PEACE TREATY TO BE PRESENTED END OF NEXT WEEK

FIFTEEN THOUSAND LIMIT TO MAN GERMAN FLEET

Military Conditions Also Stipulate That No Tanks Be Built and Poison Gas Manufactured.

London, March 11.—The personnel of the German fleet is to be restricted to 15,000, the supreme council has decided, according to news despatched from Paris. The military conditions to be imposed on Germany in their final agreement here that the peace be built and no more poison gas manufactured and that all German war material must be handed over and destroyed. It is added that allied commissions will supervise the carrying out of these conditions.

Premier Lloyd George and Foreign Secretary Balfour have sent word to their colleagues here that the peace conference has nearly completed its work. The Evening News says it understands. The draft of the peace treaty already has been finished and will be signed before the end of March.

When the Germans are summoned to Paris, the News adds, the treaty will be read to them and they will be invited to sign it. There will be no discussion with a view to alterations of the principal articles of the treaty. If it is thought necessary questions involving the adjustment of details will be referred to a special commission.

WILL NOT ABANDON CONSERVATIVE PARTY, SAYS "BOB" ROGERS

Ward Associations Think This Forecasts a Shaking Up of Old Bones.

Hon. Robert Rogers told the Central and South Toronto Conservatives in Victoria Hall last night that he intends to die in the Conservative party faith. They took it to mean that he is coming back into party politics in a restored Conservative party, and cheered the announcement loudly. Mr. Rogers gave his reasons under three heads: (1) The Union government at Ottawa is a war government, and its time is about up; (2) the present unrest all over the Dominion demands that the Conservative party should take command, because it is the only party that knows how to command in a crisis; (3) the representatives of Union government did not vote in London, for a resolution against enemy aliens proposed by Premier Massey of New Zealand, seconded by Premier Hughes of Australia, and supported by the governments of the other portions of the British Empire.

Hon. Mr. Rogers found out about the resolution only recently, in The Canadian Law Times, published in Toronto, which paper printed a contribution from W. E. Wilkinson, embodying the resolution. Here is the resolution:

"This conference is of opinion that legislation should be passed through the empire restricting for a period after the war, so far as in the circumstances of each country may be possible, the naturalization of persons of present enemy countries, and also the acquisition by them of any form of political right, or land or mineral privileges."

Mr. Rogers was expected to say something important, and there was a large gathering of Conservative leaders to hear the great message, not even the name of Mr. Rogers, a free pipe of tobacco and a speech by Hon. G. Howard Ferguson thrown in as a side attraction, and to fill the hall with a ran kind file audience.

Eugene E. Wallace was chairman and called to the platform the following: Mayor Church, Boyd Magee, Thomas Hook, President Lee of the Conservative Association, Rev. Canon Walsh, J. E. L. Starr, David Spence, Hon. Charles Calder, M.L.A., John McFarland, M.L.A., Fred Hamby and Messrs. Fowler and Devereux.

Thomas Hook opened the speaking and gave a hint of what was coming. Charles Calder followed and offered a fond tribute to the great.

EX-KAISER TIRED OF DUTCH CASTLE

Wants to Go Riviera or Egypt and Has Asked for Permission From Allies.

Geneva, March 11.—It is reported from Basle, that the former German Emperor has complained against his residence in Holland. It is asserted that he had declared that the climate is disagreeable, and that he desires to go to the Riviera, or to Egypt, on account of his health, and that he has requested Matthias Erzberger, head of the German armistice commission, to make representations to the allies to this effect.

CANADA'S GROWING STATUS AS NATION TOLD BY ROWELL

Also Informs Commons Bolshevism is Greatest Menace to World's Peace.

Ottawa, March 11.—An unusual circumstance brought the adjournment of the commons at 10.15 o'clock. There were only fifteen members in the house and Mr. Jos. Demers drew the attention of the deputy speaker, who was in the chair, to the fact that there was not a quorum. The latter then declared the house adjourned. This is only the second occasion in the history of the Canadian parliament upon which such an incident has occurred. The first was during the debate on the military service bill in 1917. On evening there was no quorum and Speaker Rhodes adjourned the house. By the strict rules of parliament which had prevailed up to that time this would have effectively concluded the debate on the military service bill and taken it entirely off the order paper for the session, but Mr. Rhodes in view of the public interest, adopted a new course. Next day he declared in order a motion by Sir Robert Borden to revive the original motion and placed it again on the order paper. This, of course, had to be passed unanimously by the house, which was done.

The procedure adopted by Mr. Rhodes upon that occasion will be followed by him tomorrow. It is now Canadian parliamentary law. The motion to revive the motion for an address in reply to the speech from the throne, does not mean that the whole debate will be reopened, and that previous speakers will be able to speak again. It simply means that, with a little formality necessary, the debate will proceed.

A speech by a minister of the crown, in which no reference was made to the contents of the speech from the throne, was a somewhat unusual feature of the debate. Today Hon. W. Rowell, president of the privy council, who made the speech, purposely refrained from considering the government's seasonal program, on the score that it had been fully dealt with before. He devoted his whole effort to a consideration of the matter of Canada's growing status as a nation, and the position of the Dominion at the peace conference.

The president of the privy council stated in support of his contention that the score that it had been fully dealt with before, that the average status as a result of the war, that the prime minister of Great Britain and the prime ministers of the over-

EXTENSIVE PLOT ALLEGED AGAINST CZECHO-SLOVAKIA

Supreme Council Considers Important Documents Found on Courier at Prague—Indications Are That Poland Will Secure Outlet to the Sea.

Paris, March 11.—The council of the great powers heard today a statement presented by Dr. Benes of the Czecho-Slovak delegation, on the widespread conspiracy alleged to exist against the new state on three sides—Germany, Austro-Germany and Hungary. According to documents found on a German courier arrested at Prague, an extensive plot is being fomented to excite a revolution and furnish arms and ammunition to those seeking to overturn the new government.

The council regards the representations as serious, and is taking measures to investigate and give adequate security.

The council today also considered the serious internal conditions in Poland, which subject will be continued tomorrow when Poland's frontier in Germany will probably be determined. The indications are that Poland will secure a sea outlet northward to the Baltic, and the tendency is to include Danzig in the Polish corridor across Prussia.

The official statement issued after the meeting today said:

"The supreme council considered communications from the armistice commission regarding the situation in Poland. At the request of the Czecho-Slovak republic concerning German-Austrian and Hungarian intrigues against the new state, the council considered the reports and decided to investigate them as soon as documentary evidence is received.

"The council then discussed the conditions under which the powers with special interests and the states in process of formation should participate in the discussions with the great powers respecting their frontiers."

Heard Debates on International Law Legislation Today

Paris, March 11.—(A.P.)—The first round of the peace treaty negotiations began today to take form, as a result of the rapid disposal of the main questions before the council of the great powers. The preliminary draft will be well along within the present week and with the arrival of President Wilson final revision will proceed, so as to have the document ready for presentation by the end of next week, and thus conform to Marshal Foch's limit of March 20, the British apparently are inclined to doubt the possibility of carrying out the program on time.

The peace treaty promises to be a very long document, chiefly owing to the detailed provisions concerning the German military system and methods for its control by the allies. It will embody, however, only five or six main divisions, namely:

First, military, naval and aerial terms; second, reparations for the war damages; third, German boundaries; fourth, economic and financial provisions; and, probably, fifth, responsibilities for the war.

In Advanced Stage.

All these main subjects are in an advanced stage, and have been either adopted or agreed on in principle, with the exception of some reserved points on which President Wilson and the premiers are to take final action.

The military terms adopted yesterday were in the hands of the drafting experts today, to be put in the form of articles of the treaty. The naval and aerial terms are agreed to except as to reservations regarding the disposal of the large German ships, and the dismantling of Heligoland and the Kiel Canal.

Germany's eastern, western and northern boundaries are now before the council in the committee's report. The eastern and northern boundaries are to be determined Thursday. The western boundary will be settled Friday.

The consideration of reparations is set for Saturday, this question may go beyond that time. The council has the principal subjects, except for responsibility for the war.

It is the desire of the French to have this made an integral part of the treaty, so as to settle the question, and this may be conceded; the it is an open question.

"Trillions" Used First Time.

The consideration of reparations has introduced the word "trillion" in reckoning money, probably for the first time in any single financial operation, for a billion and a half, or a trillion, is a much larger sum than a billion, no sum has yet been reached touching a trillion.

In estimating the war losses of all the powers, the first figures of one trillion francs, and those of another power were slightly above a half-trillion francs, namely, six hundred billion francs.

These first estimates have gradually been reduced until the present aggregate covering the losses of all countries is about one-fifth of the first highest estimate, and in final form probably will be in the neighborhood of thirty-five or forty billion dollars.

The final figures has not yet been written into the committee report, but has been left in blank and expressed as "X" so that an insert may be made when there is an understanding as to the formal decision on the amount to be exacted.

The covenant of the league of nations does not figure as a part of the peace treaty, but will be treated separately, altho the treaty makes frequent reference to the duties which are to be entrusted to the league.

THO OUTNUMBERED FOUGHT BRAVELY

Allied Forces on the Vaga Repulse Heavy Attacks By Reds in Snow.

Archangel, March 11.—Operating ten guns, the Bolshevik forces yesterday shelled the village of Vitevsk on the Vaga almost completely destroying it. Repeated heavy infantry attacks followed, but these were repulsed with heavy losses by the British, American and Russians. The allies were greatly outnumbered but fought bravely in the snow.

The allied troops this morning still occupied the ruins of Vitevsk and were ready for new attacks.

HUMAN FLESH IS SOLD TO STARVING IN MOSCOW

Both That City and Petrograd Are Without Fuel—Deaths in Later Estimated at Four Thousand Daily—Embassies Looted—Soldiers and Civilians Begging for Bread.

Washington, March 11.—Chaotic conditions in Russia, particularly in Petrograd and Moscow, were described in reports received today by the state department. The depth to which the country has been plunged by Bolshevism was said by the reports to be indicated in a report from Moscow saying that human flesh had been sold to the famine-stricken population by Chinese soldiers, who later were arrested.

Both Moscow and Petrograd were reported without fuel of any kind. The supplies of coal, kerosene and gasoline have been exhausted, and since wood was nationalized in Petrograd it has not been available for private consumption. Because of lack of fuel the factories, the sewage and water systems of Petrograd might cease operation at any time.

The streets of Petrograd were described as deserted, with the exception of soldiers and civilians begging for bread. The deaths in the city, chiefly from typhoid and smallpox, were estimated at 4000 daily. The Swiss, Danish, Swedish, Dutch and British embassies were said to have been looted.

Conditions in Moscow were represented as better than in Petrograd, altho all industries in the former city except a few military plants have ceased to operate. The only food available is brought to Moscow by peasants, who sell it at excessive prices, sugar being twenty rubles a pound, which at the old value of the ruble would be ten dollars; dog meat, seven, and horse flesh twenty-one rubles a pound.

Many of the stores in Moscow have been closed and those remaining open are permitted to sell merchandise and to do so only on the card system. Celebrations of mass in the churches has for the most part ceased. Friction and electric light services are being maintained, but electricity being available for lighting purposes only two hours each day.

TIME'S UP AT OTTAWA

Union Government Served Its Usefulness and Must Give Way to Conservatives.

Hon. Robert Rogers told the Central and South Toronto Conservatives in Victoria Hall last night that he intends to die in the Conservative party faith. CHARGE ROBBERY OF THIRTY HOMES

Police Apprehend Men Said to Be Responsible for Wholesale Looting.

The police claim to have apprehended two men last night, who have been implicated in no less than 30 cases of house and shopbreaking in West Toronto, during the past three months, in the arrest of Harry Vanderheart, 17 Baybold avenue and Clarence Dickson, 165 Vito street. Both men are charged with housebreaking. They were arrested while sleeping in bed by Acting Detective Frank Hazelwood. They will appear in police court this morning and a remand for one week will be asked for by Hazelwood, in order to give him time to recover further stolen goods. Hazelwood has already recovered over \$500 worth of articles, alleged to have been stolen by the prisoners. In a statement to the police, both men are said to have admitted entering 13 places in the west end of the city.

Residents and merchants in West Toronto and the vicinity of High Park, have been complaining recently of their places having been entered, and Hazelwood has been chasing these men, day and night for two weeks.

At Wholesale Rate.

According to the police, liquor, jewelry, clothing, and cutlery have been stolen at a wholesale rate. In a house on Ryding avenue, clothing, dry-goods and cutlery were recovered, valued at several hundred dollars. The accused are said to have admitted breaking into four houses at Weston, a valuable diamond ring stolen from the home of Dr. Eason at Weston, was recovered by the police on the person of Vanderheart.

The method of entering the places, adopted by Vanderheart and Dickson, was the use of skeleton keys and where they were found to be useless, the men would enter premises by forcing the lock of rear windows with the aid of pieces of iron bars.

Gold brooches, watches and gent's furnishings were found by the detectives in the homes of both men. A quantity of carpenter's tools were also recovered.

ROUGH OUTLINES OF PEACE TREATY ARE TAKING FORM

Preliminary Draft Will Be Well Advanced During the Present Week.

Paris, March 11.—(A.P.)—The first round of the peace treaty negotiations began today to take form, as a result of the rapid disposal of the main questions before the council of the great powers. FIVE MAIN DIVISIONS

Expected Document Will Be Ready for Presentation by End of Next Week.

MYSTERY SHROUDS FATE OF BISHOP

Greek Prelate Carried Off by Bulgarians, and Thought to Be Dead of Tortures.

Balonica, March 11.—Greek general headquarters has received a long report from M. Diamantopoulos, a nephew of the Greek bishop of Pravon, northwest of Kavala, concerning the disappearance of the bishop at the time of the Bulgarian invasion of eastern Macedonia.

The bishop, his nephew and 23 prominent residents of the town were arrested on Feb. 11, 1917, on charges of having pro-ally sentiments by the Bulgarian commander of the town, Bulgaroff, acting on instructions from General Bourkoff, commander of the tenth Bulgarian division. The bishop and his nephew, according to the report, were placed in a jail near Drama until July 5. On the night of the 7th, Capt. Semerdoff entered the prison, abused the bishop and took him, half naked to Drama. Since that time, Diamantopoulos says, nothing has been heard of the bishop. According to several reports received by his nephew the bishop succumbed to Bulgarian tortures.

The Greek government has instituted charges against the Bulgarian officers named in the report.

TORONTO RAILWAY DIRECTORS MUM

No Action Taken on Dividend, Says Sir William Mackenzie.

Statements made last night by Sir William Mackenzie, president of the Toronto Railway, and other directors of the company failed to make it clear whether or not the board had definitely decided to pass the dividend on the common stock for the current quarter.

Sir William, asked if the directors had come to a decision as to dividends, said: "Nothing was done with regard to the dividend. Other matters were before the directors and the dividend question was not touched upon at all."

Sir Henry Pellatt said that he had left before the meeting concluded and did not know if any dividend policy had been agreed upon. He suggested that Sir William Mackenzie or General Manager E. J. Fleming might be able to give further information.

Hon. Frederic Nicholls, another director, said: "I am not interested in the matter. I was not at the meeting and have no knowledge whatever as to what was done."

A statement of Leonard Smith, secretary to Manager Fleming, was to the effect that no action was taken, but that an announcement might be made later.

The fact that action has been again deferred, even tho no formal announcement is made of the passing of the dividend, will be construed in the local "street" as indicating that dividend payments have been suspended. The director met on Monday of last week and their failure to declare a dividend at that time was viewed by the Financial Post as ominous.

The disbursement was cut from eight per cent per annum to four per cent a year ago, and it is believed that the enforcement of the Ontario railway board's demands for the putting of more cars into service will make maintenance of dividends even at the reduced rate out of the question.

LEAGUE CONFERENCE OPENS IN LONDON

Complete Unanimity at First Depreciated as Likely to Endanger Success.

London, March 11.—The conference of the league of nations union opened at Westminster today, and elected Lord Shaw as president. The delegates included Oscar S. Strauss, chairman of the committee sent to the peace conference by the American League to Enforce Peace; Leon Bourgeois, president of the French Society of a League of Nations; Dr. Fridtjof Nansen, Arctic explorer, and one of the organizers of the Norse Society for a League of Nations, and Rhipheros Venizelos, prime minister of Greece.

M. Bourgeois and M. Venizelos, in their speeches both deprecated the reporting of complete unanimity at first as likely to endanger the success of the league of nations.

A resolution favoring free exercise of religion, submitted by the delegates from the American League to Enforce Peace, was adopted by the conference.

FRANCE HAS ABANDONED PLAN FOR ALLIES TO SHARE DEBT

Paris, March 11.—France has abandoned, for the present, at least, any hope of having her great war debt shared by the allies. It is authoritatively asserted by one of the delegates attending the conference that what had been an embarrassing possibility has now been definitely eliminated from the deliberations, altho it is possible that France might, at some future time, attempt to secure assistance.

The project has never been formally presented at the conference, but conversations held at intervals since the conference began have served as a medium for the presentation of the French point of view.

The British and American delegations have been quite frank in their disapproval and have openly said that the people of their countries would be slow to endorse such a plan.

FARM LAND VALUE ON THE INCREASE

New Canadian Statistics Give Comparisons With Last Year.

Ottawa, March 11.—The Dominion bureau of statistics publishes today its annual report on average farm values for the year 1918. The average value of farm land for the Dominion, including both improved and unimproved land, together with dwelling houses, barns, stables and other farm buildings, is \$46 per acre, as compared with \$44 in 1917, \$41 in 1916, \$40 in 1915 and \$38 in 1914. By province, the value is highest in British Columbia, viz. \$139, this being exactly the same figure as in 1917. The higher value per acre in this province is due to orcharding and fruit-growing. Quebec and Ontario have the same average per acre, viz. \$47.

In 1917 the values were Quebec, \$53; Ontario, \$55.

The average wages paid for farm help in 1918 show a substantial increase as compared with the previous year, and are again the highest on record. For the whole of Canada, the average wages per month of farm help during the summer, inclusive of board, are for males, \$70, as compared with \$64 in 1917, and for females, \$48, as compared with \$44 in 1917. For the complete year, including board, the wages averaged for males, \$617, and for females, \$416, as compared with \$611 and \$384, respectively, in 1917.

Cattle Prices Lower.

For the Dominion as a whole, horses under one year average in price \$59, as against \$57 in 1917. Milch cows one year to under three years the average is \$112, against \$116, and for horses three years and over the value is \$102, against \$107. Sheep average \$27 against \$27. Sheep average \$18, against \$15, and swine, per 100 pounds live weight, are \$16, against \$17.

RHODES EXAMINATIONS ARE TO BE RESUMED

Election of Scholars Postponed on Account of War Will Take Place Soon.

The election of Rhodes scholars, postponed on account of the war, will be resumed through Canada during the present year. As the Oxford colleges cannot receive more than a given number of Rhodes scholars at one time, it has been necessary to make special arrangements for filling the postponed scholarships.

Toronto University nominates the scholar for 1917; Queen's University the scholar for 1918. The date of election, which must not be later than October 1, 1919, will be fixed by the committees of selection in these universities. The scholars elected will be expected to come into residence at Oxford not later than January, 1920.

The scholarships for 1919, and following years, will be open to candidates, otherwise eligible, from any university in the province.

Notice of date for the election of the scholar for 1919 will be given before the end of the present year. The scholar elected for 1919 will enter Oxford in October, 1920.

The scholars for 1920 and 1921 will be elected in October 1920, after which the elections will resume their normal course.

The conditions of eligibility remain as in past years, except that extension of the age limit may be granted to candidates for 1917, 1918, and 1919, who have been engaged in war service.

DISASTER FIRE IN SASKATCHEWAN TOWN

Saskatoon, Sask., March 11.—Delicious, a small town, about 30 miles from here, is burning. The Saskatchewan fire brigade were appealed to and left for the scene.

At 9 o'clock it was reported that the east side of the town was in flames and that the hotel and railway station were in danger. At 10.30 the fire was reported to be out.

SMALL GARMENTS FOR MILD WEATHER

This is the time when you need a small fur scarf or neckpiece to complete your spring costume. It is also a wise time to purchase, because prices are going up with leaps and bounds. The Dineen Co. are now showing some very handsome styles in white, black, tan and fox skins at very moderate prices. The disbursement was cut from eight per cent per annum to four per cent a year ago, and it is believed that the enforcement of the Ontario railway board's demands for the putting of more cars into service will make maintenance of dividends even at the reduced rate out of the question.

Quebec and Ontario have the same average per acre, viz. \$47.

In 1917 the values were Quebec, \$53; Ontario, \$55.

The average wages paid for farm help in 1918 show a substantial increase as compared with the previous year, and are again the highest on record. For the whole of Canada, the average wages per month of farm help during the summer, inclusive of board, are for males, \$70, as compared with \$64 in 1917, and for females, \$48, as compared with \$44 in 1917. For the complete year, including board, the wages averaged for males, \$617, and for females, \$416, as compared with \$611 and \$384, respectively, in 1917.

Cattle Prices Lower.

For the Dominion as a whole, horses under one year average in price \$59, as against \$57 in 1917. Milch cows one year to under three years the average is \$112, against \$116, and for horses three years and over the value is \$102, against \$107. Sheep average \$27 against \$27. Sheep average \$18, against \$15, and swine, per 100 pounds live weight, are \$16, against \$17.

RHODES EXAMINATIONS ARE TO BE RESUMED

Election of Scholars Postponed on Account of War Will Take Place Soon.

The election of Rhodes scholars, postponed on account of the war, will be resumed through Canada during the present year. As the Oxford colleges cannot receive more than a given number of Rhodes scholars at one time, it has been necessary to make special arrangements for filling the postponed scholarships.

Toronto University nominates the scholar for 1917; Queen's University the scholar for 1918. The date of election, which must not be later than October 1, 1919, will be fixed by the committees of selection in these universities. The scholars elected will be expected to come into residence at Oxford not later than January, 1920.

The scholarships for 1919, and following years, will be open to candidates, otherwise eligible, from any university in the province.

Notice of date for the election of the scholar for 1919 will be given before the end of the present year. The scholar elected for 1919 will enter Oxford in October, 1920.

The scholars for 1920 and 1921 will be elected in October 1920, after which the elections will resume their normal course.

The conditions of eligibility remain as in past years, except that extension of the age limit may be granted to candidates for 1917, 1918, and 1919, who have been engaged in war service.

HYDRO RADIAL UNION FAVORS HAMILTON BYLAW

Sir Adam Beck Tells Municipal Representatives Building Radial Means Cheaper Power—Disapproves Government Railway Policy.

Welland, Ont., March 11.—Representatives from practically all the municipalities of Welland, Lincoln and Hamilton attended the annual meeting of the District of Hydro Radial Union held here this afternoon, when the feature was a vigorous address by Sir Adam Beck, relating chiefly to the vote to be taken in Hamilton on Saturday. In this district the radial bylaws were carried with scarcely any adverse vote, and Sir Adam opened his address by declaring he was carrying coal to Newcastle in advocating radials in the community where long controversial periods had been passed. In Hamilton, it was now being discovered, that those who suffered from blindness years ago, were still blind. But the disease was not spreading, for the anti-Hydro propaganda was still supported by largely the same arguments made by the same interests and headed by the same champions as when the project was first launched. The Canadian people who had listened to the words of wisdom from the magnates were now privileged to see the nation made into a railway hospital, where from day to day the population of crippled railway cripples were being received. Cripples they were and incurable they had been, and the people would have to do a lot of patching with artificial limbs and false teeth before the incurables would be the slightest bit better again. Fabulous had been the debt incurred by the population in its effort to satisfy the ambitions of the railway promoters. An enormous mileage of railway had been built in proportion to the population, probably the greatest in the world. Were Canadians not an optimistic people it would daunt them.

Changes Ahead.
With the conclusion of peace, he hoped a new world would come into being, with a new manhood and a new public body in control of affairs. That the old order of things and the old corporation influence would die with the other old orders that found their death in the war, and that the new order would be instituted in the control of natural resources, in a new idea of political parties, were after their merits. That would enormously improve the conditions of the country.

Sir Adam referred to the movement in the old land for the public ownership of power development, and he thought all Canadians should be gratified that what was wanted in this country was an accomplished fact in this Canada. In an address in that regard he said that the Hydro Electric project was the largest operating, generating, transmission and distribution system publicly owned in the world. But it was a matter of regret that a success had been made of the enterprise. In war times, when the cost of materials went up, when wages were so large, and when some cases doubled, the price of power was not raised. In the Niagara district the Hydro was supplying from forty-six to forty-eight per cent horsepower when the war opened. The average in 1918 was from 148,000 to 149,000 horsepower. The commission was able to meet that war over and immense loads were being released, it might reasonably be expected that the total load would go back to the volume of pre-war days. But it was not so, the surplus of available power today was only 3,000 horsepower. That was the country's greatest calamity, her optimism, for since the power was being consumed in almost as much volume as under the great industrial pressure of the war, it was proof that the wheels of industry were still turning, that goods in great quantities were being produced, and that men were being employed, and that could look at the fact and fall to have faith that Canada was carrying on and would continue to carry on.

Helped Win War.
Had Hydro power not been available, engines and boilers must have been made and operated to run the factories at a cost no one could compute. Last year the commission began the construction of a pipe line at Niagara Falls to generate an additional 50,000 horsepower. The Hydro was only a municipal enterprise, but there was no suggestion of a bonus or an indemnity, yet the commission was supplying power to the munition makers at cost. The United States government was making grants of 40 per cent of the cost of power extensions. They refused to meet the commission on any terms, and did not give an answer to the correspondence. Yet we were undertaking a temporary development to meet the situation. We were building, we were to be scrapped. A large part of the materials had to be purchased out of the country because they could not be had here.

Employes Strike Today On New Jersey Lines
Newark, N.J., March 11.—Police in 14 cities and villages in nine counties of New Jersey were making preparations today to deal with any disorder which may follow the strike of employes on all traction lines of the Public Service Corporation. The effect at 4 o'clock tomorrow morning. The strike has been ordered by the Amalgamated Association of Street and Electric Railway employes to enforce recognition of the union and a demand for a nine-hour day with pay for ten hours.

Against Railway Policy.
Sir Adam said that the government was not loyal, but I will be silent for longer. I supported United government. In London I did what I could to help a Liberal Unionist over a Laurier Liberal, and I need to do it again. I elected the soldier Sutherland over the corporation farmer, New (Laughter). CITY NEEDS FIVE THOUSAND HOMES

Shortage of Dwellings and Papé Avenue Car Line Two Live East End Topics.

Under the auspices of the Danforth Ratepayers' Association, an open meeting was held last night in Frankland School, Logan Avenue, when the housing question was the main topic of discussion. T. W. Brown, president, occupied the chair, and the following resolutions were adopted:

"That the works commissioner and works committee be requested to investigate the sanitary conditions of Kitchener School, Papé Avenue, and to install a proper sewerage system."

"Also, that the city council be requested to furnish information regarding the rate for work of construction will be resumed."

He also said that, whereas the city is about to effect important improvements in the housing situation, the people will cause an increased value in the land affected by the improvements. This meeting affirms the principle that, where any public improvement causes an increase in the value of the land, the particular value should be taken by taxation to pay for the improvement."

House Shortage.
Regarding the housing situation in the city, the speaker said that it is the duty of the council to move as quickly as possible. "We need 5,000 houses in Toronto at the present time, and within the next twenty years the city will reach the million-mark, owing to the rapid growth of the population," said Mr. Brown, who added that the matter should be left in the hands of any private corporation, but that the city should invest its own money and secure its own building supplies.

"The people of the house and county should be properly housed," declared J. A. Martin, ward 5 ratepayer, who pointed out that it is an outrage on the part of the municipal authorities to allow women and children to be housed in tenement houses. He said that the city should invest its own money and secure its own building supplies.

MEXICO DEMANDS ROYAL TAXES ON OIL PRODUCTION

President Carranza Breaks Agreement to Wait for Action on New Law.

Washington, March 11.—Altho President Carranza agreed with the United States authorities to take no further action affecting foreign oil interests until the Mexican Congress could act on the new oil law introduced some weeks ago, a decree has been issued at Mexico City directing that the "royalty taxes" on oil produced in January and February be paid immediately.

Officials here said this tax might result in the reopening of the foreign question of the rights of the foreign companies, which have been the subject of at least two notes from the American government, and a vigorous protest from Great Britain, France and the Netherlands. Even now one of the American notes, under date of last December 28, remains unanswered.

When President Carranza issued his first decree declaring all oil lands state property, and requiring foreign countries to pay "royalty taxes," the American government protested energetically. The companies refused to pay the taxes, and the government took action in the Mexican courts looking for a permanent relief. In the meantime protests have been made by the other three governments.

President Carranza finally agreed to the enforcement of his decree in abeyance until the Mexican Congress on a new law which he proposed, and which was understood to have the effect of waiving the American government's protest.

President Carranza is seeking to force payment of the taxes.

In view of officials and owners of oil properties in Mexico, payment of the "royalty taxes" would amount to a loss in favor of the government of the royalties on the oil produced in the Mexican courts, for by this action the companies would admit government ownership of the oil.

SCORE'S GREAT ESTATE SALE
This is the eighth day of the Scores' great estate sale, which is the largest and most unlimited stock sale in the city. It is being held at the Scores' residence, 100 West King Street. The sale is open to the public, and the scores of people who are attending the sale are being charged the citizens 14 cents a quart for milk, when a municipality like Toronto can have their milk delivered at 10 cents a quart.

HAMILTON NEWS
Hamilton, March 11.—As a part of his whirlwind campaign for Hydro radials, Sir Adam Beck will be in Hamilton today—at Welland in the afternoon, and in the evening one at Winona and one at Control Halford announces that he will move in council for the appointment of a fair-price commission. Under the commission, he stated, would include the question of establishing a municipal milk supply. An attempt is being made by the Property Owners' Association to prove that German goods were ordered by the Hydro Commission. This story has been officially denied.

RAILWAY WAR BOARD EXPLORES ACTIVITIES
Is Busy Moving Troops—Makes Defence of Order Refusing Credit.

Montreal, March 11.—In connection with the articles recently appearing in the press calling for the abolition of the Canadian railway war board, the general secretary of the war board makes the following statement: "This board's license to exist was written in terms of national necessity. So long as that necessity continues this board will continue to exist in Canada. Just at present we are moving troops. That will be finished, say, next July. There may be other work to be done then, or there may not. That question, and only that question, can affect the term of this board's usefulness."

"Twice we have had to trespass on the rights of the shipper. Once when we asked him to agree to the earlier closing of freight sheds in order that freight shed employes should be kept from striking. But now, by asking all shippers to give a bond covering all freight bills of more than forty-eight hours' standing, we seem to have exhausted our welcome. There is only one way we can establish the no-credit rule, and that is by insisting on a bond, as the American government insists upon it. We can make no exception. All shippers and all roads under this board's jurisdiction are subject to this provision."

PARIS CONFERENCE

Aim of Peace Conference Clear and Simple, Says Andre Tardieu.

Paris, March 11.—Captain Andre Tardieu, the French high commissioner for Franco-American war matters, speaking at a banquet tonight given by the Inter-Allied Press Club in honor of the American peace commissioners, said:

"Of the great work in which we are all laboring together, half is on the way and its success is certain. Altho the negotiations are not finished, we feel today that peace has been won. We feel it for many reasons, but one of the reasons stands out the others, this reason being that it is already certain that our common ideal will find its expression in the material settlement which we have to prepare, and this is of capital importance."

"What I said on Jan. 11 last, on the eve of the opening of the conference, I repeat tonight. The treaty of peace will be a treaty of peace, and it will be one question, and I say that the league of nations can be founded only on the treaty of peace, and, on the other hand, the victory of peace which the league will be founded will give their lasting value to the clauses of the treaty."

"It must be pointed out with justice that the common will of the governments wanted it, and to impose that will they had to struggle almost everywhere against the forces of incomprehensions, against political intrigues and often against the imprudence of the press. The success which the governments have achieved in remaining faithful to themselves has not been an easy one, and the fact that they have achieved their ideals and facts, these have produced a service which will be recognized later."

"All private ownership of land is abolished immediately without any indemnification."—Lenine's decree of Oct. 26, 1917 (Russian Calendar).

"Control is instituted over all industrial, commercial and agricultural undertakings. . . . Control is exercised by the workers of a given enterprise through the medium of elected organs" (committees).—Lenine's decree of same date as foregoing.

BOLSHEVISM— OR FRUITFUL ORDER?

Bolshevism wars against democracy. Supreme power is not with the people, but with groups, seizing and holding it by force.

Bolshevism wars against personal freedom. A man may not quit his job — is chained to his task.

Bolshevism wars against all prosperity — against an economic system developed and adjusted by 5,000 years of human experiment which yearly produces more and more for the masses.

Bolshevism means tyranny. A dictator is always a dictator.

It revives slavery. The worker, his pittance fixed, must obey orders very rigidly. His boss has authority to knout and even to kill. Read Lenine's "programme" address and study his rigorous regimentation plan.

It means less goods to divide, and thus less to the average man. With the incentive to good management and skilful work gone, the hunger of barbarism comes back.

"False charges!" exclaims the Bolshevik. **Not false, but alas, true.**

Read the story of Russia, and learn from her. **Behold 20,000,000 people on famine's edge** — not dead or scattered bourgeoisie, but proletarians.

Fertile acres are untilled. The peasant will not plant beyond his family needs when his surplus grain is taken for paper rubles which will buy nothing.

Factories are closed. The committees have bales of paper money from Moscow, but a printing press produces no food. The city worker flees to peasant relatives or friends to avoid starvation. Except as clogged with refugees, Russian cities and towns rapidly depopulate.

Consider this. **No immigration into Russia** except by agitators who sit near the treasury, while millions are eager to get out. What sane man would go there to improve his material condition? No real worker would share the "blessings" of the new dispensation.

Twenty months of Bolshevism leave no doubt. The Sovieteers, theorists and impracticables planned no such calamity as has come. The fault is in their system. A delicate watch has been hammered on an anvil and of course it has stopped.

The butchered of Russia, slaughtered by desperate men who cling to power, are out of misery, but the Russian masses are still engulfed. The cunning, pretending to love the new order, get accepted as leaders and pick the few bits of flesh left on Russia's bones.

The average man is mad with want

If such are the results in semi-primitive Russia, where 80 per cent of the population, in contact with the soil, can somehow live even though trade and industry stop, what would happen should Bolshevism gain a mastery over more interdependent peoples?

Bolshevism as a producer is a demonstrated failure.
Goods must be created before they can be distributed.

"SHOOTING SNIPE" WITH ARTILLERY

Brantford Police Inquiry Brings Forth Hot Comment by Judge.

Brantford, March 11.—Just like shooting snipe with artillery," remarked his Honor Judge Hardy at a certain stage of the enquiry into charges made by ex-constables of the police force, the enquiry having been reopened today. The remark of the chairman referred to the charges preferred by Cobden and Tyrrell in reference to some trivial little matters, which apparently required a fully equipped court with legal talent galore to settle. The judge suggested that the counsel get together, both down the charges to those involving some- thing worth while investigating, and throw out all the small stuff.

The charges involved a reprimand by Sergt. Donnelly to ex-Constable Cobden for remaining in a restaurant too long while he should have been on patrol. The police charge taken up was that against Sergt. Wallace for spanking two Stover boys who had stolen papers and had sold them.

Ex-Constables Cobden and Tyrrell charged that Sergt. Wallace was drunk on July 2 last, while Wallace brought back a dozen witnesses to prove that he was sober. The enquiry will continue on Thursday.

BETTER ORGANIZATION, AIMS OF THE VETERANS

Provincial Executive Now Finds That It Will Be Possible to Have District Bodies.

The provincial executive of the Great War Veterans met in the Kent building, with a full attendance, yesterday afternoon, and discussed over 100 resolutions on various subjects, many being connected with annuities, pensions, etc. These resolutions will be taken up at the annual convention to be held in Windsor, during the summer.

Discussion on better organization of the association took up much time. Up to the present time, owing to the small membership of the various branches, and the great distances between the centres where the branches were situated, it was impossible to have district organizations. It has been recognized now, however, that there are sufficient branches through the province to organize the association into districts.

Every branch will have representation at the district organization, and every district organization at the provincial. The system will be interlocking, and at the same time the representation will be direct. Closer co-operation will thus be secured.

MELBOURNE FLOODED BY TORRENTIAL RAINS

Melbourne, Australia, March 11.—Large sections of the city have been flooded by the heaviest rains in fifty years. Hundreds of houses were damaged, and streets were torn up by the fury of the downpour.

A fire, starting in a glass works, was extinguished by firemen, who wading waist deep, pumped the rivers of water in the streets upon the burning structure.

Heavy rains have been reported in Tasmania, Victoria, New South Wales, and other parts of the commonwealth, breaking the recent drought.

DOCTOR BREAKS LEG

Windsor, March 11.—While engaged in a game of indoor baseball at the collegiate institute tonight, Dr. L. G. McCabe, a well-known Windsor physician, slipped on the waxed floor and fell, breaking his right leg. He was taken to the Hotel Dieu, of which institution he is one of the staff.

WILL NOT ABANDON CONSERVATIVE BODY

(Continued From Page 1.)

ness of Sir Robert Borden, which evoked no echo. Hon. Robert Rogers spoke in solemn tones from beginning to end. He praised Hon. Howard Ferguson as an administrator, whose fame has gone forth through the Dominion and mentioned the late Sir James Whitney's high character and rugged honesty. He dwelt at length on the history of the war and the high part Ontario took in it, which he attributed to the United Empire Loyalist influence upon the high cost of living with ever increasing solemnity in his tones, according to the speaker by unbridled exploitation by certain people of the necessities of life. He told the old story of the Indian who, in a good berry season, charged a double price for his berries because of "one damn big war somewhere," and hinted that the food exploiters had only to wait for their opportunity, as was said. Then came the message, the chief parts of which are as follows:

Difficulties to Face. "I am one of those who believe that while we have many difficulties to face and great undertakings to accomplish, the work can be fittingly and well done by proper regulation of our fiscal policy, which is our inherent right to meet all the requirements of our own country. There is no getting away from the fact that this war every other nation will be trying how much business it can get from the markets of the world. There is no use in standing aloof. Upon this point, for our great military struggle will be followed by great commercial competition between all the nations. The question, then, I ask you tonight is, what position would Canada find herself in were she to enter that competition without the same weapon which those with whom she is contending are using? That is the true condition we have to face.

Mr. Rogers then proceeded to explain how Canadians could all agree upon their fiscal policy. The Liberal convention recently held in Ontario had, he said, raised the old vague cry of tariff for revenue. The Liberal party had no message for Canadians in 1896 the Liberals had promised free agricultural implements, but upon coming into power they had broken their vows to scorn. They had not given the agriculturists relief. They would repeat their former performance if given another chance. The farmers of the country, however, have never just grievance. Industrial life and labor also have their claims. What then is the solution?

"Under the guiding star of the great national policy we will establish a national spirit and a national sentiment. With the proper national spirit in our country, there is a large measure correct the feeling of unrest that undoubtedly exists between the various classes of our population. What I mean is that every class will be able to exploit any other class or section of the people. I am one of those who believe that such a national sentiment will get the confidence of our people."

He spoke of such a spirit in the United States and said no man or woman should ever be allowed to leave Canada because of want of employment and only under the national policy of the Conservative party could the sentiment be maintained that would inspire popular endorsement. Then he added:

"There is no other class of workers more largely interested in the success and prosperity of our country than the farmers. The national policy has been created for them, especially in Ontario, the home market of your large urban centres. It is a policy that will Western Farmers' Position. He explained the different circumstances of western farmers. A national spirit and sentiment must be sacrificed in their interest. The government is called upon to see that the manufacturers of Canada get raw material as cheap as the United States manufacturers, and that the cultural implements could be sold as cheaply in Canada as the United States. Blast furnaces and the development of the national resources will supply the need of Canada in raw materials required by the manufacturers who are now handicapped, and who have to pass the handicap on to the agricultural purchasers of agricultural implements.

"In this day, said Mr. Rogers, we can still do our duty to the agriculturist of the west and of all our country, which we cannot do under the present condition of competition with the manufacturers of agricultural implements across the line.

"The wheat situation of the world as one of concern for western grain growers, and argued that the market for Canadian grain must be looked for at home, where only the national policy of the Conservative party can create the employment and the best government. He found no fault with Union government, but Mr. Carvell at Saratoga a few days before the Union government was sworn in, in his address to his New Brunswick electors, as well as Mr. James Calder, in an address issued to the Liberals of western Canada had pledged themselves that the Union government contract would terminate when the causes that had created it came to an end. He then read the resolution, unanimously adopted by the delegates of the imperial conference, quoted above, which synchronized with a denunciation of the war time election act by Mr. Calder and asked his audience whether there was one word in the resolution they would not support.

His audience was entirely with him, whereupon he concluded: "The time is now approaching when Mr. Calder and Mr. Carvell, as honorable men, will act according to their solemn contract. The Conservative party of Toronto and of Canada are ready for the change of conditions." He was ready to fulfill our duty by that great party that has never failed Canada in any national crisis, and that has recognized our proud position as British citizens in the British Empire. Now that the union contract is ended, the flag of progress under the national policy of the great Conservative party returns to our hands, and under it the Conservative party can establish the national sentiment upon which we can build up Canada and by which we can save Canada from ruin today. In the faith of that Conservative party, I have ever lived, and in that faith and work I shall die. (Applause.)

Hon. G. Howard Ferguson also addressed the meeting. He announced that legislation was enacted at the present session of the House, establishing the eight-hour day in all government employment, thus setting an example to all other employers of Ontario.

COPYRIGHT LAW WILL BE AMENDED

Deputation From Toronto is So Assured by Acting Minister.

Ottawa, March 11.—A new copyright bill is to be introduced into parliament this session. The announcement was made today to a deputation by Hon. A. K. Macleod, acting minister of trade and commerce. He said the bill was already drafted, and was now being printed. The deputation represented the Authors' and Composers' Association of Canada, who described the present act as antiquated and unfair. Among the grievances were: (1) Canada is the only country that does not recognize the composer's control over the reproduction of his work by phonograph records, player-piano rolls, etc.; (2) Canadian writers have no control over the production of their work in moving pictures. It is a current complaint that there are not enough Canadian films. There would be more of them if there were any inducement for Canadians to write. (3) The writer of a Canadian book has no control over the translation into a foreign language; (4) the writer of Canadian fiction has no control over its dramatization; (5) the Canadian dramatist has no control over the rewriting of his play as a novel; (6) the present method of registration of articles by newspapers is inadequate and inconvenient; (7) under the British act of copyright in the life of the author plus fifty years, in Canada, it is only 28 plus 14 years. Today's deputation included Gordon V. Thompson, composer of "When We Wind Up the Watch on the Rhine"; Morris Manley, who wrote "Good Luck to the Boys of the Allies"; Will J. White, author of "Home Again"; Leopold Macaulay, John Hann and Wm. J. Roberts. Among other Canadian composers represented by the deputation are the authors of "Keep Down Your Head, Fritze Boy" (L. Gitz Rice); "Knitting" (Muriel Bruce and Baron Allott); "We're From Canada" (Irene Humble); and "We'll Never Let the Old Flag Fall" (A. E. MacNutt).

IRENE FRANKLIN IS WAR VETERAN

Sang for the American Boys at Verdun and at Bar-le-Duc.

"Aren't the gas masks dreadful things? If I have one in the next war, it will have to be perfumed." This remark from a fluffly-haired little lady in an apple green gown rather startled a newspaperman, whose memories of gas masks did not chime in with his surroundings. But Irene Franklin (Mrs. Burton Green) has been there. She has seen all the ruin and horror on the western front; has been under shell fire and in gas clouds, all to cheer Perahing's boys with a little of the glamour they had left behind. Miss Franklin had just been amusing a full house with "Beaucoup Chique," as Sammy says it in France, when the writer was introduced at the Royal Alexandra last night. "A merry laugh was the response. 'Mr. Bolman is always so enthusiastic, but I don't want to pose as a heroine. I was glad to go just to cheer the boys up.' 'Last summer the Overseas Theatre League called for volunteers, and my husband, Mr. Burton Green, and I volunteered, with several others, to go to France. It was wonderful, but, oh, so dirty at times! Water was so scarce that sometimes we could not wash.' 'In Forward Area.' 'You were really in the forward area, then?' 'Oh, yes; we were at Verdun, Neuve Chateau, Bar-le-Duc—everywhere it was possible to put on a show. We had several narrow escapes, but the only time we had to stop a performance was when General Perahing sent for us to come up to his headquarters. Sometimes we played within half a mile of the front. General Perahing sent for us to come up to his headquarters, but the big drive started, and we never reached him.' 'How long were you over there?' 'Three months, excepting a fortnight we spent in London, England, giving entertainments to the boys. But in Kingsway, in France we sometimes gave six shows a day. In army hospitals, by the roadside, anywhere in fact where the boys could get together comfortably. Once we had to go seven days without water. But the soldiers were so charmed and so amazed to see us. Sometimes I sang fourteen songs at a performance. One simply could not refuse, they were so appreciative.' 'Work Was Hard.' 'It must have been hard work?' 'Yes, it was, but I was never ill. You see I have always had excellent health. There were hundreds of others in our profession who would have been glad to go, too, had they been fit. We were stopped suddenly on the road one day by French soldiers who were putting on their gas masks and they made us put ours on at once. We were very glad they did so when the gas came without the excitement of the life over there. 'It was wonderful in England. How squarely they observe these food regulations. In France one could get almost anything by paying for it. But in England, a drayman. All are rationed.' 'Don't forget to say that we are going out to exhibition camp sometime this week,' she concluded. 'We would not miss that word.' 'Now one knows how Miss Franklin can sing of Sammy and his French sweetheart with such a sure touch. She has seen them.'"

THE D. PIKE CO., LIMITED

Sporting Goods House, 123 King Street East, Toronto. WELCOME AN INQUIRY ON LONDON RIOTING

London, March 11.—The Daily News, referring to the rioting in London on Sunday, says: "The decision to hold an inquiry and the rapidity with which the inquiry has been put in hand, are very much to be welcomed. It may be said, since rather regrettable prominence has been given to the American soldiers in particular in some of the earlier accounts of the disturbance, that the behavior of the American troops since the day they were first welcomed to London has been exemplary, not merely in an ordinary, but to a conspicuous degree. Unless and until the men in the mole are condemned by the court of inquiry, public opinion here will be content to withhold its condemnation. In any case, the whole affair was distinctly less serious than at first appeared."

HEAVY 1180 MILES IN ELEVEN HOURS

Toulouse, March 11.—Lieut. Le-maitre, a leading French aviator during the war, has completed a flight from Toulouse to Casa Blanca, on the western coast of Morocco, a distance of 1,180 kilometers (approximately 1,180 miles), in eleven hours actual flying time. The lieutenant and a passenger left Toulouse at noon Saturday and landed at Casa Blanca at five o'clock Sunday afternoon. The whole voyage, which lasted twenty-nine hours, was made in two stages, the first from Toulouse to Alicante, Spain, and the second from Alicante to Casa Blanca. The voyage from Toulouse to Casa Blanca by ordinary means consumes ten days.

London, March 11.—The Daily News, referring to the rioting in London on Sunday, says: "The decision to hold an inquiry and the rapidity with which the inquiry has been put in hand, are very much to be welcomed. It may be said, since rather regrettable prominence has been given to the American soldiers in particular in some of the earlier accounts of the disturbance, that the behavior of the American troops since the day they were first welcomed to London has been exemplary, not merely in an ordinary, but to a conspicuous degree. Unless and until the men in the mole are condemned by the court of inquiry, public opinion here will be content to withhold its condemnation. In any case, the whole affair was distinctly less serious than at first appeared."

CARDINAL MERCIER AN HEROIC FIGURE

Great Prelate, as Seen Thru Eyes of His Former Secretary.

"No one living today is as well fitted to tell of Cardinal Mercier as the speaker of the evening," said Rev. Father Carr, superior of St. Michael's College, in introducing Professor de Wulf, who gave an address in Convocation Hall last night on the great prelate of the war, Cardinal Mercier. The speaker had been a pupil, and later secretary to, and fellow teacher with, Belgium's heroic churchman, and on account of the close intimacy holds, what is probably a unique position in regard to the subject upon which he addressed his audience of last night.

"Because of the noble character of the face of the cardinal, artists had found it difficult to portray the complex expression, radiant glance and irresistible sympathy that emanates from his noble personality," said the lecturer, as a portrait of Cardinal Mercier at the age of forty, was shown on the stage.

Comparing the picture with the cardinal as at present, Professor de Wulf said that the hair was now like a white halo, softening the face, which otherwise might have seemed too firm, but the eyes still retain their lustre, and the tall figure has the masterful ascendancy of younger days. A second portrait showed a full-length figure of the cardinal standing beside a great crucifix, and holding in his hand the famous pastoral letter of 1914 which the Germans would fain have forbidden to be read, but which had a circulation the wide-world over.

Cardinal Mercier was born on Nov. 21, 1851, near Waterloo. He came of an artistic family, his father being a painter, and the room of the cardinal contained many pictures painted by his sire. In 1869, he became a professor at Louvain, where his great love for science drew about him scholars from many parts of Europe and America. His travels have become text books in the universities of Paris and Berlin. He founded an institute of philosophy at Louvain, which was opened in 1893, and here he lectured, and at the close his rooms were filled with students who always found the door open, and their great teacher ready to talk to them with sweetness and unruffled patience.

Cardinal Mercier was described as an exceptional linguist who has traveled largely England, Ireland, Switzerland and Spain. He is an indefatigable worker, and during his travels takes a folding table at which he writes the addresses which he gives along the route. No matter how hard his work of how fitting his travels, he never omits saying daily mass, and on one occasion, while in Spain, this habit nearly cost him his life. He and his traveling companion, the speaker of last night, had to leave by a five o'clock train. The cardinal rose to say mass at four o'clock in a little church near the station. In the darkness he lost his way, and was accosted by a sentinel at a fort. "The cardinal did not understand the sentinel, nor recognize the situation, and the sentinel was just about to fire, when the altercation drew the attention of the officers who came out and the situation was explained. The cardinal was made to realize the danger when he was told that there had been a rising on the day previous, and that a sentry had been shot. Further delay in the appearance of the officer might have ended in even a greater tragedy.

In 1906, from the little town of Louvain, and the great university with its 4000 students, the former professor was appointed to the See of Mechlin, with 3,000,000 souls in its charge. He was then named cardinal, in which office the heroic and patriotic role which he played has made his name known throughout the length and breadth of the world.

YOUNG AUTO THIEVES SHOULD BE SPANKED

Counsel, Agree This is Way to Deal With Them—Sentence Day at Sessions.

When a number of young auto thieves appeared before Judge Coatsworth in the criminal sessions for sentence yesterday Crown Attorney Greer advised the installation of a public spanker, where young rascals like those should be sent. Walter Curry, K.C., who appeared for a number of the prisoners, agreed with Mr. Greer.

Percy Gordon, who was found guilty of stealing a motor car, asked for another chance, but the crown pointed out that he had only been out of jail for a few days before he committed the theft. Gordon was remanded till today for sentence.

Melville Guy, who had a long list of previous convictions, was sent to the jail farm for six months. Frank Richardson, who also stole a motor car, was sent down for four months.

John Dowdell, who also had a prior conviction, received a sentence of three months on the farm. Ray Gilks and George Barnes, who had no records, were let out on suspended sentence with the understanding that if they were found in possession of a motor car, they would be brought back for sentence.

John Wright, another young man, was sentenced to ten days for stealing an automobile. The evidence showed that the accused had been in possession for about fifteen minutes and that no damage had resulted.

Robert Shaw, also convicted of stealing an automobile, was allowed to go on suspended sentence on account of the sickness of his wife.

ALLEGED SHO-BREAKERS TAKEN.

Harry Stevens, 115 Roseheath avenue, and Albert Drake, 48 St. Lawrence street, were arrested yesterday afternoon by Detectives Stewart and Elliott. Both prisoners are charged with shopbreaking. It is alleged that they broke into the Axler Metal Company, 202 Eastern avenue, and stole a quantity of metallic fittings.

Domestic Help Problem And Its Difficulties

A Letter to the Editor on the Latest Phase of This Question.

Editor World: The first really sensible thing I've seen re the servant question appeared in The Telegram the other night. It stated that if a maid asked fifteen dollars per week she would have to be very efficient. To be perfectly frank, I think Mrs. Huestis and her followers are causing much foolish unrest among the girls. If they had let things alone the effect of the war would probably have brought things to a more normal condition, and the numbers of women released from other employments would gladly have turned to such sane and natural work as household service for good, but reasonable wages, when they were widely available, would have formed some sort of union which will only react on themselves, as people will simply do their own work where possible.

There will be two classes of people: those who can't afford the high wages asked, and those who can, but won't. The former class will be the most numerous, and will be the most difficult to deal with. The latter class will be the most difficult to deal with, as they will be the most likely to cause much trouble. For instance, there is one well-known Toronto lady offering \$40 per month for a parlor maid, where other maids are kept. Most well-to-do respectable Toronto people will give good wages and good homes to efficient women, but why not have a set of rules to protect both employers and employees? Why not have a board of capable women, to which a girl could apply if she felt she was being treated unfairly, and which would consider her case and advise?

PLANS ARE PREPARED TO AID PALESTINE

At a well-attended meeting of the Hadassah (women's branch of the Zionist Federation of Canada), Mrs. Fred Armstrong, the newly appointed official organizer of the Helping Hand Campaign, which takes place in Toronto next Monday, Tuesday and Wednesday, outlined the requirements necessary before any national movement can be a success. Mrs. J. Seckle, president of the Hadassah, presided and pictured the need of the sufferers in Palestine. LIBRARY BOARD ASKS ANOTHER QUARTER MILL

Justice Kelly, chairman of the library board, and G. H. Lecker, chief librarian, met the board of control yesterday to request that the library be increased from a quarter to half a mill on the assessment. The minister of education is introducing a bill in the legislature to give effect to this, and it was decided at yesterday's conference that the board would not oppose the legislation provided it merely gives the city council power to grant the increase if it thinks it advisable. An addition of another wing on the northwest corner of the reference library building is under the consideration of the library board.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair Becomes Charming,
Wavy, Lustrous and Thick
in Few Moments.

Every Bit of Dandruff Dis-
appears and Hair Stops
Coming Out.

For a few cents you can have your hair in less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying Danderine. Also try Danderine on a cloth with a little water, and carefully draw it through your hair, taking one small strand at a time. This will cleanse and in just a few moments you will see the beauty of your hair. A hair has been neglected or is greasy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and most will be after a few weeks' use you will see new hair—fine and downy at first—yet, but really new hair growing from the scalp. If you care for your hair, get a small bottle of Danderine from any drug store or toilet counter and just try it.

THE HAMBURG RECITAL.

Appreciation of the educative value of the work of the Hamburg recitals, which are being given at Foresters' Hall during several years, is shown more and more as the season advances. Last night a capacity audience greeted the artists on the occasion of their second recital this season. The program opened with the sonata for violin and piano (Franck) by Jan Hamburg and Alberto G. Guerrero, written in honor of the wedding of Eugene Ysaeye. Beginning with the movement representing the poetry of dawn, the sonata rose to a glorious pitch in its second subject and closed with the finest example of a canon of modern music. George E. Boyce won two recalls for his masterly playing of Liszt's Transcendental Etude No. 1 in D flat and La Campanella. The closing number was a trio from "The Archduke" in B flat, opus 97, in which the exquisite music was so delightfully and artistically interpreted that many in the audience must have been reminded of the offerings in the musical centres of the old world, and realized that Canada now within itself musicians of the highest calibre. The players were Jan Hamburg, Alberto G. Guerrero and Boris Hamburg.

WILL KEEP THE 17th.

The St. Patrick Chapter, Royal Arch Masons, will observe its name day by holding a banquet in the new Masonic Temple, Yonge street, on the 15th inst. RECOVERED \$500.

In the county court yesterday, Judge Winchester awarded J. R. Burroughs \$500 in his suit against A. W. Phillips for the recovery of \$800, which plaintiff declared was the value of his household goods destroyed by fire last spring from a grass shed, alleged to have been caused by defendant.

YOUNG LAD FACES THEFT CHARGE.

A thirteen-year-old boy was arrested last night by Acting Detectives McConnell and Penneck on a charge of theft. The boy was employed as a messenger for the Wilson Stationery Company of 128 West King street. On Monday afternoon he delivered a parcel at the Belcher Printing Company's office at 111 West Adelaide street. While in the office he stole a cash box containing \$15 and a cheque. He was unable to open the cash box, so he wrapped it in a black cloth and buried it in a lane off Pearl street. Showing where he drew a diagram of the Belcher office, the police identified the boy and the cheque. The description was mailed to the Belcher office, who turned it over to the police. The detectives comparing the signature on the letter with that of the boy's handwriting, questioned him and later placed him under arrest. He will appear this morning in police court.

Five Fresh Eggs a Day For a Two-Year Old--

Absurd, you say. First because it would cost too much. And besides it would overtax a child's stomach. But—

Healthy, growing youngsters need that much nourishment. Every day. Whether two years old or twelve.

And you can give it to them.

Every time The Farmers' Dairy leaves a quart of milk on your doorstep, you are getting as much food-value, as much nourishment as there is in five fresh eggs!

Better food and cheaper food!

For milk builds bone, repairs worn tissue. It puts new vigor and vim into tired bodies. Yet it is light on the stomach, easily digested. It is "balanced" concentrated food—Nature's finest nourishment.

And no food in the world costs so little as milk, considering the rich, energizing wholesome nourishment it gives.

Begin—to-day—to give your children this health-giving food, that comes from the finest farms in Ontario; from healthy, well-fed, well-tended cows; from a dairy whose up-to-date equipment is the admiration of dairymen all over America.

Remember—your doctor says a quart of milk a day is the finest insurance of your child's health—now and in the future.

PLACE THE BLAME ENGINEER'S DEATH

School Committee Told Un- spected Installation Caused Morley Smith's End.

Uninspected, defective installation is given by the Toronto Electric Commission for the death of Morley Smith, director of engineering at the Central Technical school. A series of reports to the foregoing effect were read at the meeting of the advisory industrial education committee of the board of education, yesterday afternoon. Reports of an inspection made by the provincial Hydro-Electric experts, showed that the wiring was not in accordance with regulations, and that a wire was not grounded, which would have reduced the voltage one half, and probably have prevented a fatality. Letters were read from the Canadian Domestic Engineering Company, stating that certificate of inspection covering all wire work were received by the Hydro-Electric Commission and duly filed.

ATROCITIES MARK BERLIN BATTLES

Government Troops Sent to Lichtenburg Annihilated by the Spartacans.

SUMMARY EXECUTIONS Armed Civilians Held Up Ambulance and Killed or Wounded All Inmates.

Berlin, March 11.—Government troops were busy today in driving spartacan bands from various sections of Berlin and in preparing for a determined effort against the Spartacan stronghold of Lichtenburg, a suburb to the east of the city. The Spartacans are reported to have large stocks of weapons and ammunition in Lichtenburg. Government troops sent to Lichtenburg Sunday to protect the postoffice and police station were annihilated by the Spartacans. All the soldiers and police officials who were not killed during the fighting for the postoffice and police station or who did not escape from the buildings were murdered by the Spartacans. Many were tortured and killed in the streets. At least one woman was among the victims of the Spartacans. The police archives in Lichtenburg were burned and 80,000 marks were stolen from the postoffice. No attempt has yet been made to ascertain the number of persons killed in the present uprising, but the number is believed to exceed 150. Reports of Spartacan atrocities continue to pour in and resulted today in the issuance of an order by Herr Noske, the minister of defense, that all found opposing the government troops with weapons shall be shot at once. Many Spartacans were taken prisoner during the fighting and summary executions began at once, the order of Herr Noske being welcomed by the embittered government forces. Armed civilians stopped a Red Cross ambulance today and killed and wounded all the people in it. Another ambulance carrying wounded soldiers to death with the butts of their guns and killed a householder who attempted to interfere.

NEWSPAPERS FORBIDDEN

The Independent Socialist newspapers, Die Freiheit and Die Republik, have been forbidden to appear. Although the Independent Socialist leaders protest, they are not permitted to publish. The Independent Socialist organs have been attacking the government with bitter invectives and endeavoring to stir up the people against the government and the government troops. The leaders of the Independent Socialists also continue to make attempts to embarrass the government by trying to get into the hands of the Spartacans by demands that the volunteer troops be withdrawn from Berlin. Many independent units are fighting in the Spartacan ranks.

The government military commanders anticipate that it will take weeks to strangle the people who break the Spartacan resistance in the western part of Berlin and to capture Lichtenburg and the suburbs of Koenigs-Waldow and Bismarck-Tempelhof, all on the eastern outskirts of Berlin. The communists, with help from the criminal and hoodlum elements, continue to offer stout opposition to the government troops in the street fighting. They are taking no prisoners.

One daring Spartacan band last night succeeded in taking a machine gun into a house opposite the barracks of the 1st regiment of the 1st regiment, a short distance north of Unter Den Linden. From this point of vantage they bombarded the barracks. Another squad penetrated into the newspaper building and fired at the building occupied by the semi-official Wolff Bureau.

The order calling off the general strike was obeyed only in part today. Nearly all the small establishments and a number of the big plants resumed work with full forces, but workers in the factories dominated by radicals, declared they would not work until the government troops were withdrawn from Berlin.

Manitoba Passing a Bill To Lift Tasting Seat Tax

Winnipeg, March 11.—Fourteen bills were passed and fourteen given second reading at the sitting of the legislature last night, among the latter being a bill to sanction the borrowing of capital expenditures amounting to \$12,872,000, and a bill to amend the amusement taxation act, which lifts the tax on the narrow-gauge railway from the province of from \$12,000 to \$15,000 annually.

POPE MAKES APPEAL FOR A SPEEDY PEACE

Paris, March 11.—It has become known that Pope Benedict has addressed an appeal to the powers emphasizing the urgency of the speedy conclusion of peace with Germany. It is understood that the pontiff states that the Vatican possesses reliable information that the situation in Germany, socially and economically, is very grave and that he fears the spread of Bolshevism with such rapidity that it might result in the establishment of a Bolshevik state, which, in turn, might become allied with Bolshevik Russia.

AERIAL CONFERENCE HAS TO POSTPONE

Most Nations Will Make Unexpected Changes in Their Fundamental Laws.

Paris, March 11.—Like the international wireless conference, which assembled here several weeks ago, a similar gathering which was intended to deal with problems relating to aerial navigation, has been compelled to postpone its work indefinitely after having merely perfected its organization. More suggestions of the extensive plans which were to be brought forward for consideration developed the fact that most nations might be obliged to make wholly unexpected changes in their fundamental laws if they participated in decisions. This necessitated the reference of many problems to home governments and it is understood that it will require consideration of many months before the delegates will be able to proceed with the conference. The air conference was to be met by a French and possibly a British air force, and the appearance in Paris of accredited delegates of many other nations made it necessary to hold matters in abeyance for the time being. The delegates to the peace conference were quick to see that what amounted to a control of aerial navigation might be in the hands of a few nations and that no time in demanding that their nations be represented.

MOST POWERFUL GUN IS ORDERED BY U. S.

Troy, N.Y., March 11.—The United States government has placed an order for a new type of gun to supersede the famous 155-millimetre gun, so popular in the late war. The new gun, which is easier to move, shoots farther and does more damage than the old one, a "one-ninety-four," and two guns were ordered as an experiment. The first one will be completed before the end of the present month. The gun is eight inches in diameter, weighs 12 tons, has a range of ten miles, shoots a projectile weighing 175 pounds, and is the most powerful weapon of its size in existence.

Accept Toronto Firm's Tender For New School in Guelph

Guelph, March 11.—The board of education has decided to erect a new eight-room public school in St. David's Ward. The plans of S. B. Connor & Sons of Toronto have been accepted. The school will be a two-story building, eight inches in diameter, weighs 12 tons, has a range of ten miles, shoots a projectile weighing 175 pounds, and is the most powerful weapon of its size in existence.

ADMIRAL NOW M.P.

London, March 11.—Rear-Admiral Sir Wm. Reginald Hall, director of the admiralty intelligence division of the admiralty, has been elected to parliament for West Derby. He takes the seat made vacant by the appointment of Sir Frederick Smith as lord high chancellor.

W. H. DENHAM PASSES.

Peterboro, March 11.—Mr. W. H. Denham, manager of the Peterboro plant of the Quaker Oats Company, passed away peacefully in Chicago. He had been ill for some time and a couple of months ago left Peterboro for Florida, where his condition gradually became worse. He supervised the evolution of the Peterboro plant from its original modest beginnings to a three million dollar plant as it stands today.

SECOND MURDER CASE.

Kingston, March 11.—This district has its second murder case within ten days. This morning Provincial Detective A. B. Boyd, placed under arrest, Mrs. L. Thompson of township of Kennebec, on a charge of murder, in connection with the finding of the dead body of a two-year-old baby alongside the C. P. R. tracks, near Sharbot Lake.

LIEUT. R. C. SHERIDAN CASHERED.

London, March 11.—Lieut. Ralph Cecil Sheridan, western Ontario regiment depot, it is officially announced, has been cashiered and sentenced to undergo six months without hard labor, for two charges connected with worthless cheques and other offences.

DOUBLE CENSORSHIP ABOLISHED.

Washington, March 11.—Double censorship of cablegrams is abolished under the terms of an agreement between Great Britain and the United States made public today. The two countries agree that hereafter cable communication thru the territory of the country will be subject only to the censorship of the country in which the message originates.

RESTRICTIONS REMOVED.

Washington, March 11.—Individual import and export licenses for the colonies, possessions and protectorates of Great Britain, France, Italy, Belgium and Japan will no longer be required, it was announced today by the war department.

WEeping ECZEMA SOON RELIEVED

A Perfect Treatment for This Distressing Complaint.

Wasing, Ont. "I had an attack of Weeping Eczema; so bad that my clothes would be wet through at times. For months I suffered terribly. I could get no relief until I tried 'Fruit-a-tives' and 'Sootha Salva.' The first treatment gave me relief. 'Altogether I have used three boxes of 'Sootha Salva' and two of 'Fruit-a-tives,' and am entirely well. "G. W. HALL"

300,000 DWELLINGS NEEDED IN ENGLAND

Housing Situation for Workers Most Acute Question of Moment.

London, March 11.—This country needs immediately at least 300,000 dwellings for its working classes, according to Dr. Christopher Addison, president of the local government council, in a report on housing which has just been approved by the House of Commons. A bill outlining his ideas is to be presented soon to the House of Commons.

CRITICIZE G. T. P. PLAN AT LIBERAL CAUCUS

Ottawa, March 11.—The second full caucus of the opposition convened at 11 o'clock this morning, with the question of possible amendments to the address still under discussion. Opposition members admit that there has been some division of opinion as to the advisability of moving amendments, and the matter was given further consideration at today's caucus.

LABOR CONDITIONS IMPROVING IN U. S.

Washington, March 11.—Improvement in employment conditions during the current week was noted tonight by the United States employment service. The decrease in the number of unemployed, although slight, was the first to be reported since the signing of the armistice, and caused officials to predict a clearing of the progress being made toward labor readjustment.

CANADIANS GRADUATE AT THE NAVAL COLLEGE

Ottawa, March 11.—The final examinations for the graduating term at the Royal Naval College of Canada at Esquimaut, B.C., have resulted in a number of cadets qualifying for appointment as midshipmen in the Royal Canadian Navy. These young officers, who are in training for higher ranks in the navy, will leave Canada about April 1 for service as midshipmen on the ships of the royal navy. The list of successful cadets issued by the naval department today follows:

SOCIALISTS VICTORIOUS IN FINNISH ELECTIONS

Washington, March 11.—The Socialists won the largest number of seats in the Finnish parliament in the recent election. Swedish press reports received today by the state department give the results as follows: Socialists, 50; Finnish Republicans (evenly divided between Young Finns and Agrarians), 70; Finnish Monarchists, 22; Swedes (including 3 Republicans), 22.

Want a Peaceable Solution Of Disorders in Russia

Berlin, March 11.—A Lithuanian despatch received here says that a wireless message from Moscow states that the commissary for foreign relations of Lithuania and British Russia have agreed to establish a British, French, Italian and American committee, asking when plenipotentiaries should be appointed to the committee. The commissary's note stated that there was a disposition to settle all questions relative to the situation in that part of Russia in a peaceable manner.

DOMINIONS' SOLDIERS REPATRIATED.

London, March 11.—(Reuter's cable).—The number of dominions' soldiers repatriated between Nov. 11, 1918, and March 1, 1919, were: Australians, 65,154; New Zealanders, 26,205; Canadians, 127,100; South Africans, 618. This information was announced today in the House of Commons by the under-secretary of state for war.

STRETCHER ON AIRPLANE CARRIES WOUNDED MAN

New York, March 11.—Flying to a stretcher aboard a naval flying boat, Lieut. David Gray, a convalescent officer, accompanied by a woman aerial nurse, was carried thru space today from the naval air station at Rockaway, L.I., to St. Luke's Hospital, Manhattan, about eighteen miles, in 19 minutes. The flight was taken to demonstrate the practicability of transferring wounded soldiers by airplane. The patient was transferred from the aircraft to a dory after landing had been made on the Hudson river. He was then rowed ashore and taken in a motor ambulance to a hospital.

SHUT EMPIRE DOORS

Rider Haggard Says Kimmel Park 'Riots Contain Lesson for Whole Empire.'

London, March 11.—The burial took place on Saturday, in Boleynwood churchyard, of the three rioters killed in Kimmel park. It was a very simple ceremony, and few soldiers were present. The other two victims were buried yesterday with full military honors. All the wounded are doing well.

Avoid Indigestion By Simple Rule

If You Eat Fried Food, You Follow With Stomach Trouble. Tablets, Let You Don't Have Indigestion. Be Sure To Do This.

You get ravenous when you smell something frying. But you won't eat it because it hurts your stomach. But when you take Star's Dyspepsia Tablets, there will be no gas, no sour risings, no lump in your throat, no biliousness, no dark brown taste in the morning. And when you are troubled, get Star's Tablets, as soon as possible and relief will come promptly. These tablets correct the fault of a weak or overworked stomach. They do the work while the stomach rests and recovers itself. Particularly effective are they for barometers and those whose environment brings them in contact with the rich food most apt to cause stomach derangement from the food. Relief in these cases always brings the glad news. Get a box of Star's Dyspepsia Tablets, 50 cents, in any drug store throughout the United States and Canada.

Eight Dry Towns in U.S. Have Voted for License

Boston, March 11.—Returns from eleven towns that voted yesterday on the question of issuing liquor licenses show that eight sought from "dry" to "wet." Three south shore towns—Boston, Hingham, and Hyannis—have been no-license places for more than a quarter of a century, and Scituate, with a dry record of eleven years, shifted to license. Toston, Rockland and Abington also went "wet" following the example set by a number of other towns in the Old Colony district, which voted a week ago. Hudson County, N.J., also went "wet" and Liquor advocates maintained that the result was a protest against the national prohibition amendment, while anti-saloon leaders asserted that it was mainly due to apathy on the part of voters.

Will Study Medical Problems Arising From Aviation

Rome, March 11.—The first international medical aeronautical congress opened here yesterday, its object being to promote the study of medical problems arising from aviation. Resolutions dealing with physical and psychological tests applicable to candidates for pilots' licenses, the control of flights at high altitudes, and the use of oxygen by aviators were presented, and the hope was expressed that these resolutions would be taken into account when an international aviation code was drafted. It was decided to form a permanent committee to present the views of the medical profession in matters pertaining to aviation. Professor Gulliani of the University of Paris was elected president of this body.

Will Take Five Years to Build Tunnel Under English Channel

London, March 11.—Five years would be required to complete the proposed tunnel under the English channel, which was estimated at 400 million pounds, it is said. It is said that in ordinary times the cost of the work would be about £16,000,000, but in view of the increased cost of labor and materials the expense involved would be under present conditions, be nearly £20,000,000.

RIGA NOT RECAPTURED.

Copenhagen, March 11.—The recently reported recapture of Riga on the Baltic coast is denied in a Berlin despatch received here. The German troops, it is said, are still a considerable distance from Riga.

WURTEMBERG'S EX-KING WAS NEARLY DROWNED

Geneva, March 10.—Former King William of Wurtemberg had a narrow escape from drowning today during a cruise on the lake. The king was rescued by a German soldier from Kiel who seized the ex-king's yacht on Lake Constance. The sailors took the yacht to use it for a fishing boat.

EMBARGO LIFTED;
CORN PRICES RISE
Denial of Reports of Big
Strike of Longshoremen
Helps Rally.

Chicago, March 11.—Lifting of the rail-
road embargo against New York rallied
the corn market today, after prices had
ruled lower during most of the session.
The close was unsettled, 1/4c to 1/2c
net advance, with May 1.26 1/4, and
July 1.31 1/4 to 1.31 3/4. Oats finished
unchanged to half a cent higher. Pro-
visions gained 1/2c to 1c.

ON CHICAGO MARKET
Hughes, Harcourt & Co., 207 Royal
Bank Building, received the following
yesterday: There was a great influx
of buying of May and July corn of
Hoover statement that appeared in the
press of yesterday. The selling by long
from 12 1/2 has put millions of bushels
supplied the new buying. The final up-
turn was due to large local buying in
anticipation of the removal by the direc-
tors of the limits of price movement in
provisions. The provision trade is
violent fluctuations.

SUGGEST ATHOLSTAN
AS HIGH COMMISSIONER
Frederickton, N.B., March 11.—Re-
ferring to the report by the Ottawa
correspondent of The Toronto Tele-
gram that Sir George Perley may be
succeeded as British Commissioner at
London by Lloyd Harris, the Greater
editorial says: "If there is to be a
Lord Atholstan in the high commis-
sionership, should be asked to
accept the post. Lord Atholstan is
one of our most successful Cana-
dians, practical and of broad experi-
ence, with an intimate knowledge and
country's affairs in their various re-
spects. He is admittedly peculiarly
well equipped for the post, and if he
will accept it, will, we believe, be
generally felt that Canada will be
well and fittingly represented at Lon-
don."
