripon, Lord Chancellor, and Sir James Dunn, Premier Lloyd George also was a caller on Lord Beaverbrook, the Premier's appearance being regarded as especially interesting in view of assertions having been made that the former had become politically estranged from the Premier.

**OBJECT TO VENO**  
Should Stanley (Shorty) Veno, formerly of Chatham, N. B., take the ice with the Westminster team of Boston when the McGill University hockey team meet the latter club on December 23, 26 or 31, McGill have been instructed to refuse to play. These instructions have been issued by the Canadian Amateur Hockey Association on the ground that Veno is not in good standing as an amateur.

**TEMPERANCE WORKERS**  
Last Wednesday evening a meeting of Temperance Workers was held and the general situation existing in the town was discussed. Many matters of interest were brought up. A committee of three was appointed and certain matters placed in their hands for immediate attention. No doubt a second report will be further from the committee, which is determined to have the matters placed in their hands rectified at once.

**SINGING TO BE TAUGHT IN SCHOOLS**  
According to the Sackville Tribune at a recent meeting of the Sackville School Board it was decided to teach singing in the schools there. The matter was brought up at the Board by Trustee Fawcett who told of her recent visit to the Moncton Schools where she had found that the teaching of singing was being carried out satisfactorily. Is there any reason why music should not or could not be taught in the Newcastle schools? We have suggested it on many occasions but no action has been taken in its connection. If parents and the public generally demanded it the School Board no doubt would consider taking the necessary steps. Let us try it.

**A CHRISTMAS PRAYER**  
In praying and praising, in giving and receiving,  
In eating and drinking, in singing and making merry,  
In parents' gladness and in children's mirth,  
In dear memories of those who have departed,  
In good comradeship with those who are here,  
In kind wishes for those who are away,  
In patient waiting, sweet contentment generous cheer,  
God bless us every one, this day, with the blessing of Jesus.  
—Henry Van Dike.

**XMAS SPECIALS**  
Special prices on Groceries and Provisions this week at the Stothart Mercantile Co. Ltd. Another DOLLAR DAY Sale. Shop early.

**PRETTY CALENDAR**  
One of the prettiest calendars of the season is that issued by Sumner Co. Ltd. Moncton. The scene depicted "Sakaka-Wen" (Bird Woman) is exceedingly artist.

**A COLD SNAP**  
Apparently the warm spell which prevailed for some time is at an end, as the mercury in the thermometer climbed down the last week and indications point to cooler weather. The cold snap will again afford citizens an opportunity of enjoying their favorite pastime.

**CHATHAM MAN ILL**  
H. H. Carvell, of Chatham, one of the best known horsemen on the Miramichi, left Wednesday night for Montreal to consult specialists. He was accompanied by his son, King Carvell. Mr. Carvell has undergone two serious operations for internal trouble during the past four months.

**KILLED IN WOODS**  
Hiram Underhill, aged 28, years, son of Mr. George Underhill, of Blackville was killed while working in the woods at Napadogan on Monday, being struck by a limb of a falling tree. The young man was married and leaves a wife and two children at Blackville, whom he had intended to visit at Christmas. The remains were brought to Blackville for burial.

**NO RELAXATION**  
The third New Brunswick District in quarterly session at Temperance Vale, York County, have passed a resolution declaring itself "opposed to any relaxation of the prohibitory act of this province for revenue or any other purpose." The resolution, it was explained in a preamble was the result of "reports which are being freely circulated throughout this province whether as propaganda or as rumor, that some change is contemplated that will give New Brunswick an act similar to those of Quebec and British Columbia."

**ON HONEYMOON**  
Mr. and Mrs. Abraham V. Vanderbeck, Millerton, arrived in St. John at noon on Friday and are guests at Windsor Hall. Mr. Vanderbeck, who is a member of the Legislative Assembly for Northumberland county, being elected to succeed his father, the late J. W. Vanderbeck, M. P. P. was married Thursday night at Red Bank, Northumberland county to Miss Greta White, daughter of Mr. and Mrs. Fred White. The ceremony was performed by Rev. Mr. Girdwood at the home of the bride's parents. The happy couple returned to their home on Friday night's express.

**WOMEN'S INSTITUTE MEETING**  
On Thursday evening December 15th the Millerton Women's Institute met at the home of Mrs. Clifford Crocker. Mrs. Jas. D. Lyon in the chair. Roll call was answered with a "joke". The secretary reported receiving Ten dollars provincial grant for 1921. Mrs. J. D. Lyon was appointed publicity convener, and reports of the Institute activities will be sent by her to Mrs. E. Ogilvy, Woodstock. The subject for the evening "which accomplishes the most, a quick fussy woman or a slow quiet one," was discussed. Next meeting will be held in January at the home of Mrs. M. Monaghan, Kirkwood.

**PRESBYTERY OF MIRAMICHI**  
The Presbytery of Miramichi has appointed Rev. J. C. Mortimer stated supply in the congregation of Tabusintac and Burnt Church until May 1st.

**BEAVER PELTS SEIZE**  
A number of beaver pelts have been seized at Newcastle by officials of the Chief Game Warden's department. The pelts were taken illegally as beaver can be killed only under license.—Mail

**SUCCESSFUL SALE**  
The Food and Fancy Sale held last Saturday in St. James' Hall by the Ladies Aid was a most successful one. Many choice articles of food and apparel were on hand for sale, which received ready purchasers. A substantial sum was realized and the Ladies are desirous of much appreciation for their endeavors.

**FAVOR WOMEN FOR MINISTRY**  
The Methodist quarterly meeting at Hopewell Hill recently with a close vote, gave decision in favor of admitting women as probationers to the ministry. There were three adverse ballots, but four men stood firm for the ladies as possible occupants of the pulpit with equal church authority with men.

**NORMAL SCHOOL EXAMINATIONS**  
Entrance examinations for Class III at the Provincial Normal School began Tuesday at Bathurst, Moncton and Edmundston. These examinations are chiefly for students intending to take the French Course. The Normal School will close on the 23rd with examinations beginning on the 29th for the French course.

**MAJORITY REDUCED IN PREMIER MEEHILL'S CONSTITUENCY**  
Portage La Prairie, Man., Dec. 14.—With three polls not yet officially reported Harry Leader, the successful Progressive candidate in the constituency of Portage La Prairie has a majority of 177 over Premier Arthur Meighen. The figures are Leader, 4,314; Meighen, 4,137. This is a reduction of 79 from the first majority of 456 announced upon unofficial returns. Official declaration day, it is expected, will be Friday.

**POLITICAL TREACHERY**  
Quebec Chronicle: The sordid and not easily to be forgiven fact is that the Montreal Star deserted to the enemy in the crucial moment of the battle. The cure, we are told, for the ills from which the erstwhile Government party has been suffering, is "to get back to Conservative principles" and the Chronicle will not quarrel with that diagnosis but only add the suggestion that its leaders keep a closer watch upon the movements of fairweather, time-serving friends. There are usually means of making headway against the foe without, but no skill of courage is proof against his assaults when combined with treachery within. Even if there is no place like home that is no reason why a man should loaf around there instead of looking for work.

**BISHOP RICHARDSON MUCH IMPROVED**  
Fredericton Gleaner: Letters received from His Lordship Bishop Richardson, dated at Bermuda, state that His Lordship had a most enjoyable trip over and that he was already feeling much better. He has since gone to Barbadoes, but no word has been received from him as yet.

**THE OLD RELIABLE BRAND OF**

**ANNIVERSITY AT RED BANK**

A very enjoyable event took place at the home of Mr. and Mrs. John Parks at Red Bank on Monday evening Dec. 19th when relatives and friends from far and near gathered in to offer their kindest wishes to Mr and Mrs. Parks on the occasion of it being the fiftieth anniversary of their wedding day. Rev. Mr. Girdwood made a very pleasing address and the assembled guests presented a purse of gold. Miss Ruby Bell of Derby presented her grandparents with a bouquet of fifty carnations. A sumptuous repast was served at eight o'clock and the evening was spent with music and games, the guests leaving at a late hour after spending a most enjoyable evening and wishing their kind host and hostess many happy returns of the day.

**SHAUGHNESSY FOR LONDON POST**

London, Dec. 20—The name of Lord Shaughnessy is going the rounds here in connection with the Canadian High Commissionership in London is a result of the expressed intention of Sir George Perley to retire in the immediate future. Nothing has been said however suggesting that the talk is anything more than mere gossip.

Many Canadians here think that Hon. H. S. Beland, Liberal M. P. elect for Beauce county Quebec, post master-general in the Laurier Cabinet would be a suitable selection as Sir George Perley's successor.

**ANNUAL REPORT OF ROYAL BANK**

The shareholders of The Royal Bank of Canada will have every reason to be well satisfied with the annual statement for the fiscal year ended November 30th.

The facts never before have the banks of the world been confronted with such trying conditions of deflation as during the past twelve months it should, therefore, be regarded as a tribute to the Canadian banking system and particularly to the effectiveness of the large organization built up by The Royal Bank that, notwithstanding such general deflation, it is in a position to report to its shareholders an even stronger cash position than at the end of the previous year, which was the banner year of its history. In addition liquid, or immediately available assets have been maintained at close to 50 p. c. of the total liabilities to the public.

Developments of such a character, with a bank occupying such a prominent position as does The Royal, will be of great benefit to the whole Canadian situation. It is often said that a country is only as strong financially as are its leading banks. The statement of the Royal Bank, particularly at a time like the present will, therefore, prove of tremendous advantage in general to the country and particularly to the Bank itself.

**PROFITS WELL MAINTAINED**

Of almost equal import to shareholders is the fact that the Bank, ever during the readjustment period, has maintained its profits close to the level of the previous year. As is well known, business conditions for some time past have been of an exceptional character, and, owing to these conditions, the Bank, in addition to writing off any losses, has made full provision for any accounts that might even be considered doubtful. In view of this policy, it should be particularly gratifying to the shareholders that the net profits after making such liberal provision, amounted to \$4,037,836, compared with 4,253,643 in the Bank's record year.

These ample profits have permitted of the payment of the usual dividend of 12 p. c. and after the customary appropriations to pension fund for Bank premises and war tax and the transfer to Reserve Fund of \$132,995, there was an amount carried forward out of the years' profits of \$458,116.78. This made the total of Profit and Loss to be carried forward into the new year \$905,044.98.

Just now satisfactorily the Royal Bank has met the changed conditions as reflected by the statement of assets and liabilities. Of total assets of \$590,548,429 (liquid assets amount to \$222,603,630. Principal accounts among the liquid assets are current coin \$16,012,219, Dominion Notes \$28,540,559, United States Currency and other foreign currency \$29,912,018, cheques on other banks \$21,594,357; balances due by other banks and banking correspondents elsewhere than in Canada, \$24,080,818; Dominion and Provincial Government Securities \$24,050,584, railway and other bonds, \$15,128,520; and total call loans of slightly over \$37,000,000.

At the same time the Bank has looked after its full share of the business requirements of its customers, as indicated by total current loans and discounts of \$252,561,644.

Deposits now total \$375,616,345, and of this amount deposits bearing interest stand at \$280,447,431 and deposits not bearing interest \$95,168,911. The Paid-Up Capital is \$20,400,000 and during the year additions made to the Reserve Fund have also brought it up to \$20,400,000, at which figure it is equal to the capital.

**The Passing of Lord Mount Stephen**

Lord Mount Stephen is dead, aged 92 years. He passed away peacefully on November 29th, 1921, at his residence, Brocket Hall, Hatfield, Hertfordshire, dying painlessly of sheer old age. Lord Mount Stephen had been living in absolute retirement for many years.

George Stephen was a Scot, born in 1829 at Dufftown, Banffshire, and his educational advantages were confined to what the parish school afforded. Leaving school at the early age of fourteen, he was apprenticed to a draper and dealer in dry goods in Aberdeen. Having completed his four years' apprenticeship, like many in the northern land, he made his way to London, where he joined a well-known firm which still exists under the shadow of St. Paul's Cathedral.

It was the middle of the 19th century when George Stephen, then 31 years of age, reached Canada in company with his cousin, Donald Smith (afterwards Lord Strathcona). In Montreal he entered the service of his cousin, William Stephen, who was in the dry goods trade, and three years later he went into partnership under the style of William Stephen & Company. Years of steady hard work followed. In 1862 the senior partner died, and George, acquiring the whole business, began to manufacture cloth. This proved remunerative and he soon devoted his entire efforts to it, relinquishing the wholesale trade.

George Stephen was elected a director of the Bank of Montreal, and in 1876 he was chosen as vice-president, and later as president.

The name of Lord Mount Stephen will be chiefly remembered as being associated with the conception and the carrying to completion of the C.P.R., the pioneer transcontinental railway. He joined the small but determined and optimistic group of men who had accepted the offer of the Government to build the Canadian Pacific Railway. He was its first president in 1881, and the first annual report was printed on one sheet of notepaper and signed by George Stephen. It was fitting that he should be its first president, for he had put his all into it, for one thing; for another, he had unrivalled driving power; and, again, he had genius for method and detail.

A year after the completion of the C. P. R., George Stephen was created a baronet. He built himself a magnificent home on Drummond St., Montreal, in which he took great pride, especially in the conservatory, built after the English style, as well as in his pictures, to which he devoted much attention.

In thinking of the public welfare of the community, Sir George Stephen at that period displayed great generosity.

Sir George Stephen resigned the presidency of the C. P. R. in 1888, in which he was succeeded by the late Sir William Van Horne, who consolidated, and at the same time extended the service and earnings of that great corporation. Three years later, in 1891, he was created a baron by Queen Victoria, when he assumed the title of Lord Mount Stephen, and crossed the Atlantic to settle down in England. In his beautiful home, Brocket Hall, Hat-

field, Herts, near which the Salisbury family reside, he for many years entertained notable personages and devoted himself to the promotion of philanthropic movements.

Lord Mount Stephen was twice married, his first marriage taking place in 1853, to Anne Charlotte, daughter of Benjamin Kane. In 1897 he was united to Glen Tufnell, daughter of the late Captain George Tufnell, R.N. There was no issue of these marriages; but Lord Mount Stephen adopted a daughter, who married a son of the Northcote family in England.

It is of interest to note that although in his valedictory to the C. P. R. shareholders, Lord Mount Stephen excused his retirement on the ground of health, he lived for a period of thirty-three years thereafter, or the span of another generation.

Much regret was expressed in C. P. R. circles when the death of Lord

Mount Stephen became known. All the flags from one end of the system to the other were placed at half-mast, and a laurel wreath was placed on the statue of Lord Mount Stephen which stands in the waiting room of the Windsor street station here.

"It was a cause of great satisfaction to Lord Mount Stephen that he lived to see his 'baby' grow into the greatest enterprise Canada has ever known," said Lord Shaughnessy. "There was a great personal friendship between us," continued Lord Shaughnessy, "which deepened as the years advanced." Discussing the fact that Lord Mount Stephen was in his 93rd year, and that Mr. R. B. Angus, who had been so intimately connected with Lord Mount Stephen, in his 51st year, Lord Shaughnessy commented, "I am only 65; quite a boy compared with them."

"I was first associated with Lord Mount Stephen in 1882 nearly forty years ago, shortly after the construction of the Canadian Pacific had been commenced by the company, but my relations did not become at all close until the end of 1884. From that time until he retired from participation in the company's affairs we were very close business and personal friends. Indeed, our very warm personal relations continued to the end."

"Lord Mount Stephen was a man with imagination and initiative, coupled with probity and courage."

"During the construction of the trans-continental line he had many anxious hours, and there were times when his personal fortune, as well as that of his colleague, Lord Strathcona, was placed in jeopardy in loans to the company in its dark days."

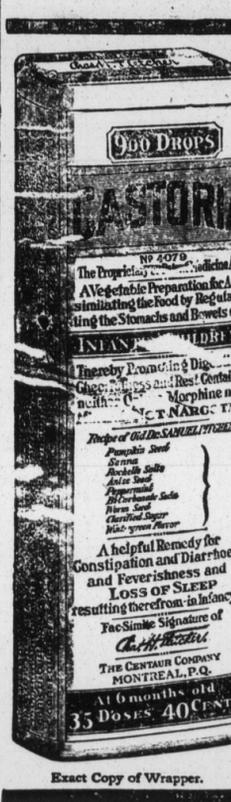

"Lord Mount Stephen beyond all others may be attributed the successful completion of the railway."

"During the last 25 or 26 years he had lived in England, but he followed Canadian affairs with the keenest interest."

"In view of the part that he played in the first and most important enterprise connected with Canada's progress, I am sure that the name of Lord Mount Stephen will always be cherished by Canadians, and, indeed, throughout the world."

"My most intimate connections with him were in 1884 and 1885, when the Government, after the first loan, were loath to provide any more money. It was during that emergency that he and Lord Strathcona furnished the requisite funds from their own fortunes, at a considerable sacrifice, no doubt, because they had to sell other securities that they held to raise the money. Finally the Government did make a further loan of \$5,000,000, which saw the company through, and enabled it to get along until Lord Mount Stephen, or George Stephen, as he was then, had succeeded in selling the company's first mortgage bonds through Baring Brothers."

"Just as soon as the company received payment for its bonds, the whole debt to the Government was paid. He had said he would repay the loan, and did so. But if he had adopted modern methods he would probably have tried to borrow more money instead."

**Success in Retailing**

Be Loyal To Your Own Community

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.

**A WORD TO THE PUBLIC**

Who serve you best—busy or half-busy men? busy or half-busy shops? Where is your custom most desired and appreciated? Is it not at those shops which stretch out the hand of welcome and invitation—in the form of advertisements in THE UNION ADVOCATE?

# A Great Pacific Liner

The new C. P. R. liner, the oil-burning Empress of Canada is built especially for the Pacific service. The appointments will be the finest and most luxurious possible to-day, with particular regard to the C. P. R. standard of "Safety, Speed, Comfort."

She has an overall length of 653 feet, is 87 feet, 9 inches in breadth and 53 1/2 feet in depth to the bridge deck; she has a straight stem and cruiser stern, three funnels and two pole masts. There is a continuous shelter deck with bridge, promenade and boat deck over, the former extending for the full length of the ship; two complete between decks and lower and orlop between decks at the fore and aft ends. The "Empress of Canada" has a gross tonnage of 22,000 tons, and is arranged to carry about 400 first class, 106 second class, 238 third class and 932 Asiatic steerage passengers, and crew of 547. Of the cargo spaces, a large portion has been fitted for the carriage of silk and refrigerated cargo. Her speed is about 21 knots. She is built to the highest class of Lloyd's Register full Board of Trade requirements.

The first class accommodation is arranged on the shelter deck and in addition to the single, double and family rooms, there are several special rooms and private suites, which comprise bedrooms, sitting rooms and bathrooms. The state-rooms are fitted with the very latest type of open washbasin, with a sup-

ply of hot and cold water. The public lavatories and bath rooms have the most modern improvements in sanitary equipment. A complete system of telephones is connected with a central exchange to the rooms and offices.

The dining saloon is on the upper deck and will accommodate 325 persons. A large reception room is situated forward of the dining saloon; the passenger elevator is at the fore end. On the upper deck is also a large swimming pool, 30 ft. by 18 ft., with adjoining gymnasium and dressing rooms similar to the best clubs. The other public rooms are arranged on the promenade deck with special view to convenience and comfort. The large lounge will provide ample room for concerts and moving picture performances, with complete moving-picture operating room. There is a long gallery, specially designed room for children, Drawing Room, Writing Room, Smoke Room and Verandah Cafe, and all are luxurious and attractive in every way. Long promenades and recreation spaces for games, dancing and sports are reserved for the use of passengers.

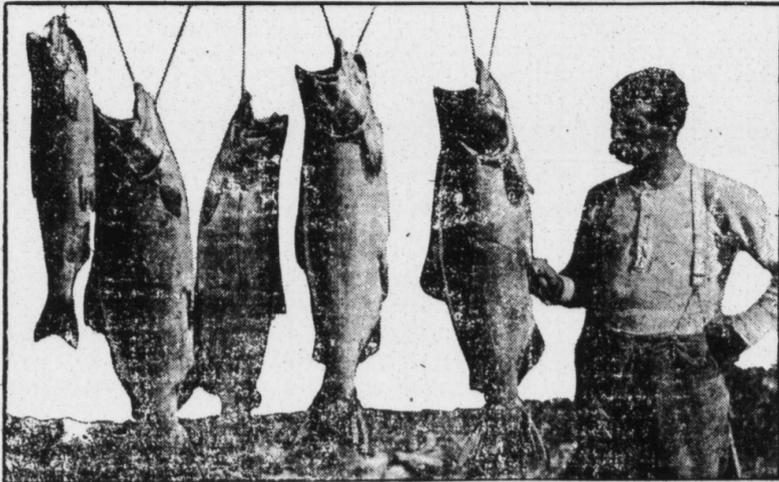

The second class accommodation is situated on the shelter deck aft, arranged in two and four berth rooms. These staterooms are fitted similar to the first class. The Dining Saloon is on the upper deck and will accommodate 100 persons. The Lounge is on the Bridge deck aft.

In addition to a large laundry, dispensary, hospital, dark room for camera enthusiasts, etc., there are innovations in the steerage, food, kitchen and pantry service. A perfect system of mechanical ventilation is installed and all the supply and exhaust fans are capable of changing the air throughout the ship at such frequency as to assure practically pure air at all times. All thermostats and supply fans have an approved disinfecting apparatus. Electric radiators are fitted in the first and second class state rooms. The cargo equipment is of the most modern type as well, the cargo derricks being operated by twelve powerful electric winches. The steam steering gear, manoeuvring and warping machinery are also improvements on any now in use.

Throughout the ship particular attention has been devoted to the fact that the "Empress of Canada" is for Trans-Pacific and semi-tropical service; therefore the rooms are large and airy and specially designed.

The "Empress of Canada" has been preceded by two other oil burners, the "Empress of Britain," which was launched last year, and will set a new pace in comfortable passenger steamships for ocean service. Two others of the popular "M-boat" type are in course of construction. The oil fuel bunkers of the "Empress of Canada" have a normal capacity of 4,500 tons of oil.

# The Home of the Big Tyee

Tyee Salmon caught at the mouth of Campbell River, Vancouver Island.

On the rim of the world in Western Canada, just off the mainland of British Columbia, lies Vancouver Island, an outpost of the Empire. This island, which, on a map of the world, looks almost negligible in comparison with the vast area of Canada, is as big as several of the Kingdoms of Europe, and is in reality made up of 15,000 square miles of magnificent and diversified country.

One of the island's chief attractions to the traveller, if he is anything of a sportsman, is the fine fishing and hunting to be obtained among the mountain fastnesses, the giant timber, and in the waters of the lakes and streams. A day or two's run out from Victoria, the capital of British Columbia, situated on the southern extremity of Vancouver Island, will take one to the heart of the primal solitude, the sanctuary of all sorts of game from the black bear and the elk, to the weaver and the squirrel, from the quail to the eagle. But perhaps the sport which has made Vancouver Island famous is more its fishing than its hunting, for the salmon caught in the waters here are the biggest and gamiest in the world.

There are two streams on the island which rival one another from a sportsman's point of view. The first, which has been fished by all sorts of people from princes and priests, down the social scale, is the Cowichan River, named for a famous Indian tribe which used to inhabit this part of the country, and about whom there are many tragic and romantic stories. The Prince of Wales, during his week's visit on Vancouver Island tried his luck in

this stream; the Duke of Devonshire and many of his predecessors have spent a holiday here; and King George himself, when he was in British Columbia, caught some "rainbow beauties" in this famous water. The river itself is over twenty miles in length from the lake to the sea, and has numbers of splendid "reaches" and good pools. Indian guides are a necessity. These fellows will take the canoes up the river for you, and you may travel up by motor and come down the stream with them. Fine steelheads are caught here on the fly in the winter and early spring months, and after the first freshets in the spring the rainbow and cut-throats begin to run, affording sport to the fly-fisherman all summer until the river gets too low. Some Dolly Vardens are also to be had. At the mouth of the river—Cowichan Bay—salmon run winter, spring and fall, some specially large ones coming in during the latter season.

But the most thrilling sport of all is to be obtained at Campbell River, the stream which for the present marks the northern boundary of the transcontinental Highway, and which is situated about two days' easy motor drive from Victoria. The Campbell River takes its rise in the mountain lakes in the interior of the island and comes pounding and roaring down to the sea, as noisy and impetuous as a wild beast suddenly unleashed, except for the spots where it widens out into the Campbell lakes, and here it is as peacefully serene as the blue sky itself. Eight miles from its mouth it loses down a great cliff to find another bed for itself over a hundred

and fifty feet below. The falls here, are among the most magnificent to be found in the West. All along the Campbell River, where the current permits, is fine trout fishing, but it is not the joy of landing the speckled beauties which brings most fishermen to this stream.

During the months of August the magnificent specie known as the big "Tyee Salmon" (King Salmon) come to the spawning beds; and to appreciate just how endlessly exciting fishing can really be, one should see what goes on here at the height of the season. The fish run up to sixty pounds and over, and it is no uncommon sight to see a half a dozen boats all playing tyees at the same time. The water itself is never quiet, for here you feel the current of the boisterous river, and the swell from the sea. Add to this the noise of men and women shouting, your own lines singing in your ears, the boat laid over almost on its side from the pull of the heavy fish fighting for its life, and you have enough "thrills" to make you remember the occasion. Many is the tyee that gives the fisherman from a half hour to an hour's hard work before he is finally gaffed.

The traps and seines of the commercial fishermen are threatening the magnificent rivers of British Columbia, and the Government is endeavoring to cope with this menace. At present the case is before the federal authorities, and lovers of good sport will hope to see such laws enforced as will preserve our fisheries for all time to come. — N. J. Bertrand Seguin.

# COMPLETELY FREE OF CONSTIPATION

Trials for Years to Find Relief

## "FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S.

"For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work."

About two years ago, a friend advised me to try "Fruit-a-tives", which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit."

A. W. FRANKLIN.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c., or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

# FIRE PREVENTION

"We regard the man whose building burns down as unfortunate; but in many instances he should be regarded as criminal."

In this striking sentence the New York Evening Post refers to carelessness and neglect as factors in the colossal annual fire waste. The Post lays great stress, as Mr. Knowlton did before the Rotary Club yesterday, upon what carelessness with fire costs in increased insurance rates alone. The economic loss by fire is absolute. The insured may be reimbursed for loss, but that does not re-create what has been destroyed. It is utterly lost to the wealth of the country.

Mr. Knowlton presented the case for fire prevention very clearly in his brief address yesterday, and pointed out the great need of doing in regard to private property what the government does for the public domain. The legislation passed early this year will bring this matter pointedly to public attention all over the province and the Fire Prevention Board should meet with universal support. The New York Evening Post says:

"Inasmuch as simple carelessness is the cause of more than one-fourth of all our fires—28.9 per cent in 1916 according to a careful actuarial investigation, were strictly preventable—education is the most important specific for our fire waste. Education in the proper way to build houses and the proper way to build houses and factories, education in the insulation of electric wires, education in fire fighting—all this is necessary, but what is most needed to reach our carelessness is stricter legislation and a more rational public sentiment."

The per capita fire loss in New Brunswick is enormous by comparison with that in the United States, far more so with the countries of Europe. Seventy-five per cent of all fires are preventable. An American authority says:

"The difference between a firetrap and a bear trap is that sometimes the bear gets away. The firetrap always catches someone."—(St. John Times)

## THE NEW YEAR

A Flower unblown; a Book unread; A Tree with Fruit unharvested; A Path untrod; a House whose rooms Lack yet the heart's divine perfumes; A Landscape whose wide border lies In silent shade 'neath silent skies; A wondrous Fountain yet unsealed; A Casket with its gifts concealed; This is the Year that for you waits Beyond tomorrow's mystic gates.

—Horatio Nelson Powers

# MYSTIC SHRINERS ANNUAL MEETING

The annual meeting of Luxor Temple, A. A. O. N. M was held in the Shrine quarters, Masonic hall, St. John on Thursday evening.

Reports from the recorder, treasurer and audit committee showed the Shrine to be in a very prosperous condition numerically and financially.

Illustrious Potentate H. R. McLellan, after reading his very interesting report, stated that he had made up his mind that after holding office for five years he would not offer for reelection.

Mr. McLellan made an excellent tentative, and his decision was very much regretted by the Nobles.

Excellent reports were given by Col. W. L. Laughlan, St. Stephen, and D. W. Kyle, Moncton, representatives who attended the Imperial Council at Des Moines in June last.

An amount was voted to furnish a Shrine room in the new Campbellton hospital, the room to be dedicated to Col. A. E. G. McKenzie and other Nobles of the province, who gave their life in the great war.

Appropriations were voted for the Orphans' homes and other charitable institutions.

The election of officers for 1922 resulted as follows: F. M. Tweedie, Chatham, Illustrious Potentate; H. A. Porter, Chief Tabban; Roy E. Crawford, Assistant Tabban; E. R. W. Ingraham, High Priest and Prophet; T. Giles Allen, Oriental Guide; A. M. Rowan, Treasurer; Charles Robinson, Recorder, re-elected for the eleventh time.

Orville B. Dobson, Moncton and Peter Davidson, were chosen to be representatives to the Imperial Council, which will meet next year at San Francisco.

Additional executive committee, James E. Gibson, Woodstock; E. Clinton Brown, Wm. H. Smith, LeBaron Wilson, Wm J. McClaverthy.

Auditors, F. E. Burpee, H. Colby Smith, J. Herbert Crockett.

There were over one hundred members present from different sections of the province.

# Blood and Nerves

To Purify the Blood, to Strengthen the Nerves

## Redmac is Guaranteed

If your blood is thick and impure you will soon know it. Your face becomes covered with pimples and blotches, your back covered with spots. If your nerves are shattered you are nervous, irritable, easily annoyed, and will eventually become run down and the whole nervous system a wreck. Redmac, the most wonderful of all Tonics made from Herbs, Roots and Barks, will fix you up in a short time. It is the latest and most wonderful Tonic ever offered to the Public. The nerves are made strong and healthy. The Blood purified and made pure. Sold by The Rexall Store, Dickson & Troy

# TWO BOYS FOUGHT WITH A LION

A stirring story of a fight between a lion and two boys of the Nasai—a tribe whose heroism and fighting qualities were made famous by Rider Haggard—comes from Africa.

Both under 17, but grown "men" in the eyes of their fellows, amongst whom valour is the test of manhood, the boys were admitted to the native hospital of Nairobi suffering from serious wounds inflicted by a mauling lion.

Their story is that the lion broke into one of the cattle kraals in the early morning and attacked the cattle, wounding one killing another, which it dragged away to it. Nasai hunters followed the spoor and located the lion with the half-eaten carcass. The bush where the lion was surrounded by a party of 16, armed with nothing but their spears, and then began the dangerous game of driving the animal out into the open and tackling him "breast to breast." He emerged sullenly and was promptly attacked by one of the 17 year old warriors, who wounded the beast with a spear thrust. Instantly the lion turned and leaped at him, knocking him down and clawing him badly from head to heel. The second native rushed to the rescue, and also got home with a quick spear thrust. The lion turned on him, however, and in an instant, had hurled him aside badly ripped and bleeding. But now the rest of the Nasai were on their quarry. There was a moment's quick play of spears, and the lion fell, stabbed to death. The two young heroes were picked up and carried to the hospital. They are bruised, scratched and torn practically all over their bodies, but they are making good progress, and are expected to recover.

**Stiffness**

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

**Gives Great Relief**

Mrs. A. R. Calver, 25 Park Ave., Guelph, Ont., writes: "My husband has used Minard's Liniment frequently, always with good results. Friends of mine use it for rheumatism and tell me that it gives great relief."

Minard's Liniment is sold everywhere. Buy it in bottles of 15c. and 25c. It is a relief in many cases after first application. It is a relief in many cases after first application. It is a relief in many cases after first application.

OFFICIAL LEADER OF OPPOSITION MOOTED QUESTION

Ottawa, Dec. 22—Who will lead the official opposition in the next House?

Immediately following the general election, Hon. T. A. Crerar, leader of the National Progressives, and head of the largest group in opposition to the coming Liberal Ministry, was regarded as the natural leader of the official opposition, but a Liberal Progressive alliance within the bounds of possibility. Should it be brought about, Mr. Crerar, instead of opposing, will support the Government. Conservatives will then naturally become the official opposition and Rt. Hon. Arthur Meighen (if he decides to remain in politics) will be the leader. Mr. Meighen will, however, have to secure a seat.

The question of determining the leader of the official opposition is important inasmuch as the position carries with it a salary like that of a cabinet minister, of \$10,000 a year in addition to the sessional indemnity of \$4,000.

FIDDLING WITH A COUNTRY AFIRE

(Toronto Telegram)

Exultation over the complete defeat of the Meighen Government is possible in Ontario only among blind partisans who take joy in any victory no matter how dear the cost. The price which Canada has paid for last Tuesday's voting is the surrender of Anglo-Saxon pre-eminence in the councils of the nation. A traitorous press in Ontario threw its mite into the collection-box of sectionalism; but it was before the French-Canadian vote in the east and the foreign vote in the west that the Conservative party, with the Union Jack at the masthead, went down to honorable defeat.

Ontario was split over the question whether it was a privilege of a penance to face the terrible expense of a war fought on Canada's behalf and on behalf of the British Empire. Even a dearlybought victory brings discontent in its train, and the party which scoffed at the menace of war and lampared the winning of that war made shameless capital out of the burden of taxation and the curtailment of industry which war inevitably leaves in its wake. Thus was Ontario split and thus were the other Anglo-Saxon provinces of Canada split.

The defeat of the Conservative party is due to the French-Canadians of Quebec and the foreign vote on the prairies.

French-Canada was marshalled to the polls with the cry of "Avenge Laurier." The Liberal sweep of Quebec means nothing more or less than this that Arthur Meighen and his party were bludgeoned at the polls because Quebec blamed them for the

Send your

passing of the Military Service Act, which helped to win the war.

The foreign vote of the west was marshalled to the polls with a different but a kindred slogan of vengeance. There is hardly a riding on the prairie where the newly naturalized voters cannot swing an election in whatever way they wish. They were told that the Conservative party was responsible for the War-Time Elections Act, which restricted the franchise in 1917 to those who had, beyond doubt, the heart and the vision of Canada. And they, too, have wrecked their vengeance.

The man who can exult most over the King victory in Quebec is Dr. Deslauriers, of St. Mary's division in Montreal, who was elected by 10,000 majority because he sat up nights exempting possible recruits for the Canadian army in Flanders Field.

The man who can rejoice most over the Crerar sweep in the west is the German or Austro-Hungarian voter who was kept by the British navy from going to the help of his fellow-Huns in Europe and who was prevented by Hon. Arthur Meighen from going to the help of his fellow-Huns in the polling booths of Canada.

Where there can be least of exultation and least of rejoicing is in those Anglo-Saxon communities which paid more attention to whisperings than to warnings and which fiddled when the country was on fire.

GIVES UP A WESTERN PORTFOLIO

Victoria, B. C., Dec. 21—Indicating his course of action has been dictated by personal reasons, the Hon. J. W. DeB. Farris, attorney general and minister of labor for the province of British Columbia, has resigned his dual portfolio in the Oliver cabinet. This information was conveyed to Premier Oliver this morning in a wire from Ottawa, where Mr. Farris has been active during the last few days in the exchequer court of Canada.

It is believed in official circles that the decision of Mr. Farris has been actuated largely by the development of important legal opportunities which offer him more professional and lucrative hope than his somewhat circumscribed position as the first law officer of the crown.

Pulp Wood Loss By Fire Is Enormous

If there was in storage at any one place a stock of news print paper sufficient in amount to supply the newspapers of the United States for a period of over three years and it was destroyed by fire it would be a terrible calamity and yet the loss by forest fires in the United States in pulp wood areas alone in 1920 was in amount sufficient to have produced over six and three-quarters million tons of news print paper, or more than three times the yearly consumption in the United States.

It is time that newspaper publishers carried on regularly and continuously an educational campaign to accomplish protection against forest fires, in order to conserve our natural resources and their own interests.

There were 14,463 forest fires in the pulp wood regions of the United States during 1920, burning more than 2,059,408 acres according to a report compiled by the woodlands section of the American Paper and Pulp Association, in co-operation with the United States forest service.

The losses by fire tremendously handicap the paper manufacturers in their efforts to determine a future forest policy for this industry, for the problem of artificially planting new forests would be enormously minimized if the loss by fire in growing forests could be eliminated.

In the New England states alone there were 2,415 fires of which 1619 were in Massachusetts, 164 in Maine 542 in New Hampshire, 54 in Vermont, and 40 in Rhode Island. The area burned over in Maine was the largest of this group, being 39,803 acres. Fires this year have done even more damage, though no figures are yet available, and the same is true of New York. Here there were 479 fires in 1920, burning 35,176 acres.

In the group of states including Pennsylvania; Maryland; Ohio; Virginia, West Virginia, North Carolina and New Jersey there were 4,928 fires, of which 1,597 were in Pennsylvania and 1,644 in North Carolina. The total area burned over was 716,863 acres.

In the lake states of Michigan, Wisconsin and Minnesota, there were 776 fires, burning 597,910 acres and in the great forest states of Washington, Oregon and California, there were 4,861 fires, burning 645,648 acres.

The total damage by these fires throughout the country was \$6,319,641.

Colonel W. B. Greeley, chief forester of the United States forest service, has said that if the forest fire menace could be eliminated, the problem of future forests for the country would be greatly simplified.

Favorable To Ratification

London, Dec. 23—The Daily Eireann's adjournment of further debate on Irish peace agreement until Jan. 3, although coming as a complete surprise here, was considered on the whole as favorable to the chances of ratification.

By agreement between the contending factions, the Dail members will deliver no speeches touching on the agreement during the period of adjournment, nor participate in public meetings at which the argument is discussed, but it is believed the Irish people will get together and agitate for ratification.

The English newspaper correspondents in Dublin emphasized the importance of the speech of Richard Mulcahy, chief of staff of the Irish Republican army, in the Dail yesterday, in which he advocated acceptance of the treaty. They thought that his support, together with that of such fighting men as Michael Collins and J. J. McKeown, assured the adhesion of the Republican forces throughout the country.

Some of the correspondents, also, dwell upon what they consider Eamonn de Valera's loss of prestige, as indicated by the vote for adjournment which he opposed. De Valera's settlement that, when he assumed the Republican presidency he did not regard his oath as fettering his actions was regarded as considerably damaging his influence.

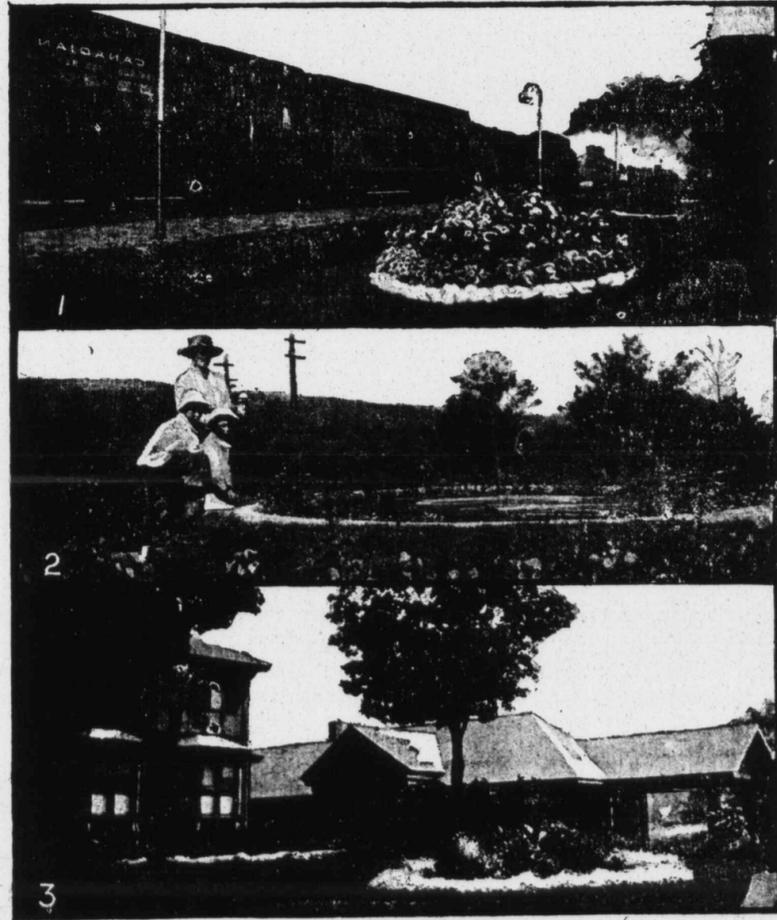

Meanwhile there has been some speculation as to how far a real settlement of the Irish trouble would be effected by ratification of the treaty. The Dublin correspondent of the Westminister Gazette, while hoping and believing that it will be ratified, says in that case the Sinn Fein would still remain to be reckoned with. Emphasizing that the Sinn Fein is not satisfied with the treaty, he says it is difficult for the English people to appreciate the invincible earnestness of the extreme Republicans of Ireland to whose nature a compromise is entirely alien.

When the bells ring out the old year and peal forth their message of happiness for 1922--- our thoughts go back to the old friends who have made this firm the premier Dry Goods House in Northern New Brunswick.

To one and All we Wish Happiness Contentment and Plenty during the New Year

J.D. Breachan & Co. LIMITED

Beautifying the Railways

(1) The Station Garden at Milton, Ont.  
(2) The Fountain in the Station Garden at McAdam, N.B.  
(3) The Station and Office at Woodstock, N.B.

At the present time of the year when the snow covers the ground one decidedly misses the station and section gardens along the Canadian Pacific Railway with their profusion of shrubbery and flowers. It is the policy of the Canadian Pacific Railway to establish permanent gardens, and the C.P.R. Floral Committee gives every possible assistance in carrying on this work; thus every year sees an increase in the number of permanent gardens laid out.

In carrying out this work a great number of trees, shrubs and perennial plants are used annually. Suitable trees such as ash, elm, maple and poplars are supplied and shrubbery such as honey-suckle, lilac, hollyhock, spirea, elder, weigela, etc., together with perennial plants such as peonies, delphinium, galleria, cosmos, sweet william, phlox, pink and others are supplied. Vines are also supplied to cover out-buildings and fences. For this purpose Virginia creeper, honeysuckle and Japanese ivy are considered the best.

The first display of color in spring-time is obtained from the planting of bulb plants in the fall but owing to their short life and labor involved, the distribution is limited to large stations and terminals.

Following this, standard annual seed packages are supplied on request to all those interested. The varieties are specially selected for their hardiness and with consideration to the display they will give. Those chosen are nasturtium, marigolds, mignonette, zinnia, cocksia, alyssum and others. These seeds can be sown in the open and very good results quickly obtained.

For formal displays and formal flower-beds, a large quantity of bedding plants are annually supplied and this list comprises canna, geraniums, cosmos, zinnia, asters, verbena, petunia, alyssum and lobelia, the latter two varieties being mainly used for borders.

Gradually, however, this class of plants is being replaced by perennial stock which requires less manual work and comes up from year to year living through the severest winters. In the Lake Superior country pansies alone are used. This plant is a very hardy biennial and has been found to thrive well in that part of the country.

It is pleasing to remember that this work is to be directly credited to the agents and other employees, for it is carried out mostly in their own time and through enthusiasm in beautifying their own living quarters. The C.P.R. recognizes their effort by presenting prizes on each division according to merit. These are keenly contested for, and in their distribution due consideration is taken of individual effort and the results achieved therefrom.

One important measure is to improve conditions around bunk-houses and points where employees gather and accordingly make their surroundings pleasant and attractive.

Under the guidance of a Committee which includes fully qualified foresters and horticulturists, plans are carefully laid and the work carried out under their direction. This Committee is constantly in touch with other horticultural experts, including agricultural colleges and horticultural societies so that the work is left unturned to keep the work up to a modern standard.

## FAITH SHOULD BE TEMPERED WITH HARD WORK

M. D. Hunton of Cone, Hunton & Woodman, believes the advertising field should be intensively tilled during the coming winter, and that we should not deceive ourselves with false notions as to the ease with which that tillage can be accomplished.

"Conveying a wrong impression to another person," says Mr. Hunton, "is as bad business as it is bad morals. Even worse, if possible, is fooling one's self. I think some workers in the advertising field are just now deluding themselves with the idea that national advertising is going to boom after the first of the year. It isn't."

"I have been in forty-two cities in the past few months and have felt the business pulse of the advertisers in those cities carefully. With few ex-

ceptions, they are not enlarging advertising appropriations for next year. Neither are there many new accounts. Advertising reflects general business conditions and is dependent upon a market for our surplus products—in other words, upon a resumption of our export trade. That is not likely within the next few months.

"Some of the general advertising agencies, recognizing this state of affairs, are doing splendid work in impressing upon manufacturers the necessity of an intensive cultivation of the domestic field.

"There is only so much domestic trade to be secured and the manufacturers who heed this counsel are the ones who are going to get away with the bacon.

"Recognition of prevailing business conditions is equally important to newspaper publishers. The newspapers which are going to do well in national advertising in 1922 are the ones which intensively cover the entire national field, with an adequate force of solicitors who present business arguments, who co-operate with

## PERSONALS.

Mr. A. Con of Stillwater, Minnesota is visiting friends in town.

Miss Gwen Belyea of Acadia University is home for the Xmas vacation.

Dick Corbett, assumed his new duties on the Bank of Nova Scotia staff last week.

Mr. and Mrs. F. M. Ryan of Portland, Me., are guests of the Misses Bayle, C. I. Road.

Miss Lillian Rundle of Halifax is visiting her parents Mr. and Mrs. James Rundle.

Mr. and Mrs. Pierce Ronan of Bird's Rapids, Ont., are visiting Mr. and Mrs. William Ronan.

Miss Gertrude Gallant and Dr. Isadore Gallant, of Bloomfield, P. E. I. are visiting friends in Newcastle.

Misses Elizabeth Nicholson and Marjory Lindon of Sackville Ladies' College are home for the holiday season.

Miss Bertha Ferguson of Moncton is spending the Christmas vacation with her parents Mr. and Mrs. John Ferguson.

Mrs. B. F. Maltby attended the council of the N. B. Graduate Nurses, which met last week in St. John, St. John.

Jack Mackay of Dalhousie University is spending his vacation with his parents Mr. and Mrs. A. H. Mackay.

Jack Nicholson of Dalhousie College Halifax is spending his Christmas vacation with his parents Dr. and Mrs. R. Nicholson.

Mr. Vincent McEvoy of Dalhousie College Halifax is spending his Xmas vacation with his parents Mr. and Mrs. P. J. McEvoy.

Jack Corbett of Dalhousie College, Halifax, is spending Christmas and New Years with his parents, Mr. and Mrs. Wm. Corbett, Jr.

Charlie Morris of St. Francis College Antigonish, is spending the Christmas holidays with his parents, Mr. and Mrs. Hugh Morris.

Mr. George Stables and Master Huntly Ferguson left Monday morning for Fredericton Junction where they will spend the Christmas holiday season, the guests of Mr. Stables' daughter, Mrs. Joseph Cook.

## "SHORTY" VENO AGAIN STARS IN BOSTON

Boston, Mass. Dec. 22—The Westminster Club tonight scored its second victory in the local hockey series to determine Boston's two representatives in the United States Hockey Association this year. They won from the B. A. A. team by a score of 2 to 1. Both goals for Westminster were scored by 'Shorty Veno' of Moncton, N. B.

### RINK OPENED

The rink opened yesterday for skating and the attendance was large. Good music was provided and the young people enjoyed the holiday in this way. It is expected that the ice will be ready for curling in the near future, when the chief attractions for the young during the winter months will be skating and curling.

advertisers and advertising agencies, and who are not afraid to do many thousand miles of traveling.

## Get the Land Settled

By Observer.

But for the war the population of Canada might easily have been from 2,000,000 to 3,000,000 greater than forecasts of the forthcoming census returns indicate. For five years before Germany precipitated the world conflict, the Dominion had been receiving from 300,000 to over 400,000 immigrants a year. Even if this average had not been fully maintained, the tide of immigration during the past seven years must have continued strong. Not only did the war stop the influx, but for a time it turned the trend of population the other way. Aside from the terrible wastage of man power and the decline in the birth rate following our participation in the war, newly arrived foreigners left the Dominion in tens of thousands. A considerable proportion joined the allied colors in other countries. The rest took their departure to escape conscription. As an inevitable consequence an inadequate population scattered over half a continent now finds itself confronted with heavy burdens—unable except with difficulty to meet the overhead charges of a huge war debt, a costly pension list and a serious deficit on a tremendous mileage of public-owned railways.

The proper course to pursue under the circumstances is surely obvious. The ground lost during the war must be regained, and that with the least possible delay. The tide of immigration must be quickened towards our shores. Scrapped immigration machinery must be reconstructed and abandoned colonization agencies got into action once more. Nor must it be imagined that this can be accomplished in a moment. The flow of immigrants cannot be turned on and off at will like water through a tap in the kitchen sink. It is only by sustained effort over a considerable period that an important movement of desirable classes of settlers can be got under way. At present the stream of British immigrants has set towards Australia and New Zealand. The time has arrived to begin preparations for diverting our share of them this way and for carrying out effective immigration work in the United States and other approved countries. Months will be required to get the necessary machinery in operation. Nor should the measure of unemployment existing to-day be allowed to stand in the way of such forward preparations.

If there were enough people on the land in Canada to-day, there would be fewer people out of work in the towns and cities. That much is clear. The larger the rural population, the larger the home market for the products of domestic industries. The greater the purchasing power of the farming population and the villages, the greater will be the activity in mill, in factory and in city building trades. More people will mean an increased volume of freight and passenger traffic for the railways, more business for the marketing agencies, more money for everyone, and a progressive decline in the individual burden of taxation.

The immediate business of the nation, therefore, is to make timely arrangements in advance for pumping in the right kind of settlers for the land. Not only this! Care must be taken to see that the newcomers are placed on the land under favorable conditions and that they stay on the land and make good there. Thirty million acres of fertile prairie soil lying close to existing railway lines cry out for the plough. The older provinces of confederation have the land and the resources to support many times their present populations. So has British Columbia. The thing to do is to get busy. Let everybody help—the Federal and Provincial Governments, the railways, the press, the Western Canada Colonization Association, and every other immigration organization capable of effective mobilization.

### 1921 Apple Crop.

British Columbia—Total crop 100 per cent. in excess of last year, or approximately 1,009,000 barrels (43,027,000 boxes).

Ontario—Total crop 60 per cent. of last year, or approximately 960,000 barrels. Eastern Ontario, 70 per cent. of last year's crop. Spys heavy, Western Ontario, 45 per cent. of last year's crop. Practically all sold. Considerable scab and high percentage lower grades.

Quebec—Total crop is from 35 to 40 per cent. of last year, or approximately 35,200 barrels. Color and size fair. Demand and prices good.

New Brunswick—Considerably improved since last report. Total estimate about 110 per cent. of last year, or 33,000 barrels.

Nova Scotia—Total crop will be 110 to 115 per cent. of last year, or 1,300,000 barrels. No change in condition during September.

### Words Failed Him.

Archibald—"Hello, Jimmy, what's the matter? Fallen off your bicycle?" Jimmy—"No!" was trying to reach a top shelf by standing on some dictionaries, and they gave way."

Archibald—"I see—words failed you!"

### Forest Preserves.

The Quebec Government is probably the leader in the New World in forest preservation. It plans to plant two pines or spruces for each one cut down, and has an elaborate patrol of its forests, including airplanes for fire detection.

In China it is a punishable offence for a man to wear a button, an embroidery or a decoration of rank superior to his own.

## OBITUARY

WILLIAM IRVING

The death of Deputy Sheriff Wm. Irving took place at his home on Dec. 24th at 12 o'clock noon. The late Mr. Irving had been in failing health for some years but recently was confined to his bed. Deceased was Deputy Sheriff for the County of Northumberland for many years, and still held the position at the time of his death. He was one of Newcastle's most respected citizens and a large number of friends mourn his death. Deceased was in his 64th year. He leaves to mourn three daughters and one son. The daughters are Ida (Mrs. P. N. Brown), Margaret and Janie and his son Bert of Chatham.

The funeral of the late Mr. Irving was held on Monday afternoon at 2:30 o'clock. The Rev. L. H. MacLean, pastor of St. James' Presbyterian Church, of which deceased was a devout member, officiated at the home and grave. Interment in St. James' cemetery.

The pall-bearers were J. R. Lawlor, H. Williston, C. M. Dickson, Horace Kethro, John Sargeant and Chas. J. Morrissy.

Maher Bros. of Chatham, Undertakers.

The floral tributes were many and beautiful, which spoke of the high esteem in which deceased was held.

### HIRAM NATHANIEL UNDERHILL

The home of Mr. and Mrs. George Underhill of Blackville was saddened on Monday Dec. 12th when they received word of the death of their son (Hiram Nathaniel, who had met with a fatal accident at Maple Grove York Co. while engaged in cutting lumber for Mr. James Forbes.

At about twelve o'clock while felling a tree, he was struck on the head by a fallen limb and rendered unconscious, every available means were used, but nothing could be done to save his life and he passed away twenty minutes later.

The body was brought by train to his home on Tuesday morning, accompanied by Mr. Lawrence W. Underhill, who was with him at the time of the accident. His kindly and cheerful disposition won for him a host of friends, who will be shocked to learn of his sudden death.

The funeral which took place from his home on Wednesday afternoon was the largest seen in this vicinity for some years.

Hymns sung at the house were some day the silver cord will break and we'll say good-bye in Heaven. Safe in the Arms of Jesus and Forever with the Lord, at the Church.

The pallbearers were Messrs. Herbert, O'dell, William, Wallace, Lorne and Lawrence Underhill.

Deceased was twenty-eight years of age and besides his parents is survived by his widow (nee Miss Elizabeth McKeill of Chelmsford) two small children and the following sisters and brothers—Leontine, Jessie, Frank, Theodore and Alton at home Chester on the Bank of Nova Scotia staff, Amherst, N. S.

The late Pte Theophilus Underhill who was killed in action in 1918 was also a brother. The sympathy of the whole community is extended to the bereaved family.

### CLOSING OF THE SCHOOLS

The public schools closed on Wednesday with attractive programmes in which the joyful spirit of the Christmas season was amply demonstrated in musical and literary pieces given by pupils from the primary to High School grades. Books were laid aside and the pupils celebrated the coming again of Christmas with songs and recitations which they had been enthusiastically rehearsing for weeks past. Many parents and friends attended the exercises and enjoyed the programmes prepared.

## Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nervous system is restored by such uplifting treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearce, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and they strengthened and built up my system splendidly, completely relieving the pain in my head."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

## GREETINGS

We extend to all our heartiest greetings and the wish that the year 1922 may bear for all a full measure of happiness and prosperity.

FOLIANSBEE & Co. The Biggest Little Store in Town

## A Necessary Factor

In Business Dealings Is INSURANCE

Business men realize the necessity of insurance and are placing the right value on it.

What agency—what policy are big factors in selecting insurance because if insurance is necessary only the best should be considered.

## Service

An agency that gives its clients close and continual attention is the agency to employ in insurance matters.

These considerations are observed every day by us. Reliable insurance and personal service go with every policy we issue.

**MOTOR VEHICLES BY-LAW MUST BE RE-REGISTERED**

Re-registration of motor-vehicles in the province of New Brunswick must be made in 1922 and the law requires that the new registration and the application for number plates be made by January 1st. The result is that the section of the Department of Public Works which attends to the registration of motor-vehicles will be busy. There is no additional charge for registration. The supply number-plates for motor-vehicles for the coming year the Department has ordered sixteen thousand new plates. The plates are of deep cream background

**BEAUTY OF THE SKIN**

is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample free if you mention this paper.

**Dr. Chase's Ointment**

with embossed lettering and numerals in dark green.

**During Present Year**

During the year which will close with the present month there was a total registration of 13,460 motor-vehicles exclusive of motor-cycles in the province. Motor-cycles numbered 155. The licensed chauffeurs numbered 1,518. Touring cars numbered 12,585 and motor trucks 875.

**Road Expenditure**

Hon. P. J. Veniot, Minister of Public Works, announced that during the expenditure of funded motor-fees on branch-roads and secondary roads in the province had totalled \$400,000. It is estimated that in 1922 the collections of motor-vehicles fees will exceed \$276,000 the total for 1921.

**APPOINTMENTS**

The following appointments have been gazetted. James F. Connors, of Chatham to be Registrar of Probate for the County of Northumberland in succession to M. S. Benson, deceased. Benjamin Wells of Blackville and Edward Landry of Rogersville to be Alms House Commissioners.

**NO REDUCTIOS IN PRICE OF LEATHER FOOTWEAR**

Montreal, Dec. 21—A statement is issued here today by the executive committee of the Shoe Manufacturers' Association of Canada to the effect that no reduction in the prices of leather footwear for the spring is anticipated.

On the contrary, it is stated that some advances in prices of shoes may be necessary if the increase in the price of hides continues.

**THE LOWER IS HIGHER THAN THE UPPER**

Let me have sleeping accommodations on the train to Ottawa," I said to the man at the window, who didn't seem at all concerned whether I took the trip or stayed at home.

"For a single passenger?" he finally said.

"No," I replied, "I'm married but I'm not taking anybody with me. A single shelf will answer."

"Upper or lower?" he asked.

"What's the difference?" I enquired.

A difference of fifty cents," came the answer.

"Our prices to Ottawa are \$2.50 and \$3.00."

"You understand of course," explained the agent, "the lower is higher than the upper. The higher price is for the lower berth. If you want it lower you'll have to go higher. We sell the upper lower than the lower. It didn't used to be so, but we found everybody wanted the lower. In other words the higher the fewer."

"Why do they all prefer the lower?" I broke in.

"On account of its convenience," he replied, "most persons don't like the upper, although it's lower, on account of it being higher, and because when you occupy an upper you have to get up to go to bed, and then get down when you get up. I would advise you to take the lower, although it's higher than the upper, for the reason I have stated, that the upper is lower than the lower because it is higher. You can have the lower if you pay higher, but if you are willing to go higher it will be lower."

—SET SQUARE, Toronto

**"Cold in the Head"**

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System, thus reducing the inflammation and restoring normal conditions.

All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

**MARTINS BATTLE SPARROWS.**

St. Mary's and Dundas Boast Bird That Does No Harm.

Shall the purple martins or the sparrows hold the mastery of the air in Ontario? Everybody knows how the sparrow drives away the birds that would destroy insects. It is not so well known that the purple martin exercises control over noxious insect life wherever they go. And, what is more important, they can battle the sparrows.

Two Ontario towns, St. Mary's and Dundas, have five colonies of purple martins, mainly because of the fact that for generations residents have provided good nesting places for the splendid birds. In Dundas a Mr. Isaac Lathaw, coming from Pennsylvania in 1835, set up a many-chambered bird house on a pole. Perhaps the birds followed him across the border. They have been coming, every year since. When they came, one spring the house was gone, but another nesting place was hastily rigged up, and they have stayed.

In St. Mary's there are convenient holes in the wooden trimmings of the stone buildings along Water street, and here every spring the purple martins come. Perhaps it may have been accidental that apertures were left by careless builders at certain houses and store fronts and that the birds have taken advantage of this circumstance. May some golden-throated purple martin twitter and chirtle for him all his work days, and may a late lark sing for him at the sunset of life, writes A. C. Wood.

In St. Mary's they do battle with the English sparrows and drive them away. The people realize that the martin lives on flies and gnats, and is a blessing, simply ignoring berries and grains. The bird is said to winter in the far southern states.

When will other towns encourage the better bird and discourage the pesky sparrow?

**Vancouver Saw Virgin Seas.**

George Vancouver, who was born in 1758, entered the British navy at the early age of 13 and later accompanied Captain Cook on his second and third voyages of discovery. After serving several years in the West Indies, Vancouver was given the command of an expedition to the north-west coast of America, the objects of which were to take over from the Spaniards territory they had seized in that region; to explore the coast; to search for an eastern passage to the Great Lakes; and to ascertain the true character of Juan de Fuca Straits.

The expedition consisted of two ships, the "Discovery," of which Vancouver was in command, and the "Chatham," under the command of Lieutenant Broughton. They sailed from Falmouth on April 1, 1781, to Australia, via the Cape of Good Hope, and thence to New Zealand, Tahiti and the Hawaiian Islands. Vancouver was the first properly to explore the coasts of New Zealand.

It was not until April 18, 1792, that Vancouver first sighted the west coast of North America. He carefully surveyed the coast and inlets of what is now known as British Columbia, and circumnavigated Vancouver Island, which was named after him. Vancouver was not, however, the actual discoverer of the island, it having been discovered in 1592 by Juan de Fuca.

Vancouver again visited the Pacific coast in 1793 and again in 1794, when he sailed as far north as Cook's Inlet, Alaska. After this voyage, Vancouver returned to England via Cape Horn and arrived in the Thames on October 20th, 1795.

Immediately on his return he commenced a narrative of his voyages and although he worked on it until within a few weeks of his death, he was not able to complete it. He died at Petersham in 1798 at the early age of 40. His brother John, assisted by Captain Puget (who sailed with Vancouver on his expedition), completed the record, which was published in 1798.

**Tomato Wastes.**

Tomato pulp, for catsups, pastes and soups, is obtained in the requisite pure state by putting the tomatoes into what is called a "cyclone machine," the material being forced through small holes in a metal screen to get rid of the skins and seeds. No fewer than 225,000 tons of tomatoes are pulped annually in this country, the skins and seeds being thrown away. It is a lamentable waste, inasmuch as the seeds yield an excellent salad oil, which is also the base for paints and varnishes, being a quick drier. The residue from the oil press, mixed with the skins, makes a highly nutritious stock feed.

**Canada's Example.**

The keynote of the Canadian program of settling soldiers on the land, says an editorial in a recent issue of Leslie's, is self-help—"the provision of opportunities by which the Canadian soldier, or his widow, can become as useful and honored a citizen in peace as in war, an asset instead of a liability. It is a program that already has stood the test of time, as compared with our own, which, so far as it exists at all, is still in a tentative stage. It is one which we, with greater singleness of purpose and less politics, might have adopted in its essentials with equal success."

**New Canned Food.**

A newly patented kind of food, put up ready for the housewife's instant use, is prepared by mixing fine-chopped meat with milk and a little flour. The paste thus formed is filled into molds and exposed to heat, whereby the contents undergo slight shrinkage and acquire a sort of "skin." The molded masses are thus easily dropped out, to be thereafter put into cans, which are sterilized and sealed.

**ANTIQUITY OF HONEY.**

It Is The Most Ancient of Sweet Foods.

Honey is probably the most ancient and honorable of all sweet foods. Its pedigree is older than the Roman Fleece, or the pyramids of Egypt. Nowadays the raising of bees is very popular with Canadians, and many amateurs find them highly profitable.

Pythagoras' famous recipe for longevity was: "Eat nothing on your bread but honey." Twentieth century dietetics agree, provided the bread be buttered in order to supplement the fat supply, which the old philosopher doubtless received from his consumption of olive oil.

According to Virgil, honey was produced in a truly poetic way—"A golden dew falls upon the flowers and becomes immediately the prey of bees which deposit it in their cells." But Virgil was only partly right. It is not honey until it has been transformed in the honey sacs or glands of the bees.

The chief constituents of the flower nectar are water and cane sugar, or sucrose. Within the body of the bee this sweetened water undergoes an important change whereby its sugar is partially turned over (inverted) into the easily digested sugars, dextrose and levulose.

Its perfume or fragrance is due to minute quantities of a volatile, or essential oil. It is in fact our only perfumed common food. Analysis shows that honey is a valuable carbohydrate food. On the average it contains: Cane sugar 2 to 3 per cent.; Levulose and Dextrose (inverted cane sugar) 75 per cent.; Moisture 17 per cent.; Mineral matter 0.2 per cent. The amount of mineral matter is so small that it is thought to be derived largely from dust particles in the nectar of the flowers themselves.

This nectar as it occurs in the flowers is principally water, over 90 per cent. Unless the bee was provided by some rapid method of ridding the nectar of this excess moisture he would become speedily water-logged and the victim of inefficient transportation facilities, but all this has been taken care of in a truly wonderful way.

One of the leading experts on honey bees states that he has seen bees immediately after drinking their fill from outdoor feeders containing thin sugar syrup, or from certain flowers, send off from their bodies (after taking wing) a fine spray, apparently producing a kind of instantaneous dehydration which concentrates the thin syrup. This fine spray is seen when the bees in flight have reached a height of ten or twelve feet from the feeders or the flowers. In order to see this the observer should place himself in a direct line with the bees and the sun. This fine spray can best be seen when the bees are fed with outdoor feeders which are sometimes used when there is a dearth of honey.

This is truly marvellous, for thus far it is impossible for the chemist to remove water from sugar solutions without application of the heat or the action of chemicals. The currents of air forced through the hive by the fanning motion of the bees' wings is said to further remove the moisture from the honey and reduce it to a heavy syrup.

The Lister Institute has given us another food fact concerning honey which though not generally known is of vital importance. It has been proven that pure honey contains appreciable quantities of the water-soluble vitamin B which tends to protect us against polyneuritis, or beriberi. This, no other natural sweet has been found to do. It furnishes about 1,520 calories of energy for every pound, and in addition, is easily digested. It is widely adaptable in cookery.

Honey is more nutritious when eaten with the honeycomb; while this latter is probably indigestible, it does furnish bulk and tends to prevent too great concentration. Digestive disorders are seldom caused by eating honey.

**Courtesy and Beauty.**

Railway headquarters may issue general orders but unless station agents dig and water, there will be no beautiful grounds to rest the eyes of passengers. With this in mind the Grand Trunk Railway is thanking its staff for the way in which during the past eighteen months they have improved the horticulture and decoration of station premises in Ontario. Areas which would otherwise have been waste and ugly pieces of ground have been turned into green lawns, shrubberies and flower-beds.

The track workers as well devote considerable time to the work, finding it just a little pleasanter than burning grass or relaying track and replacing ties. A large portion of the upkeep, the higher officials notice, has been done by the track and station staffs in their own time. This indicates the spirit behind it. The company's part is to provide the materials. The men plan the plots and do the work. A general discovery is that the man who is courteous to the traveling public is also inclined to be considerate of sore eyes which formerly suffered from the down-at-the-heel air of railway premises.

**He Had.**

A doctor, on stepping out of his motor-car, was accosted by a seedy-looking individual, who asked: "Have you got such a thing as an old shirt?"

"Yes," replied the doctor, "I've got it on!"

**More British Gold.**

The importance of gold production within the Empire gives additional interest to the fact that during the past quarter the gold mines of Ontario produced \$3,754,846—the highest quarterly output in the history of gold mining in that province.

Indians associated the beaver with the creation of the world and would not kill it.

**Mc Gill a Hundred Years Old**

McGill University, as it will appear when the proposed extensions are completed.

Montreal will witness an historic event for five days, commencing Wednesday, October the twelfth, when the one hundredth anniversary of the founding of McGill University will be celebrated, a reunion of former graduates and under-graduates. For a year and a half arrangements have been underway by a special committee of the McGill Graduates Society in charge of the details of the unique event.

From all over the world McGill Graduates have signified their intention of taking part in this memorable gathering. At the present time there are some on the high seas from Japan, China, and India, from Australia, South Africa and South America, to be followed by those from Great Britain and Europe, eager to be present to celebrate the one hundredth anniversary of their alma mater, and to revive the memories of student days.

Invitations have been issued to every recognized university in the world to send a representative. Many distinguished men will receive degrees at a special convocation.

Following registration which will take place in Strathcona Hall, the initial event will be a garden party on the campus, followed in the evening by a fete de nuit. The mornings of the week will be devoted to special lectures and demonstrations in the various faculties of Medicine, Science, Arts, Law and Theology. At eleven a.m., on the second day, a general meeting of all McGill graduates will be held at the Capitol theatre and in the afternoon there will be a convocation. Class Dinners are planned for the evening at which all classes will meet as units, and later all male graduates will gather for a general smoker, the lady graduates having a dinner in the Royal Victoria College. University sports will be held at the Percival Molson Memorial Stadium in the afternoon of the third day, and in the evening a University reception and dance will be given by the President and the Board of Governors.

On the morning of October the fifteenth an excursion to the MacDonald Agricultural College, St. Anne de Bellevue has been arranged, followed by luncheon, returning in time for the championship rugby match between McGill and Toronto Varsity. On Sunday, October the sixteenth, a general dance service will be held at St. James Methodist Church.

A special souvenir button has been designed in honor of the occasion—another of the many important events associated with the history of Montreal.

The special committee in charge of the reunion include: Chairman, Brig-General G. E. McCuaig, Sc. '08; Vice-Chairman, Captain J. G. Ross, Sc. '08; Secretary, E. B. Tilt, Sc. '03; Ladies' Committee, Miss L. M. King, Arts '07 and Mrs. C. McMillan, Arts '10; Entertainment, Gregor Barclay, Arts '06, Law '08, and Jas. C. Kemp, Sc. '08; Transportation, Abner Kingman, Jr. Arts '08, and H. C. Scott, Arts '06; Housing, A. G. Cameron, Law '10 and F. B. Common, Arts '18; Programme, Dr. W. G. Turner, Med. '00; Finance, I. G. Ross, Sc. '08 and H. Y. Russell, Sc. '01; Registration and Publicity, Fraser S. Keith, Sc. '03; Faculty Representatives, Med. Dr. C. F. Martin, Med. '02; and Dr. A. T. Baile, Med. '04; Cyrus Macmillan, Arts '00; Gordon McDougall, Law '04; General, Dr. J. A. Nicholson, Arts '07; Henry Morgan, Arts '13; Prof. N. N. Evans, Sc. '06; J. M. Eakins, Sc. '09 and J. W. Jenkins, Arts '13, Secretary, McGill Graduates Society.

A greater interest has been created in McGill University through the special campaign inaugurated last fall particularly among the graduates. At this campaign over five million dollars were subscribed to carry on the work of old McGill, and to supply additional buildings and equipment commensurate with the growth of the University. This increased interest is duly reflected by the large numbers who are coming to the annual meeting for the purpose of assisting in the history of a great university so favorably known in every quarter of the globe.

Professor Cyrus Macmillan has written a history of the university entitled "McGill and Its Stories," which S. B. Gundy, of the Oxford University Press, Toronto, has published in time for the Reunion. This contains extracts from many historic records published for the first time and gives a wonderfully interesting account of the progress of education in Lower Canada and Quebec within the last hundred years.

**A DEARTH OF  
 GERMAN COAL**

Berlin, Dec. 21—Berlin's coal supply is nearly exhausted and will last only a few days according to the Government commissariat for coal distribution. Germany has been forced to cut down considerably the quantities of coal regularly exported to Austria and Hungary.

The commissariat declared one of the principal reasons for the coal shortage was that Germany was forced to supply France with quantities which are far in excess of former coal shipments to France.

It was announced that passenger train service between Hamburg, Hanover, Frankfurt, Leipzig and Dresden would be reduced owing to the coal shortage.

While increased business in the German iron industry requires an increased supply of raw iron, about twenty furnaces are inactive owing to the inability of the authorities to supply sufficient coke to run them. It was stated that at 7,000 German machine factories and steel smelting works will be forced to refuse domestic and foreign orders.

**The Joy of Living.**

When you waken with no appetite, a dread of the day's work and your head heavy, your digestive organs are probably calling for just the help which **Wether Seigel's Syrup** can give them. The medicinal extracts of more than ten different roots, barks and leaves restore the natural healthy action of liver and stomach. Meals are enjoyed, that tired feeling disappears, and you know the joy of living. Sold in 50c. and \$1.00 bottles at drug stores.

**FELT LIKE AN IRON  
 BAND AROUND HEAD**

**This is how Lynchburg, Va.,  
 Woman Declares her Head-  
 aches Often Affected Her.**

Everybody will read with interest the statement of Miss M. E. Woodford, 1808 Filmore St., Lynchburg, Va., who says:

"I don't believe anybody ever suffered from headaches like I did. The pains felt like an iron band was being drawn around my head and my temples would throb until I was driven almost distracted. I shudder when I think of those awful headaches. I had no appetite either.

"I owe Tanlac an everlasting debt of gratitude for entirely ridding me of those terrible headaches. My stomach has been toned up too, and everything I eat agrees with me now. Tanlac certainly brought me health and happiness."

Tanlac is sold by all leading druggists.

**500 ARRESTS MADE  
 CHICAGO BONE DRY**

Chicago, Dec. 18—More than 500 men were under arrest tonight, and a drink of whisky was the scarcest thing in Chicago, as a result of the long deferred drive on the "demon rum," begun by the police under orders of Chief Fitzmorris, who made it plain that the other emanated from Mayor Thompson.

Last night and early this morning saw police in the most exclusive clubs, leading hotels, cabarets and restaurants, as well as in the lowly grog shops, the moonshine dispensing parlors and the coffee shops.

The thoroughness of the first night's raiding caused the once bright lights of the city to be dimmed tonight. Men about town prominent club men, "Loop hounds" and rounders have been duly warned. The word has gone round that no place is safe, and that the smell of liquor on one's breath is sufficient cause for arrest under the drastic enforcement of the Illinois search and seizure laws set in operation by Mayor Thompson.

Arrest of a guest at a fashionable Casino Club, while one of the social events of the season was in progress; the arrest of a visitor to the Actor's Equity ball in the Congress Hotel as he alighted from a cab and inadvertently let an eagle-eyed detective see that he had something of a liquid nature in his hip pocket and the mingling of plain clothes men with those in evening dress and gowns, have convinced the people that prohibition and the search laws are really to be enforced.

James Baker, a resident of the Ambassador Hotel, and said to be the son of the owners of a leading coal company, was the man arrested at the Casino Club. Lieutenant William Shoemaker of the Detective Bureau discovered him in the cloakroom with a bottle to his lips. Shoemaker told him there was "many a slip."

Officials of the club said Baker was not a member and not an invited guest. He had accompanied one formally invited, it was explained.

Day Manson, a member of the "Gold Diggers" company, was on his way to offer his talents for charity when he was arrested. He felt very uncharitable later in the Detective Bureau—at least toward dry laws and policemen.

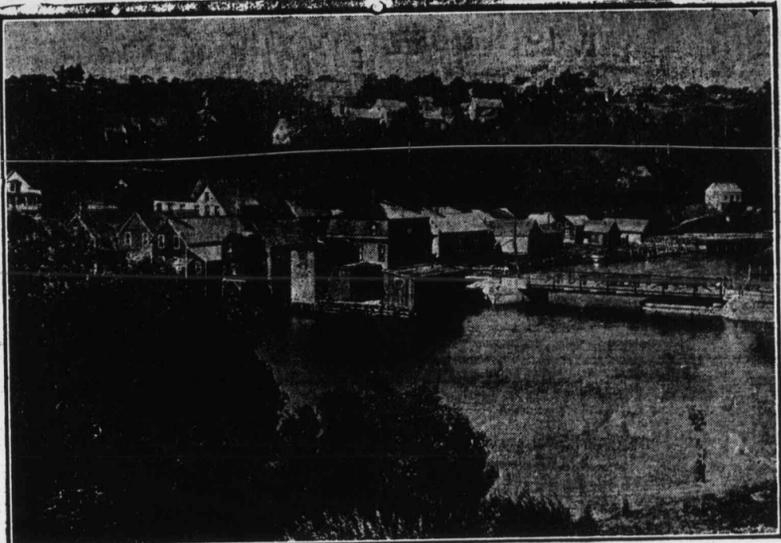

"The drive is on. Long may it live" say officials charged with the law's enforcement. "At least while prohibition is law, but may that not live so long!"

"I'll continue making arrests," said Chief Fitzmorris.

## Local and General News.

### FIRE ALARM

Early Christmas morning an alarm of fire was sent in for a small blaze on the roof of Mr. William Whelan's residence. It was quickly extinguished, the damage sustained being slight.

**TO GO INTO EFFECT JANUARY 18**  
Ottawa, Dec. 21—A special issue of the Canada Gazette contains notice of an order in council dated December 17, directing that the prohibition order for New Brunswick shall go into force on January 18.

### CHRISTMAS DAY

Christmas falling this year on Sunday, was observed on Monday. The day was spent quietly by the citizens while the young people enjoyed themselves in driving and skating.

### LICENSES RENEWED

The administration of the liquor laws of the province occupies a large portion of the Royal Gazette of last week, notices of various kinds being published. The licenses of seventy three retail vendors are renewed.

### HORSE RACING

Horse racing on the river in front of the Public Wharf was indulged in on Monday. A large number of enthusiastic supporters of this sport witnessed the racing, notwithstanding the cold weather.

### GRADUATION

The Royal College of Science, Toronto, Department of Nursing lists of graduations contains the name of Mrs. Olive Whitney, Whitneville, N. B., who has many friends in Whitneville and vicinity. The report indicates exceptional adaptability on the part of Mrs. Whitney in her chosen profession of nursing and her many friends will be pleased to congratulate her upon receiving a diploma for nursing from the Royal College of Science.

### REGISTRAR NOT JUDGE

Some one who apparently did not know anything about the matter and probably cared less, announced that Mr. J. F. Connors of Chatham had been appointed Judge of Probate for Northumberland. Mr. A. A. Davidson, K. C. of Newcastle, has been filling that position for the last four years and nothing has been heard of his relinquishing it for any reason. Why should Mr. Connors supersede him? Mr. Connors has probably been appointed to succeed the late Mr. Benson, as Registrar of Probates. If the Royal Gazette said "Judge" instead of "Registrar," it is only in keeping with its regular traditions; for as Commodore Stewart once remarked in the House, it needs a second notice in the Gazette always to correct the mistakes in the first Standard.

### A NORTH SHORE CASE

Argument in the case of Rundle vs The Miramichi Lumber Co., was commenced in Chambers on Tuesday before Mr. Justice Chandler, was resumed this morning. The evidence in this case was heard in September, at Newcastle and it was then adjourned to the present date for hearing of the argument. The question is as to the validity of a license issued to James A Rundle, plaintiff; to cut ties and princess pine over the territory of the company. The license was given to the plaintiff in 1912, and the contention of the company is that the then president of the company had no authority to give such license. There is also a question as to whether or not the statutory provisions, re such licenses, was adhered to. Another question is whether or not, in view of the statutes of 1913, the licenses at present held are renewals of those issued in 1912. Arguments were presented to the Court by all the counsel. Court considers.

James Friel, K. C.; and Ivan C. Reed for plaintiff; M. K. Toed, K. C. and P. J. Hughes, for defendant—Globe 21st.

### CARD OF THANKS

Mrs. James McCormack and family wish to thank their many friends for kindness shown during their recent sad bereavement. 52-0pd.

### CARD OF THANKS

The Miramichi Hospital Staff wish to thank all those who so kindly remembered them during the Xmas Season.

### XMAS MUSIC

Special Christmas music was sung in all the churches last Sunday, and services commemorative of the day were held. The music rendered was of a high order, and able sermons were preached by the pastors. The different churches were beautifully decorated for the Christmas services.

## EXPANSION FOR DALHOUSIE COLLEGE

Halifax, Dec. 21—According to reports current here, a project is afoot to have Dalhousie University, of this city, absorb certain departments of King's College, the Anglican institution at Windsor (N. S.); Acadia University, Baptist, at Wolfville, (N. S.); St. Francis Xavier, Roman Catholic, at Antigonish (N. S.) and Mount Allison, Methodist, at Sackville (N. B.), the four latter universities retaining their identity for purposes of theological education only. This plan would make Dalhousie one of the largest universities in Canada in point of registration, and greatly enhance its prestige in the education of the world.

It is said the Carnegie Foundation has offered certain financial inducements to bring about the amalgamation.

Dalhousie, which is the only maritime university having a medical college, conducted a successful drive for funds last summer, and has recently obtained \$500,000 from the Rockefeller Foundation.

### RECEPTION

The monthly meeting of the members of the L. O. L. No. 86 was held in the Lodge room Monday Dec. 19th at the conclusion of the regular business, the officers were installed for the ensuing year, after which a reception was tendered to the Blackville 'Dramatic Club' by the members of the order.

Mr. James Dale gave a very cordial address of welcome and on behalf of the members of the order made a presentation in gold to each of the following ladies Mrs. Robert McLagan, Misses Lydia Bean and Dorothy Connors for services rendered in the concert held recently under the auspices of the L.O.L. of this place. The remainder of the evening passed pleasantly in games and music after which refreshments were served.

The club sincerely thanked their hostess for the evenings entertainment declaring them 'Jolly Good Fellows' and expressed a desire that they might at some future time have another such evening.

## PRESENTATION

On Thursday evening the members of the C. G. I. T. and C. S. E. T met in St. James' Hall and presented Rev. L. H. and Mrs. MacLean with a beautiful Electric Toaster. Music was indulged in and refreshments were served. The following is the address presented to Mr. and Mrs. MacLean:—

Newcastle, N. B., Dec. 22nd  
Dear Mr. and Mrs. MacLean:—

We, the members of the C. G. I. T. and C. S. E. T feel it impossible to allow this Christmas Season to pass, without, in some slight manner extending to you a token of our appreciation and thanks for your tuition, wholehearted support and interest in our organizations, throughout the past year. Your devotion, assistance and kindness in all matters pertaining to our welfare has been such, as to forcibly impress upon us your sincerity in our work, and without your co-operation we realize that we would have been unable to reach the small degree of attainment which, through your efforts we have secured.

We, therefore, respectfully request you to accept this Electric Toaster, as a slight token of our esteem, and trust you will accept such, not for its intrinsic value, but in the spirit which prompts us to present it. Our sincere hope is, that you may long be spared to enjoy it, and that in the years to come our organizations may receive the benefit of your guidance. "A very Merry Christmas and A Happy New Year," is the sincere wish of the C. G. I. T. and C. S. E. T.

Signed on behalf of both organizations.

ANNIE A. CASSIDY, Pres. C. G. I. T.  
FRED McCORMACK, Pres. C. S. E. T

## QUEBEC ENJOYED BRISK CHRISTMAS LIQUOR BUSINESS

Montreal, Dec. 22—The retail liquor depots of the Quebec Liquor Commission in this city are doing a tremendous Christmas trade. Much of this trade comes from the United States, and cars bearing New York Vermont, Massachusetts and other State license numbers are reported as busy making calls.

Border towns where there are liquor stores, such as St. John's, Sherbrooke, etc, also attribute much of the briskness of trade to the same cause. The fact that there has been practically no snow fall this season as yet, has facilitated matters very much.
