## HAMILTON WINNER IN FIGHT TO FORCE COMMON ENTRANCE OF RAILWAYS IN NORTH END

Dominion Railway Commission Asserts Its Power to Compel T. H. and B. to Abandon Its Separate Hunter Street Entrance and Join With G. T. R. and C. N. R.

(Special to The Toronto World). OTTAWA, Dec. 4.—Chief Commissioner Drayton of the railway commission, and Assistant Chief Commissioner of Scott, handed out judgment today declaring that the commission has the power to compel the Toronto, Hamilton and Buffalo Railway to abandon its entrance into the City of Hamilton via Hunter street, and adopt, in conjunction with the Grand Trunk Railway and the Canadian Northern, a common location in the north end of the city.

The City of Hamilton made the application to the railway commission to have the Hunter street route abandoned, and at the hearing Mr. Hellmuth, who appeared for the Toronto, Hamilton and Buffalo Railway, made a preliminary objection by challenging the jurisdiction of the board to issue such an order.

The railway, as constructed in Hamilton, along Hunter street, was built under the terms of a municipal bylaw passed in 1894, and under its provisions the railway received a bonus of \$225,000.

General Statute Applicable. In 1895 the bylaw was confirmed by Ontario statute, and in the same year it was also confirmed by Dominion statute. Mr. Hellmuth took the ground that the bylaw, ratified and confirmed as it is by parliament, constituted a special act, and therefore over-rode the provisions of the general statute, and that the board could not authorize a relocation of an existing line except upon the application of the railway company, and that the railway company in law could not have built its line on any other route.

Mr. Drayton pointed out that the Dominion statute validating the agreement provided that nothing contained in the acts should affect any rights or powers conferred by the Railway Act on the railway committee of the city council, and that the railway commission is the statutory successor of that committee.

Board's Wide Powers. He also shows that the board has power to revise, rescind, change, alter or vary any order or decision made by it.

The board, in any case, has power to authorize a deviation within one mile of the existing location, and the deviation of the line from Hunter street to the Grand Trunk right of way is within the limit of one mile.

With regard to Mr. Hellmuth's last objection, Mr. Drayton declares that the board can disregard any contract or agreement.

### Hamilton's Opportunity.

The World is delighted to see the turn affairs have taken in the Hamilton railway situation. As we said some time ago, Hamilton now has the opportunity to do for itself what Toronto has taken years to do and has not yet got settled to clean up her railway entrances and union station problem and develop on the lines which all sensible city planning contemplates. We were glad to support the action of the mayor last summer when he made his proposals for a joint railway entrance on the north side of the city, believing that as Hamilton developed this would be in every way the desirable position for railroad activity. The railway board has been impressed with that view, and with a double sense of responsibility under the new act, and as representing the former authority, the board purposes giving effect to this view. The C. P. R. and T. H. and B. may appeal, but the railroads would do well to consult the interests of the municipality in the matter.

## ROBOT ASKED TO FORM CABINET

But Ex-Premier's Decision is Decidedly in Doubt—May Be a Composite Ministry.

PARIS, Dec. 4.—The ministerial crisis is a step nearer settlement to-night. President Poincaré, after lengthy consultation today with M. Caillaux, leader of the Radicals, Emile Almond, president of the finances committee of the senate, and others, principally on the financial aspect of the situation, requested ex-Premier Felix Ribot to undertake the task of forming a composite ministry acceptable to all groups of Republicans.

M. Ribot at first declined, pleading ill-health, but finally consented to consider the matter and give his answer tomorrow after he had consulted with his friends. Parliamentary circles, however, doubt that he will accept. In the event that he declines, it is probable that M. Doumergue, ex-minister of commerce, will be asked, as he is generally considered the most capable of forming the required type of cabinet.

## TWENTY AWARDS GO TO HORSES OF CANADA

Saskatchewan Made Phenomenal Showing at Chicago Competitions Against Thoroughbreds of Millionaire U.S. Owners—Failed to Get Prize in Only One Class.

CHICAGO, Dec. 4.—(Can. Press)—At the International Live Stock Show today, the judging of all the horse classes in which Saskatchewan was interested was completed, and the western horses have a phenomenal record of wins to their credit. Twenty horses were shown, and there are twenty prizes to carry home. In only one class did they show and not get in the money. The exact number and character of the wins is as follows: Three first prizes, six second prizes, three third prizes, two fourth prizes, three fifth prizes, two sixth prizes, and one seventh prize.

Championships and sires of two and three were decided today. The senior champion Clydesdale stallion was Fyvie Baron, who was first in the aged class. He is owned by Conham Bros. of Wilkesbarre, Pa.

The senior champion mare was Harriettoun Baroness, owned by the Fairholm Farm of Newmarket, Ont. These two were afterwards granted championships of the breed.

The junior champion stallion was Glencleop of the Conham Stud. The junior champion mare was Rodie Pride, from the same stud.

In the class of three animals, the get of one sire, R. H. Taber of Condie, Sask., got third place with the get of the Bruce, and the Colony Farm, British Columbia, was second with the get of Baroness Pride.

W. H. Bryce has refused all offers for Doune Lodge Romeo, and the University of Saskatchewan have refused several excellent offers for Lady Bruce of Lunenburg and Craisie Meral.

Big Cattle Prices. The cattle sale lot exhibits were sold today. The champion carlot, sold for \$14.25 per cwt, and the reserve champion carlot, which was 2-year-old, sold for \$13.80. The interest in stock breeding is emphasized by the high averages made at the sales of pure bred stock. The Aberdeen Angus Society sold 52 head at an average of \$274 each, nearly \$100 over the average of last year.

The highest priced bull brought \$2005. He is only a calf yet. J. D. McGregor bought a couple of very handsome cows for his herd, and was a heavy buyer for a personal friend in the States, who is starting a herd.

FOR FARMER. Chief Thompson of the fire department is in receipt of a letter from R. H. Pullen, 79 Wilson avenue, enclosing a cheque for \$25 towards the Firemen's Benefit Fund, as an acknowledgement of the good work of the fire brigade in the recent fire in the Marlford Apartments, of which Mr. Pullen is the owner.

## GEMETERY FOUND ON DUNDAS STREET

Workmen Excavating Near Roncesvalles Unearthed Tombstones Five Feet Underground on Site Where Church Stood One Hundred Years Ago, But Was Long Forgotten.

While making excavations for the foundations of a new building in a lot on the east side of Dundas street, almost opposite Roncesvalles avenue, late yesterday afternoon, workmen discovered several tombstones and human skeletons. Authorities stated last night that the lot had evidently been a graveyard many years ago. Operations will be continued today, and it is expected that more tombstones and bones will be found.

The field at one time was a market garden. Just recently it was sold and it was decided to erect a building on it. From what little can be learned of the site, it appears that about 100 years ago an English church stood in the field and the surrounding ground was used for burial purposes. This church was demolished a score of years ago, and few people, if any, are living who can tell about the graveyard.

The tombstones were found five feet below the surface of the earth, and the bones still further down, showing that the field was filled in.

Experts from the University of Toronto and other prominent men may try to discover something of the history of the cemetery by examining the skulls and tombstones.

A city inspector will take charge of the remains and see that they are properly disposed of.

## PARLIAMENT TO OPEN JAN. 15 LIBERALS EXPECTED TO MAKE GENERAL ATTACK UPON TARIFF

Naval Question and Highways Bill Will Be Again Forfe and Revision of Railway Act and Redistribution Bill Also Food for Controversy.

(Special to The Toronto World). OTTAWA, Dec. 4.—The date of the opening of parliament is Jan. 15. This was decided upon at a meeting of the cabinet today.

It is anticipated that the session will be a lively one. Sir Wilfrid Laurier's "free food" speech in Hamilton is taken here to mean that this is the first announcement of a general attack upon the tariff. However, a clear pronouncement is expected at the Fielding banquet in Montreal next week.

The naval question and the highways will again take up considerable time, altho not so much as last year. The government will send these measures to the senate as early as possible.

To Revise Railway Act. An all important matter will be the revision of the Railway Act, which has been in the hands of counsel for two years.

Much interest will be centred in the government's redistribution bill, which will be brought down. The opinion is now growing that so far as York County is concerned, there will be two rural constituencies and eight seats in the city.

The opinion was expressed today that the government will make a strong effort to get thru by May 24.

## NO LIQUOR BY PARCEL POST

Special to The Toronto World. OTTAWA, Dec. 4.—It is understood that Hon. L. E. Patterson has issued an order prohibiting the carriage of liquor by parcel post. Parcel post will be in operation early in the New Year, and much interest has been shown as to what attitude the postmaster-general would assume in this regard.

## PLAN WAS GOOD YET IT FAILED

Albert Stanley is Charged With Unique Method of Stealing Dry Goods by Phone.

Charged with the theft of a 400-pound roll of duck cloth from the dry goods firm of Bradshaw & Co. 55 West Wellington street, Albert Stanley, 238 Parliament street, Charles Cowan and Archibald Earley, both of 40 Windsor street, were arrested last evening by Detective Wallace and Newton.

Stanley is believed to have engineered the theft of the goods. Calling up the dry goods firm, he represented himself as one of the firm's customers and ordered the roll of cloth to be delivered in the morning. The cloth was delivered, but Bradshaw's were informed by the other concern that it had not been ordered, upon which the wholesalers agreed to send a wagon to bring it back.

It is charged that Stanley called for the goods before the Bradshaw firm could recover them, and subsequently sold them to a merchant in Parkdale. The cloth was found in possession of this latter merchant.

The other two are held on the strength of Stanley's declaration that he divided the money with them.

## LIBERAL CHIEFS IN CONFERENCE

Sir Wilfrid Discussed Tariff Reduction Platform With Ex-Cabinet Ministers and Hon. Mr. Rowell.

OTTAWA, Dec. 4.—(Special).—For two days the leading men in the Liberal party have been in conference with Sir Wilfrid Laurier. They are preparing the platform upon which the party will go to the country at the next election, and for which they will pave the way in parliament during the next two sessions. Hon. W. S. Fielding, N. W. Rowell, the Ontario Liberal leader, and Hon. MacKenzie King were in session today. Yesterday Hon. Geo. P. Graham and Hon. Sydney Fisher were here.

It is understood that the biggest plank of the platform will be tariff reduction especially on articles of food and agricultural machinery. It is expected that Sir Wilfrid Laurier will make a formal announcement of the Liberal policy at the banquet to Mr. Fielding in Montreal next week.

## PORT ARTHUR WOMAN ARRESTED FOR FRAUD

Ida Hill Charged With Shady Practices Involving Three Thousand Dollars.

Charged with defrauding her creditors in her bankrupt business in Port Arthur, Ida Hill, alias Helmo, of Port Arthur, was arrested here last evening by Detective Archibald. The woman, who is a widow, is alleged to have conducted a retail business in Port Arthur, which became bankrupt. When the creditors stepped in there were absolutely no records or books or data upon which to estimate the assets and liabilities of the concern. The woman's husband is now held in the western town city, and the woman found her last evening living under another name. The amount involved is in the neighborhood of \$3,000.

## STRUCK BY CAR

Suffering from a severe cut over his left eye, James Taylor of 399 Lansdowne avenue, was conveyed to his home in the police ambulance yesterday, as a result of being struck by an east-bound Dundas car at the corner of Arthur and Markham streets at 7 o'clock.

## SCHOOL TRUSTEE CALLED SNEAK AND LIAR

Brown Grew Indignant When Reference Was Made to His Son's Inaction at Schools Investigation—Evidence Shows Brown Got Hand-Picked Coal, Says Fairbairn.

One of the most sensational scenes in the history of Toronto civic affairs was witnessed in the city council chamber last night at the meeting of the board of education. It was precipitated by Trustee Fairbairn's arraignment of several of his fellow members in a speech advocating a by-law to prohibit officials and other employees of the board assisting any candidate for election to parliament, legislature or any elective municipal office, or holding any office in political organization.

Trustee Fairbairn pointed out that a number of caretakers were prominent in Ward Four Conservative Association, of which Trustee Smith was president. It was just the sort of thing which led to Tammany Hall methods. His motion, seconded by Dr. Noble, that the motion be sent to a special committee, comprised of the chairman of the board and the chairman of the standing committees.

All the committee chairman declared their opposition to the motion. Trustee Fairbairn retorted by firing a volley at his opponents. He said that one of the effects of the present action was shown by the way some of the trustees had relatives employed by the board. Trustee Hodgson had one, Trustee Smith two, Trustee Brown's son was solicitor to the board, and he had not asked a single question at the recent investigation which would help to bring back a dollar to the board. The evidence given at that investigation showed that Trustee Brown received "hand-picked coal." He got no further.

Livid With Rage. Trustee Brown sprang to his feet and, livid with fury, turned on Trustee Fairbairn and shouted: "You are a deliberate liar! It is a deliberate lie that I have received any favor from any contractor. I do not buy the coal, or have anything to do with it. I was over 20 years a member of this board when last year the board unanimously appointed my son solicitor to the board, and I am proud of it."

Trustee Brown proceeded to describe Trustee Fairbairn as a "ferret" and a "sneak," when Chairman Hiltz scolded silence, and asked that personalities be eliminated.

Trustee Fairbairn's motion was put to the vote and says. The vote was: Chairman Hiltz, Dr. Noble, Trustees Dineen, Ellis and Fairbairn—5. Nays—Dr. McKay, Dr. Hopkins, Dr. Conboy, Trustees, McTaggart, Jackson, Smith, Shaw, Brown and Hodgson—5.

Chairman Hiltz's resignation was accepted, to take effect Dec. 20 to enable him to seek aldermanic honors.

City Needs Such Men. Trustee Brown said Mr. Hiltz had been an exemplary chairman.

Dr. Noble said the city needed just such men as Mr. Hiltz as alderman. "The Christmas holidays were fixed to begin on Dec. 19. The new term will open Jan. 5."

## DIG PROFITS GO TO MIDDLEMEN

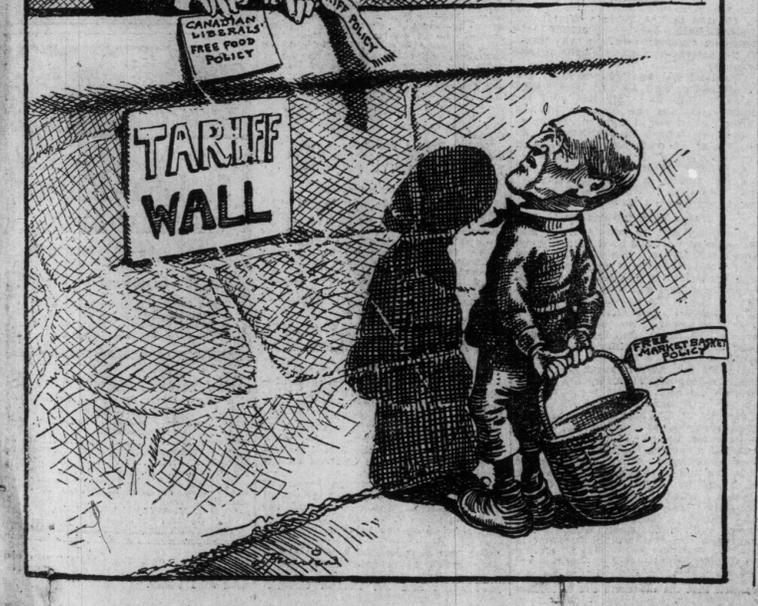

New York Food Dealers Get Thirty-Nine Cents of Dollar Spent by Consumer.

NEW YORK, Dec. 4.—(Can. Press).—It costs thirty-nine cents to distribute one dollar's worth of food in this city. The bureau of food supply of the New York association for improving the condition of the poor has been conducting a cost of living enquiry and made public a report today showing that sixty-one cents represents the cost of the food on its arrival at the terminal markets here, while the rest of the consumer's dollar is divided between wholesaler and retailer in the process of getting the food to the consumer's kitchen.

"Every consumer," said Bailey B. Burrell, who directed the enquiry, "is amazed at the constantly diminishing quantity of food that his dollar brings to him, and every producer is equally amazed at the small proportion of the consumer's dollar that finds its way into his pocket."

The remedy, the report asserts, is a reorganization of the food distribution system based on the result of careful experiments with the economic efficiency of various methods of retail distribution. These experiments, it was said, had been set forth by a group of individuals with no thought of profit.

Has Two Leading Ladies. When the noted actor, John Drew, appears here next week at the Princess Theatre in the double bill, "The Tyranny of Tears" and "The Will," two leading ladies will be seen in his company, Laura Hope Crews and Mary Boland.

## MRS. PANKHURST IN EXETER JAIL

Police Outwitted Suffragettes and Whisked Leader Away From Steamer.

### RELEASE DEMANDED

Militant Organization Points to Treatment of Carson and Law.

EXETER, Eng., Dec. 4.—(Can. Press.)—Mrs. Emmeline Pankhurst, the militant suffragette leader, was lodged today in Exeter Jail. After the police landed her from the tug at a dock on the Tamar River, they started off in the direction of London, but afterwards changed their route and made direct for this city.

The Women's Social and Political Union in London, the militant suffragette organization, issued the following announcement this afternoon:

The union views with great indignation the government's action in arresting Mrs. Emmeline Pankhurst on her return from her triumphant tour in the United States. It denounces as a public scandal this act of injustice on the part of the government, while Sir Edward Carson, Andrew Bonar Law and other men lawbreakers remain free. It demands her instant release.

Police Used Willy Russ. PLYMOUTH, Eng., Dec. 4.—(Can. Press.)—Contrary to expectations, there was no disturbance when Mrs. Emmeline Pankhurst, the militant suffragette leader, was arrested on board the steamship Majestic on her arrival from New York today.

Mrs. Pankhurst was transferred to a tug which had been chartered by the police and was taken to Devonport dockyard.

The police officers boarded the Majestic as soon as the liner had anchored, shortly after noon.

The police tug with the prisoner and the officers on board, proceeded directly for Devonport. Everybody except officials was excluded from the government dockyard and Mrs. Pankhurst landed without incident.

MEN IN PUBLIC LIFE WILL ADDRESS WOMEN Municipal Franchise Referendum Committee to Meet With Suffrage Association.

An executive meeting of the Toronto Suffrage Association was held at the residence of Dr. Margaret Gordon, 729 Spadina avenue, on Wednesday afternoon, Dec. 3.

It was decided to combine the regular monthly meeting with the municipal franchise referendum committee meeting to be held in the Association Hall, Dec. 15, at which many public men will speak.

It was announced that many drawing-room meetings had been held, adding greatly to the membership, also that a meeting will be held on Dec. 12 in the W.E.Y.M.C.A., at which Mrs. L. A. Hamilton and Mrs. MacD. Demison will speak.

The Canadian Club in connection with the Presbyterian church, Dundas and Dovercourt road, will hold a meeting on Dec. 6 at which Dr. Stowe Gillen will speak.

## A DAILY STORY FOR CHILDREN

### The Lizard

Once upon a time there was a lizard that lived in a little hole in a big grey stone. He lived all alone and was not very pretty until you saw his eyes. They were big and sparkled like the sun.

Every morning he would crawl out to get small bugs and tiny flies. He liked the flies best and would gobble them down as fast as he could. You see, he didn't have any one to tell him that was not polite, so we must forgive him, I suppose.

After he had eaten he liked to lie in the warm sun and look around and see what was going on. He was very lazy and would lie there for hours without stirring at all, his big eyes kept blinking all the time, winking and blinking in the bright sun.

When he was tired of this he would go slowly back into his hole and go to sleep on some soft moss that was there. It was cool in the hole, and he could think better about what he was going to eat next, for that was about all he thought of.

He was happiest when he was eating. So he guessed he would eat again. Out he crawled, and right in front of him was a big, fat looking green fly. "Oh, won't he make a fine dinner?" he cried.

He crept quietly along until he was right close to him, and then made a quick dart for the poor fly, but he didn't get him. Away flew the big green fly up in the air out of the lizard's reach.

The lizard was so angry that back he went in his hole and would not eat for two whole days. Don't you think he was very silly to get so cross just because he could not have everything his own way all the time?

## THE WOES OF MRS. NEWLYWED

"I can't seem to do my work without perspiring under the arms," said Mrs. Newlywed.

"Why not bathe the armpits with tepid water and a little tincture of benzoin night and morning? It will help greatly," responded Mrs. Neighbor.

## NURSERY

CONDUCTED BY Elinor Murray Good Fellows

It is a thoughtful mother who lets her child grow up thinking only of himself and what he shall receive, never of others and what he may bestow.

To make children happy is the great privilege that Christmas brings; and it is a season when selfishness or generosity may be easily cultivated.

There are two aspects of Christmas: the happiness of receiving and the happiness of giving. During childhood the first is apt to have most significance, but gradually the second happiness takes the place of the first, and the child knows the real meaning of Christmas.

The gifts that a child sends to others are usually simple in character. The ideal gift of course, is something fashioned by the small fingers and guarded with the profoundest secrecy. Half the fun, you know, is in the secrets and mysteries; but all the joy is in making others happy.

If a child is allowed to buy his presents rather than make them, let it be after careful consultation with mother, and out of the child's own money, not just money given him for the purpose—but money saved or earned.

This Christmas season may be a very hard time for many people. The bare necessities of life are climbing to such outrageous prices that there will be many empty stockings to street-trusting little ones on the morning after Santa Claus' visit.

I stood yesterday and watched a line of little ones file past Santa Claus' shop to shake hands with him and tell him their dearest "wants." Don't you think they have faith enough in the good old saint of childhood to believe that a wish uttered so personally is going to be granted? From the look on the parents' faces I fancy most of the expressed wishes will be fulfilled—but just suppose!

Did you let your children play Santa last year to the poor children? Father Christmas couldn't get around if you did you will remember the joy it gave them, and the new meaning of Christmas that was instantly revealed. I do not like the cold cash with the personal contact. That is why the good fellow movement is so popular. You go to see him. You understand in a minute just what is the need of this particular child; and to you is given the splendid privilege of bringing real happiness to one lonely little heart.

It is not an expensive proposition unless you choose to make it so, but it is wonderfully rich in results. Let your children be good fellows this Christmas. Tell them about it. I know what they will say.

## ALLOWED HER A CHANCE TO GIVE UP PRACTICE

Madame Thurston, Fortune-Teller, Granted Her Freedom on Suspended Sentence.

Mrs. McColl, known professionally as Madame Thurston, was yesterday afternoon allowed out on suspended sentence on a charge of fortune-telling. Judge Morgan ordered the woman to give up the practice altogether again. Mrs. Carmichael, police magistrate, proved too strong for her. Mrs. Thurston napping some days ago, with the result that Madame was hauled into court by Detective Sergeant McKinney of the morality office.

## EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

For Towser and Tom SWEET little letter signed "Barbara," asks me to publish the best suggestions I have for making biscuits for her pets. As her family includes a couple of cats, three collie dogs and some birds, the question of feed for the animals is an important one.

Persons like Sarah K. Bolton and Mrs. D. B. Smith, who study our dumb friends and know them best, say that dogs should be fed at night, before they are chained up or put in their kennels, but that cats thrive best on two meals a day. Here is my plan for feeding several pets at a cost of twenty cents a week, in the place of ten cents a day, that I formerly spent for an entire meat diet for them.

Meat trimmings cost about two-cents a pound and always contain fat. I have four pounds sent up twice a week. These are boiled on the laundry stove, in a big kettle, until a thick broth is made. Sometimes I remove the meat and it furnishes several good meals, but oftener I leave it in the broth, adding corn meal and cooking it to a firm mush. I do not add any salt nor season it in any way. Now this may be varied if the scraps are very fat. Take out the meat and make a batter with flour, broth and meal. Spread this out on an old pan and bake it until crisp. Of course the animals like this best. A quantity may be made, as it does not spoil.

Mrs. D. B. Smith feeds the inmates of her luxurious cattery on home-made cat dainties and they reward her by taking prizes at every cat show in the land, and by never being ill.

She buys beef hearts and livers, and has them chopped very fine, and stewed with rice until the meat is exceedingly tender and the rice very soft. This is fed night and morning, and at night plenty of milk is given. Occasionally fish is put in the rice in the place of the meat and this marks a red letter day for the kitties.

If you want your cats fat and sleek do not fail to keep brewed catnip about where they can find it. The old English couplet about catnip that says: "You may plant it and cats won't know it; You may pluck it and they'll eat it." is true; cats do not seem able to find for themselves this tonic they love so well. The catnip balls sold in stores are not satisfactory, as they only tease the cats. It is much better to get a supply of the herb now, and keep it over winter.

## DEATH OF FORMER MERCHANT.

CORNWALL, Dec. 4.—(Special.)—Bruce M. Stuart, died at the home of his brother, Wallace Stuart, Wales, after a lingering illness, aged 59 years. Mr. Stuart at one time conducted a store at Dickinson's Landing, but retired shortly after the death of his wife, about seven years ago. He is survived by his father, two brothers and one sister, Mrs. J. Gravely of Toronto.

## THE GARDEN CONDUCTED BY RACHEL R. TODD M.D. House Begonias.

Of those splendid house plants, the begonias, we shall deal at present with only those that fibrous-rooted. These fibrous-rooted begonias are the winter-flowering varieties.

These indoor bloomers require plenty of pot-room, and above all, the richest soil that can be obtained. When one considers the thick succulent branches and leaves, the waxy flowers borne in such marvellous profusion, the need for rich food is easily understood. Because begonias simply must have plenty of rich food.

Begonias will do best in a room where there is plenty of light, but not necessarily full sunlight. I have seen the most splendid plants, rich green, bronze-green, and deep bronze—plants that filled almost the entire window—plants that were trained upwards to fill the room, and covered with flowers, all growing in north windows, where not the tiniest ray of direct sunlight ever reached them.

There is a street in Quebec called Champlain (indeed, there are two Champlains), a street that runs along the edge of the lower town, and west along the river, where most of the houses face the frowning bleakness of Citadel Rock. Never a beam of the sun touches these north windows. But the windows themselves are so clean that one cannot believe the glass is in them. Those amazing begonias—oh! such begonias, laugh in gay derision at their unchanging neighbor across the way, shaking their rosy petals in very joy of life.

When we saw those great fat healthy plants we said to ourselves: "Nothing is impossible in the plant line." These begonias do love the sun—in moderation, not after their leaves have been well washed, the sun is careful of this. The sun on wet leaves will blister human flesh. Also, steam will blister human flesh. Also, where the heat has not been intense enough to cause a blister the leaves turn crinkled and yellowish-brown, exactly as if it had been burned, which it really has been. That is ruined of course. So remove it at once and do not risk such a calamity again.

A good homely old-fashioned begonia is Gloire de Lorraine, one of the very best among a long list of good house begonias.

Gloire de Lorraine is a sure and profuse bloomer, for a remarkably long period. Buy one, and note the above remarks carefully.

**CHANCELLOR SHOULD RESIGN HIS OFFICE**

Strong Demand Made by Radical Press of Germany.

BERLIN, Dec. 4.—(Can. Press.)—The strife between the military authorities and the civilians in the little town of Zabern, Alsace, brought about over night a political crisis of the most acute order in Germany, and demands for the resignation of the imperial chancellor were voiced by The Tagblatt, The Frankfurter Gazette and other Radical newspapers.

The unsatisfactory nature of Dr. Von Bethmann-Hollweg's explanations yesterday in the imperial parliament and the brusqueness of Major-General Erich Von Falkenhayn, minister of war, it is pointed out, have not only ensured the passage of the resolution expressing non-confidence in the government, but have made possible a refusal by the imperial parliament to proceed with the discussion of the budget until it receives satisfactory guarantees that there will be no repetition of such incidents as those which have occurred at Zabern, where the high-handed action of the German army officers has created such tension.

**WIARTON HAS DEADLOCK IN LOCAL OPTION MATTER**

Difference is Over Preamble in Bylaw Drawn by Town Solicitor.

WIARTON, Dec. 4.—There is a deadlock in the council on the local option bylaw. The local option party wanted the town to accept the bylaw prepared by the Dominion Alliance, but the council got their solicitor to draw up another. The bylaw drawn up by the town solicitor contains the preamble "whereas a petition presented by, etc." The local option party object to this preamble, claiming that it weakens the bylaw, and makes it liable to attack.

The council is equally divided upon the question, four for taking the Dominion Alliance bylaw, four for taking the bylaw drawn up by the town solicitor, consequently the whole thing is blocked and an adjournment has been made for one week.

**SHREDDED WHEAT**

It is the real "staff of life," being made in Canada from the whole wheat grain, steam-cooked, shredded and baked under conditions that insure its absolute purity and cleanliness. More nourishing than meat or eggs, costs less and is much more easily digested. Supplies the warmth and strength that are needed for the chilly days.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

**NORWEGIAN COAST SWEEP BY STORM**

Several Ships Reported Lost With Crews and Great Damage Done.

CHRISTIANIA, Norway, Dec. 4.—(Can. Press.)—Great damage has been done by the violent storms which have been raging on the Norwegian coast for the past fortnight. Several ships have been lost and all fishing craft compelled to seek refuge at the various ports. Five of the crew of the liner Bergensford were drowned while trying to reach shore in a boat at Bergen.

The Bergensford belongs to the Norwegian-American line and sailed from New York on Nov. 18 last.

At Christiania and Frederikstad the streets in the lower parts of the towns are flooded. In many houses have been demolished and bridges swept away.

**PUT CHRISTMAS STAMPS ON REVERSE OF LETTER**

Postoffice Has No Objection to Such Decoration of Mail.

Owing to the fact that many Christmas stamps are being circulated at the present time, W. B. Rogers, postmaster of Toronto, has issued the following instructions regarding the use of these stamps:

"The postoffice department cannot permit the affixing on the face or address side of letters or other mail matter of stamps issued in the interests of charitable institutions, etc., but there is no objection to such stamps being placed on the back of letters or other matter as stickers, provided they do not resemble postage stamps in form and design and do not bear numerals or indications of value.

"Letters and other mail matter bearing such stamps will be returned to the sender as violating the postal regulations."

**HUERTA AGAIN DENIES SUCCESSES OF REBELS**

PARIS, Dec. 4.—(Can. Press.)—The Matin has received a cablegram from Victoriano Huerta, in which the Mexican president says:

"The reports of the alleged successes of the rebels at Cuicacac, Ciudad Victoria and Juarez must be considered in accordance with the plan of campaign being carried out by the government forces."

**ANARCHY IN FORMOSA.**

TOKIO, Dec. 4.—(Can. Press.)—Reports have been received of further disorders in the interior of Formosa, where a conspiracy recently was uncovered to overthrow Japanese rule there. A mob attacked the prefecture of police but was dispersed. Several of the rioters were killed. Two hundred and sixty-nine persons have been convicted of conspiracy.

**NEGLECTED THE RIVERS.**

NERVY HOLD-UP OF WATERLOO FARMER

Anton Waurish Relieved of Twenty-Five Dollars at Point of Pistol.

(Special to The Toronto World.)

BERLIN, Ont., Dec. 4.—A hold-up in typical western fashion was perpetrated on the Waterloo road a couple

of miles from here, when Anton Waurish was relieved of \$25 and some

change. While Waurish was about to get into his car, a young man

claimed to be a farm hand, and offered him a job on his farm. The stranger

accepted and Waurish and he took the late John Roach, and wife of Daniel

### WARMEST WEATHER FOR MANY YEARS

Record Month's Temperature Only One Degree Above Last Month.

### COLD WAVE IS COMING

More Seasonable Spell is Promised for Next Few Weeks.

During the past month Toronto has marvelled at the surprisingly mild weather that has been served up for the approval of its citizens by the weatherman, and not without cause. For November, 1913, was the second warmest November on record, with a mean temperature of 42.0, about five degrees above the average for that month. The warmest November on record was in 1902, with a mean temperature of 43.0.

Not only was last month abnormally warm, but it was surprisingly free from gales, despite the storm that caused such a great disaster on the upper lakes a few weeks ago. Only once was it necessary for the meteorological bureau to put out storm signals on the lakes, as a warning to mariners, and as a rule November is one of the stormiest months of the year. In addition to 1913, the month of November in the years 1876, 1899 and 1910 were practically free from heavy gales.

Enquiry at the meteorological office revealed the following facts concerning the month of November since 1840:

**Temperature.**  
Coldest November on record was in 1873, mean temperature 27.5.  
Warmest November on record was in 1902, mean temperature 43.0.  
Highest temperature ever recorded in November was 70.2 on 3rd, 1903.  
Lowest temperature ever recorded in November was -5.0 on 30th, 1875.

**Precipitation.**  
Largest rainfall for the month was 5.81 inches in 1846.  
Smallest rainfall for the month was 0.08 inches in 1904.  
Largest fall of rain in 24 hours, 3.13 inches in 1861 on the 2nd.  
Largest snowfall for the month was 19.5 inches in 1873 on the 29th.  
Smallest snowfall for the month was Trace in 1847 and 1850.  
Largest snowfall in 24 hours was 9.5 inches in 1873 on the 27th.

**Pressure.**  
Highest barometric pressure at 32 for the month was 30.59 inches (sea level 31.03) in 1887 on the 29th.  
Lowest barometric pressure at 32 for the month was 28.45 inches (sea level 28.82) in 1857 on the 19th.

**November, 1912.**  
Mean temperature for the month 40.5, being 3.1 above average.  
Maximum temperature for the month 59.2 on the 21st.  
Minimum temperature for the month 22.8 on the 28th.

Total precipitation for the month 2.35 inches, being 0.15 below average.  
Total rainfall for the month 2.16 inches, being 0.03 above average.  
Total snowfall for the month 2.2 inches, being 1.8 below average.  
At the present time the meteorological bureau is ignorant of the causes that occasion the changes in the distribution of pressure over the globe, altering so materially the different seasons, causing one to be unusually wet, another correspondingly dry, one winter decidedly cold, another mild, one summer extremely warm, while another is marked for its coolness. All that can be proven is that this great upheaval of the atmospheric pressure does occur and once the causes that govern it are discovered, the general character of the coming season's weather can be approximately forecasted.

**Pressure Low.**  
The marked cold winters in Canada are those which are attended by much storm energy together, with a pronounced movement of energetic highs from the polar regions; the mildest occur when the general drift of the highs is across the continent from the United States Pacific Coasts, the latter occurring when the mean track of lows is situated well to the northward. The explanation of the continued mild weather in Canada at the present time lies in the fact that the pressure has been for some time and still continues to be abnormally low over the extreme northern part of the northern hemisphere. Owing to this fact, the weather in Canada, the British Isles, Germany, Russia, Siberia, and other countries in the same latitude is exceedingly mild. When, however, the low pressure of the north gradually moves down and equalizes and eventually overcomes the high pressure to the south, then and not till then will winter sets in earnest.

The meteorological chart of the northern hemisphere shows that the temperature in the north has been consistently high for this time of the year, during the past week, due to the warm winds passing from the south to the north. It is not yet known just when colder weather may be expected, but the public is warned to be prepared for a continued cold spell in the near future.

### HEARD WOMAN'S CRY

Scream Came From Dr. Knabe's Apartment After Midnight, Say Witnesses.

SHELBYVILLE, Ind., Dec. 4.—The state continued in present testimony today to support its theory of murder and to fasten the crime on William B. Craig, who is on trial here, charged with killing Dr. Hildegarde Knabe. So confident was the defence that nothing would be brought out to connect the accused veterinary with the death of Dr. Knabe that the announcement was made late today that a motion to dismiss the case would be made to the court at the moment the prosecution rested. Indications were that this would occur some time tomorrow.

the alley in the rear of the structure. The man was holding a handkerchief over his nose, the witness said. Description Doesn't Tally. His description of the man did not fit Dr. Craig any better than that given yesterday by a witness, who said he met a man coming out of the arway on the other side of the house about a half hour earlier in the evening. Mr. Carr said the man was about 5 feet 9 inches in height and weighed about 150 pounds. Dr. Craig measures six feet one inch and weighs more than 200 pounds.

Mrs. Mary Elizabeth Vall Powell, who occupied the third floor flat directly above Dr. Knabe, testified that she heard screams between 12 and 1 o'clock in the night. She said the cries seemed to come from a point about a block to the south. The case will be continued tomorrow.

In fact, there's nothing that can take the place of bread at any meal—and there are many things that bread can well take the place of. More of it and less of other things will increase the family's health and decrease living expense.

Of course, you should be careful to get the best bread—bread that is light, fine-grained, thoroughly digestible—bread raised with Fleischmann's Yeast. Ask your baker:

HOSPITAL BYLAWS WILL BE VOTED ON

City Council Yesterday Adopted Recommendation That Grants Be Allowed.

MUST BE AGREEMENT

Directors of Proposed Hospitals to Give Evidence of Well-Laid Plans.

By a good majority the city council adopted yesterday two bylaws to grant \$250,000 to the Riverdale Hospital and \$250,000 to go toward Park Hospital. The bylaws are to be submitted to the property owners on Jan. 1.

There are some 50,000 roomers and boarders in the city who must be taken to a hospital when sick, said Controller McCarthy.

"It is nearly five miles from the Beaches district to the General Hospital," said Ald. Robbins, "a distance too great for emergency cases. The east end has long needed a hospital."

"All our hospitals have been started by private subscription, and after being established were given civic grants," said Ald. Burgess.

"I understand that the Western Hospital intends to establish a branch in the west end in three months," said Ald. McBride.

"I can hear a man at the hotels as cheaply as he is charged at the hospitals," said Ald. Hubbard.

"Submit Them Separately." Controller McCarthy moved in amendment that two bylaws be submitted. The board of control had recommended one bylaw, and that would commit the council to both hospitals.

"If this bylaw goes to the voters it will kill all the money bylaws," Ald. McBride insisted.

"If the large amount of money invested in hospitals in this city had been applied to the erection of a hospital, it would have been more beneficial to the people," Ald. Anderson said.

"There are but two public ambulances for the city and it would take either of them much more than eight minutes to get after an emergency case and return to the General Hospital," Ald. Robbins said.

"Bylaws Adopted." Controller McCarthy's amendment, that two bylaws be submitted, was adopted by a vote of 12 to 5.

Another amendment was put through by Controller McCarthy, that the grant be made under the directors of the hospitals give an agreement relative to the establishment and management of the hospitals.

The two bylaws were given the third reading and adopted.

The Diver was bound upon a pig of carbide at the carbide works at Merriton, to wash away dust, created a gas which ignited and severely burned Michael Lombardi, an Italian laborer, who is in the General and Marine Hospital as a result.

It was decided that a tax of 5 cents per month be placed upon each member of the union in Ontario to create a fund to provide representation at the international convention for every local union, irrespective of strength.

A ball of water thrown upon a pig of carbide at the carbide works at Merriton, to wash away dust, created a gas which ignited and severely burned Michael Lombardi, an Italian laborer, who is in the General and Marine Hospital as a result.

Robinson is a big burly fellow, but Captain Glass succeeded in getting him down into the hold and bolting the hatch over. With the desperation of a madman Robinson smashed the single small window in the hold, climbed thru it like a cat, and climbed onto the deck, shouting: "They are after me!"

Nearly Ran Ashore. Again Captain Glass started after him and succeeded in getting him into the hold, where he could keep a constant eye on him. For a while he attempted to plunge out the wall and scupper, but the tug was too tight for him.

The Diver steamed straight for Sarnia and as she neared the wharf here Robinson screamed again and again for help. Two officers met the tug, and the engineer, believing him to be a phantom, pursued him, dropping the anchor and making a lookup peacefully enough, but keylock back every step. All last night he walked up and down in the cell, crying time and again for help.

A doctor was summoned and some drugs were given to quiet the sufferer, and it will be held here until he is cured.

ARGENTINE CROP LARGELY FAILURE

Reports Encourage Heavy Buying in Chicago Wheat Pit—Corn Firm.

CHICAGO, Dec. 4.—Astonishingly that the Argentine crop is a failure in the south and poor quality in the north put the wheat market today at the mercy of the bulls. Closing figures were steady at 50 to 55 cent advance. Corn finished 1/2 to 3/4 cent up, and oats with a gain of 1/4 to 1/2 cent. In provisions the outcome varied from the same as last night to a slight decline.

Latest Argentine reports concerning wheat estimated a reduction of 20,000,000 bushels from last year. Part of the injury was attributed to frost in the south, but the average is large, and the plant is at the state of bloom. Advances were current also that Russian offerings had become scanty and that the Russian crop had been officially over-estimated. Prospect of a further falling of prices in wheat is not so bright as it was a few days ago, but it is not so bright as it was a few days ago, but it is not so bright as it was a few days ago.

Increased feeding of wheat to live stock west of the Missouri River and the fact that in some sections there are too few cattle to afford pasturage, tended to prevent any important reaction in prices. Active demand at the seaboard helped also to maintain the market.

Corn Receipts Light. Corn piled from because of receipts being light, stock small and a hard winter predicted for the west. The market will move uneasily by news that wagon roads in Illinois were so muddy as to interfere noticeably with delivery to country elevators.

Oats made a decided spurt on account of the meagreness of primary arrivals. There were also bullish reports from Winnipeg, Texas and Argentina.

Provisions generally were steady here being 12,000 more than expected, with the market burdened by 10,000 carried over from yesterday. One of the chief holders of packing house products was said to be unloading.

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of 32 loads of hay, and one load of straw.
