AND GROUNDS  
R SALE.

the property on Nelson street,  
presently occupied by me, is offered  
for sale. The house is a handsome  
brick edifice, and contains twelve  
closets, pantries, etc., and best  
of grounds. The premises are  
and are tastefully laid out in  
shrubbery, etc., and are beyond  
handsome in town. There is a  
smaller house and equivalent  
in connection. This  
is offered for sale, at terms  
invited to attend.

THE WOMEN'S CHRISTIAN TEMPERANCE  
UNION will meet regularly for the transaction  
of business every Tuesday afternoon at 2  
o'clock, in the Temperance Hall. Every woman  
interested in the work is cordially  
invited to attend.

One of the most essential things about a  
house is proper plumbing. Saunders & Son  
have just engaged another plumber, and can  
now undertake all orders. They keep  
thoroughly posted on the latest sanitary meth-  
ods, and do only first-class work. Their  
prices are low. If you have any water services  
or plumbing to do, it will pay you to call and  
get prices. The cheapest house under the  
sun.

Railway building is a subject which is at-  
tracting great attention nowadays, and it  
wishes to do right—proper start must al-  
ways be made. It is the same in every  
line of business, and it is particularly the  
case in regard to picture framing. The  
mouldings are not good, and the workman-  
ship perfect, the effect will be marred. To  
avoid such a calamity get your pictures framed  
by R. R. Salloway, the photographer.

BRIEFLETS.  
Mr. T. B. Van Every was in Toronto  
on Wednesday.

Mr. and Mrs. Brayley, of Toronto, were  
in town last week.

Dr. Fraser, wife and child, of Detroit,  
are in town visiting relatives.

C. A. Vanatter, jeweler, of Stratford,  
spent Sunday last in Goderich.

Mr. Wm. McIntosh, of Wiarton, is  
spending his holidays in town.

Mrs. Baird and Mrs. McClaus, of Kin-  
cardine, are visiting at Mr. Maguay Swanson's.

Dr. McDonagh will be in Goderich for  
consultation on the first Saturday of  
every month.

Authority is like dried apples. A few  
cent's worth will puff a small man up  
astonishingly.

Rev. Geo. Richardson and wife have  
returned from a trip up the lake on the  
steamer Campana.

The near sighted hen that swallowed a  
bee was not long in concluding that  
she was a peck of trouble.

Mitchell Advocate: Mrs. Jonathan  
Miller, of the Albion Hotel, Goderich,  
is the guest of Mrs. James Jones.

All the drug stores in Goderich will  
be closed hereafter at the hour of 8  
p.m., by mutual arrangement.

Mr. and Mrs. Geo. Utter and two chil-  
dren, of Stevens Point, Wisconsin, are  
visiting friends and relatives in Goderich  
and vicinity.

Lucknow Sentinel: Miss Hays, of  
Goderich, who has been visiting her  
cousin, Mrs. Dr. Elliott, for a few weeks,  
left for her home on Wednesday.

Mr. Ward, one of the English experts  
on the American Salt Commission, paid  
a flying visit to Goderich on Saturday  
and inspected some of the salt works  
here.

Dr. Nicholson, the West-end dentist,  
makes the preservation of the natural  
teeth a specialty. Gas administered for  
9 s. m. for the painless extraction of  
teeth.

A close observer of business and fail-  
ures makes the following sage remark:  
"If an advertisement is discontinued by  
a business house it is like removing and  
leaving no notice of a new location."

Mr. Jonathan Miller, proprietor of the  
Albion Hotel, recently put in a hand-  
some new safe, for the safe of valuable  
belonging to his guests. The safe is one  
of the largest and best in the section, and  
is from the factory of Goldie & McCul-  
loch, Gal.

# The Huron County

DEVOTED TO COUNTY NEWS  
AND GENERAL INTELLIGENCE

GODERICH, ONT., FRIDAY, JUNE 28, 1889.  
D. McHILLICUDDY, PUBLISHER.  
\$1.50 A YEAR IN ADVANCE

## TO ADVERTISERS.

Notice of changes must be left at this office not later than Monday noon. The copy for changes must be left not later than Wednesday noon. Casual Advertisements accepted up to noon Thursday of each week.

## NEW ADVERTISEMENTS.

Point Farm—J. J. Wright.  
Fine Tailoring—B. MacCormac.

## BORN.

WALKER—In Goderich, on June 15th, the wife of Mr. J. A. Walker, of a son.

## MARRIED.

COPP-DUTTON—At the Northern Congregational church, Toronto, on the 16th inst., by the Rev. John Barton, B.D., assisted by the Rev. W. C. Weir, B.A., Mr. William Copp, of the Copp (Clark Co.) to Julia C. Dutton, second daughter of the late Frederick Dutton, of Southampton, Eng. (formerly of Stratford and Mitchell), and brother of Mr. John Dutton, chemist and druggist, of Stratford.

## MARRIED.

MORRISON-DEVIS—At St. Peter's church, on Thursday, June 27th, by Rev. Father West, Mr. M. Morrison, barrister, of South St. Marie, to Miss Annie A. Devis, of Goderich.

## DIED.

REID—In Goderich, on Wednesday, June 28th, 1889, William Reid, aged 31 years and 10 days.

The funeral will take place from the residence of Mr. Charles Martin, Dunlop's Hill, Colborne Township, on Friday, June 28th, at 2 p.m., to Colborne cemetery. Friends and acquaintances will please accept this intimation.

## TOWN TOPICS.

"A child's among ye, lovin' notes,  
An' faith ye'll prind it."

A GOOD PRESENT.—The most useful gift you can make is to give a Writ Pen. Apply to D. McHilllicuddy, agent, Goderich.

The weather appears to be steady and so is the demand for the splendid photographs turned out by Geo. Stewart, photographer.

The Kasoo Band promises to be an attraction in the last of July, and so will the handsome summer suits made up by J. & A. Friedman, the people's tailors.

The Pharmacy still holds first place amongst the drug stores of the town. The finest lines of fancy goods and the purest stock of drugs in the county can be found here.

THE WOMEN'S CHRISTIAN TEMPERANCE UNION will meet regularly for the transaction of business every Tuesday afternoon at 2 o'clock, in the Temperance Hall. Every woman interested in the work is cordially invited to attend.

One of the most essential things about a house is proper plumbing. Saunders & Son have just engaged another plumber, and can now undertake all orders. They keep thoroughly posted on the latest sanitary methods, and do only first-class work. Their prices are low. If you have any water services or plumbing to do, it will pay you to call and get prices. The cheapest house under the sun.

A close observer of business and failures makes the following sage remark: "If an advertisement is discontinued by a business house it is like removing and leaving no notice of a new location."

Mr. Jonathan Miller, proprietor of the Albion Hotel, recently put in a handsome new safe, for the safe of valuable belonging to his guests. The safe is one of the largest and best in the section, and is from the factory of Goldie & McCulloch, Gal.

The temperance people of the town purpose serving dinner and refreshments on Dominion day. See posters.

Mrs. A. M. Shepherd and family have gone to Cleveland, Ohio, where they will reside during the summer months.

The High School closes today (Friday) and the closing meeting of the Literary Society in connection with the school will be held this evening.

The examination for entrance to high schools and colleges institutes will be held in the Central School, beginning on July 4th, at 1:30 p.m.

Miss Rowan, of Kincardine, who has been visiting in Detroit, spent a few days in Goderich last week on her way home, and while here was the guest of her cousin, Mrs. J. C. McLean.

A friendly game of quills has been arranged for between the champion players of Goderich and Colborne, to be played on the former's grounds on July 1st, at one o'clock p.m.

Persons wishing to improve their memories or strengthen their power of attention should send to Prof. Loissette, 237 Fifth Ave., N. Y., for his prospectus, as advertised in another column.

Mrs. Capt. Wm. McLean returned home Tuesday last, after being absent a pleasant month in company with her husband on the four great lakes, and also visiting some of the leading Canadian and American cities.

AN IMPORTANT IMPROVEMENT.—The new Soft Soap and Practice Pedal attachment to a Newcomb's Spright Piano serves the nerves of the learner or performer, when practicing, as well as the instrument from wear, and preserves the tone.

Lucknow Sentinel.—Councillor Adam Thompson brought over from Goderich on Tuesday last a handsome pair of grey-tinted bronchos. They are direct from Oregon, and have never had a halter on them till Monday last. There's fun in store for someone.

A FINE SUE.—The Globe, with its usual enterprise, has brought out a special edition for the Montreal Board of Trade, which is a credit to all concerned. It is one of the finest pieces of work of its kind that we have yet seen, and the publishers deserve the top notch of credit.

Bert Johnston, of the Seaford Express, had the middle finger of his right hand broken the other day while engaged in playing ball. He left for London on Tuesday with the Goderich volunteers, being a member of that company.

Newspapers are often criticised for what they print, but if it were known how much credit they merit for what they do not print, or for the nonsense they do print, they would command a much more generous judgment.

Mathematics has its oddities. The multiplication of 987,654,321 by 45 gives 44,444,445. Reversing the order and multiplying 123,456,789 by 45 results equally odd in obtaining 555,555,505. Is that curious or isn't it? And there is plenty more where that came from.

FRAUDS ON FARMERS.—The Ontario Bureau of Statistics has issued a bulletin dealing with frauds on farmers. It catalogs all the sharp tricks by which the farmers of Ontario have been victimized, from the historic lightning-racket to the latest product of wily invention, the "marriage ceremony." Every farmer who gets the bulletin should read it carefully.

Mitchell Advocate: Mrs. George Roy returned on Friday from her extended visit to Richmond. The lady enjoyed her Southern visit, and the climate seems to have agreed with her, as she is looking much better than when she left. In the meantime she is staying with her brother, Mr. Williams, Logan, but next week will go to Goderich for the summer.

A free exhibition and dinner will be given in Geo. W. Thomson's music store, this (Friday) evening from 7 to 10 o'clock, superintended by Mr. Wanzel of Hamilton. The cooking and roasting will be all done on the Wanzel lamp in the Wanzel cooker, one dozen of which will be on exhibition. These exhibitions have become very popular, and it is to be hoped that all who are interested in cooking made easy will call and see the wonderful process.

THE TENNESSEANS.—The original Tennessee Jubilee Singers, under the management of B. W. Thomas, formerly of the Fisk Jubilee Singers, will appear in the Grand Opera House on Thursday, July 11th, under the auspices of North Methuist S. S. This company comes with the highest recommendations from the American press, pulpit and public, and are credited with being the leading Jubilee Singers of the continent. For particulars see bills and program.

HYMENEAL.—A pleasant event took place on Thursday morning, at St. Peter's church, in the marriage of Miss Annie Doyle, youngest sister of Judge Doyle, of this town, to Mr. M. McFadden, barrister, of South St. Marie. The bride is well and favorably known to many of our readers, having been a resident of Goderich since her birth. The bridegroom is an old Huron county boy, and has the best wishes of a wide circle of acquaintances. The wedding was a quiet one, only relatives being present. The happy couple left on their wedding trip by the 7 a.m. train.

Miss Seegmiller was in town during the past week. She spent a portion of the summer in Goderich.

A young man named Wm. Reid, employed at Secord's lumber dock, died suddenly from hemorrhage, on Wednesday afternoon, while piling lumber.

Mr. A. Gerrard, of Goderich township, brought to THE SIGNAL on Thursday a box of excellent strawberries. He says he will have a quantity on sale apart from those required by regular customers.

A public meeting under the auspices of the Royal Templars of Temperance will be held in Victoria Opera House, on Friday, July 5th. A fine musical treat is being prepared by Miss Wyn and her pupils.

Saunders & Son have engaged the services of Mr. J. R. Armstrong, a first class plumber, recently from Los Angeles, Cal.; he has had wide experience in some of the largest American cities, and comes well recommended.

A HUSTLER ABROAD.—Mr. Thomas McLean, the well known cattle buyer, has within the last few days bought over 200 fat cattle from the following:—McIntosh, McFadden, Ranford, Watto, McFarlane, Hamilton, McLean, Ross, Lyons, Waldon, MacIntosh and others. Some of the cattle are very superior animals. Special mention may be made of the lot purchased from Mr. McFarlane; these are very fine Follies, and have never had a halter on them upon the right stuff he means business every time.

The Catholic picnic at Baschler's Falls Reserve, four miles from Goderich, on Dominion Day, promises to be a big event. Games and sports, and other attractions have been arranged for, refreshments and everything possible done to make the picnic a success. The train to Goderich on that day will take on passengers at Irishtown crossing, (tickets to be procured at Dublin.) A number of speakers have been engaged to address the particular section of the afternoon.

A BIG PUSH.—Don't fail to read MacCormac's ad. in this issue. It will certainly be of cash interest to any intending purchasers of fine clothing. As he is offering the biggest bargains in order and clothing, you can rely on getting as good a value as you can get for your money. He has a large stock of splendid fresh goods, too many of which remain on hand on account of the season being wet and unfavorable and he is bound to reduce the stock. Hence the opportunity is yours of securing first-class goods at this low price. Keep your eyes on this and save money. Call on a prominent and influential citizen, when you know he is the best poker player in town. Speak of a little street arab as a bright-eyed youth on the road to fame, and call a man who has a few dusty boots on his feet and a large sack on his back when he died with just a name. Call a man a prominent and influential citizen, when you know he is the best poker player in town. Speak of a little street arab as a bright-eyed youth on the road to fame, and call a man who has a few dusty boots on his feet and a large sack on his back when he died with just a name. Call a man a prominent and influential citizen, when you know he is the best poker player in town. Speak of a little street arab as a bright-eyed youth on the road to fame, and call a man who has a few dusty boots on his feet and a large sack on his back when he died with just a name.

"GODERICH ILLUSTRATED SIGNAL-STAR."  
—We are much obliged to Mr. W. Dickson, the writer of "The Reminiscences of Renfrew" which was published in The Mercury some years ago, for a copy of the Board of Trade edition of the above-named and pamphlet, descriptive of the situation, advantages, progress, etc., of the town of Goderich, of which Mr. Dickson has been a resident for many years. The object of the pamphlet is to make known to the outside world the fact that the town is 'abreast of the times, and ahead of its previous record.' The work was entrusted, on the suggestion of the local Board of Trade, and the aid of funds granted by the Town Council, to the publishers of The Signal and Star, and by them has been executed in a very creditable manner. Besides the descriptive letter press, the pamphlet contains upwards of forty illustrations of the public buildings—court house, town hall, churches, schools, principal places of business, and private residences, etc., which convey the impression that Goderich is a substantial and go-ahead town. If more places would adopt the same plan of advertising themselves, and were to send a liberal supply of such illustrative pamphlets to the old county newspapers and "Mechanics' Institutes," it would greatly tend to dissipate the too common idea that in all respects Canada is too slow and unenterprising as compared with the United States. If Mr. Dickson could pay a visit to Renfrew, he would scarcely recognize it as the place he knew of old. There are comparatively few of the old buildings left—even a part of the "block" he helped to erect, when the "second chate" was first dubbed "The Village of Renfrew"—is demolished—and there stands The Mercury office, which, in appearance, would certainly not rank as inferior to the office of the Goderich Star, as shown in the pamphlet referred to. And in some of the churches and of private residences he would find Renfrew is also 'abreast of times, and ahead of previous record.'—Renfrew Mercury.

Mr. Robt. Newcomb, Morris, has gone to Newark to purchase his fortune.

## Something About the Railway.

DEAR SIR,—In response to the repeated inquiry of the Star and others as to who would "start" the Railway, I am glad to say that I have no objection to the new township of Colborne in the county of Bruce, and the then paltry village of Teeswater, gave a bonus of \$35,000 and got the road, and within two years thereafter reaped the benefit to the locality of the money spent in alluring it to the broad gauge, and it is now the property of the C. P. R. A charter was got for a railroad from this to Woodstock, at if I mistake not, the cost of \$160 to the town and was then almost immediately dropped by the town council, who, at the starting of the Citizens Committee were dreaming of a railroad to Toronto by Orangeville, and there it ended. When the C. P. R. was first spoken of here one of our leading councillors in his wisdom thought it best to consult Mr. Hickson, manager of the Grand Trunk, and the subject, and that gentleman proved to our friend's entire satisfaction that Goderich was completely cut off both on the North and South, and need never expect to have another railroad! Another councillor excused his inaction in the matter because we could not move to offer as an inducement to the C. P. R., or any other company to come to Goderich, while at that very time our millers, salt men, and lumber men were grievously complaining for the want of cars to carry their goods to market! A third declared that upon the suggestion of Mr. McEwen, our chairman, and raising the matter to the charter outside the council, which he felt confident of being able to do, I firmly believe that the Wingham branch of the C. P. R. would have been at work today; and if any one over a bona fide signature chooses to deny or dispute this fact, I will be glad to see him. I have had no reason for doing so, I shall publish my reason for making it. We had suggested to the council a joint provisional directorate of seven or nine, allowing them to name the majority; but, they thought it to appoint seven of their own body; three outsiders who had shown no interest whatever in the matter—but have large brick houses—and, our chairman, I shall, however, return to this section of my subject hereafter. But now, sir, as Mayor Butler, in order to cover his own incapacity and wrong doing, has assumed his old-time tactics of street-decrying, and be-tumulted the work of the citizens railroad committee, and has lately been talking of the iniquity done to the town by its "tomfoolery," in causing the expenditure of \$300 for the charter of a "useless" railroad to Wingham, it is my duty, therefore my intention, (D. V.) if you will kindly allow me space in your columns for the purpose, to lay before our citizens as concisely as possible something of what the committee really did do, at their own expense, in the matter of the charter of the last five years, at the same time glancing occasionally at the proceedings of the town council during the same period, and for some years previous thereto. And, sir, if I should at times write warmly or even somewhat bitterly, I beg of yourself and the readers of the Signal and Star, to venture to assert without the fear of effective contradiction that I have spent more time and money in attempting to forward the best interests of Goderich than any two men who have ever been in it, when and where there was no other man in the town. But, alas! sir, it is now so long past the "eleventh" hour, and after what has just happened amongst us, that I can see no human probability of my ever seeing that rational prosperity in Goderich which I have for over fifty years most hopefully looked forward to. But, before I have done, you may perchance pick up food and pointers enough for your next edition of

"HOW TO BUILD UP A TOWN."

I should scarcely be believed, sir, were I to explain to you the nervous anxiety from which we both suffered for we could summons courage to again appear before the public, even for its own benefit; for myself I can only say that it cost me several night's sleep out and out, and two weeks hard work, before I could induce Woodcock to join me; but, having confidence in ourselves and the integrity of our purpose in doing so—we made the start, and when the ice was once broken we feared no one. After having published several letters, each showing the necessity of a competitive railroad and the natural advantages of our harbor, and the facilities and resources it possessed for building up a large lake and local business as inducements to whatever railroad company we might apply to for relief, we were joined by our late energetic and lamented friend, Mr. Platt, who at once, by printed circulars called a meeting of our most prominent business and professional men in the Huron Hotel, and the Citizens Railroad Committee was then inaugurated. But alas, sir, from want of sufficient social standing in the originators of the movement, it did not then, nor has ever since received encouragement or support from WFERENDOM. Now, sir, I shall give you a few of the reasons which drew Woodcock and myself out of our shells, and to our most encouraging terms with Mr. Van Horne, the general manager of the C. P. R., and as I was aware that a quantity of our large circulars, of which I felt somewhat proud, had been sent to

Wingham for distribution immediately after their publication in Sept. 1884, I was exceedingly surprised to find one who would acknowledge having seen them. After several weeks had passed I became acquainted with Mr. Williams, a druggist, and now captain of their volunteer company, to whom I broached the subject of railroad, to which his civil but firm reply was, "No, no, we want to have nothing more to do with Goderich," but would give me no explanation. I had not spoken to Mr. Meyer on the subject, for under the circumstances I felt somewhat surprised that he had not mentioned it to me. After leaving Mr. Williams, I immediately met Mr. Neelands the mayor, a storekeeper, and James Looft, his bookkeeper, and a former resident of Goderich, from both of whom I received literally the same reply and refused to give any explanation, just as Mr. Williams had done! Perfectly thunderstruck as to what could be the meaning of such treatment I at once hunted up our old friend and former townsman George Mackenzie, whom I had often met before, but without one word of railroad, and insisted on an explanation. After warmly expressing his indignation at our town council for their ungentlemanly and insulting treatment of quite a number of the best men in Wingham (and he felt their appearance now from having been a former resident in Goderich himself), he informed me that some seven years before that date—1886, the councils of Wingham and Goderich had arranged for a meeting in Dungan-son for the purpose, if possible, of determining means to get a railroad between the two towns; and nine of their leading men, viz.: Mr. Willson, their then mayor, and manager of the Hamilton Bank, our friend Mr. Meyer, Mr. Gregory, one of the oldest and wealthiest inhabitants, and now their reverend, Mr. Elliott, a leading merchant, and a number of their townsmen, Doctor Macdonald, their present M.P., Mr. Mackenzie himself and three others whose names I forget, kept the appointment, having worked their way through some three feet of snow; but not one of our venerable fathers put in their appearance, never had the common courtesy to offer an explanation of their absence. And again, some year or two afterwards, Dr. Macdonald, their then mayor, being here with an excursion, made arrangements for another meeting on the subject; but before the time came for it, the universal received a letter curtly telling him that Goderich had determined on having a railway to Woodstock! And then, as above stated, came their notion of a road to Orangeville, between the townships of Mono and Caledon. I find I have omitted to mention to Mr. Williams, or two after my arrival, surprised at the universal reliance on a subject scarcely ever absent from my own mind, I addressed their two papers simultaneously, briefly explaining what we had done and still hoped to accomplish; and asking for a meeting with a few of them to talk the matter over, leaving them to name the time and place; and in anticipation of such a meeting I patched together a number of pieces of tracing paper which had been in my paper case ever since the time of the anticipated Fougish raid here in 1867, and prepared a rough sketch of a road from Wingham to Benimill, by way of Zeland, St. Helen, Dungan-son and the Nile. But I received no response to my advertisement nor relief to my mind until I met Mr. Williams as above mentioned. Immediately after my conversation with Mr. Mackenzie, I published a long letter in both papers showing that the Citizens' Committee was perfectly distinct from, and rather believed to be antagonistic to the town council, or, as you would no doubt have put it, that "the Jews had no dealings with the Samaritans." I explained our apparent slackness in calling the meeting at Brussels, (which had added to their soreness) to have been at the instigation of Mr. Van Horne, and as, we believed, was suggested to us because of their intention to make a loop line from Wingham to Elora or Guelph, which was afterwards fully confirmed. The Brussels meeting was held on the 16th Dec. 1884, where sub-committees were formed at each municipality along the line to Elora, and the result forwarded to Mr. Van Horne; to which he at once replied by a question as to what amount of local trade the line could supply; in response to which we at once prepared and printed a carefully compiled list of THIRTY-NINE different articles of farm and other produce, and on the 16th Jan. 1885, forwarded these blank forms to each of the municipalities betwixt this and Elora, requesting them to fill up in their proper places the amount of their imports and exports of each article during the years of 1882-3-4 and return them to our secretary on or before the 10th Feb'y following, which being faithfully complied with they were at once forwarded to Mr. Van Horne, together with one from Goderich, which showed that our exports and imports for the years above named were larger than were those of Brantford and Clinton combined! Very soon thereafter, sir, we received another letter from Mr. Van Horne, urging us to secure the Wingham charter, and stating that he would look after the Guelph one himself. So much for Mayor Butler's charge of tomfoolery against the Citizens' Committee! The slaughtered charter &c., shall be attended to next week.

Yours truly,  
THOMAS KYDD.

Goderich, 27th June, 1889.

Wingham for distribution immediately after their publication in Sept. 1884, I was exceedingly surprised to find one who would acknowledge having seen them. After several weeks had passed I became acquainted with Mr. Williams, a druggist, and now captain of their volunteer company, to whom I broached the subject of railroad, to which his civil but firm reply was, "No, no, we want to have nothing more to do with Goderich," but would give me no explanation. I had not spoken to Mr. Meyer on the subject, for under the circumstances I felt somewhat surprised that he had not mentioned it to me. After leaving Mr. Williams, I immediately met Mr. Neelands the mayor, a storekeeper, and James Looft, his bookkeeper, and a former resident of Goderich, from both of whom I received literally the same reply and refused to give any explanation, just as Mr. Williams had done! Perfectly thunderstruck as to what could be the meaning of such treatment I at once hunted up our old friend and former townsman George Mackenzie, whom I had often met before, but without one word of railroad, and insisted on an explanation. After warmly expressing his indignation at our town council for their ungentlemanly and insulting treatment of quite a number of the best men in Wingham (and he felt their appearance now from having been a former resident in Goderich himself), he informed me that some seven years before that date—1886, the councils of Wingham and Goderich had arranged for a meeting in Dungan-son for the purpose, if possible, of determining means to get a railroad between the two towns; and nine of their leading men, viz.: Mr. Willson, their then mayor, and manager of the Hamilton Bank, our friend Mr. Meyer, Mr. Gregory, one of the oldest and wealthiest inhabitants, and now their reverend, Mr. Elliott, a leading merchant, and a number of their townsmen, Doctor Macdonald, their present M.P., Mr. Mackenzie himself and three others whose names I forget, kept the appointment, having worked their way through some three feet of snow; but not one of our venerable fathers put in their appearance, never had the common courtesy to offer an explanation of their absence. And again, some year or two afterwards, Dr. Macdonald, their then mayor, being here with an excursion, made arrangements for another meeting on the subject; but before the time came for it, the universal received a letter curtly telling him that Goderich had determined on having a railway to Woodstock! And then, as above stated, came their notion of a road to Orangeville, between the townships of Mono and Caledon. I find I have omitted to mention to Mr. Williams, or two after my arrival, surprised at the universal reliance on a subject scarcely ever absent from my own mind, I addressed their two papers simultaneously, briefly explaining what we had done and still hoped to accomplish; and asking for a meeting with a few of them to talk the matter over, leaving them to name the time and place; and in anticipation of such a meeting I patched together a number of pieces of tracing paper which had been in my paper case ever since the time of the anticipated Fougish raid here in 1867, and prepared a rough sketch of a road from Wingham to Benimill, by way of Zeland, St. Helen, Dungan-son and the Nile. But I received no response to my advertisement nor relief to my mind until I met Mr. Williams as above mentioned. Immediately after my conversation with Mr. Mackenzie, I published a long letter in both papers showing that the Citizens' Committee was perfectly distinct from, and rather believed to be antagonistic to the town council, or, as you would no doubt have put it, that "the Jews had no dealings with the Samaritans." I explained our apparent slackness in calling the meeting at Brussels, (which had added to their soreness) to have been at the instigation of Mr. Van Horne, and as, we believed, was suggested to us because of their intention to make a loop line from Wingham to Elora or Guelph, which was afterwards fully confirmed. The Brussels meeting was held on the 16th Dec. 1884, where sub-committees were formed at each municipality along the line to Elora, and the result forwarded to Mr. Van Horne; to which he at once replied by a question as to what amount of local trade the line could supply; in response to which we at once prepared and printed a carefully compiled list of THIRTY-NINE different articles of farm and other produce, and on the 16th Jan. 1885, forwarded these blank forms to each of the municipalities betwixt this and Elora, requesting them to fill up in their proper places the amount of their imports and exports of each article during the years of 1882-3-4 and return them to our secretary on or before the 10th Feb'y following, which being faithfully complied with they were at once forwarded to Mr. Van Horne, together with one from Goderich, which showed that our exports and imports for the years above named were larger than were those of Brantford and Clinton combined! Very soon thereafter, sir, we received another letter from Mr. Van Horne, urging us to secure the Wingham charter, and stating that he would look after the Guelph one himself. So much for Mayor Butler's charge of tomfoolery against the Citizens' Committee! The slaughtered charter &c., shall be attended to next week.

Yours truly,  
THOMAS KYDD.

Goderich, 27th June, 1889.

THE DOMINION IN BRIEF.

WHAT IS GOING ON OF INTEREST TO CANUCKS.

The Happenings of a Week Epitomized into a Column of Newsy Paragraphs for Interested Readers.

Ontario excursionists to the number of 384, visited Winnipeg last week.

The Dominion Cabinet will soon separate for the holidays.

Kincardine has decided upon having water works system.

An effort is being made to have a cable laid from Poles Island to Kelly's Island.

Capt. Stephens, of the Allan steamship, Peruvian, died during his voyage from St. John's, Nfld., to London.

The Dominion Government have been notified of the discovery of an anthracite coal mine at Cammore, N. W. T.

The Manitoba Government have decided to locate the deaf and dumb asylum in Winnipeg, and the Home for Incurables at Portage la Prairie.

The Anglican Synod of the Diocese of Niagara, determined to set apart a Sunday for making collections for the Johnston, suffers throughout the diocese.

The crop outlook in the vicinity of Ottawa, where there are low lying lands, is not bright. Potatoes have suffered the most, and in some districts will be a total loss.

It is reported that Mr. A. P. Ross, ex-M. P. for Cornwall, has been appointed superintendent of the Cornwall canal, in place of Mr. Macdonald, who will be superannuated.

The rainfall in the Owen Sound district since the 15th inst. has been ten inches, being more than has been previously registered since the establishment of the observatory in that town.

The Dominion Line steamship Montreal, which arrived in Quebec on Wednesday, was the first vessel to come through Belle Isle straits this season. The straits are clear of ice, but there are numerous icebergs scattered about.

After a long discussion on Ritualistic practices at the Anglican Synod in Hamilton, the resolutions against ritualism were withdrawn at the instance of the Bishop, as he did not think it a suitable time for a vote on the subject.

There appears to be an epidemic of murders by boys. At Langton, Ont., on Wednesday a boy aged 14 shot a companion aged 12 killing him instantly, because he had an old grudge, and at Indianapolis four boys ranging from 9 to 15, killed a playmate aged 15 years.

A motion was made in the Montreal Court of Queen's Bench to have verdict set aside on the ground that one of the jurors jumped out of the window of the jury room to a restaurant and procured some whiskey, with which he returned. The case was taken to deliberation.

Rev. Mr. Lavigne, before the Montreal Anglican Synod yesterday, said that the Protestant Church was losing ground in Quebec. He believed that since 1871 the Church of England had lost 6,000 adherents, and other denominations had lost proportionately.

BIG MEAT AND SALT TRUSTS.

"Eastman's Limited" Will Have a Capital of Four Millions in Meet.

NEW YORK, June 21.—A big meat trust by London and New York operators, which has been talked of for some time is now an accomplished fact and will be known as "Eastman's Limited."

Eight prominent English gentlemen, including Lord Granville, and a number of American financiers, are the London directors, and the New York Board of Management will consist of President George C. Williams of the Chemical National Bank, and T. C. and Joseph Eastman. The capital stock is \$4,000,000, of which \$2,000,000 is in 8 per cent. cumulative preferred shares of \$5 each, the balance being in ordinary \$50 shares paying 10 per cent.

F. C. Eastman was a pioneer in the business of exporting American fresh meats in refrigerators to England in 1875, and John Bell & Sons handled his exports in England, an enormous trade being built up, opening 330 retail stores.

It is claimed by Joseph Eastman that the amalgamated concern will still further lower the price of meat, which had been lowered somewhat by the two firms acting in accord.

Another trust which will soon be consummated is the North American Salt Company, limited, with a capital of \$5,000,000.

SIX WERE DROWNED.

A Bateau Swept Over the Falls in the St. Maurice River.

THREE RIVERS, Que., June 22.—At noon today, while a bateau loaded with passengers and freight was crossing the St. Maurice River at the Grand Falls Railway station, Grand Falls, the strong wind and current, against which the rowers were unable to make headway, drove the bateau down stream and over the falls at that place. One man leaped out of the bateau into a bark canoe which was towed ashore. Another clung to a rock and both were saved by Joseph Rivard and his two children, George Harnett of St. Etienne, B. Belleville and Miss Belleville were drowned. The bodies of Joseph Rivard and Miss Belleville were recovered, but none of the others have as yet been found. The cries of the terrified passengers were heartrending, but no assistance was possible in the boiling waters.

Why Canada Detests the Clan.

NEW YORK, June 21.—An Ottawa special to The World says: The Deputy Minister of Justice stated to The World correspondent to-day that if the authorities at Chicago are able to substantiate the charges made against Burke or convince the judge presiding at Winnipeg that there are just and reasonable grounds for demanding his extradition, an order will issue at once.

"Most assuredly," he said, "we will not delay the issuing of a warrant here a moment when the case comes before us. The American people are now beginning to realize the dangerous element they have among them in the Clan-na-Gael Society, the influence of which society defeated the extradition Treaty in the United States Senate. The Dominion government has evidence that this society a year or so ago had planned the destruction of the Parliament buildings here and the assassination of Lord Lansdowne, then Governor-General. We discovered the plot and frustrated their murderous designs, and it is hardly to be wondered that any member of the society here against whom there are strong evidences of complicity in murder should expect much leniency from the executive at Ottawa. Every facility will be given to expedite matters and effect the surrender of Burke if there is the least evidence to warrant the belief that he was connected with the Cronin murder."

Episodes in an Abolitionist's Career.

When a just and adequate history of the abolition movement shall be written, prominent place must be given to the life of Calvin Fairbank, who, though he still lives in an unpretentious farm-house on the outskirts of Angelica, N. Y., was as true a martyr to the cause of human liberty as Elijah Parish Lovejoy or John Brown. The following is a thrilling incident of his remarkable career, as told by him to a correspondent of the Philadelphia Press:—

"One day in March, 1843, while looking through the jail at Lexington, Kentucky, my attention was attracted to one of the prisoners, a young woman of exquisite figure and singular beauty. I asked the jailer who she was and, to my surprise, for she was as white as a lily, he told me that she was a slave named Eliza, the daughter of her master, who a few days later was to sell her upon the block for the New Orleans market, imported by the jeany woman and do my cause the slave girl was superior to her own daughters. Then I talked with the girl. I found that she was intelligent as well as beautiful, and I resolved to exert every effort to save so magnificent a creature from so sad a fate. I told her that I would go to Cincinnati and do my best to raise the money with which to purchase her freedom.

"I hurried away and sought that old hero and apostle of freedom, Levi Coffin. He gave me prompt and generous assistance, and in short time we raised \$700. I then laid the case before Senator P. Chase, afterward senator, secretary of the treasury and chief justice, who gave me \$200 more and went with me to see Nicholas Longworth. The latter was worth millions, but was never known to give a dollar for anything. We feared nothing would come of our appeal to him, but decided to appeal to him, as it cost us nothing.

"Mr Longworth," said Chase, after we were seated in the little crib which the millionaire called his office, "do you consider yourself a Christian?"

"I am not a very good one," was the reply.

"Well, we have got a case here that appeals to both humanity and Christianity. Mr Fairbank will tell you about it."

"I told the story. Longworth listened in silence, and when I was through he looked at me for some time, and then he said: 'You are a very good man, and I will get a check for you for \$1,000. You see the miser, as they call him, hadn't such a state of mind after all. A number of free colored people raised and gave me \$200 more, and when I went back to Lexington the day before the time appointed for the sale I earned \$2,272. Moreover, in my pocketbook, was an agreement signed by Chase, Longworth and William Howard, another rich abolitionist, empowering me to draw upon them, if necessary, to the extent of \$25,000."

SCENE AT A SLAVE AUCTION.

"The sale took place in the public square and was attended by fully 2,000 people, drawn there by the descriptions of the girl's comeliness and rumors of the effort that was to be made to save her. The best people of the town were there, and a number of strangers from Boston, New York and Philadelphia were also present, curious and horror-stricken. But one man appeared to bid against me, a squat-figured, broad-shouldered, thick-necked, bullet-headed Frenchman from New Orleans, who, I was told, made it his business to attend sales of young girls and purchase them for a fate worse than death. Eliza, when placed upon the block, seemed ready to drop for fear and shame. The auctioneer began his work by pointing out her beauties, concluding with: 'What am I offered for her?'

"Five hundred," I cried. The New Orleans man raised my bid \$100.

"\$700, he \$800, I \$900, he \$1,000, I \$1,100, he \$1,200. When I raised the last bid to \$1,300 the Louisianian turned on me with an ugly look and said:

"How high are you going to bid?"

"Higher than you do, Monsieur," I replied.

"He turned away and bid \$1,325. I raised the bid to \$1,350, he, after a moment's hesitation, made it \$1,375. I again went him one better and made it \$1,400. Once more he turned to me and asked:

"How high are you going?"

"None your business, sir, but you haven't money enough to buy this girl."

"After my bid of \$1,400 both the Frenchman and I bid slower, both being down stream and over the falls at that place. One man leaped out of the bateau into a bark canoe which was towed ashore. Another clung to a rock and both were saved by Joseph Rivard and his two children, George Harnett of St. Etienne, B. Belleville and Miss Belleville were drowned. The bodies of Joseph Rivard and Miss Belleville were recovered, but none of the others have as yet been found. The cries of the terrified passengers were heartrending, but no assistance was possible in the boiling waters.

"In the midst of the excitement the Frenchman bid \$1,450 and I \$1,475. Then there was another lull. It seemed to madden the auctioneer, and exposing still more of the beautiful slave he asked: 'What's the next bid?'

"Again there was murmuring of disgust which deepened into a roar. When \$1,800 I died away my constant bid \$1,840. The hammer quivered. Eliza and her aunt, who were standing by my side, gave me a look of anxiety and anguish I shall never forget.

"'At all done,' cried the auctioneer. 'Once, twice, three—\$1,885—\$1,885—\$1,885—and I'm going to strike this girl off in one minute. Once, twice, three—times and sold.'

"The hammer fell and the girl was mine. An instant later she tottered back into the arms of her aunt in a deep swoon.

"She is yours, young man," said the auctioneer, "and you've got her d—cheap. What are you going to do with her?"

"Free her, sir," and my answer awoke a cheer, which, rising to a Kenyan shout, rent the air. As soon as they could be made out, I handed Eliza the papers which formally set her free. Four days later I took her to Cincinnati, where she became a member of the

Family of Gamaliel Bailey. Under his

care he received a finished education, married well and to-day is a charming man of 65. Only the members of her immediate family know the history of her early years; so you will understand why I do not give you her full name."

Gives Instant Relief.

"I have been troubled with asthma and a bad cough for years. I get nothing to help me like Hagyard's Pectoral Balsam, and would recommend it to others as it gives instant relief. Extract from letter from Walter McAuley, Ventnor, Ont. 2

A Terrible Indictment.

Tobacco kills both wives and lies. If it were destructive to vermin only, it might be put to a very good use, but it is altogether too deadly when it kills off wives. When will Christian people learn that reason and religion have set up their warning signals against this evil stuff, and that these voices cannot be refused attention with impunity?

Not long since I was watching in the city with a celebrated physician. As we passed a house surrounded with every evidence of wealth and refinement, he spoke:—"I have a patient in there, an idolized wife, who is dying and beyond all help, and none of them know what is the matter with her, and she and her husband has killed her."

"Why, doctor, what is 'what do you mean?'"

"I mean just this:—Her husband is literally steeped in tobacco until his insensible perspiration from his body has become a deadly poison, and his wife has absorbed enough of this and had before I was called in to cause her death."

At an establishment where they treat patients for the cure of the tobacco habit a man was brought in, washed as clean as soap and water could make him, and then some flies were allowed to alight on his chest. He died in a few minutes. There was poison enough in the perspiration that came out of the man washed as clean as possible to kill them. You can imagine how much more deadly it would be when he wasn't washed, perhaps, to spend hours each day in a warm bed with him.—T. B. Terry in Albany Argus.

Consumption Surely Cured.

To THE EDITOR:—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption, if they will send me their Express and P. O. address.

Respectfully, Dr. T. A. SLOCUM, 37 Yonge St., Toronto, Ont.

The Duty on Pharaohs.

M. Maspero, a famous Egyptologist, related in a recent lecture, a singular experience which he had in bringing to Europe an Egyptian mummy. It was the mummy of a king, and an important contribution to an archeological collection, and M. Maspero fancied that the French custom-house officers would not insist too rigidly upon payment of duty.

At the first of the mummy was opened the box which contained the mummy, and exclaimed, "Hello! What have we here?" "A Pharaoh—a genuine Pharaoh of the sixth dynasty," said the scientist. "A—Pharaoh?" said the puzzled officer; "I don't seem to remember what the duty on Pharaohs is." He set to work to look up "Pharaohs" in his tariff schedule, but found no such article entered in the list. "This importation," said the officer finally, "does not seem to be provided for under our statutes. We shall have to follow the usual rule in such cases, and classify it with the highest-taxed article of the kind that it seems to belong to. I shall classify your Pharaoh as dried fish." So M. Maspero paid the tariff on dried fish on his mummy.

To the Medical Profession, and all whom it may concern.

Phosphatine, or Nerve Food, a Phosphate Element based upon Scientific Facts, Formulated by Professor Austin, M. D. of Boston, Mass., cures Pulmonary Consumption, Sick Headache, Nervous Attacks, Vertigo, and Neuralgia and all wasting diseases of the human system. Phosphatine is not a Medicine, but a Nutrient, because it contains no Vegetable or Mineral Poisons, Opium, Narcotics, and no Stimulants, but simply the Phosphatic and Gartic Elements found in our daily food. A single bottle is sufficient by a series of Druggists at \$1.00 per bottle. LOWEN & Co., sole agents for the Dominion, 55 Front Street East Toronto.

How to Reach the Masses.

"How shall we reach the masses?" asks a religious paper. "Dear brother," replies Burdette, "you can best reach them with a spoon. Go for them with a knife and fork. Humanity's tender point is its paunch. The conscience of man may be seared as with a hot iron, but his maw is ever open to impressions. His intellect may be stunted, but his appetite is a giant. Take him to the concert or the theatre, and he comes away to seek the nearest feeding place where he may gorge himself before he sleeps. The struggling church that bankrupts itself still further by venturing on a lecture course, finally lifts itself clear out of debt by a series of suppers. A man who will not pay 50 cents for a book will dump \$1.50 worth of dinner into his system. When we receive a distinguished guest, we feed him; when we give him something to eat, we have a feast for the wedding guests, luncheons for the watchers, and a light collation for the mourners. There are a thousand restaurants to one library, yet, more, by and by, if the principles of evolution be true, this world will be peopled by a race of stomachs with legs and arms. The legs will be needed to carry the stomach to the trough, and the arms to fill it up."

The best regulators for the stomach and bowels, the best cure for biliousness, sick headache, indigestion, and all affections arising from a disordered liver, are without exception Johnson's Tonic Liver Pills. Small in size, sugar coated, mild, yet effective. 25 cts. per bottle sold by Goode, druggist, Albion block, Goderich, sole agent.

Victim Penitence.

Mr Hegon F. Murray, of Pictou, N. S. writes: "I was afflicted with dyspepsia and nervous debility, and tried many remedies without avail, but one bottle of Burdock Blood Bitters much improved me and two more made me a well man."

Borrowing Trouble.

It is uncomfortably true that there is almost as much distress of mind experienced in the anticipation as in the realization. About half of our unhappy days are occasioned by our looking forward to the unhappiness of the other half.

"Sufficient unto the day is the evil thereof." We need never take another jot on credit. In borrowing trouble, natural laws are reversed; mere mole-hills of annoyance become mountains when viewed at a distance ahead. Some persons never take actual comfort. In tranquil times the dread of a coming change is always in the way of their enjoyment.

I know of a family who were forever expecting to move, consequently neglecting to make ground, repair the house or permanently arrange the furniture. At the latest address this family had lived in the same house eleven years.

If we take things as they come we shall usually find that they come much better than we have any right to expect. Our anticipatory fogs of distress may have been inviting compassion and begging patches of darkness over many a bright scene for months, only for us to find at last that we have been guilty of needlessly, we might say criminally, robbing ourselves and others of the happiness rightfully belonging to us and to them.

"Borrowing trouble" is sometimes only another name for selfishness, for the (no borrowing) trouble is seldom satisfied, unless all within his or her influence are inveigled into the toils. It is holding a dangerous serpent in our hearts, which grows with what it feeds upon. It is painful for it is an abiding distrust of God's goodness.

WORLD'S EXPOSITION, NEW ORLEANS, U.S.A., 1884-5. In competition with the pianofortes of Europe and America. The only U.S. International Medal ever awarded to a Canadian pianoforte; also Medal and Diploma at the Colonial and Indian Exhibition, London, Eng., 1883, with the supreme honor of supplying Her Majesty the Queen with a Newcombe Grand, selected by Sir Arthur Sullivan. For Illustrated Catalogue, prices and terms, Address Octavius Newcombe & Co., Manufacturers, WAREHOUSES, 107-108 CHURCH ST., TORONTO. FACTORY, 68 TO 70 HULLWOOD AVENUE

KINGSTON EXCITED.

REPORTED CONSPIRACY AT THE PENITENTIARY.

All sorts of rumors about a conspiracy to attempt an outbreak at the penitentiary last evening and that one of the convicts having made a confession in secret to the warden A. B. Battersby, who was in readiness for an emergency. It was ascertained that a detachment of soldiers was to be sent to the penitentiary during the night.

This morning a reporter called on Warden Lavell at the penitentiary. He was in his office with Sir John Thompson, Minister of Justice, who was taking statements from several convicts who had expressed a desire to see him in order to get him to take interest in their cases. The reporter sent in a note stating that there was quite a commotion in the city over the rumored attempt at an outbreak on the part of the prisoners, and that an interview was desired. The warden appeared with his face wreathed in smiles, and explained that there was not the slightest cause for alarm, that the convicts were all safe and that everything was as it should be.

To the question, "What about the conspiracy?" he said he had nothing to say—not a word, but that in a day or two he would give full particulars for publication. "Was there a conspiracy?" he was asked, when he replied that he had made up his mind to withhold all facts until after Sir John Thompson went away. Several residents of the village of Port-mouth who were spoken to were all of the opinion that a gigantic conspiracy had been hatched in the jail and the village which had resulted in the penitentiary had narrowly escaped being overrun by a horde of criminals.

The batteries were still in the penitentiary this afternoon. There are all sorts of rumors afloat. Some say that a plot to blow up the prison was discovered, while others say the soldiers are in hiding to await an ambush, which is about to occur.

TORONTO TOPICS.

A Fair of Brother Burglars Fulsided the Police, But are Captured. Toronto, June 24.—Inspector Stark was happy yesterday, feeling sure that his men had succeeded in laying by the heels two of the gang of burglars who had been making such heavy hauls of silverware within the past two weeks. On Saturday night all the detectives and plain clothes men who could be got together were detailed to watch the city from midnight until 6 in the morning, in order to look out for the burglars. At 3 o'clock yesterday morning Detective Alf Cuddy was dodging in and out among the lanes in the neighborhood of Wellesley street, when he saw three men scale the fence in front of Mr. E. S. Cox's residence, Wellesley-place. He followed them into the yard and saw them commence operations on a window, when one of the marauders discovered the officer's presence and gave the alarm.

The three men jumped the fence again and forced their way through private grounds into Jarvis street. Cuddy meanwhile was searching the grounds for them, but they having thrown him off the scent started down Jarvis street on a run. Policeman Lilly, who was on duty on Wellesley street near Church, saw the men dash past down Jarvis (the third had disappeared) and at once started after them. At Mainland street one of them rounded to and drawing a revolver fired two shots at the policeman. The latter returned the compliment with a single shot, but in the interchange no one was hurt. It was very dark at the time, the lamps having just been put out, and the burglars took advantage of this to make good their escape for the time being.

Acting Detective Watson and Patrol Sergeant Archibold were also on the alert that morning. They were on the lookout along Parliament street about 3.15, when they noticed a man sneaking out of a lane running from the west into the street. They followed him, but the fellow took to his heels. After a hot pursuit of five minutes they ran him down in a yard off Gerrard street. He was taken to Wilton avenue and there gave the name of George Pierce. About the same time Detective Alf Cuddy picked up a man in Church street, near the north end, who failed to give a satisfactory account of himself. He was also taken to Wilton avenue station, where he registered himself as Edward Pierce, brother of George, the first prisoner. They live at 60 Power street, and it is believed that they are the men so long wanted. Both have had records. In 1878 George was convicted of larceny and got a short term. In 1880 he was found guilty on three charges and was sent to Kingston for three years. In 1884, when he was out about a year, he was sent to jail for 1 month for larceny and has been fairly quiet since. Edward was convicted in 1886 and got a short term, and a few months ago was up again, but was found not guilty. The brothers will be arraigned on five distinct charges.

WITH KNIFE AND PISTOL.

A Young Man Foully Butchered at Chatham. CHATHAM, June 21.—A revolting atrocity occurred here on Wednesday evening. Frank Barr, a painter, aged 28, in company with Pont Taylor, and two girls, one of whom, Anne Kaiser, works as a servant for Mr. Thos. Stone, were sitting on the bench in front of the grounds of the Agricultural Society in Queen-street. Gus Park, in company with Geo. Yeomans, came up and stood staring at Barr, or "Dutchy," as he was nicknamed, and called him an opprobrious name. Barr told him to go away, and he said "I don't have to." Anne put her hand on Barr's arm to restrain him from attacking Park, who went away a short distance and then returned, still hurling epithets at Barr, who then, thoroughly roused, advancing angrily towards him, Anne tried to stop him, but he swung her round and handed her his hat or coat, she forgets which, owing to the excitement and the speed of the whole occurrence. At this stage Pont Taylor, a powerful young man, stepped in between the would-be combatants to separate them. Then Park took out a long knife and, reaching over Taylor, made a downward blow with fatal effect at Barr, making a four or five inch gash, striking and dividing his heart. From the effects of the terrible wound he died shortly afterwards. Park is in custody. He is the son of a large lander in this town. It is necessary in the face of unjust gossip, to deny that these girls were not of good character. Mr. Stone gives Anne Kaiser the highest name for respectability. She was engaged to be married to Barr.

A SENSATION AT THE CAPITAL.

The Niece of Cardinal Taschereau Quietly Wedded to a Protestant.

OTTAWA, June 22.—A social sensation was created in provincial circles here this morning when it became known that Miss Amelia H. Taschereau, daughter of Mr. Justice Taschereau of the Supreme Court and niece of Cardinal Taschereau, had been quietly married Thursday to Mr. Frank Beavan, an employee of the Grand Atlantic Railway Company. The Taschereau family is one of the oldest French families in Quebec. Mr. Justice Taschereau, father of the young lady, previous to his appointment to the bench was one of the leading lawyers in Canada. The family have always moved in the best society here and have special entry at Government House.

Mr. Beav, who is about 20 years old, is the son of an English physician and several years ago came to Ottawa and secured a subordinate position as clerk in the employ of the Canadian Atlantic Railway Company. He had some acquaintance with the young lady about a year ago, and the young couple at once became fast friends despite the furious opposition of the young lady's parents, who looked upon Beav as a parvenu. Opposition, however, only fanned the flame of love and the young people met one another secretly until Thursday, when they were married by Rev. P. Owen Jones, rector of St. George's Episcopal Church.

The parents and relations of the young lady threaten to have the marriage annulled, as the young lady is a Roman Catholic and was married without the consent of her parents by a Protestant clergyman.

LONDON, June 22.—There has been some loud talk about this week, as there was last week, but the situation is probably no more serious than usual. Servian troubles become acute for a moment, then subside into the usual state of chronic inflammation. Russian intrigues continue, and Austrian counter-intrigues continue. Whether a military convention between Russia and Austria has been signed, whether Russia thinks that the time for an outbreak in Serbia has arrived, whether Austria will send a firm despatch to St. Petersburg—all these are questions on which opinions are conflicting. The scare, if scarce there, is on the whole dying away. Nor is there anything in the dispute between Germany and Switzerland about the right of asylum which is likely to go beyond diplomatic remonstrance.

The Prince of Wales and the press between them have run to earth that London leper whose existence the Prince affirmed and some doubted. His name is Edward Foxall and he is a meat hawker at the Central Market. He was hawking and handling meat so lately as last Wednesday, but is now detained for treatment at the Whitechapel Infirmary. The majesty of the law has been vindicated by a rule nisi from the Queen's Bench ordering Mr. Foxall, a police magistrate, to show cause why he should not hear and determine a summons against the Duke of Cambridge for assault on Mr. Sims, a journalist.

Half, or more than half, of the London world has been at Ascot all this week. The Society has camped on Ascot Heath, and will to some extent stay there through next week on account of the Royal Agricultural Show at Windsor. This show is one in which the Queen takes an interest, although herself at Balmoral, where it will be thronged by the world of fashion as well as by the world in general. Ascot by common consent, has seen a more crowded week than before.

Next week, however, London gayeties recommence in spite of Windsor. It is London's last free week before the arrival of the Shah. London's every thing is done for that potential prince or politician can suggest. Public and private pageants in his honor fill every day and hour. Yet his coming is dreaded privately to a degree which the papers will give you no hint. His personal habits, and still more the personal habits of his followers, are such that his entertainment involves both sacrifices and risks. Sir Henry Wolff, the British Minister to Persia, will have him in charge. Sir Henry is credited with the responsibility for this present European journey. He it was who advised it, say his friends, thinking that the Shah needed one more to be impressed with the military power of England. Yet at St. Petersburg they think that they have filled His Majesty's mind with wholesome prejudices against England, and expect him to revisit the Russian capital on his return journey.

Mrs. Chandler has again attracted attention of the Saturday Review, which continues to call her Miss Amelia Rives. She has been denounced in America, as she serves her present critic, with superfluity of seriousness. To The Saturday Review seems what another American young lady and her husband by no means without promise. Lord Tenby's protest against the sale of his manuscripts comes too late. He had every opportunity to stop the sale by an injunction, but elected to let it go on. There were legal difficulties. The moral force of his protest is, however, considerable, sustained as it is by the general opinion that legal title to such documents gives no moral right to publish or sell them against the author's wish. G.W.S.

Window Wrestling with the U.S. Tariff.

WASHINGTON, June 22.—Secretary Windom has determined to settle as soon as possible all the important tariff questions which his cabinet. He has long conference to-day with Assistant-Secretary Tichenor. The principal questions considered related to the classification of lead ore containing silver, drawback on jute bagging, and classification of Canadian bullion carried on American railroads. It is believed the Department will hold that the dutiable value of imported ore containing lead and silver hereafter must be determined by the relative weight of the two metals instead of by their relative value as under the present practice. Conclusions were reached at the conference on several of the questions considered, but they will not be announced until next week.

Serious Accident at Gananoque.

GANANOQUE, June 21.—An accident occurred at 6 p.m. yesterday through the giving way of some part of the running gear of the elevator at the Ontario Wheel Company works. Four of the employees, who were on the elevator at the time, are seriously injured and it is thought that in one or two cases the injuries will be fatal. The names of the injured are Thos. Clark, Kingston; J. Reid, Gananoque; J. Johnston and J. Reid, Gananoque. Clark's injuries are the most serious.

BURKE, COONEY, COUGHLIN

BELIEVED TO BE THE MEN WHO BUTCHERED CRONIN.

O'Sullivan Anxious to Make a Full Confession—Has Burke "Squealed" to Chief McRae of Winnipeg? CHICAGO, June 22.—The Chief of Police Chicago fear now that Burke has been positively identified at Winnipeg by Martensen, and says: "For the first time I can see my way clearly. All I wanted was the capture of one of the principals. There will be a 'squealer' now because we are in a position to do without one. O'Sullivan wants to tell all he knows, and we will give him the opportunity very shortly. The evidence we have shows that Burke was one of the actual murderers, but I will not give the evidence away to the public yet."

In Burke the police have the man who rented the cottage. Burke is "Frank Williams" and Cooney is his "brother." Burke made Chicago Avenue and Market-street his living place, and Martensen saw him several times after he hauled the furniture for him to the Carlson cottage. Burke's intimacy with Dan Coughlin is well known, and has been established. Woodruff's part in the job has also been fixed. The part played by O'Sullivan was a passive one. The police think Burke, Cooney and Coughlin were the men who murdered Cronin, though the third man may have been another member of the famous Market-street gang which had so much to do with the massacre of Cronin on May 29, and in which Coughlin was so influential.

As to who hired the braves who did the killing the police are rather in the dark. It will be easier to convict the murderers than to get the instigators. It is said that the police have recovered the lost clue to the movements of Patrick Cooney, supposed to be J. Sin onds, who bought the furniture for the Carlson cottage. It is given out that the police expect to capture Cooney positively within a few hours. Lieut. Elliott believes Burke was concerned in a murder previous to the murder of Cronin.

Frank Woodruff has commenced a suit for \$19,500 damages for libel against the proprietor of a dime museum who has on exhibition a wax "figger" of the horse thief as one of the accomplices in the Cronin murder. A special from Winnipeg reports Chief of Police McRae as saying: "There is no doubt in my mind that Burke was used as a tool by the gang who planned the Cronin murder, and that he really is the one who committed the deed. Burke was so thoroughly scared when arrested that I verily believe if I had chosen to pump him I could have got a complete confession."

"I wish he did say something important," "I don't wish to answer that question. I will doubtless be called upon to give my evidence in court." The chief further said: "The Chicago police know exactly what is wanted and will doubt all the evidence required. I have no doubt about Burke's extradition."

There was a rumor afloat last night to the effect that the Chicago executive committee of the United Brotherhood were in town and that an executive meeting was to be held in which some line of action in regard to the Cronin mystery was to be settled upon. Luke Dillon would neither corroborate nor deny this rumor, though after considerable pressing he finally stated that there were only four members of the executive committee in the city at present. They could not hold an executive session, for the obvious reason that five of the nine members constitute a quorum. Contrary to expectations Capt. Cronin did not arrive until late yesterday afternoon. He has taken up his quarters with Lake Dillon at McCoy's Hotel and will probably remain here for some time. The captain declines to be interviewed.

"A cablegram from the solicitor of The London Telegraph, which the New York Times received at the office of Attorney Frank Collier today. It requested him to procure as soon as possible, a certified copy of the evidence taken by the coroner in the Cronin murder. The Times will be glad to receive the copy, which will be made next week, will cost \$250. For what purpose The Times wants the evidence is not known. Mr. Collier is expected to arrive in Chicago on Saturday. Michael Walsh, a plumber who has been working at Joliet, and who knew Burke, is the Winnipeg suspect, in Chicago, was arrested to-day. Burke, it is reported, turned up in Chicago on Saturday, and remained with Walsh practically until June 9, when it is thought a money order came to Burke from Chicago. It is supposed the police arrested Walsh in order to secure information from him regarding Burke.

Information extracted from Walsh, while worth having, did not afford the rich leads for which the police hoped and he has been released. BURKE IS MUM. His Counsel Preparing to Make a Big Fight Against Extradition. WISNICO, June 23.—Notwithstanding sensational despatches appearing in American papers there is absolutely nothing new in the Burke case. The prisoner has been taken up and handed over to the counsel, Perdue and Campbell, who are preparing to make a big fight for his defence. An eminent attorney from Chicago, is expected to aid Mr. Howell Q.C. in the prosecution, but it is doubtful if the case will be ready for Wednesday and another remand will probably be asked for.

Detectives Broderick and Collins, with the witness Martensen, had a long interview with Mr. Howell yesterday, the result of which is of course unobtainable. The general impression is that Burke, even if the actual murderer, was a mere tool in the hands of other men and that before long their connection with the murder will be established. A long and tedious legal fight may be expected which may possibly last a month or more.

What in Illinois.

SPRINGFIELD, Ill., June 22.—The State Board of Agriculture estimates that the wheat crop will not average more than 13 bushels per acre, making the total yield of the Illinois crop 28,269,370 bushels. The quality is fully up to the average. The seasonally dry weather of April and the first half of May depreciated the condition of the growing crop about 10 per cent. The damage from the corn plant louse, which caused so much alarm in Southern counties, has not been serious. A Hamilton Killing Case. HAMILTON, June 22.—At the Police Court to-day Henry Halford was charged by Ross Wolfe with assault. The defendant, a barber, it is alleged, kissed the complainant, a girl of 9 or 10 years. The case was adjourned till Monday.

HEALTH

Pain is a warning that something is wrong, and often an indication for absolute rest. It has been said that "pain is the prayer of a nerve for healthy blood." Sometimes it is a sure sign of what the trouble lies, sometimes it is misleading; nor is this symptom necessarily an indication of the severity of disease.

Sick Children—It is often a good sign for a child, who is seriously ill, to suddenly become cross. It is then he begins to feel his weakness, and to give vent to his feelings. "Children are almost always cross when recovering from an illness, however patient they may have been during its severest moments, and the phenomenon is not by any means confined to children."

Toothache.—Dr. Shattuck's plan for deadening the nerves of teeth is to put some arsenious acid into an ounce of water and pour a little more on each tooth than will cover it. When you wish to use the paste, tip the bottle so that you can reach the pulp; or you may take a pellet of cotton and apply that way. The paste is ready for immediate use, and will stop the most violent toothache in about five minutes. The addition of other drugs he regards as a detriment to the paste; but we may add that it should be used with caution.

Virtue in Onions and Beef.—What is the most strengthening food for a convalescent? Well, you know, the beef tea theory has been exploded. The most life-giving and digestible food that can be used to one just recovering from an illness is chopped beef. Just take a pound of the finest round of raw beef, cut off all the fat, slice two onions, and pepper and salt. Then chop the onions and meat together, turning them over and over until both are reduced almost to a pulp. Then spread on slices of rye bread and eat as sandwiches. People talk about celery being a nervine, but let me tell you that there is nothing which quiets the nerves, without bad results, like onions. The use of them induces sleep, and much strength is obtained from them. That is the ideal food for convalescing, or for anyone who is in a weak state of health.

St. Vitus's Dance.—A physician of the Charite Hospital in Paris, has made an interesting communication to the Medical Society of the Paris hospitals on this subject. He presented a patient of middle age, who for upwards of four years had been a martyr to the dance of St. Vitus to such a degree that he was absolutely unable to carry a cup to his lips, to take soup without assistance, to button his clothes, to write his name, &c. The patient, says the physician, was placed under his treatment, which may be summed up in the words hypnotism and rotating mirrors. For a week the invalid was made to gaze steadfastly at the rotating mirrors from about twenty to thirty minutes at a time. Improvement came very gradually at first; but at the expiration of a fortnight rapid progress was reported, and at the end of three weeks the patient was entirely cured of the troublesome complaint.

More Trouble May be Expected. If you do not heed the warnings of nature at once pay attention to the maintenance of your health. How often we see a person put off from day to day the purchase of a medicine which he procured at the outset of a disease would have remedied it almost immediately. Now if Johnston's Tonic Liver Pills had been taken when the first uneasiness made its appearance the illness would have been "nipped in the bud." Johnston's Tonic Liver Pills are decidedly the best medicine on the market for general tonic and invigorating properties. Pills 25c. per bottle. Bitters 50 cents and 1 per bottle, sold by Goode the druggist, Albion block, sole agent.

A Confectioner's Confidence. "I can plainly state that I can find nothing better than Hagyard's Yellow Oil. I have rheumatism occasionally, and Yellow Oil does me great good. You can use my name if you wish." Yours truly, H. Dickinson, Confectioner, St. Thomas, Ont.

Never Forget That the enemy of man is man. That the fairest flowers fade the soonest. That pride is never so offensive as when in chains. That when men are lonely they stoop to any companionship. That the darkest cloud often contains the most fruitful showers. That an open enemy is to be respected, a secret one to be suspected. That there may be loyalty without love, but never love without loyalty. That death is a sleepless messenger and life a wakeful handmaid of creation. That a golden key will often find the way to unlock many a secret drawer. That they who make a business of religion, too often make religion a business. That the finest feeling velvet paws of the kitten often cover the sharpest claws. That they who are honest and earnest in their honesty, have no need to proclaim the fact. That it is often more difficult to obliterate traces of spilled ink than drops of spilled blood.

Be on Your Guard. Don't allow a cold in the head to slow down and surely run into Catarrh, when you can be cured for 25c. by using Dr. Chase's Catarrh Cure. A few applications cure incipient catarrh; 1 to 2 boxes cures ordinary catarrh; 2 to 5 boxes is guaranteed to cure chronic catarrh. Try it. Only 25c and sure cure. Sold by all druggists.

Quite a curiosity may be seen at the residences of T. Fletcher, Mrs. Henry, Jno. McCallum and Jno. Robb, Brussels, in rustic tables, on the legs of which buds and all formed leaves have made their appearance. It is supposed to have been caused by the surplus sap in the timber, which was used while green.

THE FASHIONS.

A Variety of Jottings that Will Interest the Fair Sex.

Serges for beach and tennis gowns are finer and softer than ever before, and are highly favored, both by English and American women. Fashion gives itself great scope in toilets designed for calling, 5 o'clock teas, and other afternoon receptions, and a special place is here found for many of the elegant combinations of materials that flood the market, and which are innumerable in their variety.

Notwithstanding the lengthy and varied list of new and fashionable colors and combinations, the magpie style of dress is still in high favor, and black and white are combined in every sort of gown, from the simplest muslin, through the array of ceilings, fancy greenness, summer silk, &c., to the richest summer evening tulle.

Young English women are again wearing the "sun cap," a sort of bonnet, however, which has to be viewed from the back to be seen at all, as nothing is visible from a front view, when the capote is on the wearer's head, except a forest of very heavy fluffy, halo-like looking hair and some wide flat Alastian bows inclined downward, forming a kind of bandeau.

Fringes of every length, color and device have again been taken into universal favor. The fashion was restored by foreign women of rank early last winter, but the wearing of long wraps and close-fitting jackets interfered with the general adoption of these dangling accessories. They appear this season on garments of nearly every description. Milliners are displaying a great deal of the yellowish green which is known as "spring willow and chartreuse," and this is a favorite tone, but there is endless variety to select from. The palest water-green and the darkest moss and myrtle, with every intermediate shade known, are all represented, the color of foliage, grasses, vines and ferns being wonderfully imitated, tulle, gauze, velvet, silk and wool, repeating each artfully.

Lustrous mohairs and alpaca are excellent materials for long journeys, shopping, and general wear in the country. Many varieties of color are added to the standard shades, and there are also gay figures and stripes introduced on some of the patterns. Empire green, Suede, red, russet and copper red are all seen among the new mohairs, some of which are handsomely bordered. Pretty morning jackets of American srah are shown, open in front over blouse shirt-waists of white China silk. The bishop's cravat is worn with this jacket when there are bishop sleeves of white silk beneath, the slightly open ones of srah. This shirt is a straight band going round the neck, made of hemstitched silk muslin. In front hang two straight cravat ends likewise adorned. Plainer cravats are made of bishop's lawn, simply hemmed, the ends finished with frills of Italian lace.

A majority of the new French round hats may be described as masses of beautiful flowers mounted on a basis that is as a rule, as grotesque in shape and of the airiest possible description. A spray of moss, a bit of maiden-hair fern, a long bramble from the hedge, twisted into a basket shape, and filled with artificial roses that tempt one to sniff their fragile smelling petals, so lifelike are they, such, without exaggeration, is a description that will serve for scores of hats displayed at the present moment.

Stylish afternoon dresses, without being trained, are what is called demure, made just to touch the floor slightly in the back. A tea dress now in process of making has this half long skirt of lilac green China silk, ornamented above the hem with deep embroidery in ivy green silk with gold. The redingote is of ivy green royal arms, leaving the skirt exposed at the front, and as long as it on the sides and back. It opens on a pleated shirt front of the skirt silk, something like a Russian blouse, with a band of embroidery down it. Broad velvet revers are on the redingote, with silk revers beyond covered with the embroidery.

Graceful and pretty home dresses are made of hunter's green or old rose cashmere, the backs in princess breast and the fronts cut at the waist line with an Empire or full gathered vest of srah or China silk, finished with a soft sash of the same, edged with deep silk fringe and knotted at the left side. The underskirt of silk in accordion-pleated, or else laid in lengthwise tucks, brist-stitched about half a yard deep. The skirt falls from thence in natural folds which flare considerably, but are held in place by the tucks above. Four or five rows of ribbon are frequently laid across the foot of the skirt. The sleeves are tucked to correspond, or the button leg or bishop sleeve is substituted, with ribbon rows around the deep cuff.

Nerve Tortured. "I suffered with neuralgia and obtained no relief until I used Hagyard's Yellow Oil. Since then I have also found it an invaluable remedy for all painful burns and cuts, rheumatism and sore throat." Mrs. F. Cameron, 137 Richmond street West, Toronto, Ont.

Severe Attack. Miss Bella Elliot, of Pontypool, Ont., writes: "My brother and I were both taken ill with a severe attack of diarrhoea, having tried other remedies, we tried Dr. Fowler's Extract of Wild Strawberry, which gave immediate relief." "They have a larger sale in my district," says a well known druggist, "than any other pill on the market, and give the best satisfaction for sick headache, biliousness, indigestion, etc., and when combined with Johnston's Tonic Liver Pills will perform what no other medicine has done before for suffering humanity." Pills 25 cents per bottle. Bitters 50 cents and \$1 per bottle. Sold by Goode the druggist, Albion block, Goderich, sole agent.

All communications must be addressed to D. McLELLAND, Editor of THE HURON SIGNAL, Telephone Cal. No. 30, Goderich Ont.

HURON SIGNAL

FRIDAY, JUNE 28, 1889.

THE RAILWAY QUESTION.

Over two years ago a charter for a railway from Goderich to Wingham, was obtained by our town council, with the idea that efforts would be made to carry out the scheme at the earliest possible date. A provisional directorate was formed, and the people of the town expected that something was likely to be done. The two years during which the charter was in force expired on the 21st of June, inst., and no effort was made by the provisional directors to take action for the furtherance of the project during that time.

Nearly two months since a proposition was made by Mr. H. W. C. Meyer, of Wingham, to the council, in which it was stated that if the charter, which had almost lapsed, were surrendered to him, he would endeavor to carry out the proposed scheme successfully. The day set for the ultimatum of the council was May 20th last. When the question came up for discussion in the town council, it was referred to a committee consisting of the mayor, reeve and deputy reeve, with power to act. The committee met, and for one reason or another took no action until after the day set by Mr. Meyer. Then the committee discovered that they had no power to act, as the surrender of the charter was a matter resting solely with the provisional directors. The council at the next meeting adopted this view, although it seems strange that no one gave it a thought when the committee was appointed with power to act.

And so the matter stood until a subsequent meeting of the council, when it was decided, on the recommendation of the provisional board, to make an application to renew the charter.

At the last meeting of the council, Mr. Meyer, in reply to a vote of thanks that had been tendered, renewed the offer which had been withdrawn on the 20th of May, and stated that even yet he would take the "remains" of the dead charter, and endeavor to put the scheme on a working basis. Mr. Holt moved that the provisional directors be asked to meet and transfer the charter to Mr. Meyer, in pursuance of the terms of his letters. This motion was ruled out of order by the mayor. Mr. Holt then moved that the provisional directors be asked to meet and consider the proposition of Mr. Meyer. On a division, this reasonable motion was voted down, the cause alleged being that the council had already accepted the proposition of the provisional directors.

And so the matter stands. Some one has blundered, and the farce of the past two years is likely to be repeated. The renewal of the charter has been applied for, the cost of reviving the charter will come out of the town treasury, the old provisional board will settle down to the lethargy of the past, and the chances of a competitive line from Goderich will be knocked on the head.

The claim is advanced that if the charter is of value to Mr. Meyer, it is also valuable to the town, and this would be valid if the town had a matured and tangible scheme for projecting the proposed line; but in the light of the inaction of the past two years, the inability of the provisional directors to take hold of the matter in a live manner, the bundling of the town council, and the failure to enlist outside assistance during years past, the claim is certainly far-fetched. If Mr. Meyer has, as he alleges, capitalists behind him to consum-

mate the scheme, if he is willing to enter into an agreement that his proposal is bona fide, and if he is willing to take the responsibility of pushing the work to a satisfactory conclusion, then the charter is of more value to him and the town than it can possibly be under existing circumstances.

This is no time for trifling in so important a matter, and if the present opportunity be let slip, THE SIGNAL will not fail to hold each and every member of the town council who voted down Mr. Holt's motion responsible for the injury done to the town by them in this instance.

DURING the past week we have gone twenty-four hours without rain. This is news in this section.

A CONFIDENCE MAN, named George B. Dean, of New York, has been convicted of grand larceny in the first degree for beating Rev. George H. Chappell out of \$1,200 in a game of faro. The report of the case is not complete, as it doesn't tell what the reverend gamester was convicted of.

ALL applications for registration on the Dominion Voters' Lists should be lodged with the returning officers before August 1. There is now very little time for delay. As the next elections will in all probability be fought on the list now in course of revision, every voter should see to it that he is represented on the list.

THOROLD offered \$12,000 for a live industry to locate in that thriving town, and a coffin manufacturing firm has come forward with a proposition which has constrained the town council to submit a bylaw to the ratifiers. The question now agitating the Thoroldites is whether or not the coffin factory can be safely considered a live industry.

It does not appear that Mr. Robert Porter, M. P., for West Huron, has been making a brilliant success of his tour in the constituency during the present week. Notwithstanding that effort was made to drum up a meeting at Clinton only about one hundred and fifty, all told, listened to the orator on the occasion, and of these a large number were Grits, who merely went, as some of them expressed it, "to attend Porter's funeral." There was considerable trouble in getting a chairman, as no acknowledged politician cared to ally himself with the fading fortunes of the Simcoe member for West Huron. Time and again during his harangue the orator stopped in his address at points where enthusiasm in the olden time would have filled the gap, and waited for the cheers that never came. The only attempt at applause during the address was that at the close, in response to the "Queen." And so with Goderich township and so with Belfast. The triumphal tour has turned out to be a funeral procession, with the M. P., *pro tem*, for West Huron, in the front wagon. *Sic transit gloria mundi.*

A NUMBER of complaints have reached us about the inefficiency of the electric light system as at present served in Goderich. The claim is made that owing to the peculiar lay-out of the town, and the fact that during the summer months Goderich is frequented by a large number of visitors whose evenings are spent in recreation and amusement, eleven o'clock p.m. is rather an early hour to "douse the glem." In other towns during the summer the service is continued until a far later hour, and the question is asked, "What is the use of lighting up at 9 or 9:30 p.m. and closing off at 11 o'clock? If economy is wanted, why go to the trouble and expense of putting on the engineer and fireman for an hour and a-half's service?" It is also contended that in addition to private gathering that do not usually terminate before 11 p.m., public concerts, theatrical performances, and such like, frequently overrun that hour, and in such circumstances why should the public be compelled to walk home in the dark with an expensive electric light plant lying idle, and salaried employees doing nothing? It is even hinted that on more than one occasion the members of the council, owing to late sessions, have been forced to grope their way home, because of the 11 o'clock limit of the electric light. On winter nights, with snow on the ground, and the anxiety for early retirement paramount, the 11 o'clock limit, or even an earlier one, might suit; but in the summer, with a large number of strangers in our midst who may not have become familiarized with the intricacies of the "spider web," 11 p.m., on a back street, on a dark night, with foliage so dense that the line of demarcation between earth and sky cannot be seen, will prove as gruesome a position as that of the Ethiopian in a coal cellar on a dark night, looking for a black cat at midnight. Now is the time, just before the influx of summer visitors, for the council to set this grievance at rest.

Mr. Thos. Keys, of the Parr line, Varna, is remodelling his barn and adding to its dimensions.

THE EDITOR'S TABLE.

A Word or Two About New Publications That Have Come to Hand.

LITTLE'S LIVING AGE. The numbers of The Living Age for June 15th and 22nd contain Italy in 1888-89, by Rt. Hon. W. E. Gladstone, Nineteenth Century; The Hon. Percy Hervey, Longman's Magazine; Imitation as a Factor in Human Progress, Contemporary Review; A Literary Venture, Belgravia; Elizabeth of Valois and the Tragedy of Don Carlos, Blackwood's Magazine; A Forgotten Rebellion, Gentleman's Magazine; Notes on Stanley's Journey, Nature; Beau Brummell, Gentleman's Magazine; Russia's Repudiation, Economist; Elizabeth Barrett Browning, London Quarterly; Sir Charles Danvers, part II, Temple Bar; Venice in Spring, Cornhill Magazine; Wild-Bird Life in London, Past and Present, Murray's Magazine; "Queen Charlotte's Friend," Temple Bar; Fresh Preachers in the Thirteenth Century, Edinburgh Review; The Prototypes of Thackeray's Characters, Temple Bar; The Letter "H," All The Year Round; Lycaon trophy, Leisure Hour; A Drunken Dog, Saturday Review; together with poetry and miscellanea.

Fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price (\$8) is low; while for \$10.50 the publishers offer to send any one of the American \$4.00 monthly or weeklies with The Living Age for a year, both postpaid. Littell & Co., Boston, are the publishers.

DUNLOP.

From our own correspondent. A large number of our burghers took part in the recent raising in Garbraid, on the farm of R. D. Morris, who believes in having the farm about the house at the present time. The contesting parties were well matched in muscle. The raising of timbers was set on a foundation 9 feet high. The captains of sides were John Reid, of Goderich, and Wm. MacIntyre, of the Nile, lately from Dakota. The contest was the raising that the latter side won only by a minute's lead. The new barn is 45x52 with a model roof, planned by D. MacLaren. The builder of the barn is Chas. Morris. The trim appearance of our school has attracted general attention, as a representative from No. 17, Ashfield, called on the teacher Saturday last, and requested him to show the inside of the school house, which was done. The visitor made a minute inspection, and shortly there will be an advertisement in the local press for tenders for the new school house for No. 17, Ashfield. The plan of the building is to be like the Dunlop model, which is a party coming such a distance and passing so many school houses, some only lately built, shows that the Dunlop one is the best in Huron.

A few days ago your scribe visited the populous and busy village of Londebore, which boasts of several local industries in the manufacturing line, three stores, and branches of the I. O. G. T., C. O. F., L. O. L. societies, the two former having halls of their own. The spiritual welfare is attended to in three churches, and the Salvation Army catches stray sinners from outside their folds. Two doctors keep a watchful care of the sick. There are lots of children, but no school to send them to within two miles. Repeated efforts have been made to have a school formed but have always fallen through. We told our host to try the example of our Dunlop architect. Try the Dunlop model, which is a party coming and never tire with pushing his petition, and Londebore would have its school for a certainty.

DUNGANNON.

From our own correspondent. Miss Mullen, sister of our assistant teacher, is visiting Miss Crawford and other acquaintances in this village.

Mr. G. Anderson's (merchant in this village) child is suffering from a slight attack of diphtheria. We hope it will soon recover.

Our village is rapidly clothing itself with a town-like appearance. What with street crossings and other prominent improvements, it is becoming a centre of great attraction. All that is needed to complete it is a line of railway through this section of the county, which we presume if the inhabitants of Goderich would put their shoulders to the wheel in connection with the ratifiers in Wingham and the intervening section of country between Goderich and Wingham, would add materially and financially to the section of country through which it runs, but also to Goderich, in every point of view. As it is a good level country between Goderich and Wingham, a railway line could be very cheaply constructed. So we have an enterprising citizen of Goderich, if any, will be wise in looking after their own interest in the matter and assist in forwarding this scheme. A railway is very much needed in this section of country. There is not the least doubt that the C. P. R. Co. will in the near future extend their line from Wingham to some point on Lake Huron.

The sacrament of the Lord's Supper was dispensed in the Presbyterian church at St. Helen's on Sabbath, June 26th, to a very large number of communicants in a very solemn manner. The church was filled to its capacity on this occasion. The reverend doctor has quite a clerical appearance, and from his suave, kind and genial appearance in the pulpit, has the happy mode of attracting close attention to his discourses. We wish the Rev. Dr. a safe voyage to his home and family; also we hope that his son, the present pastor of St. Helen's Presbyterian church, will be successful in his new station.

Since fair weather has set in, spring crops are in the meantime showing good prospects of a bountiful harvest. Fall wheat in this and surrounding locality is prospectively a better crop than anticipated.

THE TOWN COUNCIL.

The Minutes of Last Regular Semi-Monthly Meeting.

The town council met last Friday evening, the 21st inst. All members present.

The following letter of Mr. H. W. C. Meyer, of Wingham, was read:

June 14th, 1889. Wm. Campbell, Esq., Clerk of the town of Goderich. My Dear Sir,—I beg to acknowledge the receipt of copy of resolution passed by the town council of Goderich. You will please extend my personal thanks for the expression contained in resolution referring to myself, and regret that the council stood in its own light in not accepting at the time of my proposal which then gave me more time to carry out my intentions to renew charter if possible. However, I am not aware of any reasons on my part that the feeling of friendship and courtesy which has at all times existed on my part with your corporation has changed in the slightest degree, and with this view as to understand your corporation paid for charter, I am prepared to renew my offer on the terms strictly contained in my letter of 11th May last for the present remains of your railway charter from Wingham to Goderich, provided a transfer can be made to me according to terms of my letter and if possible done if possible before July next. I do not ask for any condition, and none should be asked from me or any variation of my terms. There is no object whatever in my visiting your council, as they could not expect me to relate any of my intentions, as they are strictly my own private business.

I have the honor to be, Respectfully yours, H. W. C. MEYER.

Moved by Proudfoot, seconded by councillor Smith, that as this council has already considered the recommendation of the provisional directors we do not see our way clear to change said resolution.

Moved in amendment by Holt, seconded by deputy reeve Smith, that the provisional directors be asked to meet and consider the letter of Mr. Meyer. The amendment was lost, when the original motion was passed.

A petition was received from C. A. Nairn, chairman of the citizens' committee, asking for a grant of \$200, in accordance with a resolution passed at the public meeting held some time ago, for the celebration of Dominion Day.

On motion of Holt, seconded by Proudfoot, the petition was granted.

Moved by Holt, seconded by Smith, that tenders be asked for the printing of the voters' lists, the form to be left with the county judge—Carried.

The bylaw re waterworks was read the first time.

A letter from the Marine Department was read, informing the council of an order given for a steam whistle to be used at the harbor.

At the request of the public school board the sum of \$4.00 was ordered to be placed to their credit for school purposes.

REPORT OF FINANCE COMMITTEE. The finance committee have examined the following accounts and recommended their payment upon being duly certified: R. Proudfoot, \$9.78; J. Saunders & Son, \$48.76; Geo. Neibergall, \$60.43; Jos. Williams, \$40.40; E. Graham, \$9.67; John Robertson, \$10.75; R. P. Wilkison, \$21.99; I. N. Cassidy, \$1.25; Stevens & Burns, \$24; Alex. Gartshore, \$4.47; Alex. Gartshore, \$384.62. J. H. COLBORNE, chairman.

The report was adopted.

The following accounts were received:—A. Gartshore, Hamilton, pipe, \$1,193.18; D. Cumming, \$25.22; James Saunders & Son, \$2.23; Robt. McLean, gravel, \$80.93; E. B. Biggar, Montreal, \$14.70. The account of Saunders & Son for drinking fountains, \$100, was ordered to be paid.

A communication from Runciman Bros. was read, offering to erect a flour mill in Goderich on the roller system, the mill to be of the most improved kind, with a capacity of from 50 to 60 barrels per day, on consideration of receiving a loan of \$8,000 for ten years, without interest, exemption from taxation for the same period and free water. Messrs. Rees Price and A. E. Collis offered to erect a roller grating mill of from 75 to 100 barrel capacity and a grain elevator of 50,000 bushels capacity, and asked for a loan of \$10,000 for ten years and free water and exemption from taxation for the same term of years. The matter was left with the special committee.

Mayor Butler informed the council that councillor Morton and himself, who have recently visited other towns in the province to examine their electric light systems, were not very well satisfied with the 1,000 candle power lights they had seen, although they were working under difficulties.

The public works committee was authorized to repair the engineer's house as may be required.

Moved by Humber, seconded by Thompson, that Mrs. Connors receive the sum of \$1 per week for the support of John Lamont—Carried.

The matter of sending the blind son of Mrs. Mountenay to the asylum was left with councillor Nafel, and in the meantime she will receive a grant of \$1.50 per week.

Moved by Proudfoot, seconded by Thompson, that the public works committee investigate into the location of the park fence recently built across the park, and that for that purpose they be empowered to employ an engineer to survey the grounds, and report at next meeting of the council—Carried.

The matter of getting a heater for the boiler at the engine house was left with the waterworks committee.

Moved by Colborne, seconded by Proudfoot, that councillors Holt, Morton and the Mayor draft an address for presentation on first July—Carried.

The council then adjourned.

Messrs. Bell, of Londebore, lost their valuable stallion a few days ago.

At a meeting of the Royal Clan in Detroit Mr. James Sutherland, of Woodstock, Ont., was elected Royal Tourist.

The dissident Liberal Association of Midlothian has decided to run a candidate against Mr. Gladstone in the next Parliamentary election.

One-half of the City of Lachan, in China, was destroyed by the recent fire, and it is estimated twelve hundred persons were killed.

The Emperor of Austria joined the annual Corpus Christi procession in Vienna, and he and all the princes walked bareheaded.

Mr. Gladstone's mind turns more and more towards the American system of government as a solution for the Irish difficulty.

The Irish Northern railway has accepted full responsibility for the recent terrible accident near Armagh, and are prepared to consider all claims for loss of life and damage.

The Prince of Wales has started London by his statement that he, with his hands, is distinctly affected by the disease, is engaged in business in one of the London meat markets.

An indictment has been returned by the Chicago special grand jury against Martin Burke, at present under arrest in Winnipeg, for murder and conspiracy to murder in the Cronin case.

In Washington, Ind., a woman seventy years of age has confessed to having murdered her aged husband. She put morphine in his tea, and when he fell asleep she cut his throat from ear to ear.

Lord Salisbury has entered his defence in the libel suit brought against him by Mr. Wm. O'Brien, declaring that the speech complained of was made in good faith, and was a fair summary of Mr. O'Brien's course.

It is stated that Mr. Persico, who made an investigation of Irish affairs on behalf of the Pope, states that he fears the Irish Nationalists would kill him if he returned to Ireland.

Wm. E. Howard, convicted in New York of grand larceny in connection with the Electric Sugar Refining Co. frauds, was yesterday sentenced to nine years and eight months in Sing Sing at hard labor.

Mr. Gladstone has unconditionally accepted the principle of the retention of the Irish members in the Imperial Parliament. His new scheme looks to taking the Empire to pieces and reconstructing it on the plan of the United States.

A Singular Suicide.

YARMOUTH, N. S., June 21.—John Cannon, farmer of Ohio, Yarmouth County, drowned himself in the lake near his home yesterday.

He had been in town in the morning, drove home, changed his clothes and telling his wife he would be home to an early dinner, went out. He did not return until the afternoon when on his wife's neighbors searched for him. No trace of him was discovered until this morning, when he was found standing in the lake a short distance from the shore and two under the surface.

He had apparently walked out backwards from the shore till the water was over his head. In just the same spot and just the same way his first wife drowned herself one year ago. AAnn was about 55 years old. He never showed any signs of insanity or depression and was only married to his second wife a week ago.

A Hamilton Snake Tale.

HAMILTON, June 21.—The Times-to-night chapter on this story: A little son of Mr. George Plastow went to the mountain top yesterday afternoon by the Donovan Stairway, and wandered about in search of flowers with some other lads. Plastow had with him a small black-and-tan dog that ferreted out a snake's nest. The dog made a snap at one of the snakes, and had no sooner done so than the reptile caught him about the neck and proceeded to wind himself around the animal's body, squeezing him until life was extinct. The small boy got quite a fright. Plastow rushed home bemoaning the fate of his favorite. It is said that several large black snakes were in the nest.

THE GRAHAM PETITION.

Sir John Thompson Will Report that it Can not be Compiled With.

OTTAWA, June 23.—It is announced that a formal protest has been received by the Government, signed by Dr. L. H. Davidson, chairman of the Citizens' Committee of Montreal, against the reference to the Supreme Court of the Jesuits Estates Act. Dr. Davidson's program is not very clear, but he may save himself all anxiety over the proposed reference. The Graham petition was referred in the regular order of business to the Minister of Justice, who will make a report upon it stating that compliance with its prayer by the Government is impossible.

Two Men Drowned.

QUEBEC, June 22.—Two men named Bertrand and Leblonde were drowned yesterday while fishing in River St. Henri by the upsetting of their canoe. Bertrand was postmaster at Levis and Leblonde was a commercial traveler for Garneau & Son of this city.

Lucy Hayes Stricken With Apoplexy.

CLEVELAND, June 21.—Mrs. Hayes, wife of ex-President Hayes, was stricken with apoplexy this afternoon at her home in Fremont and at 9 o'clock this evening she was unconscious.

THE POET'S CORNER

Do What is Next to Thee.

Do what is next to thee; Love doth not measure If not thy pleasure, Still thine the peace will be.

Do with all thy might; Brief is the living, Blest those in giving, As in God's holy sight.

Do it for Jesus' sake, Though it be trying, Sweet thy denying His love can ever make.

Do it with all thy strength; Be not delaying, But swift obeying, For night will come at length.

Do with all care and zest; Patient in doing, Watchful pursuing; So life's long days are blest.

Do thou with prayerful heart, Always rejoicing; Let thy sweet voicing Some good to all impart.

Do what is right and meet; Wait not the morrow, So shall not sorrow Burden love's willing feet.

A Peasant's Home in Brittany.

I entered at his invitation. The small, low, smoke-grimed room was parlor, dining-room, kitchen and nursery—nursery, it seemed, as near as I could make out. I was still blinking with the glare of the blazing stove, when in every side—except inside. There was a pungent reek of past and present smoke that helped to obscure the sun-bleached vision; and it was some minutes before I made out of the bituminous gloom that I was in the presence of an anxious young mother, wistful and sad of face, rocking a pale young baby in a primitive and creaking cradle as ever I met with. Mothers and babies and cradles of all sorts and conditions had I seen and sketched two, in my little career, but never had I seen just such a mother's nest before for any mine of humanity, no matter how lowly or forlorn. Jacky was weeping with an oblique glance of interest and amusement, and hastened to explain, with a one half proud, half apologetic, that he had builded it all himself, all out of his own invention, parented by the moment of necessity. The materials were donations from various sympathetic neighbors. The grocer's wife gave the oblong packing-case; and he called my attention to its happy shape and size. He made light of the various labels, direction, and other decorations, including (in big stencilled letters) that word of caution, "Fragile," on one end of it. "It made it more amusing," he said. The rockers were made from a couple of old chair backs donated by the cabinet maker. The canopy (if one may so use the word) was an arrangement of old barrel hoops nailed at the head, with an old faded sail gracefully draped over them. I stood gazing at this quaint bit of home contrivance with far more interest than I had given to many a carved and gilded cradle of some bygone princeling in some museum. The poor father could hardly interpret my smile of amusement over his handiwork. He did his best to explain and apologize, never thinking that from my point of view it was a very "find" of unobscured picturesqueness. By this time the little room had come out of its thick shadows. The window was close confined to keep out the glare and the flies, as Jack explained. Our whispered voices were not so low as to prevent us from rousing the baby, and she began to dig her little pink feet into her little pink eyes and whimper out a feeble protest at the world in general. I said softly to the pale little mother that if she wanted to let her sleep on I would sit down and sketch and never say a word. She gave a little approving nod, and the curtain was drawn a little aside for the light, and down I set to my work, as if there had been no yesterday of poetry and pleasant fellowship, of hairbreadth escapes and moonlight wanderings, of sad awakenings on the morrow, of rushing off—one cared not whether—to seek forgetfulness. Here, in no time at all, yesterday and the morrow were toned into the background, and the foreground of our thoughts was occupied by a fly-tormented baby in a packing-box cradle. What babies we are, and what babies we pursue!

Many Thanks.

"My age is 68 and for 20 years I have suffered from knee complaint, rheumatism and lame back, and would have been a dead woman if it had not been for Burdock Blood Bitters, of which two bottles restored me to health and strength." Miss Maggie Hendaby, Hall Island Cove, N. S.

Stamped Linens.

The newest design in openwork borders on damask is the cathedral pattern, and is very handsome.

The canvas effect in openwork is also new, and is worked in cross-stitch in one or several colors. All these elaborate borders are imported from Saxony, where the most beautiful handiwork is done.

Mommie cloth is used extensively for table wear. On each end of a tray cover is stamped an odd-shaped knife and fork held together by a design like a twist of ribbon: "We eat to live" and "Peace and plenty."

Sideboard cover and doilies have clusters of vegetables or cups and saucers in Japanese design, which are very effective when worked in colors.

A splasher of butchers' linen with deepknotted fringe has a most original design of an orchestra of frogs seated on stones or stumps, performing on all sorts of musical instruments to an apparently delighted audience, also composed of frogs, in full evening dress.

More artistic outlines are of wood-bine, morning-glories and carnation pinks.

A Free Gift.

Around each bottle of Dr. Chase's Liver Cure is a medical guide and receipt book containing useful information, over 200 recipes, and pronounced by doctors and druggists as worth ten times the cost of the medicine. Medicine and cook \$1. Sold by all druggists.

Gossip About Women.

There is a society of lady artists in London.

Miss Cobden has been obliged to give up her work on account of ill-health.

Mrs. Mona Caird has organized a scheme of neighbors' clubs in England.

Miss Morstook, an English painter, had five pictures in the Royal Academy this year.

There are 6,000 girls preparing to enter the New York Normal College, and only 800 can be admitted.

Miss Emily Balch has gained a scholarship of \$500 toward a year's study at an English or Continental University.

A Boston statistician states that seven-tenths of the marriage engagements that are broken are broken by women.

Mrs. Spurgeon, wife of the celebrated London preacher, sends books to poor country clergymen and bonnets to their wives.

For occasions of ceremony the Queen Regent of Spain sometimes puts aside her black garments and wears a lilac gown.

The Duchess of Cleveland has just published the "Battle Abbey Roll," a work which is likely to prove of great historical value.

At Mrs. Mackay's, 7 Buckingham Gate, London, an annual sale of Irish cottage industries was recently opened by the Duchess of Abercorn.

The Queen and Princess Beatrice contributed to the art exhibition which was recently given in London in aid of the Girls' Friendly Society of that city.

Chicago has a home for self-supporting women where board is to be had for \$2.25 a week. It is for the accommodation of women who earn \$5 a week and less.

Mrs. Humphrey Ward has gone to Italy for a rest. She has received a pleasant letter from Mr. Gladstone criticizing her article in the Nineteenth Century.

Miss Mary F. Seymour, editor of the Business Woman's Journal, approves of women learning stenography and the use of the typewriter as an aid to proficiency in other business and professional.

Mme. Poyasud, a Parisian, who once dined in cosmetics and was imprisoned for swindling, found her way to America and attempted to expiate her sins by living in a hut without companionship, except from dumb animals. She recently died and her property will go to the Catholic Church.

Some interesting statistics have been published in England by Miss Knatchbull-Haggeson, from which it appears that intellectual training is beneficial to girls even from a medical standpoint. The average health of students who have quitted is better than that of married women who have not been to college, and the health of their children also averages higher.

Key fever is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts, throat, affecting the lungs. An acrid mucus is secreted, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50c.

Key fever; by mail, registered, Ely Brothers, Druggists, Oswego, New York.

Out Door Life for Girls.

Spring, summer and autumn are now before us, and during the next few months girls should live out in the open air as much as possible. Make a special effort to rise some morning and go out on a distant hill and see the sun rise, and we assure you that if you have any love for nature and its beauties you will see old Sol rise on a cool many mornings this summer. The spiritual, exhilarating influence of such a sight is like a sermon—we mean no disrespect to the minister whom you love and respect, but if you knew the truth, some of his best sermons were born while he was worshipping at the shrine of nature.

Early morning rising will secure for you the purest air, the sweetest perfume of the flowers, and for your entertainment a chorus of birds whose songs make one divine harmony. The morning's experience will tempt you out again later in the forenoon, and you will mentally say to yourself as you see the sun rising high in the heavens, "Well, old fellow, I have seen you before today and I have a faint recollection that I bade you 'good morning.'"

"Tanned faces and hands will do you no good, and there is little danger of its being too deep. In ancient Greece, and the most beautiful women ever lived, the girls were early trained to out-door life. Their games and sports were carried on out in the open air. As they grew to womanhood their household duties, certainly all that was transportable, was performed out of doors. And in consequence, their lives during this period of Grecian history was much more pure and noble than it was in later years when, as every student of history knows, all this was changed.

The Scotch Bagpipes.

Here is a true account of the origin of the Scotch bagpipes. Although the bagpipes is described as the original national instrument of Scotland, where it had its origin, the statement is entirely incorrect, for the instrument is of a very remote period, being identical in character with the "asaculus" of the ancient Greeks. It was afterwards introduced in Arabia and in ancient Italy. Indeed the word "symphonia," mentioned in the book of Daniel, is by some authorities believed to refer to a species of bagpipe. It was not known in Scotland until near the end of the sixteenth century. The first authentic mention of it being in connection with the battle of Balvenne in 1594. It has been asserted that bagpipes were used as martial instruments at the battle of Bannockburn; but according to Froissart, each soldier then wore a little horn, with which he made a most horrible noise. Some maintain that bagpipes were first brought to Scotland by Mary Queen of Scots. One thing, however, appears certain: It was not known "over the border" until after had fallen into disuse in England.

Don't Be Deceived

Run no risk in buying medicine, but try the great Kidney and Liver regulator, made by Dr. Chase, author of Chase's receipts. Try Chase's Liver Cure for all diseases of the Liver, Kidneys, Stomach and Bowels. Sold by all druggists.

The distressing paleness so often observed in young girls and women, is due in a great measure to a lack of the red corpuscles in the blood. To remedy this requires a medicine which produces these necessary little blood constituents, and the best yet discovered is Johnson's Tonic Bitters. Price 50 cents, and \$1 per bottle, at Geode's drug store, Albion block, Goderich. Sole agent. [b]

RENEWED AND RENEWING.—The stock of stationery, including note, letter and account papers, envelopes, and in fact, all classes of printing papers has just been replenished at THE SIGNAL. Another large lot to arrive in a day or two and more to follow. If you want something neat and business like in office stationery, call. If you want a card or circular printed in the latest style, call at THE SIGNAL steam printing house, North St.

The rites and ceremonies of Mohammedanism are observed by the eleven Hindus of that faith who have just reached New York.

KENDALL'S SPAVIN CURE.

The Most Successful Remedy ever discovered, as it is certain in its effects and does not hurt the system. Best proof below.

Dr. R. J. KENDALL CO., BROOKLYN, N. Y., November 5, 1888.

Dear Sir: I have never purchased your Kendall's Spavin Cure before, but I have used it for lameness, stiffness and spavins, and I have found it a sure cure, I cordially recommend it to all horsemen. I have used it in my stable for three years.

Yours truly, CHAS. A. STIDER, HORSE DOCTOR.

Dr. R. J. KENDALL CO., BROOKLYN, N. Y., November 5, 1888.

Dear Sir: I cordially give you my testimonial of my good opinion of your Kendall's Spavin Cure. I have used it for lameness, stiffness and spavins, and I have found it a sure cure, I cordially recommend it to all horsemen. I have used it in my stable for three years.

Yours truly, ANDREW T. JONES, HORSE DOCTOR.

GOOD WORK IS DONE AT SIGNAL.

COUNTY CURRENCY.

Newsletters from Correspondents, and Other Items.

A Weekly Digest of the County News served up to suit Readers of "The Signal." Fifth and Final, Tipped and Condensed from Every Section.

Messrs. McKinnon & Powell, Blyth, shipped 100 tubs of butter to Toronto last week.

Miss Minnie Tuck and Mrs. Thomas Ennis, Cranbrook, left last week for Manitobas on a pleasure trip.

Capt. Kennedy and Lieut. Mulholland are now in command of the Brussels corps of the Salvation Army.

Mr. W. J. Henning, of Vancouver, British Columbia, is at Wroster on a visit to her mother, Mrs. John Gibson.

Jas. Blashill, Brussels, has gone on a visit to his aunt, who resides in the State of Michigan. He will be absent for several weeks.

Mr. Nathan Peck, of the Babylon line, Varna, raised last week a splendid bank barn; he is one of the progressive farmers of that neighborhood.

Terry O'Neil, Brussels, left for Toronto last Friday with a carload of driving horses. Among the number was his own trotting horse "Billy."

Mr. Wm. Oliver, of Staffs, lost a valuable colt on Tuesday, the 18th, from rheumatism. This is the second colt Mr. Oliver has lost this season.

An old land mark is being removed in Brussels, by the tearing down of what was formerly Melville church. The building and lot belong to D. Stewart.

Mr. James Murray, Harlock, has been very ill for the past six weeks, from a type of rheumatism which he contracted while in the Michigan shanties last winter.

Alex., youngest son of Jno. Sample, formerly of Morris, died at Brandon, Man., on Saturday the 15th. Hooping cough and bronchitis was the cause of his death.

Rev. Mr. Gibson, Cranbrook, has been appointed as successor to Rev. J. T. Leggar as pastor of the Methodist church for next year. Mr. Leggar goes to Durham.

Dr. R. E. Towle, who has been practicing medicine in Belgrave for the last six months, has sold his practice to Dr. F. Godfrey, and intends moving to Embro, where he has secured another practice.

Richard Holmes, of Toronto, son of Thomas Holmes, arrived in Wingham last week, after a visit to North Bay. He brought with him a great curiosity in the shape of a real Indian-made birch bark canoe.

Mr. W. J. Martin, East Wawanosh, is in Michigan at present. He combines business with pleasure, and as he is an ardent annexationist he will not be surprised if he makes up his mind to emigrate there.

Mr. S. S. Cooper, Clinton, has again been awarded the contract for the new Baptist chapel. The trustees claim to have effected a saving of \$200 by a slight alteration of the plans, and calling for new tenders.

Mr. Andrew Neely, St. Helens, has returned from an extended prospecting tour through parts of Michigan, where he has taken up land, and intends moving there to make a future home for himself and family.

The other day while Mr. Geo. Christopher, Hullett, was at work in a sand pit, the side caved in and buried him almost to the thighs. He was at once dug out, but has been lame ever since, from the effects of the accident.

Mr. John Mustard, of Stony Mountain, Manitobas, is spending a six weeks' leave of absence in visiting friends and acquaintances in Ontario. During the last few years he has held several positions in the Manitobas penitentiary.

Mr. Samuel Lawson, of Hullett, was married on Tuesday of last week to Miss Isabella Murphy. The ceremony was performed at the English church parsonage, Seaforth, and the happy couple left immediately on a tour to Manitobas and the Northwest.

Mr. James Morrow, of LaRiviere, Manitobas, and formerly of Stephen township, was in Seaforth last week. Mr. Morrow is a member of the municipal council of the municipality of Louise and is in Ontario working up emigration to that section.

The Messrs. McMillan, Seaforth, intend shipping about sixty head of prime fat steers to the Old Country about the first of July. One of the Messrs. McMillan will cross the water to look after the stock. If satisfactory sales are made this consignment will be followed by another of about equal numbers.

Mr. William Cooper, of the Mill Road, Tuckersmith, who is making an excellent reputation as a breeder of thro-bred Short Horns, has recently sold a very superior 17 months old bull to Mr. John Broadfoot, jr., of Brussels, for \$140. This bull was bred from the Bow Park Bull "Roan Prince" and is of the popular Duchess strain. He will be a valuable acquisition to the thorough-bred stock of Morris.

On Tuesday night the 18th inst., Mrs. Boyd and Miss Thompson, accompanied by A. Symonds and John Gillespie, Blyth, left for parts unknown. Mrs. Boyd leaves a husband and six small children behind her. She took advantage of her husband's absence at work in the country, leaving her six small children all alone to do for themselves as best they could. The youngest is not two years old.

Rev. John Ferguson, the first pastor of Melville church, Brussels, and now of Denver, Colorado, preached to his old congregation on Sunday the 16th. His sermon, which was based on Philippians 2, 12-13, was a powerful exposition of Gospel truth and will set not a few thinking for many a day. The attendance at the service was large. Mr. Ferguson visited the General Assembly in Toronto last week and leaves this week, accompanied by Mrs. Ferguson and Miss McConnel, to visit old friends in Montreal and the East.

KENTAIL.

BOAT RACE.—On Wednesday, June 19th, an interesting and exciting boat race was held off the harbor here, between H. H. Rich and C. C. Mackenzie, for the championship of aquatics in this section. The race was a mile with a turn, and was witnessed by a large concourse of spectators. C. C. caught the water first and led from start to finish, winning by about seven boat lengths. Dr. Macdonald and R. Mackenzie acted as judges and took the time.

PORT ALBERT.

Miss Victoria Hawkins of the Ladies' College, London, visited her parents here this week.

Messrs. Harry and Will Hawkins, who during the past four months have been running a bakery in Lucan, have sold out the business and returned to this village. Harry left on Monday for Clinton where he has secured a situation.

Will Samala has returned from his pleasure trip up the lakes.

Messrs. A. C. Hawkins and George Thurlow, appointed to solicit subscriptions towards the building fund of the English church about to be erected here, have been very successful in their canvass of this village and surrounding neighborhood. We understand the work of building will be commenced during the early part of next month, and will be rapidly pushed through to completion.

New Society.—We have received information from what we consider a trustworthy source, that a new, and certainly a most original society is about to be established here. It will be composed almost exclusively of married ladies, with a slight, a very slight—sprinkling of unmarried females residing in this village and immediate vicinity. The object of the society is good. It requires that each and every member shall, from the day, rather the night of their initiation, abstain from all such practices as lying, tale-bearing, listening to scandal and repeating the same, detraction, unjust suspicion, et hoc genus omni. The society will, in this village, to use an old stereotyped expression "fill a long felt want."

"When the devil was sick, the devil a monk would be. When the devil was well, the devil a monk was he."

We reproduce this ancient "chestnut" at this time, for the reason that it applies most forcibly to a gentleman residing in this neighborhood, who during the past winter, while by time he considered to be his death-bed, made many loud professions of Christianity, acknowledging the wickedness and sinfulness of his past career, promising to amend, hoping to be forgiven, etc. &c. But just when our subject had got himself in prime condition to depart to that undiscovered country from whose bourne no traveller returns, the fates decreed that this penitent sinner should be restored to the bosom of his family in the full enjoyment of his pristine strength and vigor, and now, with the bloom of health upon his cheek, and with a jaunty step as of yore, with a glorious opportunity to make a full and sincere repentance for his many past misdeeds, what do we find? A Christian walking in the path of righteousness, unceasingly thankful for the great blessing that has been conferred upon him, ever watchful of his many besetting sins; with a clear remembrance of that awful time when with the breath of the Destroying Angel upon him he promised to abstain from all such practices as lying, tale-bearing, listening to scandal and repeating the same, detraction, unjust suspicion, et hoc genus omni.

For the Babies.—It is not necessary to buy corn cures. Men and women should remember that Putnam's Painless Corn Extractor is the only safe, sure, and painless corn remover extant. It does its work quickly and with certainty. See that the signature N. C. Putnam & Co. appears on each bottle. Beware of poisonous imitations.

FOOD BEFORE GOING TO BED.—A well-known doctor writes:—"It is a common impression that to take food immediately before going to bed and to sleep is unwise. Such a suggestion is answered by a reminder that the instinct of animals prompts them to sleep as soon as they have eaten; and in summer an after-dinner nap, especially when the meal is taken at mid-day, is a luxury indulged in by many. If the ordinary hour of the evening meal is six or seven o'clock, and of the first morning meal seven or eight o'clock, an interval of 12 hours or more elapses without food; and for persons whose nutrition is at fault, this is altogether too long a period of fasting. That such an interval without food is permitted explains many a restless night, and much of the head and back ache and the languid half rested condition on rising, which are accompanied by no appetite for breakfast. This meal often dissipates these sensations. It is therefore desirable, if not essential, when nutrition is required, that the last thing before going to bed should be the taking of food. Sleeplessness is often caused by starvation, and a tumbler of milk, if drunk in the middle of the night, will often send people to sleep when hypnotics would fail of their purpose."

Mr. Humphrey Grey, 13th con., Hullett, has a curiosity in the shape of a recently hatched chicken having three fully developed legs.

Mr. Will Stewart is in Seaforth from St. Paul on a visit. He is looking well, and says the number of Seaforthites who have positions in that prosperous city are thriving.

The horse of Rev. Mr. Edge, Clinton, has been out at pasture for some time, and on Monday week it was intended to bring it in; but the animal got its leg entangled in a barb fence wire, and so badly cut that it will be some time before it can be used at all.

HOUSE AND GROUNDS FOR SALE.

That valuable property on Nelson street, Goderich, at present occupied by me, is offered for sale at a bargain. The house is a handsome two-story brick edifice, and contains twelve rooms, with closets, pantries, etc., and best conveniences. The grounds comprise one acre and a half, and are tastefully laid out in flower beds, shrubbery, etc., and are beyond all doubt the handsomest in town. There is a large and complete conservatory, and good stabling accommodation in connection. This property will be sold out and out, or will be exchanged for a smaller house and equivalent, or for farm property.

Also three farms in Goderich township, of which immediate possession can be given. The entire property will be disposed of, as the proprietor intends to take up his permanent residence in Toronto, owing to its greater business facilities in his line. His trade in Huron will not suffer by the change of centre, as the business will still be carefully attended to in this county.

Apply personally or by letter to WM. McLEAN, Box 46, Goderich.

DR. PIERCE'S PELLETS

Purely Vegetable! Perfectly Harmless! UNEQUALLED AS A LIVER PILL.

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Orrill Service Gazette.

-TIME TO DIE-

HELEBORE, PARIS GREEN AND INSECT POWDER AT WILSON'S

Prescription Drug Store.

"If a woman is pretty, To me 'tis no matter, Be she blonde or brunette, So she lets me look at her."

An unhealthy woman is rarely, if ever, beautiful. The peculiar disease to which so many of the sex are subject, are profligate causes of pale sallow faces, blotched with unsightly pimples, dull, lustreless eyes and emaciated forms. Women so afflicted, can be permanently cured by using Dr. Pierce's Favorite Prescription. Under the restoration of health comes that beauty which, combined with good qualities of head and heart, makes women angels of loveliness.

"Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. It is a positive specific for all those painful disorders, irregularities and weaknesses to which so many women are afflicted.
