### Montreal Stock Market.

**SMALLEST BUSINESS FOR A WHILE.—  
LITTLE DEPRESSION IN VALUES  
AND THE UNDERTONE WAS VERY  
STRONG.**

Montreal, Sept. 28.

Deliberateness and total avoidance of hurry might well characterize the movements of the central and local markets today, money being needed and being unattainable except by throwing off good securities at bargain prices. This unpleasant experience has to be gone through. It is not rushed into with the alertness which marks the discharge of a bit of business certain to bring in a handsome return. Tone of the markets, however, is not dull as might be expected from profitless liquidation. There are so many bull factors working that present personal losses look like surface effects beneath which are the powerful materials for stronger and more profitable marketing some day soon. Amount of selling on the local market today was small, which may be taken as indicating that locally the need for money is not pressing now after the liquidation. This is so, or so many of the frequenters of the Exchange would not have gone to join in Admiral Dewey's celebrations. Local market conditions for a day or two now are not likely to call for very strict attention.

Canadian Pacific, Tor. Ry Montreal-London, were fractionally higher this forenoon session. The amount of business in these stocks was small.

Mont. Street Ry, Royal Electric, War Eagle, Bank of Commerce, sold lower today, War Eagle lost 2 points or so, while Royal Electric, though lower, is still very high. Merchants' Bank to the amount of 2 shares sold at 170, the same as last price. Quotations for these are on another page.

Montreal-London—500, 55.  
Mo. Gas—150, 200.

#### DOMINION COAL.

The Dominion Coal Co. is preparing for a greatly increased output, to meet the demands of both the New England Gas and Coke Co. and the Dominion Iron and Steel Co. To this end it is sinking a shaft 55 feet square, which, when completed, will have a capacity of 4000 tons daily, permitting of production sufficient to meet all demands for many years to come.

It is estimated that the Dominion Coal Co will expend this year \$200,000 on new machinery, car equipment, etc., to meet the prospective increased demand for its coal. It will be able to meet this expenditure out of earnings, though this policy will probably prevent the common stock from becoming a dividend payer this year or next. In fact it is not anticipated that the company will, begin the payment of common stock dividends until it becomes a lessor of the Dominion Iron & Steel Co. on a 6 per cent. guarantee.

It has been the purpose of the management to in time refund the bonds and preferred stock of the Dominion Coal Co., but in view of a prospective lease of this property the matter may not now be considered.

Dominion coal shipments are showing steady gains. For the first two weeks of September its shipments amounted to 81,267 tons against 76,841 tons last year, making total shipments since March 1—the beginning of its fiscal year—916,767 tons, against 751,871 tons the same period last year, an increase of 164,896 tons. The New England Gas & Coke Co. is now receiving about 40,000 tons of coal per month. These shipments will soon be increased to above 50,000 tons per month as another boat will shortly be added for the service, making four boats which will make 3½ round trips each per month between Everett and Sydney.

Dom Iron & Steel is capitalized for \$8,000,000, 5 p.c. bonds, of which \$8,000,000 have been issued at par and \$15,000,000

stock, all common. 10 p.c. has been sold for the subscription rights and small amounts of the stock have been sold at 35.

As is well known, the directorate of this company is largely Canadian, including Sir William Van Horne, R. B. Angus, R. G. Reid, James Ross, Senator Cox, Almeric H. Paget and H. F. L. mock, of New York, are also directors.

#### GOLD IMPORTS.

N. Y.—About \$2,000,000 gold is due at London from Cape Colony and it is thought some of this amount may be shipped to New York.

#### INTERNATIONAL PAPER.

N. Y.—International Paper Co. is constantly acquiring additional spruce lands. They now own in fee about 700,000 acres in United States and have contracts running 5 to 10 years upon over 300,000 acres additional.

#### TWO NEW SECURITIES.

New England Gas and Coke, and Dominion Iron and Steel are two securities which, will, it is said, be listed soon upon the Stock Exchanges of Montreal and Toronto. In connection with them the following is interesting:

#### ANSWERS TO CORRESPONDENTS.

As we have special facilities for obtaining correct information on all matters pertaining to the value of stocks, we shall be pleased at all times to give our subscribers the benefit of same. All correspondence must be accompanied with the name and address of the writer, as only enquiries from bona fide subscribers will be answered.

W. M., Quebec.—Do not know on what principle the mines mentioned pay dividends. War Eagle has an abundance of low-grade ore and will be a steady dividend payer. Centre Star has not yet paid any dividend. It was bought for \$2,000,000. Something has since been spent on it. Even at heavy proposed advance think it a buy on speculation. Any of the mines you mention might do to buy. None of them will pay dividends for many months.

Montreal, Sept. 28

Business this morning was on the mend as far as the volume was concerned, although there was not much change as regards prices. The market to a great extent is a scalpers' market and on such a market there are always some who are willing to sell on any rapid advance, and re-invest in some stock which has not made any material advance; no doubt this can be done to advantage in some cases, but we think that it is a good time to buy to hold for much higher prices which no doubt will be realized some time this winter.

There were no less than eight issues dealt in at this morning's session, although in some cases these were at a recession. California was offered freely at 14 and sold to the amount of 3,000 shares at 18 with the same figure being bid for more at the close. Montreal Gold Fields was inclined to be a little soft, selling at 13 1/2 to the amount of 1,000 shares, and Deer Trail No. 2 sold at 22, but soon recovered to 22 1/2, there seemed to be plenty of stock offered round 23. The demand for Rathmullen was quieter today.

There was a little feeling as regards Virtue, it sold repeatedly at 45. Sellers asking 45 1/2 at the close.

The greater portion of today's business centered itself in Montreal-London. The demand was urgent, although the stock was fairly plentiful, it sold repeatedly at 55, with broken lots selling at 54 1/2 and 50; it closed with 55 being bid and 56 asked, any further demand would be liable to enhance the value and there is plenty of room for improvement.

There were sales recorded in Okanagan at 16, which is a better price than has been paid of late, and also in Dardanelles which sold at 12 1/2.

The dividend payers were firm, Republic being the only one dealt in, but which sold at 119.

As soon as Mr. G. T. Blackstock returns from New York he will no doubt favor us with an announcement re the Centre Star arrangements. War Eagle should be bought on any recession.

Shareholders in the Deer Park Company would do well to remember to exchange their holdings for shares of equal quantity in the new company before Oct. 1st, otherwise their scrips will be forfeited.

# NEW YORK EXCHANGE.

**NO ADVANCE IN BANK OF ENGLAND DISCOUNT RATE — SELLING IN B. R. T. MAKES THE STOCK WEAK — A. M. T. AND SUGAR ALONE ACTIVE AFTER THE FIRST HALF HOUR — BANK STATEMENT DISAPPOINTS THE STREET.**

New York, Sept. 28.

Despatches from the other side are of a decidedly warlike nature. The Orange Free State has voted to cast its lot with that of the Transvaal, and it is said that the Boers' reply to England will be submitted to-day, and that vigorous preparations are being made for the commencement of hostilities.

Consols both money and account show a decline of 1/4 in response to these conditions, but on the other hand, the rest of the market is fairly firm.

The active American list is at or around our closing prices and are firm. The fact that bank rate is unchanged in the face of war, and while gold shipments are being made to this country, is regarded as significant, and is thought to show that conditions are really not so warlike as they appear on the surface. The announcement of gold shipments to this country had a good deal to do with the strength of the market.

The market was surprisingly strong in the face of higher rates for money.

It is thought that there will be a continuance of these rates today, the calling of loans incident to the usual October disbursements will be large, and rates will probably work higher than they were yesterday.

Guesses as to the bank statement, which comes out today, seem to agree that there will be no very decided change one way or other. There has been no heavy speculation in the local stock market since the last statement was issued, and though a fair statement is expected, the figures should not differ much from those of last week.

New York, (noon), Sept. 28.

The failure of Bank of England to advance discount rate, came in the nature of a pleasant surprise, and the street was inclined to think that it indicated that the situation in the Transvaal was not quite as serious as the reports of news agencies would lead us to believe. The position of the Bank of England is not as strong as it was last week. The bank has lost in bullion about \$7,500,000.

Our market was again the feature. After a brief display of strength the stock became heavy owing to sales by bankers who were large buyers last week, and who are thought to represent so called Vanderbilt interests.

Almost the only other active stock was A.M.T., which fluctuated rather nervously being hammered by certain clique of bankers and being bought and bid up by Mr. Wormser.

The Grangers were steady, but there was very little business in them, nor did the bank statement for August have any effect.

The showing was, on the whole, not very satisfactory, that is to say it did not fulfill the predictions which had been made.

The gross was a little under \$500,000 increase, while net was a little over \$97,000.

After first half hour, the market practically came to a standstill, with exception of B.R.T., A.M.T. and Sugar.

The publication of the bank statement was followed by a moderate drive at the market, the effect of which, however, was not

very great, the showing made by statement was a disappointment to the Street.

Writers on financial matters have for some reason or another espoused the bull side of the market with some violence for the past few days; they have been making confident predictions that the surplus reserve would show an increase over last week. These predictions have been made in face of the well recognized fact that the banks have been steady losers of currency to the interior, and so far as can be ascertained from close observation of the stock market, there has not been sufficiently heavy liquidation to offset the loss in cash.

### CRIPPLE CREEK NEWS.

ISABELLA.

A big shipment was yesterday sent out from the Isabella company's properties. It amounted to thirteen cars, and while not including any very rich mineral, was nevertheless a good average grade. The production of the mine now being maintained is thirty cars a week. Sinking is still in progress and just what is being done in the rich mineral at the tenth level is still an enigma.

The Lillie shaft is down 825 feet and crosscutting to the shoot has commenced. The management expects to have to drive about 25 feet before encountering mineral. There seems no doubt that the rich shoots will prove continuous with the greater depth. In fact the belief is that it will be found both larger and richer than above. With the new level opened up, the Lillie will have plenty of ground blocked out in ore and will easily be able to maintain its record as one of the best little mines in the district.

It is quite likely that the Isabella will shortly be involved in another suit. It has made a formal demand upon the Orphan Belle company for ore, which it claims has been unlawfully extracted from the Buena Vista ground owned by the Isabella company.

The claim is based on the ownership of the ore contained in cross lodes of a senior location under a recent decision by Judge Lunt of the District Court, in the case of the Ajax Gold Mining Company against the Calhoun Mining Company.

JACK POT.

Lessee Boyd, working on part of Jack Pot territory, has been making some good shipments lately, and within the past few days returns have been received on two lots which have good returns. The first lot had a weight of 62 tons which had the good average value of \$53 per ton, while the second lot was of about 40 tons and had an average value of \$35 per ton.

From the Carlson lease some good shipments are also going out. The values are running about the same as in the Boyd lease.

DANTE.

The output from the Dante for the week amounted to 100 tons of ore carrying two ounces to the ton. The ore is coming from the workings of the McVertie and Clement lease. The machinery lately purchased from the Jerseyville lease on Gold Hill and which was used to operate the Grace Greenwood, was started Thursday and four drills are also in operation, two on breaking ore and two on development work.

# CHICAGO MARKET.

SPRING WHEAT THE SPECIALTY AT CHICAGO — MARKET OPENS AND CLOSES FIRM, WEAKENING ABOUT NOON — WHEAT  $\frac{1}{2}$  HIGHER AT LIV- ERPOOL.

Chicago, Sept. 28.

This was the third morning that the mar- ket opened firm and showed several of the signs that marked the two previous days so that the movements today will probably recede till noon, but advance towards clos- ing. East of the Rockies the wheat stock as given by Bradstreet makes a total just three times as great as there was last year. A strong bearish argument, no doubt, but it is offset by a large grain dealer's statement that the threshing returns of this year's crop are very poor. In Louisville district farmers threshing are deceived, ordering say 2000 empty bags, but out of the threshing requiring only 1200. A difference between spring and winter wheat has become marked and since spring wheat is in more demand abroad, Chicago has become a spring wheat market. It is stronger than other North- western markets, while New York, as hav- ing a large stock of winter wheat, is lag- ging behind other markets.

Liverpool — Wheat  $\frac{1}{2}$  higher; corn  $\frac{1}{2}$  low- er, both firm with better demand.

Chicago — Car lots wheat 125; shipments, 73,350; corn, 1139; shipments, 350,200, oats, 284, shipments, 1657.

Primary receipts — Last week, 1,245,691 ; shipments, 801,695; last year, 1,656,299; shipments, 895,878.

Four ports, 536,055; shipments, 894,110. Northwest cars — Minn., 562; Dul., 414; against 884 last week.

Hogs today received, 24,000; estimated to- morrow, 21,000.

Of the 125 cars of wheat at Chicago this morning all are new. There were 298 of new last year. The private elevators con- tribute today 127 cars of No. 1 Norton and 4200 bushels of No. 1 to the stock of cont. wheat. Boston, N. Y., Philadelphia and New Orleans clear over 400,000 wheat alone
