WEDNESDAY MORNING NOVEMBER 12 1919

39TH YEAR—ISSUE NO. 14,245 TWO CENTS

Striking Miners Move Towards Settlement of Dispute This Week

W. W. Snipers Fire on an Armistice Day Parade, Killing Three

NEW YORK STOCKS FELL WITH CRASH, REACTION SWEEPING

Losses of Five to Almost Forty Points Sustained by Many Market Leaders.

New York, Nov. 11.—The towering speculative structure in the stock market, reared by professional speculators in the last month on a foundation of "easy money," toppled over today, when call loans rose to 25 per cent., the year's highest figure and the maximum since December 27, 1917.

Most of the only stocks to escape the drastic liquidation were United States Steel, which lost only a fraction of a point, and the high-grade railway shares, where reactions were equally moderate.

The reaction, which effaced the many sensational gains of the October rise, was the more violent and sweeping because it followed an opening advance of two to six points, based on the wailing of the coal miners' strike.

In point of fact, that development, favorable as it appeared, exerted only temporary influence, prices falling back within the first hour. Even before call loans opened at 14 per cent., the year's highest initial rate, the market began to sag.

Selling of a substantial character followed the publication of first foreign exchange rates, these foreshadowing the subsequent acute weakness in that market. In the course of the session, remittances to London, Paris and Italy broke to discounts never before recorded in this market.

The Market Demoralized. Not until the final hour, however when call money rose to 20 and then to 25 per cent., did the stock market become actually demoralized.

VICTORY LOAN SUMMARY UP TO MIDNIGHT, TUESDAY.

Table with columns for Province and Amount. Includes Toronto, Ontario, Canada, and other provinces like British Columbia, Alberta, Saskatchewan, Manitoba, etc.

MONTREAL IN THE DARK ABOUT PUBLIC OWNERSHIP

Queer Combination of Newspapers, Railways and Politicians Prevented Commercial Metropolis From Understanding Modern Movement.

Special to The Toronto World. Montreal, Nov. 11.—One finds more shrewd business men here today prepared to make an armistice with Public Ownership via the Grand Trunk for the sake of what it may bring.

YANBUROG EVACUATED BY GEN. YUDENITCH

Large Red Forces Are Reported to Be Approaching the Narva Line.

Helingsfors, Nov. 11.—It is reported that Gen. Yudenitch, commander of the Russian northwest army, has evacuated Yanburg and that large Bolshevik forces are approaching the Narva line, which the Estonians are strongly holding.

Balfour Opens Campaign For the League of Nations

London, Nov. 11.—Arthur J. Balfour, former foreign minister, and now lord president of the council, opening the league of nations campaign today declared that the future of the league would be dark, indeed, if the powers, especially Great Britain, were prepared to take an equal share in the burdens the league cast upon them.

Impressive Ceremonies in Britain On Anniversary of Armistice Day

London, Nov. 11.—Great Britain today celebrated the first anniversary of Armistice Day with impressive ceremonies. The foremost and striking of these came in response to the appeal of King George to commemorate the event by a universal simultaneous suspension of activity throughout the country and the observance of silence for two minutes at the moment corresponding with the signing of the armistice—the eleventh hour of the eleventh day of the eleventh month.

LIQUOR SHIPPING IS LIVE QUESTION

Ottawa Inforcing Many Inquiries—Action of U. S. Has Effect.

Special to The Toronto World. Ottawa, Nov. 11.—The government has received many inquiries regarding the shipment of liquor into prohibition areas, which will become legal as soon as peace is proclaimed.

WANT TO RAISE TELEGRAPH RATES

Railway Board Hears Application of the Canadian Companies.

Ottawa, Nov. 11.—That the telegraph companies should be put in a position to earn ten or eleven per cent. on the amount of money actually invested was the contention made by F. H. Phippen, K.C., on behalf of the C.P.R. Telegraph Company when the application of the telegraph companies for a twenty per cent. increase in rates came before the railway board today.

THREE MEN KILLED, AND MARCHERS WRECK HALL AND HANG ONE OF MURDERERS.

Centra, Wash., Nov. 11.—Three former soldiers were killed and a number injured today by snipers, said to have been industrial workers of the World, who fired on an armistice day parade marching thru the streets of the city.

General Seely Has Resigned As Head of Air Ministry

London, Nov. 11.—Major-General John E. B. Seely has resigned as head of the air ministry.

ALFONSO BACK IN MADRID.

Madrid, Nov. 11.—King Alfonso, returning from his visit to France and England, arrived in Madrid at noon today.

VICTORY LOAN PROGRAM

12.15 noon—Presentation by His Excellency the Duke of Devonshire, and raising of Toronto's Victory Loan banner flag. City Hall, Vaudeville and band concert; tanks.

SINN FEINERS FIGHT COLLEGE STUDENTS

Object of Latter Singing National Anthem on St. Stephen's Green.

Dublin, Nov. 11.—During the celebration of Remembrance Day, the Sinn Feiners, parading the streets singing soldiers' songs, met a body of Trinity College students who had been singing the national anthem on St. Stephen's Green.

TORONTO PRAISES GIVER OF VICTORY

All Heads Bow Down in Thanks for Liberty's Salvation.

Toronto celebrated its first commemoration of Armistice Day yesterday, and never was a ceremony of duty more conscientiously performed than the silent two minutes at 11 o'clock, when all thoughts were of those who had so gloriously and so effectively fought the good fight.

SPECIAL SESSION OF AGRICULTURISTS

Winnipeg, Nov. 11.—What may be described as a special session of the Canadian Council of Agriculture began today in Winnipeg.

TALK LONG SUIT OF U. S. SENATE

Seven Hours' Discursive Discussion, But Nothing is Accomplished on Treaty.

THE CITY OF THE OPEN GATES

North Toronto is Really a Union Station, and With the Cross-Town Tracks Between West Toronto and Leaside, Assures a More Economical Handling of Traffic in Conjunction With Expansion in the East, as Well as Easier Approach to Ottawa and Montreal.

THE NECESSITY OF A TRANSPORTATION PARLIAMENT TO RE-ORIENT TORONTO

Transportation that must enter the Union Station; be conducted over the Hydro Radials; be created thru the Harbor Commission, and be served by the civic street system that is to be replaced by the Toronto Railway Company in 1921, does not appear to be a matter of the northwestern gate of Toronto.

Formal Welcome at Washington Extended at Banquet by Vice-President

Washington, Nov. 11.—With a simplicity in keeping with ideals of democracy, the Prince of Wales was welcomed to Washington today and became the guest of the nation.

Indianapolis, Ind., Nov. 11.—The way for the final adjustment of the controversy between the bituminous coal operators and the United Mine Workers of America, which resulted in a strike of 425,000 union miners and action by the government in the federal court, appeared in sight tonight.

While the representatives of the miners who earlier in the day had agreed to comply with the mandate of United States District Judge A. B. Anderson and late today mailed an order rescinding the strike, were discussing the future policy of the organization, telegrams were received from W. B. Wilson, secretary of the United States department of labor, and Thomas T. Brewster, chairman of the operators' scale committee.

Mr. Lewis, on behalf of the mine workers, accepted the invitation of Secretary Wilson to meet the bituminous operators of the country in Washington next Friday morning at 11 o'clock, and replied to Mr. Brewster, who requested a meeting of the central competitive scale committee with the operators of the district in Washington Monday, November 17, to negotiate a contract to be in force at an undetermined date, but not now in effect, that the miners already had accepted the invitation of Mr. Wilson.

It was said at the internal headquarters of the organization here that practically all of the copies of the Washington letter, which called for a wide bituminous coal strike were in the mails before the time limit set by Mr. Wilson.

A Stranous Program. Through the stay of the prince in Washington a wide degree of elasticity will characterize his schedule and no advance announcements as to times and places of his visits will be made.

Much has been left to the election of the prince himself. He has before him, however, a rather arduous program, including the decoration here and in New York of some 300 American sailors who served with distinction during the war.

The gathering of American and British officials in formal dress described as a special session of the Canadian Council of Agriculture began today in Winnipeg.

Washington, Nov. 11.—The peace treaty drafted into the doldrums again today, the senate talking for seven hours and accomplishing nothing.

Technically, the committee reservation to article 10 of the league of nations covenant was before the senate last night, but the debate was about almost everything else.

In any event, the main flow of Toronto extra-domestic traffic must be east and west. The business district will not move far uptown, any more than the centre of commercial New York will move to Harlem.

town cross-town railroad tracks will become busier and busier as the city grows. The income of the soldiers, and the visits of the Prince, alike testify to the value of the northern route. The people who come from and go to Ottawa and Montreal, via the North Station, are so many forerunners of things to come. If you have occasion to go from North Station to which other localities will become more and more tributary.

Is Union Station, Too. Most people think the North Station is entirely a C.P.R. affair. It is not. It is really a Union Station, the union of Pacific consumption. It was built by joint arrangement between the Canadian Pacific and the Canadian Northern. It is, therefore, a Canadian National Station, and whenever it is expedient to run trains from the present Grand Trunk system in and out of it, the change can be made.

The C. N. R. has the right to use all the tracks between Leaside and West Toronto. Provision is made for four inside passenger and two outside freight tracks; the C. P. R. to do the switching and to and from the north and south, and the C. N. R. to do the switching and to and from the factories on the north end of the Leaside station. The C. P. R. can and should do it. The C. N. R. can and should do it. The C. P. R. can and should do it. The C. N. R. can and should do it.

But there is more in this northern cross-town railway situation than the average passenger unfamiliar with the economies of railway operation apprehends. When you go from the North Station to Montreal or Ottawa, by C. P. R. or Grand Trunk, you are going through a tunnel, and you are going through a tunnel. Each puff costs money. Each puff costs money. Each puff costs money.

Nowhere in Canada is that more true than in Toronto. When you come in from Chicago, Indiana, or any other place, you drop from high ground to lake level, and then climb again over Scarborough Heights to go out of the Don Valley to Leaside of the C. P. R. You have to go to the level of the North Station, then some. This is why it is very expensive to walk from the North Station to Scarborough. It is a bridge, longer like than you suppose.

To get out a prodigious amount of costly climbing, then, the future will see an increasing use of the West Toronto, Leaside tracks. It will mean a revision of other arrangements particularly in the eastern suburbs. What the Mayor street viaduct has done for the Danforth district, one of these days will be repeated on a larger scale, by a big bridge over the Don, from the North Station to Scarborough. The bridge will give new connections with the C. P. R. and the Canadian Northern Ottawa line—and will enable the C. P. R. to get to Agincourt by a very much lighter grade than it now has. The bridge will probably be a denominational movement recently urged the consecration of the individual life to God, the consecration of the individual's talents, gifts, and the consecration of the individual's substance to God, if there was to be any real forward movement.

To his Majesty, King George V. The king is the one who has made the world a better place. He is the one who has made the world a better place. He is the one who has made the world a better place.

These model suits are those individual styles which our traveling representatives have been carrying during the winter. They are certainly a model in every sense of the word. They are made of the best materials and are as good as the day they came from the work-rooms. \$40.00 and up. Scores. Tailors and Haberdashers, 77 King West.

YORK TOWNSHIP
YORK TOWNSHIP BUILDING.

The outlook for an open winter with good building weather is causing a rush for permits at the York Township offices. Twenty-four permits for residences were granted last week and another for a \$60,000 addition to Second School at the corner of Record street and Barrington avenue. Two wings of four rooms each will be added to this school, making 20 rooms in all. The school will also be equipped with a gymnasium, room and swimming tank.

BEACHES SCHOOL CLUBS FORM REFORM SOCIETY

Representatives of Organizations Unite to Oust Board of Education.

The Educational Reform Association was inaugurated last night at a well attended meeting of representatives from the various home and school clubs, for the express purpose of selecting candidates for the forthcoming board of education election.

Sgt.-Major McManara, D.C.M., M.L.A., who presided, outlined the aims and objects of the new organization, which was called into being owing to the city-wide dissatisfaction with the present board of education.

The extravagance of the board was dwelt upon at some length by Geo. R. Ellis, who is a member of the board. He pointed out the mediocrity of the board in the selection of candidates to bring about a change in the board of education.

The following officers were elected: Rev. Jas. H. Boyd, pastor Waverley Road Baptist Church, speaking on "Right here, we begin at work that principle of co-operation, entirely for the public service, between all the ways, which the public control of the Union Station brings into action on the water front, and into action of the fundamental commercial facilities of the city of the open gates."

THE FORWARD MOVEMENT
Rev. Jas. H. Boyd, pastor Waverley Road Baptist Church, speaking on "Right here, we begin at work that principle of co-operation, entirely for the public service, between all the ways, which the public control of the Union Station brings into action on the water front, and into action of the fundamental commercial facilities of the city of the open gates."

MIMICO
SUNNYSIDE IMPROVEMENTS.
Abnormal activity is being shown this week in the harbor in improvements for long distance west of Sunnyside. An army of men are rushing in on the extension of the sea-wall. Features of the great work are the employment of the construction train, the placing of huge steel frames in line to be filled with reinforced concrete. Numerous surveyors are also on the territory staking out lines for additional work.

YORK COUNTY AND SUBURBS

RIVERDALE EARLSCOURT SHOULD INFORM PEOPLE.

As a well-known business man of the east end and voicing the opinion of a large number of residents of the section, J. A. Bleakley, Broadway avenue, in an interview with The World yesterday, said: "If the Dominion government officials had any idea of the public interest in the question of when will inter-provincial and foreign commerce resume on liquor?" they would issue forthwith an announcement to such effect, and in doing so they would only be showing the consideration the people are entitled to from parliament. The fact of the matter is that I am dunned on the telephone almost every minute and hundreds call at the store seeking definite information, which question no one seems to be able to or have the courage to answer—of course, Mr. Rowell may do so, at his pleasure, after his sojourn at Washington.

PARENTS OBJECT
Approximately 60 per cent. of the 1200 pupils at Queen Alexandra school have been vaccinated. At Friskland school about 10 per cent. out of 1452 have obeyed the order. Many parents are objecting and refuse to comply.

TEACHERS TOO LENIENT
Striving exception is taken by many teachers in the east end schools to the statement regarding corporal punishment in schools reported in an evening paper recently. That the principals and teachers err in leniency rather than severity is the opinion of those who believe that many more pupils would be benefited by a stricter observance of the Bible precept.

"JOAN OF ARC."
Rev. George Murray Ross of China gave an address on "Joan of Arc" at a well-attended Young People's Society meeting in St. John's Presbyterian Church, Broadview avenue, last night. Rev. J. McP. Scott, pastor, occupied the chair.

EXPERTS ERHIBIT "MUNS."
A meeting of the Riverdale Horticultural Association was held on Highland school, Logan avenue, recently, when a fine exhibition of chrysanthemums was the feature of the proceedings. J. Howard gave an interesting lecture on the beauty and culture of "Muns," which was well received. The prizes won in the recent back yard garden competition were presented to the winners by C. Honeyman on behalf of the association. Among other matters discussed was the schedule for next year's show, and a committee was appointed. It was decided to hold semi-monthly meetings, instead of once a month. One meeting for flowers and another for exhibition of business. The question of a hospital for riverdale was discussed and endorsed by the meeting. J. Smith, president, occupied the chair, and there was a good attendance.

VICTORY LOAN

ONTARIO EMPLOYEES COMMITTEE HONOR BANNER COMPETITION
One of the most interesting features in connection with the Victory Loan is the campaign among employees of establishments throughout the Province. A Prince of Wales Honor Banner is awarded to each concern reaching its objective, which is based on two conditions, viz., that 75% of the employees subscribe and that they subscribe for an amount equal to 10% of the pay roll. Also crests are awarded to concerns exceeding their objectives. The following is a list of establishments in Ontario, excluding Toronto, that have already won the Banner.

Many Big Events Feature Armistice Day in Brantford
Special to The Toronto World.
Brantford, Ont., Nov. 11.—With the fireball tolling eleven three times followed by the chiming of Grace Church playing "Thru the Night of Doubt and Sorrow," all Brantford stood to attention at eleven o'clock today and reverently for two minutes honored the signing of the armistice. In the waiting in the anteroom being required to remove their hats. This evening the armistice was celebrated on the market square with a big bonfire, a concert by the G.W.V. A. band and a general celebration under the auspices of the Victory Loan committee. A memorial tablet was unveiled in Hamilton by Grand Master G. M. Hermonson of the I. O. O. F. to the memory of ten members who gave their lives overseas and a welcome was also returned from members who had returned from overseas at the First Baptist church, Brantford.

A Special Feature for Today

Is the Offering of Men's Two-Piece Underwear, at Garment, \$1.19

These two-piece garments have been marked at a rate that is difficult to equal in a period of exhaustion in manufacturers' stocks of raw materials. They are made of good wearing cotton and wool yarns mainly, though there are some that are composed of wool and cotton, all in what is known for reliable wear under the name of Scotch and ribbed knit. Medium shades prevail in this large assortment. Some of the garments are manufacturers' seconds, but the slight imperfections have been neatly over-stitched, and they should not affect wear. The shirts have closely ribbed cuffs, and the drawers ribbed ankles. Sizes 34 to 44. Per garment, \$1.19.

BIDS PEASANTS SEIZE THE LAND

Sensational Speech by Deputy Seeking Re-election to French Chamber.

Paris, Nov. 11.—The political campaign continues with unabated vigor throughout France. M. Brisson, one of the most extreme socialist deputies in the last chamber, who is seeking re-election, said at Moulins yesterday: "Peasants! The land is yours. You must take it. No more chateaux. No more landlords."

ALMONDS... The National Council of Women of France, under the presidency of Madame Siegfried, wife of the former member for Havre, has issued an appeal to voters, demanding the right of women to vote. This will be placarded throughout the country. Absolute prohibition is one of the planks of their platform.

CHARGE OF IMMORALITY FOUND FOUNDATIONLESS

London, Nov. 11.—The house of lords committee, which has been conducting an inquiry into allegations that girls of the Women's Royal Air Force Service at the Hurst Park Camp had not always conducted themselves properly, concluded its labors today. Baron Wrenbury, the chairman, announced the committee unanimously found the allegations of immorality absolutely unsupported by any of the testimony presented. The house of lords today rejected the clause in the bill for the removal of sex disqualifications which would permit women to sit in the house of lords. The clause, in the form of an amendment, was added to the bill by the house of commons on Oct. 27.

Serious Shortage of Sugar Is Reported in Winnipeg

Winnipeg, Nov. 11.—There is a serious shortage of sugar in this city, and those who have stocks are doling them out to their customers as favors, and will not sell unless something else is purchased with the sugar. This applies in the larger stores; the smaller dealers seem to have no stocks at all. At any rate, the selling of sugar now goes by favor all over the city.

Shortage of Freight Cars Fault of U. S. Railways

Montreal, Nov. 11.—The shortage of freight cars, which is making itself felt in many parts of Canada, is directly attributable to failure of the railroads of the United States to return Canadian cars sent into that country in international traffic," declared an official of the Canadian Railway War Board, who was interviewed today in connection with a recent despatch from Washington on the subject. "The accumulation of our cars south of the boundary is not a result of the coal miners' strike, as might be assumed from the Washington statement, but is of much longer standing. Since the first of this year the average number of Canadian box cars in the United States is 45,067, while the number of United States railroad cars of the same class in Canada is only 19,926. "The matter has been placed before the Dominion government, who are now taking action thru the minister of railways and canals, to bring about the return of this equipment."

OUTPUT OF BUTTER

Dominion Report Shows Production of "Creamery" is Increasing in Canada. Ottawa, Nov. 11.—A Dominion bureau of statistics report shows that the total production of creamery butter in 1918 was 93,266,876 pounds, value \$41,845,164, as compared with 87,526,939 pounds, value \$34,274,218 in 1917 and 82,564,130 pounds, value \$26,966,356 in 1916. In order of production the figures for the provinces are as follows: Quebec, 36,761,057 pounds, value \$16,364,950; Ontario, 29,397,485 pounds, value \$12,136,470; Alberta, 9,021,765 pounds, value \$4,011,869; Manitoba, 4,436,962 pounds, value \$3,897,476; Saskatchewan, 6,099,014 pounds, value \$2,140,838; Nova Scotia, 1,756,905 pounds, value \$808,755; British Columbia, 1,581,924 pounds, value \$807,861; New Brunswick, 660,010 pounds, value \$302,318; Prince Edward Island, 641,754 pounds, value \$293,572. For all Canada the average wholesale price of butter works out at about 45c per pound, as compared with 39c in 1917 and 32c in 1916. Every province showed an increase over 1917 in the production of creamery butter.

WOULD MEAN COLLAPSE OF GERMAN EMPIRE

Berlin, Nov. 11.—Dr. K. W. W. Heine, minister of the interior, in a sensational speech at Dessau yesterday, declared that the financial plans of Matthias Erzberger, the financial secretary, if carried out would mean the collapse of the entire empire. Erzberger, he said, had to find money wherever it was obtainable in order to carry out the terms of the peace treaty, but he asked, what commune had an interest in getting money together when it would all go to fill the entente's big pockets and leave the people paupers? The speaker added that the federal states must strongly oppose Erzberger's plans.

Covered Three Thousand Miles On His Flight to Melbourne

Paris, Nov. 11.—Etienne Poulet, the French aviator, has already covered more than 2000 miles—one-third of his flight from Paris to Melbourne, Australia. News has reached Paris that the aviator arrived safely at Bagdad on Nov. 8, and that the following morning he flew without a stop to Busbire, a distance of 506 miles, landing at the British air depot. He covered the distance in 8 hours and 50 minutes. On the morning of Nov. 7, Poulet started on his way to India, skirting the Persian gulf. His next stop will be Bandar Abbas.

EDITH CAVELL'S CELL TO BECOME A MUSEUM

Brussels, Nov. 11.—The cells occupied by Edith Cavell and Gabrielle Petit, previous to their execution by the Germans, are to be transformed into miniature museums. This has been decided upon by the court of justice. Clothes worn by the two women, their books and other belongings have been collected, and placed in the cells. Plates bearing appropriate inscriptions will be attached to the doors.

Armistice Day Anniversary Is Celebrated in Paris

Paris, Nov. 11.—The first anniversary of armistice day was celebrated this morning at the Chapel Invalides with a solemn mass in memory of those who gave their lives in the world war. Marshal Poch, General Pau and many named soldiers were present. A choir composed of war orphans sang the Te Deum.

OFFICIAL OPENING OF HART HOUSE

Anniversary of Armistice Day Sees Impressive Ceremony at University.

CURRIE HONORED

Honorary LL.D. Conferred on Absent Canadian Commander-in-Chief.

Hart House was officially and formally opened at noon yesterday, the first anniversary of armistice day. The day was well chosen, for Hart House has played a large and important part in the war activities of the University of Toronto.

There was great applause when Chester Massey, on behalf of the Massey Foundation, presented the key of Hart House to the chairman of the board of governors, Sir Edmund Walker, the latter accepting the great gift in a graceful speech.

An informal luncheon was held at Hart House in the afternoon from one till two o'clock. Among those present were: His Excellency, the Governor-General of Canada, Col. A. Henderson and Lord Haddington of the governor-general's party.

PACKS OF WOLVES ROVING IN NORTH

Reports From The Pas, Man., of a Bitter Winter on Way.

The Pas, Man., Nov. 11.—Large packs of wolves are roving thruout the north in search of the caribou herds, say incoming trappers. The roving packs follow dog trails for a long distance without seriously menacing the teams. At Splett Lake a pack of thirty-five was seen on the trail of moose, and trappers gave chase and got seven of them at Split Lake.

PARKDALE G.W.V.A. UPHOLDS POLITICS

New Clause Substituted in Constitution to Allow Action.

With an emergency convention of the Dominion command to be held in December for the purpose of discussing the advisability of taking direct political action, Parkdale branch of the G.W.V.A., assembled in the Royal Templar Hall last night, formulated means whereby the constitution could best be amended to carry this end.

Col. A. T. Hunter, president of the branch, who has hitherto vigorously resisted any move towards political action, declared himself in favor of the views of the members on the subject amid loud applause. He stated that sooner or later the association would have to amplify their constitution to this extent, but he declared that if they were going into politics they must "go into it strong."

The meeting decided that the amendment required to the constitution was not the repeal of the clause relating to political or religious discussions, which "had served its purpose in preventing sectarian animosities and in frustrating attempts of partisan leaders to manipulate the meetings," but that a new clause should be adopted.

It follows: "Provided that where the Dominion convention has adopted a plan for provincial legislation or other parliamentary action it shall be the duty of all local branches to take all necessary steps in organization and political action to support said platform; and where a provincial convention has adopted a platform for provincial legislation or other parliamentary action it shall be the duty of all local branches in the provincial jurisdiction to take all such necessary steps as aforesaid; and all discussions leading to the formation of such platforms and relating to the machinery for carrying them into effect shall be deemed to be discussions which refer to the well-being of the association."

A telegram read from Colonel John Currie, which stated that the amendment in the commons submitted by Sergeant Andrews, M.P., was withdrawn at the request of Secretary MacNeill of the G.W.V.A. Toronto, was declared in bold language to be a lie. Lively tilts occurred during three hours of speech-making, and Mr. Flynn was invited to come to Brantford any time he had opportunity and a full house would be guaranteed him.

He was quoted as saying that he would not give the soldiers one dollar, more even than the country could afford to do, and the veterans want the member for Frontenac to give an explanation of his statement. The members of the G.W.V.A. are taking a keen interest in the municipal elections. There will be soldier candidates in the various wards of the city.

WEDNESDAY MORNING, NOV. 12.

What Kind of Economy?

Mr. Drury ventured on Monday night to touch on one political issue. He has not been very confidential with the press, and perhaps realizes that the fewer promises he makes now the fewer apologies he will have to make later. Intention is one thing and fulfillment quite another. Mr. Drury broke his political ice by declaring that he would practice economy. This has always been regarded as a safe and sound resolve. But economy has frequently been the most awkward way of turning out to be entirely uneconomical. The very fine and agricultural Franklin maxim must be in Mr. Drury's mind—"For want of a nail, the shoe was lost," etc.

In a growing business it is not true economy to restrict the investment. It is not at all impossible that erroneous ideas of economy have been responsible for the falling off in the rural population of Ontario. Economy is not to be judged by the amount spent or the balance on hand at the end of the year, the favorite political fetish, but by the results attained.

Mr. Drury is expected to do something towards increasing the prosperity of Ontario. If he succeeds in that there will be no questions asked about the amount spent, but only of the wisdom of the expenditure, the profitability of the return, and the justice of the taxes levied. With our plentiful resources, there should be greater revenues to devote to provincial development with a proportional lightening of the incidence of direct taxation. It will be unwise to cavil over cheseping and neglect weightier matters, saving cents and squandering dollars.

A Definite Prospect.

With the opening of the great Baldwin works at the Ashbridge bay site, Toronto has the solidest kind of guarantee of a prosperous and expanding future. Industries of this kind are not established in minor centres, nor in isolated markets. The shrewd explorers for industrial opportunity do not perceive any barren hinterland behind the oasis of Toronto's growth. Mr. J. C. Davies, managing director of the corporation, indicated that he and his colleagues have discerned a highly-substantial basis on which to found a big enterprise. As he indicated what is ahead, he stated that he expected to operate the whole of the steel plant now lying idle, but that until sufficient power for this purpose was supplied, steel would have to be procured from the United States.

Another encouraging point mentioned by Mr. Davies was his confidence in labor. So long as men were sane he did not see any difficulties, and having had 15,000 men employed through the war without a strike he had not the slightest fear of being unable to deal on similar terms with labor here.

From what Mr. Davies has allowed to drop, there appears to be practically no limit to the possible expansion of the business of the Baldwin firm in the Ashbridge plant. It is contemplated, he stated, making shipments from Toronto to every part of the world. Toronto as a world centre has frequently been debated. This appears to be a tangible recognition of her potentialities.

The Racial Tradition Vindicated.

As in Britain, so in the United States, the incarnate spirit of Anglo-Saxon constitutionality, the genius of law and order, the foundation of real liberty, has triumphed, and the great coal strike has come to an end at the behest of the government. It would be a serious error if anyone spoke of this decision in terms either of victory or of defeat. It is a triumph of the people's will and not of any section. Consequently it is a triumph in which all the people may rejoice. It is only a stage in the complicated negotiations by which the two great parties in the state—not political parties, but the greater economic parties—are gradually adjusting their differences.

The shallow-minded and untrained aliens who have been endeavoring to use the industrial crisis as a means to bring about revolution and anarchy belong to a different order of development from the men who by habit and thought are identified with the working out of our English-speaking people's ideas of government and social order. Deep-rooted in that conception is the principle of co-operation, involving sacrifice, and the idea of standing by the other fellow.

The eastern Europeans have been so tyrannized over, and had so little experience of anything but the subjection of autocracy that they cannot understand the co-operation, based upon trust and confidence, which grows up between men able to lead and men wise enough to be led, neither encroaching on the rights of the

other, each working for mutual interest and making no unfair advantage on either side. It is absolutely plain to those who have given the matter close attention that this co-operation is possible. The Whitley councils in Britain, which have achieved considerable success, have demonstrated this. It is not to be expected that all the details of adjustment and concession can be worked out at short notice, but there is plain proof of the possibility of harmonious adjustment in the existence of the spirit of compromise and the recognition of national authority as we see in the official action of the coal miners of the United States.

If there is anything to be feared it is less from the miners than from the mine owners. To the degree that capital is impersonal it is apt to be arrogant. The human element is too apt to die out of the corporation activities in business conducted by de-haired lawyers. Abstract legal rights may look well on paper, but suffering and starving men, women and children take precedence of any kind of legal right, and legal right has too frequently been shown to be incompatible with moral right. There are certain directions in which the commonsense humanity of the ordinary labor man is to be trusted before the sophisticated judgment of the corporation lawyer. This is where the judgment of all the new governments will be tested. Law is made by lawyers and is not infallible. Many social evils and injustices arise from it. What is morally wrong cannot continue to be legally right. This is what the great war above everything else brought into the foreground of human consciousness. Where the Germans failed the capitalists cannot hope to succeed.

Government, therefore, stands to arbitrate between the new order of things and the old. A just award will give us a happy, contented and industrious humanity.

Government, therefore, stands to arbitrate between the new order of things and the old. A just award will give us a happy, contented and industrious humanity.

Just About Things In General

BY IDA L. WEBSTER.

Will the citizen who had the message from the firemen, please come into this office again, or telephone? We are very much interested.

There are at least two controllers who are boosting the assistant architect for the chief position in the city hall, yet it is hardly likely that he will be nominated for the Toronto as a city of half a million people needs some man who has made a name for himself, and with the salary suitably raised such a man could not be secured. As for adhering to the promotion system, it would hardly be possible, when both Mr. Sykes and Mr. Price are equally eligible, in so far as their personal ability is concerned, and the vital question is, who is big enough for Toronto?

Col. Grassett's idea that policemen being shot at should back to a certain extent, is a bright one. May we ask if the chief of police also thinks that citizens being shot with batons should wallopp back?

Mr. Lawrence Solman certainly looks like a winner. In his show this week, and would strongly advise all who have the necessary wherewithal to drop into the Alexandra. The wisdom is sufficient, full justice to the slightest opportunity.

Thanks to Tommy Church the kids of the city are not left on the steps of the city hall to contract tuberculosis while the vaccine needle for smallpox wields wearily on.

And, speaking of the same old smallpox. Does it mean that all those contracting same will get their faces red as in the olden days, or has the disease become more up to date?

Licence Inspector Flavell has not decided what he will do re making test case out of the importation of spirituous liquors. One nice thing about it is that he will hardly have to bother his brains about it, because the stuff will not start to flow in until after the 15th, and by that time the present group of officials will quite likely have started to "flow out."

SILENCE AT COWAN'S.

The last post was sounded through Cowan Company's vast plant by Harry Bristow, a returned soldier himself, shortly before 11 o'clock. Sergt. Gordon Wilkins took command of the 65 returned men of the plant and followed to the Employment Department, where they found their president, Mr. H. N. Cowan, in the front ranks.

Mr. Cowan addressed his soldier employees, thanking them for the great service they had rendered their country, and asked for three cheers, which were heartily given by the 400 employees present.

From 11:00 to 11:02 president and employees stood at attention. Mr. Cowan then told the returned men that the day was theirs to be celebrated in any manner they desired. They expressed a wish for a half-holiday, which was at once granted with full pay.

THOSE KIND-HEARTED LITTLE OLD PARTISAN BOYS

"Canna' we no' help ye, manny, Joseph an' me!"

ONTARIO'S NEXT TREASURER PETER SMITH, FARMER

WELL, who are the farmers going to have for Provincial Treasurer? This is the question business men, bankers, magnates, municipal authorities and people who possess money, property and taxable assets all over Ontario are asking.

The World answered the question on Sunday last. The provincial treasurer E. C. Drury has chosen as Peter Smith of Stratford. Peter is a man whose word is in letters visible across a couple of broad fields upon the front of his big, substantial barn, "P. Smith, prop."

The barn looms large behind a comfortable brick farm house on the Selvingville road, four or five miles out of Stratford, and you skirt several of Peter Smith's fields before you reach the driveway into the house, because the homestead stands back quite a way in the good old style, and it is a pleasant driveway, skirted by maples, behind which are acres of well-tended honey locust with wire holding them straight and even, without wasting a foot of ground. It is the same evidence of Peter Smith's efficiency all over the place. The fields are fenced with wire, they are clean and well kept, the last word in cultivation, and in the background where the maple bushes rise against a low horizon of level land a fine herd of Galloway cattle grazes. And that is the most pleasant sight of all, and the keynote of the place, because when you come in front of the great barn with a spread of corrugated iron roofing like St. Lawrence market, you read the legend, "Cloverleaf Stock Farm, P. Smith, Prop." The stock are Galloways, and you find a numerous string herd in the next row of fields, barn, which is electrically lighted and equipped with electric milking plant and all the efficiencies that the modern farmer who has capital can provide himself with.

That the proprietor of Cloverleaf farm is something of a capitalist needs no great intution to discern. In the farm, the house, the barn and buildings, the plowed fields, the stock, and the children—all are well nourished and good to look upon. Peter Smith no doubt got his financial backing from two bottles of his whiskey namesake under his arm. Ward caught him by a motor-car and, knowing Imperial well, searched him and found the gun. He is charged with carrying a loaded revolver and with a breach of the Ontario temperance act.

Five hundred and seventy-six bottles of whiskey shipped from Montreal in eight packing cases was seized at the union station yesterday afternoon by Plainclothesmen Sullivan and Penneck. An expressman was loading it on his wagon to drive it to Port Credit. Here, he said, he was to meet a man who would haul the shipment out on the highway. The driver satisfied the police he did not know what was in the shipment and was not arrested.

Charged with purchasing liquor from other than the government vendor, Ernest Sinder, Manning avenue, was arrested by Sinder's bought clothesman O'Neil. This is probably the first time that this unusual charge has been made against a prisoner. It appears that Sinder bought his supply from a bootlegger. There were 40 bottles in the cellar of the house when the police entered.

He reiterated that the policy of the government was not a permanent one.

Dochoven is also the winner of the Clutchers' Medal.

THREE IMPERIALS Two Bottles and Man of Same Name Captured by Police, Also Loaded Revolver.

With a loaded .22-calibre revolver in his hip pocket, Frank Imperial, 63 Henry street, was arrested in the crowd at Dundas street and University avenue last night by Plainclothesmen Ward and Penneck. Ward carried off his whiskey namesake under his arm. Ward caught him by a motor-car and, knowing Imperial well, searched him and found the gun. He is charged with carrying a loaded revolver and with a breach of the Ontario temperance act.

MONTEAL IN DARK AS TO PUBLIC OWNERSHIP

The Canadian Pacific which has waxed fat, and whose highest officers were wont to regard themselves as qualified to give the economic law of Canada, has had the blessedly faithful support of The Gazette, which has been smilingly respectful because, it is generally accepted, its ultimate control was in Windsor street station.

The Star has for fifty years been the mouthpiece of a born corporatist whose influence could not be felt even in his hand could not be traced in the government of the city and province, and whose soul always yearned towards the House of Lords as the earthly heaven of Canadians of the upper class.

The Herald was a Liberal-Laurier paper with a slant towards imperialism when Mr. Brierly had it. For years now it has been the Star's herald, not able to play alone, but content to drag the harrows over The Star's ground.

The French press has never been greatly interested in economic questions. There has been a tacit following of the English-speaking lead in commercial affairs. The C. P. R. and the Grand Trunk came to be regarded as a kind of economic heirloom.

L'Action Catholique, Cy Warman, La Presse, with the largest circulation in Canada—nearly 150,000 a day—covers the province almost as the waters cover the deep. It and the other papers have reflected towards the ownership of the public utilities. The attitude which has lately been expressed by Quebec members in the House of Commons. The clerical press has, in its way, mirrored the sentiments of The Gazette.

For instance, L'Action Catholique, which is directed from Cardinal Begin's palace, in the ancient capital, belittled recent attempts at public ownership of railways. But now, as was said yesterday in this connection, the true situation is becoming apprehended by able men who were not stone blind.

And, as an indication that the calamities that were so freely prophesied ten days ago, will work out a new and exciting weight of glory for Montreal, let one fact be mentioned. In a very little while the public ownership of railways will give Montreal a second direct service to the prairie provinces and the Pacific coast. You will be able to go from either of the two Canadian National Stations in Montreal straight to Winnipeg, Vancouver and Prince Rupert, by way of the Ottawa Valley. Some of the factors in this remarkable and unexpected innovation will be dealt with in my next despatch.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

MRS. SHAFTSBURY. CHAPTER 32. The day of Carol's dinner arrived, and with it one of the minor tragedies which only a woman can appreciate. Accompanied to having dozens of dresses fresh and attractive and suitable for any occasion, Louise had forgotten to look over her wardrobe to see that everything was in order. Having finished her housework, she took some dresses from the closet, she found suddenly that she had nothing to wear but her wedding gown—and that needed hours of alteration to make it practical. And she had nothing to wear over it but a motor cape, for her pretty evening cape had long since been remade into a sofa covering.

The satin wedding gown, however, would have to do, the origin was obvious, and she hated to wear a last-spring dress before a group of girls who would have new gowns for this occasion. The dress, however, had to be removed, the skirt shortened, and the dress pressed before she could wear it. She thought, too, of adding color to make the less like the wedding gown it was, then gave up this idea as impracticable. But the alterations she did make took her until five, and gave her a mean little ache between her shoulders.

However, when she was dressed and ready to go in town to meet Harry, she was pleased with her appearance. She was a little too pale these days to wear white, but the exquisite lines of the gown set off her grace wonderfully.

"You are looking marvelous, dear," Harry whispered when she joined him in Carol's big drawing-room as the other dinner guests were arriving. "You're my little bride again tonight, and a lot prettier than any other woman here."

Louise smiled with sudden happiness and pounds of the weight she had been carrying in her mind seemed to drop off. Her cheeks flushed again their delicate pink, and she looked prettier than she had for many days.

"It's nice to be in love and married, isn't it?" she smiled up into Harry's face. "Let's go over to Carol and wish her as much happiness as we've had."

"This is Brock," Brock introduced them to her fiance. "Brockbridge Sprout, but we never call him anything but Brock." And this is Harry.

Louise looked at Harry for a moment, she was used to seeing him in the wisdoms before which parliament, during so many sessions bowed down, but she was used to seeing him in the public for enterprises which were commercially unsuccess. With the good lines in private hands, and the bad lines—what could more beautifully insure perpetuation of the race of magnates, and what more blessed nationalism could they wield than public ownership?

"We should have a slice," the politician ministered, this ghastly doctrine of public service, for fostering its twin conception among the electorate. Here was the point of view that was expressed to me by gentlemen whose name-charity must conceal—"For many years we spent money and obligated the credit of Eastern Canada to build up the West. The time came when another railway to the West was needed. Railway building is a great and profitable undertaking, and we thought we should have a slice of it. That is why the Transcontinental was built by the government, on our debt, through the provinces of New Brunswick and Quebec."

It was under this kind of spell that the Transcontinental and Grand Trunk Pacific were constructed—and part of the spell was the belief that railway magnates were infallible wizards of finance who could show any economic rapids as surely as the Caughnawagas can shoot the rapids of Lacolle.

Great Firstfruits Coming.

When Grand Trunk nationalization was proposed the traditional conservatism (it is unkind to a perfectly good word to use it in this connection) of commerce was lashed into fury. There was an almost complete disregard of the truth that this very building of the transcontinental was that was invading Canada, that had bankrupted nearly two-thirds of Canadian railway mileage. But now, as was said yesterday in this connection, the true situation is becoming apprehended by able men who were not stone blind.

And, as an indication that the calamities that were so freely prophesied ten days ago, will work out a new and exciting weight of glory for Montreal, let one fact be mentioned. In a very little while the public ownership of railways will give Montreal a second direct service to the prairie provinces and the Pacific coast. You will be able to go from either of the two Canadian National Stations in Montreal straight to Winnipeg, Vancouver and Prince Rupert, by way of the Ottawa Valley. Some of the factors in this remarkable and unexpected innovation will be dealt with in my next despatch.

Case Against Students Found Not to Be So Serious as Previously Reported—No Expulsions.

Further evidence brought in by two downtown inspectors has considerably altered the previous impression of the Meds' performance last Wednesday evening in the eyes of the central discipline committee of the university. It was decided by unanimous vote that Mr. Guthrie, notwithstanding his steady influences later on, was the prime mover and instigator of the whole affair, and as such should be fined \$50. Every other medical student in the first and second years who took part must pay a fine of \$3.50, but there will be no suspensions or expulsions from the university.

It has been found that the injury to one of the chorus girls at the Gaiety is not serious, and there is no evidence to support the claim that it was inflicted by a cigar butt.

ONTARIO REVIVES JOINT EXHIBITION

Fine Floral and Fruit Display

Canaries, Dogs and Poultry.

The eleventh annual Ontario horticultural exhibition, associated with which are canary, dog and poultry shows, was opened in the transportation building at the Exhibition Grounds last night by Controller McGuire in the absence of Mayor Church. The exhibition, which has come to life again after being suspended during the war, got off to a splendid start and much of the old-time excellence, vigor and enthusiasm was manifest.

Altho by no means complete for the opening night there was a fine display of Ontario fruit, flowers, and vegetables. The apples were particularly good, especially in view of many unfavorable reports regarding the crop. Those from the Lyndale Farms, Simcoe, were especially attractive, while there were many excellent minor exhibits. The chrysanthemums on view were exceptionally brilliant in more senses than one. Dales' display from Brampton, being as usual of a very high order. Lovers of the "mums" will show ample feast their gaze upon. Carnations, roses and violets also lend charm to the scene.

The Retail Florist Club has a remarkable exhibit in the shape of complete floral decorations for the home. The rooms are delightfully furnished, set off with valuable cozy rugs and, of course, a choice display of flowers. Models of a bride and bridesroom are included and form a great centre of attraction.

Notable Show of Canaries.
The dogs and poultry, which occupy a separate building, comprise some fine specimens. The judging will be completed today. It was also thought advisable to judge the fruit until this morning.

The Toronto and the National Canary and Cage Bird Societies have joined in this exhibition and some wonderful birds are displayed, many of them being worth \$100 or more. Others could scarcely be bought, they are being shown in the floral section, a happy, and natural idea. The chairman of the combined societies is A. A. Smillie, with W. J. Way, treasurer, and A. Craigie, secretary, and they have done much to ensure the success of this phase of the exhibition. It is interesting to note that color feed is now being used for many canaries, the effect being to improve their plumage. Toronto is the famous canary centre of Canada, and only Montreal can come anywhere near the Queen City for such fine and numerous birds, most of which are bred from old country importations. There are 400 in the present exhibition. The sweet singing rollers, or the real canary musical section, will be on view on Saturday.

Principal Canary Awards.
The canary judges have got busy early with their difficult task, and the principal awards follow:
Scotch fancy, J. McKenzie; York-shire, F. Beer; P. L. high, A. Craigie; G. Hatcher and S. W. Richards; Norwich, J. Girvan, N. Mountford, G. Watson and G. Hatcher; Crest, G. W. James; Crest-bred, R. Mac; Rollers, J. W. James and Mrs. Parkes.
William Corise, president of the horticultural exhibition, occupied the chair at the opening ceremony. He said a similar show was held for 11 years before the war. They had now started again, and from the appearance of the exhibits he thought it would be agreed that they had set as good a pace as when they had to give up the show.

Look for Farmers' Aid.
Controller McGuire, in declaring the exhibition open, remarked that while the work was very much appreciated by the city, the promoters no doubt would get greater consideration with a farmers' government in power. He thought the exhibition was one of the finest that would be found on this continent, and all concerned were to be congratulated on the great success achieved.

Controller McGuire said he was not looking after the interest of the mayor, but came as a citizen of Toronto to help the exhibition all he could. He alluded to the million dollar bylaw to be put before the ratepayers at the next election for the live stock arena, and urged everybody to vote for it. They were going to put Toronto even more on the map with the stock show, which would attract people not only from all over Canada but from many other parts of the world.

Ex-Mayor Oliver, H. R. Frankland and Fred Hamby also joined in felicitations at the success of the exhibition, which will remain open until Saturday next.

TWO CARS COLLIDE

One Runs Onto Sidewalk Breaking Collar-Bone of Passenger.

Two motor cars collided at the corner of Emmerson and Wallace Aves. yesterday afternoon, one going onto the sidewalk and running down David White, 66 Beverley street. White sustained a broken collar-bone and was taken in the police ambulance to the Western Hospital. The northbound car was driven by David Cummings, 107 Quebec avenue, while Charles Brown, 277 Royce avenue was in charge of the car eastbound on Wallace avenue.

James Owens, 6 Laurier avenue was cut about the head last night when a bicycle he was riding was struck by a motor car on Duke street. Owens was taken to St. Michael's Hospital. The car was driven by Robert Wolfrander, 22 Moss Park place.

LABOR NEWS

MINES PORTFOLIO OF NO ACCOUNT

Mayor MacBride Calls It Indefinite Futurity Needing Special Legislation.

Walter Rollo, leader of the Labor group in the Ontario legislature, stated last night that Harry Mills, M.L.A. Fort William, had been nominated at a conference of Labor members-elect for the portfolio of minister of mines, which may be created by the new government.

Unofficially Mayor MacBride, backed up by the executive of the I.L.P., Brantford; David Graves, Mr. Barry and Mr. Money stated that William Greenlaw, St. Catharines, and Mayor MacBride himself protested against designating anyone in view of the fact that the so-called portfolio of ministry of mines was not only a new one got up especially as a sop to the labor delegation, but that it would be merely a futurity of indefinite date, since legislation would have to be enacted to put it into effect, and many political changes might occur in the meantime.

"The fact is," said Mayor MacBride, "the Drury cabinet gave to its own party all the cabinet portfolios existing and sopped out two for the champions of labor. Yes, we shall cooperate, because there many plants in the U.F.O. platform which we agree with. But if you ask me if Premier Drury is giving labor a fair deal, well—." The Brantford mayor turned away significantly. Returning, he stated that while labor and the U.F.O. would co-operate, the public would be the best judges of what sort of cooperation might be expected on either side.

Opposed to U. F. O.
The entire Brantford delegation expressed itself as unalterably opposed to both the U.F.O. and James Simpson. Replying to The World a member of the delegation admitted that the industrial workers of Brantford were strong champions of high tariff as against the low tariff policies of the U.F.O., the former manufacturing and the latter buying agricultural implements. "The whole delegation is solidly agreed that James Simpson is a happy man today, because everything has gone his way," commented Mr. Graves, president of the Brantford Independent Labor party.

All members from Brantford were in agreement in the statement that Mayor MacBride "bolted" not because of real issue with Mr. Simpson, but because Walter Rollo tried to read the mayor out of the party.

Harry Mills' Record.
The choice of the labor party for minister of mines, Harry Mills, M.L.A., is a member of the Brotherhood of Locomotive Engineers. He has resided in Fort William 24 years and has been president of his division in the union for seven years, besides holding positions on the board of education of that city.

James Simpson, referring to an alleged conversation with John T. Vick, provisional president of the I.L.P. in Toronto, in which the latter was alleged to have attempted to debar Mr. Simpson from attending the labor conference yesterday afternoon, stated to The World that there was a discussion, but of quite a trivial nature, Mr. Vick having misunderstood the real nature of representation at the conference. He had nothing further to say respecting the conference.

SUBSCRIBERS TO VICTORY LOAN.

Twenty thousand dollars is the subscription to the Victory Loan made by the international bankers in Toronto. This was the statement given out by the general organizer, J. Walsh, to The World.

ADDITIONS TO LABOR PARTY.

Pressmen with the Canadian Federation of Labor have subscribed \$500 toward the Victory Loan. They have also decided to join the Canadian Labor Party. The union numbers more than 350 members.

PRESIDENT ADDRESSES UNION.

Celis P. Loveley, general president of the Boot and Shoe Workers Union, addressed a meeting of the Toronto local last night at the Labor Temple. He succeeded the late John P. Tobin in the presidency after officiating as vice-president for more than twenty years.

MACBRIDE'S CANNY BLUFF.

Mayor MacBride yesterday in the course of an interview with The World at the Walker House referred humorously to an occasion in Brantford when he was mayor of that city he "forced down the price of potatoes from \$4.20 to \$3." He was asked how he managed such a herculean feat. "Oh, quite easy," was his quick reply. "I merely bluffed the farmers into believing that I was selling potatoes at \$2 and that if their prices maintained the four-dollar level I would bring in two car loads and sell them at the two-dollar level. I gave them two weeks after this ultimatum. When that two weeks was up the potatoes were down to two dollars."

CARPENTERS RETURN

Montreal, Nov. 11.—The carpenters' strike, which has been going on since May 1, has been settled. The men went back to work at 55c an hour.

Regina.—Immense deposits of high-grade firemaking clay have been found at the Elbow, and underneath lie inexhaustible quantities of iron pyrites, it is claimed.

If you have only \$5 you can buy a Victory Bond

- Is your Bank-account low?
- Is "Cash on hand" rather scarce?
- That is no reason why you should not buy at least one Victory Bond.
- The Victory Loan 1919 isn't a rich man's loan.
- It's a NATIONAL LOAN.
- That means everybody—you, your family, your friends and acquaintances.
- Not only those who have money "saved up," but also those who can save from week to week.
- You don't have to own \$50.00 right now to buy a \$50.00 Victory Bond.
- You can do it with \$5.00 cash. Make that the first payment on a \$50.00 Bond.
- Pay the other instalments in ten months.
- Almost anybody can save \$1.00, \$2.00 or \$3.00 a week.
- Don't neglect to buy because you haven't a large sum.
- The instalment plan will suit you to a "T."
- Thousands and thousands of Canadians now own Victory Bonds they have paid for that way.
- Make your first payment on a Victory Bond to-day.
- A few months from now you will be glad you did—because you will have it paid for by then.

Special to The World.
Chatham, Nov. 11.—High Constable Peters, with Inland Revenue Officer Lamont, last night raided two houses in Wallaceburg, occupied by Russians, and as a result ten of the foreigners will appear in the county police court on charges of making and selling liquor. The raid was made as a result of complaints of excessive drinking among the Russians.

Hector Charlesworth Tells
Club What Fair Criticism
Really Means.

"Methods of Criticizing Music and the Drama" formed the subject of an address by Hector Charlesworth, at the rooms of the Women's Press Club yesterday afternoon.

"Out of the fulness of his knowledge and experience in connection with his subject Mr. Charlesworth gave much valuable information. To rid oneself as far as possible of the idea of being present as a critic and to set out with the thought of enjoyment was the leading statement. Analytic criticism is not as popular with editors as it was some years ago, the result being that some noted critics, as instanced by William Winter of New York, had been laid aside."

Questions of Morality.
The question of the morality of the reverse of a play is a difficult one to decide. The critic should consider the audience other circumstances. There is, however, always a clear distinction between decency and indecency, and vulgarity of thought or speech should meet with no favor. The critic should analyze his own mind as to why he likes or dislikes a play. Personal dislikes should not influence. A play should not be disliked because it is sad. Because of the part that suffering plays in human life, there can be no drama without suffering. The critic should never be afraid to give generous praise and sometimes he may instruct—who in this the speaker said opinions differ. Kindness toward the artist and to use the press as a humanizing power were the summing up "hammer away at refinement," said the speaker.

Miss Marjory MacMurchy expressed the appreciation of the club for the privilege of the address, the vote of thanks being seconded by Miss Marshall Saunders.

WORLD'S DAILY BRAIN TESTS

20 Minutes to Answer This.
No. 36.
The proud father placed a tin horn in the hands of his first-born male and said:

Now, let us see if we can discover one consonant to sprinkle thru that string of 'o's and thus make a readable sentence to express what the father said, as well as revealing the boy's Christian name.

ANSWER TO NO. 35.
The sentence that may be constructed from a, e, l, o, u, w and y is:
I AWE YOU.

Public Demonstration Against Compulsory Vaccination

Pussy-Foot Legislation
Toronto has been started to learn that in 1914, without any publicity, without any public demand, legislation was enacted giving our public health officer power, without loophole for escape, to compel every person, man, woman, child or infant, to be inoculated with cow-pox—that is to be vaccinated.
For five years the law has been in the statutes unsuspected. Now, lacking a war and an influenza epidemic, Dr. Hastings has decided to CREATE A COW-POX EPIDEMIC.
Will the British people who fought the Kaiser submit to Hastings?
Fought Out 10 Years Ago
Dr. Hastings says the question was settled fifty years ago. He is behind the times. Ten years ago it was fought out in Toronto and the School Board rescinded the rule requiring school pupils to be vaccinated.

COME, VETERANS!

You have seen once-healthy comrades sicken and soon die a lingering, inglorious death—even with the unmerited stigma of syphilis—after vaccination.
THE ANTI-VACCINATION LEAGUE
ARTHUR BLACK FARMER, Sec.-Treas.
378 Markham St., Toronto, Ont.
Danger to Children
A few years ago some thirty children in a country school near Brantford were vaccinated. One died as a result.
A few years ago the pupils at Woodstock Baptist College were compelled to be vaccinated. The son of the steward died as a result.
Whether the average deaths from vaccination are one in thirty or one in one hundred, vaccination is worse than smallpox, the death rate of which is less than one in a hundred.

Three Things to Do Now
1. Send your contribution, check or cash, at once to the secretary-treasurer for campaign expenses.
2. Write a letter of protest to the Mayor today.
3. Join the demonstration, Thursday, 12 noon, at the City Hall steps, to protest against compulsory vaccination.

WASH DAY is the least welcome day of the week in most homes, though sweeping day is not much better.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills.

SEVERE BREAK IN STOCKS ON NEW YORK EXCHANGE

Call Loans Rise to Twenty-Five Per Cent. Just Before Close and Demoralization Prevails—Leading Stocks React Five to Almost Forty Points.

New York, Nov. 11.—Stocks went down with a crash today, all gains of the previous month and much more in a number of instances being sacrificed in the wave of liquidation which swept over the market in the furiously active final hour.

Excepting U. S. and representative railway shares in which reactions were comparatively moderate, leaders reacted 5 to almost 40. General Motors, conspicuous for its recent advance above 400, broke from 388, its best price of the morning, to 248 1-2.

Primarily the violent upheaval was attributed to recurrent stringency in the money market. Call loans opened at the new high of 14 per cent. and held at that price until the last hour when 20 per cent. was demanded, with another jump to 25 per cent. just before the finish.

To add to the unsettlement, apprehension was caused by the demoralized conditions which prevailed in the market for foreign exchange. Rates

on London, Paris and Rome fell to new levels of discount, and remittances to less important European centres were sympathetically affected.

Strong at Opening

The market was strong almost to the point of buoyancy at the opening, gains of 2 to 6 points being accelerated by the short covering which followed the announcement of the calling off of the coal miners' strike. Reversals set in before the end of the first hour, however, each tentative rally being followed by a gradual drop to lower levels. Technical conditions doubtless contributed to the crumbling of prices at the end, many weakly margined accounts being thrown up on the market as "stop loss" orders were uncovered. Sales amounted to 1,900,000 shares.

Bonds were featureless and more or less neglected in the attention directed to the stock market. Most issues, including the Liberty group, were again irregular to heavy. Total sales (par value) aggregated \$13,250,000. Old U. S. bonds were unchanged on call.

SOME STRONG SPOTS IN MINING MARKET

Nipissing, Vacuum Gas and Keora Score Fresh Advances Holly and McIntyre Lower.

While some of the leading gold stocks were moderately heavy yesterday, the mining market may be said to have given a very good account of itself in view of the disturbed conditions prevailing in New York. There were a number of issues which, for special reasons, were able to rise superior to outside depressing influences, Nipissing being the most conspicuous example. Nipissing sold between \$11.80 and \$12, closing at the top, the best price in some time, with \$12 bid at the close, and the stock held at \$12.50. The October report shows almost the company's output of silver to have reached record-breaking proportions, and with silver selling at its present towering height it is easy to figure out extremely handsome profits.

Vacuum Gas was another stock in which bullish enthusiasm had its way, the sharp gain of Monday being added to yesterday to the extent of 1 1-2 points, the day's high being 28 and the closing price 28 1-2. It is thought that operations on the property are likely to result in striking the same flow of gas at the same depth as on the adjoining Union and Petrol properties. Arrangements are being made to go to a depth of 13,000 feet.

Hollinger sold off three points to \$7.50 and was later on offer at \$7.48. Lake Shore declined about five points to \$1.20 and McIntyre three points to \$2.02. Wasauika at \$1.05 was off two points and Kirkland Lake at 40 was 1 1-2 lower. On the other hand, Keora had another spurt, rising a point to 23 on active dealings and closing at 22 1-2. The property appears to many market followers as a prospect of excellent promise, diamond drilling having given indication of untapped rich ore and rich ore bodies. Dome Extension at 34 1-2 was up half a point.

Kerr Lake was one of the Cobalts to show strength, sales of the firm price of \$4 being followed by the advance of the bid to \$4.05. Chambers-Ferland, on which work has lately been resumed after several years of idleness, was strong at 13 1-2. There was a good demand for Coniags between \$2.90 and \$2.95. Peterson was a shade reactionary after its sharp advance, declining 3-4 to 17 3-4. Mining Corporation regained the 10 points lost on Monday, selling again at \$2.

COAL STRIKE'S END SENDS CORN DOWN

Profit-Taking Nearly Effects Declines, However—Oats Sell Higher.

Chicago, Nov. 11.—Profit-taking on the part of speculators nearly counter-balanced in the corn market today declines which had resulted from rescinding of the strike order to coal miners, and from a return of good weather. The market closed unsettled at the same as yesterday's finish to 1/2 higher, with December \$1.28 1/2, and May \$1.26 1/2 to \$1.24 1/2. Oats gained 3/4 to 1/2. In provisions the outcome varied from a 10c decline to a 15c advance.

Sellers of corn much more than but-numbered buyers at first, but condition of the market was almost the opposite later. Calling off of the coal strike was generally construed as bearish, inasmuch as possibility of the crop movement being curtailed thru lack of fuel for railroads was no longer in question. General clear and cold weather prevailing seemed also likely to aid in pushing forward the new crop. Subsequently, however, the fact that cash wheat prices were but little affected by the government offer to re-sell wheat tended to handicap the bears in corn. Then short sellers made an all-round attempt to collect profits, and occasioned the late rally. A report trade source was responsible for the rally in oats.

In provisions the effect of weakness of hog values was largely nullified by late upturn in grain.

Poor Men Become Wealthy

By judicious investment. Most rich men started with little. They saved. They borrowed, when money was needed to seize an opportunity. Then they invested.

Take a Hint From The Big Fellows

If there had been Victory Loans when they started, you would have found them putting all they could scrape together in Victory Bonds.

They are doing it today.

Brazilian Again FREELY OFFERED

Dominion Iron Also Under Moderate Pressure—Majority of Stocks Steady.

The typhoon which struck the New York market yesterday, call loans at as high a rate as 25 per cent. just before the close, causing demoralization, had little observable effect on the Toronto exchange. Some of the highly inflated stocks had severe losses in the Montreal market, declines extending to as much as 17 points, but locally there was little liquidation. Brazilian and Dominion Iron were among the few issues that manifested under pressure, but recessions were orderly in the case of each. The former, which has recently been oscillating between 51 1/2 and 52, opened at the latter quotation, the final bid dropping to 51. A little more than 500 shares of Brazilian came out. The selling coincided with another sharp break in the pound sterling, which is now quoted barely over \$4.12, a shade under the previous low point. It has been noted before that offerings of the stock setting the opportunity to sell on this side of the water and reap the benefits of the exchange rate. Dominion Iron did no worse than its share of the general movement, yesterday to 69 1/2, a net loss of 1 3/4, with the closing bid down to 68 1/2. An odd lot of Steel of Canada came out at 75, a nominal gain of half a point, but in the afternoon the stock was off at 74 1/4 without bids.

International Petroleum dipped to \$46.80 in New York curb, as compared with Monday's high record of \$51. Locally the bid was reduced from \$50 to \$49.

Stocks which were steady to firm yesterday included Canadian Locomotive at 109, Mackay at 89, Maple Leaf at 200, Cement at 73 and Canadian General Electric at 111. Provincial Paper, which has been having a bull movement of its own for the past few days, rose 1 1/2 points yesterday to 82 1/2.

The day's transactions: Shares, 1814; bonds, \$285,150.

C. P. R. DOWN AGAIN

C.P.R. sold at the lowest point of the year in New York yesterday, 147 3/4, or 8 1/4 below Monday's closing price. International Nickel, another stock in which many Canadians are interested, was also weak, dropping a point to 25 1/2.

SOME SEVERE LOSSES IN MONTREAL MARKET

Sherwin-Williams Off Seventeen Points, and Lyall Off Thirteen.

Montreal, Nov. 11.—Trading in list of stocks on the Montreal stock exchange today amounted to 16,167 shares, an increase over the preceding day of about 1000 shares.

Iron was again the active leader of the market with dealings in 3500 shares. After the opening the stock showed a tendency to harden, but followed the general trend of the market in sympathy with the break in New York. Iron's closing price at 69 1/4 made a new low for the movement and represented a net loss of 1 1/2 points for the day.

Steel of Canada was the weaker stock of the two, the close at 72 representing a net loss of 2 3/4 points, with trading amounting to only 450 shares.

The list as a whole closed materially lower, with losses ranging from fractions of 1 point in Sherwin-Williams to 17 points down at 75, and Lyall lost 18 points of its recent big advance, and Abitibi lost 5. These compare with gains during the past several days ranging up to 40 points.

Provincial Paper, not usually active here, sold 7 points higher at 85, but the rest of the paper group lost fractions to four points.

In the bond list the war loans were firm, holding generally at the preceding day's closing levels.

The Purchase OF Porcupine Keora

Is fully justified by the most favorable results obtained in development of the Keora property, and in the expectation that this mine will in the next few months become one of the producing mines of Porcupine.

Machinery is now on the way to the property, and the work necessary to bring the mine to a producing basis should be well under way within the next thirty days.

This issue is recommended as something more than a speculation, and one which shows every indication of becoming a very profitable mining investment. A substantial advance in the market price of the shares is looked for. The stock is listed and traded on the Mining Exchange.
